## Adult weevils released to fight giant salvinia

By Kevin A. Savoie

Personnel with the LSU AgCenter were in the marshes of Cameron on Tuesday, Sept. 10. The purpose of their visit was to release an insect into a research site located just north of the Cameron Courthouse.

Nearly a year ago, the 'W-1 West' drainage canal, an eleven mile long drainage canal which extends to the east into the Creole community, and surrounding marsh system was discovered to have an infestation of giant salvinia, *Salvinia molesta*, considered to be one of the most noxious aquatic weeds in the country. Since that time an ongoing effort to control the non native plant has proven to be very difficult.

The salvinia weevil, *Cyrtobagous salviniae* has been used in other areas of the world to successfully control outbreaks of salvinia, which can grow into thick mats clogging drainage systems and rendering aquatic habits useless for fish and wildlife.

Tuesday's release was the second in the Cameron marsh. The first was in December 2001, when weevil larvae were released into a research site. The juvenile weevils didn't sur-

vive freezing temperatures in January 2002, just two weeks after release. Tuesday's release consisted of approximately 250 adult weevils which were placed into a meter square release area, contained by pvc pipes.

"Hopefully, releasing fully developed, adult weevils during the warm growing season will yield positive results," stated Dr. Seth Johnson, Entomologist with the LSU AgCenter. The release was conducted just prior to the salvinia's peak growing season, fall and early winter.

This should give the weevils perfect conditions; ample new growth on which to feed and moderate temperatures. The ideal result would be for the weevils to reproduce in the area and begin controlling the giant salvinia infestation.

Dr. Johnson was assisted in the release by Will Patrick, a graduate student at LSU, and Kevin Savoie, with LSU AgCenter's Southwest Region.

As we approach hunting season, outdoorsmen are requested to be on the lookout for infestations of giant salvinia and report them. Common salvinia, *Salvinia minima* infestations are widespread this year due to the ample rainfall and moderate late summer temperatures.

## Program enables teachers to get low-interest loans for certification

McNeese State University, Cameron State Bank and the Calcasieu Parish School Board have developed and implemented a program to enable classroom teachers in a five-parish area to secure low interest loans to work on National Board Certification.

The National Teacher Certification Low Interest Loan program can help teachers secure loans as low as 6 percent for 36 months with Cameron State Bank for payment of the National Board Certification process, which costs \$2,300. This loan will be available for one year for any classroom teacher in Allen, Beauregard, Cameron, Calcasieu and Jeff Davis parishes. The program will be re-evaluated and renewed on a yearly basis. The state will pay \$5,000 a year for 10 years to National

Board Certified teachers.

The program was designed as a component of the MSU Burton College of Education's teacher redesign initiative that is part of the charge by the state Blue Ribbon Commission to improve teacher quality in Louisiana, according to Dr. Jeanne Daboval, provost and vice president for academic affairs at MSU.

The Blue Ribbon Commission, which is sponsored by both the Board of Regents and the Board of Elementary and Secondary Education, has requested that universities and school districts work together in the support and retention of quality teachers.

"McNeese approached Cameron State Bank with the idea for this program and their personnel worked with us to develop the

## Area man found guilty of charges

Nolan J. Abshire, 51, formerly of Wilton Young Road, Sweet Lake, was found guilty of four counts of Aggravated Incest and one count of Aggravated Oral Sexual Battery by Judge H. Ward Fontenot following a week-long trial before the 38th Judicial District Court for Cameron Parish.

According to lead counsel for the state, District Attorney Glenn Alexander, the charges arose from incidents occurring in 1997 and 1998 involving three female juveniles under the age of twelve years. Mr. Alexander was assisted by Jennifer Jones, Assistant District Attorney.

Abshire was represented at trial by his court-appointed counsel, Lydia Guillory-Lee of Lake Charles. He is being held without bond at the Cameron Parish Jail pending his sentencing, set for Oct. 17, and faces a maximum sentence of 100 years in the custody of the Department of Corrections.

## Mon. is deadline for candidates

Political candidates who have not submitted biographical information to the Cameron Pilot for the Oct. 5 election should submit information no later than Monday, Sept. 23.

Candidates who wish to place political advertisements may contact Jeffra DeViney, advertising director, at 1-800-256-7323.

In fairness to all candidates, the Pilot will not accept any advertisements for the last issue (Oct. 3) before the election that reflects on the integrity of another candidate unless that candidate is given the opportunity to answer the charge in the same issue.

## Youth shoot set

The Cameron Parish 4-H Shooting Sports Program will have its first shoot of the year Sept. 21, at 2 p.m. at the Cameron Parish Mosquito Barn.

The shoot will feature archery, BB gun, shotgun, and hunting. There will be a cost of \$10 for the shotgun event.

Anyone wishing to volunteer can call Dede Nunez at 775-8239 or Mike LaVergne at 775-5516.

## Riverboat gaming here is approved by Police Jury

(By Jeremy Harper  
Lake Charles American  
Press)

The Cameron Parish Police Jury approved on Friday two agreements with the Isle of Capri to bring riverboat gaming to the parish.

The Police Jury unanimously approved both a development agreement and an option to lease agreement.

The Police Jury has already passed a measure calling a Nov. 5 election to vote on allowing riverboat gaming at Sabine Pass.

The election was called after the Isle of Capri express interest in relocating one of its two Lake Charles riverboats to a berth at Sabine Pass.

Under the development agreement, the Police Jury agrees to assist the Isle of Capri in its efforts to bring gaming to Cameron.

The agreement stipulates that the parish will receive 1 percent of net gaming revenues or a minimum of \$750,000 a year if the Isle of Capri brings a boat to Cameron.

The agreement also includes a non-competition clause that cuts the Isle's payments in half if another riverboat, dockside or land-based gaming facility or racetrack moves to the parish.

## Nutria control applications are available

The La. Dept. of Wildlife & Fisheries has announced that applications to participate in the Coastwide Nutria Control Program are now available, according to Kevin A. Savoie, area fisheries agent.

The program will pay \$4 per nutria tail turned in to check stations by participating trappers and hunters. The goal of the program is to raise the annual harvest of nutria to 400,000. The program will run during the open trapping season, Nov. 20 to March 31.

The applications for the program are now available on the internet at two different websites. Those interested may download the form from [www.nutria.com](http://www.nutria.com) or [www.wlf.state.la.us](http://www.wlf.state.la.us). The form includes an instruction page on how to complete the application, as well as a W-9 form for tax purposes.

Applications may also be obtained from the LDWF coastal area field offices in Baton Rouge, New Orleans, New Iberia, Lake Charles, Rockefeller, and Bourg. They are available from the LSU AgCenter Extension Office in Cameron.

Under the option to lease agreement, the Isle will pay the parish \$50,000 for the option to lease a 28-acre track of land owned by the parish.

If the Isle berths a riverboat there, it will pay the parish an additional 1 percent of net gaming revenues. If the Isle doesn't berth a boat, it will pay only \$50,000 a year.

An adjacent plot of land owned by Crane Lands LLC of Grand Chenier is also up for approval in the Nov. 5 election, but was not mentioned in the parish's lease agreement.

Police jurors praised the deals as potential economic improvements for the parish and Southwest Louisiana.

"I think this is an exciting day for Cameron Parish," said police juror Dusty Sandifer.

Police juror Steve Trahan said a casino would "push Cameron Parish into a new era."

Isle of Capri officials are also optimistic that a Cameron operation would be successful.

The Sabine Pass site would put the Isle's casino operation closer to the Texas border than Delta Downs in Vinton and the riverboats in Shreveport and Bossier City.

"I think it's a win-win situation for both of us," said Carol Collins, Isle of Capri spokesman. "We've lost probably about

20 percent of our slot revenue to Delta Downs. By moving our boat down here a little bit closer to the Texas line and closer to the Golden Triangle area, we hope to regain some of that business."

But amid all the optimism, there is still controversy about how to make the Sabine River and Sabine Lake designated waterways for gaming.

Under state law, riverboat casinos can only operate on certain designated waterways. The Sabine River south of the Toledo Bend Reservoir Dam is not on that list.

Attorneys for the parish and the Isle say they can amend the list with the Nov. 5 local referendum.

Isle of Capri attorney Jack Gray said that opinion is based on a 1995 change to the state's Riverboat Economic Development and Gaming Control Act.

State Rep. Dan Flavin said Thursday that the legal counsel at the state House of Representatives has said the Legislature must add any designated waterways.

Still, Gray said he is confident that the Legislature can be left out of the process.

"It's our position that there are alternative methods, and the method we are using today is a local election," Gray said.

## Cal-Cam Fair adds new division for girls

New this year for the Cal-Cam Fair will be a 3-year-old division, which has been added for girls only.

# S. C. Tarpons beat Yellowjackets 37-6

The South Cameron Tarpons straightened out their offensive woes in a big way Friday night in Kinder as they spanked the class 2A Yellow Jackets 37-6. The Tarpons (2-0) rushed the ball for 170 yards, a big improvement over last week's 75 yards rushing against DeQuincy. The Tarpon defense played a huge role as well, forcing 7 fumbles and an interception.

The Tarpons scored on their first possession with a nifty 14 play 62 yard drive. Kris Benoit scored on a 3 yard run. Benoit carried the ball nine times for 35 yards on the night. He finished with 62 yards on 16 carries.

A pair of touchdowns in the second quarter increased the Tarpon lead to 21-0. Keith McKoin had a one yard plunge and Benoit scored his second touchdown on a 2 yard run.

In the second half the Tarpons put together a 6 play, 60 yard drive capped by a Trey Lute 5 yard run. McKoin added another touchdown; his second of the night on a one yard run.

The Tarpon kicking game contributed as well as kicker Nichoulas Boudreaux nailed a 21 yard field goal to complete the scoring for the Tarpons. Boudreaux also connected on 4 of 5 extra points. The Tarpon passing game was impressive as quarterback Brett Baccigalopi was almost perfect completing 9 out of 10 passes for 97 yards.

The Tarpons played a penalty free game and held the Yellowjackets to 111 total yards and only 6 first downs.

## Tarpons will host South Beauregard

The 2-0 and #3 ranked South Cameron Tarpons return home this Friday night to take on the winless South Beauregard Golden Knights. The Knights play in district 4-2A. The Golden Knights lost a close one last week 21-17 to East Beauregard.

In week 1 the Golden Knights were shutout 22-0 by Merryville.

The Tarpons seem to have picked up right where they left off last season when they moved through the regular season undefeated. The Tarpon defense has been very impressive thus far allowing just 6 points in two games and 249 yards of total offense.

Game time is 7 p.m.

## Girls invited to dance Fri.

Girls who participated in the Elementary Dance Camp are invited to dance on the field with the South Cameron High School Sidekicks at half time Sept. 20.

Girls are asked to wear their camp shirts with shorts or pants.

## Teal hunting at Lacassine

Lacassine National Wildlife Refuge will be open to teal hunting during the Louisiana Sept. 21-29 season. Hunting will be permitted from one half hour before sunrise until noon each day. Wednesday through Sunday during this special season. No hunting is allowed on Monday and Tuesday.

Refuge 2002-2003 hunting brochures/permits are now available at the refuge office and at all refuge kiosks. While hunting on the refuge, all hunters are required to have in their possession a valid refuge permit signed and dated.

Hunters are encouraged to scout the hunting area prior to and during the hunting season from one hour before to one hour after sunset. However, no firearms are permitted in the hunt area except during the refuge hunting hours. Firearms carried in boats traveling on refuge waterways must be unloaded and encased or dismantled. ## Businesses welcome gaming here

By MELISSA RENTERIA  
(Beaumont Enterprise)

A proposed move that would bring riverboat gambling to Sabine Pass has some local business owners looking forward to

potential profits.

"I think it would be great. It's a great idea," said Tina Taylor, co-owner of Skeeter's Bar and Grill in Sabine Pass.

Taylor, who opened the seafood and steak restaurant

with her husband, David, two years ago, said they often talk about how nice it would be to have a gambling establishment in the area - both for business and recreation.

The Isle of Capri on Monday announced plans to build a multi-million dollar riverboat casino in Cameron Parish pend-

TOM JACKSON of the Jefferson Navigation project spoke to concerned citizens about plans for dredging near the Sabine Lighthouse and locations of property to be expropriated. He stated that the road to the lighthouse would be left open.

ing approval of voters there.

Isle of Capri President Jack Galloway said that his company is considering relocating one of its two Lake Charles boats to a proposed berth at Sabine Pass, which is on the Louisiana-Texas border.

The proposed Sabine Pass site would put the Isle of Capri casino operation closer to the Texas border than Delta Downs in Vinton, and the riverboats in Shreveport and Bossier City.

A company spokesman said cost estimates of operating the riverboat casino at Sabine Pass have not been determined. The company estimates that 700 to 1,500 jobs would be generated by the casino property.

Tina Horn, Cameron Parish administrator, said Monday this casino project could become the largest economic development project in parish history.

Those in the Sabine Pass business community said the casino's impact on the area could be as significant.

"From our perspective, it would definitely generate traffic into our city," said Verna Rutherford, president of the Greater Port Arthur Chamber of Commerce. People who ordinarily wouldn't come into this area because they generally travel through it on I-10 would get to see it."

Rutherford said the casino could bring new customers to area restaurants, gas stations and hotels.

The proposal would have to be approved by voters and the Louisiana State Gaming Control Board.

The Cameron Parish Police Jury approved a resolution Monday calling for a special Nov. 5, election on whether to allow riverboat gaming. If voters approve that measure, the riverboat's move must still be authorized by the state Gaming Control Board.

Isle of Capri officials said that the company is considering the relocation of one of its Lake Charles riverboats because of the negative impact the slot parlor at Delta Downs has had on their operations.

The Isle, in its last quarterly report ending July 28, said that it saw a \$4.2 million decrease in casino revenue. The decrease at the Isle-Lake Charles was primarily due to the addition of a competitor, Delta Downs, the report stated.

The Isle of Capri owns and operates riverboat, dockside and land-based casinos at 14 sites in Mississippi, Louisiana, Colorado, Iowa, Missouri and Nevada.

YVONNE MHIRE, left, of Hibernia National Bank, and Charlotte Trosclair, Cameron Parish Library Director, are shown above with some of the Young Readers' Choice books which Hibernia recently donated to the library system.

## Hibernia Bank gives books to state libraries

Hibernia National Bank has joined with the State Library of Louisiana to purchase children's books for every public library in Louisiana. Approximately 2,700 children's books, the titles listed on the Louisiana Young Readers' Choice Award 2003 ballot, will be distributed to all 65 public library systems in the state.

"This is a perfect example of how state government and the private sector have teamed up to benefit Louisiana's children," said Lt. Gov. Kathleen Babineaux Blanco, who oversees the Louisiana Department of Culture, Recreation and Tourism, including the State Library. "Our aim is to encourage children to read these highly acclaimed books. Studies have found that children who read books or are read to aloud by an adult are most likely to succeed in school and in life."

The Louisiana Young Readers' Choice Award is a reading enrichment program of the Louisiana Center for the Book in the State Library of Louisiana, generously supported by Hibernia National Bank.

Each year, students across the state in grades three through five are encouraged to cast votes for their favorite books from 15 titles on the ballot. Book titles are selected annually by a committee of Louisiana school and public librarians.

"We believe this program is a wonderful way to get children excited about reading," said Yvonne Mhire, manager of the Hibernia branch in Cameron. "We know good reading skills are an essential ingredient in a child's educational success. Reading fosters a love of learning that helps children expand their world, exposing them to exciting people and places."

Hibernia has supported the Louisiana Young Readers' Choice program for the past three years. According to Mrs. Mhire, Hibernia's motto, "Where Service Matters," is "a statement that applies to our support for the communities we serve, just as it applies to our dedication to serving the financial-services needs of our customers."

State Librarian Tom Jaques urges librarians and teachers to work together in encouraging students to read the books. "We know a child's achievement in school can be predicted by the amount of time he or she spends reading or listening to someone read," said Jaques. "We hope to instill a love of reading in children to meet their informational and entertainment needs."

Students in grades three through five are encouraged to begin reading the titles on the 2003 Young Readers' Choice list now. Feb. 1, 2003, is the deadline for children to cast ballots for their favorites. Teachers are invited to read the books aloud and provide curriculum-related activities.

Most of the books are part of the accelerated reading program, used by many schools to motivate students to read. "When librarians and teachers introduce students to the Young Readers' Choice books, they come into the library asking for them," explained Charlotte Trosclair, library director. "We

are so pleased to receive these high quality books, which are carefully selected to appeal to a wide range of interests. The list is multi-cultural and includes fiction, non-fiction, biography, poetry and folklore."

The Cameron Parish Library will feature a special display of the Young Readers' Choice books in the children's area, with posters provided by Hibernia National Bank.

Students can vote for their favorite books at any Louisiana public library or participating schools. Brochures explaining the Young Readers' Choice program are available at public libraries across the state.

A printable ballot, full bibliographic citations for the books, classroom activity ideas and background information are available from the State Library's web site (<http://www.state.lib.la.us>) under the Young Readers' Choice Award heading.

Over 8,000 students voted on the 2002 ballot. The 2002 winner, *Weslandia* (Candlewick, 1999), written by Paul Fleischman and illustrated by Kevin Hawkes, is a beautifully illustrated book about a boy who creates his own marvelous civilization during summer vacation.

The Old School in Lecompte was selected by the State Library as the site for the Sept. 21 award ceremony.

## Early area history is recalled in news article

(EDITOR'S NOTE--Lake Arthur in Jeff Davis Parish had a close association with Cameron Parish for many years. Before roads were built into Cameron Parish in the 1930's the two main connections with the outside were the steamers that plied the Calcasieu River between Cameron and Lake Charles and the Mermentau River between Grand Chenier and Lake Arthur. The Lake Arthur Herald described in this article by the Pilot's late columnist, Bernice Stewart Denny, would have been widely read in Cameron Parish at the time.)

(Cameron Pilot, March 27, 1969)  
By BERNICE STEWART

A gem fell into our hands during the past weekend. At least to us--lovers of history that we are--it was of inestimable interest. It was like a voice calling bits of history across the decades.

We refer to the sixth and seventh numbers of the first newspaper ever printed in Lake Arthur. The two numbers were combined in a single issue of four pages dated Thursday, June 26, and July 3, 1890. The paper was called Lake Arthur Herald.

The copy was lent to us by a very dear friend, whose 98-year-old mother passed away last week. In looking through the mother's possessions our friend found the newspaper, neatly folded, slightly yellowed but perfectly legible. Knowing of our constant search for bits of history, our friend sent the paper to us.

Today we shall share some of its contents with you especially the items that pertain to Lakeside in Cameron Parish.

The publisher of the Herald was P. M. Kokanour. Subscriptions rates were one year, \$1.50; six months, \$.75; three months, \$.40; one month, on trial, \$.10; sample copies free on request.

A fairly large advertisement on the front page reads: "Lake Side (Note the two words in the name instead of the one as is used today.) Place, on the South Side of Lake Arthur, newly laid out in large lots - one, two and four acres - especially for orange groves. Hundreds of trees bearing in immediate vicinity. Two miles of Lake Front. Also, some of the best fruit, farming and grazing

lands in Louisiana for sale at reasonable prices and on easy terms. Come and see Lake Side Place and get an orange grove or a farm. Call on or address: Hall, Clarke, Estle, Shell Beach, Vermillion Parish, La." (Note the two 'i's in "Vermillion".)

Another front-page ad reads: "New store. New goods. I have opened my store at Lake Side Place and am prepared to serve you to anything kept in a general store, such as dry goods, and groceries, canned fruits, fresh fruits, notions, coffees, teas, spices, confectionery, cigars, and tobacco. P. K. Millar, Lake Side, La."

In the column of personals we find: "E. Dechamps, Jr., and Sam'l Wolf, of New Orleans went to Grand Chenier Tuesday."

"J. H. Clark is building a fine large residence at Lake Side. His family will join him this fall."

"A nine from the Lake Arthur baseball association under lead of Capt. Marquart, will meet the Lake Side Club, Frank Blackburn, Captain, on the home grounds at three o'clock Saturday afternoon."

"We are pleased to announce arrangements with Dr. E. I. Hall, one of the proprietors of Lake Side Place, and a gentleman of large experience and careful study of the subject to prepare for publication in the Herald in a few weeks a series of articles on orange culture. All who know Dr. Hall will at once recognize the fact that a competent man for this work has been secured and that his utterances on the subject can be relied upon. Our northern friends will do well to subscribe at once for this paper and avoid missing the articles."

"Capt. Dyer is at Lake Charles for a second load of lumber for Lake Side."

"Eight of the young folks sailed to Lake Side Sunday and nine more went down on horseback."

"Capt. Henry Vaughan sailed into this harbor Thursday with his sloop Agnes on salt business." (For many years Capt. Vaughan lived on Grand Chenier.)

"Lake Side defeated Lake Arthur in a seven-inning baseball game Saturday, score 25-21. A return game will probably be played Tuesday afternoon."

It is interesting to note that the paper carries a schedule for the Fourth of July celebration, the first official observance of the

F. J. PAVELL KC Council #8323 named Sonny McGee as Knight of the Month and the Edmond Trahan family as Family of the Month for August.

### HUNTING SEASON

Dove season ended Sunday for the first split, and although there were a few doves killed, many hunters were disappointed. The second split will be Oct. 12-Nov. 24.

This weekend hunters will hit the marshes trying to get a limit of teal. The season opens Saturday for 9 days, Sept. 21-29, with a daily limit of 4, either combination of blue-winged, green-winged or cinnamon. Also, opening for 9 days this weekend, same dates, is king and clapper rails with a daily limit of 15, and sora and Virginia rails, limit 25. Both of different limits are in aggregate. Gallinules also has the same dates with a daily limit of 15 per day. Check your pamphlet.

around the house? Well, if you hunted fewer than 18 days last season you can protest that you're out in the field less than most other sportsmen.

The most recent five year survey by the U. S. Fish and Wildlife Service found that the nation's 13 million hunters, age 16 or older, spent 17-1/2 days on average in the field last year. For the 34 million U. S. Anglers that number was 16 days.

If you want to justify buying a new rifle or fishing rod, look at these statistics: On average hunters spent \$1,585 each on gear and trips, while anglers lightened their wallets to the tune of \$1,046 each. Sportsmen, both hunters and fishermen, spent a total of \$55 billion last year.

### ANNUAL BANQUET

Brandon Trahan, head of Cameron Parish Ducks Unlimited, announced the annual banquet is upon us. It has been scheduled for this Saturday, Sept. 21, at the Creole Multi-Purpose Building, one-half mile east of the Creole red light. The doors open at 6 p.m. for registration and membership. The annual ribeye dinner will be served at 7 p.m. The auction and raffle will follow.

Mark your calendar, call a friend, or two friends, and bring them with you. Bring a buddy or even your family. DU guarantees you a good time and the money raised benefits a most worthy cause.

Teal season opens the morning of the banquet. A great weekend.

# Sarah Griffith is new recruiter for N.S.U.

Sarah Griffith, Melanie McBride and Jamila Maxie have joined the staff of Northwestern State University's Office of Admissions and Recruiting, according to Jana Lucky, director of admissions and recruiting.

The three will be part of a group of recruiters who will travel throughout the state of Louisiana as well as in east Texas, south Arkansas and west Mississippi to inform prospective students about opportunities at NSU.

Griffith earned a bachelor's degree in English with an emphasis in professional writing. She is originally from Johnson Bayou. While a student, Griffith worked at Dominic's Italian Restaurant and at Guillet Realty in Natchitoches. She served as president of the Student Activities Board and was active in the Student Government Association. Griffith was a member of Phi Mu Fraternity and Purple Jackets. She was selected to Northwestern's Homecoming Honor Court in 2000 and 2001.

"I want to tell students how Northwestern gives you an opportunity to succeed," said Griffith, who will recruit in the Lafayette and Houma-Thibodaux area. "Wherever you came from, you have a chance to do something at Northwestern. I came from a small town, but was able to earn scholarships and succeed academically."

Griffith said she will let students know about NSU's successful athletic program which was one of the top 35 Division I programs in winning percentage, according to U.S. News and World Report. She will also promote Northwestern's leadership role in electronic learning and let students know about numerous scholarship opportunities.

"There are a number of scholarships available. The university has scholarships for academic achievement and leadership as well as performance-based scholarships," said Griffith. "I proudly tell parents

I am a Northwestern graduate and let students know that someone like them was able to earn scholarships."

Maxie, from Shreveport, will recruit the New Orleans area and will tell prospective students about some of the advantages they will have at Northwestern.

McBride will recruit central Louisiana. She grew up in Natchitoches and said she is glad to be working on the NSU campus.

STATE OF LOUISIANA  
OFFICE OF CONSERVATION  
BATON ROUGE, LOUISIANA

In accordance with the laws of the State of Louisiana, and with particular reference to the provisions of Title 30 of Louisiana Revised Statutes of 1950, a public hearing will be held in the Hearing Room, 1st Floor, LaSalle Building, 617 North 3rd Street, Baton Rouge, Louisiana, at 9:00 a.m., on TUESDAY, OCTOBER 8, 2002, upon the application of PALVEST, INC.  
At such hearing the Commissioner of Conservation will consider evidence relative to the issuance of an Order pertaining to the following matters relating to the Hackberry Sand, Reservoir A, in the Gum Cove Field, Cameron Parish, Louisiana.  
1. To establish rules and regulations and to create two (2) drilling and production units for the exploration for and production of gas and condensate from the Hackberry Sand, Reservoir A, said units to be designated HBY RA SUA and HBY RA SUB, as shown on the plat submitted with the application.  
2. To force pool and integrate all separately owned tracts, mineral lease

es and other property interests within the proposed units with each tract sharing in unit production on a surface acreage basis of participation.  
3. To designate a unit operator and a unit well for the units so created.  
4. To provide that any wells drilled to the Hackberry Sand, Reservoir A, shall be located in accordance with the spacing provisions of Statewide Order No. 29-E.  
5. To provide that the Commissioner may reclassify the reservoirs by supplemental orders without the necessity of a public hearing should such reclassification be warranted, based on evidence furnished by the Commissioner.  
6. To consider such other matters as may be pertinent.  
The Hackberry Sand, in the Gum Cove Field, Cameron Parish, Louisiana is hereby defined as that gas and condensate bearing sands encountered between the depths of 12634' and 12714' electric log measured depths in the Manti Operating Co.-Odum No.1 Well, located in Section 13, Township 12 South, Range 12 West.

**MEETING MINUTES**  
The CPAD #2 Ambulance Board met on August 19, 2002 at the Hackberry Recreation Center. The meeting was called to order by President Glenn Trahan. The pledge was led by Mike Guillory, the prayer was led by Dinah Landry. Secretary Dinah Landry called the roll and handed out the minutes. The minutes were approved on a motion by Mike Guillory, seconded by Dinah Landry. Motion carried.  
Dinah Landry made a motion to add items to the agenda:  
West Cal Cam ALS Back Up Parish Write Offs Executive Session  
The motion was seconded by Gwen Constance and carried.  
Tom Javins, Director, gave the financial report. The balance in all accounts was \$166,659.27. Patient accounts collected was \$10,884.10. Miscellaneous income equals to \$6,392.00. A total of 38 runs were covered throughout the district. Paramedic classes are processing on schedule. Holly Beach First Responder Class graduated 5 persons. Basic EMT class will begin in Hackberry on Mondays and Wednesdays after the first of October. Bio-Terrorism class will be attended by 2 representatives from the district. District 1 has reimbursed the amount owed as specified by the Legislative Auditor's office. No problems have been encountered with Moss Regional diversions and the sheriff's office dispatching which began on August 1st at midnight is working extremely well. The amount paid each ambulance district was \$20,000.00. On a motion by Dinah Landry, seconded by Mike Guillory, the report was accepted.  
Rob Daudril, Ambulance Director from West Cal Cam addressed the group. Over the past years a good working relationship has been devel-

oped between the districts and continues to work well. West Cal Cam is used to back up our units with ALS. He stressed the importance of working together and is very pleased with the relationship. Everyone thanked him for his support and the support of West Cal Cam.  
Director Javins presented a service agreement between CPAD 2 and the sheriff's office on dispatching services. The agreement was signed as approved at the last meeting. Total approved cost \$20,000 or \$1,667 per month. Each party has a 90 day out clause. The beginning date for the agreement was August 1, 2002.  
Two plans for employee pay scales were discussed. Director Javins and Board Secretary Dinah Landry had reviewed these plans. Director Javins explained the plans and asked each board member to review the plans and be prepared to vote at a later date. Raises would go into effect in January 2003.  
Director Javins also spoke on a retirement plan for the employees. He will secure information from insurance representatives. The board discussed paying the AFLAC premium for the crew members.  
Director Javins informed the group of a CAA Accreditation meeting in Indiana. He asked that this be tabled until a later date. The meeting is too expensive at this time to attend.  
Director Javins presented the list of parish write offs to the board. Members reviewed the list. On a motion by Gwen Constance, seconded by Mike Guillory, the list was approved and initiated.  
Board members discussed the refurbishing of ambulances and the projected costs. This decision will be made at a later date. Director Javins had the figures on state contract available.  
On a motion by Mike Guillory, seconded by Gwen Constance, the board went into executive session with respect to potential litigation in which an open meeting would have a detrimental effect on the litigation position of the board of directors of district 2. RS 42.6.1 (2)  
Following the executive session, the meeting was reconvened on a motion by Dinah Landry, seconded by Gwen Constance and approved.  
Being no further business to come before the board, the meeting was adjourned on a motion by Gwen Constance, seconded by Mike Guillory.

The meeting was adjourned.  
Next meeting date will be September 23, 2002, at the Grand Lake Ambulance Office

CAMERON PARISH WATERWORKS DISTRICT NO. 7

Cameron Parish Waterworks District No. 7 met in regular session on July 16, 2002, at 5:00 P.M. at the Waterworks District Office in the Village of Creole, Louisiana. Members present: Wilson Conner, Daniel Dupont and Guy Murphy Jr. Members absent: Sandra Ford and Jude Primeaux. Guests: Scott Trahan and Lonnie Harper.

Wilson Conner called the meeting to order, led everyone in the Pledge of Allegiance and called roll.

LSU AGCENTER 4-H agent Mike LaVergne, giving a hand signal and wearing a compass around his neck, assists youth develop a plan to follow a blood trail of a wounded animal. This is one of the outdoor skills taught to participants in the Outdoor Skills Camp.

# Outdoor skills camp offered 4-H'ers, others

4-H youth and their families from across the state participated in the LSU AgCenter's Outdoor Skills Camp Sept. 6-8 which included shooting 22 caliber rifles, bow and arrows and muzzleloaders at 4-H Camp Grant Walker. Other outdoor topics discussed include mosquito control, wildlife identification, and demonstrations on how to follow a blood trail and find wildlife that blend into the environment.

During the camp, 41 4-H Club members and their families from across Louisiana participated in a variety of outdoor activities - particularly those involving shooting and hunting, as well as outdoor safety.

"This is the 25th anniversary of 4-H Shooting Sports in America," said Michelle Abington-Cooper, who coordinated the event for the LSU AgCenter. "The 4-H Shooting Sports project is the fastest growing 4-H project in America," she added.

Participating youth had an opportunity to practice safety skills in using a muzzleloader, 22 caliber rifle, bow and arrow and air rifles. Other activities included a demonstration on the safe use of a variety of guns, learning to follow the blood trail of a wounded animal, game identification, mosquito control and finding wildlife species that blend into the environment.

Participants taking part in the Outdoor Skills Camp won the opportunity by excelling in the shooting competition during regular 4-H camps held this summer.

"This is an outstanding opportunity for parents to spend quality time with their kids," said Mike Burns, a 4-H agent in Grant Parish with the LSU AgCenter.

Most parents teamed up with their family members and participated in the activities with the youth.

"4-H Outdoor Skills Camp is a family affair," said Burns.

4-H is the youth development program of the country's land-grant universities. It is operated across Louisiana by the LSU AgCenter.

Those interested in learning about the 4-H Outdoor Skills Camp, the 4-H Shooting Sports program or other 4-H projects

Daniel Dupont made a motion to accept the minutes as read and the financial statement, it was seconded by Guy Murphy Jr. and carried.

Lonnie Harper discussed finishing up the project with Hartec and the changing out of the meters.

A decision was made to wait until the next meeting to discuss the meter situation fully and to decide on new charges for taps, connect, reconnects and call-outs.

It was moved by Guy Murphy Jr., seconded by Daniel Dupont and carried, that the meeting be adjourned.

**NOTICE OF PUBLICATION OFFICE OF MINERAL RESOURCES ON BEHALF OF THE STATE MINERAL BOARD FOR THE STATE OF LOUISIANA BATON ROUGE, LOUISIANA 70821**

By virtue of and in conformity with the provisions of Sub-part A of Chapter 2, Title 30 of the Louisiana Revised Statutes of 1950, as amended, and other applicable laws, sealed bids will be received in the Office of Mineral Resources, LaSalle Office Building, Baton Rouge, Louisiana (P. O. Box 2827, Baton Rouge, LA 70821) on or before 12:00 noon on Tuesday, November 12, 2002 for a lease to explore, drill for and produce oil, gas and any other liquid or gaseous minerals in solution and produced with oil or gas on the following described tracts (Tract Nos. 34984 through 35079 inclusive) to be opened publicly Wednesday, November 13, 2002 in the LaSalle Office Building, 817 N. 3rd Street, Capitol Complex, Baton Rouge, Louisiana.

All bids shall offer a "Cash Payment" bonus, as set forth on the attached Bid Form, for a lease having in primary term in conformity with whether said lease is an inland or offshore lease and the said bonus shall maintain the lease in full force and effect for the first year. If the bid offers an ANNUAL DELAY RENTAL, which is mandatory for leases with terms of more than one (1) year, it shall not be for less than one-half (1/2) of the Cash Payment bonus and any bids containing an annual delay rental of less than one-half (1/2) of the Cash Payment bonus will be increased to the one-half (1/2) amount. Any lease granted shall be without warranty or any recourse whatsoever, either express or implied, against Lessor with regard to questions of title, not even for the return by Lessor of any payments received under the lease or being otherwise responsible therefor to Lessee. Under L.S.A. Title 30, Section 107, the Minimum Royalty bid cannot be less than one-eighth (1/8) of all oil, gas or other liquid or gaseous minerals in solution and produced with oil or gas and saved or utilized. Rights to geothermal resources, free sulphur, potash, lignite, salt and other solid minerals are to be excluded from any oil or gas mineral lease and any bid purporting to include those rights will be disregarded as to the extent of those rights only. All bidders are notified that the Mineral Board does not obligate itself to accept any bid, and that acceptance is at the sole discretion of the Mineral Board which reserves the right to reject any and all bids or to grant a lease on any portion of the tract advertised and to withdraw the remainder of the tract. Act 3 of the 2000 Second Extraordinary Legislative Session established two additional fees to be collected from mineral leases on all mineral leases awarded on state owned lands and waterbottoms. An additional fee of \$10 per acre will be collected and deposited into the Louisiana Wildlife and Fisheries Conservation Fund. An additional fee of \$5 per acre will be collected and deposited into the Oil and Gas Regulatory Fund. A separate check for the amount of \$15 per acre made payable to the Office of Mineral Resources shall be submitted, either accompanying the original bid (inside the sealed bid envelope) or mailed to the Office of Mineral Resources for receipt within ten (10) days after the bid is accepted and the lease is awarded. Bidders may use a regular check for payment of the fees. The successful bidder will not receive the lease executed by the State Mineral Board until the fee is received. If the fee check accompanies the bid in the sealed envelope and the bidder is unsuccessful, both the fee check and the Cash Payment bonus check will be returned to the unsuccessful bidder.

All leases awarded shall be executed upon terms and conditions provided in the current State lease form with all applicable riders appended thereto a copy of which is available for review in the Office of Mineral Resources, Petroleum Lands Division, Leasing Section.

For the full amount of the aforesaid Cash Payment bonus shall be submitted with and accompany each bid, and no bid, once submitted, may be thereafter withdrawn or canceled. Once the bid is opened and accepted by the Mineral Board, the accompanying checks or money order shall be negotiated by the Office of Mineral Resources and the proceeds disbursed in the manner required by law.

**SPECIAL NOTE:**

Under rules promulgated by the Department of Natural Resources in accordance with authority granted by Act 13 of the First Extraordinary Session of the Louisiana Legislature of 1981, a fee equal to ten percent (10%) of the Cash Payment bonus bid is required to be submitted by separate check, either accompanying the original bid (inside the sealed bid envelope) or mailed to the Office of Mineral Resources for receipt within ten (10) days after the bid is accepted and the lease is awarded. Bids may be for the whole or any particularly described portion of the land advertised, but consistent with Mineral Board policy. All bidders are hereby notified that bids on portions of tracts shall be described by metes and bounds and be accompanied by a transparent plat outlining thereon the portion bid upon. The scale of the transparent plat shall be the same as that of the Official Plat (NOT THE F & A PLAT) and shall be accompanied by a transparent plat showing the regular check for the 10% fee. The successful bidder will not receive the lease executed by the State Mineral Board until the fee is received. If the fee check accompanies the bid in the sealed envelope and the bidder is unsuccessful, both the fee check and the Cash Payment bonus check will be returned to the unsuccessful bidder.

The successful bidder to whom the lease is awarded who receives the written lease executed by the State Mineral Board shall return the written lease, duly executed by Lessee (all of named Lessees on the lease instrument), within TWENTY (20) DAYS of receipt of same under penalty for failure to do so of forfeiture of the lease, including the Cash Payment bonus and any other consideration and the lease shall be null and void. Bids may be for the whole or any particularly described portion of the land advertised, but consistent with Mineral Board policy. All bidders are hereby notified that bids on portions of tracts shall be described by metes and bounds and be accompanied by a transparent plat outlining thereon the portion bid upon. The scale of the transparent plat shall be the same as that of the Official Plat (NOT THE F & A PLAT) and shall be accompanied by a transparent plat showing the regular check for the 10% fee. The successful bidder will not receive the lease executed by the State Mineral Board until the fee is received. If the fee check accompanies the bid in the sealed envelope and the bidder is unsuccessful, both the fee check and the Cash Payment bonus check will be returned to the unsuccessful bidder.

Notice is given that the State Mineral Board will include provisions in the lease to insure applicable payments attributable to the lease property without regard to adverse title claims, disputes, litigation or title failure and the provisions of the lease shall be subject to the provisions of the lease as set forth in the Official Journal of the Office of Mineral Resources. Prospective bidders should carefully examine the same prior to submitting any bid.

Some tracts available for leasing may be situated in the Louisiana Coastal Zone as defined in Act 361 of the Regular Session of the Louisiana Legislature of 1981, as amended, and the act shall be subject to the guidelines and regulations promulgated by the Coastal Management Section of the Department of Natural Resources for operations in the Coastal Zone.

The descriptions of Tract Nos. 34984 through 35079 inclusive will be published in Baton Rouge on September 18, 2002 in "The Advocate", which is the Official Journal of the State of Louisiana and also in the Official Journal of the Parishes in which the property is located.

NOTE: All bids shall specify the Cash Payment bonus for leases as a price per acre amount and an aggregate total amount. For purposes of rental and deferred development payments, the price per acre amount set forth in the bid, when multiplied by the appropriate acreage, shall determine the full value of rental or deferred development payments to be made. If there are any discrepancies between the acreage, per acre cash payment, bonus, any additional consideration and the geographical boundary of the lease tract, nevertheless, the price per acre specified in the bid for a lease shall be multiplied by the appropriate State acreage within the geographical boundary of the lease tract to compute rental or deferred development payments.

NOTE: Multiple portion bids on the same tract may be accepted by the State Mineral Board, even though they overlap. In the case of overlapping portion bids on the same tract, each of which is otherwise acceptable to the State, the State Mineral Board will indicate which one of the multiple bids on the same tract is most acceptable, considering the terms of the lease and the actual State acreage within the geographical boundary of the lease tract. Bids may be for the whole or any particularly described portion of the land advertised, but consistent with Mineral Board policy. All bidders are hereby notified that bids on portions of tracts shall be described by metes and bounds and be accompanied by a transparent plat outlining thereon the portion bid upon. The scale of the transparent plat shall be the same as that of the Official Plat (NOT THE F & A PLAT) and shall be accompanied by a transparent plat showing the regular check for the 10% fee. The successful bidder will not receive the lease executed by the State Mineral Board until the fee is received. If the fee check accompanies the bid in the sealed envelope and the bidder is unsuccessful, both the fee check and the Cash Payment bonus check will be returned to the unsuccessful bidder.

INLAND TRACTS (Tract Nos. 34986 through 35078 inclusive herein) are those tracts which lie landward of the Louisiana shoreline as defined by the report of the Special Master in the litigation in the Supreme Court of the United States styled United States v. Louisiana, et al., No. 9 Original and set out in the June 1975, Decree of the said Supreme Court. All bids on inland tracts cannot specify a lease primary term exceeding three (3) years. Bids that specify a primary term exceeding three (3) years for an inland tract may be rejected outright or the primary term changed to three (3) years at the sole discretion of the State Mineral Board.

TRACT 34986 - Cameron Parish, Louisiana - All of the lands now or formerly constituting the beds and bottoms of all water bodies of every nature and description, and all islands and other lands formed by accretion, where the mineral lease awarded by the Louisiana State Mineral Board be subsequently modified, cancelled or abrogated due to the existence of conflicting leases, operating agreements, private claims or other future obligations or conditions which may affect all or any portion of the leased Tract, it shall not relieve the Lessee of the obligation to pay any bonus due thereon to the Louisiana State Mineral Board, not shall consideration be given for the purpose of refunding any consideration paid by the Lessor prior to such modification, cancellation, or abrogation, including, but not limited to, bonuses, rentals and royalties.

NOTE: The State of Louisiana does hereby reserve, and this lease shall be subject to, the imprescriptible right of surface use in the nature of a servitude in favor of the Department of Natural Resources, including its Offices and Commissions, for the sole purpose of implementing, constructing, servicing and maintaining approved coastal zone management and/or restoration projects. Utilization of any and all rights derived under this lease by the mineral lessee, its agents, successors or assigns, shall not interfere with nor hinder the reasonable surface use by the Department of Natural Resources, its Offices or Commissions, as herein above reserved.

## Sept. is Prostate Cancer awareness month

September is Prostate Cancer Awareness Month. Prostate cancer is the most commonly diagnosed cancer and second leading cause of death from cancer among American men. In fact, a man is diagnosed with the disease every 2-1/2 minutes and nearly 200,000 are diagnosed annually. Nearly 40,000 Americans lose their lives to prostate cancer each year.

Despite these statistics, Timothy Wilson, MD, Director of Urology at City of Hope Cancer Center in Los Angeles, emphasizes that prevention and early detection can reduce the risk of prostate cancer and improve treatment outcomes for those who are diagnosed with the disease.

"The exact cause of prostate cancer is unknown but risk of its development is associated with age, family history, race, environmental exposure, and certain nutritional deficiencies," says Dr. Wilson. "Prostate cancer is often called a 'silent disease' because it frequently develops without obvious symptoms."

When symptoms are present, they may include some of the following: a weak flow of urine; frequent or painful urination; blood in the urine or semen; pain in the lower back, pelvis, or upper

thighs. Dr. Wilson recommends that all men over the age of 40 visit their physician for a yearly exam. This exam should include: a discussion about risk factors and possible symptoms; a digital rectal examination (DRE) to detect irregularities of the prostate; and a prostate specific antigen (PSA) blood test.

Men who are at high risk for prostate cancer—especially African Americans or men who have close family members with prostate cancer—should consider beginning these tests at an earlier age.

Prevention is the best way to reduce the risk of prostate cancer. Men should take proactive measures to live free of the disease. Dr. Wilson suggests the following: eat a balanced diet, high in fruits and vegetables and low in fat; watch your weight, and exercise daily; limit alcohol consumption; know the risk factors; and be aware of changes in your body; see a physician for a yearly exam.

For more information about prostate cancer research and treatment at City of Hope Cancer Center, call 1-800-826-HOPE or visit: [www.cityofhope.org](http://www.cityofhope.org).

## Hunter precautions for West Nile virus

The West Nile virus outbreak in Louisiana has raised questions regarding the handling and consumption of doves and other game birds. Birds are the primary reservoir for West Nile virus. Mosquitoes transmit the virus between birds, and from birds to people.

To date, the disease has been found primarily in crows and blue jays, although other birds and mammals are also affected. Less than one percent of the humans who become infected exhibit symptoms of the disease.

Dove season opens September 7 and thousands of hunters will be handling, dressing and cooking the doves they bag. West Nile virus is not common among mourning doves, so the likelihood of encountering a mourning dove infected with West Nile virus is very low, particularly if the bird appears healthy and is a strong flier.

Mosquitoes are the only known means of transmission of the West Nile virus and direct transmission from birds to humans has not been documented. According to the Louisiana

Department of Health and Hospitals and the U.S. Department of Health and Human Services, Centers for Disease Control and Prevention, there is no evidence that a person can get West Nile virus from handling live or dead infected birds.

If, however, a hunter is still concerned about contracting West Nile virus from game birds, some simple precautions can be taken.

Hunters can wear gloves while dressing birds to prevent blood contact with bare skin, and doves should be cooked thoroughly. Most importantly, insect repellent should be used whenever hunters are in the field.

Hunters should always be mindful that wild animals of any species should not be consumed if they appear unhealthy or act abnormally.

The best protection against West Nile virus and other mosquito borne illnesses is the use of mosquito repellent and wearing of appropriate clothing while afield.

Bayou Canal, then south to the Gulf of Mexico, the west along the shoreline of the Gulf of Mexico to the Texas state line, the north to the point of beginning at LA Hwy. 82.

A special permit shall be required to participate in the Canada Goose season. A permit is required of everyone, regardless of age, and a non-refundable \$5 administrative fee will be charged. This permit may be obtained from any license vendor.

CONSERVATION ORDER FOR LIGHT GESE (SNOW, BLUE AND ROSS')

STATEWIDE: Dec. 9 - Dec. 13 (5 days) Feb. 1 - Mar. 9 (37 days) Only snow, blue and Ross' geese may be taken under the terms of the Conservation Order, which allows the use of electronic calls and unplugged shotguns, and eliminates the daily bag and possession limits. During the Conservation Order, shooting hours begin one-half hour before

sunrise and extend until one-half hour after sunset.

RAILS STATEWIDE: Nov. 9 - Jan. 8 (61 days) For King and Clapper Rails, the daily bag limit is 15 in the aggregate, and the possession limit is 30. Sora and Virginia Rails have daily and possession limits of 25 in the aggregate.

GALLINULES: STATEWIDE: Nov. 9 - Jan. 8 (61 days) The daily bag limit for gallinules is 15, and the possession limit is 30.

SNIFE STATEWIDE: Nov. 2 - Dec. 8 (37 days) Dec. 14 - Feb. 21 (70 days) For snipe, the daily bag limit is eight and the possession limit is 16.

For the waterfowl hunting seasons, the shooting hours are one-half hour before sunrise to sunset, except at the Spanish Lake Recreation Area in Iberia Parish where shooting hours, including the Conservation Order, end at 2 p.m.

## Seafood Enchiladas

Prep Time: 15 Minutes Cook Time: 40 Minutes Ready in: 55 Minutes Average Rating:\*\*\*\*\*

" These crab and shrimp stuffed enchiladas taste like the ones served at a popular Mexican restaurant in my area. My husband just loves them. After sprinkling the cheese over the enchiladas before baking, you can also garnish with tomatoes, cilantro, olive slices, or whatever other garnish you enjoy. "

Ingredients  
 1 onion, chopped  
 1/2 pound fresh crabmeat  
 1/4 pound shrimp - peeled, deveined and coarsely chopped  
 8 ounces Colby cheese  
 1/2 cup sour cream  
 1 1/2 teaspoons dried parsley  
 6 (10 inch) flour tortillas  
 1 tablespoon butter  
 1 cup half-and-half cream  
 1/4 cup butter, melted  
 1/2 teaspoon garlic salt

Directions  
 1. Preheat oven to 350 degrees F (175 degrees C).  
 2. In a large skillet, saute onions in 1 tablespoon butter until transparent. Remove the skillet from heat, and stir in crabmeat and shrimp. Mix in 1 cup shredded cheese. Place a large spoonful of the mixture into each tortilla. Roll the tortillas up around the mixture, and arrange the rolled tortillas in a 9x13 inch baking dish.  
 3. In saucepan, combine half and half, sour cream, 1/4 cup butter, parsley and garlic salt. Stir until the mixture is lukewarm and blended. Pour this sauce over the enchiladas, and sprinkle with remaining cheese.  
 4. Bake in preheated oven for 30 minutes.

### (Lake Charles American Press, Sept. 16, 1939) CREOLE BOY MISHAP VICTIM

Gabriel Reon, 18-year-old son of Mr. and Mrs. John Reon of Creole, was instantly killed Saturday morning at 10 o'clock when the truck in which he was riding suddenly overturned several times on the Hackberry-Cameron road about two miles south of Hackberry.

Carl Reon, a relative of the dead youth, was driving the truck, a Butter Nut bakery van, out of Lake Charles, which developed mechanical trouble and overturned in loose gravel.

The dead youth was not an employee of the baking company, but was apparently riding home with the driver who had left Lake Charles at 4:30 a.m. to make southward deliveries.

### AGENTS WILL GO TO SCHOOL

Calcasieu Parish Agricultural Agent Charles C. Collet announced that he and agents of several nearby parishes will leave shortly to attend the second annual agricultural economics school at Camp Grant-Walker, Pollock.

Carroll B. McCall, Cameron Agent, will take with him Mr. Collet, R. E. Welborn of Beauregard and L. O. Murrell of Vernon.

#### FLOOD INSURANCE

Flood insurance for Cameron Parish should become a reality by next year according to State Rep. Conway LeBleu of Cameron, who attended the legislative hurricane protection study committee meeting in New Orleans last week.

Under the flood insurance program adopted by Congress recently, a parish or county can

qualify for the government subsidized insurance by having the area designated by the state legislature as a storm protection zone.

LeBleu said he understands that the flood insurance will be offered first on homes with rates of 40 cents per \$100 being considered.

The Cameron representative was author of a bill a few years ago to make storm insurance available in the coastal area. However, he said the rates charged by the insurance companies have been so high that the insurance has not been practical.

#### NO BIDS ON BONDS

The current uncertainty in the bond market was felt in Cameron Parish this past week when the East Cameron Port, Harbor and Terminal District failed to receive any bids on its \$1 million worth of Mermentau River improvement bonds.

The reason why no bids were received was because the district had specified that no bid of more than six percent interest would be considered.

## Final seasons set in state for waterfowl

The Louisiana Wildlife and Fisheries Commission issued a declaration of emergency to finalize Waterfowl Hunting Season dates for 2002-2003 at their September 5 meeting. The dates are based on frameworks set by the U.S. Fish and Wildlife Service Office of Migratory Bird Management. The only change from the tentative dates proposed at the commission's August meeting was related to the rail and gallinule seasons, which were extended one week later in January.

The season dates are as follows:

DUCKS AND COOTS (EXCEPT PINTAIL AND CANVASBACK)

WEST ZONE: Nov. 9 - Dec. 8 (30 days) Dec. 21 - Jan. 19 (30 days)

EAST ZONE (including Catahoula Lake): Nov. 16 - Dec. 1 (16 days) Dec. 14 - Jan. 26 (44 days)

PINTAILS WEST ZONE: Nov. 9 - Dec. 8 (30 days)

EAST ZONE: Nov. 16 - Dec. 1 (16 days) Dec. 14 - Dec. 27 (14 days)

CANVASBACK STATEWIDE: Closed YOUTH WATERFOWL WEEKEND

WEST ZONE: Nov. 2-3

EAST ZONE: Nov. 9-10
