# Welch is new supervisor for Trans. - Maintenance

By CYNDI SELLERS

By a 4 - 3 vote, the Cameron Parish School Board evening named Johnson Bayou principal Doug Welch to the position of Supervisor of Transportation, Maintenance, and Other Duties. Effective June 1 Welch will replace Ron Vining who is retiring at the end of the school year.

There were three applicants for the position: Welch; Scott Nunez, coach at Bell City High School; and Eddie Benoit, principal at South Cameron High School.

Superintendent Doug Chance explained the interview process in detail, provided a chart comparing qualifi-cations, and a list of certifications possessed by each applicant. He then recommended Welch, based in part on the depth of his coaching experience, since the position is being expanded to include supervision of Physical Education and Social Studies.

Chance congratulated all the applicants on their qualifications and said he would gladly recommend either of the others for positions as they become available.

When the vote was called, Douaine Sanner, Pat Howerton, and Rachel Abadie Douaine voted aye, and Dot Theriot, Loston McEvers, and Marvin Trahan voted nay. President Clifton Morris then broke the

# H'berry girls do it again!

Hackberry Lady Mustangs last week won their 3rd consecutive state title knocking off Athens 62 to 50.

Hackberry's Tobie Devall scored 13 points in the 4th quarter to break open a close game and help defending Class C state champion Hackberry win their 4th State title in 5 years. Athens finished as runner up for the 3rd time.

Hackberry's Edie Leonards, who hit 9 of 18 field goals for a game high 18 points, was named the most valuable player. Leonards received this

honor last year. Devall had only 1 point before the 4th quarter when Hackberry led by a slim margin 41-38. Three point buckets by Devall and Nikki Perry followed by two Devall layups gave the Lady Mustangs a 51 to 42 lead. Devall added a team high 7 rebounds and 9 assists.

Hackberry center Desi Picou, who gave up 5 inches to Athens 6 foot center Mary Slaughter, added 17 points for the Lady Mustangs, who managed to outscore the taller Athens 38-34 in the paint.

Picou set the pace for Hackberry by scoring 11 points in the 1st quarter giving the Lady Mustangs a 15 to 8 lead. Leonards 8 points in the second quarter gave them a 29-24 halftime lead.

Hackberry, which lost 7 starters from last year's championship team, never trailed and led by as many as 9 points in the first half, but couldn't pull away until the end.

## New bill is sought for riverboat gaming here

If at first you don't succeed, try try again!

That is the advice the Cameron Parish Police Jury Lake near Johnson Bayou.

In 2002 the Jury entered into an agreement with the Isle of Capri under which it would bring one of its riverboats from Lake Charles to the west side of Cameron Parish. It was a win-win deal for

both parties. The Isle of Capri would have a riverboat just across the border from Texas from where the majority of gaming customers come. Cameron Parish would reap

thousands of dollars as its share of the gambling revenue and many new jobs would be created for Cameron parish resident. However, in November, 2002

the Louisiana Supreme Court ruled that propositions authorizing the Cameron Parish could not be put on the parish

Our little prayer group that meets here every Monday morning at the club house is growing. Last Monday, we had 17 in attendance, the largest we have ever had. The village van even went to the nearby nursing home and picked up our two men attendees, Bill and a preacher who had been injured by falls and were recuperating.

I attended the 88th birthday party with my next door neighbor, Geneva Puschaka, this week at the Nicholson Post #38, which is the largest American Legion Post in the state. I noticed that there were very few young people there, only older folks of World War II vintage.

Beau and I have enjoyed our daily walks around the Village with the azalea and

camellia bushes now in full bloom. Now that the trees in the woods have shed all their leaves we can count the bird nests that adorn the branches. I am also keeping watch over my magnolia tree just off my patio for the first bloom.

I am anxiously awaiting the arrival of my great-grandchild, McCall Matt, who will be visiting us for a week with her mother, Janay Matt, from Natchitoches. Grandma and grandpa, Cherie and Pat Giblin, are planning on spoiling her while she is here.

Frith said, "I support and comment the shrimp promotion board and their efforts to promote our domestic livecaught shrimp industry and to protect the industry from foreign imports and unfair trade practices. But the board needs to find some other funding mechanism rather to increase the excise tax on domestic shrimp. This tax increase on our own shrimp is no way to do the job. It doesn't make any sense at all.

Look at the cost of foreign shrimp in the supermarket. The cost is not even competitive with the price of domestic shrimp. Tell me which shrimp product the consumer is going to chose. Then tell me who is going to

The Lemesche Bass Club held their yearly open tournament last Saturday, fishing out of Rockefeller Refuge. A full moon, north winds, and high pressure make it sort of tough fishing, along with murky waters.

LIMITS FOR TROUT The Speckle Trout limits have changed again, all within a 90 day period for Southwest Louisiana Anglers. Remember five large trout 25 inches long or longer after a proposal of only one large trout. It seems our friends to the east needed the five large trout for tournament reasons. Now the Louisiana Wildlife and and Fisheries Commission sort of compromised and the five large trout rule is down to a two fish rule. As of now it is a 12 inch minimum length, 25 speckle trout daily and only two trout measuring 25 inches

long of longer per day.
I'm very pleased with the the fish rule, since the start that was my wish. I think the Wildlife Commission is right this time and should stick to the two fish rule. I know the commission is still taking comments until April 1, but let's hope this is not redone again. This new law will only pertain to waters south of I-10, from the western shores of the Mermentau River to the Texas line and Southwest Louisiana.

Comments can be made to: Marine Fisheries Division, La. Department of Wildlife and Fisheries, Box 98000, Baton Rouge, La. 70898-9000. For more information, call Randy Pousina at 225-765-2366.

agreed upon by the landowners and BRAS.

It will protect habitat for birds by disallowing cattle grazing, logging, hunting, development. Birdwatching by the public will be allowed.

The advantage of an easement over ownership is that BRAS will not be responsible for paying taxes, insurance, or maintenance. Another bonus in the deal in that LNC and the La. Dept. of Wildlife and Fisheries will work together to restore a portion of the chenier by planting

BRAS could not accomplish habitat protection without the help of LNC. They secured matching funds from National Wildlife Foundation which significantly leveraged our spending power. They have been scouting out land and cultivating landowners in Cameron over 4 years, specifically to partner with BRAS.

We appreciate their willingness to work on our behalf to protect habitat for birds as well as sites for birdwatchers. We hope to continue this relationship in the future and to protect additional sites as they are located and as funding allows.

State Bond Commission

Mr. Fawvor reported to the Board that on January 15, 2004, the District received approval from the Louisiana State Bond Commission to incur debt in an amount not to exceed \$1,100,000 in the form of excess revenue bonds to obtain funds to pay the costs of purchase and acquisition of certain medical equipment for Cameron Memorial Hospital. Mr. Fawvor continued to explain that the District would have to purchase the equipment

using the approved bid process which would include advertising for sealed bids, receiving sealed bids, and accepting the lowest of those bids at a public hearing. Once this was accomplished the excess revenue certificates in indebtedness would be sold and the revenue would be deposited into the District's account to pay for the equipment. The debt would then be paid back using tax monies over a three year period. Enlarging the Lower Cameron Hospital Service District

 $\bar{\mathbf{M}}\mathbf{s}.$  Jones informed the Board that the Lower Cameron Hospital Service District does not extend to the Intercoastal Canal, instead it follows the township line for its northern boundary. Ms. Jones continued that after checking with the assessor's office she had found that if the northern boundary was extended to the Intercoastal Canal this would increase the District's annual revenue by about \$11,000, as this land includes additional pipelines and a small gas and oil plant near the Intercoastal. Ms. Jones also stated that, due to the fact that there are no voters living in the proposed area of expansion, this expansion could be accomplished by obtaining a resolution from the Cameron Parish Police Jury and would not require voter approval. Ms. Tina Horn, Administrator of Cameron Parish Police Jury, explained that the District would have to advertise for intention to enlarge the District; include the new physical boundaries: and have a period of

no objection of at least 30 days. On a motion by Mr. Fawvor, seconded by Ms. Nunez, it was moved to give Ms. Jones authority to research the process of extending the Lower Cameron Hospital Service District's northern boundary to the Intercoastal Canal. The motion carried.

Financial Report Mr. Joey Breaux then presented the Board with an updated

financial report through December 31, 2003. On a motion by Mr. Fawvor, seconded by Ms. Nunez the Board accepted the financial report from Mr. Breaux. The motion carried Grant Proposal

Mr. Fawvor reported to the Board that he had received a proposal from Ms. Lori London of American Marketing Concepts for grant writing in the amount of \$25,000. This amount would include all expenses associated with research into various types of grants, the actual writing of the grants and any follow up work for a period of one year. Ms. Horn reported that the Police Jury was continuing the process of securing a grant writer for the parish and that this decision should be made sometime within the next month. The Board decided to defer making any commitment, pending the outcome of the Police Jury decision regarding this matter.

New Business Outstanding Checks

Mr. Fawvor reported to the Board that currently the District had 16 checks outstanding from December, 2002 through August, 2003. The board had decided in a previous meeting that any checks older than six months were to be reissued, however the charges associated with this action would be around \$448.00. On a motion by Ms. LeBlanc, seconded by Mr. Fawvor this matter was tabled until Cameron State Bank could be contacted to see if the District had a valid fiscal agent contract in place. The motion carried. Contract Labor

Identity theft is a serious crime. People whose identities have been stolen can spend months or years along with their own hard earned money cleaning up the mess the thieves have made of their good name and credit record. Some victims have lost job opportunities, been refused loans, or even been arrested for crimes they did not commit because of the identity thieves.

Sheriff Elect Theos Duhon and Sheriff Deputy Milton Collins are conducting the classes telling how identity theft occurs in many places, as well as in our area. The Sheriff Department is also handing out brochures in the class telling how to tell if you are a victim of identity theft.

the thieves. Many personal records mailed to your home have this information in their contents.

Deputy Collins recommends picking up your mail immediately after the rural postman delivers to your unsecured mailbox, never tossing your ATM or credit card receipts in the trash can located outside the bank, paying close attention to people around you when in the check out line, shredding any paperwork containing personal information when not needed, and never giving out your personal information to anyone over the phone unless you initiated the phone call.

Deputy Collins also showed a short video of actual victims of identity theft. Collins also told how tiny scanners worn on a necklace or a regular camera phone can be used to steal you identity when you are shopping.

Sheriff-Elect Duhon told how some area people had been victims of identity theft and had suffered from the devastating effects. He recommends monitoring the balfinancial ances of your accounts, looking for unexplained charges or withdrawals, denial of credit for no apparent reason, failing to receive bills or other mail, receiving credit cards for which you did not apply, studying W-2's to make sure that it matches the amount you made from your employment for the year.
