Request For Public Comment
On A Proposed Air Permit
Modification
Natural Gas Pipeline
Company Of America
Compressor Station No. 347
Lake Arthur, Cameron
Parish, Louisiana

Natural Gas Company of America, 701 East 22nd. Street, Lombard, Illinois 60148-5072 proposes to modify their Compressor Station No. 347, by reducing the operating time of the compressor from 8736 hours per year to 7200 hours per year.

Proposed emission changes in tons per year resulting from modifications are listed below:

| Pollutant | Before | After | Change |
|---|---|---|---|
| PM$_{10}$ | Neg. | 0.07 | + 0.07 |
| SO$_2$ | 0.01 | 0.01 | 0.00 |
| NO$_x$ | 116.50 | 95.76 | -20.74 |
| VOC | 0.80 | 0.65 | - 0.15 |
| CO | 6.50 | 5.40 | 1.10 |

Natural Gas Company of America's (NGCOA) Compressor Station No. 347 is a minor source of toxic air pollutants. The Air Quality Division, Louisiana Department of Environmental Quality, has reviewed the application and has made a preliminary determination of approval. This permit modification will include a federally enforceable condition limiting the compressor operating time to no more than 7,200 hours per year so that the potential to emit NO$_x$ remains under the 100 tons per year Title V major source threshold. For 30 days from the date of publication of this notice, the public is provided the opportunity to comment on NGCOA's proposal.

A copy of the submittal by the applicant, and the proposed draft permit are, available for inspection and review at the Office of Air Quality and Radiation Protection, Air Quality Regulatory Division, 7290 Bluebonnet Boulevard, Baton Rouge, Louisiana; and the Cameron Parish Library, P. O. Box P-Marshall Street, Cameron, LA 70631-2016.

Written comments on this project may be submitted to the Administrator, Air Quality Division, Post Office Box 82135, Baton Rouge, Louisiana 70884-2135. It is requested that all correspondence specify Review Number R-15607. All comments received will be considered prior to a final permit decision.

## HOSPITAL
## Cont. from Pg. 1

He was brought to Dr. Richard Sanders, the parish's only doctor at the time and that June, 1994, diagnosis of a badly infected ear was confirmed in consultation with an ear, nose, and throat specialist at University Hospital.

This has saved at least a 50 mile trip into lake Charles to the closest specialist, in addition to a lost day of school or work.

A telemedicine examination is not as complicated as you might imagine, according to the program's director.

If your doctor decides a television visit to a specialist is warranted, the telemedicine nurse will check vital signs and you will be seated on an examining table in front of a video camera with two screens. One will show you in the suite and other will show you the specialist, which is the same thing he will see.

During the examination you will be able to see and carry on a two-way conversation.

A palm sized dermatology camera can be placed on a person's body to produce amazingly clear close-up images. The camera is so sensitive it can see better than the human eye, penetrating seven cell layers to project images of blood veins.

A micro-camera can be attached to various scopes by which the doctor can obtain close-up images of the eye, and inner ears. The average exam by a specialist lasts 30 minutes.

**The first official American Flag, the Continental or Grand Union Flag, was displayed on Prospect Hill, January 1, 1776, in the American lines besieging Boston.**

## Waterfowl seasons are announced by LDWF

Duck numbers have increased an estimated 5 percent above lst year and 16 percent above the long-term average. That's good news for Louisiana waterfowl hunters, who will have 50 days this winter to take advantage of the abundance.

The Louisiana Wildlife and Fisheries Commission accepted recommendations from Department of Wildlife and Fisheries biologists for setting the 1996-97 seasons for ducks, coots, and geese. The recommendations are made based on a framework set by the U. S. Fish and Wildlife Service (USFWS) Office of Migratory Bird Management. The USFWS noted a national increase in breeding population estimates of all ducks due to favorable habitat conditions in 1995 and good to excellent habitat conditions throughout most of the surveyed area in 1996.

This year's fallflight counts are estimated at 83 million ducks, up from 77 million last year. Seven of the 10 duck species most popular with Louisiana waterfowl hunters are at or near record high levels. This is the third consecutive year that these key species have experiences an excellent breeding season.

Basic bag limits and number of days for 1996-97 will remain the same for ducks as last year. There are some changes in store for Louisiana waterfowl hunters, hwoever, These include an extra redhead duck allowed as part of the daily bag limit of five ducks and an increase in the possession limit for blue and snow geese. In addition, hunting season dates for white-fronted (specklebelly) geese are slightly different from those set for blue and snow geese. This year, daily bag limits are separate and 10 snow or blue geese may be taken in addition to two white-fronted geese for a total daily bag limit of 12.

The Commission also declared Sat., Dec. 7, 1996, a statewide youth duck hunt day for youngsters 15 years old and younger. Certain details of the hunts, including approval by the U. S. Fish and Wildlife Service, are to be finalized and will be published at a later date.

The Commission accepted the following proposed recommendations:

Ducks and Coots: West Zone: Nov. 9-Dec. 1; Dec. 21-Jan. 16. East Zone: Nov. 23-Dec. 5; Dec. 14-Jan. 19; Catahoula Lake Zone: (Includes Round Prairie, Catfish Prairie, and Frazier's Arm), Nov. 23-Dec. 5; Dec. 14-Jan. 19.

Shooting hours: One half hour before sunrise to sunset statewide.

Daily bag limits/Ducks: Five. May include no more than four mallards (no more than one of which may be a female), three mottled ducks, one black duck, two wood ducks, one pintail, one canvasback and two redheads.

Daily bag limit/Coots: 15.

Daily bag limit/Mergansers: Five, only one of which may be a hooded merganser. Merganser limits are in addition to the daily bag limit for ducks.

Possession limits for ducks, coots and mergansers are twice the daily bag limit.

Geese: Blue and snow geese: Nov. 9.-Feb. 23 statewide. White fronted geese: Nov. 9-Dec. 8 and Dec. 21-Jan. 29, statewide.

Shooting hours: One half hour before sunrise to sunset.

Daily bag limit/blue and snow geese: 10; white-fronted geese: two.

During the Canada goose season, Jan. 21-19, the daily bag limit for Canada and white-fronted geese is two, of which not more than one may be a Canada goose.

Possession limits are 30 for blue and snow geese and four for white-fronted geese.

Canada Goose Season: Jan. 21-29. Shooting hours are one half before sunrise to sunset.

The Canada goose season will be open statewide except in a designated area of Cameron and Vermilion parishes. The exact boundaries of the closed area are described in the waterfowl hunting pamphlet.

A special permit is required for everyone, regardless of age, to participate in the Canada goose season. This permit may be obtained by mail or in person at all seven LDWF Wildlife Division District offices. A non-refundable $5 administrtive fee will be charged.

Return of Canada goose harvest information listed on permit is mandatory. Failure to submit this information to the LDWF by Feb. 15, 1997, will result in the hunter not being allowed to participate in the Canada goose season next season.

## SCHOOL BOARD
### Cont. from Pg. 1

stitute secretary in the office at that time, Kershaw said there was, and Vidrine said there wasn't. Vidrine also said that he had timed a registration by his secretary that took only 30 minutes.

Kershaw said that about half of the registration time was taken up by giving the mother a tour of the school and introducing her to the teachers, since she was very concerned about the children transferring into a new school, then he showed her the way to the parking lot.

Kershaw said that he was doing his job the same way he had been doing it for 15 years. Vidrine said it is not customary to show parents around the school. Kershaw disagreed.

"Some people talk more than others, and this parent was very concerned", Kershaw said, "and we had to complete three files."

Veazy pointed out that all observations were satisfactory in Kershaw's folder since 1976, and now he has this deficiency report. He also said that Kershaw was denied due process because the administrators had taken so long to act on the matter.

Sanner and Veazy spent a lot of time arguing back and forth over what was admissible during the hearing. Only the events of that certain date were allowed.

**EXECUTIVE SESSION**

The school board asked that there be an executive session of the board with the two parties and their lawyers, to which Kershaw agreed.

After a two hour closed door conference, a compromise was reached. However, Board President Bill Morris said he could not divulge what the settlement was, just that it was satisfactory to both parties.

The original suit asked that the bad observation be pulled from Kershaw's file.

Kershaw said after the hearing that he was pleased with the outcome, as long as the board would do what it said it would.

Kershaw has been on a one year sabbatical leave since January because of health problems.

**COMMENDATION**

In other business the board commended Shawn Authement, a senior at South Cameron High School, for placing eighth on the national test on business calculations at the National FBLA Conference in WAshington, D. C. He also placed second in the state. He was accompanied to the meeting by his teacher, Sandra Heshen, and his parents.

**TRANSPORTATION POLICY**

Supervisor Ron Vining gave a report on the Student Transportation Policy that is to be considered at the September meeting.

"It is being revised to bring it more in line with state requirements," he said. "All bus routes will be reviewed and some changes will be made, one is three-tenths of a mile between stops."

He also reminded the board that the bus fleet is getting old, with 71 percent over 10 years old.

Judy Jones, supervisor, explained the proposed policy on Internet usage, which will also be considered in September.

Glenn W. Alexander, District Attorney, gave a report on litigation between the Cameron Parish School Board and Gamma Corp., Inc., and said that Judge Fontenot had thrown out the case.

The company will be notified to stay off the hunting lease and remove no more property on the land, which was put there in violation of board policy.

The board also approved the revision to the student tobacco use policy, and accepted the results of the election on July 20, to authorize a special tax.

**PRAYER POLICY**

The board adopted a policy on prayer in the schools that they received at the July meeting.

**MINERAL LEASES**

Mineral lease approvals went to: marshland Production Co. for Section 43-15-5, a 3 acre lease for $1032; and 100 acres on Sec. 16-15-5.

A bid on 100 acres on N/2 of SE/4 of Section 16-14-3 was rejected due to the fact that the $10,000 bid from Cameron Meadows was too low, and that it was submitted with an improper check.

Surface leases went to: Bruce Britt, Alexandria, Section 16-12-6 for $2,178; Sec. 16-13-10 Joseph R. Suarez, Hackberry, $12,000; Sec. 15-14-12, Joseph Soileau, Creole, $3,000; Sec. 16-14-10, 47 acres to Lloyd Hoover, Shreveport, $95; Sec. 16-15-15, Charles Britton, Bunkie, $3,151.

The board approved revisions to policies on suspension and expulsion, brought about by Act. 74 of the Louisiana Legislature regarding weapons in vehicles, that school officials have total discretion in the control of this.

Approved a request from Richmond Resources, Ltd., to assign all rights, title and interest in and to oil, gas, and mineral leases in Sec/4 of Section 16-15-14 containing 160 acres to Alma Energy Co.

In the personnel report the board hired Wayne Welch as a janitor at Hackberry High School.

They received the resignation of Kim LaRacca, a teacher at Cameron Elementary School, effective July 16, 1996.

They approved unused sick leave to Sherre Doland.

They approved leave for military reserve duty from James Ray, teacher at Hackberry High, effective Dec. 20, 1996.

They approved a leave of absence without pay for Marlene Richard, secretary at Hackberry High school for the 1996-97 school session and approved the advertising for a temporary replacement.

The date of the September board meeting was set for Sept. 11.

# Dysons remembered through B & B's name

By GENEVA GRIFFITH

Although both are now deceased, Alvin and Allie Dyson, for whom the new Dyson B & B is named, long will be remembered in Cameron Parish.

Alvin Dyson was born in 1904 at Pecan Island. He operated a cotton gin for 12 years for Jones Wilde in Abbeville before moving to Cameron when he managed the Miami Corporation property, in the vast marsh south of the Intracoastal Canal.

He oversaw the surveying of the entire Miami Corporation land and parcelled it into sections to be leased for trapping.

The family moved to Cameron in May, 1935, to one of the late Sam LeBouef rent houses that stood where the Calcasieu Marine Bank is now located

In 1938 Mr. Dyson opened the Dyson Lumber Supply Co. and built their first home in the Dan Roux subdivision.

He and his wife were part owners of the first shrimp house to open in Cameron, which was later sold and became Cheramie's Fish Co.

Mr. Dyson was elected to the Louisiana Legislature in 1952, and served under Governors Kennon, Davis and Long.

He played a major role in extending and developing the parish road system, which made it much easier to go north to Lake Charles and Hackberry.

He and the late Joe Doxey played a major role in the Hug The Coast Highway which ran from Pecan Island and west through Johnson Bayou across a bridge, to Jefferson County, Tex.

He helped replace cable ferries with pontoon bridges across the Intracoastal Canal, which at that time was a great improvement and helped in the acquisition of the 50 car ferry in Cameron that replaced two smaller ferries that were previously needed to get across the Calcasieu River at Cameron.

When Hurricane Audrey hit Cameron June 27, 1957, the task of rebuilding fell doubly hard on his shoulders, for not only did he have his own house to rebuild, his business to re-establish but his job as state Representative put him in the thick of the efforts to rebuild the parish.

The Dysons son, Larry, and daughter, Lynn, lived in the upstairs office of the lumber company until their home was built. The hurricane had gutted the lower floor from the mad rush of water, but the upstairs stayed intact.

Buildings around Cameron constructed by his firm include the parish library, Health Unit, Police Jury Annex, the building presently occupied by the post office and Delauney's Drug Store, and St. Eugene Catholic Church in Grand Chenier, South Cameron Hospital in Creole, South Cameron Elementary School on Oak grove, and the gym at the old Audrey Memorial High School, now occupied by a part of the South Cameron hospital system.

## ACT scores are told for the parish

Cameron Parish students had a composite score of 18.2 on the 1996 ACT test, just slightly lower than the state average of 19.4, it has been announced by Cecil Picard, state superintendent of education.

The national composite score is 20.9.

Louisiana has the third highest percentage (73%) of graduates taking the ACT in the country. This broader group of students tends to disperse scores in a wider range than a state where only 2 or 8% of graduates take the ACT. Picard said, "Improvement in ACT scores is desired for our children and Louisiana must increase the efforts toward improving student performance in all academic areas."

A pilot program to assist those districts with ACT scores two or more points below the state average is underway, he said. This program is in its second year and another year will be needed to determine if improvements take place in student performance on the ACT.

Some districts are initiating actions to improve student performance on the ACT also. For example, Calcasieu began an effort four years ago and has seen marked improvement in student scores.

### New program

A program designed to serve the needs of high risk four-year-old children is planned for Cameron Elementary School. The child must be four before Oct. 1, 1996 to be eligible. This program is funded through the Louisiana Quality Education Support Fund - 8(g).

Parents may call Delia DeBarge at Cameron Elementary School, 775-5518, after Aug. 19, 1996, to schedule a testing time for their child.

## Blood drive set for local man

By GENEVA GRIFFITH

The family of James (Brad) Trahan is organizing a blood drive for him to be held Fri., Aug. 23, at the police Jury Annex in Cameron, from 11 a.m. to 2 p.m.

The 27-year-old son of James and Patty Jo Trahan and his wife Gayla, live in Cameron with their children, Amber and Cody.

He was diagnosed with leukemia in January, 1996, and will undergo a bone marrow transplant in Methodist Hospital in Houston, Tex., on Aug. 23.

His sister, June (Junebug) Trahan, will be the donor and was found to be a perfect match.

The blood donated during this drive will be sent to Houston and any that is not needed for Brad will be sent to Life Shares in Lake Charles, formerly the Louisiana Blood Center of Southwest Louisiana.

Any type of blood will be accepted and anyone who cannot make the local drive can go by the Louisiana Blood Center on Ernest Street in Lake Charles to donate.

When donating there be sure to tell them you are donating for Brad Tahan.

The blood is desperately needed and the family will be so grateful for everyone who helps.

## Judge candidate is Lions speaker

By GENEVA GRIFFITH

Appellate Court Judge Jeannette Theriot Knoll, a candidate for Supreme Court judge in the Sept. 21, election was the guest speaker at the weekly meeting of the Cameron Lions Club.

The Supreme Court Judgeship district includes 11 Louisiana parishes, and will be for a ten year term.

She was introduced by Judge Ward Fontenot who pointed out that Judge Knoll was the first woman ever elected to the appellate court judgeship in Louisiana in 1982.

Knoll said that there is a serious issue of integrity facing this election, and warned the voters to be very careful in their vote, for the term of office is for ten years.

In other business, George LeBouef reported that he has been doing some research on the proposed road from Cameron to Big Lake through the marsh, and found that in 1970 the Federal Government had set aside $12 million to construct the highway, but the Federal Wildlife and Fisheries objected.

Ron Johnson reported that ambulance service will not be on standby in Cameron during the day, only at night, due to cutbacks at South Cameron hospital.

## District to borrow for water well

CAPITAL NEWS

The State Bond Commission has set the stage for Waterworks District No. 9 in Cameron parish to borrow up to $200,000 to drill a water well.

The commission last week approved the district's request to make an anticipation of avails loan with an interest rate no higher than 7.5 percent. The seven-year loan would be repaid from the proceeds of the 5.69-mill tax which voters approved at an April 1993 election.

According to the request summary prepared for the commission by its analyst Steve Dicharry, the millage brings in about $169,000 yearly. State law allows a district to borrow up to 75 percent of its anticipated revenue, which in this case would set the annual debt limit at about $126,750. Since the district has no outstanding loans being paid from the millage and the anticipated debt service on the proposed loan of $28,500, it is well below its legal debt limit.

All local government agencies must receive Bond Commission approval before selling any bonds or incurring debt. Their proposals are reviewed by staff members of the state attorney general's office and the legislative auditor's office as well as the commission staff before being presented to the panel for consideration.

SHOWN ABOVE is the sample ballot for the special election to be held in the 25th Senatorial District on Aug. 24 to fill the vacancy created by the resignation of Senator Cecil Picard to become the State Supt. of Education. This is the ballot for Cameron Parish which is a part of the district.

# Senate vote is Saturday

Cameron parish voters will vote in a special election Saturday, Aug. 24 on a successor to Cecil Picard to fill the Senate District 25 seat.

Picard resigned from the position recently to become the state's new superintendent of education.

Senate District 25 includes all of Cameron Parish and parts of Calcasieu, Jeff Davis, Acadia and Vermilion parishes.

There are six candidates:

Suetta "Sue" Fontenot, a 25-year practicing attorney and former 15th Judicial District Court judge from the Abbeville area. She is co-founder of Louisiana Takes A Stand, a statewide organization aimed at curbing drug abuse.

Mike Francis, 49-year-old businessman from Crowley who is president and owner of Francis Drilling fluids Ltd. and is currently GOP state chairman and a member of the Louisiana State Central Committee from District 42.

Stan Hardee, a 51-year-old businessman from Kaplan who owns Hardee Lumber Co. in Kaplan, Hardee Home Center in Gueydan and co-owns Vermilion Mortgage Co. Inc. of Kaplan.

Gary A. Hyatt, a 46-year-old businessman from Lake Charles who owns Gary Hyatt Investigations, authored the state law which licenses Louisiana private investigators and chairs the state Board of Private Investigator Examiners.

Jerald J. Saltzman, a 31-year-old field supervisor and oil industry salesman from Gueydan who has managed Hardee Home Center, Ryan's Family Steak House and Sonic and is active in the Gueydan Duck Festival Association.

Gerald "Jerry" Theunissen, a 62-year-old businessman from Jennings who is serving a second term in the State House, former manager of the Jennings airport and a decorated Vietnam combat pilot assigned to the Pentagon.

THE CAMERON PARISH Police Jury is to be commended to regularly mowing the grass and weeds along parish road, a practice that does not kill the flowers, cattails, etc. that add to the beauty of the highways. This is in contrast to the use of chemical sprays that is used on state roads that kill everything along the highways. (Photo by Geneva Griffith.)

WINNERS IN the Cajun French Music Festival's amateur accordion contest recently were, from right: Josh Landry, 1st; Kaleb Trahan, 2nd; and Garrett Judice, 3rd.

## Jobs are increased slightly in parish

-CAPITAL NEWS-

By the end of 1995, Cameron Parish was recording an average of 45 more jobs than it showed a year earlier, according to the state Department of Labor's latest report on employment and earnings.

The fourth-quarter report of average employment listed 3,343 jobs in the parish, up from 3,298 for the same period of 1994. Total wages for the period between Oct. 1 and Dec. 31, 1995, however, reached just over $22.6 million compared to $22.8 million for the same three months of the previous year.

The manufacturing sector accounted for the greatest increase in employment during the year, posting 84 additional jobs to bring average employment to 251 in the parish. The 24 new jobs in construction increased its number to 133, and an equal increase in agriculture, forestry and fishing brought its total to 34. Twenty-one extra spots in the public administration sector placed average employment at 205.

Most areas of employment listed declines between the fourth quarters of 1994 and 1995. Transportation took the hardest hit, posting a loss of 49 jobs for an average of 865 as 1995 closed. Eighteen fewer people worked in retail trade, where average employment for the three months was 266.

Wholesale trade dropped 17 jobs to record an average of 184. The service industries registered 13 fewer jobs, so average employment reached 845. Service industries include entertainment, repairs, engineering and accounting as well as legal, health and educational services. The mining sector, which includes oil and gas exploration, was down by eight to 522, and three fewer spots in finance, insurance and real estate banking put its average employment at 36 in the parish.

## Co-op holds programs on safety here

Jeff Davis Electric has inaugurated a School Safety Program to promote electrical safety to school age children. It consists of videos, demonstrations, electrical models and instructional lectures to teach students how to act around electricity.

Some of the topics discussed in the program are how electricity is made, how electrical accidents happen, water and electricity don't mix, dangers of substations, don't overload electrical outlets, don't climb trees close to power lines and don't fly kites near power lines.

Mike Heinen, director of Marketing and Safety for Jeff Davis Electric Cooperative says the program has been very well received.

The safety program has been presented to over 300 southwest Louisiana students at Johnson Bayou, Cameron Elementary, Elton Elementary, Grand Lake High School, South Cameron Elementary, Lake Arthur Elementary, Hathaway High School and Grand Chenier Elementary.

Jeff Davis Electric Manager Dale Landry said that the lessons learned from the safety program are important particularly during the summer when kids are alone at home or visiting friends where there might not be constant adult supervision.

SHAWN AUTHEMENT, South Cameron high senior, was honored by the Cameron Parish School Board recently for placing 8th on the national test on business calculations at the FBLA national conference in Washington, D. C. He placed second in the state. He is shown with his teacher, Sandra Heshian. (Photo by Geneva Griffith.)

## A Letter From Loston...

I keep seeing this proposal for a new road from Cameron to Big Lake that our police jury of Cameron Parish is seeking to build. As a citizen and resident of Cameron Parish for nearly 58 years and as a businessman for nearly 28 years, this is my personal view on this matter and some input from other businessmen from the Creole and Cameron area. I think that the folks of Cameron Parish need to get a better look at what's fixing to take place, as well as our local parish officials, at a situation that can only hurt Creole and Cameron.

Business owners of Creole and Cameron beware, if this road is built, we'll bury Creole, but we won't close the hole, we'll just make it bigger because it will kill Cameron as well, and they will join Creole and maybe we can build a memorial at the burial site, maybe we can build a memorial plaque at the site, and put the names of all the local businesses of Creole and Cameron that died, and maybe save places for a few land owners who won't be able to pay their property taxes.

First of all, I don't think this road is being built for an evacuation route, as we have good roads to get out of our parish, and with the new radar and up to date equipment we have, our warning for a hurricane gives us plenty of time to get out. I think this is more of a political route that maybe some our police jurors would like to have, to have a big name and help their community up north of us, but at the expense of Creole and Cameron businesses and land owners.

What we will see happen is the towns of Creole and Cameron go down to ghost towns, while others benefit.

It will only take 20 to 30 minutes to get to Lake Charles, if that long. We'll see no traffic through Creole, but plenty of traffic to Cameron, but lots of that traffic will be going north to buy goods that Cameron businesses will lose.

Businesses that will lose and the grocery stores, auto parts stores, hardware and lumber stores, our restaurants, cafes, motels and other businesses. How, you say? People from Cameron will go to Lake Charles more often as it'll only take a few minutes to do their grocery buying, to eat at the choice restaurants and cafes in town, buy their auto parts, hardware, lumber, buy their gas as it is cheaper because we pay 4 to 5 cents a gallon freight for transportation costs, and visitors will do the same even to sleep in the Lake Charles motels.

We now see our oil companies leaving, do we really think the supply companies and others will stay here in Cameron and pay the high land and rental costs with just a short drive away. What will happen to our local employees, if companies come from Lake Charles, there will be Lake Charles folks driving and delivering.

If we see businesses close, oil companies move out, this means unemployed Cameron folks, which means they will have to move north to find work, again less money spent to those fortunate businesses who may be able to stay open.

Think of what our local businesses pay for high priced insurance, because of high winds and flooding gulf waters, just to do business in our parish. If we lose business because of this road, how can we pay for our parish taxes and insurance policies? Let's also look at our parish governing bodies who depend on our taxes and those of the oil companies.

We passed extra taxes for our garbage. v ater, fire, sewerage, scho. .., sheriff, hospital, ambulance. If we lose businesses and companies, who is going to pay these taxes? Look at the younger people who are leaving our gulf coast towns and moving north because of high elevation requirements for houses, again lost business and then the land owners pay.

Look at the large oil companies and boat companies who pay their taxes under protest and the money goes into escrow. What if the small businesses and land owners of this parish did the same, how would our parish bodies function? Oh, don't forget our Mosquito Control taxes. Surely these lost revenues of taxes will not come from Calcasieu Parish.

To our Police Jury, you better start thinking of your children and grandchildren, especially if they want to work and live in Cameron Parish. Consider the folks who voted for you and the business folks who voted for you. Don't we see money trouble in our school system, police jury system, our hospital and ambulance services? When you get into trouble, you pass a tax, when we as business folks get into trouble, we are at the mercy of the banks and gamble that we can pay off our loans on time and not lose on a mortgage. When a new tax is passed, we as business folks have two choices, pass it to our customers or eat it, and with price competition today, we have to eat it.

It's enough we have to bid lots of our merchandise against large Calcasieu Parish businesses, where if we lose we lose our sales, and if we win the bid we cut our profits so low it's not worth the trouble. Now, these out of parish businesses who get these bids don't pay our local taxes and they surely don't send any of our Cameron Parish business bids from their parish.

Look at the roads we now have, some are in real good shape, some are in bad shape and some will need repair in the next couple of years. This will all cost money, so why spend millions of dollars on a 9 mile road when we can keep this money to repair the roads we now have or use new monies to modernize the roads we now have. Why stop trying to get a bridge over the ship channel, something that would tie our east and west parish together and help the town of Cameron instead of killing it.

We as citizens and businesses of Cameron Parish vote for your taxes because we are promised things from our governing bodies, but these promises don't hold true. You say go to the meetings, well I've been to some of your meetings, and yes, promises were made, but I guess I was lied to, as just the opposite happened.

I do respect our public officials and I know they have a tough job and get criticized by many, but for one time in your public career, stop and think of the harm you're going to do to Creole and Cameron businesses. As for serving the public, we as business folks know the public and we need the public to make our living, not their vote to stay in office.

Have you ever thought of the harm to wetlands that a hundred feet wide for nine miles will do? What about the count of animals, alligators and birds that will die from automobiles and trucks. We as citizens have a hard time to get a new culvert or cattle walk put in, unless we go through a bunch of red tape and then most of the time get turned down. We can't even get a mud boat trail on our own property, cleaned or dig dirt on our own property to build a mound for our children's houses to try and keep them in our gulf coast parish. What about the habitat we'll lose for our wildlife, birds and animals and waterfowl?

I think you should think this over, as too much is to be lost and not near enough to be gained. Compare the good with the bad.

I, as a business person who will be hurt, have finally got out of debt, yes it took me 28 years and I am now looking at the new regulations for gas tanks. This is a $70 to $100 thousand dollar investment, being close to retirement age, I don't think it's wise to get back into debt, just like I don't think it's wise for this road to be built, the cost effect is too great.

Respectfully,

## Doctor's discovery may end obesity

HILTON HEAD, S.C. -- A doctor has discovered that an ingredient found in a small fruit grown in Asia, combined with an ingredient praised by the U.S. Department of Agriculture can help cause significant weight loss.

In a study published in a prestigious American medical journal, Dr. Anthony A. Conte, M.D. reported that the formula, now called Bio-Max 3000, caused patients to lose more than twice as much weight as a control group on the same fat reduced diet. Neither group was instructed to decrease the amount of food they ate or to increase their exercise levels. An article published in the *American Journal of Clinical Nutrition* confirms that you don't have to reduce the amount of food you eat to lose weight, provided that you limit the fat.

Scientists suggest that the mechanism behind the weight reduction includes decreasing sugar cravings and interruption of the "Krebs Cycle", an important step in the body's fat storage process. "The best part of this unique discovery is that it is not a drug, but a safe dietary food supplement" says Dr. Conte. The Asian fruit, called garcinia, is similar to citrus fruit found in the United States with one big exception-- it may help some people fight obesity! While Dr. Conte's study may be preliminary, the exclusive North American distributor, Phillips Gulf Corp., is calling the Bio-Max 3000 supplement "Nature's Ideal Diet Aid."

According to a spokesperson for the company, Bio-Max 3000 is now available on a limited basis through pharmacies and nutrition stores or call 1-800-729-8446.© 1995 Phillips Gulf Corp

A GOLDEN JUBILEE

Fifty years ago in the summer of 1946, I began my career as a lawyer by entering Louisiana State University Law School.

Because I liked this sportsman paradise, it was easy to return and open a law office in Cameron Parish where the hunting and fishing has been great .... but the best is the wonderful people!!

Your kindness in favoring me and my family with your legal business has been for us a mountaintop experience. Thank you so much!!

We look forward to the next 50 years.

Sincerely,

JENNINGS B. JONES, JR.

### THE RAINS CAME

As they say, the rain finally came. It seems the Creole area, especially East Creole area, had somewhere between 7 and 9 inches while Grand Chenier had 4 to 5 and the western part of the parish in some places had the same or less. I do know it'll sure help out the alligator people. Many are running trails and even with the water level up, floating turfs in the ditches and growth of grass and wild rice in the ditches, some places are hard to get through. This will also help for our next month's teal season.

### COMMERCIAL FISHING NEWS

If everything goes right, the Calcasieu and Sabine Lake oyster season (tonging area) will open one half-hour before sunrise on Oct. 16, 1996, and close one-half hour after sunset on April 30, 1997. This could be delayed or changes made if the Secretary of the Department of Wildlife and Fisheries needs to take emergency action.

The fall inshore shrimp season opened at sunrise last Mon., Aug. 19, in all three of our state's inshore shrimp management zones. Closure dates are sunset Dec. 15, 1996, except Breton and Chandeleur Sounds, which will close April 1, 1997. Again, the secretary can change closing dates if needed.

There is a challenge in Chinatown in the San Francisco area, where they sell live animals and poultry to eat. This also includes fish and turtles. For generations this is a way of life of choosing and seeing live what you buy to eat, and it's fresh. The activists are trying to stop this.

What really hurts is to see things like over 22,000 pounds of shrimp, 200 redfish, cobia and flounders found on a fishing vessels for an out of state commercial fishermen without licenses, illegal possession of fish, operating a boat drunk and drug possession, or 61 cited for shark violations. LDWF officers found 1.3 million pounds of harvested shark not reported to the department, which was worth $1.4 million. Then you'll see sports anglers or hunters violating the fish and game laws. All this is fitting right into the activists playing hand.

### FISHING NEWS

Some big fish were caught out of Lacassine Refuge last week, with Darren Thibodeaux and Todd Morales catching some over 6 and 7 pounds. Miami Corporation permit fishing is still about the same with a few nice stringers reported. A reminder - the Big Burn and Miami permit fishing will close Aug. 25, at sundown for the year. Alligator hunters are preparing to hunt and of course, teal season will open next month also.

A Baton Rouge anglers won the 9th annual Calcasieu River Big Bass Bonanza last week with a 5.47 pounder. Second place was 4.74.

A Fourchon angler fishing at rig 185 on the South Timbadien Field off the Louisiana coast caught a 50 pound 4 ounce red snapper which is a world record. The girth was 3 feet and a little over 3 feet long. This sow snapper beat the previous world record of 46 pounds 8 ounces, which was caught out of Destin, Fla., in 1985, by nearly 4 pounds, and at the same time beat the old Louisiana red snapper record of 39 pounds 10 ounces. This Louisiana record was caught in June '94.

Everyone is now wondering if the 46 year old speckle trout Louisiana record can be broken. In May 1950, a 12.37 trout set the state record and it still stands. The top 10 hasn't seen a new entry in 17 years. The last entry was a 10 lb. 10 oz. caught in May, 1979, and eight of the top ten trout were caught in the 1970's.

### HUNTING NEWS

I have not talked to a duck or goose hunter who is not happy and satisfied with the 1996-97 migratory season and limits set. Fifty days and 5 ducks and a closure later in January (16th), made duck hunters happy. What really got to me was the goose season. Blue and snow geese Nov. 9 to Feb. 23; Speckle belly, Nov. 9-dec. 8 and Dec. 21-Jan. 29. This is all statewide. The daily bag limit on blue and snow is 10 daily and possession limits are 30. Speckle belly daily liit is 2 and possession is 4.

Duck and coots - West Zone - Nov. 9-Dec. 1 and Dec. 21-Jan. 16. Five ducks, no more than 4 mallards, only one can be a female, three mottled ducks, one black duck, two wood ducks, one pintail, one canvasback and two redheads. A good combination to make five. Coots, 15, mergansers 5 for daily bag limit. Only 1 hooded merganser. Possession limits for these are twice the daily bag limit.

### FEEDING PERIODS

Best: Fri., Aug. 23, 7 a.m .and 7:25 p.m.; Sat., Aug. 24, 7:50 a.m. and 8:20 p.m.; Sun., Aug. 25, 8:45 a.m. and 9:15 p.m.

Good: Fri., 1:15 p.m.; Sat., 1:40 a.m. and 2 p.m.; Sun., 2:45 a.m. and 2:55 p.m.

# Tarpon football team to travel to Ville Platte

By JOE MUELLER

The 1996 South Cameron Tarpon football team will be on the road Fri., Aug. 23, traveling to Ville Platte to scrimmage with Sacred Heart and Kinder.

The Tarpons, who are looking to make the state playoffs, have been working out since early August. Last week the team and coaches worked out at Lamar in Beaumont, Tex.

The Tarpons, who were very young last year, compiled a 4-5 record. They will run basically the same offense and defense as last year.

The Tarpons return six starters on offense and seven on defense.

Following the scrimmage Friday, the team will have three days of practice to get ready for the Iowa Jamboree which will be held Thurs., Aug. 29.

South Cameron will face Iowa in the Jamboree, while other Class 2A teams in the Jamboree will come from Vinton and DeQuincy, who will face JV teams from Barbe and Sulphur.

The Tarpons open the regular season on the road at DeQuincy on Friday, Sept. 6. The Tarpons first home game is Sept. 13, when the Vinton Lions come to Creole.

The Tarpons first district game is at home on Oct. 11, against North Vermilion.

Head Coach Parry LaLande has 118 victories in his 14 years as head coach at the Cameron Parish school.

The Tarpons have four all district players returning in Chad Bridges on offense and Scotty Brown, Willard Pruitt and Brandon Conner on defense.

### 1997 TARPON SCHEDULE

Nov. 1, Iota, home
Nov. 8, Welsh, away.
All games start at 7 p.m.

# Football team practiced at Lamar University

By JOE MUELLER

The South Cameron Tarpon football team is busily preparing for the 1996 football season. The Tarpons have worked out at Lamar in Beaumont and are getting ready for Head Coach Parry LaLande's 15th year. He has been head coach 14 years and has compiled an 118-45-1 record. He has taken the Tarpons to the playoffs ten times.

Last year's Tarpon team compiled a 4-5 record and were 3-2 in District 6AA.

Other teams in District 6 are Notre Dame, Lake Arthur, Iota, North Vermilion and Welsh.

The Tarpons have six returning starters on offensive, four linemen and two backs. The starting lineman are Scotty Brown, Ryan King, Derrick Vaughn and Chad Bridges. The backs are quarterback John Pradia and tailback Brandon Conner.

On defense the Tarpons return 7 startes, 3 linemen, two line backers and two corner backs. They are Paul Davidson, Scotty Brown, Steve Moreau, Willard Pruit, Vito Martarona, Brandon Conner and Cory Broussard.

The Tarpons assostant coaches are Baron Thomas, Pete Picou, Edward Cormier and Stevie Burnett.

The Tarpons will scrimmage next week at Sacred Heart in Ville Platte.

They will play on Aug. 29, in the Iowa Jamboree and will play Iowa. Other teams in the Jamobree are Vinton and DeQuincy, who will play JV teams from Sulphur and Barbe.

The Tarpons open the regular season on the road at DeQuincy on Sept. 6, and play their first home game Sept. 13, against Vinton.

Garner Nunez; standing, are Co-op attorney Wendell Miller, Joseph L. Tupper, Webster James Todd, Jr., Robert Sarver, Charles Hackett and General Manager Dale Landry.

# Co-op holds annual meeting

Over 500 members of Jefferson Davis Electric Cooperative and their families heard good news at the cooperative's 1996 annual membership meeting held July 8, at the VFW Hall in Jennings.

Dale Landry, general manager of Jeff Davis Electric, told the membership that 1995 was a year of growth and lower rates.

"Positive things are happening," said Landry. "Jeff Davis Electric is experiencing growth and is investing in the system so that we can continue to provide quality electric service to our members in Allen, Calcasieu, Cameron, Jefferson Davis and Vermilion Parishes."

Jeff Davis Electric Board President Eugene Todd, credited the management and employees of the system improvements and thanked employees for their dedication in working with the board of directors to provide members with the best possible service at the lowest possible costs.

Incumbent directors Robert Sarver, Jennings; Louis Trahan Jr., Gueydan and W. F. Henry Jr., Cameron, ran unopposed for another term on the board of directors.

Also serving on the board are Eugene Todd, Welsh; E. Garner Nunez, Grand Chenier; Richard Byler, Lake Arthur; Charles Hackett, Lake Charles; Webster James Todd Jr., Bell City; and Joseph Tupper, Elton.

At the organizational meeting afterwards, the board elected officers for the coming year. Eugene Todd, president; E. Garner Nunez, first vice president; W. F. Henry Jr., second vice president and Louis Trahan Jr., secretary/treasurer.

## Violations of shark rules told

One hundred and seventy-five suspected violations of state shark permit and reporting requirements have been uncovered after a three month investigation by the Dept. of Wildlife and Fisheries.

According to LDWF Enforcement Chief Col. Winton Vidrine, investigators found that more than 1.3 million pounds of harvested shark were not reported by commercial shark fishermen. "Permit regulations require tht any sharks taken by thse fishermen must be reported to the Department," Vidrine said. "The loss of that data has a big impact on our ability to properly manage the species."

The Department uses information contained in the reports to generate management plans and maintain quota figures for state and federal resource management agencies.

The penalty for violating state shark regulations by failure to report harvested sharks is a fine of $250-$500 or jail for not more than 90 days or both.

Enforcement agents began contacting the suspects on the morning of Thurs., Aug. 8, and issuing citations for the alleged violations. Most of the fishermen are located in St. Bernard, Orleans, Jefferson and Plaquemines parishes. Some of the fishermen are non-residents from Mississippi, Virginia, Florida, Texas and New Jersey.

# Denny continues parish history

**(EDITOR'S NOTE--Following is a continuation of the early history of Cameron Parish which was given as an address on the occasion of the parish's Centennial some year's ago. Mrs. Denny, a native of Grand Chenier and a retired teacer, is generally recognized as the parish's unofficial historian.)**

By BERNICE DENNY

The earliest inhabitants of our present parish are believed to have been Indians of the Attakapas tribe. Although the Indian name is derived from a term meaning "man-eaters", it remains an unsettled question as to whether they were actually cannibalistic.

Comparatively large concentrations of Indians were found around the shores of Grand Lake, and particularly on Little Pecan. Burial mounds are also found on Little Chenier. Potsherds and arrowheads are found on all the cheniers, indicating that the Indian population must have been large and widespread.

It may have been that the Spanish explorers under Cabeza de Vaca touched at points along the Cameron coast. DeSoto's survivors most certainly landed on its shores on their voyage from the mouth of the Mississippi to the Spanish colonies in Mexico.

The pirate brothers, Jean and Pierre lafitte, were undoubtedly on the Cameron rivers and bayous and may have gone inland to build temporary camps on the wooded cheniers. A large brick vault uncovered at Grand Chenier in 1930 may have been built in which to secrete Lafitte's stolen treasure. A large oak with a square-cut hole through its trunk once stood on Mortis Island. It may have served as a guide in the location of buried wealth.

**FIRST SETTLERS**

Tradition tells us that the first white settlers in the area was a family bearing the surname of Phillips. They lived at the western end of Grand Chenier beside the bank of the Mermentau in a shack built of poles covered with palmettos. A lone Indian had attached himself to their household.

With the Indian's understanding of weather patterns, the native predicted several days in advance that a hurricane was imminent. He urged Mr. Phillips to seek the shelter of a "storm tree" for his family and himself. The white man, so the story goes, refused to follow the Indian's advice although the latter acted upon it.

The hurricane swept in, in all likelihood another Audrey. A number of Louisiana weather authorities pinpoint it as the disastrous one of 1824.

The white family drowned, as one might have foreseen. The Indian, securely lashed in his tree, remained there until the Gulf waters had retreated. Later he crossed marshes until he found other white people to whome he related the tragedy.

**NO MAN'S LAND**

As we have previously mentioned, the boundary between the United States and Mexico was not officially settled until 1819. The disputed area developed into a virtual "no man's land." Devoid of official supervision, it became a hideout for criminals. Even the most adventurous pioneer would not risk moving his family into its confines. After the Sabine River had been decided upon as the line of demarcation the federal government sent in officials to control the territory.

Pre-emption laws, similar to the Homestead Act passed by Congress in 1862, were in existence at the time. Many of the early immigrants to the cheniers availed themselves of these laws.

About the same time Congress passed a law to pay off the army veterans with land grants to the formerly reserved naval lands. The elderly and the middle-aged veterans had little desire to move westward. They sold their grants to speculators, who, in turn, sold to prospective landowners. The last stated fact may help to explain why so many early settlers were from the Atlantic seaboard states, including those of New England.

In the 1830's and 40's, a wave of migration from Virginia, the Carolinas, Georgia, Alabama, and Mississippi swept into the cheniers. Some also came from Texas, sojourners there for a few years after having left their original homes in some of the eastern or northeastern states. They were mostly of Celtic or Anglo-Saxon lineage.

**EARLY SETTLERS**

Among the earliest settlers were the LaBauves, who built in Oak Grove; the McCalls, first permanent settlers on Grand Chenier; the Smiths, Vaughans, Doxeys, Sweeneys, Joneses. Roots, Archers, Montets, Bonsalls, Staffords, Lindstroms, Armstrongs, McDonalds, Reids, Millers, Sturleses, Wetherills, Perrys, all of whom settled on Grand Chenier. The Broussards on Cow Island. James Welsh (Welch) arrived on the Chenier in 1846, and later moved to Oak Grove.

Other early names in the parish were Harrison, Rutherford, Roy, Doland, Wakefield, Donahoe, Eagleson, Erbelding, Nunez, Henry, Griffith, Gordon, Stewart, Murphy, Portie, Mayne, Gordy, Dick, Stine, White, Hulton, Mudd, Yocum, Peveto, Sells, Crains.

Later arrivals came [illegible] from the French of Louisia[illegible] the Meaux, Baudoins, Benoits, Theriots, Bertrands, Dupres, Dysons, Premos, Vincents, Laurents, Suires, Mhires, Richards, Landrys, Bertrands, Billedeaus, Trahans, Boudreaux, LeBoeufs, Maugets.

The 1870 records include families of Harpers, Baumgartners, Gilletts, Gillespies, Suttles, Durrs, Hales, Stansburys, Pevetos, Carrs, Calhouns, McShans, Chadwells, Simons, Fawvors and Peshoffs.

Still later came the Carters, Caniks, and Gruniks. I realize that I must have omitted many names. It is impossible to give them all.

It appears from old census records and from tradition that the cheniers in what is now Cameron were settled before the prairies to the north. That is understandable since the cheniers were more accessible to water travel, and the waterways were the great highways of that day.

CAMERON PARISH 4-Hers participating in the Louisiana Junior National Braford Show in Montgomery were, from left, Jarod Baccigalopi, Cody Fenetz, Toni Kay Nunez, Chance Baccigalopi, Lacye Baccigalopi and Cheyenne Boudreaux.

# Grand Chenier is described in 1921

(EDITOR'S NOTE--The following article was reprinted from the St. Louis Globe-Democrat 75 years ago by the Lake Charles American Press. It is interesting to note President Teddy Roosevelt's bear hunt in the area and also the guess by the writer that Grand Chenier and the Rockefeller Refuge might enjoy an oil boom, which it did some years later. The material was researched for the Pilot by Keith Hambrick.)

**(Lake Charles American Press, July 1, 1921)**
**"GRAND CHENIER"**
**(From the St. Louis Globe-Democrat)**

Not far from the southern extremity of the boundary line dividing Texas from Louisiana, a short distance east of that line, begins a stretch of wild country bordering the Gulf of Mexico and known as the Grand Chenier, an old honored French name conferred on that section in earlier days of the settlement of the Southwest.

The country is now almost as primitive as it was when, long before erection of Cameron and Vermilion parish governments under the laws of Louisiana, it came to be designated as Grand Chenier, first, in all probability, by some refugee from France driven out by some revolution which sent Maria Andrea Chenier to the guillotine in 1794.

All of that long, though not wide strip of land, almost entirely covered with heavy forests filled with great trees and trailing mosses, has lately become the property of the State of Louisiana, as a gift from the Rockefeller Foudnation, on the one conditon that it shall be forever maintained as a wild life rpeserve.

The country has been often shot over by hunters, and was included in Colonel Roosevelt's Southwestern bear hunt during his residence in the White House.

Grand Chenier embraces 35,000 acres. According to some geologists, it is in the line of a "dip" of the vein of petroleum which has made the Beaumont oil fields, not far away from the western end of Grand Chenier.

If, indeed, the 'dip" dips in that direction, the Rockefeller Foundation undoubtedly would be well advised of the fact, and the greater would be its credit for a sacrifice. Should the "dip" ever be proved, Louisiana will have no difficulty in meeting its obligation.

# Purple Heart Chapt. to be organized

An organizational meeting of the Military Order of the Purple Heart was held in Sulphur July 26, to organize a new chapter for Southwest Louisiana. National Headquarters in Springfield, Va. has designated 1996 as the Chapter number.

The first regular meeting of the Chapter 1996 will be at 2 p.m., Sat., Aug. 24, at the American Legion post 407, located at 912 John Stine Road in Westlake.

This meeting is for all members of the Military Order of the Purple Heart, or any combat wounded veteran who would like information on or about the order. For more information call Gene Allen at 625-5780.

Members present July 26, to organize a new chapter are shown above; from left: George Wells, Westlake; Raymond Horn, Rosepine; Joe Ben Jones, Monroe, State Chief of Staff; Cliff Hall, Sterlington, State Commander; Harris Landry, Iowa; Gene Allen, Sulphur, Acting Commander of Chapter 1996.

Chinese and Mediterranean navigators probably first used magnetic compasses to guide their ships in about the 1000's or 1100's. These compasses were simple pieces of magnetic iron, usually floated on straw or cork in a bowl of water.

## Car wash set by NAACP youth here

The youth of the NAACP chapter will hold a car wash Saturday beginning at 8:30 a.m. next to the Calcasieu Marine in Cameron. Funds will go to Reggie Goudeaux's campaign for NAACP King and to the NAACP scholarship fund.

## Readers like Dyson story

Dear Editor:

Congratulations and thanks to Geneva Griffith for the nice article about Mr. Alvin Dyson.

He did indeed work faithfully to improve transporation in Cameron Parish.

I remember him standing in our store in Grand Lake and telling Boone and I that although he may not live long enough to see a pontoon bridge across the Intracoastal here. He hoped that our children would benefit from the reality when it came.

He fought the good fight for us and he was an honorable man and deserves to be remembers kindly.

Thanks again Geneva, keep up the good work. Many thanks Jerry and Joy for publishing these portraits that reflect contributions to our well being in Cameron Parish.

## Mosquitoes are out in force here

By DON MENARD,
Director, Cameron
Mosquito Control

Cameron Parish Mosquito Control is in the midst of an unbelievably bad mosquito season. Since the drought ended in June, mosquito production has been extremely heavy and nonstop. Heavy rains of from 1-1/2 to over 5 inches are falling on a weekly basis and each time producing another large brood on top of the one already there.

To illustrate this, in July alone we sprayed over 1800 gallons of chemical just in the airplanes, which is what we spray normally in 6-8 months of an average year. All of our trucks and both airplanes are spraying almost every night and even under almost ideal weather conditions and getting great kills, reinfestation is so quick that often it looks like our spraying is ineffective.

Broods have been so massive and are migrating so much that landing rates of over 100 per minute of our salt marsh mosquitoes are being picked up as far north as Jeff Davis Parish.

At this record breaking pace, Cameron Mosquito Control is quickly running short of both money and chemical. In the last few "normal" years we were lucky enough to have ended up with surpluses, but we have already spent that. The only way we will be able to make it to the end of this year is to try to reduce the aerial spraying whenever possible and use the trucks more. Aerial spraying is many times more expensive than the truck spraying and we will have no choice but to keep it for those massive broods that have been occurring in some areas.

The public can also help. A good percentage of mosquito production is occurring in pastures and yards that hold water and if these were drained, the mosquito populations in the vicinity would be much lower. Almost all areas of the parish that we get our highest mosquito counts from are adjacent to areas that continue to hold water, thus producing huge amounts of mosquitoes for the neighborhood.

Please help by ditching those low areas so that they drain quickly after rains. Emptying all containers that hold water around the yard will help hold down those little nighttime mosquitoes that hang around the garages and doorways too.

As I write this, Tropical Storm Dolly is in the Lower Gulf and is expected to produce high tides and heavy rains in this area over the next several days. Unfortunately, this means another series of massive broods will occur in about a week. We have been working non-stop this entire summer and will continue to do so as long as mosquitoes are bad and we have chemical to spray.

We appreciate the patience that the public has had through this epidemic, and will do all in our power to keep mosquito populations as low as possible. Hopefully we'll get a dry spell soon and maybe an early winter.

AN OPEN LETTER TO THE VOTERS OF GRAND LAKE/SWEET LAKE

FROM REPRESENTATIVE GERALD "JERRY" THEUNISSEN CANDIDATE FOR SENATOR DISTRICT 25

It has come to my attention that inaccurate information is being spread about my support of the proposed "NOW" facility applied for in Grand Lake. Rest assured I DO NOT SUPPORT THIS FACILITY AND NEVER HAVE. I WILL JOIN YOU IN YOUR FIGHT TO PREVENT IT BECOMING A REALITY.

Here are the facts:

The bill referred to by Mr. Jones and Mr. Newman was introduced by Governor Mike Foster to prevent lawsuit abuse by individuals like the people who are spreading these untruths. This bill had the total support of the "Louisiana Farm Bureau" and the "Citizens Against Lawsuit Abuse". I joined them and other responsible Legislators because it protects the people of Louisiana.

The TAXPAYERS of Grand Lake worked with the Police Jury and other elected officials to shut this project down! After the fact, these same trial lawyers hopped on the "gravy train" so they could make money from other people's misfortunes.

The Louisiana punitive damage law, repealed in April, was a law that benefited trial lawyers first and the tax payers last! I have fought polluters from the first day I was elected and will continue to do so. I have always given my full support on the State's criminal and quasi-criminal laws that fine and punish those who recklessly pollute our environment. The repeal of the punitive damage law did not effect any of those anti-polluter fines or penalties. All are still 100% in place.

Nor did the repeal of the punitive damage law effect an injured person's ability to receive full compensation for their injuries. An injured person can still sue for all of their general and special damages which cover items like pain and suffering, loss of love and affection, past and future lost wages, past and future medical bills, property losses, etc. The repeal of the punitive damage law does not take any of those remedies away! An injured person can still get a damage award that will make him whole again, but punishing the polluters is left to the State.

Don't be misled with inaccurate statements and false rumors. I will continue to fight polluters and people who support lawsuit abuse. I ask for your support and vote on August 24th. My number is #155.

Sincerely,

Jerry

LEGAL NOTICE

STATE OF LOUISIANA, OFFICE OF CONERVATION, BATON ROUGE, LOUISIANA.

In accordance with the laws of the State of Louisiana, and with particular reference to the provisions of Title 30 of Louisiana Revised Statutes of 1950, a public hearing will be held in the Conservation Auditorium, 1st Floor, State Land & Natural Resources Building, 625 North 4th Street, Baton Rouge, Louisiana, at 9:00 a.m., on TUESDAY, SEPTEMBER 10, 1996, UPON THE APPLICATION OF GREAT SOUTHERN OIL 7 GAS COMPANY, INC.

At such hearing the Commissioner of Conservation will consider evidence relative to the issuance of an Order pertaining to the following matters relating to the P-4B Zone, Reservoir A, in the Cameron Field, Cameron Parish, Louisiana.

1. To establish rules and regulations and to create a single drilling and production unit for the exploration for and production of gas and condensate from the P-4B Zone, Reservoir A, and to force pool and integrate separately-owned tracts, mineral leases and other property interests within the proposed unit, with each tract sharing in unit production on a surface acreage basis of participation.

2. To provide that the Commissioner is authorized to reclassify the reservoir by supplemental order without the necessity of a public hearing if the producing characteristics of the reservoir change and evidence to justify such reclassification is submitted to and accepted by the Commissioner of Conservation.

3. To consider such other matters as may be pertinent.

The P-4B Zone, Reservoir A, in the Cameron Field, Cameron Parish, Louisiana, is hereby defined as being that gas and condensate bearing zone encountered between the electric log depths of 9,940 and 9,954 feet in the Great Southern Oil & Gas Company, Inc. Burton No. 1 Well (formerly the Solatex - Burton No. 1 Well), the surface of which is located in Section 26, Township 14 South, Range 10 West.

On A Proposed Air Permit
Modification
East Hackberry Production Facility
WRT Energy Corporation
Hackberry, Cameron Parish,
Louisiana

WRT Energy Corporation (WRT-EC), 1405 West Pinhook Road, Suite 210, Lafayette, LA 70503, proposes to modify their East Hackberry Production Facility by replacing the existing gas compressor units with more cost-effective packages.

Proposed emission changes in tons per year resulting from modifications are listed below:

| Pollutant | Before | After | Change |
|---|---|---|---|
| $PM_{10}$ | 0.17 | | 0.17 |
| $SO_2$ | | | |
| $NO_x$ | 38.68 | 83.23 | + 44.55 |
| VOC | 49.47 | 37.51 | - 2.72 |
| CO | 17.5* | 86.18 | + 68.63 |

WRTEC's East Hackberry production Facility is a minor source of toxic air pollutants. The Air Quality Division, Louisiana Department of Environmental Quality, has reviewed the application and has made a preliminary determination of approval. This permit modification will include a federally enforceable condition limiting the 315 hp Internal Combustion Engine to operate no more than 960 hours of operation per year so that the potential to emit NOx and CO remains under the 100 tons per year Title V major source threshold. For 30 days from the date of publication of this notice, the public is provided the opportunity to comment on WRTEC's proposal.

A copy of the submittal by the applicant, and the proposed draft permit are available for inspection and review at the Office of Air Quality and Radiation Protection, Air Quality Regulatory Division, 7290 Bluebonnet Boulevard, Baton Rouge, Louisiana; and the Cameron Parish Library, P. O. Box P, Marshall Street, Cameron, LA 70631-2016.

Written comments on this project may be submitted to the Administrator, Air Quality Division, Post Office Box 82135, Baton Rouge, Louisiana 70884-2135. It is requested that all correspondence specify Review Number R-16160. All comments received will be considered prior to a final permit decision.

PUBLIC NOTICE
CAMERON PARISH
PERMIT APPLICATION

Interested parties are hereby notified that the Cameron Parish Police Jury has received the following apparently complete application for an excavation permit in accordance with the Code of Ordinances Chapter 17 1/4, excavation permits for Cameron Parish Louisiana.

L.C.U.P. Application #960808

Name of Applicant: Rusty Guidry, 156 McCain Pond Rd., Lake Charles, La. 70607.

Location of Work: Sweet Lake, Section 24, T12S, R8W, Cameron Parish, Louisiana.

Character of Work: Excavate for two fish ponds measuring 170'x200'. To provide fill material and two fish ponds. There will be no discharge of fill material in a wetland. Approximately 15,762 cubic yards of fill material will be excavated and stored adjacent to the pond for future use.

The decision on whether to issue h permit will be based on an evaluation of the probable impacts of the proposed activity in accordance Police Jury Ordinance. The decision will reflect in the national concern for both protection and utilization of important resources. The decision must be consistent and must represent an appropriate balancing of social, environmental and economic factors. All factors which may be relevant to the proposal will be considered; among these are flood and storm hazards, water quality, water supply, feasible alternative sites, drainage patterns, historical sites, economics, public and private benefits, coastal wetland dependency, effects on natural features, compatibility with the natural and cultural setting and the extent of long term benefits or detriments.

Certification that the proposed activity will not violate applicable water and air quality, laws, standards and regulations will be required before a permit is issued.

Any person may request, in writing, within the comment period specified in this notice, that a public hearing be held to consider this application. Request for public hearings shall state, with particularity, the reasons for holding a public hearing.

Plans for the proposed work may be inspected at the Cameron Parish Police Jury Annex Building, P. O. Box 366, Cameron, Louisiana, ((318) 775-5718. Written comments should be mailed within 25 days from the date of this public notice to Cameron Parish Police Jury, Post Office Box 366, Cameron, Louisiana 70631.

PROCEEDINGS

Minutes of the regular meeting of the Cameron Parish Gravity Drainage District No. 4 held on Tuesday, June 18, 1996, at 2:30 p.m. at the Cameron Parish Police Jury Annex.

Members Present: Edwin W. Quinn, Scott Henry, E. J. Dronet, and George Kelley. Member Absent: Earl Guthrie. Others Present: Brent Nunez, Glenn Harris, George LeBoeuf, James LeBoeuf, Amos Vincent, Black Faulk, Ron Marcantel, Clay Midkiff, Ted Jones and Scott Mahan of N. American Land Company.

A motion was made by George Kelley, seconded by Scott Henry, and unanimously carried to approve the minutes of the May 21, 1996, regular meeting as written.

A motion was made by Scott Henry, seconded by George Kelley, and unanimously carried to approve the Financial Report for the month of May, 1996.

A motion was made by E. J. Dronet, seconded by George Kelley, and unanimously carried to approve the following bill for payment:

1. Cameron Parish Pilot, $23.00.

It was agreed by concensus that a letter be sent to Earl Guthrie, on the various agencies involved stating that we take the position that the automation of the water control structures in the Creole Valley Unit Project is needed, and we support it; but we do strongly oppose the maintenance of the automation being included in the CRP-WRA CS-44/PCS-57 Trust Fund.

Scott Henry stated that we need to clean out and change culverts behind the Conoco property where the pump is. That road is no longer used by Apache, and cement culverts are collapsed under this road that runs along W-1 West on Henry property. He stated that Crain Brothers is waiting on track hoe availability to clean out the Sells lateral. It was included in the and gave a $2,500 price on cleaning that ditch and setting those culverts. The spoil will be put on the West side of the road. East side of the road is reported to a non-wetland area. Mr. Henry said that this work would go under the same permit as we discussed earlier with Tina Doskey of the National Emergency permit. A motion was made by E. J. Dronet, seconded by George Kelley, and unanimously carried to authorize Crain Brothers to do this work, pending an okay by Engineer Lonnie Harper. It was agreed that we ask Lonnie Harper to look at the project to be sure all easements, permits and other considerations are in order.

Glenn Harris of N. Water Management Report for the Cameron-Creole Watershed Project. He reported that water levels have decreased and stabilized in most of the project areas. Overall, we are in pretty good shape in the watershed.

Mr. Brent Nunez thanked the group and allowed him to address them. He stated that an easement has been obtained from North American Land Company to straighten a part of the drainage lateral in the northern part of Gravity drainage District 3 near Big Lake on North American Land property. Mr. Nunez stated that three (3) quotes have been obtained to clean the lower one mile of this ditch, and the low quote is from Larfay Arceneaux (d.b.a Construction Company) who gave a quote of $6500 to do the one mile of dredging and $2700 moving fee and moving permit, for a total of $9,200. Mr. Nunez stated that he is here today to ask the Board to clean the lower one mile of the North American Land ditch in the northern part of our district. Several property owners and citizens were also in attendance on behalf of getting the lateral cleaned. A motion was made by E. J. Dronet, seconded by George Kelley and unanimously carried to authorize cleaning the one mile of North American drainage lateral.

Some discussion then took place relative to the possibility of removing the plug in the ditch north of Creole or placing some flaps in it so that the ditch will not silt up. Glenn Harris stated that there is just not enough water flow to keep the ditch from silting up. It was explained by several persons in attendance that we plug we put in to prevent circulating salt water in that area. Prior to the time the plug was installed, we were getting drainage fresh water and upon replacing it with salt water in an area that fresh water is desirable. It was agreed that this fact needs to be explained to the public to make sure they understand the reasoning for the plug.

There being no further business, the meeting was adjourned.

Secretary-Treasurer

CAMERON PARISH GRAVITY
DRAINAGE DISTRICT NO. 7

Proceedings from meeting of Aug. 15, 1996, 6:30 p.m. Meeting called to order by President Magnus McGee at Board Office, 205 Middle Ridge, Johnson Bayou. Roll as follows: Magnus McGee, Ivan Barentine, Leroy Trahan, Rogerest Romero. Absent: Carroll Trahan. Guests: Fletcher Miller, Gabe LaLande, George Erbelding, Dusty Sandifer, George Bailey, Lloyd Badon, Rodney Guilbeaux.

Motion to accept minutes of July 18, meeting by Leroy Trahan, second by Ivan Barentine, passed.

Motion to review and pay bills by Leroy Trahan, second by Ivan Barentine, passed.

Permits reviewed: Motion to accept by Ivan Barentine, second by Leroy Trahan, passed.

Permits: Goodrich Oil, Sec. 13, T14S, R12W, Sabine Refuge, Proposed flowlines. Riceland Pet Co., Sec. 14, West Cameron, Proposed SL 14500 #1 Well. Smith Production, Sec. 4, T15O, R13W, Proposed well site and appurtenances.

Fletcher Miller and Gabe LaLande requested assistance in completing his permit approved last Feb. Dusty Sandifer will check legality of #7 and doing the work, and providing the answer is yes, the board voted to do the work on a motion by Ivan Barentine, second by Leroy Trahan, passed.

George Erbelding addressed the board and requested assistance in installing a 40' x 18" culvert across Breaker Drive in his marina facility in western Gulf Breeze Beach. Mr. Erbelding will supply the culvert and GDD #7 will install, all this on a motion by Rogerest Romero, second by Ivan Barentine, passed.

On a motion by Rogerest Romero, second by Leroy Trahan, the board authorized Pres. McGee to sign the permit for 2 x 48" culverts to be put in place across Trahan's Bayou to give access for residents to the subdivision on the east side.

On a motion by Leroy Trahan, second by Rogerest Romero, passed, the board voted to reinvest the CD at Cameron State Bank (which matures for 18 months at 5.68%.

A resolution to change the IMMS Public checking account to a Public Money Market checking account with Calcasieu Marine Bank on Fri., Aug. 16th in a rate of 4.47 (this rate could change monthly), was passed on a motion by Rogerest Romero, second by Leroy Trahan, passed.

Leroy Trahan made a motion to advertise for bids for structures on the Shallow Drive Project, second by Ivan Barentine, passed. Bids will be advertised in the Cameron Parish Pilot three times, with bids to be opened on Sept. 19th, at 6:30 p.m., at the board office, which is the date, time and place of the next meeting.

George Bailey and Ivan Barentine reported on a field trip taken on July 30th, by air boat to the Smith Ridge Bayou area. A permit will be required to clean out a trenass, so a motion by Rogerest Romero, second by Leroy Trahan, passed, to authorize George Bailey to work up a permit for this purpose.

The battery cover for the new salinity meter has come in. Lloyd Badon has used it, will continue to use it in different areas, and will work up a report sheet to compile data on it. Salinity data reports from DNR (Ralph Libersat) were passed out and discussed by the board. The report was not complete as an unknown barge had hit the water, cracking it into Sabine Lake. Fortunately, it was recovered, and is working again. Reports from Lamar University salinity meters have not been received as yet.

Lloyd Badon reported that the center bearing for the Link Belt Marsh Machine has been delivered to Reco Crain in Lake charles. He plans to get the use of a 20 ton crane to lift the cab and motor, then the cab mount and holding the cab in place can be removed and replaced along with the center bearing.

Exec. Secty. Rodney Guilbeaux reported on the Cameron Wetlands Planning Meeting for West Cameron held at the police jury building July 31st. It was well attended, had many local, area and state and federal officials in attendance. Field trips, talks and slide presentations were given, committees were appointed, and a second meeting is planned in the immediate future. Plans for this workshop call for a one day affair in late April or May of 1997.

Guilbeaux also reported on the East Mud Lake Project by Fina Oil and Chemical Co. Ceremony held at Holly Beach Aug. 5. Talks by Fina officials, U.S. Congressman Jimmie Hayes, La. Sen. Sinclair, La. Rep. Flavia, NRCS head Gohmert, Sec of DNR Caldwell, Dr. Bahr, head of Governor's Office for Coastal Activities, Mr. Schroeder of the U.S. Corps of Engineers, New Orleans; Ron Marcantel of NRCS and Neil Crain of Crain Brothers, the contractor on the project. A field trip to East MudLake was followed by a rib eye dinner with all the trimmings. GDD #7 was given thanks for the assistance before and during the project by Fina folks as well as NRCS.

The Sabine Conference for the Trans Texas Water Plan will be held in Beaumont at the Beaumont Hilton on Sept. 13th and 14th. Exec. Secty. Guilbeaux was asked to attend and represent the board.

A financial report for the month of July (and budget up date thru July ) was presented by Secty. Guilbeaux. All budget items were covered and only one item is over budget. That is equipment where a new back hoe was purchased for $37,000.00 (and was not in the original budget.)

A request for drainage assistance for Holly Beach resulted in a motion to purchase 200' of 16' culvert and install. Motion by Leroy Trahan, second by Rogerest Romero, passed.

The Honda generator has been repaired and is back in service, says Lloyd Badon.

Motion by Leroy Trahan, second by Rogerest Romero, passed, to purchase decals for all equipment owned by GDD #7.

Lloyd Badon was asked to tag and number all equipment owned by GDD #7.

Secty. Guilbeaux was instructed to have the copier repaired and get price quotes on new one.

There being no further business, motion to adjourn by Rogerest Romero, second by Leroy Trahan, passed.

Next regular meeting to be Thurs, Sept. 19th, 1996 at 6:30 p.m. at the board room of GDD #7 at 205 Middle Ridge Road, Johnson Bayou, La.

**PRAYER TO THE BLESSED VIRGIN**
**(Never known to fail)**

**Oh most beautiful flower of Mount Carmel, fruitful vine splendor of Heaven, Blessed Mother of the Son of God Immaculate Virgin, assist me in my necessity. Oh Star of the Sea, help me and show me herein you are my Mother. Oh Holy Mary, Mother of God, Queen of Heaven and earth I humbly beseech you from the bottom of my heart to succor me in this necessity. There are none that can withstand your powers, Oh, show me herein you are my Mother. Oh Mary conceived without sin, pray for us who have recourse to thee (three times). Holy Mother, I place this cause in your hands (three times). Holy Spirit you who solve all problems, light all roads so that I can attain my goal, you who give me the divine gift to forgive and forget all evil against me and that all instances in my life you are with me. I want in this short prayer to thank you for all things as you confirm once again that I never want to be separated from you in eternal glory. Thank you for your mercy toward me and mine. The person says this prayer 3 consecutive days. After 3 days, the request will be granted! This prayer must be published after the favor is granted.**

## Severance taxes are up in Cameron Parish

CAPITAL NEWS

Severance tax collections on work done in Cameron Parish rose for the second consecutive month when May figures were tallied by the state Department of Revenue and Taxation.

According to the department's May report, natural resource production in the parish increased from the previous month, bringing in $1.4 million to rank the parish sixth in the state for the month. The total also was the parish's highest monthly figure for the year so far. April's receipts of $1.39 million marked an improvement from March's figure which had fallen to $1.1 million from the nearly $1.3 million recorded in February.

Oil production accounted for the lion's share of the May receipts for work in the parish, $732,837 of the total. Natural gas added the remaining $686,327 to the month's collections, ranking the parish third in the state in that category.

The parish collecting the tax on oil and natural gas receives one-fifth of the total up to $500,000. Seventy-five percent of all revenue collected on timber products goes back to the parish.

Statewide, severance taxes climbed for the second consecutive month, reaching a total of nearly $33.8 million in May. That figure replaced the previous 1996 high of $32.6 recorded in April The state collected almost $31.8 million in severance taxes during May 1995.

# Merger of two state agencies postponed

CAPITAL NEWS

The Departments of Natural Resources and Wildlife and Fisheries survived legislative hearings which could have resulted in an effort to merge them, but they are on notice to cooperate and make their operations more efficient.

The Joint Legislative Committee on Natural Resources heard two days of testimony concerning the departments, and at one time even set a "sunset" date for Wildlife and Fisheries. But House members of the panel later changed their minds. Committee members instead postponed action on a merger proposal recommended by the Select Council on Revenues and Expenditures in Louisiana's Future.

SECURE was a special private/government coalition which studied state government in depth and recommended ways to streamline operations and spending. Many lawmakers supported the group's report during their legislative campaigns in 1995.

Members of the joint legislative committee could recommend to the full Legislature that the two departments continue to operate as they have or that they are reorganized or changed in specific ways. If they set a sunset date for a department, a review process begins which could eventually trigger the department's elimination.

Department of Natural Resources Secretary Jack Caldwell said departmental conflicts prevalent in past administrations do not now exist. "I'm keenly aware of the need to cooperate," he said, "but there's a lot of differences between overlapping and interacting. In terms of expertise, we are engineers; they are biologists."

Rep. Warren triche of Thibodaux said criticism of Wildlife and Fisheries has involved licensing and fees, its means of setting opening and closing dates for various seasons and enforcement actions. While lawmakers want a more efficient, effective department, elimination is not the only way to change it, he said.

Matthews Sen. Michael Robichaux agreed with Triche about "giving these people some time. Let's give them a chance to streamline it and put them on notice that if they don't do it, we will do it."

## Program set on violence

Ginette Sheridan-Evans of the Calcasieu Parish Women's Shelter will speak on domestic violence during a telemedicine education program at South Cameron Memorial Hospital at 1:30 p.m., Friday, Aug. 30.

The public is invited to attend by reservations should be made by calling Jenny Broussard by Thursday at 542-5285.

# Free food offered to over sixty

Food for Families/Food for Seniors is coming to cameron Parish through cooperation of the Cameron Council on Aging and the Lake Charles Diocese Community Services.

This is a monthly commodity program for seniors over 60 years old. The police jury will provide transportation of food packages.

Seniors over 60 years with an income of $839 a month for one person or $1123 a month for a married couple will be eligible for a food package.

They will received free a 40 lb. food package containing canned milk, meat, fruits or vegetables, cereals, fruit juice, potatoes, rice or pasta each month and peanut butter or beans every other month.

The food package would cost approximately $50 retail. This is the federally funded commodity supplemental food program through USDA, the Louisiana Office of Public Health, and Arch-diocesan Office of the Social Apostolate with cooperation of the Lake Charles Catholic Diocese.

SENATE SEAT 25 ELECTION

# Theunissen and Francis in runoff

State Rep. Jerry Theunissen and GOP Chairman Mike Francis will meet in a Sept. 21, runoff for the District 25 seat in the state Senate.

Complete returns from Saturday's special election have Theunissen with 7,087 votes (29.5 percent) and Francis with 6,112 votes (25.5 percent) in a six-person race.

Suetta "Sue" Fontenot was third with 5,626 votes, missing the runoff by less than 500 votes. Trailing were Stan Hardee with 4,604; Jerald J. Saltzman with 294; and Gary A. Hyatt with 275.

The vote in Cameron Parish was as follows:

Fontenot, 651; Francis, 523; Theunissen, 327; Hardee, 198; Saltzman, 25; and Hyatt, 20.

Theunissen, 62, a Jennings Democrat, is a member of the state House of Representatives. He is a former manager of the Jennings airport and a decorated Vietnam combat pilot assigned to the Pentagon.

Francis, a 49-year-old businessman from Crowley, is chairman of the state Republican Party.

He owns Francis Drilling Fluids Ltd. He is a member of the Louisiana State Central Committee from District 42.

## Absentee vote begins 9th

According to Ruby Kelley, Registrar of Voters, absentee voting for the Sept. 21, election will be Sept. 9-14, Mon.-Sat., at noon. Regular office hours are 8:1.m. to 4:15 p.m. Mon.-Fri.

Absentee voting will be held in the Registrar of Voters Office on the bottom floor of the Cameron Courthouse.

Parents may call Delia DeBarge at Cameron Elementary School, 775-5518, after Aug. 19, 1996, to schedule a testing time for their child.

## DU banquet plans told

By GENEVA GRIFFITH

Plans for the annual Cameron Parish Ducks Unlimited banquet were made at the meeting of the D.U. Chapter held last week at the Creole Fire Station.

Chris Simon had on display some of the items to be auctioned at the banquet to be held Sept. 21, at the Grand Lake Fireman's Center.

The social hour starts at 6:30 p.m. followed by the meal at 7:30 p.m., then the auciton.

A steak dinner will be served for a donation of $10 single or $15 a couple.

Memberships will also be sold for $25. However, this is not a requirement to attend the banquet.

Sponsorships of $200 will be accepted, which includes a dinner for two at the banquet.

Some of the auction items are the D.U. Print of the Year, knife sets, hand-carved decoys, D.U. Gun of the Year, D.U. ticket print of the year, mens and ladies watches, etc. Chances will be sold for $1 on a 4-wheeler.

## Adult education

Anyone interested in attending adult education classes may contact the Grand Lake school office at 598-2231 by Sept. 6.

## Junior Leaders

The Cameron Parish Jr. Leaders officers will have their first meeting of the year at 5 p.m., Wednesday, Sept. 4 at the Extension Service office, according to Chad Pitre, reporter.

# *Early doctors of parish recalled*

**(EDITOR'S NOTE--The following story was published in the Pilot on June 27, 1963 in connection with opening on June 30 of the new South Cameron Memorial Hospital. Archie Hollister, the author, is same person as the coach in the photo above of the 1934 Creole basketball team.)**

By Archie S. Hollister

Merely to try to name the members of the medical profession in Cameron in the old days is an almost impossible job. I have put together a list of them but I very much doubt if it is complete.

The United States Census of 1860 has this entry: Charles Hulton, M. D., age 37; Nanett, his wife, aged 22; and one child, Charles Hulton, aged 5 months. His place of residence is given as Grand Chenier Post Office.

The Census of 1880 lists Samuel Shelton, 30, physician, born in Virginia. He was evidently single, as no family is ennumerated. His residence is likewise Grand Chenier.

The same census has the entry: Henry O. Read, 48, (Dr.) living at Grand Chenier. His wife is Eugine and his oldest son is Sallie. (Evidently the census take transposed these two names.) Two other children, Adolph and Steven are listed. Interestingly enough, another Dr. Read is listed. On June 18, 1880, our census taker visited the home of Adras Nunez, then a young man of 27. Ennumerated with the family of Adras is one Henry Read, aged 19, boarder, doctor. There should be a connection between the two.

My available census records do not reach beyond 1880, so later dates may be somewhat less accurate,

Dr. Segura, who may be tentatively placed between 1885 and 1890, boarded at the home of Bill Doxey; his stay on the Chenier appears to have been short; we hear of him again, married and living on Chenier au Tigre.

Another early physician was Dr. Raphael. I have been able to learn nothing about him but the name and the fact that he practiced medicine on the cheniers some 75 years ago.

A Dr. Savoie established a practice on Grand Chenier, probably around 1900. His office was located near the present state park on the river. He is described as a small man of rather quick temper. He married a local girl, and was later shot.

Somewhat later Dr. Jones moved in and served the community for several years. His wife was a school teacher. He later moved to Pecan Island and established a practice there.

Another early doctor was Walter Brown. He was from Texas, and the brother of Dr. Edgar Brown of Orange. He married Jennie Doland, and for a time he had his home and office at Cameron near the Government Biological Station on the beach. He is well remembered for his promptness to answer any call, and for his concerns with the problems of his patients.

TO BE IN AUDREY BOOK

# Storm experiences told

**(This story is an excerpt from a book about Hurricane Audrey by Nola Mae Ross and Susan McFillen Goodson which will be out early in 1997. It is a memorial to those who lost their lives in that storm and will include stories from their survivors and photos of many of the victims. For more information call 477-8243.)**

**By MRS. DAN THERIOT**

In the Dallas Vincent home during Hurricane Audrey were: Mr. and Mrs. Dallas (Rita Veezay) Vincent, Mona Vincent, 16; Allora Jeanne Vincent, 14; Rondell "Ron" Vincent, 13; Mr. and Mrs. Durphy (Ruby Bell Trahan) Vincent; Ernest Vincent, 21; Mrs. Dallas (Ruth Vincent) Theriot, Sr.; Dallas Theriot, Jr., 7.

"When the wind switched after the eye of Hurricane Audrey passed," recalls Mrs. Dan (Mona Vincent) Theriot, "the waves doubled back on themselves and crashed together, making a humongous noise. They roared and popped back toward us and it was worse than the first part. I was terrified.

"This is the end of the world," I thought, 'And we're the only ones left."

Mona Vincent Theriot is the daughter of Rita and Dallas Vincent. Dallas was a barber in Cameron. When Hurricane Audrey struck Mona was 16, and she says, "At first I thought Audrey was going to be a big adventure.

"When the water came up I saw marsh animals trying to get in our door and snakes coming up on our steps. It seemed funny, and when a car floated by with a dog on top, we kids laughed. But a few minutes later we could out it was no laughing matter.

"The walls in our house began swinging back and forth and we freaked out. From then on we didn't have time to laugh or be scared. The roof opened up and we were pitched haphazardly into the water with huge waves crashing over us.

"I could hardly breathe and felt like I was drowning. My mother grabbed a timber and pulled my sister, Allora and I on with her. We were swirled and tumbled at such a great speed through the water that when we went by an oil rig it looked like it was racing backwards.

**GOD SHIFTS US AROUND**

"Since we were all three on the same side of our timber, it kept turning over and dumping us under the water. 'If one of us could get to the other side,' I thought, 'it would balance and we could stay up.' But I was afraid to let go for fear I couldn't get back to the timber.

"Just then my sister Allora went under the water. She came up on the other side. I asked, 'How did you do that?' And she looked at me kind of funny. 'I didn't do it' she said. 'Something yanked me under and I came up on this side.' We all knew it was God helping us. We said many prayers as we were rushed across the water and without God's help, we'd never have made it through the day.

"One time we spotted a large gate and knew it would be safer than our timber. But it was a big decision to let go of our timber and change over. We were afraid we'd lose both. Finally my mother made the decision. We all grabbed and landed safely on the gate. At that time and place it was a big accomplishment for us.

"Finally, late that evening we hit the Intracoastal Canal and when I tried to walk down the bank the ground was soft, and full of holes. As I was going along, I fell into a big hole and only my head was above ground.

"And there right in my face, a great, big angry turtle glaring at me. But after the day I had had, I wasn't afraid of snakes, turtles or anything else. I knew God had brought me this far and He wouldn't let me down now.

"After Hurricane Audrey, we went back to the spot where our home had been and all we found was a big hole. But nearby in the mud, I found a jewelry box. And when I opened it there was my little birthstone ring that I'd bought with my own money. Finding it meant a great deal to me."

**WE'RE IN A GOLDFISH BOWL**

Mona's mother, Mrs. Dallas (Rita Veezay) Vincent says, "Early that morning as the water came up I looked out the picture window and thought, 'We're in a gold fish bowl.'

**By MRS. RITA VINCENT**

"Later, when the roof parted and we were pitched into the water, with waves slamming over our heads and rain as solid as fog, it was so rough. The current would drag us down, then the waves would toss us up. We clung desperately to our timber as we swirled around in circles.

"Then that evening when the water went down we were terribly cold. We drifted toward the Intracoastal canal and as we got there Durphy and Ernest Vincent and Ruth Theriot came drifting up to us. With them was a neighbor, 14 year old John Miller, who, that morning had lost all of his family in the storm.

"We found a piece of floating turf and started to get on it. But John Miller looked under it and yelled, 'Miss Rita. Look at all the snakes." There were dozens of snakes congregated there. So we got away as fast as we could.

"We had no idea what had happened to my husband, Dallas Vincent or to my son Ron, who were together. But later, when we were taken to a tug boat we found out Ron was on the same boat. He told us that the raft he and his father were on was suddenly jerked into the air by a big wave. When it slammed back down it hit Dallas on the head knocking him under. That was the last Ron saw of his father."

**DURPHY VINCENT'S STORY BY DURPHY VINCENT**

Durphy Vincent, a long time deputy for the Cameron Parish Sheriff's Department recalls his ordeal during Audrey, "We'd all gathered in my brother, Dallas Vincent's home and by 4:00 a.m. the water was two feet deep in the carport. By 7 A.M. it was so high we had to get in the attic.

"The house had a double ceiling and in his excitement my son Ernest grabbed a frozen roast from the freezer and tried to poke a hole in the ceiling with it, until Dallas Vincent found a hammer and completed the job. We knew the roof was going to break up and were all praying that it would open at the top so we'd have a chance. If it opened anywhere else we'd be doomed.

"About five minutes later the eaves pulled apart and we could see daylight. Then the roof just split open, like we'd been praying for. We scrambled on one side but were separated as we hit the water.

"With me were my wife Ruby, our son Ernest, plus Mrs. Dallas (Ruth) Theriot, and her little boy, Dallas Theriot, Jr. We were choking and gasping, hardly able to breathe as we struggled to hold on the the timber. The huge waves tossed us helplessly and our arms were rubbed raw by the rough timber, then aggravated by the salt water. But the physical pain was not as bad as the mental anguish, the fear and shock.

"As we raced toward Hackberry on the high swells, I suddenly looked at my wife, Ruby, whom I'd been holding on the timber. She was not moving. And I could tell she was gone. I was so numb with shock that I couldn't cry, I couldn't grieve, I couldn't do anything. I could only think that I must hold onto her, so I could give her a decent burial.

"Then suddenly the wind shifted and a little tornado grabbed Dallas Theriot, Jr. from the end of our timber. It lifted him up and raced him away like a blast from a shotgun. We couldn't do anything but watch helplessly. My wife's body was also wrenched from my hands and swallowed up in strong current.

"Finally the wind subsided, and we drifted to solid ground at the edge of the Intracoastal.

"Then I collapsed. The next thing I knew Ernest was shaking me and saying, 'Dad, dad. Wake up. There's a boat here and it's going to take us to Lake Charles."

(Postscript: Those who lost their lives from this household were: Dallas Vincent, 43 years old; Mrs. Durphy (Ruby Bell Trahan) Vincent, 46 years old; Dallas Theriot, Jr., 9 years old.)

LETTER TO EDITOR

# Retired teachers praised for unselfish service

Dear Editor:

Another school year has begun and our school administrators are faced with the unusual flurry of problems and complaints from parents and students alike.

In recent months, our parish's education system has been the subject of much scrutiny and considerable criticism due to the reduction in resources and services precipitated by declining revenue. I recently became aware of the actions of two individuals who have shown monumental unselfishness toward the plight of our children and who have decided to do something about it.

At the end of the 1995-96 school year, Anna Boudreaux and Teresa Martinez, two Cameron Parish teachers, retired after decades of service to us and our children. Having served long and hard for many years, Anna and Teresa were now entitled to some well-deserved rest, if not financial security, since, as we all know, no one gets rich on a teacher's salary no matter how many years she works.

But Anna and Teresa rejected the rocking chair. Instead, these two women have volunteered to continue teaching our children - for free! Miss Boudreaux is currently teaching music to Cameron Elementary students, while Miss Martinez will be teaching calculus at South Cameron High this year.

In my opinion, this is not just a nice thing for these two women to do. This is amazing. We reportedly live in a country where workers take no pride in their jobs, clamoring for more and higher benefits even as productivity decreases. Apparently Anna and Teresa don't know this. How appropriate it is, as Labor Day approaches, to be reminded that there are still people who not only take pride in their work, but find it a source of joy.

It is incorrect to say that Anna and Teresa are working for nothing - they are working for the satisfaction of knowing they are able to contribute to society. How many of us, if we won the lottery, would be at work the next day? Unless we perform our jobs, whatever they may be, with the objective of serving others and not ourselves, we will find our careers empty and unfulfilling no matter how remunerative they may be.

I am grateful for what these women have done and are continuing to do for our children. But I am more grateful for what they have done for me. They have reminded me that being able to do an honest day's work is a privilege I am lucky to have. With this privilege comes the responsibility of doing my job in such a manner as to bring the maximum benefit to others.

I write this letter in the hope that others who learn of the dedication and determination of these two women will be inspired not only to face their daily tasks with renewed enthusiasm, but to find the time for all those extra demands our children place on our time and talents.

Thank you, Anna and Teresa, and may God bless you.

Sincerely,

/s/ Jennifer Jones Bercier

A parent of three sones educated in the Cameron Parish school system.

PROCEEDINGS
GRAVITY DRAINAGE
DISTRICT NO. 4
July 19, 1996

Gravity Drainage District No. 4 held a regular meeting at the South Cameron Memorial Hospital in Creole, Louisiana at 5:00 P.M., Friday, July 19, 1996.

PRESENT: J. B. Meaux, Jr., Amos Vincent, Dino Montie, Pat Pinch and Michael Semien.

ABSENT: None

OTHERS PRESENT: Malcolm Savoie, Lonnie Harper, J. T. Primeaux, Blake Trahan and Bonnie Conner.

The meeting was called to order by Chairman J. B. Meaux.

On motion of Mr. Vincent, seconded by Mr. Semien and carried, the minutes were approved as read.

On motion of Mr. Pinch, seconded by Mr. Vincent and carried, the financial statement was accepted.

There was a general discussion between members of the Board, Lonnie Harper, Malcolm Savoie and J. T. Primeaux, who has been experiencing erosion problems along his property adjacent to the Creole ditch, an area which the Drainage Board had dug out many years ago. Mr. Primeaux expressed his feelings that the area was continuing to erode and in some areas had eroded within the right of way. He feels that the Drainage Board is responsible and should do something to stop the erosion. Mr. Primeaux's basic concern is the area along side his home. He stated he is willing to work with the Drainage Board in this matter. The Board stated they are also willing to work with Mr. Primeaux toward finding a solution to his problem. Bonnie Conner was directed to speak to the District Attorney about liability issues. On motion of Mr. Montie, seconded by Mr. Pinch and carried, Lonnie Harper was authorized, empowered and directed to survey the property in question to determine the extent of the erosion in relation to the right of way and furthermore, to prepare a bid package for rip rap material, crowned with cement and 1' of dirt would be used along a 150' length of the ditch following a 10' cushion on each side of Mr. Primeaux's house).

On motion of Mr. Montie, seconded by Mr. Pinch and carried, applications for the following permits are hereby approved:

1. Jordan oil Company - proposed pilelines and platforms, South Kings Bayou Field

2. Charles T. Petterfer - trenasse maintenance Creole

The Board was given a status report of the right-of-way work for Project 1996-02.

On motion of Mr. Montie, seconded by Mr. Semien and carried, the following bills were approved and payment.

Jeff Davis Electric Co-op. - $13.20
Cameron Parish Pilot - $78.00
Roy Bailey Construction - $390.00
Acme Diving Service - $778.50
Amos Vincent - $77.52
Lonnie Harper & Assoc. - $1,074.90
Charlotte Trosclair - $1,551.00
Lonnie Harper & Assoc. - $446.00
On Target Surveying - $2,549.19

It was moved by Mr. Montie, seconded by Mr. Pinch and carried, that the Chairman is hereby authorized, empowered and directed to sign a contract by and between the Gravity Drainage District No. Four and H & S Construction Company, Inc. to do Project 1996-02, Drainage Improvements in the Creole area.

Mr. Semien stated that he wants the Board to look into cleaning the drainage ditches on the Hubert Barro Boudreaux property in Creole.

There being no further business, on motion of Mr. Montie, seconded by Mr. Pinch and carried, the meeting was declared adjourned.

# Churches to observe Third Millenium here

Five Cameron Parish Catholic Churches are among the 36 parish churches in the Diocese of Lake Charles which will begin a celebration of the Third Millenium of Christianity next year, according to Bishop Jude Speyrer.

The churches are: St. Eugene, Grand Lake, founded in 1961; Our Lady Star of the Sea, Cameron, founded in 1958; St. Peter the Apostle, Hackberry, founded in 1955; St. Mary of the Lake, Grand Lake, founded in 1938; and Sacred Heart, Creole, founded in 1890.

Bishop Speyrer was the guest of honor last week at a dinner sponsored by the Pontifical Knights of the diocese at a restaurant in Hayes.

In addressing the Knights Bishop Speyrer pointed out that Pope John Paul II had called for special preparations for the celebration of the Jubilee Year 2000 by special observances honoring the Holy Trinity: the Holy Spirit in 1997, Jesus Christ the Savior in 1998 and God the Father in 1999.

"There are 36 months in the three years the Pope has called us to celebrate," the Bishop said, "and we have 36 church parishes in the diocese. I would propose that each church parish plan a celebration during one of those 36 months, beginning in January of 1997 with our youngest parish, St. Charles Borromeo in Fenton, and ending with the Cathedral of the Immaculate Conception in December of 1999.

# Calendar of Events

**(EDITOR'S NOTE--The following Cameron Parish Calendar of Events and Meetings was prepared by the Cameron Parish Tourist Commission and Cameron Parish Police Jury. Anyone wishing to add an event to the upcoming calendar should call 775-5668.)**

SATURDAY, Sept. 7 -- Butterfly Club meeting.

# Blanchard is commended

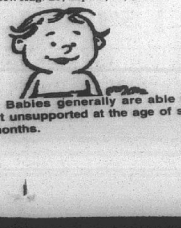
Navy Petty Officer 2nd Class Shane A. Blanchard, son of Quentin D. and Bonita F. Blanchard of Cameron, recently received a Letter of Commendation while assigned at Trident Training Facility, kings Bay, Ga.

The 1987 graduate of Johnson Bayou High School joined the Navy in July 1987.

Blanchard's wife, Cherelle, is the daughter of James L. Duhon of Hackberry and Ginger Backlund of Cameron.

# Trapping set at Lacassine

Commercial trappers under permit from Lacassine National Wildlife Refuge will be trapping alligators on the refuge Sept. 7 to oct. 6. Refuge Manager Vicki Grafe cautions boaters and anglers to be careful in traveling refuge boat trails and canals because baited hooks could be set on the edges. The public is also cautioned that the alligator trappers are authorized to use firearms during the harvest.



This harvest is necessary to regulate the alligator population on the refuge. It is a violation of refuge regulations to tamper with the poles, lines or bait or interfere with the harvest in any manner.

Any buyers interested in bidding on hides or whole alligators removed from the refuge can contact Refuge Biologist Wayne Styron at 774-5923 for further information.

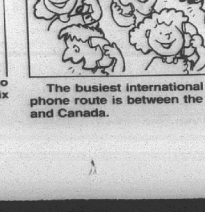
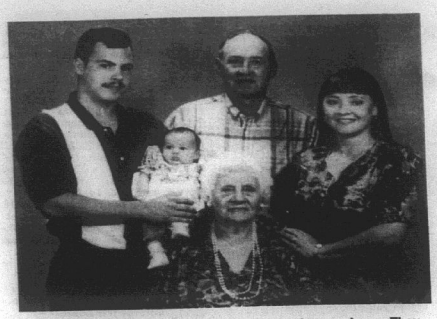
# Fishing maps available for coastal waters

Anglers interested in the coastal waters of south central Louisiana need wait no longer for a detailed and full-color map of the area. The fifth coastal and offshore fishing map published by the Department of Wildlife and Fisheries is now available. A full set of maps covers the entire Louisiana Gulf Coast.



The latest edition covers the area of the Louisiana coast from White Lake east to the Atchafalaya Bay and Morgan City, including Vermilion Bay and East and West Cote Blanche Bay. It is the fifth in a series completed by the Louisiana Artificial Reef Program designed to provide regional information for recreational fishermen.

All of the two-sided full-color maps provide information on locations of oil and gas platforms and artificial reefs, fish identification guides, angling tips and boating safety rules. Fishing marinas and boat launches are identified and keyed and water depths are indicated.



Map #1 highlights the Louisiana coast around Venice and extends west to Fourchon. Map #2 extends from Fourchon west to Point au Fer. Map #3 details the coast from the western portion of Lake Pontchartrain eastward and southward to chandeleur Sound. Map #4 covers Sabine Pass at the Texas state line eastward to White Lake in Vermilion Parish. Map #5 fills in the gap between Map #2 and Map #4.

Each map measures 25 inches by 35 inches and is available either rolled or folded. Individual maps cost $11.44 each.

Mail orders are accepted, but there is a postage and handling charge of $3. Write Rigs to Reefs Maps, Louisiana Department of Wildlife and Fisheries, P.O. Box 98000, Baton Rouge, La. 70898-9000; or call 504/765-2918. Visa and MasterCard orders are accepted, but be sure to sign your request and provide the card's expiration date.

## Dove season will open on Sept. 7th

Due to the calendar, Labor Day will not signal the beginning of dove season this year. Dove season will begin on Sept. 7, a week after the Labor Day holiday. According to Mike Olinde, Upland Game Biologist for the Louisiana Department of Wildlife and Fisheries, "The framework set by the federal government doesn't allow dove season to open in August and we have never opened the season on a Sunday. This means that about two years out of every seven the season opens a week later than usual", Olinde said. Dove hunters will also have fewer days (60) to hunt, but a higher bag limit.

Mourning doves are one of the most widely distributed and abundant birds in North America. LDWF reports a harvest of about one million birds annually by approximately 55,000 Louisiana dove hunters.

In order for a successful and enjoyable hunt, the following reminders are useful:

1. Safety first: Dove hunting can take place in crowded conditions, with many hunters that are anxious for the first bag of the season congregating in a small area. Be conscious of your surroundings and fellow hunters.

2. Baiting: Baiting can be a problem. Ask the landowner where you're hunting if he has baited his field and double check once you start your hunt. Walk the entire field and look for anything suspicious; excess grain or feed, or large numbers of doves frequenting freshly plowed fields. Remember that if grain or feed has been used in the area during the previous ten days, it may still constitute a baited field.

3. Heat precautions: Although Labor day may be fall in some parts of the country, in Louisiana it is still hot. Bring plenty of water. Your dog may become overheated and requires water as well. In addition, remember your bag of the day should be kept cool.

4. Practice; You may not have hunted for several months and it's important to keep your skills sharp. Take time to practice before you hit the fields.

5. Preparation: There can be no shortcuts. Clean your gun thoroughly and make sure it is in top working order. Louisiana law states that your gun may only hold three shells at a time, so check and see that plugs are properly installed. If you're using dogs, begin getting them in shape well before the season starts.

DOVE SEASON SCHEDULE

Daily bag limit: 15. Possession: 30.

Dates: Sept. 7-15, Oct. 19-Nov. 8, and Dec. 14-Jan. 12.

Shooting hours are one half hour before sunrise to sunset except for Sept. 7-8, Oct. 19-20, and Dec. 14-15, when shooting hours will be 12 noon to sunset.

**PRAYER TO THE BLESSED VIRGIN**
**(Never known to fail)**

Oh most beautiful flower of Mount Carmel, fruitful vine splendor of Heaven, Blessed Mother of the Son of God immaculate Virgin, assist me in my necessity, Oh Star of the Sea, help me and show me herein you are my Mother, Oh Holy Mary, Mother of God, Queen of Heaven and earth I humbly beseech you from the bottom of my heart to succor me in this necessity. There are none that can withstand your powers, Oh, show me herein you are my Mother. Oh Mary conceived without sin, pray for us who have recourse to thee (three times). Holy Mother, I place this cause in your hands (three times). Holy Spirit you who solve all problems, light all roads so that I can attain my goal, you who give me the divine gift to forgive and forget all evil against me and that all instances in my life you are with me. I want in this short prayer to thank you for all things as you confirm once again that I never want to be separated from you in eternal glory. Thank you for your mercy toward me and mine. The person says this prayer 3 consecutive days. After 3 days, the request will be granted! This prayer must be published after the favor is granted.

# Tarpons to play in Iowa Jamboree Thurs.

By JOE MUELLER

The 1996 South Cameron Tarpon football team will travel to Iowa Thurs., Aug. 29, to face the Yellow Jackets in the Iowa Jamboree. The Tarpons hope to improve on last year's record and make it into the state playoffs.

The South Cameron game should get underway at approximately 8 p.m.

The Jamboree opens with Merryville facing Jennings JV then DeQuincy and Barbe JV face off and Vinton plays Sulphur JV in the last game.

The Tarpons were 4-5 last year and 3-2 in district. This was the first time in at least nine seasons that South Cameron did not make the playoffs.

The Tarpons return six starters on offense and seven on defense, so they should be more experienced than they were last year.

The Tarpons are starting their 15th season under Head Coach Parry LaLande. LaLande has taken them to the state playoffs ten times and has compiled an 118-45-1 record at the Cameron Parish school.

# Core is Most Valuable

Willie Core, son of Ray and Cindy Core of Folsom, was selected the Most Valuable Player in the 17-18 year old Senior Dizzy Dean All Star World Series Baseball Tourney in Johnson City, Tenn., Aug. 3-7.

Core played right field and furnished the tourney with a batting average of .727, going 9 for 11 with 4 doubles and 7 RBI's.

Core, who is a senior this year at Covington High School, was a member of CHS's District Champion baseball team last spring and has played this summer on a select team out of Hammond, Bill Hood Broncos, whose overall record this summer was 45 and 7. The team played 52 games in 60 days to compile this record.

Willie Core is the grandson of Bill and Willa Dean Morris of Creole. His mother is the former Cindy Morris.

The Tarpons have one returning all district player on offense in Chad Bridges and they have three all district players returning on defense - Scotty Brown, Willard Pruitt and Brandon Conner.

The Tarpons opening opponent, DeQuincy, will also be at the Jamboree as they play the Barbe JV team at approximately 6 p.m.

The Tigers second foe of the year, Vinton, plays just prior to the South Cameron game as they oppose the Sulphur JVs.

Last year the Tarpons came home with a 7-0 win over Iowa in the Jamboree.

The Tarpons will be ready to play today as I'm sure they've seen enough of playing against each other and are eager to play against another opponent.

The Tarpons are from District 6AA and the Yellow Jackets are from Class AAA. Iowa has had some very long seasons in recent years but are expected to be much better this year, so it should be a good test for the Tarpons to find out just where they stand.

This Jamboree is probably the oldest of all the Jamborees in the area.

Don't forget the game is today, Thurs., Aug. 29, not on Friday like all the rest of the area Jamborees.

Iowa was in the same district as the Tarpons until they were moved up in classification in 1995.

On Sept. 6, the Tarpons open the regular season at DeQuincy with kickoff scheduled for 7 p.m.

# Cameron Outdoors

By Loston McEvers

**BIG BURNS AND MIAMI FISHING CLOSED**

Fishing offshore was pretty good, however, the weather changed somewhat with the showing up of "Dolly". Higher tides and choppier seas made things rough for offshore anglers. I talked with some out of town anglers and they did real good on ling, red snapper, also some big 30 to 40 pound yellowfin tuna. These were taken last Tuesday about 94 miles south of Cameron at West Cameron 520. I'll say this, they came in on Wednesday and the wind and waves had picked up by then.

Good speckle trout and redfish were taken last week at the Cameron jetties and the beach coast line from Joseph Harbor, Rutherford Beach and Holly Beach area. In a couple of weeks it'll be the peak spawning season for red fish. The whole coast of Louisiana will see the big bull reds showing up. When this happens just about any tackle will do. The best places are along the openings to the gulf and the rock areas. Mullet parts, especially the head, fresh shrimp and live crabs are really good baits. I find rising tides work best, but outgoing tides can be just as good. Hardhead catfish are usually attracted to a half of a peek crab, so take a small crab, cut off the points and push a hook through it and this will slow down the catching or robbers of bait like the hardheads.

A leader of 50 pound test, with a 20 pound test line, and a size 8/0 hook works good. Three feet of water is enough where the surf's break.

There's quite a number of our local anglers surf fishing with flyrods, along our coast line. The water really needs to be calm and clear and not too windy to have a good fly fishing day. Now, if you do hook a big bull red, you've got your work cut out.

If you're not in the mood for surf fishing, take your boat and work the beaches, especially with a small boat and trolling motor. Just pay attention to the weather and should you get caught, go to the beach if you have to.

The last weekend of the Big Burn and Miami Permit fishing saw quite a few boats taking advantage. This now means all Miami Corporation land is off limits to fishing until next year. It really was a good first three months and then the drawdown and drought made it tough, but a fair year anyhow.

Lacassine Refuge is still open, as well as Sabine and Cameron Prairie Refuges along with Rockefeller Refuge. The rains have helped and some good bass still taken on Lacassine Refuge. Week before last the Monday night shootout was 15.24 for first place, with second of 13.27 by some old fishing buddies, David Duhon and Mike Guinn.

**COMMERCIAL NEWS**

First of all, alligator season will be opening Sept. 7. If you do travel the marshes and canals, be very careful for the large hooks on the lines. Please do not mess with these, as this is a person trying to make a living.

I was told that the outlook for oyster season is good, there should be a good crop to harvest, but the prices don't look good at 8 to 9 dollars per sack.

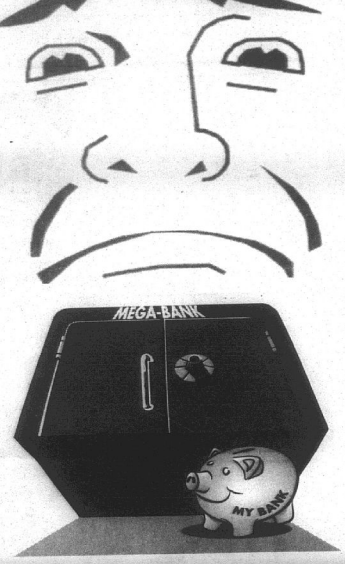
The inland waters opening of shrimp season saw lots of boats out, some with good catches and some places fair. In some areas the shrimp were running a bit small. It was said that a good season was to be had, but some shrimpers said the season should have opened a week earlier.

White shrimp have started their migration to the gulf. It was dry and conditions right, but maybe the rains started their moving a little early. The rough waters from Dolly may keep them in longer or push them back in.

**DOVE SEASON**

We've had a little north wind, that just maybe will send some doves down, as the season opens Sept. 7. We not only need colder weather about our state for doves, but also to start to bring the teal ducks down. I guess I'll have to take out the old shotgun and practice on some clay pigeons. Most dove hunters have a hard time opening weekend due to lack of a little shooting skill ahead of time.

Some hunters use #9 shot because they have more pellets, but #9 shots are too light for doves, you may make the feathers fly, but that doesn't put meat on the table. Really 7-1/2 shots are by far a better choice.



**FEEDING PERIODS**

# Alligator season to open Sat.

Louisiana's 30-day alligator season begins Saturday, Sept. 7, and all trappers are asked to check alligators for foot-web tags placed previously by Department of Wildlife and Fisheries personnel.

Long-term alligator research evaluates movement patterns, survival, growth and dispersal. Alligator trappers, workers, processors and skinners are encouraged to help the research program by carefully checking harvested alligators for tail notches and/or toe tags.

LDWF biologists and technicians capture, mark and release several thousand wild alligators annually from various habitats. Each alligator is measured and a notch is made in the tail by removing one or more dorsal ridges. Two or more metal tags are also placed in the webbing between the gator's toes. Each tag is numbered for identification. Sex of the alligator is also recorded. Alligators returned to the wild from alligator farms are marked in a similar fashion.

Recaptured alligators can be reported by calling Rockefeller Wildlife Refuge (318/538-2276) or your local Wildlife and Fisheries office. Recapture forms supplied to trappers at the time of alligator tag issuance should also be mailed to the Department.

LDWF Fur and Refuge biologist Ruth Elsey noted that metal toe tags darken with time and can be easy to overlook. "The tail notch, however, should alert trappers that the alligator is a retrap and may have metal toe tags," she said.

Last year, hundreds of retraps were reported by hunters or found by LDWF biologists and technicians working check stations in centralized processing sheds. Carcasses are often dissected and tissues collected for scientific study. The largest retrap recovered last year was a 9'3" male alligator. It had been initially tagged in July 1989 and had grown more than 6 feet since being first measured.

The 1996 wild alligator harvest season runs through Oct. 6. Louisiana's thriving alligator population continues to support the largest wild harvest in the United States. Data compiled by LDWF biologists indicates that nest production was lower this year in areas experiencing drought conditions.

According to LDWF's Fur and Refuge Division, the wild harvest generated some $12 million to Louisiana's economy last year.

Licenses, tags and information packets for alligator season are available at LDWF district offices, Rockefeller Refuge and at the New Iberia and Bourg offices.

# erel season to end Sept. 12

Commercial fishing for king mackerel will close in Louisiana waters at 12:01 a.m. Sept. 12, 1996, and remain closed until 12:01 a.m. July 1, 1997.

The Gulf of Mexico Fishery Management Council and the National Marine Fisheries Service notified Department of Wildlife and Fisheries Secretary James H. Jenkins Jr. that the commercial quota of king mackerel for the western Gulf of Mexico had been reached and a season closure is necessary to prevent overfishing of this species.

The closure prohibits commercial harvest, purchase, barter, trade, sale or attempt to purchase barter, trade or sell king mackerel. Furthermore, no one may possess king mackerel in excess of the daily bag limit of two fish per person.

The possession or sale of fish legally taken prior to the closure is not prohibited provided that all commercial dealers possessing king mackerel taken legally prior to the closure maintain appropriate records in accordance with R.S. 56:306.4.

## Scouts plan activity day

Cameron Boy Scout Troop 210 will hold an activity day Sat., Sept. 5, at the Cameron Elementary field from 9 to 11 a.m. A number of outdoor activities are planned.

Any boy interested in Scouting, who is 12 or over or in the sixth grade or over, is invited to join the activities. For more information about Scouting, contact Bobby Doxey at 775-5216.

## Open house set at Johnson Bayou

Johnson Bayou High School will hold an open house in the gym Thurs., Sept. 5, at 6 p.m. All parents are invited.

# Robert Manuel to get Basile honor

Robert Manuel

Robert Manuel of Grand Lake, former South Cameron High School coach and retired Grand Chenier Elementary principal, was named the 1996 Bearcat Night honoree at Basile High School.

The third annual Bearcat Night celebration will be held Friday, Sept. 13, prior to the Basile High - Hanson High football game. A reception will be held honoring Manuel in the school gymnasium before the game with a presentation to be made at halftime.

Past honorees, Louis Hanson and Ernie Duplechin, along with all former Bearcat coaches and athletes who coached with, played with, or played under Coach Manuel are invited to attend the reception.

Manuel is a 1947 Basile High School graduate but had a much tougher time graduating than one might expect because World War II interrupted his high school career. He served in the armed services from 1944 to 1946 before returning to Basile High for his senior year.

It so happened that his return coincided with the appearance of Coach Louis Hanson at B.H.S., who organized the first Bearcat football team; and Manuel became the first quarterback for that team.

According to Manuel, he also tallied the first touchdown ever scored by a Bearcat.

After graduating from B.H.S. in 1947, Manuel attended Louisiana College. There, too, his education was interrupted by war. Being on active reserve, he was called back into duty during the start of his senior year at the college and served for 18 months. After his 18 months, he returned to the Pineville college to finish his studies for his B.S. degree, but before the completion of his final semester, then Basile High School principal Elden Brunet called to ask the former Bearcat to return to his alma mater to teach. However, Mr. Brunet wanted him to come to the school immediately. Manuel's professors consented, and Manuel began teaching and coaching at Basile High School in the spring of 1952 before receiving his college degree.

He remained at B.H.S. until 1959. While at B.H.S. Coach Manuel served as football coach, baseball coach, track coach, wrestling coach, and girls basketball coach. When Coach Louis Hanson took a leave of absence, Manuel took over as athletic director for one year.

He is still praised among the coaching ranks for his contributions to the sport of high school wrestling, a program he worked hard to develop at Basile High and at South Cameron High when he left B.H.S. In fact, at a recent state wrestling tournament, he was honored for his contributions to Louisiana high school wrestling.

Coach Manuel believed whole heartedly in sports such as wrestling where a boy any size could compete against someone else his own size.

When Coach Manuel arrived at B.H.S., Mrs. Juliette Totten was the girls' basketball coach. When Mrs. Totten had to stop coaching because she was going to have a child, Manuel took over an deserved as girls basketball coach for four years. One year he took the Lady Bearcats all the way to the state semifinals.

Always striving to improve himself, Manuel continued his formal education while teaching. He received his Master's from Colorado State and later attended LSU where he received his plus 30 and was just short of his Ph.D.

In 1959 Coach Manuel left B.H.S. to become athletic director at South Cameron High where he remained until 1973 when he became principal of Grand Chenier Elementary School. He retired from education in 1980.

In 1953 Manuel married Helen Treme of Ville Platte who also later became a teacher at Basile High in the fourth and fifth grade.

Robert and Helen are the parents of two grown daughters, Mary Lacoste and Rachel Abadie.

# Policy told on school discipline

**(EDITOR'S NOTE--This is a summary of one of the policies of the Cameron Parish School Board. Others will be published from time to time in the Pilot.)**

Disciplinary action can include but is not limited to: counseling, corporal punishment, detention, in-school suspension, expulsion, referral to law enforcement, oral or written reprimands, other appropriate disciplinary measures.

A school principal may suspend from school or suspend from riding on any school bus any pupil who:

*Is guilty of willful disobedience.

*Treats a teacher, principal, superintendent, member, or employee of the local school board with intentional disrespect.

*Makes against any one of them an unfounded charge.

*Uses unchaste or profane language.

*Is guilty of immoral or vicious practice,s or of conduct or habits injurious to his associates.

*Uses tobacco or who possesses alcoholic beverages or any controlled dangerous substance governed by the Uniform Controlled Dangerous Substances Law, in any form, in school buildings, on school grounds, or on school buses owned by, contracted to, or jointly owned by any city or parish school board.

Any student after being suspended for committing any of the offenses enumerated above may be expelled, upon recommendation by the principal of the public school in which said student is enrolled.

# Loophole found in new gun law

CAPITAL NEWS

An unforeseen loophole in the state's concealed handgun law led a legislative panel to postpone approval of the rules and regulations needed to implement the legislation.

Several members of the Joint Legislative Oversight Committee on Judiciary at last week's hearing voiced concern that the new law would allow persons holding parishwide permits issued by sheriffs to get statewide permits without the handgun training required of other applicants. They praised the efforts of the Louisiana State Police in following the legislation while drafting the rules but said the law has more problems than they realized when they approved it.

"We've got a real problem" committee chairman Sen. Don Cravins of Lafayette said during the hearing.

As proposed by the state police, the regulations require a non-refundable $100 application fee and an additional nonrefundable $50 fee for anyone who hasn't continuously lived in Louisiana for the last 15 years. State police hope to have applications mailed out by Sept. 20, to the 4,000 people who have requested them, and they expect about 10,000 applications in the first year.

According to the proposed rules, an applicant must be a resident of the state for at least six months, show he has never spent time in a mental institution or been dishonorably discharged from the military, pass criminal background checks and pass a firearms safety or training course unless he is exempt. Exemptions include those with military training or a sheriff's permit to carry a handgun.

Saying he is "afraid we're going to discover some other things we might not like," Metairie Sen. Ken Hollis suggested postponing action on the regulations. Committee members agreed, but their action may be irrelevant.

Gov. Mike Foster, who has the final word on the rules, said he doesn't think concerns over the loophole are "valid". He believes the background check is the most important part of the rules. "The truth is the safety part of the weapon is what you are talking about, not knowing how to hit something with it. he's got to know where the safety is," Foster explained.

JUROR ASKS QUESTION

# What happened to the $12 million?

By GENEVA GRIFFITH

Where has the money gone? This is the question Police Juror George LeBouef asked at the Cameron Parish Police Jury meeting Tuesday.

On July 13, 1970, Louisiana House Bill No. 317 was passed and signed by Gov. John McKeithen to appropriate $12 million to build a new highway north from Cameron to serve as a hurricane escape route.

The bill provided evacuation routes for other parishes, in addition to Cameron, and the department of highways was authorized to construct as "expediously as possible" the evacuation routes.

The three authorized for Cameron were the new Cameron road and $6,300,000 for the Ellender bridge and $4,000,000 for the Gibbstown bridge.

The state bond commission was authorized to issue bonds in the amount of $115,600,000 to provide the general obligation bonds to finance the projects in 13 coastal parishes.

The Police Jury directed Tina Horn, Parish Administrator, to contact the highway department to find out what happened to the $12 million.

**4-H REPORT**

Mike Lavergne, Associate County Agent, assisted by Ryan King, 4-H member, gave the Cooperative Extension Service annual report, and Chance Doxey, 4-H member, reported on 4-H camp. Lavergne pointed out that Ryan had been elected State 4-H parliamentarian.

An ordinance was passed at the request of the Communications District to authorize a $25 fine on anyone not posting the 911 house numbers on their homes by October. This will have been a year since each residence or business was issued a number.

**TRAFFIC PROBLEM**

George LeBouef asked the jury to contact the DOTD to do a survey to find out what can be done about the 50 car ferry at Cameron which is having a problem handling the traffic.

"We need relief down here. The ferry is outdated and some people have to wait two hours or more on heavy traffic days," he said. He noted there are many 18-wheelers on the road due to the increased oilfield activities.

Insurance renewals on parish property and business autos of $64,229 and $21,728, respectively, were approved for payment. Bonnie Conner, treasuer, reported that it was slightly higher this year because some of the buildings have been appraised higher.

Mrs. Horn reminded the Jury of a meeting they are to have with the West Cameron Baord of Review on Sept. 16, at 10 a.m. to review the parish taxes, and Brent Nunez reminded the Jury of their meeting with the West Cameron Port Board, which has not as yet set a date.

# Jury takes actions

These were some of the actions taken by the Cameron Parish Police Jury at its monthly meeting Tuesday:

* Granted probationary right-of-way acceptance to Rainbow Road in Klondike. The road had been abandoned in 1983.

* Accepted the resignation of Police Jury Dusty Sandifer from the Economic Development Board, and appointed Bill Turnbull and Rodney Guilbeaux.

* Re-appointed Joe Soileau to the Southwest Hospital District Board.

* Authorized advertising for bids for a surplus flatbed pickup truck in poor condition, and dredging of East Fork.

* Approved the Cameron Pilot as its official journal.

* Added Country Terrace Subdivision to the noxious weeds ordinance.

# Fire rates reduced

By GENEVA GRIFFITH

Grand Chenier Juror Douaine Conner announced at the Cameron Police Jury meeting Tuesday that the fire insurance rates for Fire District No. 9 have gone from a Class 8 to a Class 6 for residential and commercial properties.

the new classification will result in lower fire insurance rates.

Properties located in the district which are within seven road miles of a fire station and within 1,000 feet of a fire hydrant, will receive this Class 6 rate.

This has been accomplished by improvements completed prior to a survey by the Property Insurance Association of Louisiana. Conner stated that much of the credit for this new survey goes to Fire Chief Joe McCall and his volunteers with the Grand Chenier Fire Department.

Homeowners in this district should contact their individual fire insurance companies notifying them of this change which will give them lower insurance rates, Conner said.

# Adult ed classes set

Adult Education classes may be held in Johnson Bayou, Hackberry, Grand Lake and Creole if enough students are interested, according to the Cameron Parish School System.

Classes are to increase the adults reading and math understanding and also to give them an opportunity to work on computers in the lab. Adults may work at getting their High School Equivalency Diplomas.

There is no charge for the Adult Education classes.

Those taking part will decide the time and the days of the week that the classes will be held.

If interested please call your area school secretary:

Grand Lake School, Janice Crador, 598-2231.

Hackberry High School, Gail Delcambre, 762-3305.

Johnson Bayou School, Diane Price, 569-2138.

South Cameron High, Michelle Trahan, 542-4628.

Central Office, Angie Styron, 775-7393.

## Aging Calendar

Cameron Council on Aging calendar of events is as follows:

Sept. 9, Grand Lake, bingo, 9 a.m.

SALTWATER FISHING GREAT

Saltwater fishing has really been great, especially if you get some good days when the gulf and lakes are calm and weather is good. The Big Lake area is producing speckle trout, better on the lower end, however, the oyster reefs around Turner's Bay are still producing both specks and redfish. The Cameron jetties are still good fishing and the old river had some nice flounder taken. (Clear silver metal flake grubs).

The speckle trout in the Mermentau River slowed a little, I figure because of the heavy rains, but the jetties are hot. Some good trout taken as well as the Vastar 66 (Conoco) platforms 4 to 5 miles offshore. Red snapper 25 to 30 miles out (West Cameron 171-transco) had real good sizes and quick limits. Twelve to 15 pound snappers reported as well as 4 to 5 pound speckle trout at Vastar 66.

September is usually a good month for both redfish and speckle trout on Calcasieu Lake, the jetties, Mermentau River and the gulf. However, we should start seeing some fronts come through and that can really stun the specks. Watch the birds working. Good artificial baits chartreuse silver flake cockahoe or grubs as well as purple-chartreuse colors and avocado grubs. Fresh shrimp are always old reliables. Cut mullets or live croackers are good offshore.

The fishing on Miami Corporations Permit Lands is closed, the last weekend was slow.

ALLIGATOR SEASON

The start of alligator season is a time to be very careful and the refuge manager, Vicki Grafe of Lacassine Refuge, has cautioned boats and anglers to be more careful than usual in traveling the refuge trails and canals, because of the baited hooks and also alligator trappers will be using firearms.

This harvest all over the parish as well as Lacassine Refuge is to regulate the population of the alligators. It is in violation of refuge regulations to tamper with the poles, lines or bait in any manner.

If buyers are interested in the refuge hides, contact Refuge Biologist Wayne Styron at 318-774-5923 for information.

COMMERCIAL NEWS

The Gulf of Mexico Fisheries Management Council will be holding meetings this month related to red drum, red snapper, shrimp and mariculture.

The status of red snapper stock, shrimp trawl bycatch reduction, license limitations for commercial red snapper and the status of gulf red drum stocks and review a report that has kept the federal waters closed to red fish being taken, will be discussed. Also, review of a draft policy on marine aquaculture.

Shrimp season has looked better with some good catches reported on the Calcasieu Ship Channel and in the gulf. Some nice 21-25 count shrimp reported with 40-50 a good average. oyster season also opens this week.

It seems the seafood industry is again in the news -- are fish, shrimp, oysters and crabs that we catch and eat here in our state safe? Some say yes, but scientists say we should keep seafood safety and keep monitoring all species. Some Louisiana oyster fishing closure has taken many acres of oysters out. Is sewerage from boats, or run off from animals contaminating our waters? Is industry to blame? Is it just a bad rap on our oyster beds. Researchers say we need to keep an eye open for the risk of toxic algae strains that cause problems in other parts of the world like Alaska.

Some forms of algae produce toxic chemicals that can be ingested by filter feeding shell fish and then get into the body of fish which feed on these. Look at the pesticides used in cotton crops that killed thousands of fish in the Boeuf River last month around Monroe, and then nine other fish kills across eastern Louisiana a week later. Increased spraying on cotton and increased rainfall cause the fish kills. Louisiana Wildlife and Fisheries has also investigated the nine fish kills in four other parishes, all by cotton fields.

DOVE SEASON

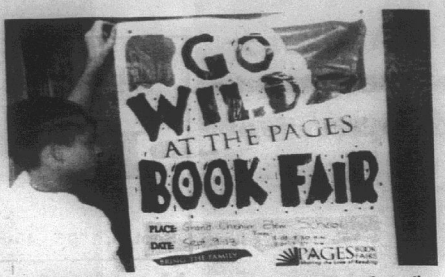
Well, we missed Labor Day hunting, but this weekend is opening of dove season. Sat., Sept. 7, at noon as well as Sun., Sept. 8, at noon, are the starting times. Monday it starts one-half hour before sunrise, but it's over quickly on Sept. 15, and the next split is oct. 19-Nov. 8.

Shooting hours are one-half hour before sunrise to sunset with daily bag limit of 15, possession of 30.

Many hunters, including myself, think of field baiting. If you hunt over a baited field, whether you know it or not, prosecutors don't have to show you put the bait there of even if you knew it. We may now have a break from a fifth circuit court of appeals ruling that hunters can only be convicted if they could have reasonably discovered the bait. The court ruled there could be no justice in convicting a hunter who was barred by a property line from knowing that birds were being attracted to the area by bait hidden from his view. It's suppose to be considered a baited field if baited within ten days, but because luring effects still remain after bait is removed, it could still be legally considered baited after ten days.

Federal officials say the baiting rule is necessary to protect bird populations, loss of habitat and illegal hunting.

The bottom line is that hunters will have to grin and bear it, because there seems to be little chance the law will be modified. All I say is be careful.



## Revival set at G. Chenier Baptist Church

Revival services will begin at the First Baptist Church of Grand Chenier Sunday morning, Sept, 8, at 10 a.m. They will continue that evening at 7 p.m. and then each night through Wed., Sept. 11, at 7 p.m.

Rev. Lindsey Burns, pastor of First Baptist Church in Jennings, will be the evangelist and Larry Dyson of Cameron, song leader.

Rev. Burns, a native of Lake Charles, was a music and preaching evangelist with the Revelations, an evangelistic association, while he was a student at McNeese State University. He has pastored churches in Alexandria, White Oak, Tex., and presently the one in Jennings. He has been revival preacher in 81 meetings in 8 states, as well as a speaker and teacher at various meetings, camps, retreats, Bible studies, and clinics.

Rev. Tanner is pastor of First Baptist Church of Grand Chenier.

GRAND CHENIER 4-H Club member Jared Cogar is posting a sign advertising Pages Book Fair at Cameron State Bank. Book Fair is Sept 9-13, at Grand Chenier School.

Some forms of algae produce toxic chemicals that can be ingested by filter feeding shell fish and then get into the body of fish which feed on these. Look at the pesticides used in cotton crops that killed thousands of fish in the Boeuf River last month around Monroe, and then nine other fish kills across eastern Louisiana a week later. Increased spraying on cotton and increased rainfall cause the fish kills. Louisiana Wildlife and Fisheries has also investigated the nine fish kills in four other parishes, all by cotton fields.

DOVE SEASON

Well, we missed Labor Day hunting, but this weekend is opening of dove season. Sat., Sept. 7, at noon as well as Sun., Sept. 8, at noon, are the starting times. Monday it starts one-half hour before sunrise, but it's over quickly on Sept. 15, and the next split is oct. 19-Nov. 8.

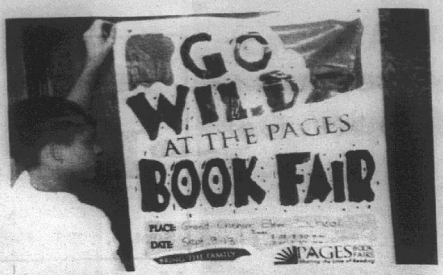
Shooting hours are one-half hour before sunrise to sunset with daily bag limit of 15, possession of 30.

Many hunters, including myself, think of field baiting. If you hunt over a baited field, whether you know it or not, prosecutors don't have to show you put the bait there of even if you knew it. We may now have a break from a fifth circuit court of appeals ruling that hunters can only be convicted if they could have reasonably discovered the bait. The court ruled there could be no justice in convicting a hunter who was barred by a property line from knowing that birds were being attracted to the area by bait hidden from his view. It's suppose to be considered a baited field if baited within ten days, but because luring effects still remain after bait is removed, it could still be legally considered baited after ten days.

Federal officials say the baiting rule is necessary to protect bird populations, loss of habitat and illegal hunting.

The bottom line is that hunters will have to grin and bear it, because there seems to be little chance the law will be modified. All I say is be careful.

The best medical advice for a cold is to go to bed, drink plenty of fluids and take it easy.



## Revival set at G. Chenier Baptist Church

Revival services will begin at the First Baptist Church of Grand Chenier Sunday morning, Sept, 8, at 10 a.m. They will continue that evening at 7 p.m. and then each night through Wed., Sept. 11, at 7 p.m.

Rev. Lindsey Burns, pastor of First Baptist Church in Jennings, will be the evangelist and Larry Dyson of Cameron, song leader.

Rev. Burns, a native of Lake Charles, was a music and preaching evangelist with the Revelations, an evangelistic association, while he was a student at McNeese State University. He has pastored churches in Alexandria, White Oak, Tex., and presently the one in Jennings. He has been revival preacher in 81 meetings in 8 states, as well as a speaker and teacher at various meetings, camps, retreats, Bible studies, and clinics.

Rev. Tanner is pastor of First Baptist Church of Grand Chenier.

GRAND CHENIER 4-H Club member Jared Cogar is posting a sign advertising Pages Book Fair at Cameron State Bank. Book Fair is Sept 9-13, at Grand Chenier School.

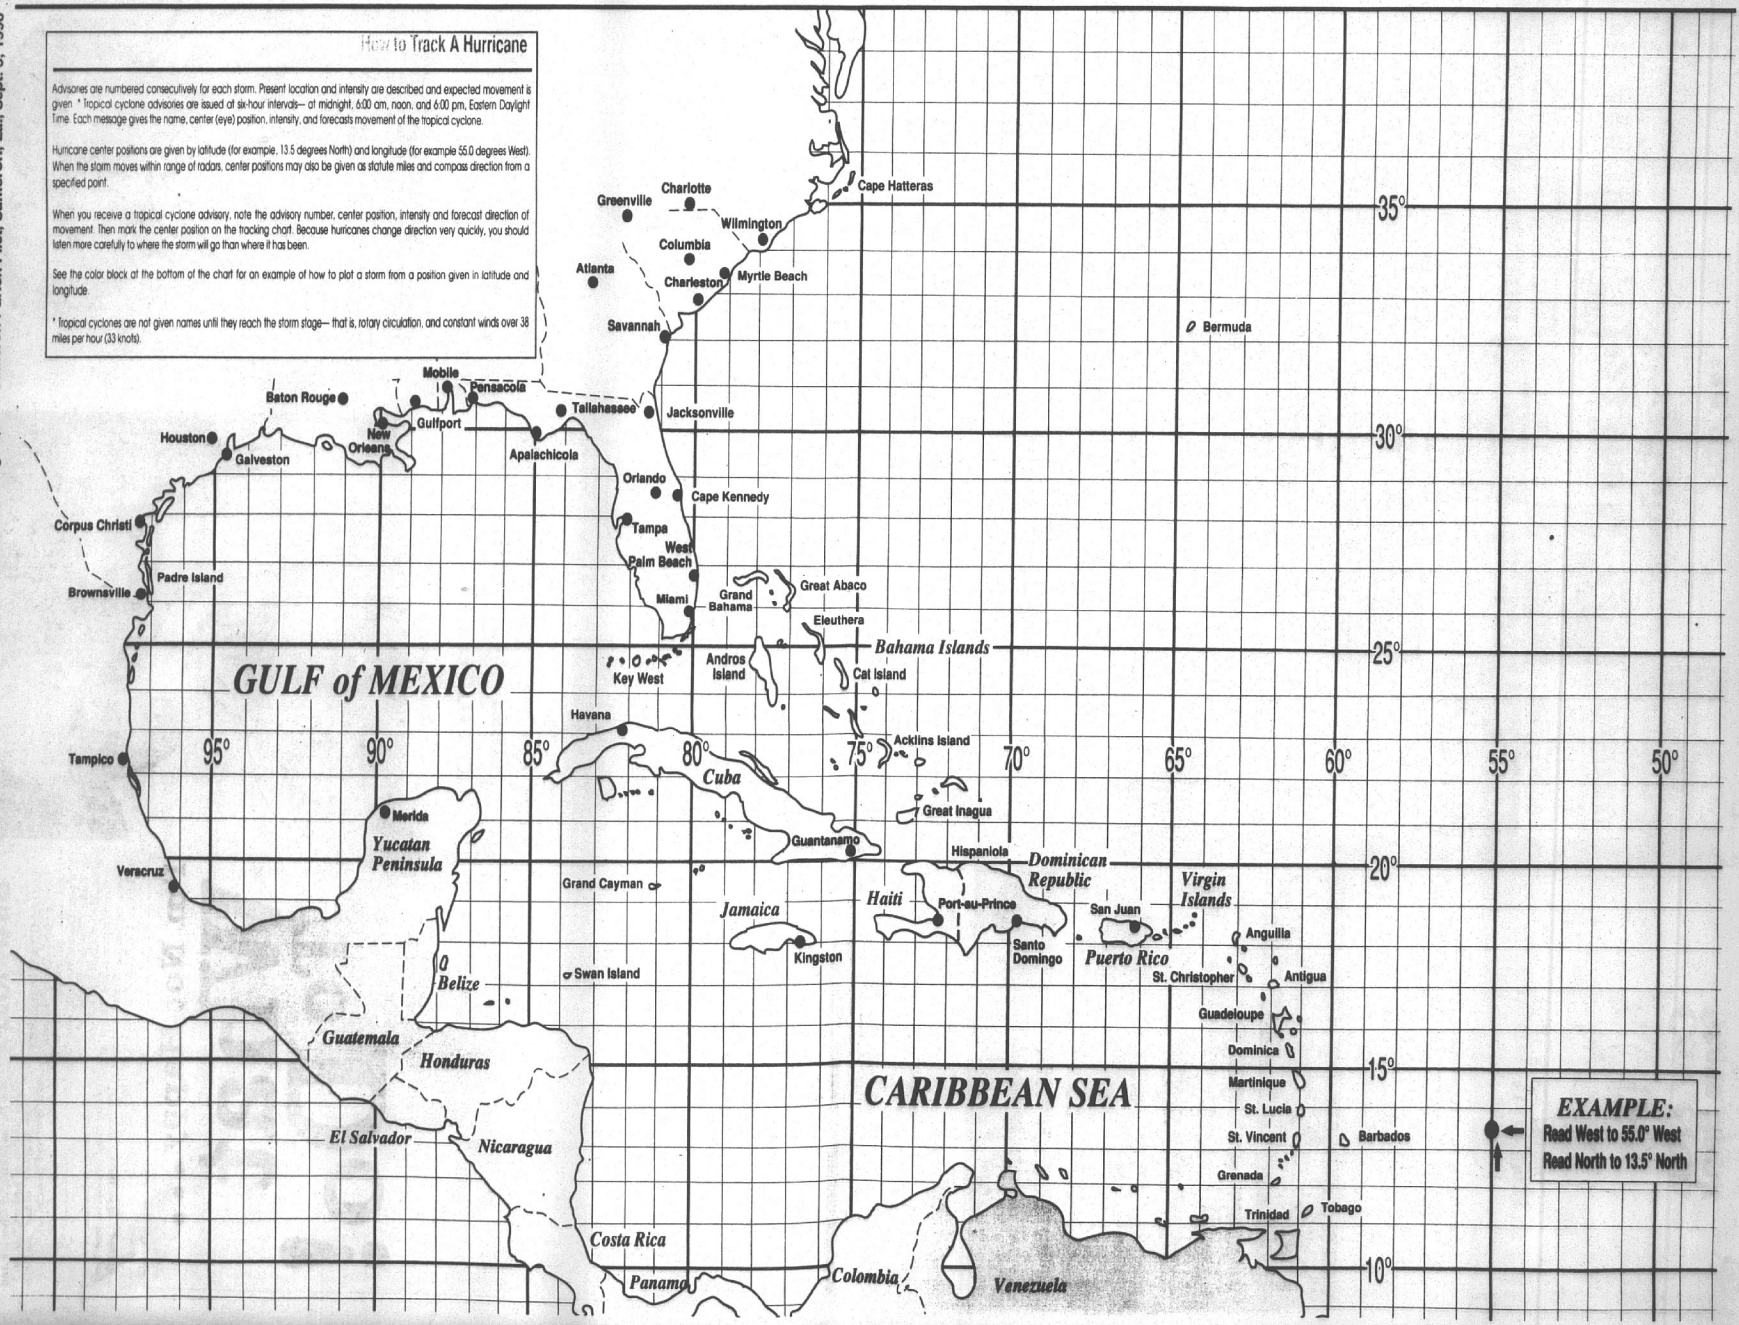
# Hurricane Tracking Chart

## How to Track A Hurricane



Advisories are numbered consecutively for each storm. Present location and intensity are described and expected movement is given. * Tropical cyclone advisories are issued at six-hour intervals— at midnight, 6:00 am, noon, and 6:00 pm, Eastern Daylight Time. Each message gives the name, center (eye) position, intensity, and forecasts movement of the tropical cyclone.

Hurricane center positions are given by latitude (for example, 13.5 degrees North) and longitude (for example 55.0 degrees West). When the storm moves within range of radars, center positions may also be given as statute miles and compass direction from a specified point.

When you receive a tropical cyclone advisory, note the advisory number, center position, intensity and forecast direction of movement. Then mark the center position on the tracking chart. Because hurricanes change direction very quickly, you should listen more carefully to where the storm will go than where it has been.

See the color block at the bottom of the chart for an example of how to plot a storm from a position given in latitude and longitude.

* Tropical cyclones are not given names until they reach the storm stage— that is, rotary circulation, and constant winds over 38 miles per hour (33 knots).

# Tarpons to play in DeQuincy Fri. night

By JOE MUELLER

The 1996 football season once again kicks off with the Tarpons and Tigers facing off.

This year the contest will be at Tiger Stadium in DeQuincy with the kickoff scheduled for 7 p.m.

Last year the two teams met in South Cameron with the Tigers scoring a 20-3 win.

Both teams played in last week's Iowa Jamboree and each one scored a one touchdown victory. The Tarpons, who scored on their opening drive, defeated Iowa 7-0, and the Tigers picked off an errant Barbe JV pass and ran it into the end zone for an 8-0 win.

The Tigers defense looked strong in the Jamboree as they held their opponent to less than 30 total yards. The Tarpons looked like they could move the ball as they rushed for over 100 yards in the short Jamboree game.

The game could very easily develop into the Tiger defense versus the Tarpon offense.

lst year the Tigers used a strong ground game to win the contest 20-3.

The Tarpons were very young last year and return a lot of starters for the '96 campaign.

The Tigers offense was non-productive in the Jamboree. The weather was a definite factor for this but the Tigers also need to improve as they had a blocked punt and also another punt misplayed so you can't make mistakes like that against a team of South Cameron's caliber.

The Tarpons did give up 60 yards rushing to Iowa in the Jamboree but they stopped the Yellow Jackets when they got close to the goal line.

The game should be a good yardstick for both coaches as it will definitely be hard fought and both teams are predicted to do well in their districts.

The Tigers also scored a victory over the Tarpons in 1994 as they won 19-10. The series between the two teams has been long and very closely contested.

Let's fill the stadium on this opening week of high school football.

# Tarps take win Friday

By JOE MUELLER

The South Cameron Tarpons used a strong running game to score a 7-0 win over host Iowa in the Jamboree held last Friday.

Despite a very muddy and wet field the Tarpons ground out over 110 yards rushing.

South Cameron took the opening possession and moved the 70 yards to paydirt in eight plays with the touchdown coming on a 9 yard run by freshman Steve Moore.

The Tarpons defense was tough when they had to be in the first half. The Yellow Jackets moved down to the Tarpon 13 yard line but were held on a 4th and 3 play to no gain.

Again, late in the game the Yellow Jackets intercepted a pass and went down to the Tarpon 28 yard line. They had a run to the two yard line that was nullified by a penalty. Then the Tarpons threw the Yellow Jackets back on two consecutives before recovering a fumble with only 19 seconds left in the game.

The Tarpons running backs showed good speed and quickness. The offensive line moved off the ball well and crated some good holes. The Tarpon passing attack was never really tried as the extremely wet rainy conditions made the ball heavy and slippery.

The Tarpons extra point was true so it looks like they have a kicker.

The Tarpons will open the league season on the road at DeQuincy Fri., Sept. 6, with kickoff scheduled for 7 p.m.

## Joe's Picks

By JOE MUELLER

Well, here goes the first week:

Vinton over Lake Arthur, South Beauregard over Merryville; Kinder over Elton; St. Louis over Iowa; Pickering over Welsh, North Vermilion over Catholic New Iberia; Northwood over Rosepine; Basile over Iota, Notre Dame over Vermilion Catholic; DeQuincy over South Cameron.

# Sabine sets teal season

The Sabine National Wildlife Refuge will open Sept. 21, 22, 25, 28 and 29, for the teal season, Refuge Manager Nidecker announced. The dates reflect the refuge's hunting format of Wednesdays, Saturdays, and Sundays, only. The designated hunt area contains 24,000 acres and is the same area that has been hunted in past years.

Teal hunting will be permitted until noon each day of the teal season. All persons 16 years of age or older participating in the hunt must be legally licensed to hunt waterfowl in the State of Louisiana. All hunters are required to check in at the check station before hunting and check out upon completion of their hunt.

Refuge teal hunters should be extra cautious this season. They will be sharing the West Cove parking lots, canals and bayous with fishermen. Teal hunters may enter the West Cove parking area to line up their boats for launching at 4:30 a.m. Teal hunters will be permitted to enter the refuge two hours before legal shooting hours. Legal shooting time is one half hour before sunrise. Teal hunters will complete their hunt and be out of the refuge by noon, Nidecker continued.

Nontoxic shot shells are required for hunting teal. Steel shot, steel shot reloads and bismuth-tin shots may be used.

There is no minimum age for youth hunters. They must have proof with them of successfully completing the Hunter's Safety course in order to enter the refuge hunt area. Each hunter under th age of 16 must be under the close supervision of an adult. For safety reasons, each adult may have only one juvenile under his supervision.

The use of motors to run boats in the marsh is prohibited, Nidecker noted. The operation of trolling motors is permitted.

Cork is made from the extremely thick outer bark of the oak tree.

## Grant application deadline is set

The annual deadline for all Southwest Louisiana grant applications for the Louisiana Decentralized Arts Funding Program is Fri., Sept. 13. The program gives organizations an opportunity to develop arts activities to meet their local needs.

The Arts and Humanities Council of Southwest Louisiana is responsible for coordinating the distribution of $115,461 in Calcasieu, Cameron, Allen, Jeff Davis and Beauregard parishes. The funds are distributed to every parish in the region on a per capita basis -- roughly 50 cents per person, and grant applications will compete only against other applicants from their parish.

Applicants can apply for grants in three categories: project assistance, technical assistance and organizational support. Eligibility is open to non-profit organizations, non-profit arts organizations, governmental agencies, schools, school boards, and universities. Applicants may contact the Arts & Humanities Council office for applications, guidelines and assistance at 439-2787.

A heavy rain fell in Creole and vicinity, which has done considerable good to the crops and fall gardens which were suffering from the drouth. It lightened the heavy work of pumping water for the stock to drink. Several artesian wells were equipped with pumps and engines, others pumped by hand.

Mrs. Pierre Broussard died at her home Wednesday after a brief illness. She is survived by her husband, four daughters and one son. Funeral service was held at the Sacred Heart Church of Creole, Father Pierenee officiating.

Miss Lucille LeBouef returned to her home after attending summer term at S.L.I. She will remain with her parents until the fall term of school opens at Lowery, where she will teach.

Mrs. Adolph Hebert and son returned to their home at Grand Lake after spending two weeks in Cameron with her mother and other relatives.

Friends and relatives of little Elma Richard are glad to hear that she is improving after being sick for several weeks with malaria fever.

Mr. John Miller, our leading merchant and sheriff of Cameron, returned home Wednesday from a trip to Lake Charles and other points, very ill,

**FUR FESTIVAL SET THIS NOVEMBER**

The eighth annual Louisiana Fur and Wildlife Festival will be held in Cameron, Friday and Saturday, Nov. 29 and 30, 1963– Thanksgiving weekend, it has been announced by Hadley A. Fontenot, festival president.

The festival has been held in January every year since 1956– with the exception of 1958 when the festival was cancelled because of havoc caused by Hurricane Audrey.

Because of the bad weather experienced on the January festival dates in recent years, the festival's board of directors decided to move the date back about a month when conditions would be more favorable.

**RIDGE ROAD**

Bids on the blacktopping of the Front Ridge Road, a major parish road in lower Cameron Parish, will be received by the Police Jury on Oct. 7, it was announced at the jury's meeting Tuesday.

The 7.5 miles of hardsurfacing will begin about six miles east of Cameron where the Front Ridge road meets the highway and extend to Oak Grove. The road provides a convenient route between Cameron and the Oak Grove and Grand Chenier areas.

**INTERESTING POPULATION FIGURES**
**(By Jerry Wise)**

We got some interesting figures on the population of Cameron Parish from Dr. G. Vasquez, director of the Cameron Parish Health Unit, while getting some information on the health unit this past week. In 1960, there were more males than females in the parish--3,323 white males and 239 black males as compared to 3,147 white females and 200 black females.

There were 963 residents under five years of age and 412 persons over 65.

**ROUNDABOUT THE PARISH**

Hackberry -- Hackberry football fans will get a gander at the "new look" in the Hackberry High football team when the Mustangs tangle with the Westlake Rams in Westlake Friday night. Despite several losing seasons, the Mustangs feel that this is the year to start th move up. The team has a good nucleus of eleven returning lettermen - of which seven are regulars - around to which build a team. John Debarge is the new head football coach and Benny Sanders and Harold Buckmaster are assistants.

## Sabine Refuge to open for teal season 21st

The Sabine National Wildlife Refuge will open Sept. 21, 22, 25, 28 and 29, for the teal season, Refuge Manager Nidecker announced. The dates reflect the refuge's hunting format of Wednesdays, Saturdays, and Sundays, only. The designated hunt area contains 24,000 acres and is the same area that has been hunted in past years.

Teal hunting will be permitted until noon each day of the teal season. All persons 16 years of age or older participating in the hunt must be legally licensed to hunt waterfowl in the State of Louisiana. All hunters are required to check in at the check station before hunting and check out upon completion of their hunt.

Refuge teal hunters should be extra cautious this season. They will be sharing the West Cove parking lots, canals and bayous with fishermen. Teal hunters may enter the West Cove parking area to line up their boats for launching at 4:30 a.m. Teal hunters will be permitted to enter the refuge two hours before legal shooting hours. Legal shooting time is one half hour before sunrise. Teal hunters will complete their hunt and be out of the refuge by noon, Nidecker continued.

Nontoxic shot shells are required for hunting teal. Steel shot, steel shot reloads and bismuth-tin shots may be used.

There is no minimum age for youth hunters. They must have proof with them of successfully completing the Hunter's Safety course in order to enter the refuge hunt area. Each hunter under the age of 16 must be under the close supervision of an adult. For safety reasons, each adult may have only one juvenile under his supervision.

The use of motors to run boats in the marsh is prohibited, Nidecker noted. The operation of trolling motors is permitted.

The refuge hunting brochure is also a permit to enter the refuge. It must be signed and in the hunter's possession while on the refuge. The permit is free and is good for the early teal season and regular waterfowl season.

Additional information, copies of regulations or maps of the hunt area may be obtained by writing to: Sabine National Wildlife Refuge, Hwy. 27 South 3000 Main Street, Hackberry, La. 70645 or by calling 762-3816.

## Students have new textbook on economics

Cameron Parish high school students have a new supplemental Free Enterprise text entitled, "How Church Taylor Got What He Wanted", which was donated during the spring semester to 451 public and non-public high schools across the state. Fifty institutions throughout the state provided funding for over 51,000 copies of the young adult's financial responsibility education text to high schools in all 64 Louisiana parishes.

The book is written on a high school level and is intended to make learning about financial responsibility interesting to students. The textbook covers subjects ranging from the basics of money and the marketplace, earning money and using credit, and the basics of insurance and taxes, and includes discussions on federal laws that affect consumers, bankruptcy, gambling, and other issues relevant to financial responsibility.

In Cameron Parish, Calcasieu Marine National Bank paid for the printing of the book.

# Adrienne [illegible]u is Miss Rodeo La.

Adrienne Larissa Picou, the 22-year-old daughter of Hayes, Jr., and Mary Picou of Grand Chenier, has been named Miss Rodeo Louisiana and will represent the State of Louisiana at the 1997 Miss Rodeo America Pageant in conjunction with the National Finals Rodeo in Las Vegas, Nev., Dec. 1-7, 1996.

Miss Picou, an honor graduate of South Cameron High School, was the 1991-92 La.High School Rodeo Queen and National High School Rodeo Queen Contest finalist, Miss Cameron 1994 and 1995 La. Fur and Wildlife Festival Queen. She was also Louisiana's All-Around cowgirl and a top contender at the National High School Finals Rodeo throughout her high school career.

A senior accounting major at McNeese State University, she was a member of the MSU Rodeo team for four years and competed in the College National Finals Rodeo in Bozeman, Montana.

As Miss Rodeo Louisiana, she travels throughout the state and appears at various official functions. One of her major contributions is assisting with the establishment of a special kids' rodeo, focusing on physically and mentally disabled children, which will be in conjunction with the La. High School Finals Rodeo scheduled for June 23-29, 1997. She is also available to assist with other community service projects.

Established in 1955, the Miss Rodeo America Pageant symbolizes the youth of our nation who wish to further promote the sport of professional rodeo and the western way of life. Miss Rodeo America travels throughout the United States as an official ambassador of rodeo.

As Miss Rodeo Louisiana, Miss Picou will compete with other states' contenders in the areas of prepared state speech, extemporaneous speech, four

Adrienne Picou

horsemanship patterns, interview, modeling, photogenics and fashion show creativity. Following tabulation of these areas, the field is narrowed to the top five contestants who will answer a second extemporaneous question which will be judged on response, presence, manner of presentation, appearance and personality. The contest covers a seven-day time span.

The Miss Rodeo Louisiana Committee is currently conducting a fundraiser to offset the entry and agreement fees, state dues and contestant travel and expenses. First place winner will receive $1,000 cash with second and third places receiving $300 and $200 cash, respectively. The donation is $100 and only 100 tickets will be sold. The drawing will be Wednesday, Nov. 7, at Meaux's Western Wear in Lake Charles.

For more information or to help sponsor Miss Rodeo Louisiana, contact, Adrienne, Pete or Mary Picou at 538-2336 or Stephanie Rodrigue, Louisiana State Delegate, at 542-4615.

## Beachsweep set for Sept. 21

Beachsweep 96 is set for Saturday, Sept. 21 between the hours of 10 a.m. and 2 p.m.

Due to high tides, the beach has cleaned itself to a certain extent.

Clean up of the beach each year is important in improving both the environment and tourism.

Since the inception of Beachsweep in 1987, it has been an event in which young people are educated in the importance of a clean environment in the parish.

Alreacy school groups, scout groups and other organizations are preparing for Beachsweep 96.

For assignment to a beach, call Ed Kelley, Cameron Parish Beachsweep coordinator, at 318-775-5493 during the day or 318-775-5397 after 4 p.m. Complete details will be given at that time.

As usual, there will be food stations with cold drinks and hot dogs for all participants.

## Mailbox may win a prize!

Your mailbox could win you a prize!

That's right. The condition and appearance of your mailbox could lead to its entrance in this year's mailbox improvement contest sponsored by your local post office.

Your letter carrier will be choosing boxes on this route to photograph and enter into the contest. Get your box ready by making sure it is clearly marked with your address, free of rust and insects, stable and level on its post, waterproof, has a flag in working order, with an approach that's graded and not blocked by garbage cans, vehicles or other stationary objects.

Mailboxes will be judged in three categories: best all around, most original, most unusual.

Improvements should be completed by Sept. 26 with winners to be announced on Oct. 7 and 8.

A mailbox in good condition helps to make delivery more efficient and improves the appearance of your home. Many boxes are already in good condition. Check today to see if yours needs to be included in your 'spring cleaning'.

Call your local post office for more information and details.

Participating postoffices are:
Cameron - 775-5973
Creole - 542-4499
Grand Chenier - 538-2660
Hackberry - 762-3588

At the Louisiana State Fair in Shreveport, exhibitors from throughout the state will be honored for points accumulated both in showmanship and exhibition during the 1996 season. Winners will receive monogrammed jackets and scholarship money. Several exhibitors from Cameron Parish hold top placings in both categories.

## Church to sponsor Alligator Festival Sunday, Oct. 6

St. Eugene Catholic Church in Grand Chenier will sponsor the 11th annual Alligator Harvest Festival Sunday, Oct. 6, at Grand Chenier State Park.

The day will kick off with the blessing of the boats at 9:45 a.m. by Monsignor Vincent.

At 10 a.m. both the boat races and crowning of the Senior Citizen Queen will begin, followed by the Little Mr. and Miss Pageant.

At 11:15 a.m. the Joseph Sturlese Family Memorial Plaque will be presented for the largest alligator.

A volleyball tournament will begin at noon with winning teams receiving cash and t-shirts.

The auction will begin at 12:30 p.m., with 2 p.m. designated as deadline for the silent auction.

An alligator skinning demonstration will take place at 1:30.

Throughout the day the boat races will continue, live bands will play and a number of food items will be sold, including barbecue lunches, fried alligator, gumbo, boiled crabs, catfish courtbouillion and hamburgers. T-shirts, caps and country store items will be sold and a number of children's games will be available.

## "Fiesta Frenzy" is the theme for Cal-Cam Fair

"Fiesta Frenzy" will be the theme of the 1996 Calcasieu-Cameron Bi-Parish Fair, opening Oct. 15, and running through Oct. 20.

Registration for the Tiny Tot contest is now being accepted. A child, 4 or 5 years old, whose birthday is on or before Oct. 18, 1996, is eligible to enter.

Information on all contests has been mailed to the principals of all area schools. Contests of interest to schools and students are the senior queen contest, junior queen contest, poster contest, essay contest, parade, school exhibit competition, Lil' Miss Cal-Cam Fair queen pageant, Deb Miss Cal-Cam Fair queen pageant, and individual and club entries.

For more information on any fair activities, call the fair office.

## Parish named in magazine for great bird watching

The September issue of Wildbird magazine named the Sabine and Lacassine National Wildlife refuges as the 35th best bird watching spot in North America.

Both refuges are along the Creole Nature Trail Scenic Byway, which meanders along the southwest corner of the Gulf of Mexico and north through scenic marshlands.

The Sabine National Wildlife Refuge was established in 1937 and contains over 142,000 acres, including numerous bayous, man-made canals and levees, ponds, lakes and wooded islands. The refuge is home to over 250 species of birds and is the largest waterfowl refuge on the Gulf Coast.

The Lacassine National Wildlife Refuge covers 31,776 acres of freshwater marshland and hosts over 200 species of birds.

The marshlands of Cameron Parish are a perfect winter home, to hundreds of waterfowl, including many species of birds migrating north from South America, according to Roy Walter, a fisheries biologist at the Sabine Refuge.

If you have any questions, contact Julie Vezinot at 318-436-9588.

# So. Cam Hospital to hold Health Fair

South Cameron Memorial Hospital Wellness Program will present the Cameron Parish Health & Wellness Fair on Wed., Sept. 18, at Cameron Recreation Center, according to Dr. Cathy Denison-Wicke, director of the Wellness Program.

Derinda Morris, Wellness Program Coordinator, states that this event is open to all residents of Cameron Parish and surrounding areas and will be beneficial to members of the entire family.

There will be a youth session presentation from 10 a.m. -1:30 p.m. and a general public session from 2:30-7 p.m. A schedule of topics is printed in this issue of the Cameron Pilot.

Some of the exhibitors will be: Lake Charles Memorial Hospital, W. O. Moss Regional Medical Center, Cameron Parish Public Health, Cameron Parish School System, Cameron Parish Cooperative Extension Service, Cameron Parish Sheriff's Department, Area Health Education Center, American Cancer Society.

Also, Sowela Technical Institute, McNeese State University Agriculture Department, McNeese State University College of Nursing, McNeese State University Health and Human Performance Dept., Hixson Funeral Home; American Red Cross.

The Therapeutic and Educational Animal Center of SWLA, Cameron Parish Emergency Medical Service, DARE Program, Cameron Parish District Attorney, Louisiana Safe Kids Coalition; SCMH Fitness Center, La. Poison Control Center.

And St. Patrick's Hospital, Cameron Parish Council on Aging, La. Wildlife and Fisheries.

Contact Cathy Denison-Wicke at 542-5239 or Derinda Morris, 542-5241.

## Baby contest set at Fair

Better Baby Contest will be held Mon., Oct. 7, from 8 a.m. until 12 noon at the Calcasieu-Sulphur Health Unit at 201 Edgar St., in Sulphur. This is in conjunction with the Cal-Cam Fair.

Babies are judged on health only, beauty is not a factor.

No pre-registration is necessary and there will be no entry fee. Parents may bring their babies for examination any time during the times stated.

Winners will be presented on the Louisiana Fair Stage on Tues., oct. 15, at 5:45 p.m.

Winners will be notified by phone.

## Alligator Fest. pageant set

The Alligator Festival '96 Miss Gator Queen Pageant and Talent Competition entry deadline of Sept. 13, has been extended to Sept. 20. This is the final deadline. Forms must be mailed on or before Sept. 19. For forms call 775-7390 or 775-7160.

The pageant will be held Sat., Oct. 5.

# Longer duck hunting urged

Sen. John Breaux said that he has urged the Administration to extend the duck hunting season in Louisiana to a 53-day season, with a six duck bag limit, ending Jan. 23, 1997.

"Duck hunting is not only a widely supported activity, but it also contributes significantly to our economy," Sen. Breaux said. "The waterfowl population in Louisiana has made a significant recovery in the past three years. Because we have worked hard to restore our reserves, I believe Louisiana's duck hunters should be able to take full advantage of their conservation successes."

In a letter to John Rogers, the acting director of the U.S. Fish and Wildlife Service, Sen. Breaux joined Sens. Bennett Johnston, Thad Cochran, Trent Lott, Richard Shelby to urge extension of the duck hunting season in their states of Louisiana, Mississippi and Alabama.

"Favorable weather and expanded habitats for breeding, migration and wintering areas have increased the number of wildfowl in our three states," Sen. Breaux said. "Because of these conservation efforts and others, we understand the populations of the principle species of waterfowl are now above the North American Waterfowl Management Plan goals."

Sen. Breaux said if his request to extend the duck hunting season is approved, the longer hunting period would affect the 1996-97 season, which is scheduled to begin on Sept. 28. A final decision should be made by the U.S. Fish and Wildlife Services in the next few weeks.

## Telemedicine program set

South Cameron Memorial Hospital will hold a Telemedicine Education Program Mon., Sept. 16, 12-1 p.m.

The topic will be "Treatment of Snake Bites", and will be held in the South Cameron Memorial Hospital Telemedicine Suite. Dr. Diaz, University Hospital/LSU Medical Center, will be the speaker.

The general public is invited; please RSVP by Fri., Sept. 13, to Jenny Broussard at 318-542-5285.

**FIRST TRIP BY CAR FROM GRAND CHENIER TO LAKE CHARLES**

For the first time in history, an automobile has made the trip from Grand Chenier to Lake Charles.

Cameron Parish, which has always been isolated from the rest of the world in every way except by boat, is rapidly acquiring the various modern mediums of contact. Some time ago, a telepone line was built as far as Hackberry. The Gulf Beach Highway, which is being extended from Sulphur to Leesburg, will give a hard-surface road through the western part of the parish to the gulf.

Tough the road is not yet completed and open to traffic, special permission was granted yesterday to S. W.Sweeney to travel it for the purpose of getting the election returns for the parish to the American Press office.

As the result, the Cameron returns were flashed on the screen at the American Press election "party" last night. This is the first time this has been possible. Always before, the result of the election in Camerin has not been known until the boat came in the next day.

Also, the Cameron returns were the first to be received, complete, at the American Press office. So all kinds of records were broken last night. An epoch was marked in the history of Cameron Parish.

Mr. Sweeney had several assistants in gathering the returns. Since the telephone line, so far, extends only as far as Hackberry, with a private line running on to the ome of W. T. Burton at Mud Pass, it was necessary that all other boxes be visited.

Ed Sweeney, a borther of S. W. Sweeney, started, in the auto belonging to and driven by Harold Carter, at Cow Island, immediately after the votes had been counted there. They stopped at Grand Chenier, Creole, East Creole and the courthouse at Leesburg. Meanwhile, Delino LeBoeuf made a trip from Leesburg to Johnson's Bayou and back, bringing the returns from that box to Mr. Sweeney, whom he met at Leesburg. The trip was then made to Mud Pass where the returns were telephoned over Mr. Burton's private line. J. D. Demarets brought in the news from Grand Lake.

S. W. Sweeney voted at Grand Chenier at 4:30 p.m. and then drove to Hackberry where he stopped to receive his telephone messages. He then drove in to Lake Charles, reaching here by 8:30. He was accompanied by his son, Woodrow.

Mr. Sweeney really made almost a circle yesterday, driving from Lake Arthur to Lake Charles, Sulphur, Leesburg and on to Grand Chenier, and back again, a total distance of about 210 miles. It is the first time such a trip as that was ever possible. Though it was a long ways around, the trip from Lake Arthur to Grand Chenier was made by land.

In this first trip by land from the interior of Cameron into Calcasieu Parish, it is recalled that several years ago the Press resorted to the then unique method of using an airplane to obtain the news promptly from an otherwise inaccessible region. During the Harvey trial, the Press had an airplane daily bringing the latest news of the trial to the office, and then return to Leesburg with the evening papers, containing the printed story.

Judge Porter used the plane in ordering papers served and this was the first event of that kind on record.

Newspaper use of planes is fairly common now, but so far as is known, the American Press pioneered in using planes for paper and news delivery at least in the south.

**HEALTH UNIT MILLAGE VOTE**

Resident property owners of Cameron Parish will go to the polls Saturday to vote on a one-mill maintenance tax for the Cameron Parish Health Unit.

Cameron Parish's $12,500 share of the unit's annual budget of $25,000 (the state puts up the other half) has been paid for out of appropriations from the Rockefeller Wildlife Refuge funds since the unit opened in 1955. However, these funds are no longer available and the one-mill tax is needed to continue the operation of the health unit.

It was pointed out by the parish officials that homestead exemption will cover the tax, and that all persons who have assessments of $2,000 or under will not have any tax to pay.

The Cameron Parish Board of Health and all four of the parish's four physicians have gone on record favoring the passage of the maintenance tax.

**LET'S KEEP THE HEALTH UNIT!**

**(A Pilot Editorial)**

If each taxpayer in Cameron will acquaint himself with the may services that he receives from the Cameron Parish Health Unit, we believe that he will vote for the one-mill health unit maintenance tax Saturday.

Chief beneficiaries of the health unit are the parish's children, who each year are given health checks and eye and ear tests through cooperative arrangements of the health unit and the schools.

Mothers-to-be and infants are checked regularly at the health unit and at clinics held throughout the parish. These services are particularly valuable to persons of modest means who cannot afford other care.

The health of everyone in the parish is protected by the unit through its inspections of milk, water and food supplies. Public eating places are inspected regularly to make sure that the operators meet all health requirements.

A one-mill tax is a very small charge to pay for the good health of one's family and neighbors.

**DEMOCRATIC COMMITTEE MEETS**

The Cameron Parish Democratic Committee met Tuesday to issue the call for the Jan. 7 first primary election in the parish. Deadline for qualifying with the committee for parish offices is 5 p.m. Tuesday, Sept. 17.

Candidates may qualify either with the committee secretary, Jerry Jones, at his office on the north side of the courthouse square, or with the committee chairman, Joe Rutherford, at his home in Oak Grove.

The following filing fees have been set: $26 for ward offices (constable, justice of the peace and police juror) and $30 for parish offices (sheriff, representative, etc.)

Among the early filers with the committee were: Joe Rutherford, for sheriff;Leslie Richard and Daniel Roux, Jr., for assessor; J. Berton Daigle, clerk of court; Horace Mhire, Ward 1 juror; D. Y. Doland, Jr., Ward 2 juror; Adam Dorestan LaBove, ward 3 juror.

A. M. (Red) Smith, Ward 5 juror; John A. Lowery, Ward 6 juror; Ralph R. Adams, ward 6 justice of the peace; and Abel Kershaw, ward 6, constable; Francis Erbelding, ward 5 juror; Oran Trahan, ward 5, constable; Ernest Q. (Boone) Hebert, ward 4 juror.

**RICE HARVEST MAY SET RECORDS**

The 1963 Cameron Parish rice harvest may set two records, according to County Agent Hadley Fontenot. It appears that this may be the earliest harvest ever completed and it may be a record yield.

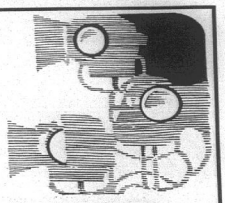
Mr. Fontenot said that the early variety of rice being planted here and the very good harvesting weather experienced will account for the early harvest. Many farms throughout the parish are already through harvesting and practically all in the Klondike area are complete.

The agent cited one example of the rapid harvest and good yield. Between Aug. 8 and 30, the Dixie Rice Farms at Klondike harvested 2200 acres of rice, with an average yield of 24 barrels to the acre.

Mr. Fontenot quoted another Klondike farmer, Francis Klein, as saying, "We are getting some rice yields now that just a few years ago we only dreamed about."

**ROUNDABOUT THE PARISH**

Rt. 1, Cameron - The showers are a welcome relief to our area. I suppose we'll have a new crop of mosquitoes. During the bad weather last week, lightning struck in the home of Mr. and Mrs. Stanley Abrahamsen, burned out their television set and shocked Mrs. Stella Daigle.



Grand Lake-Sweetlake - Rice farmers are still on the move bringing in their crops and anxiously looking forward to the day that the harvest will be completed. Nolton Richard and Absie Duhon have all but about thirty acres of rice in, while Sidney Fruge and Lester Guidry have a little over 100 acres each left to harvest. Hay baleing has come to a halt with the many showers that have been falling in the area.

Cameron - About 30,000 pounds of red fish were given away Thursday night to the Cameron people by James Fredirick, captain of a Pogey boat. Some folks kept coming back for more, others got some to freeze for relatives from out of town and many had a red fish sauce piquante for dinner Friday. Some of the fish weighed 30 to 40 lbs.

Creole - The benefit barbecue given jointly by the Knights of Columbus and the Catholic Daughters Court Mary Olive this past Sunday at the K of C Hall in Creole turned out to be such a tremendous success that by 1 p.m. everything on the menue was completely sold out. Following the barbecue in the afternoon, the children enjoyed the pony-drawn cart rides while adults played bingo. Winner of the Blessed Virgin statue for guessing the number of beans in a large jar was Kavin Savoie, young son of Mr. and Mrs. Sidney Savoie.

Oak Grove - Mr. and Mrs. Harry Dupuy and children have returned to Alexandria after spending a week with Mrs. Elza Miller. The Dupuys spent a very profitable week shrimping and will take a good supply of shrimp home for the deep freezer.

Black News - Miss Barbara Jane LeBlanc left Sunday for Fort Valley, Ga., where she will be instructor of botany. Miss LeBlanc formerly taught at Southern University in Baton Rouge. She is the daughter of Mr. and Mrs. Lester Bartie.

Holly Beach - An electrical storm last Thursday night brought a three-hour power outage. Saturday, another storm accompanied by strong wind gusts and rain, touched this area for a brief period. The rain brought relief from the avid hot days

Grand Chenier - The Grand Chenier Home Demonstration Club held its annual family picnic Sunday at the Grand Chenier Park. Families attending were the Evans Mhires, Lynn McCalls, Watkin Millers, Freddie Richards, Claude McCalls, Dallas Brasseauxs, Niel Richards, Dudley Mayards, Robert Chabrecks, Howard Dupuis, Garner Nunezs, Edward Richards, Omer Smiths, Emma Nunezs and Lyle Crains.

Hackberry - Little Kevin Roy Broussard, Jr., celebrated his birthday recently at the home of his grandparents, Mr. and Mrs. W. E. Reasoner, Sr. Attending were: Mrs. Bill Reasoner and family, Kenny, Molly, Dolly and Gwen, Kevin's parents, Mr. and Mrs. R. M. Reasoner and sons, Robert Wayne and Charles, Mr. and Mrs. J. W. Smith and daughters, Candy and Lisa, and Kevin's great grandmother, Mrs. Mae Sweeney of Vidor, Texas.

# Conservation: Something for everyone

Hunting season is here and if a hunting trip is in your near future, the September/October issue of the *Louisiana Conservationist* magazine is a handy reference guide. Even if you are not going hunting, the latest issue of the Bayou State's premier outdoor magazine has something for you.

Of most interest to hunters is the forecast for deer, upland game and waterfowl seasons. Department of Wildlife and Fisheries biologists give their predictions — stressing that much depends on the weather. One unambiguous factor is the good habitat and subsequent excellent production of waterfowl in northern breeding grounds. It looks like a lot of ducks and geese will be winging their way to Louisiana this winter.

Teal are the focus of this issue's cover story in an article by Department of Wildlife and Fisheries Wildlife Division Administrator Hugh A. Bateman. These small early arrivals are a familiar sight in Louisiana marshes and in the scopes of avid waterfowl hunting enthusiasts. Bateman follows the history of teal hunting in Louisiana, from its beginning in the 1960s to today.

Gordon Hutchinson reports on the ancient and fascinating sport of hawking and falconry. He traces the sport back to China's Ming Dynasty and takes readers on a modern excursion with some of Louisiana's premier falconers.

Charles Frank introduces readers to the wonders of handloading firearms, noting that it is not only an enjoyable hobby but a cost-saving pastime.

Hunting is not the only topic covered in this issue. Taking aim with camera and lens is the focus of an article by Steve Cole. He tells how to take the perfect photo of shy wate birds native to Louisiana's marshes. He offers tips on how to get close by using homemade hoops and blinds.

Pete Cooper takes a look at some of the more unusual denizens of Louisiana's fields and streams.

Part one of a two-part series explores the life and achievements of Percy Viosca Jr., a pioneering advocate of wetlands reclamation.

In addition to these feature stories, regular columns discuss hunting permits for the disabled, plant and animal life on Louisiana's barrier islands and an address by LDWF Assistant Secretary Johnnie Tarver. Two delicious shrimp recipes from the Louisiana Seafood Promotion and Marketing Board spice up the "Bayou Kitchen" column.

The *Louisiana Conservationist*, the flagship publication of the Department of Wildlife and Fisheries, is now in its 74th year of continuous publication. It is an excellent educational tool as well as a great gift for anyone interested in the outdoors.

Subscriptions are available in one, two or four year orders for just $10, $18, or $30, respectively. Send a check or money order payable to *Louisiana Conservationist*, P.O. Box 98000, Baton Rouge 70898-9000.

# Thank You!

Sue Fontenot

Dear Friends and Neighbors of Cameron Parish,

As I listened to the election returns and came to understand that the race would be very close, my only niece and nephew who grew up and live in Hackberry, joyfully announced that we won in Cameron Parish! In those children, I held the pride of Cameron parish in my arms because they could not have been prouder of their home parish that night... And, nor could I be more grateful to so many I hardly knew.

It is a lot to ask of people for their confidence in the important undertaking of State Senator when there isn't much time to get acquainted. In that regard I am so grateful for the recommendation of my distinguished friends from your community, who we all know, trust and for whom we have so much affection.

Though we won in my home parish of Vermilion, my late entry into the race cut seriously into the base of support and we came up a few votes short. Financial help came on the eve of qualifying and I was just unable to enter the race any sooner.

Though the race is over, my concerns for you and Cameron Parish remain. Constance Beach is falling into the Gulf, the beautiful marshlands remain in jeopardy from salt water intrusion, potential pollution from toxic waste in Grand Lake area is troublesome, the lack of an adequate evacuation route is of grave concern, native commercial fisherman are in need of help and there remains the serious challenge of education along with other important matters.

Hopefully whoever wins this race will apply himself to tackling these issues head on with determination to resolve them at the earliest possible time. The successful candidate will understand that the combined voting strength of vermilion and her contiguous sister Parish, Cameron, have 45% voting strength. It would not be reasonable to expect that the needs of our parishes would be ignored since to do so poses serious risk to re-election as a practical matter.

At the request of both candidates, I met with each and shared the concerns I have for you and the District. Out of respect for you and your judgment, I DO NOT endorse either candidate and NOR WILL I otherwise promote either one of them. The decision rests with you and your leadership and remains in your collective good hands.

There was so much I wanted to do for you as your State Senator. If those things can be accomplished through someone else, then I shall be the first to applaud and thank such a public servant. Know that I will be doing what I can with the tools I have and that I will be watching with the greatest interest.

Finally, for my niece and nephew, my family of Cameron and for myself, thank you for the honor of your vote and allowing me to carry the banner of Cameron alongside my home parish of Vermilon to the finish line. It is a privilege to be so in your debt.

With warm regards and profound appreciation, I remain

Respectfully yours,

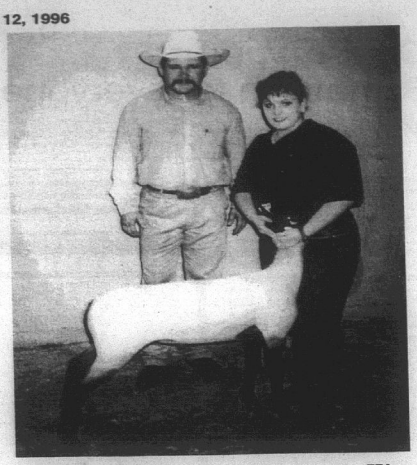
Sue Fontenot

# Jury hears annual 4-H Extension Service report

The annual Cameron Parish Extension Service report was given by Mike Lavergne to the Police Jury at its monthly meeting. He was assisted in the presentation by Ryan King, recently elected as State 4-H parliamentarian.

There are 10 4-H Clubs parishwide, with at least one club in each of the seven schools. Total enrollment is 531, with355 members in junior clubs (grades 4 - 8) and 176 members in senior clubs (9 - 12 grades).

Adult leaders total 50, including 15 organizational leaders, 20 project leaders and 23 activity leaders. Each club has at least one organizational leader. Junior leaders assist agents with activities, contests, etc. There are 27 members in the Junior Leader Club.



Achievement Day was held at South Cameron High School with 109 participating. Record books were turned in by 125 members.

An educational program is presented at each club meeting, except when time does not permit. Project workshops are scheduled throughout the year. Short Course was attended by 40 club members, including 14 boys and 26 girls. There is one state alternate - Trisha Silver, club reporter, with 13 blue ribbons. Ryan King was elected as state parliamentarian.

Seven 4-Hers submitted nine record books for competition on the state level and there were seven blue ribbon winners.

The popular livestock project has a total enrollment of 330 boys and girls. Categories and membership are: swine, 262; beef, 90; rabbits, 50; lamb, 26; poultry, 19; horse, 35; dairy, five.

Other 4-H activities include: 4-H Camp - 24 boys and 42 girls; Jr. winners trip - 50; 4-H leader banquet - 27.

TIFFANY BOUDREAUX, right, of South Cameron FFA was named Senior Lamb Showmanship Champion at the Red Hot Summer Livestock Show held Aug. 24, in Cameron. She is pictured with show judge David Broussard, an agriscience instructor at Crowley High School.

**(Never known to fail)**

**Oh most beautiful flower of Mount Carmel, fruitful vine splendor of Heaven, Blessed Mother of the Son of God Immaculate Virgin, assist me in my necessity. Oh Star of the Sea, help me and show me herein you are my Mother. Oh Holy Mary, Mother of God, Queen of Heaven and earth I humbly beseech you from the bottom of my heart to succor me in this necessity. There are none that can withstand your powers. Oh, show me herein you are my Mother. Oh Mary conceived without sin, pray for us who have recourse to thee (three times). Holy Mother, I place this cause in your hands (three times). Holy Spirit you who solve all problems, light all roads so that I can attain my goal, you who give me the divine gift to forgive and forget all evil against me and that all instances in my life you are with me. I want in this short prayer to thank you for all things as you confirm once again that I never want to be separated from you in eternal glory. Thank you for your mercy toward me and mine. The person says this prayer 3 consecutive days. After 3 days, the request will be granted! This prayer must be published after the favor is granted.**

## Teal hunting opens soon

The portion of Lacassine National Wildlife Refuge south of the Gulf Intracoastal Waterway will be open to teal hunting during the Sept. 21-29 season. Hunting will be permitted until noon each day, Wednesday through Sunday only. No hunting is allowed on Monday and Tuesday.

All refuge hunters are required to possess a refuge hunting permit. the 1996-97 refuge hunting brochure serves as the required permit when it has been signed and dated. The permit must be in the hunter's possession while hunting on the refuge.

Hunters may not enter the hunting area earlier than 4 a.m. and may not hunt or possess firearms in the area later than noon. Hunters may scout the hunting area from one hour before sunrise to one hour after sunset during the week prior to and during the hunting season. However, no firearms are permitted in the area except during the refuge hunting hours. Firearms carried in boats traveling on refuge waterways must be unloaded and encased or dismantled.

Only portable blinds are allowed and cutting vegetation is prohibited on the refuge. A blind left overnight may be used by any hunter on a first-come, first-served basis each day. Decoys may not be left set to attract waterfowl after noon each day. All boats, blinds and decoys must be removed from the refuge by the last day of the season. Hunters are reminded that only steel and bismuth-tin shot shells may be used and possessed, and only blue-winged, green-winged and cinnamon teal may be shot during the teal season.

The refuge brochure details additional hunting regulations for the refuge. The permit and brochure are free and can be obtained at the refuge headquarters located off Highway 3056, 11 miles southwest of Lake Arthur.

## Cameron Parish Residents WE NEED YOUR HELP!!

**The Baton Rouge Audubon Society wants your comments on the Cameron Parish Weed Ordinance as it affects the Holleyman-Sheely/Henshaw Sanctuaries. These areas are managed with shelter for birds in mind - namely plant cover and food supplies for birds that migrate long distances across the Gulf of Mexico twice a year. Areas of these sanctuaries are now threatened if they are not excluded from the Weed Ordinance.**

**Naturalists and birders visiting this parish are an important part of the economic development of Cameron . If tourism has a positive impact on your business, let us know. If you would like to see this area remain a sanctuary for migrating birds and butterflies, we need your support now.**

**SALTWATER FISHING**

Saltwater fishing is as good as it can get, according to reports I've had. Most of the talk is offshore.

Scott and Lola Quinn with four friends took a trip to West Cameron 66 and had a heyday on speckle trout with the largest going 5 lbs. 3 ozs. with lots of 2 pounders. These were caught on silver flake grubs. They caught small specks at West Cameron 14. They also connected with some big bull redfish, with some weighing in at 22 pounds.

Scottie Trosclair, Armanda Bertrand and friends went a little deeper in the Gulf and had some really big red snappers. They sure were good, as they had a fish fry for the Lemesche Bass Club meeting. Oh yes, we did have fried bass also.

Last week Lacassine Refuge saw another 9 pounder caught. This was caught at a Monday night shootout, with two other bass the three bass stringer took first place with just under 13 pounds.

Travis Broussard and Lynn Thibodeaux had 7 pounds at the shootout.

**LEMESCHE BASS CLUB**

The Lemesche Bass Club finished their fishing season until March 1997. They held their last meeting for the year and will regroup with a meeting in February.

The results for 1996 were as follows:

Top six anglers: Ricky Canik, Darren Richard, Scottie Trosclair, Carl Broussard, Jerry Canik and Tom Hess.

Largest bass: Darren Richard, Jerry Canik, Ricky Canik.

Darren Richard and Quenton LeBouef weighed in the largest team stringers of the year at 21-3 and Scottie Trosclair had the largest individual stringer of the year at 11-8.

**NEWS BRIEFS**

Congress rejected the transfer of land in Kisatchie National Forest to Fort Polk military base.

A new license plate is out for Louisiana. Senator Foster Campbell had legislation passed for a "Save the Louisiana Black Bear" slogan which also shows a black bear stepping through a palmetto plant and bear prints. This plate will cost $50 plus the standard license plate fee. The money will go directly to the National Heritage account in the State Conservation fund, used only to restore the black bear. (There are only 200 to 300 black bear left in Louisiana.)

Teal season opens Sept. 21 and the Cameron Parish Ducks Unlimited annual banquet will be held that night at the Grand Lake Fireman's Center. The social is at 6 p.m., a meal at 7 and an auction to be held after the supper. This is for all hunters, men, women and youths and also the general public.

**COMMERCIAL NEWS**

Alligator harvest is in full swing, with hunters doing fairly well. I was told that the prices were not too good, but they say that every year, and our hunters do pretty good. However, if $17 per foot is correct, that is a low price.

Shrimping is still good and it seems the prices are holding.

Amendment 9 to the shrimp fishery management plan deals with reduction of trawl mortality of juvenile red snapper. The "by catch amendment" could require shrimp fishermen to use bycatch reduction devices if adopted in the current form. This would take place in May 1997.

Public hearings on Amendment 9 will be held for our area on Oct. 7, from 7-10 p.m. at the Lake Charles Civic Center. (318-491-1256).

Federal commercial king mackerel fishing closed Aug. 26, in the western gulf until June 30, 1997. The commercial quota of 0.77 million pounds was reached in the western gulf . Commercial fishing for king mackerel will close in La. waters Sept. 12, at 12:01 a.m. until July 1, 1997. This is to protect the king mackerel fisheries.

**SAY WHAT??**

Do we have rattle snakes here in Cameron Parish? Well, a Cameron Parish crew cleaning up the Grand Chenier State Park found a 5 foot rattle snake with 6 rattlers, dead, that someone had laid over a pipe rail. Whether it was killed here or not I don't know, but if it wasn't, I'm sure it got transported here either by boat or truck.

**DOVE SEASON**

Dove season opened Saturday. Some fields had quite a few birds, while others had none. Many farmers had planted their rye grass and with the heavy rains, the crops that were harvested had been soaked. Now fields with goat weeds or natural seeds seem to have more doves than those fields that don't.

I'll have a better report next week on the dove hunting.

# Letter to the Editor:

Dear Editor:

We would like to thank the more than 160 primary care physicians in Louisiana who volunteered their time this summer to serve as mentors in the Rural Preceptorship Program. The program's goal is to expose medical students early in their studies to health care in rural and underserved communities, so they can see what is so rewarding about practicing in these areas.

In Creole, Dr. Richard Sanders spent four weeks over the summer working with a second year student from LSU School of Medicine. Dr. Sanders generously opened his office and home to the student, and made her feel welcome in your community.

We are truly grateful for these physicians' efforts, which we believe will help guide students to practice in the areas of our state where they are so urgently needed.

# Tarpons beat DeQuincy in season opener last Fri.

By JOE MUELLER

The South Cameron Tarpon football team opened the 1996 football season with a 27-0 victory over the DeQuincy Tigers.

This start is different than the last two years when DeQuincy scored victories over the Tarpons.

The Tarpons jumped ut to a 7-0 lead after one quarter and were up 17-0 at half time. The Tarpons put 10 more points on the board in the third quarter.

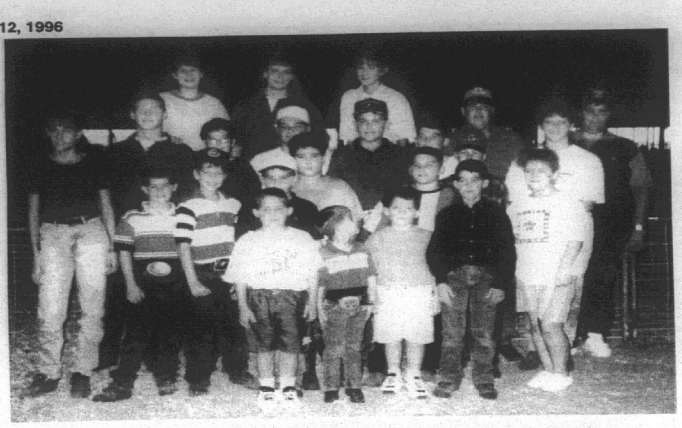
The Tarpons unleashed a strong running game as they rushed for 243 yards. The Tarpons had a variety of runners as Brandon Conner rushed for 92 yards on 18 carries, Steve Moore had 75 yards on his 18 totes of the ball and Cory Broussard had 55 yards on seven carries.

The Tarpons also unleashed a strong kicking game as. John Mark Montie hit field goals from 41 and 26 yards.

The Tarpons defense also played well as they recovered six DeQuincy fumbles. The Tigers fumbled eight times on the night.

The defense also had the Tigers number when they didn't fumble as they held the Tigers to only 49 yards rushing. The Tigers hit 4 of 12 passes for 49 yards.

The Tarpons first touchdown came on a 2 yard run by Brandon Conner late in the opening quarter. The next score for the Tarpons was Montie's 41 yard field goal. The Tarpons last touchdown came when the Tiger punter had a bad snap from center and was tackled in the end zone where he fumbled and the Tarpons Vito Martarona recovered for a touchdown.



The second half opened with the Tigers receiving the kick off and the Tarpons forcing them to punt. The Tarpons then moved into the end zone with the touchdown coming on a 11 yard keeper by quarterback John Pradia.

The final score of the night came on a 26 yard field goal.

The Tarpons didn't test their passing attack but Pradia did hit 2 of 3 passes, both to Brent Morales.

The defense looked good as a whole unit but Willard Pruitt had two fumble recoveries and a number of key tackles.

The Tarpons, off to a 1-0 start, will be at home this week against Vinton, who beat Lake Arthur 13-7.

MEMBERS OF the 1996 Cameron Parish Summer Livestock Show Team gathered at the Firecracker Classic held Aug. 31, in Lake Charles. Accompanying and assisting the group at the summer shows was Nicky Rodrigue, top right. The groups next competition is the Louisiana State Fair slated for Oct. 21-Nov. 3 in Shreveport.

# Tarpons to host Vinton Lions Fri.

By JOE MUELLER

The South Cameron Tarpons will open their 1996 home season this Friday, Sept. 13, when the Vinton Lions come to Creole for a 7 p.m. kickoff.

The Tarpons and Lions both bring 1-0 records into the contest.

Vinton defeated Lake Arthur 13-7 in a game played at Vinton. The Lions showed a very balanced attack offensively against the Tigers as they ran for 122 yards and passed for 162.

The Lion passes, Kevin Leger, hit on 6 of 9 passes and had one picked off. The Lions used four different receivers. One of Vinton's two touchdowns came through the air as Clay Baker caught a 53 yard pass. The other Vinton touchdown came on a 5 yard run by Anthony Ceasar. Ceasar was the Lion top rusher with 56 yards. He was followed by sophomore Freddie Budwine who collected 27 yards on five carries.

Defensively the Lions held Lake Arthur to 84 yards rushing. The Vinton team collected five turnovers as they intercepted two passes and corraled three fumbled.

The Tarpons looked good last week running the ball as they amassed 243 yards on the ground against a good DeQuincy Tiger defense.

The Tarpons had three backs with good numbers as Brandon Conner had 92 yards, Steve Moore 75 and Cory Broussard 55.

The Tarpons also were opportunistic on defense as they collected six Tiger fumbles.

The Tarpons kicking game also looked good as John Mark Montie hit two field goals and all six of his kickoffs were high and deep. The Tarpons also punted three times for nearly a 37-yard average.

The Tarpon defense held the Tigers to only 97 total yards, 49 on the ground and 48 on the ground.

The Tarpons and Lions should play a good hard game as both teams look ready for a good season.

Last year the game between the Tarpons and Lions was won by Vinton 27-9.

Let's get a big crowd for the home opener. The Tarpons played real hard the whole game last week and the morale and desire are excellent for the Tarpons.

The South Cameron Tarpons, for what it's worth, were ranked #2 by the Lake Charles American Press in small schools in the area. Elton is #1 in the poll.

## Joe's Picks

By Joe Mueller

The crystal ball the first full week was very cloudy as I hit on only 10 of 19 and so far this year I am 12 wins and 10 losses.

This week I see: South Cameron over Vinton, Kinder over Lake Arthur, Pickering over Many, Merryville over Rosepine, South Beauregard over Oberlin, St. Lois over Iota, Erath over North Vermilion, Notre Dame over Rayne and DeQuincy over

**TARPON SHIRTS**

The athletic department will be taking additional orders for two weeks only for the red monogrammed golf-style shirts that were sold with the caps in August. Adult sizes, small through extra large, are $20 and double-extra large are $22. No children's sizes are available. Pre-paid orders will be taken at the spirit table at Friday night's game.

# Food program coming to Cam. Parish

Food for Families/Food for Seniors is coming to cameron Parish through cooperation of the Cameron Council on Aging and the Lake Charles Diocese Community Services.

This is a monthly commodity program for seniors over 60 years old. The police jury will provide transportation of food packages.

Seniors over 60 years with an income of $839 a month for one person or $1123 a month for a married couple will be eligible for a food package.

They will received free a 40 lb. food package containing canned milk, meat, fruits or vegetables, cereals, fruit juice, potatoes, rice or pasta each month and peanut butter or beans every other month.

The food package would cost approximately $50 retail. This is the federally funded commodity supplemental food program through USDA, the Louisiana Office of Public Health, and Arch-diocesan Office of the Social Apostolate with cooperation of the Lake Charles Catholic Diocese.

# Tarpons receive 13 votes in poll

By JOE MUELLER

The South Cameron Tarpons beat #9 ranked DeQuincy and what did they gain in the state rankings? Nothing.

It did knock Dequincy from 9th to 10th in this week's poll by the La. Sportswriters.

The Tarpons are still in the ranks of those who received votes as they received 13 votes this week.

The Tarpon's opponent this week, Vinton, has 2 points in the poll.

Fellow District 6AA team Notre Dame, received one first place vote and 79 points for the fifth spot.

The big news of the week in the poll is that Haynesville, with its loss, dropped to fourth in the poll. Northeast is 1st in the 2A poll.

# Ducks Unlimited banquet

By GENEVA GRIFFITH

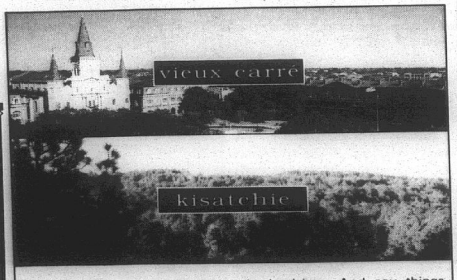
Plans for the annual Cameron Parish Ducks Unlimited banquet were made at the meeting of the D.U. Chapter held last week at the Creole Fire Station.

Chris Simon had on display some of the items to be auctioned at the banquet to be held Sept. 21, at the Grand Lake Fireman's Center.

The social hour starts at 6:30 p.m. followed by the meal at 7:30 p.m., then the auciton.

A steak dinner will be served for a donation of $10 single or $15 a couple.

Memberships will also be sold for $25. However, this is not a requirement to attend the banquet.



Sponsorships of $200 will be accepted, which includes a dinner for two at the banquet.

Some of the auction items are the D.U. Print of the Year, knife sets, hand-carved decoys, D.U. Gun of the Year, D.U. ticket print of the year, mens and ladies watches, etc. Chances will be sold for $1 on a 4-wheeler.

# Do You Remember?

By Keith Hambrick

**Lake Charles American Press, August 14, 1925 CAMERON**

The Cameron Parish school house is almost completed and will be ready for the opening of the 1925-26 session. The new building is much larger than the one which was destroyed by fire in April. It is located a quarter of a mile from the post office at Leesburg, the same location occupied by the old building.

An addition is being made to the consolidated school at Grand Chenier for the purpose of making it a high school. The work is being rushed and it is said that the building will be ready by the time the fall term opens. Last year only nine grades were taught at this school while this year there will be 11. About 200 children were enrolled here last session and the addition of two grades will make the enrollment larger this year.

T. K. Bradley, bricklayer and contractor, arrived in Cameron on the Rex Monday from Lake Charles with a crew of men and immediately began work on the courthouse vault. The Rex brought from Lake Charles lime and brick and other necessary material for the construction of the brick fire proof vault.

**GOOD CROPS**

In sections of Cameron Parish it is hardly noticeable that a drouth has existed as the cotton and corn crops are splendid. In other sections, however, the crops are far below normal, in some places being not more than 5 percent normal.

Cameron Parish as a whole is very little troubled with mosquitoes at present.

**Cameron Pilot, August 15, 1963 EARLY ELECTED OFFICIALS (By Jerry Wise)**

When we recently published the list of all the sheriffs who have served Cameron Parish, we left out the name of John Miller who was sheriff from 1924 to 1936.

Clerk of Court J. Berton Daigle has furnished us with a list of other parish officials down through the years. They are as follows:

ASSESSORS--John Wetherill, 1877; P. E. Smith, 1880; William Laurents, 1897; H. G. Granger, 1917; Dellino LeBouef, 1921; J. W. Stine, 1929; Leslie Richard, 1952.

TREASURERS -- S. P. Henry, L. R. Henry, 1921; C. A. Miller, 1936; L. B. Welch, 1954; Percy M. Richard, 1955; Joe W. Doxey, 1958; Garner Nunez, 1962.

REGISTRARS OF VOTERS -- J. D. McCall, 1909; A. P. Welch, 1921; Raymond Richard, 1940; Wynona Welch, 1948.

RECORDERS -- L. Mudd, 1874; and A. B. Smith, 1879. (The Recorder's office was later combined with the Clerk of Court's office.)

CLERKS OF COURT - -L. L. G. Stansbury, 1874; T. E. Gee, 1875; W. H. Laurents, 1908; S. W. Sweeney, 1912; E. D. Sweeney, 1919; Mark Richard, 1928; Lionel A. Theriot, 1936; J. Berton Daigle, 1948.

**MOSQUITO CONTROL LAB SOUGHT**

Cameron Parish civic leaders and elected officials are now trying to get the federal government to locate a proposed mosquito control laboratory in Cameron Parish.

Sen. Allen J. Ellender announced last week that he was planning to have the Senate Appropriations Committee, of which he is a member, include $240,000 in the House passed Agriculture Department appropriation bill for a pilot study on mosquito control to be situated in Calcasieu or Cameron parishes.

**TOTAL ASSESSMENTS IN CAMERON**

The assessments roll for Cameron Parish has more than tripled during the past 10 years, according to Leslie Richard, tax assessor.

Richard told the parish police jury Monday that the 1963 assessments total $24,233,070. The assessments in 1952 were about $7 million. The 1963 assessment is an increase of more than $500,000 over the $23,649,960 assessment total for 1962.

The increase is due, for the most part, to increased oil and gas activity in the parish in the past 10 years, he said.

Ward 6 (Hackberry area) has the largest assessment with $5,600,190. The Hackberry fire district has an assessment of $5,514,917. The Hackberry recreation district is the same as Ward 6.

Assessment in Road District 7 (South Cameron) is $13,404,000 and School District 10 (Wards 1-3) $11,042,150. other school districts are the same as wards.

The hospital district assessment total is $9,068,770; Cameron fire district and garbage district $2,572,360; Cameron waterworks district, $1,619,530.

Assessment totals for the wards are:

Ward 1, $5,526,850; Ward 2, $3,118,150; Ward 3, $3,778,760; Ward 4, $2,880,240; Ward 5, $3,327,880; and Ward 6, $5,600,190.

**ROUNDABOUT THE PARISH**

Hackberry--Paula Hebert celebrated her birthday recently with a party at her home. Games were played and refreshments were served to Elizabeth and James Roy Ducote, Terry Toups, Mons and Cindy Nunez, Ronnie Hebert, Beverly Kay Bailey, Diane and Evelyn Ducote, Stephanie Johnson, Mary Welch, Mesdames Floyd Little, J. B. Nunez, Kenneth Ducote, Ethel Watts, Margie Toups, Ellen Hebert, and Paula's parents, Mr. and Mrs. Dupre Hebert, Jr.

Oak Grove--The Warren Miller family has won an all expense-paid trip to "Six Flags over Texas." The Millers registered for this prize at Gulf Coast Furniture Co. in Lake Charles. The trip will be taken later this month. Mrs. Ruby Rutherford, Beverly Sue, Leland Rutherford, Walter Roome, and Glen Primeaux visited "Six Flags" this past week when they went to Dallas to see George Rutherford.

Creole--The Little League baseball players of Grand Chenier and Creole celebrated the conclusion of the baseball season with a group outing on Rutherford Beach. Following a swim in the Gulf, and the playing of games on the beach, the boys were treated to a weiner roast. Team managers supervising the outing were Howard Magee, Edison Mhire, Sonny McCall, Gerald Conner, and Robert Manuel. Others assisting included: Robert Ortego, Gilbert Landry, Jr., Gordon Nunez, Bonsall, Tony Brown, and Frank Brown.

Grand Lake-Sweetlake--The foundation has been laid for the new Sweetlake Methodist Church which will be located near the old church. It is to be of brick construction.

The Grand Lake Pee Wee team continued its barrage on other ball teams by defeating the Moss Bluff All Star Team 7-3 Saturday evening. This game, however, will probably be their last game since the fathers are beginning rice harvest or other matters are keeping them away.

Rt. 1, Cameron--A surprise birthday party was given for Dallas Pichnic Jr. (Butch) recently at the home of Mrs. O'Neal Roberts. Those attending were Kerry Lin, Robin, Kim, and Kelley Roberts, Barry, Peggy, David, Mike, Terry, Belinda, Venessa, and Debbie Kelley, and Mr. and Mrs. Nick Pichnic. Refreshments of cake and punch were served.

Cameron--Magnet Cove Barium Corp. has completed a modern pneumatic bulk plant at Cameron. Constructed to discharge bulk barite under constant pressure, the facility can fill boats and barges at a rate of 1,250 sacks per hour.

Tarpon football--Some 40 eager South Cameron High School football players will report for fall grid practice Aug. 15 at 8 a.m., according to Coach Robert Manuel. Of this group, 15 are returning letternen and the prospects are for as good a season or better than that of last year when the Tarpons took the district title and went to the quarter finals in state competition.

**(Lake Charles American Press, June 25, 1926) CAMERON SCHOOL BOARD MEETING**

On May 26, the school board met in a special session with the following present: A. A. Roux, president, and Lowry Roberts, J. J. Miller, Joseph Demarets, and Dupra Vincent. E. B. Calhoun was absent.

The board instructed the superintendent to have Sweeney and Kennedy issue policies to cover the Johnson Bayou and Berry school buildings against fire and storm.

By motion of Mr. Demarets, seconded by Mr. Roberts and unanimously carried, the board instructed the superintendent to employ no teachers holding third grade certificates to teach in Cameron Parish.

**Salary Schedule**

Class 1 and 2, grade professional, 1st year, $125; 2nd, year, $140; 3rd year, $150; maximum is $150.

Class 3, professional elementary, 1st year, $85; 2nd, $90; 3rd, $95; maximum, $95.

Class 4, first grade, 1st year, $80; 2nd, $85; 3rd, $90; maximum, $90.

Class 5, second grade, no increase for experience.

**Principals**

One room school, $5 more than grade teachers; maximum, $90.

Two room school, $10 more than grade teachers; maximum $100.

Three room school, $30 more than grade teachers; maximum $125.

High school principal, $1,000 per year.

**(Cameron Pilot, June 27, 1963) SOUTH CAMERON HOSPITAL COST OVER $600,000**

Originally planned as a rehabilitation center costing around $140,000, the new South Cameron Memorial Hospital, over a period of five years grew into a full-fledged hospital which will run more than $600,000.

The first figure was what the American Legion started out to raise. Later it was decided to combine Legion funds with a local bond issue with Hill-Burton Funds added to give the area a much larger and better equipped hospital.

The Legion raised a total of $43,700 which was turned over to the hospital district, with the understanding that a bond issue would be passed for additional funds.

The bond issue brought in $350,876 and contributions from many other sources have added up to several more thousands of dollars.

Hill-Burton Funds from the federal government are given on a matching basis. It is expected that these funds will total between $275,000 and $300,000 when the hospital's applications have been finally processed.

**MEDICAL STAFF NAMED**

Members of the active residential staff, who will admit patients, are the three local doctors: Dr. Cecil Clark of Cameron; and Dr. G. W. Dix and Dr. Stephen Carter of Creole.

In addition to these three, there will be a "consultant" staff composed of the following Lake Charles specialists, who ill make regularly scheduled visits to the hospital.

Drs. Benjamin Rush and Max Miller, surgeons. Drs. Avery L. Cook and Henry Habayn, pathologists. Darrell Ward, R.N., R.N.A., anesthesiologist.

The radiologist and orthopedic surgeon members of the consultant staff have not been named yet.

There will be a dental staff, of which Dr. Clyde J. Landreneaux of Sulphur, will be a member.

Dr. S. O. Carter, retired Creole physician, will be an honorary member of the staff.

Kenneth Hopper, administrator, said that the consultant staff will be in Cameron one day a week, yet to be set. All hospital admissions must be made through the residential staff.

Charges for special services at the hospital by the consultant staff will be in line with charges made at Lake Charles hospitals.

**DEDICATION**

This long-awaited event will take place at 2 p.m., Sun., June 30, in special ceremonies to be held in front of the 28-bed hospital. The dedication was set for the 30th, as this was the weekend closest to June 27, the sixth anniversary of Hurricane Audrey, which was responsible for a movement being started to build a hospital in Cameron Parish.

**ROUNDABOUT THE PARISH**

Black News - The Sunshine Band of the Ebenezer Baptist Church presented a program Sunday in the morning service. Poems were recited by Anthony and Rudolph Bartie, Jr., Marvin, Melvin, and Harold LaSalle, and Marlon and Gregory Harrison. Dexter Harrison sang a solo.

Hackberry - The Harold Buckmasters are moving to their new home which they purchased from the Wakefield Erbeldings, who moved to Lafayette.

**ZIP CODES**

Parish ZIP codes were announced this week. These numbers are to be used on all correspondence to speed up the mail. Cameron is 70631; Grand Chenier, 70643; Creole, 70642; Hackberry, 70642; Sweet Lake residents on a Bell City rural route are 70630; and Grand Lake residents on a Lake Charles Charles rural route are 70601.

**(Lake Charles American Press, August 28, 1925) CAMERON**

The prolonged drouth was broken at Grand Chenier Tuesday by a light thunder-shower that fell there. Other parts of the parish are still suffering from the drouth. Although the disease in the stock seems to have slacked in spite of dry weather, there are a few cattle that have been sick, but have recovered, and seem to be doing fine.

Those on the sick list in Cameron are Mrs. Pierre Broussard, Mrs. G. H. Lebeouf, Elma Richard and baby boy of Eulice Nunez.

Mrs. Celeste Savoie, who had been visiting her son and daughter at Grand Lake the past two months, returned to her home in Cameron the past week.

Oliver Leboeuf and family and Mrs. Adolph Hebert and son motored to Chenier Perdue Wednesday to visit relatives there.

Richard Agen has one of the finest cotton crops in Cameron for the size of his field and in spite of dry weather and army worms that have been giving him considerable work in poisoning them. He has been a tenant on one of Charles Richard's places on Cow Island for eleven years.

Dema Faulk and family have just returned from a tour in their car to Abbeville and other points in that part of the state, visiting friends and relatives. They enjoyed the trip thoroughly and have seen what a benefit a good road to Cameron would mean to the people, especially to those who have never taken pleasure trips tothe outside world.

Rudolph L. Richard and wife of DeQuincy are visiting with their parents, Mr. and Mrs. August Richard, for an indefinite time.

Cameron had the hottest weather of the season the past week, however, everybody has been enjoying the fine gulf breeze.

Mrs. E. Cradwell is visiting her sister, Mrs. Ozema Savoie, Sr., at the home of Desiere Savoie, for a few days.

**Cameron Pilot August 29, 1963 'HUG THE COAST' HIGHWAY (By Mae & Rupert Stephens)**

Many areas of our nation are dusty, dry, arid, scorched and bleak. Residents of these places look with longing upon our lush land with rivers and lakes, bayous and creeks, canals and sloughs. Most of all, they yearn for the long expanse of our Gulf Coast.

What is it like--this special bonanza of our state? It is unique, possessing a flavor and beauty that defies description. It is more than a place, it is a state of mind. To each it means a different thing. One has to discover it for himself.

South from Lake Charles, Highway 27 leads through dike-ringed rice fields. Cattle stand, stomach deep, in canal water; chewing their cuds and flicking insects with a switch of their tails. White and pink mallows open full faces with ruby throats to the sun along road ditches.

Near Creole, large white lotus bloom on slender stalks, rising from shallow water, Cupped leaves, over two feet across, float on the surface. Coffee beans bloom with yellow racemes.

"The Hug-The-Coast" road, Highway 82, reaches from Pecan Island to Sabine Lake. It takes the visitor along a varied and interesting route.

Rockefeller Wildlife Refuge touches the highway, with headquarters near Grand Chenier. Duck and geese pens are of special interest.

From the highway to the Gulf, tough marsh grass covers quaking soil. Cheniers lie in long ridges topped with wind-twisted oaks. Tamarack, the salt cedar, blooms with rosy spikes on rises of dry ground.

Orange and red blanket flowers struggle to grow on shell-covered road shoulders. Prickly pear blooms with tissue paper yellow blossoms, holding their delicate cup of beauty above spine covered leaves.

Louisiana Highway Department maintains a roadside park with tables, benches, rest rooms, running water, two boat launching ramps and a fishing or crabbing wharf at Grand Chenier. It is convenient for picnic stopovers on a trip along the coast.

Yellow breasted field larks with black bibs perch on fence posts. Long-toothed nutria slide with quick grace into cover when spotted. Concrete foundation blocks and doorsteps lie scattered along Grand Chenier ridge, the remains of hurricane destroyed homes.

At Creole, a road is being built to a sand beach which will be free to the public. It is to provide access to swimming and fishing on the Gulf.

A memorial is being erected near Cameron. Designed by Perry Seguara of New Iberia, it faces the Gulf. Tall columns support a fluted roof.

A seven foot tall statue of the Blessed Mother, looking out to sea with her hand on the head of a child, has been sculptured of carrara marble in Italy. The inscription on the base is to read, "Do not harm my children."

Father Eugene Sennerville plans to dedicate the monument in August. It will be, in a way, a memorial to the people of this area who lost their lives in Hurricane Audrey, and a shrine for the residents of "Our Lady, Star of the Sea" parish.

At Cameron a new road has been completed next to the ship channel, leading to the coast. The jetties, a well-known and favored fishing spot, can be reached from this gravel road.

The jetties, a line of huge stone blocks, stretch into the Gulf forming a ship channel. Stones of pink granite, flecked with mica, veined with quartz, glisten in the sun. The sure-footed climb among the tumbled blocks to fish deep water.

Shrimp boats put in at Cameron docks to unload their cargo. Gulls wheel and dive trying to grab fish caught in the nets as crews haul them up to dry. Trawlers chug by with loads of menhaden to be processed.

The Intrcoastal is crossed by ferry. Fat, black porpoises rise fromthe water, arch in a graceful curve and duck under again. These amicable denizens of Gulf waters are natural clowns, rolling and tumbling in sparkling waves.

Department of Highways maintains a launching ramp for for public use on the west side of the ferry. Crabbers line the bank to take the big blue crabs, favored for gumbo.

At Holly Bech, summer camps are grouped in a cluster along the beach. Each on stilts, they face Gulf wind. Children play in sand, float on inner tubes or air mattresses.

Here, along this stretch of the "Hugh the Coast" highway, the Gulf beaches beckon. There are hard sand flats where campers come to pitch their tents and shallow waters where wade-fishing or surf-fishing is popular.

Shrimp fishermen, dragging nets, wade out in pairs, make a circle, then drag in to shore. Nets hold a variety of sea things: crabs, hardheads, small fish, occasionally jelly fish.

Beach parties are popular. There are groups having a shrimp boil with shrimp, freshly headed, dropped into boiling water, seasoned and eaten straight from the pot.

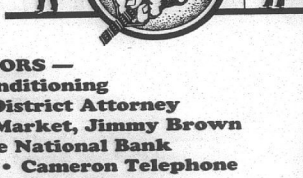
Driftwood fires provide light for beach parties at night. Young people cook their own favorite foods on glowing coals. Here and there a light bobbles on a fisherman's hat as he wades along gigging flounder. Out in the distance, fishing buoys warn ships to stay out of shallow water.

Along the road to Johnson's Bayou, yellow primroses and "sea pinks" bloom. Oil drilling rigs build plank drives to the road. Offshore rigs can be seen in the distance.

There are the remains of pilings, formerly fishing piers, and sunken shrimp boats near the edge of the beach.

What is it like, this Gulf Coast of ours? It's the white, foam-flecked crest breaking softly on the shore. It's the sound of fog horns in the distance. It's sand crabs scurrying for their holes as one goes past. It's the crying of gulls, the never'ceasing moan of braking water. It's pearl-smooth sea shells to hold in your hand. It's hot sand and cool winds. It's a place where one answers the age-old urge to go to sea.

**ROUNDABOUT THE PARISH**



Cameron - Mr. and Mrs. Harold Savoy visited with the Hilaire Heberts last weekend, also with the Ozema Savoies of Creole. They went out to the lake and had good catch of shrimp.

Rt. 1, Cameron - Little Denise Guilbeau of Sulphur has been visiting her grandparents, Mr. a nd Mrs. Rodney Guilbeau.

Grand Lake-Sweet Lake - Home for fifteen days from base at Abilene, Texas, A/2C Charles R. Young who is visiting with his parents, the Wilton Youngs, and other friends and relatives in the area.

# Severance tax collections still climbing

CAPITAL NEWS

Severance tax collections statewide continued to climb as the first half of 1996 closed, and increased natural resources production in Cameron Parish contributed to the higher tax receipts.

The June report from the state Department of Revenue and Taxation listed nearly $1.5 million in severance taxes received for work in Cameron Parish, placing it eighth in the overall rankings for the month. The $1.41 million recorded in May had been the parish's highest 1996 figure so far, but the current figure is $70,000 higher. It falls about $10,000 lower than the June 1995 total, however.

Most of the June severance taxes were collected on oil production, which was credited with $803,108 for the month. Natural gas production yielded $677,176 to rank the parish fifth in that category for the month.

The parish collecting the tax on oil and natural gas receives one-fifth of the total up to $500,000. Seventy-five percent of all revenue collected on timber products goes back to the parish.

Overall, the state's severance tax receipts grew to $34.6 million in June, up from almost $33.8 million the previous month. It was the third consecutive month in which the state registered improved collections. Still, the June figure did not reach the $35.7 million reported during the same month a year earlier.

Oil production accounted for $24 million of the month's total, while natural gas brought in $9.3 million to the treasury. Timber products contributed $1.1 million overall. Smaller amounts were collected for sulphur, salt, salt brine, gravel, sand, shell, stone and lignite.

Beauregard and Vernon retained their first-second slots in the timber products category with $97,312 and $85,229, respectively, for June. Bienville hopped from fifth with $72,648 followed closely by DeSoto with $70,642 as it returned to the top five. Union slid from fourth with $59,155, and Rapides dropped out of the top rank.

## Schools hold first 4-H club meetings

The first 4-H Club meetings for the new school year are scheduled beginning the week of Sept. 9-13. 4-H is open to any Cameron Parish Student, 9-19 years of age.

Other September 4-H activities include Beach Sweep on Sept. 21, and Cameron 4-H Livestock Community Meetings which gives parents the chance to actively take part in Parish Livestock activities as well as give input to the Parish Livestock Program.

Parents who have children planning to show animals during the 1997 Spring shows are strongly encouraged to attend one of the three following community Livestock Meetings: Sept. 19, Grand Lake Ag Shop, 7 p.m.; Sept.. 23, Hackberry Ag Shop, 7 p.m.; and Sept. 25, South Cameron Ag Shop, 7 p.m. .

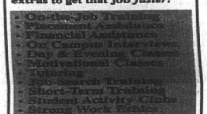
District 4-H Leader Training will be held in Lafayette Fri., Sept. 20. We will be allowed to bring 11 Cameron Parish 4-H Leaders to this training. If you would like to attend, please call the 4-H office.

4-H members are currently selling a variety of items in their annual fund raiser which kicked off on Sept. 11. Members who sell above the minimum amount will have their dues reimbursed.

## Grand Lake Sr. 4-H busy during the summer

The summer months were busy for several Grand Lake Sr. 4-H members. Attending Short Course on the LSU Campus were Heather Taylor, Christy Duhon, Mandy Broussard, Todd Thomas and Rusty Taylor. Heather and Todd received blue ribbons in their categories and Mandy was selected to serve on the State Fashion Board.

As a Fashion Board member, Mandy attended Fashion Board Camp and an education trip to Dallas, Tex.



Todd Thomas was a chaperone at 4-H Camp Grant Walker.

Heather Taylor was a blue ribbon winner in state records contest in beef records and crawfish production records. She assisted the junior club with their summer dance and bike-a-thon. Heather read books to younger children in the Book Mobile's summer reading program. She attended "Be A Champ" Cattle Camp at Connor State College in Waynes, Okla., she also went to Washington, La., and New Orleans on Jr. leader trips.

**(Never known to fail)**

**Oh most beautiful flower of Mount Carmel, fruitful vine splendor of Heaven, Blessed Mother of the Son of God Immaculate Virgin, assist me in my necessity, Oh Star of the Sea, help me and show me herein you are my Mother, Oh Holy Mary, Mother of God, Queen of Heaven and earth I humbly beseech you from the bottom of my heart to succor me in this necessity. There are none that can withstand your powers, Oh, show me herein you are my Mother. Oh Mary conceived without sin, pray for us who have recourse to thee (three times). Holy Mother, I place this cause in your hands (three times). Holy Spirit you who solve all problems, light all roads so that I can attain my goal, you who give me the divine gift to forgive and forget all evil against me and that all instances in my life you are with me. I want in this short prayer to thank you for all things as you confirm once again that I never want to be separated from you in eternal glory. Thank you for your mercy toward me and mine. The person says this prayer 3 consecutive days. After 3 days, the request will be granted! This prayer must be published after the favor is granted.**

## Doctor's discovery may end obesity

HILTON HEAD, S.C. -- A doctor has discovered that an ingredient found in a small fruit grown in Asia, combined with an ingredient praised by the U.S. Department of Agriculture can help cause significant weight loss.

In a study published in a prestigious American medical journal, Dr. Anthony A. Conte, M.D. reported that the formula, now called Bio-Max 3000, caused patients to lose more than twice as much weight as a control group on the same fat reduced diet. Neither group was instructed to decrease the amount of food they ate or to increase their exercise levels. An article published in the *American Journal of Clinical Nutrition* confirms that you don't have to reduce the amount of food you eat to lose weight, provided that you limit the fat.

Scientists suggest that the mechanism behind the weight reduction includes decreasing sugar cravings and interruption of the "Krebs Cycle", an important step in the body's fat storage process. "The best part of this unique discovery is that it is not a drug, but a safe dietary food supplement" says Dr. Conte. The Asian fruit, called garcinia, is similar to citrus fruit found in the United States with one big exception-- it may help some people fight obesity! While Dr. Conte's study may be preliminary, the exclusive North American distributor, Phillips Gulf Corp., is calling the Bio-Max 3000 supplement "Nature's Ideal Diet Aid."

According to a spokesperson for the company, Bio-Max 3000 is now available on a limited basis through pharmacies and nutrition stores or call 1-800-729-8446.© 1995 Phillips Gulf Corp

# Duck, goose calling contests set Oct. 26

The 28th annual Louisiana Wildlife Federation State Duck and Goose Calling Contest will be held Saturday, Oct. 26, at the Waddill Game Reserve off Flannery Road in Baton Rouge. The Contest is sanctioned by the World Championship Duck Calling Contest Committee of Stuttgart, Ark., and conducted under the auspices of the Baton Rouge Sportsmen's League.

Registration begins at 10 a.m. and will close at 1 p.m. The contest will begin with the junior callers at 2 p.m.

Age divisions for the contest are: Junior - under 14; Intermediate - 14 to 16 years; Adult - 17 and over. Boys and girls and men and women compete together in their respective age divisions. Calling categories are duck, blue/snowgoose, speck-lebelly, Canada goose, and goose calling without the aid of a call (mouth calling).

Winners will receive commemorative plaques and merchandise prizes. Winners in the duck calling divisions will be eligible to represent Louisiana in the world duck calling championship in Stuttgart Nov 29-Dec. 1.

Registration fee (per contest entered) is $5 for junior and intermediate callers and $10 for adults. Registration may be mailed to Wilson Thibodeaux, chairman, 3737 Beech Street, Baton Rouge, LA 70805. Make checks payable to Baton Rouge Sportsmen's League. Contestants MUST be Louisiana residents. Louisiana Wildlife Federation memberships will be available at the contest. Verification of birth date and residency may be required.

To help cover expenses associated with the contest, the Baton Rouge Sportsmen's League will raffle a Winchester 12-gauge Black Hawk pump shotgun with choke tubes donated by Richard Lipsey. This is the 28th shotgun Lipsey has donated to the contest. Raffle tickets are on sale for $3 each.

Last year's winners in the adult division were: Shannon Porter of West Monroe - duck; Richard Louque of Denham Springs - specklebelly; Allen Vincent of Gueydan - Canada goose; Randall Hebert of Lake Charles - voice calling.

Robert Rainwater of Baton Rouge won the junior duck calling category and Thadd Champagne of Creole the specklebelly and blue/snowgoose categories in the intermediate division.

Sponsors are still being sought and are most welcome. Contact Wilson Thibodeaux at 504/355-2717 for further details.

# J.Bayou class elections held

The Johnson Bayou High School senior class of 1997 held class elections Thursday, Sept. 6, with the following results:

Jamie Trahan, president; Nicole Doucet, vice pres.; Sarah Griffith, reporter; Trevor Trahan, treasurer; Britney Trahan, secretary.

Seniors and their parents met that night at the home of President Trahan to discuss senior expenses for the year. Fund raisers, yearbook pages, graduation party and the senior trip were the main topics discussed.

The seniors will have several fund raisers in the upcoming months to raise money for their yearbook pages. More information about these fund raisers will be given at a later date.

# Purple Heart group to meet

The Military Order of the Purple Heart Chapter 1996 will meet Sat., Sept. 21, at 2 p.m. The meeting will be at the American Legion Post #409 located at 912 John Stine Road in Westlake. The meeting is for all members of the Military Order of Purple Heart or any combat wounded veteran. Several state officers will be in attendance to assist in the election of local officers.

There are currently over 500 Louisiana members among chapters in existence at New Orleans, Baton Rouge, Lafayette, Monroe, Shreveport and Alexandria.

The members of the Military Order of the Purple Heart have worked hard on legislation which provides a free license plate to all residents of Louisiana who have been awarded the Purple Heart for wounds received in combat. Once the purple heart license plate is received, it is good for life and it is free. In return, veterans who are qualified are solicited for membership in this most elite and cherished organization. This is a small and proud organization, united by the fact that all members have been wounded in combat.

Call Gene Allen at 318-625-5780 or write to 328 Rio Hondo, Sulphur, La. 70663, for further information.

REQUEST FOR PUBLIC COMMENT ON A PROPOSED OPERATING AIR PERMIT

STATION 821E1 - JOHNSON BAYOU
TENNESSEE GAS PIPELINE
CAMERON, CAMERON PARISH, LOUISIANA

Tennessee Gas Pipeline, P. O. Box 2197-HU 3002, Houston, Texas 77252, requests a Part 70 Operating Permit for Station 821E1 - Johnson Bayou, near Cameron, Cameron Parish. The station consists of standby generator and pump, flare, tanks, and glycol reboilers. The station is 10 miles east of the Texas-Louisiana state boundary. Impact of pollutants on air quality is below the National Ambient Air Quality Standards (NAAQS). Estimated emissions in tons per year are as follows:

| Pollutant | Emission |
|---|---|
| $PM_{10}$ | 0.10 |
| $SO_2$ | 0.10 |
| $NO_x$ | 4.45 |
| CO | 3.91 |
| VOC | 8.23 |

VOC emissions include 1.03 TPY of toxic air pollutants. The potential to emit VOC from equipment maintenance are above the Title V major source threshold of 100 TPY.

The Air Quality Division, Louisiana Department of Environmental Quality, has reviewed the application and has made a preliminary determination of approval. For 30 days from the date of publication of this notice, the public is provided the opportunity to comment on the proposed permit.

A copy of the application and the draft permit are available for inspection and review at the Office of Air Quality and Radiation Protection, Air Quality Division, 7290 Bluebonnet Blvd., Baton Rouge, LA; and the Cameron Parish Library, P.O. Box P, Marshall Street, Cameron, Louisiana 70631-2016.

Written comments on this project may be submitted to the Administrator, Air Quality Division, P. O. Box 82135, Baton Rouge, Louisiana 70884-2135. Correspondence shall specify Review Number 15921. All comments will be considered prior to a final permit decision.

# Treasure sites near the mouths of the Calcasieu & Mermentau

By W. T. BLOCK

While there are two treasure sites near the mouths of the Calcasieu and Mermentau rivers that most likely will never be found, it might be well to identify them in the event the "impossible" just might happen. One is an iron safe, containing $9,000 in gold, thrown overboard near the Cameron Parish court house during a battle between Confederates and two Union gunboats on May 6, 1864. The other is the wreckage of the pirate ship Hotspur near the mouth of the Mermentau River, which ran aground and wrecked in November, 1820.

In his article published in True West magazine in December, 1979, the writer outlined other reputed treasure locations elsewhere along the Calcasieu River , the Barb Shellbank, Contraband Bayou and Island, and old Cidony's Shipyard. Those stories originally appeared in the New York Herald and were reprinted in a long, 3-column article in "Story of Laffite on the Calcasieu," Galveston Daily News, on April 25, 1895. Another long article about Jean Laffite's Mermentau River treasure sites originally appeared in Cincinnati Inquirer and was reprinted in the Daily News in 1897.

In April, 1864, the Mermentau Jayhawkers owned a herd of 450 stolen cattle and horses, which they offered for sale to the Union Navy in New Orleans. Within days, two Union gunboats entered the Calcasieu and dropped anchor in front of the writer's great - grandfather's home (Duncan Smith) at Leesburg, now Cameron.

At daylight on May 6, 1864, the entire Confederate garrison from Sabine Pass, including a battery of artillery, attacked the gunboats, shortly before the stolen herd was to be loaded aboard.

A seesawing, 90-minute battle ensued before both the gunboats surrendered, and about 20 soldiers and sailors were killed and many more were wounded during the onslaught. Lt. Benjamin Loring's (commander of U.S.S. Wave) long account of that battle, and of Duncan Smith's involvement in it, was published in War of the Rebellion: Official Records of the Union and Confederate Navies, Series I, Volume XXI, pages 256-259.)

Soon after Lt. Loring raised a white flag above his vessel, the Confederate soldiers watched in anguish as the Bluejackets threw everything possible overboard, including the Wave's iron safe. Prisoners of war later confirmed that the safe contained $9,000 in gold coins, intended a payment to the Jayhawkers for the stolen cattle and horses. For a few days, the Confederates dived for the safe in six fathoms of water, but they soon abandoned the search because the Confederates had to return to Sabine Pass.

The life of Captain James Campbell, Jean Laffite's most trusted lieutenant, is perhaps the best-documented of any of Laffite's pirates. Campbell, son-in-law of Isaac and Isabel Chabineaux Crow, resided at Crow's Ferry, Sabine Parish, La. in 1817-1817 before he joined Laffite on Galveston Island.

His privateer Hotspur (the second of Laffite's privateers of that name) was special-built by Laffite's command at Baltimore in 1818. Of special design, the second Hotspur was a topsail or "hermaphodyte" schooner, fore-and-aft rigged on both masts as well as square-rigged on the foremast, a vessel "with all wings and no feet," that could sail rings around the slow Spanish galleons of that day.

During a ten-months' voyage from February to November, 1820, the Hotspur engaged and captured a number of Spanish plate ships off Vera Cruz and Tampico. After plundering their victims of all buillion, coins, rum, stores, and fresh water aboard, Capt. Campbell and his men burned the captured ships. With all fresh water exhausted, the Hotspur sailed up the Mermentau to Grand Chenier in November, 1820, and the youngest pirate aboard, a 14-year-old cabin boy named Charles Cronea, deserted the privateer.

As the Hotspur attempted to return to the gulf, the privateer ran aground in the shallow water offshore. Captain Campbell and his crew were able only to salvage a small portion of the Spanish gold and silver aboard at the time of the wreck. When they later returned on another ship to resume salvage operations, the wreckage of the Hotspur had disappeared into deeper water.

The sunken treasure of the Hotspur and the Wave will probably never be found unless they are dug up during Corps of Engineers dredging operations at Cameron or in the offshore nets of some shrimper or fisherman. But if they should ever appear, it is at least nice to know from whence they originated.

### AGAINST CAMERON POLICE JURY

# Injunction obtained

By Geneva Griffith

There were two new developments this past week in the dispute between the Baton Rouge Audubon Society and two property owners in the Little Florida subdivision (with the Cameron Parish Police Jury caught in the middle.)

One of the property owners was charged by the sheriff department with destroying the road sign leading to the Society's migratory bird sanctuary near Johnson Bayou and the Cameron Parish district judge granted the society an injunction temporarily prohibiting the cutting of vegetation on the sanctuary.

The conflict started when the Cameron Parish Police Jury voted at its July meeting to include the Little Florida subdivision in its noxious weed ordinance at the request of Police Juror Dusty Sandifer, who represents the area.

The Audubon Society, which is a non-profit group, owns 21 of the subdivisions 36 lots, including a 10-lot section called the Henshaw Tract that was acquired after the developer was unable to sell the lots for homes. The deal was made with the understanding that it would be used as a bird sanctuary.

Two adjacent landowners had complained that the overgrown vegetation on the sanctuary was causing problems with wild animals on their property.

Charles Fryling, Society president, says the vegetation in the Henshaw Tract provides crucial food for birds who will be preparing to fly south in October.

The Society received a letter from the Police Jury last week asking them to either cut the underbrush, or the Police Jury would cut it and send the Society the bill for the work.

In the meantime Lawrence Suire, one of the adjacent landowners to the sanctuary, reportedly dug up the sanctuary sign on the side of the road and burned it.

The act was witnessed by workers at the nearby Stingray Plant who called the Cameron Parish Sheriff's Department

Suire was charged with theft and criminal damage to property and was released on bond.

Glenn Alexander, Cameron Parish District Attorney, said that he will be charged with

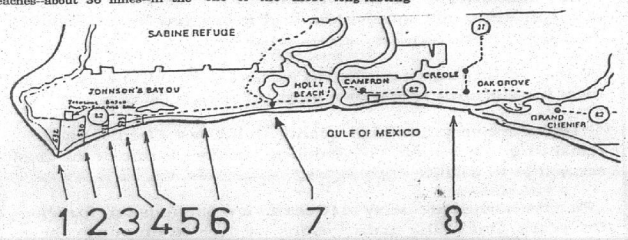
# Beach cleanup Sat.



Cameron Parish annual Beachsweep will be held Saturday, Sept. 21, according to Ed Kelley, parish coordinator.

The event, which is a part of the statewide beach cleanup, will start at 10 a.m. on each of the eight beaches of the parish. Trash bags will be provided at each beach.

Cameron parish has the longest stretches of accessible beaches--about 36 miles--in the state and the annual cleanup has proven very successful here in the past.

A key part of the Beach Sweep cleanup is the data collected by volunteers. Zone coordinators provide data cards, along with collection bags, and results are incorporated into national statistics. Previous collections showed that 70% of the trash on Louisiana's beaches is plastic, one of the most long-lasting forms of marine debris.

Beach Sweep works in conjunction with the Louisiana Adopt-a-Beach project, which has grown to cover 50 miles of our coastline. In 1995, almost 7,000 Louisiana Beach Sweep volunteers cleaned 311 miles of beach and collected over 145,000 pounds of debris which would have otherwise continued to damage wildlife and our fragile coastal habitats.

# Election to be held Saturday

Saturday is one of the two "big" elections this year (the other is in November) and Cameron Parish voters will on one local race, plus four district and state races.

In Ward 4 there is a race for Justice of the Peace with Lawrence "Neg" Faulk and John "Buck" Stephenson, Jr. as the candidates.

In the 25th Senatorial District, which includes Cameron Parish, there is a runoff between Mike Francis and Gerald "Jerry" Theunisse for the Louisiana senate seat vacated by the resignation of Cecil Picard.

In the 3rd Supreme Court District, incumbent Jack Watson is opposed by Jeannette Knoll.

In the 7th Congressional District race, there is no incumbent since Rep. Jimmy Hayes chose to run for the Senate seat being vacated by Bennett Johnson's retirement.

Seeking this Congressional seat are Charlie Buckels, Chris John, Hunter Lundy, Tyron Picard, Macklin Schexneider, Jim Slatten, David Thibodeaux and Peter Vidrine.

There are 15 candidates seeking the vacant senate seat. They are Nick Accardo, David Duke, Troyce Guice, Jimmy Hayes, Woody Jenkins, Tom Kirk, Mary Landrieu, Bill Linder, Chuck McMains, Sam Melton, Jr., Jim Nichols, Sadie Roberts-Joseph, Darryl Paul Ward and Peggy Wilson.

Voters will also vote on two constitutional amendments. No. 1 would require local elections and voter approval before any new forms of gambling would be approved and also would provide for local referendum elections on gambling.

No. 2 exempts from ad valorem taxation all incorporeal movables, with a few exceptions.

**VOTE SEPT. 21**

**Proposed Constitutional Amendments**

Amendment No. 1...To require local elections and voter approval before any new forms of gaming, gambling, or wagering may be conducted, before existing forms of gaming, gambling, or wagering may be conducted in a new parish, and before additional riverboat gaming, gambling, or wagering, or riverboat gaming, gambling, or wagering at a different docking facility may be conducted in a parish where it exists, and to authorize the legislature to enact local election laws for the purpose of allowing local referendum elections on gaming, gambling, or wagering. (Adds Article XII, Section 6(c)) — For ☐ Against ☐

Amendment NO. 2 To exempt from ad valorem taxation all incorporeal movables, except public service properties, bank stocks, and credit assessments on premiums written in Louisiana by insurance companies and loan and finance companies. ( Adds Article VII, Section 21 (C) (18)) — For ☐ Against ☐

# Amendments explained

By REP. DAN FLAVIN

On Sept. 21, voters will vote on two constitutional amendments. The one drawing the most attention is No. 1, which calls for local voter approval for new gambling. Local voter approval is not now required for a parish to have new forms of gambling or additional riverboat casinos. The constitution prohibits the legislature from passing local or special laws on several different subjects including local laws for the holding and conducting of elections, regulating trade and defining crimes.

A vote for this amendment would require the approval of a majority of voters in a parish before certain new gambling could be conducted there. It would further allow the Legislature to provide by local or special law, for elections on propositions relating to allowing or prohibiting one or more forms of gambling authorized by legislative act.

A vote against this amendment would continue to allow new gambling in a parish without calling local elections on gambling through local or special laws.

It is important to remember that this proposed amendment alone would not eliminate any existing gambling. Voters will decide on whether to keep existing gambling in a November parish-by-parish election.

There is also a second amendment to vote on. Currently a business has certain intangible assets such as reputation, goodwill, client lists and trained work force which are part of its total value as a going concern. Louisiana's parish assessors have only placed the value of tangible assets (such as land, building, inventory and equipment) on the tax rolls.

Some property is assessed at the state level by the Louisiana Tax Commission. This includes several specific types of intangibles (bank stocks and credit assessments on certain insurance, loan and finance companies).

A vote for this amendment would make constitutional the long standing practice of exempting certain intangible business property such as "goodwill" from the property tax, with limited exceptions.

A vote against this amendment would leave intangible property subject to potential taxation.

# Seismic work protested

By GENEVA GRIFFITH

A number of Cameron Parish shrimpers appeared before a special meeting of the Police Jury Monday morning protesting the dynamiting by seismic boats in the shrimping grounds just offshore.

Kevin Savoie, Associate County Agent for Cameron, pointed out that the dynamiting had ruined the shrimping harvest for this season, because after the charges go off the bottom of the Gulf is disturbed for at least two months, stirring up mud and silt.

This is the busiest season and the shrimpers depend on the income they are now receiving from their shrimp sales to tide them over the winter, Savoie said.

"There are approximately 40 boats operating out of Cameron whose livelihood is at stake", Savoie said. "The shrimpers would like for the company to agree to postpone the seismograph work until the end of December and they could possibly do the dynamiting east of Cameron waters, at Sabine and work this way."

GREG WICKE and Chris Simon here show some of the items to be auctioned at the Cameron Parish Ducks Unlimited banquet on Sat., Sept. 21, at the Grand Lake Firemen Center. The events begins at 6:30 p.m.

## Cameron Parish Residents WE NEED YOUR HELP!!

**The Baton Rouge Audubon Society wants your comments on the Cameron Parish Weed Ordinance as it affects the Holleyman-Sheely/Henshaw Sanctuaries. These areas are managed with shelter for birds in mind - namely plant cover and food supplies for birds that migrate long distances across the Gulf of Mexico twice a year. Areas of these sanctuaries are now threatened if they are not excluded from the Weed Ordinance.**

**Naturalists and birders visiting this parish are an important part of the economic development of Cameron . If tourism has a positive impact on your business, let us know. If you would like to see this area remain a sanctuary for migrating birds and butterflies, we need your support now.**

# Expulsion policy told by S. Board

**(EDITOR'S NOTE--This is another of the policies of the Cameron Parish School Board affecting students. This deals with the expulsion of students.)**

The Board shall authorize the Superintendent to expel a pupil from school if an offense committed by the pupil is serious enough to warrant such action or is in violation of state law.

State law requires the Superintendent to expel a pupil for minimum periods of time if found guilty of certain offenses, as follows:

A. 16 years or older. If after an appropriate hearing a pupil is found guilty of possession with intent to distribute, any illegal drug or substance on school property, on a school bus, or at a school sponsored event, the pupil shall be expelled for a minimum of 24 calendar months.

If after an appropriate hearing a pupil is found guilty of possession of a firearm on school property, a school bus, or in actual possession at a school sponsored event, the pupil shall be expelled for a minimum of 12 calendar months and shall be referred to the district attorney for appropriate action.

B. under 16 years, but in grades 6-12.

If after an appropriate hearing a pupil is found guilty of possession, or knowledge of and intentional distribution or possession with intent to distribute any illegal drug or substance on school property, on a school bus, or at a school sponsored event, the pupil shall be expelled for a minimum of 12 calendar months.

If after an appropriate hearing a pupil is found guilty of being in possession of a firearm on school property, on a school bus, or in actual possession at a school sponsored event, the pupil shall be expelled from school for a manimum of 12 calendar months and shall be referred to the district attorney for appropriate action.

C. Grades K-5.

If after an appropriate hearing a pupil is found guilty of possesison, or knowledge of and intentional distribution or possession with intent to distribute any illegal drug or substance on school propperty, on a school bus or at a school spnsored event, the pupil shall be referred to the School Board with recommendation of appropriate action by the Superintendent.

If after an appropriate hearing a pupil is found guilty of being in possession of a firearm on school property, on a school bus, or in actual possession at a school sponsored event, the pupil shall be expelled from school for a minimum of 12 calendar months and shall be referred to the district attorney for appropriate action.

Expulsion, especially those outlined above, shall not apply to the following:

1. A student carrying or possessing a firearm or knife for purposes of involvement in a school class, course, or school approved cocurricular or extracurricular activity or any other activity approved by appropriate school officials. In such cases the student shall request permission from the principal at least one day prior to bringing this item to school. Without such prior consent, the student will not be allowed to bring the item to the school. On the day of the activity or class for which the item is needed, the student shall upon entering the school campus, immediately bring the item to theprincipal for safekeeping until the time of the class or activity for which the item is needed. Immediately upon conclusion of the activity, the student shall return the item to the principal until the student's departure from campus. Otherwise the student shall be disciplined according to the existing School Board policies.

Additional Reasons for Explustion.

Pupils may also be expelled for any of the following reasons:

1. Any pupil, after being suspended for commiting violations of any discipline policies or other rule infractions, depending on the severity of the behavior, may be expelled upon recommendation to the Superintendent by the principal, and after an appropriate hearing is held by the Superintendent or Designee.

2. Any student who is found carrying or possessing a knife with a blade which equals or exceeds two inches in length.

3. Any pupil, after being suspended on three occasions for committing any suspendable offense during the same school session, shall on committing the fourth offense, be expelled from thepublic schools of the parish until the beginning of the next regular school year, subject to review by the School Board.

4. Any pupil determined to have brought a weapon to a school under the Board's jurisdiction shall be expelled for a minimum of one year. The Superintendent may modify the expulsion requirement on a case-by-case basis. A weapon, in accordance with federal statutes, means a firearm or any device which is designed to expel a projectile or any destructive device, which in turn means any explosive, incendiary or poison gas, bomb, grenade, rocket, missile, mine or simiilar device.

5. The conviction of any pupil of a felony or the incarceration of any pupil in a juvenile institution for an act which had it been committed by an adult,would have constituted a felony, shall be cause for expulsion of the pupil for a period of time as determined by the Board; such explusions shall require the vote of two-thirds of the elected member of the Board.

Any pupil who is expelled shall receive no credit for school work missed while he is expelled.

Dangerous Weapons.

The Board shall authorize the principal of each school to automatically suspend, and recommend expulsion for any student found in possession of a dangerous weapon on the school grounds, on school buses and/or at any school sponsored event, at any time, during or after regular school hours, with limited exception. A dangerous weapon means any gas, liquid,or other subtance or instrumentality ,which in the manner used is likely to produce death or great bodily harm.

**(Lake Charles American Press, September 19, 1930)**

**BIDS ON FREE FERRY**

Three low bids, ranging from $850 a month to $960 a month, on a contract for operating a free ferry service for the state at Cameron over the Calcasieu River, were announced recently by the Louisiana Highway Commission.

The commission has taken the bids under advisement, and the award of contract, which will have a duration of two years, will probably be made in the near future.

The low bidders: Lovell Dorr, Slidell, $850 per month; Wilson Broussard, Lake Arthur, $870 per month; and Hursey Transportation Co., Slidell, $960 per month.

The contract at stake provides that the successful bidder furnish and operate the free ferry, which must have a minimum capacity of eight automobiles, on a 24-hour schedule with 30-minute trips during the day and hourly trips at night, the service to be free to motorists, the operator being paid on a monthly lump sum basis by the state.

The crossing, at which a private ferry service is now in operation, is an important link on the Sulphur-Cameron shell highway, Cameron Parish, now under construction, and links Lake Charles and adjacent points with the Cameron Gulf Coast area. The commission will complete approaches to the ferry on both sides of the Calcasieu River.

**GAS TAX**

The Cameron Parish Police Jury has passed an ordinance levying a tax of one cent per gallon on all gasoline sold, used or consumed within the parish, to be used for the repair and maintenance of parish roads and bridges.

The ordinance was adopted Sept. 3, to go into effect at once.

**(Cameron Pilot, Sept. 19, 1963)**
**HURRICANE CINDY**
**(By Joan Taylor)**

Cameron Parish residents sighed a sigh of relief Tuesday morning when the threat of Hurricane Cincy passed, and the estimated 5,000 residents of the parish were allowed to return to their homes.

The Cameron Parish Sheriff's Department reported late Tuesday that no damages had been reported to the area.

# Tarpons will be on the road to play Pickering

By JOE MUELLER

The South Cameron Tarpons go on the road this Fri., Sept. 20, as they take on the Pickering Red Devils.

The Tarpons are 2-0 on the season as they have registered back to back shutouts, beating two District 5AA teams, DeQuincy and Vinton.

The Red Devils of Pickering are the coaches choice to win District 5AA.

Beside a very strong defense the Tarpons have shown a strong running game as they have amassed over 500 yards of rushing in their first two games.

The Tarpons have three good rushers in Brandon Conner who has rushed for 192 yards this season and Cory Broussard who had 89 yards in last week's game and Steve Moore who rushed for 75 yards in the opening game.

The Red Devils have a 1-1 record, losing their season opener to Welsh 20-17 and beating Many 21-16.

The Red Devils throw the ball as they have 22 pass attempts in their opening two games and Morris has completed 50% of them.

The Red Devils defense has given up 36 points in two games. They have scored 38.

They have been susceptible to the run as they have given up 347 yards rushing.

The Red Devils top rusher is Artis Stanley who has over 150 yards in two games. Sam Blocker rushed for 88 yards in the Red Devil win last week.

The Red Devils won all ten of their games last year before they were forced to forfeit all the victories for using an ineligible player.

Another interesting fact is that Pickering has 14 votes and South Cameron 13 in the Class AA poll by the Louisiana Sports Writers.

The Tarpon defense has put points on the board in both of this season's games by fumble recoveries. They also scored a safety in last week's game.

The two teams play very hard and close games as a rule and it shouldn't be any different this year. Last year's game was won by the Red Devils 28-20. The Red Devils were up 21-7 at halftime and held off the Tarpons in the second half.

Let's get a good crowd up to Vernon Parish to support the Tarpons. The game should be worth the drive.

## What do they have to do?

By JOE MUELLER

The South Cameron Tarpons have to wonder what they need to do to impress the voters in the La. Sports Writers poll. The Tarpons scored a 30-0 win but still only got 13 points in the poll. This was the same number they received in the poll the week before.

Northeast maintained their hold on first place for a second week.

Notre Dame of District 6AA stayed in fifth place.

The Tarpons opponent this week garnered one more point in the poll than South Cameron.

Iota also of District 6AA like South Cameron, received 4 points.

**PRAYER TO THE BLESSED VIRGIN**
**(Never known to fail)**

**Oh most beautiful flower of Mount Carmel, fruitful vine splendor of Heaven, Blessed Mother of the Son of God Immaculate Virgin, assist me in my necessity, Oh Star of the Sea, help me and show me herein you are my Mother, Oh Holy Mary, Mother of God, Queen of Heaven and earth I humbly beseech you from the bottom of my heart to succor me in this necessity. There are none that can withstand your powers, Oh, show me herein you are my Mother. Oh Mary conceived without sin, pray for us who have recourse to thee (three times). Holy Mother, I place this cause in your hands (three times). Holy Spirit you who solve all problems, light all roads so that I can attain my goal, you who give me the divine gift to forgive and forget all evil against me and that all instances in my life you are with me. I want in this short prayer to thank you for all things as you confirm once again that I never want to be separated from you in eternal glory. Thank you for your mercy toward me and mine. The person says this prayer 3 consecutive days. After 3 days, the request will be granted! This prayer must be published after the favor is granted.**

# Tarpons score big win over Vinton last week

By JOE MUELLER

The South Cameron Tarpons used a strong defense and strong running game to raise their season record to 2-0 as they beat Vinton 30-0 in their season home opener.

The Tarpons 30-0 win was the second consecutive shut out registered by the Tarpons. They defeated DeQuincy 27-0 in their season opener.

The Tarpons collected three turnovers in the contest as they recovered two fumbles one of which Willard Pruitt returned 24 yards for a touchdown.

Once again as in the opening game the Tarpon kicker did an excellent job as he hit on all four of his extra point attempts.

The Tarpons first touchdown came as Cory Broussard ran in from two yards out to culminate an 80 yard drive. This drive consisted of 15 plays and ended with only 47 seconds left in the opening half.

The Tarpons second score came on Pruitt's fumble recovery. The Tarpons third touchdown was also the result of Willard Pruitt as he intercepted a Vinton pass at the Tarpon 44. Two plays after the interception John Pradia ran in from the 39.

The final touchdown score was a 61 yard drive which ended with Brandon Conner scoring on a one yard run.

The final score by the Tarpons came when they tackled Vinton's Donald Flores in the end zone.

The top rushers from South Cameron were Brandon Conner and Cory Broussard as they both rushed for 89 yards and each had 17 carries.

The Tarpons John Pradia hit on 4 of 8 passes during the night. Scotty Brown and Brent Morales each had two carries.

The Tarpons hit the road again this week as they travel up to Vernon Parish to face the Pickering Red Devils.

# Co-op asks cooperation in cutting of trees

Jeff Davis Electric is seeking the cooperation of property owners in the Cameron Parish area in keeping trees trimmed and right-of-ways cleared.

Dale Landry, general manager of Jeff Davis Electric said that coastal residents in Cameron Parish have long had a love affair with trees, not merely for the beauty and shade they provide, but for the wind and water break they offer during hurricanes.

"We want to work together with our Cameron Parish consumers to provide them with the most reliable service possible," Landry said. "To do this we need to provide proper right-of-way clearance to avoid interruptions in their electric service."

"There's another point people often forget," Landry said. "When trees invade power lines they become a danger to all those near them. Trees are full of moisture and electricity runs through them very easily. Should children climb these trees or you happen to be working in or near them, the result could be death or painful crippling burns.

Landry said that contract crews will be contacting property owners in the future to schedule a time to trim their trees.

"We're not asking to cut the trees down completely," Landry continued. "We only need to trim them back to avoid outages and to prevent unnecessary accidents."

The lower leaves of the compass plant tend to line up edgewise in a north-south direction. This way the leaves escape the strong midday sun, but get the full morning and afternoon sunlight.

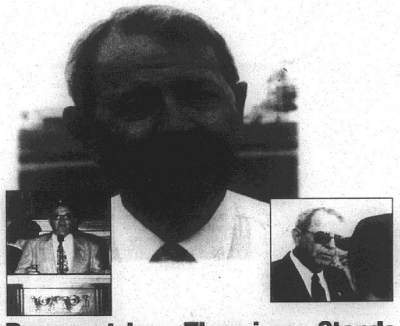
A DEMOCRAT FOR LOUISIANA

DISTRICT 25'S BEST CHOICE FOR SENATOR.....
DEMOCRAT GERALD "JERRY" THEUNISSEN

Here's What People Are Saying About Jerry Theunissen:



"Theunissen is the only candidate in the District 25 race with legislative experience, and in this case that's a plus. His legislative record is impeccable."
*Lake Charles American Press*

"Because you had the courage to do things differently from the past, Louisiana had its best legislative session from an economic development standpoint since 1976"
*Louisiana Association of Business and Industry*

"Representative Theunissen exemplifies the term 'conservative democrat'. His voting record has consistently been fiscally conservative, and he has worked closely with legislative delegations from throughout southwest Louisiana to benefit taxpayers from all walks of life."
*Vermilion Parish Democratic Executive Committee*

"The race has basically been broken down to a contest between the old-fashioned Louisiana politics of Francis against the new reform movement in which Theunissen has been a part"
*The Jennings Daily News*

"We have served with him in the Legislature and he is an honorable and able Legislator. He is conservative in his thinking. We feel he is the most qualified individual in the race. He will serve you honorably, ethically and morally."
*Calcasieu Parish Legislators-Democratic Rep Dan Flavin, Dist 36*
*Republican Rep Vic Stelly, Dist 35*
*Democratic Rep Ronnie Johns, Dist 33*

Democrat Jerry Theunissen Stands Head and Shoulders Above His Republican Opponent...

"I want to put my business experience, my legislative experience and my service to the people of District 25 to work for you in the Louisiana Senate. I have worked closely with Governor Foster as a floor leader for much of his legislation and will continue to do so in the future. I served as a combat pilot in Vietnam, I'm a Catholic who believes in Pro-Life, and I've conducted my campaign in an honorable and honest manner. I would appreciate your vote and support on September 21st."

PROCEEDINGS

Minutes of the Regular Meeting of the Cameron Parish Gravity Drainage District No. 3 held on Tuesday, July 16, 1996, at 2:30 p.m. at the Cameron Parish Police Jury Annex.

Members Present: Edwin W. Quinn, Scott Henry, E. J. Dronet, and George Kelley.

Member Absent: Earl Guthrie.

Others Present: Lonnie Harper, Ted Joannen, James LeBoeuf, J. Berton Daigle, Amos Vincent, Larfay Ancelet, George LeBoeuf, Jay Midkiff, Glenn Harris, Tina Horn, Malcolm Savoie, and Scott Durham.

A motion was made by George Kelley, seconded by Scott Henry, and unanimously carried to approve the minutes of the June 18, 1996 regular meeting as written.

A motion was made by George Kelley, seconded by Scott Henry, and unanimously carried to approve the Financial Report for the month of June, 1996.

A motion was made by Scott Henry, seconded by George Kelley, and unanimously carried to approve the following bills for payment:

1. Cameron Parish Pilot, $33.00; 2. Cameron Parish Clerk of Court, 11.00; 3. Vernon R. Coon, C.P.A., 1,356.50; 4. J. Berton Daigle, 300.00; 5. Coastal Culvert & Supply, Inc., 1,532.80.

A motion was made by E. J. Dronet, seconded by Scott Henry and unanimously carried to receive the annual audit report for the year ended December 31, 1995, as presented in writing by Vernon Coon, C.P.A. The report revealed the books to be in good order.

A motion was made by E. J. Dronet, seconded by Scott Henry, and unanimously carried to authorize President Quinn to sign an engagement letter with Vernon R. Coon, C.P.A. to conduct the audit for the year ended December 31, 1996.

Mr. Quinn reported that we have received two written price quotes for cleaning out one mile, and Larfay Ancelet has big $9,200 for cleaning one mile. It was agreed by concensus that the matter be tabled until next month so that a third written quote can be sought.

A motion was made by E. J. Dronet, seconded by George Kelley, and unanimously carried to request Lonnie Harper to advertise for bidding on the project with clean-out of one mile for a base bid, and add-on for the remaining two miles.

Mr. Harper reported that the permit currently includes planting of smooth cordgrass on the Lakebank for mitigation. Today he presented an alternate mitigation plan calling for bullrush on 7.5 acres of property to be planted at North American Land Company's expense. A motion was made by George Kelley, seconded by E. J. Dronet, and unanimously carried to replace the original mitigation plan in the permit for cleaning the drainage lateral No. 25 in Sweetlake with the alternate mitigation plan of planting bullrush on N. American Land Co. property at North American's expense as agreed to by them.

Glenn Harris presented the Water Management Report for the Cameron-Creole Watershed. He reported that 4.8 inches of rain fell from June 19 to 25, and the rain did help relieve some of the high salinities. He also stated that they haven't heard anything about DNR approving the Automation Project, but he hopes it will soon become a reality. Mr. Harris then stated that construction has been delayed for the Mangrove plug project, but construction should begin around the begining of August.

Clay Midkiff of NRCS stated that they are the Federal sponsor of the Maintenance Trust Fund, and between NRCS and DNR it seems that local cost share will be covered by Jack Caldwell so that the State maintenance fund can be matched by Federal money. He said that DNR's aggregate of 3% maintenance for the Automation of water Control Structures in the Cameron-Creole Watershed is "piggybacked" with the Maintenance Trust Fund, since he would sign for local cost share. He said that $11,000 per year is the maintenance estimate for the automation, and for 20 years, this would amount to $220,000 over the life of the project. Out of the $3.8 million Trust Fund, 6 to 7% of the total project would be committed to maintenance of the automation. Mr. Midkiff said that as soon as NRCS tells the Secretary of the State Department of Natural Resources that they would be in favor of attaching automation to the Trust Fund, then they will sign the LCA (local cost share agreement).

A motion was made by Scott Henry, seconded by E. J. Dronet, and unanimously carried to authorize president Quinn to write a letter to Jack Caldwell of DNR, stating that this Board will agree (as long as Maintenance Funds are available) to "piggyback" maintenance of the automation onto the Maintenance Trust Fund, with the understanding that Mr. Jack Caldwell will sign the Grand Bayou Agreement and after the Grand Bayou crack repair and rip-rap installation along the Calcasieu Lake bank at points where needed, no further maintenance projects are completed.

It was agreed by consensus to authorize Lonnie Henry to obtain three price quotes on having spill prevention tanks installed under fuel tanks on all drainage pumps in the district, and to authorize having the work done.

There being no further business, the meeting was adjourned.

Secretary-Treasurer

PUBLIC NOTICE
CAMERON PARISH COASTAL
USE PERMIT APPLICATION

Interested parties are hereby notified that the Coastal Management Section of the Cameron Parish Police Jury has received the following apparently complete application for a Coastal Use Permit in accordance with the rules and regulations of the Louisiana Coastal Resources Program and R.S. 49,213.1, the State and Local Coastal Resources Management Act of 1978, as amended.

L.C.U.P. Application #960807

Name of Applicant: Melba L. Trahan, 3083 Grand Chenier Hwy., Grand Chenier, La. 70643.

Location of Work: Grand Chenier, Section 40, T15S, R6W, Cameron Parish, Louisiana.

Character of Work: Proposed timber pier 12'x30'. To provide for recreation and private docking facilities. No dredging of the water bottom will be performed during this activity.

The decision on whether to issue a permit will be based on an evaluation of the probable impacts of the proposed activity in accordance with the state policies outlined in R.S. 49:213.2. The decision will reflect in the national concern for both protection and utilization of important resources. The decision must be consistent with the state program and regional programs for affected parishes and must represent an appropriate balancing of social, environmental, economic factors. All factors which may be relevant to the proposal will be considered; among these are flood and storm hazards, water quality, water supply, feasible alternative sites, drainage patterns, historical sites, economics, public and private benefits, coastal water dependency, impacts on natural features, compatibility with the natural and cultural setting and the extent of long term benefits or adverse impacts.

Certification that the proposed activity will not violate applicable water and air quality, laws, standards and regulations will be required before a permit is issued.

Any person may request, in writing, within the comment period specified in this notice, that a public hearing be held to consider this application. Request for public hearings shall state, with particularity, the reasons for holding a public hearing.

Plans for the proposed work may be inspected at the Cameron Parish Police Jury Annex Building, Courthouse Square, P. O. Box 366, Cameron, Louisiana, (318) 775-5718. Written comments should be mailed within 25 days from the date of this public notice to Cameron Parish Police Jury, Coastal Management Division, Post Office Box 366, Cameron, Louisiana 70631.

State of Louisiana et al No. 9 Original, said three mile line as set out in the June, 1975, decree of the Supreme Court. All bearings, distances and coordinates are based on Louisiana Coordinate System of 1927 (Zone South).

NOTE: The State of Louisiana does hereby reserve, and this lease shall be subject to, the imprescriptible right of surface use in the nature of a servitude in favor of the Department of Natural Resources, including its Offices and Commissions, for the sole purpose of implementing, constructing, servicing and maintaining approved coastal zone management and/or restoration projects. Utilization of any and all rights derived under this lease by the lessee, its agents, successors or assigns, shall not interfere with nor hinder the reasonable surface use by the Department of Natural Resources, its Offices and Commissions, as hereinabove reserved.

All bids are to offer a CASH PAYMENT, one-half (½) of which is to be bonus as full and adequate consideration for every right granted by the lease and one-half (½) of which is to be rental for the first year of the lease, for a lease having a primary term which shall not exceed five years, and if the bid offers a delay rental the ANNUAL DELAY RENTAL shall not be less than one-half (½) of the aforesaid cash payment, which lease is to be granted without any warranty or recourse against lessor whatsoever, either expressed or implied, not even for return by lessor of any payments received under the lease or being responsible to lessee for the MINIMUM ROYALTIES required by R.S. 30:127, as amended, are one-eighth (⅛th) of all oil produced and saved or utilized; one-eighth (⅛th) of all gas produced and saved or utilized; and one-eighth (⅛th) of all other liquid or gaseous hydrocarbon solution and produced with oil or gas and saved or utilized, with only the specifically mentioned herein. Rights to geothermal resources, free sulphur, potash, lignite, coal and other solid minerals are to be excluded and any bid therefor will be disregarded to such extent. A bid of a royalty less than the aforesaid statutory minimums will be accepted only if it equals such minimums by the Board. All bidders are notified that the Board does not obligate itself to accept a bid which offers the aforesaid statutory minimums, but reserves the right to accept a bid which offers in excess of the statutory minimums and is considered most advantageous to the State of Louisiana.

The provisions of this notice or advertisement and the relevant statutes establish the material considerations necessary for the formulation of proper bids, and this notice or advertisement shall not be construed to be modified, enlarged or diminished by recitations or policy expressions of the Board not incorporated herein expressly or by reference.

**Notice is given that the State Mineral Board will include in the lease provisions to insure applicable payments attributable to the leased property without regard to adverse title claims, disputes, litigation or title failure. The exact language therein contained is available to any interested bidders at the Office of the Secretary, Department of Natural Resources or the Office of Mineral Resources prior to the opening of bids on the tract, and prospective bidders should carefully examine the same prior to submitting any bids.**

Some tracts available for leasing may be situated in the Louisiana Coastal Zone as defined in Act 361 of 1978 (LSA-R.S. 49:213). Such tracts may be subject to the guidelines and regulations promulgated by the Coastal Management Section of the Department of Natural Resources.

All leases executed as a result of this sale will contain provisions and conditions provided in the current State lease form with all applicable addenda appended thereto, including but not limited to provisions as to Pollution. Should lessee fail to begin the actual drilling (spudding in) of a well on the lease premises within one year from the date of the lease, the lease shall terminate as to both parties to the lease, unless on or before the anniversary date, lessee shall pay a delay rental (which shall in no event be less than one-half (½) of the aforesaid cash payment offered for the lease), which will extend the privilege of deferring drilling operations for one additional year. Upon like payments annually, drilling operations may be further deferred for successive periods of one year each during the primary term of the lease. The lessee shall provide for the drilling of offset wells where necessary to protect the State's interest and shall contain the provisions relative to assignment or sublease of the lease unless approved by the Mineral Board. The lessee shall have the right to enter into pooling or unitization agreements with regard to the development of the leased premises subject to the approval of the State Mineral Board.

Certified check, cashier's check or bank money order payable to the OFFICE OF MINERAL RESOURCES for the full amount of the aforesaid cash payment, must accompany and be submitted with each bid, and no bid for less than the amount may be thereafter withdrawn or considered until the expiration of the lessor's check or bank money order accompanying the bid. The successful bidder shall be immediately notified by the Office of Mineral Resources, and the proceeds thereof deposited in the manner required by law.

**SPECIAL NOTE**

By rules promulgated by the Department of Natural Resources under Authority of Act 15 of the 1986 first Extraordinary Legislative Session, a fee equal to 10% of the cash payment is required to be submitted by the successful bidder for all leases awarded on and after the date of September 14, 1989 Lease Sale. The successful bidder on each new lease is required to submit a separate check issued to the order of the cash payment. Such fee may be paid by regular check. The fee may be submitted either with the bid (inside the sealed bid envelope) or within ten (10) days after the bid lease is awarded. In the event that the check is submitted with the bid, and the bid is unsuccessful, the check will be returned along with the unsuccessful bid and check for cash payment. The successful bidder will not receive the lease executed by the State Mineral Board until the fee is received.

The successful bidder to whom the lease is awarded on the date of the lease sale shall return the written lease, duly executed within **TWENTY (20) DAYS** after bidder's receipt of same and in default of forfeiture of the lease and the aforesaid cash payment previously tendered and recognized in the event of failure to do so.

Sale may be for the whole or any particularly described portion of the land advertised, and in accordance with the policy of the Board as expressed in a resolution adopted March 9, 1965, all bidders are hereby notified that bids on portions of tracts should be described by aliquot parts of quarters and be accompanied by a transparent plat outlining the portion to be bid upon. The plat shall be 1 inch = 1,000 feet in scale and should identify the Point of Beginning, the Section, Township and Range and the Parish, the X and Y Lambert Plane Coordinates, any adjacent existing State Mineral Leases, and should clearly show the entire tract boundaries and dimensions of the portion bid upon. It shall also show the Topographic features (land and water) of the area in detail similar to the most recent edition of the U.S.G.S. Quadrangle Maps.

The State Mineral Board reserves the right to reject any and all bids or to grant a lease on any portion of the tract advertised and to withdraw the remainder of the tract.

ineral Resources prior to the
pening of bids on the tract, and
prospective bidders should
efully examine the same prior
o submitting any bid therefor.
Some tracts available for leasing
may be situated in the Louisiana
Coastal Zone as defined in Act 361 of
1978 (LSA-R.S. 49:213). Such tracts
may be subject to the guidelines and
regulations promulgated by the
Coastal Management Section of the
Department of Natural Resources.
All leases awarded shall be exe-
cuted upon terms and conditions
provided in the current State lease
form with all applicable riders ap-
pended thereto, including but not
limited to provisions as follows:
Should lessee fail to begin the actual
drilling (spudding in) of a well on the
lease premises within one year from
the date of the lease, the lease shall
terminate as to both parties to the
lease, unless on or before such anni-
versary date, lessee shall pay a
delay rental (which shall in no event
be less than one-half (½) of the
aforesaid cash payment offered for
the lease), which shall cover the
privilege of deferring drilling
operations for a period of one year.
Upon like payments annually, drilling
operations may be further deferred
for successive periods of one year
each during the primary term of five
years. The lease shall provide for the
drilling of offset wells where
necessary to protect the State's
interest and shall contain the
provisions against the assignment or
sublease of the lease unless ap-
proved by the State Mineral Board.
The lessee shall have the right to en-
ter into pooling or unitization agree-
ments with respect to development
of the leased premises subject to the
approval of the State Mineral Board.
Certified check, cashier's
check or bank money order pay-
able to the OFFICE OF MINERAL
RESOURCES for the full amount of
the aforesaid cash payment, shall
accompany and be submitted with
each bid, and no bid thus submitted
may be thereafter withdrawn or can-
celled and the certified check, cash-
ier's check or bank money order ac-
companying the bid of the
successful bidder shall be
immediately negotiated by the Office
of Mineral Resources, and the
proceeds thereof disbursed in the
manner required by law.
SPECIAL NOTE
By rules promulgated by the De-
partment of Natural Resources under
authority of Act 13 of the 1989 first
Extraordinary Legislative Session, a
fee equal to 10% of the cash pay-
ment is required to be submitted by
the successful bidder for all leases
awarded on and after the September
24, 1989 Lease Sale. The successful
bidder on each new lease is
required to submit a separate
check equal to 10% of the cash
payment. Such fee may be paid by
regular check. The fee may be
submitted either with the bid
(inside the sealed bid envelope)
or within ten (10) days after the
lease is awarded. In the event that
the check is submitted with the bid,
and the bid is unsuccessful, the
check will be returned along with the
unsuccessful bid and check for cash
payment. The successful bidder
will not receive the lease
executed by the State Mineral
Board until the fee is received.
The successful bidder to whom
the lease is awarded on the date of
the lease sale shall return the written
lease, duly executed, within
TWENTY (20) DAYS after bidder's
receipt of same under penalty of for-
feiture of the lease and the aforesaid
cash payment previously tendered
and negotiated in the event of failure
to do so.
Bids may be for the whole or any
particularly described portion of the
land advertised, but consistently with
the policy of the Board as expressed
in a resolution dated August 12,
1965, all bidders are hereby notified
that bids on portions of tracts should
be described by metes and bounds
and be accompanied by a transpar-
ent plat outlining thereon the portion
bid upon. The plat shall be 1 inch =
4,000 feet in scale and should
identify the Point of Beginning, the
Section, Township and Range, the
Parish, the X and Y Lambert Plane
Coordinates, any adjacent existing
State Mineral Leases, and should
clearly show the entire tract
boundaries in relationship to the
portion bid upon. It shall also show
the Topographic features (land and
water) of the area in detail similar to
the most recent edition of the
U.S.G.S. Quadrangle Maps.
The State Mineral Board reserves
the right to reject any and all bids or
to grant a lease on any portion of the
tract advertised and to withdraw the
remainder of the tract.

## September Rice Month

By HEATHER TAYLOR

September 1996 marks the sixth annual National Rice month celebration. Chartered by an act of Congress in 1991, this year's National Rice month heralds an all-time high in this nation's consumption of rice. So, let's celebrate and salute Louisiana rice farmers and the entire U. S. agriculture and the Louisiana economy.

Rice consumption in the United States has grown at a rate of about one pound per capita per year over the last decade, a rate 2.2 times greater than that of population growth. Fueled by increased demands for rice in both processed food and direct food use, U. S. rice consumption appears to be a big contributor to increasing awareness of rice.

The annual event stresses the importance of the rice industry to U. S. and local economics. But most of all, National Rice Month has become an important promotional tool which has proven to sell more rice. September promotions include grocery store displays and promotions, special promotions in restaurants and cafeterias and nation-wide newspaper, television and radio publicity, grassroots promotions conducted by rice growers, millers and other connected to the rice industry in the forefront of their local communities.

Rice is important to the United States and Louisiana for many reasons:

*U. S. rice farmers are expected to harvest 28.6 billion pounds of rice on 2.99 million acres in 1996.

*Over 90 percent of the rice consumed in the United States is grown domestically.

*At 25 pounds per capita, rice consumption is at an all time high.

*U. S. rice producers are expected to export 63 billion pounds of milled rice to more than 100 countries in 1996.

# FUNERAL NOTICES

Although some area newspapers have begun charging a fee to print funeral notices in full, including survivors and biographical information, the Cameron Pilot will continue to print these notices in full at no charge to the family.

However, the Pilot cannot print such funeral stories unless the information is provided to it by the funeral home or the family.

When making arrangements with the funeral home ask them to fax the obituary to the Pilot at (318) 786-8131. The funeral home will not automatically do this unless they are asked.

Funeral information may also be sent to the Pilot at P. O. Box 995, DeQuincy, La. 70633.

The Pilot realizes the importance to the family of having a fully detailed obituary published following a loved one's death and will continue to print these free of charge.

# Southwest Outdoors

By Loston McEvers

The opening of dove season was fairly good in some areas of the parish. I made a hunt with friends in the Cameron area and we averaged 13 birds per hunter, which was really a good hunt. The Sunday was slower as we had a hard rain which sort of slowed things down. North of the Intracoastal Canal they had good hunting.

I have to say the first day of dove hunting, which was 92 degrees, I really thought I was seeing things. I heard a shot to my left across the fence, and a hunter knocked down a dove. As he went to retrieve it, it got up and flew toward a tree and he shot again and it fell in the tree, hung up. The hunter spotted the dove and through his gun 4 or 5 times up the tree towards the dove, finally the dove fell out of the tree, but the gun stayed hung up in the tree. As I watched I could see this short person running and jumping up to catch a limb so as to knock the gun out. At first I thought it was the devil, then maybe an angel and then I realized it was Joe Clark. Sorry Joe!

### ALLIGATOR HUNT

I've seen some nice alligators up to 11 feet but things are slow for some, while many have tagged out. Most of our hunters are selling the gators whole, not having to skin them.

The prices I was told for whole were 5 ft, $21.50 a foot; 6 foot, $29.50 per foot; 7 foot, $30.50; and 8 foot or larger, $31.50. Another price was $25 per foot no matter what size. I'll say this, buying a gator whole may not make the buyer much money on the hide, but the meat sure will. For example with meat running $6 a pound wholesale, a 7 foot alligator brings about 48 pounds of meat and that's $288. The same 7 foot gator at $34.50 a foot only brings $213.50, so the buyer paying $213.50 and getting $288 for the meat only makes $75 profit plus what he can get extra for the hide per foot. A 9 footer brings $283.50 for the hide, but with 100 pounds of meat, that's $600 and here's where the money is really being made. The bigger the gator the more meat, the more money. As you can see, the meat is just as or more important to the buyer as the hide.

### TEAL SEASON

Our teal duck season will open Sat., Sept. 21, at 1/2 hour before sunrise, as well as rails and gallinules. The teal daily limit is 4 and 8 possession after the first day. This is a 9 day special season.

The small teal duck leaves Canada and the northern U.S. on their 7,000 mile flight to their winter grounds in Central and South America, and our bayou state, with all its water is a stop over for the teals to rest and feed with the many rice and bean fields, plus our native wild rice in the marshes. This year it is expected that at least 5 million teals will be on this fall flight and many will be shot at by Louisiana hunters.

As fast as the teal duck flies, it will help get our hunting skills ready for the regular season, where we'll be able to shoot slower and larger ducks.

Many hunters are getting the mud boat, pirogue, blinds and the old guns ready. Don't forget your licenses and two-duck stamp.

The first teal season was in 1965 and Louisiana hunters bagged 66,000 birds. This 9 day affair was designed for one single species of duck, the blue-winged teal. It was really an experimental thing and really no one know hot it was going to turn out. Finally, it was decided that the green-winged and cinnamon teal along with the blue-winged teal would be the only ducks allowed for this special season. Things went well until 1968 when political and environmental troubles began, the season was halted. Then the breeding pairs of teal dropped and the 1988 season was stopped and we dreamed of teal hunting until 1992 when the popular season was again resumed, after the population rose when the habitat up north got better. The blue-winged teal breeders went up from 3-8 million birds in 1991 to 6-4 million in 1996, an all time record high number.

Last year, Louisiana had 90,000 hunters during the regular duck season, up from 75,000 the year before.

Estimates of teal harvest during Louisiana's September season is 100,000 to 150,000 birds yearly.

Albert John Crain of Grand Chenier has purchased al lifetime Louisiana hunting license.

**PRAYER TO THE BLESSED VIRGIN**
**(Never known to fail)**

**Oh most beautiful flower of Mount Carmel, fruitful vine splendor of Heaven, Blessed Mother of the Son of God Immaculate Virgin, assist me in my necessity, Oh Star of the Sea, help me and show me herein you are my Mother. Oh Holy Mary, Mother of God, Queen of Heaven and earth I humbly beseech you from the bottom of my heart to succor me in this necessity. There are none that can withstand your powers, Oh, show me herein you are my Mother. Oh Mary conceived without sin, pray for us who have recourse to thee (three times). Holy Mother, I place this cause in your hands (three times). Holy Spirit you who solve all problems, light all roads so that I can attain my goal, you who give me the divine gift to forgive and forget all evil against me and that all instances in my life you are with me. I want in this short prayer to thank you for all things as you confirm once again that I never want to be separated from you in eternal glory. Thank you for your mercy toward me and mine. # Young musician plays for board

By GENEVA GRIFFITH

The Cameron Parish School Board last week was treated to a spirited rendition of Cajun songs and accordion playing by 10-year-old Kaleb Trahan when he was recognized by the board for being named "Cajun of the Month" By the Cajun French Music Association.

Kaleb is the son of Mr. and Mrs. Keith Trahan and a fifth grade student at South Cameron Elementary.

Mike LaVergne, Associate County Agent, presented the annual Agricultural Extension Service report and Bethany Nunez, a 4-H member reported on 4-H events.

The 1996-97 school budget was approved. Pam LaFleur, superintendent, reported due to the passing of the recent tax, a $980,000 increase in income is expected. She said budget reductions have allowed the budget to be in the black for the first time in several years.

LaFleur said the office is projecting a surplus of $383,043 and said 67 percent of the budget goes into instruction, but the 70 percent state established goal will never be reached because of our size and the distance between schools in the parish.

### RUNNING TRACKS

Morris and Clifton Hebert voted against moving up maintenance work on tracks at Johnson Bayou and South Cameron High Schools. The request was approved by Daniel Billiot, Karen Nunez and Glenda Abshire.

Supervisor Ron Vining reported that $18,500 will be needed at the South Cameron track which has 52 cracks, and $14,000 at Johnson Bayou. Morris said he was not in favor of spending this at this time because of the recent tax that was passed helped get the board into the black. "I just have a problem spending money on tracks when we are trying to move forward on academic improvements, given the number of students participating in these sports," he said.

Vining said the project would come out of the summer maintenance funds, but it would be cheaper to do the repairs now before the damage worsens.

### ENROLLMENT UP

Supervisor Roger Richard gave a report on enrollment figures for 1995-96, which is up 50 from last year for a total of 2,125 students.

Supervisor Judy Jones recommended approval of the Internet Usage policy which was reviewed at the August meeting, and the board approved.

She also noted that there is a critical situation in the computer labs and that teachers in Hackberry and Cameron Elementary schools have had to dump material from their systems in order to make room for new material. The board approved $1,995 for equipment at each school to rectify this.

An expenditure of $1,645 for tape back-up systems at schools to prevent massive data losses due to power failures was also approved.

The board did not approve upgrading the computer system in the central office, as they w ere not convinced that it was needed, when staff members complaiend that the recent cutbacks in personnel had pushed a greater workload and everyone was not hooked up to the same network.

Superintendent LaFleur said upgrading the equipment would cost around $11,000.

The board voted that any maintenance or improvement in the central office had to have the approval of the board, just like the procedures for the schools.

LaFleur said the only expenditure she had authorized was for blinds because the drapes were dry-rotted, but no new furniture or equipment had been purchased.

### TEACHER NEEDED

Morris said that an additional teacher is badly needed at South Cameron High School, and that he was of the opinion that one was to be hired to alleviate the over crowded classes in the math and science departments of the eighth grade.

"We have gained 30 students and lost two teachers who have not been replaced," Morris said.

KALEB TRAHAN, 10, who is making a name for himself as a Cajun accordion player, here performs for the Cameron Parish School Board.

(Photo by Geneva Griffith)

He said the board has told LaFleur to hire a new math or science teacher for the school, and she countered that the board had only discussed the matter in executive session and had not taken any action it, and she needed specific permission from the board.

It was unanimously passed for the teacher to be hired to relieve the crowded situation.

The board voted to hire an interpreter to do signing for a deaf child. An educational interpreter aide is needed who has a high school diploma, which is state mandated, with a starting salary of $8.50 an hour and up to $11.50 an hour for 9 years and up.

### SALARY INCREASE

The board approved the implementation of state salary inceases for teachers at $750 per teacher, which will not cost the school board anyting, it is all paid by the state.

The board turned down a request from Mitchell Sedlock for permission to locate a camp on Section 16-14-5 in Little Chenier, west of the Nunez and Gaspard property (the old Domingue property). A similar request was denied last year.

The board approved travel to the National FFA convention for Grand Lake and South Cameron High FFA sponsors and students to Atlanta, Ga. No funds from the board are required as the local organizations have raised money for the trip.

The board approved the readvertising for surface leases on SEction 16-15-6 and 16-12-10 in the Hog Bayou and Black Lake areas.

the Board approved the appointment of Sharon N. Sanner as a temporary secretary at Hackberry High School.

It also approved the hiring of the following teachers:

Angela LaVergne, elementary teacher at Johnson Bayou High School; Rebecca Trahan, elementary teacher at Grand Lake High School; and Cherie Myers, 1/2 year - pre-kindergarten teacher at Cameron Elementary School.

SOUTH CAMERON FFA and 4-H members joined forces to clean three areas of Rockefeller Refuge at the request of the Acadiana Sportsman's Association during the Annual Beach Sweep held Saturday, Sept. 21. As was the trend along the coastal areas, the group reported a notable decrease in trash accumulated. Standing are Ryan Bourriaque, Bryan Little, Kayla Kelley, Vickie Kiffe, Blake Trahan, Nolton Sittig and future 4-H'er Daniel Kelley. Top row, seated, are Tiffany Boudreaux, Christi Kay Canik and Hope Benoit. The group was accompanied by 4-H leader Stephanie Rodrigue and FFA Advisor Nicky Rodrigue.

# Tarpons have 1st loss of the year

By JOE MUELLER

The South Cameron Tarpons saw their record fall to 2-1 as they suffered their first loss of the year 22-7 to the Pickering Red Devils.

The Tarpons, who had registered shut-out wins over DeQuincy and Vinton gave up 9 points in the opening half and 13 points in the final quarter.

The Red Devils opened the scoring early in the opening quarter as Artis Stanley ran 51 yards to pay dirt on the second offensive play of the game.

The Tarpons, down only 6-0, drove down to the Red Devil 8 where they had a first and goal but couldn't push the ball into the end zone.

Pickering put the only score of the second quarter up as David Latta hit a 44 yard field goal.

The Tarpons cut the margin to 9-7 as Brandon Conner scored on a 2-yard run and John Mark Montie hit the extra point.

Pickering raised the margin to 15-7 on an 8 yard run by Artis Stanley.

The Red Devils closed out the scoring with a 2-yard run by Artis Stanley and a David Latta extra point kick.

The Tarpons lost one great scoring opportunity in the second quarter when they fumbled after recovering a Red Devil fumble on the Red Devil 25. The fumble was recovered by Vito Martarona.

The Tarpons top rusher in the contest was Brian Conner with 124 yards on 17 carries.

The Red Devils punted twice for a 47.5 yard average and both punts put the Tarpons in poor field position.

Top receiver for the Tarpons was Scott Suratt with 2 catches.

The Tarpons will be idle this week before facing St. Louis at home on Oct. 4, in their final tune-up game before opening district play on Oct. 11, at home against North Vermilion.

## Tarpons are ranked fifth

The Lake Charles American Press has local rankings divided into two classes, large schools Class 3A, 4A, 5A and small schools Class 1A and 2A.

The Tarpons are ranked fifth in the latest poll, which was released Sunday.

Small schools:
1. Elton, 3-0
2. Iota, 3-0
3. Basile, 2-1
4. Pickering, 2-1
5. South Cameron 2-1
6. DeQuincy 2-1
7. Welsh 2-1
8. Merryville 2-1
9. St Louis 2-1
10. South Beauregard 2-1

Sr. club member Misty Delome went as a Jr . counselor. Also pictured with the group is Mike LaVergne, Cameron Parish 4-H Agent. Hackberry Club Leader, Mrs. Roxanne Richard also attended.

# Underwater obstruction meeting set here Oct. 1

The Louisiana State Senate will sponsor three meetings to investigate the feasibility of consolidating all underwater obstruction removal programs in Louisiana and begin focusing more on obstruction removal. This action follows recommendations made by an Underwater Obstruction Task Force that met in 1993-94 and developed a Pilot Underwater Obstruction Removal Plan for Louisiana.

For more than 15 years, the state Fishermen's Gear Compensation Fund has allowed commercial fishermen to make claims for lost gear caused by unidentifiable obstructions located in state coastal zone waters out to 3 miles. The Compensation Program is funded through oil and gas lease-related leaseholder assessments.

The legislation setting up the compensation program did not specifically require obstruction removal, only compensation for lost fishing gear. Currently, there is a two claim per year limitation, and the maximum payment per claim is $5,000. Only lost gear can be claimed. Lost income is not eligible.

### COTTON

Cont. from Pg. 1

what we could to the welfare of the family," she said.

She was born and reared on a farm west of the town of Creole where the Miller subdivision is now located, and went to school at the then Creole school that was located where South Cameron Memorial Hospital now stands. "We were right next door to the school so we all went home for lunch", she said.

Her dad, Caliste Bourriaque, was a French teacher and farmer in Gueydan before he moved to Creole.

There were several cotton gins located in Cameron Parish, with a major one located on the Nunez property at the Creole intersection of Highway 27-82.

The cotton was raised, not only for the cotton the bushes produced, but also for the cotton seeds which were pulled from the fiber when it was ginned in the cotton gins. The cotton seed was fed to the cattle.

Cotton seed oil from the seeds was also used in the manufacturing plants of salad oil, soap, varnish, explosives, butter and lard compounds, photographic film, and candles.

Mrs. Theriot said that she figured that her $1 investment on the one package of cotton seed she purchased at Orrie Canik's general store on Oak Grove, that contained 8 seeds, was worth it.

"It was a good history lesson for my grandchildren who can see what I have been telling them all of these years."

Many feel the only long-term solution to underwater obstructions is removal, and the meetings are being held to obtain feedback on the feasibility of implementing a hang removal program in Louisiana.

Three meetings will be held at 7 p.m. at the following locations:

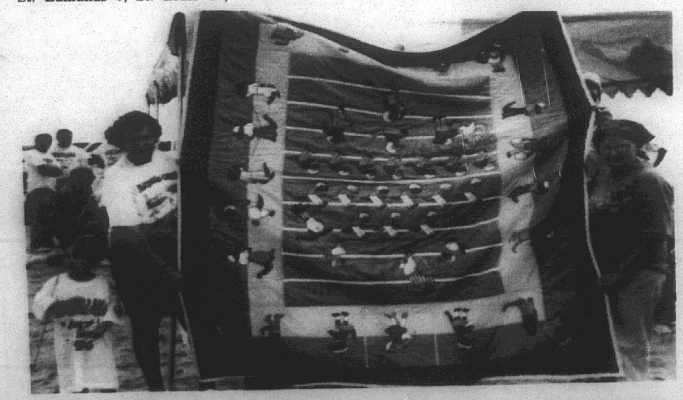
Sept. 12, Lafitte City Hall; Oct. 1, Cameron Parish Police Jury Annex; and Oct. 15, Houma Municipal Auditorium.

All commercial fishermen, oil and gas industry representatives, and other interested parties are urged to attend.

For more information contact Kevin A. Savoie, Associate Area Agent (Fisheries) Cameron Parish Extension Office at 775-5516.

## Lacassine to have archery deer season

The Lacassine National Wildlife Refuge has scheduled an either sex archery deer hunting season on the refuge in Cameron Parish west of Lake Arthur. The refuge, except for the headquarters area, will open to hunting Oct. 1. The hunt is to run until Oct. 31.



All bow hunters on the refuge must possess a Bow hunter Education Certificate. Hunters should also note that boats are prohibited in Lacassine Pool after Oct. 15, to minimize disturbance to wintering waterfowl.

A hunter check station will be set up at Gary's Landing adjacent to the refuge headquarters. Refuge hunters are requested to weigh their deer and provide the information requested at the station.

Lacassine Refuge recently purchased approximately 1,800 acres of land in the Coto Plot area which will be open for archery hunting during the October deer season.

All hunters on the refuge are required to possess a refuge hunting permit. The 1996-97 refuge hunting brochure serves as the required permit when signed and dated. The permit must be in the hunter's possession while hunting deer on the refuge.

The permit and brochure are free and can be obtained at the refuge office located off Highway 3056, 11 miles southwest of Lake Arthur. Copies can also be obtained by writing to: Refuge Manager, Lacassine National Wildlife Refuge, 209 Nature Road, Lake Arthur, La. 70549 or telephoning 318/774-5923.

LORRAINE BACCIGALOPI and Lady Richard stand by their annual contribution to the Alligator Festival. It is the tenth quilt they have designed and made. This one is a football field with two teams of alligators, including the referees, marching bands, and a field goal just made by one of the teams. It will be auctioned off at the festival. Mary Cockrell

## Cockrell is honored on 60th birthday

By WANITA HARRISON

Mrs. Mary Cockrell was feted with a surprise 60th birthday party Sat., Sept. 21, in the home of Mr. and Mrs. William in Baton Rouge. The celebration was hosted by her daughters, Mrs. Carol Johnson of Sugarland, Tex., and Mrs. Drusilla harmon of Creole.

Michael Johnson gave the invocation. A slide presentation reflecting Mrs. Cockrell's life from age 17 to the present was shown by Mrs. Lorina Turner. Her two grandsons, Evan Smith and Ivan Harmon, commenced the bestowal of tributes, followed by family and friends, expressing the celebrant's good deeds and contributions to the welfare of their lives.

Dexter Harrison sang "This Day" and Angel Turner read a poem titled, "You Are Phenomenal" by Maya Angelou. William Turner proposed a toast in her honor. Carol and Drusilla made expressions of gratification to their mother for their upbringing, following the death of their father when they were only toddlers.

Mrs. Cockrell is a Deputy Tax Collector in the Sheriff's office. She was named Cameron Parish Business Woman of the Year in 1987. She was honored for her devotion to her job, her church, and community, and cited for her work both in the Sheriff's office and in her former job at a Cameron bank.

Other celebration attendees were Mr. and Mrs. Ernest Jackson of South Floral Park, N.Y.; Mr. and Mrs. Patrick Turner and Beja of Stone Mountain, Ga.; Mrs. Hollis Johnson and

PROCEEDINGS
GRAVITY DRAINAGE DISTRICT NO. 4
August 21, 1996

Gravity Drainage District No. 4 held a regular meeting at the Creole Community Center in Creole, Louisiana at 6:00 P.M., Wednesday, August 21, 1996.

PRESENT: J.B. Meaux, Jr., Amos Vincent, Bobby Montie, Pat Pinch and Michael Semien.

ABSENT: None

OTHERS PRESENT: Lonnie Harper, Glenn Harris and Bonnie Conner.

The meeting was called to order by Chairman J. B. Meaux, Jr.

On motion of Mr. Semien, seconded by Mr. Montie and carried, the minutes were approved as read.

On motion of Mr. Pinch, seconded by Mr. Semien and carried, the financial statement was accepted.

Lonnie Harper explained that he had surveyed the J. T. Primeaux property as requested by the Board. He found there to be some changes in the canal bank over the last 5-6 years. in the vicinity of the house, the property had not eroded outside the right-of-way; however, south of the house it appeared to have eroded outside the right-of-way. He stated he was working on an affordable resolution to the erosion problem. The Board agreed to have a representative of its insurance company present at the next meeting to answer questions regarding the matter.

On motion of Mr. Montie, seconded by Mr. Pinch and carried, applications for the following permits are hereby approved:

1. Dan A. Hughes - proposed well location, Kings Bayou field, Theriot Well No. 1, Creole

2. Charles H. Precht, jr. - proposed boat shed, Gibbstown

3. James Alleman - trenasse maintenance, Little Chenier

The Board was given a status report of the right-of-way work for Project 1996-02. It was moved by Mr. Montie, seconded by Mr. Pinch and carried, that Sonnie Conner is hereby authorized, empowered and directed to record all right of ways in the Clerk of Court office, so that work may proceed on the project.

It was moved by Mr. Montie, seconded by Mr. Pinch and carried, that a Memorandum of Understanding, No. 14-16-0004-91-930, by and between the United States Fish and Wildlife Service, the Louisiana Department of Natural Resources, and the Cameron Parish Gravity Drainage Districts No. Three and Four shall be amended to include the following:

H. Districts agree to have the maintenance of the structures included and paid for from the CWPPRA Trust Fund for period of five years not to exceed total expenditures of $75,000.00 for the five year period.

I. Necessary repairs shall be made to Grand Bayou structure, and erosion problems along all areas of the lake bank shall be addressed and remedial measures shall be implemented as priority projects from the CWPPRA Trust Fund.

J. Gravity Drainage Districts No. 3 and 4 shall not be obligated to fund any maintenance of automation equipment or structures out of their own funds, and all such maintenance shall be funded solely from CWPPRA fund.

On motion of Mr. Montie, seconded by Mr. Semien and carried, the following bills were approved:

Jeff Davis Electric Co-op. - $13.51
Cameron Parish Pilot - $118.00
Charlotte Trosclair - $446.70
Coastal Culvert & Supply - $9.12
Savoie Lumber & Hardware - $18.73

Glenn Harris presented the watershed management control report on behalf of the Cameron-Creole Watershed and provided aerial photographs pinpointing several key locations.

Mr. Vincent asked that the Board consider replacing a culvert on the Alton Baccigalopi levee. After a brief discussion, the Board decided to take no action. They did agree that there is a need to establish a policy for replacing culverts and further agreed to find out how other Drainage districts handle the matter.

There being no further business, on motion of Mr. Montie, seconded by Mr. Semien and carried, the meeting was declared adjourned.

PUBLIC NOTICE
CAMERON PARISH COASTAL USE PERMIT APPLICATION

Interested parties are hereby notified that the Coastal Management Section of the Cameron Parish Police Jury has received the following apparently complete application for a Coastal Use Permit in accordance with the rules and regulations of the Louisiana Coastal Resources Program and R.S. 49,213.1, the State and Local Coastal Resources Management Act of 1978, as amended.

L.C.U.P. Application #960902

Name of Applicant: David L. Garrison et al, 1111 Fannin Street, Houston, TX 77002

Location of Work: Grand Lake, Sections 22 & 23, T12S, R7W, Parish, Louisiana.

Character of Work: Proposed trenass for navigational access to area. Approximately 7,000 cubic yards of native material will be removed by dragline to construct 4800 linear feet of trenass.

The decision on whether to issue a permit will be based on an evaluation of the probable impacts of the proposed activity in accordance with the state policies outlined in R.S. 49:213.2. The decision will reflect in the national concern for both protection and utilization of important resources. The decision must be consistent with the state program and approved local programs for affected parishes and must represent an appropriate balancing of social, environmental, and economic factors. All factors which may be relevant to the proposal will be considered; among these are flood and storm hazards, water quality, water supply, feasible alternative sites, drainage patterns, historical sites, economics, public and private benefits, coastal water dependency, impacts on natural features, compatibility with the natural and cultural setting and the extent of long term benefits or adverse impacts.

Certification that the proposed activity will not violate applicable water and air quality, laws, standards and regulations will be required before a permit is issued.

Any person may request, in writing, within the comment period specified in this notice, that a public hearing be held on the application. Request for public hearings shall state, with particularity, the reasons for holding a public hearing.

Plans for the proposed work may be inspected at the Cameron Parish Police Jury Annex Building, Coastal Management Division, Courthouse Square, P. O. Box 366, Cameron, Louisiana, (318) 775-5718. Written comments should be mailed within 26 days from the date of this public notice to Cameron Parish Police Jury, Costal Management Division, Post Office Box 366, Cameron, Louisiana 70631.

# Program tells graduates

By GENEVA GRIFFITH

The South Cameron Memorial Hospital's Health and Wellness Fair had something for everyone last week when it presented youth sessions from 10 a.m. to 1:30 p.m. and the afternoon sessions for the general public which lasted until 6:50 p.m.

Nine students from South Cameron High School presented information on the Southwest Louisiana Area Health Education Center's A-HEC summer program of which they are graduates. Stephanie Rodrigue, A-HEC sponsor, reported on the importance of the program to students who are planning to enter the health care field.

Included in the program this past summer were field trips to various health care facilities, including the Texas Medical Center.

She praised the Telemedicine program at the South Cameron Memorial Hospital which is headed by Cathy Denison-Wicke, saying, "Telemedicine can bring specialists to Creole."

The program enables specialists in other cities to see a patient at the local hospital by means of a two-way hook-up where they can communicate with one another and the doctor is able to see and communicate with the patient.

A-HEC members recognized as program graduates were Jerica Nunez, Erica Nunez, Joshua Dahlen, Heather Sturlese, Nikki Guidry, Courtney Conner, Melanie Boudreaux, Tiffany Boudreaux, Nicole Chauvin.

## Parish eligible for low-interest loa

CAPITAL NEWS

Some Cameron Parish residents could be first in line to receive low-interest home loans if local lending institutions decide to participate in the Louisiana Housing Finance Authority's latest offering.

The LHFA reserved $8 million of its $35 million bond issue for use by low and moderate income families in 30 rural parishes. But if local lending institutions don't reserve the money within 120 days, it will go back into a statewide loan pool.

In the last 15 years, about $1 billion in loans have been made with LHFA bond money, but residents of Orleans, Jefferson and East Baton Rouge parishes have gotten about 40 percent of it. If rural banks don't speak out for the reserved money, it too will be used quickly by less needy areas, according to LHGA President V. Jean Butler.

"We're establishing a special set aside for priority parishes which have not been served well by recent bond issues," Butler told agency board members.

The agency is hoping the reserved money will result in 100-150 loans in the 30 priority parishes. Its goal is to close the loans within 75 days after the set-aside period ends. Three types of loans with interest rates between 5.75 percent and 7.75 percent are available through the latest bond issue.

The priority parishes named for the reserved funds are Acadia, Allen, Assumption, Beauregard, Caldwell, Cameron, Catahoula, Claiborne, Concordia, DeSoto, East Carroll, Evangeline, Franklin, Iberia, Jackson, Jefferson Davis, LaSalle, Madison, Pointe Coupee, Red River, Richland, Sabine, St. Helena, Tensas, Union, Vermilion, Vernon, Washington, West Carroll and Winn.

Butler told board members LHFA also has received approval from the U.S. Housing and Urban Development to participate in a program which could help 280 poor rural families buy houses.

## GATOR FEST PAGEANT SETS REGISTRATION

Registration is now being accepted for the Little Mr. and Miss Alligator Festival Pageant which will be held at 10 a.m. on Sunday, Oct. 6, in conjunction with the 11th annual Alligator Harvest Festival sponsored by Saint Eugene Church in Grand Chenier.

# Phillips' cookbook revised by daughters

By GENEVA GRIFFITH

Twenty-six years ago Mrs. Regina Davis Phillips of Lake Charles authored an original cookbook entitled "Fit For A King" which was published by her husband, Walter Phillips, owner of Phillips Printing Company.

Recently her three daughters, Elizabeth Richard of Grand Chenier, and Kathleen Bredehoeft and Frances Byler completed a new revision of the cookbook.

The fourth edition is dedicated to her grandchildren, karen Elizabeth Bredehoeft, Suzanne Elizabeth Byler, Erin Regina Byler, Sarah Elizabeth Richard, and Jay Phillip Byler.

This cookbook came about just before Kathleen and Ken were married. They were planning to move to Conway, Ark., where Ken was in school.

Kathleen remarked, "What am I going to do with Momma's recipe box?", and on the suggestion of their father, who was a printer, they gathered all the scattered recipes and put them into a book.

Elizabeth Richard

"We began on a Friday night, all of us, looking for the recipes in the kitchen drawers, recipe box, inside cookbook covers, in the bottom of Momma's purse, and even in the attic," Elizabeth recalled.

"We finished the first edition in one weekend. there were many typographical errors and places for improvement, but we did it just for ourselves," she said.

As it happened, friends and relatives saw it and wanted copies too, so soon there were no copies left.

"We decided to print a new edition three years later. By this time, Francis and Phillips were also married and recipes had been added from Phillip's mother, and from their friends in Florida."

A lot happened between the second and third editions. Elizabeth was married in 1976, with the addition of more good recipes from the Richard and Doland families of Grand Chenier.

The third edition was completed after Mrs. Phillips died in July, 1980. She had been working on the new edition and had it almost complete when she was diagnosed with cancer.

"After Momma's death, it seemed really important to us to finish the cookbook, something she had started, and that had meant so much to her," Elizabeth said. "It was our way of passing on her legacy on to the grandchildren."

"With the aid of computers, we decided to complete it, and five years later and a lot of hours, the dream is finally a reality."

There are variations to many of the recipes, and footnotes from the people furnishing the recipes, just like they are discussing the recipe with you.

While thumbing through the book I came across a syrup cake recipe by "Miss Annie" Meaux, a late beloved friend who was married to one of our Welsh cousins, and the person who taught me how to cook Cajun food.

# Board tells tobacco policy

**(EDITOR'S NOTE--This is another of the policies that have been adopted by the Cameron Parish School Board that affects the students in the system.)**

The Board directs that each student shall be specifically prohibited from the use of possession of tobacco, in any form, in school buildings, on school grounds, on school buses owned by or contracted to the Cameron Parish school Board or at any school function at or away from school.

The discipline of students found to use or possess tobacco will be administered as follows:

Use of Tobacco: First offense: 1-2 days suspension, notification of parents; second offense: 3 day suspension; third offense: 5-9 days suspension; fourth offense: expulsion.

Possession: first offense: confiscation, corporal punishment or 3 days detention, notification of parents; second offense: 1-2 days suspension, notification of parents; third offense: 3 day suspension; fourth offense: expulsion.

# Public hearing set on Amend. 9

Amendment 9 of the shrimp fishery management plan deals with reduction of trawl mortality of juvenile red snapper. The "bycatch amendment" could require shrimp fishermen to use bycatch reduction devices if adopted in its current form. Implementation is currently scheduled for May, 1997.

A public hearing on Amendment 9 will be held Mon., Oct. 7, 7-10 p.m. at the Lake Charles Civic Center.

# Trappers to get added payments for nutria

Two state agencies and coastal landowners are teaming up to fight the overpopulation of nutria in coastal Louisiana. Department of Natural Resources (DNR) officials said that monies from the Wetlands Trust Fund will be made available for a cost-sharing program whereby nutria trappers can be paid more per pelt. The State Department of Wildlife and Fisheries (DWF) will administer the program on an annual basis.

The cost-sharing program would provide coastal landowners a one to one cost match by the state to attract trappers to areas overrun with nutria. These rodent, fur-bearers are known for overgrazing on wetland vegetation. DNR and DWF officials say nutria control is important since overpopulation results in extreme damage and loss of coastal wetlands.

The economic incentive will increase the market price of nutria pelts by $1 per pelt. Landowners and the state would pay the increased cost to the trappers who would benefit as long as the market price does not exceed a maximum set amount.

A variety of Louisiana fur, particularly nutria, has been marketed at major fur fairs worldwide. Nutria fur for coats and other fashion items are becoming increasingly popular.

Citizens and landowners interested in more information on this interagency program may call DNR's Coastal Restoration Division Project Manager Chet Fruge at 504-342-7308 or SWF's Project Manager Greg Linscombe at 504-765-2800.

# Hack. has new PTO organization

A spokesperson for the Hackberry Parent-Teacher Association has made the following announcement:

"The Hackberry PTA has disbanded; we have formed a new organization, the Parent-Teacher Organization - PTO. If your child or grandchild is a student at Hackberry High School, you are considered a member of the Hackberry PTO. Since we will no longer be affiliated with national - state PTA, there will be no dues.

"We think this transition is a step in the right direction for the students in our community. If you have already turned in money for dues, it will be returned.

"Our next meeting is scheduled for Tuesday, Oct. 8, at 6 p.m. This meeting will be to discuss the proposed budget and disbursement of funds."

**HUNTING BEGINS**

September is the month we in southwest Louisiana wait for every year. Alligator season opens, the first split of dove season opens, bow hunters get ready for deer season; it's the peak spawning for redfish, teal season opens, we see the first day of autumn and the north winds begin.

Most of all alligator hunters are tagged out and $21 to $25 per foot was what most got.

The first split of dove season is over and hunting was fair, however, some fields of goat weeds produced quite a number of doves.

The first day of Autumn was Sept. 22, and Louisiana National Hunting and Fishing Day is Sept. 28.

There are a good number of teals in our marshes, but I really think the Grand Chenier area had the most I've seen in years. I mean flocks of one to two hundred flying or getting up in the marsh, bunch after bunch.

**SEASONS ANNOUNCED**

Louisiana trappers will have an extended season this year statewide, Nov. 20 to March 20. Fur bearing animal species, nutria, muskrat, raccoon, mink, otter, opossum, skunk, red and gray fox,bobcat, beaver and coyote.

Ducks & Coots: West Zone, Nov. 9-Dec. 1; Dec. 21-Jan. 16. Eat Zone, Nov. 23-Dec. 5; Dec. 14, Jan. 19; Catahoula Lake Zone, includes Round Prairie, Catfish Prairie, and Frazier's Arm, Nov. 23-Dec. 5; Dec. 14-Jan. 19. Shooting hours: One half hour before sunrise to sunset statewide. Daily bag limits - ducks, five. May include no more than four mallards (no more than one of which may be a female), three mottled ducks, one black duck, two wood ducks, one pintail, one canvasback and two redheads. Daily bag limit, coots, 15. Daily bag limit, mergansers, five, only one of which may be a hooded merganser. Merganser limits are in addition to the daily bag limit for ducks. Possession limits for ducks, coots and mergansers are twice the daily bag limit.

Geese: Blue and snow geese, Nov. 9-Feb. 23, statewide. White-fronted (specklebelly) geese, Nov. 9-Dec. 8, and Dec. 21-Jan. 29, statewide. Shooting hours, one half hour before sunrise to sunset. Daily bag limit, blue and snow geese, ten. Daily bag limit, white-fronted, specklebelly, geese, two. During the Canada goose season, Jan. 21-29, the daily bag limit for Canada and whitefronted Geese is two, of which not more than one may be a Canada goose. Possession limits, are 30 for blue and snow geese and four for white-fronted, specklebelly, geese.

Canada Goose season, Jan. 21-29, shooting hours are one half hour before sunrise to sunset.

Deer. Archery season is Oct. 1 thru Jan. 31, statewide.

Remember, because of the sweet potato weevil, the use of sweet potatoes for feeding deer is prohibited, not only for bow and arrow, but gun season as well.

Lacassine Refuge will have an either sex archery deer hunting season on the refuge in Cameron Parish. The refuge, except for the headquarters area, will open to hunting on Oct. 1. The hunt is scheduled to run until oct. 31.

Remember, all bow hunters on the refuge must possess a bow hunter education certificate. Boats are prohibited in the Lacassine Pool after Oct. 15 (also last day for bass fishing on refuge) to keep from disturbing the wintering waterfowl. All hunters on refuge are required to have a refuge hunting permit and must be in hunter's possession while hunting deer on refuge. It is free when you pick up a brochure at their main office southwest of Lake Arthur, or write Refuge Manager, LNWR, 209 Nature Road, Lake Arthur, La. 70549, or call 318/774-5923.

THE CAMERON Council on Aging sponsored a senior citizens lunch along with the KCs sponsored bingo in Johnson Bayou recently. Helping were Binky Jinks, Cindy McGee, Khristi Trahan, Wanda Jinks,and Tonya Harrington. Dinah Landry, Director, and Brent Nunez, Police Jury President, spoke on programs sponsored by the Council on Aging. The next bingo will be held Oct. 7, at 9:30 at the Recreation Center in Johnson Bayou for senior citizens.

# Election results told for Cameron Parish

Cameron Parish voters favored Mike Francis over Gerald "Jerry" Theunissen in the state Senate District 25 race on Saturday.

In Cameron, Francis beat Theunissen with 1,127-996 votes, or 53-47 percent.

However, Theunissen was the overall winner in the district with a vote of 20,320 to 16,172 for Francis, or 56-44 percent.

In the race for U.S. Senate, Richard Ieyoub received the most votes in Cameron Parish and Hunter Lundy received the majority of votes in the U.S. House of Representatives 7th Congressional District race.

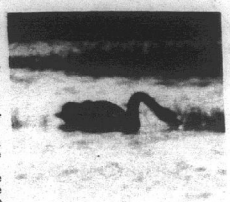
Statewide Woody Jenkins and Mary Landrieu made the runoff for Senate.

In the House race, Chris John and Hunter Lundy are in the runoff.

Cameron voters chose Jeanette Theriot Knoll as state 3rd District Associate Supreme Court Justice over candidate Jack Crozier Watson. Knoll beat Watson with 1,010-974 votes or 51-49 percent. She was the overall winner in the district also.

In the Ward 4 (Grand Lake/Sweet Lake areas) constable race, voters elected John P. "Buck" Stephenson Jr. over opponent Lawrence "Neg" Faulk. Stephenson beat Faulk with 328-244 votes, or 57-43 percent.

The results are complete but unofficial returns from Cameron Clerk of Court Carl Broussard. Voter turnout was 35 percent. Cameron Parish had 6,567 people eligible to vote in this election.



Constitutional Amendment 1 was approved 1,2890-386 or 77-23 percent. Constitutional Amendment 2 was rejected by 913-695 or 57-43 percent

District Attorney Glenn W. Alexander and 38th Judicial Judge H. Ward Fontenot, along with other local justices of the peace and constables, were elected without opposition when they qualified.

Here is how the parish voted in the congressional race:

U.S. Senate - Nick J. Accardo, 10; David Ernest Duke, 252; Troyce Guice, 13; James A. "Jimmy" Hayes, 433; Richard P. Ieyoub, 694; Louis "Woody" Jenkins, 294; "Tom" Kirk, 12; Mary L. Landrieu, 397; "Bill" Linder, 90; Church McMains, 49; Sam Houston Melton Jr., 3; Arthur D. "Jim" Nichols, 33; Sadie Roberts-Joseph, 8; Darryl Paul Ward, 4; and Peggy Wilson, 11.

U.S. House 7th District race - "Charlie" Buckels, 120; Chris John, 477; Hunter Lundy, 873; Tyron Picard, 320; Macklin Schexneider, 23; "Jim" Slatten, 127; David Thibodaux, 272; and Peter Vidrine, 38.

## Mysterious black swan spotted here

A black swan was spotted in the marsh north of Creole on Aug. 24. Lloyd Carroll of Cameron was the first to notice it. Other local people, who were able to view the swan leisurely foraging for food in the marsh grasses that morning, were Larry Dyson, Wade Carroll, Marianna Tanner and Judy Fruge.

This species of swan, all black except for a coral colored bill tipped in yellow, is native to western Australia. How did it get here? Perhaps it escaped from a zoo or a private owner's property.

A few weeks prior to this sighting Donnie Nunez of Creole reported seeing a pair of swans in the Gibbstown Bridge area.

If anyone has information about this bird's origin or if you observe it, please call Marianna Tanner at 775-5347 or Judy Fruge at 775-5450.

## Local racing pigeon winner of club race

By GENEVA GRIFFITH

Raymond Thibeaux of Cameron, a member of the Lake Charles Invitational Racing Pigeon Club, was the first place winner in the first club race of the season on Sept. 14.

There were 148 birds entered from the Lake Charles club and over 100 from the Sulphur club.

The birds were released in McComb, Miss., at 7:15 a.m. and they flew back to Thibeaux's loft, a distance of 190 miles.

Thibeaux has been a member of the Lake Charles club since 1993 and has the help of his small son, Preston.

# Judge continues restraining rule

By GENEVA GRIFFITH

District Attorney Glenn Alexander reported to the monthly meeting of the Police Jury Tuesday on the ruling made in 38th Judicial District Court Monday on the lawsuit brought by the Baton Rouge Audubon Society against the Police Jury over the mowing of the Society's bird sanctuary at Peveto Beach.

Judge H. Ward Fontenot reaffirmed his previous temporary restraining order on the jury and ordered that Juror Dusty Sandifer and the Parish of Cameron be tropped from the suit.

Alexander stated that it is questioned whether the ordinance is constitutional since it does not apply to all subdivisions in the parish.

"Even if the injunction is constitutional you should not proceed with the grass cuting until there is a final decision," Alexander told the jurors.

Tina Horn, Parish Administrator, reminded the jury, "There are approximately 17 miles of trees and mangroves from the sanctuary to the Texas line where birds can land after their trip across the Gulf, in addition to the sanctuary, and in addition to other areas along the Gulf Coast."

Brent Nunez, Jury President, said: "At issue here is if the ordinance is legal and if the Police Jury has the authority to carry it out."

Sandifer said: "The Audubon Society knew it was in a subdivision when they bought the land, I am glad to have the sanctuary there, but I also have to look after the interests of the other residents."

The non-profit group owns 21 of the subdivision's 36 lots which includes a 10-lot section called the Henshaw Tract that it acquired after the original developer was unable to sell the lots for homes.

Juror George LeBouef, said: "All of our cheniers along the coast are full of trees to shelter the birds and is not limited to just this one spot."

Alexander said Judge Fontenot plans to set the trial as soon as possible.

LeBouef asked the Jury to table the noise ordinance until after the trial to see where the Jury stands as a governing body on their authority to carry out the ordinances, and asked the District Attorney to write the District Court to set an early date for the trial.

### ROAD NORTH

LeBouef called on the jurors to help him lead the local people to take a more positive attitude toward the proposed road north from Cameron.

"Some people seem to think, particularly merchants, that this would cut off other areas of the parish but it won't", he said. "We need some foresight for a road or bridge to take care of our heavy industrial traffic in and out of our parish.

"There will be no environmental impact on the marsh with an elevated road through the marsh, we need to start thinking positively instead of negatively," LeBouef stated.

Ted Joanen, a consultant with the Sweet Lake Land and Oil, North American Land Company, and Miami Corporation, appeared before the Jury to express the concerns of these companies, who own most of the land within this area, over the proposed road.

"Between 65,000 and 70,000 acres of marshland would be adversely affected, and these landowners object to this proposal because it would cause environmental damage to the marsh," Joanen said.

LeBouef countered: "I have been told by engineers that the road can be built on pilings, not like the Interstate 10 highway across the Atchafalaya swamp in which canals had to be dredged. We do not intent to upset the ecosystem or damage anyone's property."

The Jury passed a proclamation "Coastweeks '96" which has been celebrated for the past 15 years in an attempt to educate the public regarding the values of the coastal areas and the need to preserve them.

The president was given the authority to sign the Christmas Tree contract; and a letter of commitment for the dredging of the Calcasieu River East Fork,for which a $100,000 Rural Area Development Grant has already been received.

The Jury approved the abandoning of the last 17 feet of Parish Road 696 in the Hackberry area and has said the landowners will be notified.

Juror Doualne Conner asked that a hiring freeze be lifted to hire one person to fill the vacancy on the road and bridge crew in District 4, the Klondike area.

The Jury declared an emergency and ordered the dredging of the East Fork, where big rigs are getting stuck.

The Jury changed the date of the November meeting from Tuesday to Wednesday due to the fact that is the election date and the Police Jury Annex is used as a polling place.

Malcolm Savoie asked the Jury to approve the Tourist Commission handling their own funds. He said the commission has changed their by-laws to administer their own funds and Ed Kelley had been elected treasurer.

The Jury voted to again submit the Jetty Fishing Pier, and the Hackberry Sewerage as the primary projects for the Capitol Outlay projects.

## GETTING PERSONAL
BY JERRY WISE

AN ITEM IN the Pilot's "Do You Remember" column recently apparently has caused some confusion about the upcoming Louisiana Fur and Wildlife Festival.

The item, reprinted from a 1963 issue of the Pilot, stated that the festival would be held during November that year. Prior to that time, the festival had been held in January since its start in 1956, with the exception of 1958 when it was cancelled due to the aftermath of Hurricane Audrey.

The 1958 Festival President Hadley Fontenot said the festival was being changed to November due to the bad weather experienced in January during the past years.

However, following the 1958 festival, the event was returned to January due primarily to the fact that the muskrats were in their prime at that time and the festival had been built around the state and national muskrat skinning contests.

Sue Mhire, current festival president, said there had been a rumor going around that the upcoming festival's dates would be changed. This probably was started by the item concerning the 1963 festival in the Pilot.

The upcoming festival will be held Jan. 9, 10 and 11, 1997 during the second full week of January--so please take note of these dates.

Although the festival has experience some bad weather in January in past years--one year it was postponed a week due to ice and sleet--for the most part there have been no problems. And during January, there are no other festivals in the state to give it competition.

However, I recently read about a new festival being held somewhere in the New Orleans area going by the name of the Louisiana Wildlife Festival.

# Jury tells 1997 budget

By GENEVA GRIFFITH

The Cameron Parish Police Jury met in special session last week to review their proposed 1997 budget of $3,431,566.

The main source of income for the Jury is $1,000,000 from the Road Royalty Funds. This comes from 10% of oil and gas royalties on state lands in the parish and 10 miles out into the Gulf.

Bonnie W. Conner, parish treasurer, received a letter recently from the Department of Natural Resources stating that the Office of Mineral Resources had deposited $1,198, 406.67 for the period of June 16, 1996 through July 15, 1996 with the State Treasurer for mineral production in Cameron Parish subject to the Royalty Road Fund.

Of this amount $528,201.73 was collected from the Rockefeller Refuge in Cameron Parish.

The income in the general fund also includes $30,000 from video poker.

# Festival is Jan. 9-11

The 1997 Louisiana Fur and Wildlife Festival has been set for Jan. 9-11, in Cameron, according to Pete Picou, festival president.

The board of directors met Tuesday at the Extension Service Office to exchange ideas among committees.

the festival, held the second full weekend in January each year, will honor the fur industry this year.

David Devall of Hackberry, the National High School Calf Roping Champion for 1995, will serve as the parade marshal on Saturday of the festival. He is the son of Mr. and Mrs. Mike Devall of Hackberry.

Picou pointed out that shotguns must be encased on the fairgrounds, and will only be allowed for those taking part in the skeet shooting.

Each year a delegation from the National Outdoor Festival in Maryland come to the local festival and this year two of the local festival officers, Peggy Benoit and Sue Mhire, will represent the fur festival at the National show in Cambridge, Maryland.

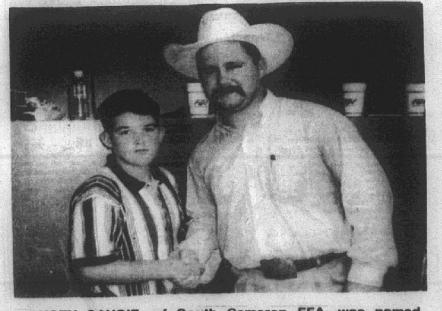
# Post offices to hold open house

The U. S. Post Offices of Cameron parish will hold open houses next week in observance of the 100 anniversary of rural free mail delivery in the United States.

The first rural mail route was established in this country on Oct. 1, 1896 and the first one in Louisiana was established in Thibodaux on Nov. 1, 1896.

Everyone is invited to visit their local post offices during their open houses. Mail box winners will be honored. Refreshments will be served and there will be small surprises for children and adults.

Open house will be held at the Johnson Bayou sub-station on Monday, Oct. 7 from 9 to 10:30 a.m. with the mail box winners being announced at 9:30.



The Hackberry post office will hold its open house also on Monday from 10:30 a.m. to 12 noon with the winners be named at 10:30 a.m.

The Creole post office's open house will be on Tuesday, Oct. 8 from 9 to 11 a.m. The mail box winners will be announced at 10 a.m. Former mail carriers and their families are encouraged to attend.

The Grand Chenier post office's open house also will be on Tuesday from 8:30 a.m. to 12 noon with the winners being named at 11:30 a.m.

The open house at the Cameron post office will be from 11 a.m. to 12:30 p.m. with the winners named at 11:30 a.m.

The Grand Lake area of Cameron parish is served by a rural route out of Lake Charles. The Sweetlake area is served by a route out of Bell City and the Lowery-Klondike areas are served out of Lake Arthur.

DUSTY SAVOIE, of South Cameron FFA, was named Reserve Champion Showman at the Red Hot Summer Show held Aug. 24, in Cameron. He is shown with David Broussard, Crowley High School Agriscience Instructor, who served as show and team judge.

**TEAL SEASON**

Teal season has come and gone until next year, but what better way to break into the regular season when it gets here.

Opening day was a mess. Rough thunder storms, lots of lightning and strong rain greeted us at 4 a.m. on Saturday and in some areas lasted until 7 a.m. Hot weather, plenty of mosquitoes, watching for cotton mouths, and a fast flying teal duck without speed control, made them hard to hit. I know in my blind, plenty of shells fired and plenty of misses.

We had many marshes with few teals, while some marshes teal were plentiful. I don't think we saw the number of teal ducks down as they had predicted, but all in all, it was fun. We also had a good crop of gallinules this year. Very good eating.

**OTHER SEASONS**

Bow season for deer opened Tuesday and the gun season for deer, still hunting only, opens Oct. 19. Muzzleloader only Oct. 12-18. We'll see rabbit and squirrel open Sat., Oct. 5. Both have daily bag limits of 8 with possession limit of 16 after the first day.

The La. Dept. of Wildlife and Fisheries has extended the season for legally taking squirrels by hawks until the end of February. This extension makes the season for hawking of squirrels the same as rabbits and quail season. Future additional changes are planned.

Either sex days (what we call doe day) for Cameron Parish are Oct. 19 and 20, 26 and 27, Nov. 290 and Dec. 1.

**FISHING**

Turning to the fishing scene, our bass fishing refuges, Lacassine, Sabine and Cameron Prairie, will close for fishing on Tuesday, Oct. 15. Now, we're going into some of the best saltwater fishing of the year, if you're looking for redfish. Our coastal marshes will start producing some nice reds after a few good north winds. It's hunt in the mornings and fish in the afternoons.

Most sportsmen who prefer offshore fishing consider wrestling with a tarpon a dream come true. Well, our La. coast tarpons are off our La. coast in September, and some of the largest tarpon will top 200 pounds.

Tarpon visit the La. coast during the warm weather months, usually showing up around late May and hanging around until the second cool front in October (no one really knows why the second cool front, not the first or third) chases them away, it just does, as if Mother Nature talks.

**BIG CRAPPIE**

On Black Bayou in Benton, a young crappie fisherman had the surprise of his life while white perch fishing with friends, using a 5 foot ultra light rod, 6 pound test line, a 1/32 ounce crappie jig in 8 feet of water. Something hit hard; now pending is IGFA world record black bass for 6 pound line class category. Yes, a beautiful 9 lb. 2 oz. black bass, which Robert Todd Walker of Bossier City, will always remember.

**COMMERCIAL NEWS**

It seems all odds are against our shrimpers. The Gulf of Mexico Fishery Management Council's recommendation for them to have a bycatch reduction device on shrimp trawls in federal waters is surely going to hurt as they already pull a TED for turtles. It is said for every pound of shrimp caught, four pounds of dead fish are tossed overboard.

I don't know how they come up with these figures, but the fish kill is listed at 1.3 billion seatrout, 5 million Spanish mackerel, 34 million red snapper, and over a half million king mackerel.

Shrimping is a big industry and they depend on the Gulf and there will be many hearings, but back in the '80's, our shrimpers lost to the turtles and will probably lose to the fish.

With the peak of shrimp season in October, local shrimpers are having problems, as we have lots of seismic companies doing oil 3-D work along our Cameron shores in the Gulf, and the blasts are disturbing or scaring seabobs shrimp and they're hanging their nets on the seismic equipment.

# Tarpons will play St. Louis at home

By JOE MUELLER

The South Cameron Tarpons return to the football wave this week as they entertain the St. Louis Saints this Friday with kickoff scheduled for 7 p.m.

The Tarpons will play their final pre-district tune-up game. South Cameron opens district play Oct. 11, against North Vermilion at home.

The Saints and Tarpons bring records into the contest with only one blemish. South Cameron opened the season with consecutive shutouts over DeQuincy and Vinton before losing to Pickering.

The Saints have victories over Iowa, Lake Arthur and Kinder while they have lost to 6AA member Iota.

The Tarpons have given up 22 points on the year in three games while the Saints have yielded 50 points in four games. On offense St. Louis has scored 76 points while the Tarpons have put 64 points on the board.

Both teams like to run the ball. The Saints top runner last week hen they opened district play with a 24-6 win over Kinder, was Sammy Young who rushed for 110 yards on 27 carries and scored two touchdowns.

The Tarpons top rusher has been Brandon Conner, who is averaging 101 yards per game so far.

The Saints through 3 games have thrown for 171 yards on 16 of 34 passes. The Tarpons John Pradia has completed 9 of 20 passes for 90 yards.

The Tarpons on defense have given up 188 yards per game, while the Saints defense in their first three games has given up 255 yards per game.

the Tarpons through three games, also have an offensive yardage advantage of 266 yards to 211. They have been opportunistic on defense as they have at least eight turnovers in their first three games.

The Tarpons kicking game has been adequate as John Mark Montie has done an excellent job of extra points and kick offs.

The two teams at one time were both members of District 6AA so they are familiar with each other. The rivalry has been hard fought.

Last year the Saints won the game 14-8. The Tarpons have beaten two District 5AA schools and the Saints have a victory over the Lake Arthur Tigers of 6AA and a loss to Iota of District 6AA.

The two districts have faced each other a lot this year with District 6 definitely holding the upper hand.

# Joe's Picks

By JOE MUELLER

Last week the crystal ball was clear as I hit on 13 of 15 selections, bringing my year to date record to 57-26 overall.

This week I see: Vinton over Kinder, Pickering over Rosepine, South Cameron over St. Louis, DeQuincy over South Beauregard, Iota over Opelousas Catholic, North Vermilion over Gueydan, Notre Dame over Teurlings, Riverside over Lake Athur.

LSU over Vanderbilt, Texas A&M over La. Tech, TCU over Tulane, Northeast over Northwestern, Southern over Mississippi Valley, McNeese over Arkansas Monticello, Houston over USL, New Orleans over Jacksonville and Houston Oilers over Cincinnati.

# To The Voters Of Cameron Parish From Jerry Theunissen...

GERALD "Jerry" THEUNISSEN
SENATE • DISTRICT 25

Dear Friends:

A simple Thank You just doesn't seem adequate to describe the feelings my family and I have concerning the overwhelming support I received in the September 21st Election.

I am most proud of the fact that we ran a dignified campaign based upon qualifications. I've always believed that honesty and integrity are important values for someone seeking public office and I am glad the voters responded positively.

As a State Representative I've worked hard to respond to the needs of my constituents. I've never betrayed their trust, and I've fought special interest groups to protect the rights of people from all walks of life.

As your Senator my pledge for the future is simple...I will do no less. I consider it an honor and a duty to serve you, to be available when needed and to continue my fight to make your voice heard in Baton Rouge.

Once, again....I thank you from the bottom of my heart.

Representative Gerald "Jerry" Theunissen
District 25 Senator Elect

# Glimpses from the Past

## Researched by Keith Hambrick

**(Abbeville Meridional, Sept. 30, 1916)**
**LAKESIDE LACONICS**

Mrs. Mark Nunemaker has invested in a pen of pure blood Aucona poultry and they celebrated their arrival in Lakeside by immediately laying two eggs. They certainly want to live up to their name of everlasting layers.

Cattle are in good shape and the disease seems to have run its course. Quite a number died on Monroe, Klondike and Shell Beach. Supposed to be charbon. This is the shortest year on hogs that has occurred in this section for quite a few years.

If all would go together and properly care for their stock, these periodical visitations would soon be done away with but just one narrow minded ignoramus in the community spoils all the work and care of the balance. He will get the disease on his stock and when dead, leave it for the water flow and buzzards to carry it over the whole section and all the good work of his neighbors.

School superintendent Mr. McCall made a business trip to Lakeside last Tuesday and gave out that school was to commence on the 2nd of October and that Miss Nunez of Grand Chenier would be the teacher.

The Cameron Parish School Board will offer for lease to the last and highest bidder at the courthouse at Cameron on Wednesday, October 4th, between the hours of 2 and 5 p.m., the 16th School Section.

Messrs. Guidry and Savoy are cutting their rice; the first to be made on Lakeside for about 7 years. There is talk that Cesaire Broussard will put the whole place into rice next year.

**(Cameron Pilot, Sept. 26, 1963)**
**HAMMERMILL**

If you have wondered what all of the work going on around Mudd's Feed Store between Cameron and Creole--the business is adding a hammermill, mixing machine and molasses blender, so as to be able to custom grind and mix cattle and horse feed for local customers.

This will be the only hammermill in the parish and one of the few in this part of the state. Mr. Mudd and his son, Robert, are to be congratulated on continuing to add to the Cameron Parish business facilities.

**NEW PERSONNEL AT HOSPITAL**

An addition of several new employees to the South Cameron Hospital staff were announced this week by Kenneth Hopper, administrator.

Mrs. Mona Jeanette Lee, R.N., has been named supervisor of surgery at the hospital. She was formerly employed by the West Calcasieu-Cameron Hospital in Sulphur as head nurse of the medical ward.

Miss June Ellen Moore of Mermentau, another R.N., will join the nursing staff on Oct. 1.

The addition of these two nurses gives the hospital six registered nurses on its staff.

Joseph Oscar Lee, the husband of Mrs. Lee, has also joined the hospital staff as an orderly. He received his training in the Army.

Mrs. Marie Susie East of Creole has been employed as a dietary aide by the hospital.

Mr. Hopper reported that during the hurricane threat Monday of last week, all of the patients except two were discharged from the hospital. These two were taken by ambulance to Memorial Hospital in Lake Charles.

**THIS WEEK**
**(By Jerry Wise)**

Attending the national county agents convention in St. Paul, Minnesota this week are Mr. and Mrs. Hadley Fontenot of Cameron.

At least two Cameron Parish residents, of whom we know, made the recently published "Who's Who" directory. They are E. J. Dronet, assistant manager of the Cameron branch of the Calcasieu Marine National Bank; and Dr. Cecil Clark, local physician.

Miss Wynona Welch, parish registrar of voters, has announced that due to Hurricane Cindy she was unable to make the community visits with the registration books that were scheduled last week. A new schedule of visits is published in this issue of the Pilot.

Pat Mire is back at his barber shop in Creole again after spending 19 months with the Army in Germany. He and his father, Ophie, have operated the shop in the parish for the past several years.

**CATHOLIC RECEPTION IN HACKBERRY**

A reception for new members of the Ladies of LaSalette was held during the Mass in St. Peter's Catholic Church of Hackberry, Sunday, September 15.

The following members were received into the organization: Mesdames Louis Seay, Elias Thibodeaux, Ferdie Frey, Raymond Poole, LeRoy Devall, Ernest Hamilton, John DeBarge; and Maggie Hebert.

**FARMING NEWS**
**(By Terry Clement)**

Bahia grass is showing promising results in lower Cameron Parish. Gulf Coast Soil Conservation District cooperators Mark Richard, Cameron; Horace Montie, Ojust Richard and J. B. Meaux of Creole; and the Crain brothers at Johnson Bayou, all have some acreage of this grass established.

Bahia seems to have the ability to combat other grasses and withstand droughts. Even following the summer drought, John Lowery, Hackberry and Conway LeBleu, Cameron, have made about 200 bales of hay per acre on their Coastal bermuda grass. The grass was cut about four weeks ago and is ready for cutting again.

Ernest Hamilton, Hackberry, J. B. Constance, Johnson Bayou and R. O. Hackett and Malcolm Hebert of Sweetlake have established small acreages of coastal this year.

Rattlebox "coffeeweed" spraying was done by many cooperators in the range areas around Creole, Cameron, and Grand Chenier. Much of the recent work was done with a sprayer attached to a marsh buggy.

Some cooperators using this method were Gabriel Richard, Cameron, and Ojust Richard, James "Sono" Savoie and Johnie Boudoin of Creole. Rattlebox infestation has increased since Hurricane Carla. Heavy infestation is very harmful to good marsh range.

Percy David, Klondike, and Curtis McCain and George Greathouse of Grand Lake have recently completed land smoothing operations on their farms. The smooth fields will provide better drainage and distribution of irrigation water, and at the same time help hold erosion to a minimum.

New cooperators with the district last month were Austin J. "Bud" Duhon of Hackberry and Alvin Trahan of Johnson Bayou. Enos "Buster" Sturlese of Creole and Roland Jinks of Johnson Bayou have revised their old conservation plans to meet the present needs of their soil for protection and improvement.

**ROUNDABOUT THE PARISH**

Black News--The Paramount Club met last Friday. In the program, patriotic songs were led by Allie Lee Jones, Mary R. Andrews, and Gredia LaSalle. Participants in other parts of the program were Carolyn Gauthier Bargeman, Walter Bartie, Eve Marie LeBlanc, Mary Ellen Godette and Gary Jones.

Holly Beach--A week ago when Hurricane Cindy suddenly appeared, this low coastal community did a hurried and complete evacuation. From noon to dusk, the place was a beehive of activity. The biggest concern was for frozen foods in case power was knocked out. Many freezers and boats were hauled out. Holly Beach was completely void of inhabitants, while Johnson Bayou had only three residents at home.

Up and Down The Creole Ridges--For the first time since the fury of Hurricane Audrey completely put out the glow of its bright blue lights, the large Chevrolet sign suspended in front of the Fawvor Chevrolet Co. building was turned on this past Saturday night. After so many years of being "blacked out," the lighted sign, which can be seen from a great distance at night, is a most welcome sight. The Fawvors had the sign repaired and all "spruced up" for the new Chevies.

Grand Lake-Sweetlake--The hurricane warnings put quite a scare into everyone this past week. Using great precautions, people were evacuating lower Cameron by the numbers. It was a pathetic sight to watch people leaving their homes and belongings not knowing what they would return to. Thank God, however, we received only gales and rain.

# Deer bowhunt to be held on local refuge

According to Refuge Manager Paul Yakupzack, bowhunting for white-tailed deer opened on the Cameron Prairie National Wildlife Refuge Oct. 1, and will continue through Oct. 31. No firearms are allowed in vehicles or on hunters. Hunters are required to carry a signed copy of the refuge regulations on them personally while hunting. Archers must possess proof of completing of the International Bowhunters Education Program to bowhunt on the refuge.

The refuge is participating in a large seismic survey which should be completed Oct. 5. Hunters are cautioned to avoid all seismic equipment. The north one-third of the refuge was not included in the survey. By hunting in the north portion of the refuge, hunters will avoid seismic activity.

Access to the refuge will be on designated roads and canals. Parking will be allowed only in designated areas. Vehicular access will be allowed only on the Pintail Wildlife Drive, West Cameron Prairie Road and the Bank-fishing Road (other levees and dirt roads will be closed to vehicle access). Motorboat access will be allowed only on the North Canal (the east refuge boundary), the east-west "Outfall Canal", and the Gulf-Intracoastal Waterway. The North Canal and Outfall Canal can be accessed from the public boat launch located under the Gibbstown Bridge on La. Hwy. 27. all terrain vehicles (Airboats, 3-wheelers, 4-wheelers and marsh buggies) will not be allowed anywhere on the refuge. Use of non-motorized boats is allowed.

No baiting is allowed. Hunters may enter the hunting area no earlier than 4 a.m. and may remain no later than one hour after sunset each day. Only portable stands may be used and must be dismantled or removed from trees after each day's use. Stands and blinds must be removed from the refuge by Nov. 1, 1996.

A refuge map and regulations may be obtained by writing Cameron Prairie NWR, 1428 Hwy. 27, Bell City, La. 70630.

# Production is down in Cam. Parish

CAPITAL NEWS

After climbing for three consecutive months, natural resource production in Cameron Parish dropped off in July, according to the latest figures from the state Department of Revenue and Taxation.

Production in the parish generated $1.34 million in severance tax during the seventh month of the year, down somewhat from the nearly $1.5 million reported in June but still the seventh highest total in the state. It also was down from the $1.4 million in severance taxes listed for work in the parish during July 1995.

Natural gas production was responsible for most of the July severance tax, yielding a total of $675,855 toward the parish total and ranking it fifth in that group. Oil brought in another $670,963 during the month, and the remaining $110 was credited to timber products.

The parish collecting the tax on oil and natural gas receives one-fifth of the total up to $500,000. Seventy-five percent of all revenue collected on timber products goes back to the parish.

The state's severance tax collections dropped for the first time since March, falling from $34.6 million in June to $30.2 million in the current report. But the February-March totals both were in the $26 million range, and the July 1995 report listed $29.6 million in severance tax receipts statewide.

# Bag limit

By KEVIN A. SAVOIE,
Associate Area Agent
(Fisheries)

Stock assessment reports by the La. Department of Wildlife and Fisheries in the early spring showed flounder stocks were below guidelines set by Act 1316 of the 1995 legislature. In response to this report, the Wildlife and Fisheries Commission set recreational and commercial bag limits at 10 flounder per person per day.

Properly licensed commercial fishermen will be allowed to sell their bag limit of ten flounder. Possession limit is also ten, which means that commercial fishermen on trips of more than one day will only be allowed to sell one day's catch.

## School Board tells absence policy

**(EDITOR'S NOTE--This is another of the policies that have been adopted by the Cameron Parish School Board that affects the students in the system.)**

Regular attendance can be assumed to be essential for a student's successful progress in the instructional program.

For a student to be eligible to receive credit (grades) and make up work missed during an absence, the student shall be required in each instance to submit a parental or physician or dentist confirmation of the reasons for the absence. A maximum of five absences per semester can be verified by a parental note.

Students not excused shall be given failing grades for those subjects missed for these days missed and shall not be given an opportunity to make up work missed.

Excused absences can only be granted in the event of extenuating circumstances that are verified by the Supervisor of Child Welfare and Attendance, which are as follows:

EXTENUATING CIRCUMSTANCES

1. Extended personal physical or emotional illness as verified by a physician or dentist.
2. Extended hospital stay as verified by a physician or dentist.
3. Extended recuperation from an accident as verified by a physician or dentist.
4. Extended contagious disease within a family as verified by a physician or dentist.
5. Prior school system approved travel for education. Travel for education must be approved by the Principal prior to the fact.
6. Death in the family (not to exceed one week).
7. Natural catastrophe and/or disaster.
8. For any other extenuating circumstances, parents must make a formal appeal in accordance with the due process procedure established by the school system.

TYPE OF ABSENCES

Temporarily Excused Absences: Students shall be considered temporarily excused from school for personal illness, serious illness in the family, death in the family (not to exceed one week), or for recognized religious holidays of the student's own faith and shall be given the opportunity to make up work.

Unexcused Absences: Students shall not be excused for any absence other than those listed under temporarily excused absences above, and shall be given failing grades in those subjects for those days missed, and shall not be given an opportunity to make up work.

Students shall not be excused from school to work on any job including agriculture and domestic service, even in their own homes or for their own parents or tutors.

Absences Due To Suspensions:

Students missing school as a result of any suspension shall be counted as absent, shall be given failing grades for those days suspended, and shall not be given an opportunity to make up work.

## WRP sign-up began Oct. 1

Instead of using conventional two or three-week sign-up periods as in previous years, the popular U.S. Department of Agriculture Wetlands Reserve Program (WRP) will begin an open-season format for landowners to enroll in the program beginning Oct. 1.

The open-season format means that the sign-up period for enrollment will continue over the coming months. Landowners who feel they have lands that qualify for the program can stop by local offices of the USDA Natural Resources Conservation Service to obtain more information and apply for the program.

The new 1996 Farm Bill, or Federal Agriculture Improvement and Reform Act of 1996, required that to the extent practicable, beginning Oct. 1, one-third of the remaining Wetlands Reserve Program acres be enrolled through the use of permanent easements, one-third through the use of 30-year easements, and one-third through the use of restoration cost-share agreements.

After Oct. 1, no new permanent easements can be enrolled until at least 43,333 acres of non-permanent easements are enrolled in the program nationwide.

Under the 1996 Farm Bill, the primary emphasis of the Wetlands Reserve Program is to restore the functions and values of wetland ecosystems to attain habitat for wildlife and migratory birds, including threatened and endangered species.

Motion to review and pay bills by Rogerest Romero, seconded by Carroll Trahan, passed.

Permits reviewed: Motion to accept by Leroy Trahan, seconded by Rogerest Romero, passed.

PERMITS:
Fina Oil & Chemical, Sec 32, T14s, R11W, Mecom C-1 Well, 1965' 2" Flowline; Fina Oil & Chem. Sec 32, T14W, R11W Lutcher B-3 Well, 3,850' 3" Flowline; Shell Western Secs 17 & 18, T12S, R12W, Black Bayou, Cleanout Canal; Nuevo Energy Sec 11, T14S, R12W, Re-enter Well, Miami Fee Well #3; Gravity Drainage District #7, Irr Sec 29, T15S, R15W, 48" Culverts.

Re: Fletcher permit, Dusty Sandifer will check with Myles Hebert and Clay Midkiff Re: field trip taken last week. It appears that GDD 7 will not be able to do work on permit as it is not drainage work.

Permit for culverts across Trahan's Bayou have been returned from US Corps so that a more complete permit application can be completed. Dusty Sandifer will check with Tina Horn Re: permit application.

Gravity Drainage District #7 was to open bids on structures for the Shallow Prong Project, two bids were received but due to the request of two firms wanting to bid and not being able to acquire the proper forms with specifications, no bids were opened. The opening of bids will take place one week from tonight, Thursday, Sept. 26, 1996 at 6:30 p.m., at the office of GDD #7 in Johnson Bayou. A special meeting will be called for this purpose.

George Bailey talked to the US Corps in Galveston with reference to the modifications on the Shallow Prong Permit. They are waiting on CZM approval, which should be forthcoming.

Lloyd Badon reported that the cabinets and sink have been installed in the office at the maintenance building. Only a little more work is needed to complete work additions.

A list of salinity readings from various areas of the drainage district was given by Lloyd Badon. The new meter is working properly, and will give the district a better idea of salinity conditions. Rodney Guilbeaux reported that the reports of US F & WL, La. DNR and Lamar University that were given at the Sabin Lake Conference is embarrassment on Fri. & Sat., Sept. 13 & 14.

Lloyd Badon reported that the center bearing on the Link Belt Marsh Maritime Boom has installed. A large crane picked up the machine,while workers removed the old bearing and bolts and nuts, then placed the new bearing along with new bolts and nuts. He ordered a control cable which will finish the needed repairs.

The welding machine upgrade with equipment to do aluminum welding have been purchased and are ready for use.

Rodney Guilbeaux reported on the Sabine Lake Conference of the Trans-Texas Water Plan held in Beaumont last week. It was well attended, was a two day conference, with speakers from local Texas and Louisiana localities, state and federal authorities,using overhead, slide and video projectors. Many charts, graphs and maps were used to give a complete background of the environmental baseline for Sabine Lake and surrounding uplands and wetlands in Texas and Louisiana. These presentations provided an overview of the climatologic, geologic, hydrologic, ecologic and economic conditions associated with the lake as well as stewardship issues in both states. A followup conference was suggested by a summary panel headed by Randy Roach, who served as moderator. Almost half of the presenters were from Louisiana, and almost a third of the audience was from this state. The proceedings were very educational, and they emphasized that both states need to increase the data and studies needed to fully understand the problems and solutions of this great lake system.

The culverts for the Holly Beach Project have been received and are awaiting installation. The culverts are single wall polyethylene pipe.

Executive secretary Rodney Guilbeaux gave the financial report for the month of August.

A discussion on the Sharp copier resulted in an agreement to purchase a new Copystar CS-2013 Copier from Lake Charles Copy and Duplicating for the price of $2,200.00 with a trade of $1,000.00, making the total price at $1,200.00 on a motion by Rogerest Romero, seconded by Ivan Barentine, passed.

Fifty decals, white background with red lettering, with words saying property of Cameron Parish Gravity Drainage District No. 7 Cameron has received is being placed on equipment.

A Cameron Parish Wetlands Planning Meeting is set for Monday, Sept. 30 at 10 a.m. at the Cameron Parish Police Jury Annex. Planning to attend are Dusty Sandifer, Magnus McGee and Rodney Guilbeaux.

A new EIN No. from the IRS has been assigned to the GDD No. 7. It and a new La. State Dept of Labor Unemployment Ins. No. will have to be used on all dealings with agencies.

A Resolution by Ivan Barentine, seconded by Leroy Trahan, passed, to set the 1996 Ad Valorem Tax at 4.84 Mills for maintenance fore the district. This is a reduction from 1995, which was set at 4.95 mills.

A landowners request for drainage assistance on property north of La. Hwy. 82 was discussed. George Bailey and Magnus McGee will take a field trip Thursday Sept. 26 to survey.

A special meeting is set for Thursday, September 26 at 6:30 p.m. at the office of Gravity Drainage District No. 7 in Johnson Bayou at 205 Middle Ridge Road.

There being no further business, meeting was adjourned on a motion by Leroy Trahan, seconded by Rogerest Romero, passed.

NOTICE OF PUBLIC HEARING

A Public Hearing will be held at the Daigle Center, 303 N. Adams St. (La. 99 South), Welsh, LA., 70591, on Monday, October 28, 1996, at 2:00 p.m.

This Public Hearing will be held in accordance with Act 834 of the 1974 regular session of the Louisiana Legislature and conducted by the Joint Legislative Committee on Transportation, Highways and Public Works.

The purpose of this Public Hearing is to review highway construction priorities for the fiscal year 1997-98 for the parishes of Allen, Beauregard, Calcasieu, Cameron, and Jefferson Davis, which comprise Highway District 07. This review is based upon the project priorities established by the highway needs analysis. The Highway Needs and Priority Study was done in order to determine the estimated cost of improving state maintained roads in Louisiana which do not meet a specified minimum tolerable condition for a particular functional class. Act 334 provides for a firm priority listing of the first ensuing year and tentative priorities for each of the next five subsequent years. This provides advice on the statuts of highway projects contemplated or under preparation.

A copy of the Preliminary Program for Fiscal Year 1997-98 is available for review by interested persons at the Department of Transportation and Development District 07 Administrator's office, 5827 Highway 90 East, Lake Charles, LA. Persons also may go to the Louisiana Department of Transportation and Development Headquarters Building, 1202 Capitol Access Road, Room 101, Baton Rouge, La., 70802.

All interested persons are invited to be present at the above time and place for the purpose of becoming fully acquainted with the proposed program and will be afforded an opportunity to express their views.

Oral testimony will be received. However, in order that all persons desiring to make a statement have an equal opportunity to do so, it is requested that every effort be made to complete individual testimony in as short a period of time as possible. Oral testimony may be supplemented by presenting important facts and documentation in writing. Your cooperatin and assistance will be appreciated.

Written statements and comments should be handed to the committee conducting the Hearing, or mailed to the following address, postmarked within 10 calendar days following the Hearing:

Joint Legislative Committee on Transportation, Highways, and Public Works, C/O LA DOTD (Section 28), P.O. Box 94245, Baton Rouge, La. 70804-9245.

PROCEEDINGS

The Cameron Parish Recreation District #5 held its regularly scheduled meeting on August 20, 1996 at 7:00 p.m. in Grand Lake at the Recreation Center.

Present: Shirley Chesson, Alex Beard, Jr., Peter Young, Joey Overmeyer.

Absent: Donna Verzwyvelt.

Guests: Brent Nunez, Kerri Owens, Darlene Johnson.

Shirley Chesson called the meeting to order and asked for a reading of the minutes from July.

On a motion from Alex Beard, Jr., seconded by Joey Overmeyer, and carried that the minutes from July 1996 be approved.

Kerri Owens discussed her desire to become the athletic director for the Recreation Center. Her proposal included times, costs, and recital plans. It was stated that Kerri would be responsible 100% of the expenses and would receive 75% of the registration and monthly fees. The Recreation District was to receive 25% of the registration and monthly fees to cover utilities and such. The Board accepted this proposal unanimously.

Darlene Johnson stated to the public that all children must leave the playground area when the pool closes. If there is any trouble concerning this, the swimmers are instructed to contact the sheriff's department for assistance.

Brent Nunez asked the Board to start thinking about the possibility of some day in the future having the pool area enclosed so that we could keep the pool open all year. Of course, this would include the full cooperation of from outside sources and perhaps the community. The Board as asked to consider the problems and benefits of this scenario.

On a motion from Peter Young, seconded by Joey Overmeyer, and carried that the bills for the month ending July 31, 1996 be paid.

On a motion from Alex Beard, Jr., seconded by Peter Young, and carried that the meeting be adjourned.

MINUTES OF THE CAMERON
PARISH TOURIST COMMISSION
CAMERON PARISH
POLICE JURY ANNEX
AUGUST 26, 1996

Meeting called to order by Chairperson Dinah Landry at 6:30 p.m. Pledge of Allegiance by Commissioner Bill Turnbull.

Invocation by Commissioner Ed Kelley.
Members Present: Commissioners Ed Kelley, Dinah Landry and Bill Turnbull.
Members Absent: Commissioners Sammie Faulk, Bobby R. Hession, Madeline Solina and Marianna Tanner.
Guests: Toby Landry, Police Jurors Brent Nunez and George LeBoeuf.

Commissioner Bill Turnbull moved the minutes be accepted as read, Commissioner Dinah Landry seconded and motion carried.

Chairperson Dinah Landry gave an update on the status of the Litter Bag Project. She also discussed the License Plate Program. She has contacted Prison Enterprises about making the plates and they have sent samples of what can be put on the plates. After discussion about what writing to put on the plates, Commissioner Ed Kelley moved the Commission purchase 100 license plates. Commissioner Bill Turnbull seconded and motion carried. Chairperson Dinah Landry will take care of this item.

The jurors present helped pick out samples of what to write on litter bags.

After discussion it was decided to submit the Cameron Parish Beach Sweep as one of top twenty events of the year. This is to be submitted to the Southwest La. Convention and Visitors Bureau.

The Chairperson will send data to the Ragtime Magazine for free article to be published about Cameron Parish. This will be in the November issue and will stress hunting industry in Cameron Parish.

The Chairperson reported the Rural Tourism Development Conference will be held October 15 and 16 and asked if anyone would attend. She also explained a Main Street Tourism Development Application. No action taken at this time.

Commissioner Bill Turnbull reported on the photo contest showing photos from all parts of the state. Commissioner Turnbull also stated he had been working as a Saturday volunteer at the Cameron Prairie Refuge. He said the tourists who he conversed with were very interested in Cameron Parish.

Commissioner Ed Kelley requested the Commission authorize him to use an amount not to exceed $300.00 if needed to purchase food for persons participating in the Beach Sweep. Commissioner Bill Turnbull moved authority be granted, Commissioner Dinah Landry seconded and motion carried.

Police Juror suggested Cameron Parish have a parish-wide litter clean-up day similar to Earth Day held in the spring. No action taken at this time.

The next regular meeting will be at the Creole Multi-Purpose Building in Creole on Sept. 30, 1996 at 6:30 p.m.

There being no further business the meeting was adjourned.

**PRAYER TO THE BLESSED VIRGIN**
(Never known to fail)

Oh most beautiful flower of Mount Carmel, fruitful vine splendor of Heaven, Blessed Mother of the Son of God Immaculate Virgin, assist me in my necessity, Oh Star of the Sea, help me and show me herein you are my Mother. Oh Holy Mary, Mother of God, Queen of Heaven and earth I humbly beseech you from the bottom of my heart to succor me in this necessity. There are none that can withstand your powers, Oh, show me herein you are my Mother. Oh Mary conceived without sin, pray for us who have recourse to thee (three times). Holy Mother, I place this cause in your hands (three times). Holy Spirit you who solve all problems, light all roads so that I can attain my goal, you who give me the divine gift to forgive and forget all evil against me and that all instances in my life you are with me. I want in this short prayer to thank you for all things as you confirm once again that I never want to be separated from you in eternal glory. Thank you for your mercy toward me and mine. The person says this prayer 3 consecutive days. After 3 days, the request will be granted! This prayer must be published after the favor is granted.

# Civil War battle fought near Sabine lighthouse

By W. T. BLOCK

To the transient visitor at Sabine Pass, Texas, perhaps the most impressive landmark is the abandoned light house. Now sightless after 95 years of continuous illumination to the world's mariners, it still stands stately and forlorn amid the muskrat beds and marsh recesses which surround it and characterize the terrain of extreme southwestern Cameron Parish, Louisiana.

If the gray stone sentinel of the swamps had a voice, there are a hundred tales that it could relate — of the dozens of hurricanes which have buffeted its foundations, the cannonballs that struck its walls, and even a live, 65-ton whale which once was towed past it by a tug boat.

Perhaps the least known item about it is the account of a Civil War skirmish which occurred within its shadows. Although both Federal and Confederate soldiers were killed in the affray, the miniature battle was of no particular significance except that it thwarted Union plans and hopes to retake Sabine Pass before Fort Griffin was built or to use the lighthouse as an espionage base.

For Southeast Texans, the year 1863 had opened on a note of optimism. On January 1, the new and aggressive Confederate commander at Houston, Gen. John B. Magruder, had recaptured Galveston Island and Bay from the Federals. On Jan. 8, Confederate soldiers at Sabine Pass had burned the sidewheeler "Dan," the last Union steam gunboat in Sabine Lake, as she lay at anchor at the lighthouse. And on January 21, the Rebel cottonclad gunboats "Uncle Ben" and "Josiah Bell" fought the two offshore Sabine blockaders and captured them after a one-hour battle at sea. For the first time in four months, both Sabine Lake and Galveston Bay were free of federal occupation.

The lighthouse story began on April 13, 1863, when Captain Charles Fowler, his pilot, his mate, and another Confederate soldier decided to go fishing in Lighthouse Bayou, or, as the records state, "on reconnaissance." Fowler was master of the cottonclad gunboat "Josiah Bell" and chief of Rebel marine operations in Sabine waters (note: the 'Confederate navy' in Texas was known as the "Texas Marine Department," made up entirely of Army personnel and Confederate army artillerymen).

He was also particularly obnoxious to the Union blockade flotilla, the steamers "New London" and "Cayuga," which had replaced two ships lost to Fowler in an earlier battle. The new blockade commander, Abner Read, was to prove only slightly less aggressive than his earlier counterpart, Lt. Frederick Crocker, who had captured Sabine Pass without a fight in September, 1862.

At the moment the Confederate cottonclads were up to no particular mischief, moored serenely as they were to the pilings in Sabine's Texas Channel. But they did flaunt their presence in the safety of the Pass and enkindled a certain and consuming passion for revenge among the Bluejackets offshore, as the prow of each cottonclad grinned its figurative defiance.

In addition, Commander Read had visions of capturing the shallow-draft Confederate gunboats and using them to nab 13 blockade-runners, 5 steamboats and eight schooners, which were then loading cotton at the Sabine-Neches ports. he also hoped to destroy all ferries on both rivers and to burn the Texas and New Orleans Railroad bridge over the Neches at Beaumont.

For more than a month, Read had sent a daily reconnoitering party by whale boat to the lighthouse, where they observed, through telescopes, confederate troop movements ashore and construction activities at a site that would later become Fort Griffin.

It was Captain Fowler's failure to return from Lighthouse Bayou which first caused Col. W. F. Griffin of Sabine Pass to suspect that something was amiss. Unknown to him at the time was the fact that Fowler's party had been surprised and captured at the lighthouse by a Federal patrol. Griffin's suspicions were further confirmed on April 14, when a Confederate engineer observed light reflections from the supposedly-abandoned marsh sentinel, and two days later, a Union whale boat was seen rowing inland in the Pass.

At dusk on April 17, 1863, the colonel dispatched two detachments from Companies C and D of Griffin's 21st Texas Battalion to lay a trap for the infiltrators. The Confederates, about sixty in number, took up hidden positions in the high grass as well as beneath the lightkeeper's cottage.

Shortly after dawn, when two of the blockaders' whaleboats were observed rowing toward the lighthouse, the Rebel sharpshooters were unaware that the boats carried three prize occupants, including Read, Commander D. A. McDermut, master of the "New London," and the Sabine Pass defector, James G. Taylor, on whose head the Confederates had placed a $10,000 bounty.

McDermut's boat landed first, and he sent an advance party of three Bluejackets to check out the area. The trio surrendered when the Rebels made their surprise appearance from beneath the lightkeeper's elevated residence. As others of McDermut's crew approached, a general melee resulted, with musket balls whining in all directions. Hopelessly outnumbered, the Bluejackets began a hasty retreat, firing and reloading as they fled. Upon reaching their vessels, McDermut found his whale boat hopelessly mired on a mud flat, and he soon ordered some of his men into the water to try to free it.

Read's subsequent reports described the ferocity of the Confederate attack as being "directed upon the boat of the 'New London,' pouring in volley after volley of rifle balls and buckshot."

While attempting to free their whale boat, four of Com. McDermut's crew were killed while standing in the water. McDermut surrendered the remainder after which he, being mortally wounded, was carried to Sabine City's military hospital for treatment. Read's crew miraculously escaped; however it shared equally in casualties, six of its seven men being seriously wounded. Com. Read was shot through his left eye, and Taylor sustained severe thigh and abdominal wounds.

The lone Confederate casualty at the skirmish was Lieutenant E. T. Wright, who commanded the Company D detachment and died instantly when struck in the head by a "Harper's Ferry ball."

Throughout the afternoon of the 18th, Confederate surgeon James D. Murray and a colleague worked feverishly to save Com. McDermut's life, but in vain. Under a flag of truce, two Union surgeons were allowed to come ashore and embalm the Union commander's body, after which the remains were returned to the offshore ships and eventually to his home in the North for burial.

However, Capt. James Taylor survived to pilot the U. S. S. "Clifton," which was captured the following September at the Battle of Sabine Pass. And again, Taylor made the third of his miraculous escapes from his would-be Confederate captors, whom he hated so much. Like his Unionist counterpart, Capt. Henry Clay Smith of Orange, Taylor was a man of uncompromising Northern sympathies, whereas his wife and children, while hated and humiliated, remained in Sabine Pass throughout the war. Evenually, Taylor's oldest son was conscripted into the Confederate Army. Smith, who piloted the U. S. S. "Sachem," also captured during the battle on September 8, 1863, was a former Sabine River Steamer captain who also escaped and lived a charmed life.

As far as is known, the $10,000 bounty on Taylor's head was never paid. On two occasions, he was captured, but each time he managed to escape before his trial and elude his captors. Once he roamed the nearby marshes around Sabine Pass for two weeks before he was able to steal a small boat and rejoin the blockade fleet offshore. However, Taylor died during unknown circumstances in 1864, while his son was wearing the gray uniform he hated so much, but only a probate file, which confirms his death, survives. After the war, H. C. Smith continued his residence in Jefferson County as a farmer in the Taylor's Bayou community.

Following his capture by the Union patrol, Capt. Fowler was shipped to upstate New York as a prisoner-of-war. After a year in prison, he was paroled to one of his brothers who was a colonel and one of five Fowler brothers in the Union army. After the war, Capt. Fowler returned to his old job as captain of the port of Galveston for the Morgan Steamship Company.

In the aftermath of the lighthouse skirmish, Col. Griffin reoccupied the lightkeeper's cottage, using it as a base for cavalry patrols which operated thereafter along the Louisiana shore. For the next five months, there is no surviving record of subsequent Federal incursions at Sabine estuary until the ill-fated invasion fleet arrived on September 8.

While the fight at Sabine Pass lighthouse is dwarfed by its sheer insignificance, it is another among the chapters of Jefferson County's Civil War history which deserves retelling, and another affray which claimed some lives of Union and Confederate foes even if too small to make the pages of history books. At any rate, it hardly deserves total relegation to the dust bin of local history merely because the webs of romanticism have totally encompassed the story of the Battle of Sabine Pass, thus reducing to forty minutes the four long years of Jefferson County's Civil War history.

# Refuge will close 15th

Sabine National Wildlife Refuge's interior fishing season will close at sunset on Oct. 15, and will remain closed throughout the winter to protect and maintain waterfowl concentrations in the area. All gates to the boat ramps wil be closed. No person should launch a boat during the closure except for a person possessing a valid refuge permit.

The West Cove Recreation Area's north boat ramp and canal will remain open only for boat access to the West Cove of the Calcasieu Lake.

The areas along the roadside canals adjacent to Highway 27 will remain open during the winter for fishing, crabbing and castnetting. The Marsh Nature Trail will remain open. Public use will be limited from sunrise to sunset except for a person possessing a valid refuge permit stating otherwise.

All boats left on the refuge must be removed by sunset on Oct. 15.

# Fisheries act passed

Sen. John Breaux last week voted for legislation that changes the way Gulf coast fisheries and others nationwide are managed. By a rare unanimous vote, the Senate approved the Sustainable Fisheries Act, which amends the Magnuson Fishery Conservation and Management Act.

"Sound science and good management practices are the key to assuring healthy fish stock everywhere," Sen. Breaux said. "This bill has had significant input from our Louisiana fishing interests and, as a result, goes a long way to ensuring better fisheries management."

Sen. Breaux said the legislation contains several key measures important to the Louisiana and Gulf of Mexico fisheries. The legislation:

Establishes national standards to reasonably reduce bycatch.

Requires completion of the shrimp bycatch studies, which includes assessing the economic and ecological impacts of reduced bycatch.

Directs National Marine Fishery Service (NMFS) to conduct an independent analysis of the management plan and stock assessments of the Gulf red snapper fishery.

Directs NMFS to put greater emphasis on fishery habitat protection.

Defines commercial, recreational, and charter/headboat fishing to improve fishery management.

Calls for improved science, and data collection and analysis.

# Meeting set on bycatch

Amendment 9 of the shrimp fishery management plan deals with reduction of trawl mortality of juvenile red snapper. The "bycatch amendment" could require shrimp fishermen to use bycatch reduction devices if adopted in its current form. Implementation is currently scheduled for May, 1997.

A public hearing on Amendment 9 will be held Mon., Oct. 7, 7-10 p.m. at the Lake Charles Civic Center.

# Check presented

Sheriff James R. Savoie was presented a check for $178,000 from the federal government this week paid in lieu of ad valorem taxes.

This was for the federal refuges located within the parish which are not subject to taxes.

# Two treasures are at mouths of local rivers

By W. T. BLOCK

While there are two treasure sites near the mouths of the Calcasieu and Mermentau rivers that most likely will never be found, it might be well to identify them in the event the "impossible" just might happen.

One is an iron safe, containing $9,000 in gold, thrown overboard near the Cameron Parish court house during a battle between Confederates and two Union gunboats on May 6, 1864. The other is the wreckage of the pirate ship Hotspur near the mouth of the Mermentau River, which ran aground and wrecked in November, 1820.

In his article published in True West magazine in December, 1979, the writer outlined other reputed treasure locations elsewhere along the Calcasieu River - the Barb Shellbank, Contraband Bayou and Island, and old Cidony's Shipyard. Those stories originally appeared in the New York Herald and were reprinted in a long, 3-column article in "Story of Laffite on the Calcasieu," Galveston Daily News, on April 25, 1895.

Another long article about Jean Laffite's Mermantau River treasure sites originally appeared in Cincinnati Inquirer and was reprinted in the Daily News in 1897.

In April, 1864, the Mermentau Jayhawkers owned a herd of 450 stolen cattle and horses, which they offered for sale to the Union Navy in New Orleans. Within days, two Union gunboats entered the Calcasieu and dropped anchor in front of the home of the writer's great-grandfather (Duncan Smith) at Leesburg, now Cameron.

At daylight on May 6, 1864, the entire Confederate garrison from Sabine Pass, including a battery of artillery, attacked the gunboats, shortly before a stolen herd was to be loaded aboard. A seesawing, 90-minute battle ensued before both the gunboats surrendered, and about 20 soldiers and sailors were killed and many more were wounded during the onslaught. Lt. Benjamin Loring's (commander of U. S. S. Wave) long account of that battle, and of Duncan Smith's involvement in it, was published in War of the Rebellion: Official Records of The Union and Confederate Navies, Series I, Volume XXI, pages 256-259).

Soon after Lt.Loring raised a white flag above his vessel, the Confederate soldiers watched in anguish as the Bluejackets threw everything possible overboard, including the Wave's iron safe. Prisoners of war later confirmed that the same contained $9,000 in gold coins, intended as payment to the Jayhawkers for the stolen cattle and horses.

For a few days, the Confederates dived for the safe in six fathoms of water, but they soon abandoned the search because the Confederates had to return to Sabine Pass.

The life of Captain James Campbell, Jean Laffite's most trusted lieutenant, is perhaps the best-documented of any of the Laffite's pirates. Campbell, son-in-law of Isaac and Isabel Chaineaux Crow, resided at Crow's Ferry, Sabine Parish, La. in 1816-1817 before he joined Lafitte on Galveston Island. His privateer Hotspur (the second of Laffite's privateers of that name) was special-built by Laffite's command at Baltimore in 1818.

Of special design, the second Hotspur was a topsail or "hermaphodyte" schooner, fore-and-aft rigged on both masts as well as square-rigged on the foremast, a vessel "with all wings and no feet," that could sail rings around the slow Spanish galleons of that day.

During a ten-months' voyage from February to November, 1820, the Hotspur engaged and captured a number of Spanish pirate ships off Vera Cruz and Tampico. After plundering their victims of all bullion, coins, rum, stores, and fresh water aboard, Capt. Campbell and his men burned the captured ships. With all fresh water exhausted, the Hotspur sailed up the Mermentau to Grand Chenier to November, 1820, and the youngest pirate aboard, a 14 year old cabin boy named Charles Cronea, deserted the privateer.

As the Hotspur attempted to return to the gulf, the privateer ran aground in the shallow water offshore. Captain Campbell and his crew were able only to salvage a small portion of the Spanish gold and silver aboard at the time of the wreck. When they later returned on another ship to resume salvage operations, the wreckage of the Hotspur had disappeared into deeper water.

The sunken treasures of the Hotspur and the Wave will probably never be found unless they are dug up during Corps of Engineers dredging operations at Cameron or in the offshore nets of some shrimper or fisherman. But if they should ever appear, it is at least nice to know from whence they originated.

# LSU makes a fishing survey

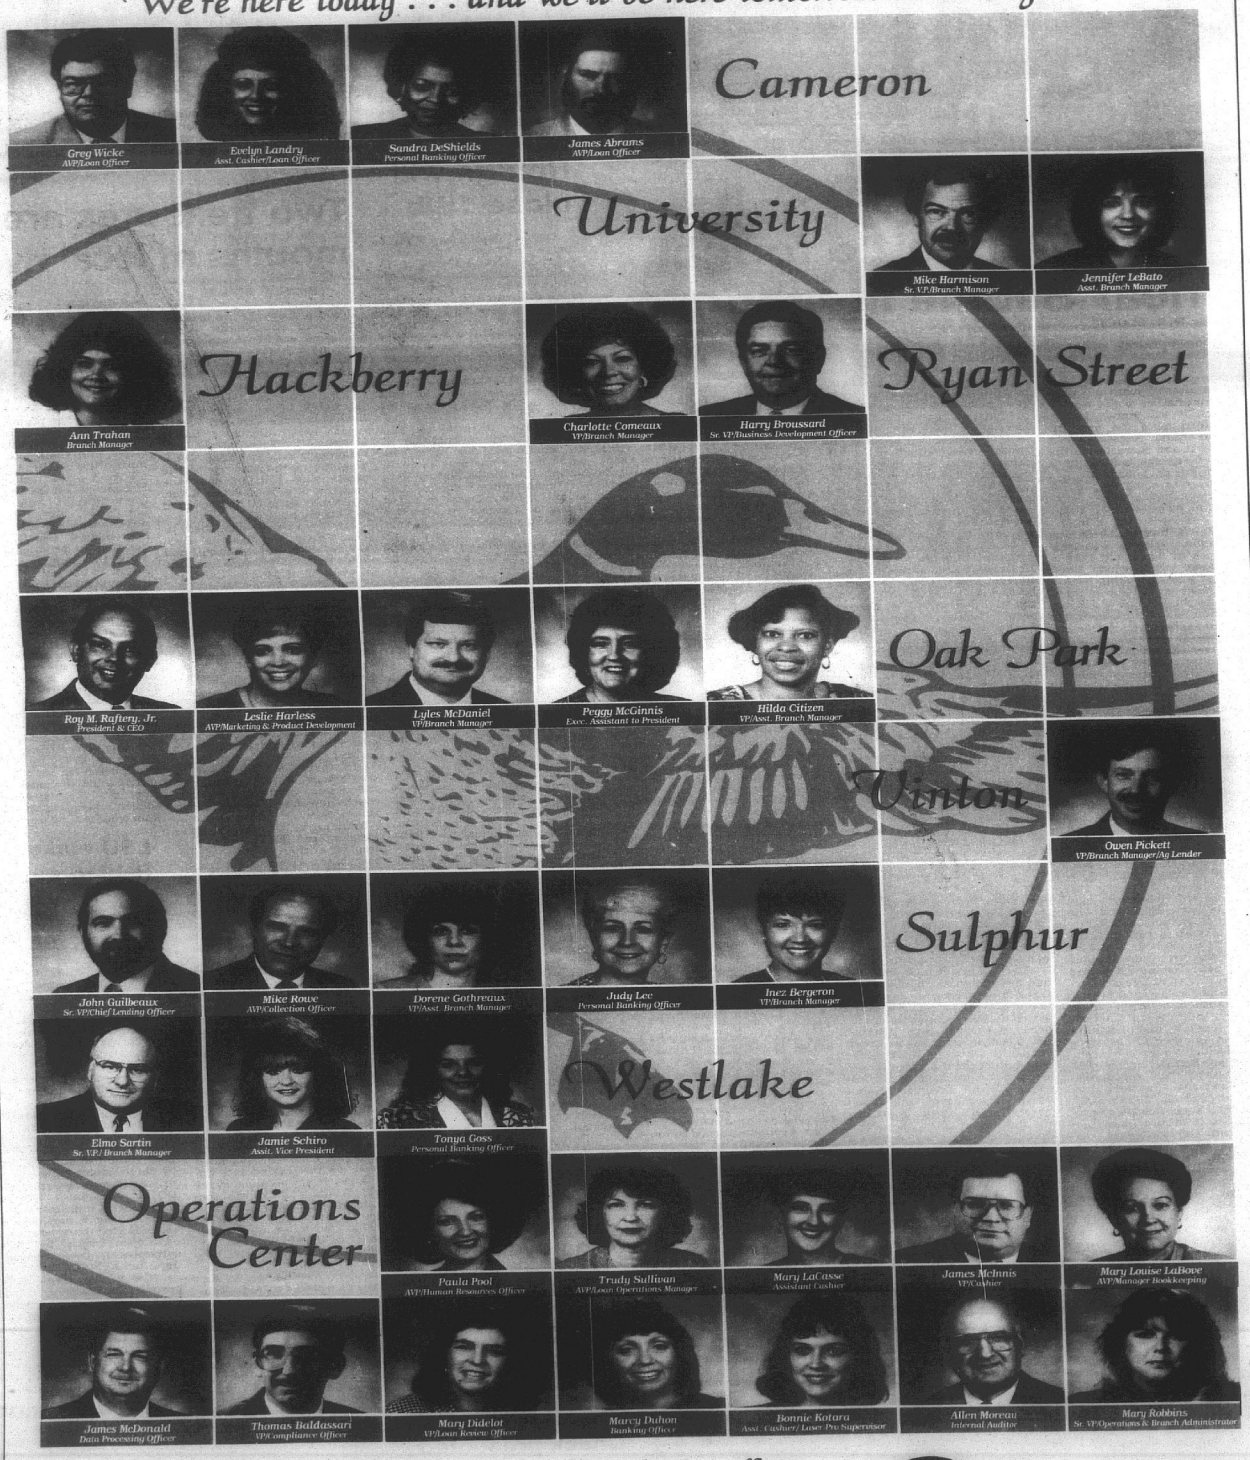
The LSU School of Forestry, Wildlife and Fisheries recently completed a survey of saltwater recreational anglers for the Louisiana Department of Wildlife and Fisheries (LDWF). The focus of the study was to determine characteristics of fishing trips by Louisiana anglers that could impact how the LDWF collects its creel survey data.

Of particular interest in the survey were boating access and nighttime fishing activities, because the LDWF now uses access-point creel surveys at public boat ramps during daylight hours.

A total of 545 anglers responded to the survey, 78% of which fished by boat an average of 20.4 days per year. However, 20% of the fishing trips reported by these anglers involved use of private ramps not surveyed by LDWF personnel. 108 of the respondents indicated that they fished at night, and data analyses indicated that about 8% of all days spent fishing by Louisiana saltwater anglers involved fishing after nightfall.

47% of the respondents reported an average of 13.4 days a year spent fishing from the shoreline, which represented about 28% of all trips reported. During 75% of these shoreline fishing trips, anglers did not launch boats to get to shoreline fishing areas, also making them unavailable for interviews.

# Season to end



Kevin A. Savoie, Area Fisheries Agent, announces that commercial seasons for spotted seatrout and mullet will begin soon.

Mullet season runs from Oct. 19, 1996 until Jan. 20, 1997, or until the quota is filled, whichever comes first.

The spotted seatrout commercial quota for this season is one million pounds.

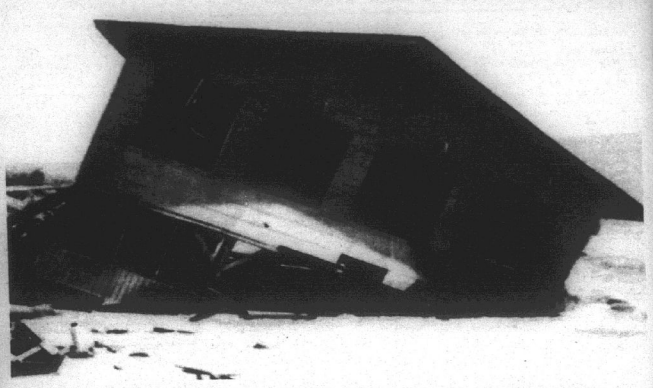
STATE SENATOR Gerald J. "Jerry" Theunissen recently took the oath of office to represent the people of District 25. Senator Theunissen was sworn in by Secretary of the Senate Mike Baer in the Governor's Conference Room in the State Capitol in Baton Rouge as wife Pat, far left, and other family members stood near-by. His district includes Cameron Parish.

CAMERON'S NEW SENATOR

# Theunissen takes office

With family, friends and area public officials in attendance, newly elected State Senator Gerald J. "Jerry" Theunissen took the oath of office in a ceremony at the State Capitol. The 63 year old Theunissen of Jennings, who replaces former District 25 State Senator Cecil Picard, now the State Education Superintendent, was sworn in by Secretrary of the Senate Mike Baer.

"I am elated that the people of my district have the confidence in me to elect me to the State Senate. I look forward to serving them," Senator Theunissen said. "I believe the legislature is headed in the right direction with its current reform minded leadership and am excited about the higher level of accomplishments lying ahead for Louisiana and its people."



Senator Theunissen comes to the State Senate from the State House of Representatives where he was serving his second term. The native of Lake Arthur brings with him a wide range of personal and professional experience. The decorated Vietnam combat pilot retired from the U.S. Air Force as Lieutenant Colonel and returned to Southwest Louisiana where he operated a small aviation business, volunteered his time to manage the local airport and served as a member and officer of numerous community and civic organizations.

During his service in the House of Representatives, Senator Theunissen was recognized for his leadership in fighting for the rights of crime victims, cracking down on drunk drivers, defending family values and promoting the interests of small businesses. In the Senate, he will make education reform his top priority.

"I look forward to a planned Special Session early next year where we will address all aspects of education in Louisiana. I intend to be very involved in the education reform effort finding workable solutions to problems like classroom discipline, drugs and teenage pregnancies that plague our current education system," Senator Theunissen said.

Senator Theunissen is married to the former Pat Reaud who is the current president of the Legislative Spouses Auxiliary. They are the parents of three children and four grandchildren.

State Senate District 25 is composed of Cameron Parish as well as parts of Jefferson Davis, Calcasieu, Acadia, and Vermilion Parishes.

THE HIGH TIDES caused by the tropical storm in the Gulf over the weekend caused the foundation to be washed out from under this camp on Gulf Breeze beach Saturday night. The high waves also caused some damage to the highway in the area. About 15 feet of shoreline was lost in the area. (Photo by Rodney Guilbeaux.)

# Sanctuary matter now in court

By GENEVA GRIFFITH

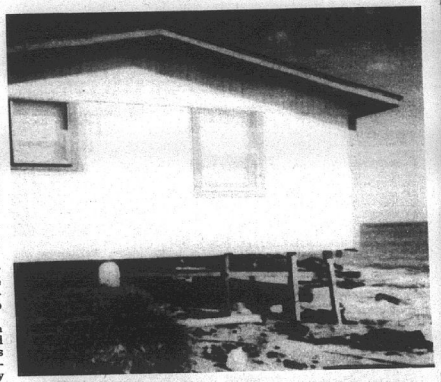
Lawyers representing the Baton Rouge Audubon Society, owners of the Sheeley-Holliman Bird Sanctuary at Johnson Bayou, and Glenn Alexander, Cameron Parish District Attorney, reprsenting the Police Jury, were back in 38th Judicial District Court last week.

At issue is the controversy between the Society and some adjacent land owners of the birding sanctuary in the Peveto Woods.

Some of the land owners in the Little Florida subdivision had objected to the tall grass that was in the sanctuary but the Audubon Society stated that if they were forced to comply with a noxious weed ordinance, which was recently passed by the Police Jury, it would defeat the purpose of the sanctuary which is to provide cover and food for the migrating birds.

The camp owners and birders have not reached a compromise on the subject to date, although at least one meeting has been held on the subject.

Monday lawyers representing both sides appeared before Judge H. Ward Fontenot regarding a Preliminary Injunction against the Cameron Parish Police Jury and Dusty Sandifer, individually, as the Juror from that District.



Alexander filed an objection against the Audubon Society for not being in good standing with the Louisiana Secretary of State for several years for not filing necessary corporation papers.

Judge Fontenot determined that the Society has recently filed the necessary papers and is now in good standing.

He also dismissed the suit against Police Juror Sandifer, who was sued individually.

Judge Fontenot also issued an injunction against the Police Jury prohibiting it from mowing the grass in the sanctuary which was in question, until a civil suit is settled.

Alexander asked the Judge to set a trial in the next few weeks on the case, which will probably be in the next few months, Alexander said.

THE HIGH TIDES over the weekend, caused by the tropical storm, washed out under from under this camp owned by P. J. Lange on the west end of Constance Beach. This beach lost about 12 feet of shoreline. (Photo by Rodney Guilbeaux.)

# Workshop to be held on wetland planning

A public workshop will be conducted to help the Louisiana Department of Natural Resources (DNR) develop a comprehensive Coastal Wetlands Conservation Plan (hereafter referred to as the "Plan") for Louisiana. The meeting will be co-sponsored by DNR and the LSU Agricultural Center's Louisiana Cooperative Extension Service (LCES). The meeting will be held in Lake Charles on Thurs., Oct. 17, at 7 p.m. at the Calcasieu Agri-cultural Center, 7107 Gulf Highway.

Through this plan, Louisiana is attempting to achieve "no net loss" of coastal wetlands as a result of developmental (permitted) activities.

Public participation in the Plan development process will be critical in achieving federal agency plan approval. Additionally, individuals and businesses that conduct activities requiring state and/or federal wetland developmental permits (such as Coastal Use Permits and Section 404 Permits) in the coastal zone should also attend. The Plan will ultimately outline how wetlands losses due to permitted activities will be mitigated and result in "no net loss" of wetland functions and values.

Landowners, oil and gas companies, marine construction companies, pipeline companies, and the public are encouraged to attend.

Once a draft Plan is developed, a similar series of public meetings will be conducted in early 1997 to present the draft Plan and obtain public comments.

For more information about the October public workshops, contact Louisiana Department of Natural Resources at (504) 342-7308 or the Calcasieu County Agent's Office at 318-475-8812.

## Registration to close

According to the Cameron Parish Registrar of Voters Ruby Kelley, registration for the Nov. 5, 1996, election will close on Oct. 11, at 4:15 p.m.

# Reward offered

The Cameron Parish Crime Stoppers are offering a reward of up to $750 for information leading to the arrest and conviction of the person or persons involved in the following crime:

On July 6, about 12:30 a.m., at Little Florida Beach, three white males were run over while sleeping in their tent. Two were seriously injured. The suspects may have been two white males driving a Geo Tracker. The incident appeared to be intentional.

Anyone having information please contact the Cameron Parish Crime Stoppers at 775-7867. You do not have to give your name, a code number will be assigned.

# Address is corrected

The address of a Cameron man formerly convicted of several sexual crimes was given as 263 School Board Street in the notice that he was required to run the Pilot last week.

The newspaper has been advised that the address should be listed as 263 Rogers Lane.

## Rec meeting

The meeting of the Johnson Bayou Recreation Board has been changed from Thursday, Oct. 10 to Tuesday, Oct. 15 at 6:30 p.m.

## Agency meeting

The Cameron Community Action Agency board of directors will meet Oct. 28, at 3 p.m. at the Cameron Senior Center.

# Ministers take action

The Cameron Parish Ministerial Association has adopted a resolution in support of legislation "that will serve to curtail or eliminate the proliferation of organized gambling."

Noting that Louisiana and southwest Louisiana "is threatened by the rampant invasion by the gambling interests and various associated vices" the resolution calls on parish citizens to vote on Nov. 5 "to reserve the trend toward greater immorality in our community."

The resolution was signed by the Revs. John Wesley Guyre, Timothy W. Vanya, Louanna Pruitt, Jack Tanner and Morse Pruitt.

## Meeting set on oysters

Rep. Dan Flavin and State Senator Jerry Theunissen announced that there will be a meeting for oyster fishermen on Mon., Oct. 14, at 1:30 p.m. at the Cameron Parish Police Jury Annex. The purpose of this meeting is to discuss regulations for the upcoming oyster season. Representatives from the Enforcement Offices of the De-partment of Wildlife and Fisheries and Office of Public Health will be on hand to discuss regulations for the upcoming oyster season. Additional information on this meeting can be obtained by calling Rep. Flavin's office at 477-1334.

## Program set

A Telemedicine Wellness Education program on breast cancer awareness will be held Tues., Oct. 15, from 1-1:45 p.m. in the South Cameron Memorial Hospital Telemedicine Suite

Speaker will be Sharon Carter, RN of the Lake Charles Memorial Hospital.

This is open to the public; please RSVP by Mon., Oct. 14, to Jenny Broussard, 542-5285.

Special meeting of Oct. 1, 1996, 7:30 p.m. Meeting called to order by President Magnus McGee at Board Office, 205 Middle Ridge, Johnson Bayou, La.
Roll as follows: Magnus McGee, Carroll Trahan, Ivan Barentine, Rogerest Romero, Leroy Trahan. Absent: none.
Guests: Johnny Broussard, Jeffery Alleman, Raymond Hicks, all of Hackberry Drainage District No. 9; George Bailey, Lloyd Badon and Rodney Guilbeaux of G.D.D. #7; Dusty Sandifer, Police Juror; Roy Walter, SNWLF; Paul Yakupzak, Cameron Prairie NWLF; Ralph Libersat and Mel Guidry, DNR/CRD; Scott Rosteet, Fina; Clay Midkiff, NRCS.
President McGee opened the meeting, all members and guests were introduced.
Since this was a special meeting to discuss the draft (EA) Environmental Assessment addressing the SNWLR structure replacement project (XCS-C/S-23) which is authorized by CWPPRA, the biologist at Sabine, Roy Walter, gave a summary of the draft. He read a fax from Richard of Amoco and Stream Properties re: draft EA on structures at Hog Island Gully, West Cove Canal and Headquarters Canal at SNWLR. The fax stated the lack of a management plan, the absence of structure illustrations, etc. required that all of these issues should be addressed before this draft is accepted. Walter replied to these observations, further explaining the draft. Ralph Libersat of DNR/CRD answered questions of proposed M/M plan and outlined salinity stations and recordings.
Paul Yakupzak on USFWL at Cameron Prairie Refuge drew sketches of present structures and proposed changes, positing using massive concrete structures or other types as alternative less expensive possibilities.
Dusty Sandifer commented on flooding conditions in areas above, west and south of proposed structures and wondered if a memorandum of agreement between USFWLF (CNWNR) and the drainage boards would be helpful in reaching agreement on the different issues involving water and salinity, structure design and management of same. Magnus McGee expounded on the flooding problems frequently coming before GDD #7 and expressed concern on areas west of refuge. Clay Midkiff spoke on three proposed structures (additional projects under consideration), could relieve these problems.
George commented on the existing structures, citing the pros and cons, and made observations on proposed changes. He was joined by Johnny Broussard of GDD 9, who reported on flooding conditions in the area west and north of the structures. Rogerest Romero pointed out that the present structures were permitted without local knowledge, review or input, and that they were advertised in newspapers in Baton Rouge and not locally. Mr. Broussard specifically on those two bridges causing flooding problems. Clay Midkiff pointed out that the tail end experiencing flooding problems always gets relief least and last. Mr. Midkiff and Mr. Libersat discussed priorities and history of CWPPRA projects and criterias.
Scott mentioned how a MOA between GDD #7, FINA and DNR settled a stalemate situation at east Mud Lake CWPPRA project recently completed. He asked that a map with benefitted areas be drawn, and those areas be considered in effects of structure design.
Mr. Libersat stated that at least one year of data collecting in advance is necessary to effectively produce enough input and review. He stated that a MOA gives yearly input on projects. Both GDD #7 and GDD #9 stated that they were interested in a MOA on this project. FINA agreed and further suggested more monitoring stations for water levels, salinity, etc.
A general discussion on stop logs, flap gates, structure designs, costs, user friendly practices and procedures, field trips, maintenance and management of the project was followed up with GDD #7 offering to host a followup meeting for all concerned parties when M/M, structure design, etc. are available for further study.
George Bailey summarized the meeting as follows:
1 - Design folks need to finalize plans
2 - There needs to be more monitoring at stations for water levels and salinity in areas outside sabine refuge
3 - GDD #7 and GDD #9 need to be included in MOA
GDD #7, GDD #9, and FINA is to request MOA from David Fruge, District Field Supervisor for USFWL Service in Lafayette.
There being no further business, a motion to adjourn by Rogerest Romero, 2nd by Carol Trahan, passed.
Next regular meeting to be Tues., oct. 15th, 1996 at 6:30 p.m. at Board Office at 205 Middle Ridge Road in Johnson Bayou.

# Board commends two teachers for grant

By GENEVA GRIFFITH

The Cameron Parish School Board last week gave special recognition to two South Cameron High School English teachers who submitted LEARN applicants and received a grant of $1,000 to purchase CD-Rom software to be used in their literature classes. They were Stephanie Rogers and Vickie Little.
Judy Jones, curriculum advisor, also reported that the two teachers have written another proposal for a grant for videos and software for the library.
Mrs. Jones also reported that the school system has received a state grant of almost $100,000 to purchase technology carts to be used in the classrooms of Grand Chenier, Cameron Elementary and South cameron Elementary schools. The same amount is guaranteed for three more years to be placed in other schools, with a total of 12. This technology will greatly enhance the school program, she said.
The board agreed to change the November meeting date from Wed., Nov. 13, to Tues., Nov. 12, due to conflicting work scheduled of some board members.
Each school in the parish has been asked to put on some type of program before the school board by Superintendent Pam LaFleur to showcase their individual curriculum.
Clarence Vidrine, Cameron Elementary School principal, introduced Ann Boudreaux, a retired school teacher who volunteers her time to teaching music at his school, who presented a musical program in French and English
Transportation Supervisor Ron Vinzing presented the fuel bids to the board and reported that the prices of gas were up an average of 12 cents a gallon and 20 cents a gallon for diesel from last year.
The board was disappointed that the lowest bids were not from Cameron businesses, but they had to approve the lowest bid, which included one bid from a Creole businessman which was one-thousandth of a cent higher than the lowest bid.
Bill Morris, Board President, said, "I really have a problem sending our dollars out of the parish when we have vendors here who can provide the same service, but I do understand that we must abide by the law and go with the lowest bid."
The board approved the travel for Vickie Parker and two students to the National FHA meeting in Orlando, Fla. Even though no money is required from the board, the permission of the board is required.
The board approved the hiring of Kellie McKoin, teacher at Cameron Elementary School and Shannon Silva, interpreter at Grand Lake High School, and the resignation of Debbie Duhon, Title I Tutor at South Cameron Elementary School.
Morris asked Mrs. LaFleur to help develop a program to help students and their families when the student has behavioral problems because of medical or family problems.
Willyne Kestel. Supervisor of Special Education, reported that there is a social worker on the staff, to which Morris stated, "I am not implying that the school system is not doing what it is supposed to do."
The board adjourned the meeting in 45 minutes, which may be some kind of a record.

# Hackberry Fire Dept. to have open house

The Hackberry Fire Department will hold an open house from 10 a.m. to 3 p.m. Sat., Oct. 12, at the Central Fire Station, 1022 Main Street.
Continuous demonstrations will be held during this time to show the unusual capabilities of the new multipurpose fire engines. Both new engines will be on display, tours of the central station, and fire safety demonstrations will be held each hour.
An automobile rescue will be held at noon to demonstrate the new "Jaws of Life" rescue tools.
Free hot dogs and cold drinks will be served all day and drawings for door prizes will be held each hour.

## School program

The Hackberry volunteer firefighters will present their annual fire prevention program to the students and faculty of Hackberry High School Fri., Oct. 11. The winners of the poster contest will be announced and the prizes awarded during the program.

# Fair contestants told

The Cameron Parish Schools have announced their contestants in the Senior and Junior Miss Calcasieu-Cameron Fair competition to be held in Sulphur next week.
Representing South Cameron High School in the senior contest is Tanya LeJeune, daughter of Stephney and Ray Mallet.
Hackberry High School Senior contestants are Karalee LaBove, daughter of Mr. and Mrs. Austin LaBove, Jr. and Brandy LaBauve, daughter of Dwight and Carlean LaBauve.
Junior contestant from South Cameron is Terri Conner, daughter of Terry and Judy Conner.
Johnson Bayou junior contestant is Angela Kellum, daughter of Donald and Elise Plauche.
Grand Lake junior contestant is Samantha Chesson, daughter of Mark and Candy Chesson.
Junior contestant from Hackberry is Ashley Granger, daughter of Mark and Angie Granger.

# Lacassine to close

The Lacassine National Wildlife Refuge will close all its waters to fishing and other general uses after Oct. 15. The purpose of the refuge is to serve as a winter haven for migratory waterfowl. To avoid disturbing the hundreds of thousands of geese and ducks that use the refuge, public use of its waters has to be restricted during this period.
The refuge will open again to fishing and boating on March 15.

## Parent group to meet Thurs.

The Cameron Elementary parent organization, known as United Partners, will hold their first meeting of the 1996-97 school year Thurs., Oct. 10, in the library beginning at 6 p.m. The meeting will last one hour. All parents, grandparents and members of the community are welcome to attend.
A goal of United Partners is to provide a line of communication between the home, school and community. United Partners has no officers and everyone attended has an equal role. The group meets once each six weeks during the school year.
The entrance road to the Pool remains open all year for public access for wildlife observation and photography, but bank fishing is not permitted from the roadside after Oct. 15.
Archery deer hunters are reminded that although they are allowed to hunt Lacassine Pool through Oct. 31, all boats are prohibited in the Pool after Oct. 15. Hunters may use boats on refuge waters outside Lacassine Pool through Oct. 31.

## 4-Hers take part in beach cleanup here

Thirty participants attended a local beach sweep on Mae's Beach recently. These Johnson Bayou citizens collected approximately 80 bags of trash in just two hours. 4-H Members participating were Sarah Griffith, James Welch, Regina McGee, Bridget Burchett, Brandon Trahan, Adam Trahan, Adam Young, Amanda Strong, Natalie Griffith, Christopher McGee and Katie Young.
Stingray, NGPL, Sonat Exploration, and Dupre Supply donated gloves and sodas for the activity.

# Local Marine on ship USS Nautilus in Kuwait

Cpl. Marcus Morgan

By CHAD McKIMSON

U.S. Navy and Marine forces are deployed overseas throughout the year to help protect U.S. interests aboard. To ensure Marines and Sailors are ready to respond to a crisis at a moment's notice, they routinely conduct military training exercises with our allies.

Recently, forces from the 13th Marine Expeditionary Unit (13th MEU) hit the beach in Kuwait as part of "Exercise Rugged Nautilus 96". The late summer exercise was designed to enhance U.S. and Kuwait combat readiness and interoperability, and demonstrate U.S. resolve to support the security and humanitarian interests of our allies in the region.

Marine Cpl. Marcus A. Morgan, the 21-year-old son of Charles and Charlene Morgan of Grand Lake, was a key player in the exercise and feels it's important for the United States to participate in these types of scenarios.

"My job in the operation was to maintain positive communication within the platoon and with other units," said Morgan, a communications specialist. "It is important for us to participate in this exercise because it made us ready for desert warfare."

Exercises like "Rugged Nautilus" give the Marines the opportunity to train with their foreign counterparts. During the exercise, the 13th MEU conducted an amphibious landing and operated ashore with Kuwaiti forces in the Udairi desert area.

The 13th MEU, home based at Camp Pendleton, Calif., is currently deployed to the Middle East region and are embarked on the amphibious warfare ships USS Tarawa, USS Duluth and USS Rushmore.

Morgan, a 1994 graduate of Grand Lake High School, feels a lot was accomplished during the exercise and that it helped increase the operational readiness of the 13th MEU.

Realistic training in different geographic regions keeps U.S. forces sharp and also gives Marines like Morgan the chance to adapt techniques to different surroundings.

# Cameron Outdoors

By Loston McEvers

### TEAL SEASON

Our 9 day teal season came to a close and I guess all in all we could say we had a fair season. I do know that there were many limits unfilled. Some hunters told me they didn't even fire a shot on their lease.

I think the western end of the parish had a tough season, while the Cameron - Creole marshes had good hunting with plenty of teals, and the Grand Chenier area was either good in some areas to not so good in other areas.

Our northern part of the parish was fair, mostly rice field hunting. I do know the Thornwell area was good. I hunted the Grand Chenier marsh, both the south side and north side and that was fair, the Cameron area had good shooting and the Creole area was good. The best day for me was Sunday, the last day where the teals were working the decoys and we had our limits by 7 a.m.

Rabbit and squirrel season opened last Saturday. A few rabbits reported bagged. Most of us locally like to wait for a couple of good cold fronts or the first frost to hunt rabbits.

Bow hunting for deer opened Oct. 1, but I've only had two reports so far of bagged deer. The gun season opens Oct. 19, as well as the second split of dove season. Opening Oct. 19 and 20, is at noon both days.

### TAX PROPOSED

The federal aid in sport fish and wildlife restoration programs is one of the most important fish and wildlife conservation programs in the nation. The program is a manufacturer's excise tax on sporting arms, hand guns, ammunition, archery equipment, fishing rods, reels, creels, artificial baits and lures, as well as taxes on motor boat fuel. Funds coming from the excise taxes have built the most successful programs of fish and wildlife restoration in the world. It's a good example of user pays and user benefits.

The excise taxes are collected from manufacturers and passed on to hunters, shooters, anglers and boaters when they purchase the taxed items. The funds are dedicated and distributed to state fish and wildlife agencies by grants from U.S. Fish and Wildlife Service. This helps acquire land, build boating projects, and manage wildlife and fishing as well as education for hunters.

Now, there's a proposal to add more items to carry this excise tax. Binoculars, used by hunters, fishermen and bird watchers, to name a few. Bird seed, hiking boots, and canteens would also be slapped with a new federal tax to raise money for the same purpose and to get other outdoor enthusiasts who don't pay the traditional fishing and hunting taxes, but use these lands and waterways as well. This new money would be used strictly for education.

### DEER OUTLOOK

Although we've had a drought this past summer, our deer population outlook is great for Cameron Parish. Our deer herds had plenty of grass to feed on in our rich soil marshes and there will be plenty of feed for the winter as well as acorns.

It is said that the drought may hurt the Texas deer herds, as many died and reproduction was poor. Many landowners will probably not allow hunting for some species this year.

West Texas was the hardest hit and we have quite a few of our local hunters who hunt the Texas deer. Even the turkey hens felt the affects of the drought and few nested in some areas of the state due to lack of grass and insects.

Alabama is just the opposite, their deer population is so large and plentiful with a good habitat that their limit is set at one buck per day during the gun season and that means 74 per season.

Arkansas has a good healthy deer population and our state population is good with good weight on the bucks and the outlook is good.

Out of state hunters are boycotting New Mexico, last year 24,000 fewer hunters. Why? A new legislation requirement is you must hire a guide to hunt in special big game hunts, so those who do go will see an increase in their hunter tags so the state can make up for lost revenue.

South Dakota will increase their special buck hunting license for non-residents double from $150 to $300 this year.

### FISHING NEWS

Anglers are still catching speckle trout and redfish and some good reports of flounders caught in the Cameron area. The large amount of rain sort of slowed things up inland, but the jetties, both in Grand Chenier and Cameron, have been producing. Also, good reports of red snapper offshore catches.

# Fair announces Special Day

The Calcasieu-Cameron Fair will host the 23rd annual special visitors day on Wed, Oct. 16, from 9 a.m. to 1 p.m.

This day is designed so that the aged, handicapped and retarded citizens can take their leisure time, walk or stroll at their own pace and enjoy the exhibits.

Due to the many different types of diets, the Calcasieu-Cameron Fair will no longer provide food or drink.You must bring your sack lunch.

For further information, call the Fair Office at 527-9371.

# Grandparents are honored

Pre-kindergarten through fifth grade students of Hackberry High school hosted more than 150 grandparents for Grandparents Day Oct. 3.

The event was sponsored by the Title I Tutorial program, which sponsored a Grandparents Day last year for Title I students. This year the program was expanded to include students through the fifth grade.

Grandparents were greeted by their grandchildren in a program in the school auditorium. The grandparents then visited the classrooms, and shared refreshments in the school lunchroom.

Grandparents visited from as far away as Fort Worth, Houston, Baton Rouge and Saline.

Students in the sixth grade enrichment classes acted as ushers, at the registry table, served refreshments, and furnished decorations and stage hands for the day.

# Women's conf. held in L. C.

By GENEVA GRIFFITH

"Let the Magic Begin" was the theme of the Southwest Louisiana Women's Conference Thursday at the Lake Charles Civic Center, with over 1500 women and a few men attending.

There were also seminars and a resource fair where a multitude of vendors set up booths, handed out brochures, samples, and awarded door prizes.

Cathy Lee Crosby, TV talk show hostess, tennis star, and author of a new book, "The Bliss Zone", was the keynote speaker. She was introduced by Lake Charles Mayor Willie Mount.

One of the founding members of the conference, Angela Miller, was named the winner of the 1996 Jack V. Doland Outstanding Citizen's Award. The late Jack V. Doland was a member of a pioneer Grand Chenier family.

**"Who can our kids look up to?"**

Our heroes of yesterday have lost their luster.

Almost daily the headlines remind us of how unwise it is to put our faith in sports legends. Or movie stars. Politicians. Or captains of industry. So where are the role models of today for our sons and daughters?

We have a suggestion.

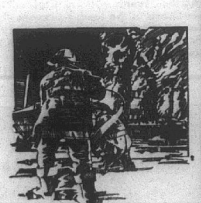
There is a group of people we tend to take for granted. There is no special day set aside in their honor, that we know of. No TV series dedicated to their heroism. No organized national recognition of their importance to every community in the United States -- big and small.

Without fanfare, they give of their time and energy in service to everyone. From providing medical service, to fighting grass fires, to rescuing the injured in an auto accident, to saving our homes, businesses and jobs, to fighting the largest oil fire. From the trainee to the Chief. From the firefighter to the Commissioners.

To even qualify for these difficult and demanding tasks, they have to be strong, brave, dedicated, intelligent, resourceful, highly motivated, and yes unselfish.

Because they're certainly not in it for the money.

At a time when many of us bemoan the lack of heroes, we suggest all of us just look down the street to the men and women who protect you and your neighborhood from the ever present dangers of life.



**The roll models for our kids? They've been there all along.**

# Football district play begins this week

By JOE MUELLER

The second half of the football season - the important half - kicks off this week as the South Cameron Tarpons entertain the North Vermilion eleven.

The Tarpons, who enter district at 2-2 will need a victory as the district races determine who goes to the playoffs.

The Tarpons have victories over DeQuincy and Vinton and losses to Pickering and St. Louis.

North vermilion brings a 1-4 record into the district games. They scored their first win of the year last week as they beat Gueydan 12-9.

South Cameron lost last week to St. Louis by a 3-0 score.

The Tarpons have recently been fumbling too much as they lost three fumbled to the Saints and also fumbled the ball deep in Pickering's territory. This is one thing the Tarpons need to avoid.

The North vermilion team has losses to Erath, Catholic New Iberia, Delcambre and Iowa.

the North Vermilion team has yielded 127 points in five games while the Tarpons have given up only 25 points in four games. On offense North Vermilion has scored only 68 points in five games while South Cameron has lit the scoreboard up with 64 points in four games.

Entering last week's games the South Cameron team was averaging 266 yards per game on offense while North Vermilion was averaging 245. On defense the Tarpons had given up 181 yards per contest and North Vermilion was giving up 372.

The Tarpons have one of the top running backs in the district as Brandon Conner is averaging over 80 yards per game. The North vermilion team's top running back is Kevin Gilliam with over 50 yards per game.

The North Vermilion passer Darrell Mayard, has thrown for 323 yards through four games and his passes have been shared by a a number of receivers.

The game on paper looks like it will be all South Cameron, but let's get a good crowd out for the district opener.

Last year the Tarpons opened district with a 34-6 win over North Vermilion. In last year's game, the Tarpons jumped out to

# Iota is tops in district

DISTRICT 6AA

| | W | L |
|---|---|---|
| Iota | 5 | 0 |
| Notre Dame | 4 | 1 |
| Lake Arthur | 3 | 2 |
| South Cameron | 2 | 2 |
| Welsh | 2 | 2 |
| North Vermilion | 1 | 4 |

Games last week: Iota 40, Opelousas Catholic 6; Teurlings 30, Notre Dame 20; Lake Arthur 20, Riverside 16; North Vermilion 12, Gueydan 9. Welsh idle.

Games this week: Welsh at Iota, Notre Dame at Lake Arthur, North Vermilion at South Cameron.

The district race kicks off this week as all 6AA teams are matched with each other.

The Tarpons take on North Vermilion at home. The favorite to win the district, Notre Dame, is on the road at Lake Arthur, and Welsh travels to undefeated Iota.

The league compiled a 17-11 record in pre-district games.

They have two teams ranked lin the latest prep poll by the La. sports writers, Notre Dame at 4th place and Iota is 10th.

The Lake Charles American Press coaches poll, which came out in the football edition, had the teams ranked in district as follows: Notre Dame, 25 points; South Cameron, 20; Welsh, 18; Lake Arthur, 11; Iota, 11; North Vermilion, 5.

Now that the pre-district part of the schedule is over, it looks like the Bulldogs of Iota and the Pioneers of Notre Dame are the district favorites, with the Tarpons, Greyhounds and Tigers in the role of underdogs.

## L. C. Press prep poll

In the latest Lake Charles American Press poll of area teams, the South Cameron Tarpons are in 8th place. The small school poll is led by District 6AA Iota and Welsh, also of District 6, is in 7th place.

SMALL SCHOOLS

1. Iota, 5-0
2. Basile, 4-1
3. Pickering, 4-1
4. Elton, 4-1
5. DeQuincy, 3-2
6. St. Louis, 4-1
7. Welsh, 2-2
8. South Cameron, 2-2
9. Lake ARthur, 3-2
10. Merryville, 3-2.

## Parish lunch menus are told

Cameron Parish school lunch menus for Mon., Oct. 14 thru Fri., Oct. 18, are as follows:

Mon., Oct. 14 - cheeseburger, oven fries, lettuce cup, applesauce crunch.

Tues., Oct. 15 - taco salad, fixings cup, baked potato, refried beans, yellow cake with icing.

We., Oct. 16 - spaghetti, buttered corn, pineapple cake, garlic bread.

Thurs., Oct. 17 - oven fried chicken, mashed potatoes, green beans, fresh fruit cup, biscuits.

Fri., Oct. 18 - beef finger steaks, country gravy, cheese potato casserole, ranch style beans, Jello with fruit, rolls.

Milk is served with each meal.

a 14-6 half time lead and outscored North Vermilion 20-0 in the second half.

Derinda Morris

## Program is presented

Featured at the September meeting of the Creole Homemakers Club, held in the home of Mayola Wicke and hosted by Teen Wicke, was a video presentation given by Derinda Morris on the new "South Cameron Memorial Hospital Wellness Program". Morris serves as Health Care Outreach Coordinator of the program while Cathy L. Denison-Wicke, Ph.D, is the director.

Morris first gave the definition of "Wellness" as it pertains to the program, and then went on to outline the nine things that a person should do to stay healthy and maintain wellness. Of the many videos available for showing in the program, she selected the one on diabetes.

## Football set Sunday

The Elementary School Football Scrimmage, which was cancelled lst week due to weather conditions, has been rescheduled for the Cameron, Creole and Grand Chenier schools.

It will be held Sun., Oct. 13, at 1 p.m. at the South Cameron High School football field.

## 55 Alive Driving

A 55 Alive Mature Driving classroom refresher course for persons 55 and over is being offered by the Cameron Council on Aging. The course requires attendance of 12 participants or more. Cost is $8 per person. For more information or to register call 775-5668 or 775-5014 before Oct. 25.

## Joe's Picks

Last week the crystal ball was 12-6 bringing my year to date record to 69-32.

This week I see: St. Louis over Vinton; Kinder over Rosepine; South Beauregard over Sacred Heart; DeQuincy over Pickering; South Cameron over North Vermilion; Iota over Welsh; Notre Dame over Lake Arthur.

Florida over LSU; Grambling over Miss. Valley State; USL over Arkansas State; Troy State over McNeese; Arkansas over La. Tech; Northwestern over Nicholls State; Louisville over Tulane.

# Tarpons lose 2nd game last Friday

By JOE MUELLER

The South Cameron Tarpons suffered their second loss of the season last Friday night as the St. Louis Saints eked out a 3-0 win at Tarpon Stadium.

The game featured defense from both teams. The Saints garnered 154 yards of total offense while the Tarpons could only move the ball 127 yards.

The only scoring in the game came in the final quarter with 7:42 left on the clock.

The Saints took a South Cameron punt and returned it to the Saint 28. From the 28 the Saints drove down to the Tarpon 8 and then on third down the Tarpons threw them for a loss back to the 14 so on the next play, senior Charles Haftman kicked the field goal.

The Tarpons drove down to the Saints 23 in the second quarter but a holding penalty on third down drove them back.

The Saints had other opportunities to score as they moved down to the Tarpon half yard line and were held on fourth down.

The Saints had missed a 27 yard field goal in the first half.

The Tarpons top rusher for the game was Brandon Conner with 42 yards on 15 carries, Cory Broussard netted 25 yards on 10 carries.

The Tarpon passing attached netted 37 yards as John Pradia hit 4 of 8 passes. Brent Morales caught two passes and Scotty Brown and Scott Suratt, one each.

The game had a total of 11 punts, six by the Tarpons and five by the Saints.

The Tarpons also had three fumbles losing all three while St. Louis fumbled four times but only lost one.

Both teams will be in district wars next week. The Saints play at Vinton while South Cameron entertains North Vermilion in their opening District 6AA game.

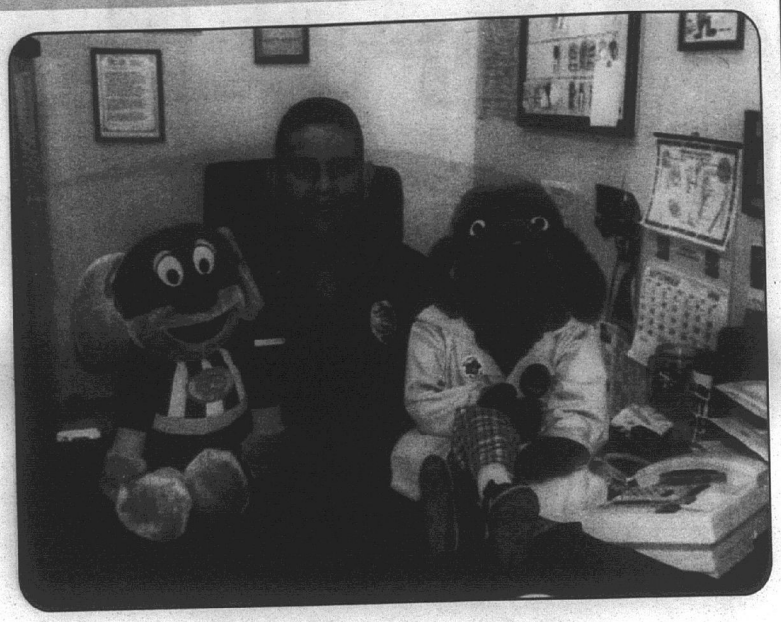
CAL-CAM FAIR
1996
Supplement to the
Southwest Daily News

# Johnson named parade marshal

The Calcasieu-Cameron Fair will be held Oct. 15-20 with the theme being "Fiesta Frenzy." The annual parade will be held on Saturday, Oct. 19 with the starting time being at 1 p.m. and a line-up time being at 12:30 p.m. The parade will begin at Logan Street and proceed down Ruth/Huntington Street and will disband at the Sulphur City Hall.



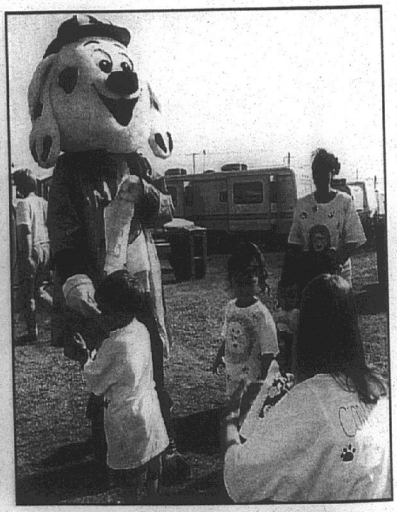
There will be a $25 entry fee to enter the Calcasieu-Cameron Fair Parade. You may enter by sending in the $25 entry fee along with the name of your organization, address, contact person and telephone number. You may contact the Cal-Cam Fair Office at 527-9371 for further details.

The Calcasieu-Cameron Fair Association would like to announce the 1996 Parade Marshal. The Parade Marshal will be Keith "Taco" Johnson.

Taco is a 16 year veteran with the Sulphur Police Department. He has recently been ranked as Sergeant of the Police Department. Taco is married to the former Sheila McClelland; they have one daughter Ashley.

Taco is the Public Relations Officer and enjoys visiting schools and teaching the children all about safety. When asked how he got the name "Taco," he stated "When he first joined the Police Department Chief Andrus could not remember his name while talking to him on the radio. "So he called me 'Taco' and it stuck to me like glue." One hundred percent pure Mexican, Taco believes that Sulphur is the best place to live, simply because the people of Sulphur are so friendly.

In his spare time, Taco enjoys coaching girls' softball and basketball. He is very proud of the fact that he has won State Championship in each sport. Taco's goal is to one day follow in his dad's "Algia Johnson" footsteps and manage the Cal-Cam Fair. He, like his dad, enjoys watching people have fun and be in a good family environment.



*Keith "Taco" Johnson will serve as Parade Marshal.*

Taco especially loves working with children and would like everyone to remember his logo: "The children of today are the future of tomorrow, just like we were the future of yesterday." *Hasta luego* and have fun at the fair.

### Tiny Tot Contest

The Tiny Tot contest will be held on Friday, Oct. 18 at 7 p.m. on the Fair Stage at the Fairgrounds. Rehearsal will be held on Sunday, Oct. 13 from 1 to 3 p.m. Child must attend rehearsal to be in the Pageant. All entrants must be a resident of Calcasieu or Cameron Parish. No exceptions! Pictured are the 1995 winners: Second alternate, Jessica Slawson of Sulphur; First alternate, Kara Rainwater of DeQuincy; Tiny Tot Cal-Cam Queen, Shannon Berry of Sulphur; Tiny Tot Cal-Cam King, Jacob Poole of Hackberry; First alternate, Nicolas Tramonte of Sulphur and Second alternate, Gregory Richard of Lake Charles.

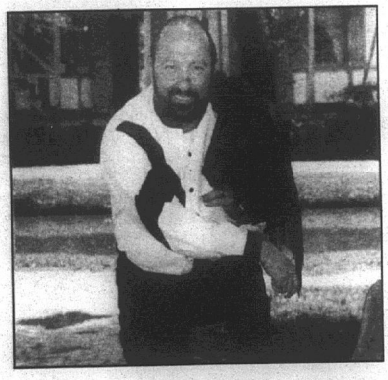
**Six Class:** Trophy.

Best of breeds, (four class and six class) will compete for the "Best of Show" Trophy.

# *Begnaud to perform*

Ralph Begnaud is from South Louisiana "Cajun Country" and so is his humor. His stories are not only uproarishly funny, they are deeply rooted in the traditional humor and everyday life of South Louisiana. Ralph gives audiences an opportunity to see Cajun culture through tears of laughter reflected in his wonderful zany mirror. This guy is seriously funny.

Ralph has performed in many comedy clubs across the country, and has done several one man comedy concerts to sellout audiences throughout southern Louisiana and has just returned from an extended engagement in Branson, Missouri where he entertained thousands of tourist and performed in some of the local "after hour" venues there.



He just recently opened for Jeff "Redneck" Foxworthy, Carrot Top, Mike Winslow, (the officer in Police Academy who does all those sound effects), Ritch Sheidner, just name a few headliners in which direction he is headed.

Ralph has just released his second video "Keeyaw" which followed his very successful "Red Tanny Shoe Tour" video. He has two comedy audio cassettes and has just released a new musical CD named "Ralph Begnaud Can Sing." He won the first "International Cajun Joke Telling Contest" then was named the runner up for "Showtimes Funniest Man U.S.A. Contest."

Born and raised in Lafayette he speaks Cajun French fluently, and says he represents the Acadian culture in a positive manner.

Ralph says, "Please come out to the show, looking forward to meeting you and "Lez Le Bon Temps Roulee!

Begnaud will perform at 6:30 p.m. on Oct. 19 on the Main Stage at the Cal-Cam

# Special events scheduled for contestants

**1995 Junior Cal-Cam Fair Pageant winners**

Kimberly Young of Barbe High, Second Alternate; Courtney Nicole Conner of South Cameron High, Queen; Mandy Lee Broussard of Grand Lake High, First Alternate and Mica Fabacher of Westlake High, Personality Plus.

**1995 Senior Cal-Cam Fair Pageant winners**

Lori Bankens of Westlake High, Personality Plus; Cheri Gray of Hackberry High, Fourth Alternate; Jennifer Guidroz of Barbe High, Second Alternate; Tammie Hildebrand of Sam Houston High, Queen; Summer Hicks of Hackberry High, First Alternate and Keysha Alexander of Barbe High, Third Alternate.

Contestants for the Junior and Senior Calcasieu Cameron Fair Queen Pageants will attend a number of special events during fair week. Their attendance is mandatory for competition.

1996 Pageant Director is Fran Richard. Richard has worked with the pageants at Cal Cam Fair for approximately 15 years. She also serves on the Board of Directors of the Cal Cam Fair Association. She will further instruct the contests during the rehearsal on Saturday, Oct. 12. For further information, contact Fair Office and speak with Fran Richard or Sheila Rather secretary at 527-9371.

Junior Queen Contestants will have their rehearsal will have their rehearsal from 1 until 3 p.m. only, and senior queen contestants will have rehearsal from 10 a.m. until 12 p.m only. Parents are not to accompany contestants, and dress is very casual. No judging will take place at this time, but pageant contestants are required to attend rehearsal. Contestant numbers will be assigned at rehearsal. Photographer Wayne Daigle will attend rehearsal to take photograph orders.

Contestants will join the Fair Parade line up at 12:30 p.m, Saturday, Oct. 19. Pre-entry is required for the parade. Contestants will receive by mail confirmation of their parade entry and a map noting their position in the line-up during the week prior to the parade.

Each girl must provide the vehicle she plans to ride in during the parade. Two contestants representing the same school may ride together if they choose, and should send only one parade entry form. The parade deadline is Wednesday, Oct. 9.

A poster will be displayed on each side of the vehicle. It must state the name, junior or senior contestant, and school represented by the contestant riding in that vehicle. The theme for this year's parade is "Fiesta Frenzy." For more information, contact the fair office at 527-9371.

On Tuesday, Oct. 19 the Senior Tea will be held at 3 p.m. on the second floor of the Mid-City Calcasieu Marine National Bank, 1300 Ruth Street, Sulphur.

Only senior contestants may attend, and parents are asked not to accompany the girls during the tea.

Daytime dress is required (pant suits and slacks are prohibited), and each contestant should bring with her the formal dress she will take to the fairgrounds following the tea. Dressing rooms are provided at the fairgrounds for contestants.

Parents are not to accompany senior contestants to the tea, and may pick up contestants only at their stated times which will be given to them at rehearsal. Parking passes will be given to the contestants at the tea.

The Senior Miss Calcasieu Cameron Fair Queen Pageant begins at 7 p.m. on the fair stage.

The Junior Tea, for Junior Calcasieu Cameron Queen contestants only, will be held at 3 p.m. Wednesday, Oct. 16 on the second floor of the Mid-City Calcasieu marine National Bank, 1300 Ruth Street, Sulphur. Pickup time for the junior queen contestants will be at 5 p.m.

Only Junior contestants are to attend, and parents may not accompany the girls.

Contestants are urged to arrive on time, as interviews and judging will take place during the tea.

Daytime dress is required (pant suits and slacks are prohibited), and each contestant should bring with her the formal dress she will take to the fairgrounds following the tea.

At rehearsal, you will be given your time of departure so that your parents may pick you up and bring you to the fairgrounds.

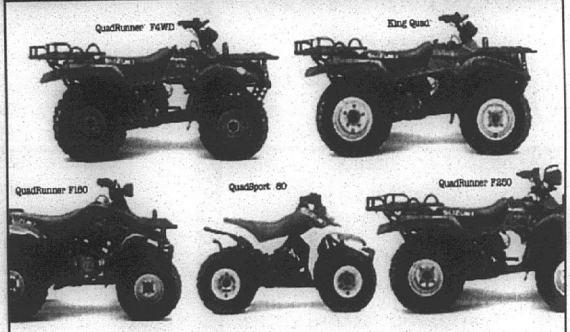
# Come out to see a sneak preview of 'Charlie and the Chocolate Factory'

*Members of the Children's Theatre are shown in action.*

The Calcasieu-Cameron Fair Association is proud to welcome The Children's Theatre Company back for their 9th consecutive appearance preshow for the Senior Pageant. Come give your sweet tooth a workout as good-hearted Charlie and his curious friends tease your taste buds as they take to the Cal-Cam stage on Tuesday, Oct. 15 at 6 p.m. with a sneak preview of their December chocolate-candy fantasy Charlie and the Chocolate Factory. Join Charlie and his curious friends in their adventurous tour of Willy Wonka's world-famous Chocolate Factory brought to life in a thrilling musical adaptation as only the Kids of Scenes can do.

The CTC is housed at 2842 B Ryan Street (in the Southgate Mall) Lake Charles. The only theatre to offer year-round classes exclusively for young people five years to college age, The CTC continues to remain the flagship in producing innovative theatre programming for the beginning to the professional young actor. All facets of the theatre are taught including creative movement, voice, stage presence, pantomime, characterizations, improvisations, speaking techniques, scene study and musical theatre. Actors experience first hand the many realms of adult theatre, as well as children's theatre, through performing, not only locally, but touring professionally across the country with any of the several of The CTC's touring shows. Shakespeare, pantomime, Broadway — all are brought together in one venue to give the actor the total theatre experience — only available at the studios of The CTC. Classes are taught by Artistic Director, Kerry Onxley, known for his progressive ideas in children's theatre, and more importantly, theatre education for young peoples of all ages.



So be sure to catch this energetic cast of young actors as they bring Ronald Dahl's scrumptious children's classic to the stage of the Cal-Cam Fair. For more information on The CTC's performances and projects for this season contact the Theatre Director at 433-7323.

## *The Fabulous Boogie Kings will be live on stage*

**Come out and listen to original '50's and '60's Rock-N-Roll and Rhythm-N-Blues performed live on October 19 from 7:30-10:30 p.m. at the Cal-Cam Fair. The Fabulous Boogie Kings are celebrating their 40th anniversary in show business. They have been a sell-out act since they started in 1956. "Their precision arrangements combined with an electrifying horn section and outstanding vocalists, driven by an outstanding rhythm section make the Boogie Kings one of the most exciting acts ever to grace a rock n' roll stage." The 1996 members of the Fabulous Boogie Kings are Ned Theall, Jon Smith, Willie Tee, Pat Strazza, Jamie Dea, Harry Ravain, Robert Wilson, Tommy Richard and Rick Allen.**

The Suzuki QuadSport 80 may be used only by those aged 12 and older. Adults must always supervise riders under the age of 16. All other Suzuki ATVs may be used only by those aged 16 and older. Suzuki highly recommends that all ATV riders take a training course. We'll even pay for it. For safety and training course information, see your dealer or call the SVIA at 1-800-852-5344. ATVs can be hazardous to operate. For your safety, always wear a helmet, eye protection and protective clothing. Never ride on paved surfaces or public roads. Never carry passengers or engage in stunt riding. Riding and alcohol or other drugs don't mix. Avoid excessive speeds. Be extra careful on difficult terrain. Along with concerned conservationists everywhere, Suzuki urges you to "TREAD LIGHTLY" on public and private land. Preserve your future riding opportunities by showing respect for the environment, local laws, and the rights of others when you ride.

# Barbe High show choir slated to appear

On Oct. 17, the Barbe High School Show Choir will be performing at the Cal-Cam Fair. The Show Choir consists of six singers selected from the advanced chorus and a band of five instrumentalists auditioned and selected by the director. The singers for the 1996-97 school year are as follows: Daniel Simmons (12), Elia Nichols (12), Knic Knippers (11), Sara Gregg (11), Cory Johnson (10), and Amber Guillory (9). The band members are: Dan Robertson (10) on drums, Brett Stutes (10) on bass guitar, Adrienne Stratton (11) on keyboard, and Lee Zimmerman (11) and Ben Monlezun (10) on guitar. Mike Alker (12), Jared Faul (11) and Ben Cating (11) make up the sound crew, which is also selected by the director.

The group learns popular styles of music such as pop, classic rock, and alternative, which is chosen at the director's discretion. All music is learned by ear and performed at various school functions and festivals like the Cal-Cam Fair. The Show Choir is directed by Chris Miller, who also directs the Barbe Chorus. So come and join the Barbe Show Choir for a great night of rock 'n roll on Oct. 17, at the Cal-Cam Fair. If you have questions, please feel free to call Miller in the chorus room at 474-1936.

# Prepare to be amazed

Abracadabra Entertainment is a group of performers, all being members of the International Brotherhood of Magicians Ring No. 68, located in Lake Charles. In the group is a variety of different styles of entertainment, mainly magic, clowning and balloon art. All members have performed for large and small groups, ranging from children's birthday parties to large corporate events and banquets.

This year, Abracadabra Entertainment has been asked to perform at the Cal-Cam Fair.

There will be a performance every day that the fair is open, with stage shows on Friday and Saturday night (October 18 and 19). The rest of the performances will be close-up magic and balloon sculpturing. All of the magic performed will be aimed toward children. Of course adults are more than welcome to attend, if they behave.

# Exhibitors celebrate 'Fiesta Frenzy' at fair

# Better baby contest held

*Jana Bayard and Leslie Berry were pictured with Morgan Johnson, one of the Better Baby Contestants.*

The Better Baby Contest is one of the oldest contests held at the fair. The Better Baby Contest will celebrate its 59th year this year. The contest is for healthy babies. This is not a beauty pageant. The children are judged on health by qualified nurses who use weight and growth charts in their judging.

There are two age divisions in the Better Baby Contest. The first division is for children ages three months to 12 months, and the second division is for children ages 12 months one day through twenty four months of age. The child cannot have reached his/her second birthday by the day of the contest. There are five winners in each division for a total of 10 winners. The winners receive trophies that are presented to them on the Cal Cam Fair Stage at 5 p.m. Tuesday, Oct. 15.

There is no fee to enter this contest and the children should be dressed comfortably because the nurses undress the children when judging them to examine the children's eyes, ears, nose, throat and extremities. No parents will be allowed to be present while the nurses are checking the children. Winners are notified by telephone the afternoon after the contest is held. The Better Baby Contest was held on Oct. 6 at the Calcasieu Health Unit of Sulphur located at 201 Edger Street.

# Come out to view the fair exhibits

There is no charge to enter an exhibit at the Calcasieu Cameron Fair. All types of handcrafted, baked, and home grown articles can be entered. The exhibits will be judged on Sunday, Oct. 13. The public is not allowed in the exhibit area for viewing. At this time, the gates are dropped in front of the exhibits so no harm will come to the exhibits.

The exhibits stay at the Calcasieu Cameron Fairgrounds until Monday, Oct. 21. Premium checks are typed and mailed out in three — four weeks following the fair. For additional information concerning the general exhibits, please call the Calcasieu Cameron Fair Office at 527-9371.

# Booth space available

The Calcasieu Cameron Fair has a large commercial exhibits building located on the fairgrounds. There are approximately 35 booth spaces available in this large building.

The spaces are 10 foot x 10 foot, and electrical hookups are available for each booth. The cost for the electricity is included in the price of the booth.

All types of businesses take advantage of these spaces as they are an excellent way to advertise products and/or services during the week of the fair.

For additional information and availability on these booths or on space on the independent midway, please call Margarette Johnson, Exhibits Chairman, at 528-2693 or the Cal-Cam Fair office at 527-9371.

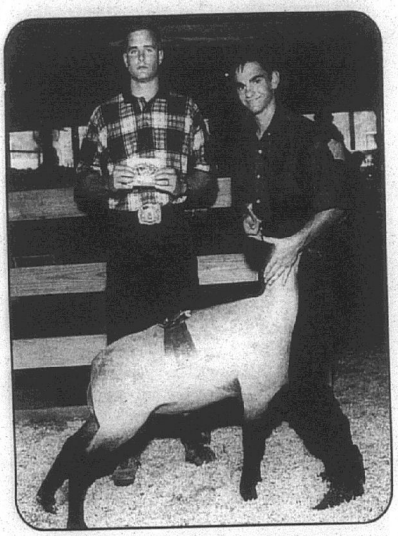
### Dean Darling to play

Dean Darling and the Wanderers, a premier show and dance band, will perform at the Cal-Cam Fair on Sunday, October 20 at 2:30 p.m. and 3:30 p.m.



## 'Kids Korner' planned

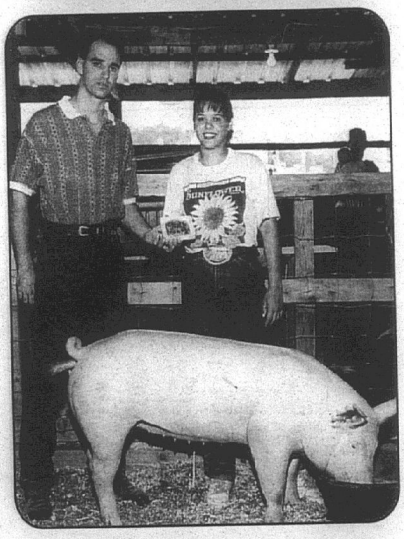
The Calcasieu-Cameron Fair Association is pleased to announce that there will be a section marked off this year for "Kids Korner." We have added a second stage this year sponsored by Louisiana Radio Communications, Inc. The stage will be located on the south side of the General Exhibit Building in a well lit area with bleachers to sit down and enjoy the shows.

Cal-Cam Fair would like to invite any group, organization or gospel groups, to please contact the Cal-Cam Fair Office at 527-9371. We would like to encourage the groups to sign up as soon as possible if interested in performing on the "Louisiana Radio Communications Stage." We would also like to invite any church or youth organization who perform "Puppet Shows" to please contact us.

All entertainment is presented at no cost to the public.

*A fair representative presented Andre Brasseaux with a belt buckle for winning Grand Champion with his lamb in 1995.*

## Scholarships given



Since 1970, there have been 37 livestock scholarships given to various youth in Calcasieu and Cameron Parishes.

The Grand Champion Sheep, Grand Champion Beef Showman and Grand Champion Hog will receive a $400 scholarship. These will be awarded at approximately 4 p.m. on Saturday, Oct. 19 at the Livestock Barn at the Calcasieu Cameron Fairgrounds.

There will be approximately $3,000 in premiums and awards presented to the winners of the various departments in the Livestock Show.

We will be hosting the Calcasieu Cameron Fair Jackpot Show again this year. Eight belt buckles will be given by the Calcasieu Cameron Fair Association to the winners in each of these divisions. Market Lambs, Market and Prospect Steers and Market Hogs will be competing in their divisions for money and prizes.

New to the Livestock Show for 1996 will be a Goat Show. For further information, call the Cal-Cam Fair Office at 527-9371.

*A fair representative presented Angie Gibson with a belt buckle for winning Grand Champion with her market hog in 1995.*

## Special visitors day to be held

Special visitors day at the fair will be held from 9 a.m. through 1 p.m. Wednesday, Oct. 16. Elderly persons, handicapped and retarded citizens can see exhibits and enjoy the festivities while the fairgrounds are closed to the general public.

The purpose of the day is to allow the special visitors to enjoy the fair without any harm coming to them from the normal hustle and bustle of the crowds during the regular operation of the fair.

The Calcasieu-Cameron Fair along with the Mitchell Brothers Show will have their kiddie rides open during this time.

The Calcasieu-Cameron Fair Association would like to announce that food will no longer be provided. There are too many different types of diets for the elderly and retarded citizens, therefore you are asked to bring a brown sack lunch and drink.

## Fairgrounds available

The Calcasieu-Cameron Fairgrounds, located in North Sulphur on the Old DeQuincy Highway (La. 27), is an excellent location for nearly any event. The setting and accommodations are ideal for anything from a festival or company picnic to a small barbecue or family reunion.

The covered open air auditorium has a stage, concrete floor, benches and bleachers, capable of seating as many as 1600 people.

If the weather is not cooperating on the scheduled day of an event, the commercial building is also available. The facility is 120 feet by 60 feet, with a concrete floor and heaters during the winter months.

The fairgrounds covers approximately 19 acres. Portable facilities may be brought in for an event.

A deposit is required for the cleanup of the ground. Rental fees vary with the amount of space required, whether parking lot lights are to be used, etc.

For information, please call The Calcasieu Cameron Fair Office at 527-9371.

# Boys and Girls Village enjoy fair

On Sunday, Oct. 20 the Mitchell Brothers Shows, along with the Calcasieu Cameron Fair Association will offer to Boys and Girls Village residents the opportunity to enjoy the midway rides at the Calcasieu Cameron Fair.

Bracelets from the Mitchell Brothers Show will be given to the residents that will entitle them to unlimited rides during the day.

This will be the 9th year that the residents of Girls Village will be able to take advantage of this offer.

The 1995 Fair brought out a total of 65 residents of Boys and Girls Village.

## CALCASIEU CAMERON FAIR OFFERS BOOTH SPACE

The Calcasieu Cameron Fair Has A Large Commecial Exhibits Building Located On The Fairgrounds

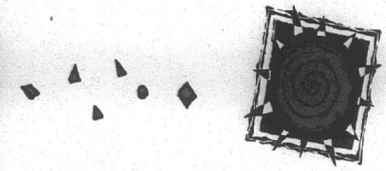
There are approximately 35 booth spaces available in this large building.

The spaces are 10'x10' and are draped for the Fair with colored red drapes.

Electrical hookups are available for each booth and the cost for the electricity is included in the price of the booth.

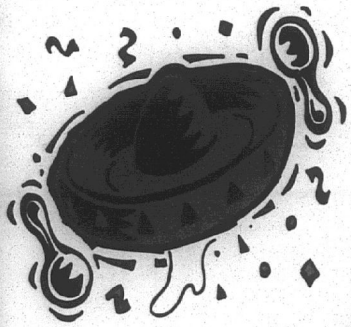
All types of businesses take advantage of these spaces and they are an excellent way to advertise producers and/or services during the week of the Fair.

In 1995 there were approximately 95,000 people attending the Calcasieu-Cameron Fair.



These commercial building booths will be very attractive for political candidates because of the extremely high traffic of people during the Fair.

Political candidates are welcome to rent a booth in the Commercial exhibit building or to rent space on our Independent Midway (outside) during the Fair. Candidates are asked to stay inside their rented booths to distribute their literature in accordance with contract policies of the Calcasieu-Cameron Fair.



For additional information and availability on these booths or on space on the independent midway, please call

# Do[illegible] Remember?

By Keith Hambrick

**(Abbeville Meridional Oct. 21, 1916)**
**LAKESIDE LACONICS**

We are still having fine weather for the rice farmers and they are sure making full time, even to working Sundays.

Our school commenced on time and has had a good attendance so far. Weather and roads are good and the children can attend so far. But what we are looking for now is properly located schools and then compulsory attendance at those schools.

Cesaire Broussard made a tour of inspection all around this section this week. Some people say he contemplates putting all Lakeside into rice next year.

Arthur Miller had the misfortune to be bitten by a moccasin last Tuesday. He is doing as well as could be expected.

Pomeroy Bros. have finished cutting their crop and as usual have the finest crop around this section. Some Blue Rose standing five feet high.

Alcee Broussard has finished his threshing and reports a good yield. Deluke Hebert, working Cesaire Broussard's land, gets busy on his crop today.

**(Cameron Pilot Oct. 17, 1963)**
**THREE NEW STORES IN CAMERON**

Three new business establishments were opened, or scheduled to open, in Cameron this week--a new paint store, ship chandlers and grocery store, and a meat market.

The paint store is the State Paint Discount Center, which will open Saturday in the new two-story Lalande building on Front Street and the courthouse square.

Owners and operators will be Mr. and Mrs. Jack Clift. The store will be open from 8 a.m. to 6 p.m. Monday through Saturday and will handle a complete line of paints, plumbing and heating supplies and hardware.

Mr. Clift is in his fourth year as a sixth grade teacher at the Cameron Elementary School. Mrs. Clift will operate the store during the school hours, with Mr. Clift assisting after school.

Opening earlier this week was the F & F Ship Chandlers and Food Store, which is located directly across from the Calcasieu Marine Bank.

F. C. Faries, owner, said the new store would have a curb market type operation but would also feature supermarket prices. It will carry a complete line of groceries, produce and meats.

The firm will also be in the chandler business, serving offshore oil rigs, boats, tugs, shrimp boats, etc.

Mr. Faries was formerly associated with the Cameron Food Mart for three and a half years. Prior to that he operated stores in Beaumont, Port Arthur and Groves, Texas.

The other "F" in the store's name stands for his son, F. C. Faries, Jr., who is studying to be a veterinarian at Texas A & M. An employee in the store will be Mrs. Lee Anna Vincent, cashier and bookkeeper.

Also slated to open sometime this week is a new meat market owned by Hulin Jouett and Bobby Guidry. Formerly located at their slaughter house between Cameron and Creole, the market has been moved into the building in Cameron formerly used as a bakery.

**THIS WEEK**
**(By Jerry Wise)**

Here's some good news for the men and boys in this area--haircuts are still $1.50 in Cameron. Haircuts went up to $1.75 in Lake Charles last week, but Pat and Ophie Mire, local barbers, say their price will remain at the old price--$1.50.

J. B. Jones is getting quite a reputation as a judge of beauties--he was a judge at the Port Arthur CavOILcade queen contest and will be a beauty judge at the Jeff Davis Parish Fair. Nice work if you can get it.

Cecil Sanner of Hackberry is one of 71 McNeese State College students named as pledges of the college's four social fraternities. Cecil has been pledged to Delta Theta Chi.

**BAND PARENTS MEET**

The South Cameron High School Band Parents Club held its first meeting of the new term Monday in the band room. Also present was the band director, Miss Wanda Hoffpauir.

Ellis McWhirter was elected secretary. Other officers will be elected later. Telephone committee members named were Mesdames Whitney Baccigalopi and Ernest Richard, Grand Chenier, David Warren, Wilma Saltzman and Joseph Roberts, Cameron, Woodrow Bertrand and Fredman Theriot, Creole.

**6-MAN GRID PLAYERS**

South Cameron High School's annual homecoming will be held Friday, Oct. 25, when the Tarpons will play Kinder. To be honored at homecoming this year will be the former students of Creole and Grand Chenier high schools who played six-man football during the years 1952-1956. Thee were approximately 34 players from Creole and 26 from Grand Chenier.

**POGY BOAT VOTE**

Union elections are to be held by the National Labor Relations Board on eight pogy boats fishing for the Louisiana Menhaden Co. in Cameron Friday, Oct. 18.

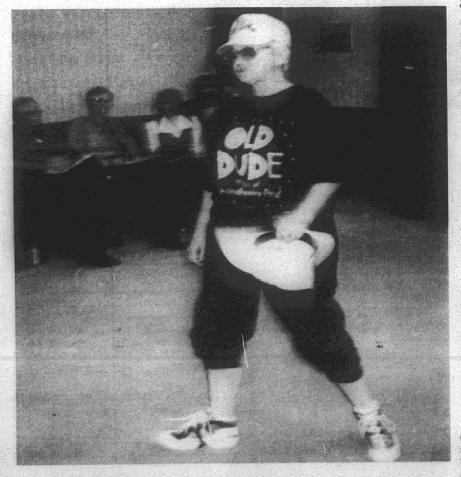
About 140 men will vote by secret ballot on being represented for collective bargaining purposes by Fishermen's Union Local 300, Amalgamated Meat Cutters and Butcher Workmen of N. A., AFL-CIO, according to Harry L. Mitchell, union representative.

All men who were working on the eight fishing boats as of August 31 will be eligible to vote, except the captains, the mates and the chief engineers. Pilots, cooks and.fishermen are to vote. The elections in Cameron will be on a boat by boat basis. If the union gets a majority on a boat, it will represent all the men on the boat.

**ROUNDABOUT THE PARISH**

Hackberry--Four Hackberry High School girls are competing this week in contests at the Calcasieu-Cameron Fair in Sulphur. Pamela Riggs and Adele Hebert are in the fair's queen contest and Faby Marie Smith and Jeanie Devall are in the junior queen competitions.

Creole--Taking their first airplane ride last Friday were Mrs. Alma Rome and daughter, Clarisse, who flew in a private plane piloted by cousin Frederick Nunez, to Lafayette where they picked up another of Mrs. Rome's daughters, Carolyn, for the return trip to Lake Charles. Carolyn, who is a freshman at USL, came home for the weekend.



Out Rt. 1 Cameron Way--Mrs. Oliver LeBouef of Lake Charles is spending a few days with Mr. and Mrs. Mayo Savoie and Mr. and Mrs. Clarence Guidry and Mrs. Arceneau LeBouef. Mr. and Mrs. Dudley Trahan and John of New Iberia spent Monday and Tuesday with them.

Black News--Principal R. S. Guice has announced the following honor roll students at the Audrey Memorial School for the first six weeks: Joan Frank, Lula Marie LeBlanc, Carlton Bishop, Julia Noel, Rudolph Bartie, Jr., Roderick Williams, Diane D. Bishop, Cheryl LaSalle, Mary Ruth Andrews, Eve Marie LeBlanc, Carolyn Ann Bargeman and Mary Ellen Godette.

Holly Beach--The beach had a surprising number of visitors over the weekend, considering this is usually the dull season. There are still many shrimpers and most are satisfied with their catch. Herds of cattle on the highways, driven by natural instinct to seek refuge from mosquitoes, have caused wrecks in the past two weeks. Night driving motorists say it takes almost two hours to travel the twenty miles between Hackberry and Holly Beach.

Grand Chenier--Fall hay cutting was really in full swing here this past week. Loads and more loads of hay could be seen being brought to barns for storage. Farmers took advantage of the wonderful harvesting weather. An old time hay baling took place at Jeff Nunez's farm last Saturday. Billy Doland and Lionel Theriot put up 1852 bales of hay. Others baling hay over the weekend were Carl McCall, Dennis Bonsall and Hubert Sturlese.

Grand Lake-Sweetlake--The HD Club members undertook a light bulb sale Oct. 11. The project was sponsored by the Lions Club.

ANNA BOUDREAUX, a retired teacher who donates her time to teach music at Cameron Elementary School, presented a musical program at the Cameron Parish School Board meeting. (Photo by Geneva Griffith.)

## Commodities

The October distribution for commodities to senior citizens is set for Friday, Oct. 18, according to the Cameron Community Action Agency.

Distribution times will be 9 a.m. to 12 noon for Cameron and 9-11 a.m. for Grand Lake and Hackberry.

## Homecoming issue will be out Oct. 24

South Cameron High School Homecoming '96, a special issue of the Cameron Pilot, will be published on Thurs, Oct. 24.

The Tarpons will play the Lake Arthur Tigers for their Homecoming. The Pilot urges anyone who wishes to submit pictures of alumni or articles concerning events to do so prior to Mon., Oct. 21, 3 p.m.

Items can be dropped off at Clipper Office Supply, School Street, Cameron, or mailed to P.O. Box 995, DeQuincy, La. 70633-0995. The fax number is 318-786-3181.

If you wish to place an ad in this special issue, contact jeffra Wise DeViney, 1-800-256-7323 or 318-786-3181 for more information.

## *NO NEWS!!*

**NOTICE**

Geneva Griffith's news did not reach our office in time to publish this week. The articles and pictures will appear in next week's issue.

## Flu shots to be given

The Cameron Parish Health Unit will be giving flu shots at the following locations:

Cameron Parish Health Unit - Oct 24, 9 a.m. - 2 p.m. and every Thursday from 9 a.m. to 2 p.m. until vaccine runs out.

Hackberry Recreation Center -Oct. 21, 9:30 a.m. - 11:30 a.m.

Grand Lake Recreation Center - Oct. 29, 9 a. m.-11 a.m.

Johnson Bayou Recreation Center - Oct. 29, 9:30 a.m.-11:30 a.m.

## Absentee voting to be Oct. 24-29

Absentee voting for the Nov. 5 presidential election will be Thursday through Tuesday, Oct. 24 - 29, except Sunday. Hours are 8:15 a.m. to 4:15 p.m.

Absentee voting is in the office of the Registrar of Voters, bottom floor of the court house.

## Toll free number for bird banding

Waterfowl hunters and other participants will be happy to learn that the Bird Banding Laboratory now has a toll free telephone number to report the recovery of bird bands.

The Bird Banding Laboratory, which is a branch of the Fish and Wildlife Service, is located in Washington, D. C., and coordinates banding activities throughout the Americas.

The toll-free number is 1-800-327-BAND (i.e., 2263). All federal bird bands can be reported. Reports of private bands, pigeon bands or neck collars are discouraged. The number will work from anywhere in Canada, the United States and most part of the Caribbean.

## Cal-Cam talent show set 18th

The Calcasieu-Cameron Fair Association announced that an extension will be given for the first Calcasieu-Cameron Fair Amateur Talent Show. The deadline will be Fri., Oct. 18, 5 p.m. The reason for the extension is the newness of the show.

The talent show will be held Sun., Oct. 20, beginning at 3 p.m.

The age divisions for the solo division are: 2-4 years old; 5-7; 8-11; 12-14; 15-17; and 18 and older.

The age divisions for group division will be: 3-6 years old; 7-10; 11-14; 15-17; and 18 and older.

## Book sale to be held at McNeese

The McNeese Friends of the Library will hold its annual book sale Oct. 17-19 in Room C of Frazar Memorial Library at McNeese State University.

Hours are as follows: Thurs., Oct. 17, from noon to 9 p.m.; and Friday and Saturday, Oct. 18-19, from 9 a.m. to 5 p.m.

Thousands of books and magazines will be on sale at greatly reduced prices. Proceeds from the sale will help the MSU Library purchase necessary materials and sponsor special activities. For more information, call 475-5724 between 8 a.m. and 4 p.m.

Amy Cubbedge & Jessica Theriot — Ravon January

## Library tells winners of summer reading programs

The Cameron Parish Library presented awards to the winners of its 1996 summer reading program for which 299 children registered. Nine year old Ravon January, daughter of Deric and Anna January received a $25 gift certificate to Waldenbooks for reading 240 books.

In the read-to-me category, 6 year old Amy Cubbedge and 4 year old Jessica Theriot, daughters of Scott and Tina Cubbedge, received twin teddy bears for having had 529 books read to them.

## J. Bayou Homecoming to honor veterans

Johnson Bayou School will hold Homecoming activities Oct. 25. Veterans are invited to attend at 5 p.m. The National Anthem will be sung in their honor.

The school is also sponsoring an essay contest titled, "I Know A Veteran". Students from grades 4-12 are asked to interview a veteran and compose an essay about their conversation. Grades K-12 are also asked to participate in a patriotic drawing contest. Awards for 1-3 places will be given.

On Veteran's Day the library will hold an open house from 12-2 p.m. to display pictures of veterans, medals, newspaper clippings, essays and drawings. A list of all veterans in the community will also be displayed. Contact the school at 569-2139 if you know of any veteran so that no one's name is left out.

Any veteran who has served overseas who would like to share his/her experiences with the students is asked to contact the school.

## Motorcycle event to benefit charities

The 6th Annual Possum Cove Motorcycle Rally and Demolition Derby sponsored by Rat Pack Motorcycle Club will be held Fri. and Sat., oct. 18 and 19, at the Possum Cove Race Track in Moss Bluff.

This year's racing events will benefit Special Olympic programs. The gates will open at 9 a.m., offering food, live music, camping, children's pumpkin carving contest, motorcycle field games, racing events and poker run. Admission is $15 per person, children are free.

An important event held each year in conjunction with The Possum Cove Rally is the Fourth Annual Junior Dautriel Memorial Poker Run, co-sponsored by Jr.'s Cycle Shop of Sulphur and Rat Pack M.C. The event is held in memory of the late George Dautriel, Jr, owner of Jr.'s Cycle Shop of Sulphur and draws hundreds of motorcycles annually channeling everyone to the race track to watch all the excitement.

The poker run departs from Jr.'s Cycle Shop, 458 Stanford Street, Sulphur, at 11:30 a.m. On site registration being at 9 a.m. The ride stops at Bebop's Ice House, Sulphur; DeViney's Iron Horse Pub, DeQuincy; Bernie's, Moss Bluff; and ends at Possum Cove Race Track.

Entry fee is $15 per person which includes a weekend pass to Possum Cove. Engraves plaques will be awarded to the best poker hands in two divisions, in addition a cash award of $100 will be given to the best poker hand. This year's Poker Run will benefit The Wishing Well Project.

At Possum Cove Track, there will be a great line-up of motorcycle racing for dirt and street bikes, four and three wheelers and pro-motorcycle racing and demolition derby.

Possum Cove Race Track is located off Hwy. 171 North, turn at Hwy 378 East and follow the signs.

For racing or event information call 318-527-7319 or 318-855-2401.

## Refuge will close 15th

Sabine National Wildlife Refuge's interior fishing season will close at sunset on Oct. 15, and will remain closed throughout the winter to protect and maintain waterfowl concentrations in the area. All gates to the boat ramps wil be closed. No person should launch a boat during the closure except for a person possessing a valid refuge permit.

The West Cove Recreation Area's north boat ramp and canal will remain open only for boat access to the West Cove of the Calcasieu Lake.

The areas along the roadside canals adjacent to Highway 27 will remain open during the winter for fishing, crabbing and castnetting. The Marsh Nature Trail will remain open. Public use will be limited from sunrise to sunset except for a person possessing a valid refuge permit stating otherwise.

All boats left on the refuge must be removed by sunset on Oct. 15.

**(Abbeville Meridional, Oct. 4, 1913)**
**NEWS FOR TRAPPERS AND HUNTERS**

The Conservation Commission of Louisiana has served notice to all trappers and hunters, that the laws governing trapping and hunting of fur-bearing animals, duly declared sufficient by the Supreme Court, in State vs. Mortimer Morgan, will be strictly enforced this season, and all violators of the law, and those found trapping out of season and without a license will be vigorously prosecuted.

The traping season opens in November 1st and closes Jan. 21. No traps will be set previous to Nov. 1st, or after Jan. 31.

**HOMES TO GET NATURAL GAS**

Some 30 homes located along Highway 27 east of the town of Cameron will have natural gas before winter sets in as a result of a contract signed between the East Cameron Gas Co. and the United Gas Corp. this week.

The 2-inch line will start where the present gas line ends at the Rupert Doxey home and extend for three miles past the James Derouen home to the new Highland subdivision.

James Derouen, Dr. Cecil Clark and Jerry Jones signed the contract as agents for the homeowners.

**"MR. TRUMPY" TO RETIRE FROM JURY**

Cameron Parish's oldest police juror in length of service, Eraste Hebert of Sweet Lake, announced this week that he will retire at the end of his present tern next May. At that time he will have served seven four-year terms for a total of 28 years on the jury.

"Mr. Trumpy," as he is affectionately known to most everyone, said he was somewhat reluctant to step down from office, but decided to because of health reasons.

The Ward Four juror has been president of the police jury for the past 15 years, and last fall was one of the finalists in selection of the "outstanding police juror of the year" by the state police jury association.

Hebert was first elected to office in 1936, succeeding J. D. Demarets who retired at that time. Since that time he has been opposed only once for re-election that in 1959.

"Trumpy" was reared in the Sweet Lake community, and still lives in the old homestead built nearly a hundred years ago by his father, Eraste Hebert, Sr. The elder Mr. Hebert also served on the Cameron Police Jury in the early 1900's.

When the present juror took office in 1936, there was not a hard-surfaced road in the entire parish. He had to go to Cameron by way of Hackberry, where the first road spanning the marsh had been built. Today, every main state and parish road is either hard-surfaced or in the process of being hard-surfaced.

The courthouse was built during the time Mr. Hebert was a juror and many more parish and Ward Four improvements were built. "But don't give me credit for all those things," he says modestly.

When he was nominated for "outstanding juror" last year, he was particularly cited for "personal quality of leadership in 1957 through a period of extreme crisis when the task rested upon the police jury to assist in the restoration of the parish following Hurricane Audrey."

Mr. Hebert, who is a rice farmer and cattleman, is married to the former Mable Helms of Sweet Lake and is the father of four children. The Heberts have six grandchildren.

**ENGINEERS TO BUILD ROAD**

The U. S. Corps of Engineers is planning to build a road a half-mile long north from the end of the Louisiana Menhaden Road to the mouth of the old Calcasieu River, according to Jerry Jones, police jury secretary.

The road will serve a base being built for a dredge which will be used to dredge out the Calcasieu Ship Channel.

The 60-foot right-of-way for the road is being dedicated to the parish, with the agreement that the road will be built by the engineers and maintained by the parish.

The road could become a part of a proposed road, in the discussion stage for the past several years, that some people have suggested be built along the east bank of Calcasieu lake to connect with the Grand Lake road.

**ROUNDABOUT THE PARISH**

Route 1, Cameron -- After seven months and twelve days, the pleasure pier bridge has opened again, and it sure makes it nice for all of us who have relatives in Port Arthur, and who hasn't? I (Mrs. george Nunez) spent from Friday till Sunday over there with Mrs. James Austin.

Cameron -- G. B. Kornegay, Susan and Barney, the Jerry Jones' and Tony and Pat Cheramie made the Rice and LSU game in Houston Saturday.

Oak grove -- Shrimping in our area has been especially good for the last two weeks. Most shrimpers with small outboard motor boats have filled their deep freezers and are now selling the fresh shrimp as they come from the gulf. Many of the shrimp are of jumbo size.

Up and Down the Creole Ridges -- Autumn has been busy moving in on us bringing some wonderfully cool, crisp, invigorating weather and coloring the countryside in vivid hues of crimson, gold and brown. Take a little time out to look more closely at the scenery hereabouts and see if you don't agree that the crimson of the berries on the whitehall trees, the bright yellow of the goldenrods, and the leaves turning various shades of red and brown on so many of the trees makes autumn, next to spring, our loveliest of the seasons.

Johnson Bayou -- A surprise party was given in honor of Mr. Oran Trahan (better known as Uncle Oran) Friday, by the faculty and student council of the Johnson Bayou school. Mr. Trahan has been janitor at the school for the past 26 years. A cake decorated with 26 candles and a western style shirt was given Mr. Trahan while the students all sang, "For He's a Jolly Good Fellow."

Hackberry -- At the Hackberry Junior 4-H Club meeting this week, Clifford Myers welcomed the new club members. James Devall was elected parliamentarian. Cynthia Lowery, president, and Jeanie Devall, secretary, attended the executive meeting in Cameron.

Grand Lake -- The seventh grade of Grand Lake School elected officers Sept. 23. They are: president, Margaret Humphries; vice-president, David LeDoux; secretary, Martha Lannin; treasurer, Jackie Barber; librarian, Rebecca Faulk; reporter, Lucy Abshire; student council representative, Judy Granger; monitors, Jerry Chelette and Carolyn Gary.

Sweet Lake -- A demonstration on "Choosing Shoes Wisely" was given at the recent meeting of the HD Club. Mrs. W. H. Johnson, president, called the meeting to order and Mrs. Wilbert Hebert led the Club Collect. Project reports were given by Mesdames Dupre Guidry and C. H. Precht. Mrs. McKinley Broussard was elected treasurer to fill the unexpired term of Mrs. Tom Taylor who resigned.

Mrs. Clem Demarets,
Reporter

Black News -- A special feature of the 85th church anniversary Nov. 17, at the Ebenezer Church will be burning the mortgage. Volunteer contributions have been made to the church from several pogy boats.

## To All The People of Cameron Parish,

This is my 16th year of our annual report of the arrests and finances of the Cameron Parish Sheriff's Department. Each year the cost is greatly increasing. Our insurance is almost out of reason today because it costs so much when you go to the hospital. Our health insurance and liability insurance costs approximately $435,000.00 a year and our salaries cost approximately 1.5 million dollars.

These two expenses alone take up all the ad valorem tax that we receive. When you passed my 2 mill tax, I was hoping we would never have to use it, but without knowing the future, we have had to dip into our surplus to make ends meet. It cost us an additional $100,000 for unexpected hospital bills and we had another $100,000 in attorneys fees for ad valorem tax suits which are still pending and we don't know when we will know the results. Plus we had a lot of companies going bankrupt and others paying under protest. So that is the reason I had to use the 2 mill tax you voted for.

If you have any objections to the tax let me know. It's too late for this year, but if you object I cannot levy it next year and cut service and lay off deputies, which I don't think anyone wants to see less patrol deputies on the road. I know we are the highest taxed parish in the state per capita, but everything you do costs more money each month. To my knowledge, I have always spent your money for the good of law enforcement and to provide good service to our people.

You may have read in the paper how much it cost Jeff Davis and Oberlin to move and transfer their 911 system. According to the paper they had problems getting it into operation. This is an expense that didn't cost any more money than we had in our budget. I think this is one of the finest systems installed in the Parish, along with our computer system, because we can identify each home and location when the call comes in.

As you read over the following reports, if you have any suggestions or complaints, feel free to call me. I just hope that one day expenses will level off and stay at a reasonable rate so that every month it doesn't cost you 5 or 6 thousand dollars more than the last month.

So I thank you for being so generous all my years in office so we can continue to serve and protect you throughout the coming years.

SINCERELY,

Sono

# Crain reunion held at Little Pecan Island

Dark clouds, high tides and threatening rain didn't dampen the spirit of the Crains who gathered at Little Pecan Island on the weekend of Oct. 4-6. The grandchildren of Duncan Russell Crain (1870-1951) held a "Crain Cousins" family reunion there.

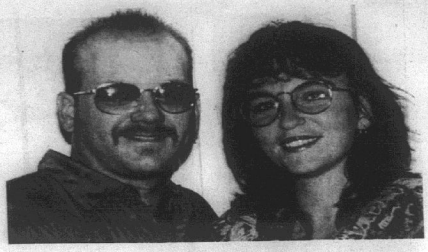
Duncan Crain, long-time sheriff of Cameron Parish, once owned Little Pecan, as did his father, Martin Alexander Crain (1833-1902) before him. The island is now owned by The Nature Conservancy.

Present at the reunion were the two surviving daughters of Duncan Crain, June Harper of Grand Chenier and Mary Johnson of Sour Lake, Texas.

Crain cousins attending were Lyle Crain and Lonnie Harper of Grand Chenier; Coral Lee Byrd, Gloria Duplechain English and Coy Russell Duplechain of Lake Charles; Ludwika Waldron Yoes of Baton Rouge; Bonnie Logsdon Reeves of Fort Worth, Texas; Ronald Johnson of Sour Lake and Gloria Crain Patrick of Sweeny, Texas. With the families and relatives of the cousins, attendance on Saturday approached 90 people.

The attendees were transported to the island from Grand Chenier on the boats of Lyle Crain and Lyle Harper. Friday night featured a shrimp gumbo prepared by June Harper and was followed by a Saturday barbecue prepared by Ronnie Johnson.

Another Crain Cousins Reunion is planned for the fall of 1997.



## Birth

AIMIE ANNE CLARK

Mr. and Mrs. Jennings Clark of Grand Chenier announce the birth of their second child, Aimie Anne, Oct. 4 at home.

Grandparents are Mr. and Mrs. Jimmy Stoute and Mrs. Sybil Clark, all of Cameron, and the late Dr. Cecil Clark, Jr.

The couple's other child is Jimmy Patrick, 2.

**MR. AND Mrs. Carl (Bubba) Trahan announce the engagement and forthcoming marriage of their daughter, Melissa Ann to Abe Manuel Jr., son of Mr. and Mrs. Abe Manuel Sr. The wedding is set for Nov. 6, at a private ceremony. A reception will follow at the Cameron Recreation Center behind the courthouse at 6 p.m. Through this means all family and friends are invited.**

**PRAYER TO THE BLESSED VIRGIN**
**(Never known to fail)**

Oh most beautiful flower of Mount Carmel, fruitful vine splendor of Heaven, Blessed Mother of the Son of God Immaculate Virgin, assist me in my necessity. Oh Star of the Sea, help me and show me herein you are my Mother. Oh Holy Mary, Mother of God, Queen of Heaven and earth I humbly beseech you from the bottom of my heart to succor me in this necessity. There are none that can withstand your powers. Oh, show me herein you are my Mother. Oh Mary conceived without sin, pray for us who have recourse to thee (three times). Holy Mother, I place this cause in your hands (three times). Holy Spirit you who solve all problems, light all roads so that I can attain my goal, you who give me the divine gift to forgive and forget all evil against me and that all instances in my life you are with me. I want in this short prayer to thank you for all things as you confirm once again that I never want to be separated from you in eternal glory. Thank you for your mercy toward me and mine. The person says this prayer 3 consecutive days. After 3 days, the request will be granted! This prayer must be published after the favor is granted.

# Tarpons take big win over No. Vermilion

By JOE MUELLER

The South Cameron Tarpons opened District 6AA football play in a positive way as they demolished North Vermilion 56-30.

The win raised the Tarpons overall record to 3-2.

The Tarpons jumped out to a 28-0 first quarter lead and were up 42-0 at halftime against the Patriots.

The Tarpons scores in the opening quarter came on a six yard run by Brandon Conner, a 32 yard by Cory Broussard, a 37 yard interception by Conner and a four yard run by Steve Moore.

The second quarter touchdowns came on an 11 yard pass from John Mark Montie to Vito Martarona and a 3 yard run by John Pradia. Montie kicked all six extra points.

The third quarter saw the Tarpons scored on a 11 yard play by Montie to run the score to 49-0.

Then the Patriots scored their first of four touchdowns which were meaningless as the game was already out of control and there was no doubt as to who the victor would be.

The Tarpons ground out 270 yards on the night with Brandon conner collecting 102 yards, Cory Broussard 44 yards, John Pradia 62 yards, Steve Moore 37 and Montie 22.

The Tarpon defense picked off two passes and had one fumble recovery.

John Mark Montie hit 5 of 7 passes for the Tarpons. Brent Morales caught three passes and Vito Martarona two for the Tarpons.

Montie converted all eight extra points that he attempted.

The Tarpons travel to Crowley to face the district favorite Notre Dame this Friday. Game time is 7 p.m.

# District 6AA standings are told - So.C. is third

DISTRICT 6AA STANDINGS

| | W | L |
|---|---|---|
| Iota | 1 | 0 |
| Notre Dame | 1 | 0 |
| South Cameron | 1 | 0 |
| Lake Arthur | 0 | 1 |
| Welsh | 0 | 1 |
| North Vermilion | 0 | 1 |

Last week's games: Iota 20, Welsh 6; Notre Dame 27, Lake Arthur 0; South Cameron 56, North Vermilion 30.

This week's games: South Cameron at Notre Dame; Lake Arthur at Welsh; Iota at North Vermilion (Thursday).

The South Cameron Tarpons, tied for first in district, take to the road this week to face Notre Dame in Crowley on Fri., Oct. 18. Kickoff for the district encounter is scheduled for 7 p.m.

The Pioneers, who easily defeated Lake Arthur last week 27-0, bring a 5-1 record into the game.

The Tarpons scored an easy victory over North Vermilion last week, 56-30.

The Pioneers are ranked #4 in the La. Sportswriters poll.

This week's game will be the top back in the district in Brent LeJune, who is the top rusher and top scorer in the district.

They also have one of the top defenses. They have given up only 64 points in the year. They gave up nearly half of those points in their only loss of the year when Teurlings, the #1 ranked team in the state beat them, 30-20.

The two teams both have played one common opponent, DeQuincy, both teams scored a victory over the Tigers by over 20 points.

The Tarpons last week had a different quarterback as kicker John Mark Montie took a lot of the snaps and he threw for 93 yards on a 5 of 7 night. Two of his passes were for touchdowns.

The Tarpon defense has given up only 55 points in five games.

The Tarpons also have a running back who has averaged nearly 100 yards a game in Brandon Conner.

The two teams last year played a very hard game and the Tarpons scored a 14-0 win even though just like this year, the Pioneers were heavily favored.

The Tarpons need the victory to stay in the running for the district title so they will definitely give a 100% effort. Let's get a good crowd to cheer the Tarpons on.

# Tarpons #8 in Am. Press poll

**PTA**

The new Grand Lake PTA officers are: President - Phyllis Poole; vice president - Susan Fuerst; secretary - Debbie Howerton; treasurer - David Duhon; parliamentarian - Gary Poole.

The next scheduled PTA meeting will be Monday, Oct. 21, in the school's front gym. Pres. Poole invites all teachers and parents to attend.

**SECOND GRADE CLASS**

On Oct. 9 the second grade classes had a special treat.

Mrs. Debbie Costello brought a flour grinder and wheat berries so that the children could watch the wheat being ground into flour. The children then used the bread maker Mrs. Costello brought to bake the flour into fresh whole wheat bread.

This culminated a story in reading that they were learning about whole wheat.

Second grade teachers are Mrs. Fontenot and Mrs. Darnutzer.

**KROGER RECEIPTS**

The school is continuing to collect Kroger receipts for the Kroger Tapes for Tools Program.

The class that turns in the most Kroger receipts will get a free pizza party.

The next contest will be held in January.

## Group told that state's economic future good

CAPITAL NEWS

The state's economic future looks good, not only in terms of new jobs but also where personal income is concerned, according to "The Louisiana Economic Outlook: 1997 and 1998."

LSU economist Loren Scott presented the good news last week to participants attending the Louisiana Business Expo at the Baton Rouge Centroplex. He said continued improvement in the economy will allow the state to "celebrate the 10th birthday of our growth" in 1997, and the increased job opportunities are showing up "across the board," not just in particular regions of the state.

The best job prospects during the next two years are in business services, expected to grow by 9.4 percent or 7,700 jobs; construction, predicted to rise 8.9 percent or 10,300 jobs; and restaurants and lounges, projected at 7.7 percent or 9,700 new jobs.

The highest percentage of growth is predicted in the Lake Charles and Houma metro areas, projected at 6.1 percent (5,200 jobs) and 5.9 percent (4,200 jobs) respectively. But growth is expected to exceed 4 percent in the Lafayette and Baton Rouge areas, which should add 7,100 and 11,900 jobs respectively.

The Shreveport/Bossier, Monroe and New Orleans metro regions are predicted to surpass 3 percent growth -- Shreveport with 6,400 new jobs, Monroe with 2,500 and New Orleans with 20,800. The Alexandria region's growth is predicted at 2.8 percent or 1,500 new jobs. Rural areas can expect to add 7,200 new jobs, reflecting a 2.1 percent increase in employment.

Scott said the oil and gas exploration industry as well as the chemical industry are expecting continued growth during 1997 and 1998. Oil and gas employment dropped from a high of 90,000 jobs in 1981 to about 50,000 jobs in 1987, but it is slowly rising and companies will hire 2,300 people in the next two years, the report projects. Chemical plants also are expected to add 600 new jobs during that time.

All of that translates to a projected growth rate of 3.7 percent statewide by the end of 1998, with an additional 66,600 jobs bringing non-farm employment to 1,876,600. The report also predicts an 11 percent increase in per capita income during the two-year period, ending at $22,035.

Not every job category is expected to improve during 1997 and 1998, according to the forecast. The hardest hit employment field will be the textile and apparel industries, where a 20.6 percent decrease -- 1,700 jobs -- is expected. Those losses come on the heels of thousands of jobs lost during the past two years, and Scott said economists fear they may be underestimating the downturn.

Health-care employment also will drop by 900 jobs in the private sector and 200 jobs in state-run charity hospitals during the two-year period. That downturn should be temporary, according to Scott, because the demand for health care will increase drastically as the baby boom generation ages.

The report was co-authored by Jim Richardson, director of LSU's Public Administration Institute, and Associate Professor of Management A.M.M. Jamal from Southeastern Louisiana University in Hammond. They arrived at their conclusions based on about 150 interviews with business leaders around the state and analysis of other data.

NOTICE FOR BIDS

Acting under the authority of the Legislature of the State of Louisiana, the Cameron Parish School Board will receive sealed bids for the leasing of all surface rights including the rights of range, trapping, hunting, fishing, and farming, on the following described lands:

| SECTION | TOWNSHIP | RANGE | DESCRIPTION |
|---|---|---|---|
| 16-12-10 | | | |

All of said section, containing 435 acres, more or less, bordering Black Lake; three (3) miles West of Calcasieu Lake.

| | | | |
|---|---|---|---|
| 16-15-6 | | | |

Bordering East side of lower Mud Lake; 1 1/2 miles South of La. Highway 82 in Grand Chenier; excluding that portion of land for lease as industrial site, containing 0.787 acres.

(A description map may be seen in the School Board Office during normal working hours.)

All bids must be sealed; the envelope marked "Bid - Section 16, Township ---, Range ---" and may be forwarded through the U.S. Mail to the Cameron Parish School Board, P.O. Box W, Cameron, La. 70631. Bidder must offer an annual rental of not less than $2.00 per acre for a lease with a primary term of four years and nine months to end July 31st, 2001. Annual renewal rentals will be due each year by July 31st, in order to continue the lease in effect. Cash payment or a certified or cashier's check in favor of the Cameron Parish School Board for the amount of the annual rental for the first year shall accompany and be deposited with the bid (no checks other than certified or cashier's check acceptable.) OFFICIAL CHECKS, OFFICIAL BANK CHECKS, OR OFFICIAL TELLER CHECKS ARE NOT ACCEPTABLE, and the rental thus deposited shall be forfeited to the Board as liquidated damages if the successful bidder fails to enter into written contract in accordance with his bid within ten (10) days after acceptance by the Board.

If farming rights are utilized, bidder may offer annual rental plus a fractional part of not less than one-sixth (1/6) of any and all crops produced and saved during the year. The value of the one-sixth (1/6) share shall not be considered in the awarding of the lease unless the bidder guarantees a specific amount which shall be added to and accompany the bid. Should the one-sixth (1/6) value of crops be less than the cash guarantee paid at the time of the lease, the Cameron Parish School Board shall demand such additional payment as necessary to bring the value adjustment to a full one-sixth (1/6) of crops produced and harvested on any and all listed sections, and thirty-five percent (35%) of cash market value of all alligators harvested by lessee. Lessor reserves the right to gather and dispose of alligator eggs from the lease premises, without any compensation to lessee.

The surface rights and privileges granted in the lease are restricted to range, trapping, hunting, farming, and fishing and these rights shall in no way, manner, or form interfere with the granting of a mineral lease or the full utilization of all rights and privileges granted in any mineral lease.

It is further agreed and understood between the contracting parties hereto that this lease shall be heritable, but shall not be subject to mortgage, pledge, hypothecation or seizure and sale, nor shall the said lease be assigned, subleased, or otherwise transferred by the said lessee unless authorized by prior written approval of the lessor. Such assignment, sublease or transfer of said lease shall be subject to terms and conditions as may be deemed proper by the lessor. Terms and conditions for subleasing may be obtained by contacting the Cameron Parish School Board land manager.

The Cameron Parish School Board does not warrant or provide ingress or egress to the leased premises. Ingress and egress is the sole responsibility of lessee.

Bids will be received until the hour of 4 p.m., Tuesday, November 12, 1996 at which time all bids received will be opened and considered in public session of the Cameron Parish School Board in Cameron, Louisiana.

The Board reserves the right to reject any and all bids received.

# Gambling is big issue on the ballot Nov. 5

CAPITAL NEWS

As Nov. 5 draws nearer, the opposing sides of the gambling issue are intensifying their efforts to bring voters into their camps.

Representatives of the proponents and opponents detailed their positions for the Baton Rouge Press Club, with opponents calling gambling - a "scourge" and proponents painting it as an economic windfall.

Public relations consultant Gus Weill, who works for the Belle of Baton Rouge riverboat casino, said gambling foes have offered no alternative for the increase in jobs and tax revenues the casinos have fostered. He said the salaries, tips and benefits of employees at the local riverboat casinos average $27,500 annually, which "beats Burger King to death." The casinos also have pumped $18.4 million into the Baton Rouge city-parish treasury, he said.

But Ed Steimel, chairman of Citizen Action for Gambling's End, said the industry exploits the poor and ignorant. "They add nothing but grief, which we will be cleaning up for generations," Steimel said, referring to the rise in gambling addiction since several forms have been legalized in the state.

Steimel said the gambling industry takes much more money out of the economy than it gives back in the form of state and local taxes. The tax revenue "doesn't come from them. It comes from the small businesses that are cannibalized," Steimel protested. He also pointed out several local criminal cases which have been attributed to people stealing or embezzling money to finance their gambling addictions.

Gov. Mike Foster has said he does not believe in telling people how to vote, so he will not come out for or against the proposition itself. He will, however, make speeches and possibly advertisements explaining why he believes gambling is wrong.

The governor said he is not concerned about any negative impact on state revenues if gambling is voted down. The legislation allows the businesses to continue operating until their current licenses expire, which will provide a phase-out period to either plan budget cuts or see where alternative revenue is available. Foster said he thinks most of the money now spent on gambling would still remain in the state economy, boosting tax receipts in other categories.

# Outdoors

By Loston McEvers

Last week was really a touch and go situation as we watched a tropical storm build up in the Gulf and passed not far from our shores, bringing really high tides to our area marshes. We were very lucky not to get the bad stuff, but we did get plenty of saltwater in the marshes, especially our south marshes along the beaches, but with the channels and rivers, some of our middle marshes got saltwater also.

Some of our marshes were really looking good with wild rice and other feed, but this saltwater will take a while in some areas to drain out and I'm afraid it'll kill much vegetation that would have been good for our duck and goose feed.

**SECOND SPLIT OF DOVE SEASON**

This weekend is opening of the second split of dove season. Saturday and Sunday, Oct. 19 and 20, shooting doesn't start until noon each day. Daily limit is 15.

Still hunting for deer in our Area 3 also opens Saturday, Oct. 19. The first two days of either sex days are also this weekend, and we'll have next weekend also as either sex days (Oct. 26 & 27). Remember to have your basic hunting license plus your big game license to hunt deer with guns and if you're bow hunting, you also need a bow hunting license.

**FISHING NEWS**

We had anglers who went out trying their luck offshore and did rather well on speckle trout at the platforms closer to shore. Fresh shrimp were what they were using.I had no other saltwater reports.

Last weekend our area federal refuges had a good deal of bass fishermen taking advantage of the last weekend to fish until next spring.

Sabine Refuge, Cameron Prairie Refuge and Lacassine REfuge (all national refuges) closed Oct. 15, to all fishing. This is the time of the year the impoundments are used to let ducks, coots, geese and other migratory waterfowl feed and rest during the winter months.

This is the time of the year we're fishing our marshes for speckle trout and redfish, along with black drum. With the length limits or size length of these fish, many have got to be thrown back in and most fish caught that are thrown back never live to maturity for one simple reason - mishandling. A fish that's going to be released needs to be touched as little as possible and do it very carefully. You should have your hands wet, not dry gloves, not dry towels, in fact, not dry hands. Be sure the towel or gloves are damp before handling the fish.

Fish have a protective coating and if you remove this protective coating, fungus growth will take place after the fish is released. Lots of time this produces fish kills.

**RABBIT HUNTS**

Last weekend rabbit hunters did pretty good, this high water around the islands and salt cedar trees in our prairies pushed these rabbits in a small land area, easier for hunters to get their limits.

The population of our rabbits has been coming back the last couple of years. At one time we had a large rabbit population, then it went to hardly anything. We put the blame on fire ants, wolves and coyotes and I know we still have all of them in our areas, so why more rabbits, I can't say.

Beginning Nov. 9, duck and goose season, I'll have a weekly sunrise-sunset chart for our hunters. It will be correct for our area.

Did you know that pound for pound grasshoppers are three times as nutritious as beef steak. Now, don't everyone go out and buy all the canned grasshoppers off the store shelves, or get caught trespassing on private property hunting grasshoppers.

# Second split of dove season to open 19th

Louisiana's 60,000 dove hunters can look forward to the second split of the three-split dove season set to begin Sat., Oct. 19. The first split, which ended Sept. 15, was described by Wildlife and Fisheries Upland Game Study Leader Mike Olinde as good. But his general feeling is that the second split ought to be better.

"We generally see non-resident migrant birds during this split, so the numbers of doves out there should increase" said Olinde.

He also indicated that local dove production was good. Nationally production was fair.

"Southwest Louisiana is usually better in the second split", said Olinde. "North Louisiana, while it may have birds, doesn't usually get a lot of dove hunting. Hunters there hunt other species such as deer and squirrels."

Olinde also said that dove fields leased under a program instituted by the Department of Wildlife and Fisheries saw mixed results. "Three out of the five leased dove fields were excellent," he said. "The other two had poor hunting because birds stopped using them just before opening day. This can be expected on some fields because of doves migratory ways."

The dove field lease program involves private landowners willing to lease harvested grain fields or pastures to the Department for public dove hunting on Sept. 7, opening day of the 1996 season.

Louisiana's dove hunters harvest a million birds annually, ranking the sport among the state's most popular small game hunting activities.

Olinde stressed the importance of safety while in the field while pursuing your daily limit. Dove hunting can take place under crowded conditions. Many avid hunters, intent on bagging their limit, may become oblivious to others in the region. "Be aware of where you are and the people around you," he said., "and be careful".

Dove season runs Oct. 19-Nov. 8 and Dec. 14-Jan. 12. Daily bag limit is 15. Possession limit is 30.

Shooting hours are from one half hour before sunrise to sunset, except Oct. 19-20 and Dec. 14-15 when shooting hours will be noon to sunset.

# Co-op makes changes to battle birds

Jeff Davis Electric Cooperative is working to increase the reliability of its service to its consumers in the Johnson Bayou area of Cameron Parish due to the migration of the Blue Herring and Cormorant birds.

Dale Landry, general manager of Jeff Davis Electric, said "each year at this time some of our consumers in the Johnson Bayou are experience interruption in their electric service because Blue Herrings and Cormorants get tangled in our lines as they migrate inland."

"We pride ourselves on having the most sophisticated equipment to provide our consumers with the most reliable service possible," Landry said. "But sometimes things as simple as the wing span of a bird can cause a great many people a lot of inconvenience.

Landry said that after the problem was brought to their attention, the Jeff David Electric's engineer department conducted a comprehensive study to determine the best way to solve the problem.

"We decided that for long term reliability, the best thing to do was to upgrade the system in that area, by increasing the distance between the wires so the birds couldn't come into contact with them as easily," Landry said. "While the system is being upgraded, we have switched the point of service from one meter point in the Johnson Bayou area to another point during this year's migration season. This will temporarily solve the problem while we work on the long term solution."

Anyone experiencing similar problems shoud report them to Jeff David Electric by calling 318-824-4330.

HOMECOMING '96

# Homecoming activities set this weekend at S.C.

Homecoming activities kick off with the pep rally scheduled for 2:20-3:15 p.m. Fri., Oct. 25, in the gym. In addition to many spirit activities, the Homecoming Court and Senior football players will be presented. A reception honoring the classes of 1947, 1972 and 1987, as well as members of the Homecoming Court, will be held. The court will be presented at 6:30 p.m.

The Tarpons face Lake Arthur at 7 p.m. At halftime the 1997 Homecoming Queen will be crowned and the Sidekicks and summer cheer camp participants will dance, followed by a kickoff contest sponsored by Acadiana Ford. The homecoming dance begins at 9:30 with the presentation of the queen and her court slated for 10 p.m.

# Contest is told for S.C. game

Acadiana Ford of Kaplan will sponsor a kickoff contest during halftime. Prior to the game, chances will be sold for $1 each and one ticket will be drawn during the second quarter. The person whose name is drawn has the option of kicking from the 30 yard line to win $300 if a field goal is made from the 20 yard line, $200; and the 10 yard line, $100. The person whose name is selected will only get one chance to kick. Proceeds benefit the athletic department.

Recent winners of the half and half drawings include Lidian Richard at the Pickering game for $92; Shirley Mhire at the St. Louis game for $224, Linda Sturlese at the North Vermilion game for $189; and Mary Johnson at the Notre Dame game for $86. Remaining proceeds benefit the Pep Squad, Sidekicks and Cheerleaders.

Program sponsors for the 1996 football season, thus far, include Glenn Alexander, Mike Francis, Chris John and Jerry Nunez.

Winners will be drawn at half time for a spirit basket and a set of Tarpon flags. Chances are $1 each and will be sold prior to the game. Proceeds benefit the cheerleaders and pep squad.

Three Tarpon license plates will be raffled at halftime of the Homecoming game. Chances are 50 cents or 3 for $1, and proceeds will be used for school supplies.

# Oyster fishermen told strict rules

By GENEVA GRIFFITH

A capacity crowd of local oyster fishermen was in attendance at a meeting last week in the Police Jury Annex sponsored by Rep. Dan Flavin and Senator Jerry Theunissen.

Officials from the Louisiana Wildlife and Fisheries and the Health Department were on hand to explain to the Calcasieu Lake oystermen the latest rules on refrigeration, tarps, and record keeping.

Kevin Savoie, Calcasieu-Cameron Fisheries Agent, explained that it was important that the oystermen abide by the rules set by the state.

Charles C. Conrad, Administrator of the Commercial Seafood Inspection program, explained that shellfish harvesters with tarps (suspended awnings) on their boats have a maximum of 14 hours from the time harvesting begins each morning to get their oysters to dockside and under refrigeration.

Once landed, a fisherman may haul his catch to a nearby certified dealer in a non-refrigerated open pickup if the trip can be completed in less than 30 minutes.

Currently only the following dealers in Cameron are certified: Cameron Seafood Processors, Inc.; Doxey's Oyster House; Fountain's Seafood, Inc.; and Seafood Wholesale, Inc.; and Thomas Seafood in Hackberry.

All other deliveries, regardless of the distance and time involved, must be made with refrigerated trucks maintained at an air temperature of less than 45 F.

Shellfish harvesters without tarps on their boats, which is technically a violation of current health code requirements, will not be ticketed if they have their oysters landed at a certified dealer by noon and under refrigeration at an air temperature of less than 45 F by 1 p.m. each day.

This policy which only applies to the Lake Calcasieu oyster fishery stand as long as the industry does not abuse this special privilege, Conrad said.

Log sheets must be completed each day by the oysterman and the certified dealer, which must be kept for one year, but these log sheets are not mandatory during the months of November through March.

Each sack of oysters must be tagged with the required information.

# Man dies in copter crash

A helicopter crashed about four miles north of Cameron in a marshland Thursday, killing the pilot.

Peter Holman II, 50, of Lake Charles died after the 5:10 a.m. Thursday, Oct. 10, crash, according to Al Meyer, vice president and manager of ERA Aviation in Lake Charles, which owned the helicopter.

He was the sole occupant of the helicopter.

Chief Deputy Theos Duhon of the Cameron Parish Sheriff's Office said the helicopter was heading from Cameron to Lake Charles, and crashed in marshlands southeast of Lambert Lake, an area used by oil companies. Searchers had to use airboats and small planes to find the wreckage, Duhon said. The body was found after the crash.

# Apartments have grand opening

By GENEVA GRIFFITH

A grand opening and open house was held Thurs., Oct. 15, at the new 40-unit Cameron Place Apartments. It was built by Calhoun Builders of Mansfield in partnership with the Cameron Community Action Committee, and is located 4 miles east of Cameron on La. 82.

The complex is located on a 7-1/2 acre tract of land that was purchased from Braxton and NOrma Jean Blake, which was formerly a part of the Sells property.

The complex consists of a 32-two-bedroom wood frame duplexes and 8 three-bedroom units.

All units are handicapped adaptable and sit on 4-foot piers to meet the flood plain requirements, and already had been filled in 4 feet by the original owner.

This is not a public housing facility but only families with incomes of less than $26,500 may qualify for a unit. This income amount was set by the state.

The master of ceremonies at the ceremony was Blackie Fitch, general manager of Calhoun Property Management.

Mary LeBleu, secretary of the Cameron Community Action Agency, Board of Directors, gave the invocation.

Brent Nunez, president of the Police Jury and Community Action Committee, gave the welcome. He said that after three years of planning and work the dream had been realized - a beautiful complex where longhorn cattle once roamed.

Tommy Calhoun, president of Calhoun Builders, said that his company was grateful for being able to bring affordable housing to this area. His company own 119 complexes with 14,000 units in different parts of the country.

Ginger Gomez, Adminis-trative Assistant to Rep. Dan Flavin, and Johnny Fruge, Administrative Assistant to Sen. Jerry Theunissen, brought greetings from their bosses.

Dinah Landry, Director of the Council on Aging and the Community Action Agency, gave the closing remarks saying, "Our dream has finally come true."

Beverly Salter is the apartment manager of the new complex, and the following are on the office staff: Mrs. Landry, director; Gail Wolfe, office manager; Alice Mason, housing planner; Billie Jo Richard, secretary; Mary Johnson, fiscal officer; and Kathy Davis, service coordinator.

# WalkAmerica event set at Grand Lake

The Grand Lake High School FBLA Chapter will sponsor WalkAmerica, Sat., Nov. 9. This is a five-mile walk to benefit March of Dimes, Project Help. The walk will be held from 1-4 p.m. on the track behind the school.

Everyone who participates is asked to try to walk the five miles. Prizes will be awarded for participation; money should be turned in on the day of the walk.

The walk will conclude with a picnic lunch for all of the participants and volunteers. For more information on how to volunteer or to sponsor a child, call Brenda Young at 598-2986.

**BROUSSARD REUNION**

The Joe Broussard reunion at the American Legion Home in Grand Chenier Sun., Oct. 20, was a success. There were 140 persons from all over. A cousin from Tacoma, Wash., traveled the farthest. These folks represented the older families of Arthur, Theo, Ramie Broussard, L. J. Conner, the East families; Elica family, and the Monlezun family.

Barbe Portie and his wife, while here for the reunion, visited his cousins,Leroy and Chester Dyson and their families.

On Oct. 15, Zeke Wainwright gave a lamb barbecue supper for Elora Montie. Friends and relatives attended. It was very much appreciated.

**AWARDS PROGRAM**

Grand Chenier Elementary held its first six weeks honor and banner awards program Wed., Oct. 9. Parents and grandparents and the honorees attending were served donuts and coffee or milk after the presentation. Certificates, bumper stickers and pencils were given the honor and banner students.

**SUBSTANCE ABUSE MONTH**

October is Substance Abuse Prevention Education Month. Oct. 21-25, is designated Red Ribbon Week. Students are asked to wear ribbons all week.

Activities for the week include a SAPE pep rally on Friday. Each class will present a chant.

## Cameron Outdoors

By Loston McEvers

**HUNTING NEWS**

This past weekend was another weekend watching to see what the storm in the southeastern Gulf will do, again hoping it'll miss us. A cool front was welcome however, and hunters were busy making a morning deer hunt and afternoon dove hunt. Good numbers of deer, both bucks and does reported, as it was an either sex weekend hunt. Dove season also opened and for an October hunt, it could have been much better.

A friendly reminder, wear your hunter orange when deer hunting. It's the law and could save your life. Also, be extra careful climbing tree stands. A fall could result in broken bones, but a loaded gun and a fall could be fatal. Also, inspect your old stand to be sure it's in good shape. You should never climb with a gun strapped to your back. The safest way is to use a rope and pull an unloaded gun up the stand.

I really haven't seen many big ducks down yet, but cooler weather should start to change that. I know we still have thousands of teal ducks in our marshes and I've seen some good flocks of coots in our marsh. Usually when the coots start coming down, it's said that we should see the largest fall flight of ducks that we've seen in 25 years. An estimated 90 million ducks will fly through our major flyways of the United States. I remember how it was in 1968-70. Great duck hutning. Maybe we'll see it again.

**D' KAJON WAY**

It is said nobody does thinks like a Cajun, and when it comes to duck hunting, it's a proven fact. Maybe all a Cajun duck hunter will have is a single shot, shotgun, kinda rusty with just a hand full of shells from last year, but he'll have a good pirogue and plenty of decoys.

To Cajuns of Louisiana, the pirogue has been in the family for hundreds of years. When the french arrived the Indians used dugouts, so they did also and designs and materials have changed, but not the need for the Louisiana Cajun pirogue.

Pirogue is a mutation of piraqua, the Carib Indian word for a dugout canoe. The pirogue, pronounced "pee-row" or "pier-ogg", is seen in our swamps and marshes of southern Louisiana, where resident Creoles and Cajuns improoved on the Indian dugout, first built with lumber and now fiberglass The pirogue's flat bottom draws little water, where you can go in a couple of inches of water. It was said by our elders, a pirogue could float on heavy dew, and I guess that's not far from the truth. Pointed on both ends, it'll split through weeds and brush, go over logs and steer well, even with a big wind blowing. With the new fiberglass pirogues being so light, not only trappers and hunters are using the pirogue, bass fishermen have found it's the way to get in the places where the outboard won't go and it's quiet also.

Now the Cajun duck hunter has the pirogue ready and if he doesn't have a good blind, he can hunt in the grass, as long as he has plenty of decoys and sets them right.

Duck decoys in Cajun country are a south Louisiana culture, just as gumbo, jambalaya or red beans and rice are a culture. This decoy thing has been handed down from generation to generation of Cajuns and Cajun hunting guides. To use duck decoys right, you have to have the Cajun know-how.

Our early generation of decoys were made of wood, hand carved and painted by our ancestors. With our marsh sometimes known as flo-ton marshes, marsh grass, three corner grass, it took the decoys to fool the ducks into coming closer to the gun, and now it's still the same. To hunt an area effectively, a hunter needs to bring the duck to the blind and that's with decoys.

The old Cajun guides always tried to get their decoys starting close to the blind with, say, 4 decoys, and keep the 4 pattern up to a pyramid and back, making a funnel or trough. The decoys always faced the wind and placed a long pointail sentinel 100 feet away.

Today we call our ducks with the modern duck caller, which is great, but the true Cajun hunter used his mouth to call ducks, or he made himself a homemade duck caller, using cane from the marsh.

For our children and grandchildren today things have changed, but when it comes to Louisiana duck hunters, things may be more modern, but it all came from our Cajun ancestors, always remember that.

**DID YOU KNOW ?**

A duck has three eyelids on each eye. Maybe that's why they're so alert. A human's eybrow contains about 500 hairs. Maybe these hairs get in our sight and that's why we miss these three eyelid ducks.

## Lt. Gov. praises Nature Trail move

By CLIFF SEIBER

"You are going to be national advertised," Lt. Gov. Kathleen Blanco told developers of the Creole Nature Trail National Scenic Byway in Sulphur Monday.

The lieutenant governor, who is also commissioner of the Louisiana Department of Culture, Recreation and Tourism, congratulated the Southwest Louisiana Convention and Visitors Bureau for developing the trail and earning national designation.

As a nationally designated scenic byway, "you will be nationally advertised," she said. "You will receive a lot more auto traffic, because people will choose to come here. And bus traffic also."

The Creole Nature Trail, developed by the CVB in the 1970's, is th only national scenic byway in Louisiana, and Louisiana is one of only 14 states with national byway designation, Shelley Johnson, executive director of the CVB, said. The nature trail is the only national scenic byway in the Gulf Coast states.

The official designation plaque was presented to Monte Hurley, chairman of the CVB and the Creole Nature Trail Scenic Byway District, in a ceremony in Baton Rouge in September. U. S. Transportation Secretary Federico Penna announced its selection by the National Park Service the week before in Denver.

Members of the CVB board when the Creole Nature Trail was created and through the years, as well as legislators who helped the trail win state recognition; members and administrators of the Calcasieu and Cameron parish police juries and member of th scenic byway district board were recognized and presented souvenirs of the occasion.

As a nationally designated scenic byway, the trail is eligible for assistance from the national Park Service and U.S. Department of Transportation in developing a corridor management plan, signage and other details and will be publicized in national literature.

# Tarpons lose to Notre Dame team

By JOE MUELLER

The South Cameron Tarpons fell to 1-1 in District 6AA and 3-3 overall as they lost to Notre Dame 34-6 last Friday in Crowley.

The Pioneers, who brought a number 4 state ranking into the game, jumped out to a 21-0 halftime lead.

The Pioneers used a strong defense against the run as the Tarpons could only net 63 yards on the ground.

The Pioneers meanwhile were rushing for 206 yards and they scored four times on runs.

Brent LeJune, the Pioneer junior running back, scored 3 times and rushed for 160 yards.

The Pioneers scored in the opening quarter on a one yard run and LeJune and Joe Oestricher scored on runs in the second quarter.

The Pioneers scored the only touchdown of the third quarter on a 3 yard run by Brent LeJune.

Both teams scored in the final quarter. The Pioneers touchdown came on a 75 yard punt return by Jack Casanova.

The Tarpons only touchdown of the night came on a 23 yard run by Brandon Conner, who led the Tarpon ball carriers with 49 yards on 8 carries. John Pradia and Cory Broussard each had 13 yards rushing.

The Tarpons passing attack garnered 161 yards. John Pradia threw for 100 yards on a 7-7 night. John Mark Montie hit 2 of 9 passes for 27 yards. Brandon Conner threw one pass which was caught for 34 yards.

Brent Morales caught 7 passes for 106 yards. Vito Martarona caught 2 passes for 51 yards and Conner caught one for 4 yards.

The Tarpons recovered a Notre Dame fumble.

The Tarpons will be at home this week as they face Lake Arthur in a 6AA District game.

## Joe's Picks

Well, I had a good week last week, going 16-3 which brings my overall record to 98-39.

This week I see:

Dequincy over Rosepine; Pickering over St. Louis; South Beauregard over Vinton; Kinder over Merryville; Notre Dame over Iota; Welsh over North Vermilion; South Cameron over Lake Arthur.

Youngstown State over Northwestern; Southern over Alcorn State; Jackson State over Grambling; McNeese over Sam Houston; LSU over Mississippi State; Memphis over USL; La. Tech over Alabama Birmingham; Southern Miss over Tulane.

Dallas over Miami; San Franciso over Houston.

# Tarpons to host Tigers here Fri.

By JOE MUELLER

The South Cameron Tarpons and the Lake Arthur Tigers will square off in Tarpon Stadium this Friday at 7 p.m. The game will be important to the standings as the Tarpons at 1-1 need a win to keep their hopes for a district title alive and the Tigers need to break into the win column in district or face elimination from the post season play.

The teams have three common foes on the season. Both teams suffered losses to Notre Dame, Lake Arthur by 27-0 and South Cameron by a 34-6 score.

Against St. Louis both were defeated, South Cameron 3-0 and Lake Arthur 17-7.

The other common opponent for the two teams is the Vinton Lions, who defeated Lake Arthur 13-7 and lost to South Cameron.

The teams are very close in starts with South Cameron averaging about 240 yards per game and Lake Arthur about 215 on defense. The Tarpons are giving up about 215 and Lake Arthur about 205. The Tarpons have scored 126 points in six games, while Lake Arthur has put up only 72 in seven games. South Cameron has given up 89 points while Lake Arthur has allowed 116.

The Tarpons top rusher, Brandon Conner, has averaged 81 yards a game and is averaging 6 points a game.

The Tarpons also have one of the top pass receivers in the district as Brent Morales has 17 catches for 229 points.

The game, by all the stats, should be hard fought and exciting. Last year the teams played a real thriller with the Tigers winning 36-34. This was just one of the recent close contests played by the two teams.

# So. Cameron Rodeo team is doing well

The 1996-97 South Cameron High School Rodeo Team is off to an outstanding start with Bobby Mhire of Grand Chenier currently standing second in the state in the All Around Cowboy and calf-roping categories after five of the 24 rodeos sanctioned by the Louisiana High School Rodeo Association. Also high in the standings are Toni Kay Nunez and Brandi Hebert of Grand Chenier.

At the Colfax High School Rodeo held Sept. 20 and 21, Mhire placed third in team roping and second in boys cutting. Nunez was fourth in girls cutting.

At the Tri-Parish High School Rodeo Sept. 27-29, Mhire was fifth and Nunez was sixth in boys and girls cutting.

In Farmerville on Oct. 4-6, Nunez was second in girls cutting, Hebert was seventh in breakaway and tenth in goat tying and Mhire was third in calf roping and seventh in boys cutting and fifth in steer wrestling.

At the Four Rivers High School Rodeo in Jonesville Oct. 11-12, Mhire was second in both boys cutting and calf roping and Nunez was seventh in cutting.

At the Bell City High School Rodeo this past weekend, Nunez was fifth in the cutting and Mhire was third in cutting and fifth in the calf roping and team roping.

Nineteen rodeos remain in he 1996-97 rodeo season with the South Cameron High School Rodeo slated for April 11-12. Over 450 high school students from throughout the state participate.

A Salute To South Cameron High School

I wish to extend my best wishes to the students, faculty and graduates of South Cameron High School on the occasion of the annual Homecoming Friday.

South Cameron High School is truly a credit to Cameron Parish. The School is truly a credit to Cameron Parish. The school has one of the finest school plants to be found anywhere. It also has a fine faculty and outstanding programs.

All of the returning alumni of South Cameron as well as graduates of the school's predecessors, Creole and Grand Chenier High Schools, remind us of the fine citizens who have graduated at South Cameron over the years. We know that they continue to be proud of their old Alma Mater.

On one last note, I hope that all of the students and graduates enjoy the homecoming festivities and the ballgame. I sincerely urge all of you to be careful when driving home to enable the parish to continue its safety record and make the Homecoming have a happy ending.

Your Friend,

James R. Savoie

## Co-op planning rate reduction next month

A rate reduction for all Jeff Davis Electric Cooperative's consumers will take effect next month pending a possible appeal by Cajun Electric Power Co-operative. The rate reduction is a result of the Louisiana Public Service Commission's decision ordering Cajun to lower its wholesale power rates by $21.7 million.

The reduction would reduce Jeff Davis Electric consumer bills by about $3.60 for 1,000 kilowatt hours.

"We've been talking to our members for two years about their electric bills going down," said Jeff Davis Electric General Manager Dale Landry. "This is what we were hoping for and we anticipate further reductions in the future."

Landry said that in December 1994, when the Public Service Commission cut Cajun's rates by 11 percent, those savings were also passed on to Jeff Davis Electric's consumers.

Cajun has been reorganizing under bankruptcy protection since December 1994. It continues to provide power to Jeff Davis Electric, which sells power to over six thousand consumers in Allen, Calcasieu, Jefferson Davis, Cameron and Vermilion parishes in southwest Louisiana.

A bankruptcy trustee is trying to arrange a buyer for Cajun's assets. Proceeds would be used to pay off a portion of Cajun's debts. Once Cajun emerges from bankruptcy additional rate reductions are expected.

## Broussard has show

"Cajun Louisiana on Canvas," a showing of work of artist/interior designer Troy Broussard of Houston, Texas will be held Nov. 7-21 at the Work of Art Gallery, 2503 A. S. Shepherd in Houston.

The son of Eddie and Sandra Broussard of Jennings, Broussard is the great-grandson of O. W. and Ethel Broussard of Jennings who established a family fishing camp at Hebert's Landing on Big Lake in 1952.

Broussard makes use of the camp on a regular basis and be seen often painting on the screen porch.

"This exhibit," Broussard said, "is my first opportunity to present the stories of the modern Louisiana French experience, the tales of a proud, educated, assimilated, prosperous and unique ethnic culture."

An opening reception will be held Thursday, Nov. 7, 6:30-8:30 p.m. at the Work of Art Gallery.

NOTICE FOR BIDS

Acting under the authority of the Legislature of the State of Louisiana, the Cameron Parish School Board will receive sealed bids for the leasing of all surface rights including the rights of range, trapping, hunting, fishing, and farming, on the following described lands:

SECTION
TOWNSHIP
RANGE DESCRIPTION
16-12-10 Partial section, containing 435 acres, more or less, bordering Black Lake; three (3) miles West of Calcasieu Lake.
16-15-6 Bordering East side of lower Mud Lake; 1 1/2 miles South of La. Highway 82 in Grand Chenier; excluding that portion of land for lease as industrial site, containing 0.787 acres.

(A description map may be seen in the School Board Office during normal working hours.)

All bids must be sealed; the envelope marked "Bid - Section 16, Township ____, Range ____" and may be forwarded through the U.S. Mail to the Cameron Parish School Board, P.O. Box W, Cameron, La. 70631. Bidder must offer an annual rental of not less than $2.00 per acre for a lease with a primary term of four years and nine months to end July 31st, 2001. Annual renewal rentals will be due each year by July 31st, in order to continue the lease in effect. Cash payment or a certified or cashier's check in favor of the Cameron Parish School Board for the amount of the annual rental for the first year shall accompany and be deposited with the bid (no checks other than certified or cashier's check acceptable.) OFFICIAL CHECKS, OFFICIAL BANK CHECKS, OR OFFICIAL TELLER CHECKS ARE NOT ACCEPTABLE, and the rental thus deposited shall be forfeited to the Board as liquidated damages if the successful bidder fails to enter into written contract in accordance with his bid within ten (10) days after acceptance by the Board.

If farming rights are utilized, bidder may offer annual rental plus a fractional part of all crops, which one-sixth (1/6) of any and all crops produced and saved during the year. The value of the one-sixth (1/6) share shall not be considered in the awarding of the lease unless the bidder guarantees a specific amount which shall be added to and accompany the bid. Should the one-sixth (1/6) value of crops be less than the cash guarantee paid at the time of the lease, the Cameron Parish School Board shall demand such additional payment as necessary to bring the value adjustment to a full one-sixth (1/6) of crops produced and harvested on any and all listed sections, and thirty-five percent (35%) of cash market value of all alligators harvested by lessee. Lessor reserves the right to gather and dispose of alligator eggs from the lease premises, without any compensation to lessee.

The surface rights and privileges granted in the lease are restricted to range, trapping, hunting, farming, and fishing and these rights shall in no way, manner, or form interfere with the granting of a mineral lease or the full utilization of all rights and privileges granted in any mineral lease.

It is further agreed and understood between the contracting parties hereto that this lease shall be heritable, but shall not be subject to mortgage, pledge, hypothecation or seizure and sale, nor shall the said lease be assigned, subleased, or otherwise transferred by the said lessee unless authorized by prior written approval of the lessor. Such assignment, sublease or transfer of said lease shall be subject to terms and conditions as may be deemed proper by the lessor. Terms and conditions for subleasing may be obtained by contacting the Cameron Parish School Board land manager.

The Cameron Parish School Board does not warrant or provide ingress or egress to the leased premises. Ingress and egress is the sole responsibility of lessee.

Bids will be received until the hour of 4 p.m., Tuesday, November 12, 1996 at which time all bids received will be opened and considered in public session of the Cameron Parish School Board in Cameron, Louisiana.

The Board reserves the right to reject any and all bids received.

# Jurors set priorities on road construction

By GENEVA GRIFFITH

Priorities for Cameron Parish roads were discussed at the Police Jury's second meeting on the 1997 parish budget this week.

A $500,000 cash surplus is expected if no unforeseen expenditures come up.

The final fiscal budget must be adopted by Dec. 3. The following are priorities tentatively agreed on.

Resurfacing of the Jetty (J. A. Davis) Road, which is an asphalt road leading from Cameron to the Jetties, which is lined with industries and is heavily traveled. It is rapidly deteriorating.

Striping of all roads in parish.

Constructing of a by-pass road for Wakefield (Pogy Plant) Road where other industries are located, and is regularly flooded during high tides. If the land can be secured an aggregate road would be much cheaper built on higher ground than building up the present road.

Hard surfacing of four streets, approximately 1/2 mile, in Pelican Point in Big lake, if the subdivision residents pay for half the costs.

Resurfacing Trosclair (Front Ridge) Road, a rapidly deteriorating asphalt road, which is heavily traveled, but costly to repair.

Repairing the Little Chenier road.

No estimates have been determined on the projects, except the Pelican Point project which was estimated to be $85,000 last year.

**PELICAN POINT ROADS**

Three Pelican Point residents appeared before the jury. Jerry Goss, Paul Bonin and Paul Kline, Jr, requested that the jury hard surface the roads. After listening to all of the road problems in the parish, they said the residents would bear one half of the costs. There are presently 22 homes and 3 in the process of building in the subdivision.

Goss reminded the jurors that the homes are all highly appraised and would add greatly to the parish tax base.

Dusty Sandifer, Police Juror, pointed out that it would also save the parish money by not having to maintain the roads in that district.

Juror Douaine Conner reminded the jurors that residents in the Little Chenier area have been complaining about their road for years.

Parish Administrator Tina Horn reminded the jurors that they had already decided on maintaining the existing asphalt roads and not add more at this time.

George LeBouef asked if he has a road in his district that needs black topping and can come up with one half of the cost if the Jury would do it also. "You know we have to treat everyone equally," he said.

The projects to be completed next year will depend on the funds available and the costs of the projects. The police jury's largest source of income is their road royalty fund which it uses for capital projects. It has come down from $4 million 10 years ago to $803,228 in 1995.

The police jury is expecting $1 million for 1997, and could go higher if the oil boom lasts, which would mean there would be more funds available to carry out their projected projects.

Some of the police jurors suggested that they carry over some of the funds to accumulate enough to do larger projects each year.

The 1997 expenses are projected at $2.2 million, up from the 1996 projected expenditures of $2.1 million.

**BUDGET ADDITIONS**

In other business the jury added the following to the proposed 1997 budget: $4,000 for computer equipment for the Judge; $35,109 for the total budget for the Clerk of Court; Parish Promotion which includes Beachfront Development, $10,000 each for Districts #1 and #2; $8,000 for the tourism commission, which includes a $5,000 appropriation and $3,000 state grant; complete budget approved by the library board; and $10,000 equipment inventory for fire district #9.

The following deletions from the general fund $2,500 Fairs and Festivals Fur festival grant (money for candy and floats is in the parish budget for the Fur Festival promotion.)

# Jetties project funding sought

By GENEVA GRIFFITH

Prospects are good that the Cameron Jetty Fishing Pier and pavilion may soon become a reality. State officials were in Cameron Monday to meet with the Police Jury and agencies involved with the project.

This will be the fulfillment of a dream of two Cameron men, Bill Turnbull and Ed Kelley, both members of the Cameron Lions Club and the Cameron Tourist Bureau.

The idea all started several years ago when the U. S. Corps of Engineers threatened to close off the Cameron jetties because of the danger on the slick rocks for fishermen using them to fish for saltwater fish.

Turnbull and Kelley wanted to keep the jetties open to fishermen and in 1989 they made count of everyone going onto the jetties, and found that many people came from everywhere to fish.

The Corps relented and left the jetties open for approximately 100 feet where a fence was placed so no one could go past it.

When the original jetties were first constructed in 1894 and completed in 1897, they were 7,847 feet long and the depth of the water at mean low tide was 6 1/2 feet on the outer bar. (The river depth at this time is maintained at a depth of from 42-45 feet.)

The original cost was $600,000 and the original jetties started about 1/2 mile from the present entry to the jetties, but the silt built up behind it and was covered over with dirt and vegetation.

In 1939 the War Department provided the Rivers and Harbors money to extend the jetties 9,500 feet on the east and west sides at an estimated cost of $1.5 million.

Realizing the terrific impact to tourism in the parish the Imperial Calcasieu Resource Conservation and Development Council, Inc., (RC&D) backed up local groups and the Police Jury proposed the Jetty Road Fishing Pier Project.

The proposed 2500-foot fishing pier, constructed of 20 inch thick concrete deck slabpilings, will provide a 24-foot by 40-foot covered pavilion for viewing the bird life.

The existing, dangerous rock jetties will be converted to a safe, accessible facility, providing sufficient parking, restrooms, lighting and camping areas for fishermen, bird watchers and sightseers.

Dr. Paul Coreil, with the Sea Grant Program at LSU and formerly with the local Cameron Calcasieu Wildlife and Fisheries Program for the Extension Service, said "This project will benefit people from all over the state and nation, especially fishermen."

The total cost of the proposed project is $1,408,250, and $204,166 has been approved from a grant from the Wallop-Breaux fund and $68,055 grant from the Artificial Reef Program.

Other funds will be requested in six phases, as follows:

Phase I - 726 L.F. x 8' wide pier (from end of Jetty Rd. to the Corps of Engineer's fence) $272,221.

Phase II - One acre parking area and site for public restrooms, concessions and novelty shop, $85,350

Phase III - Construct remaining 1,657 L.F. x 8' wide pier from the public boat launch to the Phase I pier, $570,006

Phase IV - Construct public restrooms, concessions and novelty shop, $300,000

Phase V - Construct proposed observation pavilion for bird watching and photography, $120,690

Phase VI - Construct a 1-acre recreation vehicle park with a waste dump, $60,000.

## Camp breakin

Sometime between July 28 and 31, a camp in the Old Settlement in Grand Lake was broken into and $2,500 worth of household items were taken. This includes stereo systems, answering machine, television, computer, etc.

Anyone having information leading to the arrest or conviction of the person or persons responsible for this crime should call Cameron Crime Stoppers at 775-7867. A reward of up to $500 is being offered. You do not have to give your name - a code number will be assigned to you.

# Presidential vote set for Tuesday

Next Tuesday's election will be a momentous one for Cameron Parish voters. Not only will they be helping elect a president, they will be voting on a new U. S. Senator and a new U. S. Representative and deciding on the fate of video poker and riverboat in Cameron Parish.

The "big" race on the ballot will be the one for president of the United States pitting incumbent Democrat Bill Clinton against Republican Bob Dole, Reform Party Ross Perot and five other candidates of the Libertarian Party; Liberty, Ecology, Community Party; Natural Law Party, Taxpayers Party and the Workers World Party.

Clinton probably got a good boost in this area by paying a visit to Lake Charles last week.

Also attracting a large amount attention is the race for United States Senator to fill the vacancy created by the retirement of long time Democratic Senator Bennett Johnston.

With no incumbent in the race, the two candidates chosen in the first primary have been running neck and neck. They are Republican Louis "Woody" Jenkins and Democratic Mary L. Landrieu.

The race for the 7th Congressional District seat also is without an incumbent since Rep. Jimmy Hayes chose to run for the Senate seat in the primary and was eliminated.

The two candidates chosen in Primary were Chris John of Crowley and Hunter Lundy of Lake Charles. Since the district stretches from Texas border to Lafayette, this race may come down to the candidate who produces the best turnout in his home area.

The other race on the ballot is for members of the Republican State Central Committee, 36th District, with two to be elected. The candidates are Kathleen Boellert, Bill Hart and Sharon LaFuria.

**LOCAL OPTION ELECTIONS**

Parish votes also will vote on two local option elections pertaining to gambling.

Option No. B ask "shall riverboat gaming activities be permitted." The parish presently has no riverboats but since it has navigable rivers, the vote will determine whether any boats may locate here in the future.

Option No. C asks "shall the operation of video draw poker devises be permitted". This would affect a number of bars and restaurants that presently have video poker machines.

(The parish's only truck stop casino is presently closed.)

Ruby Kelley, parish registrar of voters, reported there were 164 absentee votes and about 25 by mail cast by the deadline Tuesday afternoon.

**AMENDMENTS**

There are also three constitutional amendments on the ballot.

#1 To prohibit public retirement for part-time public officials such as legislators, school board members and others.

#2 To autorize municipalities and parishes to donate abandoned or blighted housing to non-profit organizations.

#3 To allow the Legislature to enact sales tax exemptions that apply at the local level, the state level or both.

## Dole top vote getter

Bob Dole was the top vote getter in the mock election conducted at two Cameron parish schools.

At Hackberry, Dole nosed out Bill Clinton 19 to 18 with Ross Perot getting 10 votes.

At Johnson Bayou Dole won 24 to 13 over Clinton with Perot getting 12 votes.

In the race for senate, Mary Landrieu let Woody Jenkins 36 to 19 at Hackberry while Jenkins was ahead 27-23 at Johnson Bayou.

In the race for the U. S. House seat, Hunter Lundy led at both schools--39 to 18 at Hackberry and 31 to 18 at Johnson Bayou.

## Schools to be closed

Next Tuesday is election day which seems a little strange to Louisiana voters since almost all of our elections are held on Saturday.

The one exception is the national presidential election which is always held on a Tuesday. This means that local voters have not voted on a Tuesday for four years.

Cameron parish schools will be closed Tuesday for the election as well as some state offices. However, Cameron parish offices and the post offices will be open.

## Gator theft nets 2 years

A Lake Charles man was sentenced to two years in prison following his conviction for theft of alligators.

Melvin Brent LaSalle, 40, stood trial Oct. 15, and was found guilty of one count of theft of alligators. Although LaSalle was originally charged with two counts, one count was dropped in a plea agreement. Judge Ward Fontenot of the 38th Judicial District sentenced LaSalle to a two year prison term.

LaSalle was arrested March 28, after an undercover wildlife agent purchased two nearly white alligators from him. The alligators had been stolen from West Pass Alligator Farm in Cameron Parish where LaSalle was employed.

LaSalle was prosecuted by Assistant District Attorney Bret Barham.

Wildlife agents participating in the case were Lt. Larry Matherne, Lt. Keith Bell, Sgt. Malcolm Hebert and Senior Agent Glenn Gremillion.

## Cameron teachers pay above state average

Cameron parish teachers are among the best paid teachers in three categories for the 1996-97 school year in the state, according to the Louisiana Association of Educators.

The parish ranked 3rd in the BA-Max category, 4th in the MA Max category; and 6th in the Spec. Max category.

However, the parish ranked 27th in the Spec.-no experience; 28th in PhD-no experience; 29th in BA--no experience; and 29th in MA--no experience.

St. Charles parish was first in six of the categories. Calcasieu was first in two divisions and near the top in most of the others.

For most of the years since the teacher salary rankings have been published, Cameron parish has ranked first or among the top three or four systems in the state. This was due to good salaries the parish was able to pay because of oil and gas income. A big decline in these revenue has prevented the parish from retaining these standings.

LAE President Mary Washington said the state teacher association was committed to raising Louisiana's overall ranking to the Southern average with a 3-year salary proposal funded by a one-cent sales tax.

This year, she said the average salary for a beginning teacher in Louisiana with a B. A. degree and no experience is $20,354. Cameron parish is slightly above the average with $20,650.

However, the Cameron parish salary for a teacher with a B.A. degree and maximum experience is $35,782 (3rd in the state) as compared to the $29,792 average.

A free bingo for senior citizens 60 years and older of the Johnson Bayou-Holly Beach area will be held at 9 a.m. Monday, Nov. 4 at the Johnson Bayou recreation center.

The event is sponsored by the recreation board and the Knights of Columbus.

# Tarpons take win over Lake Arthur

By JOE MUELLER

The South Cameron Tarpons raised their district worksheet to 2-1 with a 12-0 win over the Lake Arthur Tigers.

The Tarpons are tied for second with the Iota Bulldogs in the District 6AA race.

The Tarpons and Tiger sloshed through the game, which was played in a torrential rainstorm.

The weather was the main cause as the teams combined for 13 fumbles in the contest. The Tarpons fumbled 9 times and lost 3, while the Tigers fumbled 4 times.

The Tarpons scored late in the second quarter on a one yard run by Cory Broussard to lead at halftime 6-0. They scored their second touchdown early in the second half. The second touchdown was also scored by Cory Broussard as he broke through for a 29 yard run.

Broussard was the top rusher for the Tarpons as he rushed for 86 yards on 16 carries.

Brandon Conner had 43 yards and Steve Moore 22 for the Tarpons.

The Tarpon defense limited the Tigers to only 72 yards rushing and when they tried to throw the ball the Tarpons picked off two passes.

The Tigers were forced to punt the ball five times.

South Cameron, due to the rain and the fact that they had the lead, tried only one pass on the night.

In the big game in the district, Notre Dame edged Iota 12-7 in overtime.

By JOE MUELLER

The South Cameron Tarpons and the Iota Bulldogs square off at Tarpon Stadium this Friday to decide the runner-up spot in District 6AA. Kickoff is scheduled for 7 p.m.

The Bulldogs bring a 7-1 overall record and a number 8 ranking in the state prep poll.

last week the Bulldogs lost a heart breaker to the Notre Dame Pioneers 13-7 in overtime.

The Pioneers scored their tying touchdown with only 14 second left in regulation, then scored the only touchdown in overtime.

The Tarpons last week eased to 12-0 win over the Lake Arthur Tigers.

The Bulldogs and Tarpons have some common opponents this year. Notre Dame beat Iota by 6 and the Tarpons were a 34-6 victim of the Pioneers. Against North Vermilion both teams were victims - Iota by a 28-0 score and South Cameron by a 56-30 score.

The Bulldogs big thing all year has been defense as they have given up only 52 points in 8 games. The Tarpons have not been any slouch in points allowed as they have given up 81 points in 7 games. South Cameron has three shut-outs as they held DeQuincy, Vinton and Lake Arthur scoreless.

Both teams have strong running games. The Bulldogs Josh Ortego has averaged over 100 yards on the ground and the Tarpons can counter with Brandon Conner, who has averaged over 80 yards per game. Both players were limited in rushing last week due to the heavy rains and muddy field.

Ortego has averaged a touchdown per game.

Throwing the ball the Bulldogs also have an edge as they have completed half of their passes for 568 yards, while the Tarpons John Pradia is 20-42 for 227 yards.

The teams have much at stake as the Tarpons realistically must win to maintain their hold on second in district if they hope to make the playoffs.

The two teams have a history of hard fought games. Last year Iota edged the Tarpons 28-21.

**THE PETA PROTEST**

Earlier we had written about the People for the Ethical Treatment of Animals, better known as ARA, Animal Rights Activists, who were to go to fishing tournaments around the U.S. and protest to stop fishing at a Bassmasters tournament. Despite their threats to disrupt the Bassmasters classic event in Birmingham, Ala., only two members protested.

There were for several months a lot of media attention of what all the activists were going to do, had one dressed as fish and the other handing out PETA materials. They were ignored by the media and by the public as well. They also appeared at the wrong end of the Civic Center, as nearly 20,000 spectators entered on the opposite side of the building.

**FISHING NEWS**

Lots of good redfish are being caught around Lambert Bayou, the old jetty area and up in the marsh. Some reds measuring 27 to 32 inches were caught out of Rockefeller Refuge last weekend. It seems October is living up to its reputation as a great month for saltwater anglers. Anglers report fish from Turner's Bay to the Cameron jetties and our other coastal inlets.

**COMMERCIAL NEWS**

Oyster season is open and the fishermen are doing fairly well. There are some more new rules this year, but our commercial fishermen can handle this as they're used to plenty of rules and surprises.

Commercial mullet season opened also and will stay open until the quota is reached or dates set for closure.

**HUNTING NEWS**

There's more hay being cut and more farmers and ranchers are planting rye grass and that's helping the dove hunters. This second split is still fair, however some fields are great and producing birds. This second season is over on Friday, Nov. 8. That's good as on Sat., Nov. 9, is the opening of duck, coot and goose season. Duck and coots will be open through Dec. 1. It will reopen Dec. 21 through Jan. 16. Blue and snow geese, Nov. 9 through Feb. 23, statewide. speckle belly, Nov. 9-Dec. 8. Second part, Dec. 21-Jan. 29, statewide. We have a few ducks coming down each day and hoping for a good opening.

Our deer hunters (gun hunt) are doing very well. Quite a number of deer including either sex on opening day were reported killed. This also will close Dec. 8, and reopen Dec. 14.

There are a number of reports of illegal hunting, trespassing and shooting on other people's property and shooting deer out of moving boat, plus shooting illegal (too small) fawn deer. This is what makes hunters look bad and landowners upset.

# Meet our defensive line.

Sometimes when Mother Nature unleashes her power, our customers might lose theirs. But not for long.

Because on our playing field, our linemen are prepared to serve you 24-hours a day looking out for you — and for one another.

We're ready to mobilize quickly and effectively to restore power. Whenever and wherever we're needed.

So when we need an extra hand across town or across the state line, we pull our team together — dispatching crews from distant service areas to places that need help fast.

It's the neighborly thing to do.

At Entergy, we're always thinking about you, so you don't have to think about us.

# Grand Lake 4-H Club news

By TODD TAYLOR

The Grand Lake Jr. 4-H club meeting was held on Oct. 10. Todd Taylor gave a report on the Officers Training. On Oct. 1, 4-H officers attended the Parish Officer Training at the Cameron Parish courthouse. Attending from Grand Lake were Gregorie Theriot, Tyler Theriot, Keri Cronan, Scott Myers, Todd Taylor, Justin LaBove, Sheena LaBouef, Brett Wicke, Holly Manuel, Laura Savoie, and Kelsey Chesson.

Judge Fontenot and Clerk of Court Carl Broussard talked to the 4-Hers.

Brett Wicke, CRD Chairman, requested that we bring in old shoes to support KPLC's shoe drive. There will be a box in the office to drop them off.

Scott Myers and Holly Manuel went to Memphis, Tenn., to show their pigs. Scott won 4th in show and 6th in breeding. Holly won 2nd and grand champion.

**TALK AROUND**

Many folks to our north are still concerned about high levels of mercury in their water and the mercury level in the fish we eat. It is said that 0.5 parts per million or above is considered to be dangerous. Some of the lakes to our north that have from 9.25 to 9.5 of mercury levels are Lake Vernon, Anacoco lake, the Calcasieu River, also it's West Fork, Bundick Lake and Bayou Nezpique. It kind of makes you think as this water comes down our way.

**SNOW GEESE**

At the turn of the century, even before waterfowl had a season or a bag limit, there were only about 3,000 snow geese in existence. Now today, with all the conservation and management, 1995 brought more than 600,000 snows down the flyway, and we're expecting a record breaking population for 1996. Now, these larger numbers may not really be welcome as some would expect. There are so many in number already that they hit some refuges hard and this overcrowding forces out many ducks from the refuge.

Farmers also complain of costly crop damage, where thousands of snow geese can eat out a field, roots and all. This is why we'll see such a long goose season, from Nov. 9 through Feb. 23 statewide on snows and blues. Bag limits on these two will be 10 daily. Possession limits are 30 for blues and snows.

However, because of their habit of staying in large flocks and going out together to feed in one field today and another field tomorrow, snow geese are particularly difficult to hunt.

Whenever you think you know where they are going to land, they land somewhere else. They're real smart and fool many a hunter.

Well, when the darkness comes early at night we know it's winter time. We know it's hunting time and we also know we again moved our clocks away from Daylight Savings Time to what we call the old time.

**DID YOU KNOW?**

Now that it's oyster season, did you know as many as 100 pearls have been found a single oyster?

## Cameron Gardening

By Cyndi Sellers

Many folks are getting brown patches in their lawns after all the wet weather we've been having. This is caused by a fungus and needs to be treated with a fungicide now, before it gets worse.

Fungicides containing Benomyl, aprodione, chlorothalonil, or PCNd should work. Resist the temptation to fertilize to try to get a little more green before frost. New growth will be weak and prone to disease and winter kill. You could apply a foliar iron spray instead.

Plant winter rye grass through early November for a green lawn all winter. Choose a perineal (comes back every year) rye variety or mix. It will stand the cold better than annual kinds. Just spread the seed over the existing lawn at recommended rates, and rake it in. Mow the grass first, about a half inch shorter than usual. You may feed the rye grass twice during the winter with turf fertilizer.

November is the best time to plant fruit trees and vines. Be very careful to get varieties that are suited to our coastal climate. Most fruit trees require a certain amount of cold weather (below 45 degrees) in order to bloom and leaf out well. We don't have much of that some winters, so variety is very important.

Where and how to plant is also very important. In Cameron Parish we have two main types of soil - sand and clay. Each requires a different planting method. Unless you are at the top of a sandy ridge, you will need to plant your trees on a raised "turtleback" bed for drainage. The bed should be 12 to 15 inches high and 8 to 10 feet in diameter, gently sloping away from the center. This will keep water moving past the roots instead of puddling and drowning the young tree.

No matter what you've heard elsewhere, do not add peat moss around the roots unless you are on that high sandy ridge. In heavy soils, peat moss acts like a sponge and holds even more water around the roots, suffocating and killing the tree. For very dry, sandy well-drained soil, organic material would help hold moisture during dry weather.

Always dig a big hole and backfill with the same soil you took out. The wider the hole, the more roomthe roots will have to spread out. Keep the root area weeded to reduce competition. It is not necessary to prune the tops of trees transplanted in fall and winter. They are going dormant already and need all their leaves to help grow roots. Just make the roots happy, and the leaves will be happy, too.

Until next time, happy planting.

NOTICE FOR BIDS

Acting under the authority of the Legislature of the State of Louisiana, the Cameron Parish School Board will receive sealed bids for the leasing of all surface rights including the rights of range, trapping, hunting, fishing, and farming, on the following described lands:

SECTION
TOWNSHIP
RANGE DESCRIPTION
16-12-10 Partial section, containing 435 acres, more or less, bordering Black Lake; three (3) miles West of Calcasieu Lake.
16-15-6 Bordering East side of lower Mud Lake; 1 1/2 miles South of La. Highway 82 in Grand Chenier; excluding that portion of land for lease as industrial site, containing 0.787 acres.

(A description map may be seen in the School Board Office during normal working hours.)

All bids must be sealed; the envelope marked "Bid Section 16, Township ---, Range ---" and may be forwarded through the U.S. Mail to the Cameron Parish School Board, P.O. Box W, Cameron, La. 70631. Bidder must offer an annual rental of not less than $2.00 per acre for a lease with a primary term of four years and nine months to end July 31st, 2001. Annual renewal rentals will be due each year by July 31st, in order to continue the lease in effect. Each payment or certified or cashier's check in favor of the Cameron Parish School Board for the amount of the annual rental for the first year shall accompany and be deposited with the bid (no checks other than certified or cashier's check acceptable.) OFFICIAL CHECKS, BANK CHECKS, OR OFFICIAL TELLER CHECKS ARE NOT ACCEPTABLE, and the rental thus deposited shall be forfeited to the School as liquidated damages if the successful bidder fails to enter into written contract in accordance with his bid within ten (10) days after acceptance by the Board.

If farming rights are utilized, bidder may offer annual rental plus a fractional part of not less than one-sixth (1/6) of any and all crops produced and saved during the year. The value of the one-sixth (1/6) share shall not be considered in the awarding of the lease unless the bidder guarantees a specific amount which shall be added to and accompany the bid. Should one-sixth (1/6) value of crops be less than the cash guarantee paid at the time of the lease, the Cameron Parish School Board shall demand additional payment as necessary to bring the value adjustment to a full one-sixth (1/6) of crops produced and harvested on any and all listed sections, and thirty-five percent (35%) of cash market value of all alligators harvested by lessee. Lessor reserves the right to gather and dispose of alligator eggs from the lease premises, without any compensation to lessee.

The surface rights and privileges granted in the lease are restricted to range, trapping, hunting, farming, and fishing and these rights shall in no way, manner, or form interfere with the granting of a mineral lease or the full utilization of all rights and privileges granted in any mineral lease.

It is further agreed and understood between the contracting parties hereto that this lease shall be heritable, but shall not be subject to mortgage, pledge, hypothecation, assignment and sale, nor shall the said lease be assigned, subleased, or otherwise transferred by the said lessee unless authorized prior written approval of the lessor. Such assignment, sublease or transfer of said lease shall be subject to terms and conditions as may be deemed proper by the lessor. Terms and conditions for subleasing may be obtained by contacting the Cameron Parish School Board land manager.

The Cameron Parish School Board does not warrant or provide ingress or egress to the leased premises. Ingress and egress is the sole responsibility of lessee.

Bids will be received until the hour of 4 p.m., Tuesday, November 12, 1996 at which time all bids received will be opened and considered in public session of the Cameron Parish School Board in Cameron, Louisiana.

The Board reserves the right to reject any and all bids received.

LEGAL NOTICE
STATE OF LOUISIANA,
OFFICE OF CONSERVATION,
BATON ROUGE, LOUISIANA

In accordance with the laws of the State of Louisiana, and with particular reference to the provisions of Title 30 of Louisiana Revised Statutes of 1950, a public hearing will be held in the Conservation Auditorium, 1st Floor, State Land & Natural Resources Building, 625 North 4th Street, Baton Rouge, Louisiana, at 9:00 a.m., on Wednesday, November 6, 1996, upon the application of Shell Western E&P Inc.

At such hearing the Commissioner of Conservation will consider evidence relative to the issuance of an Order pertaining to the following matters relating to the Q Sand, Reservoirs B and D, and R Sand, Reservoirs A and B, in the Black Bayou Field, Cameron Parish, Louisiana.

1. To establish rules and regulations governing the exploration for and production of gas and condensate from the above sands and reservoirs.

2. To revise the existing units for the Q Sand, Reservoir B (Q RB SUA) established by Office of Conservation Order No. 638-G-1, effective May 1, 1972, and the R Sand, Reservoir A (R RA SUA) established by Office of Conservation Order No. 638-V, effective January 8, 1980, by dissolving said units and simultaneously creating new units for the Q Sand, Reservoir B and the R Sand, Reservoir A.

3. To create single drilling and production units for the Q Sand, Reservoir D, and for the R Sand, Reservoir B.

4. To force pool and integrate all separately owned tracts, mineral leases and other property interests within each of the proposed units, with each separate tract sharing in unit production on a surface acreage basis of participation.

5. To designate the SWEPI R Theriot No. 3 Well (Serial No. 218787) as the substitute unit well for the revised Q RB SUA and the revised R RA SUA, to designate the SWEPI - M Reina No. 1 Well (Serial No. 219413) as the unit well for the Q RD SUA and the R RB SUA, to continue the designation of Shell Western E&P Inc. as operator of the revised Q RB SUA and the revised R RB SUZ, and to continue in effect all of the pertinent provisions of Office of Conservation Order Nos. 638-G-1 and 638-V.

6. To obtain an exception to the provisions of Statewide Order No. 29-E.

7. To consider such other matters as may be pertinent.

The Q Sand, Reservoir B, in the Kings Bayou Field, Cameron Parish, Louisiana, is defined in Office of Conservation Order no. 638-G-1, effective May 1, 1972, and is further defined as that gas and condensate bearing sand occurring in the interval from 13,329' to 13,356' measured depth (13,096' to 13,120' TVD) in the electric log of the SWEPI - R Theriot No. 3 Well (Serial No. 218787), located in Section 35, Township 14 South, Range 7 West.

The R Sand, Reservoir A, in the Kings Bayou Field, Cameron Parish, Louisiana, is defined in Office of Conservation Order No. 638-V, effective January 8, 1980, and is further defined as that gas and condensate bearing sand occurring in the interval from 13,638' to 13,685' measured depth (13,367' to 13,408' TVD) in the electric log of the SWEPI - R Theriot No. 3 Well (Se rial No. 218787), located in Section 35, Township 14 South, Range 7 West.

Plats are available for inspection in the Office of Conservation in Baton Rouge and Lafayette, Louisiana.

All parties having interest therein shall take notice thereof.

PROCEEDINGS

Minutes of the Regular Meeting of the Cameron Parish Gravity Draining District No. 3 held on Tuesday, September 17, 1996, at 2:30 P.M. at the Cameron Parish Police Jury Annex.

Members Present: Edwin Quinn, Scott Henry, Earl Guthrie, and Scott Henry.

Members Absent: E.J. Drounet, excused.

Others Present: Myles Hebert, Charlie Pettifer, Scott Durham, Roger Vincent, Paul Yakupzack, Glen Harris, Lonnie Harper, George LeBoeuf, Kevin Savoie, Malcolm Savoie, Fats Dupont, and David Richard.

A motion was made by Scott Henry, seconded by Earl Guthrie, and unanimously carried to approve the minutes of the August 20, 1996, regular meeting as written.

A motion was made by George Kelley, seconded by Earl Guthrie, and unanimously carried to approve the Financial Statement for the month of August, 1996.

A motion was made by Scott Henry, seconded by Earl Guthrie, and unanimously carried to approve the following bills for payment.

1. Cameron Parish Pilot $110.00
2. Cambell Oil & Gas Company $583.20.

President Quinn reported that it is time to approve a tax millage for the year. He stated that at the present tax millage we would lose $15,000 because of reassessments. We have the option of Recession-Millage to 7.55% to retain the same tax income for the district as compared to last year. A motion was made by George Kelley, seconded by Scott Henry, and unanimously carried to adopt the following resolution relative to renewal of Maintenance Tax Millage rate within the district for the year 1996:

RESOLUTION

BE IT RESOLVED by the Board of Commissioners of Gravity Drainage District No. 3, Parish of Cameron, Louisiana, in regular session convened on the 17th day of September, 1996, that the following mills be and are hereby levied upon the dollar of the assessed valuation of all property subject to state taxation within the said District, for the year 1996, for the purpose of raising revenues for the following account:

GRAVITY DRAINING DISTRICT NO. 3, 7.55 MILLS, MAINTENANCE

ADOPTED AND APPROVED this 17th day of September, 1996.

Scott Henry reported that we got quotes on four drip pans to be placed under the pumps within the district. He said he contacted four different local welding companies, and three quotes have come in under $10,000. Tony's Welding was the low quote at $5,450.00, and he has been told to order the materials and to perform the work when he can. It was agreed that Scott Henry will contact the other quoting companies to thank them for their quotes and to let them know they didn't come in as the low estimate.

Lonnie Harper presented the contracts for Project No. 1996-94 Drainage Improvements in the Big Pasture Area. It was agreed that this matter will be addressed at the October meeting. Mr. Harper stated that he will probably be at least a month before Mr. Ancelot can begin the work.

Glenn Harris presented the Water Management Report for the Cameron-Creole Watershed. He reported that water levels did come up during the last month. The last bay was opened for part of the month for the first time since March. Since salinities and tides were coming up, Mr. Harris stated that the structures were closed to prevent even higher salinities. He then displayed graphs of water and salinity levels from 1991 to 1996, and these showed trends of high tides during the fall of the year, accompanied by high salinities.

Water levels are currently continually going down with closed gates, he said. Later into November, when tides are not running up, the leaser rain events will probably take place, and therefore it will be easier to reduce salinities and water levels at that time. Glenn Harris requested a minimum of gate manipulations at this time of year. Mr. David Richard of Stream Properties asked the status of Project CS-17. Glenn Harris said that materials should be delivered in Cameron today, and mobilization will begin Monday or Tuesday of next week. It will probably take roughly 6 weeks to complete the project, and NRCS is the contract administrator. Roger Vincent stated that without additional water, his users (fisherman, trappers, hunters, etc.) cannot get around and utilize the land. President Quinn stated that the Cameron-Creole Watershed is a marsh restoration project, and the Management plan must be adhered to. It was stated that we have a choice of satisfying the needs of the user groups (recreational and commercial fishermen, hunters and trappers) or satisfying the purposes of the Cameron-Creole Watershed Project. We must choose. Mr. Quinn and the Drainage Board agrees that as long as the user groups can utilize the Cameron-Creole Watershed with the understanding that water level boundaries will be maintained as designated in the original Management Plan permit, both can be compatible. Mr. Glenn Harris said that water levels are lower now than they have been at this time of year in the last five years. After additional discussion, Glen Harris and Paul Yakupzack agreed that they will immediately begin to try to get water levels to 1.0.

Malcom Savoie stated that several people have contacted him to report that the North Creole drainage lateral needs to be cleaned out. It was agreed that Lonnie Harper will check to see if the permit and rights-of-way are in place to do such a clean-out. It was stated that this lateral is currently plugged up. Mr. Harper will look at the situation and report back to the Board next month.

There being no further business, the meeting was adjourned.

PUBLIC NOTICE
CAMERON PARISH COASTAL
USE PERMIT APPLICATION

Interested parties are hereby notified that the Coastal Management Section of the Cameron Parish Police Jury has received the following apparently complete application for a Coastal Use Permit in accordance with the rules and regulations of the Louisiana Coastal Resources Program and R.S. 49,213.1, the State and Local Coastal Resources Management Act of 1978, as amended.

L.C.U.P. Application #961101

Name of Applicant: Edward Paul Trosclair & Melba A. Trosclair, 1426 Loretto, Sulphur, LA 70663

Location of Work: Big Lake, Pelican Point, Section 21, T12S, R9W, Cameron Parish, Louisiana.

Character of Work: To construct a boat slip for two pleasure boats. This boat slip will be 8' deep x 20' long x 25' wide. This is not a wetland.

The decision on whether to issue a permit will be based on an evaluation of the probable impact of the proposed activity in accordance with the state policies outlined in R.S. 49:213.2. The decision will reflect in the national concern for the protection and utilization of important resources. The decision must be consistent with the state program and approved local programs for affected parishes and must represent an appropriate balancing of social, environmental, and economic factors. All factors which are relevant to the proposal will be considered; among these are flood and storm hazards, water quality, water supply, feasible alternative sites, drainage patterns, historical sites, economics, public and private benefits, coastal water dependency, impacts on natural features, compatibility with existing land and cultural setting and the extent of long term benefits or adverse impacts.

Certification that the proposed activity will not violate applicable water and air quality, laws, standards and regulations will be required before a permit is issued.

Any person may request, in writing, within the comment period specified in this notice, that a public hearing be held to consider this application. Request for public hearings shall state, with particularity, the reasons for holding a public hearing.

Plans for the proposed work may be inspected at the Cameron Parish Police Jury Annex Building, Coastal Management Division, Courthouse Square, P. O. Box 366, Cameron, Louisiana, (318) 775-5718. Written comments should be mailed within 25 days from the date of this public notice to Cameron Parish Police Jury, Coastal Management Division, Post Office Box 366, Cameron, Louisiana 70631.

## G. Chenier 4-Hers attend "learning" camp recently

By RUSTY TAYLOR

Mandy Broussard, Keri Cronan and Sheena LeBoeuf representing the Grand Lake 4-H Club, were involved in "Looking Good...Mission Possible: With Fashion, Food and Fitness" 4-H Camp Grant Walker near Pollock.

The learning weekend was experienced by over 130 12 and 13 year old project members and their leaders.

During the weekend the 4-Hers conducted food and textile experiments, participated in fitness, grooming, nutrition and food science lessons, created fashion and fitness accessories, completed a decorated vest, learned modeling techniques, planned a fashion show, modeled their outfits, demonstrated teaching visuals and kits, and constructed games to teach others.

The campers made plans for "Reach Five, Teach Five in Five Easy Lessons" to use for teaching others in their home parish. The weekend was "Mission Possible" with fun learning activities.

## ★ Where Do the Candidates Stand on Abortion? ★

BOB DOLE

BILL CLINTON

### PARTIAL-BIRTH ABORTION

**BOB DOLE** led the fight in the U.S. Senate for the Partial-Birth Abortion Ban Act. He has stated "When I get the Partial-Birth Abortion bill, I won't veto it, I'll sign it."

**BILL CLINTON** vetoed the act to end partial-birth abortions and allowed partial-birth abortions to continue with no restrictions.

***The partial-birth abortion procedure -- used from the fifth month on -- involves pulling a living baby feet-first out of the womb, except for the head, puncturing the skull, and suctioning out the brains. The great majority of partial-birth abortions are performed on healthy babies, for entirely non-medical reasons.***

### GOVERNMENT FUNDING OF ABORTION

**BOB DOLE** opposed tax funding of abortions in the Clinton health plan. He fought for the Hyde Amendment in the Senate, blocking the use of tax money for abortion on demand.

**BILL CLINTON** proposed a health care plan that would have funded abortion on demand with taxpayers' money. He urged the repeal of the Hyde Amendment, in an attempt to make taxpayers fund more than 600,000 Medicaid abortions every year.

### ABORTION WITHOUT PARENTAL CONSENT

**BOB DOLE** opposed the "Freedom of Choice Act," which would have nullified virtually all state regulations on abortion -- even waiting periods and laws requiring parental consent.

**BILL CLINTON** boasts that he has "fought against" parental consent laws in Arkansas, and says "I'm opposed to parental consent, by the way, and I oppose a bill that would do that."

### ROE vs. WADE

**BOB DOLE** has repeatedly joined other members of Congress in challenging the *Roe v. Wade* decision. **"It is my long-held view that *Roe v. Wade* should be overturned. In the past, I have supported a constitutional amendment to achieve this goal, and I continue to support this effort today."**

**BILL CLINTON** says he has "always been pro-choice" and has "never wavered" in his "support of *Roe v. Wade*." **"I have believed in the rule of *Roe v. Wade* for 20 years** since I used to teach it in law school." **(*Roe v. Wade* allows abortion for any reason, even as a method of birth control, even in the late stages of pregnancy.)**

**JACK KEMP** -- "It is impossible to speak credibly about compassion for the weak while allowing the tragedy of partial-birth abortion. These children -- just moments away from their first breath -- must be allowed to live. But we are not just condemning partial-birth abortions, we are condemning a flagrant disregard for the sanctity of human life." Jack Kemp had a 100% pro-life voting record in his 18 years in the U.S. House of Representatives.

**AL GORE** supports the current policy of abortion on demand which allows abortion for any reason ... even as a method of birth control. He supports tax funding of abortion.

**ROSS PEROT**

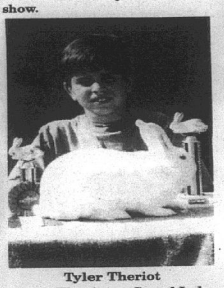
THE GRAND CHENIER Elementary kindergarten class made their own Halloween T-shirts with paint and sponges and wiggly eyes. They will use them to go Trick or Treating Thursday night.

## Senator is named

District 25 State Senator Gerald "Jerry" Theunissen, who officially took the oath of office last month after a special election for the Senate seat, is taking on new duties as a member of the Senate Committee on Education and the Senate Committee on Agriculture. Senate President Randy Ewing recently appointed Senator Theunissen to the committee posts.



Theunissen has a special interest in both education and agriculture. While in the House of Representatives, where he was serving his second term before moving to the State Senate, the 63 year old Jennings resident served on the House Agriculture Committee and has repeatedly placed education reform on the top of his priority list.

Senator Theunissen is currently involved with the Senate Education Committee, "Look, Listen and Learn Tour", an ongoing effort to get input from citizens on how best to change our education system.

Gregoire Theriot

Gregoire Theriot, a Grand Lake Jr. 4-her, exhibited the Best Opposite Sex 6 class, New Zealand White Sr. Doe, at the Cal-Cam youth rabbit show.

Tyler Theriot

Tyler Theriot, a Grand Lake Jr. 4-her, exhibited the Best of Breed 4 class, mini rex broken black jr. doe and the Best of Breed 6 class, best in show, New Zealand White Jr. Doe at the Cal-Cam youth rabbit show, on October 16, 1996, in Sulphur, La.

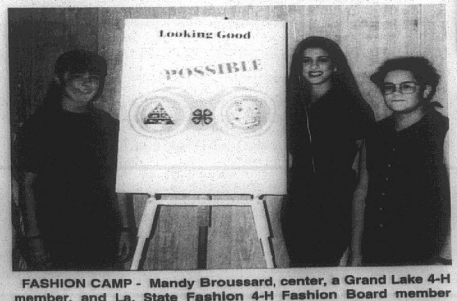
## Help . . . !

Help! The Cameron Pilot has been inundated in recent weeks with photographs submitted by various civic groups, school organizations and individual readers.

Because our space is limited, not all of these photos can be published at this time. We will publish as many as possible in future issues.

Some pictures cannot be used because they are too dark or because they are not deemed newsworthy. These will be returned only if they were accompanied by a self-addressed stamped envelope.

## WalkAmerica event set



The Grand Lake High School FBLA Chapter will sponsor WalkAmerica, Sat., Nov. 9. This is a five-mile walk to benefit March of Dimes, Project Help. The walk will be held from 1-4 p.m. on the track behind the school.

Everyone who participates is asked to try to walk the five miles. Prizes will be awarded for participation; money should be turned in on the day of the walk.

The walk will conclude with a picnic lunch for all of the participants and volunteers. For more information on how to volunteer or to sponsor a child, call Brenda Young at 598-2986.

## Visit cancelled

A visit by U. S. Senator John Breaux and senate candidate Mary Landrieu to the Grand Lake Community Center Wednesday morning was cancelled due to scheduling conflict.

FASHION CAMP - Mandy Broussard, center, a Grand Lake 4-H member, and La. State Fashion 4-H Fashion Board member assisted in conducting the "Looking Good...Mission Possible: With Food and Fitness Camp. Sheena LeBoeuf, far left) and Keri Cronan, far right, Grand Lake Jr. 4-H members attended the camp.

CAMERON ELEMENTARY 4-H members who took part in the recent cleanup of Cameron Parish beaches are pictured above. Hundreds of volunteers picked up trash along the beaches.

Seventh grade: Samantha Trahan, Julei Delaunay, Lynn Nguyen.

## Miss Cameron pageant set for Jan. 10

The Louisiana Fur and Wildlife Festival will be held Jan. 9-12. The Miss Cameron Parish Pageant will be Fri., Jan. 10. Contestants must be 17 years old and not older than 21 by Jan. 1, 1997. They must have resided in their local community for one year.

The applications and information for the pageant has been distributed to all high school seniors. If anyone would like an application for the pageant, it can be picked up in the office of any parish high school. Also, Angelia Conner, pageant director, may be contacted at 542-4014.

All applications are due by Fri., Dec. 13. No late applications will be accepted.

## Hunters have responsibilities

A hunter's responsibilities do not end after cleaning a deer at camp. Hunters must also maintain proof of the animal's sex.

"State law requires that proof of sex be maintained," said Maj. keith LaCaze of the Department of Wildlife and Fisheries. "Hunters can do this by leaving the head attached to the carcass or leaving the sex organs attached to a hindquarter."

This holds true when a hunter skins a deer afield or in camp. If a deer is divided between two or more hunters this requirement still pertains to the hunter who harvested the deer.

Hunters who get a portion of the meat must tag their portion. Tags must state the name, address and big game license number of the hunter who killed the deer, and the sex of the animal.

## Haunted house

A haunted house will be held Thursday, Oct. 31 behind the Sacred Heart Catholic church in Creole from 6 to 9 p.m.

BEACH SWEEP - Heather Taylor, left, and Mandy Broussard, members of the Grand Lake Sr. 4-H Club helped with the recent Cameron Parish Beach Sweep.

KRISTI JO Dupuie, the Louisiana Cattlemen's Assn. Queen, and Michelle Trosclair, Miss Cameron Parish, were visiting Queens at the Louisiana Cattle Festival in Abbeville Oct. 4.

## Library to sell books

Beginning Mon., Nov. 4, and until all the items are sold the Cameron Parish Library will hold its first annual book sale. Every year the library is required to weed at least 5% of its holdings. As there is no room at the library for storage, these items must either be sold or disposed.

This year as the volume of materials to be removed is so large, the library will practically be giving books and magazines away. Every hardcover item will sell for 10 cents and every soft cover item for 5 cents.

For more information on the sale or other library programs, call the library at 775-5421 or 775-5429.

## Painting is "best"

"The Drought Breaker," an oil painting by Greg LeBlanc of Cameron was named "Best of Theme" at a "Planet Earth" exhibit at the Associated Louisiana Artists Gallery in Lake Charles.

The gallery is open daily from 10 a.m. to 3 p.m. The exhibit will be up through December.

A million times we've missed you, a million times we've cried. If love could have saved you, you never would have died.

We knew God had to take you, but you did not go alone - for a part of us went with you the day He took you home.

God gave us the strength to face it and the courage to bear the blow. But what it means to live without you, no one will ever know.

WE LOVE AND MISS YOU

Love Lives On

Those we love are never really lost to us – We feel them in so many special ways – Through friends they always cared about and dreams they left behind, in beauty that they added to our days...in words of wisdom we still carry with us and memories that never will be gone.

Those we love are never really lost to us – For everywhere their special love lives on. Gone from our sight but never from our memories. Gone from our touch but never our hearts.

We Love and miss you very much,
Richard, Destinee and Debra

# 6,563 are registered

-CAPITAL NEWS-

Fewer than 10 additional Cameron Parish citizens are eligible to cast ballots Nov. 5, than could have voted three months earlier.

According to the latest quarterly report from the state Department of Elections and Registration, the parish had 6,563 registered voters on the books as of Sept. 28. While that is only five more than were signed up at the end of the previous quarter, the number eligible to vote in the presidential election could be slightly higher since voter registration did not close until Oct. 11.

The number of white voters in the parish rose by 13 to 6,204 at the end of the third quarter. A decline of seven black voters brought their total to 342 in the parish, and the number of voters registered as "other" races dipped by one to 17.

Neither of the major parties grew significantly during the quarter. The 10 newly registered Republicans in the parish set the party's tally at 638 by the end of the third quarter. The 5,145 voters registered as Democrats reflected a loss of 10 from the number on the books as of July 1. However, "other party" gains of 25 voters boosted that category to 780 in the parish.

Statewide, an additional 55,306 voters registered during the third quarter of the year, more than double the 26,448 voters added the previous quarter. Total registration by Sept. 28, reached over 2.5 million.

An extra 34,700 white voters put their total at 1.74 million, and 14,959 additional black voters brought their total to 724,831 registered voters. Those registered as other races grew in number by 5,577 to reach 50,483 by Sept. 28.

Of the new registrants, those opting for neither major party outnumbered new Democrats and Republicans. An additional 19,246 voters classified with "other" parties set the category's total at 342,872 on Sept. 28. Republican gains of 18,7090 registrants slightly outdistanced the Democratic Party's 17,351 new voters. Final figures for the Democrats were 1.64 million and for Republicans, 529,259 voters.

# Needs told for Cameron by officials

By GENEVA GRIFFITH

Several state dignitaries, including Senator Jerry Theunissen and Rep. Dan Flavin, met with the Cameron Police Jury Monday to discuss the needs of the parish.

Also in attendance were Dr. Paul Coreil, with the LSU Sea Grant and Mike Liffman, also with the Sea Grant Program, both from Baton Rouge, and Charles C. Acjane, president of the Imperial Calcasieu Resource Conservation and Development Council from Jennings.

The Police Jury, which has been concerned about the needs for funds to repair roads which were blacktopped several years ago when the funds were plentiful, but are now badly in need of repair.

The 7-1/2 mile Trosclair (or Front Ridge) road, which is highly traveled between Oak Grove and Cameron, is particularly in bad shape.

Sen. Theunissen suggested that the Jury present a resolution to the DOTD to swap out this road with other roads of an equal amount to make it a state road instead of a parish road, so the state can maintain it.

He suggested that a count be made so it can be determined how many vehicles are using the road. It was pointed out that it is highly traveled by 18-wheelers that pass through the parish, especially with the increased oil activity in the parish.

George LeBouef asked if the present road from Creole to lake Charles could be widened to have large "Texas Shoulders" to provide for stops for bird watching and sight-seeing. He said added tourist business would be brought through the parish by the new designation of the Creole Nature Trail as a National Scenic By-Way.

Mrs. Horn added that turnouts on the Hackberry highway have already been approved, but the work has not yet begun.

Brent Nunez said the parish is badly in need of a bridge over the Calcasieu River, or a tunnel under the river, which would be more feasible and possibly not as costly.

Rep. Dan Flavin said that right now the Priority No. 1 for the parish is the Johnson Bayou road which is washing away with each high tide that goes over the road and each storm and hurricane that threatens the area.

"Thousands of acres will be lost all the way to Hackberry if something is not done to stop the erosion of Highway 82 into the Gulf," he said.

Thank You,

THE CAMERON FOOD MART would like to thank all of our customers for being patient during the repair work done to the store and deli.

Also we would like to thank Billy, Rick, Scott and Matt for their help.

# Clinton is winner

By GENEVA GRIFFITH

Cameron Parish voters on Tuesday decided to retain video poker, while favoring President Clinton for re-election, Woody Jenkins for U.S. Senate and Hunter Lundy for the U.S. House.

They also approved riverboat gambling and passed Constitutional Amendments, 1, 2 and 3.

Results are complete but unofficial from the Cameron Parish clerk of court.

Voter turnout was 63 percent. There were 6,581 Cameron Parish voters eligible for this election.

The vote on Proposition 2 to permit video poker was 1,966-1,213, or 62-38 percent, and the vote on Proposition 1 to permit riverboat gaming was 2,176-1,051, or 67-32 percent.

In the presidential race, Clinton picked up 2,103 votes, or 51 percent. Bob Dole received 1,365 votes, or 33 percent. Ross Perot received 594 votes, or 14 percent.

In the U.S. Senate race, voters favored Woody Jenkins with 2,094 votes, or 54 percent. Mary Landrieu received 1,792 votes, or 46 percent.

In the U.S. House race, voters favored Hunter Lundy with 2,380 votes, or 64 percent. Chris John received 1,346 votes, or 36 percent.

Constitutional Amendment 1 handily passed by 2,114-1,012 votes, or 68-32 percent/ The passage keeps legislators, school board members and part-time officials elected or appointed after 1996 from participating in public retirement systems.

Constitutional Amendment 2 passed by 1,758-1,302 votes, or 57-42 percent. The passage allows parishes and municipalities to donate abandoned housing to non-profit groups for renovation.

Constitutional Amendment 3 narrowly passed by 1,505-1,487 votes, or 50.2-49.7 percent. The passage ratifies the current practice of applying sales tax exemptions at the state and local levels.

Bill Hart and Sharon LaFuria were elected to the Republican State Central Committee in the 36th district which includes all of Cameron Parish and part of Calcasieu parish. They edged out Kathleen Boellert.

In a counterclaim filed state District Court, the go nor's office and the Legisla are charging that the dist have not met their legal fina obligations. State law requ... that 70 percent of the local districts' "general fund" spending be allocated to classroom instruction.

Cameron Superintendent Pam LaFleur said that the parish is very close to the 70 percent figure and is trying hard to get there. However, she pointed out, Cameron is unique in that a relatively small number of students are spread out over a large area-- in fact Cameron parish has the largest land area and one of the smallest populations in the state. FISHERMEN HERE fish off of ship channel jetties south of the town of Cameron. Parts of the jetties are more than 100 years old. (Photo by Geneva Griffith)

BUILT IN 1886

# Original Cameron jetties now over 100 years old

**(EDITOR'S NOTE--Plans for the construction of a fishing pier and other improvements along the east jetties going out into the Gulf at Cameron have created some interest in the history of the jetties. Here is some information on them that most people didn't know.)**

By GENEVA GRIFFITH

Although much of the jetties at the mouth of the Calcasieu River were constructed in 1940 the original jetties were begun over a hundred years ago--in 1893.

The original preliminary examination of the mouth of the Calcasieu River and of Calcasieu Pass was published in the Congressional record by the United States Engineer W. H. Heuer on Dec. 2, 1886.

He stated that, "The last depth of water at mean low tide on this outer bar is 6-1/2 feet, while the water on the two inner bars is only 3-1/2 feet in depth. A contract is now in force to obtain by dredging a channel over the two inner bars having at least a depth of 6 feet.

"The depth of water on the outer bar is now as great as it has been for many years, but the depth is liable to vary in consequence of storms, which cause a shifting of the channel.

"The depth of water in Calcasieu lake, which is about 15 miles long, is 6 feet, and even deeper water produced on the outer bar.

"The advantage to the commerce of the town of Lake charles would be that vessels could load deeper in proportion to the increase of depth of water produced, thus enabling the lumber merchants of this locality to compete with those in other Gulf ports less favorably situated geographically, besides enabling vessels to find a safe harbor in the Calcasieu Pass when necessary.

"On account of the shallow depths in Calcasieu Lake, it is still probable that the increased quantity of lumber produced for export in the event of an improved bar would have to be lightened before transfer to the sea-going vessel.

"The estimated annual value of the output of lumber in Lake Charles is about $750,000; about one-half of this is transported by rail. Should deeper water be required on the outer bar, the most certain as well as satisfacto-

# Figures corrected

Pam LaFleur, superintendent of Cameron Parish Schools, took issue with a recent Louisiana Association of Educators survey that showed Cameron Parish dramatically declining in its standing in the state in teacher pay.

LaFleur said the LAE survey used outdated information, and actually Cameron Parish is still among the leaders with the beginning pay of a teacher with a bachelor's degree and no experience at $22,750.

She said the LAE figures which showed Cameron dropping from 11th in the 1995-96 school year to 29th in the state with a beginning pay scale of $20,650 in the current school year.

LaFleur said the School Board increased the pay scale in July and added to a $750 state pay raise to bring it up to its present level.

She said if the other information is correct, Cameron would actually be about 5th in the state.

## Chance wins

Chance Doxey was named the Louisiana Duck Calling champion last week at the state duck calling contest in Baton Rouge.

Chance is the son of Mr. and Mrs. James Doxey, and is in the 7th grade at Cameron Elementary School.

He will compete in the world championship contest on Nov. 29, in Stutgart, Ark.

## Oyster prices reported up

Despite predictions for a bumper crop and lower prices for oysters, the forces of mother nature have caused the industry to make some adjustment to those early forecasts.

The current oyster season started in early September with much fanfare and optimism. Scientist had indicated a bumper crop as a result of near perfect conditions in the oyster growing beds. However by early October mother nature had dampened the spirits of many industry observers, literally, by dumping flood waters throughout many coastal parishes. This forced a 7-day closure of the oyster grounds. Other naturally occurring environmental conditions have also resulted in reduced harvest from several otherwise productive oyster grounds.

Karl Turner, executive director of the Louisiana Seafood Promotion and Marketing Board, indicated that dockside prices paid to oyster fishermen is up 30% over the sack price paid in September when the season opened.

# Drug awareness rally held by students

By GENEVA GRIFFITH

"The choice for Me-Drug Free" and "Cameron Takes A Stand Against Alcohol and Drug Abuse", were some of the signs carried by students of the Cameron Elementary School who celebrated Drug Awareness Week with a full day of activities.

The Sheriff's Department led the way in two patrol cars through downtown Cameron as the students marched from the school to the courthouse square singing all the way.

Robert Doxey's sound system was set up on the courthouse steps and everyone swayed and clapped to the music of Do The Maccarina, etc.

Leading the audience were the Sheriff's deputies, who wore special hats for the occasion, and Sheriff Sono Savoie was dressed in a special "Do The Maccarina" shirt.

Principal Clarence Vidrine said the school has been sponsoring this event for seven years. "It's great to see the community coming together like this, we want to show everyone that we can have a good time without drugs," he said.

Jennifer Bercier, a member of the Jones Law Firm, a Partner in Education with the local school, told the students, "It's great that we are exercising our freedom to be drug free, the same way our ancestors fought for their freedom", she said.

Evelyn Landry, representing another partner in education, Cameron State Bank, urged all the participants to say no to drugs.

Deputy Ron Johnson, who heads the Sheriff's Drug Department, asked everyone to make a commitment to stay drug free.

Clerk of Court Carl Broussard asked the students to "Walk away from drugs - it's easy", he

## Local man is killed

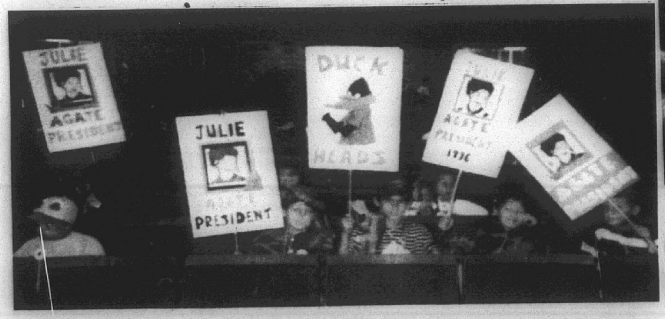
Wayne "Pepper" Chenevert, 53, of Constance Beach was killed in an accident involving an 18-wheeler and a pickup truck Monday night south of Sulphur.

According to State Police Troop D, the accident occurred at 7:40 p.m. at La. 108 and La. 27 south of Sulphur.

State Trooper Chris Guillory said Bobby Strain, of Carthage, Tex., was the driver of a C.E.I. 18-wheeler. Strain was traveling east on La. 108. The 1989 Chevrolet pickup truck, driven by Chenevert, was traveling south on La. 27.

Guillory said Strain ran a stop sign and hit the pickup truck. Both vehicles left the road and knocked down two telephone poles before stopping.

Chenevert was killed and Strain was taken to West Cal-Cam Hospital for minor injuries.



## New service

You may have noticed two channels added to your cable service in Cameron. The two new channels, Black Entertainment Television (BET) and Turner Classic Movies (TCM), are the first changes made by the new television company.

Delta CableComm purchased the Tele-Media cable system in Cameron. The purchase closed at the end of August and included some surrounding communities.

"BET and Turner Classic Movies are two of the best cable networks and we are pleased to be adding these new channels to our subscribers in Cameron.

BET offers a variety of programming such such as music videos, news, public affairs, sitcoms, gospels, comedies and sports. Turner Classic Movies presents the great movies from the 20's to the 80's, uninterrupted and commercial-free.

**TOO MUCH WATER**

I'll say this, there's plenty of water and I've got to say it's not good. As for saltwater inland fishing, this is going to hurt the speckle trout fishing and put a dent on other species as well. I do know, fishing in our area has been as good as it could be. Now, we have rivers overflowing and our marshes are chockablock with water and still coming up. We also are still seeing unsettled weather. We sure need a cold front with a good stiff north wind to get some of this water out.

This is also hurting our oyster fishermen because of high water, oyster fishing is usually shut down until state health officials check things out.

**SELL CATCH**

Not long ago Louisiana's recreational fishermen could legally sell their catch and many did to help with the expense of a fishing trip. Things have changed and last year Louisiana law really put a damper on these sales. Under the new Marine Conservation Act, Louisiana anglers caught selling their catch will lose their license, be barred from ever purchasing another and be fined for any fish confiscated during the arrest.

In California a new state law raises the maximum penalty to $30,000 for each conviction of illegally killing and selling fish or wildlife, way stiffer than our state.

**HUNTING NEWS**

First of all, yes many deer are being taken, lots because of all the high water, deer are on higher ground and make an easy target.

Many have asked me about the last either-sex days for our area, Cameron Parish. I asked a game agent and he tells me it's correct in the 1996-7 La. hunting regulations pamphlet, on page 6. Three either-sex days, Nov. 29 and 30 and Dec. 1, will be the last either-sex days for this season in our area.

Many area hunters, including myself are busy getting blinds, boat, decoys and whatever else needs to get ready, as Sat., Nov. 9, is D-Day we've all been waiting for. We've seen several thousand coots down and we keep waiting on the other birds, big ducks. I talked to a biologist and he told me they talked to a biologist in Canada last week and he said the ducks hadn't left yet. He claims they were like mosquitoes, there were so many ducks in their area. We can only hope they'll be here for Saturday and that there is not too much water, that will make them leave.

If you are out Saturday, here's the birds you can legally hunt, but look at your Migratory Game Bird Hunting Regulations for 1996-97 found at your local outlets throughout the parish.

Ducks, coots, geese, rails, gallinules and snipes open Nov. 9. Dove season is closed until next month.

Ducks, coots, geese, rails, gallinules and snipes all have shooting hours one-half hour before sunrise to sunset.

Limits on king and clapper rails are 15 daily and 30 in possession. Sora and Virginia rails, 25 daily, and bag limit. Gallinules, daily 15, possession 30. Snipes, daily 8, possession 16.

The duck and coot season in our west zone is 50 days, two splits - Nov. 9-Dec. 1 and Dec. 21-Jan. 16.

Daily bag limits on ducks is 5 and may include no more than 4 mallards (only one of which may be a female), one black duck, two wood ducks, three mottled ducks, one pintail, one canvasback, and two red heads. The daily bag limit on coots is 15 daily.

In addition, you may have a daily bag limit of merganser of five, only one of which may be a hooded merganser.

Possession limits on ducks, coots and mergansers is twice the daily bag limit.

Snow and blue geese dates are Nov. 9-Feb. 23. Daily bag is 10, possession 30. White fronted (specklebelly geese), Nov. 9-Dec. 8 and Dec. 21-Jan. 29. Daily bag limit is two, possession four.

Youth Waterfowl Hunting Day is Dec. 7. Only young people 15 years of age and younger, accompanied by an adult 18 years of age or older, may participate. Adults may not hunt ducks on this day.

All waterfowl hunters between the ages of 16 and 59 inclusive, are required to have in their possession a valid State Duck Stamp, signed across the face in ink, in addition to the Federal Duck Stamp to hunt ducks, coots and geese.

No person shall take migratory waterfowl while possessing shot other than steel shots or approved substitute. Again, this applies only to ducks, geese, swans and coots. Remember no gun larger than a 10 gauge and only three shells at one time. Do not shoot from a moving boat or vehicle. No live decoys or tape players. Do not field dress your birds. Leave the head and one wing fully feathered.

If you want someone to transport your ducks or your have possession of someone else's ducks (migratory birds), be sure they are tagged. The hunter's signature, address, number of birds and species and date of bird killed.

Persons younger than 15 years of age need no license or stamps and persons 60 or older only need the federal duck stamp signed in ink.

# Lacassine hunting told

The portion of the Lacassine National Wildlife Refuge south of the Gulf Intracoastal Waterway and west of the Mermentau River will be open to waterfowl hunting during the regular state duck season for the Western Zone: Nov. 9 - Dec. 1, and Dec. 21-Jan. 16. Hunting will be permitted until noon each day, Wednesday through Sunday only.

In addition to the regular season, youths under the age of 15 can hunt waterfowl in the waterfowl hunting area until noon on Sat., Dec. 7. Youths must be accompanied by adults who are prohibited from hunting on this day. Refuge regulations also require youth hunters to have successfully completed at State-approved hunter education course and possess evidence of successful completion.

All refuge hunters, including youths, are required to possess a refuge hunting permit. The 1996-97 refuge hunting brochure serves as the required permit when it has been signed and dated. The permit must be in the hunter's possession while hunting on the refuge.

Hunters may not enter the hunting area earlier than 4:00 a.m. and may not hunt or possess firearms later than noon. The week prior to and during the hunting season, hunters may scout the area from one hour before sunrise to one hour after sunset. However, no firearms are permitted in the area except during the refuge hunting hours.

Beginning this year there is a nationwide toll-free telephone number available to report band recoveries from birds which have numbered aluminum leg bands. The toll-free telephone number is 1-800-327-2263. Operators are available from 7 a.m. to 4:30 p.m., Eastern Time, Monday through Friday to record the information.

The refuge brochure details additional hunting regulations for the refuge. The permit and brochure are free and can be obtained at the refuge headquarters located off Highway 3056, 11 miles southwest of Lake Arthur or at the Lacassine Pool leaflet dispensers. Individuals may also obtain copies through the mail by writing to Refuge Manager, Lacassine National Wildlife Refuge, 209 Nature Road, Lake Arthur, la. 70549, or telephoning 318/774-5923.

# East Cove is closed

The East Cove Unit of Cameron Prairie National Wildlife Refuge will be closed to all public use during the waterfowl hunting season, Nov. 9 - Dec. 1, 1996 and Dec. 21, 1996 - Jan. 16, 1997. Private owned land in the Cameron Creole Watershed is hunted and closure of the refuge provides much needed sanctuary for waterfowl.

The boat bay at Grand Bayou will be open through Friday, Nov. 8. The refuge will be open during the split, Dec. 2 - 20 as long as salinities and water levels are favorable. For additional information call 598-2216 or 598-4235.

Nov. 5--Celestine and Willie Nunez of Cameron arrived at Bell City Monday through the drainage canal with a boat load of cotton seed which was shipped to Lake Charles. They returned to their homes Tuesday.

**SET TRAPS NOV. 15**

Trappers of fur-bearing animals may set their bait Nov. 15, and form that date until Feb. 15, residents of Louisiana possessing a $1.25 trapping license are within the law in capturing muskrats, opossums, raccoons, minks, skunks, otters, civit cats, wild cats and wolves, according to an announcement by the La. Dept. of Conservation.

The trappers may also take alligators and dispose of their hides, but they must not capture or kill beavers at any time.

A new regulation requiring trappers to submit monthly reports during the trapping season, giving the number and kind of wild fur-bearing animals taken, will go into effect this year.

**CREOLE HAS WEIRD TREMORS**

(By Mrs. Harold Carter)

In the Creole area, scores of residents within a five-mile radius of the post office can vouch that Halloween lived up to its eerie reputation when between the hours of 9 and 10 p.m., two very frightening tremors--one immediately following the other--rattled doors and windows of houses in the vicinity.

It was just as though a powerful somebody outside had taken hold of the windows and doors and was shaking them with a good force.

**CAMERON CLUB OUTSTANDING**

The Cameron Home Demonstration Club won the title of "outstanding club by amassing the most poirits at the annual achievement day of the Cameron Parish Home Demonstration Council Saturday at the Cameron elementary school. Sweetlake was second and Creole third in this contest.

Mrs. Walter Stanley of Holly Beach, a member of the Cameron Club, was named outstanding club woman of the year for winning the most points on her exhibits. Mrs. Dupre Guidry and Mrs. McKinley Broussard, both of Sweetlake, took second and third place honors, respectively.

Chosen as the outstanding members of their respective HD clubs were Mrs. Clem Demarest, Sweetlake; Mrs. Charles F. Hebert, Cameron; Mrs. John M. Theriot, Creole; Mrs. Dupre Hebert, Hackberry; and Mrs. Betty McCall, Grand Chenier.

The Cameron Parish HD Council will be represented at the State HD Council convention in Baton Rouge by the following members: Sweetlake, Mrs. W. H. Johnson, president of the council; Mrs. Charles W. Hebert, president-elect; Mrs. Clem Demarest, publicity chairman and Mrs. Curtis McCain; Grand Chenier, Mrs. D. W. Griffith, secretary; Hackberry, Mrs. W. E. Reasoner, Sr., State Civil Defense representative.

**ROUNDABOUT THE PARISH**

Creole -- Wrong Team - A popular Lake Charles TV sports commentator predicted the right score in the South Cameron - Lake Arthur football game last Friday night, but he had the wrong team on the high end of the score, when he predicted that Lake Arthur would tromp South Cameron 18-0. As we all know, South Cameron came out on the top end of the predicted 18-0 score.

Grand Chenier -- Chenier residents saw their first frost of the season Saturday morning, along with a chilly 40 degree weather. The two cold fronts last week brought in hundreds of geese and ducks and many ponds along the road area were covered with birds.

Holly Beach -- Patsy Hebert, our petite roving bachelor, has just returned from a trip to El Paso, Tex. She toured the replica of the original Fort Bliss. Patsy's primary interest was to join her uncle and family for their final trip in Army life. M/Sgt. Wilfred Leger, her uncle, retired after 20 years of service.

Hackberry -- State Trooper Clifton Cabell has returned home after a week of duty in Baton Rouge.

The Jack Moores have moved into their new home.

## Book fair set at SC Elem.

South Cameron Elementary School will host a Book Fair Nov. 4 - 8 to offer students, parents and grandparents the opportunity to see the latest works by popular authors and illustrators of books for young readers. open hours are 8 to 3:30 daily.

# Roosevelt and Eisenhower both hunted in Cameron

By GENEVA GRIFFITH

The hunting season in Cameron Parish brings sportsmen from all over the country.

One of the most famous of these was the late President Franklin Roosevelt, who visited here in the 1930's.

He had come to the late Jim Bonsall's hunting camp, along with Theodore Roosevelt, Jr., at the invitation of Sen. Allen J. Ellender, who had hunted with Bonsall.

Bonsall, his father, and stepbrother Elmer Ogle, owned a trapping lease at the mouth of the Mermentau River, where their hunting camp was.

Roosevelt's party boarded a boat in New Orleans and made their way to the Gulf and along the coast to the Mermentau River to Grand Chenier, according to a newspaper account in a New Orleans paper by reporter Herman B. Deutsch.

The Roosevelt party had just reached the camp preparing to get a good night's sleep and rise early the next morning for their hunt when Bonsall's father arrived and informed them that his step-son, 14-year-old Elmer Ogle, had gone out to a trapline early that morning and had not returned.

They had sent out search parties that evening, but found no trace of the missing boy.

Bonsall recalled that Roosevelt said, "Not a gun is to be fired until we find Elmer, and we get ready to make a real search in the morning and divided up as soon as it was daylight." The President went in a pirogue with Numa Conner to paddle him, and each pirogue took a different direction.

Jim Bonsall recalled the events for the reporter:

"It was no time until we heard the shots that signaled someone had found Elmer, and who do you think it was that found him? Franklin D. Roosevelt himself.

"He had taken off his overcoat and wrapped Elmer up in it, and then brought him back to the camp. The boy was pretty well done in, so we sent him to grand Chenier from the camp.

"He got all right, but the mosquitoes and the cold and wet had made things pretty tough for him.

"We had some good hunts after that. The President was a good shot, a good sport, and good company. He used to spin us a world of yarns about all sorts of things, sitting around the camp at night."

President Roosevelt served four terms as President, from 1933 to 1945. He always had a standing invitation to come back to Cameron Parish but could never get back, although he often spoke about his great hunting trip at Grand Chenier.

### IKE PAYS VISIT

Another President, David Eisenhower, came to the parish during World War I when he was a General stationed at Fort Polk.

He was staying at the Oak Grove hunting camp, south of Creole when the news came that the Japanese had attacked Pearl Harbor on a Sunday morning.

Vehicles were immediately dispatched from Fort Polk to pick up Eisenhower and his party.

Hunting camp personnel said that he left with only what he was wearing to hurry back to Fort Polk, and they were instructed to pack all of his gear and belongings that were sent back in another camp vehicle.

The Oak Grove hunting camp was owned by the late Wynn Hawkins from Lafayette, who loved Cameron Parish and the great hunting in the local marshes. He entertained many dignitaries at his club and in the marshes.

He also loved to spin his tales of the local characters and of events in the parish that was literally cut off from the rest of the world, and was an island unto itself until roads were built into the area in the 1930's.

He was the organizer of the Cajun Coast Guard, or called by some The Swamp Angels, who guarded the coast and marshes during World War II.

He had used his influence with national officials to organize this unauthorized group of locals who were familiar with the coast, beaches, and marshes.

This was during the time of the infiltration into the Gulf of so many German submarines who sank many cargo ships.

SOUTH CAMERON High faculty members Nicky Rodrigue, far left, and Parry LaLande, far right, pose with SCHS Jr. and Sr. 4-H club officers to mark National 4-H Week. In addition to daily club activities during the week of Oct. 7 - 11, the faculty and staff were treated to a breakfast on Thursday and a luncheon on Friday.

Boards Association, admitted that some school systems are not raising enough local funds to meet their responsibilities. But he does not believe the shortcomings are deliberate. Instead, he said, "It may be more of a nature of not having the appropriate tax base or the right voting at the polls."

Soileau said the state's counterclaim surprised him because he believes the local systems are doing their best to spread 70 percent of their funding on instruction. "If there's any deviation..., I would think it's rather minuscule," he said.

## Rigs sunk near here

Louisiana's offshore reefs continue to grow. Three old oil rigs were toppled this fall to become artificial reefs, and another was placed recently. At the bottom of the Gulf of Mexico, they will provide much needed marine fisheries habitat and endless hours of fishing enjoyment for offshore fishermen.

Amoco recently toppled their obsolete oil platform at the West Cameron 563 site and towed it 11 miles to West Cameron 608 where it was dropped to its final home 162 feet below the surface in 260 feet of water.

This is the second Amoco platform transferred to the Department of Wildlife and Fisheries' Artificial Reef Program in a month. On Sept. 20, 1996, an Amoco platform was toppled in place in 181 feet of water with an 86-foot clearance at the West Delta 76 site.

In addition to these two Amoco platforms, Apache Oil Co. and Conoco have also contributed to the Artificial Reef Program recently. On Aug. 20, 1996, Apache toppled a platform at the West Cameron 628A and towed it to the West Cameron 608 reef site approximately 20 miles away. Its final placement is in 255 feet of water with a clearance of 174 feet.

On Sept. 29, Conoco dropped a platform in 145 feet of water with a clearance of 109 feet. This structure, Conoco's West Delta 69 structure, was cut in half and toppled inplace, which is somewhat unique. "Most rigs are toppled in place without being cut," said Rick Kasprzak, LDWF's coordinator of the Artificial Reef Program.

Kasprzak explained that LDWF works with the oil industry to establish suitable marine fisheries habitat. The surface of obsolete platforms provides an ideal base for marine organisms. These in turn are an ample food source for a myriad of popular sport fishes. Such hard substrate surfaces are few and far between in an environment that is largely soft-bottom.

Oil companies are required by law to remove obsolete platforms from the waters of the Gulf. This can be a very expensive proposition. The Artificial Reef Program allows them to forego the cost of disposal on land while contributing to Louisiana's marine fisheries resources.

# Tarpons to close out the season

By JOE MUELLER

It will be on the road for the South Cameron Tarpons as they travel to Welsh this Friday, Nov. 9, to close out the regular season.

The Tarpons, who assured themselves of second place in District 6AA, will face the 3-5 Greyhounds in a game scheduled for 7 p.m.

The Tarpons, who have a 5-3 overall record, and only one district loss, will enter the state playoffs as the number two team from District 6AA. Iota has two district losses, so if they win and the Tarpons lose, both teams would have two district losses, but the Tarpons would be number two as a result of their head to head win.

If Notre Dame, who has no district losses, loses to North Vermilion while South Cameron wins, they both would have one district loss, but the Pioneers would be District 6 champs as a result of their head to head win over South Cameron.

The Greyhounds and Tarpons historically play an exciting and hard hitting game and this year should be no different.

Coach Dutton Wall of the Greyhounds is going after win Number 200 in his career.

The two teams have some common opponents. Pickering, outside of district, beat the Tarpons, but the Greyhounds beat the Red Devils in the opening game of the year. And on the same line, South Cameron beat DeQuincy but Welsh lost to the Tigers.

In district the Tarpons have defeated the Greyhounds. Both the Tarpons and Greyhounds have beaten Lake Arthur, Notre Dame has beaten both teams.

The teams both have at least one top runner. The Tarpons Brandon Conner is averaging around 77 yards a game and the Greyhounds top rusher is Courtland Fontenot.

Throwing the ball finds the Greyhounds Eric Troutman has thrown for 124 yards while the Tarpons John Pradia has thrown for 272 yards.

The top receivers for the Tarpons has been Brent Morales with 17 carries while the Greyhounds top receiver has been Sammy BEnoit with 20 catches.

The Tarpons have shown a strong kicking game as John Mark Montie has done a good job on extra points and last week he hit a 28 yard field goal.

The rivalry has been intense in the past between the two schools. Last year the Tarpons beat the Greyhounds 21-14 at Tarpon Stadium.

Both teams finished with identical records, but Welsh received a wild car selection in 1995. They lost their opening playoff game to DeQuincy.

Looking ahead to the opening week of the state playoffs the Lake Charles American Press writer Ron Brocato said that it looked like Number 2 from District 6, which is South Cameron, would play 3-2A runner-up, probably Loyola.

Let's get a big crowd down to Welsh and cheer the Tarpons on to victory.

## JETTIES . . Cont. from Pg. 1

ry way of obtaining it would be by means of two jetties extending from the shore seawards, each jetty to be about 1-1/2 miles in length, to be of brush covered with stone, dredging to be used as an auxiliary aid in producing depth.

"The estimated cost of the improvement to obtain a 12 foot depth in round numbers, $600,000."

**JETTIES AUTHORIZED**

Authorization for the construction of the jetties was in the River and Harbor Act of Aug. 5, 1886, and provided for the construction of two converging jetties of brush and stone approximately 1.5 miles long at the Gulf entrance of the pass, with dredging between the jetties to secure a 12 x 200 foot channel.

Completion of the east jetty was begun in 1893 and by 1897 was completed to a depth of 7,847 feet.

Storm damages were repaired in 1903-04 and the east jetty was extended 600 feet.

No other work was performed on the jetties until 1940, when the west jetty was repaired and raised to a grade of 4.0 feet above mean low Gulf from the shoreline and extended 2,600 feet seaward parallel to the east jetty.

The annual report of 1899 stated that both jetties were badly damaged by storms that displaced about 3,000 tons of granite capping blocks.

In 1903-04 the damages were repaired and the east jetty was extended 600 feet.

This work required 21,00 tons of rip-rap stone, 5,000 square yards of mattresses and recovery and replacement of 52 granite capping stones.

The jetties are located at the foot of Davis Road that extends from the main Highway 27-82 south to the Gulf of Mexico.

The road is located just west and south of the main branch of the Cameron State Bank, just off of Cameron's main street.

When a restaurant was built on a hill constructed from fill dirt from the dredging of the channel, and named the Jetty Inn, stones from the original building of the jetty were discovered under the fill as they were digging down for the pilings.

The Jetty Inn was later sold and moved by barge to a new location between Bridge City and Port Arthur, Tex., under the Rainbow Bridge.

The stones from the original jetty construction at the turn of the century can now be found a mile back from the end of the road where the fishing pier will begin.

# Safety class

The Commercial Fishing Vessel Safety Act requires all documented fishing vessels to conduct monthly safety drills with the crew and check all safety gear. These and other safety requirements are enforced by the U. S. Coast Guard during routine vessel inspections and boardings at sea.

Most vessel owners and captains attended the required training prior to the effective date which was September, 1994, according to Mark Shirley with the La. Cooperative Extension Service, Abbeville. There are a few new captains and vessel owners that need to undergo training in order to comply with the regulations. Shirley announced that a class will be held on Mon., Nov. 11, from 8 a.m. until 5 p.m. at the Extension Service Office in Abbeville.

Shirley explained that vessels must undergo a monthly safety drill by someone who is certified in the proper safety procedures.

The course will be conducted by John McMillan of McMillan Offshore Safety, Inc. who is certified by the U.S. Coast Guard to conduct the training. participants will receive safety manuals and take part in hands-on demonstrations. There is a fee to attend.

Anyone who needs this training should contact Shirley at the Extension Service as soon as possible to reserve a place in the class. If requested, a Vietnamese interpreter will be present to assist Vietnamese fishermen. Call the Extension Office at 318-898-4335.

PROCEEDINGS

Minutes of the regular meeting of the Cameron Parish Gravity Drainage District No. 3, held on Tuesday, August 20, 1996, at 2:30 p.m. at the Cameron Parish Police Jury Annex.

Members Present: Edwin W. Quinn, Scott Henry, E. J. Dronet, George Kelley, and Earl Guthrie.

Members Absent: None

Others Present: Ernest Nunez, J. Berton Daigle, George LeBoeuf, Glenn Harris, Amos Vincent, James LeBoeuf, Larfay Ancelet, Ted Landry, Malcolm Savoie and Charlie Pettifer.

A motion was made by George Kelley, seconded by E. J. Dronet, and unanimously carried to approve the minutes of the July 16, 1996, regular meeting as written.

A motion was made by George Kelley, seconded by E. J. Dronet, and unanimously carried to authorize President Quinn to open bids for Project #1996-02 Drainage Improvements in Big Pasture Area (Lateral #25 Clean-Out). One bid was presented by Mr. Larfay Ancelet on behalf of H & S Construction Company, Inc., accompanied by a $50,000,000 Liability Bond, as follows:

Base Bid (1st mile), $9,889.60
Add Alternate A (2nd mile), 8,289.60
Add Alternate B (3rd mile), 8,289.60
Total Bid (All 3 miles), $26,468.80

A motion was made by E. J. Dronet, seconded by Earl Guthrie, and unanimously carried to accept Base Bid on the Southernmost 1 mile, pending approval of the bid by Engineer Lonnie Harper.

A motion was made by Scott Henry, seconded by George Kelley, and unanimously carried to approve the Financial Statement for the month of July, 1996.

A motion was made by Earl Guthrie, seconded by George Kelley, and unanimously carried to approve the following bills for payment:

1. Cameron Parish Pilot, $58.00
2. Crain Brothers, Inc., $2,000.00

Mr. Scott Henry reported that there were some delays on cleaning of the Sells lateral, and he will check with Crain Brothers to find out the status.

Mr. Henry also reported that we are waiting on the second and third quotes for building spill containment under fuel tanks on all drainage pumps in the district. If the quotes come in under $10,000, the work will be done.

Glenn Harris of U. S. Fish and Wildlife Service presented the Water Management Report on the Cameron-Creole Watershed Project. Vegetation is looking excellent out there in the watershed. He reported that salinities are down some, and only one slot has remained open on each gate.

President Quinn then presented a proposed amendment to the original Memorandum of Understanding between the U. S. Fish and Wildlife Service, the LA Department of Natural Resources, and the Cameron Parish Gravity Drainage Districts No. 3 and 4, due to be renewed in October, 1996, as follows: (add items, H, I, & J on Page 3).

MEMORANDUM OF
UNDERSTANDING
NO. 14-16-0004-91-930
MEMORIANDUM OF
UNDERSTANDING
BETWEEN THE U. S. FISH
AND WILDLIFE SERVICE
THE LOUISIANA DEPARTMENT
OF NATURAL RESOURCES AND
THE CAMERON PARISH GRAVITY
DRAINAGE DISTRICTS NO. 3 AND 4

This memorandum formalizes an agreement between the Louisiana Department of Natural Resources (Department), the Cameron Parish Gravity Drainage Districts No. 3 and 4 (Districts), and the U.S. Fish and Wildlife Service (Service) to provide for design, installation, and operation of modifications to five existing water control structures of the Cameron-Creole-Watershed Project on the east shore of Calcasieu lake in Cameron Parish, Louisiana. The modifications will automate operation of the structures to simplify and speed opening and closing of gates. This improved management capability will allow more frequent manipulation of the gates to assure entry and egress of marine organisms while still maintaining water level and salinity ranges needed for restoring and preserving marsh habitats as outlined in the project area management plan.

A. All construction work performed under this agreement is governed according to the priority listed below:

1. Grand Bayou Structure -- within Sabine National Wildlife Refuge.

2. Lambert Bayou Structure -- within Sabine National Wildlife Refuge.

3. Pecconni Bayou Structure -- on Miami Corporation property.

4. No-Name Bayou Structure -- on McCall property.

5. Mangrove Structure -- on Miami Corporation property.

B. The Department, under authority of LA R.S. 49:214.1 et seq, the Louisiana Coastal Wetlands Conservation and Restoration Act, agrees to:

1. Provide services or contract out to assist in the final design of the modifications of all structures and to accomplish actual construction of the modifications on a complete basis up to $250,000, contingent upon availability of funds.

2. To get approval from the Service and the Districts on final plans and specifications for the modifications. Both agencies will also be notified in advance of construction schedules.

3. Turn over to the Service, for operation, all modifications described herein.

4. The Department will require the Contracting Party to indemnify and save harmless the Department against any and all claims, demands, suits, and judgements of sums of money to any party for loss of life or injury or damage to person or property growing out of, resulting from, or by reason of, any negligent act or omission, operation or wor, of the Contracting Party, its agents, servants, or employees while engaged upon or in conneciton with the services required or performed by the Contracting Party hereunder.

C. The Service, pursuant to authority contained in Section 1 of the Fish and Wildlife Coordination Act, 16 U.S.C. 661, and Section 7 of the Fish and Wildlife Act of 1956, 16 U.S.C. 742 f (a) (4) and (5), agrees to:

1. Accept responsibility for the operation and maintenance of all measures completed under this agreement in accordance with existing State and Federal permits, and in a manner acceptable to the Department and the Districts.

2. Obtain all rights-of-way necessary to install, operate and maintain the measures included in this agreement prior to initiation of construction.

3. Provide, through the North American Wetlands Conservation Act, the necessary funding ($250,000) to complete construction modifications on the remaining structures.

4. Accept responsibility for repair of any damage to the project water control structures by installation, operation, or maintenance of the modifications. Cause of any damages occurring to the structures shall be determined by the consensus of engineering representatives from the Service, the Districts, and the Soil Conservation Service.

D. The Districts, under their authority as the agencies which own and maintain the water control structures that will be lmodified, agree to:

1. Review, provide technical consultation for, and approve as appropriate the planned modifications of the five above-named water control structures and their subsequent operation.

2. Maintain control of the modifications to automate operation of the structure gates.

3. Maintain control of the Cameron-Creole Watershed Structure Operation Plan.

E. The parties to this agreement shall be liable for damages to property, existing structures, persons, firms, or corporations which arise out of the negligent acts or omissions of their employees only to the extent permitted by applicable laws now or hereafter in force.

F. Nothing in this agreement shall require any party to expend funds that have not been appropriated and administratively allocated for the purposes set forth herein. This agreement, therefore, does not obligate funding by any party for services or contracts. Such obligation shall be provided for under separate agreements or documents.

G. This Memorandum of Understanding will remain in effect for 5 years from the date of last approval signature, and can be extended thereafter, in 5-year increments, by amendments approved by all parties.

H. Districts agree to have the maintenance of the automation of structures included and paid for from the CWPPRA Trust Fund for a period of five years not to exceed total expenditures of $75,000.00 for the five year period.

I. Necessary repairs shall be made to canals and banks where erosion problems along all areas of the lake bank shall be addressed and remedial measures shall be implemented as priority projects from the CWPPRA Trust Fund.

Gravity Drainage Districts No. 3 and 4 shall not be obligated to fund any maintenance of automation equipment or structures out of their own funds, and all such maintenance shall be funded solely from CWPPRA funds.

A motion was made by E. J. Dronet, seconded by Scott Henry, and unanimously carried to approve President Quinn writing a cover letter to send the proposed amendment MOU to the Department of Natural Resources, U.S. Fish & Wildlife Service, and Cameron Parish Gravity Drainage District No. 4, asking that these amendments be incorporated into the MOU upon renewal.

There being no further business, the meeting was adjourned.

GRAVITY DRAINAGE
DISTRICT NO. 4
September 18, 1996

Gravity Drainage District No. 4 held a regular meeting at the Creole Community Center in Creole, Louisiana at 6:00 P. M., Wednesday, September 18, 1996.

PRESENT: J. B. Meaux, Jr., Bobby Montie, Pat Pinch and Michael Semien.

ABSENT: Amos Vincent

OTHERS PRESENT: Malcolm Savoie, Lonnie Harper, Glenn Harris, Wade Carroll, Reverend O. J. Johnson and Bonnie Conner.

The meeting was called to order by Chairman J. B. Meaux, Jr.

On motion of Mr. Montie, seconded by Mr. Semien and carried, the minutes were approved as read.

On motion of Mr. Montie, seconded by Mr. Semien and carried, the financial statement was accepted.

The Board discussed a letter from Cameron Insurance Company in reference to the erosion along the J. T. Primeaux property. Lonnie Harper reported that he is working on a set of plans and specifications for a remedy to the problem.

On motion of Mr. Semien, seconded by Mr. Montie and carried, the application for the following permit was hereby approved:

1. Shell Western - proposed flowlines, Kings Bayou Field, Welch No. 1 Well, Creole.

Lonnie Harper reported on Project 1996-02 saying that work had begun on the east side of Lateral A approximately one week earlier, with approximately 2,000 to 3,000 feet of excavation done. He stated he would order the necessary culverts.

The following resolution was offered by Mr. Montie, seconded by Mr. Semien and declared duly adopted:

RESOLUTION
STATE OF LOUISIANA
PARISH OF CAMERON

BE IT RESOLVED, by the Board of Commissioners of the Gravity Drainage District No. 4, Parish of Cameron, Louisiana, in regular session convened on the 18th day of September, 1996, that the following mills be and are hereby levied upon the dollar of the assessed valuation of all property subject to state taxation within the said Parish for the year 1996, for the purpose of raising revenues for the following account:

GRAVITY DRAINAGE DISTRICT
NO. 4 MT. .....3.49 MILLS

ADOPTED AND APPROVED this 18th day of September, 1996.

APPROVED:
/s/J. B. Meaux

ATTEST:
/s/Michael Semien
SECRETARY

On motion of Mr. Montie, seconded by Mr. Semien and carried, the following bills were approved for payment:

Jeff Davis Electric Co-op - $13.20
Cameron Parish Pilot - $360
J & J Armature Works - $165.00
Coastal Culvert & Supply - $50.00
Lonnie Harper & Assoc. - $298.56
H & S Construction - $6,727.20
Cameron Clerk of Court - $86.00
Cameron Clerk of Court - $1,044.00

There was a discussion of the culvert problems of other drainage boards in the parish.

Police Juror Malcolm Savoie asked the board to start considering ways to raise revenues for projects that are destined to come up in the future. A general discussion followed. Lonnie Harper agreed that he would get with the Corps of Engineers to find out exactly what projects can and cannot be done.

Mr. Savoie stated that Boyd Allen Nunez has volunteered to open and close the structure at Oak Grove.

Wade Carroll spoke on behalf of Reverend O. J. Johnson of the Oak Grove Baptist Church concerning drainage problems being experienced behind Wendell Rutherford's residence. Lonnie Harper agreed to check out the situation to see if it is of private concern or the responsibility of the Drainage Board.

Glenn Harris presented the watershed management control report on behalf of the Cameron-Creole Watershed and answered questions from the Board.

There being no further business, on motion of Mr. Montie, seconded by Mr. Semien and carried, the meeting was declared adjourned.

RESOLUTION
STATE OF LOUISIANA
PARISH OF CAMERON

WHEREAS, the State of Louisiana is made up of 64 parishes of which 40 or more are considered rural parishes; and

WHEREAS, the rural parishes do not compare in population to the larger parishes thus having less legislative voice in the allocations of state funding and the decision making process; and

WHEREAS, the continued loss of State Severance Tax and Parish Transportation Funds through legislative changes causes serious funding shortages at the parish level;

NOW, THEREFORE, BE IT RESOLVED, that the Cameron Parish Police Jury, does hereby support and enroll as a member parish of a newly established Rural Caucus.

BE IT FURTHER RESOLVED, the parish actively communicate with the State legislative Rural Caucus to build a stronger team to work toward future enhancement for rural parishes.

the following ordinance was offered by Mr. Sandifer, seconded by Mr. Savoie and declared duly adopted:

CHAPTER 18
PLANNING
ARTICLE I. UNIFORM NUMBERING SYSTEM
Sec. 18-1. Adopted.

A uniform system of numbering properties and principal buildings, as shown on the maps identified by the title, "Uniform Numbering System Map, Parish of Cameron, Louisiana," which is filed in the parish enhanced 911 and development permit department, is hereby adopted for use in the parish. This map, and all explanatory matter thereon, is hereby adopted and made a part of his article.

Sec. 18-2. Assignment of numbers.

a) All property within the Parish of Cameron shall hereafter be identified by references to the uniform numbering system adopted herein; provided, further, that all existing numbers of property and building, now in conformity with provisions of this article shall be changed to conform to the system herein adopted.

b) All numbers shall be assigned on the basis of one (1) number for each twenty 20) feet of public road frontage. All numbers are to be assigned by the parish enhanced 911 and development permit department or authorized representative only, according to the predetermined grid lines (block ranges) established on all public roads. These numbers are not transferable.

Sec. 18-3.

(a) When each house or building has been assigned its respective number or numbers, the owner, occupant, or agent shall place or cause to be placed upon each house or building controlled by him the number or numbers assigned under the uniform system as provided in this article.

(b) Such numbers shall be placed on existing buildings on or before September 1, 1997, and within twenty (20) days after the assigning of the property number in the case of numbers assigned after September 1, 1997. The cost of the numbers shall be paid for by the property owner. Numbers used shall not be less than four (4) inches in heights. These numbers shall be made of a durable and clearly visible material and shall bel in a contrasting color from the building.

(c) The numbers shall be conspicuously placed immediately above, on or at the side of the proper door of each building so that the number can be seen plainly from the street line. Whenever any building is situated more than fifty (50) feet from the street line, the number must be placed near the walk, driveway or common entrance to such building and upon a mail box, gate post, fence post, or other appropriate place so as to be clearly visible from the street line.

Sec. 18-4. Administration.

(a) For the purpose of facilitation correct numbering, grid maps of all streets, avenues, and public ways within the parish showing the proper numbers of all house or other buildings fronting upon all streets, avenues, or public ways, shall be kept on file in the parish enhanced 911 and development permit department. These grid maps shall be open to inspection of all persons during the normal office hours of the parish enhanced 911 and development permit department.

(b) It shall be the duty of the parish enhanced 911 and development permit department to inform any party applying therefore of the number or numbers belonging to or embraced within the boundaries of any lot or property as provided in this article. In case of conflict as to the proper number to be assigned to any building, the parish enhanced 911 and development permit department shall determine the number of such building.

(c) Whenever any house, building or structure shall be erected or located in the parish after the establishment of the uniform system of numbering provided for herein has been completed, in order to preserve the continuity and uniformity of numbers of the houses, buildings, and structures, it shall be the duty of the owner to procure the correct number of numbers as designated by the parish enhanced 911 and development permit department for the property, and to immediately fasten the number or numbers so assigned upon the building, as provided in this article.

Sec. 18-5. Violations.

(a) Notification. When a violation is found to exist, the enhanced 911 coordinat r and the permit secretary will notify the owner or owners of the subject property by certified mail that a violation exists and allow the owner or owners fifteen (15) days after receipt to correct the violation.

(b) Deadline date of notice. Failure of the property owner to respond to this official notification within the deadline date will be cause for the enhanced 911 coordinator and the permit secretary to notify the district attorney's office.

(c) Penalties. Any person who violates any of the provisions of this article shall be guilty of a misdemeanor and shall be fined in the amount not exceeding twenty five dollars ($25.00). The violation shall constitute a separate offense each day violation continues after the payment of fine.

ADOPTED AND APPROVED this 3rd day of September, 1996.

Survivors include her husband, Brown LeBoeuf of Cameron; one daughter, Kala Sue Billedeaux; one sister, Mrs. Elma Hebert, both of Sweetlake; two brothers, P. D. Richard of Creole and Leslie Richard of Lake Charles; and three granddaughters.

## Tarpons are second in Dist. 6AA

By JOE MUELLER

The South Cameron Tarpons took a giant step on their way to the state playoffs as they beat Iota 10-3 to maintain their hold on second place in District 6AA.

The Tarpons held the Bulldogs to only 85 yards rushing and 70 yards passing in the victory. The Bulldog ace Josh Ortego , who was among the leading rushers in District 6AA, was held to 63 yards on 11 carries. The Bulldogs threw the ball 21 times, but only completed 3 and had one picked off.

The Tarpons scored first in the contest as John Mark Montie hit a 28 yard field goal in the opening quarter. The Tarpons took their first possession at their own 31 and moved down to the Bulldog 10 yard line. Then on fourth and 8 Montie drilled the field goal.

The Tarpons scored their winning touchdown in the second quarter as they drove 65 yards in 14 plays with Steve Moore scoring on a 4 yard run. Montie converted the extra point.

Iota scored their only points of the night as they recovered a Tarpon fumble at the Tarpons 42. The fumble came on an Iota punt. They moved down to the Tarpon 13 but that was all as they kicked a 31 yard field goal.

The second half was scoreless as both defenses performed well.

The Tarpons top rusher for the night was Cory Broussard with 77 yards on 18 carries and Brandon Conner had 70 yards on 19 carries.

Steve Moore picked up 14 yards but one of the carries was for a score.

The Tarpons passer, John Pradia, hit 3 of 9 for 45 yards. Vito Martarona, Scotty Brown and Brent Morales each caught a Tarpon pass.

# AGATE students hold presidential election

By GENEVA GRIFFITH

The Cameron Elementary School auditorium was filled with around 600 Academically Gifted and Talented Education (AGATE) students Monday morning at their first annual convention to elect a president.

Julie Delauney, representing the Duckhead party of of Cameron Elementary School was elected president and Blake Broussard, representing the Redemption Party of South Cameron Elementary School was elected Vice President, beating out Ryan Bourriaque and Chelsie LaBove by 6 votes.

Each candidate chose the subjects that they would include in their platform which they would include in the speeches, and were graded on the presentation of their speeches, according to Mrs. Cindy Desonier, coordinator of the convention, who is the Agate teacher at Cameron Elementary, Johnson Bayou, Grand Lake and Hackberry schools.

Other AGATE teachers assisting were Sharon Campbell, Cameron Elementary; Lisa Mullett, South Cameron High, South Cameron Elementary and Grand Chenier schools; Joleen Atkinson, Hackberry and Johnson Bayou; and Susan Fuerst, Grand Lake. Teachers are involved in different programs.

Mrs. Desonier pointed out that primaries were held at each school in the parish and each AGATE program chose a presidential contender, a name of the chapter, slogans, yells and club signs.

The AGATE president will represent the parish at various activities throughout the year. Heading the parish program for the Cameron Parish School Board is Willyne Kestel.

Glenn Trahan and Mikey Bercier opened the program by leading the pledge of allegiance to the flag. Clarence Vidrine, Cameron Elementary Principal, gave the welcome address and stated, "We need more people like you to represent us and run our country in the future.

Pam LaFleur, Cameron Parish Superintendent, pointed out the importance of the students learning the voting process and actively participating in the election procedure. She also challenged each student to urge their parents to get their families to vote on election day.

Carl Broussard, Cameron Clerk of Court, pointed out the importance of each vote, and that every one could make a difference. He related how one candidate in this district won his place in the run-off by a narrow margin of only 8 votes.

Each candidate was introduced by their campaign manager, and many passed through the audience handing out campaign cards and introducing their candidates.

Some of the topics the candidates had chosen as their platforms were: abortion (adoption is a much better way of handling the situation), harsher punishment for criminals, drugs, sex and violence in music, combating poverty, more welfare for homeless, weapons and teen violence, cleaning up the environment, pollution control, jobs, the economy, improving the school system, improving drop-out rates in the schools.

Julie, the elected president, even had secret service agents stationed at both the stage door (very menacing looking with dark glasses on.)

Other contestants who represented their schools were: Ryan Bourriaque, the Pepper Party from South Cameron High School; Seth Theriot, the Power Party from Grand Chenier Elementary; Natalie Precht, Cajun Stompers from Grand Lake school; Chelsie LaBove, Cajun Conquerors from Hackberry; and Amanda Strong, Brown Pelicans of Johnson Bayou school.

Each one had researched their subjects and written their speeches.

Winners in the songs were Duckheads, 1st; a tie between the Pepper and Power parties for 2nd; and the Brown Pelicans, 3rd.

The Cajun Conquerors and the Cajun Stompers tied for first in the cheer; Duckheads, 2nd; and Redemption, 3rd.

Winner in the banner contest was the Duckheads; Brown Pelicans, 2nd; and Redemption 3rd.

The Cajun Conquerors won first in the sign category with the Swamp Stoppers, 2nd; and Brown Pelicans, 3rd. The Duckheads won first in the hats category; Cajun Conquerors 2nd; and Swamp Stompers, 3rd.

The Brown Pelicans took first in the buttons; Duckheads 2nd; and Swamp Stompers, 3rd. The Swamp Stompers, 1st and Duckheads 2nd, in the other category.

These were the presidential candidates

## PARTNERS...

**Farm** numbers continue to decline in the United States and yet we stil have an abundance of high quality, affordable food and fiber to offer our citizens and sell abroad. The efficiency of American farmers is also a tribute to the bonds made with their rural communities and city counsins.

**And** farmers rely on purchased inputs, such as fertilizers and pesticides to raise grain, while processing companies generate additional economic activity by hauling and shipping processed farm commodities. While production agriculture accounts for just less than two percent of the United States population, one American farmer produces enough food to feed 128.7 people each year.

**City** cousins need to realize that agriculture is a part of their life each and every day, starting with their morning paper to the evening bowl of ice cream. The abundance that starts on the land and is cared for by our farmers is an important aspect in the success of not only our economy, but also our culture. Working together since 1955 the National Farm-City Council has been telling the story of interdependence, from the farm to the city. Help us celebrate National Farm-City Week by remembering we are all "Partners in Progress".

Norman McCall

## McCall gets appointment to wildlife

Norman F. McCall of Cameron has returned to the Wildlife and Fisheries Commission. He was appointed by Gov. Mike Foster Jr. to replace Edmund McIlhenny Jr., who recently resigned.

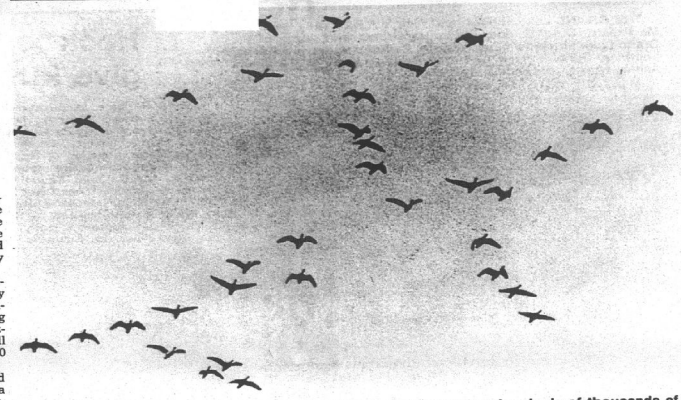
McCall's term on the Commission will expire in February 2002. He represents coastal fishermen on the policy-making board. He has owned and operated a boat-rental business (McCall Boat Rentals) for more than 30 years.

McCall is a native of Grand Chenier and attended Louisiana Tech. He served in the Navy during World War II. He had previously held positions with Selective Service, West Cameron Port Harbor and Terminal District, Cameron Parish Police Jury and the Board of Elections Supervisors during the Treen administration.

He was originally appointed to the Commission in May 1988 by then-Gov. Buddy Roemer and served until 1992.

McCall was welcomed to the Commission by Chairman Glynn Carver at the Nov. 7, 1996, meeting. "I'm happy to be back," McCall said. "I'm hopeful that I will continue to contribute to helping the resource.

The seven-member Wildlife and Fisheries Commission is the policy-making body overseeing activities of the Department of Wildlife and Fisheries. Each member is appointed by the governor and serves a six-year term, except for one member who serves concurrent with the governor's term.



## Dynamite is stolen at JB

The theft of 80 sticks of explosive Penolite and 107 plastic detonation caps at Johnson Bayou is being probed by the Cameron Parish Sheriff's Office.

A cutting torch was used to break into a Grant Geophysical Seismograph Co. explosive magazine Tuesday of last week and steal the items.

Each explosive stick weighs 5.5 pounds and is in a 3-foot orange tube.

Anyone having information leading to the arrest or conviction of the person or persons involved in this crime please call Cameron Parish Crime Stoppers at 775-7867 or Cameron Sheriff's Department at 775-5111 and ask for Jerry Constance, Ron Johnson or another investigator. A reward of up to $1,000 is offered. You do not have to give your name, a code number will be assigned.

# Cameron Parish main destination of birds

By GENEVA GRIFFITH

Cameron Parish is the terminus of two of North America's four great migratory waterfowl flyways, the Mississippi Flyway and the Central Flyway. Over half of the birds of the continental United States visit here every year.

The fall season offers bird watchers the widest variety of species of the grand parade of transient shorebirds and the first waves of winter waterfowl.

The prophet Jeremiah said, "Yea, the stork in the heaven knoweth her appointed times and the turtle, and the crane, and the swallow observe the time of their coming."

Jeremiah was evidently a naturalist, and a divine one at that. How else could he have known that the birds he named had certain times for their migration, and when he said, "Observe the time of their coming", that these migratory birds possessed the ability to know their future needs.

Many scientists today are baffled about the ability of birds to know when to begin their migrations, and how they can navigate so perfectly in the night skies.

Some believe that they use the stars as would a navigator on a ship or airplane, and others believe they have some sort of brain aid that enables them to detect the magnetic influence of the poles which tells them the way home.

Observers have long theorized that migrants use mountain ranges, rivers, and coastlines for guidance.

Scientific research suggests that some birds may also set their courses by the sun, by patterns of the stars, even by the lines of force in the earth's magnetic field, perhaps in combination with gravity.

Some birds respond to ultraviolet and polarized light and can hear low frequency sound that travels thousands of miles.

How the migrants process these cues is a mystery, but the incredible facts remain, the birds know where they are and where they are going.

The migrating birds can be dubbed as "Perfect Flying Machines."

The fact that most of their yearly trek is done non-stop is mind boggling. If a person can imagine winging through the heavens at 50 miles per hour with a destination 1600 miles away, he could begin to appreciate the magnitude of the feat.

What makes this flight even more remarkable is the fact they are flying a 24-hour day and may keep it up for as long as 40 hours without rest, navigating during both daylight and total darkness.

Bad weather can blow migrating birds off course, and the long distances traveled can cause fatigue and exhaustion.

Yet, year after year, the same birds return to the same area, even to the same individual ponds.

Recent studies have shown that perhaps a greater number of North American land birds pass through Louisiana and particularly Cameron Parish than anywhere else.

This not only means that the visitor may encounter more birds of more species than anywhere else, and elevates the issue of habitat conservation to one of global importance.

Birders from all over the country flock to Cameron Parish to watch the spring and fall migrations, and especially during stormy weather or in the face of stiff north winds when weary migrants drop from the skies onto the first available land, creating the magnificent "fallouts" that every birder longs to see.

So the next time you hear the "call of the wild", the weird call of the wild geese calling back and forth to one another in their migrating flight, just remember that the old gander is giving encouragement to the young goslings who are possibly on their first flight.

Just remember that ganders have done this since they were first given the power to "Observe the time of their coming."

# Grand Lake area drainage studied

By GENEVA GRIFFITH

Charles Smith and Sanders LaBove appeared before the Cameron Parish Police Jury last week in reference to drainage problems in the Grand Lake area.

Smith said that after heavy rains the water goes over his yard and is undermining the parish road in front of his home.

Brent Nunez, Jury President, said, "All culverts in this area are undersized, but when they were installed, some as far back as the 1950's, it was not anticipated that the community would grow as fast as it has, and that we would be having all these problems of drainage today."

Juror George LeBouef said, "The parish has a 30 foot right-of-way and the ditches are on parish property so it is our problem"

It was decided that five culverts along the John Duhon road be changed to a larger size.

The meeting was open with prayer for George Hicks, Police Juror, from Hackberry, who is in intensive care at the Diagnostic Hospital, Methodist Hospital, in Houston.

The annual Agriculture and natural Resource report from the Parish Extension Service Office was given by Kevin A. Savoie.

Juror Douaine Conner asked the Jury to pass a resolution asking the Cooperative Extension Service to send a Home Economist to Cameron Parish, which they have promised to do for two years, to which the Jury agreed.

Chris Brown, Cameron Parish Librarian, appeared before the Jury asking authority for the library board to sign a lease agreement for ten years between the library and the Postal Service for the property the library owns adjacent to the Cameron post office to be used as a parking lot.

The Jury accepted the highest bid on surplus property, a 1992 GMC one ton cab and chassis to Fountain Auto Sales for $1,025.

James Cranburg appeared before the Jury and requested that a proposed abandonment of the last 17 feet of Parish Road #696 not be accepted, as he plans to construct a home on that portion of the road. The Jury agreed and turned down the abandonment.

The Jury agreed to exchange ownership with the state of Parish Road #357 (Trosclair or Front Ridge Rd.) with the state owned highway #1143 (East Creole Road) as was suggested at a recent meeting between the Police Jury and the legislative delegation of Rep. Dan Flavin and Sen. Gerald Theunissen.

The Jury agreed to ask for an Attorney General opinion concerning the transfer of the former parish health unit to the Council on Aging.

The Jury agreed to amend the Personnel Policy Manual as requested by Dusty Sandifer, juror, in regard to nepotism, with the understanding that if something came up regarding someone who is kin to the subject, it cannot be voted on by that person.

Condemnations were passed by the jury on the following buildings in the parish: a house and trailer belonging to William G. Brumby, III, in Grand Lake; a house in Holly Beach belonging to the Harry A. Roach heirs; and a camp at Johnson Bayou belonging to Howard A. Bourgeois, et al.

The jury agreed to sign a consent form with Torrence Cablevision, USA to approve a cable system franchise for Grand Chenier.

George LeBouef asked the jury to consider ways to beautify Cameron to prepare for the tourists who will be passing through the parish on the National Scenic By-Way.

The jury went into two executive sessions, one was with Sheriff Sono Savoie to discuss pending litigation over offshore boats; and the other wa to discuss personnel matters.

## Food dist.

The Cameron Community Action Agency will distribute food for seniors Fri., Nov. 15, from 9 to 11 a.m. at the Wakefield Methodist Church in Cameron.

They will also distribute food for seniors at the Hackberry Multi-Purpose Building fro 9 to 11 a.m.

The Grand Lake distribution will be from 9 to 11 a.m. at the Grand Lake Mutli-Purpose Building.

Call 775-5145 if you have any questions.

# Hospital's program gets state award

South Cameron Memorial Hospital's Rural Health Outreach Grand Telemedicine Project has been recognized by the Louisiana Rural Health Association "as an exemplary program for improving the quality of rural healthcare through education outreach." The hospital was given the Special Exemplary Project Award.

The Telemedicine Project is in the third year of a three year grant from the Federal Office of Rural Health Policy. Consortium members of the Telemedicine Project are: South Cameron Memorial Hospital, W. O. Moss Regional Medical Center, University Hospital - LSU Medical Center, DeQuincy Memorial Hospital, Southwest Louisiana Developmental Center, Acadia-St. Landry Hospital and Louisiana Health Care Authority.

The Telemedicine Project is a program that provides medical care, education, and information via long distance telecommunications. It diagnoses and treats patients, provides teleconfencing education programs, teleconferencing, demonstrations, and telepsychiatry. The network provides education and medical access to rural communities in Louisiana.

Cathy Denison-Wicke, Ph.D. is project director and Jenny Broussard is the coordinator.

A CIRCUS is coming to Cameron, Monday, Nov. 18. The circus will erect its tent at Cameron Rec. Complex and shows are scheduled for 6 p.m. and 8 p.m. under sponsorship of the Cameron Recreation Dist. #6. Reduced rate tickets are available from members of the camero Recreation now through the day prior to circus day.

# Parish schools are seeking excellence

By GENEVA GRIFFITH

The Cameron Parish School Board is aiming toward excellence and is pushing technology into the 21st century.

One of the new programs for the schools was explained at the school board meeting Tuesday by Rosalie Perry and Martha Fontenot, who gave a slide presentation from South Cameron High School.

The two English teachers explained a new program, Renaissance, as well as what is going on in the school to achieve excellence.

Tony Johnson, board member, said that in response to the public criticism that not enough money was being spent in the classrooms, he was proposing that each school be given a $50 per pupil allotment to be spent on curriculum.

He pointed out that he had heard an extensive amount of negative reports since the recent tax election, and that parents wanted more money spent on helping the students. He said his plan would cost $107,000.

Pam LaFleur, superintendent, said she thought the school board could restore pupil allotments for programs like agriculture and science.

Supervisor Judy Jones suggested that each school staff be allowed to develop a long range program toward the development of the school's technological needs. The board asked that a plan of action be developed to be presented at a future meeting.

### AUDIT REPORT

The board received a clean bill from the auditor, however, it was pointed out some improvement was needed in some of the schools, which had either overdrawn or carried higher balances in their accounts.

South Cameron High School's athletic fund had a $6,000 deficit that had been carried over, but the principal said it would be corrected before the end of the school year.

Board President Bill Morris said he had complaints about the way so...e principals had handled school money, especially when the auditor said that some schools showed balances of more than $10,000 with one with $50,000.

Morris said that he was asked for some time for an accounting of how that money is being spent, but has never received one.

The auditor said that the school board does not have a policy governing some funds, but if a policy is set she could audit it.

Gary Wicke and Kevin Savoie, representing the Extension Service and area Fish and Wildlife Service, gave their annual report and asked the school board, along with the police jury, to write letters to the state Extension Office supporting the filling of a vacant position in the local office of a female Home Economist to handle the 4-H work and the Extension Homemaker Clubs.

### ALLIGATOR EGGS

Supervisor Uland Guidry reminded the board that the contracts for alligator egg collections on school board property will expire next year, and said that the school board needs to consider raising the cost per egg. It is now $3 per egg, but other parishes are averaging about $9 per egg.

Cameron Parish contracts with three alligator farms in the parish, with the initial contracts approved July 31, 1987.

Each farm was approved originally for 1,000 eggs with later requests from two granted at 1,000 eggs each.

Guidry said he realizes that maybe the eggs are harder to secure in the Cameron marshes than in other areas which are more accessible, but the difference in $3 and $9 is too great at this time.

He said that the price per egg could also be based on the price the farmers receive per foot for farm grown alligators.

Originally the school board sold an average of 3,000 eggs, but this year only 2,031 were sold, with only 1,631 hatched. The board took it under advisement.

### MEDICATION POLICY

School nurse Nell Colligan gave a report regarding the school medication policy, and said it is working well, but required a great amount of time in writing the reports and administering the medications.

She said 130 pupils were receiving medication in the parish schools at this time.

The board went into an executive session to discuss litigation and a personnel matter.

# Head Start may be expanded in parish

Cameron Parish Head Start is conducting a Community Needs Assessment to identify the needs of the Johnson Bayou-Holly Beach and Hackberry communities.

They are asking any Johnson Bayou - Holly Beach families with a 3, 4 or 5 year old child to drop by the Johnson Bayou Recreation Center on Mon., Nov. 18, between 9 and noon to begin the process.

They ask Hackberry families to drop by the Hackberry Rural Clinic on Tues., Nov. 19, between 9 a.m. and noon, to begin the Hackberry process.

This information will enable Cameron Parish Head Start to determine the communities' eligibility for the Head Start program.

If you have any questions, call 775-2910.

### DEER SEASON

I know we're in several weeks of deer season, but one important thing to remember is to maintain proof of the animal's sex. You may do this by leaving the head attached to the carcass or by leaving the sex organs attached to a hind leg.

This holds true if you skin a deer in the field or even at the deer camp. If you share a deer with a fellow hunter, the one who bagged the deer is still required to have the proof of sex.

### HUNTING NEWS

We still have our water problems here in our lower Cameron Parish especially. It's hard for our water to go down as the water above us keeps coming down. This extra rain we got isn't helping matters out either. As for birds, our area is hurting for ducks. The water situation is hurting, but again up above as the rice fields hold feed and the right amount of water for the ducks to feed. The Sweetlake - Klondike area has quite a few speckle belly, snows and ducks.I talked with a friend of mine from Bel City and they have in their areas fairly good concentrations of ducks, again in the rice fields.

Saturday morning was better than most of us expected. We had a mixture of teal, spoonbills, gadwalls and black jacks in the deep marshes and the mallards were closer to the ridges, along with teal, black jack, spoonbills and gadwalls.

There is plenty of feed in the marshes, wigeon grass is there, but covered with 2 to 3 feet of water.

I really believe with more cold weather and the water going back to normal, we'll have some fine hunting.

### CLOSINGS

The East Cove of Cameron Prairie National Wildlife Refuge will be closed to all public use during waterfowl hunting season from Nov. 9 to Dec. 1, and Dec. 21 to Jan. 16. This provides needed sanctuary for waterfowl.

The boat bay at Grand Bayou closed on Fri., Nov. 8. The refuge will open during the split, Dec. 2-20, as long as salinities and water levels are favorable. For information call 598-2216 or 598-4235.

### STEEL SHOTS

I know our North American Waterfowl Management Plan has helped bring back our population of ducks, geese, along with the habitat and good hatching. I do believe we're also seeing the results of using steel shot shells.

How many ducks does non-toxic shot save we might not really know, however, during the days of lead shot, two to three percent of the fall flight died from eating lead pellets. Example - last year that would have amounted to 2 million ducks. It is said that 95 percent of all lead poisoning is caused by the previous year's pellets.

Are we crippling as many ducks as we save with steel shots? It is said no. Crippling rate from geese are the same with steel, as they were with lead. Crippling rates for ducks with steel are only 1 or 2 percent higher.

We all put the blame on steel shots, but I think many of us are just not experienced or trained enough with the steel shots. We also do not shoot often enough. Most of us only for the duck and goose season.

### TRAPPING TO OPEN

Louisiana trappers will have an extended season to harvest furbearers for the second year. The season is set for Nov. 20 to March 20, statewide. This is 15 extra days.

The season includes nutria, muskrat, raccoon, mink, otter, opossum, skunk, red and gray fox, bobcat, beaver and coyote.

The nutria is like the alligator, it's in high demand, thanks to the efforts of the La. Fur and Alligator Advisory Council. The market is looking brighter. New markets have been found for the nutria pelts, especially colored pelts.

In Europe, one of the biggest markets, there are laws that have eliminated domestic fur resources. Nutria could end up on plates in China as the meat is high in protein and low in fat.

Many land owners have put up money where the nutria pelt will bring up an extra dollar. The more nutria caught the more money for our trappers and the less of these voracious rodents we'll have to eat out the vegetation along our coast line and marshes, causing erosion and loss of valuable land and coastline.

**(Cameron Pilot, Oct. 24, 1963)**
**RESULTS OF UNION POGY BOAT VOTE**

In eight elections conducted by the National Labor Relations Board Friday in Cameron, Local 330, Amalgamated Meat Cutters and Butcher Workmen of N. A., AFL-CIO, won a victory on five of the boats employing about 100 men.

The vote was 58 to 13 in favor of the union. The boats voting union were: the Admiral, the Gallant Man, the Frenchman, The Jack T. Styron, and the Fasca de Gama. The boats fish for the La. Menhaden Co.

The union lost on three other boats fishing for the same company -- the Aggie and Millie, Commander, and Sea Raider. There were 34 no and 11 yes votes on these boats.

**GOOD PROVIDER CONTEST**

Ernest Hamilton, Jr., Hackberry High School 4-H Club member, has won first place in the New Orleans Times - Picayune Good Provider contest for the South Central Louisiana District.

He is the son of Mr. and Mrs. Ernest Hamilton Sr., of Hackberry. Known as "Sonny", he lives on a ranch with his parents. He started 4-H Club work with a breeding sheep project and a range cattle project and later branched out to projects in beef breeding, dairy, poultry, tractor, garden and handicraft.

Ernest and Clifford Meyers, associate county agent, will attend an awards luncheon Dec. 17, in the Blue Room of the Roosevelt Hotel in New Orleans. Ernest will receive a $50 first place prize.

Juanita Granger of Grand Lake was second in the Good Providers contest last year and Bobby Doland of Grand Chenier placed in the contest in 1958.

**BIRDS TO BE BROUGHT HERE**
**By Elora Montie**

Ted Jonan, biologist, and Howard Dupuis, employee, at the Rockefeller Wildlife Refuge in Grand Chenier, left Friday for the Swan Lake National Wildlife Refuge at Sumner, Missouri, to assist the U. S. Bureau of Sport Fisheries and Wildlife in trapping and transplanting of 6,750 Canada geese from the refuge there.

Some 2,000 adult Canadas will be brought back to the Rockefeller refuge here, and 750 immature Canadas will be taken to the Lacassine National Wildlife Refuge, also in Cameron Parish.

**PARISH RICE COOKING CONTEST**

Junior 4-H Club winners in the recent Cameron Parish rice cookery demonstration contest held at Grand Lake High School are: Darlene Guidry, Darlene McCain, and Cherie Kay Griffith, first; Judy Granger and Margaret Humphries, second; Marlene LeBleu, third; Cindy Gotreaux and Ida Young, fourth. All are from Grand Lake except Miss Griffith, who is from South Cameron. Mrs. E. D. Sweeney is the Grand Lake Junior 4-H Club local leader.

**FIRST OFFSHORE WELL 25 YEARS AGO**
**(Excerpt of article from Offshore Magazine, Oct., 1963)**

Just twenty-five years ago, two companies brought in the first oil well to be completed in open waters of the Gulf of Mexico.

"Considerable interest is being manifested in the recent oil discovery...one mile out from the Louisiana shore," reported the Pure Oil News in May, 1938. "The discovery well is known as the Gulf of Mexico State No. 1, owned jointly by The Pure Oil Co. and the Superior Oil Co., the latter company being the operator of the property. The well, which gauged 22-1/2 barrels an hour through one-quarter inch choke on its initial test, is located on a 40,000 acre block of leases known as the Creole Field and held jointly by the two companies.

"This discovery on a large block naturally is heralded as a pioneering project of the highest order..."

And indeed it was. The remarkable operation, off Cameron, La., has been dwarfed by later offshore feats. But even after 25 years, it remains an outstanding success story, for it marked the oil industry's first attempt to acquire the sea legs which are now carrying it out to the edge of continental shelves around the world.

(All of article is printed in the Pilot issue).

**ROUNDABOUT THE PARISH**

Hackberry -- Miss Veronica Portie, daughter of Mr. and Mrs. Dewey Portie, has been elected freshman representative of the Newman Club at Northwestern State College.

Creole -- South Cameron High School homecoming maids are Donna Miller, Judy Hebert, Janice Cheramie, Gayle Kovach, Shirley Piner, Susan Kornegay, Nadia Hebert, and Charlotte O'Donnell.

# Retreat set in Cameron

A Parish Mission will be conducted at Our Lady Star of the Sea Church in Cameron Mon., through Thurs., Nov. 18-21. Services will begin each evening at 7 p.m.

Fr. Theophilus Herlong, well known retreat master, will conduct the Mission. He has broad experience in high school education, hospital ministry and retreat work.

He recently served as pastor of Immaculate Conception Church in Jennings and St.Mary of the Lake in Big Lake.

In addition to evening services, Father Herlong is offering to individuals the opportunity for counseling, confessions, and to small groups an opportunity to discuss recommendations for preparing for the Jubilee Year, 2000. If interested call the rectory he will preach at all Masses this weekend preceding the Mission.

# Get out vote drive held by Grand Lake 4-H

By RUSTY TAYLOR

The Grand Lake Sr. 4-H club met Oct. 10. Mrs. Sherry LaVergne, leader, announced that approximately 510 homes had been contacted out of the 1100 in the Sweetlake phone book during the club's phone drive on Sept. 20 and 21, to remind residents to vote.

She said she hoped the drive had served a dual purpose, that it would teach the Senior 4-H members the importance of voting. The Senior 4-H members who volunteered were Miranda Hebert, Jessica LeBouef, Lindsay Smythe, Heather Taylor, Mandy Broussard, Jennifer Boudreaux, Rusty Taylor and Jessica Daigle.

Christy Duhon then gave a report on TV violence. She said that October was National Child Health Month and pediatricians were encouraging everyone to limit the amount of violent television that small children viewed.

Rusty Taylor gave a report on Officer's Training Workshop held Oct. 1, in the Cameron Courthouse. He reported that he and Todd Thomas had attended from Grand Lake. Judge Ward Fontenot addressed them as a group in the Courthouse.

Mrs. Sherry recognized Rusty Taylor, Heather Taylor and Mandy Broussard for bringing cookies to the Teacher's Lounge during National 4-H Week. She reminded everyone that Demonstration Day would be held at Grand Lake School Nov. 16.

Mr. Mike LaVergne, assistant county agent, talked about Beach Sweep and acknowledged Heather Taylor and Mandy Broussard for participating. He played Agg-In-The Bag with the club and Lindsay Smythe successfully guessed pecans. He then gave a report on pecan production in Louisiana.

He then introduced Mr. Kevin Savoie from the La. Cooperative Extension Office who presented a slide show and report on Wetland Functions and Values in Louisiana. Mr. Savoie discussed how we are loosing wetland acreage each year in Louisiana and that we shouldn't take our wetlands for granted.

# H'berry winners

# Beta Club is raising funds

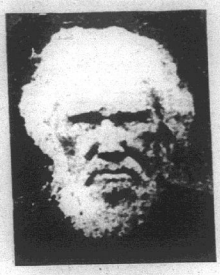
The National Beta Club of Johnson Bayou High School, a first year club, is well on its way to the state convention in Baton Rouge. A sock hop for grades K-12 was held Nov. 1, and a car wash was held Nov. 9, to raise money for the convention.

At a meeting held oct. 2, the following officers were elected: Sarah Griffith, president; Regina McGee, vice-president; Jamie Trahan, secretary; James Welch, treasurer; and Amy Nicar, reporter.

REMEMBER? By Keith Hambrick

# Grandpa Welch gives observations at 100

**(Lake Charles American Press, Oct. 29, 1926)**
**GRANDPA WELCH WROTE OF HIS BELOVED PARISH**



A few days before the death of Jas. W. Welch, at the age of 100, at his home in Cameron last week, he put into writing some of his observations regarding his parish, its people and their ambitions. In part he wrote:

"Sometimes I get into a reminiscent mood and in order to beguile an idle hour I thought I would write a few lines descriptive of a visit paid by friends to Cameron parish in the interest of Mr. Sweeney's road a few days ago. Let me say right here that I believe Mr. Sweeney's road, when completed, will be of greater benefit to the people of Cameron parish as well as the general public, than the Panama Canal.

The Panama Canal is a world wide utility and we derive but little direct benefit from its completion; whereas, our local road is daily needed and would be utilized by large flourishing communities from both the Lone Star state and the Pelican state of Louisiana. When this road is completed, then our great promoter's name and fame will go down the ages, adorning Cameron's brightest page. It is sincerely hoped that Mr. Sweeney's project will be crowned with success and then posterity will proclaim him Cameron's greatest benefactor.

Cameron parish, by reason of her undeveloped resources, the progressive spirit of her citizens, her many attractions, the beauty of her Edenic scenery, would lead in the race for Empire.

We are indebeted for many favors to our friends and visitors from abroad who, during the summer, in order to take a few plunges beneath old Neptune, the Gulf of Mexico's healing waves, their precious lives to save, and they prophesy in language pleasant to the ear, that Cameron parish, by reason of her many attractions, is destined to become her Mother's f-

James W. Welch

child.

I can't close these few lines without saying a just tribute to our parish officials. Excelsior seems to be their watch word and refrain; their gentility obliging disposition has won for them the admiration of a gratified public. Their laudable ambition is to keep Cameron parish in the forefront in the race for Empire.

Our visitors from abroad are agreeably surprised when told that Cameron never had but one legal execution. And that her jail is empty nine to ten months of the year; that her rate of taxation is the lowest in the state; that her schools and churches are in a flourishing condition.

Though I may be a little old, even to the 100 mark, I still do my best to assist in carrying on the good work of development. Especially am I interested in the good roads movement as launched so strong by our good friend and leader, Mr. Sweeney, which I again state will be successful in every respect and in the end mean so much to Cameron parish when finally completed.

# Do you remember?

**(New Orleans Daily Picayune, Oct. 24, 1892)**
**SKETCHES OF PARISH SUPERINTENDENTS OF PUBLIC SCHOOLS**

James M. Welch, of Cameron, is a native of Louisiana, of Irish descent, and is about 60 years of age. He was educated in the public schools of St. Tammany and New Orleans, and during the Mexican War, though very young, served in the quartermaster's department. Upon his return to New Orleans he decided to adopt a seafaring life and at various times commanded several vessels plying between gulf ports and New Orleans.

Upon the outbreak of the civil war he was one of the first to volunteer for service and was a gallant supporter of the confederate cause to the close of the struggle. For sixteen years past, Mr. Welch has been connected with the public schools of the parish of Cameron, and has done all that lay in his power to make them the best regulated and most thorough in the state.

He represented his parish in the general assembly of 1879, and is a member of the house of representatives for the present term. He is an uncompromising foe of the saloon and has used every effort to banish it from the soil of Cameron.

# Severance taxes are down here

-CAPITAL NEWS-

Natural resource production in Cameron Parish lagged behind 1995 levels once again when severance tax figures for August were released by the state Department of Revenue and Taxation.

Tax collections for August totaled $1.34 million for work in the parish, down about $6,000 from the figure in the previous report but still the seventh highest overall receipts in the state. The month's receipts also failed to reach the $1.4 million recorded for the parish in August 1995. Severance taxes listed for the parish for the year so far have consistently lagged behind those for the same periods in 1995, and August proved no exception.

The majority of the August severance taxes credited to work in the parish were listed under oil production, which generated $764,712 in taxes. The $575,189 contributed by natural gas was the state's fourth highest figure in that category. Gravel added $834 to the total, and the remaining $31 was attributed to timber products.

The parish collecting the tax on oil and natural gas receives one-fifth of the total up to $500,000. Seventy-five percent of all revenue collected on timber products goes back to the parish.

Statewide, severance taxes dipped almost $230,000 to just over $30 million for August. It was the second straight decline for the state's receipts, which peaked at $34.6 million in June.

# Jurors make appointments

Several appointments were made by the Cameron Parish Police Jurors at their November meeting.

Randy Jones was appointed to the Fire Dist. 14 board replacing Tony Smith who resigned.

Board members who were reappointed were Jimmy Colligan, Waterworks and Sewerage Dist. 1; Hayes Picou, Sr., Oyster Management Advisory Committee; Shirley Chesson, Recreation Dist. 5.

Eva January was named to Recreation Dist. 6 board to replace Deric January, who resigned.

The jury also approved a liquor permit for Gwendlyn Smith at Sweeney's Club in Cameron.

# Hackberry 4-H has observance

Members of the Hackberry Sr. and Jr. 4-H clubs celebrated National 4-H Week Oct. 7-11. Monday was find a hidden 4-H Clover. Tuesday was teacher appreciation day. Wednesday was 4-H poster contest day. Thursday was color the clover contest. Friday was green and white or 4-H shirt day.

POLICE JURY
OCTOBER 1, 1996
The Cameron Parish Police Jury met in regular session on Tuesday, October 1, 1996, at the Police Jury Building in the village of Cameron, Louisiana at 10:00 o'clock A.M. The following members were present: Mr. Allen B. Nunez, Mr. George LeBoeuf, Mr. George Hicks, Mr. Malcolm Savoie, Mr. Dusty Sandifer and Mr. Douaine Conner.
It was moved by Mr. Hicks, seconded by Mr. LeBoeuf and carried, that the reading of the minutes of the previous meeting be dispensed with and approved.
It was moved by Mr. LeBoeuf, seconded by Mr. Savoie and carried, that the following items shall be added to the Agenda:
7. Drilling and Pipeline Permits: i. NGC Oil Trading & Transportation, Inc.
20. Tourism Commission Funds - Malcolm Savoie
21. Staff Report: a. Capital Outlay
b. Revision to Personnel Policy Manual
Dinah Landry provided a status report on grant applications on behalf of the Cameron Parish Police Jury.
The following proclamation was offered by Mr. Conner, seconded by Mr. Savoie and declared duly adopted:
PROCLAMATION
WHEREAS, "Coastweeks" was first celebrated fifteen years ago in an attempt to unite and educate persons of all walks of life regarding the functions and values of our coastal areas and the need to preserve them; and
WHEREAS, a large number of Louisiana's citizens reside at or near the coast, with most of these citizens benefitting from the jobs that are a result of the ports and energy, waterrelated, and seafood industries located in Louisiana's coastal area; and
WHEREAS, Louisiana contains forty percent of the coastal wetlands in the contiguous U. S., and experiences eighty percent of the wetland loss in the U. S.; and
WHEREAS, fish, waterfowl, and fur-bearers rely on the coastal habitat as well as contribute significantly each year to Louisiana's economy in terms of hunting, fishing, and trapping; and
WHEREAS, the Louisiana wetlands serve to purify water and act as a storm buffer for many inland areas; and
WHEREAS, the economy of the Louisiana coastal area benefits greatly from the recreational activities afforded citizens and tourists alike; and
WHEREAS, it is of particular importance that the citizens of Louisiana recognize the many benefits associated with their coastal area, particularly its service as one of the nation's most valuable natural resources; and
WHEREAS, pollution from the Gulf of Mexico is now affecting Louisiana's coastal area at a greater rate than ever before; and
WHEREAS, due to the high rates of wetland loss, the need for preservation and restoration of these rapidly diminishing natural resources is vital to the people and economy of Louisiana, and all citizens should be made aware of these problems;
NOW, THEREFORE, the Cameron Parish Police Jury, does hereby proclaim the period of September 21 through October 14, 1996 as
COASTWEEKS '96
in the State of Louisiana and the Parish of Cameron to urge all citizens to participate in its observance.
ADOPTED AND APPROVED, this 1 st day of October, 1996.

A year has gone by since you left us. We still miss you. It seems like just yesterday I talked to you. A million times I cried for you wishing God would not have taken you, but he needed you more than us. If I could of went in your place I would have gladly went, but he wanted you. God gave us the strength to face it and the courage to bear the blow. But what it means to live without you, no one will ever know.

With all our love,
We still miss you,
Your sister and family.

# Tarpons to play Loyola Flyers in bi-district

By JOE MUELLER

The South Cameron Tarpons, rich in post-season play, will travel to Shreveport for the opening round game of the 1996 Class AA State Playoffs.

The Tarpons face the Loyola Flyers at 7 p.m. in Fairgrounds Stadium, home of the Independence Bowl.

Both teams finished second in their district. South Cameron brings a 6-3 record into the contest. Their three losses were to Notre Dame, Pickering and St. Louis. All three teams are ranked in the final state prep poll. The Tarpons victories were over DeQuincy, Vinton, Lake Arthur, Welsh, Iota and North Vermilion.

The Flyers, who finished second in District 3, bring a 5-4 overall record into the game.

The Flyers, who in 1994 advanced all the way to the Dome only to lose to Haynesville in the state championship game, feature two strong running backs in Tommy Semon, who has rushed for 850 yards and scored 9 touchdowns, and Terrius Wiggins, who has rushed for 639 yards and scored 6 touchdowns.

The Flyers play an offense very similar to Notre Dame or Iota. they just line up in an "I" and run right at you most of the time.

They haven't thrown the ball much this year. Their quarterback, Bobby Gillian is 27 for 55 for 328 yards. The top receiver is Scott Patton with 8 catches for 143 yards. He has caught the only scoring pass for the Flyers.

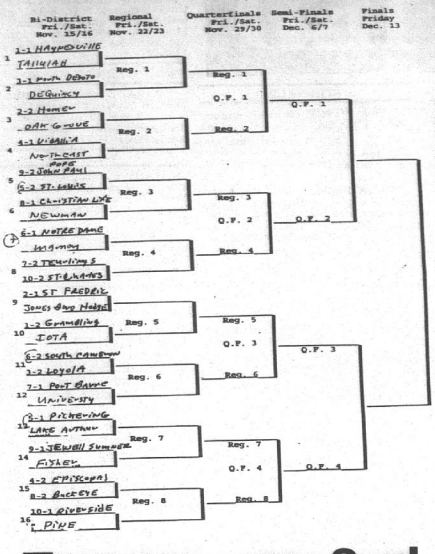
On defense the Loyola team will line up in a 4-4 or 4-3 so they dare you to run the ball. The Flyers head coach is Mike Green who is in his fourth year as the head coach of the Loyola football program.

The Tarpons also have two strong runners in Brandon Conner, who has rushed for 808 yards and scored 7 touchdowns. Cory Broussard has 451 yards on 101 carries. He has scored 3 touchdowns.

The Tarpons passing attack has John Pradia completing 27 of 57 for 324 yards.

The Tarpons top receiver is Brent Morales with 21 catches for 272 yards.

On defense the Tarpons also run an even front and they have given up only 1847 yards in the season, only 205 yards per game. They have allowed only 105 points while scoring 174.



The game should be hard fought and both teams are well prepared for the game. The Flyers are tall and lanky and look fundamentally sound according to Tarpon head coach Parry LaLande.

The Tarpons appearances in the mid-80's and 90's are 10 of 11 years. The only year the Tarpons were not in the playoffs was 1995. In 1985 South Cameron lost to Springhill in the quarterfinals. In 1986 they lost the state championship game to Kentwood. In 1987 they lost to Assension Catholic; 1988 they lost to Merryville; 1989 they lost to Haynesville in the quarterfinals; 1990 they lost to University in the quarterfinals; 1991 they lost to Haynesville in the quarterfinals; 1992 they lost to Coushatta in the regional round; 1993 they lost to Riverside in the quarterfinals; 1994 they lost to North Vermilion, so that brings us to 1996. They play Loyola Fri., Nov. 15, at Fairgrounds Stadium. Kickoff is 7 p.m.

Good luck Tarpons. Let's go all the way to the Dome. If the Tarpons win they will play the Port Barre-University winner on Fri., Nov. 22.

The Tarpons head coach is Parry LaLande, who is in his 14th year as head coach and has 124 wins as coach of the Tarpons.

## State AA Playoff Schedule

# Tarpons are 2nd in the district

The South Cameron Tarpons used a strong defense as they beat the Welsh Greyhounds 26-13 in the final regular season game of the year.

The win raised the Tarpons district record to 4-1 and their overall record to 6-3.

The Tarpons scored first in the contest on a 44 yard run by Brandon Conner. The run culminated a 65 yard drive on the Tarpons first possession of the ball.

Welsh came back to tie the game at 7 midway through the second quarter as Courtland Fontenot scored on a 17 yard run.

The Tarpons took a 10-7 halftime lead on a 25 yard field goal by John Mark Montie.

The Tarpons increased the lead to 17-7 on a 49 yard run by Conner.

Welsh cut the margin to 17-13 on a 5 yard run by quarterback Eric Troutman.

South Cameron scored nine fourth quarter points on a 22 yard field goal by Montie and a 2 yard run on the final play of the game.

The Tarpon defense had two turnovers in the game, picking off a pass and recovering a fumble. They held the Greyhounds to only 113 yards rushing.

Welsh Coach Dutton Wall will have to wait until next year for his 200th win as he finished the year with 199 career victories.

Brandon Conner rushes for 197 yards in the contest, scoring two touchdowns.

Top pass receiver for the Tarpons was Brent Morales with 3 catches for 37 yards. John Pradia hit 4 of 6 passes in the game.

South Cameron travels to Shreveport to face Loyola in their opening game of the state playoffs.

Other district 6 teams making the playoffs are district champ Notre Dame who will host wildcard Mamou, Iota, a wild card entry travels to Grambling; and Lake Arthur, also a wild card will travel to Pickering.

# Tarpon vance to 2nd round of the playoffs

By JOE MUELLER

The 6-5 University Titans face the 7-3 South Cameron Tarpons in the second round of the state playoffs this Friday, Nov. 22, at 7 p.m. in Tarpon Stadium.

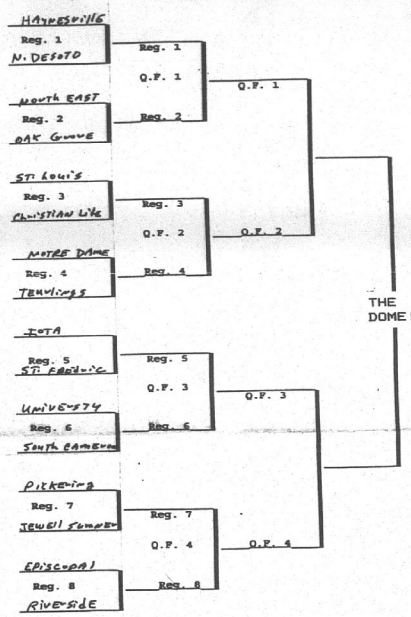
Both teams won opening round games on the road. The Tarpons beat Loyola in Shreveport 20-7 and the Titans beat Port Barre 24-7.

University brings a wide open offensive game into the contest as they throw the ball nearly half the time. The Titans four losses came against top quality teams as they lost in the regular season to Port Barre, Clinton, Episcopal and Newman.

The Titans quarterback, Troy Williams, is 6'4" and weighs 185 pounds. He can run and throw the ball well. The top running back is tailback Marcus Antoinnell who has good size at 5'11" and 185 lbs. The Titans top receiver is Enquist.

The Tarpons counter the Titans balanced attack with a strong running game. Brandon Conner, who scored twice last week, averages over 80 yards per game. The Tarpons, who don't throw a lot but can if they have to, have John Pradia at quarterback. Pradia was 4 for 7 last week. The Tarpons top receiver is Brent Morales, who has 21 catches on the year.

The Tarpon defense has been very consistent all year as they have allowed less than 200 yards per game average.



The Tarpons have a strong kicking game in John Mark Montie, who can hit the field goals and extra points.

The Tarpons had three fumble recoveries in their opening round victory with one for a touchdown and another at the two yard line which resulted in a touchdown run by Conner.

The winner of the game will continue on the road to the Dome as they play the winner of the Iota - St. Frederick game.

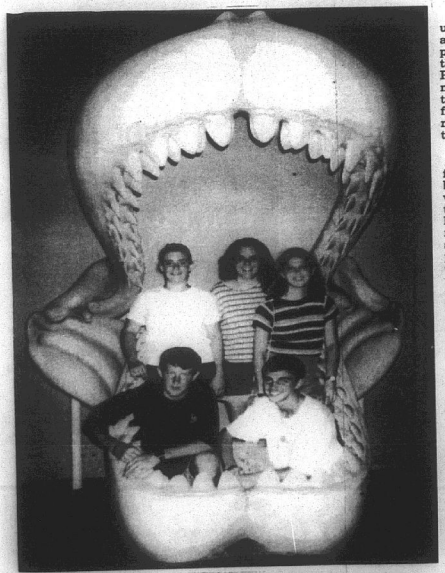
Kickoff is 7 p.m. and the price of admission is $5. Let's fill the stadium and cheer the Tarpons on to victory on their road to the Dome.

## Class AA Playoff Bracket

# Mosquitos aplenty!

By DON MENARD

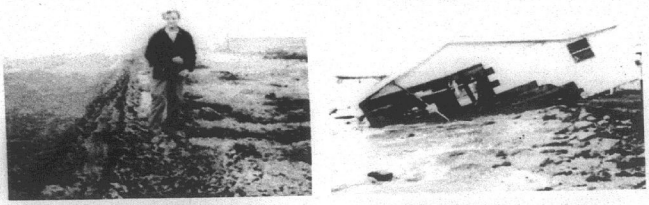
Cameron Parish Mosquito Control Director



Heavy rains, high tides and unseasonably warm weather are all combining to keep mosquito production at an all time high for this time of year in Cameron Parish. All of the pastures, marshes, and low areas in yards throughout the parish are overflowing with water, allowing for mosquitoes to be pumped off continuously.

At the same time, conditions for spraying have been extremely bad for several weeks. High winds, fog, rain and cold night temperatures have all severely hampered out operations and reduced the effectiveness of the spray. On many nights, the temperature drops to near or below 60 degrees right at sundown. At this temperature, the mosquitoes are not very active and the rate of kill plummets, making spraying almost ineffective. For these reasons, it's been taking longer than normal to spray all the areas needed it.

Until really cold weather arrives, we will continue to spray as much as we can and as often as we can. All areas of the parish are being sprayed on a rotating basis, but the mosquitoes are quickly reinfesting the areas just sprayed, so until the weather cooperates, we will have a very hard time getting control.



To help reduce mosquitoes harboring in barns, garages and other sheltered areas where our spray doesn't reach, people can spray with permethrin which is an insecticide and a repellent.

It is available at feed and seed stores and will help keep mosquitoes away for up to 2 weeks. It's very safe and available to the general public and even has label directions for spraying on livestock to keep mosquitoes and flies off of them.

MARANDA DAIGLE, Trisha Silver and Chad Pitre, members of the Hackberry Sr. 4-H Club, attended a fun and educational trip to New Orleans July 22-24, with the Parish Junior Leader Club. Also attending were 4-H members Heather Taylor and Josh Dupuie. The group is pictured at the Aquarium of the Americas, in a shark's mouth.

# Beach is battered

By GENEVA GRIFFITH

Three camps and another 30 feet of shoreline were washed away by wave action this weekend when south winds, estimated as high as 70 mph, pushed in from the Gulf of Mexico in the Constance Beach area.

The beach front camps were located on what was once the third paved road from the beach.

The two closer roads, camps and homes were washed away during previous hurricanes, storms and strong winds. Two of the camps destroyed by wave action this weekend were owned by Rosie Burchet of Johnson Bayou and P. J. Lang of Port Acres, Texas.

A fourth camp in the Gulf Breeze Subdivision, west of Constance Beach,, was damaged during the last hurricane and sustained further damage Saturday, according to beach resident Rodney Guilbeaux.

Other damaged included the loss of two small cable boats and a jack-up rig owned by Grant Geophysical Company, a company doing seismic work in the area.

The wind pushed water from the Gulf over La. 82 from about four miles west of the Cameron ferry to the Texas line, leaving tons of driftwood and heavy logs all along the highway.

The wave action dug a 3-foot trench on the north side of the highway near Constance Beach as the undertow flowed back across the road.

An 8-member inmate crew from Phelps Correctional Center began cleaning debris from La. 82 on Tuesday.

Parish Administrator Tina Horn said Gov. Mike Foster sent the inmates in connection with a campaign promise to make inmate labor available to clean highways.

Prison guard Norman Johnson said the men will be paid or get credit for the work.

# Apology given for letter with fictitious signature

The Cameron Parish Police Jury this week received a letter from the Baton Rouge Audubon Society apologizing for a letter sent to area newspapers concerning the bird sanctuary controversy.

The original letter was signed by an apparent fictitious name and made personal attacks on parish officials that may have been libelous.

Both the Cameron Pilot and Lake Charles American Press refused to print the letter because of its libelous nature and because they were unable to verify the identity of the letter writer.

The original letter was signed by "Rev. W. Gibbs Moon, Retd." but no one by that name is listed in the Baton Rouge area telephone directory. In addition, Charles Fryling, Jr., president of the Baton Rouge Audubon Society, wrote to the police jury:

"Baton Rouge Audubon does not have any member by the name of Rev. W. Gibbs Moon. I personally doubt that there is such a person as Rev. W. Gibbs Moon."

In his letter to the newspapers the so-called Rev. Moon made a personal attack on the integrity of one of the police jurors and referred to the citizens of Cameron parish as a "poor, downtrodden populace."

However, Society President Fryling made it clear in his letter to the police jury that "the Rev. Moon letter in no way reflects the opinions of the board of Baton Rouge Audubon. The volunteers on our board do not condone Rev. Moon's opinions in any way, and we regret that you and others reading this letter may be upset. We hope that your judgment of our Society will not be affected by this emotional, vicious and cowardly attack."

The letter also stated that a member of the Society whom some people in Cameron parish believe wrote the letter has resigned from all Baton Rouge Audubon committee positions.

"If Baton Rouge Audubon Society is in any way responsible for the grief caused by the Moon letter please accept our apologies," Fryling wrote.

SUIT PENDING

The bird sanctuary controversy erupted several months ago when several residents of the Little Florida subdivision got in a dispute with the Baton Rouge Audubon Society about cutting the grass and underbrush on the Society's bird sanctuary partly located in the subdivision.

The Society stated that the underbrush had purposely been left as shelter for the migratory birds and that it had not been cut in years.

The residents then persuaded the police jury to include the subdivision in the jury's weed ordinance which required that weeds and brush on such property be cut on a regular basis.

The Audubon Society obtained a temporary injunction preventing the jury cutting the sanctuary and then filed a suit in Cameron district court alleging that the weed ordinance was illegal.

The suit will be heard in Cameron District Court by Judge H. Ward Fontenot at 10 a.m. on Monday, Nov. 25.

**FAWVOR NAMED JEEP DEALER**

Jeep Sales and Service of Creole has been named the Cameron Parish dealer for the famed Jeep family of vehicles, it was announced this week by Kaiser Keep Sales Corporation.

Signing of the franchise was announced by Dudley Fawvor, manager of the new dealership. Associated with Mr. Fawvor are his father, James H. Fawvor, and his brother, James E. Fawvor.

The Jeep dealership will be located at the Fawvor Chevrolet Co. in Creole and will be operated in conjunction with the Fawvor's Chevrolet dealership.

The Fawvors, natives of the Grand Chenier area, purchased the Chevrolet dealership from Mr. and Mrs. Harold Carter in April, 1962. The firm has been in operation for 31 years.

**THE 1963 GOVERNOR ELECTION**
**(By Jerry Wise)**

Who's ahead? This is the heyday for polls in Louisiana -- everybody takes his own and usually they all come out different. In a poll we participated in last weekend at a Louisiana Press Association meeting in New Orleans, there were the following results:

Morrison got seven first place votes, three second and three thirds. Long got four firsts, three seconds and seven thirds. Kennon had five firsts, ten seconds and one third place.

The newspaper men of the state were asked to indicate whom they thought was running first, second and third in their parishes.

The Long forces are still badly split up in this election.

**OPTOMETRY OFFICE TO OPEN**

Dr. George Isaac and Dr. O. J. Melvin, Sulphur optometrists, will open an office next Wednesday in the new Lalande building, Main St., Cameron, for the practice of optometry.

Dr. Isaac is a native of Sulphur and Dr. Melvin is originally from Canada.

**SHERRILL TAYLOR WINS RICE CONTEST**

For a second year in a row, a Grand Lake High school student has won the rice cooking demonstration contest at the International Rice Festival in Crowley.

This year's winner is Miss Sherrill Taylor, daughter of Mr. and Mrs. Mervyn Taylor of Sweet Lake, and a junior at Grand Lake. She is a member of the Grand Lake Senior 4-H Club.

In 1962, Alma Johnson, also of Grand Lake, won first place in the contest, and in 1960, Sylvia Young, from the same school, took second place.

Miss Johnson was first place winner in the Cameron Parish rice cookery contest held recently at Grand Lake High School, but since she was ineligible to go to Crowley again because of her previous win, Miss Taylor, who took second in the parish, was named Cameron Parish's representative.

Among those assisting Miss Taylor prepare her demonstration were Mrs. Ewalda Klossner, Grand Lake 4-H advisor; Mrs. William Johnson, Mrs. Bill Fontenot, Mrs. Hadley Fontenot and Miss Patsy Granger.

**HOMECOMING QUEENS**

Hackberry High School's homecoming will be held this Friday, with a football game between the Mustangs and Merryville. Pamela Riggs, daughter of Mr. and Mrs. C. A. Riggs, will reign as homecoming queen. She and her maids were chosen by members of the football team. The maids are Judy Little, Donna East, Judy Landry and Jackie Ryan.

At South Cameron High School, Judy Hebert, daughter of Mr. and Mrs. Charles Hebert, was crowned homecoming queen Friday night.

South Cameron defeated Kinder by a score of 7 to 6. Billy Finch scored the Tarpons touchdown.

# Remembering a loved one...

On Oct. 23, 1993, Jeremy Abshire, 23, of Holly Beach was hit and killed by a truck while walking on Hwy. 27 near the Cameron Ferry.

Three years have elapsed but Abshire's memory is being kept alive by two roadside crosses erected by family and firends at the spot where he was killed.

After getting the grass cut around the area, Roxanne Kellum, his sister, and Loma Abshire, a sister-in-law, went to the site to repaint the two crosses this week.

Roadside crosses at the sites of fatal accidents are an old custom in Louisiana that is still being carried out here in Cameron parish.

## Broussard honored for WW II duty

By GENEVA GRIFFITH

Joseph W. (Bud) Broussard was honored at a recent reunion of the 306th Bombardment Group, Eighth Air Force, in Las Vegas, Nev.

During World War II a B-17G bomber, "Skipper" was assigned to Master Staff Sergeant Adolph L. Visconti, Crew Chief, and Staff Sergeant Joseph W. Broussard, Assistant Crew Chief, when it was delivered at Lhurleigh, England in 1944.

Because of the devoted care of these two men, she was flown on 72 bombing missions without an aborted flight, "Skipper" went on to complete 101 missions, a rare achievement when 24 was the average combat life of a 306th B-17.

Visconti and Broussard were recognized as two of only 13 crew chiefs whose dedicated service kept their planes flying.

Each was presented with a plaque signed by Major General James S. Cheney, president of the 306th Bomb Group Association, and by Major General G. Barney Rawlings, pilot of the "Skipper", who expressed his "great admiration, respect, and gratitude for the exceptional and dedicated ground crew that kept his plane airworthy, and so kept her aircrew among the fortunate survivors of the Air War of World War II.

## State Senior Games participants

Two Cameron Parish senior citizens placed in the State Senior Olympics held in October and are eligible to compete in the 1997 National Senior Games in Tucson, Ariz.

Lida Miller placed in the horseshoe competition and Oscar Reyes placed in the javelin throw.

Other competing from the parish were John Driscoll, Margaret Pitts, Velma Picou, Ella Hebert, and Alice Reeves. All of the contestants are pictured above.

THESE VETERANS took part in the Veterans Day program held Nov. 11, at Johnson Bayou High School. They are James McCrory, Dan Billiot, Ray Young, Dale Jinks, Alvin Trahan, Alton Trahan and Rodney Guilbeaux.

COURTNEY STURLESE, a student of South Cameron High School is shown showing her hog during many summer hog shows. Some of her winnings were: Red River Showdown, 1st & 3rd; Prospect Show, 2nd & 6th; Mid-summer Classic, 3rd & 7th; River Classic, 4th & 3rd; Rapides Classic, 4th; Southwest Classic, 1st; Red Hot Summer Show, 3rd & 8th; Firecracker Classic, 1st & 3rd.

# Fifty year Knights are recognized

Calcasieu Council 1207 of the Knights of Columbus has adopted a resolution of congratulations for 46 Knights residing in the Diocese of Lake Charles who this year have completed 50 years of membership in the Catholic fraternal society.

The resolution was adopted at Council 1207's November meeting, and was announced by Grand Knight Jac H. Mayeux.

"Our council is celebrating its 90th anniversary during this Columbian Year," Grand Knight Mayeaux said, "and these Brother Knights have been serving the Order of more than half of that time."

Calcasieu Council 1207 was organized on March 10, 1907, and at that time was the only Knights of Columbus council in Louisiana west of Opelousas, and its area included all of what is now the Diocese of Lake Charles.

Here is the list of 50-year Knights from Cameron Parish:

J. P. Boudoin Sr. Council 3014, Creole: Roland J. LeBoeuf, Joseph H. Boudreaux.

Our Lady Star of the Sea Council 5461, Cameron: Norman F. McCall, Carl W. Faulk.

## Coastwaters program announced by LDWF

Department of Wildlife and Fisheries Enforcement Chief Col. Winton Vidrine announced a new program to train citizens to spot and report violations to LDWF Enforcement Agents.

"The Coastwaters Program builds on highly successful existing programs through which concerned citizens report suspected law violations to the proper authorities," said Vidrine. "Our Department already has Operation Game Thief through which citizens may cal a toll-free number to report violations."

Coastwatchers operates similarly to Neighborhood Watch programs that are in effect in communities across the United States, according to Vidrine. "The main difference is that Coastwatchers volunteers usually are in boats in Louisiana coastal waters and are trained by enforcement agents," he said.

Coastwatchers volunteers undergo training by LDWF on how to spot and report violations. Volunteers learn how to take notes on pertinent information that enforcement agents will need to make arrests and present cases in court.

Volunteers have no police powers, are not armed and are carefully instructed to avoid confrontation. Coastwatchers use their personal cellular telephone to call in suspected violations to the nearest LDWF station. Volunteers receive no compensation or reimbursement of expenses for their efforts.

"The more anonymous our volunteers remain, the more effective they will be," said Vidrine. "The beauty of this program is that those who insist on violating our game and fish laws will never know who's watching. The guys fishing in a nearby boat could be Coastwatchers."

Parties interested in becoming one of the Coastwatchers should contact LDWF Sgt. Jeff Mayne at 504/765-2980.

## Low interest mortgage funds told

The Louisiana Housing Finance Agency (LHFA) reported today that $6.9 million remains in low interest mortgage funds earmarked through local lenders to qualified low and moderate income first-time home buyers in 49 priority parishes, including Cameron, Vermilion and Jeff Davis.

A new construction set aside of $500,000 remains at 6.75 percent interest for homes throughout the state. Final reservations for new construction is Nov. 23.

"Owning a home is central to the American dream, yet too many Louisiana families find this dream deferred or denied. These programs help to assist with lower interest rates or down payment assistance," said Governor Murphy J. "Mike" Foster.

Program eligibility brochures, parish median incomes and a list of lenders can be obtained by calling the LHFA office at (504) 342-1320 or writing LFHA, 200 Lafayette Street, Suite 300, Baton Rouge, La. 70801.

## Beef, seafood contest held

On Nov. 9, Mrs. Sylvia Smith conducted the annual Beef and Seafood Cookery contest. Rachel Andrews, Ben Broughton, Jr., Carrie Butler, Mark Conner, Nathan Vincent, Keely Voorhies, and Christopher Voorhies attended from South Beauregard Elementary.

Christopher Voorhies placed 1st in the crawfish division and 3rd in low calorie main dish.

Keely Voorhies placed 2nd in the crab division and 2nd in quick and easy main dish. We sampled the dishes afterwards.

NOTICE OF PUBLICATION
OFFER OF
MINERAL RESOURCES
ON BEHALF OF THE
STATE MINERAL BOARD
FOR THE
STATE OF LOUISIANA
BATON ROUGE, LOUISIANA

By virtue of and in conformity with the provisions of Sub-part A of Chapter 2, Title 30 of the Louisiana Revised Statutes of 1950, as amended, and other applicable laws, sealed bids will be received in the Office of Mineral Resources, State Land and Natural Resources Building, Baton Rouge, Louisiana, (P.O. Box 2827, Baton Rouge, LA 70821) on or before the 11th day of **December, 1996 at 10:00 a.m.,** for a lease to explore, drill for and produce oil, gas and any other liquid or gaseous minerals in solution and produced with oil or gas on the following described tracts (Tract Nos. 29479 through 29823) at which time and date the bids will be opened publicly in the State Land and Natural Resources Building, Capitol Complex, Baton Rouge, Louisiana.

**TRACT 29482 - Cameron Parish, Louisiana** – All of the lands now or formerly constituting the beds and bottoms of all water bodies of every nature and description and all islands and other lands formed by accretion or reliction, except tax lands, owned by and not under mineral lease from the State of Louisiana on December 11, 1996, situated in Cameron Parish, Louisiana, which are lying within the following described boundaries: Beginning at a point having Coordinates of X = 1,510,400.00 and Y = 410,400.00; thence South 18,000 feet to a point having Coordinates of X = 1,492,400.00 and Y = 392,400.00; thence North 18,000 feet to a point having Coordinates of X = 1,492,400.00 and Y = 410,400.00; thence East 18,000 feet to the point of beginning, containing approximately 768 acres, as shown outlined in red on a plat on file in the Office of Mineral Resources, Department of Natural Resources. All bearings, distances and coordinates are based on the Louisiana Coordinate System of 1927 (South Zone).

NOTE: The State of Louisiana does hereby reserve, and this lease shall be subject to, the irrepscriptible right of surface use in the nature of a servitude in favor of the Department of Natural Resources, including its Offices and Commissions, for the sole purpose of implementing, constructing, servicing and maintaining approved coastal zone management and/or restoration projects. Utilization of any and all rights derived under this lease by the mineral lessee, its agents, successors or assigns shall not interfere with nor hinder the reasonable surface use by the Department of Natural Resources, its Offices or Commissions, as hereinabove reserved.

All bids are to offer a CASH PAYMENT, one-half (½) of which is to be bonus and adequate consideration for every right granted by the lease and one-half (½) of which is to be rental for the first year of the lease, for a lease having a primary term which shall not exceed three years, and it the bid offers a delay rental the ANNUAL DELAY RENTAL shall not be less than one-half (½) of the aforesaid cash payment, which payment is to be granted without any warranty or recourse against lessor whatsoever, either express or implied, not even for return by lessor of any payments received under the lease or being otherwise responsible to lessee. The MINIMUM ROYALTIES required by R.S. 30:127, as amended, except for school board leases, are one-eighth (⅛) of all oil produced and saved or utilized; one-eighth (⅛) of all gas produced and saved or utilized; and one-eighth (⅛) of all other liquid or gaseous minerals in solution and produced with oil or gas and saved or utilized, which are not specifically mentioned herein. Act 269 of 1982 established a 1/6 minimum royalty for leases affecting school board lands. Rights granted by geothermal resources, free sulphur, potash, lignite, salt and other solid minerals are to be excluded and any bid thereon will be disregarded by the lessor. Any bid of a royalty less than the aforesaid statutory minimums will be increased to said statutory minimums by the Board. All bidders are notified that the Board does not obligate itself to accept a bid which offers the aforesaid statutory minimums, but reserves the right to accept a bid which offers in excess of the statutory minimums and is considered most advantageous to the State of Louisiana.

The provisions of this notice of advertisement and the relevant statutes establish certain material considerations necessary for the formulation of proper bids, and this notice of advertisement shall not be deemed to be modified, enlarged or diminished by resolutions or policy expressions of the Board not incorporated herein expressly or by reference.

**Particular attention is directed** to the fact that, **in addition to the aforesaid stipulation against warranty, the State Mineral Board also includes a special provision in the lease permitting lessee to reduce royalties provided in the lease to lessor on production of oil and gas by one-half (½), but not below the statutory minimum of one-eighth (⅛) th, in the event of and pending final and definitive adjudication or other settlement of a bona fide dispute or litigation involving lessor's ownership or title, all upon the terms and conditions therein stated. A full copy of Paragraph 18 including said stipulation is on file in the office of the State Mineral Board, Fourth Floor, at the above address, and available for public inspection by anyone desiring to examine same.**

Some tracts available for leasing may be situated in the Louisiana Coastal Zone as defined in Act 361 of 1978 (LSA-R.S. 49:213). Such tracts may be subject to the guidelines and regulations promulgated by the Coastal Management Section of the Department of Natural Resources.

All leases awarded shall be executed upon terms and conditions provided in the current State lease form with all applicable riders appended thereto, including but not limited to provisions as follows: Should lessee fail to begin the actual drilling (spudding in) of a well on the lease premises within one year from the date of the lease, the lease shall be terminated as to both parties to the lease, unless on or before such anniversary date, lessee shall pay a delay rental (which shall in no event be less than one-half (½) of the aforesaid cash payment offered for the lease), which shall cover the privilege of deferring drilling operations for a period of one year. Upon like payments annually, drilling operations may be further deferred for successive periods of one year each during the primary term of **three years.** The lease shall terminate as to both parties to the lease at the end of the primary term or any extension thereof unless lessee is then engaged in the actual drilling of a well thereon or has completed a well thereon which is capable of producing oil, gas or other minerals in paying quantities, or has commenced reworking operations on a well thereon, or has a well thereon which is capable of producing oil, gas or other minerals in paying quantities but which is shut in for want of a market, or for the purpose of utilizing the gas therefrom, or for the purpose of drilling a well to test a deeper mineral horizon, in which event lessee shall pay shut-in royalty equal to the annual rental provided for in the lease, such payment to be made to lessor on or before the anniversary date of the lease next following the date on which such well is shut in, and thereafter on or before each anniversary date of the lease during the period such well is shut in. If at the expiration of the primary term of the lease or any extension thereof, lessee is conducting operations for the drilling of a well, the lease shall remain in force so long as operations are prosecuted with no cessation of more than sixty consecutive days, and if production results therefrom, then so long as production continues in paying quantities. If production is discovered on the leased premises during the primary term or any extension thereof, but all production ceases for any cause, the lease shall remain in force if lessee is then engaged in the actual drilling of a well thereon or has completed a well thereon which is capable of producing oil, gas or other minerals in paying quantities, or has commenced reworking operations on a well thereon, or has a well thereon which is capable of producing oil, gas or other minerals in paying quantities but which is shut in for want of a market, or for the purpose of utilizing the gas therefrom, or for the purpose of drilling a well to test a deeper mineral horizon, in which event lessee shall pay shut-in royalty equal to the annual rental provided for in the lease, such payment to be made to lessor on or before the anniversary date of the lease next following the date on which such well is shut in, and thereafter on or before each anniversary date of the lease during the period such well is shut in. If at any time after the expiration of the primary term of the lease or any extension thereof, lessee drills a dry hole or holes thereon, lessee shall not be liable for the payment of any rentals or shut-in royalties during the remainder of the primary term, but if lessee commences additional drilling operations within sixty days from the date of completion of the dry hole, no rentals or shut-in royalties shall be due until the end of the sixty day drilling period, and the lease may be extended beyond the primary term by operations as above provided

**SNIPE SEASON**

The 1996-97 snipe season is open. Snipes commonly frequent marshes, grassy meadows and lake shores in relatively large numbers. They remain an uncommon sight in most hunters bags or even on the table.

In the 1995-96 season, 6400 sportsmen harvested 68,600 snipes, which makes this one of the least sought after migratory species in Louisiana. This wasn't so years ago, as it was a prize hunt for snipes in Louisiana, but in the 1930's, several years of drought, with severe cold weather brought the population down. The United States closed its snipe season from 1946 to 1953. These conditions got better and in 1954 when the snipe season was reopen, but hunters lost interest.

For many Louisiana hunters, snipe have become something of a second to ducks and geese. I know I'll hunt them if they pass while I'm in the duck blind or many times walking back, these birds will flush, hard to hit, but good shooting. They like to feed in shallow, open marshes or rice fields.

Snipes are small, 3.5 ounces average, and are really a challenge to test your wing shooting. The season runs through FEb. 23, with a daily bag limit of 8 and possession limit of 16. Shooting hours are one half hour before sunrise to sunset.

**DUCK, GOOSE HUNT**

It looks like we're getting more big ducks down according to most area hunters.. The blinds in our Creole marshes are mostly doing okay. It seems most areas with big ducks are talking gadwalls (gray ducks) along with a few mallards and green-winged teal.

The Klondike - Gueydan - Lake Arthur area, which is mostly rice fields, are really having a great year so far with ducks and geese. Lots of snows and blues which I saw for myself, but also a good number of speckle-bellys.

Reports are still saying we'll have 100 million waterfowl wintering down south compared to 77 million last year. Pintails are starting to show up in our marshes, which are already in the rice fields. I think the cold in the midwest will push us more birds yet.

**FISHING**

Fishing is straightening out. Saltwater fishing is falling in its winter pattern, where you hunt the morning and fish the afternoon.

I also saw many roadside anglers catching a few bass. This high water has put the spirit back in some of our freshwater anglers, although limited to where you can fish, they're wetting the hook.

Winter is the time of the year when bull reds move up our coastal marshes, up the Mermentau River and the Calcasieu Ship Channel. They feed heavily on shrimp and minnows. Use artificial cockahoes, shrimp or minnow color, maybe tip the hook with a piece of shrimp or use croaker or live marsh minnows.

**NEW DEPT. HEAD**

We have a new Secretary of the Wildlife Department, James H. (Jimmy) Jenkins and he's tightening up affairs, some good, some bad. The latest I've got was that first the aircraft was taken away from the refuges and some department and given to enforcement, etc. Now Mr. Jenkins stripped enforcement of public management areas for reasons I don't know.

It seems somewhere around 85 wildlife biologists and specialists, who have been able to issue citations since 1911, have lost their authority to ticket game violators. Some say it's because of liability or civil suits, some say it's about supplemental pay, and improper training and dress codes were also talked about.

The Wildlife and Fisheries Commission adopted a resolution urging Mr. Jenkins to rescind his actions by a 4-2 vote, but Mr. Jenkins has power over the Commission and is sticking to his guns.

# Tarpons win 1st game of playoffs

By JOE MUELLER

The South Cameron Tarpons continue on the road to the Dome as they won their opening game of the state playoffs 20-7 over Loyola.

The Tarpons, who traveled to Shreveport to face the Number 2 team from District 3, scored 13 third quarter points on their way to the win.

The Tarpons will play at home this week as wildcard University comes to town for a 7 p.m. kickoff. The University team beat Port Barre 24-7 last Friday.

The Tarpons fell behind in the opening half 7-0 when Loyola scored on a 3 yard run. The run came when the Flyers lined up for a field goal but the ball was snapped to the kicker who ran it in. Slack then converted the extra point so at halftime the Flyers were up 7-0.

South Cameron came back in the third quarter as Brandon Conner scored on a 55 yard run and John Mark Montie kicked the extra point, so with 5:44 left in the third quarter, the score was knotted at 7.

On the ensuring kickoff the Flyers Jacob Patton fumbled on his own 2 yard line. Scott Surratt recovered the fumble for the visiting Tarpons. On the next play Conner scored on a two yard run. The extra point kick failed. With 5:22 left in the third quarter, the Tarpons were up 13-7.

The Tarpons final touchdown of the night came when Scotty Brown ran in a fumble from two yards out with 7:49 left.

The Tarpons had driven down to the Flyer 4 where they gave the ball over to the Flyers. It was the second play after taking over at the 4 that the fumble recovery and touchdown took place.

The Tarpons Brandon Conner had 98 yards rushing and two touchdowns. Cory Broussard had 41 yards rushing.

The Tarpons John Pradia hit 4 of 7 passes for 36 yards; Brent Morales had 3 catches and Scotty Brown, one for the Tarpons.

The Tarpon defense had 3 fumble recoveries on the night and forced the Flyers to punt six times.

The Tarpons also played a very strong mental game as they were only whistled for 3 penalties for 25 yards.

The Tarpons played real hard and never gave up and because of the determination. They pulled out the 20-7 come from behind victory.

Other Class 6AA teams in the playoffs fared as follows: Iota 31, Grambling 26; Notre Dame 28, Mamou 14; and Pickering 28, Lake Arthur 21.

# Trapping open in state now

Louisiana's fur harvesters trapping season opened statewide Nov. 20, lasting through March 20. For the second consecutive year furbearers will have an extended season.

The season includes all designated Louisiana furbearing species: nutria, muskrat, raccoon, mink, opossum, otter, skunk, red fox, gray fox, bobcat, beaver and coyote.

Louisiana's fur industry generated approximately $1.3 million during the 1995-96 season. This was an increase from the approximately $1.1 million taken in 1994-95.

Also, last year there was an increase in pelts and meat taken. Approximately 265,000 pelts were taken in the 1994-95 season in contrast to approximately 280,000 pelts in 1995-96. There were approximately 520,000 lbs. of meat taken in 1995-96 compared to the approximate 270,000 lbs. taken in 1994-95.

Trappers are reminded that federal restrictions require placement of export tags on bobcat and otter prior to out-of-state shipment.

THE OFFSHORE drilling rig "Pan Producer" is shown floating near the end of the Cameron jetties where it was finally halted after floating down the ship channel the morning after breaking loose from its moorings at a rig repair facility just north of Cameron.

# Rig runs away!

A huge drilling rig broke free of its moorings Tuesday morning just north of the town of Cameron and drifted south down the Calcasieu Ship Channel.

The semi-submersible rig eventually came to rest an hour and forty minutes later out in the Gulf of Mexico in the vicinity of Monkey Island, south of the town of Cameron, but not before striking at least two boats, according to reports from the Marine Safety Office (MSO) in Port Arthur, Tex.

Coast Guard personnel, boats and aircraft from MSO, Sabine Pass Station, and Air Station Houston were immediately dispatched to coordinate public and marine safety response efforts. The drilling unit, identified as the Pan Producer, is owned by Churchill Partners, Inc. and was being repaired in the ship channel when it broke loose.

Four persons onboard the vessel at 9:15 a.m. were evacuated via helicopter from the Sabine, Tex. based Air Logistics helicopter company.

The Coast Guard captain of the Port, Port Arthur, closed Calcasieu River Channel to vessels which require pilot assistance until further notice.

Coast Guard personnel remain on scene to ensure a safe rapid salvage effort and investigate the cause of the incident.

A Coast Guard spokesman said Wednesday morning that the owners of the runaway rig have ballasted the rig so as to hold it firmly in place near the jetties.

The Coast Guard is working with the Calcasieu Pilots Association to address the problem of large ships using the channel at this time.

## Jobless rate 2nd in state

Cameron Parish had the second lowest unemployment rate in the state during October, according to the La. Dept. of labor. The parish's rate of 4.3 percent was only bested by Lincoln parish with a 3.3 percent jobless rate.

The 4.3 percent unemployment figure for Cameron was the same as for September and also for October a year ago.

According to a report, there were 160 persons out of work in October and 3450 employed.

Calcasieu parish, by comparison, had a 7.1 percent jobless rate for October. Red River parish had the highest unemployment--16.8 percent.

Louisiana's jobless rate for octber was 7.2 percent and the national rate was 5.2 percent.

## Grants told for Creole Nature Trail

The Southwest Louisiana tourist bureau has been approved for $60,000 in grants to promote the Creole Nature Trail National Scenic Byway.

Shelley Johnson, executive director of the Southwest Louisiana Convention and Visitors Bureau, announced notification of the awards at a meeting of the bureau's board of directors last week.

The grants will be used for a brochure and "fun box for kids," an interpretive guide, which will be a booklet giving an in-depth explanation of features of the trail, and an Internet program which can provide nature trail information to a worldwide audience.

The Cameron Parish Tourist Commission is noticing a lot of visitors from Europe, Ed Kelly, chairman of the Cameron group, told the board. He attributed it partly to the efforts of the Southwest Louisiana bureau.

He said the commission is concentrating on litter control, distributing litter bags. He said there are 10 to 12 small volunteer committees around Big Lake working on cleaning up litter.

# Jurors hold town meeting here

By GENEVA GRIFFITH

In an effort to better meet the needs of Cameron Parish citizens, the Police Jury has started holding town meetings around the parish.

Their first one was held last Thursday night in Cameron with Dusty Sandifer from Holly Beach - Johnson Bayou and George LeBouef from Cameron, hosting the meeting. Sandifer's district also covers the western end of the town of Cameron.

Rev. Joe Roundtree, Methodist minister, thanked the Police Jury for their stand on the Sunday bar closings.

Cindy Sellers, who heads the parish beach committee, asked for a road or access to the Cameron beach in back of the Cameron Recreation Center to provide a way for tourists to go shelling there.

George LeBouef replied that a $20,000 grant is being sought for a 1300 foot access to the beach in that location. It may not be wide enough for automobiles, but may do for pedestrians. The possibility of developing Broussard Beach at Cameron was also discussed.

Sellers also addressed the problem of grass growing over the sidewalks in the town of Cameron, and LeBouef said that a town cleanup will be discussed at the December Police Jury meeting. He said the Jury will ask the state to come in and sweep the main street and cut the grass along the sidewalk, since the Cameron's Main Street is the state highway.

Ed Smith described the problem he is having with drainage at his home between Cameron and Creole with water standing on his lawn.

Scott Henry, a member of the drainage board, said the board is trying to reach a solution to the problem.

He explained that the biggest problem is in the Cameron-Creole Watershed north of the property, which at the present time, is 8 inches above normal.

## Game here

By JOE MUELLER

The South Cameron Tarpons continue down the road to the Dome and to the state finals as they play the St. Frederick Warriors at Creole with kickoff scheduled for 7:30 p.m. Friday night.

The Tarpons bring a five game winning streak into the quarter-finals as they won their final three regular season games and have scored playoff wins over Loyola and University.

The Warriors bring a 11-1 record into the contest. Their only loss of the year was to Ouachita Christian by a single point.

In the opening round of the state playoffs St. Frederick beat Jonesboro Hodge 37-6, and last week they beat Iota by a score of 23-17.

The Warriors have a very strong running back in Boyd Chandler. Last week Chandler scored three touchdowns as he rushed for 137 yards against the Bulldogs.

The Tarpons don't lack in strong running backs as last week Brandon Conner scored four times and rushed for 179 yards. The Tarpons, who amassed 331 yards on the ground also had another yard rusher in Cory Broussard who rushed for 101 yards and scored once.

The Warriors have a strong defense as they limited Iota's Josh Ortego one of the top rushers in District 6AA to 43 yards and the Bulldogs top rusher Brent Miller garnered only 51 yards.

The Warriors also can throw the ball as they were 6 for 12 against Iota for 106 yards and one touchdown, that being for 48 yards to Chandler.

The St. Frederick team, district champs of District 2, can also kick the ball as they converted a 41 yard field goal. The Warriors kicker is quarterback

# Judge rules in favor of Audubon

A permanent injunction was granted by District Judge Ward Fontenot Monday against the enforcing of a parish weed ordinance as it applies to the Baton Rouge Audubon Society's bird sanctuary in the Little Florida subdivision.

However, the judge's ruling which following an all-day civil trial in the matter, did touch on the validity of the Cameron Parish Police Jury's weed ordinance. Fontenot said this was a "moot point."

### JUDGE'S RULING

Judge Fontenot's ruling on the case stated in part:

When this subdivision was originally created there were certain restrictions; but, if those restrictions are still enforceable, there are civil remedies for doing so. But that is not before the court.

A well-worded weed ordinance, applied even handedly, is a valid exercise of the police powers of the parish, specifically authorized by state statute. What the court must do in the test of the application of any ordinance is decide if it's a valid exercise under the circumstances of the particular case.

The subdividers of Little Florida transferred the bulk of this development to the Audubon Society, making this organization the majority landowner. This landowner is working to create a sanctuary with all the lots which had not been previously sold to individuals, as well as adjoining property acquired through different sources.

The court is presented with the fact that there is a legitimate basis for the society's approach in allowing growth, natural growth with the addition of shrubbery or trees, to achieve its goal.

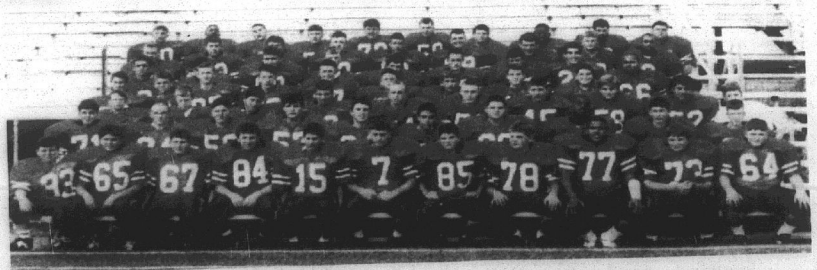
Through the testimony of Mr. Fryling, supported by the testimony of Mr. Walthers, evidence established that there is a recognized ecological need for the maintenance and perpetuation of these chenier growths.

It is important to note that the evidence regarding the value of the society's land use to migratory birds was not disputed. So, consequently, this ordinance, which calls for the removal of obnoxious weeds, becomes unclear or inequitable in this application.

This is so because the landowner has not abandoned or neglected his property, but to the contrary, is developing the property with an extraordinary but legitimate purpose in mind.

And it is not a ruse or a charade being used to mask neglect of property. In fact, the evidence is that a detailed development plan is in motion; and it is an ongoing project and has certain specific goals which are underway.

Consequently, the court concludes that, under these particular circumstances, this is not a legitimate exercise of the police jury's police power; because the dispute is, in fact, a civil matter between property owners related to the different uses of property. Consequently, I'm going to make the injunction permanent.



### EXPERT TESTIMONY

Audubon Society President Charles Fryling Jr., a landscape architecture professor at LSU, testified as an expert witness that the plantings were carefully selected to provide food and shelter for birds.

Four neighborhood landowners said that they thought the growth contributed to increased populations of skunks, snakes, rats, mice, roaches, mosquitoes and even wild hogs. They claimed the growth is a fire hazard.

District Attorney Glenn Alexander, who defended the Police Jury in the suit, said the future of the ordinance is now uncertain.

# Looking backward

By Keith Hambrick

(Cameron Pilot, Feb. 21, 1963)

**GRASS FIRE AT CREOLE**

Scores of residents and employees of several business places in Creole were galvanized into action about midafternoon last Friday when a fast-spreading grass fire raced across a field near the Celestan Nunez home, leaped the highway and burned the entire old Creole ball field south of Carter's Clinic and Fawver Chevrolet Co.

For a time, the wind whipped flames threatened Dr. S. O. Carter's residence, a two-story landmark, and routed "Old" Dr. Carter and members of his household out of the building.

The scene at the ballpark was one of excitement and anxiety as men fought to contain flames with small hoses, wet sacks and buckets of water.

The Creole fire truck arrived on the scene, but broke down before it could get into action and had to be towed off by a Fawvor Chevrolet wrecker.

The Cameron fire truck was dispatched to the scene but by the time it reached the park, the fire had mostly been put out.

The fire was finally brought under control just as it burned through the fence on the north side of Dr. Carter's home.

**PORT ARTHUR BRIDGE OUT AGAIN**

Port Arthur's cantankerous Pleasure Pier bridge was out again this week after having been rammed by a freighter last Thursday night, again closing the highway between Cameron Parish and Texas.

The Port Arthur city engineer at first said the bridge could not be repaired and that it would take five years to replace it, but later it was decided that it could be repaired.

Rep. Alvin Dyson was contacted by Jefferson County commissioners court and was advised that repair work was in progress. Just when the bridge might reopen was not known.

Cameron Parish has a vital interest in the Pleasure Pier bridge since when it is out, it makes the Sabine Causeway between Port Arthur and the parish useless. The parish and Jefferson County are paying for the causeway bonds with revenues from the tolls of the causeway.

Rep. Dyson said that the long range plans on the Port Arthur bridge call for its replacement within three or four years with a 138-foot high bridge. He noted that this is one of the projects being planned in Texas to upgrade the Hug-the-Coast road so that the road can be taken into the federal highway system.

**PROGRESS ON SHRINE AT CAMERON**

Progress on the erection of a Shrine to the Mother of God in Cameron for the protection from future storms and hurricanes has been announced by Norman McCall and Albert Colligan, co-chairman of the project.

The monument, originally suggested by Most Rev. Maurice Schexnayder, Bishop of Lafayette, will become a landmark reminding the area people by "We remember the past and beg the Almighty to spare us the future." The words, "Do not harm my children" are to be engraved on the front of the base.

Architect for the shrine is Perry Segura of New Iberia.

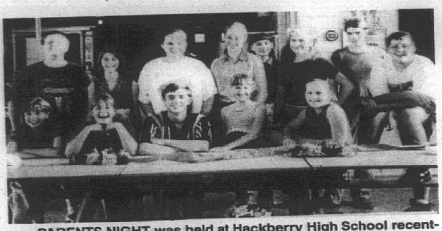
The statues were ordered by Bishop Schexnayder while he was attending the Ecumenical Council in Rome last year, and are presently being built by the Bruno Cadalelli Marble Co. in Carrara, Italy. The statue of Our Lady will be seven feet high by a 2' by 2' base.

A contractor for the base and foundation of the shrine was given to Martin Vincent, Brick and Tile Contractor, of Route 2, Lake Charles. The contract of the superstructure, which includes the columns and overhead, has been awarded to Louisiana Concrete Products and the Herpeche Construction Co. of New Iberia. Coastal Shell Co., owned by Hayes Picou of Cameron, will do the dirt fill work and the pile driving where the shrine base is to be located.

The dedication and blessing of the shrine is expected to be made by Bishop Schexnayder on Mother's Day, Sun., May 12.

The drive for funds is still underway because the amount needed has not been reached as yet. The over-all cost of the project is expected to be $7,300.

**ROUNDABOUT THE PARISH**



Black News -- Mrs. Lutisha Downing celebrated her 90th birthday last Friday, in the home of her daughter, Mrs. Darnell Cockrell. The guests sang "Happy Birthday" and then had cake and ice cream. Among those present were Mr. and Mrs. Herman LaSalle, Mr. and Mrs. West Bailey and daughter, and Mrs. Mary Cockrell and daughters.

Cameron -- Bonnie Joy Willis is the newly elected president of the Cameron Junior Camp Fire Girls. Other officers are: Martha Jean May, vice president; Mona Authement, secretary; Tamara LaLande, treasurer; Sherry Spivey, reporter; and Paula Dupont, corresponding secretary; there are 12 members in the group.

Holly Beach -- Monday's heavy rain set back the progress which had been made on the Holly Beach - Johnson Bayou road during the week of good weather. Soil cement crews had moved in and were expected to complete their job in two or three days. After the deluge Monday, standby crews pulled vehicles through the boggy road. The road is now being prepared again and if good weather cooperates, it will be back in fair shape this week. This practically isolates Johnson Bayou since the breakdown of the Pleasure Pier bridge. It puts the area with one outlet cut off and more so when the other outlet is hazardous.

Grand Lake - Sweet Lake -- The Grand Lake High basketball team was given a surprise chicken supper on Feb. 14, by four of the mothers, Mrs. George Greathouse, Mrs. Johnny Faulk, Mrs. Rufus Vincent and Mrs. Ivan Fontenot. It was in the school cafeteria. Members of the team enjoying the supper were: Bristow Fontenot, Daniel (Punch) Poole, Dennis Faulk, Martial Young, Terrial Farque, Allen LaVergne, Lee Allen Benoit, Wendell Greathouse, Sammy Faulk, Daivd Robicheaux, Johnny Young, and Julian Robicheaux. With them were their coach Weldon Vincent and principal Alvin Hoffpauir.

Hackberry -- The Mustangs are District 10-B basketball champions for the second straight year, and go into the playoffs this week hosting Acadia Baptist Academy of Eunice.

PARENTS NIGHT was held at Hackberry High School recently. Members of the Hackberry 4-H Clubs preparing and serving refreshments were: Matthew, Lori and Heather Spicer; Chad Pitre, Nicole Fenetz, Micah and Trisha Silver, Shannon Day, Suzy Simon, Ashley Granger, Maranda Daigle, Marcus and Lindsey Bufford, Lauren and Kristin Gray, and Bethany Richard.

# Protect plants from freezing

By THOMAS C. STRAWN
(Area Agent Forestry)

Low temperatures, killing frosts and drying woods have already started this fall, but it is not too late to prepare landscape plants for the upcoming winter season, says Extension Forester Tom Strawn of the LSU Agricultural Center.

Protecting plants can be accomplished by watering, mulching, covering and providing artificial heat, according to Strawn.

"Watering several days before freezing conditions will enhance a plant's chance at avoiding cold damage," Strawn says, explaining that, to be effective, the watering must occur several days before a freeze since a plant needs several days to absorb the water provided.

"Plants that are well watered are much less likely to have foliage damaged by the temperatures and, even more damaging usually, winds that desiccate (dry out) the plant," he says.

Plants also can be covered with plastic before freezing temperatures. "This is commonly done on landscape planted citrus trees and other tropical or semi tropical plants," Strawn says.

A temporary cage can be placed over a plant along with a layer of clear plastic, he says, explaining light bulbs can be added to provide heat.

"Those couple of degrees can 'make or break' a plant during most cold nights in Louisiana," the Forester says. "It is very important, however, to remove the protective covering as soon as temperatures no longer pose danger to the plant."

Clear, sunny days will greatly elevate the temperature underneath the cover and can do just as much damage as low temperatures, Stawn cautions.

"Of course, the best remedy for protecting landscape plants is to select plants adapted to Louisiana's growing conditions," he says, explaining Louisiana is located in U.S. Department of Agriculture Hardiness Zones 8 and 9.

**DUCK HUNTING POOR**

Opening was fair and during the week that followed, things were looking up, but at this writing things have gone downhill in many marshes. Lots of hunters are not getting their limits, and the birds are birds we normally wouldn't shoot (spoonbill, blackjack, etc.) but where's the mallards, pintails and green winged teals, to name a few?

I think the U.S. Fish and Wildlife Service has done a very poor job in telling us the duck count correctly. I don't think the good old days are here, at least not this first split. They say 90 million ducks, when it was the good old days back in the 1940's and 50's, there were an estimated 120 million count, and friends, we're not near seeing that in our marshes.

I wonder if they're counting sea ducks and trash ducks in the count, and are they telling us that mallard count are down as well as pintails and wigeon which have a decrease in number. We as hunters still know and want to bag quality ducks like mallards (green head), black mallards, drake pintails, etc.

I realize we have a high water level in our marshes, ducks that we have are scattered, but the rice fields are holding ducks because they can control the water and, yes, they have plenty of feed, yet no baiting is allowed. Temperatures are really high for this time of the year and plenty of mosquitoes. (I know their count will go over 100 million.)

Now it is said the state's duck count is 2.4 million, but last year we had 3 million plus and also the year before that, which means the count is down. Our Southwest Louisiana estimate count is 1.2 million ducks.

Our first split will close Sunday, Dec. 1, in our parish. This is for ducks and coots. It will reopen Dec. 21.

Our last either sex deer days are Nov. 29 and 30, and Dec. 1, and gun season ends Dec. 8, and will resume Dec. 14 to Jan. 15.

**FISHING REPORT**

Good reports on red fish inland waters, really little change in the local fishing. Still a summer pattern, except for the high winds we had for a few days last week. Nice bass are being caught along the road ditches along the Gibbstown Road. Small spinner baits and beetle spins are working well.

A friendly reminder - recreational flounder fishermen will be subject to a take and possession limit of 10 fish a day. This is ten fish per day caught within or out of La. waters. There is no minimum size length for the

**COMMERCIAL FISHING NEWS**

The Department of Health has closed oyster harvest between the Louisiana-Mississippi state line and the River Gulf outlet. This emergency action was taken due to "Red Tide". This came into effect Nov. 13, and will stay in effect until things change.

Our local oyster fishermen are doing well, catching real good eating oysters and the price has gone up some which is helping our locals.

It seems the chefs of some of the large restaurants in New Orleans are drumming up support for changes in the state ban on gill nets. There is concern about lack of local fresh fish to eat and hurting the livelihoods of our commercial fishermen.

There's talk about fish imports from South America, Central America and Mexico. These fish are fine but they are not fresh.

**TALK ABOUT**

The artist, Richard Hall from Lake Charles, is the winner of the 1997 Louisiana Duck Stamp. It is two drake ringnecks in flight.

Waterfowlers could have more effective shotgun shell loads in the near future if a new tungsten load is approved by the U.S. Fish and Wildlife Service. Federal Cartridge Co. is trying to get approval, as a non-toxic shot to be used in U.S. waters.

Tungsten is 30 percent more dense than steel and 94 percent as dense as lead. This will increase both speed and energy, which is a problem we have with steel shots. It can be used and work well in barrels approved for steel shot.

## Satellite map of state available on CD-ROM

A satellite map of Louisiana is now available on CD-ROM to aid the plan of action for and response to oil spills.

The Louisiana Oil Spill Coordinator's Office donated the money to facilitate the research. The research team,led by Dewitt Braud of the LSU Department of Geography and Anthropology, worked on the project for a year.

"Due to the rate Louisiana is losing its coastal lands, every map is outdated," said Don Davis, administrator for the Louisiana Applied and Education Oil Spill Research and Development Program housed at LSU. "This satellite map is the best possible affordable map for response planning because it's available on CD-ROM."

This project is a follow-up to a satellite map taken two years ago. By placing the map on CD-ROM, details are provided that, because of its scale boundaries, are unavailable in a paper version, according to Braud.

"The map is a seamless satellite image of the entire state with more than 7,000 place names labeled," said Davis.

Davis said the map includes and labels all interstates, state and parish roadways and main city streets. Every road in the state is on it, but all are not labeled. Census data is also available for all parishes and major cities.

Parish boundaries, the astronomical tide line and all waterways are on the map as well. The standard scale measuring devices are also drawn, including latitudinal and longitudinal markings and the quadrangle map boundaries that map makers use in their craft.

"When you have a spill, you can do an overlay of the area from the CD, plan where you think the spill will go and print that portion of the map," said Roland Guidry, the Oil Spill Coordinator for the state.

When a spill occurs, response teams prevent the oil's passage into the marsh by blocking the minor waterways leading into it, all of which are shown on the CD map. Also, since the map labels all major roads, response teams can plan the fastest route, according to Davis.

This CD map is only the first step of a project to do a coastal geographical information system on the state. According to Guidry, layers of information such as wildlife, flora and fauna and oil facilities will be available for each area along the coast.

Oil companies and oil spill response agencies will receive copies of the map. Free copies of the map will be distributed to schools, libraries, and universities across the state. Federal and state agencies are provided a copy on request. Copies will be made available to the general public, but th edistribution channel has yet to be determined. For more information contact the Louisiana Oil Spill Coordination Office.

## Let water only drip

Cameron Parish Waterworks District No. 1 is requesting that during times of freezing weather, when it is necessary to let water run to prevent freezing of pipes, that customers let the faucets drip only.

The excessive running of water during these times creates a tremendous drain on the water system's reserve supply. If a fire should occur at this time it could make it hard to fight the fire. Also, since the addition of chemicals to the water supply, the cost of these chemicals is extremely high and including the cost of electricity, the excessive running of water is very costly to the system.

## School lunch menus told

Parish school lunch menus for the week of Dec. 2-6, are as follows:

Mon., Dec. 2 - chicken nuggets, applesauce crunch, baked potato, tossed salad, sliced bread.

Tues., Dec. 3 - barbecue meatballs, buttered corn, oven Tater Tots, fruit salad, pita bread pocket.

Wed., Dec. 4 - sausage on a bun, buttered whole potatoes, baked beans, sliced peaches, hot-dog bun.

Thurs., Dec. 5 - baked ham, lettuce cup, oven fries, banana split dessert, sliced bread.

Fri., Dec. 6 - baked fish strips, macaroni and cheese, hash brown potato pattie, peach cobbler, sliced bread.

Milk is served with each meal.

Why patience, *experience*, and wisdom *deliver* the best *results*.

Life's simplest pleasures take patience and time to learn and enjoy. And they're even better when an experienced hand is there beside you.

Which brings us to our point: someday there will be competition for electric service. As that day approaches, unknown companies will begin testing the waters in unfamiliar territory, promising you the moon.

*At Entergy, we're preparing for competition.*

We want to make sure competition is fair to all our customers: that base rates don't rise and reliability is preserved.

We know how vital it is to have the technology and resources ready and waiting to meet any demand or emergency. And, better than anyone, we understand the currents of the communities we serve.

When competition comes to the electric industry, having a power provider that knows the lay of the land will be more important than ever.

That's when the experience and wisdom you've come to expect from Entergy will really count.

Providing reliable and affordable power. It's what we do.

*At Entergy, we're always thinking about you, so you don't have to think about us.*

# Teacher salaries have increased less than average

Louisiana's teacher salaries have increased less than the United States average and less than the Southern average in the past five years. That is why the Cameron Association of Educators will join with the Louisiana Association of Educators in the 1997 legislature on bringing teacher salaries up to the Southern average while giving school support employees a much-needed raise.

"Louisiana is at the bottom in average teacher salaries and in average salary increases over the past five years," says Peggy Boudreaux, President of the Cameron Association of Educators. "This proves that CAE and LAE have been saying in order attract and keep new teachers and to give our children the top quality education they deserve, we must give our school employees a significant pay hike."

The second year of LAE's "Give Us That Penny" campaign will focus on dedicating one cent of Louisiana's four penny sales tax to education. The $505 million revenue from this penny would be sufficient to give each teacher an $1,855 a year raise for three years and an $800 a year raise for three years to school support workers. By the end of 1998-99, teachers will have reached the southern salary average, support workers will have received a modest increase and there would still be $40 million left over for textbooks, school materials and supplies.

# Clyde Theriot remembered as best cook in parish

By GENEVA GRIFFITH

Every time a hamburger or steak is grilled or barbecued in Grand Chenier people will remember the late Clyde Theriot, perhaps the best cook in Cameron Parish.

Theriot died Nov. 7, at 87 years of age and was buried in the Chenier Perdue Cemetery. He lived his life to the fullest in spite of being in a wheelchair. He never let this disability bother him, and could work circles around everyone.

He was a superintendent for Crain Bros. Oilfield Company when he was injured in an oil field accident in 1964, leaving him in a wheelchair the remainder of his life.

He never let that bother him - he went back to work at Crain Co. as a dispatcher.

He also cultivated a good garden every year which he shared with everyone. He even delivered his vegetables and fruit from his fruit trees, in his car, which was specially fitted so he could drive.

He tended to his garden himself from his car, which was specially fitted so he could drive.

He tended to his garden himself from his wheelchair, hoeing and raking after plowing it up with his tractor, and even crawling around on the ground if he needed to.

Clyde was always an "honorary" father to Lyle (Butch) Crain, the head of Crain Brow. Co., which was started by Butch's father and uncle, A. H. "Sono" and John Paul Crain.

When Butch was 4 years old he was on a crew boat when he fell overboard and almost drowned. But due to Clyde's knowledge of CPR, Butch was saved.

Theriot's hobby was helping out at civic and religious cookouts where he would serve as the head cook. This gave him an opportunity to talk to everyone and tell stories of the early days in the marsh.

He cooked at reunions, fishing rodeos, Ducks Unlimited banquets, athletic events, in fact, everywhere a cook was needed, he donated all of this time.

His generosity did not go unnoticed by the community. A "Clyde Theriot Appreciation Day" was held in the Grand Chenier Park, where he was presented with a plaque of appreciation from his community, a new car, and a remote control television set. It was held during the alligator festival (and of course he was cooking.)

He was also made an honorary Senator of Louisiana by Senator Cliff Newman. He was presented with the American Flags which flew over the state capitol and the national capitol in Washington, D.C.

His contributions to his community were always a labor of love, and set an example of how people can work together and have a good time doing it.

His farm tractor is idle now, his lst garden is no more, but his beloved fruit trees with their luscious fruit will always bear in season leaving behind a memory of a great historian, who left many tales behind of the early times in Cameron Parish, where people worked hard to tame the land, but had a great time doing it.

Good Bye, Clyde, we will never forget you.

# Knight, Family of Month told by F. J. Pavell KC

The F. J. Pavell Knights of Columbus Council 8323 of Johnson Bayou named Joseph Griffith as Knight of the MOnth and Gerald and Linda Touchet as Family of the Month at its Nov. 25, meeting.

Grand Knight Glenn Trahan announced that Council 8323 received $2,015.83 from the sale of alligators, thanks to the generosity of Ms. Marguerite Domatti.

Joseph Griffith, Ray Young and Gerald Doucet participated in the District K of C Gumbo Cookoff Oct. 20, in Sulphur. They placed second.

A New Year's Eve dance has been set for Dec. 31, from 9 p.m. until 1 a.m. at the Community Center in Johnson Bayou. The music will be by Dusty Sandifer and tickets are $15 per person.

Gerald and Linda Touchet will represent the council on Feb. 3, in the La. State K of C Bowling Tournament in Baton Rouge.

There were 22 pints of blood donated in the Columbus Day Blood Drive. The next blood drive will be in February at the Johnson Bayou Fire Station.

The free senior citizen bingo has been scheduled Dec. 2, at the Johnson Bayou Recreation Center. This event is co-sponsored by the K of C and the Johnson Bayou Recreation Center.

A raffle for the new roof for the rectory in Johnson Bayou is being sponsored by the K of C. Tickets can be obtained from Gerald Touchet or any K of C member.

To celebrate the "Keep Christ in Christmas" program, and "Light Up For Christmas", the K of C and the CDA are planning to obtain a large Nativity scene to put in front of Assumption Church in Johnson Bayou and having a lighting ceremony for the first Sunday in December for Advent.

Rev. Vaughn visited with Bishop Speyrer and was reassigned to the churches in Johnson Bayou and Holly Beach for six more years. Rev. Vaughn mentioned plans for enlarging the Renewal Center and adding four larger classrooms plus a large meeting room.

# Knights to add new Hall of Fame members

Calcasieu Council 1207 of the Knights of Columbus, the 'mother council" of Columbianism in Southwest Louisiana, will add five members to the Southwest Louisiana Columbian Hall of Fame next year.

Grand Knight Jac H. Mayeux, said: "We have mailed ballots to each of the 33 Knights of Columbus councils in the Diocese of Lake Charles, inviting each to nominate one of its members to be considered for this rare honor."

The Columbian Hall of Fame, made up of outstanding members of the Knights of Columbus in Southwest Louisiana over the past 90 years, was inaugurated by Council 1207 in 1982 to mark the 100th anniversary of the Knights of Columbus and the 75th anniversary of Council 1207.

Every five years, on the anniversary year of Council 1207, five new member are added to the list of Hall of Farmers.

Councils have until Dec. 15, to submit their nominations. Current members of the Hall of Fame include:

J. P. Boudoin Sr. Council 3014, Creole: J. P. Boudoin Sr. and Dalton Richard, both deceased.

Our Lady Star of the Sea Council 5461, Cameron: Mark Richard, deceased, and Msgr. Curtis S. Vidrine.

# Two deputies graduate from academy

Two Cameron Parish Sheriff's Officers graduated from the Calcasieu Regional Law Enforcement Training Academy Fri., Nov. 22. Thirty officers from ten area agencies received over 320 hours of instruction in all phases of basic law enforcement.

State law requires that peace officers receive Basic Training within one year of accepting employment as a police officer. Calcasieu Academy is a state accredited regional training facility serving law enforcement agencies in the parishes of Allen, Beauregard, Calcasieu, Cameron and Jeff Davis. The Academy is under the administration of Calcasieu Sheriff Wayne F. McElveen and directorship of Carolyn Matney.

The local officers are Joey Babineaux, Jr. and Brad Saltzman.

# FSA election is scheduled

Ballots have been mailed to eligible farmers in the Hack-berry - Johnson Bayou area for the election of Farm Service Agency community committee members.

The deadline to return ballots is Dec. 2. Candidates are Douglas Gray, Ernie Little, Todd Little, and Steven Trahan. All are cattlemen from the Hackberry area and have indicated willingness to serve if elected. The candidate receiving the most votes will be the area committee member. The remaining candidates, in rank by number of votes, will serve as the community committee, as well as alternates to the area committee seat.

Calcasieu and Cameron Parishes are now operating under a combined area committee. There are five members on the area committee. Only one committee seat is scheduled for election this year. Next year and the following year, there will be two seats scheduled for election.

# Open meeting, public records information available

The Public Affairs Research Council (PAR) has released its updated "Citizens' Rights Cards on Open Meetings and Public Records," a pocket-size, fold-out card that clearly explains the public's rights in accessing public records and meetings. The new version includes a sample letter to help citizens make written requests for public records.

"It's essential that citizens realize their rights and responsibilities under the public records and open meetings laws," said Jackie Ducote, PAR President. "Every decision public officials make affects them. This card helps citizens understand how they can remain informed about those decisions."

PAR has published the "Citizens' Rights Card" since 1978, providing updates periodically. The latest update includes changes to the laws through the 1996 regular session. It provides a summary of the open meetings law that explains which meetings must be open to the public; the procedures public bodies must follow in posting notice of meetings and keeping minutes; and the reasons for which a public body may legitimately hold a closed meeting. The card also tells citizens what action they can take if they believe a public body has violated the law.

The card also includes an overview of the public records law, and generally explains which documents are public records and which are exempt; how to obtain access to public record; and how to enforce the law if unreasonably denied access to a public record.

"The new sample request letter should help requesters of public records ask all the relevant questions about a record they are trying to access," Ducote said.

Ducote said the project was partially funded by the Louisiana Press Association.

A copy of the new "Citizens' Rights Card" is available free of charge to anyone who sends a self-addressed stamped envelope to PAR, P.O. Box 14776, Baton Rouge, la. 70898-4776. For more information call PAR at (504) 926-8414.

# Parish Police Jury Meeting

The Cameron Parish Police Jury met Thursday in a special session to discuss the proposed budget for 1997, which will be approved at their regular meeting on Dec. 3.

The projected income for the year is $3,425.216.21, and proposed expenditures are $2,270,835.41, which leaves a balance of $600,000 which is money that has not been expended from past years.

One of the anticipated items to be discussed is a proposed salary rate increase for all parish employees.

Other items to be discussed, which seems to be one of the most urgent at this time, is the repair of the Jetty road on which so many of the main industries in Cameron are located.

Another is the building of a by-pass road in back of Cameron to have access to the industries there, especially when the high tides inundate the road that runs adjacent to the Calcasieu River.

# LSU War Memorial wants names of U.S. veterans

The LSU War Memorial Commission is looking for names of LSU men and women who served in the U.S. Armed Forces.

In a project to honor the alumni, former students, faculty and staff of LSU who served honorably in the U.S. Armed Forces from World War II to the present, the names of those who fought and died or are listed as missing in action during the following dates are being gathered:

World War II (Dec. 7, 1941 - Dec. 31, 1946); Merchant Marines (Dec. 7, 1941 - Aug. 15, 1945); Korean War (June 25, 1950 - Jan. 31, 1955); Vietnam War (Dec. 22, 1961 - May 7, 1975); Granada/Lebanon (Aug. 14, 1982 - July 31, 1984); Panama (Dec. 20, 1989 - Jan. 31, 1990); Persian Gulf (Aug. 2, 1990 - present); Somalia (Dec. 1992 - March 25, 1994); U.N. peacekeeping operation in Bosnia (Dec. 1995 - present).

If you know of someone who should be included, please submit his or her name to the commission. Data should include branch of service, dates of service, rank, place and date of death, home town and LSU affiliation.

Please mail the information to LSU War Memorial Commission, c/o Diana Wells, Office of Public Relations, Lakeshore House, Louisiana State University, Baton Rouge, La. 70803.

The War Memorial Commission was created to establish a memorial to honor LSU men and women who have served honorably in these conflicts.

The location and final form of th memorial is being considered by the commission.

## GAME HERE Cont. from Pg. 1

Brent Miller.

The Tarpons hit 2 of 2 passes against the Cubs, with John Mark Montie throwing both completions to Brent Morales.

The Tarpons ground out 21 first down last week as they controlled the clock keeping the Cub offensive team on the sidelines 15 of the first 20 minutes of the second half.

This is something the Tarpons hope to repeat this week as they need to keep the ball away from Chandler and Miller.

The Tarpons played real hard last week and were at a high emotional level for the game.

The Tarpons also can kick the ball as John Mark Montie converted 6 of 7 extra point attempts. He has also hit field goals during the year.

The winner of the contest will play the Pickering - Riverside winner in the semi-finals.

PROCEEDINGS
GRAVITY DRAINAGE DISTRICT NO. 4
October 16, 1996

Gravity Drainage District No. 4 held a regular meeting at the Creole Community Center in Creole, Louisiana at 6:00 p.m., Wednesday, October 16, 1996.

Present: J. B. Meaux, Jr., Bobby Montie, and Amos Vincent.

Absent: Michael Semien and Pat Pinch.

Others Present: Lonnie Harper, Glenn Harris and Bonnie Conner.

The meeting was called to order by Chairman J. B. Meaux, Jr.

On motion of Mr. Vincent, seconded by Mr. Montie and carried, the minutes were approved as read.

On motion of Mr. Montie, seconded by Mr. Vincent and carried, the financial statement was accepted.

On motion of Mr. Montie, seconded by Mr. Vincent and carried, amendments to the 1996 Budget, hereinafter attached and identified as "Exhibit A" were approved.

Paul Coreil, Ph.D., Wetlands Specialist, who had monitored the Oak Grove water control structure from 1983 until his resignation in May, 1991 explained to the Board what monitoring of the structure had entailed. Dr. Coreil offered to meet with whomever the Board chooses to perform future monitoring in order to familiarize him with the procedure. It was noted Kevin Savoie, of the Cooperative Extension Service, has offered his assistance.

On motion of Mr. Montie, seconded by Mr. Vincent and carried, that Bonnie Conner is hereby authorized, empowered and directed to contact Boyd Allen Nunez and ask him to attend the next meeting to discuss opening and closing of the Oak Grove water control structure.

Lonnie Harper presented a set of drawings and several alternatives to remedy the erosion along the J. T. Primeaux property. Bobby Montie agreed to contact Mr. Primeaux asking him to attend the next meeting, and if necessary, to schedule a special meeting around Mr. Primeaux's work schedule.

Lonnie Harper reported on Project 1996-02 saying that work was approximately 50% done. He has contacted Shell Western requesting their assistance in flagging the location of their pipeline in the vicinity of the work area. Mr. Harper agreed to check on the cost of mats to place where the levee is being cut.

On motion of Mr. Morris, seconded by Mr. Vincent and carried, the following bills were approved for payment:

| | | |
|---|---|---|
| Jeff Davis Electric Co-op | - | $ 13.77 |
| Cameron Parish Pilot | - | $ 43.00 |
| Lonnie Harper & Assoc. | - | $ 336.00 |
| H & S Construction | - | $ 5,320.00 |

The Board read a letter from Reverend O. J. Johnson of the Oak Grove Baptist Church and a letter from Eddie Benoit, Assistant Principal of South Cameron High School, concerning drainage problems being experienced behind Cordell Rutherford's residence. Reverend Johnson requested the Board consider installing 450' of 24" culverts to relieve the problem. It was moved by Mr. Montie, seconded by Mr. Vincent and carried, that Bonnie Conner is hereby authorized, empowered and directed to write a letter to Reverend Johnson advising him of the Board's policy governing the purchase of culverts.

Glenn Harris presented the watershed management control report on behalf of the Cameron-Creole Watershed.

It was moved by Mr. Montie, seconded by Mr. Vincent and carried, that the meeting times would be changed to 5:00 p.m. during standard time and that the Secretary is hereby authorized, empowered and directed to provide public notice of said change.

There being no further business, on motion of Mr. Montie, seconded by Mr. Vincent and carried, the meeting was adjourned.

# Tarpons winner of regional game

By JOE MUELLER

The South Cameron Tarpons turned loose a strong ball control ground game and defeated the University Cubs 48-20 in the regional round of the state playoffs.

The home standing Tarpons ground out 331 yards, and controlled the clock as they had the ball 15 out of 20 minutes in the second half.

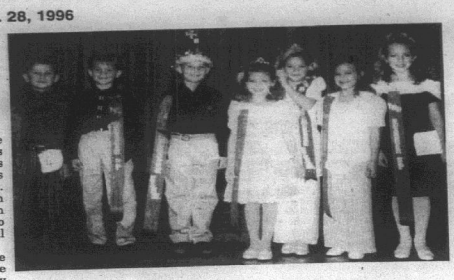
The Tarpons had two rushers surpass the 100 yard mark as Brandon Conner rushed for 179 yards on 25 carries and Cory Broussard had 22 carries for 101 yards.

The Cubs scored first on a 19 yard run by Marcus Etienne.

The Tarpons retaliated and scored on a 2-yard run by Conner, so at the end of the first quarter, the score was tied at 7.

South Cameron scored twice in the second quarter on two runs by Conner, one from three yards out and the other from five yards out, to take a 20-7 half time lead.

The third quarter saw th Tarpons score on a five yard run by quarterback John Pradia, to take a 27-7 lead into the final quarter.



In the final quarter the Tarpons scored three times, once on a 17 yard run by Conner, Cory Broussard bulled it in from the one and Brent Morales returned an onside kick attempt by the Cubs 44 yards fore the Tarpons final score of the night.

The University team's 13 points in the final quarter came against the Tarpon J.V. team, mostly 8th and 9th graders, as they played the final half of the fourth quarter.

The Tarpons, who with their strong running game, didn't need to throw the ball, hit two of two passes, both thrown by John Mark Montie to Brent Morales.

The Tarpons ground out 21 first down in the game.

They played very strong defense only giving up 212 yards and a lot of those yards came after the game was put out of reach by the Tarpon offense.

## Lil Miss & Mr. Cameron

Little Mr. and Miss Cameron Elementary were selected at a pageant held recently at the school and will represent the school in the Little Mr. and Miss Cameron Parish contest of the Louisiana Fur and Wildlife Festival in January.

Erika Danielle Pickett was named Little Miss Cameron Elementary. She is in the first grade, 6 years old and the daughter of Karen Pickett of Cameron.

First runner-up was Cami Savoie and second runner-up was D'Nae DeSonnier.

Aaron Doxey was named Little Mr. Cameron Elementary. He is in the second grade, 7 years old and the son of Reuben and Mitsi Doxey.

First runner-up was Justin Picou and second runner-up was Tori Caudill.

The Little Miss and Mr. were crowned by last year's queen Dixie DeSonnier.

## Good samaritan found

Dear Editor:

There are still good samaritans out there.

On Tuesday a Cameron Elementary School student accidentally let his volleyball roll out of the school yard onto the highway, right in the path of an oncoming 18-wheeler. Everyone was relieved that only the ball was flattened.

On Wednesday, a gentleman walked into the school with not one but two new beautiful Regents, official size and weight volleyballs.

Here was a busy truck driver concerned about the play and welfare of the children, taking time to purchase and present his gifts at school. What a delight to find such a caring, generous man.

## To The Dome Tarpons!

TO PLAY AT PICKERING FRIDAY

# Tarpons just a game away from Superdome!

By JOE MUELLER

How do you get from Creole to the Dome in New Orleans? The answer, which the Tarpon football team has, is you go north to Pickering and remove the last obstacle between the Tarpons and the State 2AA championship game.

The Tarpons will face the Red Devils this Friday at 7 p.m. and the winner will face the Haynesville - Notre Dame winner on Friday, Dec. 13, at 5:30 p.m. in the Superdome for the Class AA state championship.

The Tarpons take six consecutive wins into the contest. They have won three straight playoff games by a combined score of 110-40. The Tarpons have a 9-3 overall record.

The home standing Pickering Red Devils have a 12-1 overall record. They have won 12 consecutive games having lost their opening game of the year to the Welsh Greyhounds. They have won their three playoff games by a combined score of 70-53.

Both teams have a pair of strong running backs. The Red Devils have Artis Stanley and Sam Blocker, while the Tarpons counter with Brandon Conner and Cory Broussard.

The two teams met once already this year as the Red Devils beat the Tarpons 22-7 on Sept. 20, the third game of the year.

That game saw Artis Stanley rush for 149 yards and he scored three touchdowns for the Red Devils.

The Tarpons Brandon Conner rushed for 134 yards and scored the lone Tarpon touchdown.

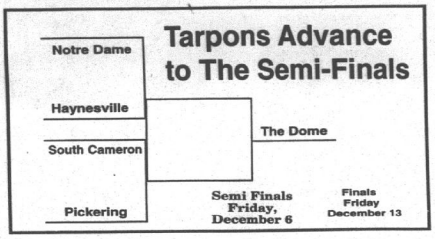
The Red Devils and Tarpons have two other common opponents - DeQuincy, who both beat. South Cameron handled the Tigers easily winning 28-0 while Pickering edged the Tigers 23-20. Against Welsh Pickering lost 20-17 and the Tarpons beat the Greyhounds 28-13 in their final regular season game.

The running backs have nearly identical starts as Artis Stanley averaged 77 yards per game during the regular season and Blocker 60 yards. The Tarpons Brandon Conner averaged 76.4 yards per game during the regular season and Broussard 52.3 per game.

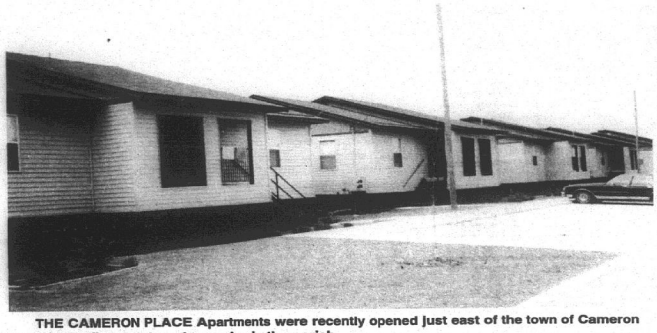
Team stats for the regular season are Pickering, 236.2 yards per game on offense; South Cameron, 249.3 yards per game. On defense the Tarpons gave up 204.1 yards per game while the Red Devils gave up 246 yards per game.

Both teams have a strong kicking game with David Latta of Pickering and John Mark Montie of South Cameron both capable of kicking perfect extra points and field goals.

Tradition has the Tarpons winning as ten years ago, in1986, the Tarpons went north to Springhill and defeated the top defensive team in the state 24-14. The Tarpons scored twice in the fourth quarter for the win. Springhill had a 14-6 halftime lead.



Mike Meaux, Willie Jackson and Scottie Primeaux scored for the Tarpons. The Tarpons defense shut Springhill down in the second half.



The '86 team had 9 first team all-district members - Steve Pierson, Lee Brown, Scott Primeaux, and Willie Jackson on offense; Chad Lavergne, Lee Brown, Lance McNease, Mike Meaux and Steve Pierson on defense.

The Tarpon Head Coach Parry LaLande was named Coach of the Year in Class AA in 1986.

The tarpons traveled to the Dome following the Springhill win and faced Kentwood in the finals. They lost 26-14 in the championship game.

The Tarpons need to play with the same enthusiasm and desire as they have exhibited throughout the season, but they took this enthusiasm up to another level in the playoffs. There is no quit in the Tarpons throughout the playoffs, so let's all load up and go north to help the Tarpon team remove that last roadblock on the road to the Dome.

THE CAMERON PLACE Apartments were recently opened just east of the town of Cameron and are the first apartment complex in the parish.

# Production up for oil & gas

CAPITAL NEWS

When September severance tax figures were released, they indicated a stronger third quarter for natural resource production in Cameron Parish than was reported during the previous year.

The $1.6 million in severance taxes collected for work in the parish during September was the highest figure of the quarter and was nearly $400,000 higher than the $1.26 million recorded during September 1995. It brought the 1996 total for the third quarter to $4.3 million for production in the parish, compared to $4.1 million for the same three-month period of 1995. The parish ranked eighth in overall collections for the month.

The September receipts were almost evenly divided between oil and natural gas production. Oil brought in slightly higher taxes of $819,826 for work, in the parish. The $818,758 received for natural gas production ranked the parish fourth in that category among the 64 parishes. The remaining $9,271 was listed for sand production.

The parish collecting the tax on oil and natural gas receives one-fifth of the total up to $500,000.

# Hackberry man dies in shooting

A Hackberry man was the unintentional victim in a shooting at a bar south of Sulphur Saturday night.

According to officers, the shooting took place at 9 p.m. on La. 108 at the Hideaway Bar, south of Sulphur. Christopher "Chris" L. Fountain, 23, of Hackberry, died from one gunshot wound.

Bruce Sparks, 32, of 2116 Country Club Road, No. 6, Lake Charles, was charged with second degree murder and was booked into the Calcasieu Correctional Center.

According to Lucky Delouche of the Violent Crimes Task Force, Sparks got into an argument with a man, left the bar in his truck, returned and allegedly fired one shot that hit Fountain.

Fountain was not involved in the argument.

# Singing tree told

"The Singing Christmas Tree" will return to Cameron next week after an absence of several years. First Baptist Church's annual Christmas program will bring back the giant lighted Christmas tree, bigger than ever, holding a larger 30 voice choir.

Saturday and Sunday nights, Dec. 14, and 15, at 7 p.m., the First Baptist Church choir and guest singers will present a program of favorite Christmas music from years past. Songs will range from modern to traditional to classical, with styles to appeal to every taste.

Admission to the program is free, a gift to the community, and a nursery will be provided for small children.

# Decorating contest

Boy Scout Troop 210 of Cameron has announced its second annual Home Christmas Decorating contest. Homes in the Cameron area - Jim Daigle's corner to the ferry, are eligible. First and second place winners will be chosen in the following categories: best yard decorations, best light decorations and best all-around.

Judging will be Tues., Dec. 17. Scouts will do the judging and will view homes from 6-9 p.m. Winners will be announced in the newspaper.

IN PEVETO BIOGRAPHY

# Early J. B. days told

By GENEVA GRIFFITH

A vivid description of life in the early days of Johnson Bayou is contained in the book "From Plow to Pulpit", the autobiography of Dennis Rubert Peveto, which was edited by a grandson, Milton B. McCollough.

McCullough said his grandfather was "A man of great faith who sincerely believed that every event in his life was the result of God's insistence and direction", and dedicated the book to Rayburn Peveto for locating the original manuscript written by his grandfather.

Rev. Dennis Rubert Peveto

Rev. Dennis Rubert Peveto was an ordained Baptist minister, and during his lifetime pastored 13 churches in Texas; organized or assisted in organizing 15 churches; co-founded and served as the first superintendent of Memorial hospital in Houston, Tex., where he served for over 10 years.

He also served as superintendent of Baptist hospitals in Alexandria, and San Angelo, Tex., and made the plans for Baptist hospitals in Florida and Oklahoma.

He was also the founder of the Star of Hope Mission in Houston.

He kept a journal on all of his activities and always encouraged the churches to keep accurate records for their histories.

During his sojourn in Opelousas, during the administration of Gov. Pleasant, he was instrumental in breaking up the cockfighting in the city that had existed since the days of the Spanish rule of Louisiana, according to another grandson, Cecil Peveto, who grew up in Johnson Bayou, and now lives in Carlyss.

Dennis Rubert Peveto was born on Johnson's Bayou Sept. 23, 1873 and died Feb. 4, 1946.

He was the grandson of Michel Pivitau II (now spelled Peveto) and Apollonie Broussard, a descendant of the Acadians from Nova Scotia. His grandmother was the daughter of Joseph Beausoliel Broussard and Agnes Thibodeaux who settled at Camp Beausoliel near the present Broussard, La.

Broussard was one of eight Acadians who signed a contract in New Orleans on April 3, 1765 to settle in the Attakapas District to raise cattle on shares, and upon the recommendation of Gov. Vaudreuil to the Spanish Governor of Louisiana, he was made a Commandant.

Michel's II parents were Jacques Pivitau and and Louise St. Eustache, who were married in St. Louis Cathedral in New Orleans where Piviteau was stationed in the French army. He had served in the Battle of New Orleans as a waterboy at 15 years of age.

Jacque Pivitau and his brother, Batteste were believed to have come to America from Parish, France, and served with George Washington's army. Jacque settled in Mississippi and the other in Arkansas.

One of his sons, the first Michel (the grandfather of this line) was the first settler on the Sabine River, where Orange, Tex., now stands.

Batteste Peveto founded a home in Orange, Tex.

Michel later turned southward and made a permanent home in Johnson's Bayou; anoth-

# Pre-game support told for Tarpons

The South Cameron Tarpons advance to the semi-finals this Fri., Dec. 6, as they take on the Red Devils in Pickering at 7 p.m.

Numerous activities are planned for Thursday and Friday. The football players, coaches, managers, trainers, junior varsity and varsity cheerleaders, sidekicks and pep squad members and all of their families are invited to a gumbo Thursday evening at 6:30 p.m. in the school cafeteria.

On Friday, Monsignor Murphy Bernard will offer a team Mass at 7:30 a.m. at Sacred Heart Church with a team breakfast following in the school cafeteria. Prior to the pep rally, face painting will be available for $1. The pep rally is scheduled for 1 p.m. in the school gym.

Individuals and businesses are welcome to participate or speak at the pep rally. To be placed on the agenda, contact Stephanie Rodrigue at 542-4628 (school) or 542-4615 (home). The pep rally will open with a spirit train parade in the gym. Schools, businesses and individuals are asked to construct a small float from boxes, children's wagons, ice chests or anything similarly sized and not damaging to the gym floor.

The pep rally will end at 2 p.m. and school will be dismissed at 3 p.m. Fans attending the game who would like to be in the spirit caravan are asked to meet in the parking lot at 3:30 p.m. to follow the girls buses. Again, Tarpon fans are asked to decorate vehicles, homes and businesses.

Tickets for the game are $5 each and are available in the school office.

# Audubon ruling appealed by jury

By GENEVA GRIFFITH

The Cameron Parish Police Jury Tuesday voted to appeal the permanent injunction granted by District Judge H. Ward Fontenot last week against the enforcing of a parish weed ordinance as it applies to the Baton Rouge Audubon Society's bird sanctuary in the Little Florida Subdivision.

Brent Nunez, Jury President, said that the parish weed ordinance will not be enforced pending the outcome of the appeal.

James Watts and Willie Wiseman gave a report on the operation of the Lake Charles Port, where Watts, as a board member, represents Cameron Parish.

Ray Conner, Cameron Parish's representative on the Silver Haired Legislature, gave a report on the Senior Citizens matters in upcoming legislation.

He asked the Police Jury to adopt a resolution to the congressional delegation urging them not to cut Social Security payments, which the Police Jury agreed to do.

The Jury adopted the 1997 budget, agreeing to set aside the almost $500,000 surplus until the end of the fiscal year to see how much it will get from the road royalty fund when it will consider two priority projects, overlaying the Jetty Road and the Wakefield Road by-pass in the marsh in back of Cameron.

The Jury accepted a bid of $50 on a brick building on 3/4 acre of land (the former health unit building) from the Cameron Parish Council on Aging, which was the only bid submitted.

The Jury agreed to advertise for bids on the Cameron Parish Christmas Tree Project; dredging at Dugas Landing; and culverts.

The president was given the authority to sign a contract with Cameron Recreation District No. 6 for a $40,000 project.

This is a matching grant of $20,000 payment in kind, in which the Police Jury employees will build an earthen walkway in back of the Cameron Recreation Center on which pedestrians can walk out to the beach. It will not support vehicles.

A report on condemnations was heard on three locations, one of which has since fallen into the Gulf and will be cleaned up by Larry Jinks. The owner of the other two in the Big Lake area said he will have his cleaned up in 60 days.

Douaine Conner announced that the Little Chenier "Miller's Flat" road is being raised with sand and shell, instead of aggregate.

SHRIMP BOATS are shown tied up at a dock in Cameron. Cameron is one of the leading fishing ports in the nation due to the shrimping and menhaden fishing here.

## Quiz Bowl second

The Grand Lake Senior Beta Club recently held its November meeting with President Delana Savoy presiding. Members were encouraged to participate in the Thanksgiving food drive sponsored by the Grand Lake Junior Beta Club.

Plans to attend the Louisiana state Beta Convention in Baton Rouge on Dec. 11, were discussed. Special recognition was given to Corey Theriot, who placed third in science competition at the District VII Beta Convention in October.

Grand Lake's Quiz Bowl placed second in overall competition at district level. This level is the highest honor quiz bowl members have ever received in competition.

Picture above are, from left, Quiz Bowl members Bobby Hebert, Earl Gaspard, Kane Richard and Corey Theriot.

## Class has Literary Hour

Recently the second hour English III class of Pat Fletcher completed their research papers. A special Literary Hour was held Nov. 22, to share information about the nature of the class' study. English, American and Irish authors were topics of study; classical and modern composers were studies.

Each member of the class shared a short oral report, followed by a brief discussion. Music by Mozart, Handel, Mendelssohn, Bach, Tchaikovsky, Wagner, and Jimi Hendrix was played. Refreshments were served to the class and special guests, Principal David Duhon and Assistant Principal Mrs. Jackie Holmes attended.

Pictured above are several of the class members: Lindsay Smythe, Trisha Broussard, Dolores Arceneaux, J. D. Guillory, Nick Stickell, Jessie LeBouef, Nicholas Nunez, Shannon Sterling, Marcus Young, Phillip Primeaux, Billy Taylor, Justin Lessigne, Mitchell Babineax, and Russell Faulk.

## PEVETO

**Cont. from Pg. 1**

er brother, Joseph Peveto, settled in Jefferson County, near the present town of Nome, Tex.; and a fourth, Olizeam Peveto, went still further west and settled on the Spring Creek in Harris County, Tex.

His son, Michel II, was to later serve at the Battle of San Jacinto with Sam Houston, to fight against Santa Ana and received a piece of land for his service. He died from his wounds shortly thereafter.

Peveto's family was one of the earliest to settle on Johnson's Bayou (the 's was later dropped) and was a virtual island, with access only by boat.

It was named after the first man to build a home on the island, Daniel Johnson, who had moved there from Sabine Pass, Tex.

The only means of transportation was by sail boat, through Johnson Bayou and Sabine Lake and the rivers and bayous emptying into it. Trade was carried on with Sabine Pass which was a thriving little city until it was swept away by a tropical hurricane in 1886. It is remembered today as the place where Dick Dowling whipped the Yankees during the Civil War.

Beaumont, Tex., was another trading point, but much more difficult to reach (this was before the ship channel was cut).

Then Port Arthur, Tex., came into being and soon became the chief mart of trade, being more accessible, and Orange, Tex, came into prominence as a trading center.

Then steamboats came into use, and cut down on the traveling time to reach the destinations.

Peveto says he remembered the "Emely P" owned by J. B. Peveto and the "Lark" owned by Joshua Griffith. However, these boats were too large for the streams and their operation too expensive for the available commerce.

Later gasoline and internal combustion engines revolutionized water transportation. His brother, Ira B. Peveto, built the first gasoline launch, the "Mercedes", which became the main means of transportation to Port Arthur and Orange, and the first to carry the U. S. Mail.

## The Challenge of Genealogy

by MARIE WISE

James Richbourg GALE and Sarah Elizabeth Anderson, progenitors of this line in Louisiana, were married in 1832 in Amite County, Mississippi where both had been born.

In c1830 they moved to 900 acres in Pointe Coupee Parish near Lettsworth where James supervised the building of Belvue Plantation House and they spent their lives.

Of their 9 children, William Joseph Gayle and James Franklin Gayle moved to Lake Charles with their families. The line of James Franklin descended there through Arthur Leo, William Gedge, and William Gedge Gayle, Jr.

**SOUTHWEST LA. KINFOLKS**

The above information is from an article in Vol. 20 No. 2 of *Kinfolks*, quarterly publication of the Southwest Louisiana Genealogical Society, P.O. Box 5652, Lake Charles, LA 70606-5652.

Submitted by William Gedge Gayle, Jr., "An Interesting Ancestor - James Richbourg Gayle" names James Gayle of England as the earliest known progenitor in the 1500s; the earliest known in America in Virginia and Maryland of the early 1700s; and Josiah Gayle, Sr. in South Carolina by 1769.

Josiah Gayle III married Mary Richbourg there in c1803; they moved to Amite County and had 8 children including James Richbourg born 1812.

"The Story of Morilla KOONCE THOMPSON" submitted by Pauline Allen Hooper is a very interesting article as recorded by the writer in a 1989 oral interview of Mrs. Thompson.

Born in 1896, her interview gives a detailed account of her life with 11 brothers and sisters in Edgerly, LA; her 1916 marriage to James Thompson, Sr.; their moves to Texas, DeQuincy, Westlake, and Sulphur where James was a barber and music director at the Houston River Baptist Church. Morilla was a Sunday School teacher.

This interview-article, a fine example of the genealogy that may by had from memories, concludes with a descendants list from Mrs. Thompson's grandparents, George W. Koonce, 1835-1923, a Confederate veteran, and his wife, Mary Polly Herrin (1841-1950); had 12 children, lived at Edgerly.

Also in this Vol. 20 No. 2 issue of *Kinfolks* are: "Genealogical Information from Tax Records", "Genetically Related Mediterranean Diseases", Inscriptions from the Ritchie Cemetery in Moss Bluff, "Old Mexico in Sulphur, LA", "My visit to Nova Scotia", "Louisiana Vital Records", "Early History of Lake Charles" (cont. from Vol. 19 No. 4), "Early Calcasieu Parish News, 1896", an Olsen-Thibodaux ancestor chart, Queries, and other features.

*Kinfolks* is softcover, 8 1/4 x 11 in., 42 pages, indexed, available with $12.00 annual membership in the Society, address preceeding; single issues $4.00.

REMEMBER? By Keith Hambrick

## The big snow of 1960

**SNOW ON THE BAYOU**
**(By Mrs. M. C. Johnson)**

As you would expect, the biggest news and most talked about subject on Johnson Bayou this week was the snow. I feel sure there were not as many snowmen in the northern part of our country as could be found down south.

Almost every house on the Bayou displayed their snowmen with great pride. The Creed Coffee's made a trip to Big Spring, Tex., and in their absence, their neighbors in the Mobile Oil Camp built a huge snowman so that it was still standing when the Coffee's returned Sunday.

Mrs. Bill Trahan made an unusual contribution to the sights--in the form of a snow-woman with a flowing dress of snow. All in all it was about the most exciting thing for a long while here.

**SNOWMEN ON CHENIER**
**(By Elora Montie)**

Chenier folks were surprised Friday morning when sleet began to fall and even more astonished a few hours later when heavy snow began to come down. A snowfall of some five inches was experienced here.

Both children and adults had a wonderful time making snowmen. Some 33 homes with snowmen in their yards were counted. Mr. and Mrs. Howard Dupuis had the largest--six feet tall, with Mr. and Mrs. Kenneth Nunez's running a close second.

Because of the icy roads, Murray Hebert was unable to bring the mail down from Lake Charles Saturday. Monday was a lazy day for Mrs. Lee Nunez, postmaster, and r. C. Doxey, rural carrier.

**A BOLD, NEW LOOK**

Ladies' fashions have nothing on the Cameron Parish Pilot today. With this edition, the paper makes its entry into the field of offset printing--a process which opens up a whole new world for the paper.

Among the many advantages offered through this new type of printing are sharper type, neater headlines, more attractive designs in advertising and color.

But the most important advantage will be the improvements in printing of photographs. Offset newspapers are noted for the fine quality of their pictures, which often approaches the same sharpness as in the original photographs.

Previously printed by the conventional letterpress method of printing, in which metal type was used, the Pilot's type will now be set on typewriter-like machines, pasted up into pages and reproduced photographically.

**BIG CREOLE TURNIP**
**(By Mrs. H. D. Primeaux)**

In regard to the photo in the Pilot last week of Mrs. John Savoie's big turnip, one of our readers says she can't top them this year, but she could have in 1956.

That year Mrs. J. M. Guillory said she grew a turnip in her garden that was 26½ inches in circumference and weighed 14 pounds. It was sent to Welsh and put in an agricultural display.

Why patience, *experience*, and wisdom *deliver* the best *results*.

Life's simplest pleasures take patience and time to learn and enjoy. And they're even better when an experienced hand is there beside you.

Which brings us to our point: someday there will be competition for electric service. As that day approaches, unknown companies will begin testing the waters in unfamiliar territory, promising you the moon.

*At Entergy, we're preparing for competition.*

We want to make sure competition is fair to all our customers: that base rates don't rise and reliability is preserved.

We know how vital it is to have the technology and resources ready and waiting to meet any demand or emergency. And, better than anyone, we understand the currents of the communities we serve.

When competition comes to the electric industry, having a power provider that knows the lay of the land will be more important than ever.

That's when the experience and wisdom you've come to expect from Entergy will really count.

Providing reliable and affordable power. It's what we do.

*At Entergy, we're always thinking about you, so you don't have to think about us.*

## Youth waterfowl hunt set at Sabine Refuge

The Sabine National Wildlife Refuge will open on Sat., Dec. 7, for a Youth Waterfowl Hunt, Refuge Manager Will Nidecker announced. Only young people 15 and younger accompanied by an adult 18 or older may participate. Adults may not hunt ducks on this day.

All youths must have completed their hunter safety course and have their hunter safety card to enter the hunting area. The designated hunt area contains 24,000 acres and is the same area that has been hunted in past years.

The youth hunters and sponsors may enter the West Cove parking area to line up their boats for launching three hours before legal shooting hours. They will be permitted to enter the refuge two hours before legal shooting hours. On Dec. 7, the legal shooting time is 6:26 a.m. Hunters should plan their hunt so they are finished hunting and be out of the refuge by noon, Nidecker continued.

Waterfowl identification is especially important because of the restrictions on taking various species. Youth hunters are urged to positively identify each bird as it is killed in order to avoid over limit problems. The daily bag limits are the same as the Louisiana's daily bag limits. Non-toxic shells are required for hunting. Steel shot reloads may be used.

Nidecker noted trolling motors may be used in the marsh. The use of other boat motors to run in the marsh is prohibited Motorized boats can be used only in the canals and bayous.

All youth hunters are required to check in at the check station before hunting and check out upon completion of their hunt.

For additional information call 762-3816.

## Do You Remember...

by Keith Hambrick

(Lake Charles American Press, Dec. 4, 1925)
CAMERON ORANGE CROP CUT SHORT

Ed Sweeney, clerk of court of Cameron Parish, was a business visitor to Lake Charles Friday morning and while here Mr. Sweeney stated that the orange crop in his section of the country has been cut short by the drouth last summer, and that from the same cause, the muskrat crop in the Gulf marshes will amount to very little this season.

Maurice Rosenthal, veteran fur dealer of Lake Charles, a few days ago, made a statement similar to the report of Mr. Sweeney, only Mr. Rosenthal declared that judging by the fact there are no pelts being brought into Port Arthur, Beau-mont, Orange, Lake Charles and other points, the drouth came very near destroying all muskrats along the gulf coast this year. He believes that the prevalence of salt water over the marshes and in all the streams, lakes and bayous, depopulated the marsh country of nearly all rats.

## Tarpons Advance To semi-finals with win

By JOE MUELLER

The South Cameron Tarpons advanced to the State AA semi-finals with a victory over St. Frederick 32-13. This will be the Tarpons first trip to the semi-finals since 1986 when they advanced to the state champi-onship game against Kentwood.

The Tarpons, who played with lots of determination and desire, capitalized on St. Frederick's miscues.

They recovered two Warrior fumbles and converted one into a 20-year scoring pass from John Pradia to Scotty Brown, giving the Tarpons a 17-7 lead.

The other fumble recovery came on a kickoff which was mishandled by the Warriors and the Tarpons Scott Suratt recovered on the 38. South Cameron couldn't move the ball, but a punt went dead at the 3. Then the Tarpons Brandon Conner and Vito Martarona tackled the Warriors Boyd Chandler in the end zone for a safety, raising the score to 18-7.

The Tarpons raised the score to 25-7 on a 24-yard run by Brandon Conner. Cory Broussard scored from 3 yards out to make the score 32-7.

The game opened with the Warriors controlling the first quarter as they only allowed the Tarpons three plays. The Warriors didn't score even though they had the ball over 10 minutes.

The Tarpons scored on their second possession as Brandon Conner went in from the three. Conner rushed for 57 yards in the game.

St. Frederick came back to tie the score at 7 on a 2-yard run by Chris Jones, with 53 seconds left before halftime.

The Warriors recovered a Tarpon fumble at the 25, but they were sacked for an 18 yard loss and ended up missing a 42 yard field goal.

The score tied at 7 at half-time and then the Tarpons took a 10-7 lead on a 25-yard John Mark Montie field goal as they took the second half kickoff and moved to the field goal.

The Tarpons from 1-7 went on to the emotional win. St. Frederick's final touchdown came on the final play of the game.

Cory Broussard led the Tarpon rushers with 160 yards. John Pradia hit 3 of 4 passes, one for a touchdown. The top receiver was Brent Morales with two catches.

The Warriors big running back, Boyd Chandler, rushed for 161 yards on 36 carries, giving him 2208 yards on the season and 5,044 in his career.

The Tarpon-Pickering game will be in Pickering. The Tarpons need their fans so let's all plan to make the trip north to Pickering and watch the Tarpons complete the trip down the road to the Dome.

### SPLIT SEASON ENDS

The first split of duck-coots hunting season is over and many hunters were very down, as the hunting was so bad. The last weekend on our lease was great, with new ducks, especially black jacks in large droves of 30 to 100 in number, dipping the decoys from legal shooting hours until about 7:15 a.m. We did have a chance to bag a few green head mallards. Maybe the next split (Dec. 21-Jan. 16) will be better. We should at least have colder weather, which should bring us more ducks down to our area.

We do have a great number of coots, but it closes with duck season. Goose season remains open until Feb., 23, for blues and snows.

Speckle belly geese will close this weekend, Dec. 8, and reopen Dec. 21 thru Jan. 29.

Last weekend quail season opened (Nov. 28-Feb. 28), with a daily bag limit of 10, possession 20. We really don't see many quail down in our area any more.

Woodcock season also opened last weekend (Nov. 28-Jan. 31), daily bag 5, possession 10. The overall population from up north is poor and unless the weather gets real cold, we won't see many woodcocks in our area.

The wild turkey season is set for the spring of 1997 in Area A (Mar. 22-Apr. 27). This is a big area and part of Calcasieu Parish are in Area A.

### TRAPPING

Many of our trappers say there's not many nutria in the marsh. I haven't talked to many of the trappers but the ones I did talk to said it's slow. We need the cold weather.

### ARREST

The old saying is like father, like son, but sometimes it just doesn't pay.

A father-son team of commercial fishermen are in hot water with a felony arrest for a fishing violation. They were over the limit for channel catfish (320), undersized, over on drum fish. Also, littering and obstruction of justice charges were put on the pair.

### HUNTING CLUBS

Hunting clubs have been a way of life in Cameron Parish for many years and still are today. It has helped many families, as guides get paid good, and tips are good. As my dad used to say, it'll help up through the winter.

I can remember when I was a kid, Commander Winn Hawkins was head of the Coast Guard, with a unit and battalion located in Grand Chenier between the Sam Doland lands and Tobe McCall property. It had a two story barracks, several officers homes and tennis courts, etc.

The Coast Guardsmen, mostly locals, patrolled the Gulf Coast during World War II, under Mr.Hawkins command. He also delivered telegrams to local folks with the bad news of a loved one being killed during the war. After the war, Mr. Hawkins bought this Coast Guard set up and made a hunting club, also leaving land from local folks to do the hunting and hiring local guides.

Many important people came down to hunt, like 50 years ago Admiral Joseph Farley, Coast Guard commander, and Chief Justice Fred Vinson of the U.S. Supreme Court.

At one time Mr. Hawkins sold out the club to the Wheelests of Shreveport and it was run by Mr. Arnold. Mr. Hawkins again set up in Oak grove with his right hand man and today is known as Oak Grove Hunting Club run by Dave Broussard for the owners and share holders. Many governors including Governor Mike Foster have hunted at the new Oak Grove Hunting Club.

Other hunting clubs in our parish were the J. O. Theriot club in Creole, where General Dwight Eisenhower and General Omar Bradley made hunts.

The Henry McCall's owned a hunting club years ago, as well as the Crain Brothers of Grand Chenier, Taylor at Little Pecan Island. We also have the Savant-Neville Club and the Big Burns Hunting Club. There are many more in our parish but this is just a few.

### DID YOU KNOW?

"U may tink your hunting dog is a champ, but dem short haired dogs shed more hair than dem long-haired-haired dogs."

### A WISH

To all you hunters and fishermen, make your wish now in front of your wife, your mama, or your girl friend or boy friend real loud, 'cause Christmas is around the corner and you need some gifts under the tree.

## Lake Charles Diocese plans for Millennium

Plans and preparations for the next three years, leading to the beginning of the Third Millennium, the year 2000, continue to be made by a special Commission of the Diocese of Lake Charles, according to the Most Reverend Jude Speyrer, Bishop of Lake Charles.

The Diocese Planning Commission for the Year 2000, made up of clergy, religious and laity, has been meeting for six months to provide for the plans and strategies of celebrating what Pope John Paul II has called "a Great Jubilee."

On Jan. 27, 1997, and continuing on the final Tuesday of each succeeding month through December 1999, a pilgrimage will work its way to each of the 36 church parishes of the diocese climaxing with the celebration of this "Great Jubilee" in the year 2000.

This weekday evening service, which will begin at 7 p.m., will open with singing followed by prayer and the Liturgy of the Word and homily by a guest preacher. There will be Veneration of the Cross, Benediction of the Blessed Sacrament and a closing hymn. The hour will provide parishioners and guests an opportunity to contemplate the powerful nature of the coming anniversary of the birth of Jesus Christ and its meaning to the entire world.

This pilgrimage will not be a scattered effort but will be achieved by starting with the youngest parish in the Diocese, St. Charles Borromeo in Fenton, (established in 1983), and end with the oldest parish, the Cathedral of the Immaculate Conception (established in 1869). A list of the parishes and their date of establishment (from youngest to oldest) follows:

St. Charles Borromeo, Fenton, 1983; St. Theodore, Moss Bluff, 1974; St. Theresa of the Child Jesus, Carlyss, 1970; Our Lady of Good Counsel, Lake Charles, 1970; St. Eugene, Grand Chenier, 1961; Our Lady of Perpetual Help, Jennings, 1961; Our Lady of LaSalette, Sulphur, 1961; St. Henry, Lake Charles, 1958; Our Lady Star of the Sea, Cameron, 1958; Immaculate Conception, Sulphur, 1958; Our Lady Queen of Heaven, Lake Charles, 1957; Immaculate Conception, Jennings, 1956.

St. Peter the Apostle, Hackberry, 1955; St. John Bosco, Westlake, 1955; Our Lady of LaSalette, DeQuincy, 1955; Immaculate Heart of Mary, Lake Charles, 1953; St. Lawrence, Raymond, 1951; St. Joseph, Elton, 1951; Sacred Heart of Jesus, Oakdale, 1948; St. Margaret, Lake Charles, 1945; St. Joseph, Welsh, 1941; St. John Vianney, Bell City, 1939; St. Mary of the Lake, Big Lake, 1938; St. Joseph, DeRidder.

St. Philip Neri, Kinder, 1937; St. Raphael, Iowa, 1931; Our Lady of the Lake, Lake Arthur, 1922; St. Joseph, Vinton, 1920; St. Joan of Arc, Oberlin, 1920; Sacred Heart of Jesus, Lake Charles, 1919; Our Lady of Prompt Succor, Sulphur, 1919; St. Paul, Elton, 1913; Our Lady of Seven Dolors, Welsh, 1904; Our Lady Help of Christians, Jennings, 1892; Sacred Heart of Jesus, Creole, 1890; Immaculate Conception, Lake Charles, 1869.

## Do You Remember?

By Keith Hambrick

**(Cameron Pilot, Sept. 19, 1963)**

The evacuation was ordered Monday afternoon after the notification of Hurricane Cindy. People from Cameron Parish took refuge in Lake Charles and Sulphur schools and in the homes of friends and relatives. Sheriff O. B. Carter, after checking with the weather bureau officials, ordered road blocks down Tuesday at 9:30 a.m., allowing the evacuees to return to their homes.

Cindy, which crept up on the Gulf coast residents, evading radar, was spotted by a weather reconnaissance plane. Hurricane Cindy took a northerly course, slightly west of deadly Hurricane Audrey. Gusts of wind were reported reaching from 30 to 45 miles per hour in Cameron and tides rose four and a half feet above normal.

Sheriff Carter, a few deputies and Civil Defense personnel, remained during the worst of Cindy in the so well spoken of old courthouse which has withstood many storms.

**SCS COOPERATORS**

Twenty-nine Cameron Parish farmers and ranchers became cooperators with the Gulf Coast Soil Conservation District during the 1963 fiscal year. This brought the total number in this parish near the 400 mark.

With technical assistance from the Soil Conservation Service assisting the district, 31 cooperators developed complete soil and water conservation plans. Also 25 revised their old plans to meet the present needs of their soil for protection and improvement.

Among the big conservation items last year, was the construction and reconstruction of 12.5 miles of cattle walkways and 8 miles of dikes and levees. Also, 700 acres of cropland and pasture land was leveled and 14 water control structures were installed. Much of the work was carried out with financial assistance under the ACP program.

**PARISH FARM INCOME**

The average income of a Cameron Parish farm at the time of the 1960 census was $5,343, almost 25 percent larger than the average income of $4,499 of Louisiana farms as a whole.

Both the parish and the state showed a health income per farm between the 1960 and 1950 censuses, Cameron's figure being $2,821 and Louisiana's $1,979 in 1950. However, much of this increase was due to inflation.

Cameron's total farm income also showed a sizable increase during the 10-year period, rising from $1,670,109 in 1950 to $2,559,392 in 1960. Again, inflation played its part in the rise.

Income from livestock and livestock products rose from $563,316 in 1950 to $1,447,453 in 1960. Income from crops rose from $1,106,793 to $1,111,939, a very slight increase as compared to the rise in livestock income.

In 1960 there were 479 farms in Cameron Parish, a decrease from 592 ten years earlier. But the average size of the farms increased from 282 to 452 acres.

In 1959, Cameron Parish had only 635 acres of woodland.

**HEALTH UNIT TAX PASSES**

A one-mill maintenance tax to support the operation of the Cameron Parish Health Unit was passed by parish resident taxpayers last Saturday. The popular vote was 257 in favor of the tax and 99 against. The assessment vote was $464,363 in favor and $224,749 against the tax.

**ROUNDABOUT THE PARISH**

Klondike -- Crayfish farming? It can be done says Henry H. Vincent of the Klondike Community. Nearly 700 people caught about 800 lbs. of crayfishing Vincent's pond last season. Fishing was open to the public at a fee. Individuals or families were allowed to fish, picnic and boil crayfish near the 60 acre pond. All crayfish were large and people as far away as Orange, Tex.,a nd New Orleans came to fish. Another pond is planned for next season.

**(Lake Charles American Press, Feb. 18, 1925)**
**HEAVY RAINS AT LAKESIDE**

The heavy rains of the past few weeks have freshened the water in the lake and the rice farmers are commencing to grin and make preparations for putting in a rice crop this season. This section gets to ploughing too late in the season. All those who got their crop in early last season came out in fine shape, all bills paid, a new car and money in the bank. So, brother, don't go joy riding, but get that plough moving and when the other fellow gets ready for business you have the chance to help him out and get in enough extra work to pay your labor bill.

Last Saturday night on the Shell Beach road from Lake Arthur to Gueydan, Jule Benoit of Lakeside and his cousin, Miss Marceaux of Lake Arthur, were returning from a ball at Lake Arthur in a buggy and encountered a car being driven without lights, it is said. The buggy is said to have turned out but just the same the car crashed into it. The buggy was demolished and the occupants thrown into the ditch of mud, which probably saved their lives. Master Benoit escaped without injury, but Miss Marceaux is under the doctor's care and it is now known what the outcome will be. Eddie Cormier, Paul Broussard and Bonnie Broussard escaped uninjured.

There was fine fishing in the lake for a while when the fresh water first came down from the bayous up country, but as the volume of fresh water pushed back the salt water, the fish followed, apparently glad of their release from their long imprisonment, and it is claimed that they have gone clear to Hog Bayou beyond Grand Chenier.

**(Lake Charles American Press, Feb. 24, 1928)**
**NEW OIL DOME POSSIBLY DISCOVERED**

The Gulf Refining Co. of Louisiana today submitted the high bid of $35,000 cash bonus and half that amount as annual rental for the lease of that part of the bed of Black Bayou, township 12 south, range 12 west, belonging to the state in Cameron Parish.

The lease above mentioned is located about 15 miles west and north of the Hackberry field, and the fact that the Gulf Co. so far out bid other companies in this lease, is believed by some of the oil men to indicate that a new dome has been located by the Gulf in that area, presaging another oil field for Cameron Parish.

With two producing fields now to its credit, and another lease block on which a big gas escape had been located, it appears that Cameron Parish will soon become one of the major oil producing sections of the state.

## Genealogy Challenge

by MARIE WISE

The infamous Neutral Zone of southwest Louisiana - haven for outlaws, Jaywalkers, and other fugitives - was the result of a boundary dispute between the United States and Spain.

The U.S. had purchased the Louisiana Territory from Spain in 1803; Spain owned Texas and Mexico until 1821. Meanwhile, the two governments argued over a 5,000 square mile strip from Rio Hondo near Natchitoches between the Sabine and Calcasieu Rivers to the Gulf of Mexico.

As a reasonable way to avoid war, the Spanish and American military commanders agreed to create a neutral zone into which neither side would send troops until the boundary issue was settled.

Thus was born the Neutral Zone which became known as also "No Man's Land, Stinking Hell, the Neutral Strip and Neutral Ground".

**LOUISIANA'S NEUTRAL ZONE**

*The Neutral Zone: Backdoor to the United States* by Don C. Marler is a small book of 24 chapters, each telling of people and/or events which had large impact on this area's history.

The "Backdoor" title came into use because "Through this backdoor came pirates, privateers, outlaws, politicians, farmers, river boatmen, trappers, timbermen, ministers and soldiers of fortune." Also, "This territory served as the backdoor to Spanish/Mexican held Texas, and it was from here that Americans entered."

Marler's chapters of the famous and infamous with ties to the Neutral Zone tell about: the Zone; the Indians; Philip Nolan: Pathfinder; Ellis P. Bean: Man Without a Country; Zebulon M. Pike: Lost Pathfinder; Aaron Burr: American Phoenix; Dr. Timothy Burr: Founder of Burr Ferry, LA; The Bowie Family; Joseph Willis: Father of the Opelousas; The Finished Scoundrel (Gen. James Wilkinson).

Also: The Lafitte Brothers; Stephens Family; John A. Murrell: Rev. Devil; Nightriders: The West and Kimbrell Clan; The McGees; Copeland Gang; William Woodruff and the Copper Spike; Miscellaneous Outlaws and Badmen; Rawhide Fight; Westport Fight; Blackmon-Phillips Shoot-out; Leather Britches Smith and the Grabow Riot; Rugged Individualism to Socialism (Newllano, LA); and Civil War Jayhawkers.

This interesting collection of historical tales including hundreds of names is softcover, 5x8 in., 238 pages, indexed, illustrations, bibliography and references, $15.00 plus $2.00 mailing from: The Dogwood Press, Rt 2 Box 3270, Woodville, TX 75979.

## Volunteers praised

Dear Editor:

While most families were enjoying their Thanksgiving holiday, let me share a story how one community spent theirs.

On Thanksgiving morning at approximately 2:30 or 3 a.m. there was a house fire in Johnson Bayou with all the usual responses from the volunteer fire dept. of Johnson Bayou, Holly Beach, ambulance personnel and Cameron Parish Sheriff's Deputies.

This fire was fought for approximately 3 hours. Well, I'm sure you can imagine the damage to the house and contents. The fire department had the fire extinguished at approximately 7:30 a.m. By 8 a.m. there were at least 15 to 20 of our youths at the scene tying to salvage and store what they could for the family.

These youths worked right through their Thanksgiving dinner, being thankful for what they have and thankful to be able to save what they could for this mother and two children. We can all thank God that this family, our volunteer firemen, and our youth received no injuries. This community has a lot to be thankful for, but most important the ability to help others in their time of need.

Sincerely,
/s/ Jo Mae Roberson

# Fur coats given for queens here

By GENEVA GRIFFITH

The Louisiana Fur and Wildlife Festival was presented with two fur coats last week to be given to the winners in the Miss Cameron Parish and the Louisiana Fur Queen contests during the upcoming festival Jan. 10-11.

Fats Dupont, chairman of the La. Fur and Alligator Council, made the presentation.

Mrs. Dana Gauthier, superintendent of the Fur Queen contest accepted the brown sheared and plucked nutria fur stroller to be presented to the 1997 Louisiana Fur Queen at the Saturday night Fur Festival contest.

Mrs. Angela Conner, superintendent of the Miss Cameron Parish contest on Friday night, accepted the dark green muskrat stroller with a fox fur collar.

The coats were designed and made by Musi Fur Company of Montreal, Canada, which is a company that uses innovative ideas and designs for the younger customers, using beaver, muskrat and Louisiana nutria. They retail their furs in Louisiana at Maison-Blanc stores.

The furs that went into these fur coats were caught on the Miami Corporation land by local trappers Nolan and Daniel Savoie of Creole and John and Michael Baccigalopi of Little Chenier.

Dupont said these two coats retail for around $3,500 each.

The Gulf Coast Soil and Water Conservation District is seeking public input on local problems and concerns. Information gathered will be used to set prioritizes for technical assistance and financial aid to Calcasieu, Cameron and Jeff Davis parishes.

## Wins $1,500

Keith Trahan of Creole recently won $1,500 with a lottery ticket purchased from Rudy's Fisherman Stop in Creole, according to the La. Lottery.

## Yule play

A 5-act Christmas play written and directed by Rebecca LaSalle will be presented by the Christian Women of Cameron organization at 7 p.m., Friday, Dec. 20 in the Ebenezer Baptist Church fellowship hall.

Tickets are on sale now for $5 for adults and $2.50 for children, ages 6-12. A turkey dinner will be served after the play.

## Grand Lake Homecoming is Friday

Homecoming at Grand Lake High School will be. held Fri., Dec. 13, at 5 p.m. The following students have been chosen as high school maids:

Freshman maid: Amanda Crochet, daughter of Kent and Arlene Crochet.

Sophomore maid: Jessica Daigle, daughter of Tim and Diane Daigle.

Junior maids: Jessica LeBeouf, daughter of Lawrence and Ivy LeBoeuf; and MIranda Hebert, daughter of Wanda Hebert and Ronnie Dever.

Senior maids: Delana Savoy, daughter of Mike and Carol Savoy; Vanessa LaBove, daughter of Dubby and Sarita LaBove; and Jennifer Boudreaux, daughter of Joey and Theresa Boudreaux.

## Carol tree this week

"The Singing Christmas Tree" will be presented Saturday and Sunday, Dec. 14 and 15, at 7 p.m. at First Baptist Church in Cameron. Thirty singers will be the ornaments in a 23-foot lighted tree covered with Christmas greenery.

Carolers singing old favorites and one very new "carol" written by Ron Johnson will precede the main performance. They will be accompanied by Charles Primeaux and Jerry Racca on guitar.

The choir is directed by Rev. Tim Vanya and accompanied by pianist Harriet Dyson. Featured soloists are Angie McCluskey, Alyssa Sellers, and Debby Vanya.

The performances are presented free of charge as a gift to the parish. A nursery will be provided for very young children.

## Schools will close Friday

All of Cameron Parish schools, including those in Johnson Bayou, Hackberry and Grand Lake, will be closed Friday to permit students and faculty members to attend the Class AA championship game in New Orleans in which South Cameron will play Haynesville.

Pam LaFleur, school superintendent, said the day will not have to be made up. "We always include a few extra days in the schedule just in the case of a hurricane or another emergency," she explained.

## Office closed

The Cameron Parish Sheriff's Office will be closed Fri., Dec. 13, to allow the employees to support the South Cameron Tarpons football team who are playing in the state championship game at the Dome in New Orleans.

FRIDAY IN THE SUPERDOME

# Tarpons to play for state title!

By JOE MUELLER

The South Cameron Tarpons and the Haynesville Tornadoes square off Friday at 6 p.m., in the Superdome in New Orleans for the State Class AA championship.

The Tornadoes bring an 11-2 record into the contest while the Cameron Parish school from Creole bring a 10-3 record into the final game.

The Tarpons entered the state playoffs as the number two team from District 6AA while the Tors made their entry as District 1 Champions.

Haynesville defeated Tallulah, North DeSoto, Northeast and Notre Dame to make the finals. The local Tarpons defeated Loyola, University, St. Frederick and Pickering to snare their place in the finals.

The two teams have one common opponent, that being Notre Dame. The Pioneers defeated South Cameron in district play before losing to the Tors in the state semi-final game.

Haynesville's two losses came at the hands of Springhill, 35-18 in the opening game of the year and to Evangel 35-12. Evangel is playing for the Class 3A championship.

The Tors are the defending state champions as they beat DeQuincy 43-0 last year in the Dome. In fact the Tors have won three state championships in a row.

They will be seeking a state record as no team has won four straight titles.

The Tarpons are going back to the Dome for the first time since 1986 when they lost the championship game to Kentwood.

The Tarpons feature two strong running backs in Brandon Conner and Cory Broussard who both have run very well in the playoffs.

The Tarpon passing attack has been used sparingly but effectively as illustrated by John Pradia's 4 for 6 effort against Pickering in the semi-final game. The top two receivers in the team have been Brent Morales and Vito Martarona.

On defense the Tarpons just come get you and have done a very good job. They have held some of the top teams at bay as they held the high scoring St. Frederick team to only 7 points until the game was decided when they scored their final touchdown with no time left on the clock.

The Tarpons shut down the Pickering team, limiting them to less than 100 yards of offense in the state semifinal game.

Haynesville, on the other hand, moved through the first two rounds of the playoffs by outscoring their opponents as they beat Tallulah 42-34 and North DeSoto 32-23. They beat Northeast 7-0 but the weather conditions were rainy and the field was mucky. In the semi-final game the Tors held Notre Dame to 13 points, but keep in mind that the Pioneers top runner, Brent LeJune, missed the contest with a broken leg.

Let's also compare the kicking game. The Tarpons John Mark Montie has done an excellent job as he hit two field goals at Pickering, one from 26 yards and the other from 48 yards.

The Tarpons are also playing at a very high emotional level as they seemed to have cranked it up a notch or two in the playoffs.

The Tors head coach, Red Franklin, has 306 victories to rank number two in Louisiana behind John Curtis, who has 312.

The Tarpons head coach, Parry LaLande, has 128 wins.

LaLande will be making his second trip to the Dome. Franklin has made ten appearances in the Dome. This will be his 11th. He has a 7-3 record in these championship games.

The support of the Tarpons has been tremendous. Don't stop now and it looks like you won't as the South Cameron school sold their 1,000 ticket allotment in less than two days.

The game should be hard fought and very even. Let's look for the Tarpons to scored a big win, 27-21.

# Pre-game events told at S. Cam.

There has been a week of activity preceding the Tarpons state championship game Friday evening.

Game tickets went on sale Monday morning and football team parents met that afternoon.

On Tuesday a barbecue dinner was served at 4:30 to team members, managers, trainers, coaches, cheerleaders, Sidekicks, pep squad and the families of these groups.

This was followed by a Mass at Sacred Heart Catholic Church.

On Wednesday morning the team was served breakfast at the school followed by a pep rally at 12:30. The team left 2 p.m. for LSU where they got in some practice that evening before going on to the Holiday Inn at Kenner.

Thursday, the team will go on to the Hyatt Regency hotel. They will practice at the Superdome from 4:30 to 5 p.m., take part in a press conference at 6 p.m. and a rap session.

On Friday, Dec. 13 at 8:45 a.m. there will be a special Mass for the team and the fans at historic St. Louis Cathedral in the French Quarter. The team will then get to take a tour of the French Quarter.

There will be a pep talk at 12:30 p.m. in the Hyatt meeting room and the team will go on to the Superdome at 4 p.m., taking the field at 5 p.m. Game time is 6 p.m.

SPECIAL RULES

A number of rules and regulations from the Louisiana High School Athletic Association were called to the attention of the fans:

*No one, including school groups, will be allowed on the field before, after or during the game.

*Video cameras are not allowed in the Superdome and will be confiscated. (Videos may be purchased of the game.)

*No signs may be placed on the playing field. They may be

# *Playoff mania hits area*

By GENEVA GRIFFITH

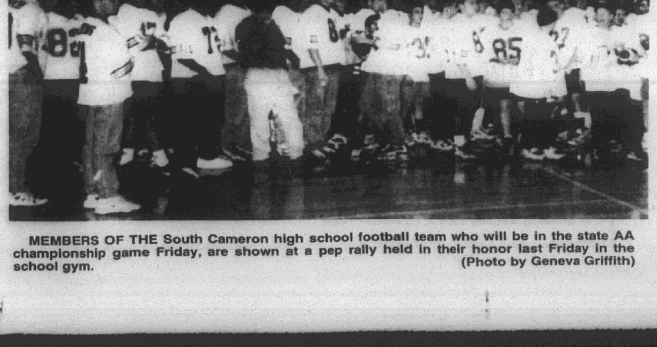
Playoff mania hit lower Cameron Parish last week as the South Cameron Tarpons prepared to face the Pickering football team in the state semi-finals Friday night. (Which the Tarpons won).

Businesses and residences were decorated all over the parish with encouraging signs and slogans. A song, was even composed by Terry Beard especially for the team.

Mrs. Stephanie Rodrigue, cheerleader sponsor, coordinated a pep rally in the South Cameron High School gym Friday afternoon. The entire school turned out for the event and alumni from former teams were on hand to offer encouragement and advice to the team.

Schools, businesses, and individuals entered floats in a parade that traveled around the gym floor, with participants throwing out beads, candy, cups, etc. to everyone.

The overall winning float was entered by the Cameron Sheriff's Department, which also won the most original in the business and individual category.



Other placings in the business and individual category were: Hibernia Bank, most creative; Loston's, most spiritual; Crain Bros., most school colors; Brown's Grocery, most intimidating; Scott Savoie and Dylan Jouett, funniest; 7X Square, prettiest, and Glinda's Restaurant, tastiest entry.

In the school category, the South Cameron Senior class won the most beautiful category; SCHS freshmen and Grand Chenier Elementary shared the best creative honors; SCHS 8th grade, most spiritual; sophomore class of SCHS and South Cameron Elementary shared most school colors; SCHS Tutors and Cameron Elementary shared most intimidating honors; SCHS cafeteria, funniest; and SCHS junior class, prettiest.

Cheerleaders and Sidekicks from area schools entertained the crowd as did the former cheerleaders, who represented 39 years of service.

Comments of encouragement were given by former SCHS football state contenders, Scott Henry, 1969; Tommy Boudreaux and Sterling Vaughan, 1974; and Mike Meaux, 1986.

Greetings were extended from elementary schools at Grand Lake, Hackberry in Cameron Parish, and Barbe and Westlake in Calcasieu Parish.

MRS. MAMIE VAUGHAN DURAPAU is shown cutting her 100th birthday cake assisted by her daughter, Joy Tanner.

## Mrs. Durapau honored on 100th birthday

Mrs. Mamie Vaughan Durapau celebrated her 100th birthday Dec. 1. A party was held in her honor Sat., Nov. 30, as the South Cameron Hospital Solarium.

Honoring her were her daughter and her husband, Rev. and Mrs. Jack Tanner, her grandson, David Tanner; her granddaughter and her husband, Mark and Dayna Banks and her two-great-grandchildren, V. J. Tanner and Patrick Banks. About 100 guests attended.

Mrs. Durapau blew out 100 candles on the cake held by her two great-grandsons.

Rev. Dudley Rutledge of Burkeville, Tex., presided over a "This Is Your Life, Mamie" program Soloist Roy Smith of Lake Arthur sang "Silver Threads Among the Gold" and "Ten Thousand Years". Testimonies of what Mamie's life meant to them were given by Jackie Stagg of Lake Arthur and Harvey Petree of Deer Park, Tex.

Mrs. Durapau and her late husband, Charley, in their yearly years of marriage, were supervisors aboard the "White Mallard", an elite hunting camp, where Mamie supervised the kitchen, and Charley supervised the duck guides.

The Durapau's were recognized in 1948 as establishing the first temporary child care home in Louisiana. Harvey Petree spoke on behalf of the some 80 children the Durapau's cared for. He also presented her with encased silver dollars of 1896 and 1996.

Mrs. Durapau was an active workers in the Women's Missionary Union of First Baptist Church of Lake Arthur.

Born in Chenier Du Gond, Dec. 1, 1896, Mrs. Durapau now finds herself not too far from her roots in the swing-bed facility at South Cameron Memorial Hospital at Creole, a place she now calls home and hear her daughter, Joy, whose husband pastors First Baptist Church of Grand Chenier.

## Speed limit may go up

CAPITAL NEWS

Interstate travelers would no longer have to slow down at the Louisiana state line to avoid speeding tickets if lawmakers approve Rep. Roy Brun's bill during the spring legislative session.

Because of constitutional restraints limiting them to fiscal matters, state legislators could not adjust Louisiana's speed limits in 1995 when the U.S. Congress repealed the national limit of 65 mph limit. That limit had been in effect since the fuel crisis of the 1970's.

Many other states quickly raised their limits last year, with some of the western states even setting them at whatever is "reasonable". But Louisiana has maintained the old ones because the state law giving wide discretion to the secretary of the Department of Transportation and Development contains the 65 mph maximum.

Brun already has filed a bill for the forthcoming regular session which would authorize raising the limit to 70 mph in some cases. Louisiana State Police Superintendent William Whittington has said he will not oppose the legislation.

A study conducted by the Louisiana Transportation Research Center, a division of DOTD, recommends raising the maximum limit from 65 to 70 mph on most of the state's interstate highways and certain other controlled-access highways. The DOTD would have discretion to set the limits. Other divided highways would have 60 mph limits, but highways without medians would maintain the current 55 mph limit, the study says.

According to the study, most rural freeways are designed for speeds of 70 mph and other rural roads are designed for 60 mph. Setting the limits lower than what the roads were designed for encourages the speed limits to be violated, it said.

State Police spokesman Ronnie Jones cautioned, however, that troopers will be strict on enforcement if the limit is raised.

The Rev. Roland Vaughn officiated; burial was in Sacred Heart Cemetery.

The infant died Sun., Dec. 1, 1996, in the South Cameron hospital.

Other survivors are three brothers, William Robert, Roderick Todd and Shannon Blaine Landry; one sister, Ellan Marie Landry; paternal grandparents, Mr. and Mrs. Robert Landry and maternal grandparents, Mr. and Mrs. Nolan Savoie, all of Creole.

### WILSON JOSEPH SWIRE

Funeral services for Wilson Joseph Swire, 64, of Grand Chenier, were held Fri., Dec. 6, from St. Eugene Church.

The Rev. Vincent Vadakkedath officiated; burial was in the church cemetery.

Mr. Swire died Tues., Dec. 3, 1996, in the South Cameron hospital.

A lifelong resident of Cameron Parish, he was a retired dragline operator with Louisiana Wildlife and an usher at St. Eugene Catholic Church.

Survivors are his wife, Gloria Swire; one son, Dale Swire of Moss Bluff; one daughter, Patricia Broussard of Creole; two brothers, Dudley and Adam Swire, both of Grand Chenier; three sisters, Ida Boudreaux of Creole, Alvina Miller of Grand Chenier and Louise Portie of Oak Grove; and one grandchild.

THE SOUTH CAMERON Memorial Hospital Wellness Program presented a health and wellness event, Sept. 5, at the Hackberry Multi-Purpose Building. The 4-H program and the Cameron Parish Cooperative Extension Service were represented with a food and nutrition exhibit. It was prepared by Hackberry Sr. 4-H Club members Trisha Silver and Maranda Daigle and Associate County Agent Michael LaVergne.

## Do You Remember?

**CAMERON PILOT, Dec. 12, 1963**

There has been a new development in the rivalry between the Cameron Lions and Optimists clubs over their Fur Festival floats. At the Lions board meeting last week, the club sent the following telegram to the Optimists:

"The Lions Club says the Optimist Club does not have the guts to compete with the Home Demonstration Council."

(The Lions were pointing out that Optimists won their first place float award in the most original division and did not compete against the HD Council in the most beautiful category as did the Lions.)

The Optimists fired this telegram right back:

"Congratulations on coming in second in a two-float category. You have made the challenge, you name the category. We will compete."

So there you have it--the challenge and the acceptance has been made for the 1964 festival parade.

Here's a story about the police jury that isn't "big" news, but it is "good" news.

The state auditor's report on the police jury books says that the books are in good shape. And for as long as we have been covering this tory, the report has said the same each year.

This is something to be proud of, in view of the fact that each year invariably several jurys around the state get criticized for not following the correct procedure in keeping up with the public funds.

Dalton Richard, Creole postmaster for the past nine years and an active civic leader, was named the recipient of the fourth annual Doxey-Vincent Citizenship Award presented Friday evening at a banquet in the Cameron recreation center.

LET'S WIN STATE!!

THIS IS HOW the field at the Louisiana Superdome will look to South Cameron High School fans when the Tarpons play Haynesville at 6 p.m., Friday, Dec. 13 for the Class AA State Football Championship. Tarpon fans will be sitting in Sections 139, 140 and 141 on the west side of the dome and will be considered the "home team."

# Tarps beat Pickering

By JOE MUELLER

"Hi Ho - Hi Ho, it's off to the Dome we go". That could be the chant of the South Cameron Tarpons as they won their way into the state championship game with a 20-14 win over the Pickering Red Devils last Friday.

The Tarpons showed a very gutty team effort as they scored 20 first half points then held the Red Devils to only one score in the second half for the team victory.

The Tarpons scored first in the contest as they took their first possession and moved 53 yards to score on a 2-yard run by Cory Broussard with 5:06 left in the opening quarter.

The Tarpons raised the margin to 10-0 as they moved down to the Red Devil 10 yard line on their second possession and John Mark Montie drilled a 26 yard field goal.

The Tarpons held the Red Devils to no first downs, and only 7 yards rushing.

The Tarpons raised the margin to 17-0 on a 25 yard run by Cory Broussard with 3:41 left in the first half.

The Tarpons, following the Broussard touchdown, kicked off to the Red Devils Sam Blocker who returned the kick 97 yards to the end zone, so with 3:24 left in the opening half, the Tarpons had a 10 point lead, 17-7.

The South Cameron team wasn't content to go to halftime up 17-7 so they drove down to the Pickering 40 yard line where on fourth down, John Mark Montie kicked a 48 yard field goal and the Tarpons went to halftime up 20-7.

The only score in the second half was by the Pickering Red Devils as they drove 70 yards and scored on a one yard run by Sam Blocker with 9:11 left in the game. The Red Devils collected all four of their first downs on this drive. The drive started after South Cameron's first punt of the night. This came with 2:22 left in the third quarter. A big play on the drive was when the Tarpons were guilty of running into the Red Devil kicker, David Latta, on a field goal attempt which he missed. So the Red Devils got new life and did punch it in.

In the last nine minutes of the game, the Tarpons had two excellent defensive efforts. They sacked the Red Devil quarterback on a third down play forcing the Pickering team to punt from their own end zone. On the Red Devils final possession of the night the Tarpons stopped them on a fourth and half-yard to go.

The Tarpons, who face Haynesville in the championship game, then ran the clock out for the semi-final win.

The victory was a real team effort as head coach Parry LeLande did an excellent job of preparing a game plan and the players executed it well.

The Tarpons top rushers were Cory Broussard with 92 yards on 18 carries and Brandon Conner with 88 yards on 24 carries.

John Pradia hit four of six passes for 54 yards in the win. Brent Morales had three catches and Vito Martarona, one for the Tarpons. John Mark Montie had two field goals and two extra points.

THE GRAND Lake POPS Team (Power of Positive Students) sponsored the Lake Charles Ballet Society's "Ballet on Wheels" presentation of Coppelia. **HUNTING NEWS**

Most of us as hunters have pulled up the boats, pirogues and decoys, got them home, cleaned them up, cleaned the shotgun and equipment and waiting for the week before the second split to put it all back, cut a few canes, brush up the blinds and take in the rest and coldest of the duck hunting season.

Some of us are getting a little fishing in, which at this writing is good, especially redfish.

Lots of folks I know have stopped hunting because of the expense, but also because of the hassle and rules and regulations and changes in laws. Well, it's happening now to fishing. Many people are calling it quits for the same reasons. Nationwide, freshwater fishing has declined two percent. Some states have lost license sales, so they put in a second license, the saltwater license. Two licenses, one angler. Lots of states including Florida have licenses declined up to 8 percent.

Some reasons given are: Single parent households, decline in elementary school enrollment a few years ago, so they say they don't have enough time, too expensive, busy around the house, job hours too great, rather watch it on TV, other sports on TV, poor fishing, interference from boaters, pollution, too many rules, regulations changing too often, state and federal regulations differ, jet skis and water skis, drunk on the water, just to name a few of the things that have anglers turning to other activities.

Remember how Walmart has taken over the mom and pop stores, well, it's Bass Pro who will follow the trend it seems. They have a circulation of 40 million catalogs, has these giant 150,000 square foot stores in Springfield, Mo., Atlanta, Ga., will open one near the Dallas/Fort Worth Airport in 1998, will have one in Nashville, Tenn. in 1997 and one in Fort Lauderdale, Fla. in 1998. This is going to be tough on many fishing wholesalers around the USA.

**DUCKS UNLIMITED**

Ducks Unlimited has been around since 1937, taken care of wetlands and waterfowl and wildlife conservation, and their works preserve our national resources for future generations. Although they have conserved more than 7.4 million acres of wetlands and waterfowl habitat across North America, however, for every acre conserved by DU in the US, the nation lost another are in turn. It is said we lose 140,000 acres of wetland habitat every year. We see this happening in our parish and things are getting worse.

**LEAD SINKERS**

Many fishing anglers are waiting to see the results of a scientific research on tackle with lead and the effect it has on wildlife. The U.S. Fish and Wildlife Service will spent $100,000 to study whether lead sinkers are killing water birds in certain national wildlife refuges.

Some of the things to take place in coming months are if fish swallow lead sinkers, does this affect the birds who eat this fish. Birds will be x-rayed to see if there's lead or even a tackle that they have swallowed, and their blood will be tested. In addition, anglers will be surveyed on how often they lose what type of tackle. We'll just have to wait and see the results and what will happen.

**DID YA NO?**

U tink your dog is smarter than your kat, just because he hunts with ya, well, kats watch more TV than dogs do. Tat what ya call kating in Kajon Land!

Until the age of two, many children tend to be bow-legged. They generally grow out of it.

CARD OF THANKS

THE FAMILY of Alta Hebert is a whole lot better now because of people like you who give real joy and pleasure by the nice things that they do. You may have visited her in the hospital, sent cards, called on the phone, sent flowers, food, masses, money, sang a song, washed dishes, prayed, remembered her and her family in your thoughts and any recent thoughtfulness still very much in mind. This is meant to bring a "Thank You" of the very warmest kind! Special thanks to the 6th floor nursing staff and doctors of Lake Charles Memorial Hospital, Mr. John Driscoll, Monsignor Curtis Vidrine, choir, and Harriet Dyson organist.

May God Bless You,

## South Cameron to be in new AA district

By JOE MUELLER

The South Cameron Tarpons will be in a new district in 1997-98. The Louisiana High School Athletic Association met in Baton Rouge last Wednesday and finalized the classification of the state high schools.

The Tarpons, who are now in District 6AA, will join a new district which will be 5AA.

The new district members are South Cameron, Welsh, Iota, Kinder, Lake Arthur and Oakdale.

Grand Lake will be in District 10B with Bell City, Hackberry, Lacassine and Starks.

Johnson Bayou will be in District 9C along with Hamilton Christian and Pecan Island.

## The Tarpons are #1!!

A 20-by-30-foot patch of ground, sown with two pounds of flax seeds, should provide enough fiber to weave a small tablecloth.

**Thank You...**

The Family of Walter Peshoff would like to thank all who called, sent cards, flowers, food, money, prayed, worked or had us in your thoughts.

Special thanks to Mr. John Driscoll and Rev. Tim Vanya

PUBLIC NOTICE
CAMERON PARISH COASTAL USE PERMIT APPLICATION

Interested parties are hereby notified that the Coastal Management Section of the Cameron Parish Police Jury has received the following apparently complete application for a Coastal Use Permit in accordance with the rules and regulations of the Louisiana Coastal Resources Program and R.S. 49,213.1, the State and Local Coastal Resources Management Act of 1978, as amended.

L.C.U.P. Application #961201

Name of Applicant: Sandpiper Estate, 1106 Westview, Abbeville, La. 70510

Location of Work: Johnson Bayou, Irregular Section 35, Township 14 South, Range 13 West.

Character of Work: Proposed construction of two 30'x700' roads. Access to proposed subdivided lots. Approximately 2,592 cubic yards of sand and clay material will be hauled in by truck to build roadways.

The decision on whether to issue a permit will be based on an evaluation of the probable impacts of the proposed activity in accordance with the state policies outlined in R.S. 49:213.2. The decision will reflect in the national concern for both protection and utilization of important coastal resources. The decision must be consistent with the state program and approved local programs for affected parishes and will represent an appropriate balancing of social, environmental, and economic factors. All factors which may be relevant to the proposal will be considered; among these are flood and storm hazards, water quality, water supply, feasible alternative plans, drainage patterns, historical sites, economics, public and private benefits, coastal water dependency, impacts on natural features, compatibility with the natural and cultural setting and the extent of long term benefits or adverse impacts.

Certification that the proposed activity will not violate applicable water and air quality, laws, standards and regulations will be required before a permit is issued.

Any person may request, in writing, within the comment period specified in this notice, that a public hearing be held to consider this application. Request for public hearings shall state, with particularity, the reasons for holding a public hearing.

Plans for the proposed work may be inspected at the Cameron Parish Police Jury Annex Building, Coastal Management Division, Courthouse Square, P. O. Box 366, Cameron, Louisiana, (318) 775-5718. Written comments should be mailed within 25 days from the date of this public notice to Cameron Parish Police Jury, Coastal Management Division, Post Office Box 366, Cameron, Louisiana 70631.

The following resolution was offered by Mr. Conner, seconded by Mr. LeBoeuf and declared duly adopted:

RESOLUTION
PARISH OF CAMERON
STATE OF LOUISIANA

WHEREAS, the Code of Federal Regulations as enacted by the United States Congress mandates that all structures defined as bridges located on all public roads shall be inspected, rated for safe load capacity and posted in accordance with the National Bridge Inspection Standards and that an inventory of these bridges will be maintained by each state; and

WHEREAS, the responsibility to inspect rate, and load post those bridges under the authority of Cameron Parish in accordance with those Standards is delegated by the Louisiana Department of Transportation and Development to Cameron Parish,

NOW THEREFORE BE IT RESOLVED, by the governing authority of Cameron Parish (herein referred to as "Parish") that the Parish, in a regular session duly assembled, does hereby certify to the Louisiana Department of Transportation and Development (herein referred to as "DOTD") that for the period November 6, 1996:

1. The Parish will perform all interim inspections on all posted bridges and damaged bridges in accordance with the National Bridge Inspection Standards.

2. All bridges owned or maintained by the Parish will be structurally analyzed and rated by the Parish as to the safe load capacity in accordance with AASHTO Manual for Maintenance Inspection of Bridges. The load posting information that has been determined by the LA. DOTD FOR ALL BRIDGES where the maximum legal load under Louisiana State law exceed the load permitted under the operational rating, as determined above, will be critically reviewed by the Parish. Load posting information will be updated by the Parish to reflect all structural changes and obsolete structural ratings or any missing structural ratings.

3. All Parish owned or maintained bridges which require load posting or closing will be load posted or closed in accordance with the table in the DOTD Engineering Directives and Standards Manual Directive No. 1.1.1.8. All DOTD supplied load posting information concerning a bridge will be critically reviewed by the Parish Engineer prior to load posting.

4. All bridges owned or maintained by the Parish are shown on "Exhibit 5" in the format specified by the LA DOTD. Corrections to date supplied to the Parish by the LA DOTD are noted.

These stipulations are prerequisites to participation by the Parish in the Off-System Bridge Replacement Program.

ADOPTED AND APPROVED on this 6th day of November, 1996.

FRIDAY 13TH AGAIN UNLUCKY

# Tornadoes top Tarpons in New Orleans playoff

By JOE MUELLER

The South Cameron Tarpons are state runners-up in Class AA in 1996 as they lost the state 2A championship game to the Haynesville Tornadoes 28-6.

The Tarpons, who swept through the playoffs with victories over Loyola, University, St. Frederick and Pickering, were controlled by the Tornado defense.

South Cameron also lost ten years ago in the state finals to Kentwood on Friday, the 13th.

The Tarpons kicked off to the Tors to open the game and held them for 3 downs forcing them to punt. The Tarpons mishandled the punt and the Tornadoes recovered on the Tarpon 13 yard line. Three plays later Haynesville scored on a 4 yard run by Vermondio Colquitt. They kicked the extra point and Haynesville was up 7-0. That's the way the first quarter ended.

The Tornadoes second touchdown came as they intercepted a halfback pass at their own 32 yard line. They then drove 68 yards in 11 plays with the touchdown coming on a 2 yard run by fullback Kenny Ford.

The Tornadoes increased the lead to 21-0 as they recovered a Tarpon fumble at the Tarpon 34. It took the Tornadoes nine plays to score with Ford running in from the one.

Up 21-0, the Tornadoes kicked off and the Tarpons drove for their only touchdown of the night. The big play on the drive was a 46 yard pass from John Pradia to Vito Martarona down to the Haynesville 25 yard line. Martarona then ran 13 yards down to the Tor 12 yard line. Cory Broussard carried three times before scoring on a one yard run.

The Haynesville team scored their final touchdown of the night on a 27 yard pass early in the final quarter.

The Tarpons threatened in the final quarter as they moved down to the Haynesville five yard line where they gave the ball up on downs. The Tarpons had recovered a fumble at the Haynesville 21 to set up the drive to the five.

The Tarpons showed lots of fight and determination, but just couldn't overcome their three turnovers.

The top rushers for the Tarpons were Cory Broussard with 25 yards and Vito Martarona with 13 yards.

The Tarpons finished the year at 10-4, a very good record. They showed lots of desire and enthusiasm all year. The team, head coach Parry LaLande and his staff all did a great job in 1996. Congratulations go out to the 1996 State Runner-up, South Cameron Tarpons.

# Parish residents witness to mishap

A number of Cameron parish residents were shopping at the Riverwalk in New Orleans last Saturday when a disabled freighter ran into the shopping Mall.

There were many injuries at the center but there apparently were no deaths and there were no Cameron residents reported injured.

The Cameron people were in New Orleans Friday evening for the 2A football championship game, in which the South Cameron Tarpons played, and many stayed over Saturday to take in New Orleans.

One of the witnesses to the accident was Wayne Batts, Hackberry high school principal, and his daughter Julie, a senior at Hackberry.

"I heard a big roar like a bomb and I thought it was a bomb," Batts said. He described how the ship plowed into the building. "People were just going crazy," he said.

Dr. Richard Sanders and his wife, Sallie, also were at the mall along with Batts, Larry Taylor and A. J. Seymour. After the accident Dr. Sanders gave first aid to a woman from LaPlace, who had fallen from an escalator and suffered a broken hip and helped evacuate her to a hospital.

# Tarpons All District

The South Cameron Tarpons, who advanced all the way to the state finals, filled nine positions on the All District first team. The selections were made by the coaches of the district prior to the state finals.

Brent Morales was selected at wide receiver, Chad Bridges, center; Derrick Vaughn, guard; Brandon Conner, running back; and John Mark Montie, place kicker.

On defense, Scotty Brown, lineman; Brandon Conner and Cory Broussard, defensive backs; and Garrett Bartie, linebacker.

Second team selections were Ryan King, offensive tackle; Cory Broussard, running back; Jarod Baccigalopi, defensive end; Garrett Bartie, defensive lineman; Vito Martarona, line backer, and John Pradia, defensive back.

# Russia to buy furs from La.

By GENEVA GRIFFITH

Darryl "Fats" Dupont, chairman of the Louisiana Fur and Alligator Council made an announcement this week that could greatly aid the Louisiana fur industry.

For four years the Council has been trying to find outlets for the sale of furs worldwide, and to counter the bad publicity the animal rights people have been putting out on the wearing of fur.

Mike Consigllio, a marketing consultant, hired by the Council, has found a vast market in Russia. Louisiana furs can be shipped direct to Russia where they will process, design and make the furs there, cutting out the middle men.

He said the Russians were very impressed with the warmth of the nutria fur and will leave the fur long in designing their fur coats, and will not clip and shear them as we do here in the U.S.

He said the Russians are looking for the sturdy everyday fur coats which is needed in that country, not like the American women who are looking for newer styles in the fur coats made here.

It is expected that from 500,000 to 700,000 nutria pelts will be sent to Russian in the near future.

Articles of Incorporation were signed Monday for "Louisiana Bayou Furs". The stockholders from Louisiana are large land owners: Sweetlake Land and Oil, Miami Corporation, Fina Oil and Gas, Louisiana Land and Exploration, Williams Corporation, Gheen's Golden Range, Jeanerette Land and Timber Co., and Irving Camelot, a large land holder in Canada. Jim Goode will manage the company in Louisiana.

Dupont said that this will revolutionize the trapping industry in Louisiana, and will be an incentive for trappers who had gone out of the business to get back in, since they will be getting considerably more money for their furs.

This, in turn, will help the ecology of the land and will help with the large eat-outs caused by the over-population of nutria.

This has been a big problem for some time, as trappers have quit the industry since the prices have gone down.

Dupont also pointed out that there has been a resurgence in the wearing of fur coats, and the designers have been designing coats with the younger generation in mind, and using various colors in dyeing furs to make them more trendy.

"FERGIE," THE DUTCHESS of York is shown autographing a copy of her autobiography for reporter Geneva Griffith in a bookstore in Dublin, Ireland.

# Fergie up close, Geneva's report

By GENEVA GRIFFITH

While on a holiday visit to Ireland recently I heard on the television that Sarah Ferguson, the Duchess of York, would be in the Eason book store the next day in Dublin signing copies of her best selling book, "My Story."

I had a tour of the countryside scheduled for the next morning. I also knew that she would only be there from noon to 2 p.m.

After our tour I persuaded the bus driver to get as close to Eason's as he possibly could and my roommate and I got off and walked to the location.

We elbowed our way through the crowd inside the store and bought her book, then joined the queue of people outside that extended down the block.

As the time drew nearer to the time of her departure, we finally got to the door. Right after we got in, the line was shut off and we were allowed to pass on up to the table where she signed my book and graciously smiled at the salutation I gave her.

She was very heavily guarded and her bodyguards kept the line moving. They did not question my camera because I had earlier shown one of them my press card and when it was presented to her she waved at me.

## New equipment

The South Cameron Memorial Hospital Wellness Program recently added some new and improvement fitness equipment to its Fitness Center.

These include an incline bench, abdominal roller and two multifunction weight gyms. The center also has treadmills, stationary bikes, free weights, bowflex resistance machine, resistance bands and leg weights and basketball court.

The center is open Monday through Thursday, 7 a.m. to 6 p.m. and on from Friday from 7 a.m. to 5 p.m.

For information on the center call Derinda Morris at 542-5241 or Lana Bertrand at 542-4017.

## Garbage pickup

Waste Management has announced a change in its garbage pickup schedule for Christmas and New Years weeks in Cameron Parish.

The Wednesday pickups will move to Thursday; the Thursday pickups to Friday; and the Friday pickups to Saturday during those two weeks.

An ad listing these changes can be found elsewhere in this issue of the Pilot.

## Drainage meet

Gravity Drainage District 8, which serves the Grand Lake-Sweetlake area, will hold a special meeting Thursday, Dec. 19, at 6 p.m. at the Fireman's Center. The public is invited.

# Creole home destroyed by tornado

The home of Robert and Glenda Montie at Creole was almost demolished by a tornado that touched down in a small area at about 3:50 p.m. Sunday.

The roof was blown off and the rest of the house was severely damaged. The family was on vacation at the time and did not learn about the damage until later that night.

A small shed and a trampoline were destroyed at the David Savoie home near by.

Wayne Montie reported damage to sheds at her home and said the winds even pulled up the carrots in her garden.

No injuries were reported during the storm.

## Early deadline

Because of the Christmas holidays, the Pilot will have an earlier deadline for ads and news next week.

If at all possible, these items should reach the Pilot by 5 p.m. Monday and no later than 10 a.m. Tuesday.

The paper will be printed Tuesday but because there will be no mail Wednesday readers will not get the paper until Thursday.

## Correction

A legal notice in the Pilot last week giving the names of parish residents call for Civil Jury duty in January contained the wrong date they were to report.

The correct date is Jan. 21, 1996.

# Yule tree project told

The Cameron Parish Police Jury again is sponsoring a Christmas tree project that would help restore parish wetlands.

Tina Horn, parish administrator, asked Cameron parish residents to place their used Christmas tree at the roadside next to their homes on Monday, Jan. 13 to be picked up by a parish road crew.

Please remove ornaments and tinsel from the trees and flocked trees will not be picked up.

In cooperation with the La. Dept. of Natural Resources, the trees will be used to build barriers in wetlands to stop erosion and to cause sediment build up to improve the marshes.

The parish has taken part in this project a number of years and has benefited from the wetland projects in various parts of the parish.

The schedule for New Year's will be the same as on any weekend.

# LaFleur contract extended

By GENEVA GRIFFITH

The Cameron Parish School Board gave Superintendent Pam LaFleur her first evaluation during a lengthy executive session last Wednesday night during the monthly school board meeting.

The board voted to renew her contract until June 30, 1999, at her current salary. She was appointed this year to fill the vacancy caused when Sonny McCall retired.

The board also voted to give her the same $750 state pay raise that the teachers received, retroactive to the date that the pay raises were implemented.

LaFleur gave a report to the board regarding the school principals funds, which each principal handles at his or her discretion. Some use the funds for scholarships and some for various needs and emergencies.

She said she had received a procedures manual from Calcasieu Parish and will review their guidelines to see if anything can be incorporated into the local system.

Peggy Benoit, Title I Coordinator, gave a report on her recent trip to Atlanta, Ga., representing the school board on Educational Planning and National Technology.

She said the national aim is to have computer access in every classroom in the nation.

### CLASS PRESENTATION

The Grand Lake High School Spanish class, under the direction of Susan Simmons, teacher, gave a presentation on Christmas customs from the Spanish speaking world. Taking part were students Ginne Mann, Amanda DeVale, Lance Young, Billy Taylor, Dawn Brittain, Christy Duhon, and Erin Morris.

Christmas cake was served to the board, with Mrs. LaFleur getting the baby, and the Christmas poinsettia was won by the Hackberry board member, Mrs. Glenda Abshire.

Each parish school takes turns making a brief presentation at each school board meeting. The teacher explained that Spanish is a new course now being offered at Grand Lake.

Judith Jones, Supervisor, gave a slide report on the local curriculum development and the

# Road election called

By Keith Hambrick

(Lake Charles American Press, Dec. 10, 1926)

**HIGHWAY TO OUTSIDE WORLD**

An election will be held in road district No. 6 of Cameron Parish on Jan. 11, for the purpose of getting a $162,000 bond issue for gravelling and improving of state highway No. 144, the Gulf Beach Highway, in that district.

S. W. Sweeney, secretary-treasurer of the Gulf Beach Highway association, stated that there seems a present no opposition to the bond issue and it is believed it will carry.

When finished, this road, which will extend from DeRidder to the beach at Cameron, will place Lake Charles within an hour's drive, on a hardsurfaced highway, from the beach. It will be the only road touching the beach in this vicinity and will place summer and winter resort possibilities within the reach of all the western part of the state, and within convenient reach of other portions. The road will connect DeRidder, DeQuincy, Sulphur, Hackberry and Cameron.

(Cameron Pilot, Dec. 12, 1963)

**ELECTION RESULTS**

More than 85 percent of the registered voters in Cameron Parish turned out Saturday to elect a new sheriff, a new state representative and to return the present assessor to office.

Conway LeBleu, Cameron cattleman and former Ward 3 police juror, pulled an upset by defeating Alvin Dyson, who was seeking his fourth term as the parish's state representative. The vote was 1752 for LeBleu to Dyson's 1278.

(Dyson had defeated LeBleu four years ago 1554 to 1123 for the same office.)

Claude Eagleson, Sweetlake rice farmer, polled 1630 votes to his two opponents combined total of 1425 to win a first primary victory in the sheriff's race.

(Sheriff O. B. Carter is retiring at the end of his present term—his third—and did not seek re-election. Four years ago when he was opposed by Eagleson, the vote was 1585 for Carter and 1163 for Eagleson.)

Joe P. Rutherford, Oak Grove businessman, polled 798 votes in the sheriff's race, and Milfred J. Conner, Cameron machine shop operator, got 627.

Eagleson made it clear that he would continue the policy of enforcing the Sunday closing law and the gambling laws.

Leslie Richard had a sizable majority in his re-election to his fourth term as assessor. He polled 2252 votes to 572 for his opponent, Daniel Roux, Jr., of Cameron. Richard had no opposition four years ago.

Two parish officials returned to office with no opposition—J. Berton Daigle, clerk of court, and Dr. Stephen Carter, coroner.

Two police jury members won re-election. They are Charles A. Riggs of Hackberry and Horace P. Miire of Grand Chenier. In Ward 3, W. F. (Frankie) Henry, Jr., won election outright.

In Ward 2, there will be a runoff between Vian Theriot, incumbent, and David Y. (Billy) Doland, Jr. In Ward 4, Charles H. Precht and Boone Hebert are in the runoff. Eraste Hebert, incumbent, did not seek re-election. In Ward 5, Archie Berwick, incumbent, will meet Francis Erbelding in the runoff.

# The Challenge of Genealogy

by MARIE WISE

Louisianians were among the first pioneers to settle in what had been Spanish Territory when, just after Mexican independence in 1822, Anglo Americans came by boat from Louisiana to become Mexican citizens, a pre-requisite for obtaining land.

By 1836 the Anglo Texans had created the Republic of Texas and many more emigrants poured into the area, continuing through the annexation of Texas to the U.S. in 1846.

**THE SETTLING OF GALVESTON BAY**

*Historical Vignettes of Galveston Bay* by Jean L. Epperson is a collection of 18 chapters, the first on background and the rest on "Stories Around the Bay" about the colorful American pioneers - these stories much too interesting to be forgotten.

Three are tied to Louisiana: "The Mysterious Smiths: They walked from the Calcasieu to the San Jacinto", "Burrill Franks: A Huntsman for Jean Lafitte", and "John M. Smith: A Texas Tory".

Other interesting stories include: "The French Trading Post on the Trinity River" beginning from 1721 when Jean-Baptiste Benard de La Harpe led an expedition to establish a French settlement just south of present-day Anahuac but the Indians there forced them to sail for Louisiana; to 1754 when Joseph Blanpain, a French trader from New Orleans, built a trading post up the Trinity River but soon was dispatched by Spanish troops.

Also: "Mutiny on the *Topaz*", an American schooner, 1832; "The 1834 Census of Anahuac and J. Frank Dobie's Great Grandfather"; "The Schooner *Mary* Affair" about Benjamin Carrico, sea captain and long time resident of New Orleans, and his problems at Galveston which resulted in the first admiralty case of record tried in Texas.

Plus: "Captain William P. Harris and Red Bluff", "The *S/S Cayuga* - The Floating Capitol of Texas" for 11 days in April 1936 during the Texas Revolution, "Captain Thomas M. (Mexican) Thompson , "Early Custon Houses in Galveston" beginning from 1816 for New Orleans trade, "Flanders Grove to Evergreen to Kemah", "Who Were the Clear Lake Pirates?", "Thomas Jefferson Chamber's Portrait", and "Bell Prairie Plantation and Henry Gillette".

Much genealogy is included in these factual stories, usually the main character's parents and birthplace, wife, children, often grandchildren, many dates and places, etc.

Each chapter is followed by source references; there is an extensive bibliography, an index; photos, maps and sketches.

Now in its 3rd edition, this book is softcover, 5x8 in., 250 pages, available at $15.00 plus $2.00 mailing from: The Dogwood Press, Rt 2 Box 3270, Woodville, TX 75979.

**BAZET FAMILY OF TERREBONNE**

The mid-September review in this column of "A Brief Biography of B.F. Bazet and Translation of his Will", an article in Vol. 15 No. 2 of *Life Lines*, quarterly publication of the Terrebonne Genealogical Society at Houma, *should have read*:

Par. 3: B.F. BAZET and Ernestine Theriot, daughter of Michel Theriot, Jr., had 8 children, 4 of whom left descendants: Joseph Ovid(e) who married Mary Agnes Wurzlow, Theophile who mar. Mary Helen Wallis, Marie Eva who mar. Dr. R.L. Zelenka, and Olympe ("Ola") who mar. Frank Garenflo.

higher academic standards the state is planning. Each school district must develop its own curriculum and will be tested on it in 1998, but is furnishing no money for the implementation. This is mandated by the state's LEAP program, and testing must be done by an elementary guidance counselor, which Cameron does not have.

**DANCE RULES**

Regina Boudreaux, Pam Pruitt and Janet Walker appeared before the board to clarify the rules for school dances. Mrs. LaFleur said that each principal sets the rules for each school. At issue was if a 20 year old can attend the dances if he isn't a student. Mrs. LaFleur said there will be a principals meeting in February and this issue will be addressed at that time.

The board agreed to advertise for bids for computers for special education, Title I, for lunchrooms and other departments as needed.

The board hired Aline Druelhet, Cameron, as a 5-hour lunchroom technician for Cameron Elementary School.

It received a resignation from Catherine Simon, a sweeper at Hackberry High School.

It approved a change from 6 to 8-hour days for the two remaining sweepers at Hackberry High School.

Two matters were tabled until the January meeting, the consideration of terms for future alligator egg collection permits granted, and proposed revisions of policies on reduction in staff personnel, RIF staff procedures for teachers, administrators, other certified employees and RIF procedures for support personnel.

The January meeting date was set for Wed., Jan. 15, due to conflicting work schedules of Dan Billiot and Tony Johnson.

# Monkey Is. ferry may be shut down

(Baton Rouge Morning Advocate)

The state's transportation department on Friday proposed shutting down five ferries, including one serving seven families in Cameron Parish that has cost the state $32+ million over the past 36 years.

The Department of Transportation and Development's proposal also would shut down the White Castle to Carville ferry south of Baton Rouge, the Melville ferry crossing the Atchafalaya River into Point Coupee Parish and two New Orleans area boats.

Asked to study the costs of ferry operations, DOTD Secretary Frank Denton responded to the Joint Legislative Committee on the Budget with a report indicating costs for operating the ferries is as high as $61.22 per vehicle per crossing - at the Melville ferry.

The Monkey Island to Cameron ferry across the old Calcasieu River chunnel costs $9.51 per vehicle but serves only the seven families on the island, which includes two DOTD employees' families.

"I think we have to act on that," said Rep. Steve Scalise, R-Jefferson, about the high costs of the Monkey Island ferry.

It would be cheaper to build a bridge, said Scalise. A bridge across the old Calcasieu channel would cost $500,000 to $1 million, said Scalise, who had asked for the report on the ferry costs.

Denton said he plans to meet with the legislative transportation committee before conducting public hearings that could lead to closing the ferries.

The state now operates 11 ferries, Denton said.

According to Denton's report, closing the ferries would produce the following annual savings: White Castle-Carville, $573,072; Melville-Morganza/Lottie, $452,751; Duty-Enterprise (Ouachita River), $310,426; Monkey Island-Cameron, $265,243; Algiers-Morgan and Canal streets in New Orleans, $152,125; and Gretna-New Orleans, $768,671.

# Diocese tells dates of pilgrimages here

The official dates and locations of the 36 pilgrimages to the parishes of the Diocese of Lake Charles during the three years leading to the Third Millennium, the year 2000, have been announced by the Most Reverend Jude Speyrer, Bishop of Lake Charles and the Very Reverend Vincent A Sedita, V.G., chairman of the Third Millennium Task Force.

Each of the pilgrimages will consist of a prayer service including Liturgy of the Word, Litany of Saints, Veneration of the Cross, Benediction, Adoration and Incensing and Closing Hymn. The approximately one hour long service will begin in each parish at 7 p.m. on the final Tuesday of each month.

A dozen priests will serve as homilists for the pilgrimages with each doing approximately one service per year. These clergy include Bishop Speyrer, Msgr. Ronald Groth, Msgr. Joseph Bourque, Msgr. James Gaddy, Msgr. Irving A. DeBlanc, P.A., Rev. Whitney Miller, Rev. Whitney Harris, Rev. Henry Mancuso, Rev. Don Piraro, Rev. Aubrey Guilbeau, Rev. Tim Goodly, and Rev. Francis Fitzsimmons, M. S.

The specially designed and constructed Millennium Cross will be blessed during ceremonies at Bishop Speyrer's 9:30 a.m. Mass on Sun., Jan. 26, 1997, in the Cathedral of the Immaculate Conception.

The first prayer service will be held Tues., Jan. 28, 1997, at St. Charles Borromeo Church in Fenton. Each successive prayer service will be in the next oldest parish of the Diocese until the Dec. 28, 1999 prayer service in the Cathedral of the Immaculate Conception.

The schedule for the remaining months of 1997 includes:

May 27 - St. Eugene, Grand Chenier; Aug. 26 - Our Lady Star of the Sea, Cameron; Dec. 30 - St. Peter the Apostle, Hackberry.

The schedule for 1998 includes: Feb. 17 - Our Lady of La-Salette, DeQuincy; Nov. 24 - St. Mary of the Lake, Big Lake.

Services for the year 1999 include: Nov. 30 - Sacred Heart of Jesus, Creole.

# Tarpons get a big sendoff last week

By GENEVA GRIFFITH

It was Tarpon mania last Wednesday morning when Tarpon fans and the entire South Cameron High School student body turned out to wish bon voyage to the football team on the way to the Superdome.

There was a parade of signs in the school gym. The football team handed out bags of goodies to those who had helped the team this past season, and the cheerleaders handed out bags to each of the players .

Coach Parry LaLande received a pleasant surprise when one of his sisters, Jena Peacock, flew in from Rainsley, Colo., to join the festivities.

The coach was also presented with a check for $1,000 from the Cameron State Bank by Greg Wicke to help with the expenses of the team while in New Orleans.

Special routines were put on by cheerleaders, kickers, and cheerleaders from other schools.

State Sen. Dan Flavin, and Cameron School Superintendent Pam LaFleur joined Florabelle Semion in a rendition of "Marching to New Orleans."

Special wishes of encouragement were given by former South Cameron Principal J. C. Reina, who was principal ten years ago when the Tarpons first went to New Orleans in the state playoffs, and the coaches, the team captains, and former members of the champion team.

Coach Steve Barnet had to suffer the indignity of having his head shaved by the local haircutter "Mister Mack" in front of all the fans, over the loss of a bet

David Trahan, a member of the 1984 champion team gave comments of encouragement from that team; and greetings were read from many people by Mrs. Stephanie Rodrigue, coordinator of the event.

Officials at the New Orleans Superdome couldn't believe it when informed that the 1100 tickets which had been sent to South cameron for sale had sold out in one morning.

THE CAMERON ELEMENTARY Barracudas Little League Football team were undefeated as the parish champions. Above botttom row: Casey Caudill, Chad Broussard, Brett Billings, Chris Dupont, Marty LeBlanc, Beau Mallett, Timothy Morvant and Chance Doxey. Middle row: Michael Domangue, Neal Higgins, Chris Boudreaux, Jason Bougeois, Adam Doxey, Brandon Jordan and John Richard. Back row: Coach, J.C. Murphy, John Wesley Colvin, Jamie Andrews, Donnie January, Neal Felton, Jeffrey Deshields, Myron Murrell, Charles Soileau, Coaches Joe Higgins and James Doxey.

Happy Holidays

SEASONS GREETING TO THE PEOPLE OF CAMERON PARISH:

This Christmas, let us all be thankful for the many blessings that we have in America and in Cameron Parish. Our parish may not be prospering as much as it has done in the past, but the opportunities and freedoms that we have here are the envy of many people elsewhere in the world.

I hope you all will have a wonderful Christmas with your families. If you go to holiday parties, please be careful afterwards while driving home.

I and my deputies are dedicated to serving you the people of Cameron Parish and feel free to call on us if we can be of help to you in any way.

As I was going over some of my papers I found a Prayer for the Day.

*This is the beginning of a new day and soon will be the beginning of a New Year. God has given me this day as I will. I can waste it or use it for my good. What I do today is important because I'm exchanging a day of my life for it.*

*When tomorrow comes this day is gone forever, leaving in its place something that I have traded for it.*

*I want it to be gain, and not loss; good and not evil; Success and not a failure; in order that I shall not regret the price that I have paid for it.*

So I wish each and every one of you a very Merry Merry Christmas, and a Happy and Healthy New Year and a brighter tomorrow and future!

Wishing you Happy Holidays,

# Old Cajun now has a new voice

**(EDITOR'S NOTE -- The Pilot received the following note from the "Old Cajun Fisherman" in the Sabine Refuge's visitor's center south of Hackberry. The animated and vocal manniken, which was installed when the Center was open a few years ago, has been "down" all summer but now is back in action with a new voice.)**

Hi!, how ya'll are? This here is the "Old Cajun Fisherman" at Sabine National Wildlife Refuge. I just woke up from my nap and they tell me I slept a long, long time. Shoo-wee! I feel like a new man. You know what? Now I sound just like that Rodney Guilbeaux fella from Constance Beach.

They tell me lots of folks watched me sleep and tried to wake me up. I must have disappointed lots of my young friends and older ones too! I 'm so sorry about that, but things like that happen. They tell me this new fixin' will keep me going for a long time.

So, why don't ya'll come and visit me here at the refuge. I'm sure you'll pass a good time. I'll be here from 7 in the mornin' to 4 in the aftrnoon during the week and from noon to 4 on Saturday and Sunday. All my teacher friends please come by to see me, and bring your students tool. Hey, all you folks come visit. I have missed visiting with ya'll. Remember all the other exhibits and nature trail are here for you to enjoy, too.

LITTLE MR. and Miss Grand Lake Pageant are Kory Dahlan and Sarah Taylor. Runners up were Byron Quinn and Brittany Hebert. The pageant was held Monday, Dec. 9, at 7 p.m. in the Grand Lake School Gym. The winners will represent the school in the parish contest in January.

LEGAL NOTICE

# If you received Breast Implants and were or are a resident or domiciliary of Louisiana, or received Breast Implants in Louisiana, read this notice carefully. It may affect your rights depending on the manufacturer.

CIVIL DISTRICT COURT FOR THE PARISH OF ORLEANS, LOUISIANA

NUMBER 92-2589

SPITZFADEN CLASS ACTION

DIVISION "F"

To the Louisiana Spitzfaden Class: *All persons who have received breast implants containing or consisting of silicone, silicone gel, polyurethane, and/or an elastomer made of silicone, including saline-filled silicone envelope implants ("breast implants"), and (i) who are residents or domiciliaries of Louisiana on the applicable opt-out date, or (ii) who were residents or domiciliaries of Louisiana before the applicable opt-out date and who are represented in a breast implant claim by an attorney licensed to practice in Louisiana on or before the applicable opt-out date, or (iii) who had such breast implants placed in their bodies within the state of Louisiana and who are represented in a breast implant claim by an attorney licensed to practice in Louisiana on or before the applicable opt-out date, together with spouses and children of such persons, and representaives of the estates of class members who are dec ·ed or were interdicted.*

**LOUISIANA SPITZFADEN CLASS ACTION:** This class action alleges, among other things, that certain injuries were caused by *breast implants* and that certain defendants who are manufacturers of *breast implants* are responsible for such alleged injuries under various legal theories including, but not limited to products liability, negligence, negligent misrepresentation, fraudulent misrepresentation, redhibition, breach of implied and express warranty. This class action also alleges that certain defendants who are not manufacturers of *breast implants* are responsible for such alleged injuries under other legal theories, including, but not limited to negligence and negligent undertaking. The defendants deny these allegations and deny all liability whatsoever. In addition, the defendants deny that this case can properly be maintained as a class action and are appealing the trial court's decision allowing it to be maintained as a class action. If the defendants are successful in their challenge to class certification, this class action will be dismissed. Notice was published in 1993 and 1994 informing class members of the pendency of this case and of an opportunity to opt-out. The class membership has changed since the initial publication notice and the class membership is now more limited. Please review the above membership criteria (in italics) carefully to determine if you are a class member.

This case is being prepared for separate trials to present the claims of certain class members against two of the defendants, Bristol-Myers Squibb/MEC Entities and The Dow Chemical Company. Other claims of class members against many other defendants will not be resolved at this time. There may be further trials in the future with respect to those claims. Two subdivisions have been established for the trials of the claims against Bristol-Myers Squibb/MEC Entities and The Dow Chemical Company, one for the purposes of each trial, as follows:

**Bristol-Myers Squibb/MEC Subdivision.** This subdivision includes all persons who have received one or more *breast implants* manufactured, developed, designed, fabricated, sold, distributed, or otherwise placed into the stream of commerce by any one of the parties listed below entitled "Bristol-Myers Squibb/MEC Entities", and (i) who are residents or domiciliaries of Louisiana on January 15, 1997 or (ii) who were residents or domiciliaries of Louisiana before January 15, 1997, and who are represented by Louisiana legal counsel on or before January 15, 1997, or (iii) persons who had such *breast implants* placed in their bodies within the State of Louisiana and who are represented by Louisiana legal counsel on or before January 15, 1997, together with the spouses and children of such persons, and representatives of the estates of class members who are deceased or who were interdicted. The Bristol-Myers Squibb/MEC Entities (hereinafter "Bristol-Myers") named as defendants are as follows:

MEC Subsidiary Corporation (formerly Surgitek, Inc.), Surgitek, Inc., Bristol-Myers Squibb Company, Bristol-Myers Squibb Canada, Inc., Natural Y Surgical Specialties, Inc., Arsteotech Corporation, Cabot Industries, Inc., The Cooper Companies, Inc. (f/k/a Cooper Vision, Inc.), CooperVision, Inc., CooperSurgical, Inc., CVI Merger Corporation, CV Sub 1987, Inc., Markham Medical International, Inc., Medical Engineering Corporation, Sirod Corporation, Summit Medical Corporation

**The Dow Chemical Company Subdivision.** This subdivision includes all persons who have received one or more *breast implants* which were manufactured under the name or trademark of Dow Corning Corporation and/or Dow Corning Wright, and (i) who are residents or domiciliaries of Louisiana on January 15, 1997 or (ii) who were residents or domiciliaries of Louisiana before January 15, 1997 and who are represented by Louisiana legal counsel on or before January 15, 1997, or (iii) who had such *breast implants* placed in their bodies within the State of Louisiana and who are represented by Louisiana legal counsel on or before January 15, 1997, together with the spouses and children of such persons, and representatives of the estates of class members who are deceased or who were interdicted.

If you are a member of the Louisiana Spitzfaden class and fit one of the two subdivisions described above, the Court has made decisions and set deadlines that may affect your rights. If you have any question as to whether you are included in the class or either of the subdivisions, you must contact an attorney or, if you do not have an attorney, you may contact an attorney at the Louisiana Plaintiffs' Steering Committee Office at (504) 524-0071.

The Dow Chemical Company has filed a cross-claim against Corning, Inc.

**SPITZFADEN CLASS MEMBERS WHO ARE NOT MEMBERS OF THESE SUBDIVISIONS:** Procedures, deadlines, opt-out dates and trial dates for Louisiana Spitzfaden class members who are not members of the Bristol-Myers or the Dow Chemical subdivisions (such as those with only Heyer-Schulte, McGhan Medical Corp., CUI Corp., Minnesota Mining & Manufacturing Co. ("3M"), and other implants) will be set at a later time and will be the subject of future notices. The rights of such class members are not affected by this notice. If you have Heyer-Schulte, McGhan, CUI, 3M or other implants but you also have implants which qualify you as a member of the Bristol-Myers or the Dow Chemical subdivisions, your rights are affected by this notice; read it carefully.

**HOW TO REMAIN IN THE LOUISIANA SPITZFADEN CLASS:** There is a related action pending in federal court in Alabama, the Lindsey action (MDL No. 926), which has a proposed settlement offered by certain defendants (the "Revised Lindsey Class Settlement"). Many Louisiana Spitzfaden class members already registered to participate in that settlement ("Lindsey registrant").

IF YOU ARE A LINDSEY REGISTRANT, CAREFULLY READ SECTION A BELOW. IT DESCRIBES HOW YOU MAY REMAIN IN THE LOUISIANA SPITZFADEN CLASS.

IF YOU ARE NOT A LINDSEY REGISTRANT, CAREFULLY READ SECTION B BELOW. IT DESCRIBES HOW YOU MAY REMAIN IN THE LOUISIANA SPITZFADEN CLASS.

**SECTION A.** How Class Members Who Are Lindsey Registrants May Remain in the Louisiana Spitzfaden Class. Judge Yada T. Magee of the Parish of Orleans in Louisiana has ordered that Lindsey claimants must decide either to remain as members in the Revised Lindsey Class Settlement in federal court in Alabama or to stay in the Louisiana Spitzfaden class.

THEREFORE, IF YOU WISH TO REMAIN IN THE LOUISIANA SPITZFADEN CLASS ACTION AND YOU ARE A MEMBER OF THE BRISTOL-MYERS OR DOW CHEMICAL SUBDIVISIONS, YOU MUST OPT-OUT OF OR MAKE THE APPROPRIATE ELECTION TO EXCLUDE YOURSELF FROM THE REVISED LINDSEY CLASS SETTLEMENT NOW PENDING IN FEDERAL COURT IN ALABAMA. NOTE, HOWEVER, THAT ONCE YOU OPT-OUT, YOU CANNOT GET BACK INTO LINDSEY TO SETTLE WITH DEFENDANTS WHO ARE NOT IN THE BRISTOL-MYERS AND DOW CHEMICAL SUBDIVISIONS. IN ADDITION, YOU MUST DO THE FOLLOWING:

1.(a) If you are a member of the Bristol-Myers subdivision, you must have opted-out of or excluded yourself from the Revised Lindsey Class Settlement on or before January 15, 1997.

(b) If you are a member of the Dow Chemical subdivision, you must have opted-out of the Revised Lindsey Class Settlement on or before January 15, 1997.

2. How to Opt-Out of or exclude yourself from the Revised Lindsey Class Settlement: A claimant must sign and return an "Election Form" to the MDL-926 Claims Office in Houston, with box 2C or 3A marked by January 15, 1997 for the Bristol-Myers subdivision class members and January 15, 1997 for the Dow Chemical subdivision class members. Alternatively, if you have already received your Notification of Status, you must sign and return written notice of your intention to opt-out by the relevant date set forth above. These forms can also be completed and signed by the individual's attorney. In the event of conflict between a form signed by a class member and a form signed by the person's attorney, the former will control. Requests for Election Forms may be made to: Claims Administrator, P. O. Box 56666, Houston, Texas 77256, 1-800-660-0311 or (713) 951-9106, or to the Louisiana Plaintiffs' Steering Committee Office, 600 Carondelet Street, New Orleans, LA 70130.

**IF YOU ARE A LINDSEY REGISTRANT AND WISH TO REMAIN IN EITHER OF THE LOUISIANA SPITZFADEN SUBDIVISIONS DESCRIBED IN THIS NOTICE, YOU MUST COMPLY WITH THE ABOVE INSTRUCTIONS. IF YOU DO NOT, YOU WILL BE AUTOMATICALLY *EXCLUDED* FROM THE SPITZFADEN CLASS.**

**SECTION B.** Class Members Who Are Not Lindsey Registrants May Not Be Able to Participate in the Spitzfaden Class: If you are an implant recipient eligible to participate in the Lindsey settlement and failed to timely register in Lindsey, you will not be able to participate in the Spitzfaden Class, except to the extent, if any, that the orders and notices in Lindsey indicate that registration and/or opt-out is not required.

**HOW TO OPT-OUT OF THE LOUISIANA SPITZFADEN CLASS:** If you are a member of the Spitzfaden subdivisions described in this Notice under either Section A or B above, and wish to exclude yourself from (or "opt-out" of) the Spitzfaden class you must send written notice by first class mail or have it hand delivered to the Clerk of Court, Civil District Court, Parish of Orleans, c/o the Louisiana Plaintiffs' Steering Committee, 600 Carondelet Street, New Orleans, LA 70130. There is no particular form necessary to opt-out. There are deadlines for opting out from the Spitzfaden class. The important deadlines for opting out of the Spitzfaden class are as follows:

If you elect to opt-out of the Louisiana Spitzfaden class and you are a member of the Bristol-Myers subdivision, your written opt-out must be postmarked or hand delivered on or before January 15, 1997.

If you elect to opt-out of the Louisiana Spitzfaden class and you are a member of the Dow Chemical subdivision, your written opt-out must be postmarked or hand delivered on or before January 15, 1997.

A separate written opt-out must be completed and personally signed by each implant recipient or her attorney who does not want to be included in the Louisiana Spitzfaden class action, and by an adult or her attorney on behalf of minors (under the age of 18), incompetents (mentally or physically incapable), and decedents. The opt-out of a class member who is a breast implant recipient operates as an opt-out of the claims of spouses and children. If you had earlier sent in written notice of your desire to opt-out, it is ineffective. If you still desire to opt-out, you must still follow the procedures described above.

**EFFECT OF NOT REMAINING IN THE LOUISIANA SPITZFADEN CLASS:** If you opt-out of or otherwise do not remain in the Louisiana Spitzfaden class action, you will not be included in the Louisiana Spitzfaden class action and will not be bound by any court decision made in the Louisiana Spitzfaden class action. Further, if you fail to take whatever action may be necessary to protect your interests within what may be a limited period of time, you may be forever barred from bringing any action with regard to any claim for damages against Bristol-Myers or Dow Chemical allegedly caused by *breast implants*.

**EFFECT OF REMAINING IN THE LOUISIANA SPITZFADEN CLASS:** If you remain in the Louisiana Spitzfaden class action, either under Section A or Section B above, you will be included in the Louisiana Spitzfaden class action and you will be bound by all decisions of the Court, whether favorable or not, regarding any and all matters asserted in this action. Your rights will be determined in the Spitzfaden lawsuit and you may be entitled to a recovery made in the class action, whether by settlement or judgment, subject to deductions for costs, expenses and attorney fees as approved by the Court, to be paid out of compensatory and other damages obtained for the benefit of class members. If you remain a member of this class, you may be required as a condition of participating in any recovery through settlement or trial to present evidence respecting your claim. Costs and expenses will be advanced by the attorneys representing the class.

In certifying this class action, the Court has not made any decision on the merits of the controversy or on the merits of any claim. You have the right, if you wish, to have an attorney of your choice present any claim you may have for damages allegedly caused; however, you will be personally responsible for any fees and expenses charged by your personal attorney. The Louisiana Spitzfaden class action has been certified for all purposes, including trial and settlement, and is an attempt to obtain a judicial resolution through trial or settlement. If there is a class settlement, you will be required to prove class membership and individual damages in order to participate in the settlement. The names of the persons designated as class representatives, the identities of the defendants, and all other pleadings are available for your review at the Civil District Court, Parish of Orleans, 421 Loyola Ave., New Orleans 70112. The Plaintiffs' Steering Committee will take appropriate steps to protect the confidentiality of the forms and information you provide.

If you have filed an individual lawsuit against the defendants for injuries allegedly caused by silicone *breast implants* and if you remain in the Louisiana Spitzfaden class action, your individual lawsuit may be dismissed or adversely affected by any ruling in the Louisiana Spitzfaden class action.

**ATTORNEYS FOR CLASS:** You are advised that the Court has appointed a Plaintiffs' Steering Committee to represent the Class. For more information contact: Louisiana Plaintiffs' Steering Committee Office, 600 Carondelet Street, New Orleans, LA 70130, (504) 524-0071, 1-800-378-5710, Vance R. Andrus, Chairman. ## Senator reports

**(EDITOR'S NOTE--Here are some of the considerations coming up before the Louisiana Legislature in 1997 as outlined by Cameron Parish's new state Senator Jerry Theunissen.)**

We are likely to begin 1997 with a Special Session of the State Legislature before the Regular Session begins in late March. Governor Foster and his top aides are considering calling the special session to focus on education, workforce development, higher education and the state's charity hospital system.

The Governor will call the special session if he feels he has consensus to support his proposed reforms. The details of the proposals are still sketchy, but here's a look at what the administration is talking about now.

In the area of education reform, Governor Foster is looking at setting new accountability standards for Louisiana schools. Schools that to not meet the standards would be given special assistance. If standards are still not met, the problem schools would face some kind of sanctions. Schools meeting the standards and excelling would get some kind of reward.

Also on the education reform list is a plan to expand the possibility of charter schools in Louisiana. Charters schools are funded by the state and local school boards, but operated via a contract with parents, non-profit groups, community organizations, even businesses.

The charter schools can serve particular student needs or the general student population. Supporters say charter schools offer an educational. alternative to the normal school setup since they are not subject to a lot of the state and local red tape and restrictions applied to other public schools.

A limited number of charter schools are now allowed in Louisiana with the approval of local school boards, but few are actually operating. So, Governor Foster wants to establish a state charter school commission to review proposed charter schools and encourage their development.

Reorganization of the state education department, changes in early chuldhood education programs and enhanced school-to-work programs are also possible education reform matters on the special session list.

## How to keep holiday foods safe to eat

(NAPS)—One challenge people have during the holiday season is what to do when guests are late for dinner. Food must be handled "just right" to remain safe.

Refrigerated cold foods do not create the same holding and safety problems that hot foods do. Just keep them cold.

Don't let cooked foods such as poultry, meats, egg dishes or casseroles remain in the "danger zone"—between 40 and 140° F—for more than two hours. Otherwise, you run the risk of food-borne illness. Proper handling of hot perishable foods eliminates this problem.

If guests will be only a little late, then keep hot foods hot in the oven. Set the oven to 200°F and check the temperature of the food periodically so that it does not go below 140°F.

But if the delay will be several hours, it is safer to refrigerate the food and reheat it when the guests arrive. Place food in shallow containers so it will cool rapidly in the refrigerator. When guests arrive, reheat food in a 325°F oven to an internal temperature of 165°F, or until steaming hot.

If you have a turkey, and guests will arrive several hours late, remove the bird from the oven, allow it to stand for 20 minutes, and if stuffed, remove the stuffing, place it in a shallow container, cover and refrigerate. Remove the legs, thighs, and wings. Carve the breast meat, store in shallow containers and refrigerate for rapid cooling.

For more food safety information concerning meat, poultry or eggs, call the USDA Meat and Poultry Hotline at 1-800-535-4555.

## Parish schools given grants for art camps

The Arts and Humanities Council of Southwest Louisiana will award 41 grants totaling $118,462, for arts activities through its Decentralized Arts Funding Program.

"This very competitive program allots fifty cents per person so that each parish may crate its own community arts projects. Each year these projects impact thousands of residents across the five-parish region," according to Pam Breaux, executive director.

Cameron Parish grants to be awarded are as follows:

South Cameron High School - $1,623, Summer Arts Camp.

Grand Lake High School - $2,310, Grand Lake Arts Camp '97: Native America.

## Tips given on electricity safety

Entergy reminds customers that safety, especially when dealing with lighting and electrical appliances, should be the main ingredient for happy holidays, Entergy Customer Service Manager, Becky Watson said.

To help make your a merry and joyous celebration of the season, here are some tips from Entergy regarding home decorations, wiring and electric gift-giving:

**LIGHTS**

• Use only Christmas lights that are safety-certified by a recognized testing agency. Before plugging in any lights - new or old - inspect them for cracked or loose sockets or connections, exposed wires and frayed, broken or scorched insulation. Before stringing lights on a tree, plug them in on a non-flammable surface for 10- or 15-minutes and watch for melting, smoking or overheating. If a string of lights shows any flaws, discard it.

• Turn Christmas tree lights off when leaving the house or going to bed.

• Never use indoor lights outdoors, they're not waterproof and could short circuit. And don't string outdoor lights indoors; they are hotter than in door lights.

• Hang fire-resistant decorations on the tree, and don't put lace, paper or flammable decorations on lamps - ordinary light bulbs get hot enough to burn them.

• Never put lighted candles on or near a Christmas tree, evergeen boughs or anything else that can catch fire. And, snuff out candles when no one will be in the room.

**HEATING**

• Never use an oven or range burner to warm a room. Be careful not to use any flammable liquids around heating appliances. Don't bypass the safety devices on any appliances.

• Before winter arrives, have furnaces cleaned and inspected by a licensed plumber. It's also a good idea to check the batteries in smoke alarms and carbon monoxide monitors.

• Another good idea is to ventilate rooms where a space heater or fireplace is being used.

**GIFTS**

• When shopping for an electrical gift, look for a label certifying that the electrical appliance or toy has been approved by a recognized safety testing agency. And keep the receipt, if an electrical device has anything wrong with it, insist on replacing it.

• If shopping for an electric space heater, it should be laboratory-tested and approved; have an automatic switch that huts if off if it tips over, have an automatic thermostat, and, have an approved heat-resistant cord.

• Use space heaters in a safe, dry location, out of traffic lanes, and away from furniture, draperies, rugs, newspapers and other flammable materials. And, don't plug it in on the same circuit with other high amperage devices.

• Avoid overloading the wiring on appliances.

• Turn space heaters off when leaving the house and before going to bed.

• Teach children never to poke fingers or objects through the protective guard; and never leave a small child alone with a portable heater.

**WIRING**

• Don't overload wall outlets or extension cords. Don't create an electrical octopus by plugging multiple outlets into other multiple outlets.

• If lights flicker, appliances stall, outlets or cords feel warm, fuses blow or the electrical system shows any other signs of distress, unplug nonessential items. Do not replace a correct fuse with one of higher electrical capacity.

• Don't run electrical cords under carpets, cushions or other materials that could catch fire if a cord overheats. Don't put cords under furniture or other heavy objects, or place them where they can be stepped on; crushing can damage the wire or wire insulation, creating a hazard.

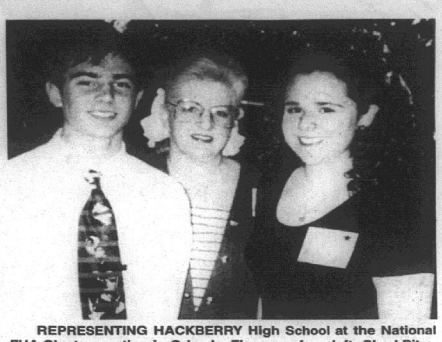
## H'berry students attend conference

Trisha Silver and Chad Pitre, members of the Hackberry chapter of Future Homemakers of America, attended a weekend leadership training conference held in Orlando, Fla., Dec. 1-4. Chapter advisor, Vickie Parker, accompanied them to the meeting.

The 1400 young men and women and their adult advisors dealt with an array of issues including family, self-image and financial management.



The Cluster Meeting's program emphasized ways for advisors and teens to explore opportunities available through FHA-HERO to help them succeed in their families, careers, and communities.

Saturday's morning workshops introduced FHA/HERO's newest program, Families First. This program is designed to help members and their peers become strong family members and address family related concerns.

Sunday's activities concentrated on developing leadership skills through team building, character development and self awareness and STAR (Students Taking Action with Recognition) Events, FHA/HERO's nationally sponsored competitive events.

Trisha Silver and Chad Pitre plan to become more involved in FHA and to strive to convey to other members a positive and motivational attitude concerning family life and peer education programs and contests.

Future Homemakers of America is a national student organization that helps young men and women become leaders and address important personal, family, work and societal issues through family and consumer sciences education.

The old Peveto homeplace at Johnson Bayou in 1905

# Peveto story continued

**(EDITOR'S NOTE--This is a continuation of the biography of Rev. Dennis Rubert Peveto, Johnson Bayou native, a Baptist minister and a superintendent of hospitals in a number of places. He was born on Johnson Bayou Sept. 23, 1873 and died Feb. 4, 1946.)**

By GENEVA GRIFFITH

The Peveto family were participants in the "Runaway Scrape" when the Texans heard about the fall of the Alamo, and that Santa Ana's Army was headed south.

Everyone loaded up their belongings and headed for the Sabine River. The Peveto family loaded what they had on a flat boat and went to Orange, Tex., and later returned to the Bayou when the word came that Santa Ana had been defeated.

The people on the Bayou were self sufficient,with the tall saltgrass marshes growing fat cattle, and the fertile soil producing wonderful crops of cotton, corn, sweet potatoes, watermelons, sugarcane and fruit.

At one time there were three Baptist churches, a masonic lodge, two post offices, several schools, and a fine 32 room hotel.

A little town grew up around the boat landing, named "Berry" (after the family living there).

No community could have had a better spirit of cooperation. Livestock, farm implements, land were all sold and bought without written confirmation and abstracts, only with handshakes.

The word "home" carried a sacred meaning. There had been only one divorce case prior to 1886. The community was also very religious.

HURRICANES

The tides turned on the community in 1886, however. In June a storm swept the Gulf coast and the settlement was inundated with water. This was repeated in August, and on October 12, a terrific hurricane swept in wrecking most of the homes and drowning 74 people.

Most of the people moved away. Many returned, but the settlement never attained its former glory.

Fourteen years later during the "Galveston Storm" that left so much devastation all along the Texas and Louisiana coasts and drowned so many people, the Bayou was again struck by a tidal wave, even worse that the first one, but with no loss of life. Again there was a great exodus of people from the community. Peveto's family stayed and again rebuilt. Then after the 1915 storm his family left and moved to Houston, Tex.

(Mr. Peveto's narrative continues in his own words:)

CIVIL WAR

"My father was too young for service in the Civil war. He had one brother in the Confederate Army, and another who was assigned the task of seeing that the wives and mothers of soldiers were provided with bread and meat. He owned a grist mill and would grind the corn from the fields of farmers left at home to be furnished free to those in need.

"During the Civil War, on one occasion, two Yankee gun boats appeared offshore and lay at anchor several days. Finally, they unloaded 200 men in small boats who went on a foraging expedition throughout the whole community where they stole several loads of provisions, including 200 sheep.

"They searched for my two uncles who were home on furlough from the service, they hid in a Cherokee Rose hedge and escaped capture.

"Later three Federal war vessels blockaded Sabine Pass for several months. This became monotonous to the Confederates, who had no war vessels in the area. However, they decided to improvise some.

"They took two river steamers and went to Orange, Tex., where there was a cotton gin and some cannons. They completely covered these boats with bales of cotton and armed them with such guns as they could find. They sailed forth early one foggy morning to attack the Yankee blockaders.

"The Confederates opened fire on them as they swung lazily at anchor with no steam, and were totally unprepared for such a daring sortie.

"The Yankee guns had no effect on these two floating cotton yards. The Yankees were whipped before they could raise enough steam to get away. My grandfather and my father anxiously watched the battle from the top of Grandfather's house because by Uncle Geale Peveto was a gunner on one of the river steamers.

"The larger Yankee boat got away, but the river steamers towed the smaller boats to shore where they got stuck in shallow water. So they brought the prisoners and booty to shore and set the two Yankee boats afire. The explosions of kegs of powder aboard continued for days.

"Another group of blockading ships came later and attacked the little mud fort at Sabine Pass, just across the Sabine River in Texas. Dick Dowling and his brave men, with one shot, burst the boiler on one of the ships and the other fled."

DUNCAN SMITH

"Two iron clad, armed Yankee steamers lay off the mouth of the Calcasieu River for some time, piloted by a local Federal sympathizer named Duncan Smith, who was the father of A. B. Smith, who put the 'teaching bee in my bonnet.'

"The purpose of the invaders was to load their boats with fat cattle from the ranges east of the Calcasieu River.

"They went about their work leisurely because there were no soldiers nearer than Sabine Pass, which was 40 miles away.

"Their first act was to arrest all who owned cattle and put them under guard on the ships. Then they gathered all the cowboys and good horses and went on a roundup of the area cattle.

"Meanwhile the Confederate Commander at Sabine Pass had gathered a small army from Sabine Pass, Beaumont and Orange and loaded them on some river steamers with lumber enough to build a bridge over Mud Pass, a deep bayou connecting Mud Lake with the Gulf, about 9 miles west of the Calcasieu River. The Yankees were depending upon this pass as a barrier to any sudden attack.

While the steamers were being loaded, a courier was sent to Johnson Bayou to gather wagons, teams and drivers to move the lumber and arms to the Pass and on to the Calcasieu River.

So rapidly and precisely was the work accomplished that the hauling was done, the bridge built, and the transfer made without detection from the Federal ships.

CONFEDERATES WIN

The Confederates opened fire early one morning on the Federal ships from the tall marsh grass from shore and the ships guns could not aim low enough to reach them.

The attack was so unexpected the Yankees were thrown into a panic and ran up the white flag before the soldiers on land could reach them. All the captured Federals were marched through Johnson Bayou to Sabine Pass, a distance of 40 miles.

An effort was made to take the ships up the river to Calcasieu Lake but they were too large to pass through the channel, so they were dismantled and destroyed. They were covered with steel plates from the deck to the waterline.

Duncan Smith, who was on one of the boats where the cattle owners were held captive, plead with the captain not to surrender, and when the white flag went up, Smith went overboard and swam to shore in the midst of flying bullets from the Confederate rifles. He escaped unhurt, and was not molested thereafter. He moved to Johnson Bayou, reared a family and died a respected citizen.

# A record voter turnout in 1963

(Cameron Pilot, Dec. 19, 1963)

**PERCENTAGE OF VOTERS**

Miss Nona Welch, parish registrar of voters, says that the percentage of registered voters who voted in the Dec. 7, primary was 91.3 percent. We dare say that is a record not only for Cameron Parish but for the state of Louisiana.

The total number of people who voted in the parish on Dec. 7, was 3,274. The numbers for the different areas of the parish are: Cow Island, 115, (127 registered); Klondike, 163 (172); Grand Chenier, 304 (330); Muria, 199 (214); Cameron, 829 (963); Creole, 385 (430); Grand Lake, 260 (290); Sweetlake, 207 (230); Johnson Bayou, 211 (231); Hackberry, 505 (600).

**100,000TH INSTRUMENT**

A milestone in the growth of Cameron Parish was passed on Dec. 6, when the 100,000th instrument was filed in the clerk of court's office.

Nearly half of these instruments -- mortgages, deeds, bill of sales, etc. -- have been field during the past twelve years since the current clerk, J. Berton Daigle, has been in office. The number of the first instrument filed when he took office was 53,857.

Actually, more than 100,000 instruments have been filed, since some of the original records were destroyed when the courthouse burned on Feb. 17, 1874. From that time up until 1913, the file books numbers were started over each time a new book was started.

Daigle estimated that this would have actually added 5,000 of 6,000 instruments to the 100,000 showing on the modern day books.

**INVASION OF FIRE ANTS**

Imported fire ants continue their march into Cameron Parish. Only this week two new areas were reported and checked by the County Agent. Lionel Theriot reported quite a number of mounds in the Pumpkin Ridge area and Vian Theriot reported many on pecan Island on Dr. M. O. Miller's property there.

Previous to these areas, they were found in East Creole, Little Chenier, Hackberry, and Klondike. It seems now just a matter of time before they are in every section of the parish.

**FARMERS OK QUOTAS**

Rice farmers in Cameron Parish voted to keep marketing quotas in effect on the 1964 rice crop in the national referendum held last week. Fifty-four farmers voted in favor of quotas and three against, for a total vote of 57.

The vote in Louisiana as a whole was 3,184 for and 109 against. In the nation, 7,371 farmers voted for and 841 voted against.

**DOXEY RE-ELECTED BASIN OFFICER**

Joe W. Doxey of Cameron was re-elected president of the Mermentau River Association at a meeting last Thursday in Jennings.

D. Y. Doland of Grand Chenier was also re-elected to the board of directors.

Jerome C. Baehr of New Orleans, representing the Army Corps of Engineers, reported that dredging operations have been completed on a half million dollar contract to restore the Mermentau River channel to a depth of 16 feet from Catfish Point locks to the Gulf of Mexico.

**THIS WEEK**
**(By Jerry Wise)**

Christmas Day always gets in a double duty for Mrs. Azalea Landry, who operates Landry's Ready-to-Wear here - it's her birthday, too.

There's a new cafe in town--Tebo's located in the rear of Tebo's Lounge, across from the bank. They're open from 7 a.m. until late at night.

Our thanks to Warren Miller for the nice mess of turnip greens that he gave us when we stopped in for a visit at Oak Grove last week.

A lot of people who had not been in the Cameron community center recently were very surprised when they visited it Friday night for the "Citizen of the Year" banquet.

The Cameron Optimist Club, custodians of the building, recently completed a $5,000 improvement program in the building, installing acoustical ceiling and prefinished masonite walls. the building's interior is beautiful and an asset to our community.

Congratulations to the Optimists and everyone else in the community who have worked so hard on this building.

**ROUNDABOUT THE PARISH**

Grand Chenier -- Mr. and Mrs. Gerald Richard arrived in Grand Chenier Sunday morning after he was honorably discharged from Fort Lewis, Wash. The couple will make their home here. Mrs. Richard is the daughter of Mr. and Mrs. Mildredge Broussard and he is the son of Mrs. Annie Richard and the late Marvin Richard, all of Grand Chenier.

Up & Down the Creole Ridges -- Mrs. Clyde Hall, who departed for Caracas, Venezuela Tuesday to join her husband, was honored at a combination pre-Christmas and farewell dinner Sunday, Dec. 8, given at the home of her mother, Mrs. Duplesie Montie, in Creole. Hosting the affair was Mrs. Dallas Mouton, sister of the honoree. On hand to wish Wilda an early Merry Christmas and Bon Voyage were: the Horace Monties, the Raymie Broussards, the Robert Wickes, the John M. Theriots, and son, Ronnie, the Edras Nunezes and Mrs. Hall's three daughters, Judy, Nancy and Becky.

**MET PRESIDENT**

Mary Lee Theriot of Creole and Carolyn Rome of Cameron were members of the Acadian tour to Canada last summer and had the opportunity to meet the late President Kennedy during a stop in Washington. In this picture of a part of the group, the two local girls are on the far left.

NOTICE OF PUBLICATION

By virtue of and in conformity with the procedures of Section 151 through 158 of Title 30 of the Louisiana Revised Statutes of 1950, as amended, sealed bids will be received at the office of the Cameron Parish School Board in Cameron, Louisiana, on or before the 15th day of January, 1997 at 4:00 p.m., at which time all bids received will be opened by the Cameron Parish School Board for a lease covering the oil, gas, sulphur, potash, and/or other liquid gaseous hydrocarbon mineral rights in, to and under the following described property:

That certain tract or parcel of land being Section 16, Township 12 South, Range 5 West, estimated to contain approximately 640 acres, more or less, LESS AND EXCEPT 42 acres, more or less, situated within the geographical confines of that certain unit created by Unit Agreement dated September 1982 for the Lacassine B-7 well and recorded under Entry No. 181263 of the records of Cameron Parish, Louisiana, leaving a balance of 598 acres, more or less.

Bids may be for the whole or any particularly described portions of the tract advertised herein.

All bids are to offer a CASH PAYMENT, one-half (1/2) of which is to be bonus as full and adequate consideration for every right granted by the lease and one-half (1/2) of which is to be rental for the first year of the lease, for a lease having a primary term which shall not exceed three years. ANNUAL RENTAL for the second and third years shall not be less than the aforesaid cash payment. The lease is to be granted without any warranty or recourse against lessor whatsoever, either expressed or implied, not even for return by lessor of any payments received under the lease or being otherwise responsible to lessee. Minimum royalties shall be one-fourth (1/4) of all oil and gas produced and saved or utilized; one-eighth (1/8) of the value per long ton; one-eighth (1/8) of the value per ton for all potash produced and saved; which shall yield not less than ten cents ($.10) per ton; and one-fourth (1/4) of all other minerals produced and saved.

All leases awarded shall be executed upon terms and conditions provided in the current Cameron Parish School Board lease form with all applicable riders appended thereto, including Approved Rider for Attachment to State Agency Lease Forms, and including, but not limited to, provisions as follows: Should lessee fail to begin the actual drilling (spudding in) of a well on the lease premises within one year from the date of the lease, the lease shall terminate as to both parties to the lease, unless on or before such anniversary date, lessee shall pay a delay rental (which shall in no event be less than the aforesaid cash payment offered for the lease), which shall cover the privilege of deferred drilling operations for a period of one year. Upon like payments annually, drilling operations may be further deferred for successive periods of one year each during the primary term of three years. The lease shall provide for drilling of offset wells where necessary to protect the Board's interest and shall contain the provisions against the assignment of sublease of the lease unless approved by the School Board. The lessee shall have the right to enter into pooling or unitization agreements with respect to development of the leased premises subject to the approval of the School Board.

Any lease granted hereunder shall be on the regular current Cameron Pariah School Board lease form with Approved Rider for Attachment to State Agency Lease Forms and shall be subject to the approval of the State Mineral Board. A copy of the said lease form and rider are available for inspection at the office of the Cameron Parish School Board in Cameron, Louisiana. Certified check, bank money order, or cashier's check, payable to the Cameron Parish School Board for the full amount of the bonus, shall accompany and be submitted with each bid; and no bid thus submitted may be thereafter withdrawn or cancelled; and the cash bonus accompanying the bid of the successful bidder shall be forfeited to the Cameron Parish School Board should he not return the written lease, duly executed, within twenty (20) days after his receipt of the same.

The Cameron Parish School Board reserves the right to reject any and all bids and to grant a lease on any portion of the tract advertised for a price not less than proportionate to the best bid offered for the lease on the entire tract.

### FISHING NEWS

Enjoying the 70 degree weather this past week, quite a few anglers were seen along the Gibbstown Road fishing for bass in the roadside canals. Quite a few nice bass are being taken on spinner baits and beetle-spins.

It's been rough offshore and in our big inland lakes, so many anglers are fishing the rivers and inland ponds, catching redfish. Fresh shrimp and live cockahoe minnows, small mullets and croakers, have been a good bait.

It was brought to my attention that in the month of November, Texas state biologists estimated that hundreds and thousands of fish have died because of the "Red Tide". It's well below the 1986 count of 22 million fish kill because of the "Red Tides."

Unfortunately, the death toll included about 13,000 large redfish, trophy bull reds measuring more than 30 inches in length.

The main "red tide" concentration was off the San Jose and Matagorda Islands on the Central Coast.

The alga in the red tide paralyzes the fish and kills them. It doesn't affect crab or shrimp, but never eat fish that are dead and floating as it may come from red tides.

### HUNTING

This past weekend our deer season for guns opened again until Jan. 5. Remember, there are no more either sex days left in our area. Dove season's last split also opened last weekend and will go on until Jan. 12.

Last week I saw a site in Cameron, witnessed by two friends, that we don't normally see here.

In the trees behind the Cameron Courthouse there were 200 to 300 white-winged doves all over the tree branches and some were still coming in. This was at 8:30 in the morning.

Other seasons opened at this time are quail, rabbit, squirrel and woodcock, and also geese.

This past week duck hunters have been cutting cane and brushing up their duck blinds, and setting out decoys, as Sat., Dec. 21, is the opening of the second split, going until Jan. 16. It seems we have a few more ducks down, and at this writing some of our water is going down, which will help. Some areas still have too much water. What we really need is colder weather. Gallinule and rail season also opens with duck season.

### NEW AGENTS

Eleven new wildlife agents graduated from the Wildlife and Fisheries Law Enforcement Academy, and have taken their places in the field. This is 21 weeks of academy training and they will work six months under the supervision of training officers, before attaining the rank of wildlife enforcement agent.

The eleven men and women are welcome to help uphold conservation and the law of the outdoors, including hunting, fishing and boating to name a few.

Duck, geese, coots, one-half hour before sunrise and sunset.

Wishing you all a Merry Christmas and be careful.

PROCEEDINGS

Minutes of the regular meeting of the Cameron Parish Gravity Drainage District No. 3, held on Tuesday, October 15, 1996, at 2:30 p.m. at the Cameron Parish Police Jury Annex.

Members Present: Edwin Quinn, Scott Henry, and George Kelley.

Members Absent: E. J. Dronet and Earl Guthrie.

Others Present: James Boudreaux, George LeBoeuf, Glenn Harris, Paul Yakupzack, Malcolm Savoie, J. Berton Daigle, James LeBoeuf, Ted Joannen, Charlie Pettifer, Lonnie Harper, Roger Vincent, and Fats Dupont.

A motion was made by Scott Henry, seconded by George Kelley, and unanimously carried to approve the minutes of the September 17, 1996, regular meeting as written.

A motion was made by Scott Henry, seconded by George Kelley, and unanimously carried to approve the Financial Statement for the month of September, 1996.

A motion was made by Scott Henry, seconded by George Kelley, and unanimously carried to approve the following bills for payment:

1. Devall Diesel Services, Inc., $84.57.
2. Gulf Coast Supply, Inc., $7.25.
3. Campbell Gas & Oil Company, Inc., $640.80.
4. Tony's Welding, $5,450.00.
5. Gulf Engine Service, Inc., $1,596.35.
6. Cameron Pilot, $58.00.
7. Cameron Insurance Agency, $312.00.
8. Lonnie G. Harper, $1,323.44.

Engineer Lonnie Harper reported that the North Creole field area lateral was cleaned in years past, and there is a portion of that. It needs to be cleaned out now from just East of Parish Road #345 to N. Creole Field Road. It was agreed that Mr. Harper will have someone get rights-of-way for this clean-out.

President Quinn stated that he feels a resolution should be adopted to re-establish the fact that .6 is our goal marsh water elevation in the Cameron-Creole Watershed. After some discussion, a motion was made by Scott Henry, seconded by George Kelley, and unanimously carried to adopt the following resolution:

"Due to the engineering report by On-Target Surveying, inc.,

BE IT RESOLVED that the targeted water elevations will be .8 in the Cameron-Creole Watershed."

## CHRISTMAS GREETINGS

THAT FIRST Christmas Day
There were no Christmas stockings hung On that first Christmas day, Just a lonely manger And a lowly bed of hay. There was no jovial Santa Claus With toys and gifts galore, But shepherds came from out of fields To worship and adore. There was no Christmas tree that day Bedecked with tinsel bright, But in the east there was a star That dazzled with its light. There were no Christmas carolers To serenade with song, But hosts of angels gathered 'round To watch the whole night long. No fast last-minute shopping And no Christmas cards to send, But hope was born in one small Child For new life without end.

(Never known to fail)

Oh most beautiful flower of Mount Carmel, fruitful vine splendor of Heaven, Blessed Mother of the Son of God Immaculate Virgin, assist me in my necessity. Oh Star of the Sea, help me and show me herein you are my Mother. Oh Holy Mary, Mother of God, Queen of Heaven and earth I humbly beseech you from the bottom of my heart to succor me in this necessity. There are none that can withstand your powers. Oh, show me herein you are my Mother. Oh Mary conceived without sin, pray for us who have recourse to thee (three times). Holy Mother, I place this cause in your hands (three times). Holy Spirit you who solve all problems, light all roads so that I can attain my goal, you who give me the divine gift to forgive and forget all evil against me and that all instances in my life you are with me. I want in this short prayer to thank you for all things as you confirm once again that I never want to be separated from you in eternal glory. Thank you for your mercy toward me and mine. The person says this prayer 3 consecutive days. After 3 days, the request will be granted! This prayer must be published after the favor is granted.

Dear Tarpon Fans, Families & Friends,

"We could not have done it without you!" I have repeated this statement more times than I can even remember over the past five weeks. And, I have meant it sincerely each and every time. The outpouring of support, encouragement, time, effort and financial donations was unprecedented. The football players gave 110% each and every time and I firmly believe that their motivation was the belief that you helped to instill in themselves.

Words cannot begin to express the feelings and emotions that I experienced at the pep rallies and at the games each time I heard and saw the spirit that was shared by all. Probably most inspiring was realizing the huge number of fans who made the trip to the Dome even when they probably could have been getting ready for Christmas. This season has truly been a community and family affair.

Finally, I would like to take this opportunity to thank the parents who entrusted their sons into our care. The boys' dedication and behavior were outstanding and they made me very proud. We may have not brought home the gold, but together we truly made memories that will last our lifetimes.

Again, thank you and I hope to see you again next year.

Sincerely,

Parry LaLande

## Parish surpasses United Way goal

Cameron Parish exceeded its $23,000 United Way goal by collecting to date $26,563. This is over a 22 percent increase from last year.

On company largely responsible for the success of the campaign was Williams Field Services in Johnson Bayou. The company matched the employee's gift dollar for dollar. The company with their employees raised over $16,3400 which is a 43 percent increase over their gift last year.

Other successful corporate campaigns were those of ANR Pipeline in Grand Chenier and Texas Eastern.

Pictured above at left are William Field Service employees Simon Boudreaux, John Stock, District Manager, and Sandra Bourgeois.

Shown at right are Dinah Landry, Executive Director of Cameron Council on Aging and Tom Morris, President of the United Way of Southwest Louisiana, show the thermometer which indicates that Cameron Parish has exceeded its United Way Goal of $23,000.

## FERGIE . . . Cont. from Pg. 1

She was much prettier in person than I thought she was from what I had seen in things written about her, and she was well received in this situation.

I had even asked the Irish people waiting in line with us what they thought about her, and everyone said they felt sorry for her.

I started reading her book as soon as I started home on the airplane, and could hardly put it down until I finished, and I also felt very sorry for her and the way of life she was forced to live in order to live in royalty.

She dedicated her book to Prince Andrew, the second son of the English Queen and from whom she is now divorced, and had high praise for the Queen, but hardly mentioned others of the royal family. However, she acknowledged that she, as well as everyone joining the royal family, had to sign a confidentiality statement.

In "My Story" the Duchess of York writes about what it was like to be a member of the most famous and most scrutinized family in the world.

In the book that was co-written by Jeff Coplon, in a voice that is strong, warm, and always rueful, she tells of the events that catapulted a country girl into a fairy-tale existence, and about the dark forces, within both the palace and herself, that made it impossible to sustain.

When she first emerged ten years ago as the woman Prince Andrew would marry, she was celebrated by the public as a breath of fresh air inside Buckingham Palace.

She was young and attractive, but most of all she was her own person, unafraid to speak her mind. She conveyed an unpretentious humanity with which ordinary people could identify.

She would soon discover that she did not fit into the royal life, and her marriage ended. Not because two people had stopped loving one another, but because they were undermined by a ruthless press and dark forces within the palace itself.

As she looks back on those gilt-edged years she takes full responsibility for the trail of destruction that she left in her wake.

She said there were external elements that hurt her, but her greatest enemy was herself, her own insecurities that would propel her out of public favor and into shame and disgrace.

Today, in addition to the time she spends with her two daughters, Beatrice and Eugenie, she devotes herself to the well-being of children around the world, and has lent her efforts to numerous charities, most deeply to Children In Crisis, a non-profit organization she founded in 1993.

In facing the painful aspects of the past, she has gathered herself to go forward and emerged without regrets.

She understands that all the storms and heartaches of her public life have made her the person she is today.

I consider this encounter that I had with the Duchess was one of the highlights of my trip to Ireland.

With Our Gratitude

Christmastime is the perfect time to let you know how much we value your business and enjoy having you as customers.
Merry Christmas and best wishes.

Bonsall painting

## Painting on exhibition at church

"Adoration of the Christ Baby", a painting by James Belton Bonsall is on exhibition in the Grand Chenier United Methodist Church for the christmas season. It is painted in acrylic, measures 45 by 65 inches.

It shows the hands and arms of someone lifting up the Christ infant. The painting will be on display in the church until 12th Night.

The painting is one of four Liturgical paintings Belton Bonsall has shown in a series in the church in 1996. The others were for Easter Pentecost and Trinity.

Sunday services are at 9 a.m. The Grand Chenier Methodist Church was founded in 1859, making it one of the oldest churches in Southwestern Louisiana. Rev. Joe Rountree is the pastor.

## Mass schedule is announced

The Catholic Churches of Cameron, Creole and Grand Chenier have announced the following holiday Mass schedule:

Sacred Heart, Creole, Christmas Eve, 6 p.m.; Christmas Day, 8:30 and 10:30 a.m.

Our lady Star of the Sea, Cameron, Christmas Eve, 6 p.m.; Christmas Day, 10 a.m.

St. Eugene, Grand Chenier, Christmas Eve, 7 p.m.; Christmas Day, 8 a.m.

The schedule for New Year's will be the same as on any weekend.

## Garbage pickup

Waste Management has announced a change in its garbage pickup schedule for Christmas and New Years weeks in Cameron Parish.

The Wednesday pickups will move to Thursday; the Thursday pickups to Friday; and the Friday pickups to Saturday during those two weeks.

An ad listing these changes can be found elsewhere in this issue of the Pilot.

# Tauzin says TEDs may doom shrimping

New rules prohibiting the use of soft turtle excluder devices go into effect next year and could mean the demise of Louisiana's shrimping industry, an aide to U.S. Rep. Billy Tauzin said last week.

Soft TEDs are flexible versions of the escape hatches for endangered sea turtles sewn into shrimp trawls. Officials contend it is easier for turtles to get entangled in soft TEDs than those with a rigid frame.

Shrimpers say the soft TEDs result in the loss of up to 15 percent of the shrimp catch. They contend the hard TEDs would greatly increase their catch losses and damage their nets.

"We're assessing what our next strategy will be," said Ken Johnson, a Tauzin spokesman. "This fight isn't over yet. Clearly these rules were issued without due consideration of the thousands of people in Louisiana and along the Gulf Coast who depend on shrimping for their livelihood.

"We, literally, have lost half of our fleet since TEDs were introduced and we are gravely concerned we may well lose the rest of them."

The new measures, filed in the Federal Register on Wednesday, establish shrimp fishery and sea turtle conservation areas where shrimping effort and sea turtle abundance is high. Beginning March 1, in those areas, soft TEDs will be prohibited and modifications to bottom opening hard TEDs will be required. In addition, hard TEDs will be required in trynets with head-rope lengths greater than 12 feet.

# La. gator hunt was the third largest

Approximately 26,000 alligators were harvested in Louisiana during the 1996 September season, making this the third largest harvest since 1972. State biologists have declared the season a good one, testament to the success of conservation and restoration efforts in effect in the Bayou State for more than three decades.

The average size of alligators harvested during the recent season is just slightly more than seven feet in length.

"The size has basically been pretty consistent since 1972, usually about seven to 7.25 feet being the average," said Larry McNease Department of Wildlife and Fisheries Fur and Refuge Biologist.

McNease reported that only 2 percent of the 26,548 tags available to commercial hunters were left unfilled by the end of the season. The 1996 success rate is fairly indicative of Louisiana's harvest efficiency during prior annual harvests, the average hunter success being 96 percent during the past 23 seasons.

Unfortunately for alligator hunters, prices for hides dropped considerably after a two-year ascent. Prices averaged $37 per foot in 1994, climbed to $41 per foot in 1995 and fell to about $25 per foot in 1996. The price per foot averaged $29.81 for all 408,500 alligators harvested during the September hunts between 1972 and 1996.

Biologists estimate approximately 750,000 alligators inhabit Louisiana. That's an increase from a low in the 1960's after years of less regulation. All alligator trapping was banned in Louisiana in 1962 and for the next 10 years until numbers rebounded.

By 1972, numbers had grown to such a level that a strictly regulated harvest was allowed. Today, wild harvest contributes millions of dollars to Louisiana's economy and also provides incentives for wetlands conservation.

## Number of fishermen limit seen

By GENEVA GRIFFITH

Kevin A. Savoie, Associate Area Agent (Fisheries) for Cameron and Calcasieu parishes, announces that many fisheries around the world are turning to limited entry programs as part of their management and Louisiana may be close to implementing the program.

Texas has begun a program to limit the number of inshore shrimp licenses.

In an effort to begin limiting shrimp harvest in Texas bays by restricting the number of licensed commercial shrimping operations, the Texas Parks and Wildlife Department (TPWD) is currently offering shrimpers the chance to sell back their bay and bait licenses.

"The program works through a reserve bid process whereby license holders submit the price they are willing to take for their licenses," said Gene McCarty, TPWD Coastal Fisheries Divisions Director.

"Once purchased by the Department, the licenses will be retired, thereby reducing effort through time." One step already being implemented has been a moratorium on new license sales. In order to speed up the process, the Department initiated a buy-back program which allows TPWD to pay the shrimper for the value he feels that the license has accrued.

## Pilot schedule

Because of New Year's the Pilot will be printed a day earlier next week. News and ads for the paper should be turned in no later than 10 a.m. on Tuesday.

NOTICE OF PUBLICATION

By virtue of and in conformity with the procedures of Section 151 through 158 of Title 30 of the Louisiana Revised Statutes of 1950, as amended, sealed bids will be received at the office of the Cameron Parish School Board in Cameron, Louisiana, on or before the 15th day of January, 1997 at 4:00 p.m., at which time all bids received will be opened by the Cameron Parish School Board for a lease covering the oil, gas, sulphur, potash, and/or other liquid gaseous hydrocarbon mineral rights in, to and under the following described property:

That certain tract or parcel of land being Section 16, Township 12 South, Range 5 West, estimated to contain approximately 640 acres, more or less, LESS AND EXCEPT 42 acres, more or less, situated within the geographical confines of that certain unit created by Unit Agreement dated September 1, 1982 for the Lacassine B-7 well and recorded under Entry No. 181263 of the records of Cameron Parish, Louisiana, leaving a balance of 598 acres, more or less.

Bids may be for the whole or any particularly described portions of the tract advertised herein.

All bids are to offer a CASH PAYMENT, one-half (1/2) of which is to be bonus as full and adequate consideration for every right granted by the lease and one-half (1/2) of which is to be rental for the first year of the lease, for a lease having a primary term which shall not exceed three years. ANNUAL RENTAL for the second and third years shall not be less than the aforesaid cash payment. The lease is to be granted without any warranty or recourse against lessor whatsoever, either expressed or implied, not even for return by lessor of any payments received under the lease or being otherwise responsible to lessee. Minimum royalties shall be one-fourth (1/4) of all oil and gas produced and saved or utilized; one-eighth (1/8) of the value per long ton of sulphur produced and saved which shall yield not less than $2.00 per long ton; one-eighth (1/8) of the value per ton of potash produced and saved; which shall yield not less than ten cents ($.10) per ton; and one-fourth (1/4) of all other minerals produced and saved.

All leases awarded shall be executed upon terms and conditions provided in the current Cameron Parish School Board lease form with all applicable riders appended thereto, including Approved Rider for Attachment to State Agency Lease Forms, and including, but not limited to, provisions as follows: Should lessee fail to begin the actual drilling (spudding in) of a well on the lease premises within one year from the date of the lease, the lease shall terminate as to both parties to the lease, unless on or before such anniversary date, lessee shall pay a delay rental (which shall in no event be less than the aforesaid cash payment offered for the lease), which shall cover the privilege of deferred drilling operations for a period of one year. Upon like payments annually, drilling operations may be further deferred for successive periods of one year each during the primary term of three years. The lease shall provide for drilling of offset wells where necessary to protect the Board's interest and shall contain the provisions against the assignment of sublease of the lease unless approved by the School Board. The lessee shall have the right to enter into pooling or unitization agreements with respect to development of the leased premises subject to the approval of the School Board.

Any lease granted hereunder shall be on the regular current Cameron Parish School Board lease form with Approved Rider for Attachment to State Agency Lease Forms and shall be subject to the approval of the State Mineral Board. A copy of the said lease form and rider are available for inspection at the office of the Cameron Parish School Board in Cameron, Louisiana. Certified check, bank money order, or cashier's check, payable to the Cameron Parish School Board for the full amount of the bonus, shall accompany and be submitted with each bid; and no bid thus submitted may be thereafter withdrawn or cancelled; and the cash bonus accompanying the bid of the successful bidder shall be forfeited to the Cameron Parish School Board should he not return the written lease, duly executed, within twenty (20) days after his receipt of the same.

The Cameron Parish School Board reserves the right to reject any and all bids and to grant a lease on any portion of the tract advertised for a price not less than proportionate to the best bid offered for the lease on the entire tract.

PROCEEDINGS
GRAVITY DRAINAGE
DISTRICT NO. 4
NOVEMBER 21, 1996

Gravity Drainage District No. 4 held a regular meeting at the Creole Community Center in Creole, Louisiana at 5:00 p.m., Thursday, November 21, 1996.

Present: J. B. Meaux, Jr., Bobby Montie, Pat Pinch, Michael Semien and Amos Vincent.

Absent: None.

Others Present: Lonnie Harper, Glenn harris, J. T. Primeaux, Malcolm Savoie and Bonnie Conner.

The meeting was called to order by Chairman J. B. Meaux, Jr.

On motion of Mr. Montie, seconded by Mr. Semien and carried, the minutes were approved as read.

On motion of Mr. Montie, seconded by Mr. Vincent and carried, the financial statement was accepted as revised.

Lonnie Harper presented a set of plans and specifications for a proposed project consisting of relocating the J. T. Primeaux property. Mr. Primeaux was presented to review the plans. After several revisions were discussed, it was moved by Mr. Montie, seconded by Mr. Semien and carried, that Mr. Harper is hereby authorized, empowered and directed to advertise for bids receiving sealed bids on the project.

There was a discussion on monitoring the structures. Lonnie suggested putting a flangiate at the Creole Canal (Red Nunez) structure. Michael Semien will replace the automatic water switch at King's Bayou structure. Amos Vincent will continue to monitor structures at Oak grove and King's Bayou. It was verified by telephone that Boyd Nunez will monitor the Creole Canal structure. Kevin Savoie, of the Cooperative Extension Service, has offered assistance. It was agreed each Board member would need keys for each location to be able to assist with the monitoring, if needed.

It was moved by Mr. Semien, seconded by Mr. Montie and carried, that the following permits be granted.

Union Pacific Pipeline - proposed 4-inch pipeline, Theriot Well NO. 2.

Shell Western E&P, Inc. - proposed culvert replacement, king's Bayou Field.

It was moved by Mr. Semien, seconded by Mr. Montie and carried, that the following permit be approved:

CMS Nomeco Oil & Gas Company - proposed drilling barge, slip, well protection structure and dam, Miami Corp. Well No. 1.

The vote was recorded as follows:
Yeas: J. B. Meaux, Bobby Montie, Michael Semien, Pat Pinch.
Nays: None.
Absent or Not Voting: Amos Vincent.

Lonnie Harper reported on Project 1996-02 saying that work was approximately 60% done. Three culverts have been placed. Mr. Harper will check on cost for 2-ply mat boards to be placed where the levee is being cut.

There being no further business, on motion of Mr. Montie, seconded by Mr. Pinch and carried, the following bills were approved for payment:

Jeff Davis Electric Co-op, $14.77; Charlotte Treuclair, $16.50; Amos Vincent, $192.27; Coastal Culverts, $7,400.00.

There was discussion of the 1997 Budget.

It was moved by Mr. Montie, seconded by Mr. Semien and carried, that the Chairman is hereby authorized, empowered and delivered to sign the revised Memorandum of Understanding by and between the United States Fish and Wildlife Service and the Gravity Drainage District Nos. 3 and 4.

Glenn Harris presented the watershed management control report on behalf of the Cameron-Creole Watershed.

There was a general discussion of drainage problems. Malcolm Savoie, Police Juror, asked the Board to consider holding public meetings to receive concerns from the public on drainage needs. Lonnie Harper offered to work up cost estimates on needed projects at no cost to the Board.

There being no further business, on motion of Mr. Montie, seconded by Mr. Semien and carried, the meeting was declared adjourned.

# Parish healthy in '24

(Lake Charles American Press, Dec. 26, 1924)

**HEALTH GOOD IN CAMERON**

The residents of Cameron Parish attribute their good health to a generous use of milk and butter, Dr. Oscar Dowling, president of the Louisiana State Board of Health, said yesterday on his return from a trip through the parish. (This report is from New Orleans.)

Dr. Dowling said he had been assured there is no tuberculosis anywhere in Cameron, and that only one death from the disease had been recorded within the past few years.

Of great benefit to the parish, he said, would be the completion of some stretches of good roads which residents desire to have undertaken by the State Highway Commission. A better system of highways, he explained, would afford an outlet for products.

(Cameron Pilot, Dec. 26, 1963)

**VALUE OF FIRE DEPARTMENT OUTLINED**

Cameron Fire Chief Ray Burleigh told the members of the Cameron Lions Club last Wednesday at their luncheon meeting that it was through their foresight that a volunteer fire department came into existence in Cameron some nine years ago.

Since that time, he said that the Department had saved countless millions of dollars worth of property. He cited the oil fires of the Superior Oil Co. and J. Ray McDermott that accounted for a saving of approximately 1-1/2 million dollars alone.

When the department was organized in 1955, there were 45 fires in the district during that first year. Burleigh said that since that time, the number of fires has decreased continuously until in 1962, there were 19 fires, and up until the present in 1963, there have been 18 fires.

Chief Burleigh expressed his pride in the Department by not having any accidents incurred by any member of the Department in the last 8-1/2 years. He said that there are 22 firemen including six members of the Board of Directors.

**CHRISTMAS DECORATIONS CONTEST**

First place honors went to Mr. and Mrs. Jerry Jones in the outside division of the Christmas decorations contest in Cameron.

The home of Mr. and Mrs. William Guthrie won second.

The Hadley Fontenots placed third.

Honorable mention went to the Charles Rogers, Edward Swindells and Austin Davis.

In the decorated door contest, Mr. and Mrs. Hadley Fontenot came out first.

The Gary Kellys won second place.

Third place went to Mr. and Mrs. Larry Dyson.

The Cameron Home Demonstration Club took over the sponsor of this contest after the Garden Club ceased to exist.

**OPERETTA GIVEN**

An operetta entitled "The Lost Doll" was presented at the Johnson Bayou school Friday night. In the cast were pupils from grade one through eight.

Faculty members who sponsored and directed the play were: Mrs. E. O. Arceneaux, Mrs. O'Conner, Mr. Spurger and Mrs. N. Leger.

**CHRISTMAS OF MY CHILDHOOD**
**(By Bernice Stewart)**

The Christmases of my childhood on the Chenier remain vivid memories. The observance of the holiday season then, as now, was quite similar to that of the nation as a whole; yet, there were phases of it unique to Cameron alone.

Because of the isolated position of the parish, nearly all of the shopping for gifts was done through mail-order catalogs. True, a few Cameron people traveled on the Rex to Lake Charles or on the gasoline launches in the Mermentau from Grand Chenier to Lake Arthur to shop. The majority of the population patronized Sears, Roebuck and Montgomery Ward since local stores carried limited stock.

Jim Bonsall, the mail carrier from Cameron to Grand Chenier for many years, was one of the most faithful assistants that St. Nicholas ever had. He transported mail over miry roads if at all possible.

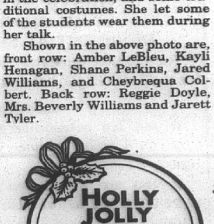
On Christmas Eve our grandfather solved the problem of no chimney for Santa to come down by taking out a window screen so that he might lift the window and enter. It stood to reason that the good saint could never have walked prosaically through an open door.

Since there were no evergreens in the parish, an oak tree was used and was ornamented with haw and popcorn strings or with red and green roping and silver tinsel, brightened with baubles purchased or homemade. The oak was as beautiful as any fir or pine of today.

Since there was no electricity in the parish, candles in metal holders sputtered and flared on the tree for a few nights.

During the week prior to Christmas, my grandmother and mother scoured and shined, waxed and polished the house from top to bottom. They baked from dawn till long after dark. I can still see the tall round cakes of five or six layers, iced to perfect smoothness. The pounds and pounds of fruit cake had been made and packed away weeks earlier.

# Class learns about Kwanzaa celebration



**(EDITOR'S NOTE--Beverly and Jared Williams are the wife and son of Dr. Homer Williams of DeQuincy, who is a native of Cameron Parish.)**

Beverly Williams, parent of Jared Williams, presented a lesson on Kwanzaa, for Judy Ellis' 4th grade Social Studies class at DeQuincy Elementary. Kwanzaa is an African-American celebration established in 1966 by Dr. Ron Karenga.

She explained that the holiday, which is celebrated Dec. 26 through Jan. 1 ,is not a religious celebration. The word Kwanzaa comes from an African word meaning "the first fruits". It is a time when African Americans are encouraged to think back on their African ancestors and learn about their history and customs, as well as look at their lives in modern America.

Mrs. Williams explained what the colors of Kwanzaa represent. She brought some artifacts, used in the celebration, and some traditional costumes. She let some of the students wear them during her talk.

Shown in the above photo are, front row: Amber LeBleu, Kayli Henagan, Shane Perkins, Jared Williams, and Cheybrequa Colbert. Back row: Reggie Doyle, Mrs. Beverly Williams and Jarett Tyler.

# The Challenge of Genealogy

by MARIE WISE

The Province of Louisiana and the Territory of Orleans during the 1700s colonial period were peopled by widely divergent groups: military troops - officers and enlisted men - aristocrats, settlers, great land owners, refugee Acadians, Creoles, Anglo-Americans, ex-servicemen, assorted immigrants, and etc.

An excellent new volume has been published on these, the second in a proposed series; and the third is now near completion.

**LA. RECORDS OF 1721-1793**

*Mississippi Valley Melange, Volume Two* by Winston De Ville is "A Collection of Notes and Documents for the Genealogy and History of the Province of Louisiana and the Territory of Orleans" much of it translated, usually from French.

Each of the 15 chapters presents an authoritative article on different Louisiana colonial groups, quotes the supporting records, and follows with notes giving additional information and identification.

Rich with historical and genealogical data, this publication by Mr. DeVille, a Fellow in the American Society of Genealogists, includes contributions by Jack Belsom and Mary S. Fay, C.G. and an index by Houston Tracy, Jr.

Its chapters deal with: Knighthood in Colonial Louisiana: Juchereau de St. Denys and the Order of St. Louis; Louisiana Officers in 1740: The (Governor) Bienville Recommendations; French Troops in New Orleans: 1745; Land Owners Below New Orleans in 1751; and Acadians in Philadelphia: 1771.

Also: A Prospective First Militia of Attakapas Post: The Roll of 1773; The D'Hauterive Land-Grant of 1775: Aristocratic Perquisite in Southwest Louisiana; and Galvez Rosters of 1779: Soldier Selection at the German and Acadian Coasts During the American Revolution.

Plus: Southwest Louisiana Militiamen During the American Revolution: The Rosters of Attakapas and Opelousas Posts in 1780; Louisiana Loyalists (to Great Britain) in 1781; Of Clavinette and Violin in Colonial Louisiana: Questions on Acadian Music in 1785; Attakapas Post Petitioners of 1791: An Acadian and Creole Defense of a Commandant.

And: The Greening of New Orleans in 1792: Governor Carondelet as Environmentalist; Lost in the Latin South: A Petition of Some Anglo-Americans, cal792; Turmoil in Spanish Louisiana: A Public Notice of 1793.

This name-filled source of early Louisiana residents is softcover, 8 1/2 x 11 in., 81 pages, $20.00 from: Mississippi Valley Melange, P.O. Box 589, Ville Platte, LA 70586-0589.

**THERE WERE 5 THOMAS HARRISES**

*The Five Thomas Harrises of Isle of Wight, Virginia* by John A. Brayton is an extremely interesting genealogy in which the author meticulously untangles the identities of five samenamed men from approximately the same time span and localities:

(1) Thomas Harris who left a 1688 will, (2) Thomas Harris who left a 1672 will, (3) Thomas Harris, "Jr." so called since 1672 but from whom? Could have been a nephew? (4) Thomas Harris who left a 1729 will, and (5) Thomas Harris (1615-1668) of Surry County, VA. Following these chapters, in the appendix, is "The identity of Sarah Tyner", an article on the not-understood relationship of her and her 3 children to John Harris who named them as heirs in his 1711 will.

"More work is needed...on this interesting family" writes the author of this unusual genealogy which is softcover, 6x9 in., 190 plages plus Introduction; has name, place and slave indexes; is $20.00 from the author, 1001 S. Marshall St., Suite 53, Winston-Salem, NC 27101.

**Publications reviewed in this column are given to the Erbon and Marie Wise Genealogical Library, Louisiana State Archives, Baton Rouge.**

## Did You Know?

(NAPS)—In October 1996, over four million workers, many of whom are raising a family, got a well-deserved raise—when the federal minimum wage went up 50 cents an hour. On September 1, 1997, millions more workers will get another raise—when the federal minimum wage goes up an additional 40 cents an hour.

# Senator continues legislative report

**(EDITOR'S NOTE--This is a continuation of a summary of items coming up before the Legislature in 1997 as outlined by Cameron Parish's new state Senator Jerry Theunissen.)**

The Governor also plans to tackle the on-going question of how to better manage our colleges and universities. In a compromise to the often failed plan to create a new, single board to oversee our colleges and universities, Foster is talking about creating a kind of superboard from the existing board structure.

The superboard would have the power to set policies with the other existing boards dealing with operational matters at the colleges and universities. The proposal is aimed at holding down costs and tackling problems with conflicting policies, duplicative programs and services and widely different course standards that often prevent students from moving from one Louisiana university or college to another.

And, then there is the issue of workforce development - a series of proposed revolutionary changes in the way we train, re-train and educate our citizens to promote economic development and a better quality of life for our citizens. Now various job training and education programs are scattered around over a half dozen various state agencies. Citizens needing education and training help and businesses searching for workers with the right skills can get lost in the maze.

Governor Foster is expected to ask lawmakers to approve a series of new laws to refocus our current Department of Labor into a workforce development agency with consolidation and coordination of various job training and education programs. This move is particularly important now as Louisiana begins to implement its plan to move citizens off welfare into jobs.

And finally at the proposed special session, Foster plans to move the management of the state's charity hospital system from the Louisiana Health Care Authority to the LSU Medical School. Tulane, as well as other as yet unnamed private entities, would assist in the management of some of the hospitals via contracts with the state. Contracts with private and non-profit hospitals to provide certain types of specialized health care in some parts of the state are also a possibility.

None of the current state hospitals will close, but some would change their focus to encourage primary preventive health care. Details on the plan have not been released.

# Council on Aging tells plans for '97

The Cameron Council on Aging/Area Agency on Aging is looking forward to a great 1997. During January Cameron Senior Center will get a face lift. The Cameron and Creole congregate meal participants will eat at the Creole Nutrition Site together during the month. Activities will go on as usual.

The office and nutrition sites will be closed Dec. 31, Jan. 1 and 2 for the holidays, however, anyone needing anything should call the COA office at 775-5668 and leave a message.

Johnson Bayou senior citizens will be treated to a grocery bingo on Jan. 6, at 9:30 a.m. at the Recreation Center. Grand Chenier grocery bingos will be held Jan. 8 and 22, at 1 p.m. at the center in Grand Chenier.

Grand Lake senior citizens will meet each Monday morning at 9 a.m. for games and grocery bingo.

Mr. Gatti's will be in town Jan. 15, for the fund raiser. The pizza truck will be parked beside the COA Senior Center in Cameron.

Meetings to be held in January include:

Energy Savings Workshop, Jan. 14, 10 a.m., Creole Nutrition Site.

Community Action Board Meet, Jan. 14, 3 p.m., Cameron Center.

Sr. Council Meeting, Jan. 16, 9:30 a.m., Cameron Center.

Legal Services Workshop, Jan. 27, 10 a.m., Creole Nutrition Site.

Sr. Team Coalition, Jan. 29, 12 noon, Cameron Center.

Each month during the year, the Council on Aging will dedicate activities to a theme for the month. During January the theme is "Seeking Seniors". In an effort to update our files, we are seeking all persons who are turning 60 this year or who have moved into Cameron Parish and are 60+. We want information for our files, but we also want to introduce you to our services. If you have not received services through the agency or need a particular service or information, call us at 775-5668.

The Community Action Agency has designated January as Energy Month in an effort to assist all persons with staying warm and saving money. We hope everyone will have an opportunity to attend our workshop.

# It's still time to get your flu shot

Department of Health and Hospitals officials say there is still time for persons at high risk of serious illness or death caused by the flu to get immunized at their public health unit in Cameron parish.

DHH Secretary Bobby Jindal says the Office of Public Health is providing flu vaccines to persons who are considered to be high risk, including:

*adults older than 65 years of age.

*persons who suffer from chronic cardiac, respiratory or kidney disease.

*persons with diabetes.

*children and teenagers who suffer from long-term chronic diseases.

*persons whose immune systems have been compromised, and;

*persons who received immunizations from recalled batches of Parke-Davis brand vaccine.

State Health Officer Dr. Jimmy Guidry said flu shots are most important for children between the ages of six months and eight years. He said those children who have not had influenza vaccine previously should be given two separate doses at least one month apart. He said a single dose of vaccine is adequate for children who have had flu shots before or for children 12 years and older.

Vaccine supplies are limited, and they are available on a first-come, first-served basis. Meanwhile, physicians, nurses and others with extensive contact with high-risk patients are encouraged to see their own physicians or to organize their own immunizations programs, Dr. Guidry said.

Area residents interested in arranging for flu vaccines should contact their parish public health units for appointments at the following locations: Cameron, 775-5368; Grand Lake, 598-3333; Hackberry, 762-3762; Jennings, 491-2040; Lake Charles, 478-6020.

### WE GOT IT!

Well, we cried for it, and Mother Nature sent it to us. Our water is lower, we got plenty cold, and yes, there are thousands of new ducks in our marshes. Saturday morning was a cold one or should I say an icy one, but the die-hard duck hunters braved the cold to hit the marshes.

Better ducks bagged this second split, with mallards and pintails to name a couple.

We also have a good flock of geese, especially in the Sweet Lake area and the Klondike area. There were geese killed in the Johnson Bayou area and also in the Creole area. They claim the population of geese has increased dramatically. In the central flyway, they bumped the possession limits fro 20 to 40 birds. Some states are requesting that baiting, electronic calling, live decoys be used, and to allow full day hunting for geese on refuges and allow more non-residents to come and hunt. Wintering geese have caused numerous problems for farmers and winter wheat crops. More hunting days have been added and they really want hunters to put more pressure on the geese in the central flyway.

### PREDATORS

We always hear of droughts or low-nesting is the cause of low populations of waterfowl up north. It seems now that the greatest threat or serious problem for nesting ducks is a predator problem. Improved rainfalls have eased the problem somewhat by preventing farmers from plowing to the edge of the water, which prevents predators from ruining that edge to find eggs, ducklings and nesting ducks for food.

The water has returned, some species have rebounded, like the spring breeding population this year was estimated at 36 million, however this is well below the 62 million goal for the year 2001 of the North American Waterfowl Management Plan. It's been a good year, but if we can't hit or exceed the goals when it's at its best, we'll have serious problems when conditions return to normal or below normal. The cycle is good but some populations are not responding. Pintail populations are down for the second year in a row and are 39% below the long term average.

Remember when we could kill 10 pintails and only two mallards, well now it's one pintail and four mallards. Really, things look good, but the 1996 breeding ducks were only up 5% and most of that was due to the increase hatching of blue-winged teal (September hunting) and the shoveler (spoonbill).

There are now greater numbers of predators than ever before. Larger predators like bears, wolves kept the smaller animals in check, but when settlements of people keep using more of the lands, they had the larger animals removed because of threats. Now the population of the smaller predators like skunk, raccoon, and fox quickly increased and they eat the adult ducks, duck eggs and young ducks. The U.S. Fish and Wildlife Service estimates that 900,000 adult ducks, mostly the hens, are killed each year by the fox in the nesting area. Nest success is below 10% in many of the breeding grounds, which 90% of the waterfowl nests are destroyed by predator populations out of control.

A problem also is the do-gooder-anti-hunters, as well as the people who wear fur, don't want these animals reduced.

### FISHING NEWS

I don't have any fishing reports, I guess Mother Nature and the start of hunting has put a damper on that for a while. However, before the cold front, Terry Trahan, a native of Creole, who has a camp in Little Chenier where Jean Lafitte buried some of his treasure, caught a nice bass, weighing 6 lbs., with a 16 inch girth measuring 21-1/2 inches in length

# Grand Chenier News

(Last Week's News)

Ella Louise and Stacie Booth spent the weekend with L. J., Donna and Hannah Adams in New Orleans.

Folks, it's worth the drive to Grand Chenier to view the Dyson's wonderland on Highway 82 on Dyson Lane. Drive around the roadway to the three homes fully decorated for Christmas.

Mrs. Margaret Arrant will enter a Lake Charles hospital Tuesday for surgery.

The Grand Chenier American Legion members held their Christmas party Saturday night at the hall, with a supper and entertainment by Ross Young, who told Cajun jokes.

Santa's sleigh is not the only thing you can spot through your binoculars this holiday season.

Join the thousands of bird watchers nationwide and participate in the annual Christmas Bird Count.

This is an annual opportunity for all birders to pursue their hobby and collect valuable biological data at the same time. The purpose of the counts, sponsored by the Audubon Society, is to identify and count as many birds as possible. The information is collected and used to help determine national bird populations during the winter.

Whether you're an experienced birder or just a backyard observer, you an contribute to the effort.

"Even if you're not into going out into the woods, you can count birds that visit your feeder and so assist national data compilers," said Bill Vermillion, Department of Wildlife and Fisheries biologist.

Local compilers select and plot a 24-kilometer (approximately 15-mile) diameter circle in which to identify birds. A count is officially a 24-hour period, but most begin at sunrise and end at sunset. Individual counts are forwarded to a central repository and compared with data from previous years.

All bird species are counted, game as well as non-game.

"The Christmas Bird Count is the longest-running bird survey in the United States that I'm aware of," said Vermillion. The Audubon Society has sponsored counts since 1900.

Anyone can participate. All it takes is a knowledge of birds (carry a guide book!) and perhaps a good pair of binoculars.

The following is a list of Christmas Bird Counts in Cameron Parish. Interested participants should contact Bill Vermillion at 504/765-2821 to be put in contact with a local compiler.

Dec. 21, Sabine National Wildlife count; Dec. 22, Johnson Bayou counts; Dec. 23, Creole count.

# South Cameron to hold Aggie Days

South Cameron FFA Aggie Days kickoff Fri., Jan. 3, at the Mosquito Control Barn in Cameron with lamb weigh-in scheduled for 5 p.m, followed by the lamb show at 5:30. Hog weigh-in begins at 6:30 p.m.

The hog show begins Saturday morning at 9 a.m., followed by hog showmanship.

At 2 p.m., or immediately following the hog showmanship, a pet show for pets of all types will be held. The beef show is scheduled for Sun., Jan. 5, with AOB short-haired animals, followed by Brahmans, Brafords and AOB long-haired. The steer show will follow the beef show and beef showmanship will be the last event.

An entry fee of $5 per hog will be charged Buckles will be awarded to the exhibitor of the champion and reserve champion hogs. Silver trays will be given for the lamb and beef shows. Showmanship champions will be given silver trays.

Concessions will be sold throughout the three day event. Gumbo will be sold Saturday beginning at 11 a.m. Anyone wishing to purchase plate lunches to go are asked to bring a container for the gumbo.

All animals must be checked for health papers to compete in the parish, district and state shows. Dr. Johnny Reina will be on the grounds beginning at 5 p.m. on Friday checking lambs and hogs as they are weighed. On Sunday, Dr. Reina will be available at 10 a.m. After each beef animal shows, he will be set up to examine the animal and draw any necessary blood. Health papers will be distributed Thurs., Jan. 16, at the Cameron Parish Show at a cost of $5 per animal.

All proceeds benefit the South Cameron FFA. Parents of FFA members are asked to volunteer to help in the show ring and concession stand. Any donations to help with the expenses of the concession stand and gumbo would be appreciated.

To volunteer or for more information, call Nicky or Stephanie Rodrigue at 542-4613.

# Shark species will be protected in the Gulf

Threatened shark species will be protected under a proposed regulation restricting recreational and commercial fishing for the species in federal waters of the Atlantic Ocean and Gulf of Mexico.

The national Marine Fisheries Services announced the proposal last week. It's designed to protect declining shark stocks by reducing the commercial and recreational catches. Officials are seeking public comments on the proposal.

The proposed restrictions would remain in effect until a permanent species-rebuilding program can be put in place, the agency said.

The plan will reduce recreational bag limits for large and small coastal sharks and prohibit fishing for five species. It will also reduce commercial quotas for large coastal sharks and impose a first-time quota on small coastal sharks.

The proposal will prohibit the keeping of basking, bigeye, sand tiger, white and whale sharks. The five Atlantic sharks are considered to be extremely vulnerable to overfishing. Catch-and-release recreational fishing will be allowed for white shark.

"Scientific data indicate that the large coastal species of shark are overfished," Fisheries Service executive William Hogarth said in a written statement. "We also need to take a precautionary approach to avert overfishing of the small coastal sharks."

## Fishing cards

Wallet cards listing 1997 bag limits for saltwater and freshwater recreational fisheries are now available through Louisiana Sea Grant at LSU. The cards provide size restrictions and numbers of fish allowed to be taken per day for almost 40 popular saltwater species and 14 freshwater species.

Saltwater anglers should note that the 1997 bag limit for greater amberjack has dropped to one a day instead of three, as was allowed in 1996. The minimum size of 28 inches remains the same. Another change for 1997 is that the limits for red snapper are the same in both state and federal waters--five per day with a 15-inch minimum size.

The size and bag limits for redfish in Louisiana state waters remain the same as in 1996--five per day allowed, each at lest 16 inches, with only one over 27 inches. Federal waters are still closed to fishing for redfish. The limits for speckled trout also show no change from 1996; 25 per day at a minimum of 12 inches each may be taken. Size and bag limits for the most popular freshwater fish are the same as in 1996.

The cards are free and may be ordered from the Louisiana Sea Grant Communications Office, LSU, Baton Rouge, La. 70803. They are also available through Louisiana Cooperative Extension Service offices in coastal parishes including Cameron. For more information about the cards, call Sea Grant Communications, (504) 388-6448 or 6449.
