Miss Cameron plans a teaching career

Marilyn Alexis LeJeune, 20, was crowned as the new Miss Cameron Parish at the Friday, Jan. 11 program of the Louisiana Fur and Wildlife Festival in Cameron.

The 20-year-old is the daughter of Wilson and Charlyn LeJeune of Grand Lake and a graduate of Grand Lake High School where she was the recipient of the Honesty and Integrity Award and was Co-Valedictorian of her 1999 graduation class.

Miss LeJeune is currently a senior at McNeese State University where she is on the

Dean's List and was the recipient of the Juliet Hardtner Endowment for Women in Science and Technology.

She enjoys watching the McNeese State Cowboy football games, spending time with friends, and four-wheeler riding. Her interests include shopping for antiques and watching the Discovery Channel. After graduating from McNeese in the fall with a degree in Biological Sciences, she plans to pursue a Masters Degree in Education and later she plans to each high school biology and chemistry.

Both taxes pass here

A parishwide mosquito control tax and an Ambulance District 2 tax both were overwhelmingly approved in elections held Saturday in Cameron Parish.

A 10-mill parishwide property tax was approved 909-113 to continue the operations of the parish mosquito control program.

The vote increased the millage from 5 mills, which had been in effect for many years, to

10 mills. The increase was needed for increased cost of operation.

In Ambulance District 2, which serves western and northern Cameron Parish, a 14-mill tax was passed to provide ambulance service to the Grand Lake, Holly Beach, Johnson Bayou and Hackberry areas.

The tax will replace the current 9.7 mill tax and will provide more money to upgrade service, equipment and salaries.

Ramblers to be honored

The famed Hackberry Ramblers, one of the oldest continuous bands in the country, will be featured during April as part of McNeese State University's Banners Series.

On Friday night, April 12 beginning at 7:30 p.m. they will perform at the Parra Ballroom. There will be a dance floor also. Admission is \$7 for adults, \$3 for students with MSU students

admitted free.

On Saturday, April 13 at 7:30 p.m. at the same location the premier of a documentary film on the Ramblers will be held. Admission will be free.

Formed in Hackberry in 1933, the band has been playing French and country music for 69 years. In 1998 they were nominated for a Grammy Award.

Automation set Feb. 1 at Library

The Cameron Parish Library's new automated system will go into operation on Feb. 1 putting the library's card catalog on the computer and allowing patrons to check on books and library material via the internet, according to Charlotte Trosclair, parish library director.

Patrons will be required to have a Cameron Parish Library card in order to checkout library materials. The card will be needed to check materials out at the library.

A library card can be obtained by filling out an application form at the Cameron Library or on the bookmobile.

The automated system will allow patrons the ease of checking out the library's catalog by assessing the library's web page at www.cameron.lib.la.us. For example you may want to see what is available on plants, you would type in plants in the search blank, press enter and everything available at the Cameron Library on plants would be shown.

The system also will automatically assess and calculate fines for overdue items. Fines charged by the system will be .05 cents a day for books, audios, and magazines. Over dues for videos will be fined .25 cents a day and over dues for DVDs will be fined .50 cents a day.

It will be the patron's responsibility to return items on time otherwise the system will post the fines against their checkout privileges.

School finances are in "great shape"

By GENEVA GRIFFITH

Cameron Parish School Board finances are in "great shape" auditor Fred Matte of the firm of Little and Banks told board members at their monthly meeting Monday.

The board received the highest rating that the auditors could give, members were told.

In other business the board approved calling a special meeting for Feb. 18 to take final action on a reapportionment plan for school board member districts. The board has until March 1 to appoint a reappointment resolution.

Grand Chenier resident Teddy Broussard urged the board to consider a 7-member plan for the board to replace the present six members. He said an additional member would give the parish better representation.

Representatives from the parish schools gave reports the Beta Clubs and how they are involved in their communities. Pat Howerton, Board president, congratulated them on the civic work.

The Board accepted a bid of \$24,000 for a mineral lease on

school section 16-12-5 containing 640 acres, as nominated by United World Energy Corp. Location of the lease in in Lacassine Refuge. The Board also accepted the low bid on furniture and equipment for Hackberry High School of \$32,938.23.

The Board granted permission for the Special Education Supervisor and four principals to attend the Legal Issues Conference in Tampa Bay, Fla. in May, 2002 at no cost to the board. Two of the board members voted against the trip, due to the absence from school for so many days.

The Board also declared the week of Feb. 11-15, 2002 as Attendance Awareness Week. They also showed their concern for children entering the pre-kindergarten class and being taken out to go on trips, etc. The Board agreed to take them off the rolls and replace them with those on a waiting list upon the absence of so many days.

Tony Johnson, school board member from District 5, in Creole announced to the Board that he will not seek re-election to the board. The Board election will be October 31, 2002.

Students given live baby demonstration

Parker's class to demonstrate proper care of an infant. Lori LeDoux, Jodi's mother was present to help.

Students observed the mother changing the diaper, bathing, feeding, and playing with the infant. Observations were made of reactions of an older sibling toddler around the infant and mother. Class members questioned the mother and interacted with both children.

Wednesday, Jan. 16, this same class was led on tour of the Labor and Delivery Section of West Cal-Cam Hospital in Sulphur. Mrs. Wendy Livens, childbirth class nursing instructor, was the tour guide. Students viewed a new video at the hospital over responses and reactions of newborns to their parents and environment. The video stressed the importance of touching, talking, and playing with infants to stimulate bonding as well as brain cell growth.

Mrs. Denise Nabours, manager of the West Cal-Cam Child Development Center led a tour of that facility. Students observed children again from infants to 4 years old who were separated in different rooms by ages. Children were either sleeping, eating a snack, playing, or being taught lessons by child care workers. The hospital

kitchen prepares the meals for the Child Care Center.

Students toured a spacious playground equipped with sturdy and safe play equipment. The playground was divided into 2 fenced-in areas for different age children. Parenting class students were able to recognize different play equipment used for younger and older children. This type of playground is a safer situation when children of various ages are outside at the same time.

Students on tour were Lori Spicer, Crystal Fountain, Colleen Doucette, Savannah Gallegos, Jessica Dyson, Ashley Austin, Mysti Kelly, and Amanda Abshire. Chaperones were Becky Spicer, Monika Gallegos, and Vickie Parker.

Severance tax receipts still high

After an uncharacteristically high month, Cameron Parish recorded severance tax receipts falling off slightly in October but still well above their usual level.

The Department of Revenue and Taxation's latest report showed natural resource production within the parish accounted for \$1.9 million in severance taxes, down about \$23,000 from the previous month's peak. The current total, however, is still markedly higher than the \$1.6 million listed for work in the parish during October of the previous year and is the seventh highest total in the state.

Natural gas production was credited with the bulk of the taxes recorded for the month, \$1.1 million of the parish total to rank it sixth in that category for the month. Oil production added \$777,308 to the figure, while the remaining \$46 was collected for sand production.

The parish collecting the tax on production of natural resources, except lignite and timber, annually receives 20 percent of the total up to \$750,000. Seventy-five percent of all revenue collected on timber products goes back to the parish.

Statewide, monthly severance taxes continued to rise as they topped \$48.9 million in the latest report. The totals have climbed steadily since the May report listed \$31.5 million. The October 2000 report recorded \$43.8 million in severance taxes statewide.

Crying Times Ends

There was a song, "It's all over but the crying," well, crying times is over. Duck season by most hunters was the worst it has been in many years. I can say I hunted the Grand Chenier marshes and I did do quite well, despite having "zap", zero - no shooting only one day this season. I did better this second split, but some days were tough. In our marsh, the last couple of days, the ducks moved closer to shore and stayed put, if you passed by with your boat, they should get up and go right back down in the same place. I only managed to kill one pintail drake this season and one of my friends also killed one drake pintail. Most of our kills were teals, Black Jacks (Scaupers), gray ducks, spoonbills and black mallards, in that order.

Well even though duck season is over, goose season is still on, as well as rabbits, squirrel, woodcock and quail and yes nutrias, if you can find any.

I think its still in order to remember the "Sportsman Prayer." Let me shoot clean, kill clean, and if I can't kill clean, please Lord, let me miss clean.

News Briefs

After decades of not much change in sportsman's outerwear apparel, sportsmen are going back in time, back to wool clothing. I can remember from my army days, wool socks, wool jackets, long john, head gear, pants and overcoats were all wool; we call this sheep's clothing. Wool will keep you warm come rain, shine or shown. Wool absorbs 35 percent of its own moisture and absorbs and neutralize odors. You'll start seeing some ads such as Camouflage, technowool and windhibitor.

Warm, wrinkle resistant, durable and flame proof, so be ready to speak out what you'll need next duck season for your birthday or Christmas.
