School based health clinic plans told

By GENEVA GRIFFITH

South Cameron High School will have a school based health clinic under a grant which the school received, according to Judy Jones, parish school superintendent. The clinic was approved at the monthly meeting of the school board last week.

The clinic will be housed in the old band room which is no longer needed as the school no longer has a band. The grant money will pay for two-thirds of the start up cost to get the facility ready.

Ms. Jones explained that the physical health services will include comprehensive history/physical examination/screening; diagnostic and treatment for minor illness or injury; diagnosis and treatment or referral and follow-up for serious illness or injury; referral and follow-up for emergencies; immunizations; athletic and other routine physical examinations; medical screening, including but not limited to blood pressure checks, hearing, vision and scoliosis screening; treatment of skin problems, lab, laboratory/diagnostic testing, preventive health, nutrition and weight counseling, assessment, referral, and follow-up for alcohol and drug abuse, and administering of prescription and approved over the counter medication.

Mental health services will cover crisis counseling, psychological assessment (excluding abortion or contraceptive counseling), suicide counseling, family counseling, individual counseling, and group counseling.

Since Dec. 10, 2000, the office of public health no longer handles hearing and vision screenings for referrals so the school nurse will assume this additional work load.

Ms. Jones said, "I see this as an opportunity to get some of our money back from the state, and if we do not use it, it will go some-

where else."

Eddie Benoit, South Cameron High Principal, spoke in favor of the clinic, saying "We are very much in favor of this school based clinic. Parents and students must each sign permission slips in order to use it. I have friends at Washington-Marion school in Lake Charles and they have nothing but good to say about their clinic."

School board member Pat Howerton, representing the Grand Lake community, said he was strictly against it and that his constituents have told him that they were against it also.

Pam Beal and Mary L. Covington, manager and coordinator-planner of the Community Health Service of St. Patrick Hospital, were on hand to explain that the service would be provided by personnel employed by Christus St. Patrick Hospital, and any liability issues would be assumed by Christus St. Patrick and that the funding will be used through a state grant.

There would be no contraceptive, abortion, pre-marital sex counseling. Also, there would be no pregnancy testing or testing for sexually transmitted diseases, no prenatal education, if pregnant, they said. Also, a mobile van would be available for other schools.

Bill Morris said, "I fully support Pat's feelings on this issue, but I feel that there is a need for it and will support it." All board members voted in favor with the exception of Howerton.

In other business, the board heard a report from Rick Merchant, CAE president, who said that the sick-out being planned in some parishes during the upcoming test period doesn't seem to be a part of the teachers' agenda. The feeling among parish teachers is that the tests are too important, he said.

The board authorized the superintendent to advertise and

TAKING OVER FROM HOSPITAL

Districts, new director report plans for ambulance service

By JERRY WISE

Under the direction of two ambulance districts and a new emergency medical services/ambulance director, steps are being taken to maintain and upgrade ambulance services throughout Cameron Parish.

The ambulances were operated for years by the South Cameron Memorial Hospital, but ambulance districts have now taken over the operation.

Tom Javins was hired EMS-Ambulance director on Dec. 1. Formerly he was paramedics instructor at Sowelat Tech and was training officer for Lifecare Ambulance Service.

At present there is one ambulance stationed at Creole, with another one to be added soon, and one each at Johnson Bayou, Hackberry and Grand Lake.

Anyone needing an ambulance should call 911, which is manned by the Cameron Parish Sheriff's Dept. The call is then sent on to the South Cameron Memorial Hospital which is acting as dispatcher for all of the ambulances in the parish.

Emergency patients are carried to the nearest hospital, which would be South Cameron in the Cameron-Creole-Grand Chenier area. West of the river, these cases probably would go to the Sulphur hospital and in the Grand Lake-Sweet Lake area patients would be taken to a Lake Charles hospital.

There is also an arrangement with Acadian Ambulance Service to send its helicopter out of Lake Charles in cases where patients need to be transported to larger trauma centers.

Javins said the two ambulance districts have a total of 18 employees, including 3 paramedics, 3 EMTs-intermediates and 10 EMT-basics.

He said more paramedics are needed here and a paramedics school will start in June with the goal giving the training to all the districts' employees.

A total of 71 ambulance runs were made throughout the parish during December, Javins said. There were 37 in District 1, which takes in the Cameron-Creole-Grand Chenier area and 34 in District 2, which includes the Holly Beach, Johnson Bayou, Hackberry, Grand Lake and Sweet Lake areas.

Since the two districts are supported by ambulance taxes there is no charge to parish residents for ambulance service. However, if users have insurance the districts file claims for reimbursements which helps to keep the taxes down.

The taxes bring in about \$438,000 a year in District 1 and about \$718,000 in District 2.

Javins said the new ambulance service will continue to

offer the service offered by South Cameron Hospital in the past of transporting invalids from lower Cameron to outside areas in the event of a hurricane.

Anyone with an invalid in their family who might wish to use this free service is asked to register with the ambulance service in advance by calling 542-4926.

Members of the parish's two ambulance districts are:

District 1 -- Clifton Hebert, James Conner, George LeBouef, Telesha Bertrand and Wendy Dyson.

District 2 -- Michael Guillory, Gordie Hicks, Dinah Landry, Edmond Trahan and Glenn Trahan.

AMBULANCE BOARDS MEET

At a meeting Monday night in Cameron of the two ambulance district boards, there was a discussion of creating a parish-wide ambulance district combining the present two districts.

S. C. Elem. roundup set

Pre-school roundup will be held at South Cameron Elementary School Wed., Feb. 7, beginning at 9 a.m.

Parents are asked to make every effort to attend the roundup scheduled on this date. If you cannot attend on this date, please contact the school giving your child's name for a later registration.

It is not necessary for the child you are registering to attend school on the day of registration.

Jobless rate up in parish

The unemployment rate for Cameron Parish for December was 6.9 percent, an increase over the 6.4 percent for November and the 4.4 rate for December, 1999.

The monthly labor report from the La. Dept. of Labor showed 264 persons out of work in December from a total labor force of 3,840.

The parish jobless rate was above the statewide rate of 5.8 percent.

Union Parish had the lowest jobless rate of 3.4 percent for December while West Carroll Parish was the highest with 13.6 percent.

Dr. King observance

The Cameron NAACP Chapter held its annual observance of Dr. Martin Luther King's birthday on Saturday, Jan. 20, including a parade, battle of the bands, lunch and program.

Dr. Ransom Howard of Port Arthur delivered the main address. Others on the program were Mrs. Mary Cockrell, mistress of ceremonies; welcome, Mrs. Beatrice Williams; update on branch, Charles Cole; remarks, Louise Cole, chapter president.

Four bands took part in the parade and there were several choirs, quartets and other groups performing.

SHOWN ABOVE were some of the participants in the Dr. Martin Luther King, Jr. annual observance held Saturday, Jan. 20 at the Cameron Parish Multi-purpose building under the sponsorship of the Cameron NAACP Chapter.

ALTHOUGH THIS mural painted on the side of an old ice company building in Cameron about 30 years or so ago has seen better days, it still catches the attention of tourists. Perhaps some organization could sponsor its repainting.

District 2 was informed by Director Javins that it would need \$100,000 more by October to keep ambulance service operating in that district until the end of the year.

The board discussed the possibility of calling for an increase in tax millage for the district, which covers Hackberry, Holly Beach, Johnson Bayou, and Grand Lake, but Dinah Landry, District 2 vice president, said several police jurors said they would oppose an increase.

The parishwide ambulance district proposal may be brought up at the next police jury meeting.

MEMORIAL BOOK DONATIONS

The library has recently had questions about memorial and commemorative books and how to place them in the library.

A memorial book is a book that keeps the memory of a deceased loved one alive in the community and provides a most appropriate and useful memorial that will live on for years.

A commemorative or honor book that recognizes achievements of outstanding citizens in the community and commemorates a special event such as a birthday, anniversary, graduation or special event.

To order a commemorative or memorial book, just call the library to place the order and give a little information. Your book will be bought and processed and you will be billed by mail. That book that is chosen will be in the library for patrons to use. It is a library policy that the book will not be discarded. A special book-plate will be placed in the front of the book with the donor's name and the person to whom it has been commemorated. An acknowledgment will be sent to the deceased or honored person's family informing them of the donation you have made.

For more information about these books, call Tina at 775-5421.

TERRY AND JOE Mae Roberson announce the engagement and forthcoming marriage of their daughter, Rae'della Ladette Badon to Kenneth David Peloquin, II., son of Kenneth and Sheila Peloquin, all of Johnson Bayou. The wedding is set for Saturday, Feb. 17 at Our Lady of Assumption Catholic Church in Johnson Bayou at 2 p.m. A reception will follow in the Johnson Bayou Community Center. Through this means, friends and relatives are invited to attend.

YOUTH CLASSES DUCK SEASON

This past weekend youths statewide hunted ducks and geese with a person 18 years old or older. This was a special youth hunt and our area youths really took advantage of the two day hunts. Good reports on a few ducks killed and that's good as they had to do their own shooting as the adult in the blind couldn't have a gun or shoot.

The duck count for the last month in southwest Louisiana showed that we had the most mallards since 1979, but pintails and shovelers had the best increase. Counts that were down were gadwalls, mottle ducks, wigeon, blue-wing and green-winged teal, in fact in our area of the state green-winged teal were down by over 300,000 and blue-winged teal almost 50,000. These were the reliable ducks we didn't have for our limits this season.

I don't know if this is a true story, but all the talk about stopping usage of the robo-duck is that if Louisiana or states that use the electric duck, will have only a 45 day season, instead of a 60 day season. Don't quote this.

Seasons still open in our west zone are snow and speckle belly through Feb. 9, squirrel through Feb. 1, rabbit, quail and snipe through Feb. 28, and Feb. 10-March 11, special snow-blue goose season.

NEWS BRIEFS

Some folks are upset over the bankruptcy of OMC, the Evinrude and Johnson motors,

especially the ones who have these motors. Area dealers tell me they're not worried, because this old company will be bought out and the name will continue on as well as getting parts.

The cold weather we had, especially to our east, caused some fish kills, as water temperatures in some areas dropped to 39 degrees.

The virus that has been killing bass (LMBU), large mouth bass virus, is being studied, as the cause is unknown to this date. The virus first discovered in Louisiana in 1999, has now been confirmed in six other waterways, scattered throughout the state. Anglers are asked not to transport fish to other waterways.

FISHING NEWS

Word is that water has gone up in Lacassine Refuge, but not high enough. Also that bass population suffered quite a bit. I believe they will run a survey to see if the refuge will pen this March or not. I'd like to see it open, but I would think fishing would be slow. There should be a 3 to 5 fish limit set, one bass over 5 pounds and no tournament fishing this year if it does open. This would give time for the comeback of the population of these large bass.

Anglers are already hitting the road ditches and private marshes and ponds, fishing for bass and white perch.

A few speckle trout and red fish are being taken in Big Lake, at the Cameron and Grand Lake jetties, but fresh water coming

The board received a report from M. B. Slocum on the board's general insurance (all coverage except Workman's Compensation), who recommended that the board change their property insurance expiration date from July 1 to October 1, and pay the prorated amount for the coverage.

He said that it would be easier to get good quotes from underwriters up north who are concerned about Gulf hurricanes and the publicity it receives in the media. The board agreed with the policy.

The board promulgated the election returns. The parishwide tax (8.09 mills) passed by 77.59% or 720 to 22.41% against or 208 votes.

The junior and senior Beta Club officers of the clubs in the parish schools representing Grand Lake, South Cameron High, Hackberry and Johnson Bayou appeared with their sponsors, Pat Fletcher, Beth

down has slowed things quite a bit.

Everyone is waiting for March, as Rockefeller Refuge, Sabine Refuge, Cameron Prairie Refuge, maybe Lacassine Refuge, and Miami Corporation Lands and the Big Burn will be opening.

It's time to get the gear, boats and things ready.

God saw Mom was getting tired and a cure was not to be. So He put His hand on her shoulder and whispered, "Come with me". With tearful eyes we saw her suffer and watched her fade away. Although we loved her dearly, we could not make her stay. A golden heart stopped beating, a beautiful soul was put to rest. God broke our hearts to prove to us He only takes the best. Thank you for building so much love in our family. Your memory will never grow old. God is giving us the strength to bear it, and the courage to face the blow, but what it meant to lose you, no one will ever know. Treating colds

(NAPSA)-Increasingly, doctors and researchers are finding that, when it comes to treating a cold, many of the homespun or "folk" remedies that have been used for generations actually have a strong basis in science. For example:

•At least half of the saying "Feed a cold, starve a fever" is true. Researchers have identified certain foods that can help combat colds, including broccoli, cauliflower, Brussels sprouts, garlic, onions, tomatoes, peppers, citrus fruits, berries, wheat germ, whole grains, seafood and meat.

•Another old saying, "Early to bed, early to rise..." also holds some beneficial wisdom. Catching a few more winks allows your immune system to build up a defense against the cold virus.

•Here's where the chicken soup and herbal tea come in: Fluids help keep mucous membranes moist, allowing them to trap the virus and dispose of it. Meanwhile, steam from these hot fluids helps relieve congestion. In addition, scientists have recently speculated that chicken soup contains antioxidants which further boost the body's cold-fighting ability.

•Another remedy for congestion: Run a hot shower, or lower your head over a bowl of hot water and breathe in the moist air.

•Even in the middle of winter, you need fresh air. Open a window or turn on a fan. It prevents you from breathing recycled, contaminated air.

Remember, if your cold lasts more than 10 days, or your fever is higher than 102°, consult a doctor.

1927 Chenier celebration recounted in old article

(EDITOR'S NOTE--Murphy Miller Jr., of Alachua, Fla., who is gathering material for a history of the Miller family of Grand Chenier, sent the Pilot a copy of an article printed in a 1927 newspaper (possibly from Lake Charles) about the joint celebration of the 50th anniversary of Mr. and Mrs. Eugene Miller and the marriage of Corinne Miller to Steve Canik. It is reprinted below.)
STAFF SPECIAL
Grand Chenier, La., Oct. 25, 1927 "Vive les maries!"

It was shouted by a thousand friends and neighbors and relatives yesterday to a bride and groom of a few hours and a bride and groom of 50 years in the romantic country of Grand Chenier.

It was the first gathering of that kind Grand Chenier has ever seen; it was an event that is rarely witnessed, or heard of, anywhere -- the celebration of the marriage of a young man and woman, together with that of the golden wedding anniversary of the young woman's grandparents.

Miss Corinne Miller and Mr. Steve Canik were married on Tuesday, Oct. 25, 1927; Miss Angeline Sturlese and Mr. Eugene Miller were married on Oct. 25, 1877, at a spot not far away from the scene of yesterday's marriage in which their granddaughter was the bride.

The same moss-hung oaks which saw the boy of 20 and the girl of 15 pledge their troth 50 years ago, that have looked down upon their happiness during the past half century, saw their granddaughter married yesterday to the man of her choice.

All Grand Chenier honored the event, schools declared a holiday, for most of the pupils were grandchildren or great-nephews and nieces, or some other relation to Mr. and Mrs. Miller. All of Grand Chenier, and many people from Lake Arthur, Big Pecan Island, Creole, Cameron, Chenier Perdue, Little Chenier, Jennings and Lake Charles came by boat or by automobile to pay tribute to one of the most prominent families in this part of Louisiana.

Mr. and Mrs. Miller were born and reared at Grand Chenier.

Local seafood company owners are sentenced

(American Press)
The owners of a Cameron seafood wholesale company were sentenced Thursday to federal prison for conspiring to sell and buy hundreds of thousands of dollars in illegally obtained oysters.

In August, a jury found Roosevelt "Schoolboy" Fountain Sr. and his daughter, Shirley Fountain Ellison, guilty on 15 of 16 felony counts.

U. S. District Judge James Trimble sentenced the father and daughter in federal court in Lake Charles.

The indictment listed a conspiracy count and an obstruction of justice count along with three counts of violating the Lacy Act regarding record keeping and a remaining 11 counts of other Lacy Act violations regarding out-of-state transport of the oysters.

The defendants faced maximum prison terms of five years on each Lacy Act count and the conspiracy charge.

Shirley Fountain Ellison was also convicted on an obstruction of justice charge. She faced a maximum of 10 years in prison on the charge.

Trimble sentenced Fountain Sr. to 30 months in prison on each count he was convicted of to serve concurrently. He wasn't ordered to pay a fine. He sentenced Ellison to 37 months in prison on each count to serve concurrently. She was ordered to pay a \$5,000 fine immediately.

Trimble told the defendants they would be allowed to remain free on bond pending their appeal of the convictions.

Defense attorneys asked for leniency in the sentencing, citing Fountain Sr.'s elderly age and the Fountain family's good standing in the Cameron community.

The judge said he had

They have lived there all the 70 and 65 years of their lives. They have had 12 children, 11 of whom are living. All are married except one, and all, except two, live at Grand Chenier. Mrs. Peter Broussard, a daughter, lives at Lake Arthur, and Dr. M. O. Miller, the youngest son, is senior house surgeon in Charity Hospital, New Orleans. The youngest daughter, after attending Sophie Newcomb College in New Orleans, is now married, being Mrs. Steve Carter, and lives near her parents.

CHILDREN ALL THERE

The 11 children, all the in-laws, 26 of the grandchildren, and the one-great-grandchild, Mary Olga, the baby daughter of Mr. and Mrs. Nelson Mhire, were all present yesterday.

Mary Olga is just three months old and was apparently one of the happiest of all the guests at the golden anniversary. She had her picture taken with her mother and father, her grandmother and grandfather, Mr. and Mrs. H. A. Miller, and her great-grandmother and great-grandfather.

Nearly all of the 1000 guests present yesterday were related, in some way, to the Miller family. A large number of them were named Miller -- just how many it would be impossible to tell, but when Pierre Miller, Eugene's father, died in 1914, at the age of 85, he left 156 direct descendants. It is estimated that there are at least 409 now. The Miller family has been on the island for the past 100 years, and now, the entire population of that part of "the ridge" is really one big family. And they all came out yesterday to express their love and esteem and to wish much future happiness to the grandparents and the young couple.

CHURCH PACKED

The Church of St. Martin at Grand Chenier was packed to its fullest capacity by 7:30 in the morning, the hour set for the ceremonies.

Father C. Merrinboer, pastor of Cameron Parish, said the impressive ceremony which united in marriage Miss Miller and Mr. Canik.

received letters from supporters of the Fountains but he added, "No one is above the law, no matter how long you have been a law-abiding citizen."

He said the Fountains had acted in this case "as though they were above the law" and because of it an investigation had to be conducted, resulting in thousands of dollars in taxpayers' money and numerous man-hours being spent.

Attorney Tim Meche of New Orleans, representing Ellison, said, "It was a senseless act. I don't see harm done to anyone."
Assistant U.S. Attorney Joe Mickel said the oysters involved in the case posed "a tremendous potential for harm" because their origin was undocumented.
Trimble added that if someone had gotten sick from eating the oysters, there would have been no way to trace where they came from because they were falsely documented.

This is the first time that a case involving violations of the Lacy Act -- a wildlife protection law -- connected to the sale and purchase of oysters was tried in Lake Charles. The case centered on the 1996-1997 sale and purchase of more than \$470,000 in oysters over a four-month period.
