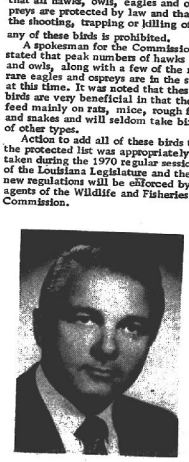
Happy New Year

Hawks and owls now protected

The Louisiana Wild Life and Fisheries Commission today announced that all hawks, owls, eagles and ospreys are protected by law and that the shooting, trapping or killing of any of these birds is prohibited.

A spokesman for the Commission stated that peak numbers of hawks and owls, along with a few of the now rare eagles and ospreys are in the state at this time. It was noted that these birds are very beneficial in that they feed mainly on rats, mice, rough fish and snakes and will seldom take birds of other types.

Action to add all of these birds to the protected list was appropriately taken during the 1970 regular session of the Louisiana Legislature and the new regulations will be enforced by agents of the Wildlife and Fisheries Commission.



Con. Edwin W. Edwards

Edwards announces

Louisiana Congressman Edwin W. Edwards has announced that he will be a candidate for governor in next November's election. Edwards disclosed his plans in an address before the Baton Rouge Press Club today.

The 43-year-old congressman pledged to reduce the powers of the governor's office, "restore the legislature to its rightful role as lawmaker for the state", and inaugurate "an Era of Excellence unmatched in the history of Louisiana."

"Louisiana has never known an Era of Excellence," Edwards said. "It has never known a time when its political leaders were sought out for their wisdom by the nation at large. It has seldom known a time when its institutions were held up as models worthy of emulation by other states. It has seldom known a time when its governmental programs were daring and imaginative. Its politics has produced far too many demagogues, and far too few statesmen."

Edwards said that "For as long as any of us can remember Louisiana has been dominated politically by the mediocre and unprincipled." He charged that the governor's office has often been "the bastion of men who were colorful, but crass--of men whose public pronouncements have made the literate wince, the cynical laugh, and the sensitive cry."

Edwards said that as governor he would "provide a channel for innovative change" in the structure of state government. As a catalyst to change he pledged to reduce the powers of the governor's office and "restore the legislature to its rightful role as lawmaker for the state."

MICHAEL McCALL of Grand Chenier, who designed the Cameron parish flag for the parish's centennial, is shown with the plaque presented to him by the Grand Chenier Home Demonstration club for his work. The plaque containes a miniature design of the flag.

Bank meet set

The annual meeting of the shareholders of the Cameron State Bank will be held at 6 p.m., Tuesday, Jan. 12 at the bank's office in Cameron, it is announced by A. J. Howard, president.

The meeting is to elect directors and to take up any other necessary business.

Motor inspection procedure changed

Department of Public Safety officials today announced that several new procedures will be enacted for the Motor Vehicle Inspection Program which begins Jan. 1, 1971.

The owner or operator of a vehicle must present a valid drivers license and the vehicle registration certificate to the inspection station before an inspection can be performed.

Inspection stations will be required to remove any inspection certificate presently displayed on a vehicle failing inspection and issue the owner or operator a vehicle rejection notice when rejected items are not corrected immediately at the inspection station.

If the owner wishes, repairs may be made at another shop or by the owner himself. The rejection will allow the owner to remove the vehicle to his home or to a repair shop for necessary repairs. If the repaired vehicle is again presented at the original inspection station within seven days of the rejection, the reinspection will be performed free of charge.

After the vehicle has been reinspected and certification of reinspection by the official inspection station has been noted on the reverse side of the rejection notice, the vehicle owner is then required to mail his copy of the rejection notice to the Motor Vehicle Inspection Section within seven days from the date the notice was first issued.

If repair parts cannot be obtained within the allotted seven days, an additional twenty-three days may be extended by any member of the Louisiana State Police who is satisfied that all requirements have been met. These requirements include the owner ordering the necessary repair parts from an authorized parts dealer and attaching a copy of this order to the rejection notice.

An owner who fails to comply with the rejection notice within the specified time runs the risk of having his vehicle registration suspended.

The safety officials noted that the $1.25 inspection fee is for the inspection and not for the approval certificate, and must be paid regardless of whether the vehicle passes inspection or not.

Vehicles which have 1970 inspection certificates punched out in the months of December and January must be reinspected by Jan. 31, 1971.

HOW TO CONTROL HORSE BOTS

This is the time when much can be done to comfort the horse against bots this coming year.

Horse bot flies damage animals indirectly and directly. Indirectly - while the horses are fighting the flies, they are unable to graze; after days of bot fly attack, they may lose weight and suffer from lack of proper nourishment. People going near horses being attacked by flies may be injured severly. Horses attacked when saddled may become uncontrollable.

In direct damage - the bots attach themselves with spring mouth hooks to the lining of the animal's stomach or small intestine. These attachments cause inflammation, which interferes with digestion.

Bots attached to the lower part of the stomach interfere with the passage of food. Infested animals often suffer from colic or other gastric disturbances.

The degree of damage done by the feeding of the larvae is rougly in proportion to the number present. Several hundred larvae may be found in one animal; more than 1,000 can be found in the stomach of a colt.

Treatment consists of two steps. They are external and internal treatments. The external treatment is done about 30 days after the first frost, which would usually be the middle part of December, and consists of applying warm water on the eggs of the bot fly usually found on the lower body of the horse or down the front legs. The water should be heated just to the point at which you can keep your hand immersed without discomfort. This would be between 115° and 120° F. Wet a sponge or cloth thoroughly with the water and rub it firmly over the animal's body where eggs of the bot fly are seen.

The firm rubbing provides the necessary heat and moisture to hatch the eggs quickly. The newly hatched bots will die soon after they hatch.

Internal treatment is done about 2 months after first frost, which would be about 1 month after the external treatment or about the middle of January, a period when all species of bots are concentrated in the stomach and intestines. Two chemicals are available for this treatment. They are Trichlorfon which may be administered by horse owners or veterinarians. The other one, carbon disulfide, is very effective but is considered hazardous and should be administered only by veterinarians.

Trichlorfon may be given in the feed, in a gelatin capsule, or a drench or by stomach tube.

Now is the time to do the following:

1. Take soil samples where crops will be grown the coming year.

2. Prepare a new garden site or cultivate land where crops will be grown the coming year. Freezing and thawing will help pulverize the soil.

3. Plant and transplant trees and shrubs.

4. Fertilize trees and shrubs. This could easily be the best investment for your plants this year.

5. Control lichens (moss like material) on your plants.

6. Top dress your ryegrass. Remember, you will get better results when you top dress about 2 weeks prior to grazing.

Bonuses given by Jeff Davis

Members of the Jeff Davis Electric Cooperative, Inc., received bonuses this week in the form of dividend checks.

It becomes available.

Several local farm groups and individuals wrote letters to area congressmen and to President Nixon urging them to retain the ACP program when there was some question of whether it would be included in the program in 1971.

The board of directors, after a thorough review of the financial operation of the cooperative, approved payment of capital credits to all members of record as of Dec. 31, 1969, in the amount of 5 per cent of total capital credits earned on all electric energy accounts as of that date.

In making the decision the board thanked the membership for its cooperation in helping make the cooperative successful in bringing to its members the best in electric service at the cheapest possible cost.

This is the first dividend the cooperative has been able to give. A complete new line had to be established when the system was knocked out in Hurricane Audrey in 1957.

FILE FORM

Charles S. Hackett, Cameron-Calcasieu ASCS office manager, reminds farmers that those who earned price support payments and those earning ACP cost-sharing on a "cash basis" will receive form CCC-152 that will show income earned in 1970 and should be filled with the income tax return. These forms should be received in January.

BATON ROUGE -- Odds 'n' ends:

CHARGES by the LSU Department of Agriculture that Louisiana high schools are "failing to provide a relevant curriculum" will hardly be news to Parish Fuller of Oakdale, at one time president of the state Board of Education. He tried, over and over, to set up "college entrance exams" for all prospective students, to determine if they were really "prepared;" but was always voted down by an "indignant" legislature.

* * *

MUCH of Louisiana's coastal prosperity may depend on the leasing of federal lands under the Gulf of Mexico for drilling, due Dec. 15 in New Orleans. The sale, already delayed nearly two years following the oil spill in California, may depend on whether prospective drillers will put up with the many new regulations, to obtain badly needed oil and gas -- particularly gas. The state, meantime, is also leasing 18 tracts, 12,173 acres, including one of 4,609 acres offshore; and there is another sale due on Jan. 13.

* * *

ONE TEXAS friend (?) mailed a copy of the current issue of "Field & Stream" bearing a label "Texas' Fabulous Hotspot" and containing a great story by outdoor writer Grits Gresham of Natchitoches on fishing in Toledo Bend Lake. We promptly mailed back a label from the same magazine, bought here, which used the words "Louisiana's Fabulous etc!" We also sent him the latest tale going around about the worried Texas A & M Aggie who is still waiting for someone to manufacture "Left Guard!"

AGAIN from North Louisiana, the Ouachita River Valley Association is happy about their prospects for more federal funds for their navigation program, thanks largely to help from both Louisiana senators. The group hopes to get added land in the Darbonne basin and in Felsenthall basin in Arkansas.

AROUND The CAPITOL

By JACK GOULD

BATON ROUGE -- Cautious predictions for 1971:

ANTI-MAFIA: The committee has really done some good. But unless the investigators can get one witness to tell "where the $50,000 went," the April report to the Legislature will say, in effect, "breaking the law is illegal, and you should pass a law against it."

PROSPERITY: Louisiana business will start to improve by mid-year--unless, that is, a long strike cripples the oil busines. If this happens, the only means by which the state can keep running is agriculture and tourism.

POLITICS: A poll to be paid for by a group of businessmen in March will show the same three leading contenders in the race for governor (Aycock-Davis-Long), but running a strong fourth will be a new "North-South team" that could climb rapidly enough to get into a runoff.

LOUISIANA vs. TEXAS: The long feud over their border will get really bitter as the Bayou State continues to claim the Sabine River to the west bank. Texas will win.

TELEPHONES: Courts will take a long, hard non-political look at proposed rates, public demands and interest rates; and order the Public Service Commission to agree.

NORTH-SOUTH HIGHWAY: Final results of a "feasibility" survey will show a proposed toll road is practical.

WEST CENTRAL LOUISIANA: This long-neglected area will begin to prosper for the first time since "saw mill" days, and in time will come to rival the Southeast area in expansion in several fields.

STATE SUPREME COURT: The Louisiana Top Bench, like the one in Washington, will show that it is getting "younger" and is getting rid of Old Time Politics in reaching its decisions.

NEW CONSTITUTION: Members of the Special Committee will come to realize that it will take years of work just to be able to present a workable plan--and one that must be presented to the people for final decision.

LEGISLATORS: Despite everything that can be done in May, or at a possible special session, there is much doubt that an estimated 40 percent of the current lawmakers will be re-elected.

MEDIA: At least one candidate for governor will try to prove that use of newspapers (especially the smaller ones) and use of "old fashioned" radio can be just as effective as the far more expensive television in getting the votes.

LSU TIGERS: Informed Bengal fans see absolutely no reason their team should not have at least two more great seasons, and some are actually hoping Tulane gets a good new coach and has a great year -- until Nov. 27!

VOTING MACHINES: A move will be made to replace the present machines with "computers" -- and will fail. Another move may be made to use all "vertical" ballots in Louisiana, and may succeed.

J. Bayou club 2nd in parish

Michael Prescott, president of the Johnson Bayou 4-H Club, announced that the club had placed second in the parish Best Community Club contest, at the December meeting of the club.

Juanita Jinks gave a committee report on the Christmas Card project. Gertie Trahan reported on the Thanksgiving Basket, and Patti Creel on the gum wrappers for UNICEF.

Plans for the Christmas party, Christmas caroling, and the Fur Festival float were discussed.

A demonstration on making a Christmas card holder from screen wire was given by Miss Patsy Granger. Uland Guidry showed a film on safety.

The club members went Christmas caroling all over the community. Special emphasis was on the elderly and the sick. Coach Jerry Romero drove the bus for the members.

Three Johnson Bayou boys placed in the Cameron Parish Fur Judging contest. Leslie Prescott placed second in the Junior division and Michael Prescott placed fourth. Randy Baden placed fourth in the senior division.

Two named to Legion committee

Jules Dronet and Ellis McWhirter, both of Creole, have been appointed as general members of the National membership and Post Activities Committee of the American Legion for the second successive year.

In making the announcement, National Commander Alfred Chamie said: "This appointment is made with the recommendation of your department officers and in recognition of the services you have rendered to your post and department."

The term runs until the close of the 1971 fall meeting of the National Executive Committee.

Dronet is serving his second year as commander of Richard Bros. Post 176. McWhirter served the post as commander for two years and is serving his fourth year as post adjutant.

THE FOURTH GRADE classes of Hackberry high school are pictured above while on a field trip to Herman Zoo in Houston. Teachers are Mrs. Francis Devall and Mrs. Gail Delcambre.

Flag disposal

Strict flag etiquette provides that the only occasion the Stars and Stripes legally can be burned, is when the flag is tattered and worn-out. In that case the flags are supposed to be taken apart, the blue field and stripes burned separately and the ashes then buried.

Tea time

Always pour boiling water over tea bags when you are making tea. Never pour the water first and then add the tea bags. Let stand five minutes for fairly strong tea.

Fur display to be at library

The Louisiana Wildlife and Fisheries Commission will have an interesting display at the Cameron Library during the upcoming Louisiana Fur and Wildlife Festival in Cameron this weekend, according to Mrs. Coral Lee Perry.

The display will feature furs from Louisiana, fur-bearing animals, traps and stretching boards used in the industry, and a representative of the Commission, Paul Jackson, will be on hand to answer any questions anyone will have concerning the display. Mr. Jackson, of Lake Charles, is with the Education Dept. of the Louisiana Wildlife and Fisheries Commission.

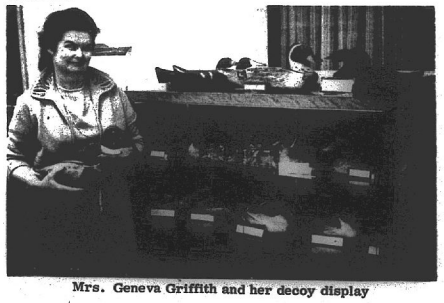
Another part of the display will be the beautiful permanent exhibit that was established in the library this year. It is a real life marsh scene that depicts marsh animals and birds found in the Cameron marshes.

LINDA GAY SMITH, daughter of Mr. and Mrs. Wilmer Smith of Grand Chenier, holds one of the Louisiana Fur and Wildlife Festival program and recipe books now on sale in Cameron for $1.00

Warning given on sign damage

Sheriff Claude Eagleson reports that someone has been pulling up highway signs in lower Cameron parish which is against the law.

"This is fair warning to whoever is doing this," the Sheriff stated, "If he or they are caught, they will be charged with destroying public property, which could be costly to a person if convicted."



Mrs. Geneva Griffith and her decoy display

Antique decoys on display here

A unique display is being featured at the Cameron Parish Library during the Louisiana Fur and Wildlife Festival, according to Mrs. Coral Lee Perry. It is the collection of antique wooden duck decoys and miniatures from the collection of Mrs. D. W. Griffith.

Hand carved decoys by seven Cameron Parish men and one from Cambridge, Md. are featured in the collection. Some have been restored and handpainted by Mrs. Griffith and some are in the natural state.

Mrs. Griffith explained that very few wooden decoys are being made today. Hunters use the popular plastics to hunt with. They are lighter, and have many more advantages over the old wooden ones. There are very few people engaging in decoy making today.

The best wood for decoy making, according to experts in the trade is Tupelo root or cypress. However, many decoy markers made them from driftwood washed up on the beach. Tupelo was used because it was soft and could easily be shaped. Cypress was used because it was long lasting.

Most of the collection is over 50 years old. One is a swivel head over 100 years old. A feature of the collection is eight miniatures set in a marsh scene, carved by Claude "Pete" McCall of Grand Chenier and handpainted by Mrs. Griffith.

Mallards, widgeons, pintails, and black ducks are represented in the collection carved by Pierre Savoie of Creole, the late "Nick" Trahan from "Mallard Bay" in Lake Arthur, the late Henry McCall, owner of the popular "Club McCall", early hunting club on Grand Chenier, the late James Fawvor of Grand Chenier, the late Delsan Broussard of Little Chenier and the late Eloi Primeaux of Creole.

A history of each decoy is included in the collection and stands by each duck. Mrs. Griffith said that each carver of decoys had a certain style and left his mark so distinctly that one could almost look at a decoy and tell who carved it.

Mrs. Perry invites all Festival visitors to come by the library to view the exhibit and to see the other exhibits that will be there.

Some of the decoys were given to Mrs. Griffith by Adam Nunez, Lake Arthur, Percy David, owner of the Coastal Hunting Club in the Klondike area, Garland Nunez of Creole, Ynest Miller of Creole and Jasper King of Hackberry.

Festival program features recipes

The 15th annual Cameron Parish Fur and Wildlife Festival has a first -- a souvenir -- 72-page festival program listing the events of the two-day affair as well as many more interesting subjects.

A salute to the cattle industry, which is the theme of this year's festival, and a history of the beef industry in Cameron Parish as well as a story of the cattle drives are contained in the program, along with a picture of the "Oldtime Cowboys" of Cameron Parish.

Worth the $1 cost of the program is the section of recipes, featuring seafoods, meats, vegetable dishes, rice dishes, salads, desserts, candies and miscellaneous recipes. These are recipes from Cameron Parish residents including 4-H club and Home Demonstration Club members, other homemakers and some men.

The 1970 Fur and Wildlife Festival Queen, Doylene Lasiter; 1970 Miss Cameron Parish, Cherie Kay Griffith; 1970 queens and runners up; King Fur II; parade and contestant photos of the past round out the contents of the program.

A copy of the program may be obtained during the festival at $1 each.

The Jefferson County, Texas, Sky Divers will be featured just prior to the parade Saturday as part of the Fur and Wildlife Festival.

Old timers to be honored

The old time commen of Cameron parish will be given special recognition at the Friday night program of the Louisiana Fur and Wildlife Festival in the Cameron Elementary School auditorium.

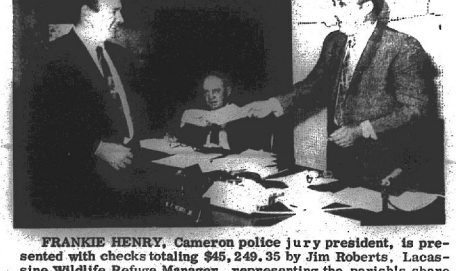
A special section will be reserved for the cattlemen and their wives. They are asked to identify themselves at the door and they will be escorted to their seat.



FRANKIE HENRY, Cameron police jury president, is presented with checks totaling $45,249.35 by Jim Roberts, Lacassine Wildlife Refuge Manager, representing the parish's share of receipts on national refuges in the parish.

$45,249 checks given parish

Two checks totaling $45,249.35 were presented to the Cameron police jury Tuesday, representing the parish's share of revenues from the two national wildlife refuges in the parish.

Jim Roberts, manager of the Lacassine refuge near Lake Arthur, presented Police Jury President Frankie Henry with a check for $39,223.32 for his refuge and with a $6,026.03 check for the Sabine refuge near Hackberry.

He explained that since the refuges do not pay taxes to the parish, they do make an annual payment of 3/4th of one percent of the assessed valuation or 25 percent of net receipts, whichever is greater.

The two refuges have a sizable income in oil and gas revenues and also from the sale of furs.

DEER SEASON

Police Juror Charles Riggs of Hackberry asked the jury to request the state wildlife department to close the deer season in the Ward 6 area as he said all the deer there had been killed out. The season had been open for the past three years.

Riggs also introduced an ordinance requiring fruit and vegetable peddlers

Storm display set up here

Francis Klein, Cameron ASC County Committee Chairman, announced that the local ASCS office has put up a hurricane display in the foyer of the Cameron State Bank to be viewed during the Louisiana Fur and Wildlife Festival being held in Cameron, Jan. 8 and 9. The display explains the part of the USDA and ASCS play when natural disaster strikes.

The display explains that when natural disasters strike, food to support mass feeding operations must be available. During Hurricane Camille the need for food assistance quickly became critical in Mississippi and Louisiana. Local supplies of U. S. Department of Agriculture foods (about 500,000 pounds) were soon exhausted. USDA's Food and Nutrition Service subsequently shipped 5 million additional pounds of food into the disaster area.

A. J. Howard, President of the Cameron State Bank, said the bank would be open all day Saturday to serve coffee to visitors coming to isit and view the display.

COUNTY AGENT REPORT

By CLIFFORD MYERS

LATEST ON FLEA BEETLE - I have just received a news release dated Dec. 29, 1970, from Richard Carlton, State Entomologist, in regards to the present flea beetle situation. It reads as follows:

"After a survey, the alligatorweed flea beetle has been found to be present throughout most of the southwest Louisiana parishes, as a result of an apparent natural spread. To date, no official releases of this insect have been made. However, it appears that this insect will reach its natural limits in the state, even if no releases are made.

This insect is a specific feeder on alligatorweed, which is a navigable hazard in the bayous and canals in Louisiana."

The above is the news release in full. Anyone desiring more information concerning the above should connact Mr. Richard Carlton, State Entomologist, P. O. Box 44153, Capitol Station, Baton Rouge, La. 70804.

As I have stated before, this is not an LSU Extension Service project. Therefore, we at the County Agent's office do not have anything to do with the flea beetle.

PENNYWORT WEED - I have noticed several starts of this weed in the parish, especially south of the Intracoastal Canal. It is indeed a pest when present in a yard or garden, and therefore should be controlled when first noticed. It makes an extensive rhizome which in turn makes it difficult to control. It may be controlled with 2-4-D at the rate of 3 tablespoons in 2 gallons of water to 1000 sq. ft. on Bermuda grass lawns. However, it should be reduced to 1 tablespoon per 1000 sq. ft. on St. Augustine or Centipede lawns. A detergent, washing powder, should be added at the rate of 4 tablespoons per 2 gallons to the above mixtures. It may be necessary to spray 2 or 3 times for complete control.

COMING ACTIVITIES - LSU Livestock Producers Day in Baton Rouge on Jan. 20; Tree seedling are ready to be picked up; Rice Clinics on Jan. 26.

1971. You've changed. We've changed.

Change. That's what it's all about this year. And that's what we mean by putting you first.

These are uneasy times.

There are major concerns. About pollution. About safety. About the economy. About your hard-earned dollar. We know.

For the past 10 years Chevrolet research people have questioned thousands of people on every subject from rising taxes to the size of the glovebox in their cars.

We've found that price and maintenance costs, trade-in value and quality have become tremendously important.

Your car has to work. It has to last. And each new model must have more built-in value.

At Chevrolet, we understand.

You want meaningful change. And our aim is to give that to you, as you'll see in the 1971 Chevrolets.

Caprice. The biggest, most luxurious Chevrolet ever. A complete change.

Bigness in itself is nothing.

But if it allows you to lengthen the distance between the front and rear wheels (which we did), then you've got something.

You've got a smoother ride.

The idea in the 1971 Caprice was to give you the looks and comfort of a six- or seven-thousand-dollar car, without asking you to pay anywhere near that much for it. And above all, to build in as much dependability and security as possible.

So we changed the body structure for 1971, too. We made it stronger. And we made it quieter by putting a double layer of steel in the roof.

Caprice, as you can see below, is a lot of luxury at a Chevrolet price.

Vega. The littlest Chevy ever. It wasn't changed from anything.

Before building Vega, we read everything we could get our hands on about little cars. We talked to owners. We studied little cars up one side and down the other and, literally, tore them apart. We found out what made them tick, or why they didn't tick.

What ticked were gas economy and dependability. What didn't were underpowered engines, cramped quarters and getting blown around in the wind.

In our little Vega, everything ticks. It's not just another little car. You didn't want *that*. It's one little car that does everything well.

Grand Chenier News

By ELORA MONTIE

Holidays are over. Folks here last week and this week were busy taking down their Christmas decorations.

School pupils, teachers and employees were back to their original work and studies Jan. 4.

Postal employees were kept very busy during and before the Christmas holidays and the week after Christmas and New Year's as the spring and summer catalogues have come in.

Folks who will be taking part in the 15th annual Cameron Parish Fur and Wildlife Festival will also be kept busy making preparations for the Festival event which will be this weekend, Jan. 8 - 9.

We here at the Chenier are on the alert for wolves. Around the Grand Chenier School area wolves have killed several sheep belonging to Carl McCall's flock and folks have been wondering if small calves in that area won't disappear the same. The wolf has been heard baying and has also been seen and shot at, several times, but always seems to be too far off and the animal is not hit.

Trappers here at the Chenier are still busy with their trapping but have two problems which are setting them back, one is the price of nutrias has gone down considerably and another is a scarsity of nutrias which is making trapping more difficult than last winter.

Some trappers with smaller tracts of land have already pulled up their traps due to the fact that they have already caught the nutrias on their trapping grounds.

15TH YEAR -- NO. 15 CAMERON, LA. FRIDAY, JANUARY 15, 1971

Mark Richard

Mark Richard King Fur III

Mark Richard, well known Cameron parish cattleman and businessman, was crowned as King Fur III at the Louisiana Fur and Wildlife Festival in Cameron last weekend.

The king was selected this year from the cattle industry which the festival saluted. He was crowned by last year's king, Alvin Dyson, who represented the trapping industry.

King Fur I was Jack Styron, who represented the menhaden industry.

A native of Creole, Mr. Richard graduated from Lake Charles high school and attended Vincent's Business College. He returned to Creole, opened an automobile repair shop and sold Ford cars.

He served as the Cameron Clerk of Court from 1928 to 1936 and as Sheriff from 1936 to 1948.

He is a Fourth Degree Knight of Columbus and a Knight of St. Gregory. He is a charter member of the Cameron Lions Club.

Mr. Richard has been member of the board of directors of the Gulf Coast Soil and Water Conservation District since 1951 and was named to the state committee in 1956.

He was instrumental in developing the cattle walkway practice in Cameron parish in 1950 in cooperation with Mayo Boudreaux. Some 200 miles of walkways have been built in Cameron parish and the practice is used throughout the United States and foreign countries.

Bahia grass was introduced to Cameron parish on his farm and he has a top quality Brangus herd.

Mr. Richard helped organize the Cameron Parish Cattlemen's Association and was its first president. He has assisted the county agents with tours, field trips and the introduction of new practices and seeds.

Mr. Richard is married to the former Beulah Monie.

Rice vote to begin Monday

Charles S. Hackett, Calcasieu-Cameron ASCS County Executive Director announced that the rice referendum will be conducted by mail during the period Jan. 18 through Jan. 22. Ballots will be mailed to each known eligible voter in Calcasieu and Cameron Parishes.

The Secretary of Agriculture is required by law to proclaim marketing quotas for rice when the total supply exceeds the normal supply. Such is the case in 1971. The proclamation of quotas for 1971 establishes rice acreage allotments the same as 1970 allotments.

Before quotas are put into effect for 1971, at least two-thirds of the eligible voters voting in a referendum must vote in favor of quotas for 1971.

AS I REMEMBER . . . BY T. J. RATLIFF

Passing of the Stetson hat

The recent announcement that the John B. Stetson Hat Company will cease to produce hats early in 1971 brings a feeling of nostalgic regret to those of my age to whom a Stetson was more than a mere head covering; it was an institution and a symbol of manhood.

About the time we started shaving and "going with the girls" we usually left off our cloth caps and received our first Stetson.

The felt hat industry in America goes back to the colonial days when it was discovered that American beaver fur produced a hat far superior to the English-made felt hats, usually made of sheep wool. The British hatters were so desperate over their lack of ability to meet American competition that in 1732 Parliament passed the Hat Act which prohibited the making of hats in the colonies, though beaver fur cpuld be sent to England for manufacture into hats. After independence was won, American felt hatters prospered until beaver fun became scarce and the silk top hat became the symbol of affluence and social standing in the East.

In 1865 John B. Stetson of Philadelphia went into the hat business and a few years later went west in search of health and by chance learned that his felt hats met the needs of westerners of all occupations.

A Stetson of the better grades was almost indestructible from use and served all sorts of unusual purposes. Every western movie viewer has seen the cowboy water his faithful horse from his Stetson and the cowboy himself used his hat as a drinking cup. What is seen less often is the Stetson being used as a water bucket in fighting a fire.

Utes that I have never seen but have heard of were those of using the rugged Stetson as a baby's bath tub, a lady's lavatory or in an extreme emergency as a baptismal font. Then, how could a generation of western film viewers identify the "good guys" and the "bad guys" except by the color of their hats?

The early beaver fur felt hats were graded by the number of "X's" preceding the word "beaver"; a six or seven beaver was the top quality. When real beaver fur became rare, other forms of fur were used, mostly Australian rabbit or South American nutria and Louisiana muskrat. Then the trade mark in the sweat band bore the words "beaver quality" following the "X's". However, my present and probably last, Stetson does not have the "X's".

The ownership of a good Stetson was a point of pride. They were used as awards for distinguished service or as a token of esteem. The late Pres. John F. Kennedy, who was noted for appearing bare headed, disappointed some of his Texas admirers when he failed to put on the western style hat presented to him on his tragic trip to Texas in November of 1963. Election and other friendly bets used a "good Stetson hat" as the wager.

About 1920 I was visiting my Uncle Bert and Aunt Willie (To my former students, they were the parents of "Cousin Bert" of helicopter fame whose prospective visit to DeQuincy was anticipated but never happened.) in Oklahoma and was taken by them to visit some friends on a ranch near Tishomingo. After dinner the subject of hats came into the talk and our host went over to a cedar wardrobe and carefully, almost reverently, removed a typical western type white Stetson and remarked that it was a Seven X Stetson. Uncle Bert, himself a one-time cowboy, was permitted to handle it, but not I. Years later Uncle Bert and I rode in the same car to attend a funeral and as we approached the church he wondered out loud if it would be safe to leave his hat in the car and said, "You know this is a Seven X Beaver and cost Bear, Jr., over a hundred dollars."

When Clarice Ann Richard Jones was in my history class and we were talking about the colonial beaver trade, the Hat Act of 1732 and its influence on the American Revolution, I asked the class if any of them had seen a Six or Seven X Beaver hat and Clarice said that her father, the late Rudolph Richard, owned one which he wore on special occasions.

One reason for the decline in the hat industry and the closing of the Stetson company is that young men no longer wear hats unless they are absolutely necessary as protection against hot sun, then it is likely to be a straw hat. Indeed, a felt hat has become almost the symbol of a "senior citizen" and it is increasingly difficult to find a hat rack or other place to hang a hat in churches, offices and other public places.

John B. Stetson, like a great many of his 19th and early 20th century contemporaries, devoted a part of his wealth to further the cause of education. John B. Stetson University was established at DeLand, Fla. in 1883 and is still in operation. Perhaps, when a generation who never wore a Stetson or saw one outside of a western movie has grown up, Stetson dollars may still be making a contribution to developing the brain under the American skull rather than protecting the top side of the skull.

Little Pollen —Or Sneezing— At Pensacola Beach

PENSACOLA BEACH, FLA.—There's seldom a sneeze at Pensacola Beach — even by the most acute hay fever sufferers—because the pollen count at this Southeastern resort is among the lowest in the world.

In fact, only mile-high Denver, in Colorado, has a smaller count.

The reason for the almost total lack of pollen is that Pensacola Beach is located on Santa Rosa island between the Gulf of Mexico and the broad waters of Santa Rosa sound.

The bodies of water literally wash the minute and pesty particles of pollen from the air before currents reach the resort center.

Queen's recipes given this week

Cherie Kay Griffith, 19-70 Miss Cameron Parish, was named Queen of the 15th annual Louisiana Fur and Wildlife Festival held in Cameron Jan. 8 and 9.

Daughter of Mr. and Mrs. D. W. Griffith, of Grand Chenier, Cherie was competing with contestants from seven other fur-producing parishes in the state. She is a freshman at McNeese State University, majoring in lower elementary education, and lists as her hobbies designing and constructing her own wardrobe, water skiing and cooking.

An eight-year member of 4-H Club, Cherie won the "National Egg Cookery Queen" in Chicago in 1967, as well as the national egg cooking contest. Other achievements have been first place in the rice cookery demonstration contest in 1966 at the International Rice Festival in Crowley; first place in Louisiana and the national egg cooking contest; first place in state in rice cookery demonstration in 1969.

Cherie's original recipe using rice as a base, Shrimp and Rice Fiesta, has won for her over $1, 300. Grand Lake Sweetlake

By BECKY FAULK

Due to the icy weather conditions, Grand Lake High School was closed Friday, Jan. 8. Although the weather was terrible during the last week, the Grand Lake - Sweetlake area was really beautiful with all the glittering icicles hanging down and the ice glistening everywhere.

Speedy recovery wishes are extended to Roger Thibodeaux, son of Mr. and Mrs. Pierre Thibodeaux of Big Lake. Roger was rushed to a local hospital Friday morning where he was treated for first degree burns on his chest and neck. He was accidentally burned with hot grease.

Mr. and Mrs. Nolton Richard of Grand Lake received a telephone call from their grandson, Keith Brasher, who is presently stationed in Kansas City. Keith is the son of Mr. and Mrs. Herbert Brasher of Lake Charles.

Grand Chenier News

By ELORA MONTIE

On Dec. 22 which marked the first day of winter with 78 degree temperatures, that day folks wondered where was the winter weather. This past week we were no longer wondering where the cold weather was as we were in the midst of it with 27 degree temperature Friday morning along with freezing rain Thursday night. It brought a beautiful scenery of iced covered trees, marshes and fields which really resembled a Christmas card scenery of the season.

Schools were dismissed here Friday morning due to icy roads and bridges. Iced trees put the Jefferson Davis Electric Coop., Inc. men busy Friday when iced lines broke, cutting off electricity in several homes. The folks with central heating were out of heat for a period of time. A crew of men working in icy weather restored power around noon Friday.

The telephone company workmen were also busy doing necessary repair work.

Late Friday evening when more rain came again all the ice was melted and by Saturday morning temperature began to go up.

Cattlemen were kept very busy during the cold spell hauling hay and distributing the hay for the cattle to have something to eat since all of the grass was frozen.

The two new vehicles on the Chenier this week are a light green and white pickup truck purchased by Billy Doland and a red and black GTO purchased by Arthur Lee Booth.

Mr. and Mrs. Archie Ogburn, who have the old home place of Mr. and Mrs. Alcee Theriot here, have repaired and remodeled the home place and moved in a few weeks ago. Mrs. Ogburn's daughter and family, the Paul Fellos, are living where Mr. and Mrs. Ogburn were living.

Mr. and Mrs. Pete Broussard and daughter of Cameron area moved in the J. D. Bertrand house.

Tuesday of last week the Billy Dolands had an old time hog bouchrie, with plenty of help.

Our sympathy and prayers are extended to the families of Jessie Bourque of Pecan Island and Mrs. Joe Kershaw of Grand Chenier who were both buried this past weekend; also to the Willie Conner family of Creole and Pepper family of Cameron.

Gerald Bonsall, who recently underwent surgery in a Lake Charles hospital, returned home Thursday. He reported doing fine.

Mrs. Leola Fawvor underwent surgery at Lake Charles Memorial Hospital Thursday. She is reported doing good. A speedy recovery is wished her.

The Dance Art school children of Grand Chenier took part in the night program and parade at the Cameron Parish Fur Festival this year. Several school children and teenagers from here also took part in some category of the Festival as well as several adults who played a big part in the Festival. They are to be commended in many ways.

Edison Mhire and son were busy Jan. 1 and 2 planting trees. They planted 1 1/2 acres of fruit trees consisting of 25 grapefruit, 7 lemon trees, 100 sweet sattsumas and 12 kumquat trees on his land here. This will not only beautify his place but be a benefit in the future.

Mr. and Mrs. Earl Skelley, formerly of Port Arthur, the former Counsellis Richards of here, are busy building a fruit stand near the Neil Richard place. They bought a trailer house and will in the future move it near where they are building the fruit stand.

VISITORS

Mrs. Hubert Conner of Creole spent several days with her sister-in-law, Mrs. Edmond Bertrand this past week.

Larry Primeaux and friends of Hackberry visited relatives and friends here. Sunday.

Visiting with Mr. and Mrs. Roy Clark and family Saturday were Mr. and Mrs. Adam Miller of Lake Charles.

Sgt. Carroll (Sugar Boy) Miller has been home on leave for a while. He and his wife, Dale, have been visiting his parents and daughter, Mr. and Mrs. Watkin Miller and Dinah here.

Gilliam Montie and son Minky, of Port Arthur, visited his mother, Mrs. Josephine Montie and cousin Elora Montie and Ray Nunez Saturday morning.

Recently visiting Mr. and Mrs. Edison Mhire and Robert were Mr. and Mrs. Tex McBride of Lafayette and Miss Sheila Luquette of Port Arthur.

Mr. and Mrs. Paul Specks and David of Houston spent the weekend visiting Mr. and Mrs. Murphy Marceaux. Also visiting the Marceaux during the weekend were Gerald and Janice Beatty of Baton Rouge, Henry Knight of Lafayette and Bill Holstead of Rayne.

Mrs. Henry LeBouef of Sulphur spent Saturday night with Mr. and Mrs. Jeff Nunez.

Letter to the Editor

Cameron, Louisiana
January 11, 1971

Dear Editor:

I find it quite puzzling that the School Board did not deem it feasible to close the schools the Friday of the Fur Festival since many of the students from all sections of the Parish participate in the various activities.

I understand from Mr. Wilson J. Montie, Superintendent, this is to be the policy of the School Board in the future, also. Perhaps next year the Board will reconsider.

Sincerely,
Wilma D. Guthrie

Number is needed for license

Department of Public Safety officials today issued a reminder that a social security number must be presented to Driver's License Examiners before a new license will be issued or an old one will be renewed.

Hugh Stiles, Administrator of the Driver's License Division of the Department, said that several different forms of verification of a social security number may be used to show the examiner that the person does possess a social security number.

These are a social security card, a social security number on a previous driver's license, an income tax form, a W-2 form or a letter from an employer.

Stiles said that those persons who do not possess a social security number may obtain one by completing a social security application form which may be obtained at a social security office or by calling the social security office and requesting that an application be mailed.

Stiles said that it is comparatively easy to obtain a social security number and applicants should have no difficulty.

This is the first step in a new program which will convert all Louisiana driver's license numbers to social security numbers.

County Agent's Report

By CLIFFORD MYERS

CITRUS TREE SPRAYING - Many citrus trees in the parish are affected with sooty mold at this time of the year. The recommended chemical to use is oil emulsion. However, it is risky to use oil emulsion when there is a danger of a freeze within one week of application, since it makes trees more susceptible to cold. Sooty mold (black material on leaves) will not affect the tree unless it is heavily infested. If heavily infested, the sun cannot reach the leaves to carry on its function.

PEACH TREE SPRAYING - The main problem with pecan trees at the present time is scales. In cases of very severe scale, two applications of oil or Ethion-Oil may be needed. The first application should be made soon after the beginning of dormancy. Wait at least six weeks and check for live scale; if present, make second application. Best results will be obtained if temperature is above 60°F, and sun is shining at time of application. One application of Ethion-Oil may be sufficient. Do not apply during pink bud through the remainder of the season.

Scales will kill peach and plum trees if not controlled. In many cases, one branch or limb will die at a time.

FRUIT TREE VARIETIES - Since the investment in fruit trees is a long term one, it is extremely important that this investment be in the proper kind and variety of fruit. Therefore, when selecting or buying fruit trees it is important that the one selected is recommended for this area.

LIVESTOCK PRODUCERS DAY - The annual Livestock Producers' Day program, featuring discussions of various aspects of livestock and meat productions will be held on the LSU campus in Baton Rouge on Wednesday, Jan. 20, beginning at 9:30 a.m. The public is invited to attend.

Anyone interested in attending and combining rides can call the County Agent's office in Cameron.

CHRISTIAN UNITY

A Bright New Hope For All Mankind

Our generation is witness to many exciting and historic events.

The discovery of nuclear energy. The conquest of space. The development of that amazing mechanical brain called the computer. The never-ending invention of new devices, new machines, new techniques to provide human convenience, comfort and pleasure.

But of all the things that are happening in our time, none is more important to the family of man in general . . . and to you personally . . . than that quiet spiritual revolution called — Ecumenism.

It aims to restore the spirit of unity that existed among the followers of Christ a thousand years ago. It proposes a true fellowship of man, under the fatherhood of God, for all believers, Christian and non-Christian alike. It challenges all the People of God to apply God-given principles in their personal lives, and to the solution of the problems and evils of our times.

The historic Ecumenical Movement did not begin, of course, with the convoking of the recent Vatican Council. The Council said, in fact, that it met in response to the grace that created in other Christians "a remorse for their divisions and a longing for unity."

But a knowledge of the deliberations and decrees of the Vatican Council is necessary to a true understanding of Ecumenism — what it means to the world — what it can mean to you. For the Council decisions represent a commitment of the apostolic Church to a new and historic fellowship with all the People of God . . . and a new and better understanding of the spiritual heritage in which Catholics and other Christians share.

We have a new pocket-size pamphlet on "Principles of Unity." It deals with the disunity that has been the "scandal" of the Christian world. It explains why Christian unity is both necessary and clearly possible. It describes the Catholic principles on Ecumenism and Ecumenism in practice. It discusses the relationship of the apostolic Church to churches separated from the Holy See . . . and to non-Christian religions.

FREE — We'll be happy to send you a copy of this interesting pamphlet free upon request. Write today. Ask for Pamphlet KC-54. No obligation. Nobody will call on you.

Johnny Meaux is honored

John H. Meaux

BY GENEVA GRIFFITH

John H. (Johnny) Meaux of Oak Grove, one of the nine living persons who helped write the original Louisiana State Constitution in 1921, was a special guest at a meeting of the Louisiana Constitutional Revision Commission in Baton Rouge last week.

The state constitution was written 50 years ago this year by 140 constitution commission members, of whom all but nine are deceased. Another member was gormer Governor Sam Jones of Lake Charles.

Meaux, who is 82, was recently honored with other veteran Cameron parish cattlemen during the annual Louisiana Fur and Wildlife Festival which saluted the cattle industry. He was the Cameron parish representative to the Louisiana Legislature from 1924 to 1948.

He was recognized as the oldest living cattleman in Cameron during a dinner given for the "Cowboys" by the Cameron Farm Bureau and Cattlemen Association.

Mr. Meaux said that when he helped write the constitution he was not yet in politics but this exposure gave him the urge to get involved and run for Representative's seat.

The Louisiana Constitutional Revision Commission was appointed to look over the Constitution and either revise or rewrite it.

This Baton Rouge meeting was to acquaint the Commission members and members of the press with the basic need for and concepts of Constitutional revision.

Cameron 11th in new investments

Cameron parish ranked eleventh among the 64 Louisiana parishes last year in industrial investment, according to the State Department of Commerce and Industry.

Police Jury President Frankie Henry proudly poinated out this fact to the jury Tuesday noting that 53 other parishes were behind Cameron in this regard.

Cameron had an industrial investment of $12,714,000 in 1970 with 12 new permanent jobs created. Most of the investment was in petroleum refining and chemical facilities.

Plaquemines led all parishes in new industrial investment with $200 million, followed by Calcasieu with $86.5 million and East Baton Rouge Parish with $53.2 million.

Others in the top 10 were: Caddo, $37.5 million; Pointe Coupee, $31.6 million; St. James, $28.2 million; St. Bernard, $26.2 million; Ascension, $24.6 million; Jefferson, $15.2 million, and LaSalle, $14.4 million.

SOUTHERN CORN LEAF BLIGHT still poses a threat to Cameron growers. Although it was not identified in the parish last year, it could occur this year as it occurred in a neighboring parish. Damage to corn can, in some cases it was a complete loss, was widespread throughout the South and Midwest Corn Belt. Tolerant hybrids and certain cultural practices are recommended to avert its occurrence.

Hybrid seed offered for sale this year will be tagged, showing the manner in which the seed was produced. The corn grower can select from seed marked N, B or T. This refers to the methods by which the hybrids were produced. For hybrids recommended by the LSU Agricultural Experiment Station, the N hybrid is expected to be more resistant to the Southern Corn Leaf Blight. The B seed from recommended varieties, which is a blend of N and T, is the second choice of LSU researchers. Tests at LSU Agricultural hybrid is the most susceptible of the three.

This means that the N type should be the growers first choice followed by B. If neither of these is available in the recommended hybrids, which are Funk G-4949, Funk G-5940, Pioneer 3009 and Pioneer 511A which is a white corn - (4949 is not suitable for crib storage in ear because of its poor husk quality), the grower should seriously consider an alternate crop.

PLANT IRISH POTATOES SOON - From now through the middle of February is the best time to plant Irish potatoes. Broad-shouldered ridged rows should be prepared by plowing and disking and drains opened to allow for good drainage.

Cut seed into blocky pieces that weigh from 1 1/2 to 2 ounces. When potatoes are planted very early, the 2 ounce seed piece is best. Plants from large seed pieces overcome injury better than plants from small seed pieces.

Plant the Red LaSoda, LaRouge or LaChipper varieties. Apply 2 lbs. of 8-8-8, 6-12-6 or equivalent fertilizer per 25 ft. of row. Two weeks after planting, when the first cultivation occurs, apply about 1/2 lb. of nitrate of soda per 25 ft. of row.

VEGETABLES TO PLANT IN FEBRUARY - Vegetables recommended for planting during February are: Beets, carrots, mustard, radishes, spinach, parsley and turnips. Cabbage and shallots should be transplanted. Tomatoes, eggplants and peppers should be placed in coldframes, if this has not been done yet.

Classes go on trip

The kindergarten classes of the South Cameron Elementary School enjoyed an educational trip to study the changes in the community during the fall season.

Thanksgiving boxes were carried to Mr. and Mrs. John Gaspard and Mrs. Cornelous Andrews, by the morning and afternoon classes respectively.

The children sang songs and said nursery rhymes.

Ray Conner, Tapon Inn, was nice in selling us a big ice cream cone for just a nickel.

Those making the trips were: Valerie Duhon, Owens Ledoux, Byron Broussard, Jeffrey Harmon, Vera Harmon, Tommy Nunez, Monique Guidry, Scott LaBove, Donna Savoie, Rosalind Lute, Karen Savoie.

ENGAGEMENT TOLD - Mr. and Mrs. Joe Gaspard, Sr. announce the engagement and forthcoming marriage of their daughter Glenda Ann to Ricky James Landry, son of Mr. and Mrs. Weldon J. Landry of New Iberia. The wedding is set for Feb. 13 in Our Lady Star of the Sea Church in Cameron.

Time to plant Irish potatoes

Jan. 26 to the middle of February is the best time to plant Irish potatoes in Louisiana, says A. C. Moreau, LSU Cooperative Extension Service horticulturist.

Broad-shouldered ridged rows should be prepared by plowing and disking and drains opened to allow for good drainage.

After opening the row, apply the fertilizer, about 6 inches deep, then run a shovel-type attachment down the furrow or a length of chain back of the fertilizer distributor. This mixes the fertilizer with the soil and will help prevent fertilizer burn of the seed pieces.

Cut seed into blocky pieces that weigh from 1 1/2 to 2 ounces. When potatoes are planted very early, the two-ounce seed piece is best. Plants from large seed pieces overcome injury better than plants from small seed pieces.

Plant Red LaSoda, LaRouge or LaChipper varieties. Apply 800 to 1,000 pounds of 8-8-8, 6-12-6 or equivalent fertilizer per acre based on a 3 1/2 to 4 foot row. Fertilizer can be applied at time of planting.

Plant seed pieces in the furrow, spacing about 12 inches apart, then cover with about four inches of soil. Two weeks after planting, when the first cultivation occurs, apply about 30 pounds of nitrogen per acre as a top dressing.

Cultivate very shallow at all times when potato plants are small. Each cultivation should be a lay-by type operation, so that the grower is not caught by too much rain and heavy vine growth when it will be impossible to lay-by the crop. Keep soil up to the plants at all times.

Erosion is problem

The gradual erosion of the Mississippi River delta land and its effects on the shrimp fishery will be among pertinent topics to be discussed at the 22nd annual convention of the Louisiana Shrimp Association, Jan. 21-23, at the Fontainebleu Motor Hotel in New Orleans.

Dr. Sherwood M. Gagliano of the Coastal Studies Institute at Louisiana State University at Baton Rouge, one of the convention speakers, stated that Louisiana will be 500 square miles smaller by the turn of the century unless measures are enacted to end the erosion of the river.

At the present time, the LSU scientist declared that erosion by the Gulf of Mexico was destroying delta lands at the yearly rate of 16.5 square miles. The present rate may be accelerated, he said.

Dr. Gagliano blamed the present system of levees for flood control, keeping the Mississippi River in a central channel, was responsible for the delta land erosion.

The LSU professor said that the land loss could be curtailed through carefully planned rerouting of the lower reaches of the river, creating new sub-deltas.

"Our data shows that the river is capable of building 12.3 square miles of new land per year if diversions were to be initiated along the lower reaches," he said. "This is about 75 per cent of the current net annual land loss of 16.5 square miles per year."

Dr. Gagliano said that sub-deltas also would create more estuaries which would benefit fish and wildlife.

Another convention speaker who will talk on Louisiana's coastal problems will be Dr. Leslie Glasgow of Baton Rouge, former assistant secretary of the Interior for Fish and Wild Life and Parks. Dr. Glasgow will speak on the extension of our coastal jurisdiction.

COUNTRY COOKIN'

DUMPLINGS

3 cups flour
1 stick oleo
2 eggs, well beaten
½ cup canned evaporated milk
½ teaspoon salt

Combine flour and salt. Work in softened oleo, add eggs then milk. The dough sohuld be real stiff.

Roll out on a slightly floured board and roll until almost tissue paper thin. Cut into small squares. Use a sharp knife for this and dip it in flour ever so often. Let set a few minutes. They may be placed on layers of wax paper and frozen.

Drop a few dumplings at a time in boiling stock and cook until done. Now in dropping the dumplings in the pot, be sure to keep the stock boiling and keep adding a few more until all are in pot. Then boil, gently, until done.

Some people cover pot, others do not cover until about done. Try using stock from pork back-bones as well as chicken.

Delicate pastry cups add a graceful touch to a brunch. Prepare pastry dough and roll out ⅛-inch thick. Cut out pastry rounds with 3-inch biscuit cutter. Place one round on bottom of muffin cup. Around side of muffin cup, overlap five pastry rounds, standing each on edge. Firmly seal side rounds to bottom. Prick with fork. Bake in preheated 450 degrees oven 10 to 12 minutes, or until brown. Cool and fill with prepared fruit pie filling.

HAYES PICOU, left, receives a certificate of appreciation, for being named Knight of the month of Our Lady Star of the Sea Council No. 5461, from Mike Styron, Council Fraternal Activity Chairman.

Hayes Picou named Knight of the Month

Ivy Meaux, district deputy of Knights of Columbus District No. 33, spoke to the members of Our Lady Star of the Sea Council No. 5461 in Cameron, last week.

He stated that the Cameron KC Council is the only one in the state as of this date, to have reached it's membership quota for the Star Council Award by the Supreme Council. The council needs only one more insurance member to meet the insurance quota for the John F. Kennedy Award.

Meaux also stated that a membership drive is now underway in the Knights of Columbus as a tribute to Pope Paul VI. The drive will end on March 28 with a Founder's Day Family Communion in all of the churches throughout the nation as an expression of loyalty to Pope Paul VI.

The District Deputy reminded the members that a new program of the Knights of Columbus provides for a free college education for all the children of Knights of Columbus members serving in the armed forces of the U.S., or civilian policeman, who are killed in line of duty. Meaux was accompanied at the meeting by Berton Doucet, District Warden, of Lake Charles.

Hayes Picou was named Knight of the Month for his work in providing meals at council meetings, and his participation in other council activities. Picou is a past Grand Knight of the council, and is the owner of Coastal Shell Co. in Cameron.

Nine Christmas food baskets were distributed to needy families in the Cameron area, sponsored by the Cameron KC Council. Sam LeBoeuf and E. J. Dronet served as co-chairman of the project.

Grand Knight Earl Mouton appointed the following members to make plans with the local court Catholic Daughters, to co-sponsor a benefit Mardi Gras Dance: W.H. Carter, Oscar Reyes, Mike Styron, Picou, and Mouton.

Ballots on rice due

Rice referendum ballots have been mailed out to Calcasieu and Cameron parish rice farmers, according to Charles S. Hackett, Cameron-Calcasieu County Executive Director. Hackett reminds rice growers that the ballots must be postmarked or received in the Calcasieu ASCS office by Jan. 22.

Ballots will be counted Jan. 27, at 8:00 a.m. in the Calcasieu ASCS office, Federal Building Lake Charles.

Those eligible to vote are anyone who shared in the 1970 rice crop or its proceeds. The eligible list includes owner-operators, Landlords, tenants and sharecroppers.

The 1971 program establishes rice acreage allotments the same as 1970 allotments. The national rice acreage allotments for 1971 is 1,836,461 acres. If at least two thirds of those voting approve of marketing quotas, these quotas will be in effect.

The Secretary of Agriculture is required by law to proclaim marketing quotas for rice whenever the total supply exceeds normal supply. This is the case this year, so his proclamation is required despite the quantities of rice going into export, both through USDA programs and commercial sales.

If quotas are approved, growers who exceed their acreage allotments will be subject to marketing quotas penalties on excess production, based on 65 percent of the June 15, 1971 parity price for rice. None of their crop will be eligible for price support. Growers who keep within their allotments may market all their rice production without penalty, and will be eligible for price support loans at not less than 65 percent.

If quotas are disapproved, there will be no marketing penalties, but a price support to growers who do not exceed their allotments will be limited to 50 percent of parity.

S. Cameron 4-H meeting

The South Cameron Junior and Senior 4-H clubs met Jan. 7 in the school auditorium. The pledges were led by Agnes Theriot and David Trahan. The minutes were read by the secretary, Sheila Wainwright. Treasurer's report was given by Cecil Myers.

A game was led by Michael McCall. Liz Richard and Brenda Bonsall, the float chairmen, gave a report on how everything was going to be fixed.

Medals were presented to different members by Mr. Ward. The members were taught how to make their record books.

PFC Roland Theriot tells of Army life

PFC Roland Theriot

PFC Roland Theriot left DeQuincy Dec. 21 after a 21-day leave with relatives and friends. He returned to his base at Fort Lewis, Wash.

A 1969 graduate of DeQuincy High School, he is the son of Mrs. Woody Poimboef and Eugene Theriot.

It was impossible for Theriot and the News staff to make connections for an interview during his leave; however, he has written a letter, bringing us up to date on what he has been doing, and the letter is shared with his friends through the News:

"On May 25, 1970, I reported for duty with the U. S. Army.

"I left Lake Charles, La., at 6:30 a.m. by bus for Houston, Tex. Upon arriving at Houston I was put on a jet for Los Angeles, Calif. It being my first plane ride, they didn't give me time to think how scared I was. I left Houston at 4 p.m. I must say it was quite a thrill. I arrived in Los Angeles at 8:20 p.m. Boy, Uncle Sam can really move you in a hurry.

"I took my basic training at Fort Ord, Calif. I was chosen a squad leader, which turned out to be a big responsibility. During my basic training it was quite a challenge, but I must say I enjoyed all they had to offer.

"After 8 weeks of basic training, I was granted a 13-day leave. Boy, DeQuincy sure did look good!

On Aug. 9, 1970, I then reported to Fort Lewis, Wash., for advance training in heavy equipment. While at Fort Lewis, I played post football. I played halfback and was the punter for our team. During the season I scored 14 touchdowns and kicked four field goals, one being a 40-yarder; the others were 18, 20 and 28 yards. We lost only one game out of 14.

"During the last game I received a broken right hand. I was then granted a 21-day leave.

"I have learned a lot from being in service. Some of those things are you learn how to travel and to take orders; most of all, always salute a general, no matter if you're in uniform or not!"

Satsumas good crop for parish

By CLIFFORD MYERS

The production of citrus, especially Satsuma which may be successfully grown commercially as far north as 100 miles from the Gulf, offers much potential in this area. Some of the most beneficial factors in this area are: climate, area market and suitable soil with hurricanes being one of the most serious problems.

Economically, under normal conditions, citrus will return more per dollar invested than most any other agriculture enterprise. It takes about 4 years from planting to first commercial harvest. The planting and caring for one tree for 4 years costs about $4.50. Thereafter, the cost is approximately $1 per tree per year for cultivating, pruning, fertilizing, disease and insect control.

This $1 maintenance per year can be greatly reduced, and as in most cases, because only fertilizer and a light cultivation is needed periodically to control grasses and weeds. With good management practice, 1 acre of matured trees should return a net income of at least $2,000 per year.

Most all citrus can be grown in Cameron Parish, provided they are the recommended varieties. The Owari Satsuma grown on triofiata stock offers the best possibilities at the present time. They are quite "cold" hardy. However, the degree of hardiness depends on its condition at the time of freeze.

When properly fertilized, free of disease and insect with a sufficient supply of soil moisture, either by natural conditions or irrigation, the satsuma tree will withstand a considerable amount of cold weather. Still further protection can be provided by spraying the entire tree during the freeze so as to form a coating of ice on it. Care must be taken not to overspray it as too much water can create an excess weight, thereby breaking the weaker limbs or branches.

The LSU Agricultural Research Department has recently developed a more cold hardy variety than the present recommended Owari variety. As this variety increases and becomes available on the market the only real threat to Cameron Parish citrus production will be the hurricanes.

Miller, Riggs to go to Maryland

By GENEVA GRIFFITH

In the hands of J. A. Miller rides the hopes that the world muskrat skinning contest title will come to Cameron and the Louisiana Fur and Wildlife Festival. Miller won the skinning contest at the recent Festival held in Cameron and a trip to the National Outdoor Show in Cambridge, Md., where he will be competing against the national champion for the world title.

Accompanying Miller will be Gail Riggs, Miss Cameron Parish, a freshman at McNeese State University, and her mother, Mrs. C. A. Riggs of Hackberry. The group will leave by plane Feb. 4 and return Feb. 7.

Each year the National Outdoor Show sends their Miss Outdoors and their fur skinning winner to the Louisiana Fur and Wildlife Festival in Cameron in January. Then the winner of the Louisiana Fur skinning contest and Miss Cameron Parish contest are sent to Cambridge as guests of the National Outdoor Show.

Miller is trying something new this year. He is taking his own rats with him. The Miller family, J. A., his father Fletcher and brother Wade, have tried various ways to transport the rats to Maryland. They have taken them frozen, alive in cages, in different ways. This time Miller will take them alive in cages but in compartments.

Miller says that the Cameron rats are different from the Maryland rats and figures if he can get his rats to Maryland safely he will have a good chance of winning the contest up there. He remembers one unhappy experience when the rats being transported in cages suffocated in the baggage compartment of the airplane.

The project, which is to be financed by a $1 million bond issue approved by property owners in eastern section of Cameron Parish, will open the Mermentau river for barge navigation and provide better drainage for a large area.

Arnold C. Jones is president of the East Cameron Port Commission.

School tax vote set March 20th

The Cameron Parish School Board has called a special election for March 20 to submit to the voters of the parish a proposition to levy a seven mill tax on parish property for ten years to provide additional financial support for the public schools.

The tax would go into the school board's general fund and would be used for all of the schools in the parish.

W. J. Montie, school superintendent, said he would explain the need for the new tax in a statement to be released soon.

Garbage vote postponed here

An election to renew a three mill tax for maintaining garbage collection in Garbage District No. 1 of Cameron Parish has been postponed to a later date.

Garner Nunez, parish treasurer, said that the election was postponed so that it could be held at the same time as a tax renewal election for Cameron Water District No. 1.

The garbage election was to have been held Feb. 16.

50 miles of road construction set

The Cameron Parish Police Jury is presently in the process of constructing and receiving bids for new construction and re-surfacing of parish roads to include 50.816 miles at an estimated cost of $1,467,000. These projects will include resurfacing and hardsurfacing of many roads located in each of the six wards of the parish.

The Cameron Parish Police Jury recently received bids on Project #713-32-96 Road Royalty fund and awarded a construction contract to R. E. Heidt Construction Co. of Lake Charles. The cost of this project is $247,129.38. This includes work on 21.42 miles of parish roads in the parish.

In March, 1971 bids will be received on 6.198 miles of construction work in the town of Cameron at an estimated cost of $100,000.

Parish Project #713-32-83 construction bids will be received in March, 1971 for black topping of 2.013 miles at an estimated cost of $80,000. This will be financed through Act 10 funds.

Cameron Parish Project #713-38-52 Road Royalty Fund bids will be received early this spring for the hard surfacing of 21.180 miles of parish roads at an estimated cost of $1,060,000.

Mail box asked for Oak Grove

The Cameron Parish Development Association voted recently to get up a petition to request a mail deposit box at Tarter's Grocery Store at Oak Grove. It will be signed by people in that area and will be forwarded to the proper authorities telling the reasons for the box.

Cutley Vincent reported on the abundance of alligators and suggested a controlled hunting season. Vian Theriot suggested that the Association write to the Wildlife and Fisheries Commission asking for a limited hunting season for alligators as there are many that are destroying other wildlife.

Alligator show set for Sunday

The Louisiana Wild Life and Fisheries Commission announced that the television show "The American Sportsman", featuring alligator capturing and research on Rockefeller Wildlife Refuge, will be shown on ABC Sunday, Jan. 31, beginning at 3:15 p.m.

The outdoor television show, featuring Curtis Gresham, along with wildlife commission personnel Ted Joanen and Larry McNeese, will show actual capturing of alligators at night and other details of the refuge's long-range alligator research.

In commenting on the television show, Allan Enzminger, chief of the commission's refuge division, pointed out that Louisiana serves as an excellent example of how a reptile faced with possible extinction has been restored in numbers that now warrant a regulated alligator hunting season, as existed in former years.

"Louisiana has over four million acres of marshland with an abundant population of alligators. There are also thousands of acres in the Atchafalaya Basin where alligators are plentiful," he said.

"Instead of being an endangered species, alligators in Louisiana are now regarded as a renewable resource," he said. "It is hoped that before long there can be a regular open season for the taking of alligators which are highly in demand in the leather goods industry."

The show may be seen in this area at 3:15 p.m. Sunday on Channel 3, KATC in Lafayette.

New business is opened here

J. C. Phillips announced this week the opening of a new business in the building formerly occupied by Sooner Supply Co. in Cameron.

Known as Tap Industries, the business includes a garage and paint and body shop, equipment rental service and sewerage contracting work. A service station also will be opened.

Phillips has been in the automotive business for about 30 years and formerly was service manager for Golden Chevrolet in Cameron.

Watershed structure accepted here

The foundation for Structure No. 1 in the Cameron-Creole watershed project has been accepted, according to J. A. Davis, contracting officer. Members of local sponsoring organizations and the Soil Conservation Service held the final review Thursday, Jan. 21.

The work was performed by Mike Hooks, Inc. of Lake Charles. It consisted of excavating the unfavorable mush material out of the location and replacing it with sand.

The site is near the mouth of Grand Bayou in the marsh, north of Cameron. The large water management structure that will be built here will be used, together with 19 miles of levee and several other structures and channels, for water management over the 113,000 acre watershed.

The Cameron-Creole watershed project is located in the Cameron-Gibbstown-Creole-Grand Lake area, south of the Intracoastal Canal. It is sponsored by Cameron Parish Gravity Drainage District No. 3 and 4, the Gulf Coast Soil and Water Conservation District and the Cameron Parish Police Jury.

Construction is being done with financial assistance under Public Law 566, the small watershed act. Technical help is being furnished by the Soil Conservation Service and the Louisiana Department of Public Works.

The U. S. and State wildlife agencies and others have assisted in developing the work plan.

Irvin Sonnier, SCS engineer, left, and J. A. Davis, Gravity Drainage District No. 3 contracting officer, discuss structure No. 1 foundation in the background.

PFC Roland Theriot tells of Army life

PFC Roland Theriot

PFC Roland Theriot left DeQuincy Dec. 21 after a 21-day leave with relatives and friends. He returned to his base at Fort Lewis, Wash.

A 1969 graduate of DeQuincy High School, he is the son of Mrs. Woody Poimboef and Eugene Theriot.

It was impossible for Theriot and the News staff to make connections for an interview during his leave; however, he has written a letter, bringing us up to date on what he has been doing, and the letter is shared with his friends through the News:

"On May 25, 1970, I reported for duty with the U. S. Army.

"I left Lake Charles, La., at 6:30 a.m. by bus for Houston, Tex. Upon arriving at Houston I was put on a jet for Los Angeles, Calif. It being my first plane ride, they didn't give me time to think how scared I was. I left Houston at 4 p.m. I must say it was quite a thrill. I arrived in Los Angeles at 8:20 p.m. Boy, Uncle Sam can really move you in a hurry.

"I took my basic training at Fort Ord, Calif. I was chosen a squad leader, which turned out to be a big responsibility. During my basic training it was quite a challenge, but I must say I enjoyed all they had to offer.

"After 8 weeks of basic training, I was granted a 13-day leave. Boy, DeQuincy sure did look good!

On Aug. 9, 1970, I then reported to Fort Lewis, Wash., for advance training in heavy equipment. While at Fort Lewis, I played post football. I played halfback and was the punter for our team. During the season I scored 14 touchdowns and kicked four field goals, one being a 40-yarder; the others were 18, 20 and 28 yards. We lost only one game out of 14.

"During the last game I received a broken right hand. I was then granted a 21-day leave.

"I have learned a lot from being in service. Some of those things are you learn how to travel and to take orders; most of all, always salute a general, no matter if you're in uniform or not!"

Satsumas good crop for parish

By CLIFFORD MYERS

The production of citrus, especially Satsuma which may be successfully grown commercially as far north as 100 miles from the Gulf, offers much potential in this area. Some of the most beneficial factors in this area are: climate, area market and suitable soil with hurricanes being one of the most serious problems.

Economically, under normal conditions, citrus will return more per dollar invested than most any other agriculture enterprise. It takes about 4 years from planting to first commercial harvest. The planting and caring for one tree for 4 years costs about $4.50. Thereafter, the cost is approximately $1 per tree per year for cultivating, pruning, fertilizing, disease and insect control.

This $1 maintenance per year can be greatly reduced, and is in most cases, because only fertilizer and a light cultivation is needed periodically to control grasses and weeds. With good management practice, 1 acre of matured trees should return a net income of at least $2,000 per year.

Most all citrus can be grown in Cameron Parish, provided they are the recommended varieties. The Owari Satsuma grown on trifoliata stock offers the best possibilities at the present time. They are quite "cold" hardy. However, the degree of hardiness depends on its condition at the time of freeze.

When properly fertilized, free of disease and insect with a sufficient supply of soil moisture, either by natural conditions or irrigation, the satsuma tree will withstand a considerable amount of cold weather. Still further protection can be provided by spraying the entire tree during the freeze so as to form a coating of ice on it. Care must be taken not to overspray it as too much water can create an excess weight, thereby breaking the weaker limbs or branches.

The LSU Agricultural Research Department has recently developed a more cold hardy variety than the present recommended Owari variety. As this variety increases and becomes available on the market the only real threat to Cameron Parish citrus production will be the hurricanes.

Miller, Riggs to go to Maryland

By GENEVA GRIFFITH

In the hands of J. A. Miller rides the hopes that the world muskrat skinning contest title will come to Cameron and the Louisiana Fur and Wildlife Festival. Miller won the skinning contest at the recent Festival held in Cameron and a trip to the National Outdoor Show in Cambridge, Md., where he will be competing against the national champion for the world title.

Accompanying Miller will be Gail Riggs, Miss Cameron Parish, a freshman at McNeese State University, and her mother, Mrs. C. A. Riggs of Hackberry. The group will leave by plane Feb. 4 and return Feb. 7.

Each year the National Outdoor Show sends their Miss Outdoors and their fur skinning winner to the Louisiana Fur and Wildlife Festival in Cameron in January. Then the winner of the Louisiana Fur skinning contest and Miss Cameron Parish contest are sent to Cambridge as guests of the National Outdoor Show.

Miller is taying something new this year. He is taking his own rats with him. The Miller family, J. A., his father Fletcher and brother Wade, have tried various ways to transport the rats to Maryland. They have taken them frozen, alive in cages, in different ways. This time Miller will take them alive in cages but in compartments.

Miller says that the Cameron rats are different from the Maryland rants and figures if he can get his rats to Maryland safely he will have a good chance of winning the contest up there. He remembers one unhappy experience when the rats being transported in cages suffocated in the baggage compartment of the airplane.

Mail box asked for Oak Grove

The Cameron Parish Development Association voted recently to get up a petition to request a mail deposit box at Tarter's Grocery Store at Oak Grove. It will be signed by people in that area and will be forwarded to the proper authorities telling the reasons for the box.

Curley Vincent reported on the abundance of alligators and suggested a controlled hunting season. Vian Theriot suggested that the Association write to the Wildlife and Fisheries Commission asking for a limited hunting season for alligators as there are many that are destroying other wildlife.

Alligator show set for Sunday

The Louisiana Wild Life and Fisheries Commission announced that the television show "The American Sportsman", featuring alligator capturing and research on Rockefeller Wildlife Refuge, will be shown on ABC Sunday, Jan. 31, beginning at 3:15 p.m.

The outdoor television show, featuring Grits Gresham, along with wildlife commission personnel Ted Joanen and Larry McNeese, will show actual capturing of alligators at night and other details of the refuge's long-range alligator research.

In commenting on the television show, Allan Enzminger, chief of the commission's refuge division, pointed out that Louisiana serves as an excellent example of how a reptile faced with possible extinction has been restored in numbers that now warrant a regulated alligator hunting season, as existed in former years.

"Louisiana has over four million acres of marshland with an abundant population of alligators. There are also thousands of acres in the Atchafalaya Basin where alligators are plentiful," he said.

"Instead of being an endangered species, alligators in Louisiana are now regarded as a renewable resource," he said. "It is hoped that before long there can be a regular open season for the taking of alligators which are highly in demand in the leather goods industry."

The show may be seen in this area at 3:15 p.m. Sunday on Channel 3, KATC in Lafayette.

Watershed structure accepted here

The foundation for Structure No. 1 in the Cameron-Creole watershed project has been accepted, according to J. A. Davis, contracting officer. Members of local sponsoring organizations and the Soil Conservation Service held the final review Thursday, Jan. 21.

The site is near the mouth of Grand Bayou in the marsh, north of Cameron. The large water management structure that will be built here will be used, together with 19 miles of levee and several other structures and channels, for water management over the 113,000 acre watershed.

The Cameron-Creole watershed project is located in the Cameron-Gibbstown-Creole-Grand Lake area, south of the Intracoastal Canal. It is sponsored by Cameron Parish Gravity Drainage Districts No. 3 and 4, the Gulf Coast Soil and Water Conservation District and the Cameron Parish Police Jury.

Construction is being done with financial assistance under Public Law 566, the small watershed act. Technical help is being furnished by the Soil Conservation Service and the Louisiana Department of Public Works.

The U. S. and State Wildlife agencies and others have assisted in developing the work plan.

DON'T CROSS OUT A BRIGHT FUTURE

Will X mark the spot where family life stopped being rewarding... where parents stopped talking to children and children stopped talking to parents... where everybody stopped sharing and started going his own way?

Then X may well mark a dread and dangerous crossroad... where your children turned to drugs. To stop drug addiction the sure way — by prevention, before it starts — frank and honest communication between parents and children is absolutely vital.

Don't cross out a bright future for your children. As a parent, make sure they know they can discuss any and every problem with you — without fear of recriminations, and with complete assurance of sympathetic understanding. Show your willingness to listen, your eagerness to hear and exchange opinions.

When you talk to your children, be prepared. A full understanding of drugs and their dangers is vital, too. Check with local school, civic and medical organizations for accurate information about drug abuse.

Learn the facts... so you can help your children turn away from drugs, toward a bright future.

Grand Chenier News

By ELORA MONTIE

After speaking with some local cattlemen at the Chenier concerning the conditions during the winter months, most state cattle are in good shape and the freeze we had did not harm the cattle.

They also said the rye grass planted for winter grazing was not hurt by the cold weather yet this winter, along with the pastures of dog-grass which are still very green in spite of all the cold.

The many barns full of hay stored this past fall has also been a great help to cattle.

This past week Valian and Oliver Theriot Sr. trucked in several cattle to the sale in Lake Charles. They also in turn bought several head of younger cattle which they brought back here to their farm.

Dr. M. O. Miller of New Orleans spent the past week here along with his employees who were busy working cattle at Mullberry.

Valian Theriot has been busy this past week building a green house. He plans to have early garden vegetables to transplant and is working to have tomatoes and peppers to eat the year around.

Calcasieu Marine has annual meet

Stockholders of the Calcasieu Marine National Bank had their annual meeting Tuesday and received reports of the continuing growth and success of the Bank.

Cecil K. Colon, President, said assets at year's end were $183,789,234.82 as compared to $154,891,895.45 for the previous year. Net earnings for the year were reported to be good.

Colon stated that during the year 1970 the Calcasieu Marine made payments totaling $698,864.00 in state, parish and city taxes in the areas in which the Bank operates.

William T. Burton, Chairman of the Board, stated in his report that the year of 1971 could be a year of economic adjustment.

Directors re-elected at the stockholders meeting included W. T. Burton, Robert L. James, Cecil K. Colon, Frank Field, Elmer E. Shutts, and Sam L. Puckett.

Immediately following the stockholders meeting the Board of Directors met and re-elected officers of the Bank as follows: W. T. Burton, Chairman of the Board; Robert L. James, Vice Chairman of the Board; Cecil K. Colon, President; Frank Field, Senior Vice President; L. J. Baquet, Vice President; L. H. Crowell, Jr., Vice President, and Trust Officer; J. W. Ferguson, Vice President; C. E. Kingsley, Vice President; J. Leo McGough, Vice-President; Andrew Reed, Vice-President; T. F. Stebbins, Vice-President; and W. W. Bill Thompson, Vice-President.

Additionally, the Board elected the following Officers, which are promotions to elevated positions; Sam L. Puckett, Executive Vice-President; Allen J. Rhone, Senior Vice-President; J. M. Mike Duhon, Vice-President; and Roy J. Miller, Jr., Assistant Manager of the DeQuincy Branch of the Calcasieu Marine. Previously, Puckett served as Senior Vice-President; Rhorer as Vice-President; Duhon as Assistant Vice-President; and Miller was on the Staff as Acting Assistant Manager at the DeQuincy Branch. All Branch Managers and other Officers were re-elected.

Savings & Loan has a good year

J. O. Fogleman, president of Calcasieu Savings and Loan Association, told stockholders Monday that the association recorded substantial growth in 1970 and that plans were well underway to expand the operation during 1971.

In his annual report, Fogleman said 1970 represented a record year for savings growth -- an increase of $4.5 million.

He said that in spite of a sluggish housing market during the year, the association made loans totaling $0-.75 million and that earnings after taxes reached a record high of $500,-000. Fogleman said the earnings brought the association's reserves up to $4.3 million to provide a real bulwark of safety for savers in addition to the federal insurance.

Total assets at the end of 1970 exceed $68 million, another new high for the association, he said.

During the year, dividends amounting to $2.9 million were paid out to $21,000 savers, Fogleman said.

Fogleman said the most significant long-range accomplishments during 1970 was the obtaining of approval to establish four new branch offices. The Cameron Parish branch was opened last year and branches in DeQuincy, Moss Bluff and Vinton will be opened soon, he said.

Hackberry FFA has sweetheart

The Hackberry High School Future Farmers of America have elected as their first chapter sweetheart, Dianna Vincent, the daughter of Mr. and Mrs. Lee Vincent.

Miss Vincent, who is a sophomore, will reign until January, 1972 and will be the chapter's entry next year in the Miss Cameron contest at Cameron.

Steve Racca, chapter advisor, said she also will work at the Cameron Parish Livestock Show Feb. 6 handing out trophies and ribbons.

Shrimp groups opinion asked

The Louisiana Wild Life and Fisheries Commission today advised all organized shrimp associations, individuals and interested groups to submit their opinions or recommendations pertaining to a new line defining inside and outside shrimp waters.

These opinions or recommendations must be submitted in writing and should be addressed to Dr. Lyle S. St. Amant, assistant director. This should be done at once so that the commission will adopt regulations defining inside waters at its next public meeting, scheduled to be held at 10 a.m. Tuesday, Feb. 16, in Room 256, Wild Life and Fisheries Building, New Orleans.

"Interested organizations and individuals should act promptly," St. Amant said, "and they should be prepared to attend the public meeting Feb. 16 to support their recommendations."

Immediate action by the commission to set a new boundary defining inside waters was made necessary by recent rulings of the Louisiana Supreme Court which declared that most of the present legislation, enacted the Legislature and governing shrimp laws, was unconstitutional.

St. Amant stressed that all recommendations must be made in writing and addressed to him at the commission's main office, 400 Royal Street, New Orleans, Louisiana 70130.

He said that the commission will take positive action on Feb. 16 and this left little time for representatives of the shrimp industry, and associated industries to make their opinions known.

Membership drive set by Knights

Earl Mouton, Grand Knight of Our Lady Star of the Sea Council No. 5461, Knights of Columbus, in Cameron, has announced that his council will reaffirm its loyalty to the pastoral leadership of His Holiness Pope Paul VI, during January, February and March by conducting a concentrated membership recruitment program in his honor.

In making the announcement, Mouton said, "It occurs to us that there is no finer time in the history of the Church for our society to reassure His Holiness of our deep love and loyalty to him."

During the first three months of new years, Our Lady Star of the Sea Council No. 5461 will join with approximately 6,000 other Knights of Columbus units throughout the United States, Canada, Mexico, Philippines, Puerto Rico, Canal Zone, Guatemala and the Virgin Islands to encourage Catholic laymen to become enrolled in the Knights of Columbus.

Barbecue set by Legionnaires

Plans were made to hold a spring barbecue Sunday, March 28 at the meeting of the Richard Bros. Post 176, American Legion at the post home in Creole last week. The proceeds from the barbecue will go toward the liquidation of the building loan.

Jules Dronet, Post Commander, was in charge. Delegates were named to attend the Mid-Winter Conference in New Orleans Jan. 30 and 31. They were Jules Dronet, Ellis McWhirter, Preston Richard, Edras Nunez, and D. W. Griffith.

Phimia LeBouef was presented with a 50 membership pin for collecting dues of over 75 members for 1971. Domet announced that the local Post was second in district with 100% membership.

The following outstanding members of the post were named as nominees to receive the Honor Legionaire of America award: Dronet, McWhirter and LeBouef.

Duhon rites

Funeral services for Philoxi Duhon, 63, were held from the Sacred Heart Catholic Church in Creole Sunday.

Mr. Duhon died at 10 p.m. Saturday in South Cameron Memorial Hospital after a brief illness. He was a lifelong resident of Cameron Parish.

Survivors include his mother, Mrs. Joe Duhon of Creole; two brothers, Luke Duhon of Creole and Doris Duhon of Lake Arthur; two sisters, Mrs. Emile Labove of Grand Lake and Mrs. Shelton Milles of Lake Arthur.

The archery contest sponsored by the Mallard Rod and Gun Club which had been cancelled recently due to bad weather, was held this week.

The winter's exercises brought the number of degrees awarded by LSU's Baton Rouge campus to some 68,000 since its first commencement more than a century ago.

Creole HD officers named for new year

At the initial 1971 meeting of the Creole Home Demonstration Club held recently in the home of Mrs. Clifford Myers, President Mrs. Robert Ortego announced that the 1970 officers would serve in 1971.

Along with Mrs. Ortego, officers are: Mrs. Yenest Miller, 1st vice-president; Mrs. Robert Wicke, 2nd vice-president; Mrs. Clifford Myers, 3rd vice president; Mrs. John M. Theriot, secretary; Mrs. William Morris, treasurer; Mrs. Harold Cates, reporter; Mrs. Robert Montie, publicity book; and Mrs. Horace Montie, parliamentarian.

Mrs. Ortego thanked the members who had worked on the Home Demonstration council float which won second place honors in the Most Beautiful category in the Fur Festival parade. The Creole club headed the float-building project.

A discussion on sewing was conducted by agent Patsy Granger with various members volunteering information on procedures they used in sewing the new synthetic materials. Clothing leader, Mrs. John M. Theriot, read an article on the latest synthetic fabric, Qiana.

A new American flag donated to the club by the Woodmen of the World, was presented to Mrs. Ortego by Mrs. Morris.

Council delegates were reminded that the first Council meeting of 1971 will be held Thursday, Feb. 4, at the courthouse.

Miss Granger gave a demonstration on "Foundation Garments".

Mrs. Myers, assisted by Mrs. Horace Montie as cohostess, served refreshments to the 17 members and four guests.

County Agent's Report

By CLIFFORD MYERS

COMPETITIVE SHRUB CONTROL - The results of an experiment last year on the control of Sumpweed or Mangrove proved very successful. A total of five gallons of solution per acre composed of 2 pints of water soluable low volital ester 2, 4, 5-T, 1 gallon of diesel fuel, 1 quart of multi-film per 10 acres and water to complete the five gallons was used. The aerial spraying will be conducted during the first part of April. Anyone interested should contact the County Agent's office.

FREEZE GETS WEAK BATTERIES - Keep your battery fully charged during the cold winter months if you want quick starts in the mornings. Freezing weather will cause a fully charged battery to deliver only 65 percent of its cranking power.

* * *

FIRE ANT - Many residents have inquired about the presence of fire ants on their place. Even though the ants are working at the present time, probably due to our mild winter, it is a little too cold for successful control at this time. I would recommend home owners to wait till it warms up this spring before trying to control them.

However, partial kill can be obtained at this time. The recommended chemical "Mirex" can be obtained from the Plant Pest Control office located in Room 2505 of the Lake Charles Federal Building. The person in charge and address is:

James D. Rozas, P. O. Box 1581, Lake Charles, La. 70601, Phone No.: 433-4070

Talent show set

The Sweetlake Community Center will sponsor a talent show Sunday, Feb. 7 at 5 p.m. at the Center. All interested persons are asked to contact Mrs. Gerald Helms, Mrs. Clyde LeDoux, Mrs. Wayne Foster or Mrs. Albert Guidry.

Admission will be 50¢ and 25¢ for children. Proceeds will be used to do repairs on the center.

Boards to meet

A joint meeting of the Board of Directors of the Cameron Parish Cattlemen Assn. and Cameron Parish Farm Bureau organizations has been called for next Tuesday night, Feb. 2, at Fred's Restaurant at 7 p.m., according to James Cox and Alex Benoit, Jr., presidents of the two organizations.

Around the Capitol

By JACK GOULD

BATON ROUGE -- Even some of the legislators who voted against allowing the 18-year-olds to vote are now admitting that it is just a "matter of time, for better or worse."

By "better," they mean it will be good to have some 200,000 more youngsters interested in government, including many with ideas, workable or not; and certainly more "independent" voters.

By "worse," critics seem to mean: (1) most of the "kids" will not bother to cast their votes, or (2) "I'm not sure they will vote for me," or (3) those who do vote will do as their parents say.

Capitol objective observers say that if the younger boys and girls get "set up," they will turn out in numbers large enough to swing some elections; and many of their parents will admit to you "they don't listen to us any more."

One thing is sure: Many teenagers saved the list of legislators who voted for and against their having the vote, vowing to "remember both lists, even if we have to wait three years!"

But the key word in the first paragraph is "time" -- time to amend the state constitutional provisions limiting the vote to those 21 or over.

Normally, a vote to amend the constitution can occur only in general elections. This would seem to mean that even if the legislators passed such a measure in May, people could not vote on it until Feb. 8, 1972.

In the meantime, however, how about a suit in the U. S. courts challenging the Louisiana provision limiting the vote to those 21-or-over? The U. S. Supreme Court has already ruled, in effect, this is a state business.

A suit in state courts? Always possible, of course, but on what grounds? That "other states are doing it?" None of Louisiana's business, legally. On grounds of "old-enough-to-fight, etc.?" Legally -- so what?

Someone may yet come up with something. All that can be reported for sure is that many of the young people are "up tight" about it, and that some of their views are most interesting.

This ancient (to them) scribbler was permitted (tolerated) to listen in on their talk, and found some of their views most practical. They say they are in favor of making changes--but only after a serious study of needs.

Some admitted being in favor of the younger candidates, generally; but would vote for an older man or woman of experience rather than a strict "novice."

A lighter angle on the "youth vote," but one of interest to young parents, arose last week when a district court clerk asked the attorney general's office for a rule as to whether "children may accompany" a parent into the voting booth.

The answer, in part: "If you are referring to very small children who would be frightened if they were separated from their parents, then obviously these children would not be mature enough to either divulge the identity of their parent's choice or to render assistance to their parents . . . The commissioner must use his discretion."

Nearly 17½ million tribesmen inhabit some 90,000 square miles of the Congo, an area larger than Texas and Alaska combined.

Pan American has new name

The name of a major corporation with operations in this area changed Feb. 1. Pan American Petroleum Corporation is now Amoco Production Company.

The change, announced by Randolph Yost, Amoco Production president, is official in all states where the company operates as the domestic exploration and production arm of Standard Oil Company (Indiana).

"The company has changed only its name and adopted the Torch and Oval symbol used by other Standard subsidiaries," Yost said. "Its policies, organization and operations remain the same. The change was made to identify Amoco Production more closely with other operating subsidiaries of the Indiana Standard organization."

Involved in the change are a multitude of legal and informational details, many of which will be completed in coming weeks. Over 1,000 filings with governmental units - federal, state and local - will be made. New commercial checks and business forms used by the company are appearing. More than 34,000 property signs are being installed at lease, well and plant locations.

Hundreds of company trucks, boats and cars are being identified with the new name and company hallmark, and hundreds of thousands of notifications of the change have been sent to those with whom the company does business.

Participating in the name change are company personnel in Tulsa; in division offices in New Orleans, Houston, Fort Worth and Denver; in various area office towns and cities, and at thousands of oil and gas field and production-processing facilities.

Absentee voting in the election will begin in the clerk's office Monday, March 1 and continue until 5 p.m., Friday, March 12.

Parish's population up 18.6 percent

Cameron Parish's official population in the 1970 Census was 8,194, up 18.6 percent from the 1960 figure of 6,909, the Bureau of the Census, U.S. Department of Commerce, reports.

The official population of the state was 3,641,306, up 11.8 percent from the 1960 population count, which was 3,257,022.

The 1970 Census counted 7,504 white persons in Cameron Parish, 91.6 percent of the total; 666 Negroes, and 24 persons of other races. In 1960, 93.6 percent of the population was white.

The Census showed 882 children under 5 years; 2,416 in ages 5 through 17; 4,288 people 18 through 64; and 608 who were 65 and older. The population 14 years and over included 3,921 married people, 310 who were widowed, 123 divorced, and 1,212 never married.

Cameron Parish's 1970 population was classified as 100 percent rural.

There were 2,309 households with 8,179 persons, including 274 one-person households. In addition 15 persons were living in group quarters.

The 1970 census counted 3,296 housing units in Cameron Parish, 1,738 of them occupied by owners, 571 occupied by tenants, and 987 vacant. These included vacant units for seasonal use. The proportion occupied by owners in 1970 was 52.7 percent, compared with 53.7 percent in 1960.

Among year-round dwelling units there were 2,714 single family houses, 167 housing units in multi-unit buildings, and 211 mobile homes or trailers. The percentage of occupied units with more than one person per room was 18.5, compared with 23.6 in 1960. Of all the occupied housing units, 2,091 had piped water, toilet, and bath, while 218 lacked some or all plumbing.

The median value of owner-occupied houses in Cameron Parish was $9,000, compared with $6,500 in 1960. The median rent paid by tenants in 1970 was $51 per month, compared with $65 in 1960. Half were over and half below the median figures.

These results are from two 1970 census advance reports for the state: PC (V2), general population characteristics, and HC (V1), general housing characteristics. The reports, which contain additional 1970 Census data for the state and various areas within it, may be purchased at nominal prices from the superintendent of documents, U. S. Government Printing Office, Washington, D. C. 20402, or from offices of the U. S. Department of Commerce in major cities.

Further reports giving more extensive statistics on the characteristics of the population and housing will be published in future months as the 1970 census results are tabulated.

Rice quotas are approved here

The nation's rice growers have approved marketing quotas on the 1971 crop, in a mail referendum held last week, announced Francis Klein, chairman of the Cameron Parish Agriculture Stabilization and Conservation Committee.

Preliminary tabulation of the referendum ballots shows approval by 89 percent of the total vote in Cameron Parish, 84 voting for and 9 against.

At least two-thirds of all the producers voting must approve marketing quotas to make the program effective.

The 1971 national allotment was set at 1,836,461 acres in compliance with the law requiring rice plantings to be placed at a level that will fulfill domestic and export needs and allow for a 10 percent carryover.

Rice acreage allotments were not affected by the vote, since they remain in effect as an eligibility basis for price-support loans, regardless of the referendum outcome.

Mardi Gras

Catholic Daughters of America, Court Our Lady Star of the Sea #1898 will sponsor a children's Mardi Gras dance and party Sunday, Feb. 7 at the Cameron Recreation Center. Admission will be 50¢ per child and not as stated earlier as $1.50).

The costume categories are listed as funniest, ugliest, prettiest, and a best overall category.

Pilot whale ashore on Cameron beach

Whale beached here

Rockefeller Refuge biologists Guthrie Perry and Larry McNease, accompanied by Paul H. Dubon of Cameron, secured the skull portion of a pilot whale beached five miles east of the mouth of the Mermentau River.

The skull was prepared, the flesh boiled away in a solution of enzyme presoaker, and the bones bleached by the sun.

Dr. George Lowery, Louisiana State University Museum of Natural Science, identified the skull as that of a Pilot Whale (Globicephala macrorhyncha) common to the Gulf of Mexico. It is the first specimen received on a Cameron Parish beach. Dr. Lowery plans to display the skull at the museum.

Sheriff's request is tabled here

A request by Sheriff Claude Eagleson to the Cameron Police Jury Tuesday that he be permitted to remodel his office touched off a challenge by one juror to the sheriff's collection fee percentage.

Hackberry Juror C. A. Riggs said he would be willing to let the sheriff remodel his office if he took the funds out of the sheriff's funds but that he was opposed to the money coming from the courthouse account.

Riggs charged that Eagleson is getting a 16 percent fee on all taxes collected, which he said was the highest in Louisiana.

Riggs said that the former sheriff only took 12 percent. He said that he believed the sheriff should reduce the percentage and if he wouldn't that the legislative delegation should reduce the percentage by law.

The juror pointed out that the sheriff was receiving 16 percent of the $1,840,000 in taxes collected and that the sheriff had a larger budget than many other parishes with much larger populations.

Riggs said the sheriff had too many deputies, although they were underpaid.

Police Jury President Frankie Henry, who had brought the remodeling matter up, asked the jury to table it for the time being.

OTHER MATTERS

Liquor permits for businesses operated in Ward 5 by Leanna T. Broussard and Paul S. Broussard were approved.

Permits were also approved for C & K Offshore Co. for a pipeline in Calcasieu Lake, for Kerr-McGee and Odeco for offshore drilling, and for Union Oil of California for a Sabine Lake well location.

The right-of-way for a new channel for the Mermentau river to the Gulf was transferred from the jury to the East Cameron Port Commission.

The election for the renewal of a maintenance tax in the Cameron District #1 was reset for March 9.

HOUSING AUTHORITY

A resolution giving the new Cameron Parish Housing Authority permission to seek a federal grant and make a survey of low rent housing needs in the parish was authorized. Joe O'Donnell has been named chairman of the Housing Authority.

Dennis Welch was named to serve out the unexpired term of his father, A. P. Welch, on Drainage District #4 board of commissioners.

Jack Moore was renamed to the Hackberry water board.

The jury accepted the donation of a bridge over Deep Bayou in Ward 5 from Crain Bros.

Resurfacing of a road in the Klondike area, which has been torn up by oilfield traffic, was approved.

A resolution was adopted by the jury saluting L. D. McCorquodale upon his retirement as district highway engineer.

A resolution was adopted urging the U. S. Interior department to grant a right of way for the new evacuation route to be built north from Cameron east of Calcasieu lake. The route will go through the Sabine Wildlife Refuge.

Need of school tax is explained

NEWSPAPER-MICROFILM

Cameron Parish School Superintendent W. J. Montie has issued the following statement explaining the need for the 7-mill school tax to be voted on March 20.

Dear Fellow Citizens:

Over the years our goal has been to provide for your children the best education possible with the least expense to you. This is so important because we all know that a good education is essential for the well-being of our children, today.

We now have modern, clean, air-conditioned school buildings in each community of the parish. Efficient bus transportation, an ample supply of instructional materials, audio-visual aids, competent teachers, laboratory equipment, and many other aids to learning are being provided by the Cameron Parish School Board.

In an effort to encourage high school graduates to attend college or trade school, we have provided a free transportation system for the children of our parish to higher educational institutions in Lake Charles. As you know, many of our children would never have received a college or trade school education without this service.

In an effort to lower the high rate of traffic accidents in our area involving our young people, we inaugurated a Driver Education Program. We firmly believe this has made a major contribution in reducing automobile accidents involving young drivers.

We are so proud of our Kindergarten Program. In order to help your children get ready for school, we have established Kindergartens in all of the school communities. This is one of the most important contributions to a good education foundation and the proper development of our children's abilities.

Our High Schools now offer many elective courses to broaden the background of our children and to enable them to compete with the young people of other areas. Such courses as Business Education, Home Economics, Band, Vocal, Music, Industrial Arts, Vocational Agriculture, Speech, etc., are offered.

Did you know that there are 2,238 students enrolled in Cameron schools from Kindergarten through grade 12? Instructing these children requires 136 teachers, transporting the students to school and back home involves 36 busses and drivers, 28 lunchroom workers prepare and serve hot lunches at seven schools each day, 12 janitors clean the buildings and maintain the school grounds, 4 kindergarten helpers assist the kindergarten teachers, 3 maintenance men repair and maintain the buildings and equipment, and 2 secretary-bookkeepers maintain records and reports for the system. A total of 244 people are involved in providing instruction and supportive services for the parish school system. All this costs money!!

The above are only some of the services, facilities, and expansions made to our schools in an ALL OUT EFFORT to give our children the FINEST EDUCATION AVAILABLE . . . . But this costs money and a lot of money . . . . Although we have expanded our services directed at excellence in education, the income for our schools has not increased.

In order to continue these services and provide our children with an excellent education, our schools need and must have additional money. To get these funds, the people of Cameron Parish are asked to approve a small property tax of seven mills. Such a tax is SUBJECT TO HOMESTEAD EXEMPTION. EVERY REGISTERED VOTER (WHETHER HE OWNS PROPERTY OR NOT) CAN AND SHOULD VOTE. Voting will be by voting machines and by secret ballot. The election is SATURDAY, MARCH 20, 1971.

Your help is needed to give our children the best education possible by going to the polls on Saturday, March 20, 1971, and voting for good schools in Cameron Parish.

COUNTY AGENT REPORT

By CLIFFORD MYERS

TIME TO FERTILIZE TREES AND SHRUBS - If not already done so, trees and shrubs should be fertilized within the next week or so. In most cases, a regular balanced fertilizer such as 8-8-8 or 12-12-12 should be used at the rate of 1 to 1 1/2 lbs. per year age of tree. In the case of pecan trees, which are heavy feeders, 2 lbs. per year age of tree should be used.

When applying the fertilizer, approximately 50% should be placed along the drip line of the tree, that is, directly beneath the end of the branches. The remaining 50% divided equally between a point half way from the trunk to the drip line and extending the same distance beyond the drip line. The fertilizer should be placed completely around the tree in these three areas. Ideally, would be to broadcast in the sod, evenly distributed, in these three areas. However, this is impractical and therefore it is normally applied by making holes in these three areas and putting the fertilizer in it.

The holes to put the fertilizer can be made with a shovel at a depth of 3 to 6 inches depending on the age and kind of tree or shrub. In filling the hole after the fertilizer is applied, the grassy side can be put down against the fertilizer which will cause it to decompose adding some nitrogen to the soil and also will keep it from getting the benefit of the fertilizer as it would if placed back like it was.

PEACH TREE SCALES - It is somewhat late at this time to spray peach trees for scales. It should be done as soon as the tree goes in dormant which is somewhere around the first frost temperature in early winter. During the early dormant stage, oil emulsion is used. However, it is best to use Ethion-Oil in cases of severe infestation. Make first application immediately following the beginning of dormancy. Wait at least six weeks and check for live scale; if present make second application. Best results will be obtained if temperature is above 60F. and sun is shining at time of application. Do not apply oil after buds turn pink.

Electric Co-ops DO Pay Taxes

Let's set the record straight: Rural Electric Cooperatives DO pay taxes!

Last year taxes paid by Rural Electrics across the United States totalled almost $50 million. In Louisiana alone, nearly a million dollars was paid to 54 parishes and 36 small towns in areas served by the 13 locally-owned systems operating in the state.

AN AMAZING, but unfortunate, lack of understanding has existed for some time about the tax-paying status of the Electric Co-ops. They had a 25-year exemption from ad valorem taxes, beginning in 1942, to help bring service to rural people — 98 percent of whom had no electricity. Perhaps that's why some folks are confused. The exemption expired in 1967, and although a continuing one, the Rural Electrics volunteered to pay fair and reasonable taxes on all their facilities.

Organized as non-profit corporations, the Co-ops' only purpose is to supply member-owners with good electric service at the lowest possible rates. At the end of each business year, any margins accumulated by the Co-ops are accrued to the membership in the form of capital credits, and are eventually refunded to the members. The Rural Electrics have no profits to tax.

However, the Co-ops are paying their fair share of property taxes toward the support of all sorts of public improvements, including highways, streets, schools, drainage programs, etc.

THIS IS ESPECIALLY significant in view of the fact that the Co-ops own nearly half of all the distribution power lines in the state (34,000 miles) but enjoy less than 5 percent of the total revenues from power sales because of the sparsely-settled areas they serve.

Don't let anybody tell you differently: The Rural Electrics are good, tax-paying citizens — doing their part for both town and country progress in Louisiana.

A New Name In The Oil Industry

Amoco Production Company

Pan American Petroleum Corporation, the U. S. exploration and production subsidiary of Standard Oil Company (Indiana) is now Amoco Production Company.

The change, which became effective February 1, enables our company to be more readily identified with other operating units of Indiana Standard.

We have only changed our name. The change in name in no way affects our policies or business methods—practices which have enabled us to grow more rapidly than the industry and become one of the nation's largest producers of crude oil, natural gas and products extracted from natural gas, such as sulfur. As Amoco, we will continue to develop energy resources which are vital to our nation while, at the same time, operating in a manner which will preserve our environment.

Area queens in Washington

Southwest Louisiana will be well represented at the Washington D. C. Mardi Gras festivities this week. Two McNeese University coeds will be representing their Festivals and parishes.

They are Arlene LeBlanc from New Iberia, Delcambre Shrimp Queen, and Cheri Griffith, from Grand Chenier, Louisiana Fur Queen. Accompaning the two Queens to Baton Rouge were Mrs. D. W. Griffith and Mrs. Braxton Blake.

In Baton Rouge they had lunch with Gov. John McKeithen at the Governor's mansion Wednesday. Wednesday night in New Orleans they were feted at a dinner given by Commissioner of Agriculture Dave L. Pearce. Then they were honored with a reception at the Rault Center by the King of the Mardi Gras, Dr. Clarence A. Lorio Sr. of Lakeland. They also were presented with the Keys to the City of New Orleans.

Many functions have been planned for the visiting queens during their stay in Washington climaxed by the annual Ball at the Sheraton-Park Hotel.

New boundaries to be defined

The Louisiana Wild Life and Fisheries Commission today announced the agenda for its monthly public meeting to be held in New Orleans Tuesday, Feb. 16.

The commission will define a new line for inside and outside waters to be observed by shrimpers during the approaching spring season for trawling. All interested persons are urged to be present at the meeting.

Other items on the agenda include adoption of a resolution requesting a September teal season; and a request by the Mineral Board to readvertise a small mineral lease on Rockefeller Wildlife Refuge.

Supt. Montie to retire June 30th

Wilson J. Montie, Cameron parish school superintendent for the past five years, announced at the school board meeting Tuesday that he will retire on June 30. He has been associated with the parish's schools for the past 36 years.

Mr. Montie, who will be 59 in March, said he was retiring because of health reasons.

The school board will name Mr. Montie's successor at a later date.

A Cameron parish native, Mr. Montie began his teaching career in 1935 at the old Grand Lake School. Six years later he transferred to the old Creole high school where he taught for one year.

He was the principal at the Johnson Bayou school for two years and principal at Creole high for seven years.

Mr. Montie was assistant parish superintendent for 15 years before being named superintendent Sept. 1, 1966.

APPOINTMENTS

In other business, the school board approved several teacher appointments.

Cheryl Elaine Whitlow was named to replace a teacher at Cameron Elementary who is on maternity leave.

Pamela Veron was named an English teacher at South Cameron high school to replace Royland Miller who resigned.

The annual parish Government Day program was set for Thursday, March 25.

Historical sites to be marked

A new project is being undertaken by the Cameron Parish Home Demonstration Council to mark historical sites in the parish with appropriate markers.

Mrs. D. W. Griffith made the suggestion for the project to start as soon as the "Know Your Parish Tours" are completed. The last tour is scheduled for May 11 in the Sweetlake area.

Mrs. Griffith pointed out that she has been corresponding with a historian in Texas who is writing two books about the parish and has information that the battle of Calcasieu Pass fought in Cameron during the Civil War was of greater significance than the battle of Sabine Pass in which Dick Dowling gained so much fame.

She suggested that the history of each site be worked up by a committee and plans be made to get state or federal aid on the project.

Mrs. Bynum Shove, HD Council president, appointed a committee to work with Mrs. Griffith on the project. They are Msdms. Braxton Blake, Harold Carter, Charles F. Hebert and Miss Patsy Granger.

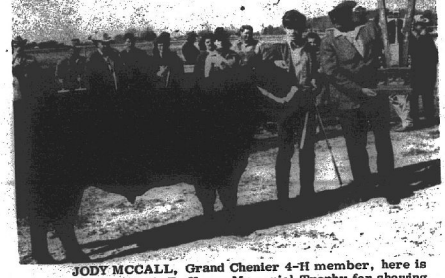
Miller to transport some live muskrats to the National Outdoor Show in Cambridge, Maryland where he was to compete in the National Muskrat skinning contes. Miller is the Cameron Fur and Wildlife Festival champion muskrat skinner.

It was announced that Harold Savoie, owner of Fred's Restaurant, was the winner of the award for selling the most tickets for the Kentucky Rifle.

A film, "The Evangeline Story," was shown and a goose, coot and oyster gumbo was served.



JODY MCCALL, Grand Chenier 4-H member, here is presented the C. F. Henry Memorial Trophy for showing the grand champion beef breeding animal at the Cameron Junior Livestock Show. Rep. Conway LeBleu makes the presentation.

FBI AGENT George Campbell is shown speaking to Junior Deputies at Hackberry high school. The Junior Deputies are sponsored by Sheriff Claude Eagleson.

Jr. Deputy program organized in parish

FBI Agent George Campbell of Lake Charles was guest speaker at a meeting of the Hackberry Unit of the newly organized Cameron Parish Junior Deputy program last week at Hackberry high school.

Campbell explained the opportunities within the service and said that some of the seniors might be interested in looking into the program.

The Junior Deputy Program is a pilot program sponsored by Sheriff Claude Eagleson with the first company being organized at Hackberry. Sheriff Eagleson hopes to acquaint the parish youth with the law enforcement department and to teach respect for the laws of the land. He also wants to give them a better understanding of how the laws are made.

50 boys have joined the Hackberry program to date. The Sheriff hopes to expand and have the program parishwide by fall. The next companies will be organized at South Cameron High School and Grand Lake School.

Each Junior Deputy is furnished with a badge and a shoulder patch, designed by Deputy Riley Richard. Classes are held once a month and last for two hours each. Field trips are being planned such as to Angola and LCIS.

The program is being directed by Deputy Richard, Cameron Parish Juvenile officer. Richard is a graduate of LSU Law Enforcement Academy and the Juvenile Officers Training School. He has been a resident of the Johnson Bayou area since 1959.

Richard says a similar program is being carried out in Calcasieu and the local program is modeled after it.

One hundred and fifty-six head of livestock were exhibited at the 10th annual Cameron Parish Junior Livestock Show held at the Hackberry recreation center in Hackberry Saturday according to Uland Guidry, Assistant County Agent.

Most of the animals exhibited will be shown at the Southwest Louisiana District Livestock Show in Lake Charles, Feb. 25 - 28.

Conway LeBleu of Cameron is sponsor of the award which is presented to the owner of the grand champion beef breeding animal of the show. Jody's animal was an Angus bull and this is the second year that he has won the award.

WORLD CHAMPION Muskrat Skinner J. A. Miller of Cameron displays the two trophies that he won at Cambridge, Md. The one on the left is a rotating trophy which he gets to keep if he wins three years in a row.

Miller now world champion skinner

J. A. Miller, Cameron Parish's and the Louisiana Fur and Wildlife Festival's representative to the National Outdoor Show in Cambridge, Maryland, last week shattered the world's record in muskrat skinning in a record time of 52.1 seconds for five muskrats.

The record up to that time was 1 minute 3 seconds.

J. A. won his right to compete in the national contest when he won the muskrat skinning contest at the Fur Festival in Cameron, Jan. 9. He won the expense paid trip which is the yearly prize offered in this contest.

J. A.'s father, Fletcher Miller, is a well known Cameron Parish trapper and has won the contest many times himself. However, his best time is 1 minute 4 seconds for skinning the five rats. J. A.'s younger brother, Wade, competed in the national contest last year and came out in second place.

Miller had tried to take his own rats with him this time, since the Cameron rats are a bit different from the Maryland rats. However, the airline would not let him take them on board so he had to ship them. He took 10 and 7 arrived alive. The Millers have tried various ways of transporting rats to the national contest. They have taken them frozen, and tried shipping them in the baggage compartment of the airplane but they died in route.

Accompaning Miller to the Outdoor Show was Gail Riggs, Miss Cameron Parish and her mother Mrs. Charles Riggs of Hackberry.

TV show said misunderstood

Clark M. Hoffpauer, director of the Louisiana Wild Life and Fisheries Commission, said today there had been international misinterpretation of a recent news release issued by one of the members of the commission, primarily calling attention to a recent television show filmed at Rockefeller Wildlife Refuge in southwest Louisiana.

The television show depicted the extensive research program on alligator that has been carried out for years on the refuge and the news release pointed out that alligators were no longer "endangered" in Louisiana and that the state had a large population of alligators.

"The Louisiana Wild Life and Fisheries Commission has not advocated an open season on alligators, as was reported in many interpretations of the original news release," Hoffpauer said. "There are no plans to advocate such a season this year."

Alligator populations were restored in Louisiana by strict enforcement of the closed season; and that this enforcement effort was strengthened by federal legislation that made interstate shipment of illegal alligator skins a federal offense as well as a state violation.

The Church Speaks On FREEDOM OF THE PRESS

Mass media, of course, exert a vast power in the shaping of public opinion.

What people think on questions of public concern is often influenced by what they read in a newspaper, hear over radio and television, or see at a neighborhood movie. In some cases, these are the chief sources for information on which people make moral, social and political decisions.

It is no wonder, then, that the Church took a long and searching look at the instruments of social communication during the recent Vatican Council. And while affirming a strong belief in freedom of the press, the Council emphasized a moral obligation inherent to such freedom.

"An open and timely revelation of events and affairs," a Council decree said, "provides individuals with a grasp of them which is sustained and considerably detailed. As a result, men can actively contribute to the common good and all can more easily foster the development of the whole civic community."

The Council's decree, however, points out that mis-use of the power of the mass media can be devastatingly destructive. "Slanting" or managing of the news to prejudice the public in favor of a particular point of view, the decree declares, should be scrupulously avoided by those who control the media.

"Each man," the decree asserts, "should strive to form and to voice worthy views on public affairs." To do this, it adds, "requires discriminating reading and viewing as a background to forming and voicing worthy views." Providing such material, the decree concludes, is the moral obligation of all mass media.

"Rightly used," the decree says of all mass media, "they can bring solid nourishment to the human race." But if they are to be properly used, "it is absolutely necessary that all who use them know the norms of morality and apply them faithfully in this field."

If you are engaged in the mass communication field... or feel the influence of mass media in the shaping of your own views... you'll want to read our new pocket-size pamphlet dealing with the Council's discussion of this vital question. We'll be happy to send you a copy free and without obligation.

Kelli Vincent, daughter of Mr. and Mrs. Burnell Vincent of Hackberry, was named "Little Miss Majorette of Southwest Louisiana" for 1971 at the third annual Miss Majorette Pageant at Westlake High School, Saturday, Feb. 13.

Heart drive is under way

The 1971 Heart Fund Drive is in progress during February, according to Parish Drive Chairman J. B. Jones, Jr.

He said volunteers will be calling on residents for contributions. If anyone is missed, they may send their contribution directly to Mr. Jones in Cameron.

Red Cross drive set for March

"March has been, for years, designated as Red Cross Month. It is at this time that the Red Cross appeals for funds to give service to military and their families, under aid in national disasters and furnish other services, such as water safety, first aid, home nursing, fire watch and youth programs, free of charge," said Eridge Dugas, Jr., Chapter Chairman.

This past year, the Calcasieu-Cameron Chapter of the American Red Cross, has had two hurricane alerts and evacuations of Cameron Parish, where the residents, who had no place to go, were fed and housed in Red Cross Shelters.

Also, in October, 1970, the Big Pasture area in Cameron Parish was struck by a tornado, partly demolishing several homes and the total destruction of one home and a house trailer. The Red Cross came to the aid of these unfortunate victimes, in the way of good, furniture, clothing, medical aid and rebuilding. "This aid is given as a grant, not a loan, and is in no way expected to be paid back, but we do appeal for donations from Cameron Parish every March," Mr. Dugas said.

George to have two birthdays

It's a little confusing but George Washington will have two birthdays this year.

Post office employees here and across the nation observed George's birthday this past Monday as the new "long weekend" vacation plan went into effect for federal employees.

However, state and parish employees are still observing Washington's birthday on Feb. 22 and state and parish offices will be closed here Monday for the holiday.

New church to be used here

Myron LaFargue, a past grand knight, and presently a district insurance agent for the Knights of Columbus of Sulphur, spoke to the members of Our Lady Star of the Sea KC Council, at their monthly meeting. He emphasized the need for each member to review their present insurance program in light of the effects of present day inflation in relation to the life coverage.

LaFargue was accompanied at the meeting by Ludren Darbonne, district deputy of District No. 35, and A. J. Goodfriend of Sulphur.

Delegates to the Knights of Columbus State Convention in May, were selected as follows: Grand Knight Earl Mouton, Past Grand Knight Tony P. Cheramie, and Financial Secretary James L. Dercuen. Alternates are: Mark Richard, Claude Eagleson and Hayes Picou.

Council Public Relations Chairman E. J. Dronet reported that the Knights of Columbus Supreme Council Committee for Decency is urging all the members of the order and the general public to obtain and fill out U.S. Postal Form No. 2201 in an effort to safeguard themselves and their families from the intrusion of filth pornography via the mails.

The new law provides for stiffer penalties to the smut peddler guising himself as interested in an asserted constitutional freedom of speech, when in fact it is for the "fast buck", according to the committee. Dronet urged all local members to fill out the form 2201 at their post offices.

The Cameron KC members are to have a clean-up detail at the new church building beginning at 6:30 p.m. on Wednesday, Feb. 17. The Rev. Alcide Sonnier, pastor, stated that tentative plans are being made to move into the new church for the first Mass 6:00 p.m., Saturday, Feb. 27.

A rabbit sauce piquant was prepared by Rev. Sonnier and served to the members.

Dimas, LaBove are honored

Gary Dimas and Evans LaBove were singled out as Knights of the Month for February. Both are very active in clean-up work around the hall and are very faithful members.

Comparisons given on school taxes

A comparison of school taxes in Cameron parish with seven surrounding parishes was given this week by Cameron Supt. W. J. Montie.

Cameron parish voters will vote on a 7-mill school tax on March 20.

Mr. Montie's statement follows:

Many people have asked for a comparison of Cameron Parish's local school tax structure with the school tax structure of surrounding parishes in Southwest Louisiana. A comparison will be made based upon the highest school millage district in each parish and including all millage levied for the support, operation, maintenance, and construction of buildings.

Calcasieu	42 mills
Beauregard	33 mills
Allen	57 mills
Jeff Davis	34 mills
Vernon	74 mills
Acadia	36 mills
Vermilion	23 mills
Cameron	21 mills

It should also be noted that each of the seven above parishes have an additional one cent sales tax dedicated to the operation of public schools.

Cameron does not have a sales tax as an added revenue for school support.

The above information is on file in the State Department of Education.

Of the eight Southwest Louisiana Parishes, Cameron has the lowest tax millage for school purposes. Cameron is one of only four parishes in Louisiana that does not have a special school maintenance and operations tax.

It should be pointed out that all registered voters are eligible to vote in the school tax election to be held March 20, regardless of whether they own property. Please go to the polls and support the children in Cameron Parish Schools.

September teal season asked

The Louisiana Wild Life and Fisheries Commission, at its regularly scheduled monthly public meeting in New Orleans, adopted a resolution requesting another nine day September teal season during the fall of 1971.

The request, directed to the U. S. Department of the Interior, calls for the season to fall between Sept. 1 and 26, 1971, and for a daily bag limit of six blue or green-winged teal.

It was stated that the blue-wing teal population migrates southward down the Mississippi and Central flyways before the regular duck season opens, which makes utilization possible only through the establishment of a September season. This season which has proven to be biologically sound in the past affords increased public interest in conservation programs designed to perpetuate the waterfowl resource.

County Agent Report

By CLIFFORD MYERS

RYEGRASS FERTILIZATION - Plans should be made now to top-dress ryegrass the latter part of this month or early March for maximum forage production. Apply from 60 to 80 pounds of actual nitrogen per acre. An example would be from 200 to 225 lbs. of ammonia nitrate per acre. The ryegrass plant would not receive much benefit from an application of phosphorus and potash at this time. Therefore, the recommendation is only nitrogen at this time. The phosphorus and potash along with nitrogen is applied at planting time.

CATTLE LICE - Generally, lice are more abundant on cattle during the winter months. When infestations become heavy, cattle will be seen rubbing against posts, fences, trees or other available objects in an effort to obtain relief from the irritation of the lice. Balls of hair hanging on objects or areas of skin with the hair rubbed off will be noted. Heavy infestations result in reduced vitality, loss of production and increased susceptibility to disease.

Lice spend all their lives on cattle. The life cycle is completed in 2 to 3 weeks.

Cattle should be inspected periodically for lice. Examine the head, neck, shoulders and around the base of the tail to determine when treatment is necessary. The recommended chemicals to use for lice control on beef cattle are: Co-Ral, Delnov, Korlan, Malathion and Methoxychlor. Any one of these will do an excellent job provided it is used according to the directions on the container.

PINE SEEDLINGS - I still have a few pine seedlings left. The cost is 1¢ per seedling. Anyone interested should contact the County Agent's office in Cameron - 775-5516.

FARM JUNIOR LIVESTOCK SHOW AND SALE - I believe all who witnessed the Parish Jr. Livestock Show and Sale this past weekend will agree with the comment of one of the judges, and I quote:

"This is as fine a group of youngsters and exhibits as you would see most anywhere."

Much credit goes to Mr. Guidry on his supervision of these projects, along with the cooperation of parents and the supporters of the sale of market animals.

Many are interested in the secret as to how these animals become champions. It is very simple, plenty of TLC - that is, tender loving care. Animals, like humans, are born with a certain potential in life. All that can be done is to develop this potential.

This potential can be developed to its fullest extent by going the extra 1/2 mile or just doing the bare minimum, thereby developing just the bare minimum of its potential.

Two charged with thefts of saddles

A series of saddle thefts which began back in Oct., 1969 is believed by sheriff's deputies to be solved with the arrest of two young Sulphur men and the recovery of 10 saddles, bridles and assorted saddle accessories valued at more than $4, - 000.

Jailed on one charge each of burglary and theft are Clifton Alexander, Jr. 20, of 1115 E. Napoleon St., and Henry Joseph Vincent, 22, of Rt. 1, Box 439, Sulphur.

Alexander was arrested by deputies Friday and Vincent was arrested the next day. Charges were filed with the district attorney's office Tuesday. Bonds were set at a total of $2, - 000 each.

The memory of two Cameron Parish deputies of the saddle owned by Jim Miller of DeQuincy led to the first break, the Calcasieu Parish Sheriff's office said.

Cameron deputies Al Hinton and Gene Constance spotted the saddle in Hackberry and noted the likeness of the saddle to one stolen from Miller.

They contacted Calcasieu Deputy Harvey Boyd, who had been working on the saddle thefts. Miller identified the saddle as one stolen from him.

It reportedly was traded to a Hackberry man for a pair of spurs and a sow earlier this month.

Miller's saddle, one bridle and two saddle pads, valued at $399, were stolen about Jan. 25, Boyd said. It was the theft of this saddle and burglary of the Livestock Commission barn at DeQuincy which were charged against the pair.

After deputies obtained a search warrant for the home of one of the suspects, the recovery of the other stolen saddles began.

Among saddles recovered were those stolen from Bayou Stables, East Broad Street in October, 1969; from Dr. Geo H. Vincent in February 1970; from Mike Hoole farm on Houston River Road in early 1960; and from the DeQuincy Livestock Commission Barn in 1970.

Absentee vote

The Clerk of Court advises that absentee voting on the special school tax election will be held from March 1 through March 12.

Answers given on school tax issue

Further information on the 7-mill school tax to be voted on March 20 has been furnished by School Supt. W. J. Montie as follows:

Since several questions concerning the need for the proposed 7 mill school tax have arisen, the following information should clarify these questions:

Reasons for a 7 mill tax:

1. The cost of operation of the schools has steadily increased just as the cost of living to you has increased (11.7% in the last two years).

2. Enrollment in the parish schools has increased. This has caused a need for additional school furniture, teachers, janitors, bus drivers, books and supplies.

3. Although the expenses of operation have increased, the parish school revenue has not kept pace with expenses. One of the major sources of revenue has been oil leases, and this source has almost been non-existent since 1968. Since this is a very unreliable source of revenue, school expenditures cannot be based on such an income.

4. Due to the parish oil revenues, the school board is penalized by the state through the state equalization formula which results in the parish receiving only 17 per cent of total school support from the state.

Many people have asked the question, "Why is Audrey Memorial School closed?"

Audrey Memorial School was closed in 1970 as part of the Order of the Justice Department to achieve a unitary school system, or total integration of our school system.

Others have asked, "How was the New Construction in the parish funded?"

The bond issues of 1968 that were submitted to and approved by the property owners in the four school districts of the parish provided funds for the construction, remodeling, air conditioning and alterations to the several schools. The Cameron Auditorium and South Cameron Elementary School were the m jor new constructions.

Please go to the polls on March 20, 19 71, and vote to support the 7 mill school tax.

W. J. Montie, Superintendent

Arnold Granger given honor

Trapping to be extended in La.

The Louisiana Wild Life and Fisheries Commission today extended the trapping season in three Louisiana parishes through March 15. The action took place at the regular public monthly meeting of the commission held in New Orleans.

The season for trapping both nutria and muskrats in that part of Cameron parish west of Hwy. 27, bounded on the north by the southern boundary of Sabine National Wildlife Refuge, and bounded on the west by the Sabine River.

In Vermilion parish, the trapping season was extended for muskrats and nutria through March 15, in that area bounded on the west by Six-mile Canal, and on the east by Audubon Refuge, on the south by Ellis Isle Bayou and on the north by Schooner Bayou.

Reapportionment links Caméron and Jeff Davis

Under the tentative plan for the reapportionment of the Louisiana House of Representatives, Cameron and Jeff Davis parishes would comprise one district and would share one representative.

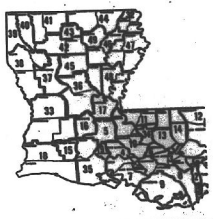
At the present time Cameron and Calcasieu are in one district and share five representatives.

Some opposition already has developed in Cameron parish to the plan, with it being pointed out that since Jeff Davis has a much larger population than Cameron parish that it will be hard to ever elect a representative from Cameron.

At the present time, one of the five Calcasieu-Cameron representatives is from Cameron -- Conway LeBleu.

The Cameron Lions Club last week adopted a resolution urging that Cameron and Calcasieu remain in the same district. It was pointed out that Cameron and Calcasieu have historical ties and there are many areas of mutual interest between the parishes.

The reapportionment plan will not be final until it is approved by the legislature, either at a special session or at the regular fiscal session in May.



PRESENT STATE REPRESENTATIVE DISTRICTS

Parents may take the children to their family doctor for the immunizations or they may get them through the parish health unit. Certain immunizations are now required by law before a child begins school. Your doctor or the public health nurse will be able to list these immunizations for you.

Cherie to be in wildlife film

The two queens appeared in the reviewing stands in their evening gowns, crowns, and fur stoles. They were filmed watching the Saturday night Mardi Gras parades, being toasted by the parade kings and mingling with the kings after the parades.

The film will be processed and released in approximately six months to be shown on television and in other promotional activities.

Sweetlake community center history given

By MRS. TOM TAYLOR

More than 200 persons turned out for the benefit talent show held at the Sweet Lake Community Center recently.

Featured were many locally talented acts, including speaking, ballets, humorous skits, sacred music, singing and band music.

Those in charge of program, appointed by Lyons Breaux were: Mrs. Albert Guidry, Mrs. Wayne Foster, Mrs. Clyde LeDoux and Mrs. Jerald Helms, with Jerald Helms as master of ceremonies. Admittance fees collected by Wayne Foster, added to Center's treasury $76.25. A German chocolate cake donated by Mrs. Clyde LeDoux was sold to highest bidder, Mrs. Mervin Chesson for $13.50.

The Sweet Lake Community Center, was organized in October of 1955 for the following purposes: to promote the welfare of the community, to provide an adequate meeting place for civic and private meetings, for religious and educational meetings and socials for teenagers and for any meeting which promotes good fellowship and the welfare of the community. It also provides a polling place for precinct 8 of ward 4.

In the first eight years of its operation the Center was used 258 times.

For the past several years it has merely been existing with the exception of a few improvements such as the interior of building getting a fresh coat of paint and the piano repaired and refinished.

It was during this depression period, voluntary workers did repairs which were an absolute necessity in order to save building from total deterioration. Material used for repairs as well as improvements were made possible by generous donors. Butane gas was provided in similar manner.

Last Nov. 12, at a meeting of the Board of Directors, ways of raising funds for repairing the building was discussed.

At the following meeting held at the Center Nov. 18, it was voted to add five new members to the board. It was also decided to share the Center with the neighboring community of Grand Lake.

New members elected on Board of Directors are: Jerald Helms, Mr. and Mrs. Wayne Foster, Mrs. Lena Guidry and Vernon McCain. GRAND CHENIER NEWS

By ELORA MONTIE

Chenier folks enjoyed beautiful warm weather the past week with 75° to 78° temperatures. Folks took advantage of the nice weather in many ways. Some were busy with their spring Irish potato planting which is always the first crop planted here at the Chenier. A very few who still plant corn were busy preparing their land for later planting. For the past few years corn planting has been on a decrease, two reasons are due to bugs in the corn crops and trouble with the coons eating the crop before it is harvested.

The ladies are also busy making necessary preparations for their spring flower planting as well as garden vegetables.

The warm weather this past week brought out many more blossoms on fruit trees and berry vines are covered with white flowers as though there will be a good crop this year.

Most of the trees are putting on a new crop of leaves with the exception of the pecan trees which know winter is not over yet.

This past week Chapman Drilling Co. moved in their rig on the Chenier to drill a well for Superior Oil Co. who has land leased from Kinney and Sims near the property of Watkin Miller. Superior Oil Co. recently completed a well on the property of Watkin Miller near where this well is now being drilled.

Drilling here at the Chenier for several years has slowed down. Considering one well being drilled here at this time now where there used to be several wells drilled at this time of year by oil companies.

Mr. and Mrs. Sonny McCall had an old time hog boucherie Saturday at their home. Helping them were Mr. and Mrs. Claudius Bonsall and Charles and Mrs. Mamie Arceneaux of Sulphur.

A speedy recovery is wished Debbie Swire who is in South Cameron Hospital. She is the daughter of Mr. and Mrs. Rapheal Swire of here.

Purchasing a new 1971 Ford recently were Mr. and Mrs. Leroy Henry.

Gerald Bonsall purchased a 1971 dark blue pickup Ford last week.

At the Grand Chenier Methodist Church Sunday was "Ladies' Day." Miss Patsy Granger was guest speaker. Mrs. Ward Fontenot sang a solo. Mrs. Lyle Crain led the all ladies choir.

Sunday night the program was in charge of Garner Nunez. The study group were shown slides by Mr. and Mrs. Walter Helms of their trip to Russia, Germany and other countries that they toured with the farm group.

A supper was prepared and served by Mr. and Mrs. Garner Nunez. Out of town guests were Mrs. Tom Taylor, Mr. and Mrs. Herman Precht, Debra and Phil, Mr. and Mrs. Edmond Helms and Mr. and Mrs. Walter Helms all of Sweetlake; and Mrs. Beulah McKay of Beaumont, Tex.

IT'S TOO COMMON

In most of the United States, the poinsettia is a prized Christmas flower. In Hawaii, however, it grows so profusely that it is considered too common for such an important holiday. Potted orchids, anthurium or the orange-and-blue flower called "bird of paradise" are Hawaiian holiday favorites.

THANKS TO RURAL ELECTRIFICATION

Town and Country Are Partners In Progress

Most everyone knows what rural electrification means to farmers. We wonder how many city-urban folks realize how much they share in the blessings of low-cost power?

Take a look at main street in your town. We believe you'll agree it is greatly dependent upon the agri-business industry — by far the largest in Louisiana. Everywhere you look you'll see busy grocery and clothing stores, processing plants, etc., directly dependent upon agriculture. Then there are the auto, implement, appliance and hardware dealers; repair shops, banks and many others whose success or failure is directly linked to agriculture.

Rural electrification is the very lifeline of both town and country progress. Without adequate, modern, low-cost power for agricultural production and rural development, rural Louisiana would wither and die upon the vine — and the towns and cities with it. Each is dependent upon the other.

Our rural leaders know from experience that non-profit Electric Cooperatives are the **ONLY** way **ALL** rural people can have electricity at reasonable cost. The low density of consumers and high investments involved in rural service do not permit total area coverage with reasonable rates any other way. That is why supplementary REA loans are still important.

No matter where you live, you have a great stake in the Rural Electrics. **Everyone must eat.** Town and country are not islands apart. One cannot prosper without the other. Rural electrification is the lifeline that makes Town and Country true Partners in Progress.

Body of man is found Sunday

The body of a 19-year-old shrimper from Port Arthur, Tex., was found floating in the Calcasieu ship channel just south of Cameron at 9:40 a.m. Sunday, according to the Cameron Sheriff's Department.

Parish Coroner said that the man, Daniel Hebert, apparently had been dead several days. There was no evidence of foul play, he said.

Hebert, who was working on the shrimp boat, "Lyco-X", had last been seen on Feb. 18 and he was reported missing on Feb. 23.

The body was discovered by Henry A. LaFosse, who reported it to the sheriff's department.

Reapportionment stand taken by police jury

A resolution urging that Cameron, Calcasieu and Jeff Davis parishes be put into one district and given five state representatives under the new reapportionment plan for the Louisiana House of Representatives was adopted by the Cameron police jury Tuesday.

The jury took the action at the request of the Cameron Lions Club that had passed a similar resolution earlier.

Charles A. Riggs of Hackberry offered the resolution pointing out under the proposal the representative district would be the same as the present senatorial district.

Riggs pointed out that under the alternate plan of putting Cameron and Jeff Davis in a district by themselves they only one representative, Cameron stood a good chance of being unable to elect a representative because of the larger vote in Jeff Davis.

"With the five between the three parishes, I feel we would have a chance of electing one," he said.

The motion was seconded by Charles Precht of Sweetlake and adopted unanimously by the jury.

Police jury President W. F. Henry was critical of Rep. Bob Jones of Lake Charles, whom he said had gotten the jury's opinion on reapportionment and than had voted the opposite way.

CLAYTON NUNEZ points to the holes in the plate glass window of his new package liquor store caused by someone with a slingshot last Saturday night. Four firms were hit by the vandals.

Reward offered in vandalism

Sheriff Claude Eagleson has offered a $100 reward to anyone furnishing information leading to the arrest and conviction of the person or persons who broke plate glass windows at four business places in lower Cameron last Saturday night.

The windows were broken with small stones apparently hurled from a slingshot by someone in a vehicle.

In Cameron a window was broken at the Gulf Coast Supply Firm; one was broken at the Golden Chevrolet building and four were broken in the new package liquor store that is being opened by Clayton Nunez.

At Grand Chenier a window in the Cameron State Bank branch was broken.

Also broken apparently by the same vandals was the back window on a truck owned by Stanley Audoin and parked on Cameron's main street.

Sheriff Eagleson said it was believed that the vandalism occurred sometime after midnight Saturday.

Anyone with information on the incidents are requested to contact Sheriff Eagleson or any of his deputies.

Daigle to seek reelection here

J. Berton Daigle has announced that he is seeking re-election to the office of clerk of court, Cameron Parish. Daigle is 54 years old and has served as Clerk of Court since 1948. A formal announcement will be made later.

He also announced that the Democratic Executive Committee would meet in the early part of August for qualification for parish and ward offices and that the first primary election will be held Nov. 6, 1971.

Mr. Daigle will be seeking his seventh term as clerk of court.

Eagle Rank is given LaLande

By MARGARET DUHON

The coveted Eagle Scout Rank was awarded Explorer Parry LaLande at Honor Court for Post 211, Troop 210 and Pack 210 Wednesday, Feb. 24 in the courtroom of the Cameron Parish Courthouse.

State Rep. Bill McLeod presented the Eagle Charge, stating, "I want to charge you, as the eagle soars in the air, may you soar in manhood, dedicated to future accomplishments, dignity and honor."

Master of Ceremonies Ray Fleming, Lakeside District Training Chairman, introduced special guest Deputy Regional Executive Joe Bennet of Memphis, Tenn.

Eagle Scout Robin Roberts, son of Mr. and Mrs. O'Neal Roberts was presented a bronze Eagle Palm by Council Advancement Chairman Kelly Dean. This award is in recognition of extensive achievement of merits after the eagle rank.

Lay witness mission planned for Cameron

March 12 - 14 is the dates set for the Wakefield Memorial Methodist Church's first Lay Witness Mission, according to Ed Kelly and Mrs. Charles Rogers, local chairmen.

John Tobbs of Pineville will conduct the Mission. More than 30 witnesses from all over Louisiana have expressed intentions in participating.

A 24-hour prayer vigil just prior to the Mission is planned to be participated in by the local Catholic, Baptist and Methodist church members. Plans are being made for attending the Catholic church Holy Mass and then starting the vigil at the local Methodist church at 6 p.m. on Wednesday night.

Jerry Jones, Earl Mouton and Larry Dyson are in charge of the vigil.

Chairmen who head Mission committees are: Housing, Mrs. W. E. Guthrie; Food, Mrs. J. A. Davis, Mrs. Frankie Henry and Mrs. Ed Kelly; Visitation, Virgil Batley and O'Neil Roberts; Coffee Hostesses and Welcome Committee, Mrs. Braxton Blake.

Transportation, Bob Schwark and Wendell Murphy; Publicity, U. W. Dickerson; Correspondence, Mrs. Jerry Jones and Mrs. LeRoy Nunez; Prayer, Jerry Jones and Mrs. Sam Warren; Youth, Miss Sharon Phillips.

Resolution is passed by club

A resolution endorsing the reapportionment of the Louisiana House of Representatives to include Cameron, Calcasieu and Jeff Davis together to elect five representatives at large instead of combining Cameron and Jeff Davis to elect only one was adopted by the Cameron Lions Club at its last week's meeting at Fred's Restaurant, according to A. J. Howard, club president.

The local club feels that this move is necessary because of the historical, cultural and economic ties between both Cameron and Calcasieu parish. Members also feel that Cameron, as well as the other parishes involved, will be better represented by this plan.

The Lions club is asking other local civic and fraternal groups to adopt similiar resolutions.

Juveniles are arrested here

The thefts of numerous tires, wheels, batteries and hub caps in the Cameron area in recent months have been solved with arrest of three Cameron boys, all about 15 years old, according to Sheriff Claude Eagleson.

Many of the stolen items were recovered. The investigation was conducted by Deputies Gene Constance and Allen Hinton.

Sheriff Eagleson said that the boys were turned over to state juvenile authorities.

Easter Seals drive to start

The Easter Seal campaign will begin March 6, when bands will be mailed to area residents, according to E. J. Dronet, chairman for Cameron Parish.

The funds are to support the Easter Seal Society and cripped children and adults. Approximately 85% of funds collected are retained locally for use in Cameron and Calcasieu Parishes, Mr. Dronet said.

Volunteer chairmen are: Mrs. Norma Blake, Cameron; Mrs. Pat Ortego, Creole; Mrs. J. T. Johnson, Hackberry; Mrs. Micky Prescott, Johnson Bayou-Holly Beach; Mrs. Wilson Young, Sweetlake; Mrs. Ted Askew, Grand Lake; Mrs. Guthrie Perry, Grand Chenier; and Mrs. Betty Smith, parish schools.

A Mother's March is tentatively planned for March 18, 19, and 20 by the community chairmen and volunteers.

The Cameron Lions Club has agreed to conduct a "bucket brigade" street drive on Saturday, March 27. Larry Taylor will serve as chairman of the drive.

Anyone wishing to make a contribution assisting in serving hundreds of handicapped men, women and children with actual direct services in the local vicinity, may do so to any of the area chairmen in your community, or can be mailed to P. O. Box 279, Cameron, La. 70631, addressed to the Cameron Parish Easter Seal Campaign.

Ban urged on throw-aways

The Cameron police jury Tuesday passed a resolution that it hopes will help to cut down on the litter thrown on the highways.

Upon the motion of Juror Charles A. Riggs, a resolution was adopted urging the state legislature to make the sale of throw-away bottles in the state illegal.

Riggs said that since the bottles had no return value, a large percentage of them are thrown out along the highways.

An alternate proposal by Riggs, should the ban of the throw-aways not be legal, would be to collect a one cent tax on each throw-away sold to be used by the state and parish to pick up the bottles.

Students attend press meeting

Arlene Tarter and Felice Dardeaux represented South Cameron High School and the "Tarpon Tales," the school newspaper, at the special press conference given by rodeo star Doug "Trampus" McClure Thursday in Lake Charles.

Representatives from the papers of the area schools were invited to interview the star. McClure appeared at the Southwest District Rodeo last week in Lake Charles.

Storm route bonds are sold

The State Bond Commission, without opposition, Thursday okayed the sale of $25.6 million bonds to build hurricane evacuation ro es.

A date was set for the sale which a wee ago erupted into controversy at a com mission meeting when some members raised the spectre of "bankruptcy" if the state continues to sell bonds without supplying additonal revenue for debt service.

Among the roads to be constructed with the bond issue is the road running north from Cameron along the east side of Calcasieu Lake giving residents of lower Cameron a direct evacuation route.

Also to be financed by the bonds are new bridges over the Intracoastal Canal at the Ellender, Sweetlake and Gibbstown crossings.

Festival photos are requested

Mrs. Charles F. Hebert of Cameron, who is in charge of the scrapbook for the Louisiana Fur and Wildlife Festival, asks anyone having pictures of the floats in the 1971 Festival parade to contact her.

The pictures taken by the official photographer of the Festival did not come out so the Festival does not have the pictures for the scrapbook that is kept each year.

Anyone wishing to look at the scrapbook may see it at the Cameron library. It has been kept from the first Fur Festival held 16 years ago.

June 1 set as sewer deadline.

June 1 has been set as the deadline for all homes and businesses in the Cameron sewerage district to be connected to the new sewerage system, it has been announced by the Cameron Sewerage District board.

After that date, the health department will take action to see that these connections are made in compliance with state health regulations.

The sewerage board is composed of C. A. Rogers, president, Brown Watts and J. A. Colligan.

Rare books are given library

More than 80 volumns of rare historical books have been donated to the Cameron Parish library by the family of the late Charles F. "Toot" Henry for reference purposes, according to Mrs. Coral Perry, librarian.

The books were published in 1892 and entitled "War of the Rebellion - official records of the Union and Confederate armies."

Mr. Henry was the grandfather of a number of Cameron Parish citizens, including State Rep. Conway LeBlanc and Cameron Parish Police Jury President W. F. "Frankie" Henry.

Camera system

A new safety system for the protection of the customers has been added to the Cameron State Bank, according to A. J. Howard, bank president. It is called the Camera Surveylance System and takes pictures every three seconds.

The system is being installed in all of the branch banks in Creole, Grand Chenier and Hackberry, as well as in the main bank in Cameron.

Vehicle stolen

A 1969 Pontiac station wagon owned by Jimmy Culligan of Cameron was stolen from in front of Fred's Restaurant at 10:30 p.m. Saturday. The keys had been left in the vehicle.

The car was recovered the following morning in front of Steed's Ice Plant, but a tape recorder and camera had been taken from it.

Teachers to be honored here

Cameron Parish Home Demonstration Clubs will again honor teachers in the parish schools during "Teacher Appreciation Week", March 21 - 26. Each area club will sponsor the event in their school.

This project is sponsored by the Home Demonstration Council each year and is a way of giving special recognition to the teachers.

Mrs. Bynum Shove of Hackberry is president of the HD Council.

Homestead

Leslie Richard, Cameron Parish tax assessor, reminds parish residents that now is the time to sign their homestead exemptions.

Richard says to drop by his office in the courthouse building to sign for the 1971 tax exemption.

Cameron to be novel's subject

A novel is being written about Cameron Parish, according to Mrs. Coral Perry, Cameron Parish librarian. Mrs. Perry has been contacted by Rev. Raymond Pearson about furnishing certain historical information about the Grand Chenier, Oak Grove, Creole and Cameron communities for his book.

Rev. Pearson was the pastor of the Grand Chenier and Cameron Methodist churches about 20 years ago.

Fur sale held this week

(FROM THE BEAUMONT ENTERPRISE)

HOLLY BEACH — Gulf Coast trappers are offering their furs for auction for the last time this season March 10 at Four Corners in Holly Beach. Probably 30,000 furs-muskrat, mink and nutria — will be offered to buyers who come from as far as New York.

Booths are set up in Four Corners, a boarded up summer establishment which opens in winter for the trapping auctions, with luxurious piles of graded furs at each booth. Grading is done on Mondays and Tuesdays with buyers examining the pelts then submitting sealed bids which are opened on Wednesdays at about 10 a.m. The auctions are held on Wednesdays usually at two-week intervals throughout the trapping season.

Most furs are muskrat and nutria, Texas leads the entire country in quality of muskrat while lower Louisiana leads in the finest grade of nutria.

The Gulf Coast muskrats provide the country's top quality with the Texas "rat" excelling the Louisiana variety only slightly with about a five-cent to ten cent price difference. In the entire country only Maryland also provides a good grade of muskrat, but not on a par with the Texas and Louisiana. So says John Paul Crane of Grand Chenier, La. And he should know.

When asked how long he has been trapping and in the fur business, he says with a chuckle, "Oh, about 30 or 35 years." This is only a portion of his many business interests.

Crane Brothers Inc., of Grand Chenier, La., is involved in oil field contracting, pipelining, marshbuggy rentals and other associated businesses.

Crane leases land to trappers-some of whom have tracts of from 500 an 5,000 acres depending on the animal population. These trappers and their wives live in camps and shanties on the bayous and canals during this three months of the season.

They trap on a percentage basis with 35 per cent of the catch each season going to the landowner. A top trapper from Dec. 1 to March 15 each year can easily gross $15,000 in a good season.

Crane says "This year's weather was wrong. Too warm. But our top muskrats are going for $2 per skin, with many trappers having from 6,000 to 7,000 skins. Last year, the same men would have gotten perhaps 10,000 skins each."

In the 1971 season in all the bi-weekly auctions perhaps 100,000 furs were handled while last year saw 150,000 pass from Cameron parish and Jefferson County trappers to buyers in the same period at the Holly Beach auctions.

Trappers furnish their own equipment—traps, boats and-or marshbuggies. Each camp, reachable by boat or car, has its drying shed. Trappers first skin their catch and dry the fur by artificial heat or the sun. Then it is stretched and the skin dried. The pelt is then ready for presentation to the buyers.

Much skill is needed in trapping, Crane said. For most, it is a full-time vocation while some trap on a part-time basis. Crane leased this year to thirty trappers.

Although some buyers come from as far as New York, most are from Louisiana-New Orleans, New Iberia and Cameron Parish.

When a woman enters a local furrier's shop to purchase a muskrat coat, it is very likely made of furs from the Gulf marshes-the country's top pelts. While some pelts are shipped to foreign countries most find a market locally.

Buyer at the sale next Wednesday will see about 30,000 furs at auction. Each booth has its piles of furs, with grade and the owner's name on a plaque above. While the price is now about $2 per top skin, the beginning of the season had a low of $1.50, Crane said.

Trapping, at a peak here in the early 1900's, entered a decline but is now making a comeback.

MUSING. . .

By BERNICE STEWART

The cattle industry in Cameron Parish, to which special tribute was paid during the recent Louisiana Fur and Wildlife Festival, is one that justly deserve all the recognition that it receives.

And the cattlemen, from the old-timers on down to the present ranchers, deserve commendation. Theirs has not been a swivel-chair, take-it-easy occupation. Neither has it been the romantic swinging, swaggering, singing-by-night enterprise that some distorted "westerns" make it appear.

As the Festival booklet brought out, the life of a cattleman has always required hardihood, optimism, perseverance, judgment, a willingness to work.

Tradition tells us that Cow Island, a part of the eastern end of Grand Chenier, was so called because of the roving herds of wild cattle already there when the first white men settled in this section.

Tradition has also given us the Tale of the Mad Bull. It dates back more than a hundred years. Its setting was on the property now owned by the heirs of the late Archie Hollister.

At that time, a slight elevation of the land, referred to by the Chenier people as a "hill," lay north of the present road at one spot. It was "thrown out," meaning that it was unfenced. Big oaks shaded the site. A water hole on the marsh side of the road seldom went dry.

It became an ideal "stomping ground" for the cattle in that area. They usually fed in the south marshes by day and sought the hill at night.

One morning an immense wild bull, presumably from the prairie to the north, came along. None of the neighbors, it was later learned, had ever seen him.

He was in a rage -- bellowing, frothing at the mouth, plowing into and tossing up the earth and manure with his long horns. He lunged viciously at the other cattle until they stampeded to the marsh.

Instead of following them, the enraged beast attacked the live oaks, butting and grinding his head again their rough bark. Again, he dug first one horn and then the other into the ground, using them as pivots as he lashed his great hulk back and forth.

The frightened mother had hustled her children into the house lest the bull break down the fence or jump over it into the yard. Then she thought of the danger that awaited any traveler who might come along the road. Hastily she summoned her husband from the field.

He arrived; watched the agonizing animal for a few minutes; then hastened to get his musket.

"The poor brute's gone mad," he told his wife. "He'll die anyway. The only thing to do is to shoot him dead before he hurts somebody or some animal."

At that, the man aimed his firearm at the great tortured head and aimed.

Legend tells us that the farmer hauled tree boughs and brush to the site, and burned not only the carcass of the bull but also purified the earth about with a bath of fire.

47 disabled persons get aid in parish

Some 47 disabled persons in Cameron Parish received rehabilitation services last year, according to statistics compiled by the Vocational Rehabilitation Division of the State Department of Education.

Records show 8 handicapped citizens in Cameron Parish were rehabilitated and placed into employment during the same period of time, William J. Dodd, State Superintendent of Education, said.

The Vocational Rehabilitation Program in 1970 served nearly 30,000 clients statewide.

Superintendent Dodd commended Senators A. C. Clemons, Jr. and Jesse M. Knowles and Representatives William S. Boyd, Harry Hollins, Robert G. Jones, Conway LeBleu and W. L. McLeod for their support of the legislative bills which appropriated funds for the Vocational Rehabilitation Program in Louisiana. "These legislators are responsible for recommending to us for rehabilitation many citizens from their areas", Dodd said.

In order to qualify for tuition grants to attend institutions of learning such as colleges, beauty or barber schools, one has to have either a physical or mental disability, or both. The applicant must be certified as disabled by his own personal or other physician, after a complete and thorough physical checkup. Economic need is not considered except in cases where living expenses are paid by the Vocational Rehabilitation Program. The Federal Government, which contributes an average of 90% of the funds for this program, advocates eliminating the economic need factor altogether.

Dates on crops given

Charles S. Hackett, Calcasieu-Cameron ASCS office manager, announced that the U. S. Department of Agriculture has issued the following approved disposition dates for Louisiana crops which effect Calcasieu and Cameron parishes: corn - July 15, grain, sorghum - July 15, rice - July 15, and rye and oats - April 1.

RESOLUTION ADOPTED

The Louisiana Wild Life and Fisheries Commission today adopted a resolution opposing widespread indiscriminate aerial application of Mirex over all or large parts of Louisiana. The action took place at the regular public meeting of the commission held in New Orleans.

Mirex is a highly persistent chlorinated hydrocarbon pesticide and aerial spraying of Mirex, closely related to DDT, is part of the U. S. Department of Agriculture's $200 million, 12-year program aimed at eradication of the Argentine fire ant, which entered the country in the early 1900's and subsequently spread throughout the southeastern United States.

The resolution said that scientific investigation and study has demonstrated that Mirex is detrimental and lethal to many forms of wildlife, shrimp and fish. It termed present proposals for widespread aerial application harmful to all forms of wildlife and fish.

The commission's resolution stated that the fire ant does not pose a threat to the fish and wildlife resources of this state but widespread aerial application of Mirex over the streams, woodlands and lakes of Louisiana could create serious problems.

Trip to Washington's Mardi Gras described

By GENEVA GRIFFITH

Thousands of Louisianans invaded the Nation's Capitol recently to attend the Louisiana State Society's Mardi Gras Ball at the Sheraton Park Hotel, Felix M. Broussard is president of the State Society and the Congressman Speedy O. Long was chairman of this year's Ball.

Thirty Louisiana Festival queens and 25 princesses were special guests of the ball and were escorted by midshipmen of the U. S. Naval Academy. Cheri Griffith of Cameron parish, the Louisiana Fur Queen was one of the guests.

Events for the queens and princesses started Wednesday morning when they gathered at the Capitol House in Baton Rouge for instructions from Dr. Gabe A. Ackel and chaperones. They were entertained at a breakfast at the Governor's mansion, hosted by Gov. and Mrs. John McKeithen. From here they went by bus to New Orleans where they were presented with the keys to the city of New Orleans by Mayor "Moon" Landreau.

A reception was given for the girls, their chaperones, and those traveling with them that night with many dignitaries being present, including the general Roy Theriot, State Comptroller. They were then taken to the Lamplighter's Club atop the Rault Center where they were presented at another reception. Afterward they were feted with a supper given by Dave Pearce, Commissioner of Agriculture, at the Monteleon Hotel. The group spent the night at the Monteleon and departed on Thursday morning from the New Orleans airport for Washington D. C.

They were met at the Friendship Airport in Baltimore, Md. by a special delegation from the Washington legislators from Louisiana. Two special buses took the group to the Sheraton Park Hotel where they would stay during the festivities. Many famous Washington figures live at the hotel, including Vice-President Agnew and Pearl Mesta, the international party-giver.

Instructions were given to get to bed early because the next day would start early. After dinner in the hotel nearly everyone drifted down to the lounge that overlooked the ice-skating rink in the hotel. Since this is a sport totally foreign to the south, most members of the party decided to try their hand on the rink.

Skates were rented and nearly everyone succeeded in making at least a few turns around the rectangle rink, escaping with only minor bruises and scratches. Most were so bundled up against the chill night air they were well padded for the falls.

On Friday morning the two buses arrived and left promptly at 7:30. The first destination was Arlington Cemetary, in Virginia, and the grave of President Kennedy and the grave of the "unknown soldier." Nancy Jane Riley, who presided as Queen of the Mardi Gras Ball laid a wreath at Kennedy's grave. A tour of various points of interest in and around Washington was then made on the buses, including the Washington and Lincoln memorial. Since the day happened to be Lincoln's birthday a special service was being conducted at that particular memorial and it was closed to the public.

The tour then proceeded to the Capitol building where a complete tour of the main building was made. The Louisiana congressional delegation in Washington was host to a luncheon for the entire group in a special dining room of the Rayburn building. Each member gave a welcome to the group. Speedy Long, who served as this year's chairman had his picture taken with each queen and princess.

After the luncheon Senator Russell Long took the group on a special tour of many offices and rooms that the general public never get to see, including the President's and Vice-President's rooms.

A tour of the White House at 1600 Pennsylvania Ave. was made and a special treat was the new portraits of the late President Kennedy and his wife Jacqueline Kennedy Onassis which had just been put on display in the East room the week before.

That night a formal dinner-dance was given by the Krewe of Louisianans in the hotel. The buffet dinner-dance was in honor of the queens and princesses who composed the Queen's court. The menu was in French and everyone had fun trying to figure out what would be served.

Each of the queens and princesses and their escorts were presented to the company after dinner. The Krewe said it was their desire to make this a tribute to these lovely Louisiana ladies, each a queen in her own right, the focal point of a larger affair instead of a party of limited attendance.

The queens and princesses first met their midshipmen escorts prior to the dinner dance and were allowed to choose the one they wanted to escort them to the weekend events.

Saturday morning started with a visit to historic old Georgetown for members of our group, as it was a free morning and everyone could do what they wished. Shopping in all the little quaint shops, which have been preserved for posterity, was a visit to historic old Georgetown for members of our group, as it was a free morning and everyone could do what they wished. Shopping in all the little quaint shops, which have been preserved for posterity, was a visit back into history. Of course the young girls had to purchase a garment at the very name boutique where Jacqueline Kennedy shopped when she lived here.

Some of our group had a car meet us at noon for a trip out to George and Martha Washington's home, "Mount Vernon", which has been completely preserved. We were told that the furnishings were 70% original. The remainder were authentic copies.

The highlight of the trip came Saturday night with the Mardi Gras Ball which was such an elaborate affair it defies description. This year's ball honored the oldest settlement in the Louisiana Purchase Territory, Natchitoches, over two and a half centuries old. The giant backdrop behind the thrones were the king and queen and all of the festival queens and princesses sat during the ball, was a giant anti-bellum plantation home with real white columns in front.

Before the ball got under way the ballroom was invaded by the masked Krewe of Louisianians. It is the coveted privilege of a Krewe man to gladden the hearts of the fair ladies with a call-out dance. Credit for the many years of the successful operation of the Krewe belongs to Senator Russell B. Long, its founder, and his aid, Robert Hunter. Behind the masks are handsome gentlemen who are not allowed to unmask at the Ball.

Each festival queen and princess and their escorts were introduced. Each queen entered with mantles, crowns, and septos, preceded by a Krewe member bearing a placard with her name and festival she represented. The procession continued around the huge ballroom in isles constantly being cleared by masked Krewemen. The King of the Ball was Dr. Clarence A. Lorio, who is a descendent of some of the Southwest's oldest families

The queen, Nancy Jane Riley was escorted by Admiral Thomas H. Moorer, chairman of the Joint Chiefs of Staff. The master of ceremonies was Milton Tarver.

When the court had all been presented and seated, the entertainment started. The U. S. Marine band marched in and gave a concert. Then the Ballroom was literally transformed into a replica of the New Orleans Mardi Gras parade. Huge floats entered with Mardi Gras Krewe members riding on them throwing out multicolored beads and gold medallions, Krewe members also paraded on foot throwing out trinkets from their multicolored bags.

Thousands of spectators in elaborate ball gowns joined in the merriment and yelled and jumped to catch the treasures being thrown out. We happened to be by the Korean Ambassador who remarked about the good time that the Louisiana people seem to have.

After 10 call-out dances by the Krewe members the general dancing got underway. The queens and princesses were taken to their own private ball and breakfast, hosted by the queen's family.

There was no sleep that night, because packing had to be down, and final check-outs tended to so the buses could be caught for the trip back home the next morning.

Sunday morning broke with 17 degree weather. There had been a blizzard the night before we were told. We had known nothing about it because we had been inside the hotel. Our special buses carried us right up to our airplane so we were not out in the weather too long. We were back in Louisiana in two hours.

Our "fairytale" trip was over, but the memories will remain forever.

There were six from this area attending: Marilyn Spears, Queen of the Cal-Cam Fair, Cherie Griffith, La. Fur Queen, and Arlene LeBlanc, Delcambre Shrimp Queen, all students at McNeese State University, and Peggy LeBleu, Contraband Queen. Also Mrs. D. W. Griffith and Mrs. Braxton Blake from Cameron.

New REAP program is approved for parish

The new 1971 Rural Environmental Assistance Program (REAP) for Cameron Parish was developed last week by the Cameron Parish REAP Development Group, consisting of representatives of Agricultural Stabilization and Conservation Service (ASCS), Soil Conservation Service (SCS), and County Extension Service.

Francis Klein, Chairman of the Group stated that the basic program goal is to improve quality of life for all people by preventing or abating environmental pollution, providing the maximum public benefit, and conserving the land and related natural resources so as to assure their continuing ability to produce the food and fiber necessary for the maintenance of a strong, healthy people and economy. Also, to provide for wildlife, open space, landscape beauty and outdoor recreational opportunities.

The new REAP program replaces the ACP program administered by the ASCS office. Some of the proposed practices are: pipelines for livestock water, wildlife food plots, habitat and cover, constructing sewage lagoons for livestock water disposal, and controlling sedimentation.

Klein reported that the proposed parish program has been submitted to the state office for approval. As soon as the program is approved requests for cost-sharing can be taken by the local ASCS office located in the Cameron Courthouse.

Some trappers said that 90% of the nutrias caught this year were medium size with only a very few large nutrias.

Many of those trapping on small tracts of land had already pulled up their traps toward the middle of the season due to the scarcity of nutrias. Unless there is a large change in nutria production this spring and summer, it will be even worse next season.

Trappers in Oak Grove area who mainly trap muskrats with very few nutrias said the muskrats were just about the same as the past trapping season and that prices were better than in the past.

Mardi Gras was carried out in Grand Chenier with approximately 30 makers enjoying the day. They visited business places and some homes in and around Grand Chenier, Creole and Cameron, ending up their run of Mardi Gras at the Cypress Inn.

The clear, warmer weather Sunday brought many out fishing, crabbing and picnicing. Many cars were seen pulling trailers and boats and various fishing equipment rolled by for a Sunday enjoyment.

Several folks from the Chenier attended the Lake Charles McNeese Rodeo where many children from this area took part with their 4-H animals.

This past Sunday, Feb. 28, marked the closing of 1970-71 trapping season here at the Chenier.

OUR LADY STAR OF THE SEA CHURCH

Services held in new church

By SAM TARLETON
American Press Staff Writer

CAMERON -- "We are all happy today because it is like a dream come true that we are in our new church building," Jimmy DeRouen, president of the parish council of Our Lady Star of The Sea, told the congregation and guests who attended the first Mass to be said there.

The formal dedication will be held when special statues arrive and new pews are installed at an early date.

DeRouen and the Rev. A. W. Coody, pastor of the First Methodist Church here, joined with Father Alcide Sonnier, pastor for the first Mass in this modern brick, reinforced concrete, glass and wooden structure.

Rev. Mr. Coody addressed the congregation on the fullness of worship and the gratification of the parish with its new church.

DeRouen spoke on the church's history from its humble beginning as a mission of Sacred Heart Parish of Creole, back in 1883.

He told of the creation of the parish by Bishop Maurice Schexnayder of Lafayette on June 21, 1958, following the devastating loss suffered here through the 1957 Hurricane Audrey.

At that time, the Rev. A. L. Gilbert, then pastor of Sacred Heart Parish, planned for the new church.

Following a request from the Bishop, the land for the new Our Lady church was purchased through a relief fund of the Diocese of Lafayette and locally contributed funds.

First pastor of the new parish was the Rev. Eugene Senneville who remained here until June 15, 1968. In that time a rectory was built and two plots of land additionally bought and a mausoleum established in the cemetery.

During Father Senneville's pastorate here a building fund was established and some $43,000 raised by members of the parish and friends of the parish.

On June 15, 1968, Father Senneville was transferred to Port Barre and his place was filled temporarily by the Rev. Whitney LeBlanc until Aug. 10, 1968, when Father Sonnier was named pastor.

He picked up where Father Senneville left off in generating the work and dreams of building a new church and in 30 months has seen that job done.

Under his leadership and through the untiring efforts of the congregation and friends of the church in the parish $77,000 was raised and poured into the construction costs. Today the parish owes but $25,000 on the church.

"We still need new pews and are awaiting the delivery of our large statues for the alcoves," Father Sonnier said this week.

A visitor here will see a man in khaki pants, t-shirt and a baseball cap, putting finishing touches to the magnificent church on the main highway through here.

That fellow is the pastor. He is a carpenter, like the one of early biblical days in Bethlehem and Nazareth. He and two other carpenters did all the carpentering in the new church.

Father Sonnier designed the church and did all the electrical work.

He did much of the plumbing. The cement and bricklaying work he had done by contractor.

Featured in front of the modern Audrey Memorial monument is a special water fountain which automatically begins operating at 5 p.m. every day. At 6 p.m. the colored electric lights beneath the water are turned on automatically.

A confessional, special chapel - crying room complex, and rest room facilities are features of this modern church which can seat about 500 people in the main church.

A circular driveway around the church permits cars to drop worshipers off at either of the main doors located on each side of the church.

The "front" of the church, seen from the highway, is actually the altar side from the inside and gives an imposing view to visitors driving through Cameron.

When the inaugural Mass was held the Fourth Degree Knights of Columbus of Cameron served as the Honor Guard, and a new era in Christianity and the brotherhood of man began with Catholic Pastor and Methodist Pastor joining words of prayer in the pulpit.

Our Lady Star of the Sea Church looms as a mecca for visitors to the Gulf Coast town of prayerful people.

Father Sonnier to be honored

The Rev. Alcide Sonnier, pastor of Our Lady Star of the Sea Parish, and chaplain of Knights of Columbus Council No. 5461 of Cameron, was named "Knight of the Month" Monday evening.

Father Sonnier was cited by Tony Cheramie, Fraternal activity committee member, for his un-tiring supervision and physical labor to the recently completed new church building in Cameron. He was also commended for providing a new meeting place for all groups and church organizations at the church rectory.

Father Sonnier has been pastor of Our Lady Star of the Sea Parish the past 2 1/2 years.

Members of the Cameron KC council also agreed to sponsor a testimonial dinner to honor Rev. Sonnier. All church organizations and parishioners will be asked to participate to show their appreciation to Father Sonnier.

Grand Knight Earl Mouton welcomed John Marceaux and Charles "Butch" Bertrand as new members of the council. Marceaux is the owner of the Cameron Clothing Discount Store, and Bertrand is a machinist for M & W Machine Shop in Cameron.

Members agreed to sponsor an Easter egg hunt for the area youth on the church grounds, following the 8 a. m. Mass on Easter Sunday.

The council's quota for the youths attending Maryhill Youth Camp this year is 7 boys and 7 girls. Dates for the boys is from August 8 to August 14. The girls will go from July 4 to July 10.

Any girls or boys, regardless of religious affiliation, between the ages of nine through fifteen years, interested in going to the youth camp, located near Alexandria, is asked to contact James R. LeBoeuf, youth chairman, or Grand Knight Earl Mouton, for applications.

Most members of the Cameron KC Council are to participate in a Laymen's Retreat Vigil at the United Methodist Church in Cameron Wednesday evening, March 10, and Thursday morning, March 11. The Vigil was to have been preceded with a Holy Hour, to be attended by members of all Faiths, at Our Lady Star of the Sea Catholic Church.

A steak supper, prepared by Roy Hebert, was served the members before the meeting.

RESOLUTION

STATE OF LOUISIANA
PARISH OF CAMERON

BE IT RESOLVED by the Cameron Parish Police Jury in regular session convened on this 2nd day of February, 1971, that:

WHEREAS, by instrument dated January 11, 1919, of record in COB "X", page 563, Records of the Parish of Cameron, Louisiana, John M. Smith, et al, donated and conveyed unto the Parish of Cameron for use as a public road, a servitude right of way over certain property particularly described in said instrument; and

WHEREAS, some question has been raised as to whether the Parish of Cameron acquired the fee title to the lands described in said instruments or whether only a servitude was created thereby, necessary only for the construction and maintenance of the said roads; that in truth and in fact, it is recognized that no money consideration was paid to the grantors therein and it was the intention of the Parish of Cameron to acquire only servitudes and not the fee title to said lands, particularly, but not limited to, any oil, gas or mineral rights therein.

NOW THEREFORE, be it resolved that in order to settle any and all disputes and claims with these matters and in view of the fact that the purpose of each of the aforesaid donations was to grant unto the Parish of Cameron servitudes only over and upon the lands described in the instrument above referred to that W. (b) The term "Taxing Body" shall mean the State or any political subdivision or taxing unit thereof in which a Project is situated and which would have authority to assess or levy real or personal property taxes or to certify such taxes to a taxing body or public officer to be levied for its use and benefit with respect to a Project if it were not exempt from taxation.

The obligations of the parties hereto shall apply to each such Project.

3. (a) Under the constitution and statutes of the State of Louisiana all Projects are exempt from all real and personal property taxes and payments in lieu thereof levied or imposed by any Taxing Body. With respect to any Project, so long as either (i) such Project is owned by a public body or governmental agency and is used for low-rent housing purposes, or (ii) any contract between the Local Authority and the Government for loans or annual contributions, or both, in connection with such Project remains in force and effect, or (iii) any bonds issued in connection with such Project or any monies due to the Government in connection with such Project remain unpaid, whichever period is the longest, the Parish agrees that it will not levy or impose any real or personal property taxes or special assessments upon such Project or upon the Local Authority with respect thereto. During such period, the Local Authority shall make annual payments (herein called "Payments in Lieu of Taxes") in lieu of such taxes and special assessments and in payment for the Public services and facilities furnished from time to time without other cost or charge for or with respect to such Project.

(b) Each such annual Payment in Lieu of Taxes shall be made after the end of the fiscal year established for such Project, and shall be in an amount equal to either (i) ten percent (10%) of the aggregate Shelter Rent Charged by the Local Authority in respect to such Project during such fiscal year, or (ii) the amount permitted to be paid by applicable State law in effect on the date such payment is made, whichever amount is the lower.

(c) The Local Authority shall distribute the Payments in Lieu of Taxes among the Taxing Bodies in the proportion which the real property taxes which would have been paid to each Taxing Body for such year if the Project were not exempt from taxation bears to the total real property taxes which would have been paid to all Taxing Bodies for such year if the Project were not exempt from taxation; Provided, however, That no payment for any year shall be made to any Taxing Body in excess of the amount of the real property taxes which would have been paid to such Taxing Body for such year if the Project were not exempt from taxation.

(d) Upon failure of the Local Authority to make any Payment in Lieu of Taxes, no lien against any Project or assets of the Local Authority shall attach, nor shall any interest or penalties accrue or attach on account thereof.

4. The Parish agrees that, subsequent to the date of initiation (as defined in the United States Housing Act of 1937, as amended) of each Project and within five years after the completion thereof, or such further period as may be approved by the Government, there has been or will be elimination (as approved by the Government) by demolition, condemnation, effective closing, or compulsory repair or condemnation, of unsafe or insanitary dwelling units situated in the locality or metropolitan area in which such Project is located, substantially equal in number to the number of newly constructed dwelling units provided by such Project; Provided, That, where more than one family is living in an unsafe or insanitary dwelling unit, the elimination of such unit shall count as the elimination of units equal to the number of families accommodated therein; and Provided, further, That, this paragraph 4 shall not apply in the case of (i) any Project developed on the site of a Slum cleared subsequent to July 15, 1949, and that the dwelling units eliminated by the clearance of the site of such Project shall not be counted as elimination for any other Project or any other low-rent housing project, or (ii) any Project located in a rural nonfarm area.

5. During the period commencing with the date of the acquisition of any part of the site or sites of any Project and continuing so long as either (i) such Project is owned by a public body or governmental agency and is used for low-rent housing purposes, or (ii) any contract between the Local Authority and the Government for loans or annual contributions, or both, in connection with such Project or any monies due to the Government in connection with such Project remain unpaid, whichever period is the longer, the Parish will furnish without cost or charge to the Local Authority or the tenants of such Project (other than the Payments in Lieu of Taxes) shall:

(a) Furnish or cause to be furnished to the Local Authority and the tenants of such Project public services and facilities of the same character and to the same extent as are furnished from time to time without cost or charge to other dwellings and inhabitants in the Parish;

(b) Vacate and close streets, roads, and alleys within the area of such Project as may be necessary in the development thereof, and convey without charge to the Local Authority such interest as the Parish may have in such vacated areas, and, insofar as it is lawfully able to do so without cost or expense to the Local Authority or to the Parish cause to be removed from such vacated areas, insofar as it may be necessary, all public or private utility lines and equipment;

(c) Insofar as the Parish may lawfully do so, (i) grant such deviations from the building code of the Parish as are reasonable and necessary to promote economy and efficiency in the development and administration of such Project, and at the same time safeguard health and safety, and (ii) make such changes in any zoning of the site and surrounding territory of such Project as are reasonable and necessary for the development and protection of such Project and the surrounding territory;

(d) Accept grants of easements necessary for the development of such Project; and

(e) Cooperate with the Local Authority by such other lawful action or ways as the Parish and the Local Authority may find necessary in connection with the development and administration of such Project.

6. In respect to any Project the Parish further agrees that within a reasonable time after receipt of a written request therefor from the Local Authority:

(a) It will accept the dedication of all interior streets, roads, alleys, and other rights-of-way within the area of such Project, together with all storm and sanitary sewer mains in such dedicated areas, after the Local Authority, at its own expense, has completed the grading, improvement, paving, and installation thereof in accordance with specifications acceptable to the Parish;

(b) It will accept necessary dedications of land for, and will grade, improve, pave, and provide sidewalks for, all streets bounding such Project or necessary to provide adequate access thereto (in consideration whereof of the Local Authority shall pay to the Parish such amount as would be assessed against the Project site for such work if such site were privately owned); and

(c) It will provide, or cause to be provided, water mains, and storm and sanitary sewer mains, leading to Project and serving the bounding streets thereof (in consideration whereof the Local Authority shall pay to the Parish such amount as would be assessed against the Project site for such work if such site were privately owned.)

7. If by reason of the Parish failure or refusal to furnish or cause to be furnished any public services or facilities which it has agreed hereunder to furnish or to cause to be furnished to the Local Authority or to the tenants of any Project, the Local Authority incurs any expense to obtain such services or facilities then the Local Authority may deduct the amount of such expense from any Payments in Lieu of Taxes due or to become due to the Parish in respect to any Project or any other low-rent housing projects owned or operated by the Local Authority.

8. No Cooperation Agreement heretofore entered into between the Parish and the Local Authority shall be construed to apply to any Project covered by this Agreement.

9. So long as any contract between the Local Authority and the Government for loans (including preliminary loans) or annual contributions, or both, in connection with any Project remains in force and effect, or so long as any bonds issued in connection with any Project are held by the Government, or so long as the Government in connection with any Project remain unpaid, this Agreement shall not be abrogated, changed, or modified without the consent of the Government. The privileges and obligations of the Parish hereunder shall remain in full force and effect with respect to each Project so long as the beneficial title to such Project is held by the Local Authority or by the Government or by any other public body or governmental agency authorized by law to engage in the development or administration of low-rent housing projects. If at any time the beneficial title to, or possession of, any Project is held by the Government, other public body or governmental agency, the provisions hereof shall inure to the benefit of and may be enforced by the Government, such other public body or governmental agency.

IN WITNESS WHEREOF, the Parish and the Local Authority have respectively signed this Agreement and caused their seals to be affixed and attested as of the day and year first above written.

THINK ABOUT DEATH and START TO LIVE!

It is human nature to put off thoughts of death as long as we can.

This is especially true when our years are young, our health is good, and we're having a wonderful time.

But even in *this life*, the true values and real joys of living come into clear focus only when we face up to the facts of death and ask ourselves: "What does it mean?"

Once we do this, the terrifying specter of death becomes less fearsome. We see it as a teacher, cautioning us to shape our lives in a manner pleasing to God. We see it not as a Grim Reaper, robbing us of our worldly pleasures, but as the golden gateway to God's greatest of all gifts—eternal life.

There are some people, of course, who believe that after this life there is no more. The pure and the sinful, they contend, all meet the same gloomy end of eternal nothingness; there is no judgment, no punishment, no reward. But if our reason did not tell us this is wrong, we have the clearer assurance of God Himself that man shall live on earth, shall eventually meet death, that he shall be judged and, upon that judgment, shall live eternally in joy—or misery.

This has been the teaching of the age-old Catholic Church since the time of the Apostles. It is a doctrine that compels a Catholic to think of his life in terms of his death. It sounds like a gloomy doctrine to those who dislike to face up to the facts of death and the certainty of divine judgment, but Catholics are inspired rather than depressed by it.

However gloomy the prospect of death may be, Catholics are constantly reminded by the Church of the importance of facing up to it instead of trying to ignore it. In the month of November each year, the thoughts of the faithful are especially directed to the special considerations of that occasion when every human being must take off on that final "flight" to God's vast unknown.

If you would like to know how to think about death, what happens after death, how to think about Heaven, how the Church helps its people at death, what's the right attitude toward death as Catholics see it, write today for our free pamphlet. It will be sent immediately, and nobody will call on you. Ask for Pamphlet No. KC-53.

Mrs. Stewart has also been writing for the Pilot approximately 14 years and contributes regularly to Les Nouvelles.

Both Mrs. Griffith and Mrs. Stewart in past years had been named "Country Correspondent of the Year" by Louisiana Press Association for their writings for the Pilot.

Eighty-two LPW members registered for the meeting, which was highlighted by a talk by Congressman Edwin Edwards at the luncheon Saturday and a talk by Governor John McKeithan at the banquet.

Mrs. Griffith is employed in the ASCS office in Cameron and Mrs. Stewart is a retired teacher living in Lake Arthur.

Kit for brides offered here

A financial kit for brides is offered by the Cameron Parish County Extension Service, according to Miss Patsy Granger, home demonstration agent.

Miss Granger said that young couples are apt to spend freely for nonessentials. According to the Institute of Life Insurance studies, financial problems in young families caused by little of no knowledge in handling money contribute to emotional problems and to the high divorce rate.

Since 1968, over 38,000 different young families in the state of Louisiana have received these kits, which give information on financial matters and buying.

Copies are available in the Clerk of Court's office and in the Cameron Parish Home Demonstration Agent's office, both in the building.

Teachers to be honored here

Cameron Parish Home Demonstration Clubs will again honor teachers in the parish schools during "Teacher Appreciation Week", March 21 - 28. Each area club will sponsor the event in their school.

School tax to voted on Sat.

A parishwide 7-mill school tax will be voted on by Cameron parish voters this Saturday. All registered voters can vote in the election regardless of whether they own property or not.

School Supt. W. J. Montie issued the following plea to citizens to vote for the tax:

"All of us who work for education of our children have through the news media and by making talks to various groups explained the great need for additional funds to keep our schools operating with a good program.

"The small school tax to be voted on this Saturday, March 20, will not be a burden to anyone. In fact, most Cameron Parish people will pay little or none because the tax is covered by your homestead exemption for the full ten year period. 91.1 of this tax will be paid by people outside our parish.

"We feel it is our responsibility to ask you with all the sincerity at our command to PLEASE GO TO THE POLLS AND VOTE YES -- Our children need us -- Let's help them NOW!!

South Cameron students named

Four South Cameron high school students have been selected as Outstanding Teenagers of America for 1971, according to J. C. Reina, principal.

Selection for the Outstanding Teenagers awards program automatically qualifies these students for further state and national scholarships and honors.

Local nominees are: Felice A. Dardeau, Carleton Wade Bishop, Stephen LaFleur and Jennifer A. Jones.

Nominated by their principals, the Outstanding Teenagers of America are chosen from individual schools across the country for excellence in community service and academic achievement. The local students will now vie for the Outstanding Teenager of the Year Trophy to be presented by the state's governor. Similar trophies will be presented to winners in other states. The state winners are selected by the Outstanding Teenager Awards Selection Committee, in cooperation with the Board of Advisors.

Warning given on solicitation

A word of warning to area businessmen was issued today by Cameron Fire Chief, Ray Burleigh, who said that businesses were being contacted by letter by a firm in Baton Rouge which calls itself "The La. Fire Chiefs" asking for very high donations on the pretext of helping the local fire departments.

Chief Burleigh said that the organization has absolutely no affiliation with any of the local fire departments and issues no help to them in any way. It is strictly a money making scheme. The business puts out a book and runs small ads.

Burleigh said that the Louisiana Firemen Association and Louisiana Fire Chiefs Association have been trying to stamp out the problem for four or five years. He says there are more than one businesses doing this in the state. To date, no way has been found to stop the scheme because the business gives the donor something for his money - an ad.

Chief Burleigh says that if you are contacted for a donation the best way to find out if it is legitimate or not is to get in touch with your local fire chief.

Creole KC teams to go to meet

The J. P. Boudoin, Sr. Knights of Columbus Council of Creole will hold its regular meeting, Thursday, March 11, at 7:30 p.m. in the council home with a supper to precede the meal.

The Council is sponsoring two teams to the state basketball tournament to be held in Baton Rouge Saturday and Sunday, March 6 and 7. Anyone wishing to play on the teams should contact Lynn Conner, Marvin Duddleston, or Don Broussard.

Moving of draft office protested

The proposed moving of the Cameron Parish draft board to Lake Charles has been protested by local leaders who say the move will not save money and will cause hardship on parish draft registrants.

The proposed move is a part of Selective Service's centralization of draft offices throughout the nation.

Concerning the proposal, Dell G. LaLande, chairman of Cameron Parish Draft Board, stated:

"The moving of the Local Board will impose much hardship, inconvenience, frustration, and expense upon our registrants. Registrants living in the far reaches of Johnson Bayou will have to travel approximately 160 miles per trip to fulfill their Selective Service obligations. All of those in the lower part of the Parish, where the bulk of the population is located, will have to travel in excess of 100 miles per trip."

"It is apparent that the people at the grassroots level are more familiar and concerned with the problems that will arise as a result of the implimentation of the plan than are those who are far removed from the scene," LaLande said.

State Rep. Conway LeBleu feels so strongly about the matter that he will introduce a resolution opposing the plan in the Louisiana House of Representatives. A similiar action was taken recently in Atlanta by the Georgia House of Representatives.

A plan of Centralization was tried in 1950 and it proved to be a failure; and there is no evidence to indicate that centralization of the local boards will be successful now, LaLande said.

Contract awarded on channel work

The East Cameron Port Harbor & Terminal District has awarded a contract to Kingfish Marine, Inc. for the construction of the new Mermentau river channel at Grand Chenier, in the amount of $876,401.36.

This figure includes an extension of the original bid in order to extend the jetty system to a total of 14,650 feet on each side of the new channel.

At this time four draglines are building retaining levies along the route. Next week it is expected that the dreges Mighty Mite and the Shamrock will begin their dredging operations.

It is estimated that the jetty construction should begin within the next 45 days. Although the contract specifies 150 working days, it is expected that the channel will be complete by the middle of September of this year.

Trapping permit drawing is set

Assignment of a fur trapping permit for the Sabine National Wildlife Refuge will be determined through a public drawing on April 7, 1971 at refuge headquarters, Refuge Manager John R. Walther announced today. The drawing will give all interested and qualified individuals an equal opportunity for a permit to trap the Federal area this fall.

The refuge is located in Cameron Parish with headquarters on Highway 27 approximately seven miles south of Hackberry. The permit will cover four consecutive trapping seasons.

Manager Walther said that only the West Cove Trapping Unit will be available and assigned at this drawing.

"The past take on this unit has averaged about 379 nutria, 139 muskrats, 14 mink, 3 otter and 39 raccoons," Manager Walther said, "The actual catch, depending on production this summer, will be specified on the permit."

Each trapper's share, under present fur prices, will be 90% of the nutria, 60% of the muskrat and mink pelts, and 100% of the raccoons. Carcass disposal will be the trapper's responsibility. The shares will be adjusted to allow a fair return to both the permittee and the Federal Government in case of sharp changes in fur prices.

Manager Walther said that anyone 18 years of age or older who is interested in receiving a permit and can demonstrate that he has sufficient trapping experience should write; Sabine National Wildlife Refuge, MRH Box 107, Sulphur, Louisiana 70663. Each applicant will be sent a questionaire which should be returned by March 31, 1971.

All trapping under this permit must conform to State fur trapping regulations.

Sentence given on drug charge

Stephen Everett Brown, 24, of 3414 McKinley, Lake Charles plead guilty to possession of central nervous stimulents in Cameron district court last week and received a six month jail sentence in the Cameron jail. All but two months was suspended. Judge Jack Rogers presided.

Brown has been involved in a wreck in the Sweetlake area and drugs were found on him when he was searched by Deputy Sheriff Gene Constance. Drugs found were 50 barbituates and amphetimines and four syringes. The drugs were identified at the new crime laboratory in Lake Charles.

Stolen car is found quickly

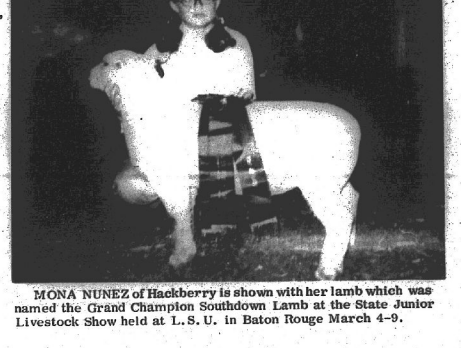
Ricky Lynn Caldwell, 17, of Sulphur, was charged with the theft of a car belonging to Raymond Toups of Hackberry this week.

The car was stolen from the Sabine Wildlife Refuge south of Hackberry March 4 and recovered on March 6 at Creensburg, La. A juvenile was also arrested.

Quick recovery of the auto was credited to the computer hook-up with all police stations and sheriff deputies and state troopers in Louisiana and all 52 states. Anytime a suspicious car is spotted in an area, a check for the license number is run through the computer and an answer is received within 2 1/2 seconds as to whether or not it is stolen.

A complete registration of the auto is received thereby giving the station calling all information as to owner, type of vehicle, and if it is stolen.

According to the National Crime Information Center, there is an average of one car stolen every 20 minutes. Sheriff Claude Eagleson of the Cameron Sheriff's Dept. asks that local people cooperate to see that they do not become one of the statistics. Always remove keys and lock cars.



MONA NUNEZ of Hackberry is shown with her lamb which was named the Grand Champion Southdown Lamb at the State Junior Livestock Show held at L. S. U. in Baton Rouge March 4-9.

Mr. Cormier's new agency will handle all types of advertising, commercial, industrial and political in nature.

Mr. Cormier is the brother of Mrs. Russell Richard of Creole.

McLeod favors two parish plan

A letter has been received by the Cameron Lions Club from State Rep. Bill McLeod saying he favors the Lions proposal that Cameron and Calcasieu parish remain together in a district when the state is reapportioned.

However, his second choice would be for Calcasieu to be in a district by itself with four representatives.

April 15 is the deadline for receiving applications for the crippled children camp at Leesville. Anyone interested in the camp is asked to contact Larry Dyson or Jimmy Colligan.

The club will man a bucket brigade this Saturday in Cameron collecting for the Easter Seal drive.

Larry Dyson reported that he is working on another food exchange program with an out-of-state Lions club.

The Lions cabinet meeting will be held in Cameron on May 2.

Vernon Kesling, Calcasieu-Cameron Easter Seal chairman, was a speaker at a recent Lions meeting.

Liquor store opened here

County Agent Report

By CLIFFORD MYERS

COASTAL BERMUDA GRASS - Coastal Bermuda Grass is a forage crop with high production capabilities and can be used for grazing and hay production.

Bermuda grass has the capabilities of producing 1000 pounds of beef or 10 tons of hay per acre on weed free areas that are properly fertilized. The forage crop is well adapted to most all soils in Cameron Parish.

A true hybrid, Coastal Bermuda grass must be propagated vegetatively. The most successful method is spring planting of fresh stolons on thoroughly prepared seedbed that is weed-free.

March and April are the best planting months, although the crop can be planted anytime during the growing season when soil moisture is plentiful.

Soil should be thoroughly prepared by plowing or disking. Soil should be pulverized and all weeds destroyed. The area should be left as smooth as possible, as this is helpful when the hay is being harvested. Careful soil preparation helps get a good stand and aids the area to become sodded quicker.

Coastal Bermuda grass stolons should be planted as soon as possible after they are dug. Long delays after digging will result in a greatly reduced stand. A minimum of 5000 stolons are required to plant an acre. This is approximately one plant every three feet.

Several types of planters are on the market that will do an excellent job. If a planter is not available, any piece of farm equipment can be used to make a trench in the soil. Drop the sprigs and cover lightly, making sure the soil is firmly packed around the stolon. Stolons may be disked in; however, this requires many more stolons. Rolling a cultipacker over the area after planting will firm the soil and conserve moisture. This will increase chances to obtain a stand.

As soon as planting is over, the soil should be treated with simazine to control weeds.

Fertilization is important with Coastal Bermuda grass. A soil test will indicate the amount of phosphate and potash needed. Nitrogen should be withheld until the plants start growth because an application at planting time only encourages weeds.

Apply 60 to 100 pounds of nitrogen per acre when the runners are about a foot long.

One good cutting of hay can be expected the first year. Thereafter, the amount of hay produced will be determined by the amount of nitrogen used, provided other plant nutrients are maintained.

Worth Saving!

We hope no one ever "develope" scenes like this. There are far too few such unmolested, beautiful areas left in Louisiana. They should be preserved for posterity—for our children.

These may seem strange words from Louisiana's member-owned Rural Electric Cooperatives whose motto is: "Louisiana Grows Where a Rural Power Line Goes". They aren't. Owned and operated by rural Louisiana citizens with a great appreciation of nature, our Electric Cooperatives constantly promote the need for conservation and preservation of our wildlife and natural resources.

Today, our tax-paying Cooperatives own and operate 84,000 miles of power lines in 54 parishes, serving mostly isolated areas no one else cared to serve with low cost power for progress and rural development. This benefits everyone, in both Town and Country. Of particular importance to town and city people is development of recreational facilities along many beautiful lakes, bays, beaches and streams throughout our service areas.

We hope you'll agree that no one should further encroach upon God's few remaining natural creations, such as the fast-disappearing Atchafalaya, Tensas, Red, Ouachita, Mississippi and other river basins with their few remaining unspoiled lakes, bayous and creeks lined with stately cypress. So it is with our hauntingly beautiful forests and marshlands. Those left should remain wild and free for future generations to enjoy truly lovely Louisiana as we know it today.

We hope you will also join in the movement to protect our few remaining unspoiled areas. Meanwhile our Rural Electric Cooperatives will continue pioneering rural development to insure both Town and Country progress. There can be no City prosperity without rural progress.

Barbecue plans made American Legion post

Final plans were made for the annual barbecue sponsored by the Richard Bros. American Legion Post No. 476 at the monthly post meeting in Creole Tuesday night.

The barbecue will be held on Sunday, March 28 at the Post Home. Plates can be picked up or eaten in the hall, starting at 10 a.m. It will sell for $1.50 per plate. Bingo will be enjoyed throughout the afternoon. Proceeds will go toward the building fund.

Jules Dronet asked for a delegation to attend the spring conference in Rayne April 17 and 18. Dronet and Ellis McWhirter will represent the Post.

Plans were made to offer the facilities and assistance of the Post to the Cameron Rod and Gun Club for their first annual fresh water fishing rodeo.

The post also voted to give the Creole Catholic Church a donation of $25.

Jule Dronet, Post Commander of Richard Brothers Post, is asking Post members and other persons for contributions for the purchase of chickens, beef and other items for the annual barbecue to be held March 28. Proceeds to go toward liquidating the debt on the building.

Contributions can be made to Dronet, J. Berton Daigle, Ellis McWhirter or Roland U. Primeaux.

"These films can be a very successful means to focus and propel discussion on this timely subject," she added.

Noise, water and air pollution; wetlands and forest conservation; pesticides, rivers, solid waste and endangered wildlife species are among the subjects covered. Most of the films are in color.

Measurement service available to farms

Charles S. Hackett, Calcasieu-Cameron ASCS office manager, reminds area farmers if they are not sure of their acreage, they should request measurement service. For a small fee, a farmer can be assured of program compliance, and protect the farm history by planting within the staked area.

With strict program compliance requirements on all programs, such as set-aside acreage, acreage planted for price support payments, and Marketing quota on rice, farm operators should be sure of their acreage.

Farmers can sign up for the service in the Calcasieu ASCS office in the Federal Building in Lake Charles or the Cameron office in the Cameron Courthouse building.

Around the Capitol

By JACK GOULD

BATON ROUGE -- There were some cries of "chicken" around the Capitol recently when the attorney general referred back to the LSU Board's own attorney the question as to whether the board had a right to give a coach permission to sell football films.

A quiet check with other attorneys around the building, however, revealed that most of them agreed that Jack Gremillion not only had the right -- even the duty -- to refer the question to the board's own lawyer.

"That," one LSU law graduate said, "was the reason the Independent board was set-up -- to operate on its own. Why should Gremillion stick his neck out on that hot question? And I am a fan of Coach Charlie McClendon."

But didn't the question come from a legislator, whose questions have to be answered?

The answer, it seems, is a flat no. By law, the attorney general does not have to answer questions on legal matters except those asked in writing by the governor, treasurer, comptroller or registrar of voters.

True, every attorney general for many years has been writing books full of opinions on every question under the sun, even many from out of the state. It has become a tradition - but not a law and never has been.

But doesn't the attorney general's opinion have the effect of "law?"

Nope. This has also become a "tradition," and such an opinion can be taken to court, anytime. In fact, it has been done, successfully.

It rarely is, for two reasons: (1) the Department of Justice has many able attorneys, who usually know what they are talking about; and (2) often the questioner knows the answer or he wouldn't have asked.

How can this be? Well, suppose the head of a department asks a member of the attorney general's staff: "Just suppose I need to know the answer to this . . . would the answer be yes or no?"

If the answer is yes, he will write for an opinion. Otherwise, he just forgets it! This has been going on for many years.

Another "fable" about the powers of the attorney general concerns his "authority" over district attorneys. Not much, really.

Under special circumstances, he can ask a judge to "rescue" a DA from a case, and, if the judge refuses, the attorney general can appoint a DA from another district. Not much more.

In other words, most of the time the job -- by law -- is mostly advisory. But by custom, the post can be "No. 2" job in the state.

Which is the reason one candidate for attorney general has been bitterly attacking the incumbent, another has said in public that Jack Gremillion will not seek re-election (Gremillion says he will), Republicans are making plans to run a top man for the job -- and more candidates are expected to announce long before July.

Camp Edgewood wins conservation award

The Calcasieu Area Council Boy Scouts of America has received word that it has been selected winner for Region V of the United States Department of Agriculture Green Seal Conservation Award for 1970. Only twelve such awards are granted nationally.

The Calcasieu Area Council was in competition with 32 councils in Region V for the honor and is now eligible to apply for the USDA Gold award -- the top national award for conservation projects.

The council submitted as its entry the conservation work which has been carried out at Camp Edgewood. Over the years, thousands of seedlings have been planted, camping areas refertilized, the dam area cleaned and riff-raffed, fire lanes cleared and fire plugs installed, and fish stock in the lake has been controlled. The entire area has been kept as natural looking as possible. There is a complete camp area for conservation and in 1970, 169 merit badges were awarded in four areas of conservation.

Francis Ezernak, district conservationist for the Soil Conservation Service in Lake Charles, is chairman of the Council's Conservation Committee.

Inspect wrap

Before you put chicken in the refrigerator when you get home from shopping, you should inspect its wrapping. Since the transparent wrap used on prepackag' ' poultry is designed to control moisture loss in the refrigerator, you can store it as is, says the U.S. Department of Agriculture. But if the chicken is wrapped in paper, you should unwrap it, place it on a platter, and then cover for refrigeration. Wrap and store giblets separately.

Company Announces New Mobile Park Program Expansion

Boise Cascade has recently announced plans to expand its operations to include the development of "parks" for companies, individuals or municipalities that control suitable land. This program is also planned to include optional management and occupancy services.

"There is also an apparent need for temporary municipal housing in many of our cities today and our development plan will include the exploration of mobilehome communities to satisfy this need," Norbert Vallee, General Manager of the Boise Cascade Mobilehome Communities Division, Boise, Idaho, said.

During 1970, Boise Cascade completed development of 17 of these "new concept" mobilehome communities throughout much of the United States, including the extremes of large urban areas to ocean-side retirement/retreat projects.

GRASS WITH HIGH POWERED CLAIMS - You will no doubt continue to hear powered claims of Alicia Bermudagrass this year -- it's so good according to the promotors that it should no longer be called Alicia Bermudagrass, but "Alicia grass."

This is in no way intended to condemn Alicia Bermudagrass, nor will I say it's not a good grass. I assume it is a good forage, but can farmers afford to pay the asking price for planting material, when there is no proof it is better, or even as good as Coastal Bermudagrass?

Claims such as carrying 30 steers on three acres, or making a profit of over $600 per acre in a year can commonly be heard about this wonder grass. If Alicia Bermuda is actually this good, it would seem to me the promotors would be more than delighted to have their miracle crop tested by an Experiment Station in Louisiana. However, to my knowledge this has not been the case.

Until claims that are being circulated can be substantiated by an Experiment Station test, I will continue to say Coastal Bermudagrass has been proven and stood the test of time. Planting material is available at an economical price and most farmers can greatly improve their program by following the recommendations with Coastal Bermudagrass. Until a better grass comes along we will continue to recommend Coastal Bermudagrass.

Be aware of the old adage "All that glitters is not gold." If you want to use Alicia Bermudagrass -- it's your money!

PECAN SPRAYING - Now is the time to spray pecan trees up until buds show 1/2 inch of green growth for phylloxera (galls or knots on stems, leaves and nuts) which occurred frequently last year. Use 50% wettable powder malathion at the rate of 3/4 lb. per 25 gallons of water. The amount of malathion can be adjusted to the amount of water needed to thoroughly spray the tree. This spraying will also help control the Black Pecan Aphid (seen in the leaves) which also occur quite frequently in this area.

Also, spray for scab (Stuart and Success varieties are highly susceptible) when buds are bursting and first leaves are showing with Bordeaux Mixture. To prevent injury apply only when temperature is above 55 degrees F.

CITRUS SPRAYING - Word of Caution - Neutral Copper is a very good spray for citrus; however, excessive use of copper compounds will cause a copper build-up in the soil which becomes very toxic to the plant. Therefore, it should be used wisely and properly.

Around the Capitol

By JACK GOULD

BATON ROUGE -- Thousands of professional and amateur politicians over the state are playing "numbers" -- and, come Nov. 6, someone is going to lose.

The date, of course, is that of the first Democratic primary election; and the numbers are those of the voters.

Some professional politicos sit around to divide the state simply into two distinct parts: North Louisiana and South Louisiana. Some of their imaginary maps split the division along an East-West line running from the top of Washington parish to the bottom of Vernon parish.

Too simple. Avoyelles voters, for instance, would flip at the idea that they are "North" people. They were in the parish, and they will tell you mostly, Chep Morrison supporters. And supporters of Adlai Stevenson over Ike (but not by much), and Jack Kennedy voters. And Lyndon Johnson voters. (But also, George Wallace voters!)

So, there goes the "horizontal line" theory. Which doesn't make too much difference, in a way, as Caddo parish occasionally throws out any "liner" and votes independent.

How about South Louisiana -- any differences? Plenty, according to past performances.

One candidate for lieutenant governor (who says he is not "big enough to play with the Big Boys -- yet") has a special "South Louisiana map" of his own "triangle" theory.

Draw one line from the top of Avoyelles parish, he says, to the southwestern corner of Calcasieu parish, and another line to the southeastern corner of St. Tammany parish.

This, he believes, is the "real Southern Louisiana, where most of the voters and most of the money are." He plans to test his theory by spending most of his advertising dollars in the "Golden Triangle."

The worst thing that can happen to me," he grins, "I might get elected!"

His theory, of course, leaves about a dozen parishes below the "middle fold" (what Civil Service would call unclassified) as to being either North or South. And, not worth the size of his advertising dollar. He hopes.

With all due respect to his "triangle," it is easier to stick with the "East-West" dividing line, and go from there. One "survey" seems to show that North Louisiana has gained about two percent in registered voters in the past ten years, and now has about 27 percent of the state's votes.

But this, too, leaves out several factors, including racial.

Ten years ago, for instance, four parishes did not have a single black voter: East Carroll, Madison, Tensas and West Feliciana. Now, East Carroll shows more than 10 percent black voters, Madison has about 50 percent, as does Tensas; and on Feb. 1, this year, nearly 53 percent of West Feliciana voters were black.

True, the total vote involved is less than 20,000. But in a first primary, 5,000 votes could make the difference.

And how about the vote by illiterates, still around 5 percent; some 25,000 white and 45,000 black. Do these people vote "different?"

This is why the "numbers game" scared some people. Including me.

"A bachelor is a man who can keep his feet out of a trap--particularly his own."

In Holland and some parts of Germany many years ago, children were encouraged to save their pennies in pig-shaped earthenware boxes called feest pigs, better known today as piggy banks.

MUSING. . .

By BERNICE STEWART

The year was 1931. Creole High School was experiencing a number of firsts; its very existence; its graduating class; their rings; their class play, "Two Days to Get Married," Commencement exercises. The late Henry P. LeBlanc was principal.

It was the spring that the school staged its first French play, "Le Bourgeois Gentilhomme," coached by Miss Bernice Hollister, the school's English-French teacher. The profit on the play was $31.25 a goodly sum in the dawning years of the Great Depression.

In January of that year a Mr. Bath, who had studied with the Mayo brothers, lectured at the Courthouse and at Creole High on foods in relation to health.

In February, an elderly photographer, a Mr. Foster peddled his trade and exercised his talent as he photographed Creole residents at their homes.

It was a spring of "tiffy pulls" and vicrols playing, of dancing in homes to the accompaniment of violins and guitar, of playing bridge and rook, and dominoes during neighborly visits.

It was a time for carriding in spite of deplorable roads or of horseback riding with no heed of the ground beneath, of crawfishing and canoeing, of horseshoe-pitching, of intense rivalry between basketball teams of little experience.

And it was the year when youngsters skated in the attic of the Oliver LeBoeuf home.

Red blood cells

You needn't worry if the meat around the bones of some chickens looks reddish brown -- even after cooking. It's safe to eat, according to U.S. Department of Agriculture poultry inspectors. Broiler-fryers tend to show this effect because they're marketed young, at 6 to 8 weeks. Their bone marrow has not fully hardened, and the red blood cells seep into the surrounding meat, causing a deep red or brown color.

New REAP program details are given

Francis Klein, chairman of the Cameron ASCS County Committee announced that new information has been received on the new Rural Environmental Assistance Program called REAP, which has taken the place of the ACP program.

The local ASCS office may now take applications for cost-shares on some practices to permit performance to be started before the 1971 Parish Program is completed and approved.

Requests can be taken for cost-shares for the following practices only:

A-2-Establishing Permanent Vegetative Cover. This is applicable to land being shifted from crop production to protective cover to prevent erosion or as a needed land use adjustment.

B-1-Improving an established cover. This applies to land in permanent cover which needs more than normal maintenance to provide adequate protection.

B-7-Constructing Dams or Ponds. This is to provide water for livestock, irrigation, fire protection, other agricultural uses, and to protect vegetative cover through (1) providing proper distribution of livestock in relation to the available storage, (2) encouraging rotation grazing, (3) encouraging better grassland management, or (4) making practical the utilization of the land for vegetative cover.

Applications are now being taken at the local ASCS office in the Courthouse.

Judging of dishes will begin at 10:30. After the judging, exhibitors will be invited to sample the dishes.

There are two main categories: Adult and Youth. Under the adult categories there will be classes for both men and women.

The men can enter in meat, poultry, seafood and dessert. The women will enter in meat, poultry, seafood, dessert, rice, vegetable, salad and bread.

School tax is approved Sat.

Cameron Parish voters approved a seven-mill school tax by 17 votes Saturday, balloting 869 for and 852 against.

School officials asked for the additional tax levy to cover increased cost of operation and increased enrollment. Additional school furniture, teachers, janitors, bus drivers, books and supplies will be obtained with the extra money, Supt. W. J. Montie said.

The tax was sought because oil revenues since 1968 have been unreliable, he said.

Wards 1, 2, 3 and 4 rejected the taxes, but the margin in Wards 5 and 6 was enough to overcome the opposition in those wards.

The issue lost by five votes in Ward 3, the most populous ward, 278 to 281. It carried in Cameron but lost in Creole.

The vote by precincts was as follows:

Concert drive now on here

The Community Concert Association is currently conducting the membership drive for the 1971-72 season. Already announced for the upcoming season is the appearance of outstanding concert-television personality Skitch Henderson and orchestra.

Three other bookings have been announced for the season: the Young Americans, a talented group of youthful singer-performers; The Canadian Opera Company and orchestra performing Offenbach's satirical opera, "Orpheus in the Underworld" in English and the internationally recognized pianist James Dick.

The Young Americans were formed in the spring of 1962 and are selected in audition from recommended students representing over 200 high schools and colleges in Southern California. Members are chosen for their combined vocal, instrumental, dancing and academic abilities.

The Young Americans' foremost goal is to perform throughout the world as youthful ambassadors of understanding and good will.

The Canadian Opera Company, founded only 19 years ago, has toured all of Canada annually since 1958. Its varied repertoire has received great acclaim not only in that country's major cultural centers, but in the provinces as well. The company's orchestra, a recent addition on its tours, was made possible by a grant from the Canada Council.

The opera company will tour the United States performing one of the great operatic comedies of all times -- the satirical "Orpheus in the Underworld."

Internationally famous James Dick was top finalist in 1966 in three of the world's most highly praised music competitions: the Tchaikowsky International Piano Competition in Moscow; the Busoni Competition in Bolzano, Italy and the Edgar M. Leventritt in New York.

Community Concert season memberships are $8. Headquarters opens March 29 at Lakeside National Bank, McNeese Branch.

Membership also may be secured from Mrs. Charles Hackett of Sweetlake.

Around the Capitol

By JACK GOULD

BATON ROUGE -- Paragraphs:

ONE FIRM believer in advertising is Agriculture Commissioner Dave Pearce, who reports that Louisiana "yams" are still bringing higher prices across the nation than ordinary sweet potatoes, thanks to the "selling job" -- and despite the fact that the crop here was one of the poorest in years!

WHEN AND IF the legislators reach agreement on reapportionment, one of the reasons will be the use of computers by Major Everett McCoy, head of the center here. He fed thousands of figures into the machines, enabling the committee to get in seconds a "live picture" of any proposed districts.

SOME BUSINESS people in New Orleans blamed "unfavorable publicity" for lack of Mardi Gras visitors. Some have agreed in a way, but place blame on the businessmen themselves because of hiked prices during carnival season, and the requirement that "guests" make hotel-motel reservations for at least three days.

Watershed aid program

Cost-sharing assistance available through the REAP program, formerly called the Agricultural Conservation Program (ACP), usually is an important factor in helping farmers in watershed program areas get needed land-treatment measures under way on their farms, Francis Klein, Chairman of the ASC County Committee said.

Public Law 566, under which watershed projects are developed, provides that Federal assistance for works of improvement will be available only if the owners of not less than 50 percent of the lands in the drainage area above each proposed detention reservoir in a project enter into agreements to carry out the recommended soil-conservation measures and farm plans.

The ACP program in Cameron parish added 64 farms in the newly created Cameron-Creole watershed in 1970 and costshared $15,510 in government conservation funds for carrying out needed conservation measures.

Drainage bonds totaling $390,000 were sold this month by Drainage Districts 3 and 4 to Schaffit and Jones, Inc. of New Orleans. The bond money will be used to finance the local participation in the Cameron-Creole small watershed project and other local projects.

The 20-year bonds were approved by local property owners about two years ago.

Parents Know the Drug Threat

By Sheriff
Claude Eagleson

Today's Subject: The Drug Scene in Our Country

This is No. 1 in my new series of "letters" to parents. Since I cannot possibly talk to every parent individually I find this is a speedy and efficient way to communicate. This series, as the title implies, will be to give all parents in our community some of the latest information on drug abuse.

A noted college professor in the east said recently, "the present generation of young people in our schools and colleges are the best informed, the most intelligent, and the most idealistic of any we have had in this country." He adds, "today's young people are more moral than their elders, 90% of them." Only a small minority of young people are using and abusing drugs, but a minority still means a great number of young people, some quite young, and the number is evidently increasing rapidly.

This is a drug-obsessed society. In 1965 about 167,000,000 prescriptions were written by doctors for psychotropic drugs, the kind that change or affect mood or behavior. Adults were the main consumers, and so we must assume that adults themselves are high on the list of drug abusers.

If this is true, and national statistics seem to indicate it, the parents must look to themselves when trying to understand how the drug problem got its start in the first place. However, the purpose of this series is not to place blame, but rather to become familiar with terminology, learn more about the drug problem itself, and discuss how best to cope with it as parents.

It takes no giant intellect to realize that a parent cannot scare a child into doing "the right thing" with statements that are not factual. During these trying times most children, from their associations on the street, know more about drug use and terms than their parents. Therefore, what we discuss here about drugs will be an effort to meet and surpass the knowledge of our children, so that we may better impress them on the pitfalls of drug use.

Everyone knows, if he reads at all, the use and abuse of drugs that affect the mind is spreading across the country. Hundreds of thousands, maybe millions of young Americans are tasting, testing and experimenting or going further with marijuana, LSD, with "uppies" and "downies" . . . pep pills and sedatives, with "Speed," and a few with heroin. So then, in the series ahead, we will examine such things as Oral Amphetamines, Injected Methamphetamine, Barbiturates, Heroin, Marijuana and LSD — what they look like, the names they are called by the teens, where they are obtained, how they are used, dangers of use, affects of use, reactions, etc.

For a majority of youngsters, an encounter with mind-affecting drug seems only a flirtation with the user feeling sure he can take it or leave it. Some authorities say that such experimentation can amount to drug roulette; some young people happen to be particularly susceptible to some drugs and can become dependent and hurt badly by what they intended as an innocent adventure.

American society tolerates alcohol and nicotine, both of which are technically drugs, and millions of people abuse both of them. Many drugs are taken legitimately by prescription, but there is also a black market among some potent drugs. Every year billions of sedative and pep pills are diverted to illegal use and misuse. This is enough pills per person per year to keep everyone in the United States awake and jumping for a week, and enough barbiturates to keep them in a stupor for a week, according to the Federal Food and Drug Administration.

If this information convinces you that all parents need to know more about drugs, watch for my "letter" to you next week in this paper.

SS raise will affect some veterans

A Social Security boost in payments affects non - service connected payments being drawn by living veterans, or their widows, but does not affect those receiving service connected payments from the Veterans Administration.

This is the explanation given by Fred Moore, Calcasieu Parish Service officer on the increased payments.

No one drawing non - service connected VA pensions will be affected until Feb. 1, 1972, Moore said.

County Agent's Report

By CLIFFORD MYERS

FIELD DAY - WEST LOUISIANA EXPERIMENT STATION - The annual West Louisiana Experiment Station Field Day will be held on Friday, April 2, from 1:30 to 4 p.m. All interested in agriculture research are invited to attend.

A tour of the Station will begin promptly at 1:30. Visitors will observe winter pastures of grasses and grass-legume mixtures planted on a prepared seed bed and on bermudagrass sod. One stop on the tour will include the winter forage crop nursery, where new strains and varieties of grasses and legumes are being grown to test their adaptability to the area.

Three methods of wintering the cow herd will be discussed. One group of cows had access to hay, plus 2 ounces of cottonseed cake daily. Another group of cows had access to hay and grazed wheat-rye-grass pastures 2 hours, 2 days each week. These cows calved in the fall and calves in each group had access, at all times, to a wheat-rye-grass pasture.

The third group of cows (divided into three groups) were bred to drop spring calves and were wintered on pellets, fed at three levels, and were fed no hay during the wintering period.

To be shown at another stop will be steers and heifers, both Angus and crossbreds, that are being fattened for slaughter. Also discussed will be a group of 10 steers (already marketed) that were held over and sold on their second birthday. These steers on grass alone, weighed approximately 1062 pounds and sold for $29.02/cwt., or a total of $308.10 per head.

The flock of crossbred sheep will also be observed.

Visitors to the Station will be given a report on the new research with cattle and sheep that will be initiated this fall.

CROP ACREAGES - The prospective acreages for 1971 were collected in a special survey of the Louisiana Crop and Livestock Reporting Service of Alexandria.

The special report lists the following prospective planted acreages for Louisiana: Soybeans - 1, 866, 000 acres or 9% above last year; Sorghum - 104, 000 acres representing 20% above last year; Cotton - 3% below last year; Corn - 150, 000 acres or a 13% drop from last year, and Oats - 66, 000 acres, the same as last year.

Pat Paulsen will look at 70's at MSU

"Pat Paulsen looks at the 70's," will be delivered by the humorist at McNeese State University on April 14.

Jointly sponsored by the McNeese Student Government Association and the Concert and Lecture Series, the lecture will be presented at 8 p.m. in McNeese Auditorium.

McNeese students and faculty will be admitted on their identification and Concert and Lecture Series cards. General admission will be available for others.

The lecture, which is described as an analytical look at the major problems affecting mankind in the next decade, will deal with such issues as the sexual revolution, drugs, astrology, religion, ecology and politics. Each subject will be supplemented with motion picture film and other visual aids.

Paulsen's appearance at McNeese is part of a national college and university lecture tour which will take the former presidential candidate to more than 100 campuses throughout the country.

This is said to be Paulsen's first national tour since his "narrow defeat" in the 1968 presidential race and is considered "by many political pundits" to be the forerunner of a full - blown campaign for the 1972 nomination by his Straight Talking American Government (STAG) Party.

Around the Capitol

By Jack Gould

BATON ROUGE-- WASHINGTON reports of Congressman Hale Boggs being knocked down in the men's room reminded Capitolites of two happenings: (1) when the same thing happened to the late Sen. Huey Long, and (2) when Boggs referred to Capitol newsmen as "you country people."

* * *

STILL ANOTHER senator, from North Louisiana, is reported "toying" with the idea of appearing on the ticket of a possible aspirant from South Louisiana on his ticket for governor. If he does, at least three House members will run for the so-called Upper Chamber seat -even if this senator--like Rep. Dick Guidry --runs for both offices.

(WE ARE not being coy about the names --just being careful until they make up their minds.)

* * *

AS MIGHT BE expected, most of the annual Gridiron show here April 3 will revolve around the goings-on of the Anti-Mafia committee. One member of the skit committee suggested just running a tape of an actual meeting, with actors merely mouthing the words. He was overruled, because "nobody would believe it!"

* * *

ONE CAPITOL political sage insists that the deadline is near for any really "new faces" to announce for governor, contending that it will take months to properly "introduce" them to the public. This, he recalled, is in spite of the fact that eight parishes failed to pass a single one of the 53 proposed constitutional amendments proposed by the "in" crowd.

ONE THOUGHT from the Land-Water-People conference at LSU: Efforts toward solving the problems today are working only on the symptoms - not the problem.

* * *

FROM THE US SENATE: "The federal government does not have the foggiest idea of how much (oil) spare capacity we have on just the federal lands."

* * *

ONE WITNESS before the anti-Mafia committee said -- on March 17 yet! -- "Remember, there is also an Irish Mafia, too."

* * *

FISH FARMERS, of which Louisiana has hundreds, would get financial aid from the U.S. Department of Agriculture, under a bill just introduced by Congressman Speedy Long of Jena.

* * *

ONE OF THE most-talked about men in recent Louisiana history, Carlos Marcello, has just about "decided" to retire, it was "reported" around the Capitol; and will move to the more "friendly" country of Haiti. His attorney says "No!"

* * *

BENNY TURCAN, recently promoted to assistant commissioner of administration, is known to thousands over the state as the un-paid state amateur softball commissioner.

* * *

LSU FOOTBALL fans will sit more comfortable this fall, and it will not cost the taxpayers one nickle. After the Purple-Gold spring game May 8, the athletic department will replace the old wooden seats with either aluminum or plastic seats. Now, if the Tigers can just beat Notre Dame . . . !

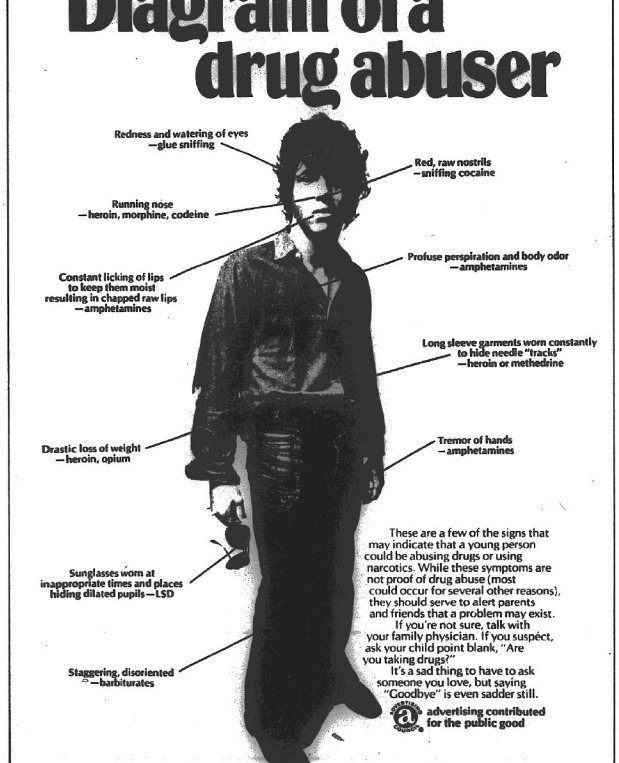
* * *

HER NAME wasn't mentioned (he prefers it that way), but Director Wilma Lockhart of the state Highway Safety commission deserves much of the credit for the fact that Louisiana tied for second place in the nation in meeting 16 national standards for highway safety. She and her staff prefer to work behind the scenes, and let others get the credit.

* * *

ANYBODY REMEMBER the late Col. P. A. Frye who once headed the Highway department? A really able and nice guy, he was once assigned -- possibly by former Gov. Sam Jones -- to study the Louisiana problem with natural gas. He reported, after months of work, that some day most of the gas would go out of the state, leaving a real shortage -- and that nothing could be done about it!

Diagram of a drug abuser



These are a few of the signs that may indicate that a young person could be abusing drugs or using narcotics. While these symptoms are not proof of drug abuse (most could occur for several other reasons), they should serve to alert parents and friends that a problem may exist.

If you're not sure, talk with your family physician. If you suspect, ask your child point blank, "Are you taking drugs?"

It's a sad thing to have to ask someone you love, but saying "Goodbye" is even sadder still.

MRS. CORAL PERRY, Cameron Librarian, holds the Guiness gallion which is a part of the Guiness collection now on display at the library. On top of the bookcase is the Guiness bottle.

Guiness collection on display at library

An unusual collection is being featured at the Cameron library this month, according to Mrs. Coral Perry, Parish librarian. It is the "Guiness Collection" owned by Cherie and Leslie Griffith.

The collection was started in 1961 when Leslie found the first Guiness Bi-Centennial bottle while cleaning up the pastures around his home on Oak Grove after Hurricane Carla. The Gulf of Mexico had roared in during this hurricane to completely submerge the land on the front ridge, and even though it chose the Texas coast as its target, the Front Ridge was completely inundated for almost a week. When the water receded, it left debris, including the Guiness bottle behind.

The bottle is a chocolate brown, and was corked with a water-proof seal. When the seal was broken a delightful and colorful message from "King Neptune" was found inside. There was also a quite collection of labels for labologists.

Leslie immediately wrote to the Guiness Co. in England telling where he had found the bottle, giving the latitude and longitude, the date, and the circumstances under which it was found. For this, the company sent back the explanation that this was a commemorative bottle put out by the House of Guiness to celebrate their By-Century year with a "Bottle Drop."

Approximately 150,000 bottles were dropped in selected areas of the Atlantic Ocean during a six-week period, starting July 14, 1959. Thirty-eight different drops were made and the first bottle was found off the coast of New Jersey on July 20, 1959.

In appreciation for his letter, Leslie was sent a lovely sterling silver demitasse spoon engraved with the trademark which is the coat-of-arms of the Guiness Company, which was patterned after the O-Neil Harp, which was last heard in 1760, being played through the streets of Limerick, Ireland. This was about the same time the first glass of Guiness was being made at St. James Gate Brewery, Dublin, Ireland. The O-Neill Harp is now in the Library of Trinity College in Dublin.

As an added gift, the company sent a gallion kit, upon receipt of his second report of finding another bottle. This is a lovely replica of an early English sailing ship. Leslie started putting the kit together in 1961, but it was so intricate he put it aside still unfinished. His mother completed it this year and the Guiness Gallion is the pride of the Griffith's collection.

In 1964 Cherie found another Guiness bottle and wrote to the company about her find and was sent a book entitled "The Guiness Book of Records." In the book, it tells of records set all over the world. Such as, the tallest man, the longest bridge, the highest building, etc. Cherie was also sent a good luck charm, a leprechaun, from Ireland.

The card accompanying it stated that a lebrechaun is a member of the "Little People" of Irish folklore reputed to be of a height of no more than nine inches, but are invisible to the human eye. They are renown in folklore for bringing good fortune, health and prosperity.

The entire collection can be seen in the main display case at the Cameron library. Mrs. Perry said it will be there until after National Library Week which is being held in April.

Draft board move is opposed

Strong opposition was registered this week by the Cameron Parish Local Board No. 13 over the relocation plan adopted by Selective Service which will reduce the locations of local boards from 89 to 28 in Louisiana, according to Dell G. LaLande, Chairman of the local board.

The number of local boards will remain the same and they will retain their identity, but they will be located or relocated at 28 sites.

LaLande said, "The Cameron Parish Local Board Members do not think that this plan will be successful. It will place too much inconvenience on registrants. We feel that the boards will lose the constant personal touch with their registrants if the offices are far removed from the community over which they have jurisdiction."

National Headquarters did not consult with local board members, LaLande said; nor did they request recommendations concerning the relocation plans. The local board members bear the brunt of the burden, volunteering their uncompensated services to a sometimes thankless job.

LaLande added, "We feel that the centralization of local board offices will bring hardship to compensated Selective Service employees. A number of them will have to commute many miles each day to their offices. In some instances, because of mileage and road conditions involved, some of them will have to pull up stakes and move to another community."

LaLande further stated, "The relocation plan was formulated for the sake of economy. Many of the local board officers are located in cost free quarters, as is the Cameron office in the courthouse building. We are not convinced that whatever economy may be wrought by this plan will be worth the damage that it will cause in other areas of operation - especially in that area of human relationship."

A CHECK FOR $300 representing the amount of money collected by the Cameron Lions Club in its "bucket brigade" collection in Cameron Saturday is presented to Mr. Braxton Black, Easter Seal chairman for the town, by Larry Taylor, Lion Chairman.

Parish problems talked at meet

Prospects of placing a mail drop box at Oak Grove is not encouraging, Joe P. Rutherford reported to the Cameron Parish Development meeting. Rutherford stated he had talked with Dalton Richard, Creole Postmaster, who had inquired of the postal inspector. the decision itself will come from the Dallas office and there has been no word from that office to date.

Following the discussion concerning laws and regulations in connection with alligators, it was suggested that personnel from the Rockefeller Refuge be invited to speak on the subject at the next meeting.

Correspondence was read from the Corp of Engineers to the effect that no present need existed for the capping of the jetties at Cameron. The president appointed Terry Clement to investigate any steps the Police Jury of Cameron might be considering for improving the jetties as a recreational facility.

Rep. Conway LeBleu discussed the highway building program for Cameron Parish. He explained that the Legislature in 1968 passed a five year construction program bill. Some of the projects for Cameron, which came out of this bill are: Widening main street in Cameron, New Rako Bayou bridge, Resurfacing of roads in Grand Chenier and Sweetlake.

Rep. LeBleu also explained that the present difficulty of the evacuation route is the acquisition of a right-of-way through Sabine National Refuge. He stated that $12 1/2 million had already been set aside through bond issues for the evacuation route.

A discussion was held on the problem of sewerage connections for persons who could not afford the plumbing fee. The Secretary was instructed to write Joe Wood in the Intergovernmental Relations Office in Baton Rouge.

Terry Clement gave a list of available trees which could be presently obtained by Parish residents. Anyone interested should contact Clement at the Soil Conservation office in Cameron.

Elected to serve on the school board were Carol Seires and Theresa Devall over Jimmy Pearce and Daryl Fasque.

Earl Guthrie, Linda Constance, Trudy Hicks and Curtis Fountain were elected Police Jurors over Felice Dardeaux, Ray Daigle, Sonnie McGee and Mona Jinks.

Delegates to Government Day were representatives from all the high schools in the parish. One of the highlights of the day was a mock trial put on by the group in the courtroom.

Control of range shrubs is goal here

Of interest to Cameron Parish farmers and ranchers is the two year experiment being conducted by the County Agent Clifford Myers in the control of competitive shrubs.

For many years shrubs such as Cherokee Rose, Huisache (mesquite), Palmetto, Ivu (Mangrove), Rattle Box (Perennial Coffee Shrub) and Youpon have been a menace on pasture and rangelands in the parish.

The problem has been so bad a practice was introduced into the U. S. Department of Agriculture's cost-sharing plan, now called REAP, and administered through the local ASCS office, whereby the government pays one half of the cost of eradication.

Myers said that last year a 50 acre plot was sprayed by air using a 2-4-5-T solution and the results proved excellent. This year a 40 acre plot in the Creole area will be sprayed in early spring, around the first part of April, then another 40 acres will be sprayed in August.

From the results of the sprayings a satisfactory solution and spraying time will be determined for this area.

Now being used is a 5 gallon solution with a formula of 1 gallon diesel fuel, 1 quart multifilm, 2 pints 2-4-5-T and the remaining water to make up the 5 gallons. Myers said the goal of the experiment is to get a 100 percent kill.

Ellender says stop messing with geese

Senator Allen J. Ellender of Louisiana called upon the Interior Department today to halt midwestern refuge managers from disrupting the historic flight patterns of migratory game birds to the South.

The Senate President Protempore said Louisiana hunters were concerned about a deliberate practice of short-stopping waterfowl on Federal refuges in the Midwest.

"It is feared that Louisiana may lose the Blue and Snow geese and some species of ducks just as the state lost our traditional flights of Canada geese," Ellender said in a letter to Secretary of Interior Rogers Morton.

"I am informed that these geese and ducks are becoming accustomed to ryegrass, winter wheat and corn, which are planted specifically for them," Ellender said. "Since these agricultural crops are more plentiful and more nutritious than the roots of our marsh plants, the birds have little desire to continue southward," the Louisiana Senator said.

"Those that do come to Louisiana are deserting the marsh in favor of improved pastures, thereby creating a problem for our livestock raisers and rice farmers," Ellender said.

"It seems to me that the Department of the Interior, through its Bureau of Sport Fisheries and Wildlife, should be attempting to carry out a national refuge plan rather than allowing refuge managers the authority to disrupt historic flight patterns of our migratory game birds," the Senator said.

"In many areas, geese and ducks are being weaned away from natural habitats and from their wintering grounds in the South in particular. Once they become used to being "hand fed" on agricultural crops, it will be extremely difficult, if not impossible, to restore their normal flight patterns," Ellender said.

He said the problem was affecting waterfowl flights to Texas as well as Louisiana.

"The only answer to it is management of the entire refuge system on a national basis with a specific intent to maintain the historic flights of waterfowl," he said.

By JACK GOULD

BATON ROUGE -- Many things may change before the Aug. 15 filing deadline, but from here it looks as if the race for lieutenant governor may be almost as bitter as the one for the top post.

"Almost" is used, because the present governor has said he would "stay out of the race" for the Mansion "unless I am attacked." He has already been attacked privately, and will be again in public. So that's that.

But John McKeithen's toughest problem may yet be to stay out of the race for lieutenant governor, in which a number of his supporters apparently will run.

Several possible candidates for the second spot have already been listed here. But there are others, with comments:

Sen. Jamar Adcock of Monroe, who many times pulled McKeithen chestnuts out of Senate fires, has already spent a lot of money for signboards saying he "Is The Man."

These signs could mean he is a candidate "for governor," but one of his closest friends doesn't think so, and wrote "Adcock is not a second chairman. If he runs for lieutenant governor, he will continue to run later for governor or the United States Senate. He's been a bridesmaid too long." (That reference to the U. S. Senate may throw McKeithen off balance.

That's the job he wants!)

Then there is W. W. "Bill" McDougall, Commissioner of Administration, who has pulled McKeithen out of a lot of trouble of his own making, and who has been heard to tell the Gov "hell no!"

From his many years as Director of Civil Service, McDougall probably knows more about all of the departments of state than most governors. He looks good on television, talks well, and -- unlike McKeithen -- rarely loses his "cool" before a press conference.

His friends say "Mac" is more interested in "good government" than in "politics," but, being practical, he knows he will probably be out of a job in May, 1972 -- so what not run for a state office?

Finally (at this writing!) there is Sen. B. B. "Sixty" Rayburn of Bogalusa, who has also saved the governor's face many times -- and ridden his back when he disagreed!

Sixty has long been one of the most feared and respected men in the Upper Chamber, even by the lobbyists. He knows the state, the state department, and almost everything else about hard-nosed politics.

Why should he run for lieutenant governor? "A guy has to keep reaching higher," he says, "and, in these days, I guess a guy without a college degree can't be elected governor."

So, where does this leave McKeithen -- if, that is, anybody wants his endorsement? And at least one of the three named above has said, off the record, that he doesn't want it.

As a matter of fact, where does this leave most of the candidates for governor?

Grand Chenier

By ELORA MONTIE

The starting of spring always means a busy time of the year for the Chenier folks, especially the local cattlemen. For the past several weeks many have been burning off some of their pasture land and old hay patches for fresh spring grass for the cattle. Many others have been building new fences and clearing and repairing old fences.

This past weekend some of the first spring branding and vaccinating took place on several of the cattle farms here: Jeff Nunez, Lionel and Charlie Theriot, Valian and Oliver Theriot, while still many more will be held from now until the end of spring.

Mrs. Mable Hawkins of Lake Charles spent Saturday night and Sunday with Mr. and Mrs. Earl Booth and family.

Mrs. Edmond Bertrand spent Saturday night and Sunday with her sister, Mr. and Mrs. Adam Hebert in Crowley.

Mr. and Mrs. Gilford Miller and Cheryl and Mrs. Edmond Bertrand Friday visited with Mr. and Mrs. Fred Bait and Mrs. Barbara Bourge in Lake Charles.

The Garrett Mayons of Houston, Tex., spent the weekend in their home here.

Visiting with Mr. and Mrs. Claude V. McCall and family during the weekend and also making the Favorite Food contest in Cameron Saturday were Mr. and Mrs. Hill Bonin of Lake Charles. Spending Sunday in their camp here were Mr. and Mrs. Crawford Vincent and other relatives of Lake Charles.

Cattle raising here at the Chenier is one of the oldest industries here. Prices of cattle are very good and active, encouraging ranchers to raise more beef for the market.

The Knights of Columbus members of Grand Chenier and Creole held their annual Holy Communion Day at St. Eugene's Catholic Church Saturday at 5 p.m. mass in Grand Chenier. There were many members taking part.

Mrs. Luresia (Pete) Broussard of Lake Arthur, sister of Severin and Prevate Miller and Mrs. D.Y. Doland and Mrs. Charles Richard of Grand Chenier, is reported doing better in St. Patrick's Hospital in Lake Charles, where she was taken Tuesday after suffering a heart attack.

LSU has big impact on Cameron parish

Louisiana State University has had a definite cultural and economic impact on Cameron parish this year, an indication of the University's substantial influence in the Louisiana economy, claims Chancellor Cecil G. Taylor.

A University study reveals that LSU has made its fundamental value to the people of Louisiana felt throughout the state through a three-fold program of teaching, extension and research.

For example, LSU's Baton Rouge campus is the most prolific producer of educated men and women in the state. Today, there are 34 alumni and former students of LSU-Baton Rouge living in Cameron parish and contributing to its growth and progress. And, in the current year, there are 8 students from Cameron parish enrolled on the Baton Rouge campus.

A major contribution of LSU to the people of the state comes through the Cooperative Extension Service, headquartered on the LSU campus here. Last year, 1,275 families in Cameron parish benefited from agricultural and home demonstration programs of the Cooperative Extension Service, receiving a total of 1,850 visits from Extension workers.

Many of the LSU personnel who live and work in the parish are employees of LSU's Cooperative Extension Service; currently there are 4 LSU personnel in Cameron parish, earning a total annual payroll of $35,976.

Louisiana's young people participate in a variety of LSU programs; one of these is the 4-H Club, a project of LSU. There are 10 4-H Clubs in Cameron parish, with an enrollment last year of 647. During the year, a total of 96 of these young people took part in programs on the University campus.

Individual parishes also benefit from LSU's widespread research which touches virtually every Louisiana industry. The estimated cash receipts from agricultural products, for example, in Cameron parish for 1970 amounted to $3,438,582.

Yet another facet of LSU which has had a bearing on the economic competence of individuals and groups beyond the campus is the Division of Continuing Education. This division offers training to firemen, bankers, law enforcement personnel, physicians, engineers, dentists, scientists, insurance personnel and numerous others through short courses, institutes, special schools and conferences. Last year 192 people from Cameron parish participated in various phases of this LSU education program.

Last year 234 LSU faculty members from the Baton Rouge campus went off-campus to teach a total of 255 credit and non-credit courses at locations throughout the state.

Some of the parish's residents - last year's total was 6 - have also taken correspondence courses from LSU.

MINUTES OF MEETING OF THE BOARD OF COMMISSIONERS OF GRAVITY DISTRICT NO. 3 AND 4 OF CAMERON PARISH ON MARCH 19, 1968, AT CAMERON PARISH COURTHOUSE ANNEX BUILDING, CAMERON, LOUISIANA.

This meeting was held jointly with members of the board of Commissioners of Cameron Parish Gravity Drainage district No. 3, Cameron, La. with the following persons in attendance: Joe P. Rutherford, A. P. Welch, Jr., Traville Broussard, J. P. Boudoin Jr., and Dalton J. Richard of district No. 4, Creole, La. and also W. F. Henry, Jr., Terry Clement of SCS, George Johns with La. After a discussion as to the amount needed locally for the Small Watershed Project with Mr. George Johns and Mr. Jones, a motion was made by J. P. Boudoin, Jr. seconded by Traville Broussard that Gravity Drainage District No. 4 will hold an election in her district for a bond issue in the amount of $195,000.00 and that a maintenance tax in the amount of 3.5 mill also be voted on at the same time. Jones, Jr. was instructed by the board to go through the proper channels to hold the election as soon as possible. The district No. 3 of Cameron to call a similar election in the same amounts as district No. 4.

He stated that this document was needed as soon as possible in order to sell the bonds when approved by the people and asked Mr. Jones to prepare the document and submit to him for signature. MINUTES OF THE MEETING OF THE BOARD OF COMMISSIONERS OF CAMERON PARISH GRAVITY DRAINAGE DISTRICT NO. 3, ON JULY 18, 1967, AT THE COURTHOUSE, CAMERON, LA. ALSO MEETING WERE THE MEMBERS OF CAMERON PARISH GRAVITY DRAINAGE DIST. NO. 4.

Joe P. Rutherford, president of Cameron Parish Gravity Drainage District No. 4, presided at the meeting in the absence of J. A. Davis, president of District No. 3.

Mr. George Johns of the La. Dept. of Public Works, went through detail cost-sharing of the project. He explained that the drainage districts will get 12% of construction costs of channel and levee improvements for the La. Dept. of Public Works. This amount would be credited to the local districts on the projects. He stated that the estimated costs for this work would be approx. $327,000.00 to the local districts after subtracting $113,000.00 (12%) from the total estimated cost of $440,000.00 which the local districts would have to raise on the total Small Watershed Project.

Mr. Jennings B. Jones, assistant district attorney and legal advisor, stated that it would take approx. a five mill tax for construction and a three mill tax for maintenance. It was suggested that there is a need of a breakdown from the La. Dept. of Public Works on the needed mills for each district.

After this general meeting, members of the board of commissioners of gravity drainage district no. 3 met with Mark Richard, vice president, presiding. A motion was made by Mark Richard and seconded by E. J. Dronet, that the district recommends to the Cameron Parish Police Jury to extend our boundary in the northern part of the district. All bids must be unconditional. No proposal for less than all of the bonds, or for less than par and accrued interest to the date of delivery of and payment therefor, will be considered. No rate named shall exceed six per centum (6%) per annum. No bid may specify the rate of split of interest coupons and a zero rate of interest may not be named. All bonds maturing on the same date must bear the same single rate of interest from the date of the bonds to such maturity date. The bonds will be awarded to the bidder offering to purchase the same at the lowest interest cost to the District, such cost to be determined by deducting the amount of any premium bid from the aggregate amount of interest on all of the bonds from their date to their respective maturities at the rate or rates specified by the bidder.

Each bid must be accompanied by a certified or cashier's check for two per cent (2%) of the par value of the bonds, drawn to the order of Waterworks District No. 2 of the Parish of Cameron, Louisiana. A prompt award of the bonds will be made and checks of the unsuccessful bidders will be returned immediately. The check of the successful bidder will be held until the bonds are delivered and paid for. No interest will be allowed on such check. In case the successful bidder does not comply with the terms of his bid, the check will be forfeited as liquidated damages. The bonds are expected to be delivered on or about June 15, 1971, or as soon thereafter as is reasonably possible, at the Police Jury Annex, Cameron, Louisiana.

The full faith and credit of the District is pledged to the payment of the principal of and interest on the bonds, and the District is authorized and required to impose and collect annually in excess of all other taxes, a tax on all the property subject to taxation by the District, sufficient in amount to pay the interest and the principal falling due each year on the Bonds.

The printed bonds, the usual closing papers, including a non-litigation certificate, together with an opinion of Wood-King Dawson Logan & Sabatino, Attorneys, of New York, New York, as to the legality of said bonds, will be furnished to the purchaser of the bonds without cost.

The right is reserved to reject any and all bids and to waive any irregularities in any of said bids.

Truck and trailer licenses go on sale

"Louisiana truck and trailer license plates for 1971 go on sale at Louisiana Department of Revenue offices throughout the State April 1. There are 27 branch offices in the State of Louisiana where these plates can be purchased as well as the main office of the Motor Vehicle Division in Baton Rouge," said E. Lee Agerton, Motor Vehicle Commissioner and Collector of Revenue.

This is the second year that truck and trailer license renewal applications will be pre-printed and mailed to the owners," said Agerton.

"It will only be necessary for a truck or trailer owner to complete the form, sign it, and bring or mail it to the nearest office of the Department of Revenue with a check or money order covering the fee and the 1970 registration certificate (pink slip). Please do not send cash," said Agerton.

The truck and trailer renewal forms are in quadruplicate and include dates on the vehicle and the owner.

"The computer-filled-out renewal form may present some problems to truck owners, but we feel the advantages will far outweigh the problems which are bound to turn up," said Agerton.

The annual Field Days at the West Louisiana Experiment Station at Rosepine will be held April 1 and 2, John C. Carpenter Jr., superintendent of the station, has announced.

The Field Day will be April 2 for farmers from Beauregard, Allen, Evangeline, St. Landry, Pointe Coupee, Calcasieu, Jeff Davis, Acadia, Lafayette, Martin, Lafayette, Iberia, Vermilion and Cameron parishes. The program will begin at 1:30 p.m. and end about 4 o'clock.

Those attending the event will tour the station and hear explanations of research underway. Experiments to be shown will be on winter pastures of grasses and grass-legume mixtures planted on a prepared seedbed and on Bermuda grass sod; new strains and varieties of winter forage crops being grown in small plots to test their adaptability to the area; three methods of wintering a cow herd; and fattening steers and heifers for slaughter.

A report will also be given on the performance of a group of steers that were held over and marketed at two years of age. These steers were carried on grass alone and weighed approximately 1060 pounds at marketing.

The flock of crossbred sheep at the station will also be observed, and visitors will hear a discussion of new research with cattle and sheep that will begin at the station this fall.

Moving of draft board blocked

The Cameron Draft Board received notice this week from State Director of Selective Service that the House of Representatives has voted affirmatively on an amendment that prevents collocation of local boards. It now goes before the Senate.

The resolution was introduced by Congressman Dawson Mathis of Georgia.

The Cameron Draft Board vigorously opposed the collocation plan and registered strong opposition with the president, members of the Congressional delegation and state and national headquarters over the proposed move.

If the plan had gone through the local Draft Board activities would have had to be handled out of the Calcasieu office. It would have reduced the locations of local boards in Louisiana from 89 to 28.

400 persons attend barbecue

Over 400 Cameron Parish Farm Bureau and Cattlemen Association members and guests gathered at the KC Hall in Creole Saturday night for the annual spring barbecue. John Impson, pesticide safety and forestry entomology specialist with LSU Extension Service from Baton Rouge, was the guest speaker.

Impson spoke on the safe use of pesticides. He stressed the fact that pesticides, used safely are harmless, and must be used for agriculture to survive. Without pesticides, there would be a 78 to 98% loss on vegetables, and as the losses go up, prices go up, and these price increases are passed on to the consumer.

"Many big companies are going out of the insecticide business," Impson said, "because of the bans being put on pesticides and of the strict laws being passed on the dispensing of the pesticides."

One example he cited was the ban on DDT and nothing has been found to replace it. It is a known fact that research was made on workers in a factory dispensing DDT who had a high rate of DDT in their bodies, and not one was found to have contracted cancer. Yet, it was bannoned on the findings made on rats who had been fed a high rate of DDT. Impson questioned the fact that it would be banned on just this finding.

Impson said that the proper pesticide used on the proper plant in the proper amount, at the proper time is completely safe, and that all the present chemicals on the market are needed in order to accomplish this. Every link in the chain is needed. The present pesticides on the market, when used according to the above, far surpasses the minimum requirements set by the Federal Drug Administration.

James Cox and Alex Beard, presidents of the two organizations were in charge of the business session. Paul LeDoux, with the La. State Farm Bureau office spoke to the group and told about new laws that are in the making concerning the drivers of farm vehicles being 21 to be eligible to drive.

Alligator work at Refuge is described

A discussion of the work being done with alligators at Rockefeller Refuge was the program given by Larry McNeese, biologist with the Grand Chenier refuge at the monthly meeting of the Cameron Parish Development Association held last week.

McNeese explained that one female alligator can lay forty eggs in a season with about 54% fertility. If the predator kill of the young gators is not unusually high, alligators can increase in population at a high rate. With the information from studies being carried on at Rockefeller, the biologists can aid the Louisiana Wildlife and Fisheries Commission to allow the limited taking of alligators under regulation which will take into account the alligator's ability to maintain a safe population level.

"LORD, TEACH US TO PRAY"

Long before Christ came upon the earth, men were resorting to prayer for divine help.

Realizing the power of prayer, the people of Israel prayed often in appeal for God's blessings and in gratitude for His favors. Almost everyone, in fact, instinctively feels the need for prayer – especially in times of danger and emergency.

It might seem, therefore, that everyone knows how to pray... that the form, language and objectives of prayer are not important... that God will listen as readily to the prayers of the unreligious as to those of the devout. Prayer, some will undoubtedly say, is prayer "and nobody need tell us how to pray."

And yet the Apostles, watching as Jesus prayed, became aware for the first time of the unique power of a proper prayer. They could see on the Savior's face as He prayed, the reflection of a great inner peace and refreshment.

So they said to Jesus: "Lord, teach us to pray!" And Christ replied: "Pray thus: Our Father, who art in heaven, hallowed be Thy name. Thy kingdom come, Thy will be done, on earth as it is in heaven. Give us this day our daily bread, and forgive us our debts as we also forgive our debtors. And lead us not into temptation, but deliver us from evil."

The words of the Lord's Prayer, of course, are enshrined in the hearts of Christians everywhere. Yet Christ, in giving us this most beautiful prayer of all, did not tell us to "pray thus". What He said was: "Pray thus."

He meant that we must pray with the realization that God is truly our Father... that His name shall be revered as no other... that His will is to be done here and hereafter... that we are to be truly sorry for our injustices to others, and forgiving of those who injure us... and that we are to avoid sin.

People who question the value of prayer will often say they have tried it and "it didn't work." They mean by this, of course, that God did not grant the things for which they prayed. With a better understanding of *proper* prayer, they would realize that an appeal for God's favor is only one of various kinds of prayer... and that God does not grant every favor we may want or think we need.

Proper prayer is not merely a petition for blessings. It is also an expression of our love, our devotion and our gratitude to God... a declaration of our acceptance of God as our Father, a submission of our wishes and our will to His wishes and will.

The words of many beautiful prayers are readily available, in many forms and languages. But the important thing is to understand the true meaning of *proper* prayer. To help you in this, we have prepared a special pamphlet on prayer which will be useful to people of any or no religious affiliation... and we will gladly send you a copy free upon your request. It will be mailed immediately, nobody will call on you. Write today... ask for Pamphlet No. KC-59.

District No. 3 Commissioners present: J. A. Davis, Mark Richard, Berton Daigle, W. F. Henry, Jr., and E. J. Dronet. Absent: None

District No. 4 Commissioners present: Joe Rutherford, A. P. Welch, Jr., Traville Broussard, and Dalton Richard. Absent: J. P. Boudoin, Jr.

Other people attending the meeting were: Irvin L. Sonnier, SCS, Alexandria; Jerry Harless, Harless, Inc. of Lake Charles; Rodney White, S.C.S., Ville Platte; Richard D. Abshire, SCS, Alexandria; George T. Johns, DPW, Jennings and C. R. Smith, SCS, Alexandria; Terry Clement, SCS, Cameron.

Minutes of the previous meeting was read by the Secretary, and a motion was made by Berton Daigle, seconded by W. F. Henry, Jr., and carried that the minutes be accepted as read and recorded in the minute book.

A meeting was made by W. F. Henry, Jr., seconded by E. J. Dronet, and carried that the bids on hand be opened. An identical motion was made by Dalton Richard, seconded by Traville Broussard, and carried for Dist. No. 4.

The only bid received and opened on the structure excavation, access channel excavation, and sandfill of the structure excavation of Structure No. 1 at Grand Bayou in the Small Watershed Project, was from Mike Hooks, Inc., Lake Charles, as follows:

1. Excavation, Common, Structure 11,100 Cu. Yd. @ $.82	$9,102.00
2. Excavation, Common, Access Channel Lump Sum	5,350.00
3. Sand Fill 20,000 Cu. Yd. @ $2.62	52,400.00
Total	$66,852.00

Mr. C. R. Smith of the SCS stated that the bid looked like a legitimate bid and approx. $3,000 below the estimate. He stated that it would be about 10 days before the SCS could check out the bid and the contractor before a contract could be awarded.

W. F. Henry, Jr. brought up the subject of the control structure in Cameron being in very bad shape with one of the steel flaps completely gone. He asked representatives of the SCS if this structure would be given a higher priority than the levee along the lake front. Mr. Sonnier promised to bring the matter up at the SCS state office to see if this would be permissable.

A motion was made by E. J. Dronet, seconded by Berton Daigle, and carried, that W. F. Henry, Jr. secure the necessary materials for emergency repairs to the structure.

George Johns of the Dept. of Public Works gave a current report on the watershed projects. He stated that a survey is to begin in about a week on locating the center line of the levee along 19 miles of the Calcasieu Lake, and that the SCS is to make borings as soon as this is completed. He also stated that the structure at Oak Grove is to undergo repairs and plans for the Labove Bayou structure should be ready to be advertised for bids sometimes in the summer. He asked the board to check the flag locations on the levees, and that if there were any questions, that it could be moved some to the satisfaction of all.

A motion was made by W. F. Henry, Jr., seconded by Mark Richard, and carried, that necessary steps be taken to sell the $195,000.00 bonds that were approved by the voters. It was felt that if both districts sold their bonds together, that a better price might be obtained.

The Secretary read the following bills: Daily Journal of Commerce $85.30; Cameron Parish Pilot $27.00; and Cameron Office Supply $103.13.

A motion was made by W. F. Henry, Jr., seconded by Berton Daigle, and carried, that the bills be paid.

District No. 3 Commissioners present: J. A. Davis, Mark Richard, W. F. Henry, Jr., E. J. Dronet, and J. Berton Daigle.

District No. 4 Commissioners present: Joe Rutherford, Traville Broussard, Dalton Richard, Benny Welch, and J. P. Boudoin, Jr.

The meeting was called to order by District No. 3 President J. A. Davis.

A motion was made by W. F. Henry, Jr., seconded by Mark Richard, and carried, that the president be authorized to proceed with the opening of the sealed bids on the bonds offered for sale, by district no. 3.

A motion was made by Benny Welch, seconded by Traville Broussard, and carried that the president of district no. 4 be authorized to proceed with the opening of sealed bids on the bonds offered for sale.

The following bids were read on the $195,000 bonds offered by each district, to run for 20 years:

Scharff & Jones, Inc.
New Orleans, La. Average interest rate 5.9377%

Barrow, Leary & Co.
Shreveport, La. Average interest rate 5.9443%

After discussion of the bids and consultation with Mr. J. B. Jones, Jr., legal advisor, a motion was made by Mark Richard, seconded by W. F. Henry, Jr. and carried, that District No. 3 accepts the apparent low bid of Scharff & Jones, and the president J. A. Davis, and the secretary E. J. Dronet, be authorized to sign the acceptance.

A motion was made by J. P. Boudoin, Jr., seconded by Benny Welch, and carried, that District No. 4 accepts the apparent low bid of Scharff & Jones, Inc., and that the president Joe Rutherford and the secretary Dalton Richard, be authorized to sign the acceptance.

Secretary Dronet and Mark Richard reported that Mr. Alton Mangum, assistant state conservationist of the S.C.S. in Alexandria stated that a right-of-way of 400 feet should be obtained from the J. A. Davis and Martha Davis Trust at this time, because all plans and specifications were drawn up with this provision. They could not agree at this time to reduce the R/W to 200 ft. In Section 25, because this would mean a long delay to make additional surveys, borings, plans, and specifications to consider the request. He stated that they would not object to the Board of Commissioners making a side agreement to reducing the R/W to 200 feet following the construction acceptance, at this time.

After a discussion of the matter, a motion was made by Mark Richard, seconded by E. J. Dronet, and carried, that the Board of Commissioners of Gravity Drainage District No. 3, hereby approves a side agreement with the Trustee W.F. Henry, Jr. of the J. A. Around The Capitol

By JACK GOULD

BATON ROUGE -- The latest final monthly report by the state Conservation department, for February, showed only three active oil rigs in "Zone IV" in the Gulf, the area now controlled by the Federal government.

Does this drop, from 66 active rigs in September, mean that drilling closer to the shoreline has increased, meaning more possible money for Louisiana? Unfortunately, no -- at least not in the near future.

What it does mean is that Uncle Sam, who promised to increase the flow of oil in the zone (it didn't), doesn't even report to the state what is going on in the taken-over area.

The only reason the Conservation department officials know what is going on "out there" is that the state does retain some small control over leases which extend to include some areas in Zone III, closer to shore.

So activity in the "deep" area is believed to be increasing, as it has been for many months. Which leaves some here fearing that Louisiana might as well give up on petroleum as a source of income.

But does it? There are "whispers" -- and only that -- from Washington that even El Presidente is becoming convinced that Louisiana has long been getting a raw deal from the banks of the Potomac.

Part of this may result from knowledge that President Eisenhower once suggested that the Pelican State gets a fairer arrangement, such as one-third. And President Nixon has followed many of "Ike's" dreams and ideas.

Another possible reason is that the United States favors an agreement among all nations under which Louisiana would get an outer limit of its bays at 24 miles, instead of 10 miles.

How much would this mean to the state, in American money? Possibly, just possibly, one-third of 1 1/2 Billion (yet--"B") dollars, or as much as $500 million. And could we use it!

One possible hitch. Would any decision about this be made in 1972 -- which just happens to be an election year? Or would it be held as a "carrot" until Louisiana has voted?

There are, of course, many ways a final decision on the so-called "tidelands" case can be delayed in Washington, such as failure to reach any agreement with the state on the more than 1,700 miles of coastline.

But it does mean, at long last, that there is at least some possibility that Louisiana will get some money from the vast amount of funds supposed to be in "escrow" -- which it ain't.

And it means that Louisiana voters will think carefully before selecting a governor (or lieutenant governor) to decide where the new money -- if any -- should go, such as $150 million for a domed stadium.

You might want to ask some of them.

Permanent pasture assistance available

Farmers and ranchers who are thinking about completely establishing a permanent cover on their pasture lands should do so this year, according to Francis Klein, Cameron ASCS County Committee chairman.

Klein said that the local committee, in setting up the new REAP program has given high priority to practice A-2- Establishing a permanent vegetative cover and the government will pay 80% of the cost of the seed used in carrying out the practice.

In order to qualify the farmer must plow the field up and prepare a good seed bed.

The purpose of the practice is to protect the soil and prevent or reduce the pollution of water, air or land. It is applicable to land which should be established in permanent vegetative cover for protection from erosion or to cropland being shifted to such protective cover as a needed land-use adjustment.

Eligible seed are dallis grass, bermuda (hulled), coastal bermuda stolens, fescue, bahia (Pensacola and Argentine), ryegrass, alfalfa, white clover, lespedeza, southern winter peas or a mixture of southern winter peas and vetch.

The government also cost-shares on fertilizer and lime for the practice.

Anyone wishing further information or to sign up for the spring practice can do so at the ASCS office in the Cameron courthouse.

Consolidation of draft boards out

Word has been received here that a final victory has been won in the fight to have the Selective Service System abandon its plan to combine rural draft board offices. The consolidation scheme has been "indefinitely suspended."

Two amendments were adopted by the U. S. House of Representatives during its consideration of the draft law last week.

Offered by Congressman Jack Brinkly of Columbus Georgia, the amendments require draft board offices to be located in the county they serve, and forbid draft boards to serve more than one county.

Congressman Dawson Mathis of Albany, Ga., introduced a "sense of Congress" resolution asking the President to stop the plan of consolidating draft offices.

Brinkley, a member of the House Armed Services Committee, seized the chance last week to write an even stronger deterrent into law. The Brinkley amendment has not yet been approved by the Senate, but it is believed it will have no trouble passing.

The Cameron Draft board voiced strong opposition to the co-location plan when it was learned that plans were to be sending to close the local office and handle all local draft board matters from the board in Lake Charles.

Flood insurance coverage for property owners here

The Louisiana coastal area will soon brace itself for another "waiting game" during the hurricane season. Often accompanying these devastating freaks of nature is another form of possible financial ruin for many communities and their residents -- floods.

And it could happen again, warns the Insurance Information Institute, unless communities have had the foresight to qualify for flood and mudslide insurance -- coverages not generally available prior to 1970.

While several coastal communities in Louisiana have become eligible for protection under the year-old federal flood insurance program, the institute notes that, surprisingly, many of the other flood prone areas have not.

Cameron parish is one of 14 areas of Louisiana that has qualified for flood insurance. Other eligible areas include the city of Baton Rouge, East Baton Rouge Parish, Jeffemon Parish, Lafourche parish, St. Tammany parish, Terrebonne parish, Baker, Golden Meadow, Grand Isle, Gretna, Kenner, New Orleans and St. Bernard parish.

Flood insurance is now available through a unique business-government partnership between the National Flood Insurers Association and the Federal Insurance Administration of the U. S. Department of Housing and Urban Development.

Once a community has been declared eligible, flood insurance policies may be purchased from any local property and casualty insurance agent or broker.

As now constituted, flood insurance is available to one-to-four family dwellings and to small businesses (defined by the Federal Government as "any business that does not have assets exceeding $5 million, does not have net worth in excess of $2 1/2 million and does not have an average annual net income after federal income taxes for the preceding two fiscal years in excess of $250,000").

Flood insurance under this emergency program may be purchased in amounts up to $17,500 for existing single-family homes and up to $30,000 for two to four-family homes. Annual rates range from 40 to 50 cents per $100 of insurance. In addition, household contents may be covered up to $5,000 -- with rates ranging from 50 to 60 cents per $100.

Rates for small businesses also are graduated: 50 cents per $100 of insurance for properties valued up to $30,000, increasing to 70 cents for properties valued at $60,000 or more. Under the emergency program, coverage is limited to $30,000 per building. Business content may be insured at $1 per $100 of insurance for up to a maximum of $5,000 per occupant.

The program will also provide for additional amounts of coverage with rates based on the actual flood experience of the community at such time as FIA-HUD develops actuarial rates and converts the local area to make it eligible for such coverage. In most cases, the cost of such added protection will be considerably higher than the subsidized rates for the basic limits.

Flood insurance policies cover losses resulting from the general and temporary inundation of normally dry land areas from (1) the overflow of inland or tidal waters, (2) the unusual and rapid accumulation or run-off of surface waters from any source, or (3) mudslides which are caused by accumulations of water on or under the ground. It does not, however, cover water damage which results principally from causes on the insured's property or within his control, or from a condition that does not cause general flooding in the area.

The amount of deductible on flood insurance policies, applicable separately to both the structure and the contents, is either $200 or 2 per cent of the amount of insurance covering the type of loss, whichever is greater.

Reporter finds out she has a 'record'

By GENEVA GRIFFITH

Through the miracle of computers, and the latest equipment in the Cameron Sheriffs Department, it took me only seconds to find out that I had a "record". It took only a few more seconds to completely deflate my ego, because I found out that I am practically an "unsigned rock."

It all started when I was watching Riley Richard, juvenile officer in the Cameron Sheriff's Dept., send a message over the teletype wire and receive an immediate answer. I asked him to check what was on record for me. He sent through my drivers' license number and received back immediately all the vital information on my drivers license as well as the fact I had been in a wreck in 1968, and had been injured.

At the end there were the letters RES CO, This means "impaired vision, cannot be corrected, but qualified to drive."

Now here I was thinking I had practically 20-20 vision, with my glasses on of course, because I don't believe I ever miss seeing anything. So now I am wondering if it is safe to try to drive back home this afternoon.

My ego is crushed, I have a record, my vision is incorrectably impaired; that's what I get for being "nosey."

Good Grooming tea is Friday

The first annual 4-H Good Grooming tea is planned for Friday, April 16, at 2 p.m. in the Cameron Courthouse Meeting Room.

All 4-H members enrolled in the 4-H Good Grooming project and their parents are invited to attend. The tea is sponsored by the Cameron Parish Home Demonstration Council with Mrs. Charles F. Hebert as chairman.

Girl contestants should wear dresses (no jeans, or pants suits). Boys should wear dress slacks and sport shirts. A tie and sport jacket should also be worn, if available, according to Miss Patsy Granger and Uland Guidry, 4-H club agents.

LaFleur takes top honors on project

Stephen LaFleur, who captured local, regional, and state first place honors on his "Matodor I" last year in the annual science fair, has once captured the triple honors again this year with "Matodor II."

"Matodor II" designed by Steve is a modular apparatus for telemetry of data on environmental research. The basic purpose of which is to collect and return data pertaining to life temperature changes, and gravity changes on alien planets.

Steve entered his project in the field applied physics and engineering where competition was very keen and severe. In addition to first place honors he was granted the Air Force Award for the most outstanding engineering project.

"Matodor II" consists of a roving module that collects samples for analysis and a transmitting station connected to the little module which is returned to a receiving station on Earth whose the data is received along with information as to which step the module is in.

Most of "Matodor II" is constructed from salvaged electronic components of various machines such as pieces of old washing machines, juke boxes, television sets, old mechanical toys and display motors.

Steve is the son of Mr. and Mrs. Warren LaFleur of Grand Chenier, a senior at South Cameron High School where he has excelled in the field of science since his enrollment here in 1965. His future plans are to attend LSU in the field of electrical engineering.

Fire ant date

One of the dates the Fire Ant poison distribution truck will be in Cameron parish has been changed from April 15 to April 23.

The Tuesday, April 20, date remains the same, as previously announced, according to Clifford Myers, Cameron County Agent.

Hearing set on basin

The Louisiana Department of Public Works, the Louisiana State Soil and Water Conservation Committee, co-sponsors, and the U.S. Department of Agriculture, which is conducting the study, have scheduled a public information meeting at 7 p.m., April 29, in Lee Hall at the University of Southwestern Louisiana.

A previous meeting in Crowley, Louisiana, January 8, 1969, provided information on the scope, purpose, and procedure for development of the comprehensive plan. This meeting is being held to present progress of the study, which began in 1968, to re-stress the importance of using the river basin approach to water and related land resource development and to solicit ideas from meeting participants which are pertinent to the study.

All representatives of federal, state, and municipal agencies, and interested parties are invited to attend.

The Calcasieu and Mermentau River Basins are included in this study and the Cameron-Creole Watershed is located within the area, as well as the whole parish of Cameron.

Society is drug obsessed

A noted college professor in the east said recently, "the present generation of young people in our schools and colleges are the best informed, the most intelligent and the most idealistic of any we have ever had in this country." He adds, "today's young people are more moral than their elders, 90% of them." Only a small minority of young people are using and abusing drugs, but a minority still means a great number of young people, some quite young, and the number is evidently increasing rapidly.

This is a drug-obsessed society. In 1965 about 167,000,000 prescriptions were written by doctors for psychotropic drugs, the kind that change or affect mood or behavior. Adults were the main consumers, and so we must assume that adults themselves are high on the list of drug abusers.

If this is true, and national statistics seem to indicate it, the parents must look to themselves when trying to understand how the drug problem got its start in the first place. However, the purpose of this series is not to place blame, but rather to become familiar with terminology, learn more about the drug problem itself, and discuss how best to cope with it as parents.

It takes no giant intellect to realize that a parent cannot scare a child into doing "the right thing" with statements that are not factual. During these trying times most children, from their associations on the street, know more about drug use and terms than their parents. Therefore, what we discuss here about drugs will be an effort to meet and surpass the knowledge of our children, so that we may better impress them on the pitfalls of drug use.

Everyone knows, if he reads at all, the use and abuse of drugs that affect the mind is spreading across the country. Hundreds of thousands, maybe millions of young Americans are tasting, testing and experimenting or going further with marijuana, LSD, with "uppies" and "downies" . . . pep pills and sedatives, with "Speed," and a few with heroin. So then, in the series ahead, we will examine such things as Oral Amphetamines, Injected Methamphetamine, Barbiturates, Heroin, Marijuana, and LSD -- what they look like, the names they are called by the teens, where they are obtained, how they are used, dangers of use, affects of use, reactions, etc.

For a majority of youngsters, an encounter with mind-affecting drug seems only a flirtation with the user feeling sure he can take it or leave it. Some authorities say that such experimentation can amount to drug roulette; some young people happen to be particularly susceptible to some drugs and can become dependent and hurt badly by what they intended as an innocent adventure.

American society tolerates alcohol and nicotine, both of which are technically drugs, and millions of people abuse both of them. Many drugs are taken legitimately by prescription, but there is also a black market among some potent drugs. Every year billions of sedative and pep pills are diverted to illegal use and misuse. This is enough pills per person per year to keep everyone in the United States awake and jumping for a week, and enough barbiturates to keep them in a stupor for a week, according to the Federal Food and Drug Administration.

An interesting program is being planned and each exhibitor will present a picture of him and his animal to each buyer that night.

Those planning to attend are being asked to return cards stating their intentions by April 15 so those preparing the food will know how many to plan for.

Creole KCs set barbecue Sun.

Sunday, April 25 has been set by the J. P. Boudoin Sr. Council No. 3014 as the date of the annual spring barbecue, according to T. P. Bonsall, Grand Knight. It will take place at the KC Hall in Creole. Proceeds will go toward the youth program of the council.

Events for the day will include softball games, skeet shooting (22 rifles), kiddy rides and bingo games. Chicken, ham and beef barbecue will be served starting at 10:30 a.m.

Holiday set for fur festival

Cameron parish students will get a one-day holiday on Friday, Jan. 14 to attend the 1972 Louisiana Fur and Wildlife Festival in Cameron, it was voted at a recent meeting of the Cameron school board.

This will be the first time that the schools have been dismissed for the festival, although they were dismissed last year for the observance of the Cameron Parish Centennial.

Other dates set for the 1971-72 school calendar were:

Opening of school: Aug. 23, 1971.

Labor Day holiday: Monday, Sept. 6, 1971.

Veterans Day: Monday, Oct. 25, 1971.

Thanksgiving and Louisiana Teacher Association meeting: Nov. 22-26, 1971.

Christmas holidays: School to close at 2 p.m. on Dec. 17 and reopen on Jan. 3.

Good Friday and Easter holidays: Schools to close at 2 p.m. on Thursday, March 30, 1972 and reopen on April 4.

Closing day: May 26, 1972.

Daylight time begins Sunday

Spring ahead, fall back.

That's the slogan someone, somewhere, came up with to help as a reminder about changing to CDST (Central DayLight Saving Time). So, now it is time to "spring ahead."

On the last Sunday in April clocks are set ahead one hour and on the last Sunday in October they are set back one hour. Most people set their clocks before going to bed on Saturday night, rather than wake up at 2 a.m. Sunday to perform that chore.

Anyway it's done, when arising Sunday morning, April 25, you will have lost one hour's sleep; this will be regained on Oct. 31 when clocks are set back again.

Preaching set

Preaching services will be conducted in the Cameron recreation center Tuesday, April 27, and Thursday, April 29, at 7:30 p.m. Everyone is welcome.

Evangelists will be Luther Raine and Jack Mulkey.

Court held here

Among the sentences handed down by judge Jack Rogers in district court last week were the following:

Ricky Lynn Caldwell pleaded guilty to unauthorized use of a movable and was given a one-year suspended sentence.

Lottie S. Pike was fined $175 for DWI.

Charlie Chisolm pleaded guilty to theft and was given a 5-year sentence in the penitentiary.

Alfredo R. Solis was given a 60-day suspended sentence for commercial fishing without a license.

Big fun day planned by KCs

A full day of entertainment for the youth and adults on Sunday, May 23, at the Cameron Recreation Center, is being planned by the Knights of Columbus of Our Lady Star of the Sea Council.

The public is invited to participate in and view go-cart, mini bike, and bicycle races, and soft ball games. A noon meal and evening dance will be held.

Proceeds from the activity will benefit the council's quota to the Youth Expansion Program, and other council activities, according to Grand Knight Earl Mouton.

Ray Burleigh is in charge of the races and go-cart rides. There will be $1 entrance fee in the races and go-cart rides will be available at 25¢ per ride, Burleigh said.

The noon meal will consist of fried chicken and fried fish, with everyone invited.

Mouton also stated that an all-expense deep sea fishing trip for two couples on the Boat Sunrise III and a cassette record player will be awarded to the winning ticket holders.

Austin S. Labove, Jr. was recently inducted in the first degree of the order. Labove was recently discharged from the U. S. Navy after serving in the Viet Nam area. The Cameron KC Council has exceeded it's membership quota for this year, according to council membership chairman Hilaire Hebert.

The Rev. Alcide Sonnier, chaplain, and pastor of Our Lady Star of the Sea Parish, stated that plans are for an outdoor Mass to be at the Shrine to Our Lady on Sunday afternoon, June 27, the 14th anniversary of Hurricane Audrey.

Council Youth Chairman James LeBoeuf gave a report on the recent Easter Egg Hunt. He also asked that boys and girls interested in going to the KC Maryhill Youth Camp should contact him for applications.

Sheriff dept. is featured in magazine

Cameron Parish's Sheriff Claude Eagleson and his expanding programs for the Cameron Parish Sheriff Department were featured in an article in the Louisiana Peace Officer magazine which has just been released.

Sheriff Eagleson tells of his plans for expanding the communication center when the courthouse is remodeled. The communication system is very vital to Cameron Parish, not only in everyday activities, but also in times of emergency, as in the case of hurricane evacuations, Eagleson explained.

He is coordinator for his operations with Civil Defense in times of emergencies. The sheriff had high praise for the Civil Defense in his parish. It is a highly trained and well equipped organization, with everyone helping, business and industry, and is our first line of defense in times of emergency, Eagleson said.

The sheriff has organized Junior Deputy Program which has been very well received. Such has the complete cooperation of the Cameron Parish School Board and school officials in the program. The program calls for one two-hour meeting a month in each school. It will be expanded to reach the grades of seven through 12.

The pilot youth program was started at the school in Hackberry. Riley Richard is coordinator of the program.

Prior to launching the junior deputy program, all of the youth activities had been centered in Little League ball for the summer months. This will be continued, but the Junior Deputy Program is an in-school activity.

Speakers are provided to talk on a wide range of subjects and films are shown on different programs of current events, such as narcotics and dangerous drugs.

"We want these youngsters to know that law enforcement officers, realize citizen responsibility and realize the place that law enforcement plays in our American heritage and liberty," Eagleson said.

The program will also include gun safety, marksmanship, water safety, emergency boat handling and many other things they will or could encounter in everyday life. Outside help will come from the FBI, Louisiana Wildlife and Fisheries and other experts in a wide variety of fields.

The sheriff's department will provide caps, patches and badges that the boys will wear on khaki uniforms. Camping trips, beach outfitting and field trips are being planned for the future, Eagleson said.

VERNON E. KEATING, president of the Easter Seal Society, presents a plaque to E. J. Dronet, chairman of the Cameron campaign, in recognition of the success of the campaign. Dronet presents $1853 check to Keating.

Easter Seal drive success

E. J. Dronet, chairman of the Cameron Parish Easter Seal campaign presented a check for $1853. 84, the proceeds from the 1971 Cameron parish drive, to Vernon E. Keating, president of the Easter Seal Society from Lake Charles.

Keating presented a plaque to Dronet for exceeding the parish goal and in appreciation for the outstanding success of the Cameron campaign.

The presentation took place at a dinner meeting at Fred's Restaurant Thursday. On hand for the presentation were the area chairmen for the campaign. Dronet congratulated the chairmen on the fine job done, which included the door to door campaign, donations from bonds sent by mail, and the "Bucket Brigades" held in Cameron and Hackberry. Each chairman was presented with a certificate by Dronet.

Area chairmen were: Mrs. Braxton Blake, Cameron; Mrs. Merle Johnson, Hackberry; Mrs. Guthrie Perry, Grand Chenier; Mrs. Wilton Young, Sweetlake; Mrs. John Prescott, Johnson Bayou; Mrs. Ted Aslaew, Grand Lake; Mrs. Robert Ortego, Creole; and Mrs. W. R. Smith, schools.

Keating pointed out that most of the money goes right back into the communities to help those in need of braces, physical therapy, and other services recommended by the patients' doctors. He cited many cases of those who have been helped through the Easter Seal program.

A guest at the meeting was W. L. Smith of Lake Charles, past president of the Easter Seal program.

Cameron parish's flags in full bloom in marshes

By GENEVA GRIFFITH

The season of the "Flags" is upon Cameron Parish. The beautiful iris, sometimes called "flags", are growing in wild profusion all over the vast sea marshes and in the roadside ditches in the southern part of the parish.

Garden clubs and flower connoisseurs from all over the state make annual pilgramages to the area to view the breathtaking display of lavender blooms.

No one seems to know how the wild iris was introduced into the parish. They have been growing wild as long as anyone can remember. They, like the lovely wild lotus, seems to thrive on the damp floating turf of the sea-marsh.

There are several thousand named varieties of iris in variations of colors, mainly white, yellow, pink, purple, blue, maroon, mahogany, bicolors, and blends. They have been long established as the most common of hardy flowers in the south.

They are easy to grow and have long been the "backbone" flower of the southern home garden. This is due, in part, to the fact that iris bloom after the spring flowering bulbs and before phlox, delphiniums, and peonies. During its period of flowering an iris planting commands attention in any garden.

The wild iris, which is usually the lavender color, can be easily transplanted into the home garden because they are easily grown and require little care. They are also very handy plants and seem to be very resistant to disease. This is probably due to the fact they have become acclimated to the area over many years of growth.

If you are looking for a "change of pace" and want to spe a living picture, come to Cameron Parish and view the wild iris.

Shots fired at Cameron man

A Cameron man barely escaped injury or death at about noon Friday when four men in a passing car fired several shots into his vehicle.

Tommy Berry, a captain for Standby Crews of Cameron, told the Cameron sheriff's department that while on his way home to lunch, a red car with four white men passed him about two miles east of Cameron and that one of the passengers fired several shots into the truck.

One of the bullets shattered the glass next to Berry and two others went into the door. The bullets were apparently .22 or .25 caliber.

Sheriff Claude Eagleson said that as soon as the incident was reported that his deputies and state police set up road blocks, but the car was not found.

He said that Berry knew of no reason why anyone would take a shot at him.

The sheriff said he understood there had been some shooting around Fort Arthur on Saturday and he was contacting police there to see if there was any connection with the Cameron incident.

4 Eagle Scouts to be honored

Four Cameron Souts will be among 48 young men from throughout the five parish Calcasieu Area Council who will be honored April 25 at the annual Eagle Scout banquet. This year's banquet will be held at the S. J. Welsh Jr. High School cafeteria with ceremonies commencing at 7 p.m.

The three are Mathias W. Saltzman, Robin O. Roberts, Barry L. Kelley and Perry D. LaLande.

The Eagle Banquet recognizes the achievements of those boys who during the course of the past year have completed requirements for Scouting's highest award -- that of Eagle.

According to H. J. Lechtenberg, chairman for this year's banquet, it is one of the highlights in a boy's scouting career. "His name, picture, and record of his achievements in Scouting are placed in the Golden Book of Eagles and made a permanent part of the council's records, Lechtenberg said.

"Each scout being honored attends the banquet with his parents, his scoutmaster, and if possible, with a sponsor from a career field in which the boy has expressed an interest," he said.

This year's class is the largest to be honored in over ten years and reflects increased activity in all areas of Scouting within the council. Guest speaker for the occasion will be Lloyd G. Jones, Special Assistant to Congressman Edwin W. Edwards.

Bottles on display at library this week

One of the many displays being exhibited in the Cameron Library this week in observance of National Library Week is the bottle display from the collection of Mrs. J. D. Fruge and Mrs. Mervin Clement of Sweetlake, according to Mrs. Coral Lee Perry, Parish librarian.

The two Sweetlake women have been collecting bottles for around 15 years and have over 200 rare bottles in their collection. Only their choice ones are on display at the library. Their interest in and quest for the unusual and rare bottles have led them to trash piles, junk heaps and "Flea Markets" all over the area.

The most valuable bottle in their collection is a black beer bottle which is very old. It was found by an uncle of Mrs. Fruge's in 1965 in California in a clay pit during the excavation for a road. The dragline doing the work excavated a cache of bottles which had been there for possibly a century.

Other rare bottles are ink bottles, a cobalt blue quinine bottle and a screw type strychnine poison bottle. There is a milk of magnesia bottle with embossed writting, an olive oil pyramid bottle, a macarrat stopper bottle, and some figurine bottles, including the cat and clown bottle put out by grapette fruit punch. There are also some very old Dr. Pepper and coke bottles in very heavy glass.

The displays will be featured all this week at the library and will be climaxed on Friday morning from 10 until 12 noon when a tea, sponsored by the Grand Chenier Home Demonstration Club, will be held at the library.

CLEMENT COLLECTION

One of the collections being featured belongs to Mr. and Mrs. Terry J. Clement. Mr. Clement is the local Soil Conservation District Conservationist in Cameron Parish. Featured in the collection are old whiskey bottles, ink and bitters bottles found near the Evangeline oil field. The field was discovered and the first oil well brought in Louisiana in September 21, 1901 on land belonging to Mr. Clement's grandfather, Jules Clement, Sr., by W. Scott Heyward, a one-time Alaska gold prospector.

Some other interesting bottles were found by Mr. Clement's brother-in-law while on a jaguar hunting trip to British Honduras. He came upon some old mining and logging camps and discovered a large number of antique bottles which he brought back for his collection and other members of his family.

Mr. Clement says that there are already three members of his immediate family who have bottle collections. He considers it an interesting one and one that the whole family can enjoy together.

Other bottle collectors with displays at the library are: Mr. and Mrs. Charles

"Have you tried DDD yet? DDD is Direct Distance Dialing. It's faster without an operator. And a whole lot more convenient for you. You can dial almost any city in the country—all by yourself. Without calling me first. DDD can get your call through, in as little as 16 seconds. Just dial the access code, the area code of the city you want, and the local telephone number. If you should want my personal attention, I'm still here. I can give you credit if you accidentally dial San Francisco, when you really want New York. Or, I can put through a person-to-person call for you. Service like that. Otherwise, when you call long distance, try DDD. It'll get you there quicker."

Grand jury has no indictments

The Cameron grand jury last week returned a "no true bill" in the case of Henry B. Rankin, who had been charged with negligent homicide in connection with a fatal traffic mishap.

The jury, of which Earl Mouton of Cameron was foreman, also investigated two other matters, but took no action on either.

The jury made an inspection of the courthouse and jail and found both in good condition, except for the following recommendations:

"The Courthouse needs painting, inside and out; The Sheriff and Clerks office needs remodeling; The accoustics need attention; Soft chairs are needed for the Grand Jury room; and a radio room is needed for the Sheriff's office.

Rankin was the driver of a car that collided with John B. Marceaux, Jr., last October. The 20-year-old youth, who was on a motorcycle, was killed.

5 years given in manslaughter

Jesus Cantu pleaded guilty to manslaughter in district court here last week and was given a five year sentence to Angola by Judge Jack Watson.

Cantu had been charged with death of a fellow fisherman, Billy Brown, last year during a drunken fight.

Cattle drive is spring event in parish

TOP PHOTO, riders move the cattle northward to summer pastures near Ragley. Lower photo, the cowboys take to boats to guide cattle in their swim across the Calcasieu river.

Drive north in tenth year

By GENEVA GRIFFITH

The J. B. Meaux cattle, from the Oak Grove area of Cameron parish, are on their woodland range again. Each spring, Meaux drives the herd of over 400 head, to his property near Ragley, in Beauregard and Allen Parishes.

This is done to defer grazing from his salt marsh range near Oak Grove, and allow it about six months of undisturbed growth. This maintains vigorous growth of grasses to protect the soil from erosion and guarantee abundant forage for the next grazing season.

It also gets the cattle out of the danger of summer marsh insects and storms.

Conservation farming has long been practiced by the Meaux family. Meaux became a cooperater with the Gulf Coast Soil and Water Conservation District in 1960. He continued the conservation plan which his father developed in 1951, with few revisions.

With technical assistance from the Soil Conservation Service, which assists the SCS Districts, and financial cost-sharing provided by the U. S. Department of Agriculture, through the ASCS, Meaux has built over 3 miles of cattle walkways. These walkways help distribute grazing over the entire marsh range and prevent overgrazing of the area.

Nearly 80 acres of improved pastures to protect the land from erosion and provide better grazing have also been established by Meaux.

Meaux has been making this annual trek to the "Piney Woods" area from Cameron Parish since 1961. It is very reminiscent of the oldtime cattle drives because it is made by driving the cattle down the highways and swimming them at the Calcasieu River in the Moss Bluff area.

Steeplejack Johnston

Flagpole painted by "old timer"

A 73-year-old steeplejack from Lake Charles painted the Cameron courthouse flagpole Monday.

Frank B. Johnston said he has been painting flagpoles for 63 years ever since he ran away from home in South Ben, Ind. at the age of 10. His trade has taken him to 43 states.

Johnson asked the photographer for a copy of the above picture. He wants to send it to his 93-year-old mother.

Beach project is not recommended

The U. S. Corps of Engineers has reported that a beach-erosion control and hurricane protection project in the Holly Beach area would cost $2,-770,000, but said the project was not justified at this time.

A survey of the proposed project was authorized by Congress in 1964 and hearings on the matter were held here in 1966 and 1970 by Corps of Engineers.

The Engineers found that the most practicable plan of improvement for the beach area would be a stone breakwater and sandfill. The highway could be protected by a heavy stone revetment.

The total first cost is estimated at $1,290,000 for the beach-erosion improvements, and $1,480,000 for highway protection. Interest, amortization, replacement, and maintenance are estimated at $76,500 annually for the beach area, and $92,-700 for the highway.

Costs far exceed the benefits which would accrue from these improvements. Moreover, the highway along the most susceptible reach can be relocated inland at less cost. Therefore, the reporting officers recommend that no improvement of Holly Beach and vicinity be authorized at this time.

The report is being referred for review to the Board of Engineers for Rivers and Harbors in Washington, D.C. mailed to the Resident Member, Board of Engineers for Rivers and Harbors, Washington, D.C. 20315, in time to reach the Board by May 24, 1971.

Cameron has new business

Another unique business has been started in the Cameron area to take care of the vast oil industry on the offshore platforms. It is the prefabrication of huge boat landing ramps.

Charles McDaniel makes them in Cameron, then they are loaded onto barges and taken to the offshore rigs and installed there. Heretofore, the construction had to be done at the site. By prefabricating them a great deal of time and money is saved.

McDaniel started his business about 8 months ago and says it takes less than a week to construct a ramp. His latest one is for Continental Oil Company rig 192A, offshore from Cameron.

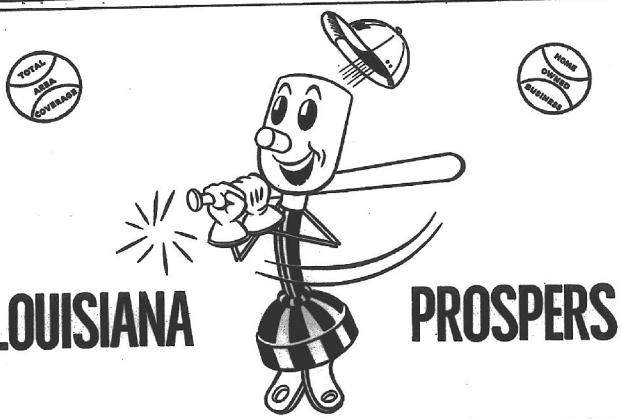
SALES & SERVICE



WITH RURAL ELECTRIFICATION AT BAT!

THE BASES ARE LOADED in rural Louisiana. Signs of progress are everywhere . . . growing new businesses, modern homes in attractive subdivisions and the latest in mechanized farming.

And rural electrification's at bat!

There's no need to worry about a strike-out now because 13 Rural Electric Cooperatives have been pace-setters for the past three decades in raising the proud pennant of rural development.

The Electric Co-ops are consistently good hitters because when they teamed up in a statewide effort over 30 years ago to electrify the rural areas of Louisiana, less than 2 per cent of the rural homes and farms had electric service. It was an ambitious undertaking, to be sure, but the results speak for themselves: Today, having built over 30,000 miles of lines (in areas other utilities chose not to serve), the Electric Co-ops bring essential electric service to almost 700,000 consumers, including farms, homes, businesses and industries in rural Louisiana. That's pretty good hitting in any league.

True pioneers of rural development, the locally-owned, tax-paying Co-ops have established new hope and opportunity in rural Louisiana. Thanks to their efforts, anyone who wants electric service can have it at reasonable rates.

And while the achievements of rural electrification are most notable along Louisiana's vast countryside, the non-profit Co-ops have scored high in contributing to better city living, also, by creating a yardstick to show the true cost of electric service and by producing multi-million dollar markets for the sale of electric appliances and equipment.

You can be sure, both town and country will win as long as rural electrification is at bat for Louisiana!

Legion Auxiliary to secure flag and pole

Plans to secure a flag and flag pole for the American Legion Richard Bros. Post No. 175 home in Creole were made by members of the Ladies Auxiliary at their monthly meeting last week.

Prior to the meeting a supper was held with members of the Post, prepared by Mrs. Alton Baccigalopi.

Mrs. Ellis McWhirter, president, reminded members of the box being prepared for Boy's Village. She asked that anyone in the community who wishes to donate clothing, toilet articles, linens, or anything that can be used in the home, to bring it to the Creole Branch of Cameron State Bank. Items should be in by May 1.

A legislative report was given by Mrs. D. W. Griffith, who reported on letters sent to President Nixon and members of the congress.

A report on the recent barbecue held to liquidate the loan on the Post home was given by Mrs. McWhirter. She also reported that a girl scout leader is badly needed in the Creole area to help with the Junior High girls age group.

Auxiliary members were asked to donate sandwiches for the Fishing Rodeo being held May 16 by the Mallard Rod and Gun Club. The Post home will be the official headquarters for the rodeo and the official weighing station. Mrs. Jules Dronet was put in charge of calling auxiliary members reminding them to send sandwiches to the event.

Many turn out to see library's bottle show

By GENEVA GRIFFITH

More than over 100 people were on hand during the Cameron Parish Library open house and tea Friday morning and hosted by the Grand Chanier Home Demonstration Club.

Featured at the open house were bottles from the collections of Cameron Parish residents. There are several hundred bottles of every description in the displays; many are rare antiques.

One of the collections belong to Mr. and Mrs. Charles Primeaux and were found in Cameron Parish. One of the bottles has Vermilion, La. written on it. After a considerable amount of research the Primeaux found out that this was the name of Lafayette before 1812.

Other antique bottles in the collection are a Rumford chemical works bottle, which contained some kind of medicine. The seam goes up to the lip, which dates it between 18-60 and 1880. A black glass bottle made by a 3 piece mold, made before 1880. There is an amber snuff bottle, one bearing the name Lake City bottling works - made before 1870 because seams only come to base of neck.

Others made in the 18-60-1880 period are a Lea & Perrin Worchestershire bottle, D. C. F. Brown Young liniment, a sample bottle of Dr. Kelmer's S.R.K.R., Warner's safe Kidney and Liver Cure, Agua peppermauce and amethyst pickle or relish bottle which has changed color and has bubbles in the glass.

Some of the other collections belong to Mrs. O'Neal Roberts, and Kathy Reese of Cameron, Mrs. Judy Beard of Sweetlake, Mrs. Brenda Conner and John A. Conner of Creole, Mrs. Eve Billiot, Mrs. Betty Griffith and Joseph O. Griffith of Johnson Bayou (Griffith said his collection was started a year and a half ago when his son Joe Jr. found an antique blue canning jar in a bush).

Winner of the book that was given as a door prize by the library was Mrs. Joseph O. Griffith of Johnson Bayou. Mrs. Coral Perry Parish Librarian said that the bottle displays will remain on exhibit all next week for viewing.

HENRY NOT TO SEEK REELECTION TO JURY

W. F. (Frankie) Henry, Jr. changed the entire Ward 3 and Cameron Parish political picture Tuesday when he announced at the Cameron police jury meeting that he will not be a candidate for re-election as Ward 3 juror this fall.

However, Henry, whose term will not expire until May, 1972, was unanimously re-elected to an eighth one-year term as president of the police jury. All of the other jury officers were re-elected.

Henry said he was retiring from public office because of health reasons and said he had no intentions of running for any other political office.

Henry was elected president of the jury in 1964 shortly after he was sworn in for his first term as Ward 3 juror. He was re-elected as Ward 3 juror four years later with no opposition.

The official said he would retire next year confident that the parish government would be left in good hands. He praised the "caliber of the men" now serving from the other wards.

The announcement of Henry's decision to retire caught most of the other jurors and parish officials by surprise. Practically everyone had thought that he would seek re-election to a third term.

Roland J. Trosclair, Jr., Cameron shrimp dealer who was at the meeting to receive his appointment as the new parish Civil Defense director, shortly after the meeting was over announced that he would be a candidate for Henry's vacated post. Both of Trosclair's parents had served as Ward 3 juror prior to Henry's election.

Other jurors had glowing praise for Henry. Ward 4 juror Charles Precht said that Henry had served his ward and the parish long and faithful and with very little financial reward for his services.

Charles A. Riggs, Ward 6 juror, who had on occasions clashed with Henry over various matters, also praised Henry saying that he had been "an independent juror who had put in many extra hours for the parish." He said he had enjoyed serving with him.

Under Henry's leadership during the past seven years, the parish has increased its paved roads by some 49 miles, built the new courthouse annex and secured a modern sewerage system for the town of Cameron, among other things.

Re-elected to serve with Henry as jury officers were Riggs, vice-president; Jerry Jones, secretary; and Garner Nunez, treasurer.

All fish entered must be taken by the use of sports fishing tackle, including rod, bait casting, hand line, pole or fly line. Catches made on trout lines, yo-yo lines or by nets will be ineligible for competition.

Entry cards will be available on the day of the contest at the Gibbstown Bridge or at the Richard Brothers American Legion Post home at Creole. Cards can also be obtained by mailing $1.50 to the Mallard Rod and Gun Club, P. O. Box 77, Cameron, La. 70631. Applicant should give his name and address.

Overnight parking urged for park

Plans were made at the monthly meeting of the Cameron Parish Development Association to write the Louisiana Parks and Recreation Commission recommending that the Grand Chenier Park be opened for overnight use by tourists in campers and other mobile units.

The question of the sign in the park prohibiting overnight parking was brought up by Darrell East, a member from the area.

The business session was presided over by President Joe Rutherford, after a barbecue prepared by J. Berton Daigle and E. J. Dronet. The meeting was held in the VFW Hall in Cameron.

A financial statement on the Little Miss Cameron contest sponsored by the organization was presented.

A letter received by Clifford Myers, Cameron Parish County Agent, from Neal Dry, resources and development specialist, asked for a survey of buildings in the Parish which were suited for some industrial purpose. The Association cooperated by having members from communities list any such buildings in their respective locales.

A discussion was held on the lack of airstrips for small planes in the lower part of the parish. A committee of Joe Rutherford, Predman Theriot and Telesmar Bonsell was appointed to see if the parish or state might provide airstrips in the needed localities.

It was announced that the next meeting of the Association will be held at Cameron on May 25.
