Coastal permit office opens in Cameron

Coastal Permit Information Centers are now open in five parishes in south Louisiana, Department of Natural Resources (DNR) officials announced today. Citizens that want to apply for coastal use permits can do so in Cameron, Jefferson Lafourche, Plaquemines and Terrebonne parishes.

DNR's Coastal Management Division worked with parish administrators in these coastal zone management areas to establish the centers that provide assistance with the process of applying for a permit. State guidelines that protect coastal resources aim to minimize damage to wetlands due to development and other uses.

Applicants can meet with a permitting expert for assistance in finding out what state, federal and/or local permits are required and for help in preparing applications.

The Cameron Parish office is the Cameron Parish Police Jury Office in Cameron. Contact: Tina Horn or Myles Hebert at 337-775-5718 ext. 111.

School board's redistricting plan is protested by pickets Monday

By JERRY WISE

About 25 persons picketed in front of the Cameron Parish School Board office Monday afternoon in protest of the reapportionment plan recently adopted by the board.

School Board Member Clifton Morris, who represents the Johnson Bayou area, said that the six-district plan adopted by the board probably will leave Johnson Bayou without a board member since a larger portion of the town of Cameron is included in the new district.

(A portion of the town of Cameron was included in the old district but the new plan moves

the district line even further east and takes in more Cameron residents.)

Although the Justice Dept. recently approved the School Board's plan, Morris and other protesters are pushing for the School Board to reconsider its plan and adopt one similar to the one recently adopted by the Police Jury.

The Police Jury's plan leaves the present voting districts basically as they are but adds a seventh district in the Big Lake area where there has been a big population growth in the past ten years.

Although the School Board's plan has been approved, the

Police Jury's plan is still being reviewed by the state and federal government.

School Superintendent Judy Jones said she is not sure that the School Board still has time to adopt a new plan in time for the fall board elections. And she is not sure that the Police Jury plan will be approved.

Parish Administrator Tina Horn said she has been assured that the Police Jury's seven district plan will stand although some precinct changes probably will be made.

In any case, the Police Jury has plenty of time to refine its plan since jury elections are not until next year.

YOUR FIRST YEAR
IN HEAVEN

Though your smile is gone forever and your hand we cannot touch. Still we have so many memories of you, who we love so much. You left us a beautiful memory and a sorrow too great to be told. But to we who loved you and lost you, your memory will never grow old. God is giving us the strength to bear it and the courage to face the blow, but what it meant to lose you, no one will ever know.

WE LOVE AND MISS YOU VERY MUCH.

Nutria are a problem to our marshes

7th District Congressman Chris John today detailed a federal plan to assist Louisiana in controlling and/or eradicating the state's population of nutria in an effort to restore damaged marshland. House Resolution 4044, The Nutria Eradication and Marshland Eradication Act, passed the U.S. House of Representatives by voice vote today with Congressman John's support.

"Louisiana needs help in combating our nutria problem. Congress realizes that, and today will authorize \$10 million over the next five years to assist the state's efforts," stated Congressman John. "I want to commend the efforts of my colleague Congressman Tauzin, who amended this legislation in committee to include funding for Louisiana."

As originally written, H.R. 4044 was dedicated to nutria eradication and control in the State of Maryland only.

FISHING IS POOR

The strong Southeast winds are taking a toll on saltwater anglers. Both the Grand Chenier and Cameron jetties are really too rough to fish and those who tried in the rough water, didn't do much good.

Big Lake has been rough all week, and most of the waters are chocolate color. There is clearer water on the south end of the

PRAYER TO THE Blessed Virgin (Never Known To Fail)

Oh, most beautiful flower of Mount Carmel, fruitful vine splendor of Heaven Blessed Mother of the Son of God Immaculate Virgin, assist me in my necessity, oh Lady of the Lake, help me and show me here in you are my Mother, oh Holy Mary, Mother of God, Queen of Heaven and Earth, I humbly beseech you from the bottom of my heart to succor me in this necessity. There are none that can withstand your powers, oh, show me herein you are my Mother, oh, Mary conceived without sin, pray for us who have recourse to thee (three times). Holy Mother, I place this cause in your hands (three times). Holy Spirit you who solve all problems, light all roads so that I can attain my goal, you who give me the divine gift to forgive and forget all evil against me and that all instances in my life you are with me. I want in this short prayer to thank you for all things as you confirm once again that I never want to be separated from you in eternal glory. thank you for your mercy toward me and mine. (The person says this prayer 3 consecutive days. After 3 days, the request will be granted! This prayer must be published after the favor is granted.)

lake. However you'll find 10 to 15 boats in a pile in 5 or 6 areas and lots of boats running back and forth after drift fishing and with the strong winds, it doesn't take long to reach rough water.

Kurt and Travis Broussard and I tried our luck but like the rest of the boats, we had one nice speckle trout going 3 pounds. We only had 3 blow ups on topwater and one strike on an eel.

There was a couple of good trout caught last week with a 9 pounder reported, and a 10-2 on Big Lake. Also reports of good trout on Sabine Lake on the Louisiana side, again one over 10 pounds caught. The big talk is the trout that weighed in at 11 pounds, 2 1/2 ounces, a Big Lake record caught last Friday. The state record for Louisiana Speckle Trout is 12.38 and I'm wondering where in Louisiana will this record be broken. I do know Big Lake and Sabine Lake have a very good chance for the record, but out in our southeast, they're catching big trout and may very well set a new state record. I'm still counting on Big Lake.

GIBBSTOWN DOG FIGHT

The results of the May 6 Gibbstown Dog Fight reported by weighmaster George Melancon were Carl Broussard and Ricky Canik with the largest choupique 5.73 pounds.

Largest team stringer: 1st. Randell Faulk and Josh Carlile, 3 bass 6.02. 2nd. place went to Brandon Guillory and Jerry Guillory, 3 bass 5.46 pounds, they also had the largest bass weighing in at 2.67 pounds. 3rd place went to Scott Lewis and Jarod Fontenot, 3 bass 5.41 pounds and second place largest bass 2.14 pounds.

SHRIMP SEASON

In our area, zone 3, spring inshore shrimp season will open at 6 a.m. on Mon., May 27, this is from the western shore of Vermilion Bay and Southwest Pass at Marsh Island to the Texas state line.

HUNTING NEWS

Rumor has it, that the feds want to cut the duck hunting season (for the 2002-2003 season) down to 30 days. I understand the state is trying to split and go for 45 days. This I don't understand. With all the businesses depending on this for their last part of their yearly business and start the New Years with a few more days, this will hurt.

I see it this way, with 6 ducks per day and 60 days, that's 360 ducks per hunter, 45 days with 6 ducks is 270 ducks per hunter and 30 days at 6 ducks is 180 ducks per hunter. Why not leave it at 60 days, at 3 ducks per day and that will still be 180 ducks per hunter.

Maybe that computer doesn't figure this out, but Kajun math on a scrap piece of paper will tell you you'll kill the same amount of ducks and cut the bags by half.

Dr. Coreil's license plate idea has become a reality

The LSU AgCenter's 4-H program now has its own official state vehicle license plate.

The green, red and white Louisiana prestige plate proclaims, "Support 4-H Youth Development." The tag numbers will begin with "YD" for youth development.

"As soon as we have 1,000 sign-ups for the new plate, we can start the production process," said Dr. Paul Coreil, the LSU AgCenter vice chancellor for extension, whose idea it was to offer the plate.

"This is the centennial celebration for 4-H in the nation," Coreil said. "It seemed this was one way to help celebrate what 4-H has meant to so many people in our state."

at the University of New Orleans. She has been awarded the Bradley-Goldson-Hall Memorial Scholarship and the "I Can" My Sisters Keeper Empowerment Scholarship.

The state legislature approved and the governor signed the bill to authorize the plate during the recent special session.

The only way to order the plate is on the Web at www.lsuagcenter.com/4Hlicense

The cost is \$25 each year above the regular license fees. Of that amount, \$15 will go to the state 4-H foundation and \$10 to the license holder's parish 4-H foundation. The Louisiana 4-H program's foundations help fund various educational programs, according to Terril Faul, 4-H division leader for the LSU AgCenter.

"People who buy these plates will be helping to support our statewide 4-H programs as well as the 4-H programs in their own home parishes," Faul said.

Faul will turn over the list of names, as they're collected on the Web site, to the state Department of Motor Vehicles, who will notify people with the instructions for purchase.
