Attend the Fur & Wildlife Festival Jan. 10-13

THE NEW GRAND LAKE-Sweet Lake Rural Health Clinic has been opened by the South Cameron Memorial Hospital in this building located behind the ambulance building at Grand Lake.

# New rural clinic is opened

The new Grand Lake-Sweetlake Rural Health Clinic has been opened by the South Cameron Memorial Hospital, according to Joe Soileau, hospital administrator.

The clinic is located in a building next to the Grand Lake fire station and behind the new ambulance building just west of the Grand Lake school.

The office is staffed by Dr. Carlos Choucino, physician; Linda Chevallier, nurse practitioner; Ivy LeBouef, licensed practical nurse; and Suzanne Sturlese, secretary-receptionist.

The clinic is open from 9 a.m. to 4 p.m. Monday, Tuesday, Thursday and Friday.

Anyone wishing to make an appointment at the clinic may call 598-4464.

THE FEDERAL goverment shutdown continues to affect our area as Jone Pons of the University of Southwestern's faculty found when he arrived at the Sabine National Wildlife Refuge last Friday to photograph birds. The gate to the nature path was locked so he had to be content to do his photography from the roadside.

## hristmas rees will aid marsh

The Police Juries of both Cameron and Calcasieu parishes have joined together in a wetlands brush fence project utilizing discarded Christmas trees.

They are asking citizens to let them make their Christmas trees a part of the project to help create a healthier environment and to restore and preserve one of the greatest in southwest Louisiana, the beautiful wetlands.

In Cameron parish to have the Christmas trees included, peole must place their trees at the curb no later than Wednesday, Jan. 10, or bring it to designated solid waste collection sites. There will be marked areas designating the drop off locations.

Please keep the trees separate from other trash, remove all ornaments and tinsel from the tree. Flocked trees will be picked up with regular trash since they are a hazard to wildlife and cannot be used for this project.

For more information contact the Cameron Parish Police Jury at 775-5718.

# S. Cameron FFA sets Aggie Day this week

South Cameron FFA Aggie Days begin Fri., Jan. 6, at the Mosquito Control Barn in Cameron with hog and lamb weigh-in scheduled for 4-6:30 p.m., followed by hog showmanship at 7 p.m.

Livestock exhibition begins Saturday morning at 7 a.m. with the lamb show followed by lamb showmanship. The hog show follows.

At noon a pet show for pets of all types will be held. After the pet winners are announced, the beef show will begin with AOB shorthaired animals, followed by Brahmans, Brafords and AOB longhaired.

The steer show will follow and beef showmanship will be the last event. An entry fee of $5 per hog will be charged. Buckles will be awarded to the exhibitor of the champion and reserve champion hogs and also to the champion showmen in beef, swine & sheep.

Concessions will be sold throughout the two day event. Gumbo will be sold Saturday beginning at 11 a.m. The $4 lunch will include a large bowl of chicken gumbo, potato salad and crackers.

Anyone wishing to purchase plate lunches to go are asked to bring a container for the gumbo.

All animals must be checked for health papers to compete in the parish, district and state shows. Dr. Johnny Reina will be on the grounds beginning at 5 p.m, Friday checking lambs and hogs as they are weighed. On Saturday, Dr. Reina will be available at 10 a.m.

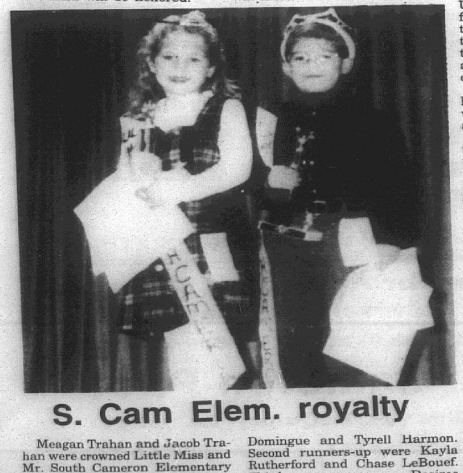
After each beef animal shows, Dr. Reina will be set up to examine the animal and draw any necessary blood. Health papers will be distributed Thurs., Jan. 18, at the Cameron Parish Show.

All proceeds benefit the South Cameron FFA. Parents of FFA members are asked to volunteer in the show ring and concessin stand. Donations of $5 to help with the expenses of the concession stand and gumbo will be appreciated. FFA members should bring donations to Mrs. Janette Savoie in the office, who wil deposit them directly into the FFA account.

To volunteer or for more information call the South Cameron voag office at 542-4418 or call Nicky Rodrigue at 542-4615.

## Banquet set

The annual Cameron Parish citizenship award banquet will be held Mon., Jan. 15, at the Grand Lake Recreation Center.



The social hour starts at 6:30 p.m., followed by a meal at 7 p.m.

An outstanding citizen of Cameron Parish will be honored.

## Crawfish meet

A crawfish producer's meeting will be held Fri., Jan. 5, beginning at 1 p.m., at the new Calcasieu Parish Extension Office, just south of the Burton Coliseum.

Immediately following the program, the Calcasieu/Cameron Crawfish Advisory Committee will meet.

## S. Cam Elem. royalty

Meagan Trahan and Jacob Trahan were crowned Little Miss and Mr. South Cameron Elementary at the local contest Dec. 6.

Meagan is the daughter of Scott and Michelle Trahan. Jacob is the son of David and Jendy Trahan, all of Creole.

First runners-up were Brandi Domingue and Tyrell Harmon. Second runners-up were Kayla Rutherford and Chase LeBouef. Third runners-up were Desiree LaBove and Drew LaBove.

Meagan and Jacob will compete in the 1996 Fur and Wildlife contest on Jan. 11, at Cameron Elementary School.

## Local airman on carrier off Bosnia

Navy Airman Carey D. Sonnier, son of Kenneth A. and Angela M. Theriot of Grand Chenier, is currently in the Adriatic sea near Bosnia serving aboard the aircraft carrier USS America.

Sonnier is one of more than 5,000 Sailors and Marines aboard the ship supporting the peace implementation operations in the former Yugoslavia. Sonnier's ship is the lead ship of the 11-ship USS America Battle Group that includes more than 80 tactical aircraft, and ships and submarines armed with Tomahawk cruise missiles. Since leaving Norfolk, Va., in late August, Sonnier has traveled more than 15,000 miles.

Sonnier most recently returned to the Adriatic Sea after going to the Persian Gulf to help enforce the no-fly zone over Southern Iraq. Sonnier and fellow shipmates traveled more than 4,000 miles in just nine days after receiving orders to return to the Adriatic.

As the peace implementation forces began to pour in from around the world, Sonnier's ship was already in the Adriatic Sea supporting the operation. USS America aircraft have been patrolling the skies over Bosnia and the Adriatic since they arrived.

Sonnier began the deployment in the Adriatic Sea near Bosnia, where the 1,096-foot long aircraft carrier and its nine aircraft squadrons participated in three days of NATO air strikes against Bosnian Serb military targets in support of U.N. initiatives in Bosnia. Aircraft from Sonnier's ship flew more than 360 missions during the three-day period. The air strikes targeted military storage and ammunition depots, and military communications systems.

While most of the deployment has been spent at sea, Sonnier also visited Greece and Italy and had an opportunity to visit local sites.

USS America is not scheduled to return to the United States until late February.

The 1992 graduate of South Cameron High School joined the Navy in September 1992.

# Two new jurors to be sworn in

The Cameron Parish Police Jury will seat two new jurors and elect new officers when it holds the first meeting of the new year at 10 a.m., Monday, Jan. 8.

Charles A. Sandifer of Johnson Bayou will be sworn in as the District 1 juror and and Malcolm Savoie of Creole will take the oath as the District 5 juror.

Incumbent jurors who will be beginning new four year terms are Douaine Conner, District 4; George W. LeBouef, District 6; Brent Nunez, District 3; and George Hicks, District 2.

The jury also will elect new officers and is expected to continue the tradition of rotating the offices of president and vice-president among the members. Russell Badon and Ray Conner, outgoing jurors, held these positions in 1995.

Tina Horn, parish administrator, and Bonnie Conner, secretary-treasurer, are expected to be reappointed to those positions.

Among the items to be discussed by the jury will be the possibility of adoption of an ordinance regulating the mining of sand in the parish.

Administrator Horn said the jury probably will adopt an ordinance requiring a permit for sand mining north of the Intracostal Canal. Coastal zone regulations already cover the southern part of the parish.

The proposed permit ordinance would require that an applicant advertise his intention to open a sand mining operation and allow a public comment period. This would permit anyone opposed to the work an opportunity to voice their objections.

## Scouts seek items for five victims

Scouts from Boy Scout Troop 210 of Cameron will collect dry goods, canned goods and nonperishable household staples to benefit a local family who lost all of their belongings in a recent fire. Anyone who would like to contribute can contact any Scout from Troop 210.

Scouts include Brett Billings, Chance Doxey, Chris Dupont, Ryan Ardoin, Dusty Prejean, Adam Doxey, Randall Courmier, Neil Higgins, Bo Mallett, Junior Gonzales, Louis Hebert, Donnie January, David Nunez, Justin Helms and Myron Murrell.

Collection will continue thru Tues., Jan. 16.

## Lil Dribblers meeting set

The Little Dribblers will meet Jan. 6, 1-4 p.m. at the Recreation Center on Oak Grove Hwy.

The ages are from 3rd thru 7th grade for boys and girls.

Ken and Vonda Flue will be the instructors.

22. Staff Report: e. Road Royalty Report.

The following resolution was offered by Mr. Ray Conner, seconded by Mr. Dousine Conner and declared duly adopted:

RESOLUTION
STATE OF LOUISIANA
PARISH OF CAMERON

WHEREAS, Mr. Raymond LeBlanc departed this life on October 26, 1995; and,

WHEREAS, this body and people of Cameron Parish shall be eternally indebted unto the late Mr. Raymond LeBlanc for his faithful service as a member of the Waterworks District No. Seven Board.

NOW THEREFORE, BE IT RESOLVED, by the Police Jury of the Parish of Cameron, Louisiana, in regular session convened on this 7th day of November, 1995, that:

SECTION 1: The Secretary is hereby directed to spread this resolution on the Minutes of this body and forward certified copies thereof to the family of the deceased.

ADOPTED AND APPROVED, by the Cameron Parish Police Jury this 7th day of November, 1995.

APPROVED:
/s/ Russell Badon,
PRESIDENT
CAMERON PARISH POLICE JURY
ATTEST:
/s/ Bonnie W. Conner,
SECRETARY

The following proclamation was offered by Mr. Nunez, seconded by Mr. Dousine Conner and declared duly adopted:

PROCLAMATION

WHEREAS, all children need love, support, security, and a place to call home;

WHEREAS, in the State of Louisiana 6,137 children live away from their birth families in substitute care;

WHEREAS, 529 of these children cannot return to their birth families and need the security and nurturing that a permanent family can provide;

WHEREAS, adoption is the permanency plan for these children;

WHEREAS, nearly all of these children have special needs because of physical or mental or emotional disabilities, because they must be placed as a sibling group, because they are minorities, or because they are older;

WHEREAS, in 1994, 1,954 children were placed into adoptive families;

WHEREAS, children waiting for adoptive parents and families who have adopted these children require and deserve community and public agency support.

NOW, THEREFORE, the Cameron Parish Police Jury does hereby proclaim the month of November 1995 as "ADOPTION AWARENESS MONTH" in Cameron, Louisiana and in honor of this event, I encourage citizens, community agencies, religious organizations, businesses and others to celebrate adoption, honor the families that grow through adoption, and focus attention on these children who live with the burden of an uncertain future while they await permanent families.

ADOPTED AND APPROVED this 7th day of November, 1995.

The following resolution was offered by Mr. Ray Conner, seconded by Mr. Dousine Conner and declared duly adopted:

RESOLUTION
PARISH OF CAMERON
STATE OF LOUISIANA

WHEREAS, the code of Federal Regulations as enacted by the United States Congress mandates that all structures defined as bridges located on all public roads shall be inspected, rated for safe load capacity and posted in accordance with the National Bridge Inspection Standards and that an inventory of these bridges will be maintained by each state; and

WHEREAS, the responsibility to inspect rate, and load post those bridges under the authority of Cameron Parish in accordance with those Standards is delegated by the Louisiana Department of Transportation and Development to Cameron Parish,

NOW THEREFORE BE IT RESOLVED, by the governing authority of Cameron Parish (herein referred to as "Parish") that the Parish, in a November 7, 1995 meeting assembled, does hereby certify to the Louisiana Department of Transportation and Development (herein referred to as ("DOTD") that for the period November 7, 1995:

1. The Parish will perform all interim inspections on all parish-owned or maintained bridges in accordance with the National Bridge Inspection Standards.

2. All bridges owned or maintained by the Parish will be structurally analyzed and rated by the Parish as to the safe load capacity in accordance with AASHTO Manual for Maintenance Inspectin of Bridges. The load posting information that has been determined by the LA DOTD FOR ALL BRIDGES where the maximum legal load under Louisiana State law exceed the load permitted under the operational rating, as determined above, will be critically reviewed by the Parish. Load posting information will be updated by the Parish to reflect all structural changes and complete structural ratings or any missing structural ratings.

3. All Parish owned or maintained bridges which require load posting or closing will be load posted or closed in accordance with the table in the DOTD Engineering Directives and Standards Manual Directive No. 1.1.1.6. All DOTD supplied load posting information concerning a bridge will be critically reviewed by the Parish Engineer prior to load posting.

4. All bridges owned or maintained by the Parish are shown in the DOTD inventory in the format specified by the LA DOTD. Corrections to date supplied to the Parish by the LA DOTD are noted.

These stipulations are prerequisites to participation by the Parish in the Off-System Bridge Replacement Program.

ADOPTED AND APPROVED on this 7th day of November, 1995.

INVESTMENT POLICY
FOR THE CAMERON
PARISH SCHOOL BOARD
ANDITS COMPONENT UNITS

1. The Cameron Parish School Board shall invest in only those investments allowed under LSA-RS 33:2955 and shall follow the provisions of this statute. Accordingly, the parish is authorized to invest in bonds or other general fund or special fund of the political subdivision, and any other funds under the control of the political subdivision which the parish or political subdivision determines to be available for investment in any of the following obligations;

(a) Direct U.S. Treasury obligations, the principal and interest of which are fully guaranteed by the government of the United States. Bonds, debentures, notes, or other evidence of indebtedness issued or guaranteed by U.S. government instrumentalities or any agency sponsored corporation securites.

(b) Notwithstanding any foregoing investments, in no instance shall the parish invest in derivatives.

(c) Direct security repurchase agreements of federal book entry only securities enumerated in paragraph (a) above.

(d) Time certificates of deposit of state banks organized under the laws of Louisiana or national banks having their principal offices in the State of Louisiana. For those funds made available for investment in time certificate of deposit, the rate of interest paid by the banks shall be estabiished by contract between the bank and the school board.

(e) Funds invested with banks shall be secured by FDIC insurance, unless the uninsured portion is collateralized by pledge of securities in the manner provided in LSA-RS 39:1221. Additionally, such collateral shall be governed by the School Board's written fiscal security agreement. The security agreement will comply with all requirements of the FDIC, GASB3, and the State of Louisiana. Derivatives are not acceptable as collateral.

2. The interest earned on bonds, notes or certificates, or time certificates of deposit so purchased shall be credited by the respective subdivision to the fund from which the bonds, notes or certificates, or time certificates or deposit were acquired, or if they be applied to the payment of the principal and interest of the outstanding bonded indebtedness of the respective subdivision.

3. At anytime that may be deemed advisable the school board or component unit may cash and liquidate any of the investments authorized herein which are purchased for any particular fund. The proceeds of any such liquidation shall be credited to the fund from which the authorized investments were orginally purchased.

Adopted and Approved this 13th day of December, 1995.

PROCEEDINGS
FROM
GRAVITY DRAINAGE
DISTRICT NO. 7
JOHNSON BAYOU, LA.

A special meeting was called to order at 6:30 p.m. on the 28th day of Dec., 1995 at Johnson Bayou office of Gravity Drainage District No. 7 by President Magnus McGee.

Roll as follows: Present: Magnus McGee, Carroll Trahan, Ivan Barentine, Rogerest Romero, Leroy Trahan.

Absent: None.

Guests: George Bailey, Rodney Guilbeaux.

Motion to accept minutes of Dec. 6, meeting by Rogerest Romero, second by Carroll Trahan, passed.

Motion to review and pay bills by Leroy Trahan, second by Rogerest Romero, passed.

Permits reviewed: Motion to approve by Rogerest Romero, second by Leroy Trahan, passed.

Jerry Paul Constance, Sec. 1, 2 & Irregular Sec. 40, T15S, R13W -Performmaintenance dredging of existing trenasse system.

Exec. Secty. Guilbeaux presented final amended budget for 1995. Motion to accept by Rogerest Romero, second by Carroll Trahan, passed.

Exec. Secty. presented budget for 1996, and after a revision by Board, motion to accept by Leroy Trahan, second by Rogerest Romero, passed.

At last meeting, Sammy Faulk requested drainage assistance on his property north of La. Hwy. 27/82 west of Calcasieu ship channel. Lloyd Badon completed the work the following day.

President Magnus McGee reported on the public awareness meeting held at the community center on Hwy. 82 in Johnson Bayou on Dec. 18, attended by himself, Carroll Trahan and Rodney Guilbeaux.

George Bailey and Leroy Trahan reported on the meeting held at the office of NRSC in Lake Charles attended by themselves plus Clay Midkiff, Todd Langlinais, Ronnie Paille, Lloyd Badon and Todd. George Bailey showed the video taken on the helicopter field trip last January. The purpose of the meeting was to consider the amendment to a permit secured by GDD #7 for the Shallow Prong area. The land owner, Bill Dore, wants to modify the permit by wider and deeper digging. The Board has agreed to this providing USWI.&F, US Corps Eng., ETC, approves this request. The meeting seemed very encouraging. We are awaiting the decision.

Rodney Guibleaux reported on the Trans Texas Water Plan meeting in Orange, Texas on Dec. 12. He and Will Nidecker from Sabine Wildlife Refuge were the only persons from Cameron Parish present at the meeting. A follow-up conference to be held in Beaumont in Sept. 1996 was set up. Panel and committee assignments were taken care of, Louisiana was well represented in the list of participants.

George Bailey reported on a meeting in Baton Rouge on Nov. 29, at the office of La. Dept. of Wildlife and Fisheries on marsh management and public-private balance of land rights. Hopefully, permitting will become easier as a result of this meeting.

Trahan's Bayou was opened at its Gulf outlet Dec. 11.

There being no further business, motion to adjourn by Ivan Barentine, second by Leroy Trahan, passed. Next meeting to be Tues., Jan. 16, at 6:30 p.m. at Board Office in Johnson Bayou.

## *Hungary was beautiful, but also very cold*

**(EDITOR'S NOTE--This is the first of two articles written by Geneva Griffith concerning a recent tour that she and Pilot publishers Jerry and Joy Wise made of Hungary, Slovakia and Austria. They traveled with a group sponsored by Northeast State University.)**
**By GENEVA GRIFFITH**

Our first stop on our trip to Hungary, Slovakia and Austria was Budapest, the capital of Hungary. It lies astride the Danube River, with Buda on the west side and Pest on the other, separated by eight bridges, all of which were blown up during World War II. All have been replaced.

In Budapest we stayed in the Grand Hungaria Hotel, which is located across from the railway station. Our 2½ days there were filled with sightseeing, including the Royal Palace, St. Stephen's Cathedral and Hero's Square, and eating some of the famous food of the area.

We also visited a large Farmers Market in a renovated warehouse building, with rows and rows of fresh produce on display. Paprika was on sale everywhere, as that seems to be the main spice used in Hungarian cooking. We purchased bags of it to bring back to friends as souvenirs, and learned to eat it on eggs for breakfast.

We finished our first day with a dinner at Gulyas restaurant that featured dancers, singers and gypsy music. There we were introduced to an ancient Hungarian instrument, the Cimbalome, which sounds much like a cross between a piano and harpsichord, and is played on strings with mallets.

We were in awe in the beautiful cathedrals we visited. We were told by the guide that the upkeep is paid for by the government. There is no separation of church and state as we believe in. However, if they were not supported by the government they probably could not still be in existence, for the people have only been out from under Communist rule for the past three years, and most have lost their property, with only part of it being returned.

On a visit to Esztergom, the first capital of Hungary, we visited an medieval palace and the reconstructed palace cathedral where the famed composer Franz Listz composed the ceremonial Mass.

The Esztergon castle and cathedral is the treasury for the Catholic diocese of Hungaria and holds many of the sacred relics from the past.

From here we traveled up into the snow covered mountains to the Citadel castle from the 15th century and the Solomon tower from 1250, where Dracula was once imprisoned. However, it was closed due to a recent fall by a tourist negotiating the slippery stairs.

The snow and sleet and extreme cold weather were a constant threat and we had to be very careful in walking on the sidewalks. We had several falls and one traveler broke her hand.

I was so cold I had to sleep in my fur coat one night because the maid had left the window open.

Most of our group attended an opera which was sung in German. The script was flashed above the stage so people could know the words of the songs. The Magyar Allam Opera House is a magnificent building, with crystal chandeliers, painted ceiling, and hand carved private boxes. It is apparent from the beautiful old villa which have now been turned into offices and embasies, that the the affluent lived very well in Budapest and nothing was spared on the buildings and furnishings.

From Castle Hill the view is spectacular.

We tried to find unique gifts every where we went. However, our money didn't go very far this trip because our dollar was way down against the Forint and Schilling.

My gift to myself from a quaint little shop in Hungary are two miniatures, a duck and an alligator, made from malachite, made from arsenic, a poison. Some people have been poisoned from jewelry made from malachite which had no backing so it touched the skin.

We left Budapest on Wednesday morning for Vienna, Austria, with a stop in Bratislavia, the capital of Slovakia.

**SEVERIN MILLER IS KNIGHT OF THE YEAR**

Severin Miller of Grand Chenier was named "Knight of the Year" Saturday night at a banquet at the Knights of Columbus Home in Creole.

Mr. Miller is a charter member of Cameron Council 3014 and a member of the Msgr. Hubert Cramers General Assembly of the 4th Degree. He was cited by J. Berton Daigle, last year's recipient, who presented the award, for his work in the making of plans and generous contributions in the rebuilding of the St. Eugene Church at Cow Island.

He was also instrumental in the creating of a parish composed of Grand Chenier, Cow Island and Pecan Island. He served on the building committee whenthe Cameron K of C Council home was rebuilt after the hurricane in 1957.

Mr. Miller had headed a committee at Grand Chenier for the two shrines which the council raised funds to be erected at Creole and Cameron.

He is a farmer and cattleman and holds membership in the Cameron Parish Cattleman Association, Cameron Parish Farm Bureau, and a member of the Board of Commissioners of the Gravity Drainage District at Grand Chenier.

Mr. Miller is married to the former Lidian Bonsall of Grand Chenier and they have one daughter, Mrs. Charles D. Theriot of Grand Chenier.

Rev. Anthony Bruzas, M.S., pastor of Sacred Heart Parish in Creole, gave the invocation and benediction. Ray Dimas served as Master of Ceremonies and Grand Knight Whitney Baccigalopi was in charge of the program.

**ROUNDABOUT THE PARISH**

Hackberry -- High school senior girls who will model furs in the Fur Festival are Renee Becnel, Linda Pearce, Brenda and Linda Kershaw and Ludwika Waldron.

Cameron -- Edward Swindell, Jr., Barney Kornegay and Bobby Doland left over the weekend for LSU and all three will play in the school band at the Cotton Bowl.

Mr. and Mrs. Harold Savoie of Jennings spent New Year holidays with her parents, the Hilaire Heberts.

## Mineral production drops in parish

—CAPITAL NEWS—

The state's income from natural resource production increased slightly in October, but work in Cameron Parish yielded a marginally lower level of tax receipts than in the previous month.

According to the October report from the state Department of Revenue and Taxation, natural resource production in the parish accounted for $1.22 million of the state's severance taxes. During September, severance taxes received for work in the parish totaled $1.26 million. Both figures were markedly lower than the $1.68 million and $1.34 million recorded in September and October of 1994, respectively.

Natural gas production accounted for the majority of the taxes received for work in the parish, amounting to $697,765 of the month's total and ranking the parish third in that category. Oil production was responsible for the remaining $522,638. The two together ranked the parish seventh in overall severance tax receipts.

The parish collecting the tax on oil and natural gas receives one-fifth of the total up to $500,000. Seventy-five percent of all revenue colelcted on timber products goes back to the parish.

After declining for three consecutive months, the state's total severance tax receipts edged upward in October. They rose from $28.2 million in September to nearly $28.5 million in the current report. However, severance taxes in October 1994 brought $29.3 million into the treasury.

Plaquemines held its normal position at the head of the severance tax rankings, reporting $4.9 million in October. Vermilion's $2.6 million kept it in second place, but Lafourche moved ahead of Terrebonne by $100,000 with $2.4 milion. The rankings for fifth through seventh places were unchanged with Iberia showing $1.6 milion in the current report, St. Mary listing $1.3 million, and Cameron reporting $1.2 million. No other parishes exceeded the $1 million mark in October.

## Allen rites to be held here Friday

Funeral services for Kerry Lin Allen, 42, of Cameron, will be held Fri., Jan. 5, at 11 a.m. at the Methodist Church, Cameron. Rev. Joe Rountree will officiate; burial will be in Kelly Rogers Cemetery, Cameron.

Mrs. Allen died Wednesday, Jan. 3, 1996, in a Lake Charles hospital.

Visitation will be at the church from 8 a.m. to 10 p.m. on Thursday and until time of service Friday.

A native of Cameron, Mrs. Allen was a graduate of South Cameron High School and a member of the Methodist Church.

Survivors are her husband, Douglas Allen; her mother, Elsie Roberts; one brother, Robin Roberts, all of Cameron; two sisters, Kim Repp of Dallas, Tex., and Kelley Iler, Lafayette.

### CARD OF THANKS

I did not work at Angela's Fireworks Stand in Creole this year. I had taken another part-time job and couldn't be in Creole during the holidays. I would like to thank the employers of Canik Hardware, Tarpon Video, and Pats of Creole for letting me use their facility. I would also like to thank those who visited on long afternoons and dropped off plate lunches and coffee. Most of all, thanks to my customers for the business they gave me for the past 5 years.

Thanks again,

### WATER GOING DOWN

Our marsh water is slowly going down in some of our marshes, while some marshes rose. I do know one thing, there's lots of ducks that left our marshes and went north to the rice fields, and what ducks we do have are scattered. In most blinds, early shooting is best, because as the sun rises, things get real slow.

It is said that 5.5 million ducks are in Louisiana, with our northern parishes with less. Now with all the rain lots of our southern coastal marshes will lose our ducks to the northern and central parishes.

A duck count in early December before the heavy rains went like this for southwest Louisiana: Mallards, 402,000; mottled ducks, 80,000; gadwall (gray ducks), 1,218,000; widgeon, 114,000; green-winged teal, 662,000; blue-winged teal, 126,000; shoveler (spoonbill), 149,000; pintail, 432,000; total dabblers 3,183,000; scaup, 4,000; ring-necked ducks, 18,000 and canvasbacks, 18,000.

Even our coot numbers are down, SWKA 193,000 compared to 903,000 in southeast and Catahoula Lake 73,000.

### PROBLEMS

Agriculture committee in the U.S. House and U.S. Senate have drafted wetland reform that would exempt 6 to 9 million acres of cropped wetlands from federal protection, which likely would have a severe impact on duck populations, duck hunting and 2.9 million duck hunters. The proposal is part of the "policy farm bill" now taking shape following completion of the budget reconciliation package that dealt with funding for farm programs.

Now for the state's past loss of revenue to the department of Wildlife and Fisheries Council by decreasing hunting license sales, which adds up to milions of dollars lost over the past 10 years. It's a very serious problem according to LDWF Secretary Joe L. Herring. Since the 1982-83 season licenses for basic hunting dropped from 399,077 to 248,401, a loss of 140,676 license holders. Losses of license sales not only means loss of state funds but loss of federal funds. The $10.50 license fee that is charged is not all for the state. The state only received $8. Fifty cents goes to the license vendor and 15 percent goes to the parish sheriff's departments for handling.

Big game licenses have also dropped with a loss of 33,501 license.

Three reasons were given for these losses: 1. Land leases too high and also the economy. Many can't hunt close to their homes. Many don't want to hunt wildlife management areas. 2. Restrictions on hunting. Many hunters who only hunt a few days each season are worried about making a mistake or error and getting a ticket and having that on their record. They can play golf and not worry about all these hunting rules. 3. Single parent homes, raised by their mother who don't hunt.

A good example of complicated federal laws for hunting migratory birds is what constitutes baiting. Many hunters get caught by hunting over baited fields or ponds and didn't even know they were baited, or they were invited on a hunt.

### SEASON CLOSURE

Jan. 4, is the last day of deer season. Next Thursday, Jan. 11, is the last of duck and coots. All rails and gallinules closes Jan. 10. Dove season closes Jan. 14.

### FISHING NEWS

A few boats are trying saltwater fishing, but really not much luck, however, a few redfish were reported caught on the sunny afternoons in the Hog Bayou area. Big Lake still has the high water problem.

It seems the issue on the gill nets is still not settled, supporters argue that the net law has holes in it and must be fixed with a total ban by the next legislature.

The La. Wildlife and Fishing biologist still says there is no scientific data that gill nets would hurt the fishing industry. They also say a large size mesh net would be less harmful than the hooks favored by recreational fishermen.

I'm sure we'll hear more on this.

### SUNRISE-SUNSET

Fri., Jan. 5, 7:10 a.m., 5:26 p.m.
Sat., Jan. 6, 7:10 a.m., 5:27 p.m.
Sun., Jan. 7, 7:10 a.m., 5:28 p.m.
Mon., Jan. 8, 7:10 a.m., 5:29 p.m.
Tues., Jan. 9, 7:10 a.m., 5:30 p.m.
Wed., Jan. 10, 7:10 a.m., 5:30 p.m.
Thurs., Jan. 11, 7:10 p.m., 5:31 p.m.

This will be our last sunrise-sunset for this year. We will go back to feeding periods.

This is the time of the year when our days start to get longer. As you can see the sun is setting later and come Jan. 18, sunrise will start to come early and of course the days will start to become longer by about 2 minutes each day.

**Flea Prevention Tips**

There are several steps consumers can take to help prevent flea invasions. They should remember to:

- Keep rodents away from the house by screening foundation vents under the home, moving garbage containers, clearing plants and restacking wood piles away from the house. Fleas on rodents will quickly hop on dogs or cats nearby.
- Discourage any bird or rabbit nests near the home.
- Replace or wash pets' beds frequently to eliminate flea eggs.
- Vacuum carpets, rugs and furniture to remove any flea eggs, larvae and pupae. Pay attention to areas frequented by pets, as well as cracks and crevices along walls. Dispose of vacuum bags immediately.
- If fleas still persist on your pet or in your home, consult a veterinarian or use a flea control product which contains Dursban™ insecticide. Dursban offers effective control of fleas in and around the home.
- For best results with a flea control product, always read and follow all label directions.

THESE MEMBERS of F. J. Pavell KC Council will represent the council in the state religion contest in Lafayette, Sunday, Jan. 7. They won the area contest in Lake Charles on Dec. 17.

## *Governor makes hunt at Oak Grove*

**MIKE FOSTER, who was sworn in Monday as Louisiana's new governor, got in a duck hunt on Dec. 30 at the Oak Grove Hunting Club at Oak Grove prior to taking office. Shown above, from left, are Gov. Foster, Dave Broussard, hunting club manager; and Mike Baccigalopi, head guide. Dave Savoie was the governor's guide. Foster got his limit of pintails and mallards.**

# Jury installs new members, officers

By GENEVA GRIFFITH

The first Cameron Parish Police Jury meeting of the year was held Monday and began with a lengthy executive session before some of the pesonnel appointments.

Elected unanimously as jury president and vice-president were Brent Nunez and Douaine Conner, respectively; Tina Nunez and Bonnie Conner were each reappointed as administrator and secretary for one year terms, respectively. Newly elected jurors Malcolm Savoie and Dusty Standifer were sworn in.

Juror George LeBoeuf presented his idea for a new highway through the marsh north connecting Cameron and Grand Lake, something he has talked about for a long time.

"Our community is dying", he said. "We are losing businesses and revenue and we need to have access to the parish from Lake Charles and Interstate 10. It looks like the oil and gas drilling in the Gulf of Mexico is coming back. We have growth potential, but are not allowing ourselves to grow."

He said the police jury needs to hold a meeting with parish officials and civic organizations to form a local plan for building of the road to Grand Lake or a causeway across the lake to cut down on the driving time to the northern part of the parish.

Brent Nunez, Grand Lake Juror, said there might be a possibility that road roalty funds could be used to achieve this, and asked the jury's support. It was to be discussed further at a jury planning meeting Wednesday.

LeBoeuf also said that he has been studying the parish taxing district and stated, "We do not have our taxing in the right place. For instance, we have 240 miles of parish roads in our parish, most over 35 years old, and pay less millage for the maintenance than we have set aside for garbage, schools, ambulances and many other taxes. We need to revamp these taxes."

He called on the jury to advertise the schedule of taxes in all wards.

George Hicks, Hackberry Police Juror, asked the jury for permission to use an office in the Hackberry Fire Station, which was recently vacated when the Sheriff's sub-station was closed down. He wanted to use it as a temporary tourist information center while a permanent one is being constructed.

Sandifer asked the jury to change the polling place at Johnson Bayou from the Community Center to the Johnson Bayou Fire Station, which was approved.

The jury accepted a bid of $9,500 from Black Lake Marsh, Inc. as the low bid n the Christmas Tree project. Other bidders were: Larco, $11,744, and Crain Brothers, $17,500. The project was rebid after the previously low bidder failed to meet insurance requirements.

The jury set its 1996 meeting dates as follows: Regular meetings - first Tuesday of each month at 10 a.m.; Planning meetings - second Wednesday of the month at 10 a.m.; and Adgenda meetings - last Tuesday of the month before the next jury meeting at 6 p.m.

The date for this meeting was requested by the new jury member, Sandifer, so working people would be able to attend. However, nothing can be voted on at the adgenda or planning meetings.

# Dr. King's birthday to be observed

The Christian Women of Cameron will host the 4th annual Martin Luther King Day Celebration Sunday, Jan. 14, at 3 p.m. A musical will be held at the Ebenezer Baptist Church with the president of Christian Women, Rebecca LaSalle, in charge.

Monday, Jan. 15, at 8 a.m., there will be a prayer breakfast at the Ebenezer Baptist Church. The keynote speaker will be Miss Brenda Dugas, a faculty member of McNeese State University. A peace march and motorcade from the church to the Cameron Recreation Center will begin at 10 a.m., where there will be youth activities, an MLK video, MLK information center, a magic show and door prizes.

The winners of the poster and essay contests will be announced Mon., Jan. 15. The theme is: "Keep The Dream Alive". All students participating must have their poster or essay turned into their school by Thurs., Jan. 11. The poster contest is for grades K-7th, with two groups - K-3rd and 4th-7th. The essay contest is for grades 8th-12th.

The essay should be handwritten or typed with 150-200 words. The first and second place winners of each contest will be awarded a $50 savings bond, donated by Cameron State Bank.

More information may be obtained by contacting Sandra DeShields, chairman, at 775-7211 or 775-8158 after 5 p.m.

There will be free lunches served at the Ebenezer Baptist Church for the children and adults who attend.

# NAACP to hold King observance

The Cameron Chapter of the [illegible]CP will hold its observation of Dr. Martin Luther King Jr. [illegible]nal holiday on Saturday, Jan. 20.

A parade will open the festivities and organizations or firms wishing to enter cars or floats are asked to contact Louise Cole, NAACP president, 775-5240, or Mary Lockrell, 775-6961 for information.

The program will be held at the recreation center behind the courthouse at 7:30 p.m. and will feature a gospel extravaganza. Admission will be $1.

More information on this program will be published next week in the Pilot.

# Posters are now on sale

A poster commemorating the 40th annual Louisiana Fur and Wildlife Festival has just been published and will be on sale at each of the festival's evening programs and at the recreation center behind the courthouse.

The poster was designed by Frank Brown and features each of the industries in Cameron Parish, including menhaden, shrimping, oil and gas, cattle, trapping and rice.

One hundred signed and numbered posters are on sale for $25 each. The first copy will be auctioned at the festival.

Unsigned posters will sell for $10 each and may be secured at the Cameron State Bank and Calcasieu Marine Bank in Cameron, at each of the festival's night programs and at the festival's grounds behind the courthouse.

Posters also can be ordered from Mrs. Rosalie Perry, Rt. 1, Box 28, Grand Chenier, La. 70643.

The Cameron Telephone Company financed the printing of the posters.

**HEATHER TAYLOR, Grand Lake High School 4-H member, received a national rice promotion award at the National Rice Industry Outlook Conference in St. Louis, Mo.**

**STATE SUPREME Court Associate Justice Jack Watson, right, will be the parade marshal for the Fur and Wildlife Festival parade which will be held at noon Saturday in Cameron. Judge Watson was shown above at the Starks Christmas parade with his dog and with District Judge Charles Quinalty**

## Chamber sets banquet Monday

# Peveto family is featured in issue

By GENEVA GRIFFITH

Several people with close ties to Cameron Parish were featured in a recent issue of Las Sabinas, the publication of the Orange County, Texas Historical Society.

In the feature "World War II Remembered", Frances Peveto Reid writes about her experiences in the war, along with her sister Lou Ida Peveto, as nurses in the Army in North Africa and Italy.

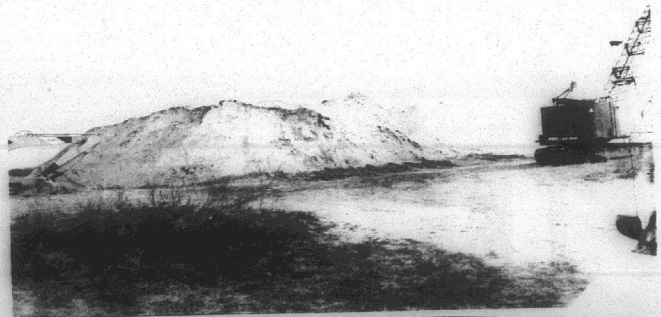
The two sisters and their brothers, Edgar H. Peveto, Jr., and Rupert Grayson Peveto, both Navy men, are featured on the cover of the publication.

They were the children of the late Myrtle Doxey and Edgar Henry Peveto, Sr. They were born and reared in Grand Chenier in the Doxey house, which belonged to their grandparents. It is the oldest home in the Parish today.

Also in the same issue is a story by Geneva Griffith entitled "Swamp Angles Patrolled Beaches During World War II."

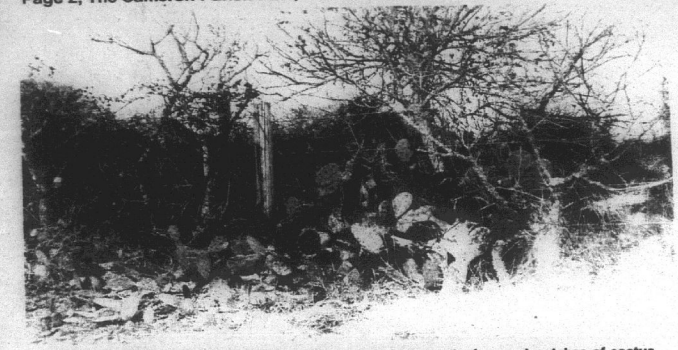
In the editor's footnote it said that the Swamp Angels of Grand Chenier were important to Orange, Tex., because they were a vital part of the area's Coast Guard.

Orange, with the ship building industry and Jefferson County with its refineries, were vulnerable to sabotage.



The Gulf was known to have been infiltrated with German submarines that were sinking American ships. Also, there were rumors of area German sympathizers giving provisions to the submarines.

Due to the unique terrain of the Grand Chenier coast line, the natives were the only ones knowledgable enough to attempt this mission.



Some of the group, who were also known as "The Cajun Coast Guard", and "The Grand Chenier Coast Guard", gathered for a reunion in Cameron in 1984 during the annual Louisiana Fur and Wildlife Fesitval, and exchanged memories with their former lieutenant, the now late Winn Hawkins of Lafayette.

**AN ORDINANCE governing sand mining in Cameron parish is scheduled to be considered at an upcoming meeting of the jury. This picture was taking of such an operation on the Front Ridge road. The new ordinance would primarily pertained to the northern part of the parish as such work in the southern part is already governed by coastal zone laws.**

A VISITOR MIGHT think he is in West Texas when he sees the frequent patches of cactus plants along the cheniers in lower Cameron Parish. The plants which thrive in dry sandy areas apparently have found the sandy cheniers to their liking.

THE BREAKWATERS built along the shore from Constance Beach to Holly Beach in recent years seem to be helping the beaches in this area rebuild. The sand settles behind the barriers and the beaches are rebuilding. (Photo by Geneva Griffith)

## DO YOU REMEMBER?

By Keith Hambrick

(Lake Charles American Press, Jan. 10, 1930.)

### CAMERON ROAD DELAY DISCUSSION

Benson Vincent, president of the Cameron Police Jury, stated today that he has no information concerning the delay of the Louisiana Highway Commission in finishing up the Gulf Beach Road from Hackberry Island to the town of Cameron, parish seat of Cameron Parish, but the matter will probably come up before the Cameron Police Jury at its regular monthly meeting Monday afternoon, January 6.

In the early part of 1928, the citizens and taxpayers west of the Calcasieu River in Cameron Parish asked the police jury to forma road district west of the river so that bonds could be voted to pay half the cost of construction of a highway outlet from Cameron Parish, and after delays and the adjustment of some legal difficulties, it was found that the territory undertaking to have the improvement made could not issue but a little more than $100,000, but by an agreement with the state, the work was undertaken; the district to pay what it could and the state to than finish the work.

(Cameron Pilot, Jan. 10, 1963.)

### THIS WEEK
(By Jerry Wise)

Mrs. Norma Jeanne Blake, deputy tax collector, received an interesting call at the sheriff's office this week from a Mr. and Mrs. Keating who said they were in Lafayette doing an article for the National Geographic Magazine on the Louisiana marshes.

They said they had heard about the Louisiana Fur and Wildlife Festival in Cameron this weekend and were coming down to take pictures of the activities for their article.

Prominent mention in a high quality magazine such as the Geographic certainly would be a boost to the fur festival and to local tourism.

According to Dun & Brandstreet, there are 110 business in Cameron Parish.

Cameron's newest business, Rodney Guilbeau, was really hard at work this week at the Shell station, of which he has assumed the managership.

### KELSO BAYOU BRIDGE DANGEROUS

The Kelso Bayou Bridge and a section of Highway 27 north of Hackberry were delcared "dangerous" in a resolution directed to the State Highway Department by the Cameron Police Jury Monday.

Hackberry Juror C. A. Riggs said that the draw bridge over Kelso Bayou was one-way, had a low clearance making it difficult for big trucks to use it, and that several years ago a woman and child had been killed when a pipe fell from a truck going over the rough planking of the bridge.

Mr. Riggs said that a section of the highway just north of the bridge had sunk and during wet weather was dangerous because of the water held in the holes.

The Jury asked that the highway department take steps to correct the two dangerous conditions.

### CAMERON TEACHERS GET SALARY INCREASE

Cameron Parish teachers got a nice New Year's gift from the Cameron School Board on January 1 - a salary increase ranging from $150 to $200 a year.

Superintendent U. E. Hackett outlined the new pay schedule as follows:

Teachers with a B.A. will receive $4,000 a year as beginners, and a maximum of $5,900 a year after 12 years of experience.

Teachers with a M.A. will start at $4,150 and receive a maximum of $6,700 after 12 years.

The salary range for teachers with three years of college is from $3,400 to $4,950, and for those with two years of college, from $3,000 to $4,400.

The new schedule gives teachers $600 more than the state minimum. The superintendent said he is proud of the increasing caliber of Cameron teachers and pointed out that some 14 of them now have masters degrees.

### ROUNDABOUT THE PARISH

Black News - The Audrey Memorial yearbook staff for 1962-63 is as follows: editor-in-chief, Mary Ellen Godette; assistant editor, James Bargeman; secretary, Mary Ruth Andrews; activity or society editors, Allie Lee Jones, Alice Cockrell and Theresa Washington; sports editor, Gary Jones; assistant sports editor, McArthur Dozier; business manager, Carolyn Morris; junior photographers, Alice Cockrell and Joyce January; and treasurer, Mrs. Wanita Harrison.

Grand Lake - Patty Jo Hebert, daughter of Mr. and Mrs. Dewey Hebert, was named Queen of the Grand Lake High School Homecoming Friday night before a basketball game between the Hornets and Marion. Escorted to the stage by her father, she was crowned by last year's queen, Yvonne Eagleson.

Sweetlake - Bids on the construction of a pontoon bridge to replace the Sweetlake ferry will be opened Feb. 20 in Baton Rouge, Rep. Alvin Dyson was informed this week.

Cameron - The annual W.S.C.S. Christmas party of the Methodist church was celebrated at the home of Mrs. Edward Swindell recently. Games were conducted by Bessie Davis and Mrs. U. E. Hackett.

Creole - Creole children had an extra week of Christmas vacation because the water well at South Cameron went to salt water and a new well had to be dug.

Musing by Bernice Stewart - Have you ever wondered why the years go by so much more rapidly than they did when you were a child? An oldster explained it to me. "When I was very young, the years were horse-drawn; then gasoline-powered. Now, they are atomic-accelerated. I'll bet my bifocales that 2000 will be zipping away into past duration before 1999 has run out." Perhaps he is right.

VISITORS TO the 1995 Fur Festival here look through the Festival's scrapbooks which have been kept for most of the 40 years of the festival.

THE GRAND LAKE-Sweet Lake ambulance service is located in this building located next to the fire station at Grand Lake. The new rural health clinic is located behind this building.

# Foster makes appointments

—CAPITAL NEWS—

Moving steadily toward inauguration day Jan. 8, Gov.-elect Mike Foster added more top officials to his list of cabinet appointments.

The Department of Health and Hospitals will be headed by 24-year-old Bobby Jindal, a choice Foster describes as "a bit unorthodox due to his young age." But Jindal, a senior management consultant for an international consulting firm, is a Rhodes Scholar who attracted Foster's attention when he read Jindal's article on health care reform in the Louisiana Medical Society's Journal. Jindal has researched pharmaceconomic issues for Smith Kline and Beecham and AIDS in conjunction with Pennington Biomedial Research Center. He also has performed efficiency studies for several local physicians.

Foster said the management team will be asked to "reinvent" DHH. Jindal pledged the department, which has been plagued by budget shortfalls and program irregularities, will be "a clean department -- no more corruption scandals and no more budget tricks." At the same time, he hopes to "transform Louisiana's public health care system into a model for the rest of the nation to emulate" as it provides top quality care for the poor without burdening the taxpayers.

The only minority cabinet appointee to date, Madlyn Bagneris, was named secretary of the Department of Social Services. Bagneris is an executive for Entergy Corp., a major utility company, and is the wife of Civil Court Judge Michael Bagneris of New Orelans and sister-in-law of New Orleans Sen. Dennis Bagneris. Foster described Bagneris' department as one of the "hot seat" agencies, pointing out that Congress is expected to begin a bloc grant program for social services. Bagneris said she will find out about the department's programs and "take off running" to do the job "faster, better and cheaper."

The governor-elect tapped his Acadiana roots for the secretaries of the departments of Wildlife and Fisheries and Natural Resources.

Wildlife and Fisheries will be headed by James H. Jenkins Jr., a Lafayette native described by Foster as "a staunch conservationist and an avid hunter and fisherman." He chaired the Wildlife and Fisheries Commission in 1992-93 and has been a member since 1988. Foster said Jenkins' "solid business background" gives him a thorough understanding of the commercial fishing industry's importance to balance his interest in conserving the state's wildlife and fish habitats.

A Lafayette oil and gas attorney, Jack C. Caldwell, will head the Department of Natural Resources, which he said will focus much of its attention on coastal preservation and restoration. Foster said Caldwell agrees with him but that the department must be run more like a business and show more sensitivity to citizens' needs.

Foster named John Dale Givens secretary of the Department of Environmental Quality, where he has been employed since its creation in 1984. He has served as assistant secretary in the Office of Water Resources, administrator of Technical Services and administrator of Municipal Facilities. Foster described him as "extremely serious about protecting the environment and conserving our natural resources" but also said Givens knows environment and business interests must be balanced.

The five cabinet appointees join those announced earlier: Steve Perry as chief of staff; Terry Ryder as executive counsel; Mark Drennen as commissioner of administration; John Kennedy as Revenue and Taxation secretary; Frank Denton as secretary of Transportation and Development; and William "Rut" Whittington as head of the state police. Still unnamed were secretaries for the departments of Corrections, Economic Development and Labor.

Foster has said it is more important to him to get "the right people" than to have new department heads in place on Jan. 8. "If I don't have the people I want, I'm either going to put interims in place or not rush it," he said earlier.

## DOG TRIALS CANCELLED

# Fishing regulations pamphlets available

The 1996 Fishing Regulations pamphlets are available at Department of Wildlife and Fisheries offices, parish sheriff's offices and numerous retailers offering hunting and fishing licenses for sale. Copies are free to the public.

The pamphlet is an important tool for any recreational or commercial fisherman because it summarizes laws regulating the legal take of Louisiana's various aquatic resources. Included are size and possession limits, restricted areas, recreational and commercial license fees, a detailed description and map of the saltwater - freshwater line, and a description of the Louisiana Artificial Reef Program.

Regulations regarding harvest and sale of the state's shrimp, oysters, crabs, and reptiles and amphibians also are listed.

The pamphlet has new significance for commercial fishermen as it contains new regulations resulting from the gill net law passed during the 1995 Legislative Session. This new law is outlined, as are new license requirements. Fees for new licenses also are included.

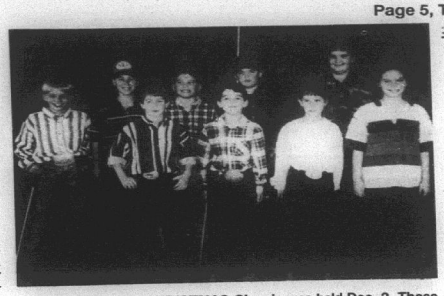
**DUCK HUNTING ENDS**



Thursday is "D" Day for the duck hunters, as hunting ends at sunset Jan. 11. Duck and coot hunting will be closed and Friday we'll get a chance to sleep late.

Rail and gallinules as well as deer season are also over. Dove season closes Sun., Jan. 14. The only other bird hunting left open is snipe and widgeon and unless it's really cold, we won't see any woodcock, however, we do have quite a few snipe down in our ridges by the marsh.

The goose season remains open until Jan. 31, for blues, snows and speckle bellies and then on Feb. 1, thru Feb. 25, it's blues and snows only. Quail season is also open until February 29, but we really don't have but a handful of quail and I don't think I would shoot them anyway.

For the rabbit and squirrel hunters, you're in luck. Rabbit is open until Feb. 29, but squirrel closes Jan. 28.

Our new Governor-elect Mike Foster made a couple of trips down to an Oak Grove hunting club for some good hunting. A real outdoorsman, he and his grandson and son were guided by Dave Sonier.

THE JENNINGS CHRISTMAS Classic was held Dec. 2. These members of the South Cameron Elementary 4-H Club attended the swine show: Jeremy McDaniel, Trey Wilkerson, Dusty Savoie, Kaylee Canik, Chase LeBeouf, 4th place; Scott Savoie, 4th; Brett Baccigalopi, two 1sts, Division Champion, Division Reserve Champion, Overall Reserve Champion, 2nd place showmanship; Chance Baccigalopi, 1st; Ryan Bourriaque, 2nd; and Courtney Conner, 4th.

**FISHING REPORT**

Fishing reports were good this week, especially on red fish inland and red snapper offshore.

Fishing the mouth of Joseph Harbor and Hog Bayou, both in Grand Chenier, provided some nice red fish as well as the south end of Calcasieu lake.

There was quite a bit of freshwater in the Big Lake area, and again red fishing is fairly good, but it did slow speckle trout fishing almost to a halt. If we don't get anymore heavy rain spec fishing should pick up.

A couple of boats went out of Grand Chenier last week and they said the seas were not bad and they did limit out on red snapper, some going 10 lbs.

The month of January is usually good for red snapper as they stack up around the oil and gas platforms in the gulf during cold weather. There surely will be some large snappers caught and some of our anglers may have a new state record and don't know it.

The top five red snappers recorded from Louisiana waters are:

1. 39.2 lbs., May 1979, Mrs. Jessie B. Lane; 2. 39.1 lbs., June 1994, James F. Tomemy; 3. 38.3 lbs., June 1977, Allen M. Kahoe; 4. 37.1 lbs., Aug. 1981, C. Lee Mason; 5. 36.9 lbs., June 1992, John C. Langlois Jr.

**CRAWFISH NEWS**

The China crawfish being imported across the United States including Louisiana has really hurt our Louisiana crawfishermen as they can't compete with the Chinese producers lower prices.

Louisiana producers say they will no longer peel tail meat unless they have solid orders for the tails.

There is still a great demand for live crawfish, as boiled crawfish is a big thing here in our state and many producers will cater and sell more live crawfish than tails, unless at the peak of the crawfish season they have good enough orders.

It's really the Louisiana crawfish farmers that hurt the most, because they harvest only what they can sell right away and most processors won't take the chance and store tail meat for better prices.

**SURVEY**

Last week I got a survey and it had a question of: Which one of these do you find most annoying when fishing?

1. Disregard for fishing laws. 2. Driving a boat too fast. 3. Crowding other fishermen. 4. Disregard for shoreline owners. 5. Littering. 6. Drinking alcohol while boating. 7. Taking too long when launching or loading a boat.

It said to pick only one, but I wrote in all of the answers, as they sure fit our state to a "T" in most places.

Don't forget you guys paying child support, effective Jan. 1, 1996, if you're three months late, you lose your driver's, hunting and fishing licenses, so pay up.

## MDA "jail" to hold "prisoners"

Thursday, Jan. 25, various Cameron citizens will be "serving time" in the Muscular Dystrophy Association (MDA) "jail" located at the Cameron Volunteer Fire Department from 9 a.m. to 4 p.m. The Fire Department is sponsoring this event.

"Suspects" have been charged with "being concerned citizens" and will raise bail money to help MDA fund its research effort and patient care. The funds raised from the lock-up will stay in this area to provide services to 633 people who have one of the 40 neuromuscular diseases.

If you would like to have someone "arrested", your boss, employees, friends, family, wife, husband, etc., contact Melissa Wetzel or Kelly Duncan at (318)433-1890.

## Grand Lake Jr. 4-H meets in Dec.

By RUSTY TAYLOR, Reporter

The December meeting of the Grand Lake Jr. 4-H Club was held Dec. 7. Mike LaVergne, Assistant County Agent, acknowledged the 4-H members who attended the Showmanship Clinic held in November at Burton Coliseum. They were: Scott Myers, Gregory Theriot, Crystal Ewing, Tyler Theriot, Mandi Richard, Ashley Picou, Holly Manuel, Laura LeDoux, Donald LeDoux, and Rusty Taylor.

Mr. Mike then awarded trophies to first place winners of Demonstration Day. 4-Hers who attended Demonstration Day were: Amanda Crochet, Laura LeDoux, Crystal Ewing, Keri Cronan, Brett Wicke, Natalie Precht, Laura Beth Savoie, Sheena LeBouef, Ashley Picou, and Rusty Taylor.

CRD Chairman Brett Wicke reported that the club was conducting a school-wide canned food drive for Christmas.

Mrs. Darlene Taylor announced the winners of the Cookie Bake Contest. They were: Chelsea Chesson, 1st; Keri Cronan, 2nd; Ashley Picou, 3rd. 4-H members who also brought cookies for the contest were Kelly Kline, Lance Guidry, Trinity Kline, Mandi Richard, Lindsey Pool, Laura LeDoux, Sheena LeBouef and Laura Beth Savoie.

Mr. Mike played Ag in the Bag with the club. Patrick Taylor correctly guessed cotton. Mr. Mike gave a report on cotton.

## Girls needed to present ribbons

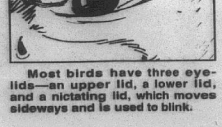
## Sen. Picard sworn in



District 25 State Senator Cecil Picard is officially a member of the 1996-2000 State Senate. As required by the State Constitution, Senator Picard along with other recently elected in-coming Senators was officially sworn in during an organizational session of the Senate at the State Capitol in Baton Rouge Monday.

"I see tremendous opportunities ahead for citizens of District 25 and the state of Louisiana. We have a great chance over the next four years to do some real good for the state and I intend to do everythign I can to make sure we don't miss the chance to pass strict ethics laws, pay our teachers better, increase funding for our colleges and universities, give citizens a say in the future of gambling in their communities, and tackle juvenile crime, teenage pregnancies, and child abuse," Senator Picard said.

Cecil Picard, D-Maurice, brings a wide range of experiences to the new State Senate. The former teacher and school principal first came to the State Senate in 1979 having previously served in the House of Representatives. While in the State Legislature, he has led the way in tackling tough education issues like charter schools and community colleges and pushed for ethics reform years before others talked about the issue.

In the 1996-2000 State Senate, Picard will chair the Revenue and Fiscal Affairs Committee which sets out the state's construction program, watches over state debt, and considers state taxes and tax exemptions. He also expects to serve on the Education, Environment and Local and Municipal Affairs Committees as well as the Senate Revenue and Fiscal Affairs Committee as an ex-officio member.

# Slovakia visited on last leg of trip

**(EDITOR'S NOTE--This is the second and last article on a recent trip made by the writer and the Cameron Pilot publishers to Hungary, Slovakia and Austria. They were among a tour group from Northeast State University of Monroe.)**

By GENEVA GRIFFITH

On the second leg of our trip we stopped for lunch in Bratislavia, the capitol of Slovakia, a part of the former Czechoslovakia.

We were met there by Dr. Jozef Miklosko, the vice premier of Czechoslovakia before its breakup three years ago. He was a friend of a member of our group, Fred Huenefeld, who had arranged for him to meet us.

"Slovakia has only been in existence the past three years. After over 900 years of history in this place we are now free, and this is so good," Dr. Mikloska stated. "We have been 40 years under the Iron Curtain between the Communist world and freedom."

On our way to Vienna we passed through tiny villages and farms that had giant racks of round hay bales stacked like pyramids in the fields. Each little community has its ornately decorated church and tiny roadside markets filled with fresh vegetables and gifts.

At the Austrian border our bus was boarded by a sour looking Slovakian guard who went through the bus carefully checking each passport. Then we waited about 15 minutes until the border guard from Austria boarded the bus and re-checked our passports.

Music was in the air when we arrived in Vienna. The Viennese have music wherever they go, on the busses, in the hotels and businesses. Mozart composed his masterpieces in Vienna; Beethoven wrote his great symphonies there; Haydn, Schubert, Bruckner, Brahms, Strauss, Mahler and Schonberg all lived and worked there.

You will find music from classics to musicals at the theatre, festivals and opera houses.

One night we attended a chamber musical in one of the rooms at Schonbrun Palace, the summer palace of the royal family. We had to have reservations and only 114 persons were allowed in the salon.

There was ballet dancing, operatic arias, and a string quartet.

The music was beautiful, transporting you back to an earlier, elegant time.

The Romans considered Vienna as an ideal site, at the edge of the Danube River and set up the' mi' itary camp "Vindobone" in th fir: century, and in 1278 the Hapsburgs came to power which ended with the First World War.

During the reign of Empress Maria Thersa, the only woman to sit on the throne of Austria - Hungary, who had 16 children, the Hapsburg family practically ruled the world. They had many crowns, including the crown of the Holy Roman Empire. Marie Antoinette was a daughter, as was the widow of Napoleon Bonapart.

The Hofburg and the Schonbrun, the winter and summer palaces of the royal family, are beautifully kept, with the original furnishings, crowns, royal robes, and jewels of the royal family on display.

I asked the tour guide if any of the descendants of the royal family still lived there and she replied that most are now living in New York.

One of our tours outside of Vienna was to the picturesque little village of Melk where we toured a monastery that was occupied by 35 monks who ran a private school and kept up the grounds beautifully.

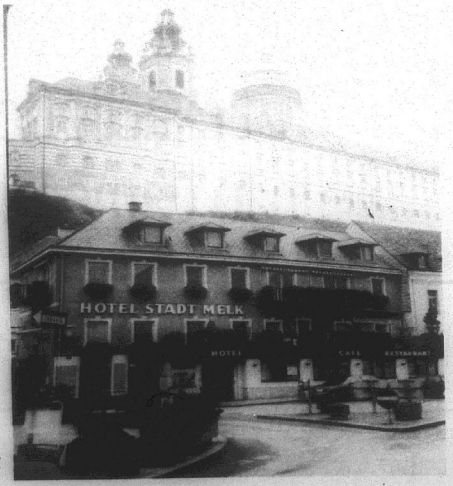
It was originally owned by a very wealthy family of nobility, and was a stopping place for the royal family to stay when they journeyed to other places. The Bombeck family donated the palace to the Benedictine Order in the 13th century, before the Hapsburgs came to power. The chapel was so elaborate, it was more beautiful than the Sistine Chapel in Rome.

The library contained priceless books, and at one time owned a Gutenburg Bible that was sold to pay for renovating the buildings.

The monastery sits on a bluff overlooking the Daunube and towers over the tiny village of Melk. The only drawback was the 65 steps we had to climb down, then back up to get in and out of the courtyard.

We ate a delightful lunch in a village restaurant and journeyed back to Vienna, passing near the hunting lodge at Meyerling where the son of Emperor Franz Joseph, Crown Prince Rudolph, committed suicide in his early 30's.

We visited St. Stephen's cathedral, which was bombed in World War II and all of the famous stained glass windows destroyed. They have been replaced, but are not as ornate as the originals.



The Christmas market is a beautiful showplace at night where thousands of lights twinkle on the row after row of stalls.

We were introduced to a Venitian confection called Langos, which is a round fried confection, about 8 inches in circumference, which is "an Hungarian Pizza made with potatoes and garlic".

Children were everywhere with their parents to see the sights and to talk to St. Nicholas who was on the scene.

In Austria St. Nicholas has a favorite accomplice known affectionally as Krampus, a hairy, yetilike beast, with horns, a long, red tongue and fiery eyes, a far cry from the friendly reindeer a child here would expect to see. We ended one of our days in the Vienna Woods where we had dinner in a wine cellar, with music by a gypsy band.

We loved our winter holiday, but were glad to leave the beautiful snow and ice behind and get back to our warmer weather in south Louisiana.

**THE "STIFT MELK" Monestary looms high above the village of Melk.**

# Just when you thought banks just don't get it,

## Account One

## (we got it).

Yes. We really have it, and it's exclusively available to you at Calcasieu Marine: a single account replacing all others, paying great interest rates on your account balance, with **no fees or charges** when the account balance minimum of $7,500 is maintained.

No more checking account and savings account at a bank, money market account to earn deposit interest from some brokerage firm, and CDs somewhere else, to boot. A single account, with a consolidated monthly statement, that does it all.

Your account is accessible to the max: by check, ATM, account transfers, ACH deposits/debits, and through CMNB's current debit card program.

Charges?

Just maintain the $7,500.00 account balance minimum, and you **will be charged nothing**: no annual fee, no monthly service charge, no transaction fees, no per-check or check-printing charge (with our wallet-style corporate image checks), no fee for Travelers' Checks or Stop Payment service, and no overdrafts.

The end of complicated personal money management.

| Account Balance | Annual Percentage Yield |
|---|---|
| $50,000.00 + | 4.58% |
| $15,000.00 – $49,999.99 | 4.06% |
| $7,500.00 – $14,999.99 | 3.03% |

Rates may change after the account is opened, adjusted weekly to the 30-Day U.S. Treasury Bill asked rate, and rates shown are effective January 2, 1996. The account minimum is $7,500, and interest is not earned on lesser amounts. If the balance falls below $7,500, fees imposed could reduce earnings. Interest is earned on the entire account balance at the highest qualifying rate. The account is for individuals only.

# CELEBRATE

*FESTIVAL MAGIC!!*

## Welcome To Our Visitors !

On behalf of the citizens of Cameron Parish, I wish to extend to you a big welcome to the Annual Louisiana Fur and Wildlife Festival and to Cameron Parish.

We are proud of our Festival because it calls attention to the fact that Cameron parish is the leading fur producing area in the nation and has varied and concentrated populations of waterfowl, wildlife and fisheries to be found anywhere on the North American Continent.

Take time while in the parish to visit the Rockefeller Wildlife Refuge at Grand Chenier and see waterfowl and the shrimp boats, take a ride down the beach road between Holly Beach and Johnson Bayou and view the longest stretch of accessible beach in Louisiana and take a walk on the natural trail at the Sabine Refuge while visiting the visitors center and marvel at the thousands of ducks and geese that can be seen feeding in the marshes along the road..

But while you are here in our parish, we do urge you to drive safely. While our long stretches of roads may entice you to drive a little faster, we encourage you not to exceed the speed limit. The 55 mile limit IS enforced in Cameron Parish and all Cameron Parish Sheriff units are equipped with radar units. We have strict enforcement, not to harass motorists, but to save lives--and we have been successful in those attempts.

We hope you enjoy your visit to the Festival and to our parish ad that you return home safely. And be sure to come back to Cameron Parish again--you're always welcome!

**Your Friend,**

**JAMES R. SAVOIE**

# 6 girls compete for Fur Queen title

Six fur producing parishes of Louisiana will be represented by contestants in the 1996 Fur Queen's Pageant to be held at 7 p.m., Saturday, Jan. 13 in the Cameron Elementary auditorium. They are:

CALCASIEU--Jennifer Lynn Guidroz, 17, daughter of Donna and Rusty Guidroz of Lake Charles.

CAMERON-Jennifer Leigh Broadus, 18, daughter of Ken and Jackie Lee of Grand Chenier.

JEFFERSON--Katherine Lenore Harris, 20, daughter of Mr. and Mrs. Edwin Harris of Nine Mile Point.

ST. CHARLES--Courtney Brooke Payne, 20, daughter of Thomas and Sharon Payne of Norco.

ST. JOHN--Danielle Brock, 19, daughter of Larry and Jeanette Brock of Gramercy.

VERMILION--Marie Elise DesOrmeaux, 17, daughter of Dr. and Mrs. George DesOrmeaux, Abbeville.

The six contestants will present talent number and a talent winner and miss congeniality will be chosen as well as the Fur Queen and three runners-up.

The 1995 Fur Queen, Adrienne Picou, will crown the new queen and also give her farewell speech.

Randy Roach, past state representative for Cameron Parish, will be the master of ceremonies and Kimberly Sturlese will be the pageant narrator.

Stephanie Rodrique will introduce the visiting queens from other Louisiana Festivals and also the delegation from the National Outdoors Festival of Cambridge, Maryland. This festival and the Fur Festival have been exchanging good well delegations for many years.

Also on the Saturday night program will be the finals in the muskrat skinning contest with the winner receiving a trip to compete in the national contest in Cambridge. Kevin Savoie will supervise the contest.

The finals in the trap setting contest also will be held under Savoie's supervison.

Bill Turnbull will announce the winner in the Lions Club Raffle and Greg Linscombe will make a presentation from the Louisiana Fur and Alligator Council.

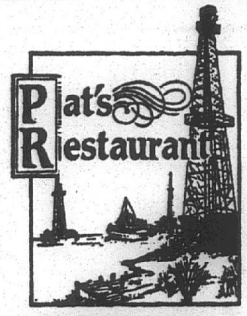
# Pogy industry saluted

The 1996 Louisiana Fur and Wildlife Festivalis saluting the menhaden or pogy industry, which has been a part of the local economy for more than 40 years.



At one time, Cameron had three menhaden processing plants operating and for a number of years ranked as the No. 1 fishing port in the nation based primarily on the volume of menhaden fishing landed and processed here.

At the present time there is only one menhaden plant operating in Cameron, Zapata Protein (USA), Inc. but it employs 291 persons during the April-October fishing seasona nd 72 during the off season. Its payroll, including benefits, is $7.1 million a year.

Zapata Protein has been in operation in the Gulf of Mexico for more than 40 years. with the support of spotter aircraft, Zapata Protein's fishing fleet operates along the Gulf Coast from Alabama to Texas catching menhaden, popularly known as pogys. The Cameron plant processes menhaden into fish meal, which is used in livestock feed, and edible oil, which is used as a cooking oil and margarine.

In addition to providing employment for more than 280 people, Zapata Protein makes other important contributions to the Louisiana economy. Here are some annual statistics (1995):

Fishing vessels: 12; Aircraft: 8; Fish catch: 400 million fish (about 138,000 tons); Meal production0 32,800 tons; Edible oil production: 23,000 metric tons; Revenues: $22 million; Value of Investment in Louisiana (plants, fishing vessels, aircraft, etc.): $13 million; Supplies, parts, services and other expenditures: $5.0 million; Energy costs: $2.3 million; Stae and local taxes: $180,000; License and other fees: $70,000.

WELCOME

40th Annual
Louisiana Fur & Wildlife
FESTIVAL

Hospitality and friendship are the by-words in Cameron year-round, but it is especially true during our gala winter festival each year, when we celebrate the abundance of the waters and marshlands around us.

The emphasis is on wildlife-with duck calling contests, field trials for retrievers, nutria and muskrat skinning contests, shooting competitions and arts and crafts displays centering around the fish, fowl and furbearers that are so much a part of our culture and economy. But there are also plenty of other things that mark the festive spirit of Southwest Louisiana-parades and beauty queens, abundant good food and lots of fun.

Come join us for one of the most unique festivals in Louisiana, and experience first-hand the delights of one of America's most naturally abundant regions.

We'll make you feel right at home.

# 40 queens to visit here

Reigning Louisiana royalty will travel from all areas of the state to join Fur Queen Adrienne Picou and Miss Cameron Jennifer Broadus for the 40th Annual Louisiana Fur and Wildlife Festival this weekend.

According to Vice President Stephanie Rodrigue, approximately 40 young ladies are expected to join in the weekend festivities, including several from Cameron Parish who currently hold various festival titles.

JENNIFER BROADUS was crowned Miss Cameron Parish for 1995 and will represent the parish in the Fur Queen's contest this year.

This year, thanks to the hospitality of David Broussard, the visiting queens will be housed at Oak Grove Hunting Club where Jerry and Arleen Nunez will act as hosts.

The queens' itinerary includes presentation at the Miss Cameron Pageant Friday night followed by a buffet supper, hosted by Jennifer Boradus' parents Ken and Jackie Lee, Carl and Michelle Broussard, Mitchell and Dana Baccigalopi, Kim and Allyson Bourriaque, Tommy and Lana Nunez, Ferpo and Lidian Richard, Goose and Carla Richard, and Nicky and Stephanie Rodrigue.

Saturday morning the young ladies will visit the fairgrounds and be treated to a luncheon hosted by Hayes and Cato Picou, Adrienne Picou's grandparents.

Next on the agenda is participation by the queens in the Fur Festival Parade in downtown Cameron. After the parade it's back to the hunting club to rest and change for teh 1996 Fur Queen Pageant.

Following the pageant, the ladies will be presented at the 1996 Queen's Ball.

REIGNING OVER the 1995 Fur Festival were Adrienne Picou, Fur Queen, and Billy Doxey, Fur King. They will crown their 1996 successors Saturday night.

# Miss Outdoors to visit festival

Sherri Johnson, who is queen of the 50th annual Miss Outdoors Festival of Cambridge, Maryland, will be a special guest at the 40th annual Louisiana Fur and Wildlife Festival this weekend.

In 1956 when the Fur Festival began, Congressman T. A. Thompson arranged for a trapper from the Cameron festival to compete in the national muskrat skinning contest at the Maryland festival. The two festivals have been exchanging delegations for the past 40 years.

Miss Johnson was crowned Miss Outdoors in February, 1995 and will relinquish her title next month. She is the 21-year-old daughter of Mr. and Mrs. Ronnie Johnson and will graduate this fall with a degree in Child Psychology.

Her sister, Dawn, was Miss Outdoors in 1992 aud was a visitor to Cameron also.

Accompanying Sherri to Cameron this week will be her parents, her sister and brother-in-law, Dawn and Doug Ramey; her grandmother, Audrey Johnson; and her fiance, Brandan Harris, all of Maryland; and Bill and Helen Dail and son Steve of San Marcos, Texas.

Also in the group will be Cindy Paul, who is the national champion muskrate skinner, and her son, Aaron.

Brenda and Jeffery Boudreaux of Creole will serve as hosts for the visitors on behalf of the Fur Festival.

## Queen says her thanks for year

Adrienne Picou, 1995 Queen Fur XXVI, issued the following statement regarding her year as Queen:

"This past year has been exciting and adventurous. I spent this year traveling across Louisiana to various fairs and festivals representing Louisiana's oldest industry and the people of Cameron Parish.

# 4 seek title of Miss Cameron

There will be four young ladies competing for the title of Miss Cameron 1996 in the pageant Friday, Jan. 12, beginning at 7 p.m. in the auditorium at Cameron Elementary.

The program will also include Billy Doxey, the 1995 Fur King, crowning the new King Fur, and various talent acts from around the parish. During the day, the contestants will visit the home of Sterling and Della Vaughan for a tea and the home of Jennifer Bercier for a buffet.

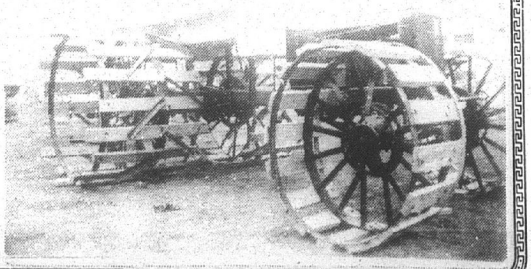
Contestants are:

Tredale Lynne Boudreaux, daughter of Jeffery and Brenda Boudreaux of Creole. She is a senior at South Cameron High School.

Nicola Dawn Didelot, daughter of Dan and Mary Didelot of Grand Lake. She is a freshman at McNeese State.

Nancy Darlene Swire, daughter of Dudley and Hilda Swire of Grand Chenier. She is a senior at South Cameron High.

Adenise Michelle Trosclair, daughter of Charlotte and the late Philip Trosclair. She is a freshman at McNeese State.



Tredale Boudreaux

I have had a wonderful time meeting new friends while serving as an ambassador for the festival. I want to thank the Fur Festival Board for all of their help and cooperation throughout the year. I have enjoyed being your Queen this year. It has truly been an honor and a privilege."

# Thank You,

. . .for allowing me to serve as your representative for the past eight years,

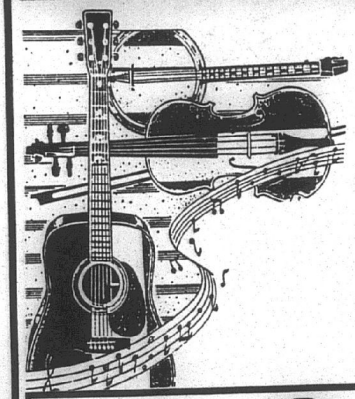
. . .for making me and my family feel at home in Cameron Parish,

. . .for your support and encouragement,

. . .for your understanding when we did not agree on the issues.

Cameron Parish is rich — not only in natural resources, but in the goodness of her people. As long as we hold on to that goodness, Cameron Parish will continue to be a great place to live, work, and raise a family.

1996 promises to be an exciting year for Louisiana. Dramatic changes in the make-up of the Legislature offer us a once-in-a-lifetime opportunity to change the political structure of our state.



Rep. Dan Flavin and Sen. Cecil Picard are committed to providing the leadership necessary to begin this process. They will need our continued support, encouragement and understanding.

I hope you will join with me in renewing our commitment to work with them and take advantage of this unique opportunity to achieve the promise of Louisiana.

## White Lightning Texas Chili

*Alice Faye LaRave*

1 pound dried navy beans
1 large onion, chopped
2 cloves garlic, minced
1 1/2 teaspoons dried oregano
1 teaspoon salt
2 (4 oz.) cans chopped green chilies *(optional)*
8 (8 in.) flour tortillas
Commercial salsa
4 cans low fat chicken broth divided
1 tablespoon white pepper
1 1/2 teaspoons ground cumin
5 cups chopped chicken
1 c. water
1 jalapeno pepper, chopped
Shredded low-fat cheddar cheese

Sort and wash beans; place in a large Dutch oven. Cover with water 2 inches above beans. Soak 8 hours; drain beans, and return to Dutch oven. Discard liquid. Add 3 cans chicken broth and next 7 ingredients; bring mixture to a boil. Reduce heat and simmer, covered, 2 hours or until beans are tender, stirring occasionally. With kitchen shears, make 4 cuts in each tortilla toward, but not through, center. Line serving bowls with tortillas, overlapping cut edges of tortillas. Spoon into chili, and top with cheese, salsa, and sour cream. Serve immediately. Yield: 12 cups.

## Rice Cooker Pilaf

*T. Mar Booth*

1 pound shrimp or crawfish tails
1 (16 oz.) can beef broth
1 medium onion, diced
1 stick oleo
1 1/2 cups rice
1 (4 oz.) can mushrooms
1 medium bell pepper, diced
Seasoning to taste

Dump ingredients into rice cooker. Stir. Plug in cooker. Stir once during cooking.

## Chocolate Drop Cookie Frosting

*Charlene Richard*

1 egg, beaten
1 3/4 cup confectioner's sugar
1 teaspoon evaporated milk
1 (1 oz.) square sweet chocolate, melted

Beat all ingredients together. Frost cookies.

# 1996 Festival cookbook full of local recipes

By GENEVA GRIFFITH

The 40th Annual Louisiana Fur and Wildlife Festival cookbook is out and is available at all branches of the Cameron State Bank, for $6 each.

The cookbook editors, Norma Jo Pinch and Bobbie Primeaux, have gone to great lenghts to secure some of the good recipes from local kitchens.

Included in the book are recipes for soups and salads in the Opening Act section; meat, pork, and seafood in the Main Attraction section; breads, casseroles, and vegetables in the Co-Starring part; and miscellaneous recipes for cookies, candies, cakes and pies.

There are also pictures of all the events in last year's festival.

The books can also be ordered by sending a check for $7.50 made out to the Louisiana Fur and Wildlife Festival to Louisiana Fur and Wildlife Cookbook, Norma Jo Pinch, P.O. Box 123, Grand Chenier, La. 70643.

## Social events planned for contestants

Several social events have been planned for contestants in the various contests of the upcoming Louisiana Fur and Wildlife Festival.

The Friday afternoon tea for the Miss Cameron Parish contestants will be held in the home of Mr. and Mrs. Sterling Vaughan at Oak Grove from 2-4 p.m.

The Friday night buffet will be held in the home of Jennifer Bercier in Cameron from 5-6:30 p.m.

The Saturday morning queen's brunch will be held in the home of Mr. and Mrs. Greg Wicke in Creole, at 9:30 a.m.

SHOWN LOOKING over the 1996 Fur and Wildlife Festival Cookbook are the 1995 Louisiana Fur Queen, Adrienne Picou of Grand Chenier, and the 1995 Miss Cameron Parish, Jennifer Broadus, of Cameron. The books are on sale at the Festival and at all branches of the Cameron State Bank.

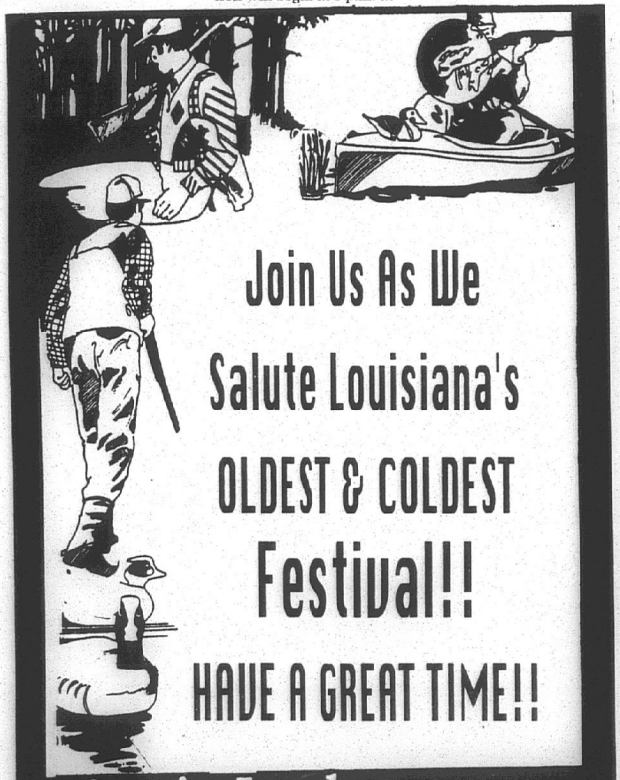
# Shotgun is prize

The Cameron Parish Duck Unlimited has donated a Remington 870 Magnum gun as a prize in the Duck and Goose calling contest of the Louisiana Fur and Wildlife Festival, according to Vernon Primeaux, contest chairman.

Primeaux said that everyone entering the duck and goose calling contests will have their name put in for a drawing for the gun. Sign-up for the contests will start at 8 a.m. and close at 2 p.m. Saturday. The competition will begin at 3 p.m. at the Festival grounds.



There will be five judges and each contestant will be allowed to blow for one minute.

The ages are juniors, up to 14 years; intermediates, from 14-17 years; and seniors, 17 and older.

First places will win jackets; second place will win T-shrits; and third places will win embroidered caps. All will receive duck or goose callers.

CAMERON DISTRICT Attorney Glenn Alexander is shown being presented with the Citizen of the Year award at Cameron Chamber of Commerce banquet by Donna LaBove. (Photo by Geneva Griffith.)

By GENEVA GRIFFITH

Glenn W. Alexander, Cameron Parish District Attorney, was named Cameron Parish Citizen of the Year Monday night at the Cameron Chamber of Commerce annual banquet held in the Grand Lake Community Center.

He was cited for his work with the Chamber of Commerce, the Special Olympics program, the Cameron Lions Club, the Boys and Girls Village in Lake Charles, and other organizations in Cameron Parish.

Other nominees were John Driscoll, Clifton Hebert, Stephanie Rodrigue and Paul Gerald Touchet.

The Chamber's Memorial Award went to the late John Paul Crain of Grand Chenier, which was accepted by his sister, June Crain Harper.

Crain was a civic leader, historian, oil field pioneer, a philanthropist, charter member of the Cameron Masonic Lodge and Eastern Star; co-inventor with his brother, Sono Crain, of the marsh buggy; a member of the Louisiana

## King event is Saturday

The observance of the Dr. Martin Luther King, Jr. birthday will be held by the Cameron NAACP Chapter Saturday, Jan. 20.

There will be a parade at 1 p.m. followed by a battle of the bands and lunch at the recreation center behind the courthouse. Anyone wishing to enter a car or float in the parade is asked to contact Louise Cole at 775-5240 or Mary Cockrell at 775-6961 for information.

The parade will form at the Cameron Seafood processing plant and proceed east through Cameron.

There will be an African play following the battle of the bands put on by the Youth Dept. of Sixth St. Baptist Church of Port Arthur.

Chili dogs, gumbo and punch will be served for lunch.

At 7:30 p.m. there will be a program at the recreation center with Dr. Ransom Howard as guest speaker. He is pastor of the Sixth St. Baptist Church in Port Arthur. There will also be a gospel program featuring area choirs and quartets.

Admission to the recreation center after the parade will be $1. This will include the meal. Admission for the night program will be $5 in advance or $6 at the door for adults and $2 and $3 for children.

The Spiritual Aires and the TSA Production Choir, both of DeRidder, will perform at the evening program.

Three bands will take part in the parade--the Washington-Marion high school band and the Jr. ROTC band of Lake Charles and the Lincoln Bumble Bees of Port Arthur.

Kristi Jo Dupuie

# Dupuie is new state Cattlemen's Queen

By GENEVA GRIFFITH

Kristi Jo Dupuie, 17, of Grand Chenier was named 1996 Louisiana Cattlemen Queen at the state Cattlemen convention held in New Orleans recently.

She is the daughter of Mr. and Mrs. D. A. Dupuie and is a senior at South Cameron High School.

She represented Cameron Parish Cattlemen and Cowbelle Associations and competed with parish contestants from all over the state.

March is National Beef Month and during the month she will travel around the state with Daniel Lyons, the state Cattlemen Association president, promoting

# New Fur King and Queen are named

## Sat. Program

By GENEVA GRIFFITH

Marie Elise DesOrmeaux was named the Louisiana Fur Queen at the close of the Louisiana Fur and Wildlife Festival Saturday night.

She is the 17 year old daughter of Dr. and Mrs. George DesOrmeaux of Abbeville and represented Vermilion Parish. She was also the winner of the talent portion of the contest with a classical piano number.

She was presented with a mink coat from the Louisiana Fur and Alligator Council by Pete Picou, festival president. The pelts on the coat were all trapped in Cameron Parish by Michael Baccigalopi.

Marie was crowned by the outgoing queen Adrienne Picou. She received an all-expense paid trip to the Mardi Gras Ball in Washington, D. C.

First runner-up was Jennifer Leigh Broadus, representing Cameron Pafrish; second runner-up and the winner of the congeniality award was Jennifer Lynn Guidroz, representing Calcasieu Parish; and the third runner-up was Danielle Brock, representing

## Fri. Program

Robert Schwark was named King Fur XXVIII at the Friday night program of the Lousiana Fur and Wildlife Festival. The festival this year saluted the menhaden (pogy) industry from which the king was chosen.

He is the retired personnel manager for the Zapata Haynie menhaden plant in Cameron and came to Cameron in 1956 as a flyer and fish spotter for the menhadenplants. He was crowned by last year's king, Billy Doxey.

Adenise Michelle Trosclair was named Miss Cameron Parish and also received the Miss Congeniality award. She was crowned by last year's Miss Cameron Parish, Jennifer Broadus. Miss Trosclair is a student at McNeese State University and is the daughter of Charlotte and the late Phillip Trosclair of Grand Chenier.

Nicola Dawn Didelot was first runner-up and other contestants were Tredale Lynne Boudreaux

## Wed. Program

The 40th annual Louisiana Fur and Wildlife Festival opened Wednesday night of last week with the first of four nights of programs at the Cameron Elementary School.

Pete Picou, festival president, gave a salute to the menhaden (pogy) industry, which the festival honored this year.

The backdrop of the stage featured a Cameron waterfront scene with pogy boats, made by the students of the Cameron Elementary Gifted and Talented program.

Amanda Johnson, the 1994 Jr. Fur Queen, was the mistress of ceremonies, and Sarah Ann Vaughn, the 1995 Jr. Fur Queen, presided over the Deb and Junior Queen Pageants.

Serving as judges of the contests were Kenneth Fontenot of Grand

Other contestants were Courtnie Benoit, Creole, daughter of Mr. and Mrs. Eddie Benoit; and Jenny Burleigh, Cameron, daughter of Mr. and Mrs. Kirk Burleigh.

Danielle Saucier, Pine Prairie, daughter of Mr. and Mrs Christopher Saucier, was named Deb Fur Queen. Teshia Salter, Creole, daughter of Mr. and Mrs. Mike Salter was named first runner-up and Miss Congeniality. Brooke Willis, Cameron, daughter of Mr. and Mrs. Bubba Willis, was named second runner-up.

Other contestants were Brandi Doucet, Cameron, daughter of Mr. and Mrs. Joseph Bourgeois, Jr.; Julie Olivier DeLauney, Cameron, daughter of Mr. and Mrs. Mike DeLauney; and Sheena LeBoeuf, Grand Lake, daughter of Kurt LeDoux and the late Tracy LeDoux.

Miss Adrienne Picou, 1995 Louisiana Fur Queen, helped interview the contestants.

Royalty from the Fur Festival and other festivals were introduced on stage as special guests.

Coordinators of the program were Stephanie Rogers, Vickie Little and Rosalie Perry.

## Logan joins U. S. Army

Jenny R. Logan has joined the United States Army under the Delayed Enlistment Program at the U. S. Army Recruiting Station, Lake Charles.

The program gives young men or women the opportunity to delay enlistment into the Army for up to one year before reporting to basic military training.

The enlistment gives the new soldier the option to learn a new skill, travel and become eligible to receive as much as $30,000 toward a college education. After completion of basic training, soldiers receive advanced individual training in their career specialty.

Logan, a 1992 graduate of Hackberry High School, reported to Fort Leonard Wood, Mo., for military basic training Jan. 5.

Logan's parents are Anica J. Toups and Brenda Welch of Hackberry.

## Candy given to children by Lions here

By GENEVA GRIFFITH

Charles F. Hebert, chairman of the Santa Claus project for the Cameron Lions Club, reported that over 70 bags of candy were passed out to children when Santa made his annual visit to the Cameron courthouse before Christmas.

Photographer Bill Turnbull took a picture of each child as they received their candy and talked to Santa. The photos can be picked up from Ed Kelley in the Registrar of Voters office on the bottom floor of the courthouse.

These are free compliments of the Lions Club and Mr. Turnbull.

# LaFleur takes over as new school supt.

By GENEVA GRIFFITH

Pam LaFleur, the newly named Cameron Parish School Superintendent, attended her first school board meeting last week in her new position.

On her recommendation, the board named Austin LaBove, assistant principal, as the acting principal of the Hackberry High School, for the remainder of this school year, to fill the vacancy left by LaFleur.

The board's only dissenting vote was by Dan Billiot who had presented the name of Doug Welch, Johnson Bayou school principal, for the position.

LaFleur said she had discussed her recommendation with all parties and felt like this would be the best move at this time. She said Welch would be able to apply for the opening when it is advertised in May. The board will appoint the new principal in June for the 1996-97 school year.

Clarence Vidrine, principal at Cameron Elementary School, asked the board to hire a part-time clerk to assist him while the assistant principal is on leave.

Vidrine said the school is entitled to a full-time assistant principal, because of the 303 students, but he understood the board's financial situation and the clerk would cost around $5,000, compared to $40,000 for a substitute assistant principal.

LaFleu recommended the hiring of a clerk, and the board agreed. The part-time clerk will be paid $5.73 an hour.

In another matter at the Cameron school, it was pointed out that the enrollment in the 7th grade class has gone from 31 to 35 students. LaFleur said the class should be split and that this was entirely too many students for one teacher to teach. The board agreed to hire a teacher to start this week.

**GUN FREE POLICY**

At the request of Supervisor Uland Guidry, the board made policy revisions in its policy on the Gun Free Schools Act. It was expanded to include school buses and school sponsored events.

There can be no guns in gun racks in vehicles, and in the absence of other circumstances, having a gun in a vehicle is not grounds for expulsion, however, after appropriate hearings, a student must be expelled for at least 12 calendar months.

The violation also must be turned over to the District Attorney for action.

The board also granted leave without pay for medical reasons for Cynthia Savoie, a lunchroom worker at South Cameron High School, for Feb. 2-21.

They appointed Julie M. Carlson as a lunchroom worker at Johnson Bayou High School; received the resignation from Janice Hebert, lunchroom worker at South Cameron Elementary School and will advertise for a 5 hour person for a replacement.

Ron Vining presented a resolution from the Calcasieu Parish School Board regarding filling bus driver vacancies seeking to get the law changed.

The new law states that a new route has to be offered to a contract driver who buys the bus. The resolution asks that the school board contact their local legislators to try to get the law changed.

## FRI. PROGRAM

and Nancy Darlene Swire.

Miss Trosclair was presented a shaved nutria fur coat by Pete Picou, festival president, on behalf of the Louisiana Fur and Alligator Council. all of the skins in the fur coat were trapped in Cameron Parish by Michael Baccigalopi.

She also received an expense-paid trip to the National Outdoor Show in Cambridge, Maryland, where she will be a guest of that show next month.

District Attorney Glenn W. Alexander interviewed Bronwen LaLande, Junior Fur Queen, and Danielle Saucier, Deb Queen, and Adrienne Picou, 1995 Louisiana Fur Queen, and Deputy Sheriff Ron Johnson presented each of them a key to the city from Sheriff Sono Savoie.

Sherri Johnson, National Outdoor Queen, and her entourage from the National Outdoor Festival in Cambridge, Maryland, were recognized as special guests for the festival. She was also presented a key to the city.

Entertainment was furnished by the Kathy Kurth dance class and the winning talent from Thursday night, the South Cameron Elementary Cheerleaders, doing a skit, The Wizard of Oz, and Cajun Accordion music by Kaleb Trahan, the 1995 LIttle Mr. Cameron Parish.

Jennifer Broadus introduced the 20 visiting queens from other festivals and presented each with a gift.

Stephanie Rodrigue was the program narrator and Angelia Conner was the pageant coordinator, assisted by Shannon Zaunbrecher, and Penelope Richard.

Blanc Bonsall and Roland Primeaux were door chairmen, and Kevin Driscoll and Freddie Richard were stage managers, assisted by Dana Trahan, Terrell Guilbeaux, Tricia Trahan, Lena Hebert, Cynthia Conner, Kelly Thomas and Telesha Bertrand. Nina Jones and Jennifer Picou were auditors.

Earlier in the afternoon the contestants were honored with a tea in the home of Mr. and Mrs. Sterling Vaughn at Oak Grove and a dinner that night in the home of Mrs. Jennifer Bercier in Cameron.

# Miss Outdoors made it here by hardiest

By GENEVA GRIFFITH

Sherri Johnson
Miss Outdoors

When Sherri Johnson, the National Outdoor Queen, and her entourage left Maryland last week on their way south to the Louisiana Fur and Wildlife Festival in Cameron, they were not sure they would be able to make it.

Their cars were buried under snow drifts and they had to get a neighbor to use his tractor to plow the snow out of their driveway so they could get out.

They waited until the snow plow came down the side road in front of their home, then rushed out to their already packed car and followed right in back of the plow until they could get out to the main road.

Miss Johnson said that once they made it to the Interstate it was easy driving, and the only mishap they had on the way was a flat tire.

Miss Johnson represented the National Outdoor Show of Cambridge, Maryland last weekend at the Fur Festival in Cameron.

Others in her party were her parents, Ronnie and Connie Johnson; Dawn and Doug Ramsey, Audrey Johnson, and Bill, Helen and Stephen Dail. Their festival escorts during the stay in Cameron were Mr. and Mrs. Jeffrey Boudreaux. The tradition is a delegation and Miss Cameron Parish going to Cambridge each year to the National Outdoor Show, and that festival sending their queen and a delegation to Cameron. It has been going on for 40 years.

The winning fur skinner from Cameron wins a trip to Cambridge to participate in the International Fur Skinning contest there, and on occasion the winning skinner from that show participates in the skinning contests here.

## CATTLE QUEEN

the beef industry.

She represented Cameron Parish as the Cameron Parish Farm Bureau Queen in the state Farm Bureau convention last July in New Orleans, and finished in the top ten. She won the Miss Personality award.

Kristi has been an active member of the 4-H and serves as the state 4-H historian and reported. She has received many 4-H awards over the years, and has won trips to Washington D.C. on the Rural Electric Youth Tour; to Florida on her electricity records; and to New Orleans on her reporter records.

Other awards have been the Key Club award, first alternate in the State Photography contest and the State Reporter contest at the State Short Course in Baton Rouge.

Kristi also shows Brahman cattle through 4-H and is a member of both the Louisiana Jr. Brahman Association and the Jr. Cattlemen's Association.

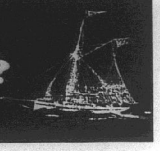
THIS FLOAT, built in the shape of a pogy boat, was the South Cameron Memorial Hospital's float in the Fur and Wildlife Festival in Cameron Saturday. Note the pogy fish in front.



SOME OF THE familiar faces at the Fur Festival parade Saturday were, from left: Senator Cecil Picard, Wildlife Agent James Nunez and Representative Dan Flavin. There was a huge crowd for the parade and beautiful weather.

FEATURED SPEAKER at the Dr. Martin Luther King birthday celebration Saturday night in Cameron will be Dr. Ransom Howard, pastor of the Sixth St. Baptist Church of Port Arthur.

## DO YOU REMEMBER?

By Keith Hambrick

**(Lake Charles American Press, Jan. 18, 1929)**
**HACKBERRY OIL DRILLING**

In addition to making a new location in the Sutton field at Hackberry Island, north Cameron Parish, and while waiting for cement to set in its Gulf Land No. 1 well, the Rycade Oil Company is reported to have leased 20 acres of land from Henry Little, paying a bonus of $10,000 for it.

The lease covers territory adjoining the Vincent Estate lands and is about 1/4 of a mile northwest of the Benson Vincent test which the Cameron Oil Co. is putting down and which, from a core taken Monday afternoon, showed some sand and shale and which was expected to be altogether in sand sometime Tuesday. The Little tract lies north of the Vincent Estate. The bonus paid was $500 an acre.

**(Cameron Pilot, Jan. 17, 1963)**
**WINNERS IN LIVESTOCK SHOW**

Ernest Hamilton of Hackberry won the huge sweepstakes trophy donated by Mr. and Mrs. Conway LeBleu at the second annual Cameron Parish Junior Livestock Show Saturday.

Leslie Griffith of Oak Grove was named champion showman with James Lowery of Hackberry in second place.

Other livestock winners were, in order of placing:

Steer: Cynthia Lowery, Charles Greathouse; Beef Breeding: Larry Jinks, Leslie Griffith, Ernest Hamilton; Swine: Anna Louise Guillory, Charlotte Guillory; Dairy: Michael Young, Alma Johnson, Ernest Hamilton, Robert Silvers; Quarter Horse: Gilbert Reeves, Darlene McCain, Wendell Greathouse; Pigeons (Pair): Eugene Theriot, Charlotte Guillory; Rabbit (Pair); Kenneth Simar, Clyde Conner.

**"OLD CAMERON BAR"**
**By Jerry Wise**

Had we known that it was such a historic old building, we would have taken a picture of it before it was torn down last week. We are referring to the building on Main Street in Cameron recently vacated by Sing Faulk and his auto supply business.

Kenneth Roux, son of W.A. Rue, owner of the "Old Cameron Bar" building, said the structure was close to 102 years old. In days gone by, it had housed a bar, grocery store, furniture store, among other things.

If you remember, this building, which didn't look too substantial from the outside, withstood Hurricane Audrey with very little damage. One reason for this was found when it was torn down this week. The structure was anchored to a foundation of large logs, which themselves were tied to mudsills buried several feet in the ground.

Kenneth said his family hasn't made any definite plans yet as whether to erect a new building on the old one's site or not.

Speaking of Main Street, the brick building owned by the late Mrs. Ada Hickman across from the bank is for sale.

**PRESS ASSOCIATION AWARDS**

Mrs. Tom Taylor, Sweet Lake-Grand Lake correspondent of the Cameron Parish Pilot, placed second in the country correspondent's contest of the Louisiana Press Association at the group's annual convention in New Orleans last weekend.

It was the sixth straight year that a Pilot correspondent has won one of the three top places in this contest.

The Pilot also won two second places in the association's feature story contest and the news picture contest.

**FUR FESTIVAL**

Despite freezing temperatures, the 1963 Louisiana Fur and Wildlife Festival attracted large crowds Friday and Saturday to Cameron and again was a big success.

Miss Pamela Riggs, Cameron's representative in the queen contest, was chosen first maid.

Fletcher Miller of Cameron won the state championship in muskrat skinning. Second place went to J. B. Meaux and third to John Broussard.

Several thousand persons braved the freezing weather to watch the festival parade Saturday afternoon.

Judged most beautiful float was the Home Demonstration Council's "Marshland Jewel." Miss Judy Hebert was seated in a jewel box which dominated the float.

Second place in that category went to the Lions Club which had a float carrying 1963 Cameron Parish Queen, Pamela Riggs of Hackberry.

Chosen most original float was that of the Cameron Optimist Club, "A Giant Raccoon", with Miss Beverly Sue Rutherford, the 1962 parish queen, atop it waving to the crowd.

Second place went to Gulf Menhaden's "Trapper's Camp". Third went to "Pogy Boat" entered by the Louisiana Menhaden Co.

Boat races scheduled Saturday morning were called off because of the cold weather, low tide and choppy water. The races will be held Mar. 10, at Grand Chenier.

**ROUNDABOUT THE PARISH**

Johnson Bayou - The Johnson Bayou Junior 4-H are very proud of the first place trophies for the float entered in the Fur Festival.

The Senior 4-H had a giant nutria for their float and the Junior 4-H had a small trapping house with the theme "Poor Trapping on the Bayou". The Senior 4-H theme was "Beauty and the Beast".

Grand Lake - Sweet Lake - Participants in the HD Club members festival float from Sweet Lake were Mrs. Welbert Hebert, Mrs. Charles Hebert and Mrs. William Johnson.

Oak Grove - Most folks in our area were prepared for the freeze that came over the past weekend. A good supply of water was on hand and there has been no word of broken pipes as yet in this area.

Ervis Portie has been kept busy after his regular working hours fixing broken pipes in the Grand Chenier area.

Black News - Henry V. Griffin, teacher and coach at Audrey Memorial School, spent the Christmas holidays at Del Ray Beach and Miami, Fla., with former college classmates, Mr. and Mrs. David Smith. The Audrey School basketball team is named the Hurricanes.

Creole - The cast for the annual senior class play has been announced at South Cameron High School by Enos Derbonne, director. Seniors with parts in the three-act comedy, "Aaron Slick From Pumpkin Crick", are Bobby LaLande, Glenn Duddleson, Bolo Trosclair, Roberta Conner, Beverly Sue Rutherford, Mary Jane LaBove and Mary Lee Theriot.

**(EDITOR'S NOTE--The following report on three Cameron parish schools was written in about in 1913 and was reprinted in Archie Hollister's column in the Pilot in 1963. This would make the report 83 years old.)**

**(Cameron Pilot, Jan. 3, 1963)**
**CAMERON SCHOOLS 50 YEARS AGO**
**(By Archie Hollister)**
**LAKESIDE**

An older and not too good one-room school house is located here. It was noted here, as in a number of schools, that the desks are not permanently fixed to the floor. This should be corrected as the life of a desk will be doubled if it is put up properly and fixed to the floor as it ought to be.

The teacher is of good average ability, holds a diploma from the Lafayette Industrial Institute, receives $50 per month, and is teaching the first session. Twenty-two pupils are enrolled in six grades, and fifteen were in attendance at the time of our visit. (Report quoted is by Dr. John M. Foote of the State Department of Education.)

**Grand Lake**

A two-room house of box construction, painted on the exterior, ceiled on the interior, poorly lighted and ventilated and kept in neat sanitary condition. The equipment and other physical conditions vary but little from that at Cameron. The principal is an experienced first-grade teacher; the assistant is a third-grade techer without previous experience.

The enrollment is seventy pupils in six grades, and the attendance is twenty-one. The poor attendance was due partly to bad weather and farm work, but mainly to indifference on the part of the patrons. The daily programs were found posted. There is a literary society.

The session is seven months. The fact that the session in the schools in this area is a month shorter than the others is due to the apportionment of school funds to the several wards, these receiving an amount sufficient for seven months only.

The site is fenced, poorly drained, and without sufficient ornamentation. Water is gotten from a cistern that is without top or screen.

**Sweet Lake**

The one-room house erected in 1913 is of fair design, substantial construction, neat in appearnce and generally satisfactory as a school building. It is the best one-room house in the parish. A first-grade teacher, without previous experience, enrolls thirty-three pupils in six grades and has twenty-three in attendance.

The two-acre site is fenced, bare of ornamentation and privately owned.

A cistern without top or screen supplies drinking water that is apparently good but it is certainly not protected from infection. Consolidation is not possible here as the distance is too great to any other school.

NEW OFFICERS of the Cameron Parish Chamber of Commerce installed Monday evening were, from left: Ed Kelley, president; George LeBouef, vice-president; Marianna Tanner, secretary; and Donna LaBove, treasurer. (Photo by Geneva Griffith.)

## The Challenge of Genealogy

by MARIE WISE

*Lest We Forget, Vol. II* is the 2nd revised volume by Jane Parker McManus, CPS, of inscriptions from tombstones in Vernon Parish cemeteries.

All information from 38 cemeteries, small to large, was copied and recorded for this Volume II, preserving a great amount of family genealogical information.

Additionally, cemetery chapters begin with location, how to get there, how accessible, condition, history of the cemetery itself, often church or community history, and other information.

**VERNON PARISH CEMETERIES**

This very well-done book with its wealth of family information, often dating from the 1800's and as current as 1995, many times has data added to that of the inscriptions - as gathered by the author from historians, genealogists, and printed sources.

Cemeteries researched are: Beckcom, Beechgrove Methodist, Castor, Craft, Cryer, Cypress (Old), Elizabeth Chapel, Evans Community, Farris, Franklin, Garden of Memories, Gravel Hill, Hinson, Holton, Hunt (Old), Johnson/Bailey, Kay, LaCamp Church of Gold.

LaCamp Pentacostal, Leesville (New), Leesville (Old), Lewis/New Cypress, Liberty, McAllen (Smith), Mt. Bethel, Mt. Moriah (Old), Mt. Mariah (Upper), Mt. Pleasant #2, O'Bannion/Gill, Pine Hill, Scott, Smart Chapel, Smith/Brewer, Stephens Family, Stephens, Wales, Walnut Hill, Wilson.

Softcover, 8 1/2 x 11 in., 391 pages, photos, fully indexed, this valuable, newly revised and expanded reference is available from: Jane P. McManus, 4401 Heyman Lane, #139, Alexandria, LA 71303-2810 at $32.50 including mailing; or may be picked up for $30.00 from: Pearl Cooley, Slagle Loop Road, Slagle, LA.

**REVOLUTIONARY WAR PENSIONS**

*Revolutionary War Period: Bible, Family & Marriage Records as Gleaned from Pension Applications, Volume 16* by Chan Edmondson and John V. Sobieski continues this important series, referring in this volume to veterans with names of Haas-Hariman.

Widows' applications can be of particular value to genealogists - often containing not only proof of the soldiers' service and marriage data, but oftentimes info on more than one generation with difficult-to-find surnames, relationships, dates, places, etc.

Lists of descendants are often included (as taken from Bible records), the widow's maiden name; perhaps a parent, where she lived, religion, age, subsequent husband(s), assorted other info.

Researchers will find this volume, as the preceding 15, to be valuable source references. Softcover, 5 1/2 x 8 1/2 in., 155 pages, fully indexed, available at $18.00 from: Chad Edmondsun, P.O. Box 190354, Dallas, TX 75219-0354.

## Foster to seek state convention

**—CAPITAL NEWS—**

Gov. Mike Foster believes if you want a long-term fix for something you care about, you "put it in the constitution."

That's the reason he is pushing for a constitutional convention to be held simultaneously with the regular fiscal session in the spring. He told the Louisiana Association of Business and Industry's annual conference that he thinks he has a strong consensus for what he wants to do -- address problems in the civil system, the insurance and regulatory systems, ethics, education, crime, gambling and funding for higher education, police and firefighters.

"All I want is an opportunity to get our issues to the people for a vote", Foster said. In a constitutional convention, a simple majority of each legislative chamber can approve constitutional changes and put them on the ballot. During a regular or special session, it takes a two-thirds majority to pass a constitutional amendment. That makes proposals much more difficult to get through the process.

The governor said the civil system, which is responsible for huge lawsuit awards, needs "a real look." The state's Risk Management Division is $1 billionin debt, and many towns don't insure themselves because of the size of civil awards, he said.

Foster would like to see concurrent six-year terms for Supreme Court justices and would like to keep lawyers money out of judicial campaigns. "If we can't (legally) stop lawyers from contributing to judges, we should go to merit selection," he said to loud applause.

Calling gambling "bad morally and economically", Foster said he wants the people to vote on video poker, riverboats and the land casino all at once. "I'm willing to trust the people on it", he explained, even though he believes the Supreme Court was wrong in saying it is legal to pass gambling legislation.

The lottery would not be included because the people already voted on it; bingo has been around a long time; and horse racing supports another industry, he said.

**SCHOOLS GET GRANTS**

The Arts & Humanities Council of Southwest Louisiana, Regional Distributing Agency for the La. Decentralized Arts Funding Program, has announced its 1995-96 grant awards.

Cameron Parish will receive $4,170.

Two grants were awarded. Grand Lake High School received $2,985.60 to hold a summer arts camp entitled "Grand Lake Arts Camp '96: Explore your world." South Cameron High received $1,184 for a music program entitled "Musical Slice of Apple Pie."

**ART CONTEST**

The annual Louisiana School Board's Association Art Contest is underway. Two Grand Lake students have pieces that will represent their age groups for Cameron Parish.

Amanda Crochet's gouache painting of ducks will represent the 5th - 8th grade group and Mary Crochet's "Southern Gazebo" drawing will represent the 9th - 12th grades.

**PROGRAM SUCCESS**

The Grand Lake Talented Programs Holiday was a big success. The art class raised over $500. They plan to keep saving for a computer for the classroom. Other fund raising projects on tap are a dance and a car wash, set Saturday, Jan. 27.

PROCEEDINGS

Minutes of the regular meeting of the Cameron Parish Gravity Drainage District No. 3 held on Tuesday, November 21, 995, at 2:30 p.m. at the Cameron Parish Police Jury Annex.

Members Present: Edwin W. Quinn, E. J. Dronet, Scott Henry, and George Kelley. Member Absent: Earl Guthrie. Others Present: James LeBoeuf, and Floyd Baccigalopi.

Glenn Harris presented the Cameron-Creole Watershed Management Report. He stated that at this time all gates are closed except the Grand Bayou flapgates.

Mr. Edwin Quinn reported that there was some hope for maintenance funds from the Breaux Bill Fund to be restored to various projects in our area.

Mr. Quinn then read a letter he has drafted regarding the Drainage Board levee on the back ridge that Texas Meridian Resources Corporation wants to utilize for their operations.

A motion was made by E. J. Dronet, seconded by George Kelley, and unanimously carried to approve the letter requesting an agreement stating that Texas Meridian intends to maintain the levee at its present elevation or above during their operations, and that upon abandonment of the operations they would agree to restore the levee to its present elevation or above if there should be a need. Also, they will take precautions necessary to prevent soil erosion during the operations, and upon abandonment of the site, the levee would need complete revegetation. (Scott Henry abstained on this vote).

A motion was made by Scott Henry, seconded by George Kelley, and unanimously carried to approve the minutes of the October 17, 1995, regular meeting as written.

A motion was made by Scott Henry, seconded by George Kelley, and unanimously carried to approve the following bills for payment:

1. Cameron Parish Pilot, $63.00
2. Cameron Parish Police Jury, $1,709.00.

Lonnie Harper reported that H & S Construction's Clean-Out of W-1 West Project is now completed, and he recommends acceptance. He stated that the lien notice must be published for 45 days so that a lien-free certification may be obtained.

A motion was made by Scott Henry, seconded by E. J. Dronet, and unanimously carried to accept the project for Clean-Out of W-1 West as completed.

A motion was then made by Scott Henry, seconded by E. J. Dronet, and unanimously carried to authorize Edwin Quinn to sign the revised Interagency Agreement between Gravity Drainage District No. 3 and Gravity Drainage District No. 7, providing for rental by District 3 of District 7's Linkbelt Marsh Machine at a rental price of $396.63 per 8-hour day.

Scott Henry stated that the staff gauge #3 lateral is in dire need of clean-out, as well as the Henry culverts project. Mr. Henry was authorized by concensus to obtain two prices on a contractor to rent a machine and do this work for us.

It was agreed that James LeBoeuf will review and give an update report on all drainage in the levee at the next meeting.

A motion was made by E. J. Dronet, seconded by Scott Henry and unanimously carried to authorize President Quinn to write a letter to Governor-Elect Mike Foster, asking him to consider appointing Dave Soileau or Dr. Bill Goode as Assistant Secretary for the Department of Natural Resources, Coastal Management.

Mr. George LeBoeuf was then extended the congratulations of the Board upon retiring his elected position on the Cameron Parish Police Jury.

There being no further business, the meeting was adjourned.

FUR FESTIVAL

With the duck hunting over last Thursday, many hunters took advantage of a couple of events of importance.

The La. Fur and Wildlife Festival activities saw our locals taking part in skeet, archery and duck and goose calling contests.

The other event last weekend was the boat show, one of the largest on the Gulf Coast, which took place at the Lake Charles Civic Center.

The show also featured the world's largest aquariums and even a trout pond for the kids. This show has grown so much that the Civic Center has gotten too small so they even had outside exhibit areas.

TALK AROUND

The 1996 La. Fishing Regulation pamphlets are available at Department of Wildlife and Fisheries offices, parish sheriff's offices and most retailers of hunting and fishing license outlets. These are free. It also has some new regulations for gill netters as a result of the new law passed last year.

The sandhill cranes are back again this year on Highway 14, west pasture off road about 4 miles from Cameron Parish line going north. These are large birds and this year it seems that between 50 and 60 are there, at least that's what I saw.

Shaun J. Fawvor and Scottie Trosclair, both young anglers and hunters from Grand Chenier, purchased lifetime hunting and fishing licenses for the state of Louisiana.

When you purchase a saltwater fishing license for Louisiana residents, you must first purchase a basic Louisiana fishing license plus a Louisiana Marine Resource Conservation Act Stamp. This $3 stamp is mandatory for all fishing in Louisiana saltwater areas. This also goes for non-resident anglers.

Many hunters used binoculars this hunting season to spot where crippled ducks went. This really worked well when two hunters were in the same blind. One spots and the other retrieves. With the steel shots, there's lots of crippled ducks.

It is estimated that the breeding population for mallard ducks for 1995 was 8,269,000, the highest since 1972 in the U. S. 1995 was the largest fall flight of ducks for the U. S. since 1972 with 80 million.

Red head population was 770,000 for 1995, a 47 percent increase over 1994. Gadwalls, 2,800,000 up 500,000 from 1994. Wigeon, 2.6 million, up 10 percent from 1994. Blue winged teal 11 percent over 1994.

Pintail population is still low, 2.8 million, same as 1994.

Annual federal income tax generated by the 43,230 full and part item jobs directly related to migratory bird hunting in the U. S. is $112.4 million.

The amount of money spent annually on guns and ammunition by migratory bird hunters in the U. S. is $251 million.

American sportsmen and women spent $5 billion on real estate leases for hunting and fishing annually in the U. S.

Governor Mike Foster has chosen Jimmy Jenkins as the new Secretary for the Louisiana Wildlife and Fisheries. He served as a commissioner before.

and Melinda Hicks, Hackberry; Nicholas Stephen Wolfe, Hackberry; Meagan Gayle Trahan, daughter of Scott and Michelle Trahan, Creole; and Ashton Boudreaux, son of Joey Boudreaux of Cameron and Mr. and Mrs. Ricky Harrington, Johnson Bayou.

Jennifer Broadus, 1995 Miss Cameron Parish, was the mistress of ceremonies and Pete Picou, festival president, gave the welcome to the delegation from the festival's twin festival, the National Outdoor Show in Cambridge, Maryland.

Interviewing the contestants were Danielle Shay, Michael Sellers and Allyson Bourriaque. The judges were Desiree Aucoin and Lori Meyers of Hayes; and Melanie Pruett, Sulphur.

First place winners in the talent portion of the program were: solo division, Kaleb Trahan 1995 Little Mr. Cameron, playing Cajun songs "The Lacassine Special" and "The Back Door" on his accordion; Raphiel Heard, 2nd with piano selection; and Teshia Salter, song and dance number.

In the duet division, 1st, Teshia Salter and Melissa LaLande with a dance and gymnastics number; Justin Trahan and Dylan Conner, singing and guitar, 2nd; and Beau and Jennifer Duhon, comedy magic, 3rd.

The overall winner in the group contest was the South Cameron Cheerleaders with a skit, "The Wizard of Oz"; and second place went to Grand Chenier Elementary Cheerleaders with "The Falvors of New Orleans; Miss Kristy's Gals took 3rd with "Hey Daddy".

Program coordinator was Allyson Bourriaque, assisted by Lisa Stewart, Lyndi Stewart, Dana Baccigalopi, Lana Nunez, Stephanie Rodrigue, Jennifer Broadus, Danielle Shay and Michael Fray.

Stage technician was Kevin Driscoll. Door chairmen were Blanc Bonsall and Roland Primeaux.

James Gray drew the program cover, and the Cameron Elementary Agate Program and teacher Sharon Campbell and supervisor, created the stage decorations.

The host and hostesses for the Thursday night reception for the Maryland group at the Oak Grove Hunting Club were Lester and Lidian Richard, Charlotte Trosclair, Mae Ann Hebert, Leisa Theriot, Nicky Rodrigue, Darren Richard, Mitchell Baccigalopi, and Kim Bourriaque.

**Pain may be eliminated for millions**

(SPECIAL) -- A new drug has been approved that is exciting researchers in the treatment of pain. This material has been formulated into a new product known as "Arthur Itis™" and is being called a "*Medical Miracle*" by some, in the treatment of debilitating conditions such as arthritis, bursitis, rheumatism, painful muscle aches, joint aches, simple backache, bruises, and more. Although the mechanism of action is unclear, experiments indicate that **Arthur Itis™** relieves pain by first selectively attracting, and then destroying the messenger chemical which carries pain sensations to the brain, thus eliminating pain in the affected area. **Arthur Itis™** is an odorless, greaseless, non-staining cream and is available immediately without a prescription and is guaranteed to work. ## ALEXANDER
### (Cont. from Pg. 1)

Wildlife and Fisheries Commission, founder of the Crain Bros. Inc., Hunting Lodge and Cattle Ranch, a generous man who contributed to all fund raising projects.

Other Memorial Award nominees were Alberta "P.U." Broussard, Ray Champagne and Riley Richard.

Donna LaBove presented the Citizenship Award and Janie Turnbull presented the Memorial Award.

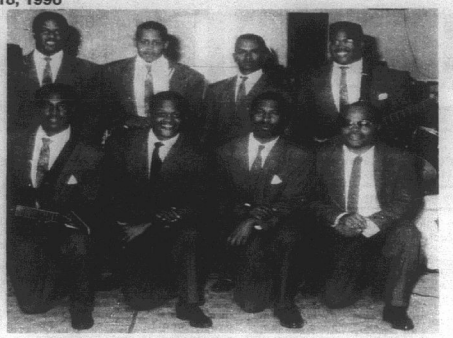
Former State Rep. Randy Roach introduced the guest speaker. new Rep. Dan Flavin who outlined his plans in his new office.

"I know that I will now have to prove to the people of Cameron and Calcasieu parishes that I can serve them", he said, "and I know that I have some very big shoes to fill, following Conway LeBleu and Randy Roach".

He is opening a Cameron office next to the Chamber of Commerce office on Cameron's Main Street, and Ginger Gomez will be his assistant.

He will sit on the state retirement and ethics committees, and plans to work on the waste in state government.

He says that Gov. Mike Foster is picking the best people he can find to work with him and will run the state like a business.



Flavin said he plans to bring everyone together in his district to work on the most important needs such as economic development, schools, commercial fishing, local marinas, tourism, etc.

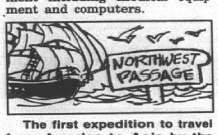
Brent Nunez, police juror, served as master of ceremonies.

Rodney Guilbeaux, Jr., installed the following Chamber officers who will serve for 1996: Ed Kelley, president; George LeBoeuf, vice-president; Marianna Tanner, secretary; and Donna LaBove, treasurer.

Kelley said that his goals for the coming year as president are mainly economic development and working with other government agencies, to get the help and support of the Police Jury and Rep. Flavin, utilize the help of the senior citizens, concentrate on tourism, a resource directory, and use federal funds to build pull-offs on the new scenic By-Way Nature Trail for the use of fishermen, photographers and nature lovers.

Father T. L. Herlong of St. Mary of th eLake Church gave the blessing of the meal and Bro. Gary Mann of the Big Lake Gospel Tabernacle gave the benediction.

THE SPIRITUAL AIRES of DeRidder will perform at the Martin Luther King, Jr. observance Saturday night at the Recreation Center behind the courthouse, sponsored by the Cameron NAACP chapter.



## Power outage scheduled in Klondike area

Jeff Davis Electric will have a planned power outage on Thurs., Jan. 18. Power will be off from 9:30 a.m. until 11 a.m. on Thursday for necessary maintenance to Jeff Davis Electric facilities.

"Nobody likes a power outage," Jeff Davis Electric Manager Dale Landry said. "But this is necessary so we can change out substation equipment to upgrade service to our customers."

Power will be off for Jeff Davis Electric consumers in the Klondike, Cypress Point and Lakefront areas and west of Gueydan.

Jeff Davis Electric consumers who live in or have business in these areas are encouraged to protect sensitive electronic equipment including medical equipment and computers.

The first expedition to travel from America to Asia by the Northwest Passage was led by British explorer Sir Robert John le Mesurier McClure from 1850 to 1854.

## SAT. PROGRAM
### (Cont. from Pg. 1)

St. John Parish.

Bertie Pinch was the pageant coordinator and the judges were Faye Vest, Iowa; Lane Wimberly, Lafayette; and Chellie Godeaux, Crowley. Randy Roach served as master of ceremonies.

Stephanie Rodrigue introduced the 38 visiting queens from other festivals from all over the state and the 1995 Fur Queen Adrienne Picou presented each a gift.

Sherri Johnson, the National Outdoor Queen, from Cambridge, Maryland was interviewed by Roach.

Billy Delaney was in charge of the finals in the muskrat skinning and trap setting contest on the state. The winners were:

Yancey Welch, muskrat skinning, by skinning five muskrats in one minutes 5 seconds. His brother, Ben Welch, won the trap setting contest, and earlier in the day their sister Alice Welch Little won the Women's Fur Skinning Contest.

The Creole Cub Scouts won first place in the parade floats and the Edward Swindell Memorial Award. The parade saluted the menaden industry.

Helpers in the Saturday night programs were Freddie Richard, Oscar Reyes, Jr., Johnny LeBlanc, Kevin Driscoll, Dana Gauthier, Hope January, Angela Conner, Dana Trahan, and Stephanie Rodrigue.

## Old Cameron lighthouse

**DO YOU REMEMBER? This was the old Cameron lighthouse near the mouth of the Calcasieu River. This picture was taken in 1906 and came from the scrapbook of the late John Gee.**

# Offshore workers evacuated

All 63 workers on board a mobile offshore drilling unit, ENSCO 69, were evacuated from the rig last Wednesday after the rig experienced a "punch through" as it was preparing to jack up at location about 100 miles south of Cameron.

All but 12 of the crew were taken by helicopters to Cameron while the 12 remained on the scene to assist with the salvage.

A "punch through" occurs when one of the legs on a jack-up rig punches through the ocean floor more abruptly than the other legs.

At 9:30 p.m., Thursday, due to continued severe weather the rig broke free from its legs and was adrift in the Gulf.

At 3:30 p.m. that day, two towing vessels hired by Ensco International, Inc., the rig's owners, were able to take the rig into tow about 150 miles south of Sabine Pass, Texas.

Saturday morning, the Coast Guard, company officials and a salvage company where able to board the rig and found it in structurally sound condition. No pollution was found.

The rig was to be towed to a repair facility in Sabine Pass, which was to take about three days. The location of the sheered off legs were to be marked with a lighted buoy to ensure the safety of any vessels in the area.

## am. State ill open w branch

Cameron State Bank plans to open its 11th location by March, it was announced this week by Roy M. Raftery, Jr., president.

The bank has applied for authority to establish a branch office at 1302 Center street in Vinton. It will be the fifth branch in Calcasieu parish, with three in Lake Charles and another one in Sulphur. In addition, the bank plans to open a scholastic branch at McNeese for parttime operation.

The bank also has six locations in Cameron parish, the main office in Cameron and branches in Creole, Grand Chenier, Grand Lake, Hackberry and Johnson Bayou.

The Cameron State Bank was 30 years as of last week with the main office opening for business on Jan. 15, 1966.

# Cancer Society surpasses goal

By GENEVA GRIFFITH

The Cameron Parish Cancer Society went over its goal of $3,000 for 1995 by raising $5,410 and was presented with "The Goal Buster" Award.

It was presented to Shirley Bonsall, president of the local chapter, by Laura Hathaway, state board member.

Geneva Griffith received the media award for her press coverage of the cancer society events and was presented with a plaque by Mrs. Bonsall.

Virgie LeBleu turned in her Cancer Society Memorials. In her position as Memorials Chairman, she urged the Society to send memorials instead of flowers when a loved one dies.

They may send their donations to P. O. Box 266, Cameron, La. 70631. An appropriate card is sent to the family acknowledging the donation.

Jan Schrarrier, Cal-Cameron Cancer Society director told about the annual golf tournament, and Laura Hathaway gave a talk on the annual "Relay For Life-Dusk to Dawn" event at Burton Coliseum on July 12. She asked for local teams to participate.

In conjunction with the event are the Luminaries in which a person may donate $10 in memory of a loved one who has died from cancer, or who has survived it. Candles will be lit in their memory and their names called out during the ceremony.

## Fishermen's workshop

A fisherman's workshop will be held Tues., Jan. 30, at the Cameron Multi-Purpose Building behind the courthouse. It will begin at 1 p.m.

During 1995 many changes occurred which will impact fishermen. Regulation changes, limited entry programs and income requirements have made it necessar for fishermen to keep accurage, detailed records of landings, income and taxes. Newly elected District 36 State Representative Dan Flavin will be present to meet fishermen and give his perspective on the future of the fisheries industry.

Dr. Ken Roberts, Marine Resource Economics Specialist, with the Louisiana Cooperative Extension Service, will present a progam on the importance of keeping tract of landings records, tax records, and expenses.

Representatives with the U. S. Coast Guard will talk abut the Fishing Vessel Safety Program and pumpout facilities.

Greg Faulkner, net builder from Milton, will give a demonstration on working with knotless poly webbing.

Fishermen are urged to attend this workshop. For more information contact Kevin A. Savoie, with the Louisiana Cooperative Extension Service at 318-775-5516.

## Financial aid visits slated

Financial aid staff members from McNeese State University will visit area high schools in January and February to explain financial aid application procedures to college-bound students.

According to MSU Financial Aid Director Mary Kaye Eason, high school seniors and their parents are encouraged to attend the workshops to learn more about eligibility, the application process and requirements, and the timeline to apply for financial aid for the 1996 fall semester.

The list of area schools MSU personnel will visit and the times and dates they will be on each high school campus are as follows:

Cameron Parish - Grand Lake, 11 a.m., Feb. 1; Hackberry, 9:30 a.m, Feb. 6; Johnson Bayou, 12:30 p.m., Feb. 6; South Cameron, 2 p.m., Feb. 7.

## Fund raiser

Cameron Elementary School is taking part in a fund raising program sponsored by Coca Cola. Certain size Cokes have green caps on them. These caps are worth 5 cents each for the school. The school is asking the community to help with this program by saving the green Coke caps. Caps can be sent to school by any student or you can drop them off at the school office.

## Lack of space

Because of a lack of space a number of 4-H, school and livestock stories did not make this issue of the Pilot. They will be run next week and in later issues.

Pain may be eliminated for millions

(SPECIAL) -- A new drug has been approved that is exciting researchers in the treatment of pain. This material has been formulated into a new product known as "Arthur Itis..." and is being called a "Medical Miracle" by some, in the treatment of debilitating conditions such as arthritis, bursitis, rheumatism, painful muscle aches, joint aches, simple backache, bruises, and more. Although the mechanism of action is unclear, experiments indicate that Arthur Itis... relieves pain by first selectively attracting, and then destroying the messenger chemical which carries pain sensations to the brain, thus eliminating pain in the affected area. Arthur Itis... is an odorless, greaseless, non-staining cream and is available immediately without a prescription and is guaranteed to work. Use only as directed

# Jr. Leader Club holds meeting

By TRISHA SILVER, Reporter

The Cameron Parish 4-H Jr. Leader Club had a successful fund raiser. The Club sponsored a teen dance during the Fur and Wildlife Festival. Members helping to clean up the building and working the door and concession stand were: Ryan King, Chad Pitre, Trisha and Lancey Silver, Cassy Broussard, Cheri Gray, Cody Fenetz, Misty Delome, Amanda Conner and Heather Taylor.

The club held a clothes drive during December and January. Chad Pitre, committee chairman, was in charge of the operation. All clothes collected will be donated to Help Hope in Cameron and will be distributed locally to needy persons.

Club members are putting together a parish workshop to be held at Grand Lake High School Mar. 2. The workshop will be held to give leadership to other club members especially the younger 4-H club members.

The club is making plans for a spaghetti dinner fund raiser to be held April 2.

**CORRECTIONS**

I would like to make a couple of corrections. It was Dave Savoie of Creole who took Governor Mike Foster hunting, not Dave Sonier. It's snipe and woodcock till open, not widgeon as stated.

**HUNTING NEWS**

A good snipe hunt by a couple of hunters last weekend in the Creole area was reported.

Rabbit hunting is good with many hunters going out. Not many limits taken, but 4 to 5 rabbits during a hunt was reported and that's really not bad. It seems the rabbit population is coming back.

The last two of our 50 states have approved a law where hunter harassment by anyone, including the activists against hunting, is against the law.

We now have a new group called the Fund for Animals, which is a large anti-hunting organization. They're against state wildlife agencies using public money and public employees for hunter education classes in our public schools. This organization is trying to get hunting in the United States eliminated by the turn of the century.

A three year survey study by the U.S. Fish and Wildlife Service shows that only 16 percent of the United States population would like hunting banned, and only 22 percent either strongly or moderately disapprove of hunting.

Seventy-five percent of the U.S. approves of hunting, but 81 percent believe hunting should remain a legal activity.

What I see in the 1996 campaign for President and other U.S. Senators and Representatives in some anti-gun politicians are trying to make gun control a key issue and will support gun bans, ammo bans and higher taxes on ammo and guns alike. This is to stop crime but it will surely be joined by anti-hunters and what's in store, time will only tell.

**FISHING NEWS**

I know the cold front last weekend will slow fishing for a couple of days again, but fishing was good last week, with many anglers taking limits of bass and a few white perch.

Saltwater fishing in most marsh areas for redfish was good, with large reds, running over 27 inches caught. In some of the marshes where the water was low, and when it froze, reports of dead redfish, especially in Vermilion Parish, right out of Cameron Parish.

With the sunny afternoon, fish will bite, but you relaly need to work your baits slow, as the cold water slows the metabolism of fish. Something else is if you're using live bait, use larger mullets or shiners, it's more attractive to the fish than small ones.

Reports in Big Lake is the redfish are still there, but the cold weather has moved the speckle trout out.

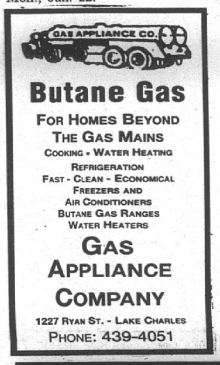
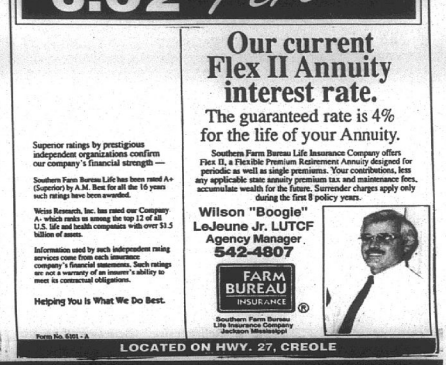
# Dear Editor:



Dear Editor:



I am writing a book about Hurricane Audrey to commemorate the 40th anniversary next year. Since there is no complete list of those who perished or were missing in that hurricane, I'm asking your readers to send names of ones they know about, so that I can make as accurate a list as possible and memorialize these people in the history of Cameron Parish.

## Channing Conner Memorial Award winners

The South Cameron High School 4-H Club annually awards plaques and rotating trophies at the Cameron Parish Livestock Sale to the current recipients of the Channing Conner Memorial Awards. Tabulated by Achievement Day of each year, the awards are earned by those 4-H exhibitors from throughout Cameron Parish who accumulated the highest number of points in the areas of animal placings, showmanship and record keeping.

This year's winners included Brett Baccigalopi, first; Mandi Richard, second; and Courtney Conner, third in the elementary division. In the junior division, Heather Taylor placed first; Juie Trahan, second; and Lancey Conner, third. The senior division winners were Tiffany Boudreaux, first; Jennifer Boudreaux, second; and Cody Fenetz, third.

The awards are presented in memory of the late Channing Conner, a former student at South Cameron High School who was an active member of 4-H and FFA. The awards were presented on Sat., Jan. 20, by Conner's parents, Douaine and Sheila Conner, his sister, Santana and his brother, Lancey.

# Creole Nature Trail gets $400,000 grant

By GENEVA GRIFFITH

Shelly Johnson, executive director of the Southwest Louisiana Convention and Visitors Bureau, and Montie Hurley, chairman, brought the Cameron Parish Tourist Bureau some good news Monday night concerning the Creole Nature Trail.

"We have promoted the trail for the past 20 years and it has finally paid off," Johnson said.

The trail has been chosen as one of the five in the United States, and the first in the south to be in the Corridor Management Plan and will receive a government grant. Other projects are located in Arizona, New Mexico and Colorado.

"This pilot opportunity will be held up as a model for later projects, and both the DOTD and the National Park Service will help in the development of the Scenic By-Way Project," she said.

LSU will start to work on it immediately and the plan should be completed in September.

The Scenic By-Way Commission, which will oversee the project, will be composed of nine area members, two will be chosen by the Calcasieu Parish Police Jury, three by the Cameron Parish Police Jury, and one each by Southwest Louisiana Convention and Visitors Bureau, Cameron Parish Tourist Commission, Secretary of DOTD and the Cameron-Calcasieu legislative delegation.

The total funding for this project is $400,000 with the federal share to be $320,000, and the state's share to be $80,000, which, according to Johnson, cannot be met because the state doesn't match this type of federal grant. The $80,000 matching funds must be found elsewhere.

The Scenic By-Way Program states: "The Creole Nature Trail Scenic By-Way State Highway 27 Scenic Turn-Arounds will provide access to wildlife refuge areas in West Cameron Parish. There are four sites planned, each allowing motorists to stop their cars and safely exit the highway.

"This will greatly reduce traffic congestion and help to eliminate accidents.

"The turn-arounds will provide for parking and allow visitors to observe natural wildlife and scenery safely."

Ed Kelley, president of the Cameron Chamber of Commerce, told the Tourist Bureau, "I will be working very closely with other clubs and civic organizations for our parish."

Sammie Faulk reported that the Cameron Parish Police Jury is already receiving a portion of the state's share of the hotel-motel tax for tourism, which amounted to $300 last quarter.

Madeline Solina reported that the Cameron Police Jury has granted permission for the use of the office in Hackberry vacated by the Sheriff's office for use as a temporary tourist information center.

The next meeting will be held Feb. 26, at 6:30 p.m. in the Police Jury Annex.

# Kelley gets state award

By GENEVA GRIFFITH

Ed Kelley, secretary of the Cameron Parish Tourist Commission, received the Rural Tourism Success Story award at the recent Louisiana Rural Tourism Development Conference in New Iberia.

Prior to 1986, Kelley served on the Economic Advisory Committee of the County Agent of Cameron Parish. When the oil business in Cameron Parish took a sharp decline, the parish began searching for new ways to improve the parish's economy, and tourism appeared to be the best bet.

A review of the parish's natural assets was made and it was decided that the 36 miles of accessible beaches were among the better prospects for developing tourism.

At a 3-day meeting at Rockefeller Refuge attended by local, area and state tourism representatives, it was decided that Cameron's beaches needed to be cleaned up and Kelley was asked to coordinate the local clean-up.

Kelley had 1500 people involved in this first beach clean-up and there have been similar numbers of volunteers each year since then.

Different sections of local beaches have been adopted by various companies and organizations wh volunteered to keep their sections clean.

Working with the Sea Grant program, the first tourism commissin in Cameron Parish was formed with Kelley serving as the first chairman, and as secretary since that time.

At this time he is also serving as chairman of a committee to restore the Civil War grave sites from the Battle of Calcasieu Pass at Monkey Island on the Calcasieu River, hopefully to be turned into a park.

Serving on the executive board of the Calcasieu Regional Planning and Development Commission, Kelley was able to secure funding through the state REDA program to print tourist related brochures and maps of Cameron Parish at no cost to the parish.

Three years ago he accompanied Mike Liffman and Steve Henning, both from LSU, to Washington, D. C. to help U. S. senators and representatives understand the needs of Cameron Parish.

He helped form the Cameron Parish Chamber of Commerce, and is now serving as president. He plans to develop the Chamber as an important tourism tool.

As a member of the West Cameron Parish Port Commission, he worked to acquire 159 acres of property on Monkey Island, formerly owned by the U. S. Coast Guard. This is to be developed for commercial and tourism purposes.

He also serves on the economic committee of the West Cameron Port Commission which is at present working on getting a dock site in Hackberry for ocean going vessels.

He teaches Sunday school and is chairman of the board of Wakefield Methodist Church in Cameron.

# Study under way on burning of marshes

By GENEVA GRIFFITH

Avery Island's E. A. McIlhenny's dream of preserving 80,000 acres of coastal marsh in Cameron and Vermilion parishes for posterity has certainly come true. McIlhenny purchased the land in 1912.

He then sold the land to the Rockefeller Foundation and urged the foundation to place its control in the hands of the State of Louisiana for a period of five years.

On Sept. 30, 1920, the foundation donated complete ownership to the state as a wildlife refuge, with Governor John M. Parker and the 1920 Legislature agreeing to accept the property and the strict terms of the deed.

Because of its unique location, Rockefeller Wildlife Refuge is one of the most important wildlife areas in the United States.

Louisiana's position at the southern most end of the vast Mississippi Flyway causes the state to serve as a wintering home for many of the waterfowl from nothern nesting grounds.

The refuge plays host to hundreds of thousands of ducks, geese, coots, and numerous wading birds each year, and serves as a resting area for many of the transit birds that winter in Central and South America.

Year round residents such as nutria, muskrat, raccoon, otter and alligator abound in the area.

Throughout the refuge are many ponds, pot-holes and lakes with numerous bayous and man-made canals.

The flat treeless area contains soils which are high in organic matter and produce tons of desirable waterfowl food plants each year.

Numerous research projects have been conducted and are presently underway concerning various stages of marsh management, plant ecology, pond culture and life history studies of the many forms of fish and wildlife found on the refuge.

These studies are conducted by the research section of the refuge division, and others in cooperation with Louisiana State University, Louisiana Cooperative Wildlife Research Unit, and Louisiana Cooperative Fishery Research.

These studies help to shed new light on the many problems incurred in marsh management, and serve as guidelines for development and management of the area for wildlife.

**MARSH BURNING**

One such project is going on at this time at the refuge called "The Effects of Marsh Burning on Plants and Birds". The three year project started in November 1995 and will be completed in 1999.

The on-site project supervisors are refuge biologists Barry Wilson, Thomas Hess and Larry McNease; Dr. Allen Afton of LSU is project director.

Working on the project are Josh Nove, bird specialist and college graduate from Amhurst, Mass.; Thomas Bain, a sophomore at Birmingham Alabama Southern College, an intern on the program; Steven Gabrey, an LSU graduate who is working on his thesis on the program; and Shelly Ackel, a May graduate of Northeastern University and a specialist in plants and trees.

# Grand Lake high to have summer program

Grand Lake High School was recently approved for a grant award under the 1995-96 Decentralized Arts Funding Program administered by the Arts & Humanities Council of Southwest Louisiana.

The program will provide a summer visual arts experience for 80 Grand Lake school students, kindergarten through 8th grade. Two separate camps will be held--June 17-21 for K-3rd and June 24-28--4th-8th grades.

Susan Fuerst, professional artist and art teacher at the school, will direct the project and she and Charlene Kaough, an artist and resident of Grand Lake, will teach the classes.

The camp theme will be "Explore Your World." Students will focus on their landscape, wildlife, recreation and culture in creating art in a variety of media.

Two assistants will be hired for help in classroom preparation, cleanup, etc.

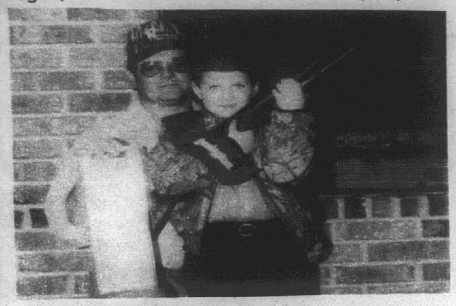
Applications for the camp will be sent home with every Grand Lake student, grades K-8. The first 10 students to apply from each grade will be accepted.

# Brown new librarian

Christopher Brown of Lafayette was unanimously approved as the new Cameron parish librarian by the Cameron Parish Library Board Wednesday. He will assume his new duties on March at a salary of $30,000 annually.

The board has been without a librarian since April 1995 when Janelle Greenhow resigned from the position. The library board has been search for a replacement for about ten months.

Mr. Brown in the past had served as the Vermilion parish librarian. He is married and has three children.



## Food Source input needed

The Cameron Community Action Agency sponsors the Food Source Program on a monthly basis. Due to the fact that the orders have drastically dropped, the agency is asking that anyone wishing to keep the program open please contact the office at 775-5145 by Feb. 5. "If the number of units ordered do not increase we will not be able to participate in the program," a spokesman said.

This does not involve the Hackberry portion of the program.

## H'berry clinic has new hours

The Hackberry Rural Health Clinic announced its new office hours. Beginning Jan. 29, appointments can be made from 8:30 a.m. to 12 p.m. on Monday, Tuesday and Friday. The office staff can be reached from 8 a.m. - 1 p.m. on the same days. For appointments and more information, call 762-3762.

Because of a lack of space a number of 4-H, school and livestock stories did not make this issue of the Pilot. They will be run next week and in later issues.

## MARSH BURNING Cont. from Pg. 1

and unburned plots have been set up in almost every management unit on the refuge.

The team is looking at vegetation, doing bird surveys, goose behavior observations, food habitats, summer breeding of seaside sparrow breeding activities, and how burning affects each plot on these project sites.

"We are seeing the effects of the new grass after the burns, to keep the old dead grass down," Wilson said.

"We are doing controlled burning in November and December, which is different from what the local cattlemen do, who burn in the spring.

"We carefully control the burning because we do not want a catastrophe like the one in Yellowstone National park years ago, and the Big Burn area in Cameron Parish in 1924, both of which were caused by lightning," he said.

### BIG BURN FIRE

The Big Burn marsh, which is now owned by Miami Corporation, received its name following the 1924-25 drought, when extensive peat burns scoured the marsh 1.5 to 1.8 meters to the clay subsoil and created ponds.

The Big Burn is located in the western portion of the Mermentau drainage system, approximately 15 miles south-southwest of Lake Charles, and 8 miles north of Grand Chenier.

Wilson explains that the purpose of the burning of the marsh is to kill off the dead grass so new sprouts can come out from the roots.

"Marsh management is real controversial", Wilson said. "We do this research so we can have documentation as to why we are doing it. We are very careful to see that we have three days of north winds so the smoke from the burns will blow out toward the Gulf."

At the conclusion of the project the participants should know the effects on the animals eating the plants in the plots.

It should prove that burning should be done only during the fall and winter. This avoids destroying nests and young wildlife.

Burning should be done where the burned area can be controlled, and when the water levels in the marsh are at or several centimeters above the marsh surface, burning never should be attempted during drought conditions.

The local project should help in the area of marsh management for wildlife, which was the original intent of the forefathers who made this great gift to Cameron Parish and to the nation.

### GILL NETS

The Louisiana Seafood Industry and commercial fishermen who have seemed to have lost in state court, are going to federal court on the restricting of gill nets. They are trying to block enforcement of the gill net law. It should be a couple of weeks or so before a ruling is made.

If the judge rules in favor of a preliminary injunction, it would stop enforcement of the law until a trial is held. Blockage as asked by the Gulf Coast Conservation Association was denied and should the federal judge strike down the gill net law for federal reasons, it would over-ride a state court suit now pending on the same matter.

### SPORTSMAN'S SHOW

The Louisiana Sportsman's Show, one of the largest, will be held at the New Orleans Superdome Feb. 8-Mar. 3. It's the Deep South and Original Sportsfishing, Boat and Hunting Show.

The largest and newest selection of sportfishing gear, boats and hunting equipment will be on sale at special show discount prices. Over 400 booths covering the entire Dome floor with something for everyone who loves the outdoors.

### TALK AROUND

Wood cock hunting over Jan. 31 and speckle belly season is also over Jan. 31.

With all the gun pressure the geese have had since leaving Canada, they are much wiser and harder to get to come to the decoys. By the time the geese get to Louisiana our hunters have quite a challenge as they've been shot at all the way down.

According to the Department of Wildlife and Fisheries, the statewide 1995 population on snow geese is 898,000 and speckle bellies, 117,000. Snows are up 193,000 and speckle bellies up 10,000.

Mixing alcohol and hunting is considered a problem in many of our states. Fishermen are also blamed for drinking while boating as well as anglers taking over the creel limits of fish and keeping udnersized fish. This doesn't help our image and I guess this sort of act needs to be cleaned up.

It is said that feeding deer in a hard winter may start as an act of kindness, but can turn out bad. Deer are wild creatures that have been shaped by natural forces and if they become dependent on artificial food supplies they lose some of the things that enable them to survive in a bad natural environment.

I guess the old saying we use about "doing things our way" needs to be done by "Mother Nature's way".

### FEEDING PERIODS

Best: Fri., Feb. 2, 9:05 a.m. and 9:30 p.m.
Sat., Feb. 3, 9:50 a.m. and 10:00 p.m.
Sun., Feb. 10:30 a.m. and 10:55 p.m.

## NOTICE TO THE PUBLIC

CAMERON PARISH POLICE
JURY PROPOSED ORDINANCE
FOR FEBRUARY 6, 1996 MEETING
ARTICLE IV: GRASS AND WEEDS

Sec. 9-35. Cutting and removal from certain lots required

It shall be unlawful for persons owning or occupying lots located within the subdivisions herein listed below to fail to regulate the growth or accumulation of grass, obnoxious weeds, or other deleterious or unhealthful growths, trash, debris, refuse, or discarded or noxious matter:

Constance Beach, Garber, Highland, Ridgecrest, Toerner, Granger Cove, Pelican Point, Ratcliff, Black Peshoff, Hebert Camp, Old Big Lake Settlement, Tan's, McCain Pond, Miller Manor, Henry Heights, Kelley, Rogers, Bonsall, peshoff, Primeaux, R. F. LeBoeuf, and Kornegay.

Sec. 9-36. Notice to cut or remove; performance by parish at owner's expense upon owner's failure to comply with notice.

(a) The owner of any lot located within said subdivisions shall cut or remove such grass, obnoxious weeds, or other deleterious or unhealthful growths, trash, debris, refuse, or discarded or noxious matter, when requested to do so after notice has been given by the parish in accordance with (b) hereunder.

(b) The notice to the property owner of the property shall be by registered or certified letter, return receipt requested, sent to the owner at his actual address or last known address listed in the records of the assessor of the parish at the time that the violation of this article was established. In the event that the parish is unable to serve the owner in this manner, notice shall be by publication once a week for two (2) consecutive weeks in the official journal of the parish.

(c) If the owner fails to cut or remove such grass, obnoxious weeds, or other deleterious or unhealthful growths, trash, debris, refuse, or discarded or noxious matter, within fifteen (15) days after receipt of the notice or after the second publication of the notice, as set forth in (b), the parish shall have such grass, obnoxious weeds, or other deleterious or unhealthful growths, trash, debris, refuse or discarded or noxious matter, cut or removed and shall charge such property owner only the actual amount charged by and paid to the party cutting or removing such grass, obnoxious weeds, or other deleterious or unhealthful growths, trash, debris, refuse, or discarded or noxious matter, plus a fifteen (15) percent service charge thereon, such service charge not exceeding twenty-five dollars ($25.00).

Sec. 9-37. Lien.

(a) Upon failure of any such property owner to pay such charges, the parish shall file a certified copy of such charges plus the costs charged by the recorder of mortgages for filing and recordation, with the recorder of mortgages, and the same, when so filed and recorded, shall operate as a lien and privilege in favor of the parish against the property on which said grass, obnoxious weeds, or other deleterious or unhealthful growths, trash, debris, refuse, or discarded or noxious matter, was cut or removed.

(b) The parish shall add unpaid cutting and removal charges and related charges to the annual ad valorem tax bill of the property involved, and the sheriff effecting collection shall be reimbursed by the parish for an amount equal to fifteen (15) percent of the amount of such charges actually collected from the property owner. This collection charge shall be in addition to such charges and shall also be added to the ad valorem tax bill of the property involved.

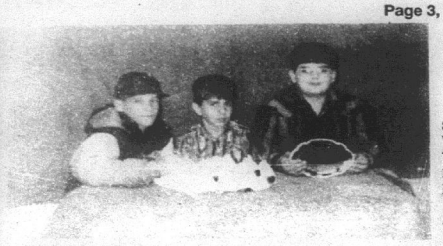
Sec. 9-38. Party defendant.

In the exercise of the authority herein granted to the parish, the parish shall be the sole and proper defendant in any action, authorized by law, to contest the addition of such charges to the ad valorem tax bill of the property involved.

Sec. 9-39. Property owned in indivision.

(a) If property, which may be subject to a lien or privilege granted in favor of the parish, is owned in indivision and the owners in indivision, with their proportionate share in the property, are listed separately by the tax assessor on the ad valorem tax roll for the parish, then the notice to cut and remove such grass, obnoxious weeds, or other deleterious or unhealthful growths, trash, debris, refuse, or discarded or noxious matter, shall be sent to each owner in indivision and shall list the proportionate share of such charges due by that owner.

(b) Upon failure of each owner in indivision to pay his proportionate share of the charges incurred by the parish in cutting and removing grass, obnoxious weeds, or other deleterious or unhealthful growths, trash, debris, refuse, or discarded or noxious matter, that parish of the property for which the charges are not paid shall be subject to a lien and privileges in favor of the parish.



(c) Upon payment by an owner in indivision of his proportionate share listed on the ad valorem tax roll for the parish of the charges incurred, and after certification of such proportionate interest by the assessor, the lien and privilege granted herein shall be removed from the proportionate interest of the paying owner in indivision shall be reflected on the bill and his interest in the property free of such charge shall be distinguished on the tax bill.

(d) Notice of the lien and privilege shall be made upon the owners in indivision at their actual address or the last known address listed on the tax rolls of the parish.

Survivors are one son, Larry K. Watt of Columbia, S. C.; and one daughter, Patricia Watt of Charleston, S. C.

## MDS makes local drive

Prominent Cameron citizens were "arrested" and "sentenced to serve time" all in fun on Jan. 25. They were accused of "having a big heart" in an effort to raise funds for the Muscular Dystrophy Association.

Various citizens were brought to the make-shift jail site at the Cameron Volunteer Fire Department where they were held for one hour that was spent raising their bail.

Those jailed were: Margarita Frederick, Priscilla Clark, Daniel Dupong (who raised over $800), Linda Saltzman, Larry Dyson, Chief Theos Duhon (the most wanted), Suggie Benoit, George LeBouef, Dinah Landry, Bonnie Conner, Mike Delaunay, Clarence Vidrine, Barry Richard, Jerry Constance, Wendell Wilkerson, Clifton Hebert, Yvonne Mhire, Rick Suratt, Bobby Doxey, Jerome Picou, Jimmy Colligan (who cleverly tried to escape but was caught by the Chief!), Wade Carroll, Dr. Sanders (who successfully escaped but posted his full bond!), and Darla Desonier.

Supporters of the lock-up picketed outside the fire station and were seen with signs supporting the incarceration of Chief Duhon.

Businesses aking part were: Cameron Volunteer Fire Department, Cameron Sheriff's Department, Butch and Ron (for helping pickup the jailbirds), Mercury Cellular, Gulfway Doughnuts, Brown's Deli, Roger's Grocery, and Savers Grocery.

The event raised over $5,000 and the funds raised will stay in the Southwest Louisiana area to provide services for the 650 patients who have muscular dystophy in this area.

## King Day winners

The Christian Women of Cameron held their annual M. L. King Day festivities Mon., Jan. 15. The winners of the poster and essay contests were announced and presented with ribbons and certificates. The first and second place winners also received $50 savings bonds, which were donated by Cameron State Bank. Third place winners also received gift certificates to Mr. Gatti's Pizza.

Winners were as follows:

Poster Contest 4th-7th: 1st, Jeffrey DeShields, Cameron Elem.; 2nd, Brandi Daigle, S. Cameron Elem.; 3rd, Alicia Mhire, Grand Chenier Elem.

Essay Contest Winner: Marcus Dunaway, S. Cameron High School.

Sandra H. DeShields was chairman.

Those who helped with this event and the Fun Day activities were: Patricia Dugas, John Guilbeaux, Donna LaBove, Evelyn Landry, Greg Wicke and Rev. Lannis Joseph. Also, John Hennings, Cameron State Bank, Gatti's Pizza, McDonald's and Cameron Telephone.

## Scholarship told here

The Cameron Parish Farm Bureau is now accepting applications for the Louisiana Farm Bureau Foundation Scholarship in the amount of $1000.

One student from the parish will be recommended for the scholarship which will go to a graduating senior planning to attend a Louisiana college or university to pursue a curriculum in agriculture, home economics or related fields. Parents must be Farm Bureau members.

The deadline for applications is Feb. 28. All applicants will be reviewed by the Cameron Parish Farm Bureau board of directors.

For more information contact Susan Beard at 542-4807.

## Bridge still being delayed

Representative Dan Flavin received an update from DOTD on the opening of Black Bayou Bridge and announced the following:

"The only work left to be done on the bridge is the painting. Unfortunately, this work cannot be done when it is raining and the humitidy is above a certain level. It is hoped that the weather will improve so the work can be completed within the next week."

## Filing is set for Democratic seats

Candidates for 38 district-level delegates and eight alternates to the Democratic National Convention will be elected from Louisiana in post-primary Congressional District caucuses on Mar. 30. Qualifying for these district-level delegates spots will be held Feb. 2-29, at the Louisiana Democratic Party office in Baton Rouge.

To qualify as a delegate candidate, individuals should contact the Louisiana Democratic Party at (504)336-4155 and request a qualifying form.

Completed forms must be accompanied by a nominating petition with the signatures of 200 registered Democrats residing in the Congressional district of the candidate. However, in lieu of the nominating petition, candidates may make a voluntary $50 contribution to the party to help defray the cost of implementing the delegate selection process.

The 38 delegates and eight alternates will be elected on Mar. 30, at caucuses held in each state House district, except in districts overlapping more than one parish. In these instances, separate voting places will be established in each parish. There will be 120 voting locations throughout Louisiana. These locations will be announced at a later date.

## Rodeo is Feb. 1-4

The 57th annual Southwest Louisiana Fatstock Show and Rodeo will be held Feb. 1-4, at the Burton Coliseum. The Wrangler Pro Bullfighters, chuck wagon races and other entertainment will be presented in cooperation with Lake Charles Dodge.

The parade will be Thurs., Feb. 1, at 4 p.m.

For more information, call 474-4406 or 582-7444.

## Screening unit to be here 15th

Taking Heart Disease Prevention To HEART

The fight against cardiovascular disease can't start too early.

The Key is to affect the habits of young children regarding smoking, nutrition, and exercise. Smoking, excessive weight, and a general lack of fitness all contribute to heart disease.

As a parent, we can encourage healthy habits for our children.

#1 Set a Good Example
There's a good chance if a parent smokes, their children will also.

Be a good role model don't smoke, eat healthy and exercise

Educate Your Children #2
Explain how smoking,lack of exercise and poor eating habits affect their body

#3 Encourage Involvement
Participate in age-appropriate activities. Limit Television and video games.

Exercise As a Family #4
Biking, hiking, walking, swimming, whatever is good for ALL of you

#5 Healthy Diet
Try to keep all your family on a healthy diet -- low in fat and sugar

### CARD OF THANKS

The Christian Women of Cameron wish to thank all of the citizens of Cameron Parish who shared with us in the service commemorating Dr. Martin Luther King Jr.'s birthday. Our thanks to the Voices of Brotherhood of Jennings, La., and Bargeman Memorial COSCC for participating in our musical. We thank those who donated to the cause, Cameron State Bank and employees, Cameron Telephone, Mercury L.C., John Henning, Mr. Gatti's Pizza, Mr. Ray Conner, Mrs. Donna LaBove, Patricia Dugas, Rev. L. Joseph, Olin Chemical Co., and Cheryl Parks. A special thanks to Mr. Ervin Yerby, Miss Eva January, Ebenezer Baptist Church, Miss Brenda Dugas, our keynote speaker, Judge and Mrs. Ward Fontenot, and all of our guests that were in attendance. I also wish to thank Mrs. Lucille Hebert, Mrs. Emily Rogers, and Mrs. Lois Bartie who helped me prepare the food for our prayer breakfast and lunch. Also, Mrs. Rebecca LaSalle for the delicious gumbo. It is our prayer that you will continue to come and that others will join us in the future. Also, thanks to the one who inserted my name in the drawing for the picture.

PROCEEDINGS
CAMERON PARISH LIBRARY
BOARD MINUTES
JANUARY 12, 1996
A special meeting of the Cameron Parish Library Board of Control was held January 12, 1996, at 9:30 a.m. in the Library Building in Cameron, Louisiana.
Present at the meeting were Mrs. Norma Jeanne Blake, president, Mrs. Sallie Sanders, Mr. Edward Peterson, Mrs. Elaine Hebert, Mrs. JoAnn Humble, Mrs. Velma Lowery, Mrs. Ada Brussard, and Mr. Brent Nunez (ex-officio, representing the Police Jury). None were absent.
Mrs. Blake called the meeting to order.
Mr. Peterson led the Pledge to the Flag, and Mrs. Hebert gave the morning prayer.
It was moved by Mrs. Sanders and seconded by Mr. Peterson that the minutes of the last meeting, December 12, 1995, be accepted, as carried.
In the election of officers, Mrs. Blake was re-elected president by acclamation, and Mrs. Humble was re-elected vice-president by acclamation.
Mrs. Blake stated that the Police Jury had offered to give the Library a sofa, love seat, and chairs to match. Mrs. Sanders moved that the Library accept the furniture with thanks to the Jury. Mrs. Broussard seconded the motion, and motion carried.
The Board interviewed three applicants for the position of Library Director: Christopher Brown, Marie Gravois and Jamie L. McCall.
The Board discussed the applicants' qualifications in Executive Session. During the Executive Session, Mr. Nunez, supported by the District Attorney, Mr. Glen Alexander, informed the Board that no vote could be taken January 12, 1996, because there was no publication of a vote in the Board's Agenda for that day.
Returning to the Open Meeting, Mrs. Blake set a special meeting for Sunday, January 14, 1996, at 11:00 a.m. in the Library Building in Cameron to vote on applicants for Library Director. Notices of the special meeting and Agenda for the meeting were to be posted on doors of the Library Building, and all applicants were to be notified of the Special Meeting in case they cared to attend.
Mrs. Lowery moved the Board adjourn. Mrs. Humble seconded. Motion carried.

CAMERON PARISH
BOARD MEETING MINUTES
JANUARY 14, 1996
A special meeting of the Cameron Parish Library Board of Control was held on January 14, 1996 at 11:00 a.m. in the Library Building in Cameron, Louisiana.
Present at the meeting were Mrs. Norma Jeanne Blake, president, Mrs. Sallie Sanders, Mr. Edward Peterson, Mrs. Elaine Hebert, Mrs. JoAnn Humble, Mrs. Velma Lowery, Mrs. Ada Broussard, and Mr. Brent Nunez (ex-officio, representing the Police Jury). None were absent.
Also in attendance was Mr. Bruce Niles, applicant for Library Director.
Mrs. Blake called the meeting to order.
Mr. Peterson led the Pledge to the Flag, and Mrs. Hebert gave the morning prayer.
Mrs. Broussard moved that the reading of the minutes for the meeting of January 12, 1996, be dispensed with. Mrs. Humble seconded, and motion carried.
Mrs. Blake opened the floor for nominations for Library Director. Mrs. Sanders nominated Jamie L. McCall; Mrs. Broussard seconded Ms. McCall's nomination. Mrs. Humble nominated Christopher Brown; Mrs. Hebert seconded Mr. Brown's nomination, and Mrs. Broussard moved that the nominations cease; Mrs. Sanders seconded, motion carried.
Mrs. Blake called for the vote and polled members of the Board. The vote was as follows:
For Jamie L. McCall: Mrs. Sanders, Mrs. Blake, Mrs. Broussard.
For Christopher Brown: Mrs. Humble, Mrs. Hebert, Mrs. Lowery and Mr. Peterson.
Mrs. Blake called Mr. Christopher Brown at his home and offered him the position of Library Director. Mr. Brown declined the offer because of family problems. Mrs. Broussard moved that the Board go into Executive Session to discuss personnel. Mr. Peterson seconded. Motion carried.
In Executive Session, the Board decided to readvertise for the position of Library Director since members of the Board found all other applicants unacceptable. Ads will be placed in The Sunday editions of major Louisiana newspapers, the Lake Charles Pilot, Beaumont Enterprise and the Houston Chronicle. Ads will state that applications will be taken until the position is filled.
Mrs. Sanders moved that the Board return to Open Session. Mr. Peterson seconded and motion passed.
There being no further business at this time, Mrs. Blake adjourned the meeting.

# Fundraiser

Cameron Elementary School is taking part in a fund raising program sponsored by Coca Cola. Certain size Cokes have green caps on them. These caps are worth 5 cents each for the school. The school is asking the community to help them in this program by saving the green Coke caps. Caps can be sent to school by any student or you can drop them off at the school office.

## Shrimp boat freed after beaching

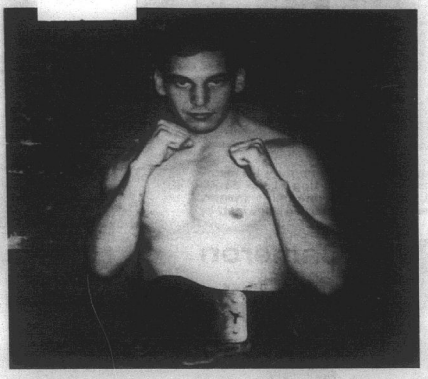
By GENEVA GRIFFITH

Don Bailey, Cameron seafood dealer and shrimp boat owner, has finally freed one of his large shrimp boats from where it was grounded on Hackberry Beach east of Rutherford Beach.

The boat, the "Captain Gator", lost power on Superbowl Sunday, while the crew was watching the game, and began drifting toward the beach while the crew was desperately trying to get the motor started. It drifted onto the beach and stuck in the sand.

As the deep fog rolled in and the Gulf became calm, there was no hope of a high tide aiding in freeing it from the deep sand.

It was finally freed after almost a week of entrapment on the beach.



Christopher Brown

## Brown new librarian

Christopher Ray Brown has been selected by the Cameron Library Board as the new Cameron Parish Librarian, effective March 1.

He served as director of the Vermilion Parish Library in Abbeville for six yers. He is a Vietnam veteran, having served in the Marine Corps.

He and his wife, the former Catherine Shaheen of Lake Charles, have three children.

Tommy Mouton, World Champ Kickboxer

## Mouton to defend his world title

Tommy "Tiger" Mouton, a Cameron native, will defend his Light Heavy Weight Kickboxer World Championionship at the Lake Charles Civic Center on Friday, Feb. 23. The program which will feature a number of other kickboxing matches will begin at 7:30 p.m.

Mouton will be defending his title against the No. 5 ranked world contender, Russell Jones of Baton Rouge.

Mouton, who is 32, is the son of Earl and Lillian Mouton of Cameron. He graduated from South Cameron high school, got a Batchlor Degree from McNeese and a Master's Degree at Western North Carolina Unversity.

Mouton is presently a teacher and basketball coach at the Parkview Baptist Academy in Sulphur. He and his wife, Melinda, and their three children live in Moss Bluff.

Mouton won the United States Kickboxing championship in 1992, the North American title in 1993 and the World title in 1994. The latter bout was fought in Lancaster, Pa. with Mouton KOing Chris Getz in the 9th round.

The Lake Charles program will also include two world ranked contenders in a 7-round fight and several other fights. Tickets are available from the Lake Charles Civic Center.

## Four qualify for positions

Several Cameron parish residents qualified for Democratic executive offices for the March 12 primary. Qualifying ended Monday.

E. J. Dronet of Cameron qualified for the Democratic Parish Executive Committee, District 6 seat. The other five district seats will remain vacant.

Qualifying for committee for the at large positions were E. Garner Nunez and Lee J. Harrison of Grand Chenier, and Roland Primeaux of Creole.

Two at-large seats will be unfilled.

## Jobless rate

The unemployment rate in Cameron parish in December was 7 percent, a slight decrease from the 7.3 percent rate in November and a big decrease from the 9 percent of December a year ago.

The report from the La. Dept. of Labor showed 230 persons out of work and 3070 employed for December in the parish.

## Bids opened on project

Bids on a Cameron parish highway project were among those opened by the La. Dept. of Transportation on Jan. 31.

T. L. Wallace Construction, Inc. of Columbia, Miss. submitted the low bid of $333,007 for 18 miles of La. 27 beginning at the Gibbstown Bridge and proceeding north. The work will consist of an asphalt surface treatment, pavement marking and reflectorized raise pavement markings.

## Flavin to meet with fishermen

Representative Dan Flavin announced that a meeting for commercial fishermen has been set for Sat., Feb. 17, at 10 a.m. in the auditorium at Cameron Elementary School. Rep. Flavin asks that all interested fishermen please attend as he is eager to discuss issues related to the fishing industry in Cameron Parish.

More information can be received by calling his office at Lake Charles at 477-1334 or in Cameron at 775-2801.

# Cameron-Big Lake road is jurors' top priority

By GENEVA GRIFFITH

The Cameron Parish Police Jury has chosen their three top priorities for 1996 as follows:

1. Building a road from the town of Cameron to Big Lake.
2. A bridge over the Calcasieu Ship Channel at Cameron.
3. Widen the road from Creole to Lake Charles.

The Port of Lake Charles has the bridge on their agenda for their Feb. 12, meeting.

These priorities were set at the request of Rep. Dan Flavin, even though they may not be realized for years, the jurors said.

The Police Jurors, at their monthly meeting Tuesday, issued a proclamation commemorating the 20 years the Cameron Council on Aging has been in existence, as of Feb. 26.

### HEBERT ROAD

Brent Nunez told the jury he had made an inspection of the Hebert Road project in the Big Lake area and observed some big cracks in the new road. He expressed concern in accepting the completion of the project. "This road is not going to last 30 years", he said.

He said that Lonnie Harper, the parish engineer, had examined the road, had taken boreings, and recommended that the project be accepted, and that the cracks had been caused by shifting of the road that had caused the movement of the foundation, and recommended that the cracks be filled with tar so water will not penetrate to the subsurface.

District Attorney Glenn Alexander said that if the parish accepts the road the Police Jury will have to keep it up. He suggested that a meeting be held with the parish engineer and the contractor before it is accepted.

### GRANT

Dinah Landry, grant writer for the Police Jury, gave a report on answers received on various grnt requests.

she said that some grants are long range, and some will be coming up soon, and that there are special grants for rural communities, such as Cameron. One that looks favorable is for a livestock barn for the parish.

### EXCAVATION ORDINANCE

An ordinance was adopted on excavations, which pertains only to lower Cameron Parish, which is under the Coastal Zone management: "No person, firm or corporation shall engage in any excavation of more than 25 cubic yards of

## Voter deadline told

Commissioner of Elections Jerry Fowler announced that Feb. 16, is the last day to register to vote or change your political party affiliation for the upcoming Presidential Preference Primary to be held on March 12, 1996.

"Voters should remember that the Presidential Preference Primary is a statwide election, but it is restricted to Democratic and Republican registered voters," said Fowler.

"Once registered, a voter has the right to change his party affiliation by filing a written statement over his signature with his parish registrar of voters, but it must be filed by the registration deadline," continued Fowler.

Fowler added, "The voting machines will be set up with lockout devices, and the commissioners working the polls will set the voting machines so that voters cannot cross party lines on the restricted elections."

In addition to the Presidential Preference Primary, political party committee elections may be on the ballot in many parishes of the state. These elections are also restricted to a voter's political party affiliation.

Absentee voting for the March 12 election will begin on Feb. 29 and end March 5.

## Fisherman missing

The U.S. Coast Guard launched a search Friday for a man who fell overboard from a fishing boat in the Gulf of Mexico about 40 miles off the coast at Cameron.

Shortly after midnight Friday, the Lisa Ann, a 65-foot fishing boat from Panama City, Fla., reported that Rex Sitton, 30, had gone overboard, officials said. Sitton was found to be missing after no one had seen him on the boat for 45 minutes, they said.

Two Coast Guard cutters and two helicopters were dispatched to the area and searched the surrounding area throughout the day.

# Old trees helping to save marshes

By GENEVA GRIFFITH

The pungent smell of a boatload of used Christmas trees filled the air as we headed out down Portie Bayou to the tree's destination, a watery grave inside a tree-brush fence.

Four miles down the bayou the tree-brush project comes into view, and the 1260 foot long fence becomes the final resting place of the Christmas trees.

They were unloaded by Mike Wright and Sheldon Frey, who are employees of Jeff Murphy's "Black Lake March" company who furnished the labor for the project.

The trees were placed on top of other trees which were submerged on the site two years ago. This was the last load of the Cameron Parish trees which were delivered in two Waste Management trucks and 50 dump trucks.

The trees were donated by Cameron and Calcasieu parish residents. Once the holiday is past, the traditional fate of a Christmas tree is an unceremonious rendezvous with the trashman.

But environmentalists have come up with a scheme to recycle holiday greenery by plunging the trees into the marshes, forming an underwater dike to slow erosion, which has been eating away some 50 square miles of Louisiana coatline annually.

The idea was first conceived in 1985 by several professors and graduate students from Louisiana State University who made a field trip to the LaBranche Wetlands.

One of the graduate students, Roel Boumanns, noted an expanse of exposed mud flats that reminded him of his homeland, the Netherlands. He brought with him the Dutch idea of using brush fences to trap sediments, in a subsiding environment, for the purpose of protecting levees and cresting new land for agricultural purposes.

At LSU it was decided that an alternate fence material, discarded Christmas trees, be used. The trees were easy to handle and readily available each year. Recycling the trees also would save valuable landfill space.

In 1989 the Wetlands Conservation and Restoration Fund enabled special public funding to be used for the protection of Louisiana's coastal marshes.

The Louisiana Department of Natural Resources - Coastal Restoration Division, initiated the first Christmas Tree-Brush Fence

She will be in competition for parish student of the year.

## POLICE JURY
Cont. from Pg. 1

sand, dirt or clay or any other type of soil material without first having obtained a permit from the Cameron Parish Police Jury. The fee for the permit is $25.

**WEED ORDINANCE**

A noxious weeds ordinance was adopted by the Jury as follows: "It shall be unlawful for persons owning or occupying lots located within the subdivisions as follows to fail to regulate the growth or accumulation of grass, obnoxious weeds, or other deleterious or unhealthful growths, trash, debris, refuse, or discarded or noxious matter, and after a notice to cut or remove, will be done by the parish at owner's expense upon the owner's failure to comply with notice.

The ordinance specifies these subdivisions: Garber, Highland, Ridgecrest, Toerner, Granger, Cove, Pelican Point, Ratcliff, Black peshoff, Hebert Camp, Old Big Lake Road Settlement, Tan's,McCain Pond, Miller Manor, Kelley, Rogers, Bonsall, Peshott, Primeaux, R. F. LeBoeuf, and Kornegay.

A resolution was passed to authorize the payment of a lost bond for Waterworks District No. 7, which was lost by a Ville Platte Bank. Glenn Alexander said the bank had agreed that it would pay for the $1,000 bond if it shows up for payment.

The jury voted to increase the parish employees insurance and hospitalization premiums by 13% to start in March.

A discussion was held on the parish liability on roads and bridges and were told by Tina Horn other parishes carry this coverage. It would mean a savings of $30,000 in annual payments.

In the vote to drop it, Dusty Sandifer and George Hicks abstained from voting, with the other four jurors voting for it.

**CLOSED SESSION**

The jury went into a 1½ hour executive session to discuss personnel matters.

When they came out a unanimous vote was taken to lift the ban on hiring; then on a motion by Dusty Sandifer the jury voted to hire Terry Broussard and Ted Ogea, then the jury voted unanimously to impose a hiring freeze.

program in 1990-91 and offered grants for the implementation of the projects to all interested parishes located in Louisiana's coastal zone.

Fifteen of the 19 parishes constructed projects within their respective boundaries with the $10,000 grants.

The affected marshes produce a third of the nation's fish, shellfish and fur harvest and provide winter shelter for 5 million ducks and geese.

Cameron's first year project was a cooperative effort with Calcasieu Parish, and constructed along Kelso Bayou and seems to be working.

In addition to this project, Cameron Parish officials agreed to complete the Cameron Creole Christmas tree-brush fence project which was originally constructed by the LDNR-CRD in 1990-91.

The eleven fence structures were constructed along an existing fence line which marked the boundary between the Sabine National Wildlife Refuge and the adjacent property.

Another project is located in Black Lake.

Taking Heart Disease Prevention To HEART

The fight against cardiovascular disease can't start too early.

The Key is to affect the habits of young children regarding smoking, nutrition, and exercise. Smoking, excessive weight, and a general lack of fitness all contribute to heart disease.

As a parent, we can encourage healthy habits for our children.

#1 Set a Good Example
There's a good chance if a parent smokes, their children will also.

Be a good role model don't smoke, eat healthy and exercise

#2 Educate Your Children
Explain how smoking,lack of exercise and poor eating habits affect their body

#3 Encourage Involvement
Participate in age-appropriate activities. Limit Television and video games.

#4 Exercise As a Family
Biking, hiking, walking, swimming, whatever is good for ALL of you

#5 Healthy Diet
Try to keep all your family on a healthy diet -- low in fat and sugar

## Catholic Daughters meet at Big Lake

The Court of Saints Mary and Patrick #2411 met Nov. 11, and was called to order by Regent Gladys Ogea. It was decided to have a social in December rather than the regular meeting and to invite the residents of the La. Community Care Center of Grand Lake as guests.

At the Dec. 5, social a covered dish meal was served. Gifts were purchased and given to the residents. Instead of exchanging gifts among themselves the members brought items for the Seafarers Center in Lake Charles, who they had adopted for Christmas.

Desiree Hebert brought the residents to the meeting and obtained a list of their wants.

## Blackbird baiting set

Because of the severe damage caused by blackbirds to sprouting rice in Cameron and Calcasieu parishes, officials with USDA/Animal Damage Control, the Cameron/Calcasieu Rice Grower's Association, and the Louisiana Cooperative Extension Service will be cooperating with local rice growers in a baiting program to control these birds.

The baiting program will take place from Feb. 1 to about the end of March, depending on the number of birds present.

A product called DRC 1339 will be used to effectively kill blackbirds while lessening the threat to other species. Only one rice seed in 25 will be treated.

Baits will be applied under the superivsion of USDA/Animal Damage control personnel trained in pest bird management procedures. Although dead birds do not present a significant hazard to humans or pets, officials recommend that no blackbirds be utilized for human consumption.

Dead birds found by the public should be buried.

The program originated through the efforts of the Vermilion Rice Grower's Assocation. Blackbirds eat rice seed after it's planted in spring. This causes decreased or failed stands, requiring the farmer to spend many dollars to replant fields. Also, the brown headed cowbird, which makes up a large part of what are generally called blackbirds, is responsible for destroying tremendous numbers of songbirds, whose nests they take over.

Those wanting more details can call the USDA/Animal Damage Control office at (504)389-0229 in Port Allen, or Gary Wicke at the Louisiana Cooperative Extension Service in Cameron at 775-5516.

## Three attend orientation

Two hundred newly elected police jurors and other parish officials from 53 parishes attended a Police Jury Association orientation in Baton Rouge.

Attending from Cameron Parish were Allen Brent Nunez and Malcolm Savoie, Police Jurors, and Tina Horn, Parish Administrator.

The seminar included a full day of informative sessions on topics that all parish officials must be aware of to operate within the confines of the law. Roger Harris, chief counsel for the Legislative Auditor's Office, addressed auditing requirements, public bid law, procurement procedures and proper use of Parish Transportation funds.

# South Cameron High School News

**STATE AWARDS**

South Cameron FFA members Scott Canik and Jared Savoie earned the 1996 Louisiana Governor's and Superintendent's Awards, respectively, according to Dr. AnnaBeth Neason, Supervisor of Vocational Agriculture Education at the Louisiana Department of Education.. The awards are based on exemplary livestock production using a specific recording form outlining costs and procedures.

Both students were in competition with other students from throughout the state of Louisiana. The awards will be presented by Gov. Mike Foster and Superintendent Raymond Arverson at the Louisiana State University Livestock Sale Sat., Feb. 17, at 3:30 p.m.

Canik is the son of Jerry and Kay Canik and Savoie is the son of Russell and Cindy Savoie, all of Creole.

This is the 12th year that one or both awards have been earned by members of South Cameron FFA. South Cameron FFA advisor Nicky Rodrigue coordinates the application process.

**SCHOLARSHIP WINNERS**

Robert Nunez and Amanda Johnson, South Cameron FFA and 4-H members, earned academic scholarships at the 1996 Southwest District Livestock Show held in Lake Charles Jan. 30-Feb. 3. Nunez, son of Philip and Lori Nunez of Grand Lake, earned a $1400 scholarship as Junior Champion Beef Showman. Johnson, the daughter of Ronnie and Mary Johnson of Cameron earned one of five $1200 livestock participation scholarships awarded on the basis of livstock exhibition, grade point average, essa writing and personal interview.

Both scholarships can be used at any university or college of the recipient's choice.

## FISHING NEWS

Anglers are getting their boats ready, cleaning tackle boxes and fishing reels, putting on new fishing line, as fishing weather is near. Many are already taking advantage of the warm sunny afternoons to go out and throw a few casts and doing well at it.

## RULES AND CHANGES

Louisiana recreational fishermen who fish more than 3 miles off the La. coast are in federal waters. Anglers are then subject to rules and regulations that could be different than those in state waters. Be sure you know the federal rules, sizes and limits as well as the state's.
The red snapper is one of the most sought after fish in the Gulf not only by recreational fishermen, but by commercial fishermen as well. The red snapper is a fine eating fish and could make you forget your table manners. Most red snapper taken in Louisiana are caught in federal waters or part of the state's 3 mile statue. The red snapper usually are found around the oil platforms in the Gulf.
There are other snappers caught in the Gulf such as the Vermilion snapper, gray or black snapper, lane snapper, to name a few.
The quota for 1995 snapper was 6 million pounds. Commercial fishermen were allowed 3.06 million pounds and recreational fishermen 2.94 million pounds. Commercial fishermen filled their quota of 3.06 million pounds in 50 days, while recreational fishermen exceeded their 2.94 quota in 1993 and 1994 by over 2 million pounds and 1995 will probably be similar.
The commercial harvest is seasonal closure quota, but the recreational fishermen are managed by size and creel limits. Back in 1990 a 7 fish, 13 inch minimum size limit was thought to be good, but as the number and weight of recreationally caught fish increased a change was made. As of now the recreational bag limit on red snapper is five fish and a 15 inch minimum length. There could be another change if overfishing occurs on the next report.
It is said that shrimp trawls have an effect on juvenile red snapper and there are plans to reduce the by-catch of juvenile red snapper by 50 percent.
The red snapper commercial season opened last week, Feb. 1, however the season will close when 1 million pounds have been landed. What will happen after the 1 millionpound season is a good guess.

## REFUGE FUTURE

We all know that the animal rights people are out to stop both hunting and fishing.
The Clinton administration has attacked HR 1675, the National Wildlife Refuge Improvement Act. This is a kick in the butt for sportsmen. The bill is to help management of our national wildlife refuge system to ensure that hunting, fishing and other outdoor activity will continue on these refuges, where compatible.
HR 1675 would amend the National Wildlife Refuge Act of 1966 and protect hunting and fishing on refuges. As of now this is only a secondary use, just as cattle grazing, mining, oil drilling and jet skiing. Only the hunting and fishing will be changed in the bill.
We do know that environmental groups would oppose HR 1675, as they never support pro-sportsmen legislation, but for the Clinton administration to say yes and now oppose the bill is surely nothing but political.
We as sportsmen need to call our U.S. Senators and Representatives or write them a letter and let them know our license, stamp and excise taxes help keep the refuges open and to vote and pass the HR 1675 bill.

## NEW APPOINTMENTS

Daniel J. Babin of Houma and Edmund McIlhenny Jr. of Avery Island have been appointed to the Wildlife and Fisheries Commission by Governor Mike Foster.
Babin will be the voice of commercial seafood interests, as he has been in the seafood business for ten years.
McIlhenny manages 130,000 acres of Vermilion Parish land as vice president of Vermilon Corp. The company has large revenues from sales of fur, alligator hides and eggs and commercial fishing and shrimping.
McIlhenny will serve six years while Babin will serve four.

## Permits are approved

Several permits were approved at the Cameron Parish Police Jury meeting Tuesday.
Oil and gas drilling permits were approved for MW Petroleum Corp. in the Grand Chenier area and for Goodrich Oil Co. on the Sabine refuge north of Holly Beach.
Nine other permits were approved pertaining to pipelines, canals and flowlines in connection with oil and gas activities.
Gerard and Gayle Little were granted a permit to install two bulkheads on their property at Hackberry to control erosion.
Raleigh Newman was given a permit to replace a water control structure at Hackberry.
Grant Geophysical was given a permit to do seismic work from Cameron to Oak Grove.
Michael and Paula Chesson were granted a liquor permit for Chesson, Inc. at Sweetlake.
A bid of $7,300 was accepted from David Cook of Florine on the sale of a used fire truck by Fire Dist. 4.
A road right of way of 1500 foot was accepted from Rhudell Granger of Grand Lake.

# Just when you thought banks just don't get it,

## Account One

# (we got it).

Yes. We really have it, and it's exclusively available to you at Calcasieu Marine: a single account replacing all others, paying great interest rates on your account balance, with **no fees or charges** when the account balance minimum of $7,500 is maintained.

No more checking account and savings account at a bank, money market account to earn deposit interest from some brokerage firm, and CDs somewhere else, to boot. A single account, with a consolidated monthly statement, that does it all.

Your account is accessible to the max: by check, ATM, account transfers, ACH deposits/debits, and through CMNB's current debit card program.

Charges?

Just maintain the $7,500.00 account balance minimum, and you **will be charged nothing**: no annual fee, no monthly service charge, no transaction fees, no per-check or check-printing charge (with our wallet-style corporate image checks), no fee for Travelers' Checks or Stop Payment service, and no overdrafts.

The end of complicated personal money management.

| Account Balance | Annual Percentage Yield |
|---|---|
| $50,000.00 + | 4.70% |
| $15,000.00 – $49,999.99 | 4.18% |
| $7,500.00 – $14,999.99 | 3.14% |

Rates may change after the account is opened, adjusted weekly to the 30-Day U.S. Treasury Bill asked rate, and rates shown are effective January 30, 1996. The account minimum is $7,500, and interest is not earned on lesser amounts. If the balance falls below $7,500, fees imposed could reduce earnings. Interest is earned on the entire account balance at the highest qualifying rate. The account is for individuals only.

# Dock board, Lions back new road

The Cameron Parish Police Jury recently voted to make as its number one transportation priority the construction of a road north from Cameron to tie in with roads in the Big Lake-Grand Lake area which would give the area another hurricane evacuation route.

Since then, the jury has picked up two endorsements of the project--one from the Cameron Lions Club and another from the Board of Commissioner of the Lake Charles Harbor and Terminal District (dock board.)

At their meeting Monday, the dock board adopted a resolution offering "to work in any way possible with all public officials of Cameron parish to support individual projects including the new road between Cameron Parish and Grand Lake which enhance the economic growth of Cameron Parish and which the public officials of Cameron Parish fully support."

The police jury had chosen as its second and third priorities the construction of a bridge over the Calcasieu Ship channel at Cameron and the widening of the road from Creole to Lake Charles.

All three projects may be some years in the future since all will depend on state and federal funding which is increasing becoming harder to secure.

The jury has been pushing for years for the ship channel bridge but has decided to shift its emphasizes to the new road because of cost considerations and the difficulties in securing permits for the bridge.

## Lions pass resolution

The Cameron Lions Club has passed a resolution endorsing the project of construction of a highway between Cameron and the Big Lake - Grand Lake area, set as apriority by the Cameron Parish Police Jury.

The club recognizes this is a project that has many issues to settle and takes the attitude that overnight fulfillment of this project is not to be expected. However, the club realizes the people of lower Cameron Parish need a secondary escape route during hurricane evacuation.

The club requests all persons interested in the route contact Rep. Dan Flavin and Sen. Cecil Picard requesting they keep after this project for Cameron Parish.

# Severance taxes down in parish

—CAPITAL NEWS—

Natural resource production in Cameron Parish during November continued the downward trend begun in June, according to the state Department of Revenue and Taxation. However, the parish still ranked seventh overall for severance taxes recorded during the month.

The November severance tax report issued by the department indicates $1.08 million received for work in the parish. That not only reflects a decrease from the $1.2 million reported in October but is even farther below the $1.5 million listed in the report for November 1994. Receipts have been steadily since reaching a 1995 high of $1.7 million in May.

Most of the severance taxes were generated by oil production, which accounted for $602,192 of the parish total for the month. The $487,634 brought in by natural gas was the fifth highest November figure in the state for that category.

The parish collecting the tax on oil and natural gas receives one-fifth of the total up to $500,000.

Overall, the state's severance tax receipts dropped in November to just over $26 million. They took a brief upturn in Ocober to reach $28.4 million after slipping steadily from the $35.7 million recorded in June to September's $28.2 million.

In its traditional slot ahead of all other parishes, Plaquemines listed $4.5 million in total severance taxes for the month: Vermilion was again second, despite a slight decline to $2.4 million, and Terrebonne was just $20,000 behind to return to third for the month. Iberia moved up one spot with $1.4 million as Lafourche slipped from third with $1.3 million. St. Mary and Cameron retained their rankings, reporting $1.2 millin and $1 million respectively.

# clinic open house 27th

The Grand Opening of the new Grand Lake-Sweet Lake Rural Health Clinic will be held Tuesday, Feb. 27 from 12 noon to 7 p.m. The public is invited to tour the new clinic and also the ambulance substation. Refreshments will be served.

The clinic was opened by the South Cameron Memorial Hospital and is located behind the ambulance building just west of the Grand Lake School.

The office staff consists of Dr. Carlos Choucino, physician; Linda Chevallier, nurse practitioner; Ivy LeBouef, licensed practical nurse; and Suzanne Sturlese, secretary-receptionist.

The Louisiana Blood Center will be there also to accept blood donations from 2 to 6 p.m.

The clinic is open from 9 a.m. to 4 p.m., Monday, Tuesday, Thursday and Friday. For appointments call 598-4464.

# Appointments are told here

Two appointments have been made to the board of commissioners of the new Creole Nature Trail Scenic Byway District which goes through Cameron and Calcasieu parishes.

The Cameron Parish Tourist Commission has named Sammie Faulk to the board and the Southwest Louisiana Convention and Visitors Bureau has named Monte Hurley. Appointments also will be made by Cameron and Calcasieu police juries, the state highway department and the Cameron-Calcasieu legislative delegation.

The purpose of the Creole Nature Trail Scenic Byway District is to stimulate economic development and tourism in the parishes traversed by the scenic byway.

Just recently the scenic byway was selected by the National Park Service as one of five pilot projects to be offered Scenic Byway Group Technical Assistance on the Corridor Management Plan.

# Menhaden use told

A recent feeding study conducted by Dr. James McNaughton of the PARC Institute in Easton, Maryland showed that broilers fed diets that included menhaden fish oil and fish solubles showed a significantly lower incidence of mortality due to ascites, a heart condition also known in the poultry industry as "sudden death syndrome", as well as better overall performance in terms of body weight and feed conversion, Zapata Protein, Inc. said.

Chickens fed a diet that included 3 percent menhaden fish oil in the starter-phase showed an ascites mortality rate of 0.85 percent compared with a 3.41 percent ascites mortality rate for chickens fed a control diet.

Ascites syndrome is a type of congestive heart failure particular to the broiler industry that is beocming a major veterinary health concern.

Zapata Protein, Inc. is the nation's leading producer of marine protein products from menhaden. With corporate headquarters in Houston and a marketing office in Hammond, Zapata Protein operates four processing plants on the Gulf and Atlantic Coasts that manufacture menhaden fish meal, oil and solubles for use in a wide variety of livestock feeds. One of the plants is located in Cameron.

## Cancer info

Carol Baccigalopi, patient services chairman of the Cameron Parish Chapter of the Cancer Society, announces that anyone needing information on cancer and the outreach program should contact her at 318-542-4846.

THE CAMERON PARISH police jury road crew is in the process of clearing the .814 acre site east of the Cameron post office which has been purchased as a future site for the Cameron Parish Library headquarters. The site will be fenced. There is no immediate construction plans as financing is not presently available.

# 7th board member is considered by board

By GENEVA GRIFFITH

For the past year the six Cameron Parish school board members have on several important votes--including the selection of a new superintendent and the solving of a $1 million budget deficit--deadlocked on identical 3 to 3 votes.

In an effort to solve this problem in future votes, the school board last week voted to ask Senator Cecil Picard and Rep. Dan Flavin to introduce legislation to provide for election of a seventh member of the board to be elected at large from the entire parish.

District Attorney Glenn Alexander also was asked to look into alternative solutions for the problem.

Alexander said that state law allows up to 15 districts, so having seven districts would not be a problem.

However, any new district would affect voting rights and would probably have to be approved by the Justice Department, Alexander said, and the department tends to frown on multi-member districts because of a feeling it dilutes voting strength.

Since the next school board elections are still two years away, the board will have time to research the options, which could include waiting for the next reapportionment and creating or dissolving a district to create an odd-numbered board.

School board districts will not be reapportioned again until after the 2000 census.

**NEW POLICY**

Supervisor Uland Guidry presented to the board for consideration a policy on expulsion an expanded prohibition of weapons (including firearms) at school and school related events. If caught, a student would have to be turned over to the District Attorney.

He also presented a proposed policy on student interrogation.

Assistant District Attorney Bret Barham explained the duties of the law enforcement officers and the rights of the children.

The board was also versed on mandatory suspensions for possession of firearms and controlled dangerous substances without prescriptions which must be kept in the school office.

The board agreed that a school employee can be reimbursed for unused sick leave for up to 10 days, and up to $75, but it cannot be used for credit on retirement.

**BIRD BANDING PROJECT**

Roselyn Harris reported on her sabbatical leave for the development of a science curriculum for the parish schools. She gave a video presentation on bird banding in Ontario, Canada, where she did her study. She plans to make this into a science project for all the parish schools.

Ron Vining presented for approval a proposed summer maintenance program for all of the parish schools.

**GYM EXPANSION**

Karen Nunez, board member from the Grand Lake - Sweet Lake area called for a separate vote on her proposal to add ten feet to the Grand Lake school gym at a cost of $200,000.

Bill Morris, board president, said that this was not a maintenance problem, but should be considered as a new project. With the school board facing a million dollar a year deficit, the board would be unable to afford it.

Nunez said her constituents wanted to know why the tax money they had voted on for maintenance was being used for other things.

Morris said that her proposal was not for maintenance.

A vote was taken with Nunez and Don Billiot of Johnson Bayou voting for it and the other four members voting against it.

**SCHOOL CALENDAR**

In other business the board accepted the 1997 parish school calendar presented by Roger Richard, which included a mandatory election day holiday on Nov. 5.

Morris asked Pam LaFleur, the new superintendent, to present at the March meeting suggestions for facing the over a million dollar deficit in the budget, including the teacher load in each school, to see what adjustments can be made. "We must face this big problem before it is too late", he said. "In only four years we will have no funds to draw from."

He also requested a report from the school insurance committee at the March meeting.

The board also approved the following personnel report:

*Approved paying salary commensurate with position to Austin LaBove, acting principal at Hackberry High School.

*Appoint Linda Gayle Shay as a lunchroom technician at South Cameron Elementary School.

*Appointment of Kathleen Guthrie as a clerk at Cameron Elementary School.

## Kindergarten registration at G. Chenier

Grand Chenier Elementary School will have its annual Preschool Roundup Mon., Mar. 4, at 9 a.m. in the school auditorium.

Chldren entering kindergarten for the 1996-97 session must have been born before Sept. 30, 1991.

Bring a certified copy of the birth certificate, immunization record, and social security card for each child to be registered. Parents who do not yet have their child's birth certificate or social security card should begin proceedings to secure them. Application forms for birth certificates may be obtained at the Parish Health Unit. Applications for social security cards may be obtained from any post office.

Mrs. Nell Colligan, Cameron Parish School Nurse, will attend the roundups to talk with parents about immunizations now required by law before a child begins school.

## Little Pecan is featured

Cameron Parish's Little Pecan Island was featured in an article in the Houston Chronicle Sunday.

The island, or chenier, was purchased by the Nature Conservancy for $850,000 in 1988 and now is being used for birding and nature tours.

The Louisina chapter of the Nature Conservancy offers three-day birding trips in October and April at a cost of $350 a person, which includes meals and boat travel. For more informtion call 504-338-1040.

# Oystering extended

The 1995-96 Calcasieu Lake oyster season will be extended through Mar. 31. The Wildlife and Fisheries Commission based its decision to extend the season on biological data indicating significant oyster resources remaining on these public grounds. Precautionary closures by the Department of Health and Hospitals had also reduced the available days of harvest this season.

DHH regulates the harvest of oysters in the Cameron Parish waterbody based on water levels and water quality sampling. "The Department of Wildlife and Fisheries assesses the biological stock and makes recommendations for the season framework", said Dudley Carver, LDWF Marine Fisheries Biologist Project Coordinator.

The 1995-96 Calcasieu Lake oyster season was scheduled to run Oct. 16, 1995, through March 1, 1996—a total of 138 days, "As of Feb. 5, only 113 days had been expended," said Carver.

LDWF marine fisheries biologists reported to the Commission Feb. 8, that the Calcasieu Lake public oyster grounds have been surveyed and samples indicate there is a significant oyster resource to support the harvest.

Oysters may be taken by tonging only in Calcasieu Lake, with a daily bag limit of 10 one-and-a-half bushel sacks per boat.

# Mardi Gras ball set

The Krewe De Deux Lac (Grand Lake - Sweet Lake) will hold its sixth annual Mardi Gras ball Sat., Feb. 17, at the St. Mary of the Lake Family Center.

The Krewe festivities will begin at 7 p.m. with King Jean LaFitte V (Lionel LaBove) and Queen Christine V (Mrs. Velma Fruge) crowning the new king and queen who are Richard McDaniel and Mrs. Gale Hebert.

Named as dukes were Kent Tolbert, Jim Humble and Paul Poole. Named duchesses were Mrs. Irene Borne, Mrs. Becky Nunez and Mrs. Carolyn Tolbert.

After the Krewe ceremonies the ball will begin. A costume contest will take place with prizes given in the most original, best dressed, best couples categories.

Admission to the Mardi Gras festivities will be $8 per person. No one under the age of 18 will be allowed. BYOB and snacks as there will be no gumbo served this year.

## Registration

According to the Cameron Parish Registrar of Voters office, registration for the March 12, Presidential Preference Primar will close at 4:15 p.m. Fri., Feb. 16.

## VA officer

A Veteran's Employment Representative will be in the Cameron courthouse on the first and third Wednesdays of each month to assist veterans in finding a job. He will be in the office of Veterans Affairs between 9 a.m. and 2:30 p.m.

# Grand Lake School salutes Leon Duhon

Grand Lake School paid tribute to an exceptional educator last week during Counselor Week.

Leon Duhon taught one year at Vinton; and then for the next 35 years has served the Cameron Parish school system as an elementary teacher, coach, and counselor at Grand Lake School.

Mr. Duhon notes one of his proudest moments was when his first born child followed him in the teaching profession. His coaching days included establishing an elementary track team, starting the first Little Dribblers teams in the Grand Lake Community, and coaching a state winning varsity girls track team.

Finally, as Counselor at Grand Lake High School, he was instrumental in establishing a Grand Lake School Scholarship awrded at graduation. With the formation of a scholarship committee, he helped spearhead various community-wide fund raising activities. To perpetually maintain its existence, the Scholarship Fund encourages contributions of any amount at any time and makes the perfect lasting memorial gift for a deceased loved one.

During Counselor Week, Mr. Duhon was surprised with a breakfast in his honor, a black laborador puppy, a monetary gift, and a "memory box". The memory box included contributions from past and present members of the faculty and staff at the school and contained some funny, some reflective memory joggers as well as good wishes for the future.

Mr. Duhon has been married to the former Lucy Gossett for 36 years. they have three children: Cindy Hebert, Pam Woodgett and Gary Duhon and four grandchildren.

# 1880 Leesburg Census taken

(EDITOR'S NOTE--The following article was written by the late Archie S. Hollister of Lake Arthur 25 or 30 years ago. Mr. Hollister, who was known as unofficial historian of Cameron parish, wrote a column for the Pilot for many years.)

By ARCHIE S. HOLLISTER

Between the dates of June 22, and June 26, in the year 1880, the Federal census taker enumerated the inhabitants of what he called the town of Leesburg, and a few families living nearby. He signed his work simply as F. Hackett.

Mr. Hackett's writing is a pleasure to read. Every word is perfectly clear, every letter perfectly made, and no sweat drops or ink blots mar his pages. Other enumerators were by no means so careful in their calligraphy and occasionally leave the reader to guess just as to what they actually meant to write.

Mr. Hackett was thorough in his work, it is evident, but that some information is incomplete is evident at a glance. No reason for this lack is given however. We can only surmise; perhaps the person from whom he got his information could not furnish it.

The spelling of certain proper names is different to what is customary today, and even a casual reading is likely to raise questions that cannot be answered from the record itself. Personal knowledge and the memories of elderly people would be required.

These figures are taken from the official U.S. Census of 1880. No doubt there are errors in it, as in all such records. A parent may forget the exact age of a child, and believe it or not, a mother may not be able to recall the name of one of her own children who is habitually referred to by a nickname. Such things happen.

The numbers at the beginning of each family unit refer to the order of their listing on the census records, and have no other significance.

## An Earlier Day...

# Cisterns were once chief water source

(EDITOR'S NOTE--The following article was written by the late Archie S. Hollister of Lake Arthur 25 or 30 years ago. Mr. Hollister, who was known as unofficial historian of Cameron Parish, wrote a column for the Pilot for many years.)

By ARCHIE S. HOLLISTER

A quarter of a century ago an ordinary wooden or metal cistern was standard equipment for nearly every home in Cameron. Rural electrification making deep water wells feasible, has eliminated many of these old familiar structures from the scene.

In connection with this, some of our younger readers may be surprised to learn that at one time underground brick cisterns also existed on the chenier. Just how widespread they were is difficult to day. Doubtless they were rather expensive to build and this would have limited their general use. I have been told of four on Grand Chenier, and there surely must have been others throughout the country.

One supplied water to the home of Dr. Reed, who lived at the western end of Indian Point. When he had completed the building of his cistern, the doctor invited the young people of the neighborhood to a party; I can remember my grandmother telling of this party, and how they danced on the cover of the cistern. This will give some idea of its size.

Another was located on the property of the late James Fawvor Sr., a third supplied the needs of Dupreville Bertrand, whose home was near the vicinity of Paul Nunez's store, and the fourth was north of the Mermentau River near Mrs. Alfred Richard's old home.

There appear to have been two general types of these cisterns. One type, in shape, was a true cylinder, while the other was a bottle or jug shaped affair, tapering at the top to a diameter of three feet or so. Otherwise their construction was practically the same.

They were twelve to fourteen feet in depth, and eight to ten feet in diameter. They extended some distance above ground to prevent contamination by dirt and rainwater. The top of the cistern was a stout cover built of lumber. Water was drawn up by a hand pump, or by means of a bucket on a rope. One such, at least, was operated on the principle of a well-sweep.

The walls and floor of the cistern were built of brick, double thickness, and completely lined with plaster. Rainfall was collected by gutters along the eaves of the house roof and conducted to the cistern by a metal pipe, or a wooden box.

Regardless of the relative merits of underground versus above-ground cisterns, the former must certainly have had one distinct advantage. It would furnish a drink of water that would be many degrees cooler than a drink of water from the other. That in itself was an item to be considered back in those old days.

**CAMERON ROAD CONTRACT IS LET**

F. C. Barbour of Shreveport, has been awarded a contract to construct about 9 miles of earth road in Cameron Praish which will connect Klondike with the Jefferson Davis Parish line near Lake Arthur.

The cost will be about $18,000. T. H. Mandell, civil engineer, states that later this road will be hard-surfaced with gravel or shell. The expense of building this road will be paid from a $230,000 bond issue sold by Road District No. 3.

**COLD CAUSES LOSS OF FRUIT**

Sheriff John Miller of Cameron Parish was in Lake Charles today on his way from Lowery. Mr. Miller says that the freeze of last week did great damage to the fruit of his parish. Not only is it considered that the crop for this year is lost, but it is feared that both orange and peach trees are killed, as the bark is splitting.

**CAMERON WATER RATES**

As the result of a public hearing on the proposed water rates for the town of Cameron held last Thursday, two changes have been made in the proposed rates by the Cameron Water Works Commission.

Owners of three Cameron motels--Helaire Hebert, Frankie Henry and W. J. Broussard--requested that the proposed 75 cents per month per unit charge be changed since they said the motels operate at only about 40 percent capacity most of the year.

The board agreed to set a flat rate of $3 for motels, with 50 cents being charged per unit up to 10 units and 25 cents per unit for all units over ten.

Curt Couvillion, owner of a Cameron dry goods store, asked that a change be made in the proposed $5 charge for dry goods and grocery stores and bar.

The water is expected to be turned on probably in April.

**ROUNDBOUT THE PARISH**

Creole -- The most wonderful of the four seasons, spring, paid our area a very brief visit last week enticing the fishermen out by the scores so that it wasn't long before our highways began to hum with the traffic of cars and light trucks pulling boat trailers with every size and description of boats ranging from pirouges to small cruisers.

# Fish, wildlife not hurt by the freeze

"No significant damage occurred to wildlife resources due to the February 1996 freeze", reported Johnnie Tarver, acting assistant secretary of the Department of Wildlife and Fisheries.

Fish seemed to be the most heavily impacted. LDWF Marine Fisheries biologist Harry Blanchet reported a fish kill area at Stump Lagoon, Crooked Bayou and Mussel Bay on Biloxi WMA (St. Bernard Parish). "Most were speckled trout ranging from 6 to 18 inches and averaging 8 inches," he said. "Most of the rest were pinfish, a bait-fish."

Blanchet also reported a kill of approximately 5,000 fish in the Pointe a la Hache Area of Plaquemines Parish. "Again, most were speckled trout", he said. "The rest were mainly sheepshead, drum and croaker.

"The good side is that people are still catching fish in these areas," Blanchet said. "Our surveyors covered a lot of ground and found no dead fish at all. Sampling crews in Calcasieu Lake saw large speckled trout in perfect health."

Fur and Refuge biologist Guthrie perry compared the recent freeze with one in December 1989 when low temperatures were recorded at 101°F. "Literally thousands of fish — red drum, black drum, speckled trout, spotted gar, sheepshead and pogy — died in that freeze and in one in 1983-84," he said. "Aerial observations and several boat trips at Rockefeller Refuge this month revealed only a small number fish dead — 30 redfish and a couple of black drum and mullet."

Blanchet cautioned that full effects of the freeze may not be known until spring. "All this information is preliminary," he said. "More fish may float up later, and it will be several months before we have a full understanding of what happened to fish populations."

In general wildlife and fish mortality was not nearly as severe as for previous freezes in 1983-84 and 1989," said Perry, who noted that it remains early to get a complete picture. "Alligators began surfacing at Rockefeller 25 days after the 1983-84 freeze."

Perry predicted mortality will be considerably less than in past freezes. "Ice cover was relatively light in 1996," he said. "Many dead fish and other wildlife species were observed during and shortly after the previous freezes, whereas in 1996 considerably effort had to be expended to locate a couple of dozen dead fish."

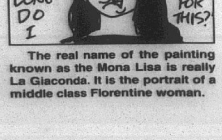
# Changes expected for red snappers

Changes in federal fishing laws could mean Louisiana's commercial red snapper fishermen may face increased minimum size limits. The Wildlife and Fisheries Commission extended authority to the Secretary of the Department of Wildlife and Fisheries to raise the size limit on red snapper taken commercially. Authority was granted pending size limit changes that may occur in federal waters as a result of Gulf of Mexico Marine Fishery Management Council action.

Louisiana's commercial season for red snapper opened Feb. 1, 1996, with a 14-inch minimum size length. "The federal limit is 15 inches," said William S. "Corky" Perret, administrator of LDWF's Marine Fisheries Division. "The Fishery Management Council is considering action to drop that limit to 14 inches. They were not able to do so before the opening of Louisiana's season because of delays caused by the federal government shutdown."

The Commission gave the Secretary the authority to keep the state size limit and the federal size limit consistent. The Secretary will issue a declaration of emergency to immediately raise the size limit if necessary.

Perret said that a meeting is scheduled for next week to consider lwoering the federal size limit to 14 inches or to keep it as it is. "If the Council does not change federal limits, then Louisiana will go up to 15 inches", he said.



# When is it too old for one to drive?

An article entitled "How Old Is Too Old To Drive", appearing in a recent issue of the National Safety Council's Traffic Safety magazine, states that older drivers are some of the safest drivers on the highways. In fact, the article quotes National Safety Council statistics which indicate that older drivers are nowhere near as dangerous to themselves or others as are teenage drivers.

However, because the number of older drivers is exploding, there is a growing concern among experts about the dangers boomers' golden years could bring to the nation's highways. In 1993, there were 24.5 million licensed drivers age 65 and older, which is a 69 percent increase from 1983. Drivers age 65 to 74 had the lowest fatal crash involvement rate of 18 per 100,000 drivers; however, based on miles driven, older drivers' collison and fatality rates rise dramatically after age 75.

In the article, John Eberhard, senior research psychologist at the National Highway Traffic Safety Administration, calls the fatality rate of older drivers misleading. "Older drivers tend to drive on city streets where the collision rate is seven times higher than on interstate highways", he says. And, a fragile elderly person is more likely than a younger person to be injured critically in a crash which contributes to the misconception that older drivers are not as safe.

Age does impact drivers' decision-making abilities, hearing and sight. According to the American Medical Association, visual distraction increases, peripheral vision narrows and night vision deteriorates as a person ages. Also, elderly people fall victim to a host of illnesses and physical problems that may affect driving skills.

Mrs. Michael Meaux

## Miss Benoit is married to Dr. Michael Meaux

Kimberly Benoit and Dr. Michael Meaux were married Sat., Feb. 10, at 11 a.m. at the Sacred Heart Catholic Church in Creole. Msgr. Bernard officiated at the double ring, candlelight ceremony. Mrs. Betty Smith provided the music and Mrs. Elizabeth Richard was the vocalist.

Parents of the couple are Mr. and Mrs. Raven Benoit of Creole and Mr. and Mrs. J. B. Meaux of Grand Chenier.

Given in marriage by her father and mother, the bride wore a formal bridal gown of white satin styled with a modified scoop neckline with bugle beads. A floral beading pattern accented the princess bodice, which featured short shirred sleeves and a draped waistline. The full skirt had a semi-cathedral train. Her veil was a lace crown covered with satin flowers, clear sequins and pearls. A fingertip veil of illusion was attached to the crown.

She carried a bouquet of white roses, baby magnolias and English ivy.

Amy Benoit served as maid of honor. Bridesmaids included Racheal Trahan, Tawanna Nunez, Misty Romero and Cheir McDaniel.

The attendants wore navy blue brocade two-piece suits. The fitted jackets featured modified scoop necklines in front and a deep V at the back. The jackets had full peplums at the back. pearl and gold buttons accented the jacket front. They carried bouquets of wedding white roses.

Flower girls were Allison Harrell and Kaelyn Renia and ringbearer was Trever Nunez. Candlelighters were Erica Nunez and Chad Mudd.

Whatever women do they must do twice as well as men to be thought half as good. Luckily, this is not difficult.

—Charlotte Whitton

Best man was Jimmy Meaux and groomsmen included Eric Rutherford, David Montie, Kevin Savoie and Scott Nunez. Ushers were Christopher Benoit, Chadd Mudd and Johnny Reina.

A reception followed in the Creole Community Center with Bridget Conner registering the guests.

The bride is a graduate of South Cameron High School and is attending Sowela. She is employed by Specialty Retailers, Inc. The groom, a graduate of South Cameron High School and Louisiana State University, is employed by Rhodes Veterinary Hospital.

Following a wedding trip to Orlando, Fla., the couple is making their home in Grand Chenier.

Mrs. Richard

## Mrs. Richard feted on 81st

Evyone Sturlese Richard of Grand Chenier celebrated her 81st birthday at a dinner at the home of her sister and brother-in-law, Whitney and Lorine Bacciga-lopi. She was born Feb. 7, 1915, daughter of the late Joe Sturlese and Doris Theriot Sturlese.

The surprise birthday party was given by her husband, Ernest Richard and their children, Loston McEvers, Carolyn Richard and Margaret Little and her two sisters, Louise Baccigalopi and Elougia (Lady) Richard. She also has a brother, Enos (Buster) Sturlese.

Her grandchildren, Rufus McEvers, Jocelyn Broussard, Chad, Cody, Crystal and Cassie Little, Goldie and Missy Richard and her great-grandchildren, Erica Nunez, Alex Broussard and Little Rudy McEvers, Garrett Richard, along with many nieces and nephews attended.

THESE WERE the Junior and Deb Queen candidates in the Fur Festival contests shown at a reception held in their honor.

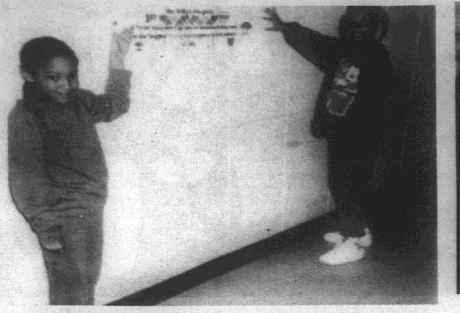
# S. Cameron 4-H clubs have meeting

By TONI KAY NUNEZ, Reporter



The South Cameron High Jr. and Sr. 4-H clubs met Jan. 17. The meeting was led by the Jr. Club. Club reports were given on Aggie Day by Brandi Hebert and the Parish Beef Show by Robert Nunez. Mrs. Rodrigue made announcements of upcoming events of the club. Students bringing in the most items for the food drive and receiving gifts were: Tiffany Richard, Eddie Richard, Christa Richard and Rebekah George.

Mr. Mike handed out the Cameron Clover newsletter and discussed important dates for the upcoming month. He announced to eighth grade club members who were unable to attend Challenge Camp last year due to weather conditions, that they could apply to go this year.

Another important announcement he made was the concession stand duties for the parish livestock shows. Mrs. Rodrigue told members that the work time for our club was Thursday evening. Other events mentioned were the Honey Bee essay and the Fur Festival Dance, sponsored by the Jr. Leaders Club.

Mr. Mike explained that there would be a parish judging contest on Sat., Feb. 24, with workshops and contests following. Materials needed for putting record books together were handed out to members planning to do record books. He went over information that should be included in each section.

March is a tomboy with tousled hair, a mischievous smile, mud on her shoes and a laugh in her voice.

## Scouts to get merit badges

Boy Scouts from Creole Troop 210 recently met the requirements for the Emergency Preparedness merit badge. Johnny LeBlanc taught the badge requirements.

In concluding the requirements, the Scouts joined the Cameron Volunteer Fire Department members in a fire drill. The Scouts learned the proper way to extinguish different types of fires, practiced putting out a diesel fire, and tried holding different size fire hoses at different pressures. The Scouts were given a tour of all the fire and emergency equipment on the trucks.

Mr. LeBlanc, the fire department volunteers, emergency personnel and the sheriff's department were all instrumental in allowing the Scouts to participate in the fire drill.

All members and families are invited.

Preceding the Jan. 21 meeting, a fraternal benefits night was held. KC members and their wives were furnished a meal by Dusty Sandifer, Binky Jinks and Barry Badon. Mark Gibson conducted a session on fraternal benefits.

The newest 4th Degree members are Tim Trahan and Dusty Sandifer who were exemplified on Jan. 13.

The next regular meeting is on Mon., Feb. 19, at the renewal center. A rosary will be said at 6:15 p.m., a meal furnished by Barry Badon at 6:30 p.m. and the meeting at 7 p.m.

LEGAL NOTICE
STATE OF LOUISIANA, OFFICE OF CONSERVATION, BATON ROUGE, LOUISIANA.
In accordance with the laws of the State of Louisiana, and with particular reference to the provisions of Title 30 of Louisiana Revised Statutes of 1950, a public hearing will be held in the Conservation Auditorium, 1st Floor, State Land & Natural Resources Building, 625 North 4th Street, Baton Rouge, Louisiana, at 9:00 a.m., on TUESDAY, MARCH 12, 1996, upon the application of FINA OIL AND CHEMICAL COMPANY.
At such hearing the Commissioner of Conservation will consider evidence relative to the issuance of an Order pertaining to the following matters relating to the Lower A-1 Sand, Reservoir A, in the Second Bayou Field, Cameron Parish, Louisiana.
1. To establish rules and regulations governing the exploration for and production of gas and condensate from the Lower A-1 Sand, Reservoir A.
2. To create a single drilling and production unit to be designated LWR A-1 RA SUA and to force pool and integrate all separately owned tracts, mineral leases and other property interests within the proposed unit, with each tract sharing in unit production on a surface acreage basis of participation.
3. To designate Fina Oil and Chemical Company as operator and to designate the Fina Oil and Chemical Company - Mecom Fee No. 10 Well as unit well for the proposed unit.
4. To provide that any future wells drilled to the Lower A-1 Sand, Reservoir A, in the Second Bayou Field inside or outside of the proposed unit shall be located in accordance with the provision of Statewide Order No. 29-E.
5. To authorize the Commissioner of Conservation to reclassify the reservoir by supplemental order without the necessity of a public hearing if the producing characteristics of the reservoir change and evidence to justify such reclassification is submitted to and accepted by the Commissioner of Conservation.
6. To consider such other matters as may be pertinent.
The Lower A-1 Sand, Reservoir A, in the Second Bayou Field, is hereby defined as being that gas and condensate bearing sand encountered between the depths of 12,606' and 12,730' (ELM) in the Fina Oil and Chemical Company - Mecom Fee No. 10 Well located in Section 31, Township 14 South, Range 11 West, Cameron Parish, Louisiana.
A plat is available for inspection in the Office of Conservation in Baton Rouge and Lafayette, Louisiana.
All parties having interest therein shall take notice thereof.

NOTICE
During the reporting period of January 15, 1996 to February 14, 1996 the Cameron Parish Waterworks District No. 2 water supply violated the maximum contaminant level of coliform bacteria as set forth in the State and Federal Primary Drinking Water Regulations. Action was taken to eliminate the contamination.
The United States Environmental Protection Agency (EPA) sets drinking water standards and has determined that the presence of total coliforms is a possible health concern. Total coliforms are common in the environment and are generally not harmful themselves. The presence of these bacteria in drinking water, however, generally is a result of a problem with water treatment or the pipes which distribute the water, and indicates that the water may be contaminated with organisms that can cause disease. Disease symptoms may include diarrhea, cramps, nausea, and possibly jaundice, and any associated headaches, and fatigue. These symptoms, however, are not just associated with disease-causing organisms in drinking water, but also may be caused by a number of factors other than your drinking water. EPA has set an enforceable drinking water standard for total coliforms to reduce the risks of these adverse health effects. Drinking water which meets this standard is usually not associated with a health risk from disease-causing bacteria and should be considered safe.
The Cameron Parish Waterworks District No. 2 submits water samples, taken by the Louisiana Department of Health and Hospitals. For the month of January, 1996, water samples were not in compliance with Standards. The Cameron Parish Waterworks District No. 2 completely flushed out the distribution system, increased the level of chlorination and submitted new samples to the Louisiana Department of Health and Hospitals.
As of February, 1996, the Louisiana Department of Health and Hospitals has determined that the Cameron Parish Waterworks District No. 2 has corrected the problem and is now in compliance with Standards.

## Bank declares cash dividend

Roy M. Raftery, Jr., president of the Cameron State Bank, has announced that the board of directors has declared a 40 cents per share cash dividend.

This is a 60% increase over last year's dividend of 25 cents per share, and is payable to shareholders of record as of Jan. 19, 1996, payable on Feb. 29, 1996.

Many growth factors have contributed to the net income of the bank reaching a record high of $1,801,000 the past year, Raftery said.

Deposits have increased by 22.5%, from $103,325,000 to $126,572,000.

Capitol, which is an important measure of the bank's financial stability, increased by 35%, and new deposit accounts increased by over 3,800, partly due to the opening of the University Branch in Lake Charles.

**CAMERON DEVELOPMENT**

J. D. Demerest, member of the Cameron Parish Police Jury from Grand Lake, and J. J. Miller, member of the Cameron School Board from Grand Chenier, were in Lake Charles Wednesday.

While in Lake Charles, Mr. Demerest stated that citizens of his parish have in mind the construction of a highway from Lake Charles to the town of Cameron along some route and that as soon as the Louisiana Highway Commission has in hand its $30,000,000 which Cameron helped vote and is not so hard pressed for funds for maintaining and building state roads, Cameron Parish is going to ask that a road be built that will open up and help develop vast natural resources in a large section east of the Calcasieu River, and at the same time afford means for good citizens of the state to reach markets and become more safe from storms along the coast country.

Mr. Miller said that schools in Cameron are in good condition and will run nine months without difficulties. Leasings of school lands to oil companies for development work in Cameron has greatly assisted schools financially, he said.

**LIBRARY BOARD OFFICERS**

The Cameron Parish Library Board of Control met at the library on Jan. 29.

Officers elected to serve in 1963 were Mrs. Alden Sanner, Hackberry, president; J. C. Reina, Creole, vice-president; and Mrs. Charles W. Hebert, Sweet Lake, treasurer. Other members of the board attending the meeting were Mrs. Charles Precht, Mrs. Lee Nunez and Mary Brand, Librarian.

Of the total Cameron Parish population, 51% are now registered users of the library facilities.

**COCK FIGHTING OUTLAWED**

The Cameron Parish Police Jury came up with something out of the ordinary in the way of an ordinance at its January meeting Monday -- a new law outlawing cock fights and dog fights in the parish.

The new ordinance, which will impose a fine of $100 or 30 days in jail for each violation, was adopted by the jurors following a closed-door discussion of the matter with Sheriff O. B. Carter.

Sheriff Carter reportedly told the jury that he had evidence that cock fights had been conducted on several occasions in the past and that he wanted to be sure that there was a law on the books before making any arrests.

There had been reports of cockfights being held in the Hackberry area, according to informants.

**GAS SERVICE IN GL-SL AREA**

Approximately $155 would be required from each of the 50 customers around the Grand Lake School if natural gas service is wanted according to F. B. Chase, Jr., United Gas representative. He made this statement at a meeting of the Cameron Parish Development Association last week. This advance is reqired in all rural areas where the customers are scattered and the investment by the company exceeds $3.90 per one dollar of gross revenue.

**TEACHERS IN 1911**
**(By Archie S. Hollister)**

It is more or less the current fashion to deride those benighted individuals who lament the passing of the "good old days". In the superiority of our knowledge and the sophistication of our understanding, we explain to them, as painlessly as possible of course, just how bad those bygone days really were. Regretfully we must admit that it is time wasted, for they just won't understand! Still it gives us pleasure to make the effort, and it helps us to gain a momentary feeling of superiority. That, we need.

But perhaps those old boys have a point after all. This picture shows the teaching staff of Cameron back in 1911, and while everyone is aware that our educational system, on the whole, has advanced greatly since then, in the matter of appearance and personal good looks--(pause here for reflection; one could get into trouble).

No, I didn't say it--in fact I didn't think it--but an acquaintance of mine did remark, and I quote, "There are more pretty girls on that front porch than you can find at any teachers' meeting in Cameron today." End of quote!

The setting is the front porch of Mrs. Bill Stine's hotel in Cameron, and the occasion was a "Teachers' Institute," which was the quaint expression then employed for what we would refer to as a "workshop" today.

At the extreme left in the bottom row is Miss Willie Cain, and the next is Jewell McPherson. The third is Estelle Martin who married Ott Stewart, now deceased, and made Cameron her permanent home; later she resumed her teaching career, and is now teaching in one of the schools of Lake Charles. The younger man in the picture is Charles Eagleson, then sheriff of Cameron, and one with the mustache and bow-tie is A. C. Murray, superintendent of schools at the time. The other three are Miss Frizell, Supt. Murray's own daughter, and Inez Smith.

In the back row are, from left to right, a Miss White, and Miss Fannie White. The second Miss White is quite well known throughout the parish. She married George H. Savoy of Creole, and taught in several of the communities in Cameron during a long and fruitful career. She is now retired, and she and Mr. Savoy are living in Lake Arthur. It is through her kindness that this picture is made available. The girl in the white dress is Miss Aline Sibley, who like Miss Martin and Miss White, married a local boy, Johnny Meaux. The three are Mayme Pugh, Bessie North, and Florence Tanner.

It might be of some interest to note that Supt. Murray had his residence in Lowery, and conducted the affiars of the schools from there.

This worked no particular hardship on anybody though. The local teacher on the job had an independence unknown today, the superintendent was not expected to be in constant contact with the schools, and the School Board itself met but once every three months. Education was not big business then. It is quite doubtful that Mr. Murray's entire budget for the year would pay the present superintendent's annual salary.

**ROUNDABOUT THE PARISH**

Grand Lake-Sweet Lake -- Ladies who will receive Red Cross certificates and pins for completing the Red Cross Nursing course taught by Mrs. Gladys Writley are Mesdames McKinley Broussard, Eraste Hebert, Rufus LeVergne, Ethel Doucet, Joseph LeBoeuf, Wilbert Hebert, Leo Granger, Curtis McCain, Wasey Granger, M. Walding, Charles W. Hebert and Ted Askew. Others who participated but could not attend all classes were Mesdames Bessie Hebert, Floyd Granger, Herman Precht, Ignace Castille and Curley Thomas.

Oak Grove -- Frances and Benny Welch and Frances Carol Miller are returning to McNeese to resume their studies for the spring semester.

Johnson Bayou -- Mr. and Mrs. M. H. (Blue) Badon and family are back on Johnson Bayou. Mr. Badon was the ranch foreman for the John Mecom Ranch near Holly Beach.

Hackberry -- The Mustangs have kept their District 10-B record unblemished with 12 wins and no losses to their credit. Tuesday night the Mustangs defeagted Merryville 78-37. Ken Drost tallied 28 points for the winners.

## Filing of income tax by phone

Certain Louisiana taxpayers are being given the opportunity to speed their refunds by filing their 1995 individual State income tax return by telephone under the State's new TeleFile Program, according to Department of Revenue and Taxation Secretary John Kennedy.

Secretary Kennedy said the Department has also added a toll-free Taxpayer Refund Status Line. By dialing 1-800-469-8784, taxpayers can ascertain that their Louisiana State tax return has been received and determine the status of their refund. Every Louisiana taxpayer is eligible to participate in this service which is available 24 hours a day, 7 days a week. A touchtone telephone is not required.

Approximately 137,000 taxpayers pre-selected by the Department were mailed TeleFile booklets in addition to their State individual income tax booklet. Secretary Kennedy said those taxpayers have the option to either TeleFile, file electronically, or file the traditional paper IT-540 return. If all goes well, the TeleFile progam will be extended next year.

Taxpayers receiving a TeleFile booklet also received a unique Personal Identification Number (PIN) with it. The taxpayer can TeleFile only if his name and address on the booklet is correct and has not changed.

TeleFiling a return is easy, quick (5 to 6 minutes on average once the worksheet is completed), and results in the taxpayer receiving his refund much faster. To TeleFile, a taxpayer using a touchtone telephone only needs to complete the short, worksheet in the TeleFile booklet, call the toll-free 800 number, and enter information from the TeleFile worksheet. The worksheet asks the taxpayer to list their Social Security Number, Personal Identification Number (supplied with the booklet), number of exemptions, federal adjusted gross income, and W-2 information on employer wages, and State income tax withheld.

After entering the information from the worksheet, the tax will be calculated automatically and the taxpayer will be told the amount of his refund. If a balance due is calculated, the taxpayer will be instructed to file electronically or file the traditional paper IT-540 return.

**Pain may be eliminated for millions**

(SPECIAL) -- A new drug has been approved that is exciting researchers in the treatment of pain. This material has been formulated into a new product known as "Arthur Itis™" and is being called a *"Medical Miracle"* by some, in the treatment of debilitating conditions such as arthritis, bursitis, rheumatism, painful muscle aches, joint aches, simple backache, bruises, and more. Although the mechanism of action is unclear, experiments indicate that Arthur Itis™ relieves pain by first selectively attracting, and then destroying the messenger chemical which carries pain sensations to the brain, thus eliminating pain in the affected area. Arthur Itis™ is an odorless, greaseless, non-staining cream and is available immediately without a prescription and is guaranteed to work. Use only as directed

**FISHING NEWS**

Anglers are out enjoying the warm days, fishing both salt water and fresh water. Reports have been good. Bass are hitting, many being taken along the Creole - Gibbstown road ditch on the west side. Bass running 3 to 8 pounds have been taken. The 8 pounder was taken last week, a report I got from a wildlife personnel.

Speckle trout fishing is slow, but redfish is picking up, with nice catches taken on Rockefeller Refuge main canals, which is permitted legal fishing.

There were good catches of redfish reported last Wednesday, caught in the Hog Bayou and Mermentau River sections. One 32 inch fish was taken in the Bayou ponds.

Big Lake reds are beginning to take cockohoe charcoal grubs and live shrimp. The old jetties, West Cove and washout areas produced last week as well.

Anglers who hit the offshore waters last week said seas were fairly clam and traveling about 35 miles out of Grand Chenier they hit some nice red snappers.

If we can stop getting the cold fronts, I think fishing will be in full swing in the next couple of weeks. I do know anglers are burning up with the fishing fever and the only medicine is the fishing pill.

**TALK AROUND**

*Hunting season in our area is just about over, with the goose season and rabbit season coming to an end, Feb. 25 for geese and Feb. 29 for rabbits.

*The commercial oyster season has been extended in Big Lake until the end of March.

The extension was granted by Wildlife and Fisheries Commission because of days lost by the heavy rains.

*The state Department of Wildlife and Fisheries, with a large fleet of aircraft, has decided to sell half of the planes they own. The six planes they own will see three assigned to the department Enforcement Division, which will make them 4 aircraft. The upkeep plus maintenance and hanger fees was way too high to keep all the planes.

*Former university biology professor Glynn Carver was elected chairman of the La. Wildlife and Fisheries Commission. He has been serving on the board since 1994.

*Texas plans to break the world largemouth bass record. Many of our parish anglers fish the Texas waters. As we see Florida trying to regroup and get their bass rating back like it was in the late 70's and 80's, Texas is ahead of the game.

Texas now has 13 lakes producing over 13 to over 15 pound bass now. Sam Rayburn has two bass over 13 pounds while Lake Fork has 16 over 13 pounds with a 15.31 largest in the state. All of the large fish were caught since 1994.

Toledo Bend is not in these top lakes yet, but they are approaching.

Remember, if you're fishing other lakes besides Toledo Bend, you'll need a Texas fishing license. An annual non-resident license for sportsfishing costs $30. A temporary 5 consecutive day trip for non-residents is available. No license is required for non-residents under 17 years of age or of senior citizens from Louisiana.

**LDWF NEWS**

**REAL TALK**

If you catch a big fish and think you have some kind of record fish, weigh it, measure it, identify it, take a picture of it, have witnesses and have it verified by a fishery biologist.

You then write to the Louisiana Outdoor Writers Association, who keep state records. LOWA, Bill Ford, P.O. Box 8571, Clinton, La. 70722-8571 or call Bobby Reed at 318-491-2575, a qualified biologist for our area, District V.

NOTICE OF PUBLIC HEARING

A Public Hearing will be held at the Lake Charles Civic Center, Jean Lafitte Room, 900 Lakeshore Drive, Lake Charles, La. on Tuesday, February 27, 1996 at 9:30 a.m.

This Public Hearing will be held in accordance with Act 334 of the 1974 regular session of the Louisiana Legislature and conducted by the Joint Legislative Committee on Transportation, Highways and Public Works.

The purpose of this Public Hearing is to review highway construction priorities for the fiscal year 1996-97 for the parishes of Allen, Beauregard, Calcasieu, Cameron and Jefferson Davis, which comprise Highway District 07. This review is based upon the project priorities established by the highway needs analysis. The Highway Needs and Priority Study was done in order to determine the estimated cost of improving state maintained roads in Louisiana which do not meet a specified minimum tolerable condition for a particular functional class. Act 334 provides for a firm priority listing of the first ensuing year and tentative priorities for each of the next five subsequent years. This provides advice on the status of highway projects contemplated or under preparation.

A copy of the "Preliminary Program for Fiscal Year 1996-97" is available for review by interested persons at the Department of Transportation and Development District 07 Administrator's office, 5827 Highway 90 East, Lake Charles, La. 70601, and also at the Louisiana Department of Transportation and Development Headquarters Building, 1202 Capitol Access road, Baton Rouge, La., Room 236.

All interested persons are invited to be present at the above time and palce for the purpose of becoming fully acquainted with the proposed program and will be afforded an opportunity to express their views.

Oral testimony will be received. However, in order that all persons desiring to make a statement have an equal opportunity to do so, it is requested that every effort be made to complete individual testimony in as short a period of time as possible. Oral testimony may be supplemented by presenting important facts and documentation in writing. Your, cooperation and assistance will be appreciated.

Written statements and comments should be handed to the committee conducting the Hearing, or can be mailed to the following address, postmarked within 10 calendar days following the Hearing:

# Mardi Gras celebrated from New Orleans to Grand Lake

By GENEVA GRIFFITH

Each parish in Louisiana celebrates Mardi Gras in their own style.

In the Sweet Lake - Grand Lake community of Cameron Parish, as well as throughout Acadiana, they celebrate with a Mardi Gras run, in which the participants load up on trucks and go around the community gathering supplies for a huge gumbo. A Mardi Gras ball is also held on the Saturday night before Lent in the community center of Our Lady of the Lake Catholic Church.

My family started our Mardi Gras celebration Saturday in Baton Rouge by attending one of the whakiest parades in the state. It is the Spanishtown parade held in a small urban community of Spanishtown, approximately 4 blocks square, located just south of the State Capitol. The small neighborhood is very old, with well-kept houses which show the pride in the community.

The local parade started about 17 years ago when two men in the neighborhood marched up and down the streets beating on garbage cans. They were joined by children and other merrymakers.

The following year there were two floats with whacky themes spoofing the politicans. It has grown since that time to 65 floats, each with a theme to make fun of something.

One float's theme this year was "The 10 most Honest Politicians in Louisiana", and was an empty float with 10 American flags on top.

Another was the Krewe of Yazoo, who paraded in formation pushing their decorated lawnmowers which were festooned with artificial grass, flowers and plants. Every few yards they would stop and put on a drill with various crazy things on their mowers.

The King of the parade was a cur dog sitting on the lap of a handler. Sharing the throne was Queen Lurline Struppeck, the mother of Rusty Struppeck, a McNeese University Cowboy. She grew up in the area and still lives in the home in which she was born.

She was the first woman to receive an athletic scholarship in 1964 to LSU, and participated in the Olympic trials that year in javelin throwing.

An outdoor free dance was held on a concrete covered lot next door to the Queen's mother's home after the parade and was attended by an estimated 500 people.

NEW ORLEANS

It took the city of New Orleans to transform the centuries old celebration of Mardi Gras into America's greatest party, and the 1996 party was no exception.

The weather was perfect for the Sunday festivities and we joined our friends, the Carvill's, from Baton Rouge in a place they had staked out on St. Charles, across from the Intercontinental Hotel, where we spent the entire day sitting in lawn chairs, eating, and listening to music.

The barricades set up along the avenue kept the crowds back from the parades, but everyone lined up their ice chests against the barricades and stood on them to view the parade.

In between the parades there was plenty of time to visit, eat king cake and just relax.

The parades started at 11 a.m. and finished at almost midnight. Rolling on Sunday was Thoth, Oceanus, Poseidon, Mid-City, Mercury, Napoleon, and Bacchus, which is one of the main parades of Mardi Gras.

The celebrity this year was Dick Clark, King Bacchus XXVII, and the 900 men of the Krewe rode a total of 28 super floats.

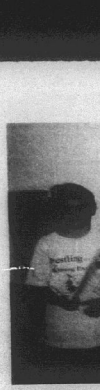
# Fishing to open on Sabine Refuge Mar. 15

On March 15, the interior canals, bayous, ponds and impoundments of the Sabine National Wildlife Refuge will open for public sport fishing, crabbing, and crawfishing. The refuge will remain open until Oct. 15. Legal hours for the public to be on the refuge are sunrise until sunset, Refuge Manager Will Nidecker advised.

Prospects for refuge fishing appears good in Units 1A and 3. The water levels are at operational levels. Nidecker continued, bass fishing in Unit 3 should continue to be good and catfishing in Unit 1A will continue to challenge area fishermen. Crappie and bream fishing should be good in Unit 3.

Motor size restrictions for the management units remains limited to no larger than 40 hp. Fishermen are also advised that outboard or inboard motors cannot be operated in the open marsh. These areas are restricted to using trolling motors or pushpoling only.

Water conditions in refuge canals provided excellent angling opportunities for catfish, bass, and other fresh water fish species during 1995. The conditions remain the same in 1996 and should provide good fishing this season. However, if strong spring southeasterly winds move higher salinity waters into the marshes and canals, fishing conditions will change to what it was several years ago.



Cast netting will be not be permitted except during the Louisiana Inland Shrimp Seasons. The hours for castnetting are from noon to sunset. Nidecker reminded all castnetters that the refuge legal castnet is a five foot cast net with a maximum allowable stretch to 72 inches hanging radius length.

Fishermen can now pick up the 1996 Fishing Regulations brochure at refuge headquarters and at other locations around the refuge. The brochure not only has the current refuge fishing regulations but also a map of the refuge with a 16 inch ruler at the bottom. Copies of the brochure can be requested by calling 318-762-3816 or writing to Sabine Wildlife Refuge, Hwy. 27 South 3000 Main St., Hackberry, La. 70645.

# Jury decides on insurance matters

By GENEVA GRIFFITH

Insurance problems were the focus of the Monday night called meeting of the Cameron Parish Police Jury.

The jury had to make a decision by Mar. 1, on options on their health and hospitalization policy for parish employees.

There were three plans proposed by Aetna Insurance Company, who had notified the parish they had to impose a 13% increase in the policy rates.

Bonnie Conner, parish treasurer, said she had sent a survey to parish employees and retirees and 78% fvored Plan C, which the jury voted unanimously to accept.

The plan would have the following revisions: the basic calendar year deductible amount would be raised from the current $200 to $500 per year per person, not to exceed three persons per family; the in-hospital deductible would remain at $200; generic drugs would be reimbursed 80%, rather than the present 100%; second surgical opinions, which are optional, would be reimbursed 80%, rather than the present 100%, and the plan revisions would result in no increase in the monthly premium.

The insurance problem was over a vote at the last Police Jury meeting to drop the road and bridge liability insurance, which would have been a savings of $30,000 annually.

Juror George LeBouef said that as a result of the jury's decision, parish boards are "up in arms" over the fact that they would not be covered if anything happened on the roads in their community. Board members would be sued. LeBouef said he would be willing to take his part of the blame, but that he was misinformed over what would be covered under the liability policy.

Juror Malcolm Savoie said, "In the future, I want the Police Jury to have all the facts before we vote on major decisions". LeBouef made the motion and the vote was unanimous to reinstate the liability policy.

Douaine Conner asked the Jury to advertise for bids from contractors for pot-hole repairs, which they approved.

Mike Breaux, operations manager for Waste Management, appeared before the jury to answer questions on supplying carts to businesses. He said one cart is allowed for each business, but additional carts will cost $61 each.

Tina Horn, Parish Administrator, reported that the Willow Lake - Sweet Lake project has been approved.

Dinah Landry, Grants Coordinator for the Police Jury, gave an update on the grants on which she is working. The Wallop-Breaux grant, that the jury has been working on for the past two years, looks very favorable. It is a 75%-25% grant for the Cameron Jetty Fishing Pier.

Other projects are CGBC Community Development Grant concerning water projects, which if approved, would be used first in the Creole area.

# Presidential primary set

Mrs. Ruby Kelley, Cameron Parish Registrar of Voters, reminds everyone that Mar. 12, 1996 is the Presidential Preference Primary election.

Only registered Democrats or Republicans can vote in this primary. You can only vote for the party in which you are registered.

It is required by law that you show the commissioners your registration card or show them some identification. They are required to ask for this even if they know you.

Republican party candidates are: Lamar Alexander, Patrick J. "Pat" Buchanan, Charles E. Collins, "Bob" Dole, Steve Forbes, Phil Gramm, Alan Lee Keyes, Morry Taylor.

Democratic party candidates are: "Bill" Clinton, Lyndon H. LaRouche, Jr., Elvena E. Lloyd-Duffle.

# Fire dept. 41 yrs. old

The Cameron Volunteer Fire Department celebrated 41 years of service to the community Monday with their annual banquet.

Wilson Regnier was named Fireman of the Year and Carol Hebert was honored as the Lady Fireman of the Year. They were presented awards by Fire Chief Ron Johnson who praised them for their service to the department and community.

Freddie Richard, Jr., presented awards to the following members: 10 years service, Stephen Vincent and Wilson Regnier; 15 years, Ron Johnson and Oscar Reyes, Jr.

Richard was surprised with a birthday cake topped with miniature firemen around a ladder truck.

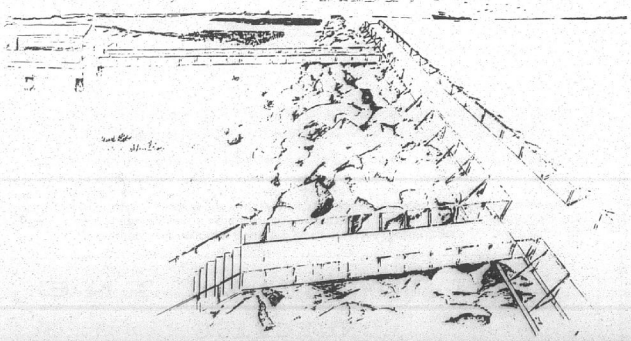
The entertainment was Elvis Presley impersonator Paul "Kojak" Sellers who sang both popular and religious Presley songs.

# Older worker event

"Jewels in the Workplace" will be theme of the Cameron Parish Council on Aging's 20th anniversary Older Worker of the Year celebration banquet.

It will be held Mar. 7, at 6:30 p.m. at the Grand Lake Multi-Purpose building. The date and location of the banquet have been changed from the original date.

Nominees for the Older Worker of the Year award are Lida Miller, Leola Fogleman, Grace Murphy, and Ernest (Boone) Hebert Sr.



# Pier funds sought

By GENEVA GRIFFITH

The Cameron Parish Police Jury has applied for matching funds from the Wallop-Breaux Fund to construct the proposed Cameron Jetty Fishing Pier atop the jetty at Cameron.

It is also creating a brochure to approach area industry to seek matching funds. A sketch has been drawn by E. J. Gaspard showing what it will look like.

The Wallo-Breaux Fund is a 75%-25% match, with the local governing body paying 25% if the grant goes through. The cost of the proposed project is approximately $600,000.

SHOWN ABOVE is an artist rendition of a fishing pier that has been proposed to be built atop the east jetty along the ship channel into the Gulf. The pier would give fishermen access to fishing at the mouth of the channel and would be a tourist attraction.

WILMAN SALTZMAN is shown with the replicas of a Cajun cottage owned by his grandfather near Gueydan and of a houseboat in which Saltzman was reared. Saltzman made the miniatures which are now on display at the Cameron Parish Library. (Photo by Geneva Griffith.)

# Saltzman preserves past with Cajun miniatures

By GENEVA GRIFFITH

Wilman "Man" Saltzman's eyes light up when he talks about memories of his early life on the family's houseboat in Cameron and his grandfather's Acadian style home south of Gueydan.

Mr. Saltzman and his wife, Mabel, have made their home in Groves, Tex., since his retirement four years ago from Cameron Construction Company. He now spends his time in his shop building cypress swings, yard furniture, cabinets and furniture, and building miniatures of the things he remembers from his past in Forked Island and Cameron.

He has brought a miniature houseboat and a cypress Cajun cottage to put on display at the Cameron Parish Library. The houseboat is an exact replica of the one he helped his father, Wallace Saltzman, construct in 1935. They moved it to Cameron and anchored in the river near where Seafood 2000 is now located. It was built on Forked Island and moved to Cameron by Bright Leger running the "Baby Ray".

His father was employed on a suction dredge when the Calcasieu Ship Channel was dug. He later earned his living by fishing. Saltzman said that when they decided to move from one area to another to fish, all they had to do was pull up anchor and move their home to another area.

Saltzman said it took him 80 hours to build the houseboat and 120 hours to build the Cajun cottage, which is made entirely of cypress including 197 handmade shingles.

The original house was built around 1841 and contained only two rooms, one large room downstairs and an attic room or a "garconniere", a bachelor's quarter or boy's room on top which could only be entered from an outside stairway on the front porch. His grandfather raised ten boys and one girl in this house.

There were no inside walls and no closets, he explained, because the taxes were figured on the number of rooms and inside walls in a house. An inside stairway was also an added tax, which was why the Cajun cottages had outside stairways.

"The Cajuns were considered a lower class citizen in those days", he said, "but they out-figured the tax man and got around this by devising a scheme of their own."

His miniature house is built from his early memory of the old house and is furnished in detail. A bird house sits atop the roof with a little yellow bird sitting on the tiny porch.

Out back is an outdoor toilet and a miniature alligator tied to the front porch. An old fashioned "pot de chambre" (chamber pot) sits on the front porch.

A small skiff is tied to the back of the miniature houseboat and a wash pot is stored on one of the porches which are on each end of the houseboat.

In 1954 the houseboat was moved onto the river bank and when the hull was dismantled the wood was used to build the room and add 8 feet on the back of it.

The house was moved to the back street of Cameron in 1954 and went through Hurricane Audrey in 1957.

Saltzman said the houseboats built by his two brothers, Nolan and Vanice, were lost in the hurricane, and his, which he had purchased from his father, was the only one saved. When he and his wife purchased it, they added three bedrooms and two baths.

They looked up the old Cameron house this week and met the occupants who told Saltzman, "I have been told that this house was made from a houseboat but I can't find it." To which Saltzman answered, "You're standing in it right now."

"There's a lot of history in these two houses, and I want to let my ancestors know exactly where our family came from and to preserve the memories of this area," Saltzman said.

The display will be at the library for some time, then he will take it to the new park which is under construction in Port Neches, Tex.

# New water policies

Cameron Parish Water and Sewer District No. 1 has adopted a new policy for customer call-outs after regular office hours. A charge of $25 per hour, with a minimum of one hour charge per call-out will be billed to customers for call-outs before 7 a.m. and after 4 p.m. on weekdays and anytime on weekends and holidays.

There will be no charge for problems which pertain to the water and sewer system, if the department is notified of problems by customers. You will be advised prior to a charge whose problem it is. All customers should install cut-off valves between the water system's tap and the home.

New industrial and commercial meter deposit and connect fees and effective Feb. 22, are:

Meter size 1"; deposit fee, $277.50; connect fee, $22.50; total, $300.

Meter size 2"; deposit fee, $516; connect fee, $84; total, $600.

Meter size 4"; deposit fee, $732; connect fee, $168; total, $900.

Meter size 6"; deposit fee, $1,000; connect fee, $225; total, $1,225.

These rates are for facilities that have existing meters already installed. The policy for new installation of meters will be the cost of the installation of the meter. The meter remains property of the Waterworks District No. 1. All deposit fees are refundable if the bill is paid in full at the time of termination of services. All connect fees are not refundable.

All residential and non-metered commercial customers will pay a connect fee of $30. This fee is not refundable.

# *Uninsured beware!*

Uninsured motorists should beware as State Police Troop Commanders throughout the state develop task forces to target vehicles which violate Louisiana compulsory liability insurance law.

Louisiana law requires that proof of insurance be carried in a vehicle at all times and must be presented to a law enforcement officer upon request. Insurance documents must contain the following information: insurance carrier's name, insurance policy number, issue date, expiration date, vehicle make, model and identification number.

Beginning this weekend, Troopers will increase the number of insurance checkpoints throughout the state. When a driver approaches a checkpoint, he/she must present a valid insurance document.

# Scholarship applications being taken

Applications for the Cameron Assocation of Educators scholarship are being taken through April 1. All applicants must meet the following requirements:

Cameron Parish resident; enrolled in a Louisiana college or university; education major; junior status; 2.5 GPA.

A letter of introduction and a copy of the applicant's college transcript should be mailed to: Mary Richard, P.O. Box 1445, Cameron, La. 70631.

## Lady Rebels out of playoffs

By JOE MUELLER

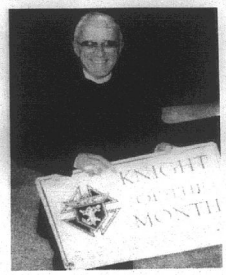
The Johnson Bayou Lady Rebels saw their season end last Thursday at Westlake as they lost a state quarter final game to Singer 67-59.

The Johnson Bayou Lady basketball team had a 23-11 overall record and were only one win away from a trip to the Sweet Sixteen.

Johnson Bayou held a 12-10 lead at the end of the first quarter but were down 26-23 at halftime.

Selina McGee hit 22 points, and Melissa Trahan 13 in the final game of the year for the Lady Rebels.

## Lady Tarpons open play



By JOE MUELLER

The South Cameron Lady Tarpon softball team opened play last Thursday as they defeated St. Louis 23-1.

The Lady Tarpons scored 5 runs in the first, third and fourth innings.

Jana Rutherford handled the pitching chores for the Lady Tarpons.

J. Savois and T. Boudreaux each had 3 hits for the Lady Tarpons.

HONORED AT THE January meeting of the St. Mary of the Lake Knights of Columbus Council 11407 were: Left--Father T. L. Herlong, council chaplain, Knight of the Month. Right--Mr. and Mrs. Pat Hebert and Blake, Family of the Month.

THESE TURNIPS each weighed 5 lbs. and were grown in Irene Picou's garden on happy ridge. The turnips were picked on Feb. 20, with all sisters having a hand in the gardening. Matilda LaBove (Tatu), Ida Davis (NuNu), Irene Picou (Pedue), Lorene Richard (Topee) are the only four sisters left in the LaBove family.

### HUNTING CHANGES

I know now hunting is over in our area, as rabbit and goose seasons closed, and fishing is on everyone's mind, but I've got to let this story out that I received in a LDWF newsletter. It's about how times have changed in hunting. Back in the early 1900's, the La. Dept. of Wildlife and Fisheries was known as the Department of Conservation, the change made in 1929, the year Herbert Hoover was elected President of the United States.

La. hunters in 1928 could buy a license for $1 and take up to 300 ducks a season. All the rules and regulations were on the back of the hunting license.

A licensed hunter back then could kill 8 geese a day, 100 a season; 25 ducks, soras (rails) and coots a day, 300 a season; 25 rails and gallinules a day, 15 of one, but 300 a season of all kinds; 20 snipe a day, 240 a season, and the open season ran from Nov. 1 thru Jan. 31.

The license also had no bag limit on rabbits, 5 deer bucks or does a season, wolves, bobcats, cougars and alligators could be taken anytime along most coastal parishes. Hunters could also take one bear a day, 5 per season and the bag limit on turkey was one a day, 5 per season.

Seasons and limits on doves was 25 a day, 300 perseason; woodcock, 4 a day, 22 per season; squirrels and chipmunks, 10 a day, 120 per season.

There were very few hunters back then in the state and that's why limits were as they were. Overall, they probably shot a lot less birds than we do now, with the greater number of hunters.

### FISHING NEWS

Sports fishermen as well as sportsmen, have got the fever. Fishing is in full swing, both fresh and saltwater. Take a look on the at side of Highway 27, between Creole and Gibbstown Bridge, and even during a week day, you can count as many as 20 to 30 people fishing. Some really large bass have been taken in this area, two 10 pounders, and one over 11 pounds, plus many 3 to 6 pounders caught. Spinner baits as well as the beatle spin, mostly crawfish color, is working well.

Reports of nice white perch being caught in private ponds.

Redfish and drum are mostly in the saltwater species being caught but a few trout taken in Calcasieu Lake. No offshore reports this week.

### RED SNAPPER

The Gulf of Mexico Fishery Management Council back in 1994 set to raise the red snapper size to 16 inches, but a meeting took place and the size was set at 15 inches. A 7 to 7 vote to lower the size took place so for now it's 15 inches in both state and federal waters for commercial fishermen, as well as recreational fishermen, which was already 15 inches and the recreational creel limit is five per person. Commercial fishermen report large catches of red snapper, 14 to 15 inches, which is undersize and must be released. Results are the fish are already dead when released, which means a waste of resources.

### NEW WORLD RECORD

A Florida angler caught a spotted seatrout weighing 17 pounds 7 ounces, 39 inches in length, with a girth of 18-7/8 inches.

This was caught on 20 pound test tackle, also a world record. The old record, caught in Virginia in May 1977, was 16 pounds.

### BASS OPENING

The Lacassine National Refuge will open their fishing impoundment on Friday, Mar. 15, according to the refuge officials. It is possible that the new boat launch by the duck pond and target area will also be open. They tell me it looks good, providing there are no setbacks. Please obey the rules and regulations as this is a great place to bass and white perch fish. 25 HP motor limit.

The Miami Corporation also announced the opening of their property to fishing on Sat., Mar. 16.

Sports fishing permits costing $15 which is good for a persona nd one guest, covers lands owned by Miami Corporation in Cameron and Vermilion Parishes, except west of Highway 27 (Cameron-Creole watershed), Willow Lake and around all water control structures. These permits are on sale at local outlets selling fishing tackle and stores in the community. The season will run through Aug. 25.

Fishing is permitted from sunrise to sunset. No night fishing is allowed. 25 HP maximum with no more than 33.3 cubic inches displacement as per manufacture specs.

When you buy your permit, please read the rules and regulations carefully.

Sabine Refuge will open on Mar. 15, for fishing and remain open until Oct. 15. Legal hours are sunrise to sunset; motor size for the management units remain no longer than 40 hp outboard or inboard motors cannot be used in open marsh. These areas are restricted to trolling motors or push poles only.

Cameron Prairie Refuge will open Mar. 15, with a 25 hp motor restriction. Sunrise to sunset.

Rockefeller Refuge opens Mar. 1, no motor size. You cannot post signs until sunrise and have to be out by sunset. You cannot cross levels to get into different impoundment.

When fishing these areas, get the rules and regulations and study them.

### FEEDING PERIODS

Best: Fri., Mar. 1, 8 a.m. and 8:30 p.m.; Sat., Mar. 2, 8:45 a.m. and 9:10 p.m.; Sun., Mar. 3, 9:30 a.m. and 10 p.m.

Good: Fri., 2 a.m. and 2:15 p.m.; Sat., 2:45 a.m. and 3 p.m.; Sun., 3:25 a.m. and 3:45 p.m.

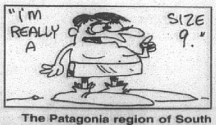
## Hornets win in Class C

By JOE MUELLER

The Grand Lake Hornets won their opening game of the State Class C playoffs as they beat Centerville 76-56.

The win moved Grand Lake's record to 21-10.

Grand Lake jumped out to a 36-22 halftime lead and never looked back.



Danny Kingham scored 20 points, Neil Kiser 16, Josh Johnson 12 and MIchell Babineaux 10.

In other area action Hackberry lost 48-46 to Family Christian in the opening round of the state playoffs.

## Baseball signup set at H'berry

Baseball signup for all ages boys and girls will be held March 1-10 at the Hackberry Recreation Center.

A HYO meeting will be held at 6:30 p.m., Sunday, March 3 at the center.

The Patagonia region of South America is so-called from the Spanish word for "big feet." The Indians the Spanish found there were tall and wore large boots stuffed with grass.

# New phone books out

Cameron Telephone Company has released their 1996 Telephone Directory. It will be delivered by mail to all Cameron Telephone Company service area subscribers and businesses by mid-March.

Continuing the tradition that began in 1978, the front cover features an original work of art associated with the area's history. The "L&B Cotton Gin", by artist Larry Casso represents the time when cotton was one of the major crops in Southwest Louisiana.

Larry Casso grew up in New Orleans, where he graduated from the John McCrady Art School. He founded the Baton Rouge Fine Arts Academy in 1973 and is still an instructor there. He has completed commissioned portraits of two Louisiana governors, Edwin Edward and Jimmie Davis and Pope John Paul II, which he presented at the Vatican in Rome, Italy.

In addition to an up-to-date listing of subscribers, the book features a schedule of fairs and festivals, the current addresses and phone numbers of newly elected government officials, important parish telephone numbers and a special section on weather information that includes a hurricane tracking chart and evacuation map.

Additional copies of the directory are available free of charge at all locations of the Cameron State Bank, the telephone office in Cameron or by calling Cameron Telephone Company at 775-5100.

# Permits asked

Concha Chemical Pipeline Co. of Houston, Tex., has applied for a Coastal Use Permit to install a 10-inch chemical grade propylene pipeline from Mount Belvieu, Tex., to Sorrento, La.

The line will cross the Sabine River south of Orange, Tex., and cross a small portion of Cameron parish before crossing into Calcasieu parish.

Cliffs Oil and Gas Co. applied for a permit to dredge a 345 by 160 foot slip on the Mermentau River about 8.4 miles northeast of Grand Chenier to drill a well for Amoco.

R. C. Reina is seeking a permit to install 1,655 cubic yards of riprap along a 2000 foot portion of the Mermentau near Grand Chenier to prevent erosion.

PROCEEDINGS

Minutes of the regular meeting of the Cameron Parish Gravity Drainage District No. 3, held on Tuesday, December 19, 1995, at 2:30 p.m. at the Cameron Parish Police Jury Annex.

Members Present: Edwin W. Quinn, E. J. Dronet, Scott Henry, and George Kelley.

Member Absent: Earl Guthrie.

Other Present: Paul Yakupzack, Ray Conner, Tina Horn, Berton Daigle, Amos Vincent, Malcolm Savoie, James LeBoeuf, Darrell Dupont, Charlie Pettifer, Roger Vincent, Ted Joanen, Claudce "Buddy" Leach, and Jamie Harper.

A motion was made by Scott Henry, seconded by George Kelley, and unanimously carried to approve the minutes of the regular meeting.

A motion was made by George Kelley, seconded by Scott Henry, and unanimously carried to approve the Financial Report for the month of November 1995.

A motion was made by George Kelley, seconded by Scott Henry, and unanimously carried to approve the following bills for payment:

1. Cameron Parish Pilot, $28.00; 2. Cameron Telephone Co., Court, 9.00; 3. Gulf Coast Supply, 11.90; 4. Menard Oil Co., Inc., 607.50.

Mr. Ray Conner spoke and said that he is leaving his office as Police Juror without any hard feelings and congratulated the new juror, Malcolm Savoie. He thanked the members of the Cameron Parish Gravity Drainage District No. 3 Board for their help and support over the years. He said that drainage has been a problem for us over the years, and he thinks that serving on the Drainage Board is a hard job. He said members deserve all the thanks they can get from the people of this parish. He said that he has enjoyed working with this board, and if he can be of any help to them that he will do so.

Paul Yakupzack gave the Water Management Report for the Cameron-Creole Watershed. Considerable discussion took place regarding keeping water levels higher than .8 in the marsh to support hunting and trapping in the parish. Ted Joanen said that if we can hold 1.0 feet (10 inches in) of water level on the marsh and drop it during the growing season, that should be a good plan. He recommended plugs that would allow for drainage. The Watershed is not naturally divided so that it can be managed in smaller areas rather than as a single unit.

It was agreed that Amos Vincent will provide three men to help U.S. Fish and Wildlife to open the gates and allow the water levels to drop to 1.0 at Staff gauge #3. All gates will be open at Hackberry and the boat bay at Grand Bayou will be opened. All four gates are already open at Grand Bayou.

Ted Joanen asked for the status on the permit for the North American Land and Oil/Gravity Drainage District #8 clean out of drainage lateral in Northern Cameron Parish. Lonnie Harper reported that the permit is off notice, and we have been asked to do mitigation in conjunction with this project. We obtained a proposal of an estimated $12,000 for those plantings using smooth cordgrass along the lake bank as suggested. Mr. Harper stated that until that issue is resolved, the permit will not be issued. The Corps has asked for an answer within 20 days, or the permit will be returned to us. Mr. Quinn reported that we are getting opposition frm this District asking us not to participate in the project because it would mean spending this District's money for a project in another district.

A motion was made by E. J. Dronet, seconded by George Kelley, and unanimously carried that since the money has already been spent for the permitting time, we go ahead and agree to the mitigation in order to get the permit, and then hold it until funds can be secured to do the project.

Buddy Leach stated that this project is not for the benefit of North American Land & Oil Company, but rather, it will benefit the North end. North Americanis trying to improve the marsh in that area. If there is some problem, North American Land Company will help have done in the past to help solve it.

Ted Joanen stated that North American Land & Oil Company is in the management area, and other than the one clean-out will not affect North American at all, but rather those people whose property is adjacent to the ditches. He suggested just holding the project permit and doing it as time and funds permit. There is no huge rush about it, but when Gravity Drainage District #3 does their work, it will make the problem worse for residents of Gravity Drainage District #3.

Scott Henry reported with regard to the three Henry property culverts, that one is broken in half and cannot be repaired, that two are partially filled, others are not flowing and a second one will break soon. He stated that DACI can do the job under $3,000. Mr. Henry volunteered to remove the culverts and do on-site for the duration of the project. The drainage lateral at staff gauge #3 also needs to be cleaned out.

A motion was made by E. J. Dronet, seconded by George Kelley, and unanimously carried (with Scott Henry abstaining) to approve the removal of the three flapgate through Coastal Culvert and to approve Scott Henry to arrange for the Henry property culvert work as well as staff gauge #3 clean-out with Kelan-out DACI.

Scott Henry reported that he talked to Jay Brown with Texas Meridian, and they are going to use the Drainage Board levee and will align a right-of-way with the Henry Estate. He stated that they have assurances that they will follow our conditions as well in their negotiations with the Henry Estate. They will put spoil on the North side.

A motion was made by E. J. Dronet, seconded by George Kelley, and unanimously carried to grant permission to Texas Meridian to utilize Gravity Drainage District No. 3 levee in their drilling operations.

There being no further business, the meeting was journed.

NOTICE OF PUBLICATION
OFFICE OF
MINERAL RESOURCES
ON BEHALF OF THE
STATE MINERAL BOARD
FOR THE
STATE OF LOUISIANA
BATON ROUGE, LOUISIANA
70821

By virtue of and in conformity with the provisions of Subpart A of Chapter 2, Title 30 of the Louisiana Revised Statutes of 1950, as amended, and other applicable laws, sealed bids will be received in the Office of Mineral Resources, State Land and Natural Resources Building, Baton Rouge, Louisiana, (P.O. Box 2827, Baton Rouge, LA 70821) on or before the 15th day of March, **1996 at 10:00 a.m.**, for a lease to explore, drill for and produce oil, gas and any other liquid or gaseous minerals in solution and produced with oil or gas on the following described tracts (Tract Nos. 28899 through 28905 and 28896) of which number and date the bids will be opened publicly in the Mineral and Energy Resources Building, Capitol Complex, Baton Rouge, Louisiana.

**TRACT 28871- Cameron Parish,** Louisiana - All of State lands now or formerly constituting the beds and bottoms of Lake Lacassine Bayou, and all other water bodies of and within the area described and all islands and other lands formed by accretion or relicting to the beds thereof, owned by and not under mineral lease from the State of Louisiana on March 13, 1996, situated in Cameron Parish, Louisiana, which is the following described boundaries: All that portion of Lacassine Bayou bounded on the North or upstream by a line having a bearing of North 60 degrees 53 minutes 52 seconds East and passing through point No. 1 having Coordinates of X = 1,517,049.36 and Y = 443,243.86 and bounded on the South or downstream by the North line of State Lease No. 14820 having a Coordinate of X = 1,519,106.00 containing approximately 450 acres, as shown outlined in red on a plat on file in the Office of Mineral Resources, Department of Natural Resources. All bearings, distances and coordinates are based on the Louisiana Coordinate System of 1927 (South Zone).

All bids are to offer a CASH PAYMENT, one-half (½) of which is to be bonus and the other one-half consideration for every right granted by the lease and which shall be paid prior to the rental for the first year of the lease, for a five (5) year primary term which shall not exceed three **years,** and if drilling is not conducted rental the ANNUAL DELAY RENTAL shall not be less than one-half (½) of the aforesaid cash payment, which lease is to be granted without any warranty or recourse against lessor whatsoever, either expressed or implied, nor even for return by lessor of any payments received under the lease or bonds or securities pertaining to lease. The MINIMUM ROYALTIES required by R.S. 30:127, as amended, except for school board leases, are one-eighth (⅛th) of all oil produced and saved or utilized, one-eighth (⅛th) of all gas produced and saved or utilized and one-eighth (⅛th) of all other liquid or gaseous minerals in solution and produced with oil or gas and saved or utilized which are not specifically mentioned herein. Act 399 of 1982 established a 1/6 minimum royalty for leases affecting school board lands. **Rights to geothermal resources, free sulphur, potash, lignite, salt and other solid minerals are to be excluded and any bid thereon will be disregarded to such extent.** A bid of a royalty less than the aforesaid statutory minimums will be increased to said statutory minimums by the Board. All bidders are notified that the Board does not obligate itself to accept a bid which offers the aforesaid statutory minimums, but reserves the right to accept a bid which offers in excess of the statutory minimums and is considered most advantageous to the State of Louisiana.

The provisions of this notice or advertisement and the relevant statutes establish the material considerations necessary for the formulation of proper bids, and the Office of Mineral Resources shall not be deemed to be modified, enlarged or diminished by resolutions or by expressions of the Board not incorporated herein expressly or by reference.

**Particular attention is directed to the fact that, in addition to the aforesaid stipulation against discrimination, the State Mineral Board also includes a special provision in the lease permitting lessee to reduce royalties provided in the lease to lessor on production sold or used by one-half (½), but not below the statutory minimum royalty provided by law, in the event of and pending final and definitive adjudication or other settlement of a bona fide dispute or litigation between the members of the Cameron Parish Gravity Drainage District No. 3 Board for their help and support over the years. He said that drainage has been a problem for us over the years, and he thinks that serving on the Drainage Board is a hard job. He said members deserve all the thanks they can get from the people of this parish. He said that he has enjoyed working with this board, and if he can be of any help to them that he will do so.**

Paul Yakupzack gave the Water Management Report for the Cameron-Creole Watershed. Considerable discussion took place regarding keeping water levels higher than .8 in the marsh to support hunting and trapping in the parish. Ted Joanen said that if we can hold 1.0 feet (10 inches in) of water level on the marsh and drop it during the growing season, that should be a good plan. He recommended plugs that would allow for drainage. The Watershed is not naturally divided so that it can be managed in smaller areas rather than as a single unit.

It was agreed that Amos Vincent will provide three men to help U.S. Fish and Wildlife to open the gates and allow the water levels to drop to 1.0 at Staff gauge #3. All gates will be open at Hackberry and the boat bay at Grand Bayou will be opened. All four gates are already open at Grand Bayou.

Ted Joanen asked for the status on the permit for the North American Land and Oil/Gravity Drainage District #8 clean out of drainage lateral in Northern Cameron Parish. Lonnie Harper reported that the permit is off notice, and we have been asked to do mitigation in conjunction with this project. We obtained a proposal of an estimated $12,000 for those plantings using smooth cordgrass along the lake bank as suggested. Mr. Harper stated that until that issue is resolved, the permit will not be issued. The Corps has asked for an answer within 20 days, or the permit will be returned to us. Mr. Quinn reported that we are getting opposition frm this District asking us not to participate in the project because it would mean spending this District's money for a project in another district.

A motion was made by E. J. Dronet, seconded by George Kelley, and unanimously carried that since the money has already been spent for the permitting time, we go ahead and agree to the mitigation in order to get the permit, and then hold it until funds can be secured to do the project.

Buddy Leach stated that this project is not for the benefit of North American Land & Oil Company, but rather, it will benefit the North end. North Americanis trying to improve the marsh in that area. If there is some problem, North American Land Company will help have done in the past to help solve it.

Ted Joanen stated that North American Land & Oil Company is in the management area, and other than the one clean-out will not affect North American at all, but rather those people whose property is adjacent to the ditches. He suggested just holding the project permit and doing it as time and funds permit. There is no huge rush about it, but when Gravity Drainage District #3 does their work, it will make the problem worse for residents of Gravity Drainage District #3.

Scott Henry reported with regard to the three Henry property culverts, that one is broken in half and cannot be repaired, that two are partially filled, others are not flowing and a second one will break soon. He stated that DACI can do the job under $3,000. Mr. Henry volunteered to remove the culverts and do on-site for the duration of the project. The drainage lateral at staff gauge #3 also needs to be cleaned out.

A motion was made by E. J. Dronet, seconded by George Kelley, and unanimously carried (with Scott Henry abstaining) to approve the removal of the three flapgate through Coastal Culvert and to approve Scott Henry to arrange for the Henry property culvert work as well as staff gauge #3 clean-out with Kelan-out DACI.

Scott Henry reported that he talked to Jay Brown with Texas Meridian, and they are going to use the Drainage Board levee and will align a right-of-way with the Henry Estate. He stated that they have assurances that they will follow our conditions as well in their negotiations with the Henry Estate. They will put spoil on the North side.

A motion was made by E. J. Dronet, seconded by George Kelley, and unanimously carried to grant permission to Texas Meridian to utilize Gravity Drainage District No. 3 levee in their drilling operations.

There being no further business, the meeting was journed.

# 4-H club says thanks to Pilot

Dear Mr. Wise:

On behalf of the Hackberry Jr. 4-H Club members, leaders and parents we want to thank you for your continued support of printing our club news.

The articles are a big asset to our record books. Our books would not be complete without them. It also keeps the community, as well as the parish, informed as to what our club is doing.

4-H is a very good organization for today's youth to join. It teaches us many new skills, knowledge and leadership we retain for life. We also do community service projects that teach us to work and do for others.

We appreciate all the time, hard work and dedication you and your staff put into printing all of our club news.

Many Thanks,
/s/ Micah Silver,

# a meat
# nents
# are planned

After an extensive testing and approval process, nutria is now being inspected for sale and shipment by the Louisiana Department of Agriculture and Forestry.

The population of the furry rodent, imported from South America in the 1930's, has exploded in recent decades causing widespread damage to Louisiana marshes where it eats the grasses and their roots that hold the marsh together.

For a number of years its fur has been used to make jackets. The added commercial impact of meat sales should increase demand and marketability of the animal, encouraging Louisiana trappers to bring in more nutria and lessen its impact on the state's fragile marsh ecosystem.

This agreement with the federal authorities came about after a year of study and testing by the Pennington Biomedical Research Center to determine its nutritional characteristics and work betwene the U. S. Food and Drug Administration and the State Department of Wildlife and Fisheries, Health and Hospitals and Agriculture and Forestry's Meat Inspection Division to establish inspection techniques that ensure a wholesome product.

Nutria is similar appearance, texture and taste to rabbit. Primary markets currentiy expressing an interst in nutria are in Europe, where millions of pounds are consumed annually, and the Far East. The first large scale sales will go to China where nutria is a favored meat of consumers.

# Jurors consider:

Among the matters considered and actions taken by the Cameron Parish Poice Jurors at their monthly meeting Tuesday were:

■ Ron and Chris Robicheax gave a report on their Holly Beach Christian Ministry. He said many youth groups and nursing home residents have come down for retreats and have been taught crafts using shells, etc., from the beach. They are now building a dormitory to sleep 40 people next door at the retreat.

He said the Baptist magazine "Missions USA" did a video story on the ministry which will be coming out next month.

■ Ed Griffin, representing Utility Telephone Control of Louisiana requested permission to audit the jury's telephone bills for erros. It would cost the jury nothing, and the company would collect 20% of any money refunded on errors on billing or for not getting credit for the lowest rates. The jury agreed.

■ Dusty Sandifer, juror for Holly Beach - Johnson Bayou, proposed a plan to save the parish $14,000 annually by cancelling the door-to-door garbage pick-up in the Holly Beach area and keeping the garbage dump open 7 days a week for 5 hours. The jury agreed to the proposal.

■ Juror Brent Nunez said that the parish is losing millions of dollars in taxes each year because the federal goernment doesn't pay 100% of the taxes on the property they own in the parish, which includes three refuges. The jury agreed to send letters to the President and the congressional delegation requesting the 100% payment.

■ A development permit variance was approved by the jury for Paulette Courville of Johnson Bayou who is 85 years old, lives in a trailer and needs a 4-foot variance on her trailer elevation due to her health conditions.

■ Sandifer announced that a health department public meeting on sewerage in Cameron will be held on Mon., Mar. 11, at 6 p.m. in the Police Jury office.

■ Two motions were offered by Douaine Conner and both passed for an East Fork Calcasieu River Feasibility Study and apply for a Rural Area Development Grant.

## Tax notice

**On page 5 of this issue of the Pilot is a legal notice being run by the Sheriff's Dept. listing all property in the parish on which the 1995 taxes are unpaid and for whom the department does not have correct addresses. This property and others on which the 1995 taxes are due will be put up for sale on May 8, if the taxes are not paid.**

# Jurors give support to gator egg program

By GENEVA GRIFFITH

Jerry Jones, owner of a parish alligator farm, appeared before the Cameron Parish Police Jury Tuesday in regard to a recent letter sent to Sabine national Wildlife Refuge from the jury regarding alligator harvest methods.

The letter, signed by Malcolm Savoie, Dist. 5 Police Juror, said the Cameron Parish Police Jury expressed their opposition to changes in the current method of alligator harvesting, and asked that alternative "A" be chosen to remain as is, stating that the method has worked successfully in the past and continues to work.

The refuge is working on a Draft Assessment of Alligator Harvest Methods on the refuge with four alternatives, including proposed action.

The refuge manager, Will Nidecker, must decide whether to continue a September alligator hunt; implement a summer egg harvest program; implement a combined summer egg harvest program and a September hunt, or eliminate all alligator harvest programs (which is in effect currently).

Diane Borden-Billiot, wildlife biologist, and Herb Bell with the refuge, explained the issues related to the future commercial harvest management of the alligators at the refuge that have been raised by the public, refuge staff and other agencies.

A heated discussion developed between Ted Joanen and Borden-Billiot over the draft. Joanen is recognized as a world authority on the alligator industry and wrote the book on the program. Joanen said that the statements in the draft are damaging to the alligator program.

"Many national and worldwide bodies went against the assessment as poorly written, were opposed to the proposal, and people in the scientific community are against the assessment," he said.

Also, Joanen said, "The alligator was never an endangered species when it was classified as such by the federal government in 1968 and was reopened in 1972."

Guthrie Perry, a Rockefeller Wildlife Refuge Biologist who helped Joanen develop the progrm at Rockefeller, corraborated Joanen's statements and said that 6,357 alligators were harvested in Cameron Parish last year averaging $41 per foot.

After listening to the discussion for more than an hour, the police jury finally adopted a resolution supporting the alligator egg harvest program in Cameron Parish "as it is a vital part of the alligator farming/ranching industry and a wise use of a natural renewable resource."

The resolution noted that alligators annually experience a high natural mortality of eggs and young and by collecting these eggs under permits from the La. Dept. of Wildlife by the farmers/ranchers this high natural loss can be avoided.

It was also noted that the source of alligator eggs serves as the foundation for a multi-million dollar alligator industry in the state and parish.

It was also pointed out that under the present programs the alligator population is increasing at a rate of about 10 percent a year.

## Recertifying

There will be pesticide recertification Thurs., Mar. 14, 7 to 9 p.m. at the Cameron Parish Police Jury Annex. Attendance is required to renew a pesticide certification card for an additional three years.

This year there will be a renewal cost of $10. Please bring cash or a checkmade payable to the Louisiana Department of Agriculture.

Anyone with a pesticide card shwoing an expiration date of March 31, 1996 must attend a meeting to renew their card. Anyone not having a card, or failing to renew their card by attending a meeting, must take a closed book test at a later date.

Tests will not be given at this meeting. Your attendance for the entire meeting is required to renew your certification.

If you have any questions, contact Gary Wicke at Cameron Extension Office 775-5516.

# Never too late to exercise

By GENEVA GRIFFITH

"It is never too late to begin a supervised exercise program", says Mike Theriot, director of the South Cameron Hospital Fitness Center.

He can back up his statement with the proof as the 92-year old Tavia Carter is busy doing part of her morning workout on the treadmill, 3 walks around the gym, and continues on the stationary bicycle. She has been a patient at the Center since August of 1992, after the Center opened on Mar. 16, 1992.

Since she began the program she has progressed to 30 minutes of cardiovascular conditioning each session. Mrs. Carter says she feels wonderful and still lives by herself, and is able to tend to her needs, including driving her car.

She participates in the Cameron Parish Senior Citizen program, which provides transportation to the Center every Tuesday and Friday mornings. The center provides the program free to all senior citizens of Cameron Parish.

The Center provides an adult fitness program for the public for a membership fee of $15 a month, and a person may join one month at a time, with no contracts to sign.

In addition to the exercise machines, a steam room, jacuzzi, and half-court basketball is included in the membership.

A popular phase of the supervised exercise program is the arm exercise which is performed by a group sitting around in a circle doing various exercises with their arms as instructed by a tape set to music.

Another program the Center provides is the Phase III Cardiac Rehabilittion to patients with coronary artery disease.

Burl LaBove has been on the program for the past three years and faithfully attends each of his sessions.

Mrs. Marilyn Landry has been in the Phase II Cardiac Rehabilitation since May of 1992 and has progressed to 45 minutes of cardiovascular conditioning each session.

Theriot advises that it is very important to check with your doctor to see if a supervised exercise program could benefit your health.

He received a Bachelor of Science Degree in Exercise Physiology from McNeess State University and a Master of Science Degree in Cardiac Rehabilitation at LSU, and is a licensed Clinical Exercise Physiologist by the Louisiana State Board of Medical Examiners.

The exercise staff also includes Lana Bertrand and Tricia Trahan.

# Telemedicine demonstrated

By GENEVA GRIFFITH

Through advanced technology DeQuincy Memorial Hospital and South Cameron Memorial Hospital were able to hold a joint reception without traveling out of town.

The event was held to honor the DeQuincy Hospital Telemedicine Project which has just gone on line with the Rural Health Care Outreach Consortium.

Other members of the consortium, in addition to these two hospital, are Louisiana Health Care Authority, W.O. Moss Regional Medical Center, University Hospital - LSU Medical Center, New Orleans; Southwest La. Development Center, Acadia - St. Landry Hospital, Hughes Training Link Division, and other facilities.

The South Cameron and DeQuincy hospitals were able to hold their simultaneous receptions over the two-way interactive videos, through their Telemed hookups.

Each hospital had their receptions in their Telemed suites and were televised onto local and remote monitors which could be controlled from each hospital as though they were all in the same room.

Joe Soileau, CEO of South Cameron Memorial Hospital, gave the welcome and explained the Telemedicine project which was started in Sept., 1994.

At that time South Cameron Memorial Hospital was awarded the Rural Health Care Outreach Grant for the Telemedicine Project.

This project is a federal grant award from the Office of Rural Health Policy, which is a three year grant. Six Telemedicine grants have been awarded from the federal agency.

Soileau pointed out to the DeQuincy group that the selection of the DeQuincy hospital to join the consortium was no accident, "We selected DeQuincy because of their efficiency," he said.

Soileau introduced all of the Cameron participants to the DeQuincy group, and Cathy L. Denison-Wicke, Ph.D introduced the DeQuincy group to Cameron. She is director of Special Projects

# Lacassine to open Mar. 15

Refuge Manager Vicki Grafe has announced that Lacassine National Wildlife Refuge will open for fishing and crawfishing on March 15. The refuge staff is working to complete the new fishing ramp in the central portion of Lacassine Pool and hopes to have it open for launching.

The refuge is also working on new vehicle pull-offs along the Tidewater Road to help get the vehicles of bank fishermen out of the way of the increased traffic going to the new ramp. Call the office a few days prior to the opening to find out the status of the new facilities.

Assuming there is no government shutdown, access into the refuge will be from one hour before sunrise to one hour after sunset. State creel and possession limits and fishing licenses are enforced on the refuge so anglers should check the 1996 State regulations.

The refuge fishing regulations are the same as last year and there is no special refuge fishing permit. Boats with motors larger than 25 horsepower are prohibited in Lacassine Pool. boats on trailers must be launhed from the cement ramps at the two public boat launches in Lacassine Pool.

TELEMEDICINE

A WORLD OF OPPORTUNITIES

Connecting Doctors and Patients

Getting to see a doctor has never been easier...receiving proper treatment is more convenient than ever... connecting the medical expertise of specialized physicians and surgeons with patients, doctors, nurses and other health professionals throughout the state is faster,more efficient and effective.

Via live, two-way audio video communication, telemedicine offers access to the most up-to-date medical advice ...no matter where you live.

Specialists are brought to you with special television cameras that act as the physician's eyes and ears.

You receive quick medial attention and can see a specialist at little or no additional charge. No travel expenses--No extra charge for use of the telemedicine facilities and equipment.

Telemedicine is a partnership between doctors and patients to make sure the best in medical care is available to all. In addition teleconferencing and telecontinuing education is available with the telemedicine project.

Raises Cetane [An average of 4 points] Cetane is to diesel what octane is to gasoline. Increasing cetane allows easier cold weather starts, faster warmups and improved combustion. The results are reduced emissions, more power and increased fuel economy.

AWARD WINNERS — Scott Canik, second from left, and Jared Savoie, far right, both of South Cameron High School, received the Louisiana Governor's and Superintendent's Awards respectively, at the 1996 LSU Junior Livestock Show. The annual awards are given to one junior and one senior FFA member from throughout Louisiana, and honor exemplary livestock production. Joining Canik and Savoie are Nicky Rodrigue, FFA Advisor, who coordinates the projects at South Cameron and Dr. Annabeth Neason, state vocational agriculture supervisor.

# Jared Savoie, Scott Canik awarded by Gov., Supt.

When South Cameron FFA members Jared Savoie and Scott Canik were awarded the 1996 Louisiana FFA Governor's and Superintendent's awards during a presentation of honors at the LSU Junior Livestock Show, it was the twelfth year in a row that South Cameron FFA members won at least one of thee awards. South Cameron FFA must compete with FFA chapters from across Louisiana for these awards which honor outstanding livestock production and management and are based on careful record keeping.

In list the past recipients, it is interesting to note where they are now in their career or educational endeavors and to acknowledge the positive impact that their vocational agriculture background has had in realizing their goals.

The winners, by year, included:

1985 Governor's Award - Jimmy Meaux and Superintendent's Award - Johnny Reina.

1986 Governor's Award - Johnny Reina; Superintent's, Trey Picou.

1987, Governor's, Trey Picou; Superintendent's, Trent Guidry.

1988, Governor's, Trent Guidry; Superintendent's, Lane Bonsall, who won the Governor's Award in 1990.

Also in 1990, J. M. Boudreaux was the Superintendent's winner, and the Governor's winner in 1991.

Eric Rutherford won the Superintendent's Award in 1991 and the Governor's Award in 1992.

1993, Superintendent's, Jami Pinch and in 1994 won the Governor's.

1994, Superintendent's, Paul Batts and in 1995 he won the Governor's and Aaron Pinch won the Superintendent's Award in 1995.

Both Jimmy Meaux and Trent Guidry are now assistant county agents in Calcasieu Parish. Dr. Johnny Reina is a veterinarian and owner of Monticello Animal Clinic in Lake Charles. Lane Bonsall earned an instrumentation degree from McNeese State University and is employed by Stingray in Johnson Bayou.

Eric Rutherford earned a diesel mechanics degree from Universal Technical Institute in Houston and is employed by McCall Boats in Cameron. Trey Picou earned a bachelor's degree in Animal Science and is attending graduate school at McNeese.

J. M. Boudreaux, Jami Pinch and Paul Batts are attending McNeese and Aaron Pinch, Scott Canik and Jared Savoie are students at South Cameron High School.

The Governor and Superintendent awards program is a special project of vocational agriculture instructor Nicky Rodrigue. Since joining the faculty of South Cameron High School in 1984, this has been one of the many projects that he has undertaken to help students in realizing their abilities and achieving their goals.

A long time ago, someone went around and made up words for everything. And then they came to Louisiana, a state that has a way with words. Here we don't just listen to music, we listen to *jazz*. ## S. C. 4-H club thanks the Pilot

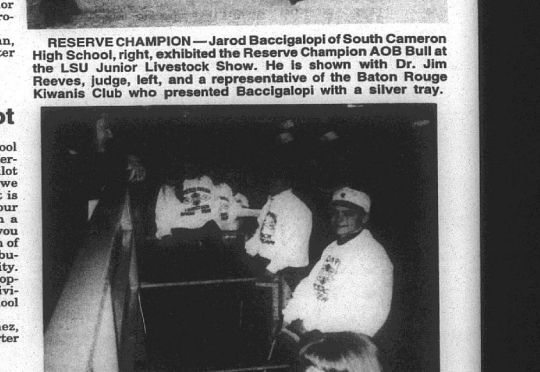
Dear Mr. Wise:

South Cameron High school Senior 4-H Club members can certainly credit The Cameron Pilot for the outstanding publicity we receive throughout the year. It is extremely rewarding to see our achievements in print on such a timely basis. It is evident that you are very interested in the youth of Cameron Parish and our contributions to our school and community.



Again, thank you for your cooperation and interest in the activities of South Cameron High School Senior 4-H Club members.

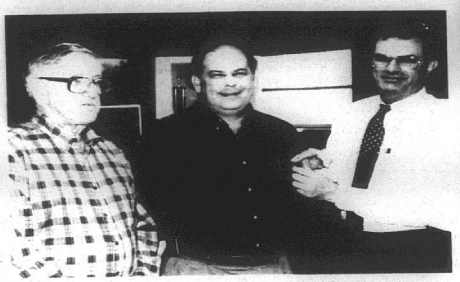
## Marsh restoration set on Sabine Refuge

Congressman Jimmy Hayes has announced the approval of a plan to restore 92 acres of marsh in the Sabine National Wildlife Refuge through the beneficial use of material dredged from the Calcasieu River and Pass Ship Channel in Cameron and Calcasieu parishes.

The approved restoration project consists of pumping material dredged during the 1996 maintenance dredging cycle for the Calcasieu River and Pass. The plan provides for the disposal of about 1,185,000 cubic yards of dredged material in diked, open water areas of the refuge at an elevation conducive to marsh creation. The dikes are temporary measures to confine material for consolidation and would be allowed to erode subsequent to construction.

A Project Cooperation Agreement between the U. S. Army Corps of Engineers and the State of Louisiana's Department of Natural Resources for construction of the project was executed on Jan. 31, and is being processed for final approval by the Louisiana Division of Administration.

Construction is expected to begin in May and be completed in June.



## Parish gets $3163 to aid households

Cameron Parish will receive $3163 to supplement emergency utility assistance programs under the Emergency Food and Shelter Program, the Cameron Community Action Agency reports.

A local board made up of representatives from the Police Jury Catholic Daughters American Red Cross, homeless, Knights of Columbus, senior citizens and United Way, will determine how the funds are to be distributed.

Funds will be used for emergency situations where a household would be in jeopardy of having their utilities shut off because of arrears. Recipients must have proof of income, names and social security numbers for all household members, and reason the emergency has arisen.

Appointments will be made at the Cameron Community Action Agency located at 723 Marshall Street in the Cameron Senior Center by calling 775-5145 and talking to June Bell.

## Sweet Lake-Willow Lake project is a priority

By DONNA DUBERVILLE, American Press

The first phase of a project to rebuild the Sweet Lake - Willow Lake marsh was one of nine items on the 5th Priority list approved by a joing federal - state task force last week.

"This project really needs to be done. All the marsh north of the lake will be affected by this," said Cameron Parish Police Jury President Brent Nunez after the meeting.

The coastal Wetlands Planning, Protection and Restoration Act Task Force approved the projects recommended by its technical committee.

They have already been approved by the state task force, but will need the Legislature's approval before the list is official.

The $4.76 million Sweet Lake project is the only one in Southwest Louisiana. It is located north of and adjacent to the Intrcoastal Waterway, about three miles west of the Gibbstown Bridge and six miles southeast of Grand Lake.

Ship and barge traffic along the Intracoastal has eroded its northern shoreline about 1.3 miles into Sweet Lake and a half-mile into Willow Lake.

Part of Sweet Lake's shoreline is badly eroded, affecting the adjacent marshes.

"There's nothing between the Intracoastal and Sweet Lake and Willow Lake. Now when the boats come through, the waves just go on and on until they run out of energy," Nunez said.

The waves break loose the marsh turf, causing it to roll up. Then the plants die and disintegrate, Nunez said.

Plans call for re-establishing the shoreline between Sweet Lake and the Intracoastal by constructing rock breakwaters.

The project also includes rebuilding eroded sections of the shoreline and planting California bulrush on 25,000 linear feet of earthen terraces.

The cost of the Cameron project is in the middle of the nine recommended for funding.

They range from a $940,000 plan to trap sediment in Little Vermilion Bay to the first phase of a $24.4 million siphon project in Bayou Lafourche.

If approved by the Legislature, Nunez said work on the project might begin in early 1997.

## Flavin initiated here

By GENEVA GRIFFITH

State Rep. Dan Flavin was installed into the Cameron Lions Club last week.

Ed Kelley conducted the initiation and Eddie Joe Conner, who sponsored Flavin, pinned the Lions pin on the inductee.

Flavin gave a talk on his plans for helping Cameron Parish and the district which he represents in the legislature. He urged members and local groups to make a list of priorities for the parish.

Judge H. Ward Fontenot was presented with a 25 year member pin by the club.

Kelley announced that the state Lions convention will be held in Lake Charles in 1997.

Special guests at the luncheon were Alvin King and Randy Fuerst, Lake Charles employees.

## TELEMEDICINE Cont. from Pg. 1

and Telemedicine in Cameron.

She outlined several projects in the future that Telemedicine is working on such as prison telemedicine, offshore medicine, and moble Telemedicine units for the area.

Diana Foster, head of nursing at South Cameron Memorial Hospital, explained how the five monitors at the local hospital are being used for patients to be treated in a rural hospital without journeying to a distant town for a specialist.

For instance, a doctor in New Orleans, or even Lake Charles, can look at a patient in a rural hospital, such as Cameron, and is able to give diagnoses and second opinions.

In the case of skin cancers the monitor can see seven layers under the skin, EKGs and fingerprints can also be seen, and the microcamera can see inside an ear to the eardrum.

It can also see ultrasounds and x-rays, and an example was shown where a local boy had swallowed a penny.

A local patient who has to be seen by a New Orleans geneticist every six weeks can no save those long and expensive trips by seeing her doctor through telemedicine at the South Cameron hospital.

Denison-Wicke pointed out that the Telemedicine is a great tool for continuing education programs and that companies and organizations are welcome to use the services at the hospital.

Crime Stoppers is offering up to $500 for information leading to the arrest and conviction of the party responsible for this crime.

## Chenier Plain projects restored by the state

By DONNA DUBERVILLE, American Press

Eight projects for the Chenier Plain have been recommended for immediate implementation, reversing the state's position announced a few months ago, state Rep. Dan Flavin said Friday.

The state Department of Natural Resources and the Governor's Office of Coastal Activities had announced plans to possibly scrap dozens of coastal wetlands projects, focusing instead on two major projects.

The heads of those departments later verbally agreed to back off the idea of a deauthorization list, but no official statement was issued.

Flavin and a delegation from the Cameron Parish Police Jury met with the new Department of Natural Resources secretary Jack Caldwell in early February, asking him to reinstate the projects to protect Cameron's wetlands.

Flavin received word Friday that Caldwell sent a letter to the U. S. Army Corps of Engineers recommending that eight Cameron projects be implemented as soon as possible.

Caldwell also asked that the projects be linked to the need for modeling and reconnaissance work on the Chenier Plain. While they would provide immediate protection, they would not attack the problems of wetland loss in the area, the letter stated.

The eight projects are:

- Brown's Lake Hydrologic Restoration.
- Cameron Creole Hydrologic Restoration.
- Cameron/Creole Maintenance.
- Clear Marais Bank Protection.
- Highway 384.
- Hog Island Structures.
- Perry Ridge Bank Protection.
- Cote Blanche Hydrologic Restoration.

### THREAT TO FISHING AND HUNTING

We all know our refuges are about to open and also the Miami Corporation Permit lands. Rockefeller Refuge opened last week. Fishing is picking up, if you can bypass the cold fronts. However, there's something I think needs to be brought to your attention of readers, commercial and sports fishermen. In the 1996 ban on fishing, all fishing by the People for Ethical Treatment of Animals (PETA), an animal rights organization that with other groups wnat to ban all fishing in 1996.

We know that the commercial fishermen and sports fishermen are fighting now over the gill net ban. We know studies in Texas on catch and release do kill fish, whether using of live bait or artificial bait, especially worm fishing. All of this gives these organizations more gun powder to set off the keg.

The radical groups are blind to the fact that anglers and hunters have for years taken the burden to restore and manage fish and wildlife resources, protect non-game wildlife, and conserve habitats for our fisheries. This all comes from excise taxes paid by fishermen. Example: 50 million anglers paid $625 million to resource management programs, through purchases of fishing equipment and licenses. These extremists are targeting 25% of the U. S. population that pays for conservation programs that benefit all Americans.

These people will use arson, property destruction, burglary and theft to accomplish their goal. They even think ants are equal to humans.

This is 1996 and it's open season on American's anglers by anti-fishing organizations. These folks are large in numbers nationwide, close to 500,000 members.

On Sept. 28, 1996, it's National Hunting and Fishing Day, but the PETA is setting up National Fish Amnesty Day, urging anglers not to fish. They also plan to get into our schools and give scare talks to our young children. Their motto is "Love our school's anti-fishing campaign." They even have people from the United Kingdom who have been successful in having sports angling banned in several waters in England and Germany. Some tactics they plan to use from the United Kingdom are: scaring fish from under tournament anglers, wading in water where fishing is going on, sabotage of scuba diving equipment, boating in areas where people are fishing, putting bamboo poles in tournament fishing areas, and throwing rocks to scare off fish from anglers. They want to disrupt anglers.

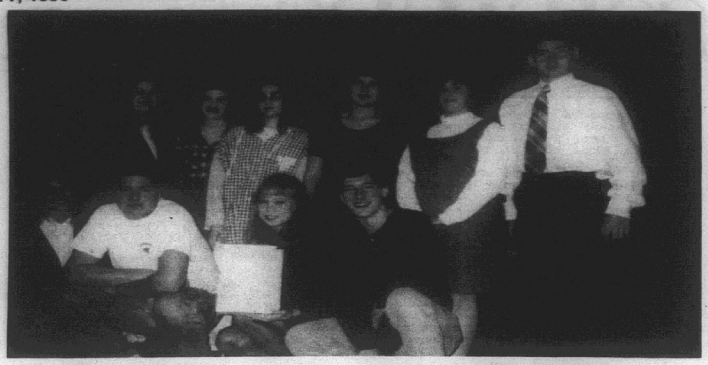
The PETA has already posed as researchers for the National Survey on Sports Fishing, going around docks, beaches and lakes, asking anglers survey questions. The angler doesn't realize what's happening, as he believes it's a real survey to help out fishing.

They may ask questions like "Do fish feel pain? What are fish experiencing when flopping around the deck after being caught? Is your pet different from a fish?"

There will be anti-fishing demonstrations at tournaments, working locally to ban fishing at the local level. There will also be billboards. Their way of getting a local lake or river ban is where anglers are creating a litter problem, trespassing or boats causing beach erosion.

They also work hard on fly fishermen because most fly fishermen have lots of money. As for bass anglers, these groups will target tournaments, with demonstrations and protests. This will bring them publicity and help them look good. Fishing piers will catch heck also, just as much as fishing tournaments.

Also targeted will be live baits, which they claim also suffer pain. Worms, live clams, pieces of other fish, live eels, even chicken necks and bull lips for crab baits as well as cow melts.



You say you enjoy the outdoors and enjoy fishing, well they'll tell you you can still enjoy the outdoors or the love of water, by skiing, camping, hiking, swimming, canoeing and many more without killing fish. They also say sport fishing entertains at the expense of innocent animals like hunting or bullfighting. I could go on but you get the idea.

It is advised that anglers who are approached by individuals claiming to be associated with the national survey on sports fishing should refuse to cooperate with the study and do your best to expose these people who are trying to stop all fishing. let your local, state and U. S. elected officials know how you feel and we don't want fishing stopped and to put a law on the books to stop the harassment they intend to put on all fishermen, fishing women and young anglers.

# Hackberry class performs skits

The Family and Consumer Sciences I class at Hackberry High School performed three child discipline skits for the 4th FHA Club meeting Fri., Feb. 9, in the school auditorium.

The skits were learned during a child care unit with Mrs. Vickie Parker. Each skit was a performance of the right and wrong way to train a child to behave in a store, at the dinner table, and with other children.

Class members were: Mackenzie Thibodeaux, Lacey Annett, Nicole Swire, Jessica Guilbeaux, Maranda Daigle, B. J. LaBove, Summer Hicks, Mikey Schexnider, Marcie Seay, and Brad Welch.

Summer Hicks, president, presided over the meeting with Mandy Schexnider presenting a devotion and Mandy Nunez giving a financial report. Members were informed about Regional and State FHA by Mackenzie Thibodeaux and Michelle Oregeron.

Southwestern Region FHA conference is scheduled Thurs., Mar. 7, at the Lake Charles Civic Center. Hackberry's local FHA Vice President Julia Sanders is also Southwestern Regional Vice President of Finances. Hackberry has 48 FHA members and chaperones planning to attend Regional.

State FHA conference is Mar. 24-26, in Baton Rouge. There will be 20 attending from Hackberry FHA.

## Dear Editor:

Dear Editor:

Thank you so much for helping the 4-H program. We really appreciate all the help you have given our program.

Please put these articles and the others I have sent for the last two weeks. These are very important to our program and this is our last week to get these articles in due to deadlines.

Thank you,
/s/ Julie Ann Trahan

## Thanks from 4-Hers for news

Dear Mr. Wise:

Thank you very much for the many articles and photographs that you have printed throughout the school year of the activities and achievements of South cameron High School Jr. 4-H Club members. Without the publicity we receive in The Cameron Pilot, our 4-Hers would be unable to effectively complete our record books. We are very fortunate to have The Cameron Pilot as our local newspaper.

On behalf of the South Cameron Jr. 4-H Club, I express our gratitude.

/s/ Robert Nunez, Reporter

# Cuts considered by School Board

By GENEVA GRIFFITH

A list of possible cuts in Cameron Parish school programs and personnel was released to the news media at the school board monthly meeting last week.

Superintendent Pam LaFleur passed the list out to the board members at the meeting with the intention that board members review the items and be prepared to discuss them at the April meeting.

Peggy Boudreaux, president of the Cameron Association of Educators, asked if the public was going to see the list before the board acted on it and LaFleur said no.

Bill Morris, board president, said he was reluctant to publicize the list before the board had made the final decision on the cuts.

Mrs. Boudreaux said they couldn't do that as the information should be public and District Attorney Glen Alexander agreed.

Morris said he was not trying to hide anything from the public and that there was nothing new on the list.

Mrs. LaFleur said she regretted having to recommend any cuts. The 1995-96 budget included more than $400,000 in cuts, but still needs to be trimmed almost $1 million more to be balanced, she said.

After a discussion the board and LaFleur agreed to give copies to the media and the Association of Educators president.

LaFleur said the suggestions for personnel reductions are based on guidelines issued by the Southern Association of Colleges and Schools and the state.

ROBERT WICKE of Creole received the Howard Jaubert Memorial Award for his services to the Color Corps of the Msgr. Cramers Fourt Degree Knights of Columbus at the organizations's recent annual banquet in Lake Charles. Wicke is the past Grand Knight of J. P. Boudoin Sr. Council of Creole and is District Deputy of District 47.

ERNEST (BOONE) HEBERT, Sr., who was named as Cameron Parish's Older Worker of the Year, is shown above left with Police Juror Brent Nunez, who presented the award to Hebert, and Martha Manuel from the Governor's Office of Elderly Affairs. (Photo by Geneva Griffith.)

# Older Worker of the Year named

By GENEVA GRIFFITH

Ernest "Boone" Hebert was named "Older Worker of the Year" at the 10th annual celebration of the event sponsored by the Cameron Parish Council on Aging at the Sweet Lake - Grand Lake Multi-Purpose building.

Brent Nunez recognized the visitors and the past winners of the award.

Other nominees for the award this year were Leola Fogleman, Lida Miller and Grace Murphy.

Martha Manuel of the Governor's Office of Elderly Affairs, told how the Older Worker of the Year award was started. In 1979 the American Legion wanted to recognize older workers and the roll they were playing in the work force. They petitioned the President to proclaim National Older Worker Week, and the Louisiana Governor followed suit to name a state older worker. Cameron Parish started the program in 1987.

This year's winner was unable to attend because he had to work. Following the reception he was presented the award at his place of business.

Hebert owns a service station and grocery store at Boone's Corner on La. 27.

Dinah Landry, administrator of the Cameron Parish Council on Aging, announced that the 20th anniversary banquet of the local Council will be held on Thursday, Mar. 14, at 6:30 p.m. in the Creole Multi-Purpose Building.

## Mardi gras survey set

By GENEVA GRIFFITH

The Louisiana Fur and Wildlife Festival is making a survey to see if enough people are interested in forming a Mardi Gras Krewe for lower Cameron Parish.

The Krewe will have to have an organizational meeting to determine by-laws and write a charter.

The Krewe would be a member of the Krewe of Krewes of Lake Charles, and the Krewe would be able to participate in Twelfth Night, Children's Parade, Krewe of Krewe's Parade, and Grand Gala.

Local events can be planned such as a summer barbecue, King Cake parties, a Mardi Gras Ball, parades, etc.

The organizational meeting date will be announced if enough people wish to participate.

Those answering by Mar. 20, 1996, will be the charter members.

Peggy Benoit, Festival secretary, asks that replies be mailed to her at P.O. Box 19, Cameron, la. 70631 or call her at home after 5 p.m., 542-4541.

### Book Fair set

Cameron Elementary School is holding its annual Book Fair Mon.-Fri., Mar. 14-22. In addition to regular school hours, the library will be open from 4-6 p.m. Wed., Mar. 20.

## Pat and Bill get top votes

Pat Buchanan and Bill Clinton were the top vote getters in the Republican and Democratic presidential primary in Cameron parish Tuesday but the turnout was very low.

Only 9 of the 12 precincts had their votes counted as the voting machines jammed in three of the precincts and will not be opened until Friday.

In the 9 precincts counted, 214 Democrats voted--Clinton, 159; Lyndon Larouche, 21; and Elvena Lloyd-Duffin, 34.

In the Republican primary 45 votes were cast with Pat Buchanan getting 28 votes; Bob Dole, 13; Steve Forbes, 3; Morry Taylor, 1; and Lamar Alexander and Allen Lee Keyes, with none.

Statewide, Clinton and Doyle were the winners in the primary.

### Resgistration

Sacred Heart Catholic Church will hold pre-registration for its 1997 School of Religion after masses on Saturday and Sunday, March 16 and 17 and during catechism on Monday and Tuesday, March 18 and 19.

Late registrants will have to pay the full price of textbooks and deliveries.

## Bank to have annual meet

Cameron Bankshares, Inc., owner of Cameron State Bank, will holds its annual meeting of shareholders at 2:30 p.m., Wednesday, March 20 at the main office of the bank in Cameron.

Stockholders have been asked to vote on fixing the number of directors at 11 and naming persons to serve in these positions for the coming year.

Persons who have been nominated for the 11 positions are E. J. Dronet, Charles F. Hebert, John A. Henning, Jerry G. Jones, Sr., Robert M. McHale, J. Arnold Nathan, Roy M. Raftery, Jr., Leslie R. Richard, Enos J. Sturlese, David A. Trahan and Sue C. Watson.

All shareholders are invited attend the meeting.

### Recertification

There will be pesticide recertification Thurs., Mar. 14, 7 to 9 p.m. at the Cameron Parish Police Jury Annex. Attendance is required to renew a pesticide certification card for an additional three years.

This year there will be a renewal cost of $10. Please bring cash or a checkmade payable to the Louisiana Department of Agriculture.

## Fisherman's body found

(Beaumont Enterprise)

Authorites on Monday identified a body recovered about 40 miles southeast of Sabine Pass as a commerical fisherman who fell overboard in the same area this past month.

Justice of the Peace Thurman Bartie said the man was identified as Rex Sitton, 35, of Panama City, Fla., based on dental records.

Sitton was a Beaumont native and had lived in Beaumont and Port Arthur until he moved to Florida about five years ago.

Officials with the United States Coast Guard said someone aboard a supply vessel for offshore oil rigs en route to Sabine Pass saw Sitton's body at about 7:45 a.m. Saturday. The Coast Guard was notified and the body was pulled aboard.

Sitton wa reported missing from a commercial snapper boat from Panama City shortly after midnight Feb. 2. The Coast Guard searched the area for Sitton for two days without finding him.

# Fr. Brandley dies

Funeral services for Rev. Theodore E. Brandley, M.S., 90, a priest of the LaSalette Missionaries, Mary Queen Province, will be at 2:30 p.m. Fri., Mar. 15, from St. Theresa of the Child Jesus Church in Carlyss.

The Very Rev. Dennis Meyer, M.S., Provincial Superior of the Missionaries of LaSalette, Mary Queen Province will celebrate the Mass with Rev. Alan McGuirk, M.S., as homilist. The Most Rev. Jude Speyrer, Bishop of the Diocese of Lake Charles, will preside.

Visitation will be from 2 to 9 p.m., Thur., Mar. 14, with a Rosary, Scripture Service and Wake Service at 7 p.m. and Friday until time of service. Local arrangements are under the direction of Southwest Memorial Funeral Home in Sulphur.

Burial will be in the LaSalette Missionaries section of Mimosa Pines Cemetery.

Father Brandley died Sunday, March 10, 1996, in St. Louis, Missouri.

Father Brandley took his first religious vows on July 2, 1927 and was ordained a priest on May 21, 1932 in Albany, New York. Immediately following ordination he was assigned missionary work in Brazil where he lived and worked in the slums of Sao Paulo and Rio de Janeiro for many years.

During World War II he served as civilian auxiliary chaplain to U. S. military personnel stationed in the vicinity of Rio de Janeiro. Following the war Father Brandley had temporary assignments in Connecticut and Iowa.

He went to Sulphur in 1950 and served there until 1960. He was the founding pastor of St. Peter the Apostle Parish in Hackberry when the mission chapel was made a canonical parish in 1955.

After serving in Loreauville and then back in St. Louis, Father Brandley returned to Louisiana in 1963, spending much of his time in the church parishes of Sacred Heart of Jesus in Creole, Our Lady of Prompt Succor in Sulphur and St. Theresa in Carlyss.

He left Sulphur again in 1970 but returned there to retire in the late 1970's. In 1982 he moved to a LaSalette community in Lufkin, Tex., and then in 1994 moved back to St. Louis due to poor health.

Father Brandley is survived by a brother, Peter Brandley of Plainville, Mass.; a sister, Miss Angela Brandley of North Attleboro, Mass., and a niece and nephew.

## Poster given jury

By GENEVA GRIFFITH

Cameron Telephone Company has made a donation to the Cameron Parish Police Jury of the original painting of the Louisiana Fur and Wildlife 40th Anniversary poster.

It features a cowboy riding on the back of an alligator by the seashore, with an offshore oil well in the background, as a pleasure boat rides at anchor by a fishing boat and a beach cabin.

The telephone company also donated 1000 posters to the Fur Festival to be sold as a fund raising project.

Frank Brown from Many, was the artist of the poster and was chosen because he has made posters for other state festivals, according to MiMi Reider, Public Relations Coordinator for the telephone company.

She said the company wanted the Police Jury to have the original painting to hang in the Police Jury office so the public would be able to view and enjoy it.

Making the presentation to the Police Jury in addition to Mrs. Reider was Brent Clement, market coordinator for the telephone company.

## Students of Year

Cameron Parish's three Students of the Year were introduced at the Cameron Parish School Board meeting last week by Supervisor Judy Jones, who presented them with plaques. They are:

Nicole Fentz, 5th grade student at Hackberry High School, daughter of Mr. and Mrs. Tony Fenetz of Hackberry.

Lauren Sanders, 8th grade student at South Cameron High School, daughter of Dr. and Mrs. Richard Sanders of Creole.

Amanda Johnson, 12th grade student at South Cameron High School, daughter of Mr. and Mrs. Ron Johnson of Cameron.

Miss Jones said the contest is sponsored by the Louisiana Department of Education and the Board of Education and Secondary Education. It is designed to recognize outstanding elementary, middle and high school students in 5th, 8th and 12th grades.

These students have demonstrated excellent academic achievement, leadership ability, and citizenship, and were judged on the portfolios they submitted, essay writing and their interviews.

These nominees will now be judged in regional and state competition.

## Head Start registering

The Cameron Parish Head Start program is seeking participants for the 1996-97 program.

Children who will be 4 years old by Oct. 1, 1996, are eligible. Families within income guidelines will be given priority.

Parents can call 775-2910 to schedule an appointment. It is not necessary to bring the child. Parents who replied last year or who have children on the waiting list must contact the office again.

Parents need to bring a certified birth certificate, social security card, immunization records and proof of one year's household income.

In addition, the office has begun accepting children with disabilities for 1996-97. Parents may call the above number for an appointment to discuss the recruitment process.

The child with disabilities will be included in regular classroom activities. Special services will be provided. Recruitment will begin April 1. Space is limited.

THE ORGINAL of the 40th anniversary poster of the Louisiana Fur and Wildlife Festival, commissioned by the Cameron Telephone Co., was presented to the Cameron Parish Police Jury last week. # Fishing to open 15th

According to Refuge Manager Paul Yakupzack, sportfishing will opening two areas of the Cameron Prairie National Wildlife Refuge on March 15. He reminds visitors to watch the news media closely the week of March 11, for news concerning government shutdowns due to a lapse in appropriations. If this happens, the refuge may once again be closed to all public access beginning on March 16, including fishing.

One of the areas to be opened is the roadside canal located opposite from the road to the Pintail Wildlife Drive on the west side of La. 27. Access to this area is by Bankfishing Road which is sixtenths of a mile in length. The adjacent canals and borrow pits are convenient for bank fishermen. This is a single lane road. Motorists should park in designated areas and not block through traffic. No motorized boats will be allowed in this area, and there is no boat launch.

Sportfishing will also be allowed on about 2 miles of the refuge outfall canal. Motorized boats will be allowed in the outfall canal. The canal outlet is located 1½ miles north of the Gulf Intracoastal Waterway (GIWW) on North Canal (the east refuge boundary). The east-west outfall canal can be accessed by boat only from the public boat launch located under the Gibbstown Bridge on La. Hwy. 27. Fishermen should go east on the Intracoastal Waterway from the bridge for about 3 miles, then proceed north on North Canal for approximately 1½ miles to reach the fishing area.

No other refuge waters will be opened at this time.

A free permit is required. A refuge map, a set of refuge regulations, and a permit may be obtained by writing Cameron Prairie NWR, 1428 Hwy. 27, Bell City, La. 70630, or by calling 318-598-2216. You may stop by the Visitor Center between 8 a.m. and 4:30 p.m. on weekdays or between 10 a.m. and 4 p.m. on Saturdays to pick up a permit.

# Flavin pushes for reforms

Rep. Dan Flavin announced that a coalition of 26 freshmen Legislators and one returning member presented Governor Foster with a proposal for reform. The document lists four main areas of reform: Legislative (ethics), Gambling, Education and Fiscal. Under each area are specific items of reform that the new lawmakers intend to pursue by supporting legislation either this special session or in a subsequent session that will allow for the types of reforms they are seeking.

Rep. Flavin stated that the purpose of the proposal is not to overshadow the leadership responsibilities of the Governor or the Leadership of the House, it is an effort to ensure that new members have a place at the table in charting the course for the next four years.

# New Rural Health clinic opens in Grand Lake area

BY GENEVA GRIFFITH

Grand opening ceremonies were held last week at the Grand Lake - Sweet Lake Rural Health Clinic located adjacent to the Community Center.

Brent Nunez, police juror, urged everyone to use the facility. He pointed out that with the installation of the 911 system someone in an emergency should dial 911 for help instead of trying to drive themselves to reach help, because an ambulance is available in the area at all times.

Operated by South Cameron Memorial Hospital, some of the new Rural Health Clinic's services are: free daily blood pressure checks between 8 and 9 a.m., physical exams, treatment of medical illness, suture wounds and removal of sutures, pelvic exams, lab work, flu and pneumonia vaccinations, tetanus shots and patient education. They also order and schedule x-rays at South Cameron Memorial Hospital or in Lake Charles.

Dr. Carlos Choucino and Mrs. Linda Chevallier, nurse practioner, provide medical service for the clinic and nurses schedule appointments and do blood pressure checks.

Appointments can be made by calling (318) 598-4464, and walk-ins are accepted.

Vicki Little and Martha Fontenot

# School gets grant

A Grants Award program was held Jan. 19, at the Matilda Gray home in Lake Charles, given by the Arts and Humanities Council of Southwest Louisiana Decentralized Arts Funding Program. Attending from South Cameron High School were Vicki Little, above left, and Martha Fontenot, right.

"Musical Slice of Apple Pie", a project written by Vicki Little for students at South Cameron High school, was given an $1,184.40 grant. On Mar. 22, two musicians will present an overview of American Music spanning from the Native Americans to the Peace Movement.

Judy Ginsburgh and David Marler of Alexandria will conduct the presentation and then offer small group workshops where students can explore a variety of musical instruments, writing lyrics, and developing an appreciation for basic rhythm, melody and harmony.

The motivation of this project came from the fact that no music education is offered to students at South Cameron. Though this grant will give students a very small glimpse of a musical world, that oportunity is essential. Parents and interested citizens are welcome to attend. For more information call Vicki Little at 542-4628.

THE NEWLY formed Jr. Beta Club attended the District Beta Convention Feb. 22, at McNeese State University. Joshua Primeaux, left, placed second in the spelling competition and Courtney Conner, center, and Bronwen LaLande, right, placed in the top four in the extemporaneous speaking competition. On April 25, the district winners and officers will attend the state convention in Lafayette.

# Suggested school cuts

**The following were some of the possible cuts submitted to the Cameron Parish School Board last week by Supt. Pam LaFleur. Included is the possible savings from such cuts.**

**These are only a list of possible cuts and none will be made unless they are approved by the School Board members.**

***PERSONNEL***

Two clerical/bookkeeping positions at the central office. One is retiring in two years. Savings -- about $52,000.

Assistant superintendent position through attrition. Savings -- $61,148.

Cameron Elementary: No teacher/staff cuts.

Grand Chenier Elementary: One teacher by combining two grades. Small numbers make it feasible.

Grand Lake High: At most, eliminate one teacher. If enrollment continues to increase, no reductions would be possible.

Hackberry High: One teacher through attrition. Reduce School Board expense for slaughter facility by having the facility pay for half of one employee.

Johnson Bayou High: One teacher by having librarian teach two more classes and combining some P.E. classes.

South Cameron Elementary: No cuts.

South Cameron High School: Two teachers through attrition, and a school clerk.

Adopt SACS and state guidelines for staffing. Assistant principal at elementary school would be eliminated through attrition. Administrative assistant/assistant principals at unit schools and high schools would be eliminated through attrition and/or contract revision based on staff reorganization.

Guidance counselors, librarians, secretaries and clerks would be hired according to SACS and state guidelines, which are based on school population.

Aides: Eliminate all 10 regular education aides. ($129,000). A second recommendation is a reduction in force according to SACS and state guidelines. ($52,000).

Sweepers: Cut eight sweeper positions according to a formula based on square footage at the schools. Grand Chenier Elementary would not be affected. ($73,505).

Bus route consolidation: Reduction of six buses and drivers. Grand Lake High School would not be affected. Savings would be $66,000 through a RIF, and $79,800 through attrition. One driver has already announced plans to resign, and another is seriously considering retirement. Six other drivers will be eligible for retirement in the next two school years. The consolidation would also preserve the system's aging bus fleet.

***OTHER MEASURES***

Eliminate health insurance benefit to employees and retirees. ($230,544).

Salary freeze for all employees. ($109,684).

Open media center one day a week by appointment only. (about $1,000).

New salary schedule for coaches, teachers, administrators, supervisors, central office personnel.

School consolidation.

***ITEMS BEING ADDRESSED THROUGH CENTRAL OFFICE***

Reduced phone lines and central office and schools. ($2,300).

Reduced number of tank rentals for agriculture shops. Further reductions planned.

Copying costs systemwide.

Kinds and use of janitorial supplies.

Monitoring of outside contractors who are hired on an hourly basis.

Sale of band equipment stored at South Cameron High School. Another parish is interested in purchasing for $1,000.

Four-day school week. Could save costs of transportation, lunches, electricity. Investigating to see if any states have tried or are using. No other parish is using.

***POSSIBLE REVENUE***

Lab fees.

Charge for materials when performing services such as welding, copying and laminating at schools and central office.

School tax: Can ask for up to 38 mills. Each 10 mills generates about $1 million. Operation and maintenance tax will be up for renewal in April 1997.

**BOAT FURNISHED AT PORT ARTHUR**

The city of Port Arthur is now operating a motor boat to cross people free of charge between the city and Pleasure Island.

The bridge to the island was knocked out by a tanker recently and will not be repaired for some time to come. The bridge is a link between the Hug the Coast road out of Cameron Parish and Port Arthur.

**CREOLE BASEBALL PLAYERS**

This picture of Creole baseball players was taken over 50 years ago at a Sunday afternoon ball game played in the yard of "Son" Theriot's home, presently occupied by Mr. and Mrs. J. "Man" Theriot. The oak tree which appears in the background is still standing.

Pictured in the first row are Dorcelle Richard, Emile Broussard, George Theriot, Charlie Richard, Leon Richard and Gabriel Richard. Middle row: Rudolph Richard, Ramie Richard, Pierre Conner, Raymond Richard, Ojust Richard, John Montie and Dorestan Richard. Standing: Dolsan Primeaux, Dorecelie Boudoin, Albert Richard, "Son" Theriot, Vorise Nunez, Moise Sturlese, Luke Richard and Joe Broussard.

NOTICE FOR BIDS

Acting under the authority of the Legislature of the State of Louisiana, the Cameron Parish School Board will receive sealed bids for the leasing of surface rights including the rights of range, fishing, and farming, but excluding trapping and hunting, on the following described lands:

Section 16, Township 15, Range 14. Description: 9 miles East of Texas line and 1 mile North of Gulf of Mexico in Johnson Bayou, 20 acre tract.

(A description map may be seen in the School Board Office during normal working hours.)

All bids must be sealed; the envelope marked "Bid - Section 16, Township... Range..." and delivered through the U.S. Mail to the Cameron Parish School Board, P.O. Box W, Cameron, La. 70631. Bids will be received for rental of not less than $25.00 per acre for a lease with a primary term of five years to end April 30, 2001. Annual renewal rentals will be due each year by April 30th, in order to continue the lease in effect. Certified check or money order in favor of the Cameron Parish School Board for the amount of the annual rental for the first year shall accompany and be deposited with the bid, and the rental thus deposited shall be forfeited to the Board as liquidated damages if the successful bidder fails to enter into written contract in accordance with his bid within ten (10) days after notice by the Board.

If farming rights are utilized, bidder may offer annual rental plus a fractional share of the crops equal to one-sixth (1/6) of any and all crops produced and saved during the year. The value of the one-sixth (1/6) share shall not be considered in the awarding of the lease unless the bidder guarantees a specific amount which shall be added to and accompany the bid. Should the crop share value figure prove to be less than the cash guarantee paid at the time of the lease, the Cameron Parish School Board shall demand such additional payment as necessary to bring the value adjustment to a full one-sixth (1/6) of crops produced and harvested on any and all listed acreage. Lessor reserves the right to gather and dispose of alligator eggs from the lease premises, without any compensation to lessee.

The surface rights and privileges granted in the lease are restricted to range, farming, and fishing and these rights shall in no way, manner, or form interfere with the proper use by mineral lease or the full utilization of all rights and privileges granted in any mineral lease.

It is further agreed and understood between the contracting parties hereto that this lease shall not be heritable, except by operation of law; however if any, and shall not be subject to mortgage, pledge, hypothecation or seizure and sale, nor shall same be assigned, subleased, or otherwise transferred by the said lessee unless authorized by prior written approval of the lessor. Such authorization of assignment of said lease shall be subject to terms and conditions as may be deemed proper by lessor. Terms and conditions for obtaining may be obtained by contacting the Cameron Parish School Board land manager.

The Cameron Parish School Board does not guarantee or provide ingress or egress to the leased premises. Ingress and egress is the sole responsibility of lessee.

Bids will be received until the hour of 4 p.m., Wednesday, April 17, 1996, at which time all bids received will be opened and considered in public session of the Cameron Parish School Board in

...ron, Louisiana.

...ne Board reserves the right to reject ...y and all bids received.

PROCEEDINGS

Minutes of the Regular Meeting of the Cameron Parish Gravity Drainage District No. 5 held on Tuesday, January 16, 1996, at 2:30 p.m. at the Cameron Parish Police Jury Annex.

Members present: Scott Henry, E. J. Dronet, George Kelley.

Members Absent: Edwin W. Quinn and Earl Guthrie.

Others present: J. Berton Daigle, George LeBoeuf, Paul Yackupsak, Glenn Harris, James LeBoeuf, Amos Vincent, Lonnie Harper, Malcolm Savoie and Floyd Barentine.

A motion was made by Scott Henry, seconded by George Bailey, and unanimously carried to approve the minutes of the December 19, 1996 regular meeting as written.

A motion was made by George Kelley, seconded by Scott Henry, and unanimously carried to approve the following bills for payment:

1. Cameron Parish Pilot, $33.00; 2. Coastal Culvert, $797.18; 3. Gulf Coast Supply, $33.03; 4. Pumpelly's Tire Center, $294.50; 5. Lake Charles Diesel, Inc., $4.78; 6. Lake Charles Diesel, Inc. $75.02.

James LeBoeuf reported that he changed oil and filters on all pumps in the district.

Scott Henry reported that we have a commitment from DACI to set the culvert on Henry property. We will benefit on this project because Texas Meridian will lay a board run to a point near the site, and therefore we can save some track time. He is working by waiting until they do their work.

Glenn Harris reported that the Wildlife & Fisheries staff had been furloughed by the Federal Government for three weeks. However, water levels are at .7, thanks to some help from our Board members. He asked if this board has any opposition to opening the boat bay for public access at Grand Bayou. Our Board asked that the boat bay remain closed in light of the fact that Miami Corporation and North American Land Co. had asked that water levels be maintained.

Paul Yackupsak reported that the Cameron-Creole Automation project is apparently on hold until the Assistant Secretary of DNR is named, and therefore we see whether Breaux Bill funds will be available. It was noted that repair of the cracks in the Grand Bayou water control structure need to be done ahead of time before automation is begun. It was suggested that we write a letter to Clay Midkiff of the NRCS, asking for the status on repair of the cracks in the Grand Bayou structure and if any firm bids have been received.

There being no further business, the meeting was adjourned.

The Johnson Bayou Recreation District of Cameron Parish met in special session on Tuesday, February 27, 1996 at 6:35 p.m. at the Johnson Bayou Recreation Center in the Village of Johnson Bayou, Louisiana. Members present were: Mrs. Brenda Rodrigue, Mr. Gerald Doucet, Mr. Tony Trahan, and Mr. Greg Trahan. Guest: Mrs. Cindy McGee.

It was moved by Mr. Gerald Doucet, seconded by Mrs. Brenda Rodrigue and carried, to dispense with the reading of the minutes.

In response to an advertisement for bids published in the official journal, the Cameron Parish Police Jury on Feb. 29 (proposed 3" pipeline) for the purchase of a 40 gallon Ford, Chevrolet, Dodge, or the equivalent truck, the following bids were received and tabulated:

Billy Navarre, $10,660.00; Bolton Ford, $10,750.00; All Star Pontiac, $10,990.25; Lake Charles Dodge, $10,999.00; Buddy Cheverolet, $11,030.61; JK Chevrolet, $11,965.00; Mingle Motor, $13,343.00.

Considering the bid of Billy Navarre Chevrolet to be the lowest bid, it was moved by Mr. Tony Trahan, seconded by Mr. Gerald Doucet, and carried, to accept Billy Navarre's bid of $10,660.00, TTL not included.

It was moved by Mr. Tony Trahan, seconded by Mrs. Brenda Rodrigue, and carried, to accept the resignation of Mr. Gerald Doucet as board member.

There being no further business to discuss on Mr. Tony Trahan, seconded by Mrs. Brenda Rodrigue, and carried, the meeting was adjourned at 9:30 p.m. The next meeting will be Thursday, March 7, 1996 at 6:30 p.m.

RESOLUTION
STATE OF LOUISIANA
PARISH OF CAMERON

WHEREAS, Louisiana Revised Statutes 33:1236 (11) empowers parish governing bodies:

(1) "to provide for the support of the poor and necessitous within their respective parish..."

(2) "to receive and administer funds from the United States under the Economic Opportunity Act thereto..."

(3) "to transfer such funds"

(4) " to act as and perform the functions of a Community Action Agency under the terms of the Economic Opportunity Act of 1964, of the United States, and amendments thereto"

WHEREAS, Act 818 Of 1982 (La R.S. 23:61 et seq.) authorized the parish governing body to designate a public agency or a private nonprofit corporation as the community action agency.

WHEREAS, the statutes assign parish governing bodies a key role in connection with efforts to aid the poor. Such governing bodies may perform the functions of a community action agency or may designate the redesignate a private, nonprofit corporation as the community action agency.

WHEREAS, the designation by this governing body of a private nonprofit group to be the community action agency of this parish does not relieve this governing body of its responsibilities in connection with any and all public funds of any program, state or federal, expended by that designee.

WHEREAS, the governing body of Cameron Parish does hereby nominate and appoint the Cameron Community Action Agency, Inc., as the legally constituted community action agency in and for Cameron Parish for fiscal year October 1, 1995 - September 30, 1996.

WHEREAS, the Cameron Community Action Agency, Inc., as the legally constituted community action agency shall undergo and annual audit of all public funds expended by said agency.

THEREFORE, BE IT RESOLVED, that the Cameron Parish Police Jury in regular session assembled do hereby request that the Office of Commerce & Industry, CSBG- LA Department of Employment and Training, and DHHR make available, and transmit directly thereto, to the Cameron Community Action Agency, Inc.,, the aforementioned rtate appropriation funds and any other state or federal funds and any programs assigned to said agency by this resolution.

The following ordinance was offered by Mr. Sandifer, seconded by Mr. Savoie and declared duly adopted:

Chapter 17 1/4
EXCAVATION PERMITS
ARTICLE 1. IN GENERAL
Sec. 17 1/2 -1. Excavation - Permit Required.

No person, firm or corporation shall engage in any excavation operation in a single location for the excavation of more than 25 cubic yards of sand, dirt, clay or any other type of soil material without first having obtained a permit from the Cameron Parish Police Jury to do so.

Sec. 17 1/4-2. Permit Fee.

The fee for the excavation permit required by this Article is twenty-five dollars ($25.00).

Sec. 17 1/4 -3. Requirements.

The permit application for a new excavation permit will be published in the official journal of the parish once with a public comment period of thirty days. However permit applications for dredging operations which are solely for maintenance purposes will not be required to be published in the official journal.

Sec. 17 1/4-4. Fencing Requirement.

Applicants receiving new dredging permits will be required to fence around the perimeters of the property in order to insure the safety of the public. Waterways, and water bodies with the exception of pits and ponds, will be exempt from the fencing requirement.

Sec. 17 1/4-5. Minimum Clearance Distances.

No excavation of sand, dirt, clay or other type of soil material shall be conducted any closer than 25 feet from the property line of any property on which the excavation project is being carried out, and no excavation of sand, dirt, clay or other type of soil material shall be conducted any closer than 25 feet from any public road or utility right-of-way line.

Sec. 17 1/4-6. Violations: Penalties.

Whoever violates any provision of this Article shall be subject to punishment pursuant to Section 1-4 of this Code of Ordinances and such violation shall be cause for the revocation of any permit previously issued to the violator.

The following ordinance was offered by Mr. LeBoeuf, seconded by Mr. Sandifer and declared duly adopted:

ORDINANCE
ARTICLE IV: GRASS AND WEEDS
Sec. 9-35. Cutting and removal from certain lots required.

It shall be unlawful for persons owning or occupying lots located within the subdivisions herein listed below to fail to regulate the growth or accumulation of grass, obnoxious weeds, or other deleterious or unhealthful growths, trash, debris, refuse, or discarded obnoxious matter:

Garber, Highland, Ridgecrest, Toomey, Granger Cove, Pelican Point, Ratcliff, Black Peshoff, Hebert Camp, Old Big Lake Settlement, Tan's, Marie Ponds, Miller Landry, Kelley, Rogers, Bonsall, Peshoff, Primeaux, R.F. LeBoeuf, and Kronegay.

Sec. 9-36. Notice to cut or remove; performance by parish at owner's expense upon owner's failure to comply with notice.

(a) The owner of any lot located within said subdivisions shall cut or remove such grass, obnoxious weeds, or other deleterious or unhealthful growths, trash, debris, refuse, or discarded or noxious matter, when requested to do so after notice has been given by the parish in accordance with (b) hereunder.

(b) The notice to the property owner of the property shall be by registered or certified letter, return receipt requested, sent to the owner at his actual address or last known address listed in the records of the assessor of the parish at the time that the violation of this article was established. In the event that the parish is unable to notify the owner in this manner, notice shall be by publication once a week for two (2) consecutive weeks in the official journal of the parish.

(c) If the owner fails to cut or remove such grass, obnoxious weeds, or other deleterious or unhealthful growths, trash, debris, refuse, or discarded or noxious matter, within fifteen (15) days after receipt of the notice or after the second publication of the notice, as set forth in (b) , the parish shall have such grass, obnoxious weeds, or other deleterious or unhealthful, growths, trash, debris, refuse, or discarded or noxious matter, cut or removed and shall charge such property owner only the actual amount charged by and paid to the party cutting or removing such grass, obnoxious weeds, or other deleterious or unhealthful growths, trash, debris, refuse, or discarded or noxious matter, plus a fifteen (15) percent service charge thereon, such service charge not exceeding twenty-five dollars ($25.00) .

Sec. 9-37. Liens.

(a) Upon failure of any such property owner to pay such charges, the parish shall file a certified copy of such charges plus the costs charged by the recorder of mortgages for filing and recordation, with the recorder of mortgages, and the same, when so filed and recorded, shall operate as a lien and privilege in favor of the parish against the property on which said grass, obnoxious weeds, or other deleterious or unhealthful growths, trash, debris refuse, or discarded or noxious matter, was cut or removed.

(b) The parish shall add unpaid cutting and removal charges and related charges to the annual ad valorem tax bill of the property involved, and the sheriff effecting collection shall be reimbursed by the parish for and equal to fifteen (15) percent of the amount of such charges actually collected from the property owner. This collection charge shall be in addition to such charges and shall also be added to the ad valorem tax bill of the property involved.

Sec. 9-38. Party defendant.

In the exercise of the authority herein granted to the parish, the parish shall be the sold and proper defendant in any action, authorized by law, to contest the addition of such charges to the ad valorem tax bill of the property involved.

Sec. 9-39. Property owned in indivision.

(a) If property, which may be subject to a lien or privilege granted in favor of the parish, is owned in indivision and the owners in indivision, with their proportionate share in the property, are listed separately by the tax assessor on the ad valorem tax roll for the parish, then the notice to cut and remove such grass, obnoxious weeds, or other deleterious or unhealthful growths, trash, debris, refuse, or discarded or noxious matter shall be sent to each owner in indivision, and shall list the proportionate share of such charges due by that owner

(b) Upon failure of any owner in indivision to pay his proportionate share of the charges incurred by the parish in cutting and removing grass, obnoxious weeds, or other deleterious or unhealthful growths, trash, debris, refuse, or discarded or noxious matter, that parish of the property for which the charges are not paid shall be subject to a lien and privileges in favor of the parish.

(c) Upon payment by an owner in indivision of this proportionate share listed on the ad valorem tax roll for the parish of the charges incurred, and after certification of such proportionate interest by the assessor, the lien and privilege granted herein shall be removed from the proportionate interest of the paying owner in indivision shall be reflected on the bill and his interest in the property upon such charges shall be distinguished on the tax bill.

(d) Notice of lien and privilege shall be made upon the owner in indivision at their actual address or the last known address listed on the tax rolls of the parish.

# Dear Editor:

Dear Editor:

We as concerned citizens must call upon our Congressmen to reject cuts of $3 billion or more in the federal education budget and urge them to make investments in the education of our American children a top priority in Congress. These cuts would result in the loss of approximately $41 million to education in the state of Louisiana.

We must also call on our area Lousiana Legislators to support the additional $68 million funding recommended by the Board of Elementary and Secondary Education for state education as well as the teacher salary increase proposal.

Please make every effort to contact your area legislators and express your views. A few dollars spent on these phone calls will be a drop in the bucket compared to the millions of dollars lost to education, if we, as concerned parents, grandparents, aunts, uncles, etc., do not let our legislators hear from us. They hold the future of our childrens education in their hands.

U. S. Congressmen to contact and ask to reject cutting the $3 billion or more in 1996 are:

U. S. Senator John Breaux, Washington, D. C., 202-224-4623; Baton Rouge, 504-589-2531.

U. S. Senator J. Bennett Johnston, Washington, D. C., 202-224-5024; Baton Rouge, 504-389-0395.

U. S. Rep. Jimmy Hayes, Washington, D. C., 202-225-2031; Lake Charles, 318-433-1613.

U. S. Rep. Robert Livingston, Chairman of the House Appropriations Committee, Washington, D. C., 202-225-3015.

La. Legislators to contact and ask to support $68 million increase and salary increase for teachers are:

La. Rep. Dan Flavin, Baton Rouge, 504-342-6945; Lake Charles, 318-478-8530.

La. Sen. Cecil Picard, Baton Rouge, 504-342-2040; Abbeville, 318-898-4304.

### FISHING REPORT

Well, just as we thought spring was in the air, peach trees and flowers blooming, a couple of good weeks of fairly good fishing, and it happened. Remember the old ground hog and his shadow, 6 more weeks of winter, well it surely told us this past weekend that winter wasn't over.

This cold spell has sort of set back fishing for a few days. I'll say this, water is real low in our marshes, it's the lowest I've seen in many years. There are bass that got caught up in low ponds, low oxygen and died. Between Mother Nature and the drainage boards, it looks like they want to plant cotton in the marsh. I guess low-bottomland makes a good crop.

Offshore fishing has really been a no-no, as high winds and high and rough seas have kept the offshore anglers either home or inland fishing.

In Big Lake, if you can fight the wind, waves and cold spells, making it warm then cool, you cna catch a few fish, but it makes fishing tough.

There were some speckle trout reported caught around the Turner's Bay area. Redfish are still the best bet if fishing Big Lake or other inland areas, as redfish are still active even in cooler weather. Current fishing where there's bait fish is always good for reds.

If this weather settles, April and May should be good speckle trout fishing in the lake.

Bass fishing on Toledo Bend was good before the cold spell, using spinner baits and rattletraps.

Tomorrow (Mar. 15) we'll see our national refuges open, however, listen to the news because if the federal government shuts down again on March 16, and fishing as well as other activities will shut down.

With the spring season coming up, a reminder is to be very careful boating, whehter fishing, skiing or whatever. Safety equipment should always be checked like the fire extinguisher or horn.

### COMMERCIAL NEWS

A federal judge rules that some of the gill net law restrictions cannot be enforced. It is now temporarily blocked: a ban on weekend commercial fishing for speckle trout, other saltwater finfish and mullet; commercial fishermen who use rod and reel to have to possess a gill net license before they can obtain a rod and reel license; and the trawl permit through state waters to federal waters where gill nets are allowed, a $250 permit fee for each net.

Dates for the 1996-97 commercial saltwater mullet net season (strike nets), is from Oct. 21, 1996-Jan. 20, 1997.

### NEWS BRIEF

A resolution put before the police jury at the annual Monroe convention from all Louisiana is one that could really affect our local hunters: Request that all hunting stands and blinds be prohibited within 200 yards from public roads or 100 yards from property lines. A person with one acre of land couldn't legally hunt on it because if he puts a blind in the middle 300 feet is not enough.

A three year nationwide survey, indicates that 75 percent of Americans approve of hunting and 81 percent believe hunting should remain legal. Many realize it's the best method to control or reduce populations, plus the outdoor fun and recreation.

### COAST GUARD RULES

Boaters are reminded that the U. S. Coast Guard approved personal floatation devices requirements changed last year to require all boats to have wearable life jackets for each person aboard plus a throwable PFD. Check for tears on your life jacket, holes or damaged straps or zippers. Be sure the life jackets fit the persons who will wear them.

All boaters, 12 years and younger, must wear PFD when the boat is moving with the main motor. It's also a good idea for every age person to wear a life jacket when the boat is moving, and don't forget to use your kill switch if your boat is rigged with one. Watch for bad weather and head for the landing if needed and be safe. Watch for canal and mud boat intersections. Boats don't have brakes. Driving a boat and drinking is no different than in a car.

### FISHING PERIODS

Best: Fri., Mar. 15, 7:15 a.m. and 7:30 p.m
Sat., Mar., 16, 8 a.m. and 8:30 p.m.
Sun., Mar. 17, 9 a.m. and 9:30 p.m.
Good: Fri., 1 a.m. and 1:30 p.m.
Sat., 2 a.m. and 2:30 p.m.
Sun., 3 a.m. and 3:15 p.m.

## Katherine Arnold receives award

Katherine Arnold of Hackberry has been awarded an LSU Chancellor's Leadership Scholarship in a new program designed to provide assistance to incoming freshmen who were leaders in their high schools and communities.

Arnold, a graduate of Hackberry High School, ws an honor student, president of the student council and a member of the Beta Club. She is the daughter of Gervis and Miriam Arnold of Hackberry and plans to major in communication disorders.

The Chancellor's Leadership Scholarship program is designed to assist students who have served in such high school leadership roles as student council representatives, club presidents and school newspaper editors.

In addition to receiving a $1,000 stipend, winners will attend a breakfast with Chancellor William E. Davis once a month to discuss their academic and leadership progress at LSU.

**ENGAGED**--John and Joyce Moriarty of Lake Charles announce the engagement and forthcoming marriage of their daughter, Shonda Porter to Teddy Gordon, son of W. L. and Lois Gordon of Longville, formerly of Cameron. The wedding is set for Saturday, March 23, at Calvary Baptist Church, Sulphur, at 3 p.m. A reception will follow in the K of C Hall, Westlake. Through this means, friends and relatives are invited to attend.

The junior class is working on a "Picture Wall" for the banquet. Please bring photos of juniors and seniors. Make sure your name is on the back and place in an envelope to turn in to the homeroom teacher. Pitures will be returned.

**Pain may be eliminated for millions**

(SPECIAL) -- A new drug has been approved that is exciting researchers in the treatment of pain. This material has been formulated into a new product known as **"Arthur Itis™"** and is being called a *"Medical Miracle"* by some, in the treatment of debilitating conditions such as arthritis, bursitis, rheumatism, painful muscle aches, joint aches, simple backache, bruises, and more. Although the mechanism of action is unclear, experiments indicate that **Arthur Itis™** relieves pain by first selectively attracting, and then destroying the messenger chemical which carries pain sensations to the brain, thus eliminating pain in the affected area. **Arthur Itis™** is an odorless, greaseless, non-staining cream and is available immediately without a prescription and is guaranteed to work. ## Council on Aging is 20 years old

By GENEVA GRIFFITH

The Cameron Parish Council on Aging celebrated 20 years of service to the parish last Thursday night at a banquet held at the Creole Recreation Center.

Dinah Landry, Director, said the council was chartered in Jan. 1976 by Gov. Edwin Edwards, and at first was located on the top floor of the courthouse, with Rev. Mims Robertson serving as director.

He was assisted by Eldie Cheramie and Ruby Kelley, with Tina Horn and Landry joining the organization later.

Hayes Picou Jr. served as board chairman and Ellis McWhorter and Mary LeBleu were board members. The annual budget was $2,500 and the total services provided annually was for 175 persons. The major services were recreation and outreach.

In 1987 the Community Action Agency was chartered as a separate agency to work in cooperation with the COA. In 1993, the Head Start program was born.

The Council's budget has grown from $2500 to over $350,000 and with its sister agency, to over $1 million.

The two agencies employ over 30 persons and services are provided to 1250 senior citizens annually.

The major services are meals with feeding sites in three areas of the parish, six home delivered areas, and transportation services.

The COA utilizes three vans for transportation to grocery stores and for medical treatment, etc.

The welcome was given by Police Juror Malcolm Savoie and the Pledge of Allegiance was given by Don January and Chance Doxey, members of Boy Scout Troop 210, Cameron. The invocation was given by Della Nunez and the blessing of the meal by Rev. Joe Roundtree.

Brent Nunez, President of the Police Jury, introduced COA board members Ray Conner, chairman; Hayes Picou Sr., vice-chairman; Cynthia King, secretary; Brent Nunez, Glenn Alexander, Douaine Conner, Lena Guidry, George Hicks, Rev. Joe Roundtree and Carolyn Thibodeaux.

Nunez also read a proclamation from the Police Jury and presented a gift from the Jury to Mrs. Landry.

Mrs. Landry gave a slide presentation on the past 20 years of the COA.

Remarks were given by Ray Conner, board chairman, Harris J. Ducote from Mansura, who is president of the La. COA and chairman of the La. Executive Board on Aging, who gave greetings from the Governor, as did Martha Manuel from the Governor's Office of Elderly Affairs; and Ginger Gomez, representing Rep. Dan Flavin.

George LeBoeuf, Police Juror, passed out certificates of appreciation to the COA staff: Pet Duhon, Letha Savoie, Alice Mason, Mary Johnson, Laurie LeCompt, Gail Wolfe, June Bell, Ida January, Nolan Savoie and Sue Brown.

A special award for 20 years service from the beginning of the organization was presented to Mary LeBleu by Brent Nunez and Dinah Landry.

"Someone Special Awards" were presented to Tina Horn, Eldie Cheramie, Ruby Kelley, Ellis McWhorter, Rev. Mims Robertson, Hayes Picou Jr., Randy Roach, Myrna Conner, Roland Primeaux, Annie Karam, Louetta Nunez, Hayes Picou Sr., and Stephanie Rodrigue.

Volunteer awards were presented to Ray Conner, Della

## ...op tells ...age on Thursday

Jeff Davis Electric will have a planned outage Thurs. Mar. 28. Power will be off from 9 until 10 a.m. Thursday for necessary maintenance to Jeff Davis Electric facilities.

"I know this is the second planned power outage we've had during the first quarter of this year," Jeff Davis Electric Manager Dale Landry said. "But this is necessary so we can change out substation equipment to continue to upgrade service to our customers."

Power will be off for one hour for Jeff Davis Electric consumers in the Klondike, Cypress Point and Lakefront areas and west of Gueydan.

Jeff Davis Electric consumers who live in or have business in these areas are encouraged to protect sensitive electronic equipment, including medical equipment and computers and any compressor equipment. Electric clocks and timers will also be off, so consumers are urged to set back-up clocks to prevent missed appointments and work schedules.

## Head Start plans told

Cameron Head Start Program is seeking participants for the 1996-97 program year.

Children who will be 4 years old by Oct. 1, are eligible. Parents or guardians should call 775-2910. Please bring your child's certified birth certificate, social security card, immunization records and proof of one year's household income.

In addition, Cameron Head Start has begun accepting children with disabilities for the 1996-97 program year. They will be included in regular classroom activities, with special services provided.

Recruitment will begin April 1, and space is limited. For more information call 775-2910.

## 5 students in spelling bee

Five students from Cameron Elementary School will participate in the 1996 Literacy Council Regional Spelling Bee Sat., Mar. 23, at McNeese State University. The students and the grade they are representing are John Paul deLaunay, 3rd; Cassandra Trahan, 4th; Chelsi Styron, 5th; Tomas Johnston, 6th and Randall Cormier, 7th. These students placed first in the Cameron Elementary Spelling Bee for their grade level and have earned the privilege of representing their school.

The Regional Spelling Bee is open to the public. For more information regarding times and locations, call the Literacy Council at 478-2516.

## Primeaux is winner in Spec. Olympics

About 1,200 Special Olympics athletes from hundreds of communities across Louisiana competed at the 1996 Louisiana Special Olympics State Indoor Games in Baton Rouge, held Mar. 11. Competition was held in the sports of basketball, bowling, equestrian, powerlifting and table tennis.

The Honorary Head Coach was Gerry DiNardo, popular new coach of the Louisiana State University Tigers football team.

Louisiana Special Olympics is an independent non-profit sports organization which offers year-round athletic training and competition opportunities in 23 Olympic-style sports to the state's citizens with mental disabilities.

Competing in the Equestrian division was B. J. Primeaux, who placed 4th in Stock Seat. This was B. J.'s first year to compete.

## Storm evacuation routes endorsed

Two resolutions urging the Legislature to take action on matters pertaining to Cameron Parish were passed by the Louisiana Police Jury Association at its convention in Monroe.

One requests the state to construct a hurricane evacuation route north from the town of Cameron and the other asks that Hwy. 27 be designated as a hurricane evacuation route as well as a portion of it be four-laned.

For years the Cameron Parish Police Jury has sought a bridge across the ship channel at Cameron, partially as an alterate evacuation route for the town of Cameron. However, recognizing that this might not be realized for many years, the jury shifted its attention to trying to get a new road running north from the town.

It has been proposed that road follow the west side of Calcasieu Lake and connect with the Big Lake Road (La. 384) which makes a more direct evacuation route in the event of a hurricane.

In addition, the jury is asking that the portion of Hwy. 27 and Creole and Hackett's Corner be made four lane to provide faster evacuation of residents of the Creole and Grand Chenier area before a storm.

The jury recently voted to make the Cameron-Big Lake Road its number one transportation priority. Since then the Cameron Parish Lions Club and the Board of Commissioner of the Lake Charles Harbor and Termninal District (Dock Board) have endorsed the project.

The jury made the ship channel bridge and the widening of the road between Creole and Lake Charles its second and third priorities.

In a letter to police juries, James T. Hayes, executive secretary of the Police Jury Association, said the association will support bills that address these needs and those on which other resolutions were passed.

One other resolution passed by the Police Jury Association was to raise the maximum salary for police jurors to $1,200 per month. (This resolution was not offered by the Cameron Parish Police Jury.)

## Airman back from Adriatic

Navy Airman C. D. Sonnier, son of Kenneth A. and Angela M. Theriot of Grand Chenier, has returned to Norfolk, Va., after completing a six-month overseas deployment to the Adriatic Sea near Bosnia and to the Persian Gulf near Iraq aboard the aircraft carrier USS America.

Sonnier is one of more than 5,000 Sailors and Marines aboard the carrier who completed the 51,000-mile voyage.

Sonnier first traveled to the Adriatic Sea near Bosnia, where the 1,047-foot long aircraft carrier and its nine aircraft squadrons participated in three days of NATO air strikes against Bosnian-Serb military targets in support of U.N. initiatives in Bosnia. Aircraft from Sonnier's ship flew more than 250 missions in the three-day period in which they delivered missiles and laser-guided bombs on targets.

Sonnier and fellow shipmates also traveled into the Persian Gulf to help enforce the international no-fly zone over southern Iraq. While in the Persian Gulf, Sonnier's unit was ordered to return to the Adriatic Sea near Bosnia. Traveling more than 4,200 miles in just nine days, Sonnier and shipmates were back in the Adriatic before the peace implementation forces began to pour into Bosnia from around the world.

Sonnier and fellow Sailors and Marines also participated in several multinational exercises with forces from Egypt, France, Greece, Israel, Italy and the United Kingdom.

While spending 151 days at sea, Sonnier also visited Greece, Italy and Malta and had an opportunity to visit local sites.

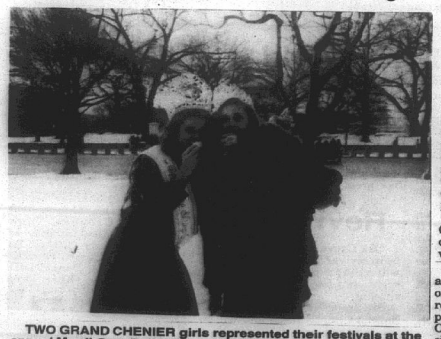
He joined the Navy in September 1992.

## Wetlands symposium is held

Louisiana's wetlands are called home for some of the state's seafood, sports fishing and oil and gas industry. The unique combination of the three -- affecting every person in Louisiana in one way or another -- is reason enough for scientists to come here for an international conference on wetlands, said William Patrick of LSU.

The recently held symposium on biogeochemistry of wetlands brought together more than 150 world experts in wetlands and wetlands-related research.

Wetlands also play an important role in maintaining and recharging groundwater reservoirs, acting as a filter in cleaning drinking water and ridding it of harmful elements, said Patrick, director of the LSU Wetland Biogeochemistry Institute, a co-sponsor of the conference.



According to the U. S. Department of the Interiot, 80 percent of the nation's coastal fisheries depend on wetlands in the United States for spawning, nursery areas and food sources. "Louisiana's wetlands supply a large portion of the nation's fisheries and oil and gas fields," says Patrick.

"But scientists need to agree on exactly what a wetland habitat is", says Stephen Faulkner of the institute.

"A wetland is a natural system. Nature doesn't fit into a neat box like humans would like. There is overlap and we must come to a better understanding of what a wetland is," says Faulkner.

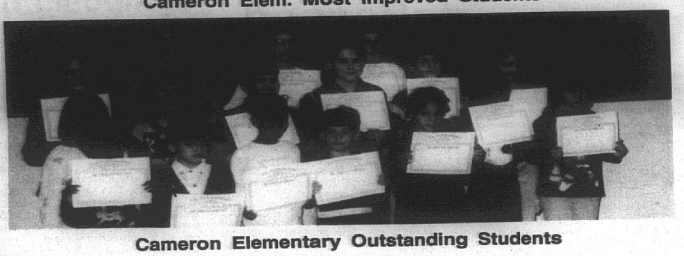
There are federal regulations describing wetlands, but government regulations do not always agree with what some scientists see as wetlands, says Faulkner. "We need to come together so when a researcher says 'wetland' everyone is thinking the same thing."

Ramesh Reddy of the University of Florida at Gainesville, also a co-sponsor of the symposium, said the biggest challenge to the researchers is to translate their work into meaningful applications. Florida has a large portion of the nation's wetlands, with the Everglades in south Florida probably the most famous wetland.

TWO GRAND CHENIER girls represented their festivals at the annual Mardi Gras Ball in Washington, D. C. in February. Shown above enjoying the snow were Patience Cogar, left, Delcambre Shrimp Queen, and Adrienne Picou, Louisiana Fur and Wildlife Festival Queen.

75-YEAR-OLD Johnny Crochet was enjoying the beautiful weather (before this week's cold snap) by fishing at the boat ramp on the Louisiana side of the Sabine River in Cameron Parish. He said he has been fishing the Sabine for 40 years and has seen the decline of fish tremendously, probably caused by polution. (Photo by Geneva Griffith)

MEMBERS OF THE Cameron Council on Aging staff are shown with certificates presented to them last week during the Council's 20th anniversary observance. (Photo by Geneva Griffith.)



AMONG THOSE attending the Cameron Council on Aging's 20th anniversary observance last week were two members of the Louisiana Silver-Haired Legislature, which is sponsored by the Louisiana Council on Aging. They are Ray Conner, left, of Creole, and Harris Ducote of Mansura, who is president of the Louisiana Council. (Photo by Geneva Griffith.)

### FISHING OPENED

The cold weather on the first weekend of March wasn't enough to stop some anglers. With the opening of Rockefeller Refuge on Mar. 1, Francis Bosco and Mary and Damon White took to the big canals of the refuge catching 4 bass, 2½ to 3 lbs., plus some nice redfish. Of four reds, 3 were 26 inches and one 29 inches. These fish were caught on spinner baits.

Offshore anglers are doing good on red snapper and they tell me there are lots of schools of redfish, right on the top of the water. This is around 50 miles out. You can't fish redfish in federal waters.

Ten pound red snappers were caught and some larger. Baits were cigar minnow, pogy or squid on a lead head jig.

The local national refuges opened last Friday and fishing was tough. Lacassine Refuge's impoundment is lower than it usually is and I noticed more grass than before or at least it's at the top of the water. I'll tell you this, the old ramp was loaded with both sides of the road and the next parking area full. The new boat ramp was also loaded and trucks were parked on both sides of the road.

I saw some nice stringers, some bad stringers had 8 pounders, so I guess you can say it was an average day.

The Miami Corporation Permit lands opened Saturday. There were fish caught, but plenty of motor troubles with the low water. Canal fishing was really the best, unless you could get to a deep pond, and that was tough.

I know fish are ready to spawn, but you really didn't see many beds. I think with the weather being colder than usual, low water and more fronts coming, the fish can sense this and are holding back on their spawning.

A few bass were picked up on the canal cuts and points in the Apache Oil Co. field and also in the deep canals of Rockefeller Refuge.

### LEMESCHE BASS CLUB

The Lemesche Bass Club held their first regular monthly meeting the first of the month. Many changes have been made.

Scooter Trosclair was elected president, and Darrin Richard was voted secretary-treasurer. Ricky Cusnik will serve as vice-president. He is also past president.

The first club tournament will be Apr. 21 and weigh-in will be at the WOW hall in Creole. All legal public waters of Cameron Parish can be fished.

The club plans to have at least two open tournaments to the public, May 4 and June 29. Entry fees will be given later. The club also plans to have their club tournaments on May 19, and July 14. They still have tentative dates set for Aug. 11 and 25, Sept. 22 and Oct. 6.

Club members will choose non-club members to fish the club tournaments this year. Again entry fees will be given later. All tournaments will have cash pay-outs to top fishermen.

The club is conducting a membership drive as well as asking the older members to pay their yearly dues. To become a member you can call Scooter Trosclair at 538-2270 or Darren Richard at 538-2257 week nights and 542-4310 weekends.

Limits for open public tournaments will be five bass per teams and club tournaments will have five bass per person.

### NEWS TALK

Money paid through excise taxes paid by manufacturers on hunting and fishing equipment and supplies that hunters, anglers and boaters buy has been earmarked for Lousiana's 1996 fiscal year to a tune of $6.9 million. This money comes to us by the number of license sales and the size of the state. It is down a little from last year. This money is distributed by the Department of Wildlife and Fisheries. Certain percentages have to be spent in certain places like boat access, buoys, boat launches, etc.

The U. S. Census Bureau begins interviewing people in April for a U. S. Fish and Wildlife Service survey. All residents are urged to comply with the 1996 National Survey of Fishing, Hunting and Wildlife Associated Recreations Activities. It is used as information to estimate demands for wildlife, recreation and different user groups. This survey is conducted every five years.

An example, the last survey conducted in 1991, showed that 1.8 million state residents 16 years or older took part in fishing, hunting or other non-consumptive activities. Spending $1.5 million were 801,000 anglers, 333,000 hunters and 1.1 million taking part in wildlife observation, photography and bird feeding.

State 1996-97 hunting season for resident game of Lousiana, has already been proposed. When this becomes final, I'll bring them to you.

### SOFTBALL

Upcoming Lady Tarpon softball games include Thurs., Mar. 21, at Notre Dame; Tues., Mar. 26, at home against Iota; and Thurs., Mar. 28, at North Vermilion.

### PROM CHANGE

The date for the junior - senior prom has been changed to April 20, due to a scheduling conflict with the entertainment company. Music and videos will be provided through Associated Entertainment.

### RENAISSANCE PROGRAM

South Cameron High School has recently adopted the Renaissance Program which recognizes student achievement. The program, which was initiated by Josten's, Inc., has been undertaken by schools throughout the country. It recognizes and rewards academic, co-curricular, extra-curricular and athletic achievements of the students of South Cameron High School. Since there is no present funding for this project, the faculty is sponsoring a cake sale which will be held Thurs., April 4, in Creole. Proceeds will be used to purchase bulletin boards, film, display and banner paper, student incentives and other supplies. Anyone wishing to help, donate a cake or any of the needed supplies, should call Rosalie Perry, at 542-4488.

### 8TH GRADE RAFFLE

The 8th grade class of South Cameron High School has only two more weeks for their parents to sell tickets for the raffle of a $100 gift certificate to the Prien Lake Mall. As of Mon., Mar. 19, the parents have sold and turned in $598, and much more is needed. All tickets and money must be turned in by Thurs., Mar. 28, so the drawing can take place Fri., Mar. 29.

# Creole Homemakers hold March meeting, tell plans

When the Creole Homemakers Club held its March meeting in the home of President Earline Baccigalopi, members set plans for two upcoming events.

In observance of Teacher Appreciation Week, April 14-20, the club will honor the staffs of the both South Cameron Elementary and High schools on Wed., April 17, by serving cake and cookies with coffee at both schools. Members who will serve are Estelle Theriot, Mayola Wicke and Baccigalopi.

The club will host the Cameron Parish Homemakers Clubs meeting Tues., April 9, at 6:30 p.m. at the Creole Fire Station. All members are asked to bring a covered dish. Guest speaker will be Catherine Denison-Wicke, MBA, PhD, Administrative Director for Special Projects and Telemedicine at South Cameron Memorial Hospital.

Teen Wicke will demonstrate how to decorate different size baskets in many attractive ways for gift giving, while Baccigalopi will make several door prizes using potpourri set in attractively decorated glass containers.

In conjunction with National Library Week to be held in April, members discussed plans for the open house at the Cameron Parish Library.

## Grand Lake 4-H meets

The Grand Lake Sr. 4-H meeting was called to order by Vice President Jessica LeBouef.

Mrs. Sherry talked about the group planting new plants in the highway plant project.

Mrs. Darlene talked about the Bike-A-Thon coming up on March 30, from 2-5 p.m. at the school track field. She encouraged club members to participate or help.

Mr. Mike thanked Heather Taylor and Mandy Broussard for giving workshops at the Parish Workshop Day. He also announced that Heather Taylor had placed second in the Oyster category in District Seafood Cookery Contest.

Mr. Mike presented a program on Alternative Waste Management.

Mrs. Sherry congratulated club members who turned in record books. They were Todd Thomas, Mandy Broussard, Heather Taylor and Kimberly LeDano.

Mr. Mike played Ag in the Bag with Brooke Jouett correctly guessing the product was soybeans.

He acknowledged those club members attending the livestock juding contest. They were Todd Thomas placing first in compact tractor and Heather Taylor winning honorable mention in livestock judging.

SHOWN PUTTING up the AGATE students photography exhibit at the Cameron Parish courthouse were Chelsie Clark and Lynsi Conner. The pictures will be on view for the next two weeks.

## AGATE students mount photography exhibit

AGATE students from Hackberry, Johnson Bayou, Grand Lake and Cameron recently completed a photography study. The students learned to develop and process black and white photographs.

AGATE teachers Sharon Campbell and Cindy Desonier set up darkroom facilities at Cameron Elementary School. Students from Grand Lake and Johnson Bayou were transported to Cameron by parent volunteers. Hackberry students utilized an existing darkroom at Hackberry High.

A student exhibit will be on display at the parish courthouse for the next two weeks. The public is invited to see these various views of Cameron Parish.

/s/ BONNIE W. CONNER
SECRETARY
RUN: Mar. 7, 14, 21 (F-65)

NOTICE FOR BIDS

Acting under the authority of the Legislature of the State of Louisiana, the Cameron Parish School Board will receive sealed bids for the leasing of surface rights including the rights of range, fishing, and farming, and the rights of trapping and hunting, on the following described lands:

Section 16, Township 15, Range 14. Description: 9 miles East of Texas line and 1 mile North of Gulf of Mexico in Johnson Bayou, 20 acre tract.

(A description map may be seen in the School Board Office during normal working hours.)

All bids must be sealed; the envelope marked "Bid on Section 16, Township__, Range__," and may be forwarded through the U.S. Mail to the Cameron Parish School Board, P.O. Box W, Cameron, La. 70631. Bidder must offer an annual rental of not less than $25.00 per acre for a lease with a primary term of five years to end April 30, 2001. Annual succeeding rentals will be due each year by April 30th, in order to continue the lease in efect. Certified check or money order in favor of the Cameron Parish School Board for the amount of the annual rental for the first year shall accompany and be deposited wihr the bid, and the rental thus deposited shall be forfeited to the Board as liquidated damages if the successful bidder fails to enter into written contrct in accordance with his bid within ten (10) days after acceptance by the Board.

If farming rights are utilized, bidder may offer annual rental plus a fractional part of not less than one-sixth (1/6) of any and all crops produced and saved during the year. The value of the one-sixth (1/6) share shall not be considered in the awarding of the lease unless the bidder guarantees a specific amount which shall be added to and accompany the bid. Should the one-sixth (1/6) value of crops be less than the cash guarantee paid at the time of the lease, the Cameron Parish School Board shall demand such additional payment as necessary to bring the value adjustment to a full one-sixth (1/6) of crops produced and harvested on any and all listed sections. Lessor reserves the right to gather and dispose of alligator eggs from the lease premises, without any compensation to lessee.

The surface rights and all privileges granted in the lease are restricted to range, farming, and fishing and these rights shall in no way, manner or form interfere with the granting of a mineral lease or the full utilization of all rights and privileges granted in any mineral lease.

It is further agreed and understood between the contracting parties hereto that this lease shall not be heritable, except by lessee's surviving spouse, if any, and shall not be subject to mortgage, pledge, hypothecation or seizure and sale, nor shall the said lease be given, form subleased, or otherwise transferred by the said lessee unless authorized by prior written approval of the lessor. Such assignment, sublease or transfer of said lease shall be subject to terms and conditions as may be deemed proper by lessor. Terms and conditions for subleasing may be obtained by contacting the Cameron Parish School Board land manager.

The Cameron Parish School Board does not warrant or provide ingress or egress to the leased premises. Ingress and egress is the sole responsibility of lessee.

Bids will be received until the hour of 4 p.m., Wednesday, April 17, 1996, at which time all bids received will be opened and considered in public session of the Cameron Parish School Board in Cameron, Louisiana.

The Board reserves the right to reject any and all bids received.

PUBLIC NOTICE

Notice is hereby given that the Department of Environmental Quality has issued a temporary Louisiana Water Discharge Permit System permit and is proposing to issue a final Louisiana Water Discharge Permit System permit to Mobil Oil E & P Southeast, Inc. This permit and the final permit, if issued, establish effluent limitations and monitoring requirements for the discharge of certain wastewater streams associated with the company's proposed oil and gas exploration, development and production operations in the East Cameron Area Block 4 Field, Cameron Parish. The receiving water in the East Cameron Area Block 4 Field is the Gulf of Mexico. The limitations and conditons of this permit are consistent with the permitting policy of the Office of Water Resources which is to achieve and maintain full support of designated uses of the waters of the state.

During the preparation of this permit, it has been determined that these discharges will have no adverse impact on the existing uses of the receiving waters. As with any decision, however, some change in existing water quality may occur.

The designated uses of the receiving waters include primary contact recreation, secondary contact recreation, and propagation of fish and wildlife.

The application and proposed limitations may be examined at the Office of Water Resources, 3rd Floor, Department of Environmental Quality, 7290 Bluebonnet Road, Baton Rouge, Louisiana.

Persons wishing to provide data, views or comments, or request a public hearing relative to the issuance of the permit are invited to submit their comments and requests, in writing, within thirty (30) days of the date of this notice using reference No. WP 5425 to:

Department of Environmental Quality, Office of Water Resources, Post Office Box 62215, Baton Rouge, Louisiana 70884-2215, ATTN: Danny Smith, Telephone: (504)765-0543.

All written comments submitted during the period of comment shall be retained by the Office and considered in determining whether to issue, modify, or deny the proposed permit.

PUBLIC NOTICE
CAMERON PARISH COASTAL USE PERMIT APPLICATION

Interested parties are hereby notified that the Coastal Management Section of the Cameron Parish Police Jury has received the following apparently complete application for a Coastal Use Permit in accordance with the rules and regulations of the Louisiana Coastal Resources Program and R.S. 45, 213.1, the state and Local Coastal Resources Management Act of 1978, as amended.

L.C.U.P. Application #960305

Name of Applicant: MW Petroleum Corporation, 200 Dulles Drive, Lafayette, La. 70506.

Location of Work: Grand Chenier, Section 18, Township 15 South, Range 3 West.

Character of Work: To reroute an existing pipeline, so that the existing marshes can remain open to sportsmen. The trenasse will be approximately 6' wide and 3' deep approximately 1,777 linear feet and no material will be removed. The spoil will be used in an upland area.

The decision on whether to issue a permit will be based on an evaluation of the probable impacts of the proposed activity in accordance with the state policies outlined in R.S. 49:213.2. The decision will reflect in the national concern for both protection and utilization of important resources. The decision must be consistent with the coastal program and approved local programs for affected parishes and must represent an appropriate balancing of social, environmental and economic factors. All factors which may be relevant to the proposal will be considered; among these are flood and storm hazards, water quality, water supply, feasible alternative sites, drainage patterns, historical sites, economics, public and private benefits, coastal water dependency, impacts on natural features, compatibility with the natural and cultural setting and the extent of long term benefits or adverse impacts.

Certification that the proposed activity will not violate applicable water and air quality, laws, standards and regulations will be required before a permit is issued.

Any person may request, in writing, within the comment period specified in this notice, that a public hearing be held to consider this application. Request for public hearings shall state, with particularity, the reasons for holding a public hearing.

Plans for the proposed work may be inspected at the Cameron Parish Police Jury Annex Building, Coastal Management Division, Courthouse Square, P.O. Box 366, Cameron, Louisiana, (318) 775-5718. Writen comments should be mailed within 25 days from the date of this public notice to Cameron Parish Police Jury, Coastal Management Division, Post Office Box 366, Cameron, Louisiana 70631.

RESOLUTION

Whereas, The Honorable Governor Mike Foster and members of the Louisiana House of Representatives and Senate have stated that increasing the salaries for teachers and other school employees is top priority; and

Whereas, recruting and retaining the best classroom teachers is a major factor in improving student achievement, and

Whereas, Louisiana's classroom teachers' salaries currently rank among the lowest in the nation, and

Whereas, Louisiana's school boards do not have sufficient revenues to provide the funds necessary to significantly raise these salaries, and

Whereas, The Louisiana Association of Educators, the state affiliate of the Cameron Association of Educators, has announced a major initiative, which will require no additional state tax, in order to raise school employees' salaries to the Southern average, and

Whereas, This multi-year permanent salary increase calls for an average $1,700.00 raise for the next three years for instructional personnel and a 5% raise in salary for those individuals for all support employees, by using the proceeds from the present one-cent sales tax, which is currently in the Louisiana Recovery District and due to expire in 1998. The annual $505 million that this tax currently brings in would more than cover the cost of this proposed salary initiative, with additional millions available for higher education, textbooks and technology.

Therefore, be it resolved, That the Cameron Parish School Board join with the Cameron Association of Educators in support of this multi-year salary initiative which will significantly raise the salaries of all classroom teachers and support personnel in the public elementary and secondary schools throughout the State of Louisiana, and

Be it further resolved, That the Cameron Parish School Board join with the Cameron Association of Educators in petitioning The Honorable Governor Mike Foster and members of the Louisiana Legislature to support the salary proposal when it is presented in the 1996 Session of the Louisiana Legislature.

Adopted and approved the sixth (6th) day of March, 1996

RESOLUTION
Supporting Federal
Education Investment

Whereas, Local public schools are facing the likelihood of deep, far-reaching cuts in critical federal education programs, and

Whereas, Recent polls show that, while a large majority of Americans favor balancing the federal budget, they oppose cutting educational programs to reduce federal spending, and

Whereas, The federal budget needs to reflect the high value the American people place on education, and

Whereas, The federal investment in the education of our children and youth is critical to the future competitiveness of the American economy, the education needs of disadvantaged children and the opportunities for all Americans, and

Whereas, Federal investments in education help to offset the costs of services to special needs students, and

Whereas, Severe cuts in education programming for school children across the country could put local districts and communities in the position either of raising local property taxes or cutting educational programs, and

Whereas, Congress recently enacted deep cuts in FY 1995 spending for education and is currently debating the most devastating cut in the history of federal education funding in the appropriations for FY 1996,

Therefore be it resolved, That the Cameron Parish School Board supports a strong federal investment in education and urges the U. S. Congress and President Clinton to reject cuts in the federal education budget and make federal investment in the education of the American children a priority in this Congress, and

Be it further resolved, That copies of this resolution be sent to President Bill Clinton, members of the Louisiana Congressional Delegation and local media.

Adopted and approved the sixth (6th) day of March, 1996.

# Driftwood used to create art

By GENEVA GRIFFITH

Man has long been fascinated by the natural jetsam of the sea and in few places is beachcombing for driftwood and seashells more bountiful than along the Louisiana coast.

Driftwood, that timber tossed from the sea, and the whitened branches and roots from mangrove trees and other trees from locations along the Atlantic Ocean, and particularly from Africa, are artistically arranged by nature on the coast's wide sandy beaches.

In its shape, rhythm, and grain, it retains the living beauty that it once was. If the wood has been immersed a long time, it may be encrusted with sea life or riddled with woodworm paths.

Decorators prize the most fanciful shapes for wall and floor art. Flower arrangements may be creatively melded from driftwood.

There is only a small, easily traveled distance between the discovery of a piece of driftwood and its starring role in a unique floral arrangement. The steps are: collecting, cleaning, polishing, mounting, and arranging. Action of the element at the ocean usually produce smooth, curvaceous pieces.

Water and sand act as a natural sand-blasting machine, working out the soft and pithy parts of the wood, leaving only the hard, main lines. Sea animals also add interesting holes and openings.

Hold the pieces up and study them to see if they have merit - such as interesting knots and curves. Wash the pieces thoroughly with a stiff brush and cleaning powder. After washing, pieces may be laid out to dry outdoors.

Pieces that were originally gray in color will regain their gray look after a few days in the sun.

Marleen Tessier, a retired school teacher from Vermilion Parish, has been a resident of Rutherford Beach for 8 years, and spends many hours beachcombing for odd shaped driftwood with which she creates beautiful works of art and flower arrangements.

She enhances her pieces with silk flowers, ideally like those grown locally and in the wild, such as magnolias, iris, lotus, which are so typical of the area.

She tries to use it in its natural state and tries not to alter it too much, unless she wants to change the color a bit and soak it in bleach, which will leave it a soft gray color.

However, if the wood is not a nice gray or soft tan, but is an off color brown, you can modify it with brown wax shoe polish. This will bring out a red cedar color, using several coats if necessary.

Marleen says she prefers to use magnolias with her favorite arrangements because the romantic beauty of the south is closely linked with this tree, and it is the state flower of Louisiana.

The colorful purple, yellow and white lotus blossoms grow prolifically along the south marshes and produce beautiful seed pods which are used extensively in dried arrangements on the driftwood.

Lotus pods should be collected when they reach maturity, and dried by hanging them upside down in a cool dry place.

The fact that the Indians used the seeds and roots for food may partially account for the wide distribution of the lotus, which usually grows in rich land where Indians are known to have lived in early Louisiana.

Come to the lower Cameron Parish beaches and comb them for a beautiful piece of driftwood and pick a few seed pods from some of the marsh lotus blossoms and create your own individual arrangement for a lovely conservation piece for your home.

Karalee LaBove

## LaBove is La. FBLA reporter

Ten Hackberry High School FBLA members attended the annual state FBLA Conference in Alexandria March 16-18.

Participating in various contests were Karalee LaBove, Richard D. Clanton in Louisiana Who's Who Award; Shelly Fontenot, Business Math; Julia Sanders, Introduction to Business Communication; Lori Sanders, Machine Transcription; Mandy Schexnider, Word Processing; and Eric Welch, Business Calculations.

Karalee LaBove placed 7th in the Louisiana Who's Who competition; Lori Sanders, 7th, Machine Transcription and Mandy Schexnider, 10th, Word Processing.

Karalee LaBove, re-elected as the FBLA State Reporter, was officially installed during ceremonies Mon., Mar. 18. Karalee will again have the responsibility of publishing the fall and spring editions of The Louisiana Leader, the FBLA State newsletter. She is the daughter of Austin and Barbara LaBove of Hackberry and her FBLA advisor is Mary Baker.

## Arts Camp still has openings

There are still some openings for Grand Lake Arts Camp '96: 3 in K-1st; 2 in 2nd-3rd; and 9 in 6th, 7th, and 8th.

If a grade does not fill up, the openings will be distributed among other age groups.

As of April 8, the camp will be open to non-Grand Lake students. Registration forms are available in the Grand Lake School office or by calling Susan Fuerst at 598-2231. Dates for the camp are June 17-21 (K-3rd) and June 24-28 (4th-8th).

The camp is supported by a grant from the La. State Arts Council, La. Division of the Arts and the La. Decentralized Arts Funding Program administred by the Arts and Humanities Council of Southwest Louisiana.

## Farm Bureau to select parish queen

The Cameron Parish Farm Bureau announces that applications are now available for young ladies wanting to seek the title of Cameron Parish Farm Bureau Queen. The pageant is open to girls 16 to 19 years old and who are members of a Farm Bureau family.

For more information contact the Farm Bureau Office or call Ruby Dupuie at 538-2147.

## Festival to salute fur industry

Jan. 8 - 11, 1997 was set as the dates for the 41th Louisiana Fur and Wildlife festival in Cameron by the festival board of directors at a meeting Sunday night at Rockefeller Refuge.

The fur industry will be saluted at the festival, and the king will be chosen from this industry.

President Pete Picou said that all shotguns carried onto the festival grounds next year must be in cases.

The queen's ball will be held on Friday night, Jan. 10 in the Cameron KC hall.

Catagories of the queen contests, in addition to the Louisiana Fur Queen, and Miss Cameron Parish, will be Deb-Miss 11-12 years; Teen Queen 13-14; and Jr. Miss 15-16, and only parish girls are eligible to enter the last four catagories.

The next board meeting will be Monday, May 13 at Sabine National Wildlife Refuge headquarters at 5:30 p.m.

## Jury tells its agenda

The Cameron Parish Police Jury will hold its monthly meeting at 10 a.m., Tuesday, April 2.

Among the items to be considered is a capital improvements plan, the regional solid waste budget, bids on pothole repairs, several appointments, approval of a number of permits, discussion of the Little Chenier road and the honoring of Kristie Jo Dupuie, State Cattlemen Queen.

The complete agenda may be found in the legal section of the Pilot this week.

## Meeting set on schools

A meeting of citizens of the Hackberry area will be held at the Hackberry high school auditorium at 3 p.m. Sunday, April 14 to discuss parish school topics such as the school board budget, proposed budget reductions and possible tax proposals.

For more information contact Glenda Abshire, District 2 school board member, at 762-3938 or 762-3992.

## Lower light bills seen

Jefferson Davis Electric Cooperative announced that the Louisiana cooperatives, SWEPCO and Gulf States Utilities Co. have presented a joint proposal to Ralph Mabey, Trustee for Cajun Electric, that could result in the confirmation of a bankruptcy plan for Cajun which will ultimately lead to a substantial rate reduction for local customers.

"We have been working very hard for the last 15 months on a program which will bring much needed rate reductions to our customers and if the Rural Utilities Service, the Trustee and the court approve the program, we will soon see lower utility bills," a spokesman said.

### Taxes due

A list of nearly 100 pieces of property in Cameron parish on which the 1995 taxes remain unpaid will be published in the Cameron Pilot on April 4.

# Trash Bash Day set April 18

By GENEVA GRIFFITH

The monthly meeting of the Cameron Parish Chamber of Commerce was held last week in the Grand Lake Community Center, in line with its policy of meeting in different parts of the parish.

President Ed Kelley announced that the April meeting will be held Thurs., April 18, at 6:30 p.m. in the Holly Beach Fire station.

The Chamber, along with the Police Jury, will sponsor a parish-wide "Trash Bash Day" Sat., April 20. Help will be sought from 4-H clubs, Boy Scouts, civic organizations, other adult and youth groups, and from churches to help clean up the litter along the roadsides.

Kelley said that Rep. Dan Flavin has requested an opinion on the exclusion of liability for the Sheriff's Department in using parish prisoners for trash pickups.

Sheriff Sono Savoie said he would start using the prisoners for the litter control problem if his department is excluded from the liability.

The following community chairmen were named: Brent Nunez and Robert Manuel, Grand Lake; John DeBarge, Hackberry; Rod Guilbeaux, Holly Beach; Dusty Sandifer, Johnson Bayou; Greg Wicke, Creole; George LeBouef, and Kelley, Cameron.

LeBouef said the Cameron Lions Club has already started the project in the Cameron area by declaring a community cleanup in Cameron the following weekend. The Chamber is very interested in getting the youths involved in this cleanup, Kelley said.

The Commission approved a requiest to treat a 30-women tour group from Jennings to a mid-day brunch in the Cameron courtroom on April 10.

Wardella Fontenot will lead the tour and Marianna Tanner will take them on a birding tour throughout the parish. Their noon stop will be in Cameron.

Door prizes of filled Easter baskets were won by Robert Manuel and Jimmy Brown, Hackberry.

# Awards given by Creole Knights

The J. P. Boudoin Sr. Knights of Columbus Council 3014 held their 37th annual Knight of the Year awards banquet last week. A steak supper was prepared by Jerome Rutherford, Man Theriot, Fredman Theriot, Burl LaBove and Craig Hendrix.

Msgr. M. J. Bernard gave the invocation, while Robert "Bobby" Conner served as master of ceremonies. Grand Knight J. P. Boudoin Jr. presided.

The Catholic Youth Leadership awards were given by program director Loston McEvers, to Jerry Scott Canik and Danielle Shay for their church, community and school activities. Both are members of Sacred Heart Catholic Church in Creole and attend South Cameron High School, where they are seniors. Both received a $100 check and a plaque.

J. Berton Daigle and Audrey Daigle, last year's Family of the Year, presented the 1995-96 Family of the Year award to the J. P. Boudoin Jr. family.

Clifford Conner, last year's Knight of the Year, presented the 1995-96 Knight of the Year award to Jerome Rutherford.

All Knights were reminded to boil and dye one dozen eggs for the April 7, Easter egg hunt before the 8:30 a.m. mass at Sacred Heart Church.

A hunt for pre-school and one for grades 1-3, will be held after mass. A prize egg for each group and most eggs for each group will receive a prize.

Eggs may be given to Loston McEvers, J. P. Boudoin, Bobby Conner, Man Therior or any K. C. member or bring them to the Catholic Hall before the 8:30 mass.

THIS PICTURE of a number of lower Cameron cattlemen driving their cattle to higher land was taken following Hurricane Audrey in 1957 probably on Hwy. 27 between Creole and Sweet Lake. A large number of cattle drowned in the storm.

STRONG NORTH winds last week helped to expose the sand buildup behind the rock barrier along La. 82 west of Holly Beach. The barriers were installed a few years ago in an effort to stop the erosion of the beach in that area. (Photo by Geneva Griffith.)

**WINTER HANGS ON**

Lst week marks another of those "I told you so", winters is not over. Yes, they say last Wednesday was the first day of spring, but Wednesday morning it was 31 degrees and the wind chill factor was 35 degrees all day, with a small freeze last Thursday. This has stunted fishing a little and of course the high winds really put a stop for a few days on the lakes and the Gulf.

Some good fish reported taken before all this weather, a 6-10 bass in the Big Burn, a young couple catching 2 over 6 pounds and 4 over 5 pounds. There's fish in the marsh, but water is extremely low and tough to get to the deep holes, however, canal fishing is good. White spinner baits with bronze Colorado blades, grape/pearl, red/shad and camouflage worm with a 1/16 ounce slip sinker works well along the canal banks. A 32 pound tournament stringer of 10 bass was caught.

Lacassine Refuge has already taken off like it did last year. Some good stringers came out opening day and the day after. Quenton LeBoeuf and Darren Thibodeaux had a 33 pound, 5 bass stringer. Quenton's largest fish was 9 lbs. 8 ozs. Darren Richard caught a 8-7 and a friend of mine had a 8-2 bass. A tournament held Saturday of opening day had a top stringer of 33 lbs. and a 25 lb. stringer didn't make the top ten.

According to the refuge manager, Vicki, the boat count on opening day was 270 boats, but 400 vehicles when you included the bank fishermen. A bank fisherman had a 9-4 bass.

There were also good stringers of white perch caught, one stringer of 100 white perch reported. She also told me the water depth in the pool was a 4.1 and they try to maintain a 5-0, but with lack of rainfall, it's a little low. All in all the refuge is in good shape. Vicki would like comments about the overall fishing in the refuge, how you like the new boat ramp, and the size of bass, weight of bass, white perch and stringers. She's trying to keep abreast and give us the best fishing possible. You can call her at 318-774-5923.

Sabine refuge had a good opening day with several nice fish and stringers taken.

Miami Corporation's eastern land (Apache Oil) showed a slow fishing weekend. water is low and muddy.

Cameron Prairie National Wildlife Refuge had a few bank fishermen catch a few fish, but really a slow start. You do have to have a permit to fish the refuge. It is free, just go by the headquarters during regular office hours and you can get one.

**BOW HUNTING**

It is announced by biologist Wayne Syron of Lacassine Refuge, that a hunter-education certificate will have to be in the hunter's possession while hunting the October 1996 archery deer hunt. There are several classes planned for Jefferson Davis, Cameron and Calcasieu parishes beginning in June. For more information call the La. Dept. of Wildlife and Fisheries Education Dept. in Lake Charles, 318-491-2183.

**NEWS TALK**

Linder Curtis Sparks, executive director of the Sabine River Authority, was chosen for the Conservation Award for efforts in the development of the Toledo Bend area. This award came through the Louisiana Outdoor Sports Writers Association, of which I'm proud to be a member.

The U. S. Army could take over 85,000 acres of the Kisatchi National Forest, south of Fort Polk under a proposal by a U. S. Senator. This land contains a historical site, a campground, lake, trails, a picnic area, and a population of endangered red-cockaded woodpeckers. This is really a concern to sportsmen as well as environmentalists and conservationists. This land is used by hunters as well as other outdoor persons.

Two Florida men were cited for game fish violations this month. Bass undersize and over the limit were found at Pirate's Cove. They had a total of 49 black bass (17 over limit), 11 fish were undersize (14 inch minimum length). Fines of $100 to $350 and 60 days in jail could be their sentences.

Again, I remind you of the PETA trying to shut down fishing in 1996. Research shows that only about 25% of Louisianians 16 years of age and older fish. This makes it important that we as anglers talk with friends and family who do not fish and let them know that fishing is important to Louisiana and the rest of the U.S., not only for pleasure, but for food resources as well as jobs for both commercial and recreational fishermen and people employed by both. Remember, they'll try anything to harass fishermen but harassment of fishermen is illegal under Lousiana law.

The law covers interferring with lawful taking of fish, disturbing wild animals, including fish, disturbing anglers and entering or remaining upon state waters with the intent to disrupt fishing.

**LEMESSCHE BASS CLUB**

The 1995 results for the year were given to me last week, as follows: Ricky Canik of Grand Chenier had the largest bass for the year of 5-5, second was Todd Conner, 4-4 and Darren Richard, 4-3.

Taking the top 3 tournaments out of 6, were: Ricky Canik, Darren Richard, Todd Conner, Scooter Trosclair, Vince Theriot, Jerry Canik, Carl Broussard, Loston McEvers, Tom Hess and Scott Quinn.

**Doctor's discovery may end obesity**

HILTON HEAD, S.C. -- A doctor has discovered that an ingredient found in a small fruit grown in Asia, combined with an ingredient praised by the U.S. Department of Agriculture can help cause significant weight loss.

In a study published in a prestigious American medical journal, Dr. Anthony A. Conte, M.D. reported that the formula, now called Bio-Max 3000, caused patients to lose more than twice as much weight as a control group on the same fat reduced diet. Neither group was instructed to decrease the amount of food they ate or to increase their exercise levels. An article published in the *American Journal of Clinical Nutrition* confirms that you don't have to reduce the amount of food you eat to lose weight, provided that you limit the fat.

Scientists suggest that the mechanism behind the weight reduction includes decreasing sugar cravings and interruption of the "Krebs Cycle", an important step in the body's fat storage process. "The best part of this unique discovery is that it is not a drug, but a safe dietary food supplement" says Dr. Conte. The Asian fruit, called garcinia, is similar to citrus fruit found in the United States with one big exception-- it may help some people fight obesity! While Dr. Conte's study may be preliminary, the exclusive North American distributor, Phillips Gulf Corp., is calling the Bio-Max 3000 supplement "Nature's Ideal Diet Aid."

According to a spokesperson for the company, Bio-Max 3000 is now available on a limited basis through pharmacies and nutrition stores or call 1-800-729-8446.© 1995 Phillips Gulf Corp.

# LEGAL NOTICES

NOTICE FOR BIDS
Acting under the authority of the Legislature of the State of Louisiana, the Cameron Parish School Board will receive sealed bids for the leasing of surface rights residing in the rights of range, fishing, and farming, but excluding trapping and hunting, on the following described lands:
Section 16, Township 15, Range 14. Description: 9 miles East of Texas line and 1 mile North of Gulf of Mexico in Johnson Bayou, 20 acre tract.
(A description map may be seen in the School Board Office during normal working hours.)
All bids must be sealed; the envelope marked "Bid - Section 16, Township ... Range ..." and may be forwarded through the U.S. Mail to the Cameron Parish School Board, P.O. Box W, Cameron, La. 70631. Bidder must offer an annual rental of not less than $25.00 per acre for a lease with a primary term of five years to end April 30, 2001. Annual renewal rentals will be due each year by April 30th, in order to continue the lease in effect. Certified check or money order in favor of the Cameron Parish School Board for the amount of the annual rental for the first year shall accompany and be deposited with the bid, and the rental thus deposited shall be forfeited to the Board as liquidated damages if the successful bidder fails to enter into written contract in accordance with his bid within ten (10) days after acceptance by the Board.
If farming rights are utilized, bidder may offer annual rental plus a fractional part of not less than one-sixth (1/6) of any and all crops produced and saved during the year. The value of the one-sixth (1/6) share shall not be considered in the awarding of the lease unless the bidder guarantees a specific amount which shall be added to and accompany the bid. Should the one-sixth (1/6) value of crops be less than the cash guarantee, then at the time of the lease, the Cameron Parish School Board shall demand such additional payment as necessary to equal the value adjustment to a full one-sixth (1/6) of crops produced and harvested on any and all listed sections. Lessor reserves the right to hunt and dispose of alligator eggs from the lease premises, without any compensation to lessee.
The surface rights and privileges granted in the lease are restricted to range, farming, and fishing and these rights shall in no way, manner, or form interfere with the granting of a mineral lease or the full utilization of all rights and privileges granted in any mineral lease.
It is further agreed and understood between the contracting parties hereto that this lease shall not be assigned, except by lessee's surviving spouse if any, and shall not be subject to mortgage, pledge, hypothecation or seizure and sale, nor shall the said lease be sublet, subleased, or otherwise transferred by the said lessee unless authorized by prior written approval of the lessor. Such assignment, sublease or transfer of said lease shall be subject to terms and conditions as may be deemed proper by lessor. Terms and conditional for assigning may be obtained by contacting the Cameron Parish School Board land manager.
The Cameron Parish School Board does not warrant or provide ingress or egress to the leased premises. Ingress and egress is the sole responsibility of lessee.
Bids will be received until the hour of 4 p.m., Wednesday, April 17, 1996, at which time all bids received will be opened and considered in public session of the Cameron Parish School Board in Cameron, Louisiana.
The Board reserves the right to reject any and all bids received.

PUBLIC NOTICE
Declaration of Emergency
Department of Wildlife and Fisheries
Louisiana Wildlife and Fisheries Commission
In accordance with the emergency provisions of R.S. 49:953(B), the Administrative Procedure Act. R.S. 49:967 which allows the Department of Wildlife and Fisheries and the Wildlife and Fisheries Commission to use emergency procedures to set finfish seasons, and R.S. 56:325.4 which provides that the Secretary of the Department must declare a closed season when it is determined that the spawning potential ratio for southern flounder (Paralichthys lethostigma) is below 30%, and R.S. 56.317, which allows the Secretary to close any fishing season or restrict fishing in the closed season in any manner deemed advisable, upon securing evidence that the fish in state waters have been depleted through overfishing or that fishing is detrimental to the interest of the State; the Secretary of the Department of Wildlife and Fisheries hereby finds that an imminent peril to the public welfare exists and accordingly adopts the following emergency rule.
Effective 12:01 a.m., May 1, 1996 the commercial harvest of southern flounder (Paralichthys leghostigma) in Louisiana waters will close and remain closed until 12:01 a.m. May 1, 1997.
Effective with the closure, no vessel possessing any commercial fishing gear including, but not limited to, any pompano strike net, shall have southern flounder (Paralichthys lethostigma) aboard the vessel, whether within or without the territorial waters of the state.
Effective with the closure, the sale, barter, or exchange of, and the commercial possession of, southern flounder (Paralichthys lethostigma) shall be prohibited.
Act 1316 of the 1995 Louisiana Regular Legislative Session, the Louisiana Marine Resources Conservation Act of 1995, enacts Section 325.4 of Title 56, LRS, providing that the Wildlife and Fisheries Commission shall make annual assessment, review and evaluated report to the Legislature no later than March 1st containing the following information on southern flounder (Paralichthys lethostigma): (a) the spawning potential ratio (SPR), (b) a biological condition and profile of the species and area assessment. The Act also provides that if the SPR is below 30%, the Department shall close the season within two (2) weeks for the period of at least one year.
The Department has reviewed the information on the SPR of southern flounder (Paralichthys lethostigma), and has determined that the SPR is probably between 16% and 44%. The most conservative of these estimates is below the 30% criterion established by the Legislature. The Secretary has determined that a limited closure of the commercial harvest of flounder using pompano strike nets would be ineffective and unenforceable. The Secretary therefore has determined that it is in the bst interest of the state and most appropriate that the commercial season for southern flounder (Paralichthys lethostigma) in Louisiana waters be completely closed, and remain closed for one year. In order to simplify temporal changes in regulations for fishermen, the closure is placed as May 1, 1996 until May 1, 1997.
James H. Jenkins, Jr.
Secretary
NOTE:
Many recreation fishermen (shrimpers) purchase commercial licenses and use commercial gear. The closure will apply to ANYONE WITH COMMERCIAL GEAR ABOARD THEIR VESSEL and consequently will include these recreational fishermen. During closure, recreational shrimpers MUST carry and use recreational gear ONLY in order to retain a legal limit of southern flounder, regardless of how the flounder were taken.

### LAKESIDE LACONICS
We surely need rain. Cisterns are getting low and the ground is dry and hard and the gardens are very slow.
A new Lakeside resident arrived at the home of Albert Guidry. Mother and boy are doing well.
Albert Mouton, a former and well-known resident of this section, died on the 7th from injuries received from falling from a horse. He was buried at Shell Beach. His wife is prostrated from her great loss and is in a very serious condition. Mr. Mouton was one of our best Creole citizens and will be sadly missed by a large circle of friends.

### AGE OF CHENIERS
### (By Elora Montie)
Did you know that Little Chenier ridge was formed more than 800 years before the birth of Christ? That Oak Grove and Grand Chenier were the beach some 1100 years ago? And that the Mermentau River is just a youngster--only about 600 years old.
These are some of the findings of the exploration department of the Humble Oil and Refining Co. of Houston, which did some oilexploration work in the Grand Chenier area last June.
The information was sent to Paul Henry Roy of Grand Chenier who had assisted with the exploration work and who had expressed an interest in findings. Here is what the Hum[illegible] engineers wrote Mr. Roy:
"This information is on the basis of a laboratory technique involving the reflective breakdown of a certain type of carbon which occurs in sea shells, which determined the approximate numbers of years since the formation of several of the cheniers. As far as the determination of the ages of the ridges, they are correct within about 100 years, more or less.
"The earliest formed ridges in this area are Little Pecan Island and Little Chenier which formed about 2,800 years ago. chenier Perdue was built up from 2,400 to 2,600 years ago.
"Oak Grove Ridge and Grand Chenier were constructed approximately 1100 to 1250 years ago, and the beach ridges near the mouth of the Mermentau River began to form about 600 years ago. All these ridges and old beach ridges marked the shore of the ocean at the time they were formed."

### SWEETLAKE BRIDGE
Work began March 25, on the Sweet Lake pontoon bridge in Cameron Parish under a $332,508 contract awarded to F. Miller & Sons, Inc. of Lake Charles.
The steel pontoon bridge with concrete approaches will be built on State Route 384 at the Intracoastal Waterway, approximately one mile west of 384's junction with State Rouge 385.

### "EXOTIC VACATION"
### (By Jerry Wise)
Three Cameron men have been on an exotic type of vacation for the past several weeks. They are postmaster Don Wagner, Roy Deangelo and James Styron who went along "for the ride" when four of Harvey Smith's new pogy boats were delviered to one of his plants in Chili.
The boats left Jacksonville, Fla. on Feb. 26. On the way they ran into rough seas and had to put into the Bahamas to wait for more element weather. Don Wagner called his wife to report he was "lolling in the sun on the beach."

### TELETYPE NOW AT SHERIFF'S OFFICE
A teletype machine has been installed in the Cameron Sheriff's Office, which is now on a teletype network connecting sheriff offices in Crowley, Lake Charles, St. Martinville, New Iberia, Abbeville, DeRidder and Lafayette.
Sheriff O. B. Carter said the new system will provide swifter and more accurate communichtion between the sheriff's departments and will also be useful inrelaying weather information.

### ROUNDABOUT THE PARISH
Cameron -- Cub Scouts attending the Scout-A-Rama in Lake Charles Saturday night were Wade Hebert, Ronnie Moody, Wade Miller, Alan Baker, Peter Gerbina, Perry Gerbina, Samuel Authement and Brent Cheramie. Their Den Mother is Mrs. Dallas Theriot.
Parents taking the boys to the show were Mrs. Sweeney Hebert, Mrs. Henry Dinger, Mrs. Fletcher Miller, Mr. and Mrs. Tony Cheramie, Mr. and Mrs. Claude Hebert, Mr. and Mrs. Hugh Baker, Jay Miller, Jackie Miller, and Glenn Theriot. The Scouts are sponsored by the VFW Post.
Grand Lake - Sweet Lake -- Spring is on the scene, officially now, and so are the Mosquito Winds. Things are drying up so much that the people are waiting anxiously for April with its showers. Cattlemen of the area are taking advantage of the good weather to get their spring branding and vaccination done before the warm weather starts. Don Matheson, Wayne Foster, Lester Guidry, Sidney Fruge, and Desire Miller started the wheels (or should we say the hooves moving) bright and early Monday morning.
Hackberry -- Home Demonstration workers who helped in the Polio Vaccination Clinic held in the school cafeteria Sunday were Mesdames Madie Pierce, Evie Little, Elma Gross, Ethel Little, Nata Hebert, Lucille Pierce, Clara Lee Barbier, Margaret Shove, Helen Colligan, W. E. Reasoner, Sr. Others working were Dr. J. B. Colligan, Leland Colligan, druggist, nurses, Mrs. Frank Comeaux, Mrs. Deltra Ruth Hardin and Mrs. Helen Colligan. There were 945 who took the vaccine.
Black News -- Approximately 271 turned out at the Audrey School to get the Sabine oral polio vaccine. More than enough volunteer workers were present.
Grand Chenier -- Linda Gay Smith received a surprise birthday party recently given by her mother and grandmother, Mrs. Betty Smith and Mrs. Irvin (Joe) LaBove. Cake and ice cream were served to Tanya and Kathy Baccigalopi, Margarette Richard, Jackie McGhee, Tommy and Kim Fawvor.
Johnson Bayou -- Rita Jo Lenormand, president, presided at the recent Johnson Bayou 4-H meeting. Faye Trahan called the roll and Winston Constance led in the pledges. Exhibits were judged by Miss Patsy Granger, home agent, and Clifford Myers, associate county agent. Winnes were: Winston Constance, purple ribbon; John Hensley, Marilyn Mires, Kathy Hensely, Debbie McComic, Becky Thibodeaux, and Gwen Leger, blue ribbons; Vicky Kay McComic, Debbie McComic, Rose Constance and Gwen Leger, red ribbons, and Debbie McComic, white ribbon.

**EARLY RICE FARMING AT KLONDIKE**
**(By Archie Hollister)**

Mr. Adonis Vincent, who lived at Klondike, once described the methods of rice culture that he knew as a boy. Learning of his father decided to plant an unusually large acreage to rice, since a market for the product was beginning to develop. This must have been around 1890.

Relatives and friends advised against this product, pointing out that he would never be able to harvest such a large amount. He chose to ignore this advice, however, stating that with normal rainfall and reasonably good weather, there should not be much danger of failing; after all, he had a large family of boys, nearly all of them old enough to help out with the work.

As it turned out, his optimism was justified. The growing season was excellent, and during the week of harvest, the weather was ideal. Steadily, day after day, the family worked away at the task until it was completed, and the proud farmer enjoyed the distinction of growing the largest crop of rice ever seen in that area. After all, he had planted over five acres of rice, and saved it all too.

If five acres sounds pitifully small to you, just remember that every stalk of it was cut by hand, the only tool available bing a common sickle.

## CARD OF THANKS

THE FAMILY of Alden "Poncho" Sanner wish to express our grateful appreciation for the kindness that was shown during our time of grief. Due to the fact that some cards were missing from the Catholic Hall, we are unable to be sure everyone has received an acknowledgement card. Thank you for understanding under the circumstances that occured.
The Alden Sanner Family

SPECIAL THANKS to Dr. Sanders, Dr. Carlos Choucino, Staff of South Cameron Hospital, ambulance personnel, Mrs. Rita Thomas, Father Bernard, church choir and John Driscol for their love, kindness, help and support during our father's illness. To everyone who prayed, brought food, money and flowers, also for our friends and relatives who visited and stayed by our side during his illness and our time of sorrow.
God Bless everyone and Thanks.
The Eulie Boudreaux Family

# Boy Scouts sell nutria hides to help Troop

Recently some of the members of Boy Scout Troop 202 of Creole found a unique way to earn money for their Troop and have fun doing so. These Scouts and their dads killed a considerable number of nutria, skinned them, scraped the hides, stretched and dried the hides and sold the fur to a local buyer.

Six Troop members, Kris Johnson, Cody Styron, Jeremy McDaniel, Michael Semien, Neil Boudreaux and Matthew Guidry and their dads brought 65 animals in after a hard morning of hunting.

After severals hours of skinning and stretching the hides, the workers were served sausage gumbo by Kris' mother, Mrs. Susan Johnson.

Several days later the "skinning crew" met with Alvin R. Mudd at the Tom Mudd Fur House and sold their hides. The hides brought the boys $302.50 which they put into the troop fund to cover registration expenses, Boys Life magazine and insurance coverage for the entire Troop for the next 12 months.

Dads, Tony Johnson, Michael Semien, Tommy Boudreaux, Chuck McDaniel and Craig Guillory helped the boys in their endeavor.

# Remember when the Olive was queen of Mermentau?

**(EDITOR'S NOTE--This story was written by Vivian Mayes Smith and appeared in the Jennings Daily News in 1961. Her information on The Olive came from an interview with Olive Sweet McNally, now deceased, who formerly operated a restaurant in Lake Arthur. The Olive for many years operated up and down the Mermentau river between Lake Arthur and Grand Chenier.)**

By VIVIAN M. SMITH
Daily News Columnist

Old riverboats, like old soldiers, never die — they just fade away. That seems to have been the fate of The Olive, a double-decked sternwheeler that plied the Mermentau River for about four decades, from the Village of Mermentau to Grand Chenier on the Gulf of Mexico 90 miles below.

From the time she was commissioned in 1891 until her last excursion run in 1912, The Olive was undisputed queen of the Mermentau. The river was the great artery that brought life-blood to that remote marshy section of Southwest Louisiana and The Olive was the friendly emissary from the outside world for the hundreds of isolated people along its winding route.

No one remembers what prompted Daniel B. Sweet to leave a life of affluence and prominence in Pipestone, Minn., to move to the raw Cajun country of Southwest Louisiana. Perhaps it was the excursion trip he took by "yacht" down the Mississippi from Chicago to New Orleans. Perhaps this taste of river life tantalized him with its gaiety and independence. Perhaps he saw the future awaiting a man who had the courage to tackle frontier country. Perhaps it was the mild winters and long summers that were especially appealing to a Minnesotan.

At any rate, Daniel Sweet, with no experience at shipbuilding, built a 90-gross-ton vessel himself, choosing out of the swamp every piece of the heart cypress that went into its sturdy body. He named her The Olive after his mother and his blonde, blue-eyed daughter.

Now that daughter is Mrs. McNally and after 38 years spent in California, she has returned to live in Lake Arthur. Many records and memorabilia of The Olive are in Olive Sweet McNally's possession.

The Olive made two trips to Grand Chenier each week. She carried every conceivable kind of freight — cattle (as many as 90 head at a time), lumber, foodstuff and hardware, the mail, most of which was disgorged from the Southern Pacific Railway at the Village of Mermentau to complete its journey by water.

But The Olive really came into her own in summer. Then she was converted into an excursion boat that would accommodate 100 persons on a three-day excursion. The excursion to Grand Chenier on The Olive was comparable to a trip to Acapulco today. Nothing was spared to make the occasion a memorable one. As the boat slipped slowly between the moss-hung trees that lined the river a string band played night and day. Sumptuous meals were served.

Strangers, under the spell of the gaiety, became bosom friends before the first turn of the river was reached. Men and boys standing on deck shot at alligators in the marsh and at snakes and turtles sunning themselves on logs. Women, in six petticoats and dresses that swept the deck, chattered gaily, unmindful of the heat, or watched nervously as the small fry teetered close to the boat's railing. After the day-long trip, The Olive docked at Grand Chenier. Some of the excursioners slept on the boat, which had 22 staterooms, and some in summer cabins on the sandy beach.

The next day was spent in swimming and fishing in the Gulf. Evening brought the vacationers back to boat and camp, nursing sore muscles and sunburn yet eager for the evening's fun aboard ship.

The homeward trip occupied the third day. Spirits were at a noticeable ebb but the band played on and the holiday atmosphere prevailed.

Of the Olive's crew, only one man is living. He is Pierre Legros, 86-years-old, whose memories are of quite another kind. He worked as a fireman and later as an engineer on The Olive and was on the last run The Olive made as an excursion boat.

Legros considered himself well paid at $25 a month and keep, and he always had money in the bank. He now lives in Jennings where he tends his yard and works a small garden.

The merry twinkle never leaves Legros' eyes as he talks of the days on The Olive but he admits that the trip was not always a picnic. "On one occasion," he says, "we battled a storm on Grand Lake for two days and nights. Three anchors were cast overboard. The cookstove overturned and there was much disarray and confusion but no lives or cargo were lost.

Now, after all these years, Olive Sweet, symbol of a way of life that is gone forever, literally is back on the Mermentau. She owns a seafood restaurant which stands out over the waters of Lake Arthur with its stilted feet in the mud. Approaching it you hear the slap of small waves; you see little pleasure boats bob up and down; shrimp boats are tied up at the wharf for the night. You can almost believe The Olive will be coming around the bend, so little has the scene changed with the years.

No two persons agree as to The Olive's final fate. She was condemned for passenger use in 1912, stripped of her superstructure, and served for many years as a barge. Old timers who recognized The Olive as she toiled along the Mermentau in such an unglamorous way felt a tug of sadness in their hearts.

Some say The Olive finally burned. Some say she was sold to a Texas firm and worked along the Trinity River. Others say that her hull even now lies rotting somewhere along the Mermentau River, abandoned when wood gave way to steel.

Perhaps it is fitting that The Olive just faded away. Hard cold facts might dim the luster which surrounds her memory.

**Witness for the Defense**

Many people, even in 1986, remember The Olive and the glamour that surrounded her. What is not so well-known is that its deep-throated whistle bore the voice of authority, even extending into the august halls of the Supreme Court of the State of Louisiana in admissible testimony.

It happened this way: Helen LeBlanc was a gay-spirited girl of 16 living with her parents in the area of Bayou Queue de Tortue, a tributary of the Mermentau River. She started "going in society" at the age of 12 and at 16 she was having suitors. Like most riverfolk, she bathed in the river, although she could not swim, and was accustomed to traveling along its banks and bayous in a wide-bottomed skiff.

On the Fourth of July, 1898, Helen and three other young ladies went downriver in an 18-foot skiff to Lake Arthur to take part in the celebration which was the highlight of the year. As evening came on, a rainstorm arose and the girls accepted the invitation of a friend to go aboard The Olive for the homeward trip with their skiff tied alongside the steamer.

One hundred gay vacationers were aboard The Olive that evening, returning from a holiday at Grand Chenier or a day of celebration at Lake Arthur. To the "young, inexperienced and untraveled" Helen, who had never been aboard The Olive before, this must have been the most exciting day of her life.

But only a few miles up-river, while alighting from The Olive, Helen fell into the water and drowned.

From this unhappy event, a lawsuit was instituted by the girl's parents claiming negligence on the part of The Olive's captain and crew and demanding damages in the amount of $13,050.

As can be imagined, testimony differed.

Helen's father pointed out his great loss of help around the home and farm. "She helped with harrowing and standing rice in shocks; she helped float logs in the swamp; she washed, scrubbed, weaved, spun, carded, and did everything," according to her father's testimony; and it was estimated by his attorney that he suffered the loss of $15 a month in labor for a period of five years to come when, presumably she might marry and leave home.

Testimony further pointed out that Helen's father furnished two beeves, one hog, syrup, and 1½ barrels of flour to make bread to feed the men who conducted the three-day search for Helen's body, all of which cost in the neighborhood of $100.

No one denied the sadness and unbearable loss of this capable, vivacious young girl's life.

But the essence of the case hung on whether Helen or the crew of The Olive were actually to blame for the drowning.

The plaintiff maintained that The Olive merely slowed down as she approached the mouth of Bayou Queue de Tortue, that the skiff was untied, and the party compelled to leave The Olive preparatory to rowing themselves ashore.

The defense averred that the steamer's chief officer, Captain Henry Sweet, had given orders to land; that The Olive was being brought around to make a landing at the mouth of the bayou; that before this could be done the skiff was untied, the members of the party jumped in, capsizing the boat and throwing them all in the river. Helen never came to the surface.

With such diverse testimony before the court and with the contradictions even among eye witnesses as the cross-questioning droned on and on, one voice became increasingly clear and admissible — The Olive's.

Back again and again went the lawyers for each side, questioning the certainty that The Olive really intended to make a landing. And here stood the incontrovertible fact — that three blasts of the boat's whistle was the universally known fact that The Olive was preparing for a landing.

Captain Sweet and his crew testified that three blasts of the whistle had been blown that evening of the Fourth of July — and no one was able to deny or prove otherwise.

"Three blows for a landing, that is the rules," testified Louis H. Michon, pilot of the Olive. "We do not blow for a stop in the middle of a lake, to a standstill, and we give one bell — no blow of the whistle."

And so it spoke — The Olive's voice, understood by river folk and steamboat crew alike — stopping bell, slow bell, backing bell, each with its own message. But most important of all were three shrill blasts from the smokestack which alerted one and all that the ship was preparing to make a landing.

In May 1899 in the Eleventh Judicial District Court in Acadia Parish, The Olive won the case. Later, before Chief Justice Francis T. Nicholls of the Supreme Court of Louisiana, the plaintiff was awarded $2500 and "all other demands rejected."

The voice of The Olive was never questioned in testimony as a pertinent witness.

**STARK CANAL**

The Cameron Parish School Board met in special session Wednesday, mach 13, and granted Mr. Stark, of the Orange-Cameron Land Co., a right-of-way across one of their school sections in the neighborhood of Johnson Bayou, for the purpose of building a dam and digging a canal to further the progress of his rat farm.

Several years ago, Mr. Starks came before the Cameron Parish School Board for this purpose, but as matters of law had to be attended to, he could not carry out his plan until Wednesday. The school board granted Mr. Stark the right-of-way for a cash consideration of $750.

Mr. Starks, a resident of Orange, Tex., and an owner of much land in Cameron Parish, has for some years been interested in the raising of muskrats on his lands in the Cameron marshes. The improvement which he has made on these lands is very noticeable. He has a network of canals and dams all through his holdings, and the rats are taken care of in the best known ways. The canal right-of-way, which he was recently granted, will enable him to connect his lands with a canal by cutting across the school lands.

The school board and Mr. Starks enjoyed a special dinner at the Gauthier Hotel in Cameron. The dinner was ordered by Mr. Stark for the board.

**TOP PLAYER IN STATE**

Hackberry High School's amazing Kenny Drost, who has won every Class B basketball honor possible to date, racked up the big one this past week: the Louisiana Sports Writers Association named him the outstanding Class B player in the state and also named him to the all-state team.

Drost, who was also named the outstanding player in Southwest Louisiana -- in any class, led the Hackberry Mustangs to the state semifinals where they lost to Colfax. He scored 26 points in that effort, a shade below the 28.8 average he carried into the state tournament.

During the regular season, Drost hit on 51.8 percent of his shots from the field and grabbed a good share of them, which didn't go in, averaging 13.3 rebounds. He scored 43 points and took 21 rebounds when Hackberry beat Triple-A Baton Rouge High in the LaGrange Tourney.

**DOG ORDINANCE TO BE ENFORCED**

An ordinance providing for the vaccination of dogs for rabies adopted by the Cameron Parish Police Jury last June will be strictly enforced in the future, particularly in the town of Cameron, Sheriff O. B. Carter announced this week.

Sheriff Carter said a serious problem of stray dogs roaming around the Cameron elementary school has developed and that he and his deputies intend to correct it by starting to pick up dogs not wearing vaccination tags.

**ROAD BUILDING YEARS AGO**
**By Archie Hollister**

The methods employed in road-building fifty years ago were radically different from those in use today.

The road bed was first plowed several times, using the ordinary plow that a farmer might have on hand. When the ground had been suitably pulverized by plowing and harrowing, some semblance of a curved surface could be achieved by dragging a heavy timber over the loose soil. Large clods of dirt, lyingalong the edges, were picked up by hand and thrown into place. Hoes, spades and rakes were used to give the finishing touches.

Oxen were commonly used for heavy plowing in those days, although horses were employed ot a large extent also.

Building a road was a community project. Every able-bodied man was expected to turn out and give a hand, furnish a plow, or a team, or engage in some other essential activity.

**4-H WEEK**

The South Cameron Junior 4-H Club celebrated National 4-H Week this week with a display of articles made by the members. The club meeting was opened by Sandra Miller with the pledge to the flag. The 4-H pledge was led by Anna Louise Guillory.

Entertainment was furnished by Connie Domingue and Lynda Nunez who told jokes. Several band selections were played by Phyllis Savoie, Kay Savoie, Cherie Kay Griffith and Gwen Roberts.

Miss Patsy Granger and Clifford Meyers were in charge of the project judging and announcing of winners. Purple ribbons and a gold pen and pencil set were awarded to Phyllis Savoie and Cherie Kay Griffith. Those receiving blue ribbons were: Sandra Miller, Sheila Boudreaux, Geraldine Savoie, Cherie Kay Griffith, Anna Louise Guillory, Judy Marie Nunez and Anna Guillory. A red ribbon went to Mona Sue Miller.

**ROUNDABOUT THE PARISH**

Black News -- At last Thursday's 4-H Club exhibition day at Audrey Memorial School the following were given first place: Seniors -- Joyce January, Gloria Jean Godette, Mary Ellen Godette, Mary Ruth Andrews, Larry January; Juniors -- Mary Jane January, Theresa Washington, Kathy LaSalle, Laura Mae January, Gilda Bargeman, Annie Harmon, Harriet Washington, Gredia LaSalle, Cheryl LaSalle, Chester Senegal, James Harmon, Arceneaux January. Second place winners were: Delilah Godette, Linda Sue Moore, Evon January, Pamela Sue January, Emily Jewel Bishop, Herbert Jordan, Joseph Earl Frank.

Grand Lake-Sweet Lake -- It's a good feeling to see how over a period of just a week the earth can change from a blanket of brown to a lively, colorful coat of nature's best effort. A day of beautiful, sunny weather with the countryside covered with greenery opened into a perfect St. Patrick's Day Sunday. This fine weather has influenced several rice farmers to begin planting earlier this spring.

Up and Down the Creole Ridges -- Without doubt, the complete and sudden disruption of electrical service to the entire lower Cameron Parish area Sunday morning started one of the biggest chain reactions of the year amongst the population. Phone circuits were kept busy as calls were made from community to community, trying to learn the reason for the abrupt power failure. A large derrick atop a drilling barge tangled with the high wires above the Gibbstown Bridge. However, the Jeff Davis Coop repair crews quickly went to work and just four hours later had power restored. Our biggest orchid of the month goes to these repairmen for the fine work done.

Johnson Bayou -- All the gardens are being prepared due to the fine spring weather we have had. Most of the potatoes are planted. At the rate it is going on the Bayou, there are going to be a few watermelon patches.

Grand Chenier -- This past week of spring brought out the peach and pear blooms. The most attractive are those of Joseph Kershaw, retired Chenier farmer who, after Hurricane Audrey, planted an orchard of 80 peach trees.

**(Cameron Pilot, Feb. 28, 1963)**
**CAMERON FIFTH IN U. S. FISHING**

Cameron ranked as the fifth fishing port in the nation during 1962 in terms of volume of landings of fish and shellfish, according to the Bureau of Commercial Fisheries.

A total of 250 million pounds of fish and shell fish were landed in Cameron last year, according to the report. The bulk of these landings was menhaden fish with shrimp also making up a major part of the catch.

**4-H CLUB EXHIBITORS**

Cameron Parish 4-H livestock exhibitors had one of their most successful years incompmetition at the district livestock who at Lake Charles last weekend.

Eight Cameron exhibitors qualified for state competition at LSU next week, twice the number who have qualified in past years, according to Clifford Myers, associate county agent.

The eight are Carol and Alma Johnson of Sweet Lake; James, Cynthia and Catherine Lowery, Gwen Sanner, Ernest Hamilton and Jimmy Duhon, all of Hackberry.

Other exhibitors were Michael Duhon, Grand Lake; Leslie Griffith of Oak Grove; Ernest Hamilton, Clarence and Robert Silver of Hackberry; and Gwendolyn Sanner of Hackberry; Charles Greathouse of Sweet Lake.

**FARE INCREASES**

The Cameron Bus Line has requested an approximate overall increase of 10 percent in bus fares. Hearings on the increase will be held at the Louisiana Public Service Commission at a later date.

Louis Mallet is owner of the bus line.

**ALLIGATOR SEASON CLOSED**

The alligator season for all of Cameron Parish is again closed this year, according to the Louisiana Wildlife and Fisheries Commission.

Cameron officials asked that the season be closed last year and again this year because of a restocking program.

The legal alligator season elsewhere in the state will be from April 15 through July in the southern part of the state. A legal alligator is one that measures not less than five feet in length.

**SLOW WEEK**

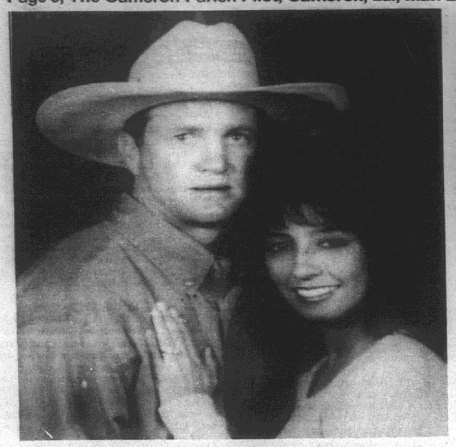
Things were slow in the way of accidents and crimes around the parish this past week, according to the Sheriff's daily log, which showed that several oyster boats were turned over by the norther that hit Calcasieu Lake Thursday; that one man was arrested for DWI; and that a motorist was sent to the hospital after his car slid into a telephone pole.

**ROUNDBOUT THE PARISH**

Sweet Lake-Grand Lake -- Mrs. Pierre Gary, who makes her home with her son and family, the Ferdinand (Black) Garys in Sweet Lake, celebrated her 90th birthday Sunday. Mrs. Gary often talks about the early days, of the many good times young people had, despite the lack of conveniences such as we enjoy in this modern age.

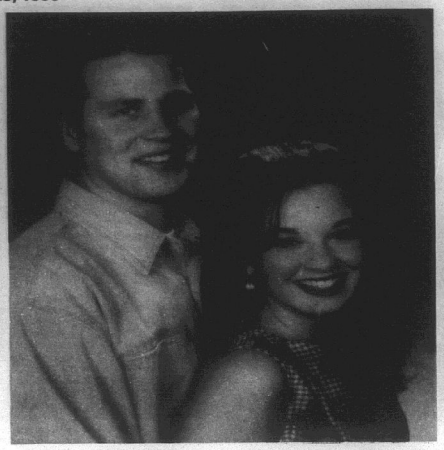
"On a Saturday night off to the dance we would go", she exclaimed with the wave of a hand, "and oxen would get us there," she added laughingly. (The oxen names were Chaton and Rougeau.)

Oak Grove -- Those of this area enjoying the rodeo were Mr. and Mrs. Leland Crochet and family, Roberta Conner, Beverly Sue and Leland Rutherford, Cherrie Kay and Leslie Griffith.



Routh 1, Cameron -- Mr. and Mrs. Dick McClelland, Mrs. Bell Peshoff and Mrs. Wilson Mhire visited Mr. and Mrs. Buster Henry in Lake Charles Friday.

Hackberry -- The residents of Hackberry are proud of the opening of a new business establishment. The Dairy King is housed in the Sheffield building and serves sandwiches as well as ice milk products.



Cameron -- Camp Fire -- Jerry Jones, Candy Chairman of the camp Fire Organization, reported at the Board of Directors meeting at Fred's Feb. 21, that the candy sale was a success, with the group of girls selling 600 boxes of chocolates in this area. Mrs. Bob Tanner and Mr. Jones, who were in charge of the tree project, reported a distribution of 800 Cypress and Oak seedlings in the Cameron area.

**LIONS CLUB ERECTS SIGN**

Two new signs were erected by the Cameron Lions Club recently on the state highway on the east and west sides of the town of Cameron. The project was proposed by Club President Clarence Guilbeau and boasts Cameron as "Louisiana's Fishing Paradise."

MRS. LILLIAN C. Almendarez and Roland Almendarez of San Antonio, Tex., announce the engagement and forthcoming marriage of their daughter, Christine Almendarez to Kurt Randall Storm, son of Mr. and Mrs. Billy Storm of Johnson Bayou. The wedding is set for Sat., May 4, at Assumption Catholic Church in Johnson Bayou at 2 p.m. Through this means, friends and relatives are invited to attend.

MR. AND Mrs. Arnold J. Granger of Lake Jackson, Tex., announce the engagement and forthcoming marriage of their daughter, Allison Lara Granger to Todd David Gibson, son of Mrs. Galene Perk of Lake Jackson and Donald Gibson of Wichita Falls, Tex. The wedding is set for Sat., May 11, at 7 p.m. in Lake Jackson. Allison is the granddaughter of Mr. and Mrs. Levell Corry of Moss Bluff and Mrs. Ada Granger of Grand Lake and the great-granddaughter of Mrs. Luna Corry of Orange, Tex.

## Birth is announced

CHELSEA BROOKE JONES

Walter W. Jones and Mary Shook of Cameron announce the birth of their first child, Chelsea Brooke, March 19, 1996 at St. Patrick's hospital in Lake Charles. She weighed 8 lbs. 11 ozs.

Grandparents are Lawrence and Allie Carter of Creole, Ernest and Cheryl Daigle of Cameron and Gerald Shook of Stillwater.

Great-grandparents include Evelena Jones of Creole and Walter Heath of Flushing, N. Y.

# Police Jury addresses a number of topics at meeting

By GENEVA GRIFFITH

Kristi Jo Dupuie was presented a certificate of appreciation from the Cameron Parish Police Jury Tuesday at their monthly meeting for representing the parish and the state during "National Beef Month".

She was named "Louisiana Cattleman Queen" at the annual convention and has been traveling around Louisiana promoting the beef industry.

Kristi Jo is the daughter of Mr. and Mrs. D. A. Dupuie of Grand Chenier and is a senior at South Cameron High School.

Louise Cole appeared before the Jury requesting the Police Jury to donate their proposed raise to obtain insurance on the playground in the Black Peshoff subdivision, where the area children play bsketball. She also requested that a fence be erected around the area.

The Jurors sais they had not voted a raise for themselves and Brent Nunez stated that she probably had reference to something in the paper lately to give raises to state officials. Therefore, this did not concern the local Jury.

The Jury decided to turn the matter of the fence over to the recreation board to make a decision on what is to be done. It was pointed out that every time equipment was put up it was torn down in a week's time. The group attending in support of the request stated that the play area would be supervised if a fence with a lock was erected.

Robert Shock, a representative of Telemedia, who has a franchise to furnish cablevision to the parish, reported to the Jury that it has entered into a partnership with Time-Warner and two other communications companies to sell 60% of Telemedia, and asked the Police Jury to sign their franchise over to the partnership. The franchise expired in 1998, with an option for another 15 years.

Shock was asked about complaints that local residents had trouble reaching the cable company if they had service problems since they had to use an answering service.

Shock answered that the local office was manned part-time with someone in it three days a week. District Attorney Glenn Alexander said the agreement with the Police Jury states that an office be maintained in the parish so people with complaints could address a person instead of a machine or answering service.

# Calcasieu Marine to merge with Hibernia

Hibernia Corporation and CM Bank Holding Company, parent of Calcasieu Marine National Bank, have jointly announced they have signed a definitive agreement to merge.

The announcement was made at a press conference in Lake Charles by Hibernia president and CEO Stephen A. Hansel and CM Bank Holding Company chairman William B. Lawton.

"This alliance is strategically significant," Hansel said. "Calcasieu Marine National Bank is the largest independent banking organization in Louisiana, and it holds the leading share in a market where Hibernia has been absent since 1992."

Under the terms of the agreement, Hiberia would purchase all of the outstanding stock of CM Bank Holding Company for approximately $201.7 million.

The merger is subject to approvals by regulators and CM Bank Holding Company shareholders and should be completed during the fourth quarter.

Founded in 1934, Calcasieu Marine has approximately $774 million in assets and 21 banking locations in four parishes: Calcasieu, Jefferson Davis, Allen and Cameron. It ranks either first or second in all four parishes, and its market share is 34% in the combined area.

Calcasieu Marine operates seven offices in Lake Charles, two in Sulphur and one each in Jennings, Oakdale, Vinton, DeQuincy, Welsh, Lake Arthur, Kinder, Elton, Oberlin, Cameron, Iowa and Westlake. It has 21 automated teller machines (ATMs).

"Calcasieu Marine's distribution network and deposit base make it the finest single banking franchise I have partnered with in 26 years in banking," Hansel said.

Hibernia operated a full-service office in Lake Charles from February 1991 to April 1992.

"We're pleased to re-enter the Lake Charles market in partnership with the area's strongest and most-respected financial institution," Hansel added. "With this transaction, we will create a presence all along the state's Interstate 10 corridor. Combined with 166 other locations in Louisiana's major markets, it will further establish us as 'Louisiana's bank', a goal we set in 1993."

In keeping with Hibernia's commitment to provide responsive, hometown banking service, local management will make decisions that affect customers in the Lake Charles area.

"No one knows the Lake Charles region better than the folks at Calcasieu Marine," said Hansel. "They've delivered excellent customer service and products, supported the community and helped the region grow. As in every other market we serve, we'll put decision-making authority and responsibility into the hands of the people who live and work in Lake Charles and surrounding communities."

"Calcasieu Marine's success over the years has been built on a foundation of outstanding service to consumers and businesses in southwest Louisiana," said Lawton. "Our customers will like Hibernia's dedication to service and its commitment to one-stop banking. And the areas we serve will like Hibernia's tradition of community involvement.

Following the merger, A. Hartie Spence, president of Calcasieu Marine, will serve as Hibernia's Lake Charles regional president.

Calcasieu Marine customers should continue using their checks, making loan payments and conducting other transactions as usual. Only after the bank converts to Hibernia's operating systems would checks, signs and forms change.

With the completion of the merger, Hibernia would have approximately $8.5 billion in assets and 187 banking locations serving 29 parishes and 78 cities, representing approximately 88% of the state's population and deposits. It would be either first, second or third in deposit market share in 24 of these parishes, and its statewide market share would be more than 17%.

Hibernia's common stock (HIB) is listed on the New York Stock Exchange.

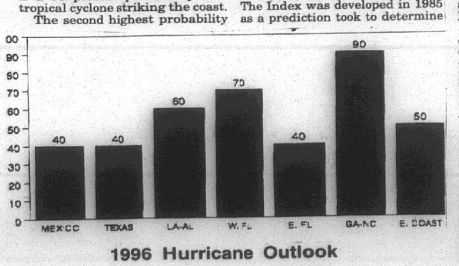
# Hurricane season should be less severe this year

Unlike last year, the upcoming hurricane season should be less active, that according to Houston-based Weather Research Center. Research meteorologists Jill F. Hasling and Dr. John C. Freeman indicate that the 1996 North Atlantic Hurricane Outlook calls for ten named tropical cyclones in the Atlantic Basin, with at least five strengthening into hurricanes. Last year, there were 19 named storms, 11 hurricanes.

In addition, the section of the United States Coast which has the highest risk of experiencing a tropical storm or hurricane is the east coast from Georgie to North Carolina where researchers say there is a 90 percent probability of a tropical cyclone striking the coast.

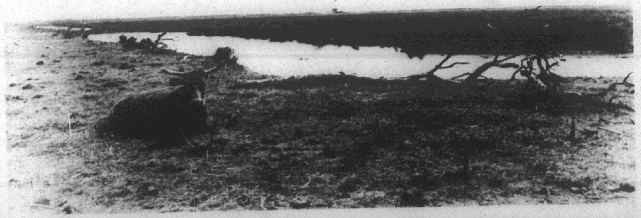
The second highest probability of landfalling storms is the west coast of Florida which has a 70 percent chance of experiencing a storm.

Rounding out the Gulf Coast, Texas has a 40 percent chance probabiity while the coast line from Louisiana to Alabama has a 60 percent chance. In the Gulf of Mexico, there is a 90 percent chance of a storm to occur.



However, each year every section of the United States coast has a chance of experiencing a storm and residents who live along the coast are reminded to be prepared regardless of what predictions may indicate. The outlook issued by the Center is based on the Orbital Cyclone Strike Index (OCSI). The Index was developed in 1985 as a prediction took to determine which partof the United States coast line has the highest risk of experiencing a storm.

The Center has been making predictions using this index since 1986. During the past ten years, there have been only two years, 1987 and 992, when the cyclones did not strike in the areas with the highest probability, but rather struck in the sections of the second highest probability.



Last year's outlook indicated the west coast of Florida had a 70 percent chance of experiencing a tropical cyclone. This was verified with the visits of Hurricanes Allison, Erin and Opal. Texas also had the second highest risk with a 70 percent probability and was answered with Tropical Storm Dean.

The names for the 1996 hurricane season are: Arthur, Bertha, Cesar, Dolly, Edouard, Fran, Gustav, Hortense, Isidore, Josephine, Kyle, Lili, Marco, Nana, Omar, Paloma, Rene, Sally, Teddy, Vicky and Wilfred.

The Weather Research Center is a non-profit research and educational organization. In addition to its research and forecasting work, the Center is also involved with the develoment of the Weather Museum and Education Center. This facility will be open to the public, especially those who have a distinct interest in the weather. Please call the Center for information about membership.

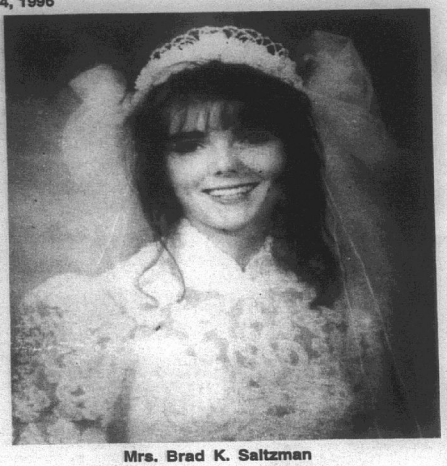
# Richard Cousins to meet in July in No. Dakota

The Richard cousins throughout North America are continuing a growing tradition this summer by staging the Third Annual International Richard Reunion.



Site of this year's event will be the home of the first chapter of Des Richard De Partout Inc. in Fargo, N.D. Chapters also are forming in New Brunswick, Quebec and Massachusetts.

The July 5-7, reunion will attract Richard family members from Louisiana, Texas, Mississippi, Arkansas, Tennessee, Alabama, Florida, Illinois, California, Washington, North Dakota, South Dakota, France, Nova Scotia, New Brunswich and Quebec, Canada.

The North Dakota reunion during this summer's Fourth of July weekend will build on success of previous gatherings held in Nova Scotia, Canada, and Lafayette.

Richard family members interested in attending must return registration information by the May 1 deadline.

Registration packets, complete with an itinerary of events, may be obtained by writing Des Richard De Partout Inc., P.O. Box 929, Amelia, La. 70340, or by calling (504) 631-3185.

Mrs. Brad K. Saltzman

# Saltzman, VanSlyke vows said in Hackberry

Stacy Diane VanSlyke and Brad Kendall Saltzman were married March 30, at 4 p.m. in the residence of Joe and Kathy Devall in Hackberry. Rev. David Gunter officiated at the double-ring garden wedding.

Parents of the couple are O. J. and Diane Menard of Sulphur and Nolton and Margaret Saltzman of Cameron.

Maid of honor was Melisa VanSlyke and bridesmaids included Brandi Viator, Julie Ware, Melissa Saltzman and Teri Brame. Flower girl was Brittany Clark.

Best man was Darren Miller and groomsmen were Darren Miller, Marty Daigle, Brent Saltzman, Robbie LaFosse and Robert LaRoue. Ring bearer was Justin Saltzman.

The bride, a graduate of Sulphur High School, attends McNeese State University and is an employee of G. Michael Canady Law Office.

The groom, a graduate of South Cameron High School, also attends McNeese and is an employee of the Cameron Parish Sheriff's Office.

Following a wedding trip to Orlando, Fla., the couple is at home in Grand Lake.

## COMMUNICATIONS

Cont. from pg. 1

Shock also stated that there was a possibility that the rates would be lowered and more stations added, since the Time-Warner group was one of the largest in the nation and had access to more stations.

The following proclamations were approved by the Jury: "Child Abuse Prevention Month", "Fair Housing Month", and "Community Development Block Grant Week".

Carla Macantel and Rena Trahan appeared before the Jury with complaints about the Little Chenier road.

Mrs. Trahan said that the road has been built up and widened, but she was very unhappy that limestone has been dumped on the road, which has caused many hazards, such as causing flat tires, broken windshields, and people loosing control of their vehicles on the narrow road with the loose gravel.

Douaine Conner, the Juror in the area, explained to the ladies that he would make work orders for clam shell only on their road. However, clam shell is getting very had to get, and will probably be harder to obtain in the future.

Dinah Landry gave the Police Jury updates on grants that have been applied for, and suggested to the Jury that they use a point system when applying for grants so the ones that have the highest points be considered over the others.

The Jury agreed that this idea would be followed and that grant requests should be considered on a parish, rather than community, basis.

George LeBoeuf, Cameron Juror, reminded the Jury about his community Trash Bash which is to be held April 20, with everyone to meet at the Cameron Fire Station at 8 a.m., and everyone invited to participate.

The event is sponsored by the Cameron Lions Club and the local Chamber of Commerce.

It was agreed that the Jury would contact the leaders of the annual beach clean-up to form a joint effort with the litter and beach cleanup for the same day.

### SPRING ARRIVES

This is the time of the year the calendar says it's spring, but Old Man Winter is dead set against it. These cold fronts keep coming all the way down south, bringing very little rain to our area, not helping our marshes, which are very low.

Events that take place at this time of the year are very important to our outdoor folks. As you read this frog season is closed for two months, April and May, and will not reopen until June 1. This is mating season.

Frogging is a favorite Louisiana pastime fo rfun and also for profit. Frog legs are one of the healthiest game foods we have. There are only 73 calories for four frog legs and only .3 grams of fat. They are high in protein, even higher than chicken. Take bass for example: 104 calories, 2.6 fat grams and 18.8 protein for 3.5 ounces. Catfish- 103 calories, 3.1 fat grams, and 17.6 proteins. Even as low a white perch with 79 calories, .8 grams of fat, and 16.8 proteins, frog legs with large portions have less calories and fats.

It's also the time of the year when the alligators are out sunning and hungry. It's also their time of the year for breeding and a prime time for problems with the alligator. They're feeling active now and begin moving.

The drought we're in can make the alligator move to find new water sources. We really don't hear too much on alligators attacking people in Louisiana as we hear about the attacks in Florida, but the potential is there.

I know we fish right along side the gators, but try to keep your distance and always treat them with respect.

### FISHING NEWS

Barring the weather conditions, Toledo Bend has been fairly good on bass fishing. Many anglers are using a Carolina rigged lizard, which is good during spawning season. They are fishing it slow. Shallow water is the warmest, so 4 to 8 feet is a pretty good choice, with deep water nearby.

Our area refuges and Big Burn are still producing nice bass. An 11 pounder was hauled in at Lacassine Refuge last week. Also, an 8 pounder and a 7 pounder reported.

The Big Burn had a couple bass over 6 lbs. caught last week and white perch is fairly good in all the areas.

A few redfish are being taken in Rockefeller Refuge and along the Grand Chenier inland waters. The Big Lake area is producing redfish on the east bank and the south end of Grand Bayou. You just got to find good water. I think when these cold fronts stop, we'll have a great season.

### NEWS TALK

According to the La. Dept. of Wildlife and Fisheries Marine biologists, our southern flounder population is in trouble. Act 1316 of the 1996 La. Legislature says if the spawning potential ratio is below 30 percent, the department shall close the season for a period of one year to all commercial harvest.

The commercial harvest of southern flounder will close May 1, 1996 in Lousiana waters and will remain closed until May 1, 1997. That includes sale, barter or exchange and no vessel with commercial gear, including trawls, strikenets may have flounder aboard in La. waters. Now, some recreational fishermen purchased commercial licenses and use commercial gear to trawl for shrimp, this also applies to them and their boats. Recreational fishing and using recreational rod and reel only.

Biologists determined that the SPR is probably between 16 and 44 percent, which the lowest is way below 30 percent.

Secretary Jenkins determined that a limited closure on the commercial harvest of flounder using pompom strike nets would be ineffective and unenforceable, so in the best interest of the state, the commercial season on southern flounder will be closed completely.

# Parish Jr. Leader club

By TRISHA SILVER

The Cameron Parish Junior Leader Club met March 13, at the Johnson Bayou Fire Station. Members discussed plans for a fund raiser during the Easter holidays. The club will sell spaghetti dinners Tuesday, April 2. The dinner will be $5 each and can be purchased from any Parish Jr. Leader Club member.

Plans were made for members and mothers to get together Mon., April 1, at Cameron Elementary at 2:30 p.m. to prepare food. Tickets were passed out to each member to start selling. The meals will be delivered by members throughout the parish.

Plans were made for club members to do a day of Community Service at Abaraham's Tent Thurs., April 4. All were encouraged to attend.

A committee report was given by Trisha Silver on the Parish 4-H projects workshop held in Grand Lake Mar. 2. The workshop was held in order to help the younger members especially with their project and record books. Twenty-four club members attended.

Cheri Gray led the discussion of the summer club trip. The group will have to choose between the three cities of New Orleans, Galveston and Branson, Mo. The club will make further plans at the next meeting.

Mr. Mike, agent, told the group of plans being made for Achievement Day which will be held at South Cameron High School Mary 4.

# Wildlife Refuge is part of Watershed Project

Cameron Prairie National Wildlife Refuge, East Cove Unit (14, 297 acres) is part of the Cameron Creole Watershed Project (CCWP, 64,000 acres) located along the east shore of Calcasieu Lake. Refuge Manager Paul Yakupzack announced that a planned drawdown was recently implemented as part of the CCWP management plan.

It is necessary to close the Grand Bayou Boat Bay and the East Cove Unit during the drawdown. The reason for the drawdown is to curtail marsh erosion and to reclaim some of the emergent marshes that have been converted to open water ponds. This is accomplished by lowering water levels to at least 6 inches below normal marsh elevation.

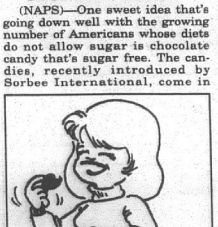
This is the first time since the CCWP became fully operational in 1989 that a period of prolonged drought has been sustained. Low rainfall and successive dry frontal passages have allowed the lowering of water levels in the CCWP. Water levels on the CCWP are very low at this time.

A Louisiana Department of Wildlife and Fisheries Biologist recently surveyed the entire Louisiana Coast by airplane. He reported that water levels in all of the coastal marshes are extremely low. Therefore, without the water control structur being closed the CCWP would probably be dry and/or flooded with very high salinity water.

Salinity levels in Calcasieu Lake have increased to 20 parts per thousand (sea strength is 35 parts per thousand). Optimum salinity levels in the CCQWP are less than 12 parts per thousand close to the lake and less than 5 parts per thousand back in the marsh. Extreme low tides have also been observed in the entire Calcasieu Estuary (estuary is an area where saltwater mixes with freshwater).

Yakupzack also indicated, with the continued cooperation of the weather, a very successful drawdown will be accomplished. The gates will remain closed until drawdown completion or heavy rains require the gates be opened to reduce water levels.

Questions regarding the effects of the planned drawdown on estuarine fisheries have recently been asked. To reduce the negative effects on fisheries the water control structures on the CCWP were designed with 3 vertical slots that are open and will remain open to allow access for estuarine fisheries into the marsh.



"Initial short term temporary effects of the drawdown may be to stop public access and reduce overall fisheries productionon CCWP", the manager aid. Hwoever, the long term benefits far outweight the short term effects. The drawdown will help establish vegetative growth in areas void of vegetation for years, dry and stabilize banks to reduce erosion, and ultimately help produce a healthy, vigorous marsh.

The public should be aware that when the Grand Bayou Boat Bay is closed the East Cove Unit is closed to all public use, this includes fishing. The "Closed Areas" around Grand & Lambert Bayou are closed to entry and fishing. Boaters in Calcasieu Lake are restricted from entering the areas between the "Closed Area" signs and the water control structures.

You may obtain a free permit which contains all refuge regulations by calling 318/598-2216 or by writing: Cameron Prairie NWR, 1428 Hwy. 27, Bell City, La. 70630.

### *Sweet Idea: Sugar-Free Chocolates*

(NAPS)—One sweet idea that's going down well with the growing number of Americans whose diets do not allow sugar is chocolate candy that's sugar free. The candies, recently introduced by Sorbee International, come in three varieties—Chocolaty Coated Peanut Butter, Chocolaty Coated Cocoa Cremes and Peppermint Patties. All are reported to taste just like their sugar counterparts.

Up in popularity and going down well with consumers is a new sugarless chocolate snack.

All in all, a tasty idea that may go down well for parties or just for snacking anytime. Happily, these candies are available in most local chain stores including Wal-Mart.

Dear Local Merchant,
*Number 2 Reason* why you should increase your advertising. . .
2. Maybe you figure other retailers in your line are going to cut back their advertising, so it's safe for you, too. Right? Wrong! You're in competition for the consumer's dollar with every other retailer in town, no matter what he sells. People have only so many dollars to spend and if they don't spend them for what you sell, they'll spend them for something else.

PUBLIC NOTICE
Declaration of Emergency
Department of Wildlife and Fisheries
Louisiana Wildlife and Fisheries Commission

In accordance with the emergency provisions of R.S. 49:953(B), the Administrative Procedure Act. R.S. 49:967 which allows the Department of Wildlife and Fisheries and the Wildlife and Fisheries Commission to use emergency procedure, set finfish regulations and R.S. 56:325.4 which provides that the Secretary of the Department must declare a closed season when it is determined that the spawning potential ratio of southern flounder (Paralichthys lethostigma) is below 30%, and R.S. 56.317, which allows the Secretary to close a fishing season or restrict fishing in the closed season in any manner deemed advisable, upon securing evidence that the fish in state waters have been depleted through overfishing or that fishing is detrimental to the interest of the State; the Secretary of the Department of Wildlife and Fisheries hereby finds that imminent peril to the public welfare exists and accordingly adopts the following emergency rule.

Effective 12:01 a.m., May 1, 1996 the commercial harvest of southern flounder (Paralichthys leghostigma) in Louisiana waters will close and remain closed until 12:01 a.m. May 1, 1997.

Effective with the closure, no vessel possessing any commercial fishing gear including, but not limited to, any gamepen nr strike net, shall have southern flounder (Paralichthys lethostigma) aboard the vessel, whether caught within or without the territorial waters of the state.

Effective with the closure, the sale, barter, or exchange of, and the commercial possession of, southern flounder (Paralichthys lethostigma) shall be prohibited.

Act 1316 of the 1995 Louisiana Regular Legislative Session, the Louisiana Marine Resources Conservation Act of 1995, enacts Section 325.4 of Title 56, LRS, providing that the Wildlife and Fisheries Commission shall make an annual peer reviewed and. evaluated report to the Legislature no later than March 1st containing the following information on southern flounder (Paralichthys lethostigma): (a) the spawning potential ratio (SPR), (b) a biological condition and profile of the species and stock assessment. The Act also provides that if the SPR is below 30%, the Department shall close the season within two (2) weeks for the period of at least one year.

The Department has reviewed the information on the SPR of southern flounder (Paralichthys lethostigma), and has determined that the SPR is probably between 16% and 44%. The most conservative of these estimates is below the 30% criterion established by the Legislature. The Secretary has determined that a limited closure of the commercial harvest of flounder using pompano strike nets would be ineffective and unenforceable. The Secretary therefore has determined that it is in the bst interest of the state and most appropriate that the commercial season for southern flounder (Paralichthys lethostigma) in Louisiana waters be completely closed, and remain closed for one year. In order to identify temporal changes in regulations for fishermen; the closure is placed as May 1, 1996 until May 1, 1997.

James H. Jenkins, Jr.
Secretary

NOTE:
Many recreation fishermen. (shrimpers) purchase commercial licenses and use commercial gear. The closure will apply to ANYONE WITH COMMERCIAL GEAR ABOARD THEIR VESSEL and consequently will include these recreational fishermen. During closure, recreational shrimpers MUST carry and use recreational gear ONLY in order to retain a legal limit of southern flounder, regardless of how the flounder were taken.

NOTICE
During the reporting period of February 15, 1996 to March 1, 1996 the Cameron Parish Waterworks #2 Water Supply violated the maximum contaminant level of coliform bacteria as set forth in the State and Federal Primary Drinking Water Regulations. Action was taken to eliminate the contamination.

The United States Environmental Protection Agency (EPA) sets drinking water standards and has determined that the presence of fecal coliforms is a possible health concern. Total coliforms are commonin the environment and are generally not harmful thineselves. The presence of these bacteria in drinking water, however, generally is a result of a problem with water treatment or the pipes which distribute the water and indicates that the water may be contaminated with organisms that can cause disease. Disease symptoms may include diarrhea, cramps, nausea and possibly jaundice, and any associated headaches and fatigue. These symptoms, however, are not just associated with disease-causing organisms to drinking water, but also may be caused by a number of factors other than your drinking water. EPA has an enforceable drinking water standard for total coliforms to reduce the risks of these adverse health effects. Drinking water which meets this standard is usually not associated with a health risk from disease-causing bacteria and should be considered safe.

The Cameron Parish Waterworks District No. 2 submits water samples taken by the Louisiana Department of Health and Hospitals. For the month of February, 1996, the water samples were not in compliance with Standards. The Cameron Parish Waterworks District No. 2 completely flushed out the distribution system, increased the level of chlorination and submitted new samples to the Louisiana Department of Health and Hospitals.

As of March, 1996, the Louisiana Department of Health and Hospitals has determined that the Cameron Parish Waterworks District No. 2 has corrected the problem and is now in compliance with Standards.

NOTICE
To: Customers of Cameron Parish Waterworks District No. Nine

Please be advised of the following notice:

During the reporting period of February 15, 1996, to March 14, 1996, the Cameron Parish Waterworks No. 9 water supply violated the maximum contaminant level of coliform bacteria as set forth in the State and Federal Primary Drinking Water Regulations. Action was taken to eliminate the contamination.

The United States Environmental Protection Agency (EPA) sets drinking water standards and has determined that the presence of total coliforms is a posible health concern. Total coliforms are commonin the environment and are generally not harmful thenselves. The presence of these bacteria in drinking water, however, generally is a result of a problem with water treatment or the pipes which distribute the water and indicates that the water may be contaminated with organisms that can cause disease. Disease symptoms may include diarrhea, cramps, nausea, and possibly jaundice, and any associated headaches and fatigue. These symptoms, however, are not just associated with disease-causing organisms to drinking water, but also may be caused by a number of factors other than your drinking water. EPA has an enforceable drinking water standard for total coliforms to reduce the risks of these adverse health effects. Drinking water which meets this standard is usually not associated with a health risk from disease-causing bacteria and should be considered safe.

Should you have any questions concerning this notice please feel free to contact Waterworks District No. Nine at P.O. Box 339, Grand Chenier, La. 70643, or phone 318-538-2440 for more information.

PROCEEDINGS
A special meeting of the Cameron Parish Library Board of Control was held on January 31, 1996, at 10:00 a.m., in the Library Building in Cameron, Louisiana.

Present at the meeting were Mrs. Norma Jeanne Blake, president; Mrs. Sallie Sander, Mr. Edward Petersen, Mrs. Elaine Hebert, Mrs. JoAnn Humble, Mrs. Ada Broussard, Mr. George LeBoeuf, and Mr. Brent Nunez. Absent was Mrs. Velma Lowery.

Upon motion of Mrs. Broussard and second by Mr. Petersen the minutes of the special meetings held January 12, 1996 and January 14, 1996, be accepted.

Mr. LeBoeuf asked that the Library Board write letters to Senator Cecil Picard and Representative Dan Flavin in support of the proposed road from Cameron to Big Lake. The Board unanimously approved.

Mrs. Blake introduced Jill Covington, who asked to address the Board. Mrs. Covington is interested in the position of the Library Director but has no education in Library Science. She expressed a willingness to obtain a degree in Library Science. The Board wished her well but they could only consider someone who has a Master's Degree in Library Science.

Mrs. Sanders moved that the Board go into Executive Session to discuss personnel. Mr. Christopher Brown's re-application and letter to Mrs. Blake was discussed. Mr. Brown was then reinterviewed.

Board returned to Open Session.

Mr. petersen moved the Board hire Mr. Brown as Library Director at a salary of $30,000.00 per year and assume his duties March 1, 1996.

Mrs. Broussard moved that the meeting be adjourned. Mrs. Humble seconded and motion carried.

Respectfully submitted,
/s/ Mrs. Broussard,
Interim Secretary

## Consumer protection info free from Baton Rouge

**—CAPITAL NEWS—**
No one wants to pay for services they can get free of charge, but Attorney General Richard Ieyoub says it's happening. What makes it worse is that people are paying for consumer protection information instead of using his office's free hotline.

The attorney general's Consumer Info-line operates 24 hours daily, offering advice on a variety of topics including credit problems, car-bying and the lemon law, residential leasing, telemarketing and charitable donations. It also discusses a selection of current consumer problems, and Ieyoub's Consumer Protection Section offers a free brochure about its information, prevention and mediation services.

More than 700 people have used the hotline since it was activiated three months ago, Ieyoub said, but others are paying for costly 1-900 calls to private companies. "I'm aware of at least one company that charges $1.49 per minute for service our Consumer Protection Section offers free of charge," Ieyoub said. The 1-900 numbers are legal, he advised, but they do cost consumers unnecessary money.

"By simply calling 1-800-351-4889 toll free, Louisiana consumers can get free and east access to information and tips on various consumer-related topics," the attorney general said. "And the Info-Line affords them a service others can't -- a way to file a formal consumer complaint with the attorney general's office." They also can check on the status of previously filed complaints or consult with specially trained mediators.

"Consumers who want to save money don't need to pay for services they can get for free, and I urge them to take advantage of our toll free Info-Line," Ieyoub said. They can call the same number to obtain a free copy of the brochure about the Consumer Protection Section's services.

Trisha Silver

## Hackberry represented at meeting

Trisha Silver, daughter of Mr. and Mrs. Robert Silver of Hackberry, was elected vice president of finances for the Southwest Region Future Homemakers of America at the annual meeting held March 7.

Trisha is a sophomore at Hackberry High School and serves as local secretary. She also received a gold medal at the Lake Charles meeting for first overall in the Illustrated Talk contest.

Julia Sanders, daughter of Mr. and Mrs. Jeffrey Sanders, also received a gold medal in the Senior Job Interview contest. Julia is the outgoing vice-president of finances for Southwest Region FHA.

The guest speaker was Pat Porter and entertainment was provided by the Sulphur Show Choir. Dr. Barbara Coatney, Cameron Parish native and head of the Family and Consumer Sciences department at McNeese State University, announced all of the Star events winners.

A patriotic devotional was presented by Hackberry FHA members. Six students performed to "I Believe In America". They were Brandy laBauve, Natasha Thacker, Jessica Guilbeaux, B. J. LaBove, Chad Pitre, and Brad Welch.

Teresa Mata

## Mata named ambassador for Navy

Petty Officer 1st Class Teresa Mata has been selected as a Navy Ambassador for San Antonio's Fiesta 1996.

As one of two primary ambassadors, she will represent the Navy at more than 30 Fiesta functions and be featured in three parades during the period April 19-28. Fiesta San Antonio is the city's largest community event, attended by more than 4 million people over the 10-day period.

A native of Cameron, Mata is an instructor with the 341st Training Squadron at Lackland Air Force Base in Texas. She enlisted in the Navy in 1986 and has been involved in law enforcement throughout her career.

Mata shares the Ambassador duty with Chief Petty Officer Bernard Isaza from Miami.

## Meetings set to discuss poverty

The Cameron Community Action Agency will sponsor community wide "Dialogs on Poverty" at the following locations and dates:

Cameron Council on Aging, Mon., April 22, 6 p.m.

Creole Multi-Purpose Building, Tues., April 23, 5:30 p.m.

Hackberry Multi-Purpose Building, Wed., April 24, 6:30 p.m.

Grand Lake Multi-Purpose Building, Thurs., April 25, 6:30 p.m.

Executive Director Dinah Landry said forums are a part of the National Dialogue on Poverty sponsored by the National Association of Community Action Agencies to actively involve low and middle level income Americans in the ongoing discussion about poverty in America.

"We are sponsoring these community forums around the parish so that everyone can join in conversation about the realities of living in poverty and how individuals, families and communities can become self-sufficient," Landry said.

"The purpose of these forums is to determine needs and opinions about poverty here in Cameron Parish and to educate the general public about current poverty-related problems and effective strategies for resolving them," she stated.

The Cameron Community Action Agency will use the information gathered at the dialogue to plan programs to better serve low-income individuals and families.

SHOWN LOOKING over the dissertation, "A Wetland Biography," a book on Cameron Parish, are Marianna Tanner, Cameron Parish's "bird lady", Parish Librarian Christopher Brown and Dr. Gay Gomez, the author. (Photo by Geneva Griffith.)

## Cameron subject of a new book

By GENEVA GRIFFITH

Gay Marie Gomez, B.A., M.A., has just completed her dissertation which she presented to the faculty of the Grate School of the University of Texas at Austin in partial fulfillment of the requirements for the Doctor of Philosophy degree.

Dr. Gomez presented a copy of it to the Cameron Parish Library this week to be used by patrons of the library.

A book on the dissertation is being published by the University Press and will be out in about a year.

During her assembly of the book, "A Wetland Biography - A History of Cameron Parish", includes in addition to the history, the cultural, biological and economic components of the parish, she headquartered at Rockefeller Refuge on grand Chenier.

During her five year research, she interviewed a cross section of local people, many whose ancestors went back to the very earliest settlers of the parish.

Dr. Gomez, in donating it to the library said, "In memory of my friends and teachers here whose lives have passed, but whose stories remain - my thanks to all."

Accepting for the library were the new librarian, Christopher Brown and Marianna Dyson Tanner, Cameron's "Bird Lady", and the first person Dr. Gomez met when she came to Cameron.

They shared an avid interest in birds, and Tanner is an expert on the 400 birds that have been spotted during birding expeditions and bird counts in the parish.

Dr. Gomez's very well researched book will be a valuable tool for those studying the historical and biographical make-up of Cameron Parish.

Brown stated that there is only one copy now, but when the book is published the library will have many more copies for local use.

Since the award of her Doctor's degree, Dr. Gomez has gone back home to New Orleans and is teaching geography and environmental history at Tulane and the University of New Orleans and is nature guiding.

## Library to hold an open house next week

The Cameron Parish Library will observe National Library Week with an open house on Thursday, April 18, from 2-4 p.m. The library's new director, Christopher Brown, will present a program that will include the works and remarks of woodworker Wilman Saltzman.

On display will be miniature constructions of Mr. Saltzman's grandfather's cypress Cajun cottage as well as a wooden scale model of his family's houseboat.

Following Mr. Saltzman's remarks, Mr. Brown will offer a short book talk on "A Gentle Madness: Bibliophiles, Bibliomanes, and the Eternal Passion for Books".

Refreshments will be served. For more information call the library at 775-5421 or 775-5429.

## Snapper season closed

The commercial red snapper season will be closed April 5-Dec. 31, 1996, in federal waters of the Gulf of Mexico. National Marine Fisheries Service preliminary red snapper landings estimates for 1996 indicate the commercial quota for 3.06 million pounds will be reached April 4.

The Fishery Management Plan for the Reef Fish Resources of the Gulf of Mexico requires closure of commercial fishing to protect overfished red snapper when the commercial quota is reached or projected to be reached.

During commercial closure, the daily recreational bag limit of five red snapper still applies for properly licensed recreational anglers. The purchase, barter, trade, sale or at-sea transfer of reef fish — including red snapper — caught or possessed in Gulf of Mexico federal waters is prohibited during the closure.

KRISTI JO DUPUIE, the 1996 Louisiana Cattlemen Queen, is shown being presented with a certificate of recognition by Police Juror Dousine Conner in recognition of her efforts in promoting the beef industry. **Pain may be eliminated for millions**

(SPECIAL) -- A new drug has been approved that is exciting researchers in the treatment of pain. This material has been formulated into a new product known as **"Arthur Itis™"** and is being called a *"Medical Miracle"* by some, in the treatment of debilitating conditions such as arthritis, bursitis, rheumatism, painful muscle aches, joint aches, simple backache, bruises, and more. Although the mechanism of action is unclear, experiments indicate that **Arthur Itis™** relieves pain by first selectively attracting, and then destroying the messenger chemical which carries pain sensations to the brain, thus eliminating pain in the affected area. **Arthur Itis™** is an odorless, greaseless, non-staining cream and is available immediately without a prescription and is guaranteed to work. By Loston McEvers

This year there seems to be more large bass caught in a much shorter period of time than usual. I think Lacassine Refuge has produced the largest and more of the large bass, but the Big Burn (Miami Corp. permit fishing) has had its share as well. From Sabine Refuge I had a report of a 7-8 pounder and a 7-3 pounder. These are some of the big bass from Lacassine Refuge that I know of from March 15 to April 1: Quenton LeBoeuf, 9-8; Cody Benton, 9-6; Darren Thibodeaux, 9-4; Travis Broussard, 9-0; Darren Richard, 8-7; and Richard Duhon, 8-6. There was also an 11 pounder caught.

Cody Benton is only 9 years old, so the 9-6 bass he caught was a pound for each year of his age. Do you believe this young fellow has a high fishing fever.

Butch LaBove and his wife have caught several 7 pounders along with 5 and 6 pounders this year in the Big Burn. Johnny LeDoux had a 7¼ pounder and an angler from Lake Charles had a 9-8 come out of the Big Burn. There were several other large bass reported out of the Big Burn.

Mike LeJeune caught a 7½ pounder out of Welden's Pond, a private pond.

**LEMESCHE BASS CLUB**

The Lemesche Bass Club has finalized their club tournament dates and all tournaments will be held on Saturdays from legal morning hours and weigh-in at the WOW Hall in Creole at 3 p.m. Limits will be 5 bass per person, 10 inches minimum length. Dates are April 20, May 18, July 13, August 10 (fish fry and weigh-in at G. C. Park) and August 24. These may be fished anywhere in Cameron Parish public waters.

Officers elected for the 1996 year are: Scottie Trosclair, president; Darren Richard, secretary-treasurer; trustees are Todd Conner, Loston McEvers and Ricky Canik.

**COMMERCIAL FISHING NEWS**

All commercial saltwater strike netting season closed in Louisiana waters March 1. Closures of mullet and pompano strike net seasons are mandated in Act 1316 passed during the 1995 session of the Louisiana Legislature. Strike net season will reopen and until Aug. 1. After March 1, 1997, nets will no longer be legal for harvesting of specks. Commercial fishermen need to check dates when mullet and pompano and speckle trout will open during the year in certain areas of Louisiana. Commercial fishermen will be able to take speckle trout by rod and reel for a million pound quota. Check with Wildlife and Fisheries for licenses requires and again what dates.

It also seems the red snapper population is in trouble, according to fisheries biologists. Scientists have found entire year classes to be missing and it is estimated that 85 percent of all snappers under 2 years old get trapped in offshore shrimp trawls and die. A 50 percent increase was voted by the council for both commercial and recreation quotas for 1996. They figure the Fish Excluder Device would be used, but now this could be tied up in court for years. What will happen now is anybody's guess.

**NEWS TALK**

The Atchafalaya Basin bass population is doing great after their had blow from Hurricane Andrews. There are more larger bass than ever landed and catching numbers is very easy. This is the effectiveness of restocking and the 14 inch minimum size limit placed on all bass in the Basin and 33 bass over 7 pounds, 8 over 8 pounds, 4 over 9 pounds and one that weighed in at 11.6 pounds, and they didn't even keep count of 5 and 6 pounders. These were 1995 records and already this year there have been 3 at 9 pounds, 2 at 8 pounds and 11 at 7 pounds.

The Cameron Prairie National Wildlife Refuge, East Cove Unit (14,927 acres) is part of the Cameron-Creole Watershed Project (CCWP 64,000 acres) located along the east shore of Calcasieu Lake. Refuge Manager Paul Yakupsack announced that a planned drawdown was put in force as part of the CCWP management plan. It is necessary to close the Grand Bayou boat bay and the East Cove Unit during the drawdown.

The closed area around Grand and Lambert Bayous are closed to entry and fishing. Boaters in Calcasieu Lake are restricted from entering the area between the closed area signs and the water control structures.

# Just when you thought banks just don't get it,

## Account One

# (we got it).

Yes. We really have it, and it's exclusively available to you at Calcasieu Marine: a single account replacing all others, paying great interest rates on your account balance, with **no fees or charges** when the account balance minimum of $7,500 is maintained.

No more checking account and savings account at a bank, money market account to earn deposit interest from some brokerage firm, and CDs somewhere else, to boot. A single account, with a consolidated monthly statement, that does it all.

Your account is accessible to the max: by check, ATM, account transfers, ACH deposits/debits, and through CMNB's current debit card program.

Charges?

Just maintain the $7,500.00 account balance minimum, and you **will be charged nothing**: no annual fee, no monthly service charge, no transaction fees, no per-check or check-printing charge (with our wallet-style corporate image checks), no fee for Travelers' Checks or Stop Payment service, and no overdrafts.

The end of complicated personal money management.

| Account Balance | Annual Percentage Yield |
|---|---|
| $50,000.00 + | 5.20% |
| $15,000.00 – $49,999.99 | 4.68% |
| $7,500.00 – $14,999.99 | 3.64% |

Rates may change after the account is opened, adjusted weekly to the 30-Day U.S. Treasury Bill asked rate, and rates shown are effective April 2, 1996. The account minimum is $7,500, and interest is not earned on lesser amounts. If the balance falls below $7,500, fees imposed could reduce earnings. Interest is earned on the entire account balance at the highest qualifying rate. The account is for individuals only.

# Job market is a little better

—CAPITAL NEWS—

The job market in Cameron Parish showed slight improvement between the second and third quarters of 1995, according to the state Department of Labor's latest report on employment and earnings.

The total average number of jobs in the parish rose from 3,609 during the second quarter of 1995 to an average of 3,881 between July and September. Total wages increased from $23.8 million to $24.9 million during the three months, according to the report prepared by the Research and Statistics Unit of the Office of Employment Security.

The largest increase in employment was registered in the field of manufacturing, where the average number of jobs went up 168 to 629 in the parish. A much less significant increase was noted in the mining sector, which includes oil and gas exploration and saw an increase of 49 to average 591 jobs for the quarter. Somewhat behind was the services industry, where average employment rose 26 jobs to 877 in the current report. Service industries include entertainment, repairs, engineering and accounting as well as legal, health and educational services.

Most other areas also showed improvement, but it was only marginal. The wholesale trade category listed 12 additional jobs to bring its average employment to 204 in the third quarter. Agriculture's additional nine jobs caused an increase to 33, and eight extra jobs in transportation carried its average to 877 in the latest report. Average employment in retail trade grew by six to 281; public administration employed four additional people for an average of 206; and two more people found employment in finance, insurance and real estate banking to bring the avarage to 37.

The construction sector marked the parish's only decline in employment, losing 12 jobs to average 146 inthe third quarter of 1995.

The reports are based on the quarterly tax reports received by the department from employers subject to the Louisiana Employment Security Law. The figures may be slightly skewed by employers with workers in more than one parish, but most such "multi-parish" employers furnish parish breakdowns as well as state totals.

# Reward told in thefts

The Cameron Parish Crime Stoppers is offering a reward of up to $500 for information leading to the arrest and indictment of thieves who stole various items from a shrimp boat.

About March 21, a microwave Loran navigational receiver; a Ruthion radar; a Ruthion VHF radio; a 23-gallon butane bottle; 13 round, plastic, red or black, shrimp baskets; and about $600 in groceries was stolen from a shrimp boat.

Anyone who has information on this theft is asked to call Crime Stoppers at 775-7867. Callers do not have to give their names. Code numbers are assigned.

# Senior games set Saturday

Cameron Senior Games will be held Saturday, April 27, beginning at 8 a.m. at the Rec Plex in Cameron.

Registrations are being taken at the Cameron Council on Aging Senior Center. Deadline for registration is April 23.

For more information call 775-5655 and ask for Alice or Pat.

Games for everyone, 50 and up.

# *Jennings ladies pay visit here*

By GENEVA GRIFFITH

The Cameron Parish Chamber of Commerce last Wednesday hosted a reception for a Jennings group who toured lower Cameron parish.

Ed Kelly, Chamber president, welcomed the group at the reception which was held in the courtroom of the courthouse. Presiding over the refreshment table were Mrs. Ruby Kelley and Mrs. Sheila Helms.

Mrs. Wardella Fontenot of Jennings, a former resident of Cameron, was the leader for the 20 women from Jennings.

E. J. Dronet and Donna LaBove of the Cameron State Bank, had on display a painting of downtown Cameron at the turn of the century, which was commissioned of John Bergeron to hang in the bank in Cameron. Judge H. Ward Fontenot identified each of the buildings in the picture and gave the history of each.

Fontenot explained that in the early days there were no roads in Cameron, and it could be reached only by water. In fact the first north-south road to Lake Charles was built in 1935.

The committee in lower Cameron Parish were built on ridges running east and west and along the waterways.

A door prize of wind chimes was awarded to Mrs. Natsy Rodriguez which was donated by the bank.

The group was then led on a tour of the docks and jetties, Holly Beach and Constance Beach and the Hollyman Bird sanctuary. The leader was Mrs. Marianna Tanner, who said over 400 species of birds and butterflies visit Cameron Parish each year.

## NAACP TO MEET

The Cameron NAACP Chapter will hold its regular meeting at 7 p.m., Friday, April 19 at the Calcasieu Marine Bank meeting room in Cameron.

# Trash Bash is Saturday

Cameron Parish's "Trash Bash Day" will be held this Saturday, April 20 under the sponsorship of the Cameron Lions Club, Cameron Parish Police Jury and Cameron Parish Chamber of Commerce.

Trash bags, gloves and safety vests will be provided by the police jury and volunteers are urged to come out to clean up the trash along the roadsides.

George LeBouef and Terry Hebert are heading the efforts in Cameron and participants should meet at the Cameron fire station at 8 a.m. For assignment call Ed Kelley at 775-5493 or George LeBouef at 775-5123.

In Hackberry, John DeBarge and George Hicks are the chairmen. Volunteers will meet at the Multi-Purpose building at 8:30 a.m. For information call DeBarge at 762-3937 or Hicks at 762-3992.

St. Mary of the Lake Knights of Columbus will head the drive in the Big Lake area and will meet at Leven Abshire's home at 7 p.m. They will clean from Boone's Corner to the parish line.

In the Grand Lake area the Grand Lake FFA will meet at the Grand Lake high school at 7 a.m. to clean from the school to Boone's Corner.

The Sweet Lake Homemakers Club will meet at the old Lena's Cajun Kitchen building at 7 p.m. to clean from Hackett's Corner to Brent's Road.

# 2 charged in white alligator thefts

Two Calcasieu Parish men have been arrested and cited for numerous violations concerning the theft and illegal sale of two white alligators. Melvin Brent LaSalle, 39, and Albert Doucet, Jr., 22, both of Lake Charles, were arrested on March 28, 1996, immediately following an allegedly illegal transaction with an undercover wildlife enforcement agent. The agent was posing as a buyer for a reptile collector.

LaSalle and Doucet were both cited in Calcasieu Parish with two counts each of possessing alligators in closed season, illegal possession of alligators, illegal possession of white alligators and illegal possession of stolen things. LaSalle was additionally charged with selling alligators without a license. Both men were transported to the Cameron Parish Sheriff's Office and booked for theft of alligators.

According to Col. Winton Vidrine, Department of Wildlife and Fisheries Enforcement Chief, the arrests came as the result of information received from a confidential informant. "We were told LaSalle had two white alligtors and was looking for a buyer," Vidrine said. "One of our undercover officers took it from there."

During questioning following the arrests, wildlife agents learned that the two white alligators were allegedly stolen from West Pass Farms, an alligator farm in Cameron Parish. Equipment had also been stolen from the farm. LaSalle and Doucet were booked by Cameron Parish Sheriff's Deputies for theft of the missing equipment.

The two alligators, approximately three and four feet in length, were photographed and returned to West Pass Farms. They apparently suffered no ill effects as a result of their travels.

Theft of an alligator and illegal possession of stolen things (when the value is $500 or more) are both punishable by imprisonment with or without hard labor for not more than 10 years or a fine of not more than $3,000 or both.

Possession of alligators in closed season and illegal possession of alligators both carry penalties of $400 to $450 or jail for not more tha 120 days or both. Selling alligators without a license has a penalty of $350 to $500 or jail for not more than 90 days or both.

Illegal possession of a white alligator carries a penalty of fine of not less than $10,000 and jail for not less than six months or more than twelve months.

Wildlife agents participating in the case were Lt. keith Bell, Sgt. Malcolm Hebert and Senior Agents Glenn Gremillion, Darryl Moore and Craig Guillory. They were assisted by Fur and Refuge Division Conservation Officer James Nunez, Calcasieu Parish Sheriff's Detectives Travis Pauley and Andrew Hursey and Cameron Parish Sheriff's Investigators Kim Nunez and Jerry Constance.

# Coastal awards set

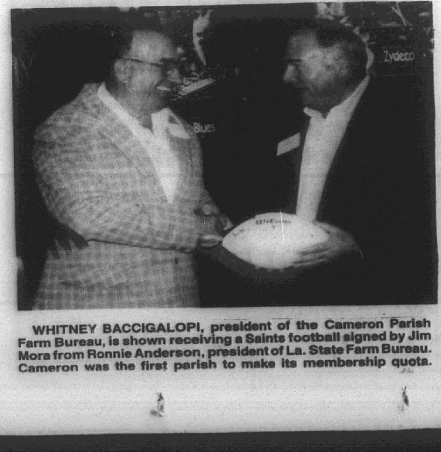
The first annual Coastal Stewardship Awards Ceremony, hosted by The Coalition to Restore Coastal Louisiana, will be held Friday, April 26, at the Howard Johnson's in Thibodaux. Guest speaker will be Senator Michael Robichaux.

The Coastal Stewardship awards are given in recognition of significant contributions by an individual or group in the effort to save our coast. This year's recipients hail from various locales statewide and will be announced at the ceremony. A 6 p.m. reception will kick off the evening with dinner and the awards presentation following at 7 p.m.

Anyone interested in attending may purchase tickets in advance for $25 per person. Reservations are required. For more information, contact the Coalition to Restore Coastal Louisiana, 504-344-6555.

# Bingo told

There will be free senior citizen bingo for ages 60+ Fri, April 19, 9:30-11 a.m. for Johnson Bayou - Holly Beach residents, at the Johnson Bayou Recreation Center.



Refreshments will be served.

# Reunion set

A reunion of the S. P. and Sarah McDonald family will be held in Cameron Sunday, April 21.

It will be at the Cameron Recreation Center from 10 a.m. to 3 p.m., and a covered dish meal will be served at noon.

All family members are invited to attend. For further information, call Virgie LeBleu at 318-775-5360.

WHITNEY BACCIGALOPI, president of the Cameron Parish Farm Bureau, is shown receiving a Saints football signed by Jim Mora from Ronnie Anderson, president of La. State Farm Bureau. Cameron was the first parish to make its membership quota.

# *Meeting Cokie is weekend's highlight*

By GENEVA GRIFFITH

I have always been a fan of Cokie Roberts, a network reporter and a regular on the David Brinkley show.

The Washington, D. C. journalist is the daughter of the late Louisiana Representative Hale Boggs, whose wife, Lindy Boggs, took over his seat after his death in an airplane crash.

Cokie was reared in New Orleans and grew up in Washington, D. C. She is married to Steve Roberts, A U. S. News and World report senior writer.

I was delighted when I learned that she would be the guest speaker at the Louisiana Press Association convention which I attended with Jerry and Joy Wise, the owners of the Cameron Pilot, in New Orleans.

I made sure that I, along with the Wises, Brett Downer and Jim and JoAnn Beam with the Lake Charles American Press, had a front row table.

Jim's mother was from a first generation Oak Grove family — Carrie Welch, the daughter of Amidy Welch and Ella Wetherill, whose mother was Martha McCall.

I had Cokies' picture taken with me, then several people came up to ask me if I was her mother, which to me was very flattering.

## HAVE OWN PARADE

We had several other unique experiences during the LPA convention in New Orleans.

We went on a tour in the French Quarter on the afternoon entitled "Religion, Rituals, and Haunt-

COKIE ROBERTS, Left, TV commentator, was the main speaker at the Louisiana Press Assoc. convention in New Orleans last weekend. She is shown above with Geneva Griffith, Cameron Pilot reporter.

THE F. J. PAVELL KC Council 8323 named Tim Trahan, left, as Knight of the Month and the family of Ray Young, right, as Family of the Month.

## KCs meet on Bayou

F. J. Pavell Council, No. 8323, Knights of Columbus, met April 4. The Knight of the Month for March is Tim Trahan and the Family of the Month is Ray and Margaret Young.

The meal was crawfish etouffee, prepared by Tim Trahan.

The next K of C meeting will be held Mon., April 15, with a rosary at 6:15 p.m., meal at 6:30 p.m. and meeting at 7, at the renewal center of the Church of the Assumption in Johnson Bayou. Kenneth Trahan will prepare the meal.

The Council members will vote for the Family of the Year and Knight of the Year. Members who are eligible are those who have received the Knight of the Month and Family of the Month for the past year. Past recipients customarily are not eligible. These awards will be announced at the annual CDA - K of C banquet Sun., May 19, at the community center on Gulf Beach Highway (old La. Hwy. 82) in Johnson Bayou. All members and their families are invited, there is no charge.

Grand Knight Magnus McGee appointed a nominations committee of Derald Jinks, Curtis Mathieu, Rev. Roland Vaughn, and Rodney Guilbeaux, chairman. They will present a slate of officers at the April meeting and elections will be held at the May meeting.

Scheduled to attend the K of C La. State Convention in Baton Rouge are Grand Knight McGee, Financial Secretary Gerald Touchet and Past Grand Knight Derald Jinks.

The next K of C bingo will be held Sun., April 14, and Sun., April 28, at 2 p.m. at the renewal center of the Church of the Assumption in Johnson Bayou. The coverall games are for $1,140 in 58 numbers and $850 in 52 numbers.

A Family Hour of Prayer with the picture of Our Lady of Guadalupe was held Sun., Mar. 17, at the Church of the Assumption. A door prize of a T-shirt of Our Lady of Guadalupe was given away at the March meeting. The winner was Curtis Mathieu.

The next senior citizen bingo co-sponsored by the Johnson Bayou Recreation and F. J. Pavell K of C Council will be held Fri., April 26, at 9:30 a.m. at the gym of the Johnson Bayou Recreation Center in Johnson Bayou. There is no charge for cards.

The following K C's volunteered cakes for auction at the CDA dance to be held Friday, April 12, at the community center on Gulf Beach Highway: Edmond Trahan, Ray Young, J. P. Constance, Gerald Touchet, Magnus Mcgee, Glenn Trahan and Barry Badon.

Rev. Roland Vaughn requested a work turnaround to make repairs to the church facility. The council agreed to do so, a date to be set later.

The council agreed to sponsor a raffle to help pay the $8,200 needed to renew the church insurance. Phyliss and Ernest Carroll Trahan donated a calf as first prize, either on the hoof or cut and wrapped; a second and third prize of $100 each was donated by Young's Store and T & T General Merchandise.

The Patti Domatti Scholarship Award form will be distributed at Johnson Bayou High School. The scholarship committee will meet to select the recipient.

THIS GROUP OF women from Jennings visited Cameron last week. They were lead by Wardella Fontenot, a former resident of Cameron. Also shown in the background is Judge Ward Fontenot, who spoke to the group. (Photo by Geneva Griffith.)

Pain may be eliminated for millions
(SPECIAL) -- A new drug has been approved that is exciting researchers in the treatment of pain. This material has been formulated into a new product known as "Arthur Itis™" and is being called a "Medical Miracle" by some, in the treatment of debilitating conditions such as arthritis, bursitis, rheumatism, painful muscle aches, joint aches, simple backache, bruises, and more. Although the mechanism of action is unclear, experiments indicate that Arthur Itis™ relieves pain by first selectively attracting, and then destroying the messenger chemical which carries pain sensations to the brain, thus eliminating pain in the affected area. Arthur Itis™ is an odorless, greaseless, non-staining cream and is available immediately without a prescription and is guaranteed to work. Use only as directed.

Grandparents are Murphy Cormier and the late Charlene Cormier of Lake Charles, Wade and Earline Dupont of Creole.

Great-grandparents include Ruby Cormier of Lewisburg, Evalia Savoy of Eunice and Eula Dupont of Jennings.

The couple's other child is Hailey Renee.

# King goes to LSU day

Ryan King of Creole attended the LSU College of Agriculture's recent "taGer" recruitment day at the Agriculture Center's 4-H Mini Farm

The event gave more than 100 high school students interested in agriculture an opportunity to visit LSU's facilities and learn about its academic programs.

LSU baseball head coach Skip Bertman addressed the group at a jambalaya luncheon, after which the students were treated to College of Agriculture department exhibits, agriculture building tours and a taste fair hosted by the department of food science, featuring such unusual foods as emu meatballs and nutria barbecue.

## Bids sought

The Cameron Parish Waterworks District 2 in Hackberry is seeking bids on the re-installation of its fresh water loading facility. A bid notice will be found elsewhere in this issue.

The facility provides fresh water for barges and offshore vessels.

# Cameron Outdoors

By Loston McEvers

**WATER NEEDED**

Talking to almost any Louisianian who fishes the marsh, and he'll tell you the most needed thing he wants is water in the marsh. We get a few showers, but as low as the water is it really doesn't show. It seems Mother Nature is holding back on us. Many cattlemen had to move their cattle as water holes are dry and grass is not in the best shape either. I think the western part of the parish has received more rain that the central to eastern parts.

**FISHING REPORTS**

Good catches of red snapper were reported offshore fishing out of Grand Chenier.

The Big Lake area is showing signs of the fishing picking up with catches of speckle trout and redfish reported.

Bass fishing is still very good, again some large bass caught on Sabine and Lacassine refuges as well as the Big Burn.

**CATCH AND RELEASE**

The low water has caused bass as well as other freshwater fish to bunch up in canals and deep holes in the marsh. You can really murder these fish if you find them feeding and you've got deep water. Lizards and worms are working well, and spinner baits are catching bass also.

It is said by biologists that harvest of larger fish does not harm the health of the population. When larger bass are harvested they are replaced by smaller fish. Larger fish eat more than their smaller cousins.

**COMMERCIAL NEWS**

The commercial red snapper season has closed as of April 4, and will remain closed until Dec. 31, 1996, in federal waters of the Gulf of Mexico. The commercial quota of 3.06 million pounds has been reached. This is done to protect over-fished red snappers.

Commercial fishermen have to have a permit for tuna fishing, even charter boats. This is for all species of tuna.

**NEWS TALK**

The daily bag limit for recreational anglers on red snapper is 5 per day. Remember the purchase, barter, trade, sale or at sea transfer of reef fish, which includes red snapper, caught or possessed in Gulf of Mexico's federal waters, is prohibited during the commercial closure.

Recreational fishermen taking tuna in the Gulf of Mexico are required to possess a permit. This is required for the harvest of bluefin, yellowfin, big eye, skip Jack and albacore tuna. The permit is not required for the harvest of blackfin tuna or little tunny by recreational fishermen. Many anglers call little tunney bonito which is a mistake, because the true Atlantic bonito are rare in our area.

Under the clear waterways program, plans are to reduce water pollution by giving an alternative to overboard discharge of sewage. Setting up boat sewage pumpouts or dump stations for recreation fishermen is in the talk.

Boats discharging sewage into waterways allows dangerous micro-organisms and chemicals to escape into the waterways and this is dangerous for swimming, shell fish, other marine life and other recreational activities.

**LEMESCHE BASS CLUB**

The club will hold their first of the season's bass tournament Sat., April 30. There is one thing that has changed, weigh-in time will be 6 p.m. instead of 3 p.m. as stated last week. It's still at the WOW Hall in Creole. Club members may register at Rudy's Fish N' Stop in Creole.

**FEEDING PERIODS**

Best: Fi., April 19, 1:28 a.m.; Sat., April 20, 2:18 p.m.; Sun., April 21, 3:08 p.m.

Good: Fri., 5:40 a.m. and 6:15 p.m.; Sat., 6:40 a.m. and 8 p.m.; Sun., 8:25 a.m. and 9 p.m.

# Art project

After reading the biography of Henri Matisse, the French artist, Mrs. Lisa Mullet, gifted and talented teacher, led the second graders of South Cameron Elementary School through a "scissor art" project for which Matisse is famous.

They named their piece of art, "The Art Sea."

## Visitor liked Cameron--but not the trash

**(EDITOR'S NOTE--The following letter was received recently by Ed Kelley, president of the Cameron Parish Chamber of Commerce.)**

Dear Mr. President:

About three weeks ago, a friend and I visited Cameron Parish for 9 days to do some serious birding. We had heard that the coastal area and the marshes were rich with bird-life, and many of the species are ones that never get this far north.

Since we had never been in that area before we stopped in the Chamber office in Cameron. Sheila Helms, who was working in the office, was very helpful, and went out of her way to give us good information and help us establish a birding contact in Cameron. We stayed in motels in Cameron and Holly Beach, and drove most of the roads for a radius of about 40+ miles.

The bird-life was great. However, with each passing day we became more disgusted with the pollution and garbage that was along every road and the beach. It wasn't just plastic sacks, containers, lids, bottles, cans, buckets, old shoes, etc., but even sofas, refrigerators, and stoves littered the marshes. In many places the color of the water due to the multitude of garbage was a very unhealthy appearing color. My concern is that with a continued accummulation of junk in the marshes, someday there won't even be birds there. I would also think that it has a limiting effect on tourism.

You have such a treasure in wildlife in Cameron Parish, but I would really hesitate to recommend that area to my birding friends as they would be insulted by the amount of litter that is everywhere. I realize that your Chamber isn't responsible for this situation, but it will take a monumental effort involving all the agencies and every person in the parish to clean it up. After that happens, I would be happy to return for another visit.

Sincerely,

/s/ Rosemary F. Shaber,
Lewiston, Idaho

## New limits on flounders

Recreational flounder fishermen will be subject to a limit of 10 fish beginning May 1, 1996. On that date, new Wildlife and Fisheries Commission regulations will also take effect to manage the commercial flounder fishery, which will close for one year beginning May 1. There had been no recreational limit on flounder previously.

The Commission's action sets the daily take and possession limit for the recreational taking of southern flounder (Paralichthys lethostigma) at 10 fish per day caught within or without Louisiana waters. There wil be no minimum size length for this species.

## Oyster season extended here

Rep. Dan Flavin and Sen. Cecil Picard announced that the oyster season in the public grounds has been re-opened and extended to one half hour after sunset April 30, effective immediately. The area involved in the extension is comprised of the Louisiana Public Oyster Seed Grounds and the Sister Lake, Hackberry Bay and Bay Gardene Oyster Seed Reservations not currently under lease and the public tonging reef in Calcasieu Lake.

This extension was voted on by the Commission at their April meeting to comply with House Concurrent Resolution 5 of the 1996 special legislative session.

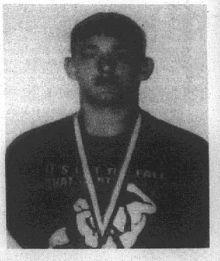
### TRAVEL STUDIES



Mrs. Denise Trahan's fifth graders are learning about the 50 states in her classroom and again in the library with Mrs. Peggy Boudreaux, librarian. As part of a reading incentive program, students are reading books set in various states and tracking their "travels" on a U. S. map.

This program has challenged students to read books of greater length, such as Shiloh and Soup on Wheels, which were read and reported on this past month by Dominique Sandifer.

### CIVIL WAR TALK

Kenny Trahan recently spoke to Mrs. Denise Trahan's fifth grade and Mrs. Peggy Boudreaux's eighth grade social studies classes on the Civil War in Louisiana, focusing on the battles of Calcasieu pass and Sabine Pass. Students examined many of the artifacts found by Mr. Trahan in Johnson Bayou, through which Confederate soldiers marched to defend the South.

LEGAL NOTICE
STATE OF LOUISIANA, OFFICE OF CONSERVATION, BATON ROUGE, LOUISIANA.
In accordance with the laws of the State of Louisiana, and with particular reference to Section 30 of Title 30 of the Louisiana Revised Statutes of 1950, a public hearing will be held in the Conservation Auditorium, 1st Floor, State Land & Natural Resources Building, 625 North 4th Street, Baton Rouge, Louisiana, at 9:00 a.m. on TUESDAY, MAY 14, 1996, upon the application of RICELAND PETROLEUM COMPANY.
At such hearing the Commissioner of Conservation will consider evidence relative to the issuance of Orders pertaining to the following matters relating to the Planulina 7 Sand, Reservoir A, Planulina 7-A Sand, Resrvoir A and the Planulina 8 Sand, Reservoir A, in the Johnsons Bayou Field, Cameron Parish, Louisiana.
1. To establish rules and regulations governing the exploration for and production of gas and condensate from the above sands and reservoirs.
2. To create a single drilling and production unit for each sand, and to force pool and integrate all separately owned tracts, mineral leases and other property interests within the units so created.
3. To designate a unit operator and a unit well for the units so created.
4. To provide that any wells drilled outside of the above sands and reservoirs shall be in accordance with the spacing provisions of Statewide Order No. 29-E.
5. To provide that the Commissioner may reclassify the reservoirs by Supplemental Orders and withdraw the necessity of a pubic hearing should such reclassification be warranted, based on evidence furnished the Commissioner.
6. To consider such other matters as may be pertinent.
The Planulina 7 Sand, Reservoir A, in the Johnsons Bayou Field, Cameron Parish, Louisiana, is hereby defined as being that gas and condensate bearing sand encountered between the depths of 11,398 and 11,430' electric log measured depths (11,175' and 11,207' - true vertical depths) in the Riceland Petroleum Company - SL 14422 No. 1-D Well, located in Section 22, Township 15 South, Range 14 West.
The Planulina 7-A Sand, Reservoir A, in the Johnsons Bayou Field, Cameron Parish, Louisiana, is hereby defined as being that gas and condensate bearing sand encountered between the depths of 11,600' and 11,620' electric log measured depths (11,349' and 11,365' - true vertical depths) in the Riceland Petroleum Company - SL 14422 No. 1-D Well, located in Section 22, Township 15 South, Range 14 West.
The Planulina 8 Sand, Reservoir A, in the Johnsons Bayou Field, Cameron Parish, Louisiana, is hereby defined as being that gas and condensate bearing sand encountered between the depths of 11,858' and 12,014' electric log measured depths (11,402' and 11,558' - true vertical depths) in the Riceland Petroleum Company - SL 14423 No. 1 Well, located in Section 22, Township 15 South, Range 14 West.

PROCEEDINGS
A regular meeting of the Cameron Parish Gravity Drainage District No. 3 was held February 27, 1996, at 2:30 p.m. at the Cameron Parish Police Jury Annex.
Members present: Irwin W. Quinn, E. J. Dronet, Scott Henry, Earl Guthrie, and George Kelley.
Members absent: None.
Others Present: George LeBoeuf, James LeBoeuf, J. Berton Daigle, Glenn Harris, Brent Nunez, Lonnie Harper, Carroll LeMaire, Ted Jones, Malcolm Savoie, Billie Nunez, and "Black" Faulk.
A motion was made by Scott Henry, seconded by George Kelley, and unanimously carried to approve the minutes of the January 16, 1996, regular meeting as written.
A motion was made by Earl Guthrie, seconded by George Kelley, and unanimously carried to approve the Financial Report for the month of January, 1996.
A motion was made by E. J. Dronet, seconded by Earl Guthrie, and unanimously carried to approve the following bills for payment:
1. Cameron Parish Pilot, $146.00
2. H & S Construction Co., $5,547.83
3. On Target Surveying, $2,979.09
A motion was made by E. J. Dronet, seconded by Earl Guthrie, and unanimously carried to authorize President Quinn to sign a letter confirming permission for Texas American to use Gravity Drainage #3 levee under the conditions of the Henry permit.
A motion was made by George Kelley, seconded by E. J. Dronet, and unanimously carried to authorize Edwin Quinn to sign the permit application for N. American Land lateral clean-out in Big Pasture area, and that said application be sent in by Engineer Lonnie Harper.
Mr. Brent Nunez spoke to the Board in favor of the N. American Land lateral clean-out to be done. He said that the cost will be approximately $13,000 per mile for 3 miles. He also stated that Gravity Drainage District #3 is getting ready to do their portion of the work, and he would be glad to put us in touch with the contractor who is doing that work. Mr. Ted Joanen also spoke in favor of the permit and the lateral clean-out. He stated that the cost is approximately $4,000 per mile for mitigation, and he has a commitment from N. American Land Co. to pay mitigation on 2-1/2 miles of this project for Gravity Drainage District #3's portion, as long as the work is done on N. American land. Mr. Joanen said that the southernmost mile of this project is the most vital 1/2 because that portion is within the confines of two levees and water has no other way out.
Glenn Harris presented the Water Management Report for the Cameron/Creole Watershed. He also reported that it is looking favorable that DNR will sign cost-share estimates on the reinstatement of "Breaux Bill" funds.
Scott Henry suggested that this Board purchase a set of sockets that will allow us to work with USF&W on opening and closing of the gates during such time as the Federal employees may be on a furlough situation. It was agreed by consensus that a letter of request be made for such a set of sockets to be maintained in the possession of this Board.
There being no further business, the meeting was adjourned.

PUBLIC NOTICE
CAMERON PARISH COASTAL USE PERMIT APPLICATION
Interested parties are hereby notified that the Coastal Management Section of the Cameron Parish Police Jury has received the following apparently complete application for a Coastal Use Permit in accordance with the rules and regulations of the Louisiana Coastal Resources Program and R.S. 49, 213.1, the state and Local Coastal Resources Management Act of 1978, as amended.
L.C.U.P. Application #960402
Name of Applicant: Albert Fenks, 650 H Oak Grove, Creole, La. 70643.
Location of Work: Oak Grove, Section 22, Township 14 South, Range 7 West.
Character of Work: Proposes riprap bulkhead and a wooden bulkhead. To stop or reduce the rate of erosion that is threatening my property. There will probably be approximately 194 cubic yards of concrete hauled.
The decision on whether to issue a permit will be based on an evaluation of the probable impacts of the proposed activity in accordance with the state policies outlined in R.S. 49:213.2. The decision will reflect in the national concern for both protection and utilization of important resources. The decision must be consistent with the state program and approved local programs for affected parishes and must represent an appropriate balancing of social, environmental and economic factors. All factors which may be relevant to the proposal will be considered; among these are flood and storm hazards, water quality, water supply, feasible alternative sites, drainage patterns, historical sites, economics, public and private benefits, coastal water dependency, impacts on natural features, compatibility with the natural and cultural setting and the extent of long term benefits or adverse impacts.
Certification that the proposed activity will not violate applicable water and air quality, laws, standards and regulations will be required before a permit is issued.
Any person may request, in writing, within the comment period specified in this notice, that a public hearing be held to consider this application. Request for public hearings shall state, with particularity, the reasons for holding a public hearing.
Plans for the proposed work may be inspected at the Cameron Parish Police Jury Annex Building, Coastal Management Division, Courthouse Square, P.O. Box 366, Cameron, Louisiana, (318) 775-5718. Written comments should be mailed within 25 days from the date of this public notice to Cameron Parish Police Jury, Coastal Management Division, Post Office Box 366, Cameron, Louisiana 70631.

PUBLIC NOTICE
CAMERON PARISH COASTAL USE PERMIT APPLICATION
Interested parties are hereby notified that the Coastal Management Section of the Cameron Parish Police Jury has received the following apparently complete application for a Coastal Use Permit in accordance with the rules and regulations of the Louisiana Coastal Resources Program and R.S. 49, 213.1, the state and Local Coastal Resources Management Act of 1978, as amended.
L.C.U.P. Application #960404
Name of Applicant: Albert Fenks, 650 H Oak Grove, Creole, La. 70643.
Location of Work: Oak Grove, Section 22, Township 14 South, Range 7 West.
Character of Work: Proposes to place a 2,000 cu. yd. of fill on proposed residential area to be hauled by a local dirt contractor from a non-wetland area. No discharge or excavation will be involved in the project. The purpose for the fill is to provide adequate drainage for residential use.
The decision on whether to issue a permit will be based on an evaluation of the probable impacts of the proposed activity in accordance with the state policies outlined in R.S. 49:213.2. The decision will reflect in the national concern for both protection and utilization of important resources. The decision must be consistent with the state program and approved local programs for affected parishes and must represent an appropriate balancing of social, environmental and economic factors. All factors which may be relevant to the proposal will be considered; among these are flood and storm hazards, water quality, water supply, feasible alternative sites, drainage patterns, historical sites, economics, public and private benefits, coastal water dependency, impacts on natural features, compatibility with the natural and cultural setting and the extent of long term benefits or adverse impacts.
Certification that the proposed activity will not violate applicable water and air quality, laws, standards and regulations will be required before a permit is issued.
Any person may request, in writing, within the comment period specified in this notice, that a public hearing be held to consider this application. Request for public hearings shall state, with particularity, the reasons for holding a public hearing.
Plans for the proposed work may be inspected at the Cameron Parish Police Jury Annex Building, Coastal Management Division, Courthouse Square, P.O. Box 366, Cameron, Louisiana, (318) 775-5718. Written comments should be mailed within 25 days from the date of this public notice to Cameron Parish Police Jury, Coastal Management Division, Post Office Box 366, Cameron, Louisiana 70631.

RESOLUTION
STATE OF LOUISIANA
PARISH OF CAMERON
WHEREAS, the American alligator has been managed as a natural renewable resource since 1972 in Louisiana through a carefully regulated September harvest program; and
WHEREAS, studies have shown alligators annually experience a high natural mortality rate among nests; and
WHEREAS, by collecting these eggs under permits between the Louisiana Department of Wildlife and Fisheries, landowners and alligator farmers/ranchers this high natural loss can be avoided, and
WHEREAS, this source of stock has served as the foundation for a multi-million dollar alligator farmer/ranching industry in the state; and
WHEREAS, most major landowners in Cameron Parish have been involved in the alligator egg harvest program for many year; and
WHEREAS, continued monitoring programs conducted annually by the Louisiana Department of Wildlife and Fisheries indicate the alligator population is increasing at a rate of approximately 10% each year under the current system of management.
THEREFORE, BE IT RESOLVED by the Cameron Parish Police Jury in regular session this 5th day of March, 1996 that the alligator egg harvest program in Cameron Parish shall be supported as it is a vital part of the alligator farming/ranching industry and a wise use of a natural renewable resource.

ings." We visited several locations that have been investigated for ghostly activities and learned of the most current research by parapsychologists and paranormal investigators operating in New Orleans.

The highlight of the tour was a visit to the Ursuline Convent, the oldest structure in the Mississippi Valley. It is kept in perfect condition and has been in use since the early 1700's.

The day ended with a special Mardi Gras parade held especially for the Louisiana Press Association by Acadian Ambulance Service, Stone-Consolidated, and Freeport McMoran. A New Orleans jazz band accompanied by clowns and party girls led us from our hotel to the river where a riverboat had been reserved for a cruise down the Mississippi.

During the parade we were escorted by police cars and motorcycles which stopped all traffic for us and even the trolly that runs along the waterfront.

We were furnished with Mardi Gras beads which we threw out to the tourists along the way.

One of the workshops at the convention featured investagative reporters including Brett Downer of the Lake Charles American Press who told about the paper's investigation of the new motor-voter law, wherein a person can register to vote without having to appear in person or show identification.

The paper sent out 25 bogus registrations to area registrars using bogus addresses, etc, and the only two that were questioned and stopped were in Jeff Davis and Cameron parishes. Ruby Kelley, Cameron Parish Registrar, questioned the one she received and sent a Cameron deputy to check on the bogus address, only to find there was no such person.

# School board calls new tax election

By GENEVA GRIFFITH

The Cameron Parish School Board held a record-setting 7-1/2 hour meeting last Wednesday that attracted so many spectators that they were sitting on the floor and overflowing into the halls and adjacent rooms. An estimated 100 persons attended.

The interest for all of the interest were the issues of budget reduction and a proposed school tax.

The audience was composed mostly of school employees, teachers, retirees, and their families involved in the proposed cuts to try to solve the high deficit now facing the school board.

Near the close of the meeting Tony Johnson made a motion to call a 10-mill tax with no homestead exemption, which passed by a 5 to 1 vote. Board President Bill Morris voted no. Morris said that none of his constituents were in favor of a tax, and he voted for those he represented.

**(Following Wednesday's meeting, it was established that the school board cannot legally eliminate homestead exemption on the proposed tax. The tax, which will be officially called at a special meeting this Wednesday, will include homestead exemption.)**

The Board had been told by Margaret Jones, the board's accountant, that it could call a non-homestead exempt ad valorem tax but exemption would only add about $80,000 to the tax revenue.

However, Tony Johnson, board member, said it was not fair to send a message to buinesses that they are constantly being taxed. He added that he only hoped that more non-classroom cuts could have been made.

Many of those present were worried about the elimination by the board of paying for their health insurance. However, this was not considered.

If the proposed tax passes a property owner will pay $100 a year on property assessed at $100,000.

**BIG DEFICIT**

As of last year, the system still had $674,391 in deficits, even after dipping into the 16th section fund for over $500,000 and used $630,190 for operating expenses that once was earmarked for building maintenance.

When it was proposed that some possible consolidations could be made such as of Hackberry and Johnson Bayou High Schools, South Cameron and Grand Lake High School, and South Cameron and Grand Chenier Elementary schools, Dan Billiot, board member from Johnson Bayou, declared: "The schools are the heartbest of the community and I am not in favor of taking any school away from its community." This drew a round of applause.

**CUTS ARE MADE**

The board voted to make the following cuts:

*One supervisor position by June 30, and the assistant superintendent position by attrition.

*Consolidate bus routes by attrition.

*Cut the assistant principal position at Cameron Elementary School by attrition.

*Cut four regular education aides as of June 30, leaving one at each elementary grades.

They also voted to hire one guidance counselor to work at Grand Chenier, Cameron, and South Cameron schools.

They rejected a motion to freeze employees salaries.

**GRANT ACCEPTED**

In other business in the regular school board meeting the board accepted a grant of $17,201 from an anonymous cororation donor

## Board will meet Wed.

The Cameron Parish school board will hold a special meeting at 2 p.m., Wednesday, May 1 to consider two items, according to Pam LaFleur, superintendent.

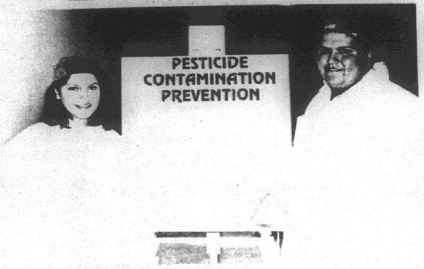
One is to officially call a 10-year, 10-mill property tax to give additional support to the parish school system. The board voted to call the tax at its regular meeting last week, but they will now adopt the resolution calling the election.

One change will be made on the tax call, Mrs. LaFleur said. The board had voted last week to call the election without homestead exemption, but it was later found that it is not legal to do this, so the resolution will include the exemption.

Also, the board is expected to rescind action taken at last week's meeting regarding hiring an elementary guidance counselor. Board members later decided that it would not be feasible to create a new position in light of the school system's serious budget deficit.

## Scenic By meeting is held

The Creole Nature Trail Scenic Byway District held its first meeting Wed., April 17, at the Cameron Prairie Wildlife Refuge . The District has a board of commissioners consisting of nine members representing Calcasieu and Cameron Parishes. The purpose of the District is to stimulate economic development and tourism along the Scenic Byway.



Elected as chairman of the district was Monte Hurley of Lake Charles. Hurley is currently serving his third term as chairman of the Board of the Southwest Louisiana Convention and Visitors Bureau.

The board elected Sammie Faulk of the Cameron Praish Tourism Commission to serve as its vice-chairman.

The seven other members are Shelley Johnson, Paul Guillory, Ed Kelly, Malcolm Savoie, Allen Brent Nunez, Doe Isaac, and Stacy White.

A main focus of the District is to obtain a National Scenic Byway Designation for the Creole Nature Trail which is currently a State Scenic Byway. Last January, the Creole Nature Trail was selected as one of five pilot projects to be offered federal assistance on its Corridor Management Plan. The completion of such a plan is required before a Scenic Byway is granted a national designation. The Corridor Management Plan is scheduled to be completed by September '96.

The board will meet again on May 14.

## Cameron 4-H team contest winners

By GENEVA GRIFFITH

The South Cameron High School Senior 4-H Soil and Water Conservation Team won first place at the annual Gulf Coast Soil and Water Conservation District demonstration contest.

Sabrina Wolfe, daughter of Mr. and Mrs. Gregory Wolfe, and Ryan King, son of Mr. and Mrs. Michael King, were each awarded a $100 prize and will compete in the state contest this summer in Baton Rouge. The winners of that contest will receive a trip to Florida.

Others in the district contest, which was held in Burton Coliseum, were teams from Jeff Davis Parish, which won second, and Calcasieu Parish, which took third.

The winning demonstration was "Pesticide Contamination Prevention", and featured the proper clothing and equipment to use in applying pesticides and told how to clean up pesticide spills.

The Jeff Davis project was on "Louisiana's Valuable Wetlands", which included planting grass and using left over Christmas trees as barriers and freshwater and sediment diversion.

"Cameron's Breakwater Project", was the Calcasieu demonstration subject.

## Parish to receive federal grants

BY GENEVA GRIFFITH

The Cameron Parish Chamber of Commerce held its monthly meeting at the Holly Beach - Johnson Bayou Fire Station.

Ed Kelley, president, announced that Cameron Parish has been picked for a pilot program for federal grants in the Scenic Byway program, which was formerly called the Creole Nature Trail.

Kelley said there is a possibility there will be grants for pull-offs on the highway so birders and photographers can stop and take pictures and observe wildlife and flora.

He also said there is a possibility of getting the annual Outdoor Writers convention in Lake Charles, which will help the local economy.

He said the local Chamber office also gets many calls for area birding tours.

He reported that there were 25 visitors at the Chamber office last month from Arkansas, Illinois, Tennessee, New Mexico, Missouri, California, Michigan, Wisconsin, New York and Idaho.

Walk-in visitors and phone inquiries requested information, brochures and literature on area beaches, birding, refuges, and festivals.

Several people commented that they loved Cameron Parish and there was so much to see and do here. There was a letter from an Idaho couple who were birders complaining about the litter they found here.

John DeBarge reported on the Trash Bash set for Sat., April 20.

The next Chamber meeting will be in Hackberry on May 16

## Oil/gas production continues to drop

**CAPITAL NEWS**

Cameron Parish was the site of less natural resource production in January of this year than it recorded during the first month of 1995, the state Department of Revenue and Taxation reported.

According to the 1996 January report, severance tax receipts for workin the parish totaled $1.2 million to rank the parish seventh for the month. That marks about a $300,000 decline from taxes recorded in January 1995 and is also more than $200,000 less than taxes collected for production in the parish during December 1995.

Oil production was credited for the majority of the January taxes listed for the parish, accounting for $657,324 of the total. The remaining $587,946 was attributed to natural gas, ranking the parish fifth in that category during the month.

The parish collecting the tax on oil and natural gas receives one-fifth of the total up to $500,000. Seventy-five percent of all revenue collected on timber products goes back to the parish.

Statewide, natural resource production put $29.8 million in the state treasury during January. While that is slightly less than the $30.1 million recorded for the same month last year, it is markedly lower than the $35.3 million listed in the department's December 1995 report.

## Prayer Day is May 2

A World Prayer Day observance will be held at noon, Thursday, May 2 on the Cameron courthouse lawn.

Tina Horn, parish admipistrator, will be mistress of ceremonies, and Rev. Tim Vanya will give a greeting.

Larry Dyson will lead in singing "What a Friend We Have in Jesus" and "Sweet Hour of Prayer."

Brent Nunez, police jury president, will give a welcome address and Mrs. Mary Cockrell will give a scripture reading.

Deputy Ron Johnson will lead the Pledge of Allegiance and Deacon Edgar Wise will lead in prayer.

Louise Cole, president of the Camron NAACP Chapter, will introduce the speaker, Dr. Ransom Howard, pastor of the Sixth St. Baptist Church of Port Arthur.

Closing remakrs will be given by Sheriff James Savoie and Mrs. Cole.

Rev. O. J. Johnson will give the opening prayer and Dr. Howard will give the closing prayer.

## T-Ball tourney planned here

A Fun Day T-Ball Tournament will be held May 24 and 25, at the Cameron Recreation Center.

Any 3, 4 or 5 year old girl or boy who is interested in participating should meet at the T-Ball field Tues., April 30, at 6 p.m.

For additional information, call Kathy Rowland, 775-5057.

## Rabies clinic

The annual Cameron Parish Rabies Clinic for dogs and cats will be held Sat., April 27. The rabies vaccination fee is $5 and includes tag and certificate.

Dr. Reina will be at the Grand Lake Multi-Purpose Building from 10:30 a.m.-noon; at the Cameron Multi-Purpose Building from 12:30-2 p.m.; at the Creole Multi-Purpose Building from2:30-4 p.m., and at the Grand Chenier Recreation Center for 4:30-5:30 p.m.

Dr. Ford will be at the Johnson Bayou Multi-Purpose Building from 1-2:30 p.m., and at the Hackberry Multi-Purpose Building from 3-4:30 p.m.

## Aids program

A community education course on the HIV virus and AIDS will be presented by Don Beard of the Southwest Louisiana Aids Council at 5:30 p.m., Thursday, April 25 in the South Cameron Memorial Hospital's telemedicine suite.

He will discuss exposure, prevention, testing, treatment, care and research.

Anyone interested in attending is invited but they should make reservations by calling Roxane Boudoin at 542-5250 or Geri Benoit at 542-5220. Seating is limited.

## Blood drive

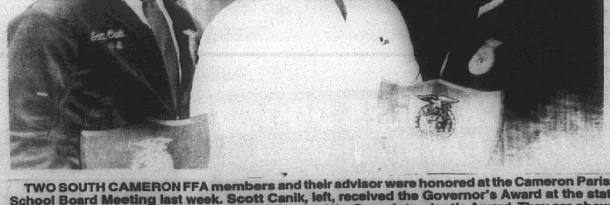
The Louisiana Blood Center will hold a blood drive at the South Cameron Memorial Hospital from 1 to 6 p.m., Monday, May 6. The Center supplies the hospital with its blood.

Donors will receive special family benefits and also one of the new Summer Olympic T-shirts. For more information call Brenda Boudreaux at the hospital.

## Creole KC news

The Knights of KC Council 3014 of Creole announced that the John "Man" Theriot family was Family of the Month for February and Scott Trahan was Knight of the Month.

Terry Conner was chosen as Knight of the Month for March, while the Cliff Conner family was picked as Family of the Month.



The Creole Knights held an Easter egg hunt on the church grounds, with the eggs donated by many people. The spring barbecue was a success.

Jerome Rutherford, Loston McEvers and Kenneth Montie will attend the KC convention in Baton Rouge next weekend.

The next KC meeting is Thurs., May 9, at 7 p.m.

**CERTIFICATES OF Achievement were presented by President Bill Morris, right, to Donald January, Jr., left, for placing second in the State Spelling Bee, and to Stephanie Rodrigue for being named Region V Special Education Teacher of the Year. ## Library Week held

By GENEVA GRIFFITH

"Libraries Change Lives" was the theme of the National Library Week held last week in the Cameron library. An open house was held Thursday with a reception and program from 2-4 p.m.

Chris Brown, the new librarian, gave a review.

Wilman Saltzman exhibited his handmade Cajun cottage and houseboat. He explained the painstaking work he did to create the replica of his grandfather's cottage and his father's houseboat.

Refreshments were furnished by the Creole, Grand Chenier and Sweet Lake - Grand Lake Home Demonstration Clubs.

### LARGEST BASS

The largest bass for the month weighed in at Rudy's Fish 'N Stop by Quenton LeBeouf of Creole, 9 lbs. 8 ozs. This bass was caught at Lacassine Refuge. Cody Benton had a 9-6 and Darren Richard n 8-7.

Quenton also had another bass over 9 lbs. two weeks ago, again caught in Lacassine Refuge.

Other large bass coming from Lacassine Refuge were Danny Demaire, 8-6; Jimmy Trahan, 7-3. Loston McEvers had a 7-13 big bass coming out of the Big Burn.

Lacassine baits that have been working good are the ground green lizard, pumpkin pepper lizard, pumpkin pepper frog, the grape/pearl worm and baby bass spinner bait. In the Big Burn using a grape/pearl, moccasin and red shad worms and baby bass and white spinner baits with green frog 101 pork chunk as trailers.

The month of May is the month surf-fishing for speckle trout should do good. Artificial cockahoe minnows and top water plugs usually work well. Redfish should also be getting better for anglers to catch. Oh, don't forget the turtles are out and it will only get better. Remember, you need a resident basic fishing license to have turtles in your possession.

A few nice catfish have been taken in Grand Lake and the Little Pecan Bayou area. Catfish balls and shrimp have been working well.

### NEW REGULATIONS

Recreational fishermen harvesting tuna in the Gulf of Mexico need a permit except for blackfin tuna or little tummy, often called bonito.

Recreational flounder fishermen will have a 10 fish limit per day, beginning May 1. This is in or out of Louisiana waters. There is no minimum size length.

The National Marine Fisheries Service announced that recreational fishing of Atlantic bluefin tuna exceeding 73 inches in length is prohibited after Feb. 28. The daily catch limit for smaller blufin tuna is reduced to one fish per day. The minimum size of bluefin tuna from U. S. waters is 27 inches fork length for recreational anglers.

If you claim to be a handicapped hunter, the law has strengthened and proof is required. A commission approved doctor licensed by the La. State Board of Medical Examiners and two commission approved boards to determine who qualifies for permits. If it's not a permanent condition or if future prognosis is uncertain, the person will not qualify. It states a wheelchair bound applicant must be permanently disabled and confined to a wheelchair. A mobility impaired hunter is one who can walk less than 150 yards, even with mechanical aids. An amputee must have an amputation of at least one arm, hand or all five fingers of one hand to qualify. Any applicant with a felony confiction or Class I or above wildlife conviction is not eligible for a permit. A $10 fee is charged for each permit.

### NEWS TALK

Free fishing days have been declared by the Department of Wildlife and Fisheries. Louisiana free fishing days are June 8 and 9. No license required for both residents and non-residents.

Two men were arrested for possessing alligators in closed season, illegal possession of alligators, illegeal possession of white alligtors and illegal possession of stolen items. One was charged with selling alligator without a license. The two white alligators were taken from the Cameron Parish West Pass Farm as well as equipment taken. These two white alligators were 3 to 4 feet in length. These two could face up to 11 years and seven months in jail and fines up to $13,950.

### COMMERCIAL NEWS

The commercial red snapper season is closed through Dec. 31, in federal waters of the Gulf of Mexico. The commercial quota of 3.06 million pounds was reached April 4.

MRS. RUTH COLE is shown at the South Cameron Memorial Hospital surrounded by the personnel who cared for her during her recent stay. From left are Nurse Mary Lynn Constance, Dr. Peter Forrest; Mrs. Cole; and Kelley Thomas, emergency room attendant. (Photo by Geneva Griffith.)

# Patient inspiration to others

By GENEVA GRIFFITH

"Ruth Cole is indeed a special woman", observed Dr. Peter E. C. Forrest, the emergency room doctor at South Cameron Memorial Hospital, who admitted her to the hospital last week.

Ruth Cole, 87, was brought into the emergency room and admitted with a bad cough and fever, and was a little weak but not ready to give up the ship. She was ready for admission to the hospital, but was worried about her job, whether they would be able to find someone to take her place and whether or not she had any sick leave left.

She has a part time job working for the Council on Aging, and does alterations and sewing when she can find the time.

She has amazed the personnel at the hospital with her energy and her ability to bounce back from adversity.

She first came to Cameron three years ago driving an R.V. and accompanied by three dogs. she came to do missionary work in the area, and when asked for which denomination, answered, "I am a missionary of God - no demonitation." She attends the Oak Grove Assembly of God and gives the paston Rev. Fontenot and the congregation credit for her quick recovery from an illnes at one time.

She helps in the feeding of the homeless for the church and community, reads to children in the Head Start program, and still manages to squeeze in time to attend the GED program at school to get her high school diploma.

She also sings for the swing-bed patients on Sundays at the South Cameron hospital.

She likes to tell about the trip she went on to Spain by herself when she was 75 years old, and was so fortunate to meet many kind people who gave her the right directions and help to get to her destination.

Dr. Forrest said he would like to make her "Queen for the Day" and to thank her for the laughs and moments of joy she brought to him and the patients and personnel of the hospital.

She has now been discharged from the hospital, but her memory will remain.

# Search on for special children

The Cameron Parish School Board has proclaimed April as "Child Search Awareness Month". Child Search is a continuing effort of the Louisiana State Department of Education and Public School system to locate and identify children with disabilities. Federal and state legislation require educators to find and evaluate children birth through 21 who are in need of services in order to benefit from education.

Due to legislation concerning services to the infant/toddler population, birth through 2 years of age, special emphasis is being placed on identifying and serving children in this age group who may need special services.

Child Search is looking for children who may be mentally disabled, hearing or visually impaired, severe language disordered, autistic, emotionally disturbed, health impaired, multi-disabled, or otherwise disabled. The program also seeks gifted and talented children who are provided special programs under Louisiana law.

A standard process for screening and evaluation of children who may be disabled has been developed by the Louisiana Department of Education. Only a parent or guardian may give formal permission for a child to be evaluated. However, any concerned individual may refer a child to Child Search. All information provided is confidential and no services or interventions may begin without parent/guardian permission.

To make a referral or for more information, call Willyne Kestel, Supervisor of Special Educaiton or Donna Kaufman, Child Search/Child Net coordinator at 775-7570.

KC COUNCIL 11576 of Hackberry recently conducted a Tootsie Roll drive to raise funds for special education. Grand Knight Gene Little, left, is shown presenting Principal Austin LaBove with a check for $1227 to be used for equipment for the Hackberry special education classes.
