Juror Ray Conner said that it would cost about $4 per acre to spray the area by air and he was not sure the drainage board has any money for such a project.

Dugas said he would check into it and see if there was a way to get a boat in the area for spraying.

CANDIDATE

Darryl Derouen of Lake Charles, was introduced and said he is running for State Representative for the seat which Randy Roach is vacating.

James Watts, Cameron's representative on the Lake Charles Port Commission, gave a progress report on the port.

"Our cargo business is down", he said, "and Texas ports are getting some of our business, due to some of the recent controversy at the port.

"The riverboat is helping and plans are in the making to establish an industrial park on the property the Port has purchased at Chennault," he stated.

GRANT SOUGHT

Ray Conner asked the jury to back him in applying for a $100,000 grant to clean out the Creole Canal. A permit has already been obtained for the work.

Juror Badon called on the citizens to sign a petition and write letters to their legislators to secure a ferry across the Calcasieu River. "It would be a plus to Cameron Parish tourism to get an additional ferry across the Calcasieu River at Cameron", he said. "There have been so many oppositions to various plans for a bridge, maybe we could get an additional ferry", he said.

4-H PROGRAM WINNERS

Gary Wicke, representing the local 4-H program, informed the police jury that there are 32 parish contestants in the 4-H annual statewide 4-H program competition at LSU in Baton Rouge and that Cameron Parish received the Nolan Reach Memorial Award in the state competition competing with approximately 16 other parishes.

Two 4-H members among the to winners were Maranda Daigle, state winner in the Child Development contest, and Kristi Jo Dupuie, first alternate in Photography.

Maranda is the daughter of Michael and Jo Ann Daigle of Hackberry, and Kristi Jo is the daughter of Mr. and Mrs. D. A. Dupuie of Grand Chenier.

Cameron Lions Club hears speaker on pesticides

By GENEVA GRIFFITH

Mike Redlich of Eunice spoke to the Cameron Lions Club last week on behalf of the Agri-Chemical Association on insecticides.

"Pesticides are bad only if misused," he said, "and we should not worry about potential health risks when they are properly used.

"Since it is virtually impossible for us to consume any food in the U.S. in amounts which would expose us to toxic levels of natural or manmade chemicals, we need not worry," he stated.

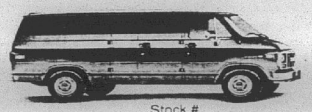
"Our bodies can handle small amounts of natural chemicals -- we metabolize them unchanged without doing any damage," he continued.

Pete Duhon, club president, discussed plans for the club to raffle a gun to raise money for club projects.

Overlay work slated

According to Rep. Randy Roach, overlay work on Hwy. 1143 should begin in about 8 weeks.

Drainage, pavement patching, overlay and related work will begin at the La. 1143/La. 27 intersection in Creole then proceed eastward along La.1143 for 7.1 miles.



R. E. Heidt Construction Co., Inc., received the bid last week.

Rep. Roach also requested that ditches along this stretch be cleaned out for proper drainage.

FUNERALS

CRYSTAL L. BADON

Funeral services for Crystal Denise Lejeune Badon, 31, of Cameron, were held Wed., Aug. 2, from St. Peter Catholic Church in Gueydan.

The Rev. Grady Estilette officiated; burial was in Gueydan Cemetery.

Mrs. Badon died Sunday, July 30, 1995, in Perkinston, Miss.

A native of Gueydan, she was a homemaker.

Survivors are one daughter, Tanya Lynn Badon of Cameron; four brothers, Joseph S. Lejeune, Jr., Groves, Tex., Michael David Lejeune Sr. and Phillip Lejeune Sr., Cameron, and Gordon Paul Lejeune, Elton; four sisters, Mrs. Eugene (Deborah) Hanks, Gueydan, Mrs. Danny (Darlene) Tingler and Mrs. Ray (Stephney) Mallett, Cameron, and Mrs. Henry (Phyllis) Oglesby, Lake Charles; her father, Joseph Sam Lejeune Sr., Cameron; and her grandmother, Mrs. Daisy Schoultz, Gueydan.

MRS. ADIA G. BENOIT

Funeral services for Mrs. Aida G. Benoit, 75, of Gibbstown, were held Friday, July 28, in the Johnson Funeral Home chapel in Lake Charles.

Rev. Bryan K. Benoit, S.C.J., Mrs. Benoit's son, concelebrated the funeral mass.

Burial was in Our Lady of the Marsh Cemetery in Little Chenier.

Mrs. Benoit died Tuesday, July 25, in the South Cameron Hospital.

A native of Hayes, she was a resident of Gibbstown for 61 years. She was a member of St. Patrick's Altar Society and she attended St. Mary of the Lake Catholic Church and St. Patrick's Chapel.

Survivors include one daughter, Mrs. Charles (Verna) Pettefer, Sweet Lake; one son, Rev. Bryan K. Benoit, S.C.J., Houston, Tex.; her step-mother, Lorena C. Gaspard, Little Chenier; two step-brothers, F. J. Gaspard, Kenner, and E. J. Gaspard, Little Chenier; five grandchildren and eight great-grandchildren.

MRS. INEZ EAST FONTENOT

Funeral services for Mrs. Inez East Fontenot, 86, of Creole, were held Friday, July 28, in Hixson Funeral Home.

The Rev. Dan Landry officiated; burial was in Immaculate Conception Cemetery in Grand Chenier.

Mrs. Fontenot died Wed., July 26, 1995, in a Lake Charles hospital.

A native of Delcambre, she was a member of the Catholic Daughters for more than 48 years and a member of St. Margaret Catholic Church.

Survivors are two sons, B. J. "Poochie" East and Floyd East, both of Lake Charles; one sister, Anna Mae Stelly of Forked Island; four grandchildren, and four great-grandchildren.

Valerie Cox

Cox was summer instructor at MSU

Valerie Cox of Sweet Lake, along with Judy Vail, Darlene Morris, and Linda Hayes, were the instructors for the Louisiana Systemic Initiatives Program in Visualizing Mathematics at McNeese State University this summer.

Cox, a 1992 graduate of MSU, is currently employed by the Calcasieu Parish School Board and is a middle school mathematics teacher at Bell City High School. she is also a consultant for the Mathematics Learning Center in Portland, Oregon, having had Math in the Mind's Eye and attended the 1995 Leadership Seminar in Portland, Ore.

She has taught Visual Mathematics to sixth-eighth graders for the past two years. She assisted in her first MME workship in Menassas, Va., in June and she and Darlene Morris will conduct an MME workshop in Santa Rosa, Calif., in August.

Visual Mathematics, like science, social studies and some other subjects, is taught using hands-on activities with the aid of manipulatives like models, sketches, and diagrams which enable students to develop an understanding of mathematical concepts and processes.

Cameron Parish teachers who took the Visual Mathematics course at MSU this summer were Tommy Broussard and Roselyn Harris, mathematics teachers at Grand Lake High School.

THE CAMERON Elementary 4-H officers presided over the story hour held July 19, at the Cameron library. They are, left to right: Tomas Johnston, Josh Picou, Chance Doxey, Kayla Kelley, Kristin Sturlese, Tabatha Beard, Jessica Murphy. They presented a country skit on the importance of reading.

Last summer program held at library

Seventy children sang, circle-danced, and listened to stories at the Cameron Parish Library's last Summer Reading Program last Wednesday, July 26.

Shauna Billings, Annette Duhon, Brandi Hebert and Toni Kay Nunez painted boots, hats and sheriff's badges on everyone's faces while Rhonda Duhon led the singing.

Donna LaBove and Sandra DeShields of the Cameron State Bank judged the "dress western" contest. Cammie Savoie and Brett Richard won first place prizes, Bailey Richard and Jonathan Trahan, second; and Alice Duhon and Chad Benoit, third.

Ice cream and cake were served as refreshments. The cake, donated by Barbara Lou LeBlanc, was decorated with this year's theme, "Reading Round-Up: Rope a Good Book".

Robyn Doxey returned this week's reward poster found at Cameron Food Mart for a prize.

Hackberry children met the library Bookmobile at Hackberry High School July 26, for their last "Reading Round-Up". There were 13 children present with Chad Pitre reading.

Grand Chenier and Creole children met the Bookmobile for their last story time July 27. Brandi Hebert read to 11 children at the Grand Chenier Fire Station, and Lauren Sanders read to 10 children at True Value Hardware in Creole. Trevor Nunez returned a reward poster found at Tarpon Video for a prize.

Grand Lake/Sweet Lake children met for story time at Grand Lake High School Tues., July 25. Mandy Broussard and Laura Savoie read to 16 children. Grand Lake/Sweet Lake children will meet for their last Story Time of the summer Aug. 8, at 12:15-12:45 p.m. at Grand Lake School.

BE PREPARED HURRICANE SEASON IS HERE!!!

South Cameron Ambulance Service, Cameron Parish E.M.S., in association with South Cameron Memorial Hospital wish to remind all Cameron Parish residents of the following:

— STORM EVACUATION RULES —

1.) All Cameron Parish residents with bedridden family members who live at home and wish to be evacuate when the order is given, please call Brenda Boudreaux at 542-4111, ext. 200. Cameron Parish residents should plan a destination for their bedridden family members. This destination may be a Red Cross Shelter in Lake Charles, or a family or friend's residence in the Lake Charles area. South Cameron Memorial Hospital has only a limited amount of rooms reserved in the Lake Charles area for admitted hospital/swingbed patients. No unadmitted bedridden patients will be transported to the South Cameron Memorial Hospital evacuation area, so it is strongly advised that a destination is determined now for your bedridden family member.

2.) The public is advised that all emergencies will have first priority and the Ambulance Services will transport only to the Lake Charles, Port Arthur areas. No long distance transports will be permitted.

Below is a list for your bedridden family member that may be clipped out and saved in the event of an evacuation:

AMBULANCE NUMBERS FOR EMERGENCIES ONLY

Suits could lead to the extinction of shrimpers

(EDITOR'S NOTE--The writer of the following opinion piece is a 1994 graduate of LSU, where she was student body vice president. She is currently in law school at George Washington University National Law Center in Washington, D. C. and is a fellow at the Washington Legal Foundation. She may return to Louisiana to practice law after graduation.)

By AMANDA BOLZ

The democratic process is being bypassed this week by environmental activist groups in federal court, and this time the victim is the Gulf Coast shrimping industry.

Earlier last month, environmental groups sued the National Marine and Fisheries Service (NMFS) claiming that the agency is violating the Endangered Species Act (ESA) by allowing too many turtles listed as endangered to drown as a result of shrimping in the Gulf of Mexico. They sought a federal court injunction to temporarily halt shrimping in some areas, specifically within 10 miles of shore along most of the Texas and Louisiana coastline.

More recently, on July 14, the Earth Island Institute filed a new motion asking U.S. District Judge Sam Kent to force NMFS to implement stricter regulations. NMFS had decided not to implement the new restrictions requiring the use of hard top-shooting Turtle Excluder Devices (TEDs) after opposition from shrimpers and from U.S. Congressmen Hayes, Livingston, and Tauzin of Louisiana. District Judge Kent decided to allow shrimpers to begin the season without any new regulations and have the parties meet in court on Aug. 1, to evaluate the data gatered during the time since the shrimping season opened in Texas.

Currently, all shrimpers in the Southeast Region are required to use some form of TEDs in their nets. As of July 26, the Coast Guard Group in Galveston was reporting a 98.25% compliance rate. Since the Texas season opened, authorities had boarded 343 shrimp boats and found only six violations. The violations were bent turtle devices or cut webbing, not a lack of protective mechanisms. The shrimping industry has 100% compliance with the use of TEDs along the Texas coastline and for the last three weeks, the Coast Guard Group in New Orleans reqported 100% compliance. Despite the shrimpers' compliance with the current regulations, there are still strandings.

NMFS officials contend that TEDs exclude 97% of the turtles from the shrimpers' nets, yet the number of turtle strandings has not decreased since shrimpers have been in full compliance with the regulations. If TEDs do not solve the problem, then the restrictions the environmental groups want implemented requiring strict compliance with TEDs use will not decrease the number of turtle deaths. Furthermore, the shrimping industry will be burdened with new gear restrictions costing even more money without the root of the problem being addressed.

Faced again with lawsuits and the possibility of new regulations, the Texas Shrimp Association (TSA) (supported by shrimpers all along the Gulf Coast) hired an independent research association to develop a plan to protect the turtles. TSA did so with the understanding that the industry would live by whatever recommendations were made.

The researchers at LGL Ecological Research Association compiled all available data from NMFS, universities, etc. and found that the endangered turtles are found mostly inshore, approximately within six to eighteen miles. In the plan, Dr. Benny J. Gallaway recommended that six miles from shore be a turtle conservation zone, with gear restrictions and the required use of TEDs with the exception of a larger zone of conservation stretching out to eighteen miles in particular areas.

Beyond that, Dr. Gallaway recommended that the use of TEDs need not be mandatory. Dr. Gallaway believes that less turtles will die once the fishing intensity decreases closer to shore where the turtles are found. With the gear restrictions inshore, approximately 65% of the industry will be forced to shrimp beyond the conservation zone.

Both the LGL/TSA Gulf of Mexico Sea Turtle Conservation Plan and the plan developed by NMFS call for a working panel of experts from all the various groups involved to help formulate a solution fair to all, but the environmental groups have chosen the court as their forum to implement their policy.

Environmental activists have several incentives to sue in court. Not only can a suit intimidate federal agencies into over-regulation or industries into agreeing to more restrictions, but the groups can receive attorney fees for merely filing a complaint. Moreover, a decision by one judge can easily get the groups what they desire without going through a long, uncertain democratic process.

The groups face a stiff opponent, however, in the Texas Shrimp Association. The Earth Island Institute originally filed suit in Washington, D.C. against NMFS. TSA intervened in the suit and refused to settle because they claimed the Institute did not have recent data to base their claim upon. Challenged, the Institute decided to file to dismiss the case in D.C. and the Center for Marine Conservation (CMC) filed suit in Galveston against NMFS. Once again TSA intervened and refused to agree to any settlement. If the enviornmental groups are going to push for the adoption of their views in court, the industry wants them to prove their case.

Hopefully, TSA's decision to fight rather than settle will set a positive precedent for other industries that environmental activists drag into court. Aggressive defense by industry may discourage the filing of such suits by environmental groups to close down industries without addressing the actual causes of decline in the particular species.

These suits often result in the federal agency or industry settling without a real debate on the merits, a process which does not lead to the best conservation policy. In the case of the Gulf Coast, it could lead to the extinction eventually of both the turtles and the shrimpers.

New licenses, permits are required by legislation

The Louisiana Marine Resources Conservation Act of 1995 will go into effect Aug. 15, creating several new licenses and permits for commercial and recreational users of marine fisheries resources.

The Department of Wildlife and Fisheries, following the mandate of the Legislature, will implement the new law.

Non-resident license applicants should note that if a specific gear type is prohibited in their domiciliary state, they cannot purchase that gear license in Louisiana.

The act institutes the following new commecial licenses.

1. Gill net license for use in the federal exclusive economic zone (EEZ) only ($250 for residents, $1,000 for non-residents).

2. Mullet strike net license ($250 for residents, $1,000 for non-residents).

3. Pompano strike net license ($250 for residents, $1,000 for non-residents). See below for application criteria.

The act also institutes two permits:

1. Permit for traversing state waters to the EEZ with gill nets, trammel nets, strike nets, and seines ($250 for residents and non-residents).

2. Spotted seatrout permit ($100 for residents, $400 for non-residents). See below for application criteria.

In addition, the Department of Wildlife and Fisheries will issue tags at no charge for mullet and pompano strike nets.

•The act requires the Department to collect an additional $3 fee with the purchase of a resident saltwater license, a non-resident saltwater license, a non-resident 7-day saltwater license, a non-resident 2-day combination basic fishing and saltwater fishing license, and a non-resident charter fishing trip license. Licensees will be issued a Louisiana Marine Resources Conservation Act Stamp.

Stamps will be available at the end of September. Recreational fishermen who have already urchased 1995 licenses will not be required to purchase the $3 stamp this year, but will be required to do so next year. Holders of lifetime licenses will not be required to purchase stamps.

Money collected from issuance of the stamps will be used to fund the Commercial Fisherman's Assistance Program established by Act 1316. The intent of this program is to provide economic assistance to eligible fishermen who are "displaced or severly financially impacted by the loss of use of certain commercial fishing nets due to enactment of the act." The act directs LDWF and the Department of Labor to provide assistance and opportunities for qualified applicants in the form of education, job training, finding employment, and purchase by LDWF of nets rendered illegal or useless due to implementation of the act.

Applicatns for aid under the Commercial Fisherman's Assistance Programmust meet the following eligibility requirements:

1. Applicants must have purchased a saltwater gill net license in at least two of the three years 1995,1994, or 1993, and in at least two of those years applicants must have derived more than 50 percent of their earned income from capture and sale of seafood species.

2. Applicants must show proof of such income through copies of federal income tax returns which have been certified by the Internal revenue Service, including Schedule C of federal form 1040. If the certified return does not verify 50 percent income, the Department will accept a notarized affidavit from the fishermen to this effect in addition to Schedule C. A standard affidavid form will be available from LDWF.

3. Applicants cannot have been convicted of any fishery-related Class 3 or higher violation.

4. Applicants must have been a bona fide Louisiana resident on June 30, 1995.

5. Applicants must submit an application to LDWF no later than Oct. 1, 1995.

Applications will be made available from LDWF's Commercial License Section in Baton Rouge beginning Aug. 15, 1995.

•Three criteria are required for applicants to purchase a saltwater commercial rod and reel gear license: applicants must have held a valid commercial gear license for gill nets (either saltwater or freshwater) in any two of the three years 1995, 1994, and 1993; applicants must have derived more than 50 percent of earned income from capture and sale of seafood species; and applicants cannot have been convicted of any fisheries-related violation of Class 3 or higher.

•Four criteria are required for applicants to purchase a spotted seatrout permit: applicants must have held a valid saltwter commercial gear license for gill nets in any two of the three years 1995, 1994 and 1993; applicants must have derived more than 50 percent of earned income from capture and sale of seafood species; applicants cannot have applied for the Commercial Fisherman's Assistance Program; applicants cannot have been convicted of any fisheries-related violation of Class 3 or higher.

•Three criteria have been instituted for applicants to purchase a mullet permit: applicants must have held a valid saltwater commercial gear license for gill nets in any two of the three years 1995, 1994, and 1993; applicants must have derived more than 50 percent of earned income from capture and sale of seafood species; and applicants cannot have applied for the Commercial Fisherman's Assistance Program. In addition, any furture convictions for violations of fisheries laws or regulations will forfeit this permit.

•The act also stipulates that anyone on board any commercial vessel from which any commercial rod and reel is used must possess a valid commercial fishing license.

Monitoring is continuing

Rep. Randy Roach announced that he is continuing to receive results from testing being done for lead contamination in oysters in Calcasieu Lake. The latest data received for June and July showed all samples tested to be within the acceptable limits set forth by the Department of Health and Hospitals. The routine testing is a result of the delay in the opening of the oyster season in 1994.

In order to assure oyster fishermen that they will not be faced with another delay in the opening of oyster season, Rep. Roach presented House Bill NO. 260 which requires the Dept. of Health and Hospitals to report the results of testing of oysters in Calcasieu Lake 45 days prior to opening of oyster season.

Dugas Landing will be let about 23rd

Rep. Randy Roach has received an update from the Corps of Engineers on the progress of the Dugas Landing Project at Hackberry. It is anticipated that a contract will be awarded on about Aug. 23, with construction beginning in early September. The project should be completed in approximately four months.

The Corps of Engineers has made several minor changes in the original drawings to reduce the costs of the project. Those changes are as follows:

1) The rock crown has been reduced from elevation +8.0 ft. to +7.0 ft.;

2) For the two openings, rock will be placed along the access side for a length of 200 ft. instead of 500 ft.;

3) The Access channel on the backside of the embankment has been deleted from this contract. The Corps of Engineers will dredge the access channel during the upcoming dredging contract which is scheduled for 1996. The material will be used to strengthen the backside dike so that dredged material can be placed within the contained embankment;

4) The final change removes the "S" curve discussed for the opening at station 737+00. The hydraulic engineers with the Corps believe that the "S" design would cause shoaling and could close the opening. They believe a better solution is to construct a breakwater between the embankment and the shore which would not cause the opening to shoal.

Considering the modification above, the cost of the project is estimated to be approximately $2.2 million. Since the price of rock is very usntable, it is possible the project cost may exceed $2.2 million. If so, the Corps of Engineers will try to fund the difference in their FY96 program.

Car burns last week on Oak Grove road

By GENEVA GRIFFITH

The Grand Chenier Volunteer Fire Department put their lives on the line last week when they responded to a call about a car on fire in the ditch on the Oak Grove Highway, one mile east of South Cameron High School.

The fire was reported by passing motorists when the driver of the car could not be located. By the time the fire department arrived the car was completely engulfed in flames. The Cameron Parish Sheriff's Department closed off the highway until the fire was extinguished for fear of an explosion.

In spite of the very dangerous situation several people tried to extinguish the blaze with fire extinguishers before the fire truck arrived. However, they were unsuccessful and the fire department succeeded in putting out the blaze before it could blow up.

Deputy Milton Collins investigated the accident and Deputy D. A. Dupuis, who was on patrol in Grand Chenier, later found the driver at the Rajon Food Store in Grand Chenier. The driver stated that he was on his way to work in Cameron when he fell asleep. He stated he crossed the highway and went into the ditch, and after trying to get the car out the exhaust caught the grass on fire and he left the scene because he was afraid the car would blow up.

The Lafayette man was charged with leaving the scene of an accident and careless operation.

MUSING . . .

By Bernice Denny

Spanish moss memories

There was a time when cured Spanish moss was utilized almost exclusively in stuffing mattresses found in Southern homes. It is still used in cheap upholstery and in place of sphagnum for packing purposes. The process of picking and curing moss for home use begun by the first settlers in this area, continued until factories produced cotton-filled and later inner-spring mattresses.

In Louisiana in 1926 there were 55 moss ginneries and factories listed in the year book that was issued by the Department of Agriculture and Immigration at Baton Rouge. There were the Mermentau Moss Factory at Mermentau and the Girard Moss Company and the Dave Schwartz Moss Gin, both in Lafayette.

In 1928, 51 moss ginneries and factories were attributed to Louisiana. In that year, the moss gathered in our state was estimated at more than a million dollars. The cheniers of Cameron Parish with their wealth of live oaks bearing luxuriant festoons of Spanish moss provided their share to the industry.

Lake Arthur itself provided an ideal setting for a moss gin. There was more than a sufficiency of the "Spanish beard" or the "French wig", whichever you prefer to call it. The lake made transporation easy.

Isaac (Ike) Vaughan, a former resident of Grand Chenier, capitalized on the potentials. Already he was operating a small shipyard on his lake-front property adjacent to the camp ground. He build a moss factory there, too, at the end of a canal dug from the lake.

Two youths, his son Clifton and A. P. Stewart, both nativesof Grand Chenier, sometimes assited by an older man, Charles Durapau, gathered the moss and brought it in. The moss-gathering season extended from November to April. George Durapau worked with the older Vaughan at the gin.

A small pontoon barge moved by a gasoline motored boat was used in gathering the moss. It ran along the banks of Lake Arthur and several miles along the Mermentau River. A tubular mast centered the barge. Around the mast was a two-foot square platform called a "cradle" or "crow's nest" enclosed by a three-foot high rail. By means of a block and tackle a man might stand on the enclosed platform and pull himself up or down to the proper height to grasp the long banners of moss that floated from trees over-hanging the bank.

A long wooden pole with an iron hook set in the end was used to snag and pull down moss that grew higher in the trees. The gathered moss was piled into the barge and taken ashore. Big sticks were removed by hand from the Spanish moss. It was stacked in beds of 18 to 20 inches in height and was saturated with water pumped from the lake. The steeping process continued until the outer tissues could be washed off. Then the moss was allowed to dry and turn black.

By then it was read for the ginning process. the gin operated from a gasoline motor. A cylinder with teeth and brushes cleaned the moss. It was processed and baled.

Nearly all of it was shipped by boat to factories in the New Orleans area.

Butterfly count conducted here Sun., July 23

Sunday, July 23, the fourth annual "Fourth of July Butterfly Count" was conducted in Cameron Parish. Sponsored by the Xerces Society and the North American Butterfly Association, the count was coordinated by Dr. Gary Noel Ross of Baton Rouge.

Although the day was incredibly hot, 24 participants--some from as far away as Pineville and New Orleans--gathered at the Baton Rouge Audubon Society's Migratory Bird and Butterfly Sanctuary near Peveto Beach and Johnson Bayou.

At day's end, the group had tallied 241 individual butterflies representing a surprising 26 different species. Although the 1994 count produced 261 individuals, only 17 species were represented.

The increased diversity is a good sign. In fact, Dr. Ross sayd that, "I am sure we would have seen an additional four or five species if the dragonflies were not so abundant." Dragonflies are known predators of butterflies, particularly small and low flying species.

Dr. Ross sais that "almost no small butterflies were seen, and I conclude that the dragon flies are taking their toll of the more delicate species." Ross continues, "But since dragonflies are good mosquito controls, I suppose we should be happy that they are so abundant."

Of the 26 species reported, three had never been recorded on previous counts. These are Queen Butterfly, Great Southern White, and Large Orange Sulphur. All are large beautiful butterflies that are making a nice addition to the parish's butterfly populations.

The butterfly count will take place again next eyar. Watch for the announcement of date in late June.

Road signs vandalized

By GENEVA GRIFFITH

Tina Horn, Cameron Parish administrator, said that vandalism and theft are taking place on some of the parish roads. People are stealing some of the road signs, many right after the parish crews have put them up.

Two in particular that have been stolen from the Rutherford Beach road are the "No Fishing From Bridge" signs which were placed on both sides of a bridge from which people have been fishing and crabbing. The signs had just been installed when they were taken.

There is a danger of someone getting run over when crossing on the narrow road without wide shoulders, Mrs. Horn stated.

District Attorney Glenn Alexander, Cameron Parish District Attorney, said that anyone caught taking any of the road signs will be prosecuted for theft.

Mrs. Horn said that the signs run at least $35 each and the theft and vandalism are costing the parish money.

Alexander said that the fine for anyone convicted of tampering with the road signs will be $500 and possibly jail time.

Jury makes appointments

Dinah Landry was appointed to the Rural Conservation and Development Board by the Cameron Parish Police Jury at its monthly meeting Tuesday.

Reappointed to boards were Douglas Gray, Cal-Cam Hospital District; Willard Savoie, Water Dist. 7; and Danny Boudreaux, Recreation Dist. 9.

Liquor permits were approved for G & G, Gene Constance, Holly Beach, and Benoit's Cajun Spice, Kathy & John Moon, Cameron.

A special Sunday liquor permit was approved for the Cajun Rivier Festival at Holly Beach for Aug. 13.

A oil and gas permit was approved for Shell Western in the Oak Grove area.

The police jury president was given the authority to sign an agreement transferring the ownership fo the Grand Chenier Park from the state to the jury.

The parish has leased the park from the state and maintained it since it was deeded to the state after the death of Capt. Charley Nelson years ago.

Ship channel study Oked

Senator Bennett Johnston announced Senate Appropriations Committee approval of $540,000 for a study to look at ways to improve the Lake Charles ship channel in Calcasieu and Cameron parishes.

The study will determine the feasibility of constructing a bypass ship channel and general anchorage area for the Calcasieu channel at Hackberry to provide improved navigation capacity.

Currently, one-way traffic conditions, due to a narrow channel and lack of general anchorages, have resulted in significant delays for large ships. As a result of increased safety awareness, ships are no longer allowed to anchor in the channel's turning basins, causing a traffic jam.

The Army Corps of Engineers is instructed to examine the need for constructing the deep-draft bypass and anchorage area for large ships.

Texas man is sentenced here

Judge H. Ward Fontenot, 38th Judicial District Court, sentenced James Thomas Vita, 34, of San Antonio, Tex., to 15 years in the Department of Corrections last week as an habitual offender.

He has been convicted of four felonies in Louisiana since April 30, 1980.

Along with his convictions in Calcasieu and Acadia parishes, he was convicted on April 30, 1995, of simple burglary in Cameron Parish.

Elect

Cynthia "C. Anne"
KING
CLERK OF COURT

My Dear Friends Of Cameron Parish,

I am the only candidate who has worked extensively in all departments and areas within the Clerk's office as a Deputy Clerk of Court for 18 years. I have been the Chief Deputy Clerk since 1988 and in the Clerk's absence have performed all the clerk's duties.

I know what Cameron Parish citizens demand of their Clerk of Court - Experience, quality of service and dedication to the needs of Cameron Parish. I know that as your Clerk of Court I will be able to effectively serve Cameron Parish with honesty and dependability.

I am very proud of my Cameron Parish Cajun Heritage. I was born and raised in the Creole community all of my life. I am the daughter or Roland and Lydia Primeaux. I am married to Michael King and we have three children, Ryan, Krystal and Chelsi. I am an active member of Sacred Heart Catholic Church.

Sincerely,

YOUR VOTE AND SUPPORT IS APPRECIATED.,
GOD BLESS EACH OF YOU.

16-15-6; Bordering East side of lower Mud Lake; 1-1/2 miles South of La. Highway 82 in Grand Chenier; excluding that portion of land for lease as industrial site, containing 0.787 acres.

16-15-7; Along the Gulf; approximately one (1) mile South of the Mermentau River and five (5) miles West of lower Mud Lake; 22.46 acres.

(A description map may be seen in the School Board Office during normal working hours.)

All bids must be sealed; the envelope marked "Bid - Section 16 ___ Township ___ - Range ____, and may be forwarded through the U. S. Mail to the Cameron Parish School Board, P.O. Box W, Cameron, La. 70631. Bidder must offer an annual rental of not less than $2.00 per acre for a lease with a primary term to end July 31, 2000. Annual renewal rentals will be due each year by July 31st, in order to continue the lease in effect. Cash or check in favor of the Cameron Parish School Board for the amount of the annual rental for the first year shall accompany and be deposited with the bid, and the rental thus deposited shall be forfeited to the Board as liquidated damages if the successful bidder fails to enter into written contract in accordance with his bid within ten (10) days after acceptance by the Board.

If farming rights are utilized, bidder may offer as rental plus a fractional part of not less than one-sixth (1/6) of any and all crops produced and saved during the year. The value of the one-sixth (1/6) share shall not be considered in the awarding of the lease unless the bidder guarantees a specific amount which shall be added to and accompany the bids. Should the one-sixth (1/6) value of crops be less than the cash guarantee paid at the time of the lease, the Cameron Parish School Board shall demand such additional payment as necessary to bring the value adjustment to a full one-sixth (1/6) of crops produced and harvested on any and all listed sections, and thirty-five percent (35%) of cash market value of all alligators harvested by lessee. Lessor reserves the right to count and dispose of alligator eggs from the lease premises, without any compensation to lessee.

The surface rights and privileges granted in this lease are restricted to range, trapping, hunting, farming, and fishing and these rights shall in no way, manner, or form interfere with the granting of a mineral lease or the full utilization of all rights and privileges granted in any mineral lease.

It is further agreed and understood between the contracting parties hereto that this lease shall be heritable, but shall not be subject to mortgage, pledge, hypothecation or seizure and sale, nor shall the said lease be assigned, subleased, or otherwise transferred by the said lessee unless authorized by prior written approval of the lessor. Such assignment, sublease or transfer of said lease shall be subject to terms and conditions as may be deemed proper by the lessor.

The Cameron Parish School Board does not warrant or provide ingress or egress to the leased premises. Ingress and egress are the sole responsibility of lessee.

Bids will be received until the hour of 2:00 P.M., Wednesday, August 9, 1995 at which time all bids received will be opened and considered in public session of the Cameron Parish School Board in Cameron, Louisiana.

The Board reserves the right to reject any and all bids received.

Public Law 103-380 Title II

On motion of Mrs. Nunez, seconded by Mrs. Abshire, the Board received notification from State of Louisiana of one-time pay supplement for all personnel and approve distribution to employees when the funds are received.

On motion of Mr. Hebert, seconded by Mrs. Abshire, the Board approved the formation of a health insurance committee.

On motion of Mr. Johnson, seconded by Mr. Hebert, the Board heard an appeal from Debbie Fuselier regarding her son's attendance at Grand Lake High School and approved her request with the stipulation that her son abide by Cameron Parish's attendance regulations during the 1995-96 school session. The vote is recorded as follows:

AYES: Abshire, Johnson, Billiot, Hebert, Morris
NAYS: Nunez
ABSENT: None

On motion of Mr. Hebert, seconded by Mr. Johnson, the Board deferred changes to the Notice of Publication for mineral leases until next month.

On motion of Mr. Billiot, seconded by Mr. Hebert, the Board received a notice from Thomas McCall, Superintendent, regarding his retirement effecting January 3, 1996.

On motion of Mr. Billiot, seconded by Mr. Hebert, the Board received a notice from Thomas McCall, Superintendent regarding his retirement effective January 3, 1996.

On motion of Mr. Hebert, seconded by Mr. Johnson, the Board received comments from Mr. Morris on an article correlating ACT scores with other factors.

On motion of Mr. Hebert, seconded by Mr. Billiot, the Board approved the financial report for the month of June.

Leases with renewal due by 7/31/95:

16-12-06, 16-14-05, 16-14-07, 16-14-13, 16-144-14, 16-15-03, 16-15-04, 16-15-15.

On motion of Mr. Johnson, seconded by Mrs. Abshire, the Board accepted the recommendation of the Financial Planning Committee to have the staff report back to the committee on a study of restructuring the pay scale for administrative personnel from assistant principal to superintendent and other central office personnel hired after January 1, 1995.

On motion of Mrs. Abshire, seconded by Mr. Johnson, the Board accepted the recommendation of the Financial Planning Committee to have the staff report back to the committee on a study of advantages and disadvantages of hiring part-time employees.

On motion of Mr. Hebert, seconded by Mrs. Nunez, the Board accepted the resignation of Monica Cormier, 1st grade teacher at South Cameron Elementary.

On motion of Mr. Hebert, seconded by Mrs. Abshire, the Board approved a request from Carol Sloan, special education teacher at Hackberry High School, for a leave without pay for the 1995-96 school session.

After a written recommendation from Superintendent Thomas McCall, that James Melanson be named principal at Grand Lake High School, was read by Mr. Roger Richard, Mr. Morris called for a vote. The vote is recorded as follows:

AYES: Morris
NAYS: Abshire, Johnson, Nunez, Billiot, Hebert
ABSENT: None

The motion failed and a second written recommendation from Mr. McCall, that David Duhon be named principal at Grand Lake High School, was read by Mr. Roger Richard. Mr. Morris called for a vote and Mr. Duhon was named principal at Grand Lake High School unanimously.

On motion of Mrs. Abshire, seconded by Mr. Billiot, the Board approved a request from the "Little Britches" Rodeo Club at Hackberry High School, allowing them to use the Hackberry High School rodeo arena according to the Board's policy on use of facilities, with the club providing their own liability insurance coverage. The Cameron Parish School Board is to be named as additional insured and the club will not be school sponsored.

On motion of Mrs. Nunez, seconded by Mrs. Abshire, the Board received notification that their request to the Board of Elementary and Secondary Education for an exemption to the alternative education program requirements for suspended and expelled students (LA. R.S. 17:416.2) has been approved.

On motion of Mr. Billiot, seconded by Mr. Hebert, the Board approved changes to seismic permits relative to data requirements.

On motion of Mr. Hebert, seconded by Mr. Billiot, the Board voted not to sell lands in Section 16 - 12 - 5 to the U.S. Department of Interior, Fish & Wildlife Service.

On motion of Mr. Johnson, seconded by Mr. Hebert, the Board approved changes in surface lease forms to specify conditions for subleasing surface leases, including the stipulation that the Board be informed of any subleasing and that 10% of proceeds be paid to the Board on monies received after the original lease price is recovered.

On motion of Mr. Billiot, seconded by Mr. Johnson, the Board approved payment of bills for the month of June.

On motion of Mrs. Abshire, seconded by Mrs. Nunez, the Board adjourned until the next regular session on August 9, 1995.

PUBLIC NOTICE
CAMERON PARISH COASTAL
USE PERMIT APPLICATION

Interested parties are hereby notified that the Coastal Management Section of the Cameron Parish Police Jury has received the following apparently complete application for a Coastal Use Permit in accordance with the rules and regulations of the Louisiana Coastal Resources Progam and R.S. 49, 213.1, the State and Local Coastal Resources Management Act of 1978, as amended.

L.C.U.P. Application #95071

Name of Applicant: Matilda LaBove, Rt. 1 Box 246, Cameron, La. 70631

Location of Work: Cameron, Section 36, T14S, R8W, Cameron Parish, Louisiana.

Character of Work: Construction of a cattle walkway. Approximately 533 cubic yards of sand and clay material will be dredged from existing borrow pits to rebuild the cattle walkway. The cattle walkway will be used for grazing and to serve as a cattle bedding grounds.

The decision on whether to issue a permit will be based on an evaluation of the probable impacts of the proposed activity in accordance with the state policies outlined in R.S. 49:213.2. The decision will reflect in the national concern for both protection and utilization of important resources. The decision must be consistent with the Program and approved local programs for affected parishes and must represent an appropriate balancing of social, environmental and economic factors. All factors which may be relevant to the proposal will be considered; among these are flood and storm hazards, water quality, water supply, feasible alternative sites, drainage patterns, historical sites, economics, public and private benefits, coastal water dependency, impacts on natural features, compatibility with the natural and cultural setting and the extent of long term beneficial or adverse impacts.

Certification that the proposed activity will not violate applicable water and air quality, laws, standards and regulations will be required before a permit is issued.

Any person may request, in writing, within the comment period specified in this notice, that a public hearing be held to consider this application. Request for public hearings shall state, with particularity, the reasons for holding a public hearing.

Plans for the proposed work may be inspected at the Cameron Parish Police Jury Annex Building, Coastal Management Division, Courthouse Square, P.O. Box 366, Cameron, Louisiana, (318) 775-5718. Written comments should be mailed within 25 days from the date of this public notice to Cameron Parish Police Jury, Coastal Management Division, Post Office Box 366, Cameron, Louisiana 70631.

FAVORS WESTERN ROUTE

S. W. Sweeney, former District Clerk of Cameron Parish, ws in Lake Charles Wednesday morning and while here discussed the proposed routes for a highway from Lake Charles to Cameron with some of his friends. Mr. Sweeney is strong for the western route along the east shores of Big Lake and stated that West Cameron Parish must be represented in the conference called Aug. 10, for the purpose of discussing the question, for the reason, Hackberry, Big Lake and Johnson Bayou settlements will have to pay part of the taxes and are entitled to representation

CAMERON OIL NEWS

The Cameron Oil Co., composed principally of local citizens, is drilling cement plug in its Duhon No. 3 well, Section 16, at a depth of 3,240 feet, with intentions of making a test of about 15 feet of sand which it believes to be very fine.

The Moon Oil Co., another local concern, is bailing its Sanner No. 4 well today, and has strong hopes of securing a good well.

Other companies drilling in Cameron Parish just now are the Yount-Lee Oil Co., the Calcasieu Oil Co., the Rycade-Humble joint venture, and the Sunshine Oil Co.

CAMERON WATER BONDS SOLD

After a bit of horse trading Monday, the Cameron Police Jury and Cameron Waterworks Board sold $340,000 worth of Cameron water bonds at an interest rate of 4.101 percent, and contracts were awarded on an elevated water tank and the laying of water lines.

He pointed out that a recent bond sale in which the State of Louisiana had paid 4.27 percent on a bond issue was probably reconsible for the high bids. Police Jury members voiced the opinion that the Parish of Cameron was in better financial condition than the state of Louisiana.

Work on the water system is expected to start in the near future.

WATERSHED PLANS STUDIED

The creation of one or more small watershed districts in Cameron Parish to combat such problems as salt water intrusion into the marshes and promote better drainage was discussed at a meeting held Wednesday of last week in Cameron.

The meeting was called by the Cameron Parish Develoment Association, and talks were made by Alton Mangum, assistant state conservationist, Soil Conservation Service; Mark Richard, a member of the Gulf Coast Soil Conservation District Board; Eloi Primeaux, area conservationist; Hadley Fontenot, county agent; and Dr. Cecil Clark, development association president.

CIVIL DEFENSE GROUPS ORGANIZED

A Civil Defense community organization for Johnson Bayou was formed last Thursday at a meeting held at the school.

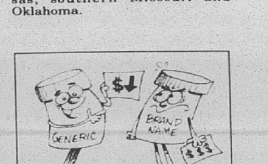
Officers named were J. B. Erbelding III, director; Roy Billeaud, assistant director; Ira Jinks, fire; Sulie Menard, police; Alton Trahan, transportation; Ronald Istre, communication; Alvin Trahan, supply; Francis Erbelding, engineering.

Meeting with the group were Joe Doxey, parish director; and Sonny McCall, assistant director, and John Paul Crain.

McCall presided over an organizational meeting for the Holly Beach area Monday evening at Paul Romero's Four Corner place.

Walter Stanley was named local director and Irvin Thibodeaux, assistant director. Leslie Theriot was elected fire chief with Irvin Thibodeaux, as his assistant. A. J. Broquet will be fireman secreary. To complete a five man directive group, Joseph Rogers and Dennis Menard were chosen.

Others posts filled were: Communication, Peter Constance, Robley Simon and Bill Havard; Transportation, Paul Romero and Lois Latiolais; Supply, Walter Stanley; Engineering, Edgar Hebert; Public Information, Mrs. Walter Stanley; Public Health and Welfare, A. J. Broquet, Mrs. Robley Simon, Mrs. Irvin Thibodeaux and Mrs. Clay Boullion.



It was stated that Hackberry, Holly Beach and Johnson Bayou will use Johnson's headquarters in Sulphur during an evacuation while the rest of the parish will be stationed at McNeese Arena in Lake Charles.

HUNTING COMING SOON

As we head into August, believe it or not, next month we'll see dove season open and see a 9-day teal season. It's around the corner, and there's no better time than now to get prepared.

Completion of a Hunter Education Class is mandatory in order to hunt in 48 of our United States.

Here in Louisiana everyone born on or after Sept. 1, 1969 must complete this course before purchasing a hunting license. This means everyone 26 years old and younger. There has been a change in the last session of the legislature that added a qualifier, a person younger than 16 years of age is not required to take the course to purchase a license. If you are 16 years old and over, you must have a Hunters Certification Card or be directly supervised by a licensed hunter at least 18 years of age.

Traveling to other states, you'll find different requirements especially in Colorado where you have to have the course if you were born on or after Jan. 1, 1949. This is roughly if you're 46 years old and younger. You have to take their course to hunt in their state, so if you plan on a trip your contact number is 303-291-7300.

For Louisiana courses, contact Lake Charles, 491-2575. Hunting is around the corner.

FISHING REPORTS

Our freswater areas are producing lots of small bass with early morning and late evening fishing. However, there's still some big ones caught. Lynn Thibodeaux caught one over 6 in the Big Burn last week, and released it. This was on a gold spoon, green frog jig.

The Monday night dog fight at Lacassaine Refuge showed the great fish the refuge has. The first place team, with 3 live bass, was a few ounces under 15 lbs, with 2 over 5 lbs. weighed in. Mike Quinn and his partner won the big money with team and large bass. Lynn Thibodeaux had a bass over 5 lbs. and Travis Broussard and Richard Duhon took third piace with only 2 fish, one going over 5 lbs. This showed 4 bass over 5 lbs. for the top three teams. All the bass were released alive. Twenty-three boats entered.

Toledo Bend is showing good bass catches. Lynn Thibodeaux fished with the Lake Charles Bassmasters Club, a night tournament, 6 p.m.-9 a.m., and had a 34 pound stringer on 5 bass, but ended up in third place. The first place team had 37.7 and the second place team had 37 pounds.

On the saltwater scene, speckle trout fishing was down in the Grand Chenier area and around the jetties. A few redfish and flounders are being taken. The trout fishing is fair around the Cameron area, but better westward toward the Holly Beach - Contance Beach area.

Some good redfish and nice specks were taken in the southeastern Calcasieu Lake area. Live shrimp on a popping cork worked well for the specks and small mullets worked best for the reds, however, don't hesitate to throw the purple/white or purple/chartreuse cochahoe plastic minnow for the redfish.

FEEDING PERIODS

Best -- Fri., Aug. 4, 4:55 a.m. and 5:20 p.m.; Sat., Aug. 5 - 5:45 a.m. and 6:15 p.m.; Sun., Aug. 6 -- 6:35 a.m. and 7:05 p.m.

Good -- Fri., 11:05 a.m. and 11:35 p.m.; Sat., 11:55 a.m.; Sun., 12:30 a.m. and 12:45 p.m.

Oyster fishermen to be reimbursed

By REP. RANDY ROACH

The Department of Wildlife and Fisheries is preparing a reimbursement plan to compensate oyster fishermen in Calcasieu and Cameron Parishes for damages and loss of income due to the delay in the opening of the 1994 oyster fishing season.

However, only those individuals who held or had made application for an Oyster Harvester's License on or before Nov. 1, 1994 will be eligible to receive compensation.

Compensation is to be accepted in exchange for release of all other liability which the state may have for economic damages sustained by reason of the temporary delay in the oyster season. The maximum amount payable to any one individual is $600.

In order to qualify for the reimbursement fishermen must show proof that they had a license or had applied for a license to fish prior to the opening of the 1994 oyster season. It will also be necessary to show proof of all money spent in preparation for the 1994 oyster season. Everyone should begin compiling receipts to be used for verification purposes.

Further information concerning this plan will be made available no later than September.

Hayes tells new office schedule

Congressman Jimmy Hayes has announced, in a continuing effort to better serve his constituents in the Seventh Congressional District, the following satellite office schedule. His Lake Charles office staff will visit with anyone to assist with any problems with federal agencies:

Tuesday, Aug. 22.

Hackberry Multi-Purpose Building, 9 to 10 a.m.

Holly Beach Fire Department, 10:30-11 a.m.

Cameron Annex Building, 12:30-1:30 p.m.

Creole KC Hall, 2-3 p.m.

If you have further questions, contact Hayes' Lake Charles office staff at 318-433-1613.

18 & under boys are winners

The Tarpons, 18 and under boys completed the 1995 season by winning both state titles in the ASA and USSSA state tournaments held in Cameron.

The team is coached by Rickey Miller. Team members are Clyde Doxey, Mark Miller, Chris Savoie, Chad Bridges, Jeff Wainwright, Jerome Guillory, Jared Savoie, Brandon Conner, Chad Portie, Derrick Blackwell and Garrett Bartie.

New net licenses will not be issued

New commercial licenses for gill nets, trammel nets, and seines for use in Louisiana's saltwater areas will no longer be issued by the Department of Wildlife and Fisheries in accordance with Act 462 of the 1995 Louisiana Legislature. The prohibition goes into effect immediately.

The new law does not apply to fishermen fishing in freshwater areas.

18 & under girls in USSSA tourney

The Lady Tarpons, 18 and under girls softball team, are entered in the USSSA World Tournament in Lubbock, Tex., Aug. 3-6.

The girls, ASA state winners, placed second at the Mullethead Tournament, first at Bayou Classic and were the Louisiana State USSSA runner-up.

Team members are Angela Guidry, Shannon Surratt, Shawna Felton, Tredale Boudreaux, Jennifer Savoie, Tiffany Acosta, Jan Theriot, Janna Rutherford, Jodie McCall, Jennifer Harper, Andrea Miller and Kendra Conner.

The Department is authorized to sell renewal licenses to any person, company, or corporation that held a valid commercial gear license for the above gear for the last two of the calendar years 1992, 1993, or 1994.

Eric Broussard

Broussard is G.L. winner of Farm Bureau Award

This year's winner of the Farm Bureau Award at Grand Lake High School was Eric Broussard, son of James and Kathy Broussard. He plans to pursue a degree in engineering at McNeese.

Eric's agricultural activities included four years of agriscience, exhibiting swine and participation in FFA.

He has been an FFA officer for three years, attended the National FFA convention in Kansas City, served on the parliamentary procedure team, and the small engine contest team for four years where for the last two years he has been the highest scoring individual at the area level contest at USL.

He has qualified for State Literary Rally every year. This year he was the highest scoring individual in Ag 4 at the district level and placed 5th in the state competition.

In science he represented Grand Lake School on the science quiz bowl team which competed against public and private schools of all sizes including Louisiana School of Math and Science where they placed ninth in the state. He graduated with a 3.6 GPA.

Other awards presented to Eric at graduation were the Woodman of the World award for excellence in American History and the patriotism award.

As salutatorian of the 1995 Grand Lake graduating class, he was awarded the McNeese State University President's award and scholarship. McNeese also extended him the opportunity to live on campus and reside in its honor dormitory which is designated for students who maintain a 3.0 grade point average. A second scholarship was also awarded by McNeese in recognition of his performance in the Southwest Louisiana Literary Rally.

Thanks for help with flat tire

Dear Editor:

Recently we were returning from a vacation and fishing trip at Holly Beach. Somewhere between Holly Beach and Hackberry we had a blowout on the boat trailer tire. There was no place to pull over, we discovered we had no lug wrench, and we found the spare rim to be rusted to the trailer. However, within an hour we were on our way again thanks to some very helpful people.

Our thanks to Amy Beauford (Buford?) who stopped and called service stations in Hackberry (who were tied up) and the sheriff's department. Also to Shannon Carroll and William Daigle of the Cameron Parish Sheriff's Department. These two guys had quite a formidable task but they were efficient and pleasant. As they said, "It's all in a day's work."

We enjoy coming to your parish for Beach Cleanup, fishing, crabbing, and other holidays. What could have been a very unpleasant experience resulted in a greater appreciation for the people and services of Cameron Parish. Thanks a lot.

Francis A. Savoie

Mr. Savoie, former tax assess., dies

Funeral services for Francis Ambrose Savoie, 75, former Cameron Parish Assessor, were held Tuesday, Aug. 8 from Sacred Heart Catholic Church in Creole.

The Rev. Roland Vaughn officiated; burial was in the church cemetery.

Mr. Savoie died Sat., Aug. 5, 1995, in the South Cameron hospital.

A lifelong resident of Cameron Parish, he graduated from Vincent Business College in Lake Charles. He served as deputy tax assessor in Cameron Parish for 20 years and then served as assessor for eight years from 1977 to 1985. He had also worked in the Cameron Clerk of Court Office for 20 years and for Hebert Abstract Co. He was a member of Sacred Heart Catholic Church, Knights of Columbus Boudoin Council 3014 and the Tax Assessors Association.

Survivors are one daughter, Mrs. Sharon Furs; one son, Francis Dwight Savoie; three sisters, Mrs. Annie Benoit and Mrs. Beulah Primeaux, all of Cameron, and Mrs. Camelia Bourriaque of Welsh; seven grandchildren and one great-grandchild.

Grand Chenier revival set

The Grand Chenier United Methodist Church is having a revival Sunday, Monday and Tuesday, Aug. 13-15. Rev. Joe Rountree, pastor, announced that Rev. Steve Caraway of Lake Charles' United University Church will be the guest preacher. Services will be at 7 p.m. each evening.

Grand Chenier United Methodist Church was founded in 1859, making it one of the oldest churches in Cameron Parish and Southwestern Louisiana.

Revival set at Johnson Bayou

Johnson Bayou Baptist Church will hold revival services Aug. 20-25. Rev. Darryl Hoychick of Immanuel Baptist Church, Eunice, will be the guest speaker. Worship will be at 6:30 p.m. Sunday morning worship will be at 10:45.

For more information, call Pastor Shane Terrebonne, at 569-2432.

Picard honored

State Senator Cecil Picard, whose district includes Cameron Parish, has been named the Louisiana Municipal Association's Co-Legislator of the Month for August.

The association honored Senator Picard for his aid in passing a number of bills that were beneficial to the municipalities of the state.

Greg Wicke

Wicke seeks position as Clerk here

Greg Wicke has announced his candidacy for the office of Cameron Parish Clerk of Court. A graduate of St. Louis High School, Lake Charles, he received his Bachelor of Science degree in Agriculture and Business from McNeese State University.

Wicke is a resident of Creole and is presently employed as Assistant Vice-President of Cameron State Bank. Prior to working at the bank, he worked for four years as a deputy with the Cameron Parish Sheriff's Department.

A Notary Public, Wicke is a past president of the Cameron Parish Lions Club and in 1991 he was awarded the Lion of the Year Award.

He is treasurer of the Cameron Parish Crimestoppers and former chairman and treasurer of the Cameron Parish Ducks Unlimited Chapter. He is a member of the Cameron Parish Cattleman's Association, the Cameron Parish 4-H Advisory Committee, the Cameron Parish Chamber of Commerce, and a director of the Better Business Bureau of Southwest Louisiana, representing Cameron Parish.

He is also a member of Sacred Heart Catholic Church, Creole, serving as CCD teacher, lay minister of communion, and pro-life coordinator. He is a member of the Sacred Heart finance committee and Knights of Columbus Council 3014.

Wicke is married to the former Wendy Lannin of Big Lake and they have three children, Katherine, Amanda and Joshua.

Sheriff Savoie

Savoie asks re-election as sheriff

James R. "Sono" Savoie has announced that he is seeking re-election to a fifth term as Cameron Parish Sheriff in the Oct. 21 primary.

Savoie was first elected sheriff in 1979 and has been reelected three times since then. He was unopposed for re-election for his present term.

During his adminstration he has increased the number of patrol deputies and purchased new patrol cars and equipment. He has actively enforce the traffic laws on parish highways and the number of traffic deaths each year has decreased by about two-thirds during his tenure.

A 24-hour sub-station was opned in Hackberry and 24 hour patrols have been extended to most areas of the parish. The sheriff's department has a boat on duty in Calcasieu Lake and one in the Lowery-Klondike area.

Sheriff Savoie institute a number of crime prevention programs in the parish and sponsors the DARE program in the schools to educate children of the dangers of drugs.

The new 911 emergency telephone system will be operated out of the sheriff's office and will aid in giving quicker responses to emergencies througout the parish.

He is married to the former Hazel Richard and they celebrated their 50th anniversary in February. They have four children and nine grandchildren.

Attend the Festival This Weekend

AT HOLLY BEACH

Cajun Riviera Festival slated

By GENEVA GRIFFITH

All systems are "Go" for a full weekend of good old Cajun fun, food and merriment at the annual Holly Beach Cajun Riviera Festival, Aug. 11-13, at the Holly Beach festival grounds.

The gates open at 4 p.m. Fri., Aug. 11, and the Junior Miss and the Miss Cajun Riviera Queen's pageants will be held on the stage of the festival grounds.

The Coasters will play from 8:30 p.m. to 1:30 a.m. and will feature Charlie Brown's tribute to the Coasters. Brown is the only member of the original band which has been in existence since 1958.

The Saturday activities get underway at 10 a.m. when the volleyball tournaments begins. Registration begins at 9 a.m. at $30 a team; the teams are coed, 4 on the field with at least 1 female. Contact Bo Welch, chairman, at 762-4647 for more information.

The Junior Queen pageant for 10-13 years old will be held from 10 a.m. to noon.

From 1-5 p.m. Lagniappe will play for dancing, followed by Down South from 5:30-9 p.m.; and Earl Thomas Conley from 9:30-11 p.m. Conley has had 13 No. 1 country and western hits.

Sunday the gates open at 10 a.m. and the bands start at 1 p.m., with Sheryl Cormier from 1-3:30 p.m. and Wayne Toups from 4-6 p.m.

There will be food booths, games, rides, etc., all over the festival grounds, and festival T-shirts and cookbooks will be on sale.

The daily gate fee will be adults $4; ages 6-12, $1; and under 6, free.

A special feature of the festival will be an Elvis Presley Mobile Museum, with an exhibit of memorabilia of Elvin Pesley, and admission is $1.

The games and rides will include pony rides.

The festival shirts will sell for child, $8; adult, $9 and $12.

The Cajun Riviera Cookbook is a reprint of last year's popular cookbook.

Agency offers help locally

The Cameron Community Action Agency is open from 7:30 a.m. to 4 p.m., Monday thru Friday, and is located in the Human Services Building, 723 Marshall St. The Agency helps with utility assistance, commodities and emergency assistance.

If anyone is in need of any of these services, contact Beverly at 775-5145 for an appointment. All programs require proof of income, names and Social Security numbers for everyone living in the home, and letters from acquaintances that can verify that they know that there is no income for the family, if this applies.

Also, if the assistance is for utilities, disconnect notices or copies of utility bills are needed. Information and referrals can be made if information is needed on a service that the Agency cannot provide.

Gulf drilling upswing seen

The World Oil magazine is predicting that there will be a marked increase in Gulf of Mexico drilling in 1995 that should produce 865 wells for the year, surpassing 1994 activity.

The forecast should be welcome in Cameron parish which is one of the centers on the coast for serving the offshore rigs.

Hackberry clinic in new state network

Louisiana Worker's Compensation Corporation (LWCC) announced the state's first major occupational medicine network for injured employees available to Lake Charles area employers through two hospitals, 12 occupational medicine clinics and numerous other health care providers and pharmacies.

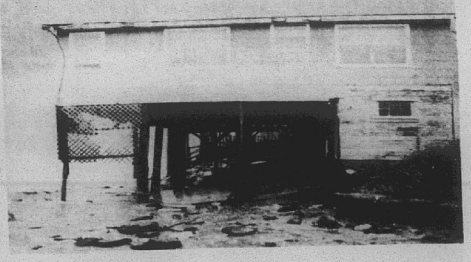
The new statewide network, called OMNET, is expected to save as much as 30 percent or more in health care costs as a result of faster access to physicians and other health care services, improved case management, earlier return to work for the injured employee, fixed fees and reduced billing administration. The network will also save LWCC policyholders as much as 40 percent of overall claims costs and possibly several million dollars per year in both medical fees and compensation benefits.

In the Lake Charles area the network will serve approximately 1,500 businesses.

Participating Lake Charles area hospitals are Lake Charles Memorial Hospital and West Calcasieu-Cameron Hospital and the occupational medicine clinics include the Hackberry Rural Health Clinic.

Msgr. Bernard is honored

Msgr. M. J. Bernard, pastor of the Sacred Heart Catholic Church in Creole, was presented with the Semper Fidelis Award for 40 years of continuous service to Msgr. Cramers Fourth Degree Knights of Columbus Assembly at a meeting in Kinder recently.



Raymond Dimas of the J. P. Boudoin Sr. Council of Creole was recognized for his contribution to the assembly's education program.

Monroe Wicke of Creole was installed as the purser of the assembly.

STORM DAMAGE--Although Tropical Storm Dean did little wind damage in the parish recently, the high waves it generated played havoc at Constance Beach west of Holly Beach. Six or seven beach homes and trailers were partially or totally destroyed by the waves that came in over a two-day period. There was also some damage to the highway that skirts the Gulf in that area. The above photos were taken by Constance Beach resident Rodney Guilbeaux.

Natchitoches home tours set in October

Unlike the rest of the South, which is elegantly Anglo-Saxon in character, Louisiana French culture and tradition still prevail.

Natchitoches (pronounced Nak-a-tish), located in the northwestern part of Louisiana, is the oldest town in the Louisiana Purchase Territory, pre-dating New Orleans by four years. Natchitoches Parish is considered to be the hub of Creole culture -- the Creoles being the descendants of the French or Spanish settlers who were in the territory prior to the Louisiana Purchase in 1803.

Today, one can visit beautiful Natchitoches Parish and partake of the largest single collection of colonial and antebellum architecture on the North American continent. There is no better time than during the 41st annual Historic Natchitoches Pilgrimage, sponsored by Natchitoches Historic Foundation, to be held Saturday and Sunday, Oct. 14-15.

This year's tour features 17 extraordinary homes, ranging from elegant Creole cottages dating from the 1700's to antebellum plantation mansions strung along the meandering Cane River Lake. The city of Natchitoches, with its bricked streets and old buildings bedecked in iron lace, resembles a mini New Orleans. These homes are divided into three separate tours.

As part of NHF's Town Tour, held both Saturday and Sunday from 9 a.m.-5 p.m., relive the simple, slower pace of the past as you tour on foot and visit the town homes of down-river planters, such as Cloutier Town House, Pierson-Lucky, Tauzin Plantation and Lambre-Gwinn. Also historically representative of their era, the Town Tour features Dogwood Inn, a colonial revival cottage; Levy-East, a newly restored home built in the 1830's; and Sompayrac-DeBlieux-Conlay, a raised Creole-style home featuring bousillage walls, and front and rear porches.

Just south of Natchitoches, in the fabled Cane River Country, plantations abound and are open as part of NHF's Cane River Plantation Tour, also held from 9 a.m. to 5 p.m. Saturday and Sunday.

At Beau Fort, built in 1790, some of the finer antiques of the state may be seen. Further down the river, the ancient Badin-Roque House, which once served as a convent school for Cane River's aristocratic Creoles of Color, will be featuring articles relating to this unique aspect of Creole culture. Witness the "Slaying of the Overseer" at Magnolia Plantation as well as the Civil War Battle of Cloutierville. Visit Atahoe and Oakland plantations, both of which were built by members of the same families who presently own them. Additionally, the near-by St. Augustine Catholic Chruch will host tourists as part of its annual church bazaar and fair, serving gumbo and meat pies, both local delicacies.

By candlelight Saturday evening from 6-10 p.m., stroll along Natchitoches' National Landmark District, just as the original owners of these homes walked on their way to a society ball. Visit Tante Huppe, a historic townhouse featuring slave quarters in the back; Chamard-Dunahoe, originally fitted with its own wedding chapel; Wella, one of the oldest French houses in the Mississippi Valley; and Judge Porter, featuring a 2-story gallery that wraps around the south and west elevations. Culminating the evening, enjoy a taste of Natchitoches cuisine at the Dupleix-Taylor Home, which was featured as the home of the bride in "Steel Magnolias."

The Natchitoches Historic District can be toured on foot, by car, or by trolley. Dining and shopping along the original bricklayed Front Street and others in the district are easily accessible. Natchitoches' picturesque location on Cane River offers the opportunity for touring the area by boat as well as providing an area for picnics, paddleboat excursions or rest. Cane River Country sites required car or bus transportation.

Visitors to the Historic Natchitoches Pilgrimage can select one, two or three of the tour packages: The Town Tour ($15 per person); The Cane River Country Tour ($15 per person); and the Candlelight Tour, held Saturday evening only ($15 per person). Individual home tickets are $10, and can be purchased at all NHF homes on both tour days.

Advance tickets and group rates may be obtained by writing NHF, P.O. Box 2351, Natchitoches, La. 71457, or by calling (318)357-0543 or (318)352-7492.

During the Historic Natchitoches Pilgrimage, tickets can be purchased at the Chamber of Commerce Office, 781 Front St.; the Dupleix-Taylor House, 320 Jefferson St.; NHF Headquarters, 550 Second St., or any home on the NHF tour. Signs will be posted.

For more information contact NHF at (318)352-0990, 357-0543 or 352-7492.

Those who could attend played basketball, swam, and did other activities. Altar servers receiving honors were Jonathan Cegar, Ryan Bourriaque and Josh Richard, 5 years; Patrick Jones, and Michael Boudreaux, 3 years; Nicklaus Pinch, Stacie Booth and Tiffany Richard, one year.

Harvey says thanks for aid

Dear Editor:

Thank you for your help, interest and courtesy during my visit last month to Cameron Parish. It was a very productive visit for me because I learned more about my grandfather, Ned Harvey, who was executed in Cameron in 1927.

I had a most interesting visit with Mrs. Eunice Griffith and Mr. Archie Berwick of Johnson Bayou. They claim to have known my grandfather and showed me where the killings took place.

I am most grateful to them and others such as Judge Fontenot, who spent time with me. Mrs. Geneva Griffith also provided me some very useful information after my return to Maryland. I look forward to visiting Cameron Parish again in a few months.

In the meantime, I am enclosing a check for a one-year subscription to the Cameron Parish Pilot so that I can follow events. Thanks again.

Crop insurance is sold here

Preliminary results of the total number of 1995 multi-peril crop insurance policies sold as a result of new crop insurance requirements has been released by USDA. Kirk L. Smith, Acting County Executive Director for the Consolidated Farm Service Agency in Calcasieu-Cameron Parishes, said that nationwide, a total of 2,399,459 policies were sold by CFSA Offices and private insurance companies for 1995.

In Louisiana, a total of 25,031 policies were sold for basic level coverage.

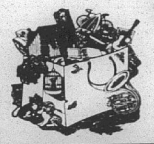
Mr. Smith said that in Cameron Parish, a total of 130 basic level crop insurance policies were sold.

Senators tell federal grant for fishing

A $15 million federal grant will help protect valuable fishing resources and the livelihoods of fishing families in the Gulf of Mexico, Senators John Breaux and Bennett Johnston announced.

"The Administration is providing $15 million to the Gulf's commercial fishing industry to compensate for loss and damage from Hurricane Andrew and more recent flooding of the Mississippi River," the senators said. "This funding will help fishermen who have suffered from large fish kills, oyster beds destroyed or covered with mud, and from tons of trash and debris deposited off the Louisiana coast."

Registration



The Hackberry High School registration for all new students for the 1995-96 school year, grades K-12, will be held Thurs., Aug. 10 from 10 a.m. to noon, in the principal's office. All students must have birth certificates, social security numbers and up-to-date immunization records.

ALL PROCEEDS TO HELP DEFRAY THE COST OF UNIFORMS, PAPER AND PAINT!

MY DEAR FRIENDS OF CAMERON PARISH,

Because I have been working for you as a Deputy Sheriff for 11 1/2 years, I have the training and the experience to run your Sheriff's office in a totally professional and independent manner.

I will devote all my time to deliver the promises I make during this campaign. That is to work as hard as I can to make Cameron Parish a safer and better place for all of us.

I will use all the resources I can possible find to work with the young people. Arleen and I have two teenage daughters, and we know the problems they face.

I will personally meet with the residents of each community to work out a plan that will benefit our youth, and then we will put this plan into effect 100%.

I'm fortunate to have some very loyal friends helping me with this campaign. They don't expect anything from me except to be the best Sheriff I can. These friends are doing this totally because they believe in good, honest government and have proved it in the past. Because of their involvement, they are taking a lot of criticism from people who want to discredit their reputation. Rumors are being started about them that are totally untrue. Please consider who is starting this, and the reason behind it all. I'm going door to door and will welcome any comments and questions you may have.

I plan to run a clean campaign, but if I have to, I will defend myself and the principles I stand for.

With the help of GOD and your help, we will BRING BACK LAW and ORDER FOR ALL UNDER THE CAMERON PARISH SHERIFF'S OFFICE.

PLEASE VOTE FOR ME - GOD BLESS ALL OF YOU
ELECT JERRY NUNEZ
SHERIFF OF CAMERON PARISH

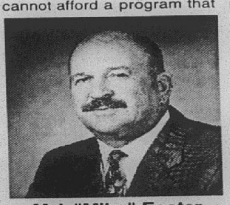
WELFARE

CAMPAIGN '95 – THE GOVERNOR'S RACE



By: M.J. "MIKE" FOSTER

Welfare is one of those government programs that is totally out of control. Too often, it is used as a tool by some politicians to create a subordinate group of people, who in essence, become a permanent group of votes to be manipulated by these politicians. For example, under the new Motor Voter Law, if a person REFUSES to register to vote at a welfare office, a government form IS REQUIRED to be filled out. In short, these politicians want a record of those who refused, so they can find them to make sure they register.

My beliefs about welfare are simple. Those who have able bodies, including prisoners, SHOULD work. No Work, No Welfare. Yes, job training is needed, but this training is for folks to get off of welfare. If you need welfare and you are healthy, you should work to receive it.

Secondly, Louisiana has one of the highest illegitimacy rates in our nation, and illegitimate births are on the increase throughout every state, community and locality in our nation. One reason is the Aid to Families with Dependent Children (AFDC) pays higher welfare payments for those who choose to continue to have more and more illegitimate children to make a living off the government and taxpayer. Protect children, but don't reward illegitimacy.

In essence, this welfare program provides financial rewards to those who have illegitimate children. We should never do anything to harm children, but we simply cannot afford a program that

M.J. "Mike" Foster

Every effort must be made to reverse this trend. My pledge as governor is to do all I can to correct this broken system. Most folks know I'm tired of our tax money going to this failed program. I want to promote personal responsibility, self respect and work. Yes, the public will support a program to help our senior citizens, the truly sick, the truly disabled and folks with short term emergencies, but our people will not support permanent, career welfare recipients...I will not support them either.

If you enjoy these articles and would like to help me continue them, a contribution of $5, $10, $25, $50 or more would be greatly appreciated and very helpful.

You can contact my office by calling 1-800-634-9414 or (318) 828-0683.

Sidekicks are busy

The South Cameron High School Sidekicks attended Universal Dance Camp at McNeese June 13-16. They were awarded a spirit stick everyday and were given one to bring home. They earned many superior ribbons for their performances.

The girls held two fund raisers this summer. In June they held a plate lunch dinner and garage sale which were both successful.

The girls will hold their annual elementary dance camp Sept. 9, at the high school gym. All elementary schools will distribute information for registration.

AIR QUALITY DIVISION
REQUEST FOR PUBLIC COMMENT
ON A PROPOSED AIR PERMIT
EAST HACKBERRY FIELD COMPRESSOR STATION
WRT ENERGY CORPORATION
HACKBERRY, CAMERON PARISH, LOUISIANA
WRT Energy Corporation, 118A Southpark Drive, Lafayette, Louisiana, proposes to modify a permitted crude oil and gas production facility.
The total estimated emissions from the proposed facility in tons per year are as follows:

POLLUTANT	PERMITTED	PROPOSED	CHANGE
PM_{10}	Neg.	Neg.	-
SO_2	0.02	Neg.	- 0.02
NO_x	174.6	56.7	-117.9
CO	18.9	30.8	+11.9
VOC	17.0	7.5	- 9.5

The East Hackberry Field Compressor Station is a minor source of toxic air pollutants. The Air Quality Division, Louisiana Department of Environmental Quality, has reviewed the application and has made a preliminary determination of approval. This permit will include a federally enforceable condition limiting the source's potential to emit below the 100 tons per year major source threshold. For 30 days from the date of publication of this notice, the public is provided the opportunity to comment on WRT Energy Corp.'s proposal.
A copy of the submittal by the applicant, and the proposed draft permit are available for inspection and review at the Office of Air Quality and Radiation Protection, Air Quality Division, 7290 Bluebonnet Drive, Baton Rouge, Louisiana.
Written comments on this project may be submitted to the Administrator, Air Quality Division, Post Office Box 82135, Baton Rouge, Louisiana 70884-2135. It is requested that all correspondence specify review number R-13602. All comments will be considered prior to a final permit decision.

CAMERON LIVESTOCK SALE
At the succession sale of Eloi Hebert, near Calcasieu Lake in the parish of Cameron, horses and cattle sold at higher prices than they were ever before, probably sold in this section of country. Four hundred and ten head of wild cattle and horses brought the unprecedented price of $6,550.25, being very nearly $16 a head.--Lake Charles Commercial.

A PLEA FOR THE
ALLIGATORS
Lake Charles American: Where alligators are plentiful there are but few snakes, crayfish, gophers and such like; the alligators eat them. Now every rice farmer knows that these reptiles upon which alligators feed are great hinderances in the rice industry. They make holes in the levees and roots or cut down the growing rice. The alligators, while they prey upon these enemies of the rice farmer, do no injury either to the rice or the levees. They are the farmer's friends.
We understand that the police jury in some of the parishes have passed ordinances, looking to the protection of alligators. It would be well for this to be thoroughly investigated and if it is found that the claim made for the formerly despised saurian is true that he helps the rice industry, we should have an ordinance passed by our police jury in his favor.

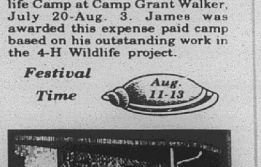
LIBRARY ADDITION
APPROVED
Expansion plans for the headquarters building of the Cameron Parish Library were approved by the Cameron Police Jury Monday. The firm of Hackett & Bailey, architects and engineers, was designated to prepare the plans.
Mrs. Charles Hebert, library board member, told the jury that the library had enough money in its maintenance and construction fund for the addition. This fund showed a balance of $52,000, but a good portion of that amount is earmarked for maintenance and replacement of the bookmobile.
The new construction will include a garage for the bookmobile, storage space for magazines and books and additional office space. Mrs. Mary Brand, parish librarian, said the new facilities would make for more efficient service for the entire parish.
The library opened in June, 1958. Funds for the headquarters building were raised by the Louisiana Jaycees as a memorial to parish residents who died in Hurricane Audrey one year earlier.

NEW FIRE STATION
It was agreed by the Cameron Police Jury Monday to include a $25,000 loan in its next year's budget for the construction of a new fire station in Cameron. The money would be loaned to the fire district, with the funds to be repaid over a period of years from the fire protection tax.

RASH OF THEFTS
A rash of thefts were reported to the Cameron Parish Sheriff's Department this past week, including those of $785 in checks, a cabin cruiser and a station wagon.
Sheriff O. B. Carter's department has a warrant out for the arrest of a man charged with the stealing of $785 worth of checks and $60 in cash from the shrimp boat "Bugs Bunny" on July 31.
A warrant has also been issued for the arrest of a man believed to have stolen a 32-foot cabin cruiser the "Floyon-Do", valued at $6,000 which was taken from the Gulf docks sometime last week.



BATTLE AGAINST
COFFEEWEED
The 11-year war against coffeeweed in Cameron Parish has just about been won, according to Hadley Fontenot, who reported that only five landowners would have patches of the weeds sprayed this year -- or about 200 acres.
The fight against towering weeds, which completely covered marsh ranges, shading out the grass, was started in 1951 when 446 acres were sprayed by airplane. The highmark of the campaign was reached in 1959 when 4,407 acres were sprayed.
Mr. Fontenot said 13,482 acres have been sprayed in the 11-year period. Spraying this year will be in the Creole and Grand Chenier areas.

CHENIER LEGION
OFFICERS
The Sturlese American Legion Post 364 of Grand Chenier, which was formed a few months ago, re-elected all of its same officers by acclamation at its recent meeting.
They are: Edwin Mhire, commander; Gilford Miller and Freddie J. Richard, first and second vice-commanders; William Kelly, finance officer; Howard Dupuie, adjutant; Edison Mhire, judge advocate; Earl K. Booth, public information and historian; Neil Richard, service officer; Curley Vincent, chaplain; Ervis Portie, sergeant-at-arms; and Horace Mhire and Clabert Dupuie, color bearers.

ROUNDABOUT THE PARISH
Johnson Bayou -- Mr. and Mrs. Tommy Multon have moved to DeQuincy because Mr. Multon was transferred there. He is employed by General American.
Grand Lake -- Among the many from Grand Lake to attend the annual Camp meetings being held on the old camp grounds at Lake Arthur, Aug. 6-10, was the C. J. Farque family. This is their seventh consecutive year to attend.
Sweet Lake -- The rice harvest began very early in this area, with Sweet Lake Land and Oil Co. and Dulva Breaux in the lead. They started on Mon., July 30. Walter Guidry and his son, Lester, started cutting Aug. 1. Will Beard and Lyons Breaux are among those cutting this week. Gerald Helms reports an exceptionally good crop this year, probably the best he has ever had. Buck Taylor said it was heartening to see how much better his rice looked since it was heading. Mack Robinson has fields of rice which are very good but some he said are rather bad. Among the cattlemen who are still busy bailing hay are Tump Hebert and R. O. Hackett. Lester Guidry said he was through.
Grand Chenier -- Along with hay cutting, farmers here have also been busy gathering their corn this week. Conway LeBleu of Cameron, who owns a corn picker, was here taking in corn crops at several farms.
Holly Beach -- A $302,000 contract was recently let by the State Highway Dept. to T. L. James Co. for the rebuilding of a section of the Holly Beach-Johnson Bayou road washed out last year by Hurricane Carla, according to Rep. Alvin Dyson.

WILDLIFE CAMP
James Lowery of Hackberry will represent Cameron Parish 4-H Clubs at the annual 4-H Wildlife Camp at Camp Grant-Walker, July 20-Aug. 3. James was awarded this expense paid camp based on his outstanding work in the 4-H Wildlife project.

FISHING SLIM

Our fishing reports as of now are slim. The weather has seemed to burst loose and completely shut the Gulf of Mexico's doors tight. The inland bays and lakes are also a touch and go affair. Saltwater tides have been extremely high and parts of the parish have had an unusual amount of rain. Water in most of our marshes is up. This has really plyed up the water lilies in some spots in our marshes so tight, that an outboard is all but impossible to pass.

Speaking of water lilies, there was a canal in the Big Burn, where there was a rather large fish kill. There were large catfish, bass, white perch, bream and even bait fish. There were dead water lilies along this canal as if they were sprayed. I don't know if it's the poison or what, but something did this fish kill and the alligators had a ball, spray or no spray.

In the marsh area of the Big Burn, the last weekend of July showed some nice bass landed. Jimmy Trahan and his brother-in-law, Harry Lopez had a good day with one bass over 5 lbs. There were several other reports of 3 and 4 pounders caught.

Arnold Jones Jr. and Leslie Griffith had a good trip offshore before bad weather hit. They had beautiful reds and speckle trout, trout going 6 and 8 lbs.

LEMESCHE BASS CLUB

The Lemesche Bass Club had their second to last club tournament of the year, the last Sunday of July. I guess you could say we fished in a storm. Winds were from the northeast to east all day with rainy conditions, where you had to wear a raincoat most of the day. The results were fair as you can see, with small stringers.

Largest Team Stringers:

1. Jerry Canik and Todd Conner, 18-8; 2. Darren Richard and Scootie Trosclair, 17-1; 3. Ricky Canik and Vince Theriot, 10-9; 4. Loston McEvers and Carl Broussard, 8-3.

Largest Bass:

1. Jerry Canik, 3-14; 2. Todd Conner, 3-3; 3. Darren Richard, 2-12; 4. Scootie Trosclair, 2-10.

Largest Individual Stringer:

1. Todd Conner, 9-8; 2. Jerry Canik, 9-0; 3. Darren Richard, 8-15; 4. Scootie Trosclair, 8-12.

TALK BRIEFS

*Many commercial shrimpers are having to repair or replace their nets, as the new minimum mesh size changed to at least 1-1/2 inches.

*A friendly reminder for both commercial and recreational fishermen, that Louisiana law prohibits the use of shrimp trawls or seines or skimmers on properly marked oyster leases.

*Daniel J. Babin of Houma, was appointed to the Louisiana Wildlife and Fisheries Commission by the governor to replace Tee John Mialjevich, who resigned last month. He will serve out Mialjevich's term, which will expire in December. Babin is a sales manager at Indian Ridge Shrimp Co. in Houma and is currently president of the La. Shrimpers Association.

*The La. Dept. of Wildlife, as I understand, will begin to collect an additional $3 fee with the purchase of your saltwater license, a Louisiana Marine Resources Conservation Act Stamp. These stamps will be available at the end of September. Recreational fishermen who have already purchased 1995 licenses will not be required to purchase the $3 stamp this year, but will be required to next year. Money collected from these stamps will be used to fund the Commercial Fisherman's Assistance Program, established by Act 1316. This will provide economic assistance to eligible fishermen who are hit financially by the loss of commercial fishing nets.

The Heart Doctors
Craig M. Walker, M.D., Clinical Research

When he founded Cardiovascular Institute of the South in 1983, Dr. Walker had a vision of a medical institution which would provide the highest quality treatment for heart and circulatory system disease, and contribute to the future of cardiovascular diagnosis and therapy through clinical research.
Today, that vision has been realized. CIS has become a treatment and clinical research center of international renown. It has participated in the development of virtually every major new method of non-surgical heart treatment developed over the past decade, including a number of firsts in stenting -- the highly promising technique of placing permanent implants to hold open previously blocked arteries.
"Clinical research is so demanding and time consuming that it's rarely pursued outside big academic medical centers," Dr. Walker concedes. "But it's the only way you can be sure you're really at the leading edge of your specialty. By the time most cardiologists are performing their first case using a new procedure, we will have performed hundreds."

Welcome . . .to the Cajun Riviera Festival

We wish to welcome all of the visitors to the Cajun Riviera Festival this weekend and to the beaches of Cameron Parish -- one of the best kept secrets in Louisiana.

Although Cameron Parish has the longest stretches of accessible beaches in Louisiana -- more than 50 miles -- the beaches are not crowded for most of the year. Holly Beach, Constance Beach and Rutherford Beach have a sizeable number of beach homes but other beaches in the parish have virtually no camps and visitors have vast stretches of the beach all to themselves.

In addition to swimming and sunning, Cameron beaches also offer some excellent surf fishing. Fishing around the rock breakwaters between Holly Beach and Constance Beach has proven very good in recent years.

Bird lovers also will find Cameron beaches a fertile place to see a wide variety of birds.

So, welcome to the Festival this weekend, and come again to enjoy our beaches -- there is always plenty of room.

Jenkins book tells about Holly Beach 4th of July party

If there is a big increase in the attendance of outsiders at this year's Cajun Riviera Festival at Holly Beach the credit might go to a new book that devotes an entire chapter to the 1993 Fourth of July observance on the beach.

The book, "Along the Edge of America," tells the experiences of noted travel writer Peter Jenkins traveling in a small boat from the tip of Florida along the Gulf coast to Brownsville. Three of the chapters are devoted to Jenkins' two week visit to Cameron parish.

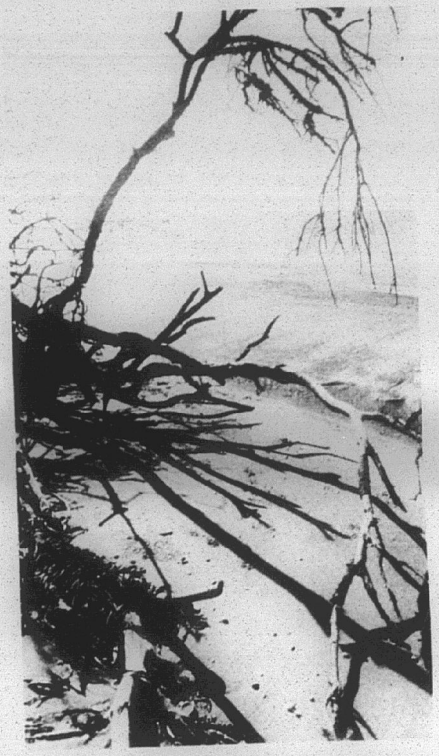
"'Don't blink or you'll miss the party of your life!' should be lit up in neon on a blimp every year when thousands head for Holly Beach, the rustic center of the Cajun Rivier," Jenkins writes. "Every Fourth of July people come to the Cajun Rviera for one of the most outrageous human spectacles in the nation. It's a time of endless revelry I would not have believed if I's not been there."

"Why has this annual Cajun Woodstock never been covered live by MTV or CMT or Nightline?," he asks. "The only reason, surely, is that they haven't heard of it yet."

Jenkins writes that he was invited to the Holly Beach Fourth of July celebration by Shannon Suire (former 4-H agent in Cameron Parish) who had been Miss Yambilee previously. He said he met her while serving as a judge in the crab cookoff at the Marshland Festival in Hackberry.

"The focal point of all the celebration," Jenkins wrote, "the place where everyone centers their jumping and playing, is the main sand road right off the beach. This road is jammed with masses of people and cars. They all walk and ride at about two miles an hour. They go up the road and then down it, then up it, down it, again and again, on and on for days. The procession never stops, it only slows down a bit between three and seven in the morning."

Jenkins tells about jumping in a pickup truck with four LSU students all with super squirt guns, and they handing him a gun belonging to their "sleeping friend."



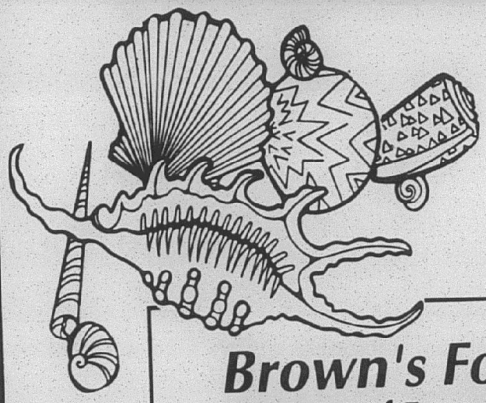
Peter Jenkins

Everybody shot at everybody including a man with a high pressure hose.

"Some ingenious type had painted a big white X in his yard and dared everyone driving by to hit it or him with their empty (beer) cans. His yard was at least two feet deep with aluminum cans, whiche he would surely take to a recycler. Stunning, deeply tanned Cajun ladies, some in Day-Glo pint, purple thong bikinis sauntered by.

Jenkins said the sheriff, ("a man everyone called Sun-o") had all of his deputies there but they were just trying to make sure everyone keop on having a good time and no one got too wild or got really stupid.

"The Suires (Shannon's parents) invited me to stay another day," Jenkins wrote, "but I wasn't ready for another day of going up and down and up and down the sand road. I could see that even I would take awhile to feel at home on the Cajun Riviera on the Fourth of July."



CAMERON PARISH has the longest stretch of public accessible beaches in Louisiana and during most of the year are uncrowded. This picture of a deserted section of a Cameron parish beach and driftwood was taken by local photographer, Bill Turnbull.

1995 Beach Sweep will be held here on Sept. 16

On Saturday, Sept. 16, the "Great Louisiana Beach Sweep and Inland Cleanup" is being held throughout the state in order to "Keep Louisiana's lakes, rivers, bayous, and beaches beautiful". Volunteers from all over the state will participate in this annual event to remove garbage from scenic areas.

In 1993 in Louisiana over 1300 pounds of trash were collected per mile, while the national average was about 600 pounds per mile. Cigarette butts, plastic pieces, foamed plastic pieces, plastic food bags/wrappers, paper pieces, glass pieces, plastic caps/lids, metal beverage cans, glass beverage bottles, plastic straws, foamed plastic cups, and plastic beverage bottles are the most common items found on the around the world.

Marine debris is trash and waste discarded in the water. It floats on the surface or sinks to the bottom, and drifts inshore being driven by the wind and by tides. This refuse is dumped into the Gulf from numerous sources from individuals as well as commercial operations.

Marine debris is comprised of everything from human waste to plastics, from materials that degrade rapidly to those that are long-lived. Plastics include fishing gear, sheeting, packaging, containers for foods and other products, etc. These items are not only ugly, they are also hazardous.

MARPOL Annex V is an international treaty which prohibits the dumping of plastics from any watercraft into the sea. It also designates how far from shore any vessel can dispose of solid waste material. Marine mammals, birds and other animals become entrapped or entangled in lost or discarded fishing nets or other plastic debris. Marine mammals, sea turtles, and marine birds have been known to eat plastic and styrofoam. Those materials can become lodged in their throats, or if swallowed, block or otherwise compromise the animal's digestive system, causing it to starve to death. Fish, crabs, and lobsters are affected when they become entangled in discarded nets. The U.S. Coast Guard oversees the implementation of Annex V, and accepts reports of illegally discarded trash by citizens.

Marine debris also presents a hazard to boaters as it can get tangled in boat propellers requiring costly repairs. In 1988 alone, over one million pounds of trash and debris were picked up on Gulf beaches during the beach cleanup.

During these volunteer cleanups, as much as one ton of litter per mile was removed from Gulf coast beaches. Tourism is a critical source of revenue for the Gulf states, and the Gulf is a major source of recreation for U.S. and international tourists. For these continued reasons, continued dumping of debris in Gulf waters represents a significant threat to the Gulf's economy.

Wayne Toups to play Sun.

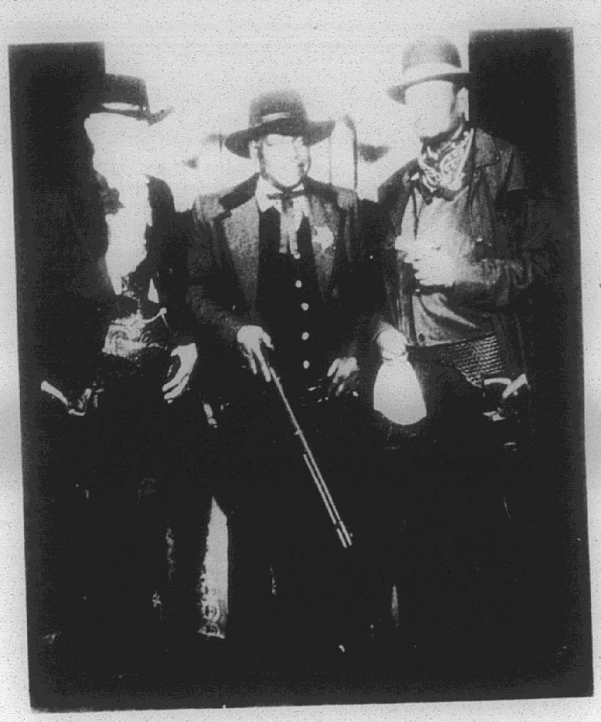
Wayne Toups and his Zydecajun band will play Sunday evening, Aug. 14, at the Cajun Riviera Festival. They will be featured on the bandstand on the beach beginning at 5 p.m.

In recent years Louisiana has let the rest of the world in on three of its best kept secrets. Tobasco, crawfish and Wayne Toups and Zydecajun. All three are hot, tasty and Louisiana's best.

For a group that started recording in 1985, Wayne Toups and Zydecajun have exploded onto the music scene with leaps and bounds.

Attracting the attention of Mercury/Polygram records Wayne Toups and Zydecajun were the first Cajun/zydeco act to sign a major recording contract. The success of their four Mercury releases proves that Zydecajun is "hot" and "commercial". In fact their "Blast From The Bayou" album hit the billboard pop album charts, making W.T.Z. the first Cajun artists to break into the billboard charts.

In 1989 Wayne was asked to co-host the "MTV Mardi Gras Live Special". Carole King heard "Blast From The Bayou" and became such a big fan that Zydecajun was the opening act for her "City Streets Tour" thru 22 cities.



Wayne Toups–the Zydeco man

The Zydecajun train continued to roll on at full steam in 1990. Wayne Toups and Zydecajun co-starred on CBS "Super Bowl Saturday Night" along with the Neville Brothers, Linda Rondstadt and George Strait. 1990 also saw the boys on a tour of Southeast Asia through six countries, spreading the Zydecajun news.

Wayne Toups of Crowley, on diatonic accordion and lead vocals is the foundation that Zydecajun builds on. His deep Cajun roots keeps the music true to tradition.

They have shared the stage with such greats as Ray Charles, Stevie Ray Vaughn, Emmy Lou Harris, and Carl Perkins, playing to a universal groove.

DO YOU REMEMBER The Coasters? Charlie Brown, one of the group's original members, will bring his "Tribute to the Coasters" to the Cajun Riviera Festival on Friday evening, Aug. 11, with a performance from 8 to 12 midnight. Admission to the festival grounds and to the concert is $4 for adults, $1 for childre and free for children under 6.

Welcome To Our Visitors!

On behalf of the citizens of Cameron Parish, I wish to extend to out-of-parish visitors a big welcome to the annual Cajun Riviera Festival at Holly Beach.

We are proud of this Festival, now in its sixth year, because it calls attention to the fact that Cameron Parish has the largest stretches of accessible beaches in Louisiana - a total of eight beaches in all -- Martin, Longview/Dunn, Little Florida/Ocean View, Gulf Breeze, Constance, Peveto, Holly Beach and Rutherford Beach. All of these beaches are open to the public and we invite you and your families to visit them frequently.

Our parish offers many other attractions for the lovers of the outdoors--four state and national wildlife refuges, a variety of birds; plenty of marsh wildlife, including a huge alligator population, and an abundance of fur bearing animals.

But while you are in Cameron Parish, we urge you to drive safely. We encourage you not to exceed the speed limit as the 55 mile limit is enforced. We have strict enforcement, not to harass motorists, but to save lives. We hope you enjoy your visit to the Cajun Riviera Festival and to Cameron Parish and that you return home safely. Be sure to come back to see us again--you're always welcome!

Your Friend,
James R. "Sono" Savoie

Volleyball to be played on beach Saturday, 10 a.m.

One of the features of the Cajun Riviera Festival in Holly Beach will be the Volleyball Classic which will begin at 10 a.m. Sat., Aug. 13.

It will be divided into two divisions -- power and fun divisions. The format for each will be a double elimination consisting of 4-person teams with no less than one female playing at all times. Each team shall not consist of more than six players.

Books will close at 5 p.m., Fri., Aug. 12.

Prizes will be awarded to the top four teams in each division as follows: 1st place -- T-shirts and individual trophies; 2nd and 3rd places -- T-shirt.

All participants must be at least 18 years old.

For more information call Bo Welch at 762-4647 or Puddy Solina at 762-4478.

Riviera Association begun here in 1990

The Holly Beach Cajun Riviera Association was started in January, 1990 by local residents and business people to enlighten visitors to the natural beauty and fun of Holly Beach and Cameron Parish, to help preserve its beaches and wetlands, to promote tourism to the area, and to highlight its Cajun heritage.

To accomplish these goals, the organizers came up with the idea of putting on a festival to raise funds and call attention to the area. The event was so successful that it was decided to make it an annual event. The date was set for the second weekend in August, a tradition which continues to the present day.

This Festival is very unique since it takes place in the natural setting of the Gulf of Mexico seashore, surrounded by Cajun music and foods.

Lawn chairs yes, but no ice chests!

Bring your lawn chairs but leave your ice chests at home.

That's the word from the Cajun Riviera Festival. The festival will be held on the beach at Holly Beach with plenty of open spaces but unless you prefer sitting on the sand bring your lawn chairs to provide some comfortable seating while listening to all of the bands.

Festival officials ask that no ice chests or drinks be brought into the festival grounds -- there will be plenty of cold drinks, beer and food for sale.

Cookbook in 4th printing!

The Cajun Riviera Festival's cookbook, first published last year, proved so popular that it is now in its fourth printing and will be on sale at the festival this weekend at Holly Beach.

The cookbook features favorite recipes of local residents including many for seafood of which there is an abundance in the Holly Beach area.

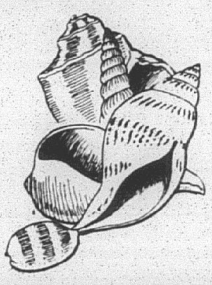
Mrs. Lorene Delino, shown above with some of the books, shares her family recipe for Seafood Cornbread, which may be made with crawfish, shrimp or crab meat or all combined:

SEAFOOD CORNBREAD

(Crawfish, shrimp or crab meat may be used).

2 cups yellow cornmeal, 1 onion, minced; 3 eggs, 2 jalapeno peppers, chopped; 1 can cream style corn; 1/2 cup cooking oil, 3 tsp. baking powder, 3/4 cup chopped green onions; 1/2 tsp. baking soda, 1 cup milk, 1-1/2 cup grated cheddar cheese, 1 lb. crawfish, crab or shrimp, 1 tsp. salt, 1/2 cup bell pepper, chopped.

Saute onions and bell pepper in a small amount of butter. Allow to cook until onion becomes transparent. Add chopped jalapeno peppers. Set aside. Mix all other ingredients except seafood of your choice. Add cooked onions and peppers. Stir in seafood of choice; pour into a lightly greased pan. Bake in a preheated 400 degree oven for 35-45 minutes.



LT. GOV. MELINDA Schwegman here presents Curt Talbot of the Holly Beach Cajun Riviera Assoc. with an award naming the festival one of the top festivals in 1994.

T-shirts on sale

Theme of shirt is "Cajur Jive in '95" showing caricatures of crawfish and alligator dancing on the beach, designed by Gerald Touchet.

The shirts can be purchased at T & T General Merchandise and will be on sale at the Festival Hospitality Booth. Look for the coke wagon.

Adult shirts sell for $9 and $12, tanks for $12 and children's for $8.

Birding Trails

Shorebirding Holly Beach

By Jeanne Sachs
Gulf Coast Bird Club

Since I was very young, I've always loved the beach and dreamed of having a cottage one day. My dream came true sixteen years ago when my husband bought me a camp west of Holly Beach. I looked forward to each weekend, going down to enjoy the peaceful surroundings. My favorite thing to do in those days was to get up early go for walks on the beach at sunrise and pick up shells that had washed in from the night before. This went on for years, but one day I realized there was more on the beach than the shells. BIRDS. They really all looked alike to me at that time, but I enjoyed watching them diving into the gulf and coming up with their catch.

While taking my walk one morning, I came across all of these little birds, yellow, blue and green ones. I immediately thought a pet truck had overturned during the night or maybe it had lost part of its cargo. After looking closely, I realized they were not parakeets but birds I had never seen before. I was later told I had witnessed a "Fallout." (A fallout is when strong winds coming out of the north or a hard driving rain makes it very difficult for the migrating birds to fly and they literally "fall out" on the nearest thing available). At that time I think my birding hobby began.

How instead of beachcombing I take my cup of coffee and binoculars and go out on the deck to watch the sunrise and await my first bird of the day.

Usually I hear them before seeing them. First a loud flock of Laughing Gulls comes over heading for the Gulf for their first meal of the day.

Not far behind, the ever so present Willet comes along. The Willet is a shore bird seen walking year round on the beach, and gets its name from its calling "I'm a Willet" while in flight.

Looking back to the north of the camp there is marsh and ponds.

By this time large flocks of Snowy and Great Egrets (the beautiful white graceful birds seen in most canals along the highways), Blue Heroris, and Roseate Spoonbills (large pink birds often mistaken for Flamingo's) come rising up from the ponds where they have roosted over night.

Many days large flocks of White Pelicans might soar above. One day I counted seventy-six over the camp in one flock.

More and more we are beginning to see the return of the Brown Pelicans. At one time they were getting extinct but a few years ago they started making a comeback. If you look on the old pier pilings and the rocks out in the water you may see them sunning.

We not only have our resident shore birds, but we get some unexpected ones. A couple of weeks ago we had a camp full of guests.

We were sitting on the deck one afternoon when a really "different" looking bird came in from the Gulf.

The bird tried to land on the highway and we were all holding our breath as the cars were trying to miss it. Watching those cars with brake lights flashing and brakes squealing, I was afraid I would have a dead bird to identify. The bird finally lifted and started flying back over the Gulf. I ran in the camp, got my car keys, two pairs of binoculars and took off on another wild bird chase.

About three miles down the beach I found the mystery bird sitting all alone on the sand. I stopped some way back so I would not scare him and quietly got out of the car, grabbing my field guides and binoculars.

I sat on the side of the road for about thirty minutes going over every detail of the bird.

About thirty minutes and four field guides later I finally decided it was a Northern Gannet between its first and second year.

At this time I decided to move a little closer and got within twenty feet of it and watched for another fifteen minutes.

The bird just sat and preened itself and looked around as if it tell me I had just found a new bird for my lifer's list.

The Gannet is a high-diving sea bird noted for its sudden, headlong plunge after prey and is usually found farther off shore.

The next time you're sitting around feeling sorry for yourself and saying there's nothing to do, pack a lunch, get a jug of water and don't forget the sunscreen and take off for a day of bird watching. Drive West of Holly Beach on Hwy. 82 and stop when you see a flock of birds sitting on the beach. Be sure and keep back a distance as the sound of the motor might scare them away.

Just sit and look at the many different birds, from the Laughing Gull in many stages of life, to the larger Herring Gulls and the Ring-billed Gulls.

Moving on down you might see terns such as our resident Forster's, Royal and Caspians.

Be sure and look at the color of their beaks and legs to help identify the different terns, especially the Royal and Caspian which look so much alike.

At certain times of the year we have other Terns, including the Least and the pretty little Black Terns.

Be sure and watch the little bird that runs real funny, sprinting just out of surf's reach to snatch up mollusks and crustaceans exposed by the retreating waves.

These birds are the little three-toed Sanderlings and are a lot of fun to watch.

Many other little birds can be seen such as the Black-bellied Plover, a very pretty bird, which is the largest in the plover family and is readily identified by the black breast, black and white back, white on the head that runs down the side of its neck, black beak and legs.

Other Plovers seen are the Semipalmated. Wilson's, Piping and Snowy which are a little harder to tell.

This is where a field guide comes in handy and you will get a lot more enjoyment when you identify one of these difficult birds. Don't forget to look among the rocks along the beach where the pretty Ruddy Turnstone can be found.

The Ruddy has a rusty-brown back, black bib and white beneath and bright orange legs. The Ruddy not only turns over the stones but also digs holes in the sand in search of its prey.

There are still many birds to be seen, so next time you go to the beach try looking at the birds with binoculars and you will see the bird in a completely different way.

The colors will definitely be brighter and you will notice lots of little details you missed on your first trip.

If you decide to go back for a third trip you can say that you are now one of thousands in the United States that has just joined in on the fastest growing hobby in years. — "Birding."

Beach ministry to get national recognition

By GENEVA GRIFFITH

A sign reads "Free breakfast - 8 a.m." in front of the Holly Beach Ministry and Youth Center; Christian music comes from a loud speaker on the upstairs deck; Chris Robicheaux cooks up stacks of pancakes on a griddle in the downstairs kitchen; and Ron Robicheaux greets people stopping by in answer to the sign.

No one is turned away, and each person is made to feel like they are indeed welcome to this haven of Christianity on the eastern end of Holly Beach.

Volunteers from area churches assist in everything, including ministering to the people who stop by and picking up the trash to keep the beach clean in front of the facility.

A three man crew was there for last weekend's filming of a story about the unique mission work being carried on by the husband wife team of Ron and Chris.

The crew is from the Baptist Home Mission Board in Atlanta, Ga., including Ben Sherman, producer; Chris Palmer, camerman; and Glen Bailey, soundman.

Sherman states that the Baptist Home Mission Board has a "Missions USA" video magazine which carries stories about Baptists and the work they are doing around the United States. The magazine is seen by over 60,000 people.

In addition it will be broadcast by a Fort Worth TV station, which can be seen all over the country.

Sherman said, "This is a prime place for the church to be, a lighthouse for spirituality. This building stands out in so many ways."

The Robicheauxs first came to Holly Beach in 1990 and bought a small cabin and used the downstairs as a restaurant and bar. Ron also had an art shop where he sold shell craft that he made.

Ron had to walk with a cane, the result of an accident, and it was painful for him to even bend down to pick up the shells and driftwood with which he fashioned his shell sculptures. Today, through his faith, he now only walks with a slight limp.

The Robicheauxs accepted Christ in 1992, and within a year they made many changes in their lifestyle, as well as changing their former business (restaurant and bar) into a ministry.

Today the facility does not resemble its former self. Through volunteer labor and materials they have constructed an edifice and added a large room with a stage and movie screen to be used in youth retreats and worship services.

They are now missionaries of the Southern Baptist Mission Board and have dedicated their lives and home to serving others.

They are anxious to share their testimony with others and give their slide presentation on the work they are doing in area churches.

Ron estimated there are approximately 19 churches from all over the state that share in their ministry, and who use their facility to hold retreats for their youth programs.

He is especially proud of the fact that so much of the building program and the addition to the building was done by the youth of the churches.

When it is completed the Robicheaux plan to have an open house.

Brent Nunez

Nunez asks re-election as P. Juror

Allen Brent Nunez, 51, Cameron Parish Police Jury member from District #3 representing Grand Lake - Sweet Lake area, has announced his candidacy for re-election. He was first elected in 1979.

Nunez has been married to the former Shirley A. Young for the past 33 years. The couple has one son, Jason, and they live in Sweet Lake.

He is a member of St. Mary of the Lake Catholic Church.

Nunez is a U.S. Army veteran, having served in the 23rd infantry division from 1961 to 1964.

Nunez currently serves as president of the Cameron Parish Community Action Agency and the Cameron Parish Council on Aging Advisory Board. He is a member of the Louisiana Police Jury Association's Parks, Recreation and Tourism committee, the National Association of Counties Environmental and Land Use Steering committee, member of the Region Seven Solid Waste committee, the Louisiana Police Jury Association, the Grand Lake - Sweet Lake Volunteer Fire Department, Drainage Board No. 8, the Cameron Parish Civil Defense, and the Louisiana Farm Bureau.

Festival queens told

Despite the frequent showers, revelers had a big time at the Cajun Riviera Festival last week in Holly Beach.

Keysha Alexander, 17, daughter of Mr. and Mrs. James Alexander of Sulphur, was crowned as Miss Cajun Riviera.

Erin Keenan, 16, daughter of Mr. and Mrs. Charles Keenan of Lake Charles, was crowned as Junior Queen. Both girls are students at Barbe High School.

Gerald Conner

G. Conner makes MSU's H. of Fame

Gerald Conner, a native of Creole, is among three persons selected this year for induction into McNeese State University's Hall of Fame.

The other inductees are Ernie Duplechin, whose .814 winning percentage is highest among McNeese head football coaches, and Tim Graham, three-time Southland Conference and Louisiana Intercollegiate golf champion.

Gerald Conner was a two-way starter in football and a Gulf States Conference and McNeese MVP.

The trio will be inducted Sept. 9, at halftime of McNeese's home opener vs Southeastern Oklahoma State.

Conner, now the principal at Sulphur High School, started at center and linebacker for the Cowboys during a career that stretched from 1961-64. He was part of the only undefeated, untied season in McNeese history (1963).

He coached at Basile High School and Sulphur before accepting a series of administrative positions in education.

Conner, who is the son of Dorothy Conner and the late Lee Conner of Creole, graduated from South Cameron High School in 1960 where he was a four-year letterman in football and a member of the all district team.

He is married to the former Avita LaBove of Cameron and they have three married children and seven grandchildren.

Board may call tax election

By GENEVA GRIFFITH

The Cameron Parish School Board is still no closer to solving their deficit problem than they were before their monthly meeting last Wednesday when a full room of employees and citizens attended to voice their views to the board.

The board has operated for the past four years under deficits which have been made up through a surplus in the general fund.

However, this surplus is almost exhausted and the expected deficit this year is expected to be close to one million dollars. This will have to be taken out of the Section 16 fund, the "rainy day fund", which was originally set aside for catastrophies such as hurricanes.

The proposed cuts presented to the board of finance committee chairman Tony Johnson were all defeated by votes of the board. These cuts would only have amounted to $427,276 of the shortfal, which would have meant that more cuts would be needed to make up the difference.

The proposed cuts were the elimination of the positions of assistant superintendent; one clerical worker at the central office, assistant pricnipal positions at Cameron Elementary and Johnson Bayou high schools, four teacher aides, clerk at South Cameron High School, bus route consolidation, and reduction of six sweepers.

Jo Arceneaux, a school bus driver, asked the board to consider calling a tax election and letting the voters decide what they want.

Board member Clifton hebert stated: "Our companies are leaving Cameron in droves, and if we keep taxing them we are not going to have any tax base left. Before we ask for taxes we need to make some good faith cuts."

Board member Glenda Abshire said, "If we eliminate 26 employees it will concern many families."

Karen Nunez, another board member said, "We should let the people decide what they want, and if the tax doesn't pass we should implement parts B and C of the proposed budget plan which amounts to $1,165,817 as follows:

"3/10 mile policy on bus routes in and outs, eliminate special ed bus route in Hackberry, consolidation and elimination of bus route in all schools, reduce by one the number of sweepers at each school, reduce from regular education aides, reduce seven regular

A country store with caps, T-shirts, etc., and many food booths featuring barbecue, boiled crabs, and alligator dishes.

Six seriously burned in Holly Beach fire

Six people were sent to various hospitals Saturday with burns from a Holly Beach rental cabin fire that is believed to have started by a gas leak and a cigarette.

Angela Thibodeaux, 21; Brent Benoit, 23; Michael Bonin, 27; John Perry, 20; Billy Britt, 20; and Jeff Kibodeaux, 24; all of Jennings, were taken to West Calcasieu-Cameron Hospital after the 6:09 a.m. Saturday fire.

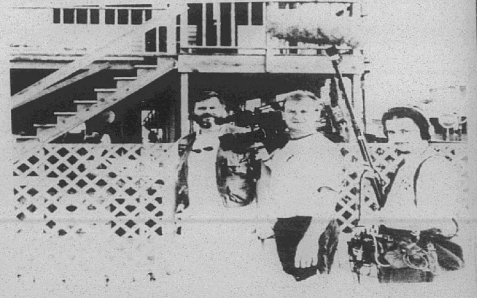
They were later transferred to hospitals in Shreveport, the Houston area and Baton Rouge, Cameron Parish Sheriff's Office Chief Deputy Theos Duhon said.

Duhon said the State Fire Marshal's Office investigated and ruled the fire apparently started from a gas leak in the cabin that was possibly ignited by a burning cigarette.

Duhon said the victims reportedly suffered second and third degree burns.

Shrimp season

The fall inshore white shrimp season will open at official sunrise Mon., Aug. 21, in all three of Louisiana's inshore shrimp management zones. The closing date for the 1995 fall season was set as official sunset on Sun., Dec. 17.



Department of Wildlife and Fisheries Secretary Joe L. Herring also reminds shrimpers that, beginning with the opening of the 1995 fall season, they will be required to pull trawls, skimmers, and butterfly nets of mesh size no less than 1.5 inches stretched or .75 inches bar. This requirement will be effective for each fall shrimp season.

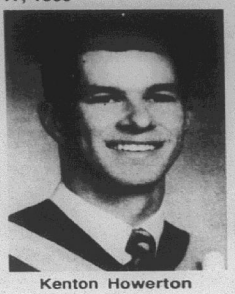
KCs planning barbecue

The J. P. Boudoin Sr. Knights of Columbus Council 3014 of Creole held their regular meeting last week.

A fall barbecue will be held Sun., Oct. 8, for the public as a fund-raiser. The money will be used to help handicapped and retarded youth of the Sacred Heart Church parish, for the Cameron Parish Special Olympics, and for the Christmas baskets for the needy of the church parish.



There will also be raffle tickets sold with the drawing to be held Dec. 14. A 12-gun, corner gun cabinet made by Fredman Theriot, will be raffled. Second prize will be an ice chest donated by Savoie Lumber Co., Cliff Conner; and the third prize will be a 10 gallon water cooler donated by Loston's and Rudy's Inc.

The Knights held their quarterly communion Aug. 12 and 13, at the Sacred Heart Church in Creole.

There will be an area KC meeting Aug. 29, 7 p.m., in Sulphur.

There will be a Mararia Hour of Prayer going around the state beginning Sept. 8. It is to celebrate the "Feast of the Birth of Mary". The Knights will inform the parishioners when it comes to Creole.

Burl LaBove was voted Knight of the Month and the J. Burton Daigle family was chosen Family of the Month.

Applications sought

The Cameron Parish School Board is now taking applications for parish school superintendent to succeed Thomas (Sonny) McCall who will retire from the position on Dec. 31.

An advertisement listing qualifications for applicants can be found elsewhere in this issue of the Pilot. These include a Louisiana teaching certificate with endorsement as a parish or city school superintendent, a master's degree and five years of professional school experience.

Applications must be submitted by Sept. 5 and it is expected that the board will act on the appointment at least by the October meeting in order to give the superintendent-elect some time to working with the retiring superintendent.

McCall has been in the parish school system for the past 38 years and has been superintendent for the past 18 years.

The school board is also taking applications for assistant principal of Grand Lake high school and for food service technicians at Grand Lake high and Cameron Elementary schools. These applications are also due by Aug. 31.

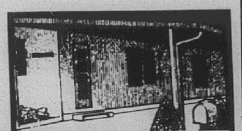
Only You Can Prevent Skin Cancer. . .

HOW CAN YOU PREVENT SKIN CANCER?

Even though overexposure to the sun is the leading cause, it isn't necessary to give up the outdoors in order to reduce your chances of developing skin cancer. Just use good sense and simple measures whenever you work or play in the sun — repeated sunburns are particularly risky.

Cover Up with a wide-brimmed hat, and a bandanna for your neck; wear long-sleeved shirts and pants the sun can't penetrate.



Use Sunscreens to help prevent skin cancer as well as premature aging of your skin. You'll want a Sun Protective Factor (SPF) rating of 15 or higher. Women can get a little added protection by using tinted opaque cosmetic foundation along with a sunscreen. Apply sunscreen at least an hour before going into the sun and again after swimming or perspiring a lot. Don't use indoor sunlamps, tanning parlors or tanning pills.

Know The Ways Of The Rays for your best protection. You can get burned on a cloudy day. And the rays can reach down into three feet of water. Try to stay out of the direct sun at midday, as the sun's rays are strongest between 11 a.m. and 2 p.m. And beware of high altitudes — there's less atmosphere to filter out the ultraviolet rays. Skiers should remember that snow reflects the sun's rays, too.

Whatever your skin type, do a monthly self-exam of your skin to note any moles, blemishes or birthmarks. Check them once a month and if you notice any changes in size, shape or color or if a sore does not heal, see your physician without delay.

Young Guns of Cameron Parish world's champs

By JOE MUELLER

The Young Guns of Cameron Parish are the 1995 USSA Boys World Champions in the 16 and under division and the 14 and under division.

The 15 and 16 year old team swept through the world series held in Marietta, Ga., July 26-30, with 5 victories to bring home the championship trophy.

The team compiled a 38-3 overall record for the season.

The Young Guns opened the world series with an 8-5 win over Northcoast, Ohio, then beat Donovan's Demolition 15-3. Their third victory was over East Lake, Ohio, who had won the world series three consecutive years, by the score of 10-5. They then beat Chuck Harley's A Team from Illinois by the score of 5-0, and they beat the Illinois team 18-7 in five innings in the final game.

The Young Guns were coached by Shane Broussard, Alfred Vaughn, Bob Young, Rick Suratt, Jeff Wainwright and David West.

The top hitters in the world series were John Pradia, .684; Mario Luke, .632, and Lynn Babineaux and Derrick Vaughn, .611.

Derrick Vaughn was selected as the Most Valuable Player in the tournament.

Team members of the world champion Young Guns were Derrick Atkins, Lynn Babineaux, Cory Broussard, John Carter, Joe Eaves, Michael Gray, Derrick LaFosse, Mario Luke, Steve Moore, John Pradia, Tony Rodriguez, Scott Suratt and Derrick Vaughn.

The 14 and under team, also known as the Young Guns, swept through the world series with a 13-2 win over Edgell's Plumbing of Ohio, a 9-8 win over the Astros from Illinois and 9-8 and 10-0 victories over the East Lake, Ohio, team.

Top hitters in the world series for the 13 and 14 year old Young Guns were Steven Landry, Chad Theriot and John Mark Monte, who all hit around .800. Lancey Conner and Pablo Hernandez both hit .657 and Kelly Roberts hit .643.

The 14 and under Young Guns were coached by Douaine Conner, Robin Roberts and Chris Savoie.

Team members were Brian Billing, Lancey Conner, Joshua Creary, Ryan Domingue, Pablo Hernandez, Corey Kelly, Steven Landry, John Mark Monte, Kelly Roberts, Brian Smith, Kenny Sturlese, Shane Suratt, David Savoie and Chad Theriot.

Tarpons to have scrimmage Fri.

By JOE MUELLER

The 1995 South Cameron Tarpons football team will scrimmage the Vinton Lions this Friday, Aug. 18, at 5 p.m. at Tarpon Stadium.

The Tarpons, who have been working out since early August, will get a chance to see just how they have progressed as they get ready to open the season against Iowa in the Iowa Jamboree on Thurs., Aug. 24.

The South Cameron game against Iowa will be the last game of the Jamboree and should get underway around 7:30 p.m.

The opening game of the Jamboree has Merryville playing the Jennings J.V., in game 2, DeQuincy plays Barbe JV and in game 3, Vinton plays the Sulphur JV team.

Tickets for the Jamboree can be purchased at South Cameron High School for $3. They will be $4 at the gate and all the money from tickets sold at South Cameron will stay with South Cameron. Season tickets and individual game tickets are also on sale at the high school.

The Tarpons have had one injury this season as Mike Sellers has a broken hand and will miss about six weeks.

The Tarpons have five returning starters on offense. Among them is 6AA all-district running back Jared Savoie. On defense the Tarpons also have five returning starters and Willard Pruitt was an all-district selection at line backer.

The Tarpons will basically run from the same sets as last year on both offense and defense.

The Tarpons first regular season game is against DeQuincy on Sept. 1, at home. Game time will be 7 p.m.

The Tarpons Head Coach Parry LaLande will start his 14th year as head coach at South Cameron. He has a 114-40-1 record as head coach. His teams have been in the state playoffs ten times.

The assistant coaches are Baron Thomas, Pete Picou, Edward Cormier and Steve Barnett.

TARPON SCHEDULE

Aug. 24 - Iowa Jamboree.
Sept. 1 - DeQuincy, home.
Sept. 8 - Vinton, away.

FISHING REPORT

The heat's still here and bass fishing has slowed down somewhat, but if you stay with it and work the heavy stuff, or find running water, our marshes will produce.

Last week's dog fight at Lacassine Refuge had many teams with 3 bass, but small 3 to 5 pound stringers The week before wa a little better. Dog fights around for bass have produced small fish. Calcasieu River, 3 fish, 4.90 pounds; Lacassine Refuge, 32 boats with only 42 fish weighed in, but 3 fish went over 12 pounds and then second and third palces were both a little over 7 pounds.

Sabine Refuge had top stringers of 7 pounds on three fish and the Big Burn had 9 plus pounds, but on 5 bass.

Ron Castille had a dog fight last month on Big Lake for speckle trout. This was the first one ever held. A 3.98 pound speckle trout was caught by Bill Domingue, a Lake Charles bass angler and Wayne McElveen Jr., to win. Second place was a 2.57 pounder.

The Big Lake dog fights will run for 10 more weeks, where there will be a super dog fight on Sept. 21, to be held at Hebert's Landing.

If you would like to get in on these speckle trout dog fights, registration for the weekly tournaments starts at 4 p.m. every Thursday at Hebert's Marina, and blast off is at 5 p.m.

Entry fee is $26 per boat, with a $10 option for a big fish pot, which includes flounder and speckle trout.

The weigh-in limit is 3 speckle trout, and they have to measure at least 14 inches long.

This is a catch and release tournament, but unlike bass, where you get the original weight on all live fish, on speckle trout you get a .1 pound award for all live fish.

BIG BASS

Amanda Bertrand, local Creole girl and I might add a great bass angler and saltwater fishing gal, had a 5.2 bass last week, caught in a local pond. This fish had the mouth of a 7 pounder and was 22 inches long, but a very slim body, still a real nice fish.

BASIN BASS

Lelan Crochet of Oak Grove made a trip to his boyhood town of Pierre Part, fished the Bell River area of the basin, fishing with his nephew and they caught over 150 bass a day for two days, but only 2 keepers of 14 inches or over. He said he actually got tired of catching bass from 11 to 13-1/2 inches long, that each day they quit around 11 a.m. They fished cuts where the water was running and the clear and dirty water meets. His nephew says the fish are growing slower than they thought, but there's plenty of them to have fun.

HUNTING - SEPTEMBER

It's official. Dove season will open on Sept. 2-10; Oct. 21-Nov. 20; and Dec. 16-Jan. 14. Daily bag limit 12, possession 24.

Teal, king and clapper rails, sora and Virginia rails and gallinules season open Sept. 16-24, Teal limit 4, possession 8, king and clappers limit 15, and possession 30; sora and Virginia daily and possession limit is 25; gallinules limit 15 and possession 30. Teal, rail and gallinule, one half-hour before sunrise to sunset. Dove, the same except each opening weekend, shooting hours begin at 12 noon.

FEEDING PERIODS

Best: Fri., Aug. 18, 6-55 a.m. and 7:20 p.m.; Sat., Aug. 19, 7:35 a.m. and 8 p.m.; Sun., Aug. 20, 8:20 a.m. and 8:45 p.m.

Good: Fri., 11:55 a.m., and 1:55 p.m.; Sat., 12:45 p.m.; Sun., 2:15 a.m. and 2:30 p.m.

It seems if the feds okay duck season, we'll have a five duck limit and 50 days of season. I'll have more next week on this.

FOUR CAMERON Parish 4-H members attended "Be A Champ" cattle camp at Conner College in Waenoe, Okla. They learned showmanship skills and grooming techniques. Attending were Savannah Boudreaux, Heather Taylor, Cody Fenetz and T-Claude Devall. Accompanying the group were Mike and Angie LaVergne.

Free, reduced price meals for parish schools told

Cameron Parish School Board recently announced its policy for free and reduced price meals served under the National School Lunch and/or School Breakfast Program. All schools and the central office have a copy of the policy, which may be reviewed by any interested party.

The following family size and annual income criteria will be used for determining eligibility:

Eligibility Criteria

—Family size 1; Free Meals — $9,711; Reduced Price meals $13,820.

—Family size 2; Free Meals — $13,039; Reduced Price Meals $18,556.

—Family size 3; Free Meals — $16,367; Reduced Price Meals $23,292.

—Family size 4; Free Meals — $19,695; Reduced Price Meals $28,028.

—Family size 5; Free Meals — $23,023; Reduced Price Meals $28,028.

—Family size 6; Free Meals — $26,351; Reduced Price Meals $32,764.

—Family size 7; Free Meals — $29,679; Reduced Price Meals — $42,236.

—Family size 8; Free Meals — $33,007; Reduced Price Meals — $46,972.

For each additional family member add: $3,328 to free meals and $4,736 to reduced price meals.

Children from families whose income level is at or below the levels shown are eligible for free or reduced price meals. Application forms are being sent to all homes, along with a letter to households. To apply for free or reduced price meals, households should fill out an application for each child and return it to the school. If a multi-child application is used, complete one per household. Additional copies are available at the principal's office in each school. Applications may be submitted at any time during the year. The information provided by the household is confidential and will be used for the purpose of determining eligibility, and information may be verified at any time during he school year by school or other program officials.

For the school officials to determine eligibility, households now receiving Food Stamps or aid to families with dependent children must provide their Food Stamp case number or AFDC number as well as the signature of an adult household member. All other households must provide the following information on the application: name of all household members; the social security number of either the parent/guardian who is the primary wage earner, or the adult household member who signs the application, or a statement that the household member does not possess one; the amount of income (before deductions for taxes, social security, etc.) each household member receives, how often the person receives it, and where it is from, such as wages, retirement, or welfare; and the signature of an adult household member certifying that the information is correct.

Households that list a Food Stamp or AFDC case number must report when the household no longer receives these benefits. Other households approved for benefits based on income information must report increases in household income of over $50 per month or $600 per year and decreases in household size. Also, if a household member becomes unemployed or if the household size increases, the household should contact the school. Such changes may make the children of the household eligible for meal benefits.

Foster children who are the legal responsibility of a welfare agency or court may be eligible for benefits. If a household has foster children, and wishes to apply for such meals for then, the household should contact the school for more information.

Households that receive Food Stamps or AFDC do not have to complete an application. School officials will determine eligibility for free meals based on documentation obtained directly from the Food Stamp/AFDC office which will certify that a child is a member of a household currently receiving Food Stamps or an assistance unit receiving AFDC. School officials will notify household of their eligibility and that the household must notify the school when it no longer receives Food Stamps or AFDC.

Households who are notified of their eligibility but do not want their children to receive free meals must contact the school. Food Stamp and AFDC household should complete an application if they are not notified of their eligibility by August 24. Under the provisions of the free and reduced price policy, Principal or Assistant Principal will review applications and determine eligibility. If a parent or guardian is dissatisfied with the ruling of the official, he may wish to discuss the decision with the determining official on an informal basis. If the parent wishes to make a formal appeal, he may make a request either orally or in writing to:

Thomas McCall, Superintendent, P.O. Box W, Cameron, La. 70631; phoen number: (318) 775-5784.

The policy contains an outline of the hearing procedures.

Crab traps to be removed Aug. 20

All crab traps must be removed from Sabine Lake beginning at official sunset Sun., Aug. 20, 1995. The Wildlife and Fisheries Commission at their August meeting voted to prohibit the taking of crabs by use of crab traps in the Cameron Parish waterbody for 14 days beginning at sunset on the day prior to opening of the 1995 fall inshore shrimp season. The year's shrimp season is scheduled to commence on Mon., Aug. 21, at sunrise.

The prohibition will be lifted on Sept. 4, at 6 a.m.

The Commission's action was taken in response to regulations barring use of crab traps in Texas' portion of the lake. Texas's regualtion has caused a concentration of crab traps on the Louisiana side, placing an undue hardship on shrimpers in the area.

The Lord is my Shepherd.
He was a beautiful son.
He was always there when I needed him, always there when others needed him. He was proud to help others. I thank God for his beautiful smile that he did not want me to worry about him. I would like to thank all of the Doctors and Nurses and friends in his time of need. Through his heart surgery and kidney transplant he was on the kidney machine for 16 years. God knows best, now may he rest in peace with Jesus.
He was a member of the Mt. Pilgrim Baptist Church of Lake Charles of which Rev. Freddy Brown is pastor.
He attended South Cameron High School and finished his education in Houston, Texas.
He was an inventor and was the first vice-president of the Cameron NAACP Chapter from 1992 to 1994.
He was a brother to Mike and Charles Cole.

Candidate for Clerk of Court

Voting is a constitutional right. Register to vote if you are not already a registered voter. Please use this privilege and vote for experience on October 21. Sincerely,

C'Anne

(Paid for by Cynthia P. King)

MY DEAR FRIENDS OF CAMERON PARISH,

I want to be your Sheriff because:

I will improve the activities and add more activities for our young people and our elderly people.

These are just a few things I propose to do:

I will START THE JR. DEPUTY PROGRAM in all our schools.-

I can IMPROVE THE DARE PROGRAM tremendously by soliciting funds from the Federal Government and others. These funds are available, we just have to work for them. The D.A.R.E. program will be available to all grades, 1st through 12th, not just a few grades. I will definitely HAVE FUNDS FOR THE DARE PROGRAM IN MY BUDGETS.

Quoting an old proverb "An Ounce of Prevention is Worth a Pound of Cure". This I strongly believe, we must put much more effort into deterring the problems before they occur and ruin the lives of our young people.

Before the election on October 21, I plan to visit with all the organizations for the elderly and the youth, and ask you, what you need and want from your Sheriff.

The 911 program is a great asset to Cameron Parish. I commend all of you who have worked so hard to make this possible. It took a great deal of people to make 911 what it is today. The CREDIT FOR 911 SHOULD BE SHARED BY ALL OF YOU. I will work with the public in any way possible to assue it's continued success. Also congratulations go out to all the people who worked so hard to make the Marshland Festival and the Cajun Riviera Festival such a success.

I enjoyed working with you these last weekends, and I WILL CONTINUE TO WORK ALL THE PARISH FESTIVALS WITH YOU when you make me your Sheriff.

We will be scheduling rallies in each precinct of the parish. These are to give you the opportunity to talk to and ask questions of your Sheriff's candidate. The first of these rallies will be held in JOHNSON BAYOU, Saturday, August 19 at the Multi-purpose Building, from 6:00 p.m. through 8:00 p.m. We will have a band playing and have free cake and soft drinks for everyone. Our next rally will be held in Hackberry, Saturday, August 26. The rest of our schedule will be printed next week.

Jerry Nunez

PLEASE VOTE FOR ME - GOD BLESS ALL OF YOU

NOTICE FOR BIDS

The Cameron Community Action Agency, Inc. Head Start Program will be accepting bids for the purchase of Food items for the Nutrition Program until 10:00 a.m. September 7, 1995, at the Cameron Head Start Administration. All bearings, distances and coordinates are based on the Louisiana Coordinate System of 1927 (South Zone).

NOTE: Bidders according to our records that a portion of this tract is located within the restrictive safety fairway area as set out by the Corps of Engineers U.S. Army.

NOTE: The State of Louisiana does hereby reserve, and this lease shall be subject to, the imprescriptible right of surface use in the nature of a servitude in favor of the Department of Natural Resources, including its Officers and Commissions, for the sole purpose of implementing, constructing, servicing and maintaining approved coastal zone management and/or restoration projects. Utilization of any and all rights derived under this lease by the mineral lessee, its agents, successors or assigns, shall not interfere with nor hinder the reasonable surface use by the Department of Natural Resources, its Officers or Commissions, as hereinabove reserved.

All bids are to offer a CASH PAYMENT bonus as full and adequate consideration for every right granted by the lease and one-half (1/2) of which is to be remitted to the first year of the lease, for a lease having a primary term of one (1) year or two (2) years, and if the bid offers a delay rental the ANNUAL DELAY RENTAL shall not be less than one-half (1/2) of the aforesaid cash payment which shall not be granted without any warranty, or recourse against lessor in favor of either expressed or implied, not even for return by lessor of any payments received under the lease or being otherwise responsible to lessee. The MINIMUM ROYALTIES required by R.S. 30:127, as amended, are one-eighth (1/8) of all oil and gas and one-eighth (1/8) of all other liquid or gaseous minerals in solution and produced with oil or gas and saved or utilized, which are not specifically mentioned herein. Rights to geothermal resources, free sulphur, potash, lignite, salt and other solid minerals are to be excluded and any bid thereon will be disregarded to that extent. A bid of a royalty less than the aforesaid statutory minimums will be increased by the Board. All bidders are notified that the Board does not obligate itself to accept a bid which offers in excess of the statutory minimums and is considered most advantageous to the State of Louisiana.

The provisions of this notice or advertisement and the rejection or acceptance of any bid by the Board shall not obligate itself to accept a bid which offers in excess of the statutory minimums and is considered most advantageous to the State of Louisiana.

The provisions of this notice or advertisement shall not be deemed or construed to be modified, enlarged or diminished by resolutions or policy expressed of the Board not incorporated herein expressly or by reference.

Notice is given that the State Mineral Board will include in the lease provisions to insure applicable payments attributable to the leased property without regard to adverse title claims, disputes, litigation or title failure. The exact language therein contained is available to interested bidders at the Office of the Secretary, Department of Natural Resources or the Office of Mineral Resources prior to the opening of bids on the tract, and prospective bidders should carefully examine the same prior to submitting any bid therefor.

Some tracts available for leasing may be situated in the Louisiana Coastal Zone as defined in Act 361 of 1978 (LSA-R.S. 49:213). Such tracts may be subject to the guidelines and regulations promulgated by the Coastal Management Section of the Department of Natural Resources.

All leases awarded shall be executed upon terms and conditions provided in the current State lease form with all applicable riders appended thereto, including but not limited to provisions as follows: Should lessee fail to begin the actual drilling (spudding in) of a well on the lease premises within one year from the date of the lease, the lease shall terminate as to both parties to the lease, unless on or before such anniversary date, lessee shall pay a delay rental which shall in no event be less than one-half (1/2) of the aforesaid cash payment offered for the lease, which shall cover the privilege of deferring drilling operations for a period of one year. Upon like payments annually, drilling operations may be further deferred for successive periods of one year each during the primary term of five years. The lease shall provide for the drilling of offset wells where necessary to protect the State's interest and shall contain the provisions against the assignment or sublease of the lease, unless approved by the State Mineral Board. The lease shall have the right to enter into pooling or unitization agreements with respect to development of the leased premises subject to the approval of the State Mineral Board.

Certified check, cashier's check or bank money order payable to the OFFICE OF MINERAL RESOURCES for the full amount of the aforesaid cash payment, shall accompany and be submitted with each bid, and no bid may be thereafter withdrawn or cancelled and the certified check, cashier's check or bank money order accompanying the bid of the successful bidder shall be retained by the Secretary, Department of Natural Resources and the proceeds thereof disbursed in the manner required by law.

SPECIAL NOTE

By rules promulgated by the Department of Natural Resources under authority of Act 13 of the 1960 first Extraordinary Legislative Session, a fee equal to 10% of the cash payment is required to be submitted by the successful bidder for all leases awarded on and after the September 14, 1968 lease sale. **The successful bidder on each new lease is required to submit a separate check equal to 10% of the cash payment.** Such fee may be paid by regular check. **The fee may be submitted either with the bid (inside the sealed bid envelope) or within ten (10) days after the lease is awarded.** In the event that the check is submitted with the bid and is unsuccessful, the check will be returned along with the unsuccessful bid and check for cash payment. **The successful bidder will not receive the lease executed by the State Mineral Board until the fee is received.**

The successful bidder to whom the lease is awarded must furnish the State of Louisiana, Department of Natural Resources, its Officers or Commissions, as hereinabove reserved, all geophysical data and information obtained by reason of the exploration of the leased premises, and a complete set of all maps, logs, records and reports of operations conducted on the leased premises, at the time of the expiration, cancellation or surrender of the lease.

All bids are to be submitted on the forms prepared by the Department of Natural Resources, its Officers or Commissions, as hereinabove reserved.

All bids are to offer a CASH PAYMENT bonus as full and adequate consideration for every right granted by the lease and one-half (1/2) of which is to be remitted to the first year of the lease, for a lease having a primary term of one (1) year or two (2) years, and if the bid offers a delay rental the ANNUAL DELAY RENTAL shall not be less than one-half (1/2) of the aforesaid cash payment which shall not be granted without any warranty or recourse against lessor in favor of either expressed or implied, not even for return by lessor of any payments received under the lease or being otherwise responsible to lessee. CARD OF THANKS

The family of Francis Ambrose Savoie wishes to express our heartfelt gratitude to our family and friends during the loss of our beloved father. Your prayers and support during his illness soothed our hearts and gave us strength. Special thanks to all that were there in our time of need: Dr. Richard Sanders, South Cameron Hospital RN, nurses aides, Rev. Roland Vaughn, Mr. John Driscoll and the staff of Hixson Funeral Home. Most special thanks to aides Mary Lynn and Janice who always found time to pray the rosary with him. To RN Kim Landry who became such a good friend, to all the family and special friends who brought food, sent flowers, made donations and gave their support, you will be forever in our prayers. May God bless each and everyone of you.

TELEPHONE LINE TO CAMERON

During the early part of the week, a gang of men were busily engaged putting up Mr. Jabez B. Watkins telephone wire to his immense rice farm in Cameron Parish. --Lake Charles Echo.

GOVERNMENT MONEY

The United States Government has spent for public buildings and for the cleaning out and straightening of various courses, and other public works, in the State of Louisiana, from 1807 to 1882, the sum of $13,415,445. Of this amount Calcasieu Pass has received during this time $30,000, and Calcasieu River $26,500, and the lighthouse on Calcasieu River $49,000. - Lake Charles Echo.

CONCERN OVER P.A. BRIDGE

Cameron Parish public officials were showing deep concern this week over the closure of the Pleasure Pier Bridge at Port Arthur, Texas, which has been out for almost two weeks, thereby cutting off traffic on the Sabine Lake Causeway.

The draw bridge, which is owned by the city of Port Arthur, became inoperative some two weeks ago and was cranked into an up position so as not to cut off boat traffic on the Sabine-Neches canal. But this also halted traffic to and from the pleasure pier and from the Sabine Causeway which connects Cameron Parish and Jefferson County.

Since the Causeway construction bonds are being paid off with revenues form the toll charges on the causeway bridge, both Cameron Parish and Jefferson County, joint-owners of the causeway, will soon find themselves in trouble to meet bond payments if the Pleasure Pier bridge is not kept in operation.

KNIGHTS OF COLUMBUS

Members of Cameron Council 3014, Knights of Columbus, sponsored a benefit dance and barbecue at the K. of C. Home in Creole, Tuesday night. Proceeds will go to support council activities according to Grand Knight Whitney Baccigalopi.

Clifford J. Conner, Council Youth Activity Chairman, was named "Knight of the Month" during the meeting for his work in youth activities of the council.

Deputy Grand Knight Roland Primeaux, presiding at the meeting, announced the appointments made by Grand Knight Baccigalopi on the council's six-point program. They are: Roland Primeaux, General Program Chairman; Kenneth Montie, Catholic Activity; Clifford Conner, Youth Activity; J. Berwin Daigle, Fraternal Activity; and E.J. Dronet, Public Relations. He also appointed Clifford Meyers as Council Retreat Chairman.

HACKBERRY ROAD MAINTENANCE

With the movement of drilling rigs, piping, machinery of all kinds for oil field work, and other heavy material for derricks, etc., the highway department of the state is being forced to spend thousands of dollars on the road from Sulphur to Hackberry Island, according to reports today from the office of E. M. Scarborough, district supervisor, with headquarters in Lake Charles.

The big marsh section between the Calcasieu ship channel and the oil fields on the island seems to be just a mere crust of land over a substratus of floating turf and the heavy loads breaking through this crust sink shell and other hard surfacing material into the earth so rapidly that to keep the highway in condition for traffic demands constant effort and expenditure of money.

OIL IN LOUISIANA WEEK

"Few people dreamed Sept. 21, 1901 that the petroleum industry in our state, which had its birth that day near Jennings, would one day supply Louisiana with more than 50 percent of its state derived income."

These words are from Joe Doxey, Gulf Oil, and were made as the petroleum industry observed its "O.I.L" for "Oil In Louisiana." Doxey is parish president of the Louisiana Petroleum Council, the industry's volunteer public affairs, information and education service in our state.

This is what the industry directly means to the citizens of Cameron Parish:

Some 3,226,208 gallons of taxable gasoline were sold in Cameron Parish in 1960 bringing the net state gasoline tax collected here to $226,834.56. Federal tax of four cents a gallon is in addition.

The severance tax on oil and gas production brought in $8,870,778.50 out of the parish total of $8,885,085.80 on all products. Incidentally, oil and gas severance taxes account for 97.5 percent of all natural resource taxes in the state.

4-H LEADERS BANQUET

The annual 4-H Club Leaders Banquet was held Tuesday night in Cameron.

Those on the program were: Leslie Griffith, master of ceremonies; Hadley Fontenot, county agent, welcome; Juanita Granger, pledge to flag; Kenny Reasoner, 4-H pledge; Clifford Myers, associate agent, introduction of guests.

Rev. Billy Hutson, Baptist pastor, invocation and benediction; Johnson Bayou senior 4-H trio, Dorothy Merritt, Shirley Benoit and Patsy Hebert; talk by U. E. Hackett, superintendent of schools.

I. P. Theriot, secretary-treasurer, Jennings Production Credit Association, presented awards to 4-H adult leaders.

Cameron Elementary - John Clark and Nedia Hebert, members; and Mrs. Robert Manuel and J. C. Reina, leaders.

Hackberry - Kenny Reasoner, Wanda Johnson, James Lowery, Ernest Hamilton, Jr. and Jimmy Duhon, members; Miss Beverly Vines, Mrs. Archie Berwick, Daniel Weekley and M. G. Richardson, leaders.

South Cameron - Charles Bonsall, Ann Martin and Leslie Griffith, members; Patrick Doland, Mrs. Dalton Richard, Richard Hebert and U. W. Dickerson, leaders.

Grand Lake - Annette Greathouse, Charles Greathouse, Albert Gray, Juanita Granger and Brenda McCain, members; Mrs. E. D. Sweeney and Mrs. Luke Landry, leaders.

Grand Chenier - Carolyn Miller and Charlotte Brasseaux, members; Miss Oma Miller and Wilbur Smith, leaders.

Johnson Bayou - Gwendolyn McWright, Kenneth Leger, Tommy Stanley and Johnny Constance, members; Norris Leger, Joe Sonnier and Roger Christian, leaders.

ROUNDBOUT THE PARISH

Black News - The Audrey Memorial Elementary School children had Easter egg hunts last Monday and Tuesday. Winning prizes were Cheryl LaSalle, Kathy LaSalle, Gilda Bargeman, Joseph Frank and Chester Senegal.

The upperclassmen amused themselves with an Easter party, followed by an art exhibit. Mary Ruth Andrews won first place with her exhibit, and Eve Marie LeBlanc was second.

Hackberry - Mrs. Adam Broussard celebrated her 81st birthday Easter Sunday with a barbecue.

The council members also approved a resolution commending Mr. Hadley Fontenot on his leadership and initiative in the Louisiana Fur and Wildlife Festival for the past six years, and offered their complete support to try to continue the annual festival.

ROAD TO JETTIES

A passable road down the east side of the Calcasieu River to the jetties at Cameron is now a reality. The dump for the road was recently completed by the police jury and the roadbed has been leveled in preparation for shelling.

The police jury bought 10,000 yards of reef shell last week, of which 5,000 is to be spread on the jetties road within a few days. Official opening of the road will then follow.

The police jury authorized the construction of the road last fall after the Cameron Lions Club pointed out that the road would open up the jetties to fishermen and sportsmen and would also provide access to more docking space on the Calcasieu River.

Rep. Alvin Dyson reported this week that the Department of Public Works has already surveyed a 20-acre area at the end of the road fronting on the river and Gulf with the intention that this area will be filled in with spoil form the ship channel when it is dredged, providing a recreation area for the public.

Roland J. Trosclair, ward 3 juror, supervised the construction of the road.

ROUNDABOUT THE PARISH

Holly Beach -- People are keeping abreast of news concerning the Pleasure Pier bridge. A storm at this time would put west-enders in a perilous position. Early flooding of the road might cause people to be trapped. The bridge's closing also came at a bad time as people planned to use the close-by markets for school and winter needs. Tourists and campers are going all the way around doubling the mileage.

Cameron -- Mr. and Mrs. John Richeau and children stopped by at Mr. and Mrs. Berman Cheramie's Sunday on their way back to Houston. Mr. Richeaux formerly had a T.V. repair shop here.

Grand Chenier -- Grand Chenier is still having hot, dry weather. The thermometer read 108 degrees outside of the Grand Chenier post office in the shade Thursday, August 9, and 107 degrees on Aug. 10.

Creole -- Mr. and Mrs. Alvin Duhon and children, Tom, Vicky and Allen, of Albuquerque, New Mexico, spent an eight-day visit recently with his parents, Mr. and Mrs. Desire "Gosh" Duhon. While here, they were honored at a big family barbecue given by his parents. Among those attending were the John Broussards and son, Huey; Mr. and Mrs. Paul Hursey Duhon, Dale Richard, Barbara Nunez, Glenda Duhon, Alicia Richard and Mr. and Mrs. John "Pete" Duhon.

Hackberry -- The Hackberry Home Demonstration Club honored one of their members, Mrs. Pauline Krumm, with a housewarming party in their new home Friday night.

Grand Chenier - School pupils enjoyed their Easter hunt April 18. Prizes awarded to the children finding the most eggs went to: Ronnie Theriot, Paul Dyson, Robby Dale Mhire, Glenda Miller, Linda Gay Smith, Pat Arceneaux, Carolyn Miller and Darrel Swire.

Cameron - Spending Easter holiday with their parents were these USL students: Madeline Colligan, Kay Keith Sturlese, Warner and Coe Daigle. Home from LSU were James and John Watts and Edward Swindell.

Grand Lake-Sweet Lake - An egg hunt was enjoyed by a large group of children on the grounds of the Big Lake Tabernacle last Friday. Prize winners were Cheryl Ann Hebert, Greta Poole, Brenda Nunez and Cathy Thomas. Mothers participating were Mesdames Edgar Poole, C. J. Farque, Curtis Nunez, Samuel Day, Larton Hebert and Cleveland Harris.

Automobile oil recycling can be done here

Do-it-yourselfers in the United States annually drain an incredible 200 million gallons of used oil from the crankcases of their automobiles. Unfortunately, a major portion of that amount is improperly discarded, being poured onto the ground, down the sewer or into a body of water. Recycling, as with so many other waste products, is the appropriate alternative to dumping oil.

When poured on the ground, oil can seep through the soil and eventually contaminate drinking water reserves. In a body of water, oil can have serious consequences for aquatic life, but also for anyone who enjoys eating seafood or depends on it for their livelihood. And oil is not eliminated by sewage treatment facilities. In fact, about 15 million gallons of oil are discharged into coastal waters each year--after passing through treatment plants. That is more than double the amount spilled into land during maritime accidents involving oil freighters.

In Cameron Parish the following business has agreed to accept used oil from the public to be recycled: Romero Brothers Oil Exchange, Cameron.

Most oil recycling centers do not accept the containers in which the oil is delivered. Please contact the individual center to determine the amount of oil that will be accepted, during which hours, and whether the containers can also be recycled at that location.

The Challenge of Genealogy

by MARIE WISE

Births, baptisms, marriages, deaths and funerals for many of the earliest Louisiana families of the colonial French South were recorded by Catholic priests assigned there.

The obligation to keep these parish records was enforced by the state (France) for purposes of population, taxation, military service, etc.; and most the time, such records constitute the most detailed family data surviving for Gulf Coast colonials of the early 1700's.

As such, church archives are indispensable to genealogical research.

GULF COAST COLONIALS

Gulf Coast Colonials: A Compendium of French Families in Early Eighteenth Century Louisiana by Winston De Ville, first published in 1969, has been re-printed this year.

Pertaining to inhabitants of the French Parish of Mobile, one of the frontier outposts of the French empire in North America during this period, more than 400 households and 1,000 individuals are identified from Louisiana to Alabama.

In alphabetical order by family group usually headed by the father, followed by spouse and then children in relative order of birth, the records may include also occupation, birthplace in Europe, location in the colony, etc.

Most records pertain to officers and enlisted men; other occupations include merchants, clergy, trappers, artisans, small farmers, clerks, slaves, etc.

There is a a Foreword by De Ville, an informative Introduction giving historical and social background, a chapter on the colonists, another listing priests who served 1704-1756 "from Pensacola to New Orleans", and an Index of spouses.

Softcover, 5 1/4 x 8 1/4 in., 69 pages, available at $8.50 plus $3.50 for mailing from Clearfield Company, 200 E. Eager St., Baltimore, MD 21202.

ALABAMA HISTORY

Alabama: Her History, Resources, War Record, and Public Men From 1540 to 1872 by W. Brewer is "a remarkably detailed history (of this state) from the time of the Spanish explorer DeSoto's arrival in 1540" to 1872, the year this book was published.

There is much information on the Indian tribes, the French colonization and wars and the British and Spanish occupancy; then the first Territorial organization by the U.S., 1798-1799; with Natchez on the Mississippi as the seat of government; admission of the State of Alabama in 1819; and on through after the War Between the States including a complete listing of governors, other state officials, and judges.

Following is the largest section of this book consisting of a chapter for each of Alabama's 65 counties. Considerable genealogy and family history is included along with the county histories and development, plus senators and representatives for each.

The final section recounts "Alabama's involvement in the recently concluded Civil War" and features sketches of every infantry and cavalry regiment to have served in the Confederacy: organization, campaigns, battles, field and staff officers, etc.

This well-written volume of over 120 years ago packs a great deal of valuable information into its 712 pages, 5 1/4 x 8 1/4 in. It is softcover, indexed, available at $47.50 plus $3.50 for mailing from: Clearfield Co., 200 E. Eager St., Baltimore, MD 21202.

SETTLERS OF MARYLAND

Settlers of Maryland, 1679-1700 by Peter Wilson Coldham continues the important work of Gust Skordas who previously compiled *Earlier Settlers of Maryland* identifying most of the immigrants arriving in the Province of Maryland before 1680.

During that period, most land in Maryland was granted as "headrights" - 50 acres for each person transported into the Province. In 1680 this system was replaced by the purchase of land which involved 3 separate documents: warrants, certificates and survey and patents.

This compiler, Peter Coldham, (read his Introduction first) believes that he was able to find a record of almost all Maryland land grants, 1679-1700, and include them in this important research volume giving county, name of tract, acreage, date, and reference to original sources.

Alphabetical by family name, indexed by tract name, hardcover, 5 1/2 x 8 1/2 in., about 240 pages, available at $25.00 plus $3.50 for mailing from: Genealogical Publishing Co., 1001 N. Calvert St., Baltimore, MD 21202-3897.

Publications reviewed in this column are given to the Erbon and Marie Wise Genealogical Library, Louisiana State Archives, Baton Rouge.

Parish youths show animals around state

Eight Cameron Parish FFA and 4-H members are currently competing in the Louisiana Junior Show Circuit. The swine exhibitors have participated in six of the nine shows thus far.

Exhibitors received points for their placings in each class as well as showmanship points. At the Louisiana State Fair in October, ten exhibitors will receive jackets for the highest pig placings and five exhibitors will receive jackets for the highest showmanship points.

Cameron Parish exhibitors include Brett Baccigalopi, Ryan Bourriaque, Scott Canik, Scott Myers, Dusty Savoie, Jennifer Savoie, Scott Savoie, Danielle Shay and Courtney Sturlese.

Overall winners in each show inciue:

Deep South Showdown, Franklin, July 8: Danielle Shay, LA Bred champion.

Red River Classic, Coushatta, July 15: Jennifer Savoie, exhibiting Ryan Bourriaque's hog, Grand Champion; Danielle Shay, Reserve Champion, 2nd 17 and older showmanship; Dusty Svoie, 5th, 11 and 12 year old showmanship; Brett Baccigalopi, 1st, 10 and under showmanship.

River Classic Livestock Show, Sorrento, Aug. 5: Brett Baccigalopi, Grand Champion Showman; Champion Novice Showman; Ryan Bourriaque, Champion Junior Showman; Scott Canik, Reserve Champion Showman; Champion Senior Showman.

Rapides Classic, Alexandria, Aug. 12: Jennifer Savoie, Reserve Champion Showman; Champion Senior Showman; Brett Baccigalopi, Champion Novice Showman; Dusty Savoie, 2nd, 11 and 12 year old showmanship; Scott Myers, 6th, 11 and 12 year old showmanship.

Remaining livestock shows are scheduled for Oberlin, DeRidder and Lake Charles.

License rules for crab traps

More restrictive regulations governing commercial crab trap gear licenses become effective Nov. 15, 1995. New legislation (Act 873) effective this year will prohibit issuance of commercial crab trap gear licenses after Jan. 1, 1996, through Dec. 31, 1998, except to those who possessed those licenses for 1993, 1994, or 1995.

The Department of Wildlife and Fisheries annually begins selling commercial licenses on Nov. 15, for the upcoming year, ceasing sales for the present year on Nov. 14. Anyone interested in purchasing a commercial crab trap gear license for 1996 who did not possess a valid license in 1993 or 1994 or who hasn't bought a valid license for 1995 will need to purchase a 1995 license before Nov. 14, in order to qualify.

Charter boat licenses told

Two new licenses for charter fishing boats went on sale Aug. 7, and will be required for charter vessels effective immediately. The 1995 Louisiana Legislature instituted the Charter Boat Fishing Guide License and the Non-resident Charter Fishing Trip License, both to be used in the state's saltwater areas. The licenses are available at the Department of Wildlife and Fisheries' Baton Rouge office 8:15 a.m. to 4:15 p.m. Monday through Friday.

The annual fee for a resident Charter Boat Fishing Guide License is $250 per vessel for those carrying no more than six passengers and $500 per vessel for boats carrying more than six passengers.

To qualify for purchase of a Charter Boat Fishing Guide License, the captain of a charter vessel must present to LDWF a copy of his valid captain's license issued by the U.S. Coast Guard and a copy of his Louisiana recreational fishing license. The guide license is valid for one year beginning Jan. 1, of each year.

Parish man cites for violation

Cameron Parish resident Terry Patrick Shaughnessy pleaded guilty to federal charges of baiting a dove field on July 13, 1995. Shaughnessy acknowledged aiding and abetting the taking of migratory game birds by creating an illegal baited field situation.

Shaughnessy, 50, was cited Oct. 12, 1994, after Wildlife and Fisheries enforcement agents ended surveillance on what they determined to be a baited dove field in Hackberry, Cameron Parish. Agents had surveyed property owned by Shaughnessy beginning Aug. 8, noting sites where rice and milo had been placed to attract doves.

On Sept. 3, agents approached Shaugnessy during an organized hunting excursion, seizing 177 doves. Shaughnessy's claims that the area was to be used for raising cattle were later shown to be false.

The U. S. Attorney's office for the western district of Louisiana later dropped the charges against the 33 individuals cited in Shaughnessy's field. Shaughnessy took sole responsibility for the situation.

Shaughnessy, a well-known guide and outdoor TV host was fined $400 plus $20 for the criminal victims fund (a federal requirement used to help offset expenses incurred by crime victims). In addition, he was sentenced to 12 months unsupervised probation and 16 hours of community service and ordered to pay $1,731.06 in civil restitution ($9.78 per dove).

New sports program

Lake Charles Memorial Hospital and West Calcasieu-Cameron Hospital have joined forces to form a new alliance that focuses on the areas of sports medicine and fitness.

West Calcasieu-Cameron Hospital is becoming a partner in Memorial's existing sports medicine program. The new program will be called Louisiana Sports Medicine Alliance.

Memorial Hospital President Elton Williams, Jr. and West Calcasieu-Cameron Hospital CEO Wayne Swiniarski issued a joint statement regarding the benefits of the team effort of the two hospitals. Memorial and West Calcasieu-Cameron Hospitals are both community hospitals with a shared interest in providing the best possible healthcare in the most economical way possible. One way to do that is by engaging in joint efforts such as this one where we are providing the diagnosis, treatment, education and proper clinical follow-up of all athletic injuries involving all age groups. We are excited by the creation of the Louisiana Sports Medicine Alliance and believe it will benefit the area's athletes and the community as a whole."

Law firm opens new office here

The Lake Charles law firm of Stockwell, Sievert, Viccellio, Clements and Shaddock have announced the opening of an office in Cameron.

It is located in the old Richard home on the courthouse square and is open every Monday and Thursday from 9 a.m. to 4 p.m. The Cameron phone number is 775-5003 and the Lake Charles number is 436-9491.

Joy Abshire, the firm's administrator, said various attorneys on the firm's staff will service the Cameron office. One is Allen McCall, who is the son of Mr. and Mrs. Norman McCall of Cameron. Others include Sue Gay Biccello, Robert Damps and John Baay.

Ms. Abshire said the law firm has been in business for the past 60 years and provides a wide variety of legal services.

New drive-in is opened

Grand Chenier now has a new eating place. Treats-N-Eats Drive Inn has been opened by Thelma Broussard next to the Kajun Food Store and will be serving hamburgers, hotdogs, nachos, etc. from 10 a.m. to 8 p.m. seven days a week.

Broussard said she was following in the footsteps of her late grandfather, Man Trahan, who operated a restaurant in Creole some years ago.

Phone in orders will be taken by calling 538-2217.

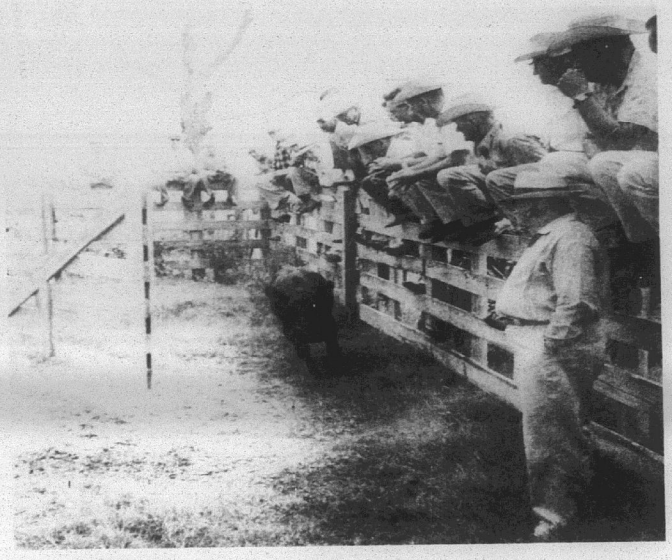
Firm presents safety award

Transcontinental Gas Pipe Line Corporation (Transco), presented a safety award to its Johnson Bayou employees Tuesday. The award celebrates the district employees working all of 1994 without any employee losing a day of work due to an accident or injury.

The safety award luncheon ceremony was held at the Johnson Bayou station. The presentation was part of Transco's annual safety award ceremonies, which are held at each Transco station along its pipeline system.

Transco, one of The Williams Companies, Inc., owns and operates a 10,000-mile natural gas pipeline system that extends from the Gulf of Mexico to New York City. It began its Louisiana operation in 1951.

Trapping set at Lacassine



Commercial trappers under permit from Lacassine National Wildlife Refuge will be trapping alligators on the refuge from Sept. 2 to Oct. 1. Refuge Manager Vicki Grafe cautions boaters and anglers to be more careful than normal in traveling refuge boat trails and canals because baited hooks could be set on the edges.

Any buyers interested in bidding on hides or whole alligators removed from the refuge can contact Refuge Biologist Wayne Styron at 774-5923 for further information.

Shop moves

The Cameron Tobacco shop has relocated to 408 Marshall street in Cameron between Gulf Coast Supply and Surf Lounge. This is the old Taber building.

It will reopen at the new location on Monday, Aug. 25.

Personnel cuts? Tax election? Board undecided

BY JERRY WISE

The Cameron Parish School Board did not make a decision to call a tax election to try to solve its deficit problem when members met for their August meeting recently. The Cameron Pilot's story last week was in error on that point.

What happened at the August school board meeting was this:

Hackberry board member Glenda Abshire offered a motion, seconded by Karen Nunez of Grand Lake, to add a discussion of the possibility of a tax proposal to board's agenda that day.

Abshire, Nunez, Board President Bill Morris and Johnson Bayou board member Daniel Billiot voted in favor with Tony Johnson of Creole and Clifton Hebert of Cameron voting no. The motion passed.

However a second motion by Abshire to submit a property tax proposal and proposed expenditure reductions to the public prior to any further budget reductions failed by a 3-3 tie vote.

The vote on this motion was: Yes--Abshire, Nunez and Billot. No--Johnson, Hebert and Morris.

Morris explained that he had voted to put the tax issue on the agenda so that it could be discussed by the board but that he was not for a tax at this time and voted against the second motion.

The board then proceeded to vote on a list of budget cuts that had been offered by the Financial Planning Committee. These included elimination of the assistance superintendent's position, elimination of a central office clerical position, elimination of the assistant principals positions at Cameron Elementary and Johnson Bayou school, elimination of the elmentary physical education programs, elimination of four regular education aides, elimination of a clerk position at South Cameron high school, reduction of one sweeper at each school except Grand Chenier and consolidation/elimination of bus routes.

A vote one each of these eight separate items ended in the same 3 to 3 tie vote with Abshire, Nunez and Billiot in favor and Johnson, Hebert and Morris against.

The deadlock has apparently resulted because there is no way to break a tie on the school board and because each side has strong opposing views on the subject.

Three of the members take the position that the parish school system has a good school program and before any cuts are made in the program the parish citizens should be given the opportunity to vote for or against a tax increase.

The other three members take the position that due to homestead exemption the burden of new taxes falls almost entirely on local businesses and industries and to increase taxes at a time when the parish is in a recession could adversely affected business and jobs.

Morris said he was not opposed to asking for a tax increase but did not feel that this should be done before important reductions were made in school board spending.

Supt. Sonny McCall, who is retiring at the end of the year, said he does not know what will happen if some agreement is not reached by the board either on spending cuts or a tax proposal. The board has been operating under deficits for the past four years which have been made up with funds from the "rainey day" fund.

This fund was set up some years ago when the board was flush with income from oil and gas leases and production on the parish's 16th Sections. The board at that time decided that some of these surplus funds should be set aside for some future disaster, such a hurricane that could destroy many of the parish schools.

Cameron parish schools have not had any major damages since Hurricane Audrey in 1957 and the "disaster" has turned out to be the oil and gas industry crash that has decimated the school board's extra income.

Council promotes nutria fur use

The Louisiana Fur and Alligator Advisory Council presented a nutria coat to the winner of the 1995 Miss Louisiana/Miss USA Pageant. The Aug. 19, donation kicked off the council's campaign to promote "genuine Louisiana bayou nutria," to be available this year in state department stores for the first time.

Robert Watson, vice chairman of the Louisiana Fur and Alligator Advisory Council, was on hand for Saturday evening's crowning of Miss Louisiana in New Orleans and presented the sheared nutria coat, manufactured in Montreal, Canada, by Musi Furs and carrying the label "genuine Louisiana bayou nutria". Miss Louisiana also received an alligator clutch.

Last year's winner was present at the Council's booth at the New Orleans Sportsmans Show to model fur coats and show off alligator products. This year's winner will participate in several promotions planned for early September announcing the first-time availability of "genuine Louisiana bayou nutria" coats in the state.

The Louisiana Fur and Alligator Advisory Council, housed within the Department of Wildlife and Fisheries and advisory to LDWF's secretary, exists to promote the state's fur and alligator resources. The Council has two major goals: to educate the public about the role of fur animal trapping and alligator hunting in wildlife and habitat conservation; and to strengthen existing markets and create new ones for state furs and alligator skins and products.

"The Council continues to be encouraged by potential new markets for nutria in China, Russia, and eastern Europe, but believes the product should be marketed across North America and should certainly be available in Louisiana," said Council Chairman Darrell Dupont of Cameron. "These markets can provide an economic incentive to trappers and a solution to wetlands damage caused by overpopulation of nutria."

Alligator Festival is on Oct. 1st

By ELORA MONTIE

The date of the 10th annual Alligator Festival sponsored by the St. Eugene Catholic Church of Grand Chenier has been changed to Sunday, Oct. 1, and will be held at the Grand Chenier State Park on the Mermentau River.

It will be an all day affair with food booths, live music, boat races, childrens games, country store, etc.

There will also be a T-shirt and cap booth, cake walk, senior citizen queen contest, childrens contests, alligator displays and skinning demonstration.

The food includes barbecue, boiled crabs and fried alligator.

New fishing act is put on hold!

District Court Judge Janice Clark signed a temporary restraining order Aug. 14, ordering the Department of Wildlife and Fisheries to defer implementation of the Louisiana Marine Resources Conservation Act until a hearing on Aug. 31. Judge Clark's restraining order prohibits the Department from enforcing the provisions of the act, which include several new licenses. The Act was scheduled to go into effect Aug. 15.

The Louisiana Wildlife and Fisheries Commission met in Baton Rouge Aug. 15. Several regulations promulgated and voted upon at that time by the Commission regarding Act 1316 will go into effect only upon lifting of the injunction. These regulations include licensing, requirements for economic assistance under the Commercial Fishermen's Assistance Program, regulations governing possession of certain commercial gear to and from the federal economic exclusive zone, and seasons and regulations for various finfish species.

The regulations passed could become effective Sept. 1, at the earliest, depending on the judge's ruling on the injunction.

No new licenses, stamps, or permits created by Act 1316 will be sold until the act is allowed to be implemented. Until that time all current licenses will remain in effect.

A Cameron Community Blood Drive will be held Fri., Aug. 25, at the Police Jury Annex.

Free T-shirts will be given to participants.

The drive is sponsored by the Louisiana Blood Center.

Gator licenses set

Alligator hunter licenses and tags will be issued at Rockefeller Refuge in Grand Chenier on Aug. 28, 29 and 30. Hunters are urged to pick up their tags and licenses at the time scheduled for their particular location. No tags will be issued after Sept. 11.

Anyone needing additional information should call the Refuge at 538-2165.

The locations are as follows: Monday, Aug. 28: Miami Corporation Hunters, 7:11 a.m.; Mermentau Mineral, 11 a.m.-noon; Little Chenier, Grand Chenier, Calcasieu parish, Cameron, Creole, 1-5:30 p.m.

Tuesday, Aug. 29: Federal Refuges, 7-9 a.m.; Johnson Bayou, Hackberry, 9 a.m.-noon; Lake Arthur, Big Lake, 1-5:30 p.m.

Wednesday, Aug. 30: Vermilion Corporation, 7 a.m.-noon; Vermilion Parish hunters, 1-5:30 p.m.

No tags will be issued after Sept. 11, 1995.

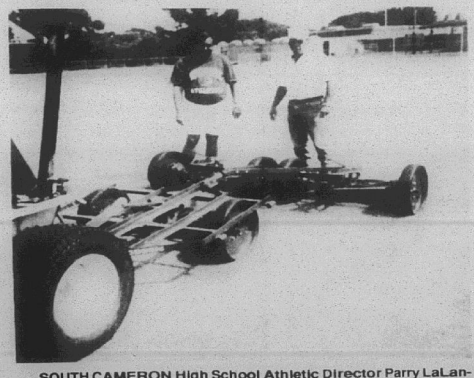
Soil survey unveiled here

The U. S. Soil Conservation Service was scheduled to unveil its new "Cameron Parish Soil Survey" book at 2 p.m. Wed., Aug. 23, at the Cameron Parish Police Jury office.

U. S. Rep. Jimmy Hayes was among the guests scheduled to speak.

The book contains detailed soil studies and aerial maps of Cameron Parish. For more information contact the Soil Conservation Service at 436-1483.

Agencies to have training



The Cameron Community Action Agency, Inc. and the Cameron Parish Head Start Policy Council will meet for training on Sept. 11 and 12. Training will be provided by the professionals on Head Start for Basic Health Management in Little Rock, Ark. They will meet at the Cameron Senior Center from 5-8 p.m. each day.

Contact the office at 775-2952 or 775-2910 if you have any questions.

Open house

Cameron Elementary School will hold its annual open house Thurs., Aug. 31, at 6:30 p.m. in the school auditorium.

All parents are invited to attend.

SOUTH CAMERON High School Athletic Director Parry LaLande, left, and Principal Jimmy Marcantel are shown with the gang mower donated by Richard Sturlese and Billy Navarre Chevrolet.

How to contact Pilot

Dove season almost here

Labor Day weekend is drawing near and for many Louisianians that can only mean one thing: dove season. The long weekend means hunters can commence their hunting for the year with an extra day afield.

Mourning doves are one of the most widely distributed and abundant birds in North America. LDWF reports there are approximately 60,000 Louisiana dove hunters and they harvest about 1.2 million birds annually.

Some things to remember as you take to the field this year:

1. Safety first. Dove hunting can take place under crowded conditions, where many hunters anxious for the first bag of the season may congregate in a small area. Be especially careful.

2. Baiting can be a problem. Ask the landowner where you're hunting if he has baited his field, and double check once you start your hunt. Meander across the entire area and look for anything suspicious; excess grain or feed, or large numbers of doves frequenting freshly plowed fields. Remember that if grain or feed has been used in the area during the previous 10 days it may still constitute a baited field.

3. Take precautions for heat. Bring plenty of water. Don't forget that your dog may become overheated and will also need water. In addition, your bag of the day needs to be kept cool.

4. Practice before you hit the fields. You may not have hunted for months and it's important to keep your skills sharp.

5. Preparation is a must. Clean your gun thoroughly and make sure it's in peak working order. Louisiana law states that your gun may only hold three shells at a time, so check and see that plugs are properly installed. If you're using dogs, begin getting them in shape before the season starts.

The daily bag limit of doves is 12 and possession is 24.

The hunting dates are Sept. 2-10, Oct. 21-Nov. 20, and Dec. 16-Jan. 14.

Shooting hours are one half hour before sunrise to sunset except for Sept. 2-3, Oct. 21-22, and Dec. 16-17, when shooting hours will be 12 noon to sunset.

Henry is VP on J.D. elec. board

Eugene Todd of Welsh is the new president of the Jefferson Davis Electric Cooperative board.

The board also elected W. F. Henry Jr. of Cameron, first vice president; E. Garner Nunez, Grand Chenier, second vice president; and Louis Trahan Jr., secretary-treasurer.

In addition to the officers, re-elected incumbent directors are Joseph L. Tupper Jr., Jennings; Richard J. Byler, Lake Arthur; and Charles S. Hackett, Lake Charles. Other board members are Robert Sarver, Jennings; and Webster Todd Jr., Bell City.

Over 300 attended Jeff Davis Electric's 1995 annual membership meeting, which preceded the board's session, in Cameron.

Addressing the membership, General Manager Dale Landry, emphasized that rate reductions ordered by the Public Service Commission for Jeff Davis's wholesale power supplier, Cajun Electric Power Cooperative, had resulted in power cost reductions of $30 million that has been directly passed on to consumers. He pointed out that while costs of most other goods and services have increased, Jeff Davis Electric's rates have decreased.

Job Training Office given recognition

The Calcasieu Parish Police Jury Job Training Office, serving Calcasieu, Cameron and Jeff Davis parishes, has been recognized as one of the best publicly-funded employment and training organizations in the nation. The Job Training Office was one of only 4 in the State of Louisiana and 103 across the nation to achieve charter membership in the Enterprise, a national network of certified employment and training organizations. Certification was granted during a recent meeting in Washington, D. D.

As a condition of certification, the Job Training Office successfully met three qualifying criteria: (1) Achieved a rating of over 75% of an independent customer satisfaction survey (our rating was 94%), (2) Successfully placed at least 80% of workers, and (3) Achieved a superior rating in a Baldridge-based evaluation of management practices.

"We recognize how difficult it is to be out of work, especially during this period of economic restructuring and downsizing," said Tommy Joyce, local PIC chairman. "But, if there's any silver lining, it lies in the fact that the Job Training Office offers the best quality of services when it comes to helping men and women in our community find rewarding jobs that utilize their talent."

WARNING! WARNING!

BE ON THE LOOK OUT...

School's back in session and in the excitement of the new school year, many school-age children, especially the young ones, may forget to look both ways when crossing the street or exiting the school bus.

That leaves it up to you as a driver, to be extra careful around schoolyards, neighborhood play areas, and departing school buses.

So remember...when you see yellow, be sure to see red—as in red alert. Let's all slow down and give our children the chance they deserve.

CARL BROUSSARD

CLERK OF COURT

To All Cameron Parish Residents:

My name is Carl Broussard and I am a candidate for the Office of Clerk of Court for Cameron Parish. I am 40 years old and have been a lifelong resident of Cameron Parish and reside in Grand Chenier. I am a 1973 graduate of South Cameron High School and studied at McNeese State University. I am married to the former Michelle Guidry and have two daughters.

I have been employed as an Abstractor for the past 18 years and as a Notary Public for the past 8 years. My work as an Abstractor and Notary Public includes researching public records, preparing and filing deeds, mortgages, right-of-ways, and oil and gas leases, all of my work is done in the Clerk of Court's Office. From my work in the Cameron Parish Clerk of Court Office and many other Clerks of Court Offices around the State, I have learned and been involved with the day-to-day workings and operations of these offices. From my work I have gained the knowledge and experience necessary to run your Clerk of Court's Office and be the caretaker of the public records.

My knowledge, experience, along with my strong work ethic are my assets.

In the coming weeks I look forward to meeting each of you and your families.

In the future, I am anxious to serve each and everyone of you as your next Clerk of Court.

In closing I ask for your VOTE AND SUPPORT!!

CAMERON
GOOD ROADS BARBECUE

Aug. 20 - One of the largest public gatherings in Cameron Parish in many years assembled in the town of Cameron, parish seat of Cameron Parish, Monday at noon, to partake of the bounteous barbecue, given to officials and representatives of the Louisiana Highway Commission in token of appreciation of assistance which Gov. Long and the commission are giving to the people of Cameron in the improvement of an east and west highway between Grand Chenier and Cameron, that will afford better means of communication with, and traffic to the outside world.

Representative John H. Meaux, a recognized advocate and worker for good roads in Cameron, was chairman of the arrangements committee. Alfred Richard, police juror from Grand Chenier, was in charge of the barbecuing. Women of Cameron, who are also good road enthusiasts, helped with the serving and received many words of praise during the day.

Thos. W. McCall, superintendent of schools in Cameron Parish, presided and introduced the speakers. T. Arthur Edwards delivered the first address of the day. He congratulated the citizens of Cameron for their interest in good roads and predicted a brilliant future for Cameron as a whole.

Rev. Father Van Merrienboer, resident pastor for Cameron Parish, in a beautiful talk to his parishoners on the progress which Cameron Parish is making, expressed in behalf of Cameron, its appreciation of the help which Gov. Long and O.K. Allen are giving in the improvement of the roads of the parish.

Sen. B.E. Robinson of Union Parish, informal representative of Chairman Allen and Gov. Long, told his hearers of the pleasure it gave to him to be in Cameron, and discussed at length on the boundless resources of Cameron and of the benefits good roads will bring to the people of the parish. All the speakers emphasized the advantages which highways offer in getting products to markets and Supt. McCall declared that as head of the schools in Cameron, he is in a position to know and appreciate what good roads mean as an aid to education of the youths of the parish.

Everybody had a royal good time. Automobiles were provided by local citizens to take visitors from the boats to the barbecue grounds and take them back to the boats again. The party coming from Lake Charles arrived shortly after the noon hour in the Launch Dixie. Sen Robinson and his party came by seaplane. Cameron citizens were there from every part of the parish.

The work which the highway commission is now doing in Cameron is the spreading of about 8,000 cubic yards of shell on the parish road between Cameron and Creole and Grand Chenier, which is a sector of State Routes No. 42 and No. 292.

STORES URGED TO OPEN

Cameron Parish businessmen - especially cafes and grocery stores - have been urged to reopen as soon as possible.

At a meeting of parish business people Saturday, Sheriff O.B. Carter said there apparently was some reluctance on the part of store owners to re-open until most of the residents had returned.

"The people can't return until some of you, such as cafes and the grocery stores re-open," he said.

The various reasons why the stores have not reopened were discussed at the meeting. Probably the main one is the lack of electric power, which is needed for refrigeration in the food stores.

Manager J.S. Robbins of the Jeff Davis Electric Coop, told the group that power probably will be on by next Monday (Aug. 26). The highline between the Gibbstown Bridge and Cameron, which was destroyed by the storm, has been replaced, and all that now remains to be done is the replacement of the line between the bridge and Hackett's store at Sweetlake. This line was not damaged, but must be replaced since a bigger line is being put in altogether.

Some 30 Cameron Parish businesses were represented at the meeting.

GULF MENHADEN
IN PARTIAL OPERATION

Gulf Menhaden Co. is now in partial operation according to Manager Al Bierman. The plant resumed operations on August 5 using generators to furnish the power.

Mr. Bierman said the plant would go into full operation just as soon as power was available from Jeff Davis Electric, which should be next week.

The company has four boats fishing at the present time. Two more are tied up at the docks for the want of engineers, and others are fishing at Moss Point, Miss., and other points along the east coast.

Louisiana Menhaden Co., which has been in operation for about a month, is fishing some seven boats. Fishing is reported poor although some good schools of fish were sighted this week.

BUSINESS DEVELOPMENTS

Bob and Marianna Tanner have announced that they are moving their Tanner's Home Furnishings store to a new location on Cameron's main street.

The store, formerly located on a back street, will now occupy the entire building formerly used for Dyson's Hardware and the Cameron Food Center. The latter section is being leased to Tanner by Frankie Henry.

Alvin Dyson, owner of Dyson's Hardware, is planning to move this store into the building being vacated by Tanner, which is located along side of Dyson's Lumber Yard.

Two of Cameron's oldest business establishments will have new management in the future.

The two Peter Henrys - father and son - announced this week that Henry's Food Mart will be leased and operated by G.B. Kornegay, bringing to an end the oldest family operated busines in Cameron Parish and perhaps in Southwest Louisiana.

It was also announced by Claudius Mayo of Lake Charles that he has leased the Cameron Abstract Co. from Mrs. John B. Daigle of Baton Rouge and will have it back in full operation shortly.

The Henry's decision to lease the food market means that for the first time in 85 years the establishment will be operated by someone other than a Henry. The store was established in 1972 by "Old Pete's" father and has since been operated by three generations of the Henry family.

"Young Pete" said he and his father would devote their time to their Magnolia Bulk plant. The storm, he said, was a contributing factor but not the entire reason for the change.

The leasing of the Cameron Abstract Co. brings to an end 33 years of management by the Daigle family. The firm was established in 1924 by John B. Daigle and later by his wife, Mrs. John B. Daigle of Baton Rouge. Mrs. Jesse Moffet, who had managed the company since 1951, died during the hurricane on June 27.

The company will reopen in about 30 days and the Cameron Branch of the Mayo Tile Co. of Lake Charles. Eight people will be employed.

Tarpons to play in Iowa Jamboree

By JOE MUELLER

The Tarpon football season gets underway this evening, Thurs., Aug 24, as the Creole school buses up to Iowa to take part in the Iowa Jamboree.

The South Cameron team faces Iowa in the final game of the night. South Cameron's game will start at approximately 7:30 p.m.

Tickets for the Jamboree may be purchased at the local high school for $3. They will be $4 at the gate.

The opening game of the Jamboree finds Merryville playing the Jennings J.V. team. Game two is DeQuincy and the Barbe J.V. and the third game finds Vinton playing the Sulphur J.V. team. Each game will consist of two ten minutes halves.

Last year the Tarpons played Sulphur J.V. in the Jamboree and came away with a 14-0 win. Touchdowns came on a 35 yard pass from Jeff Wainwright to David West and a 4 yard run by Aaron LaSalle.

The Tarpons last year went on to tie for first place in District 6AA and place in the state playoffs.

Let's get a good crowd up to Iowa. This is the longest running Jamboree in Calcasieu Parish.

DOXEY RETIRES AS
P. J. SECRETARY

Joe W. Doxey, secretary of the Cameron Parish Police Jury for the past 42 years, this week announced that he will leave that position at the July jury meeting.

Mr. Doxey, who will be 70 on May 28, said he was retiring to comply with the Louisiana Police Jury Association which requires P.J. officials to retire at age 70.

Mr. Doxey has been associated with the Cameron jury for 44¼ years. He was appointed to fill the unexpired term of W. R. (Tobe) McCall, Grand Chenier juror, who resigned in 1918. Mr. Doxey was elected jury president and held that position for two years.

In 1920, he was elected secretary of the jury and has held that position every since. In 1957, he was also appointed jury treasurer, succeeding Percy Richard, who died in Hurricane Audrey.

Mr. Doxey's daughter, Miss Dorothy Doxey, has held the position of assistant secretary-treasurer since 1957.

Joe Doxey's father, J. A. Doxey, who died in 1911, had been secretary of the Cameron jury for many years before that.

Born May 28, 1892, in Grand Chenier, Mr. Joe Doxey attended school in Grand Chenier and graduated from Louisiana Tech in 1912. He is married to the former Dora O'Bryan and is the father of six children.

In the past, Mr. Doxey has operated a cotton gin, shrimp house and now owns a fuel oil business in Cameron, which he intends to continue operating.

In December, he was named Cameron Parish's "Citizen of the Year" by the Cameron VFW.

At the last police jury association meeting, Mr. Doxey ws presented with a sterling silver tray in recognitom of his many years service with the jury.

DEPUTIES TAKE
TRAFFIC COURSE

Sixteen Cameron Parish law enforcement officers have completed a traffic enforcement training program conducted by the Calcasieu Area Safety Council. The course was given at the Cameron Courthouse.

Personnel completing the full course include Sheriff O. B. Carter, Chief Deputy Charles L. Murphy, and Deputies D. P. Vincent, Riley Rutherford, Norman LaBove, Edward Broussard, Carlos Ratcliff, Claude Bonsall, J. B. Constance, James Constance, Allen Hinton, Peter Constance, Jr., Lazime LeBoeuf, Dewey Hebert, Ted Askew, and Carl Reon. State Police Cpl. Charles E. Jones joined the group for a portion of the course.

LEBLEU HEADS FARMERS

Conway LeBleu, Cameron cattleman, was re-elected for a third term as president of the Cameron Parish Farm Bureau at a meeting held last week at the Creole K. C. Home.

Francis Erbelding of Johnson Bayou was re-elected vice-president and Enos Sturlese of Creole was named as secretary-treasurer.

Over eighty people participated in the meeting, which included many of the members' wives. The organization now has 92 members in the parish.

ROUNDABOUT THE PARISH

Cameron--Visitors in Erath Thursday and Friday were Mrs. Hilaire Hebert, Mrs. Cloudy Broussard and Carleen Hebert. They visited Mrs. Hebert's sick parents, Mr. and Mrs. Theo Richard, and with sisters Mrs. Judith Merjest and Mrs. Lily Boullion.

Hackberry--Those attending the Vacation Bible School clinic at First Baptist Church, Sulphur on Aprl 23, were Mesdames Jean Daniels, Janell Reasoner, Lottie Reasoner, Mary Becnel, Betty Nunez, W. E. Reasoner, Sr., and Rev. Joe Sullivan, pastor of the Baptist church.

At the annual Roundup program at Hackberry High School last Thursday, candidates for queen and king, beginning with first grade, were: Paula Bufford and Gregory, Rebecca Hughes and Tom Riggs, Deanne Parker and Glen Vincent, Rita Jo Guidry and Kirk Sanner, Hilda Billeaud and Rodney Kershw, Ruth Sanner and James Devall, Patricia Welch and Gilbert Reeves, Nancy Desormeaux and James Lowery, Linda Barbier and [illegible]nie Parker, Judy Little and Dennis Bowman, Veronica Portie and Eddie Erdman, and Margaret East and Anthony Murphy.

Holly Beach--A streak of bad weather last Friday brought unusually darkened daylight hours. About 12 noon the area became so darkened that the automatic street lights turned on.

Tarps have scrimmage with Lions

By JOE MUELLER

The South Cameron Tarpons and the Vinton Lions scrimmaged last week at Tarpon Stadium.

The varsity scrimmage saw each team score once while the J.V. teams played to a 0-0 tie and in the freshman phase of the scrimmage, the Tarpons outscored the Lions 2-0.

The varsity touchdown scored by the Tarpons came on a 2 yard run by Vito Matarona. Vinton's score came on a 9 yard run. The Lions field position prior to the touchdown was gained when the Tarpons were called for pass intereference in the end zone.

The Tarpons hit hard and played the entire scrimmage with lots of enthusiasm and desire.

The Tarpons had one turnover in the scrimmage as they interecepted a Vinton pass.

South Cameron moved the ball and the offense and defense both looked about equal in progress whereas on most occasion, the defense is usually ahead of the offense.

In the freshman phase of the scrimmage, Steve Moore scored both touchdowns, one on a run and the other on a pass reception from John Partio.

Strong gusty winds, high seas, and driving rain prevailed for about half of the day. Power was knocked out for almost two hours. Huge piles of seaweed were driven on the banks and on many doorsteps. Many cabins had water running beneath the floors. Water also ran over the low part of the Peveto Beach road.

Oak Grove--Ervis Portie Jr. is the proud owner of a new motor scooter that he made himself.

Elie Conner and other Creole cowboys have gone to Johnson Bayou to bring the cattle back home for summer grazing.

Grand Lake-Sweetlake--Folks in this area reported considerable damage to their gardens due to hail. Damage by the wind was also reported. A shed owned by Gilford Richard was demolished.

Folks were happy last week to see the Wooten Construction Co. of Lake Charles, moving in their heavy equipment for the construction and completion of the blacktop road from the Sweetlake ferry to the Black Bayou ferry which was begun last summer.

NEW LAWS

The new state law that took effect last week and a supposed victory for the GCCA, was surely short-lived on banning of gill nets in Louisiana waters as it was temporarily blocked by a judge.

A lawsuit filed by the Louisiana Seafood Management Council and commercial fishermen asked for a temporary block of the new gill net law, until they can argue their case, a hearing is supposed to be Aug. 31.

The Commissioners for Wildlife and Fisheries with the judges permission, are trying to approve rules and regulations to make the law work. The law in the bill is the buying of existing gill net and from the commercial fishermen, to help the fishermen financially which inlcudes some job training. There is also a $3 fee extra for saltwater recreational fishing licenses beginning in September, which is also to help the commercial fishermen.

FISHING REPORT

Lacassine Refuge, Big Burn, Amoco and Sabine Refuge still tough for bass fishing, however, outside the impoundment in Sabine Refuge, some good fish were caught in the South Canal running east and west. It seems after 9:30 a.m., they turn off like a switch.

The Big Bass bonanza, held Aug. 12-13, had a couple of 5 plus pounders caught (5-13 and 5-07) and that was the biggst of the two day event. The tournament paid 75 places, with 531 anglers fishing for $20,000 in prizes.

DATES TO REMEMBER

*Oyster samples for Calcasieu Lake were in the acceptable limits, and oyster season will open Nov. 1, thru Mar. 1.

*Effective Aug. 15, Louisiana residents under 16 years of age are required to possess a $10 collectors license for commercial collection of reptiles and amphibians (turtle and snakes, etc.).

*Effective Aug. 15, commercial crawfishermen have to have a gear license for crawfish traps, $25 for residents.

*Aug. 20, all crab traps to be removed from Sabine Lake for 14 days before the opening of fall inshore shrimp season.

*Inland shrimp season to open Mon., Aug. 21.

*Lemesche Bass Club family tournament Sun., Aug. 27, the last one.

*Effective immediately, charter fishing boats (guides) renew licenses. Resident guide license is $250 per boat for no more than 6 passengers, and $500 for more than 6 passengers.

*National Hunting and Fishing Day is Sat., Sept. 23.

*Alligator season opens Sept. 2, for 30 days, until Oct. 1.

*Miami Corporation permit fishing ends Sun., Aug. 27.

*Dove season is Sept. 2-10, first split.

*Teal season, Sept. 16-24, along with rails and gallinules (4 teals).

DUCK SEASON

What I'm giving you now has to be approved by the federal government. These days, limits and dates were approved by the La. Wildlife and Fisheries.

Another excellent breeding season again this year, with an increase in duck population is why this amount of days and bag limits were asked.

Five ducks and 50 days, West Zone Nov. 11-Dec. 3 and Dec. 16-Jan. 11.

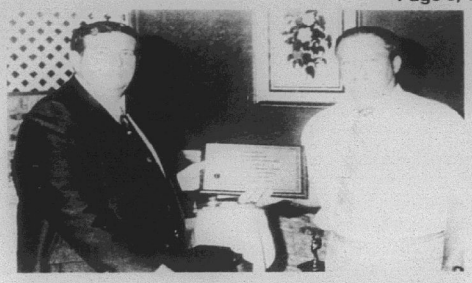
Four mallards (only 1 female), 3 mottled ducks, one black duck, 2 wood ducks, 1 pintail, 1 canvasback, and 2 redhead. In addition 5 merganser per day, only 1 hooded merganser. Coots, 15 daily limit, and geese (snow and blues and speckle belly) 10 daily, with only 2 speckle belly.

My personal feelings and many more hunters I've talked to feel 5 ducks daily is too many. It should have stayed at 3 ducks and 50 days. We should not take advantage of what's happened the last two years. I think we should wait another year or two to raise the limit, like maybe next year 4 ducks and then the following year 5 ducks. Also, 4 mallards is a big jump. It should have stayed at 2 mallards.

FEEDING PERIODS

Best: Fri., Aug. 25, 10 a.m. and 10:25 p.m.; Sat., Aug. 26, 10:45 a.m. and 11:05 p.m.; Sun., Aug. 27, 11:25 a.m. and 11:50 p.m.

Good: Fri., 3:55 a.m. and 4:10 p.m.; Sat., 4:40 a.m. and 4:55 p.m.; Sun., 5:20 a.m. and 5:35 p.m.



Tony Johnson of Creole had a turtle hatch of 505 out of 581 eggs last week (Black turtles).

The first gas pump was made by Sylvanus F. Bowser of Fort Wayne Indiana, and delivered to local storekeeper Jake Gumper on Sept. 5 1885.

Jeff Davis Co-op gets statewide recognition

Jeff Davis Electric Cooperative, which serves Cameron Parish, received statewide recognition for its commitment to the safety of its employees and consumers at the annual meeting of Louisiana's 12 electric cooperatives in Baton Rouge July 24.

The safety award was presented to Jeff Davis Electric for working over 425,000 man-hours without a lost time accident since Sept., 1990. The award was presented by the Association of Lousiana Electric Cooperatives.

Buck Theriot, Director of Loss Control for ALEC said that Jeff Davis Electric had earned the distinction because of the high priority it places on reducing injuries, illness and property damage.

Tourist board to meet Monday

The August meeting of the Cameron Parish Tourist Commission will be held Monday, Aug. 28, at 6:30 p.m. at the Police Jury Annex.

Dale Landry, general manager of Jeff Davis Electric, accepted the award on behalf of the cooperative.

ALEXANDER, ANDING, BRUNEAU, CARRIER, COOLEY, CRANE, DASTUGUE, DIEZ, DOERGE, GUILLORY, GUZZARDO, HEBERT, HIGGINBOTHAM, JETSON, KRIEGER, MCCLEARY, MCDONALD, REILLY, MCFERREN, JACK SMITH, MONTGOMERY, SALTER, SCHNEIDER, SIMPKINS, JOHN SMITH, STELLY, STINE, SAM THERIOT, WINDHORST, HOPKINS, HUDSON, HUNTER, MARTINY, AND THOMPSON AND SENATORS BARRO, BEAN, HINES, HINTON, MCPHERSON, COX, HOLLIS, ROMERO, EWING, CAIN, FOSTER, AND THOMPSON
A JOINT RESOLUTION

Proposing to amend Article XII, Section 5 of the Constitution of Louisiana, to require the legislature to provide for successions; to abolish forced heirship except for certain persons suffering mental or physical infirmity; to require the legislature to provide for forced heirship of persons twenty-three years of age or under; to provide for submission of the proposed amendment to the electors; and to provide for related matters.

Section 1. Be it resolved by the Legislature of Louisiana, two-thirds of the members elected to each house concurring, that there shall be submitted to the electors of the state of Louisiana, for their approval or rejection in the manner provided by law, a proposal to amend Article XII, Section 5 of the Constitution of Louisiana, to read as follows:

§5. Successions; Forced Heirship and Trusts

Section 5.(A) The legislature shall provide by law for uniform procedures of successions and for the rights of heirs or legatees and for testate and intestate succession. Except as provided in Paragraph B of this Section, forced heirship is abolished in this state.

(B) The legislature shall provide for the classification of descendants, of the first degree, twenty-three years of age or younger as forced heirs. The legislature may also classify as forced heirs descendants of any age who, because of mental incapacity or physical infirmity, are incapable of taking care of their persons or administering their estates. The amount of the forced portion reserved to heirs and the grounds for disinherison shall also be provided by law. Trusts may be authorized by law and the forced portion may be placed in trust.

Section 2. Be it further resolved that this proposed amendment shall be submitted to the electors of the state of Louisiana at the gubernatorial primary election to be held in 1995.

Section 3. Be it further resolved that on the official ballot to be used at said election there shall be printed a proposition, upon which the electors of the state shall be permitted to vote FOR or AGAINST, to amend the Constitution of Louisiana, which proposition shall read as follows:

To abolish forced heirship, except to require forced heirship for children twenty-three years of age or younger and to authorize the legislature to classify as forced heirs children of any age who are incapable of taking care of their person or estate due to mental incapacity or physical infirmity. Proposing to amend Article XII, Section 10(C) of the Constitution of Louisiana, to authorize the legislature to limit or prescribe the extent of liability of the state and its agencies and political subdivisions, including the circumstances giving rise to liability and the kinds and amounts of damages or other remedies therefor, and to provide that procedures, limitations, and effects of judgments may be applicable to both existing and future claims and judgments; to provide for submission of the proposed amendment to the electors; and to provide for related matters.

Section 1. Be it resolved by the Legislature of Louisiana, two-thirds of the members elected to each house concurring, that there shall be submitted to the electors of the state of Louisiana, for their approval or rejection in the manner provided by law, a proposal to amend Article XII, Section 10(C) of the Constitution of Louisiana, to read as follows:

§10. Suits Against the State
Section 10.

* * *

(C) Limitations; Procedure; Judgments. Notwithstanding Paragraph (A) or (B) or any other provision of this constitution, the legislature by law may limit or provide for the extent of liability of the state, a state agency, or a political subdivision in all cases, including the circumstances giving rise to liability and the kinds and amounts of recoverable damages. It shall provide a procedure for suits against the state, a state agency, or a political subdivision and provide for the effect of a judgment, but no public property or public funds shall be subject to seizure. The legislature may provide that such limitations, procedures, and effects of judgments shall be applicable to existing as well as future claims. No judgment against the state, a state agency, or a political subdivision shall be exigible, payable, or paid except from funds appropriated therefor by the legislature or by the political subdivision against which the judgment is rendered.

Section 2. Be it further resolved that this proposed amendment shall be submitted to the electors of the state of Louisiana at the gubernatorial primary election to be held in 1995.

Section 3. Be it further resolved that on the official ballot to be used at said election there shall be printed a proposition, upon which the electors of the state shall be permitted to vote FOR or AGAINST, to amend the Constitution of Louisiana, which proposition shall read as follows:

To authorize the legislature by law to limit or provide for the extent of liability of the state and its agencies and political subdivisions in suits against them in tort or contract or in other cases, including the circumstances for liability, and the kinds and amounts of recoverable damages, and to provide that those limitations and other procedures in such suits apply to existing claims as well as future claims. §10.6. Oilfield Site Restoration Fund
Section 10.6.(A) Oilfield Site Restoration Fund. Effective January 4, 1996, there shall be established in the state treasury, as a special fund, the Oilfield Site Restoration Fund, hereinafter referred to as the restoration fund. Out of the funds remaining in the Bond Security and Redemption Fund after sufficient amount is allocated from that fund to pay all obligations secured by the full faith and credit of the state which become due and payable within any fiscal year as required by Article VII, Section 9(B) of this constitution, the treasurer shall pay into the restoration fund all of the following:

(1) All revenue from the types and classes of fees, penalties, other revenues, or judgments associated with site cleanup activities paid into the restoration fund as provided by law on the effective date of this Section. Such revenue shall be deposited in the restoration fund even if the names of such fees, other revenues, or penalties are changed.

Any increase in the amount charged for such fees, penalties, other revenues, or judgments associated with site cleanup activities enacted by the legislature after the effective date of this Section, for the purpose of orphaned oilfield site restoration shall be irrevocably dedicated and deposited in the restoration fund.

(2) The balance remaining on January 4, 1996 in the Oilfield Site Restoration Fund established by law.

(3) All funds or revenues which may be donated expressly to the restoration fund.

(4) All site-specific trust account funds established by law.

B. The monies in the restoration fund shall be appropriated by the legislature to the Department of Natural Resources, or its successor, and shall be used solely for the programs and purposes of oilfield site restoration as required by law.

C. All unexpended and unencumbered monies in the restoration fund at the end of the fiscal year shall remain in the fund. The monies in the fund shall be invested by the treasurer in the manner provided by law. All interest earned on monies invested by the treasurer shall be deposited in the fund. The treasurer shall prepare and submit to the department on a quarterly basis a printed report showing the amount of money contained in the fund from all sources.

D. The provisions of this Section shall not apply to or affect funds allocated by Article VII, Section 4, Paragraphs (D) and (E).

Section 2. Be it further resolved that this proposed amendment shall be submitted to the electors of the state at the gubernatorial primary election to be held in 1995.

Section 3. Be it further resolved that on the official ballot to be used at the election there shall be printed a proposition, upon which the electors of the state shall be permitted to vote FOR or AGAINST, to amend the Constitution of Louisiana, which proposition shall read as follows:

To create the Oilfield Site Restoration Fund and to provide for its source of funding and authorize expenditures; to provide that all revenues currently being deposited in the fund shall be deposited in such fund; to provide for the dedication or appropriation of any increases in amounts charged or any new fees, penalties, other revenues, or judgments associated with site cleanup activities for the purpose of orphaned oilfield site restoration; to provide that the legislature shall appropriate such funds to the Department of Natural Resources to be used solely for the purpose of oilfield site restoration as provided by law.

Proposed Amendment No. 12
ACT No. 1331

SENATE BILL NO. 299
BY SENATOR NUNEZ AND
REPRESENTATIVE JENKINS
A JOINT RESOLUTION

Proposing to add Article VII, Section 10.6 of the Constitution of Louisiana; to create the Oil Spill Contingency Fund; to provide for its revenue sources and to provide for the utilization of such funds; and to specify an election for submission of the proposition to electors and provide a ballot proposition.

Section 1. Be it resolved by the Legislature of Louisiana, two-thirds of the members elected to each house concurring, that there shall be submitted to the electors of the state, for their approval or rejection in the manner provided by law, a proposal to add Article VII, Section 10.6 of the Constitution of Louisiana, to read as follows:

§10.6. Oil Spill Contingency Fund
Section 10.6.(A) Oil Spill Contingency Fund. Effective January 4, 1996, there shall be established in the state treasury, as a special fund, the Oil Spill Contingency Fund, hereinafter referred to as the contingency fund. Out of the funds remaining in the Bond Security and Redemption Fund after a sufficient amount is allocated from that fund to pay all obligations secured by the full faith and credit of the state which become due and payable within any fiscal year as required by Article VII, Section 9(B) of this constitution, the treasurer shall pay into the contingency fund all of the following, on the effective date of this Section:

(1) All revenue from the types and classes of fees, taxes, penalties, judgments, reimbursements, charges, and federal funds collected or other revenue paid into the contingency fund as provided by law on the effective date of this Section. Such revenue shall be deposited in the contingency fund even if the names of such fees, taxes, penalties, judgments, reimbursements, charges, and federal funds collected or other revenues are changed.

Any increase in the amount charged for such fees, taxes, penalties, judgments, reimbursements, charges, and federal funds collected or other revenue, or any new fees, taxes, penalties, judgments, reimbursements, charges, and federal funds collected or other revenue enacted by the legislature for the purpose of abatement and containment of actual or threatened unauthorized discharges of oil after the effective date of this Section, shall be irrevocably dedicated and deposited in the contingency fund.

(2) The balance remaining on January 4, 1996 in the Oil Spill Contingency Fund established by law.

(3) All funds or revenues which may be donated expressly to the contingency fund.

B. The monies in the contingency fund shall be appropriated by the legislature to be used solely for the programs and purposes of abatement and containment of actual or threatened unauthorized discharges of oil as provided by law; and for administrative expenses associated with such programs and purposes as provided by law.

C. All unexpended and unencumbered monies in the contingency fund at the end of the fiscal year shall remain in the fund. The monies in the fund shall be invested by the treasurer in the manner provided by law. All interest earned on monies invested by the treasurer shall be deposited in the fund. The balance of the fund shall not exceed thirty million dollars or otherwise as provided by law.

D. The provisions of this Section shall not apply to or affect funds allocated by Article VII, Section 4, Paragraphs (D) and (E).

Section 2. Be it further resolved that this proposed amendment shall be submitted to the electors of the state at the gubernatorial primary election to be held in 1995.

Section 3. Be it further resolved that on the official ballot to be used at the election there shall be printed a proposition, upon which the electors of the state shall be permitted to vote FOR or AGAINST, to amend the Constitution of Louisiana, which proposition shall read as follows:

To create the Oil Spill Contingency Fund and to provide for its source of funding and authorize expenditures; to provide that all revenues currently being deposited in the fund shall be deposited in such fund; to provide for the dedication or appropriation of any increases in amounts charged or any new fees, taxes, penalties, judgments, reimbursements, charges, and federal funds collected for the purpose of oil spill contingencies; to provide that the legislature shall appropriate such funds to be used solely for the purpose of abatement and containment of actual or threatened unauthorized discharges of oil and for administrative expenses as provided by law.

Proposed Amendment No. 13
ACT No. 1327

HOUSE BILL NO. 281
BY REPRESENTATIVE DOWNER
A JOINT RESOLUTION

Proposing to amend Article X, Section 10(A)(2) of the Constitution of Louisiana, to provide relative to the eligibility for preference points for veterans for civil service; to provide for eligibility for service during wars declared by congress and certain peacetime campaigns and expeditions; to provide that certain war periods and armed conflicts shall be as provided by law; to provide for submission of the proposed amendment to the electors; and to provide for related matters.

Section 1. Be it resolved by the Legislature of Louisiana, two-thirds of the members elected to each house concurring, that there shall be submitted to the electors of the state of Louisiana, for their approval or rejection in the manner provided by law, a proposal to amend Article X, Section 10(A)(2) of the Constitution of Louisiana, to read as follows:

§10. Rules; Investigations; Wages and Hours
Section 10.(A) Rules.

* * *

(2) Veterans. The state and city civil service departments shall accord a five-point preference in original appointment to each person who served honorably in the armed forces of the United States during a war declared by the United States Congress; or in a peacetime campaign or expedition for which campaign badges are authorized; or during war period dates or dates of armed conflicts as provided by state law enacted by two-thirds of the elected members of each house of the legislature. The state and city civil service departments shall accord a ten-point preference in original appointment to each honorably discharged veteran who served either in peace or in war and who has one or more disabilities recognized as service-connected by the Veterans Administration; to the spouse of each veteran whose service-connected disability has his or her appointment to a civil service job in his or her usual line of work; to the unremarried widow of each deceased veteran who served in a war period, as defined above, or in a peacetime campaign or expedition; or to the unremarried widowed parent of any person who died in active wartime or peacetime service or who suffered total and permanent disability in active wartime or peacetime service; or the divorced separated parents of any person who died in wartime or peacetime service or who became totally and permanently disabled in wartime or peacetime service. However, only one ten-point preference shall be allowed in the original appointment to any person enumerated above. If the ten-point preference is not used by the veteran, either because of the veteran's physical or mental incapacity which precludes his appointment to a civil service job in his usual line of work or because of his death, the preference shall be available to his spouse, unremarried widow, or eligible parents as defined above, in the order specified. However, any such preference may be given only to a person who has attained at least the minimum score required on each test and who has received at least the minimum rating required for eligibility.

THE Cameron PARISH Pilot

VOL. II—NO. 19 CAMERON, LA., FRIDAY, FEBRUARY 7, 1958 (10¢ A COPY)

HERE IS ANOTHER aerial view of Cameron as it appeared before Hurricane Audrey. You are looking west down the town's back street toward the courthouse. Many of the homes in this picture withstood the storm and today look much the same as before the storm.

First grain shipment arrives for parish

The first shipment of government surplus grain for Cameron parish's starving cattle arrived Thursday at Holmwood, County Agent Hadley Fontenot announced.

Hopkins' two railroad cars of milo maize arrived Thursday morning at the Sweetlake Land and Oil Company warehouse and will be distributed immediately to cattlemen of the Johnson Bayou area.

Mr. Fontenot explained that lots were drawn by the disaster feed committee to determine which area would receive the grain first, and Johnson Bayou won first priority.

The order in which the other communities will receive their grain is as follows: Grand Chenier, second; Sweetlake - Grand Lake, third; Cameron, fourth; Creole fifth; Hackberry, sixth and Klondike-Lowery, seventh.

More grain cars are on their way and should be arriving regularly during the coming week, Mr. Fontenot said. He said the farmers in each community would be notified when to pick up their grain.

The grain is arriving not a minute too soon — hundreds of cattle are reported dying from starvation all over the parish. Johnson Bayou, Holly Beach and Little Chenier have been particularly hard hit.

A total of 643 Cameron parish farmers signed up for 2,318,500 pounds of grain to feed 15,119 head of cattle and horses.

Assistance asked in locating vaults

The Cameron Parish Disaster Relief committee is requesting assistance in locating vaults which washed from cemeteries into marsh areas during Hurricane Audrey.

In the near future an aerial survey will be made in an effort to locate, and place a flag marker on each vault. The cost of this survey can be curtailed by furnishing the pilot with a map showing the approximate location of vaults.

Any person knowing the location of these vaults is urged to go to the County Agent's office in Cameron parish court house before Feb. 22, and mark the location on the maps provided for this purpose.

Grand Chenier bridge priority policy asked

Family cars to be given 'priority' at ferry in time of storm danger

The Cameron parish police jury faced up to a grim reality Monday and took drastic steps to help remedy it.

Harris (Sonn) Crain of Grand Chenier appeared before the body to point out that the hurricane season will be here before the Grand Chenier bridge can be finished, and that some measures should be taken to make sure that Chenier residents could all be evacuated should a storm threaten the parish.

Upon his suggestion, the jury adopted a resolution asking the state highway department to establish a "priority" policy for the ferry during a storm threat.

(1) that cars and pickup trucks carrying human beings would be given the first opportunity to cross the ferry following an evacuation order by the sheriff.

(2) that heavy trucks, hauling equipment, and house trailers would have to wait until all passenger cars had gotten across before they could go on the ferry.

SHERIFF O. B. Carter, who was present at the meeting, said if such a policy is approved by the highway department, that he will station a deputy sheriff at the ferry during storm evacuations to make sure that passenger cars are gotten out first.

To let big trucks go ahead of cars might prevent the evacuation of some families in time to avoid the storm, and there is always the possibility that a big truck might break the ferry's cable or become locked on the ferry, be stalled.

The question of house trailers was brought up. Mr. Crain pointing out that there are presently more than 100 of these on the Chenier. The jury agreed that anyone showing up with a house trailer at the ferry would either have to disconnect it and leave it behind or else wait in line with the trucks.

The jury also asked the highway department to look into a suggestion for keeping the bridges at Hackberry and Gibbstown open to traffic during storm alert, regardless of the barge traffic on the Intracoastal canal. This would necessitate installing two-way radios on the bridges so the bridge tenders could notify the tugboats in plenty of time to stop their tows.

However, he said the highway department is going ahead with plans to build the bridge at the bluff under the assumption that the protest eventually will be withdrawn.

The highway department's plans call for a swing span bridge, 809 feet long, with a swing span of 204 feet.

Lake Arthur mayor protests location of the new bridge

State Representative Alvin Dyson said that construction of the new bridge across the Mermentau river at Grand Chenier is being delayed by a protest filed by Don Jones, mayor of Lake Arthur and owner of property on Grand Chenier.

The Louisiana highway department wants to replace the old bridge, which was destroyed by Hurricane Audrey, with a new bridge at a location 1.6 miles downstream from the former location. This would bring the road across the river at a point known as the "bluff" and would eliminate several dangerous curves in the road.

Rep. Dyson said that he and other parish officials have been trying to get Mr. Jones to withdraw his protest in the interest of getting the bridge built as quickly as possible, but that so far they have been unsuccessful.

However, he said the highway department is going ahead with plans to build the bridge at the bluff under the assumption that the protest eventually will be withdrawn.

The highway department's plans call for a swing span bridge, 809 feet long, with a swing span of 204 feet.

Oak tree planting demonstration is Sat.

Faculty members and students from the Louisiana State University forestry department will be in Cameron parish Saturday morning to give a demonstration on the planting of oak trees and to give away 225 live oak seedlings and 30,000 acorns.

The demonstration will be held at 10 a.m. at the South Cameron high school on Hwy. 27. Grove The public is invited to attend.

The program is as follows:

Invocation by the Rev. Wallace Primeaux, pastor of the Oak Grove Baptist church.

Introduction of guests by County Agent Hadley A. Fontenot.

A talk on school and community improvement by H. P. Hackett, superintendent of Cameron parish schools.

A talk: Value of Trees to Business by Dr. Paul Y. Burns, director of the LSU school of forestry.

Planting demonstration by Professor Marion H. Appleton, state forester of Louisiana.

After planting will be Prof. Burns, L. Glasscock, assistant professor of forestry; Lester Bonsall, Forest Service; Jake Miller, Forest Service; and Tommy Rials, LSU forestry student, who will demonstrate the planting of the trees.

Assisting in Cameron will be Parish Agent Fontenot and Assistant Agent Sandra Hebert.

The public is invited to attend the planting.

Sputnik sighted by sharp-eyed PILOT reporter

By GENEVA GRIFFITH
Oak Grove Reporter

Believe it or not, but my family and I sighted Sputnik II when it passed over Cameron parish the other night.

We had started to Lake Charles a little before 7 p.m. and had to wait at the Gibbstown bridge for several tugs to pass. We had the luxury of a Beaumont station when the announcer suddenly interrupted the program to announce that Sputnik was due to pass directly overhead in a minute traveling in a southeasterly direction. D. W. and I jumped out of the car and started scanning the sky for a glimpse of it. Suddenly I saw a something moving very high flying air plane. We all deliberated for a while. It was the satellite or it was not at all what I had expected. My idea was that it would be like a comet and would streak across the sky and maybe a rocket trail and it wasn't like that at all. It was like a moving star very high flying air plane. It was visible for about 2 minutes so was not traveling very fast as I had thought it might.

Cattle, sheep reported dying in Klondike area

By BERNICE STEWART

Cattle and sheep in the Klondike - Lowery area are dying due to lack of sufficient pasturage and feed. Some farmers have managed to carry their stock thus far with no loss, others are losing several head every week.

There was a large number of farmers who signed up last Thursday for grain. Percy David and Daniel Broussard, who were in charge, met with the farmers at the Klondike school.

Construction of library to start within a month

The Louisiana Junior Chamber of Commerce has announced that it hopes to begin construction of the new Cameron parish library building within a month.

Harry Crosby, president of the Lake Charles Jaycees, said final approval for the project was given by the Jaycees - state board of directors last weekend in Sulphur.

At the present time, the barracks-type building set up by the Jaycees to build the library, and the architect is completing building plans.

To date $13,000 has been raised for the building fund.

The library will be erected on a corner of the Cameron elementary school grounds, which has been provided by the school board as a site for as long as the library is in operation.

No definite date for groundbreaking ceremonies will be held in the near future.

The library will be staffed, and furnished with books, and a bookmobile for a two-year period free of charge by the state library department. After that time, the parish will have to vote a maintenance tax to continue the service.

School board accepts bids on furniture

The Cameron parish school board Monday accepted bids from various companies on new furniture for the school board office which is to be ready for re-occupancy sometime this month.

Superintendent H. E. Hackett said the board will have its March meeting back in the board office at Cameron if nothing goes wrong. The offices have been in the Grand Lake school since Hurricane Audrey partially destroyed the school board office last June.

Dumping problem aired by jury

The problem of Cameron's unsightly dumping yard on the beach came up at the police jury meeting Monday.

Mr. Broussard, of Orange, Texas, was sworn before the jury and told that the dump is a fire hazard and that the debris moved off the road in that area.

Mr. Broussard, who is the son of the late S. D. Broussard who died in the hurricane, said he attended to get a SBA loan to rebuild his father's hotel on the beach if he could be assured that the lines of the dump would be cleaned up. He said that at the present time the overflow from the dump is blocking the road to his property and, if not cleaned up would be a hinderance to his hotel business.

Ward 3 Juror Conway LeBleu, who more or less has responsibility for the dump, said he realized that the dump had gotten out of hand since the storm, but that this was due to the large amount of storm debris which had been dumped there. Also the dump had been so wet that trucks couldn't get off the road to do any dumping.

However, he promised Mr. Broussard that the dump would be straightened out. He also said he was looking for a dumping site somewhere else.

With this assurance, Mr. Broussard said he would go ahead with plans for rebuilding the hotel.

Grand Chenier getting bigger ferry this week

The 10 - car ferry from Black Bayou was scheduled to be moved to Grand Chenier to replace the smaller ferry in operation on the Mermentau now. This will relieve slightly the traffic congestion caused by the ferry.

The river has also been dredged to keep the ferry from sticking on the mud flats as it has been doing in recent weeks.

Oak Grove church to hold revival beginning Monday

Rev. Wallace Primeaux Jr., pastor of the Oak Grove Baptist church announces that the church will hold a week's revival beginning Monday night, Feb. 10 and running through Sunday, Feb. 16.

Rev. A. D. Benton, pastor of the First Baptist church in Westlake, will be the minister during the revival. He is chairman of the Baptist hurricane fund which is rebuilding Baptist churches in the parish.

Larry Dyson of Cameron will lead the singing at all of the services which will begin at 7:30 p.m. nightly.

Grand Lake church has special meetings

The Rev. Frank Mossimo, pastor of the Methodist church conducted a revival meeting at the Grand Lake church during the week of January 20-24. Services were held each evening.

Rev. Mossimo was assisted by Rev. Charles Wilkins of Welsh, who led the singing.

The charge grew out of the highway death near Holmwood of Paul Bootherbauch, 20, of the 806th Air Base Group.

Investigating state troopers said the car in which Bootherbaugh was a passenger had stalled on State Highway 14 about a mile south of Holmwood at about 10:30 p.m. Saturday, and the airman was standing beside the car on the highway with the door open.

While the car, which was headed south, was stopped, a pickup truck coming north stopped opposite the car to offer aid.

While the pickup was stopped troopers said, the Rev. Tay driving at a "high rate of speed," hit Boothebaugh and the door of the car beside which he was standing. His body was thrown or dragged over 200 feet, officers reported.

No other injuries were reported.

Peewee tourney to be held at Hackberry Sat.

A peewee basketball tournament will be held at the Hackberry high school gym beginning at 1 p.m. Saturday, according to Hackberry Coach Harold Buckmaster.

Elementary teams from Hackberry, four Sulphur schools and one Lake Charles school will participate.

Admission will be charged. The public is invited to attend.

Death of Cameron dies in L. C. hospital

George B. Davis, 65, well known resident of Cameron parish, died at St. Patrick's hospital in Lake Charles Monday afternoon after a long illness.

A native of Cameron, Mr. Davis had resided in Kansas City, Mo., and in New Orleans until his retirement in New Orleans in 1946, when he returned to Cameron. He had been chief engineer for the U. S. government barge service and had been employed by the Federal Barge Lines for many years.

He was a member of the Cameron Masonic Lodge No. 439 and was its secretary at the time of his death.

Funeral services were held at the J. A. Davis residence in Cameron at 10 a.m. Wednesday with the Burke funeral home in charge of arrangements. The Rev. Taylor Wall, Methodist pastor, officiated. Burial was in the Wakefield Memorial cemetery with graveside rites conducted by the Masonic lodge.

He is survived by his wife, Mrs. Bessie W. Davis of Cameron, one daughter, Mrs. C. L. Guin of Miami, Fla.; a grandson, Ellis Prell of Philadelphia, Penn.; one brother, J. Austin Davis of Cameron; two sisters, Mrs. M. a Pickiel and Mrs. Ellen Aaron both of Shreveport. Another brother, Julius Davis, preceded him in death last week in Boston, Mass.

National VFW chief presents awards Sunday

Roudebush, and other VFW officials and members, as well as local citizens, will pay tribute to the four men at a testimonial banquet at 7:30 p.m. at Fred's restaurant.

Tickets are $2.50 a plate and may be secured from Pat Cheramie or J. Berton Daigle.

Dyson low bidder on health unit and courthouse

Dyson Lumber Yard of Cameron was the low bidder on the repairs to the courthouse and on both the parish health unit and the courthouse when bids were opened Monday by the police jury. The jury postponed the acceptance of the bids until it consulted with its architect, but probably will accept Dyson's bids.

The bids were as follows:

Court house repairs— Dyson Lumber Yard, $18,413.13; Port City Construction Co., $19,682; Perrilette & Rickey Const. Co., $33,400; Norman Const. Co., $21,166; and Burden Inc., $23,405.

Health unit repairs— Dyson $29,413.13; Port City, $29,649; Perrilette & Rickey, $43,600; and Burkay Inc., $30,873.

Dyson's bid calls for 120 working days on the court house and 150 days on the health unit.

Mrs. A. Nunez dies Friday at her home in Cameron

Mrs. Aspasie Theriot Nunez, 91, died Friday at 5 p.m. at her home in Cameron after a long illness.

Funeral services were held at the Sacred Heart Catholic church Saturday afternoon with burial in the church cemetery by son, John V. Nunez of Creole and six daughters, Mrs. Wilbert Murphy of Hackberry, Mrs. Dorcillea Bourgoin, Mrs. Willie LeBeouf, Mrs. Leon Dominque, Mrs. Rodolph Savoie and Miss Arita Nunez all of Creole; and 16 grandchildren.

Creole fire truck has 1st try out

By MRS. H. D. PRIMEAUX
Creole reporter

The new Creole fire truck had its first successful tryout last weekend when the brakes on a big trailer truck froze and caught on fire near the Gibbstown bridge.

Dalton Richard and Whitney Baccigalopi operated the fire truck and put the fire out. Although the tires on the trailer were badly burned, the rest of the truck was saved thanks to our new fire department.

On Oct. 1, 1830, a hurricane devastated the area along the coast of Louisiana from the Mississippi Sound to Last Island. 2500 people were believed killed.

RAPIDLY DISAPPEARING from the parish scene are the hundreds of tents, such as above, which have given shelter to many parish families since the hurricane. Most of the homes in the parish have now been repaired or rebuilt and only a few families are still living in tents.

A WONDERFUL SIGHT is the thousands of geese which can be seen along the highway in the Sabine Refuge. This is a closeup of some of the birds in flight.

NOTICE

During the reporting period of July 15, 1995 to August 14, 1995 the Cameron Parish Waterworks District No. 2 Water Supply violated the maximum contaminant level of coliform bacteria as set forth in the State and Federal Primary Drinking Water Regulations. Action was taken to eliminate the contamination.

The United States Environmental Protection Agency (EPA) sets drinking water standards and has determined that the presence of total coliforms is a possible health concern. Total coliforms are common in the environment and are generally not harmful themselves. The presence of these bacteria in drinking water, however, generally is a result of a problem with water treatment or the pipes which distribute the water, and indicates that the water may be contaminated with organisms that can cause disease. Disease symptoms may include diarrhea, cramps, nausea, and possibly jaundice, and any associated headaches and fatigue. These symptoms, however, are not just associated with disease-causing organisms in drinking water; but also may be caused by a number of factors other than your drinking water. EPA has set an enforceable drinking water standard for total coliforms to reduce the risks of these adverse health effects. Drinking water which meets this standard is usually not associated with a health risk from disease-causing bacteria and should be considered safe.

The Cameron Parish Waterworks District No. 2 positive water samples, taken by the La. Dept. of Health and Hospitals. For the month of July, 1995 water samples were not in compliance with Standards. The Cameron Parish Waterworks District No. 2 completely flushed out the distribution system, increased the level of chlorination and submitted new samples to the Louisiana Department of Health and Hospitals.

As of August, 1995 the Louisiana Department of Health and Hospitals has determined that the Cameron Parish Waterworks District No. 2 has corrected the problem and is now in compliance with Standards.

PROCEEDINGS

Minutes of the regular meeting of the Cameron Parish Gravity Drainage District No. 3 held on Tuesday, June 20, 1995 at 2:30 p.m. at the Cameron Parish Police Jury Annex.

Members Present: Edwin W. Quinn, Scott Henry, and George Kelley.

Members Absent: E. J. Dronet and Earl Guthrie.

Others Attending: Tina Horn, Steve Klett, Amos Vincent, James LeBoeuf, Billy Delauy, Clay Midkiff, Lonnie Harper, Ray Conner and James Burnett.

A motion was made by Scott Henry, seconded by George Kelley, and unanimously carried that the minutes of the May 16,1995 regular meeting be approved as written.

A motion was made by George Kelley, seconded by Scott Henry, and unanimously carried to approve the Financial Report for the month of May, 1995.

A motion was made by Scott Henry, seconded by George Kelley, and unanimously carried to approve the following bills for payment:

1. Menard Oil Company, $563.85
2. Savoie Lumber, $2,166.57
3. On-Target Surveying, Inc., $4,898.03
4. On-Target Surveying, Inc., $4,937.02

Lonnie Harper reported on the situation that has arisen regarding lowering of underground telephone lines at Highway 82 in the clean-out of W-1 West Drainage Canal. He stated that the contractor has agreed to go in and clean up the area at no charge to the Drainage Board. Any additional payment will have to be made by Cameron Telephone Company.

With regard to mitigation projects, Mr. Harper said it looks like the costs are coming down, but we need to get an opinion from the Attorney General as to whether we can use dedicated funds for mitigation.

Mr. Harper then presented a permit application for North American Land & Oil Company for President Edwin Quinn's signature as authorized at last month's meeting. A motion was made by Scott Henry, seconded by George Kelley, and unanimously carried to authorize President Quinn to sign the permit application to clean a portion of the drainage lateral on North American Land & Oil Company property in the Northwestern portion of this drainage district. It was agreed that we will accept the cost of the permit only, at a cost of between $2,000 and $3,000 as previously discussed with Engineer Lonnie Harper.

Steve Klett then introduced James Burnett (from the Regional U. S. Fish & Wildlife Office who was present at the meeting. Mr. Klett then presented the Water Management Report for the previous month. He reported that DNR is working on the legal description for the easement of Miami Corporation for Pecan Bayou.

Mr. Clay Midkiff of NRCS then presented the Annual inspection of Water Control Structures and the Cameron-Creole Watershed levees. NRCS and members of the Drainage Board conducted an operations and maintenance inspection and found the entire levee to be in excellent condition. Cracks in the Grand Bayou structure are still there, but a punch list has been prepared for repair of these cracks. Some of the large nuts that hold one of the gates were galvanized rather than stainless steel, and these are showing signs of deterioration. Otherwise, structures appear to be in good condition. W-1 West Canal has recently been cleaned out and is in excellent condition. W-2 has an accumulation of debris in segments, and clean-out is recommended if possible. All non-stainless steel bolts and plates need to be replaced as funds are available.

Specifications for repair of cracks in the Grand Bayou Structure will be ready and complete within about three weeks.

A motion was made by George Kelley, seconded by Scott Henry, and unanimously carried to authorize Edwin Quinn to accept and approve the Operations and Maintenance Report and the Annual Inspection Report of the Cameron-Creole Watershed by the Natural Resource Conservation Service.

It was stated that the engineering estimate on sealing cracks in Grand Bayou Structure is less than $2,500, so it doesn't have to go out for public notice and bid. Mr. Clay Midkiff said that he thinks 25% state match is in place for funding. He further stated that NRCS is 80% complete on CPS Survey that they are conducting in the Watershed area and in near proximity to DNR continuous monitoring stations.

A motion was made by Scott Henry, seconded by George Kelley, and unanimously carried to authorize President Quinn to sign the Interagency Agreement between Cameron Parish Gravity Drainage District No. 7 and Gravity Drainage District No. 3 which provides for useage of District No. 7 equipment in completing work within District No. 3.

Scott Henry reported that he was called out to inspect a box culvert on Norman McCall's property. It doesn't come under Gravity Drainage District No.3 jurisdiction because it is on the State right-of-way.

A motion was made by Scott Henry, seconded by George Kelley, and unanimously carried that minutes and per diems be mailed to Board Members prior to the meetings.

There being no further business, the meeting was adjourned.

Acting Vice President

Senator Picard

Picard asks re-election to Senate

Incumbent Sen. Cecil Picard of Maurice has announced his candidacy for re-electin to the Louisiana Senate's District 25 seat in the Oct. 21, primary.

A Democrat, the 57-year-old candidate has served in the Senate since 1979 and as a member of the House of Representatives from 1976-79.

Born in Abbeville, he has lived in Maurice for 51 years and is self-employed. Before entering politics Picard was a public school teacher/principal from 1959-80.

He is a graduate of Maurice High School and received a bachelor's degree from University of Southwestern Louisiana, a master of education from Sam Houston State University (Texas) and has 30 postgraduate hours at LSU.

Of the Catholic faith, Picard is a member of the Knights of Columbus and served in the Louisiana National Guard 156th Infantry 1954-60. He is a member of the National Council of State Legislatures, Education Commission of the States, American Legislative Exchange Council and executive board of the Southern Regional Education Board as well as Vermilion Retarded Citizens Association, Vermilion Cattlemen's Association and Chamber of Commerce.

Honors include Legislator of the Year and Louisiana Principals Association Soil Conservation Award.

As chairman of the Senate Committee on educatin, Picard also supports the establishment of community colleges and using cooeprative agreements between institutions to provide the best opportunities for training and educaiton.

Picard and his wife, the former Gaylen David of Abbeville, have two children.

District 25 includes Cameron Parish and parts of Acadia, Calcasieu, Jefferson Davis and Vermilion parishes.

Open house

Cameron Elementary School will hold its annual open house Thurs., Aug. 31, at 6:30 p.m. in the school auditorium.

All parents are invited to attend.

Libra posi s still

The Cameron Parish librarian's position, vacant for the past four months, is still unfilled and the Library Board has extended to Jan. 1 the time for accepting applications for the position.

In addition, the board has increased the proposed starting salary from $23,500 to $25,000.

The position became vacant in April when Janelle Greenhow, librarian for nearly five years, submitted her resignation.

The board began advertising for a replacement then and has received eight applications, most from parish residents. However, most have not met the degree and certification requirements of the board.

In addition, the starting salary initially advertised by the board may have not been high enough to attract applicants with these requirements. The board has now increased the starting salary by $1500 and notes that this is negotiable.

In addition to advertising the position in the parish, the board has sent application forms to universities in the state and is advertising the position in the Beaumont, Texas newspaper.

Anyone wishing to apply for the position should send application, resume and three professional reference to Mrs. J. B. Blake, Jr., President, President, Library Board of Control, Cameron Parish Library, PO Box P, Cameron, La. 70631.

Old picture

The Pilot had several comments on the old photograph published last week showing a number of Cameron cattlemen perched on a fence watching a calf being run through a chute.

Geneva Griffith said the photo was apparently taken at some kind of workshop put on by the Agriculture Extension Service put on at the Crain Bros. ranch at Johnson Bayou about 35 years ago.

She identified her late husband, D. W. Griffith, in the photo and also these persons: Hadley Fontenot, county agent; Clifford Myers, 4-H agent; Francis Ezernack and Eloi Primeaux, Soil Conservation Service; Sono Crain, John Paul Crain, Durphy Vincent, John Conner, Ernest Hamilton, James Lowery and A. A. Myers.

MRS. SHIRLEY NUNEZ here holds a sign featuring the new Cameron Parish Tourish Commission slogan: "Cameron Parish--Litter Free, A paradise to See." (Photo by Geneva Griffith.)

Slogan is adopted

By GENEVA GRIFFITH

"Cameron Parish - Litter Free, A Paradise to See" was the winning slogan in the recent slogan contest put on by the Cameron Parish Tourist Commission.

There were 242 entries which came from schools, civic organizations, and private individuals. By a unanimous decision of the judges, the contest was won by Mrs. Brent Nunez of Sweet Lake. She donated the prize of a $500 savings bond back to the commission and five signs have been made to post at each entry to Cameron Parish using the funds.

Ed Kelley said that anyone wishing to order other signs with the slogan may do so by sending $60 to the Cameron Parish Tourist Commission, P.O. Box 388, Cameron, La. 70631, specifying where they want to put the sign or to be placed at the commission's discretion.

Mrs. Nunez said the slogan suddenly came to her as she was coming into Cameron Parish one afternoon in front of the Catholic church. She suddenly realized how beautiful the parish is, and how wonderful it would be to keep the roadside litter free.

She also said that she had always thought the "Sportsman's Paradise" on the old car license plates so beautifully described Louisiana, and especially Cameron Parish.

THE 1995 QUEEN of the Delcambre Shrimp Festival is Patience Cogar, 19, daughter of John and Pat Cogar of Grand Chenier. She was crowned on Aug. 18 in Delcambre. She will be attending LSU this fall.

Oysters funds told

Representative Randy Roach announced that the Lousiana Department of Wildlife and Fisheries and the 1995 legislature has approved Act 849 to help reimburse oyster fishermen for damages incurred due to the delay in the opening of the 1994 oyster fishing season.

Oyster fishermen residing in Calcasieu and Cameron Parishes who held a valid license as of Nov. 1, 1994 will be eligible to apply.

Oyster fishermen will receive a refund of this license and may be entitled to additional reimbursement depending on their ability to show proof of losses suffered as a result of the action that closed public grounds in Calcasieu Lake on Oct. 31, 1994 - less than one day prior to the opening of the season.

In order to be eligible for this reimbursement under the proposed program, you must complete an application form which will not be available until later in September. All fishermen will be notified when the application process has been finalized.

911 almost ready

By GENEVA GRIFFITH

The Cameron Parish 911 Emergency Response Team met last week in the Police Jury office to report on the progress of the system which is going on-line in the near future.

Tina Horn, Parish Administrator, said she is getting information from South Central Bell to finish in-putting the needed data.

Chief Sheriff Deputy Theos Duhon and Bessie Fountain, of the Sheriff's office, reported that they are on-line and are already answering emergency 911 calls. They answered a 911 call this week from atop the Rainbow bridge between Port Arthur and Bridge City regarding a wreck, and they patched it on through to Port Arthur, Tex.

Pete Duhon, of the Cameron Telephone Company, said they are testing the system and that it is only a matter of weeks until everything is ready to go.

The EMS drivers from South Cameron hospital reported that they are ready for the calls and the police jurors said their volunteer fire departments are set to go, which was substantiated by Oscar Reyes, chief of the Cameron volunteer fire department.

A public announcement will be made telling people when to start using 911.

The 911 committee said there have been some requests from people with only one house on a road that they want a name, but the committee voted to stick to the ordinance that says only named roads with three or more houses can be designated with names.

All Cameron Parish administrative offices will be closed Mon., Sept. 4, in observance of Labor Day.

MELISSA PERRODIN received her Bachelor of Arts Degree in English from Stephen F. Austin State University, Sat., Aug. 12, at Nacogdoches, Tex. She is the daughter of Cheryl Linville of Houston, Tex., and the granddaughter of Clarence Perrodin of Hackberry and Mrs. Hilda Domingue of Lake Charles. She is the great-granddaughter of Blanc Bonsall of Creole.

DR. HAROLD AYMOND, chairman of the Gulf Coast Soil and water Conservation District, here presents the recently completed Cameron Parish Soil Survey to Congressman Jimmy Hayes at ceremonies held last week in Cameron. (Photo by Geneva Griffith.)

Survey completed

By GENEVA GRIFFITH

Congressman Jimmy Hayes flew into Cameron Wednesday afternoon to accept the first Cameron Parish Soil Survey book from Dr. Harold Aymond, chairman of the Gulf Coast Soil and Water Conservation District.

According to Jerry Daigle, State Soil Scientist with the Natural Resources Conservation Service, Congressman Hayes has been a crusader of coastal restoration programs in Congress.

Daigle pointed out that Cameron Parish is the first parish in the state to be digitized with maps from space photos in the national program.

Louisiana is the third state in the United States to complete its soil survey, and when completed the whole country will have a complete soil survey map.

The program is under the auspices of the United States Dept. of Agriculture and Soil Conservation Service in cooperation with the Louisiana Agricultural Experiment Station and the Louisiana Soil and Water Conservation Committee.

The 122 page book contains base maps of the entire parish, identifying the various soils in each area, soil properties, classifications and formations of the soils.

The approximate cost of survey and putting the book together was $1 million and 4,000 books were published. They may be obtained from the parish Extension Service or Soil Conservation offices.

Congressman Hayes pointed out that the book can be very valuable to industry, agriculture, tourism, wildlife management, etc.

Daigle said that the first soil mapping effort was begun in 1899, a prototype of the soil survey, and was a hand done process.

"We have come a long way from this old hand-done process, for now we are using space photos from the space program", he said.

A reception followed the dedication with refreshments furnished by the Cameron State Bank and Gulf Coast Soil and Water Conservation District.

Roads are adopted

By GENEVA GRIFFITH

The Sweet Lake-Grand Lake community has organized an "Adopt the Road" program in a litter control effort.

The various roads adopted are as follows:

Highway 385 from Boone's Corner to the Calcasieu Parish Line - Knights of Columbus #11407.

Highway 27 Cameron Parish line to Hackett's Corner - Sweet Lake Altar Society.

From Hackett's Corner to Cameron Prairie Refuge - Grand Lake Senior 4-H Club.

Highway 385, from J. B. Jones home to Grangerville - Grand Lake Junior 4-H Club.

From Hackett's Corner to Brent's Road (Hwy. 384) - Sweet Lake Home Demonstration Club.

From Brent's Road to McCain's Road - Grand Lake Science Club.

From the Elray LeBleu house (Hwy. 384) to the Calcasieu line - Big Lake Tabernacle.

Big Lake Pasture Road - Big Lake Altar Society.

Grand Lake Pontoon Bridge to Eldray LeBleu house (Hwy. 384) - Grand Lake FFA.

The area from the Grand Lake Pontoon Bridge to McCain's Road is in need of adoption and any organization who will take on the project is asked to contact Brent Nunez at 498-2554.

Meeting set

Camp Fire Boys and Girls will hold a recruitment meeting Thurs., Sept. 7, 6:30 p.. at the Cameron Recreation District #6 facility. This meeting is for parents and children from Cameron, Creole, and Grand Chenier to learn more about the Camp Fire youth program and to form clubs for the current school year.

Representatives from the Camp Fire council of Sowela will be on hand to explain the program. For more information, call Kristi Pozza at 478-6550. Flyers will be distributed in each school as a reminder.

CAMERON PARISH Head Start Program personnel are pictured above. Clases will begin Sept. 5, in Cameron and Hackerry. They include: Director, Dinah B. Landry; Asst. Director, June Bell; Nutrition Coordinator, Laticia Guidry; Education Coordinator, Misty Romero; Social Services/Parent Involvement Coordinator, Beverly Salter; Mental Health, Health and Disabilities Coordinator, Billie Richard; Cameron teachers, Roxanne Domingue, Mary Jane January; Cameron teacher aides, Cheryl Brown, Rebecca Primeaux; Cameron cook, Pat Menard; Hackberry teacher, Kattie Richard; Hackberry teacher aide, JoAnn Daigle; Hackberry cook, Martha Jane Wright; Hackberry driver, Rhonda Swire.

FISH HABITAT

More fisheries habitats will be put into the Gulf of Mexico. Forty Vietnam era armored personnel carriers, about 12 tons each, after being cleaned will be submerged into the Gulf bottom as artificial reefs for fish havens. These will be taken out of Morgan City.

AREA FISHING

Area bass fishing is still an early morning, late evening thing, however a reported 8 lb. plus was caught in Lacassine Refuge. At the last shootout on the refuge, the first place 3 bass limit team stringer was 7.2 lbs., followed by 6.59 and 6.27 for second and third places. A 3½ lb. bass was the largest.

The Calcasieu River as well as the Mermentau River bassing is still slow, but they're catching some.

Rockefeller Refuge is not producing many bass, however, redfish are hitting and at Joseph's Harbor a few speckle trout are being taken.

The Big Burn was still producing bass, but tough fishing. Remember, all Miami Corporation lands are closed for permit fishing. It's now alligator hunting and of course, they're preparing for hunting season and trapping season.

Speaking of alligator season, which opens Sept. 2, is really becoming an event which brings many out of state folks to have a special hunt, or to just get the chance to see some alligators skinned and of course, to sample and enjoy the many alligator dishes prepared here in Southwest Louisiana.

The 10th Alligator Harvest Festival, which will be held Oct. 1, at the Grand Chenier Park, really brings together the alligator hunters plus tourists who enjoy the cookout and good time for a fun family day. This event is sponsored by the St. Eugene Catholic Church of Grand Chenier.

BE SAFE!

Commercial trappers under permit from Lacassine National Wildlife Refuge will be trapping alligator on the refuge from Sept. 2 thru Oct. 1. Refuge Manager Vicki Grafe asks boaters to be extra careful, including anglers. We need to be extra careful especially traveling the narrow boat trails and also the rest of the refuge. There will be baited hooks set on the edges. A fair warning, do not in any way tamper or mess around with the poles, lines, bait or hooked alligators. It's a violation of state refuge regulations.

Any buyer interested in bidding on hides or whole alligators removed from the refuge can contact Refuge Biologist Wayne Syron at 318-774-5923.

Also, I had a phone call from someone who is an alligator hunter and he needs to know names of alligator hide buyers who will go to the Sulphur-Lake Charles area to buy hides, so these people don't have to haul their hides down here. Any buyers interested, please contact me at 318-542-4586 or 318-542-4322.

TRADITION DAY

It's a tradition passed down from grandparent to parent to children, to hunt dove opening day and this year it opens Sat., Sept. 2, and then you'll have an extra day as Labor Day is on Monday, and lots of folks are off and school is out. First split - Sept. 2-10. Shooting hours are one half hour before sunrise to sunset, except Sept. 2-3, when shooting hours will be 12 noon to sunset. Daily limit is 12; possession limit is 24, after first day.

LICENSE CHANGES

New laws passed by the 1995 Legislature that might be of interest to some folks:

*Recreational basic fishing and saltwater license fees to allow totally and permanently disabled persons who are receiving a federal social security disability benefit to purchase licenses at a reduced rate, and provides for related matters, effective Aug. 15, 1995. Each license will cost $2.50. These licenses can only be obtained at the Baton Rouge Office of Wildlife and Fisheries.

*A mandatory wild turkey stamp. The resident stamp will cost $5.50 and non-resident, $10.50. "Lifetime license holders will be required to purchase this stamp."

*There will be a 3-day non-resident basic recreational license. This license is for freshwater only and will cost $10.

*In addition to the fee for a recreational saltwater fishing license, there will be an additional fee of $3, collected until June 30, 1998, which shall not be considered part of the cost of a saltwater recreational fishing license.

These stamps will be available for both residents and non-residents.

*If you don't pay child support, don't expect to get a fresh or saltwater recreational fishing license and if you have one, it can be revoked.

Hunting pamphlets should be out around Sept. 1.

Have a good and safe Labor Day weekend and enjoy the outdoors.

The best feeding periods on Fri., Sept. 1, are 3:40 a.m. and 4:10 p.m.; Sat., 4:40 a.m. and 5:10 p.m.; Sun., 5:35 a.m. and 6:05 p.m. and Mon., 6:30 a.m. and 7 p.m.

— NOTICE —

The Cameron Parish School Board will have available for public inspection a proposed budget for the 1995-96 Fiscal Year on August 24, 1995 through September 6, 1995 during office hours at its Administrative Office on Dewey Street, Cameron, Louisiana.

A public hearing will be held on the proposed budget of the Cameron Parish School Board on September 6, 1995 at 2:00 p.m. at its Administrative Office on Dewey Street, Cameron Louisiana.

Tarpons to open '95 football season Fri.

By JOE MUELLER

The South Cameron Tarpons will open the 1995 regular season at home this Friday at 7 p.m. when the DeQuincy Tigers come to town.

The Tarpons and Tigers both are figured to contend for district honors in 1995.

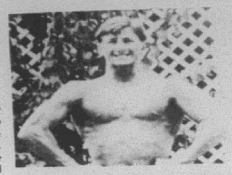
Both the teams scored victories in the Iowa Jamboree, the local team beat Iowa 6-0 while the visiting Tigers beat the Barbe J.V. 20-0.

South Cameron showed a strong running game in the jamboree and a strong defense. This also was the strong suit of DeQuincy. The game will feature two evenly matched teams.

Head Coach Parry LaLande of South Cameron is entering his 14th year at South Cameron. He has compiled 114 wins in his tenure. His teams have been in the state playoffs 10 times. Last year they were 6-4 overall and 4-1 in district. They finished first in district and lost in the state playoffs to North Vermilion.

North Vermilion and Notre Dame have joined District 6AA replacing Iowa, who moved up to Class 3A and St. Louis, who moved to District 5AA. Other district members are Welch, Iota and Lake Arthur.

Both teams have good running backs with Jared Savoie and Vito Martarona doing a good job carrying the ball for the Tarpons. Roosevelt McCoy and Deandre Mallett both carried the ball well for the Tigers.



The game should be hard fought and both teams exhibited a good defense.

The game will be a true yardstick for the coaches as to how much they need to improve throughout the year.

SAFETY IS ELEMENTARY!

Back-to-school time is the perfect time to give all school-age children an important lesson in safety.

3. Teach your child to recite his or her full name, street address and telephone number. For Pre-Schoolers, fastening this information inside a jacket is a good idea.

4. Tell your child where you can be reached in case of emergency.

5. Instruct your child to inform you when he or she goes somewhere after school.

6. Go over home and school safety rules periodically with your children, an ounce of prevention is worth a pound of cure.

Tarpons win in Iowa Jamboree

By JOE MUELLER

The 1995 South Cameron Tarpons scored a 6-0 victory over the Iowa Yellow Jackets in the Iowa Jamboree last Friday.

The Tarpons moved the ball on the ground for 75 yards on their first possession. The touchdown came midway through the opening half on a 3-yard run by Vit Martarona.

They played strong defense putting lots of pressure on the football and showed good pursuit of the football on defense.

The Tarpons Jarrod Savoie as well as Martarona did a good job running the ball.

In other games at the jamboree, DeQuincy beat the Barbe J.V. team 20-0; Vinton scored a 7-0 win over Sulphur J.V. and the Jennings J.V. beat Merryville 18-8.

The Tarpons will open the 1995 regular season at home this Friday, Sept. 1, at 7 p.m. against the DeQuincy Tigers.

PUBLIC NOTICE
CAMERON PARISH COASTAL
USE PERMIT APPLICATION

Interested parties are hereby notified that the Coastal Management Section of the Cameron Parish Police Jury has received the following apparently complete application for a Coastal Use Permit in accordance with the rules and regulations of the Louisiana Coastal Resources Program and R.S. 49, 213.1, the State and Local Coastal Resources Management Act of 1978, as amended.

L.C.U.P. Application #950321 Corps of Engineers #-----

Name of Applicant: Cameron Parish Police Jury, P.O. Box 366, Cameron, LA 70631.

Location of Work: Various, sections, townships and ranges in Cameron Parish, Louisiana.

Character of Work: Installation of 35 Dry Fire Hydrants.

The decision on whether to issue a permit will be based on an evaluation of the probable impacts of the proposed activity in accordance with the state policies outlined in R.S. 49:213.2. The decision will reflect in the national concern for both protection and utilization of important resources. The decision must be consistent with the state program and approved local programs for affected parishes and must represent an appropriate balancing of social, environmental and economic factors. All factors which may be relevant to the proposal will be considered; among these are flood and storm hazards, water quality, water supply, feasible alternative sites, drainage patterns, historical sites, economics, public and private benefits, coastal water dependency, impacts on natural features, compatibility with the natural and cultural setting and the extent of long term benefits or adverse impacts.

Certification that the proposed activity will not violate applicable water and air quality, laws, standards and regulations will be required before a permit is issued.

Any person may request, in writing, within the comment period specified in this notice, that a public hearing be held to consider this application. Request for public hearings shall state, with particularity, the reasons for holding a public hearing.

Plans for the proposed work may be inspected at the Cameron Parish Police Jury Annex Building, Coastal Management Division, Courthouse Square, P.O. Box 366, Cameron, Louisiana, (318) 775-5718. Written comments should be mailed within 25 days from the date of this public notice to Cameron Parish Police Jury, Coastal Management Division, Post Office Box 366, Cameron, Louisiana 70631.

Scouts hold Court of Honor here

Boy Scout Troop 210 of Cameron held a Court of Honor recently with all of the Scouts receiving awards.

Members of troop 210 include Brett Billings, Chance Doxey, Dusty Prejean, Adam Doxey, Chris Dupont, Donnie January, Justin Helms, Louis Hebert, Randall Cormier and David Nunez. Each received one or more of the following merit badges: First Aid, Archery, Leatherwork, Basketry, Orienteering, Swimming and Canoeing.

Some of the merit badges were earned by Scouts who attended Camp Edgewood this summer. The Archery merit badge was earned during a two-day training course held by Kirk Burleigh.

Two Scouts, Brett Billings and Chris Dupont, earned the rank of Tenderfoot.

A discussion was held by parents and leaders on the purchase of a utility trailer to store and transport the Troops camping equipment. Various fund raisers were discussed including a back to school dance. It was also announced that a donation towards the trailer had been made by Cameron State Bank, the Troop's sponsoring organization.

A roundup for boys interested in Scouting will be held Tues., Sept. 5, beginning at 5:30 p.m. at the Wakefield Methodist Church. For more information about Scouting, boys can contact Cliftcn Hebert, Scoutmaster, or Bobby Doxey, Assistant Scoutmaster, at 775-5216.

Donations to help defray the the cost of the barbecue and donation of bingo prizes would be appreciated.

Cleaning of highway turns into good deed

By GENEVA GRIFFITH

Members of the St. Mary of the Lake Knights of Columbus Council #11407 didn't know that their very first litter control project this week would turn into a good samaritan act.

While picking up trash along Hwy. 385 from Boone's Corner to the Calcasieu Parish line, they found a lost wallet containing $357 and a credit card.

The finder said that the wallet was not easily visible as it was brown and was lying in brown grass.

Chad Meaux, a McNeese college student in Lake Charles, was notified of the find. He said it had been lost about a month.

He said he had gone fishing and had laid his wallet on top of his boat while he was hitching it up and forgot about it until he got home, and was unable to find it. It contained his earnings from his job waiting tables at Peppers in Lake Charles.

He was grateful to the K.C.'s and gave them a reward.

The K.C.'s picked up 192 bags of litter that day and plan to keep their adopted road litter free.

NAACP meeting

The Cameron NAACP Chapter will hold a car wash Saturday at the Conoco Fire Station to raise money for its various projects.

Alligator season opens Saturday, 2nd

Louisiana's 30-day alligator season begins Sept. 2, and all trappers are asked to check alligators for foot web tags placed previously by Department of Wildlife and Fisheries personnel.

Long-term alligator research continues to evaluate movement patterns, survival, growth, and dispersal. Alligator trappers, workers, processors, and skinners are encouraged to help the research program by carefully checking harvested alligators for tail notches and/or toe tags.

LDWF biologists and technicians have captured, marked, and released several thousand wild alligators from various habitats along the coast. Each alligator is measured and a notch is made in the tail by removing one or more dorsal ridges. Two or more metal tags are placed in the webbing between the gator's toes. Each tag is numbered for later identification. Sex of the alligator is also recorded. Alligators returned to the wild from alligator farms are marked in a similar fashion.

Recaptured alligators can be reported by calling Rockefeller Wildlife Refuge (318-538-2276) or your local Wildlife and Fishereies office. The recapture form applied to trappers at the time of alligator tag issuance should also be mailed to the Department.

"Total length of the alligator and the entire number on the toe tag are the most important data to be recorded and returned," said LDWF Fur and Refuge biologist Ruth Elsey. "Additional data, such as harvest location, body condition, or the weight of the animal, is also appreciated."

The 1995 wild alligator harvest season runs through Oct. 1. Louisiana's thriving alligator population is continue to support the largest wild harvest in the United States. Data compiled by LDWF biologists indicates that nest production was good this year.

According to LDWF's Fur and Refuge Division, the wild harvest generated some $10.5 million to Louisiana's economy last year.

License, tags, and information packets for alligator season are available at LDWF district offices, Rockefeller Refuge, and at the New Iberia and Bourg offices.

MY DEAR FRIENDS OF CAMERON PARISH,

When you elect me your sheriff, I will not discriminate against anyone because of race, religion, sex, age, wealth or who you associate with. I will not even discriminate against anyone because of the way they voted in this election. I will never threaten you or your job for your vote.

TO THE EMPLOYEES OF THE SHERIFF'S OFFICE:

Your job will never be on the line because of who you associate with. You will have to give me a serious reason before I decide to terminate anyone. When there's a problem I will hear from all the people involved, and listen to your problems with an open mind before I consider any action. I will never hire or fire anyone because of political reasons. You work long hard hours, not always under the best conditions, for very little money. I will never accept a raise unless you can get one also.

TO ALL THE VOTERS OF CAMERON PARISH:

I will have my personal car for my personal business. I will never use your car or your gas to politic with.

THIS IS YOUR PARISH, AND WHEN I'M ELECTED YOUR SHERIFF, I WILL GIVE YOU YOUR PARISH BACK.

TO ALL THE PEOPLE OF JOHNSON BAYOU, HOLLY BEACH & HACKBERRY:

Thank you so much for the support I received at the rallies in your areas. It was encouraging to see so many of you there. Also to all of you who worked so hard to make these rallies a huge success, THANK YOU, you are greatly appreciated. It is time to unite all of Cameron Parish. All the parish deserves the same protection under the law.

Police jurors recognize outstanding parish youth

By GENEVA GRIFFITH

Several Cameron Parish youths were recognized at the monthly meeting of the Cameron Parish Police Jury Tuesday.

The Johnson Bayou track team was recognized for winning the Class C State championship for the seventh consecutive year.

David Devall of Hackberry was honored for winning the National High School Calf Roping championship.

James Boudreaux, Cameron, was honored for winning the College Bareback Riding championship, and Kassie Guthrie, Cameron, was cited for winning the National Brahman Bull championship.

Winning world championships were the Cameron Softball boy's team "Young Guns" 14 years old and under - USSSA; and the 16 years and under team.

The "Stars and Stripes, 14 and under champion softball girls team won the USSSA state championship.

EXTENSION REPORT

The Cooperative Extension Office annual report was given by Gary Wicke, County Agent, and Kevin Savoie, Fisheries and Wildlife Agent.

Wicke said that the cattle industry has a depressed market right now and is expected to remain so for perhaps four years, and many cattlemen will probably be going out of business.

Some cattlemen in the area are looking into the feed lot business and feeding the cattle for retail before they sell them, he said.

Blackbirds are giving the rice farmers problems in th eparish rice fields, and the farmers are keeping a close eye on the farm bill which is expected to affect the rice producers in Cameron Parish.

Local farmers are also looking at sugarcane that is now being grown in CalcaSieu Parish, near the Calcasieu-Cameron line. This could be an alternative crop for the area, Wicke said.

Savoie said that there are many problems in the fisheries area. The net ban bill will virtually end the gill nets in coastal waters if it stands.

Savoie said the state legislature passed the gill net ban in spite of

Hicks asks re-election to P. Jury

George Hicks of Hackberry has announced that he will be a candidate for re-election as the District 2 police juror in the October election.

Mr. Hicks, who is serving his first term as juror, is the owner of H & H Kwik Stop in Hackberry. He and his wife, Laura Mae, have ten children, and are members of the Catholic church.

He was born in Lake Charles but has lived in Hackberry 45 years. He served in the U.S. Air Force. A graduate of Landry Memorial High School, he attended McNeese University.

He is a member of the Council on Aging, Head Start and the Knights of Columbus. He is also a past president of the police jury.

Registering by mail has deadline

Mrs. Ruby Kelley, Cameron Parish Registrar of Voters, announced that all by-mail applications must be in the Registrar of Voter's office no later than Sept. 15.

All by-mail applications are put on hold by the state for ten days, which is important to remember if you register as a by-mail applicant and want to vote in the Oct. 21, election.

All regular registrations in the Registrar of Voters office and the Cameron Office of Motor Vehicles will close Sept. 26.

Please call the office if you have any questions, 775-5493.

The office is open from 8 a.m. to 4 p.m., Monday through Friday.

Shakespeare program told

"Shakespeare Alive" will be presented at South Cameron High School Wednesday and Thursday, Sept. 13 and 14. Actors from Young Audiences, Inc. of New Orleans will conduct a two day residency for all students.

Two assembly type performances will take place in the gym each day at 9:30 a.m. Small group workshops will follow throughout the remainder of the two days. Each student will see a performance of samples of William Shakespeare's work, the action of his plays, and explanation of his language.

The small workshops will enable interested students to participate in stage fighting, stage movement, and understanding the language. Interested parents and citizens in the community are invited to attend.

This project is supported by a grant from the Louisiana State Arts Council, the Louisiana Division of the Arts, and the Louisiana Decentralized Arts funding program as administered by the Lake Charles Symphony.

ROGER BACCIGALOPI and his children, Savanah Kay, 4 months, and Matt, 2 1/2 years, look at the 446 tiny turtles that Baccigalopi was getting ready to release into the marsh near his home. (Photo by Geneva Griffith.)

Turtle lover works to save local hatch

By GENEVA GRIFFITH

Roger Baccigalopi wants to make sure that he always has the makings for the delicious turtle dishes he cooks up for family and company, so he is seeing that he has ample turtles in his marsh to harvest each year.

Last week he turned out 446 baby turtles into the Creole marsh in back of his house to grow into adulthood.

He gathers the turtle eggs from the wild, from the adult turtles he catches to cook, and from friends who know he is raising the turtles for the wild.

He points out that possums and raccoons are the enemies of the turtle eggs which are laid in the marsh, so by his retrieving the eggs before his predators reach them he is conserving the species.

He buries the eggs about two inches deep in an old white enamel bathtup that is filled with dirt, and covers it with plywood to keep out predators.

Then in about two months the baby turtles crawl to the surface when they hatch and he starts feeding them with entrails from the rabbits he also raises for food. He then turns them back out into the marsh to grow to adulthood.

"This way," he says, "we will always have turtles, but if we constantly harvest them and do not replace them in the wild we will no longer have them, nor will the next generation coming up."

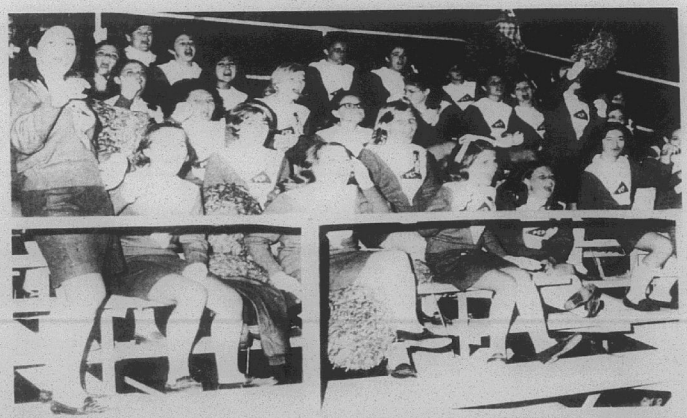
He is already teaching his children, Matt, 2½ and Savanah Kay, 4 months, to have respect for the land and what it can produce.

Roger raises mostly black and yellow belly turtles, and prefers the taste of the yellow bellies to the black turtles, which most local people prefer.

Most turtles deserve their timid reputations, hastily withdrawing their heads, feet and tails into their shells at the slightest sign of danger.

But this is no mere act of cowardice; while more aggressive reptiles, such as dinosaurs, have died out, turtles have thrived for some 250 million years on every continent but Antarctica.

Of the 200 or so species of turtles on Earth, a fourth live in North America, and ten of them are sea turtles.



School plans new program

A program designed to serve the needs of high risk four-year-old children is planned for Cameron Elementary School. This program is funded through the Louisiana Quality Education Support Fund - 8(g).

Children who live outside of the Cameron Elementary attendance zone may attend the program if other eligibility criteria are met. However, these parents must provide transportation to and from school.

Contact Wayne Kershaw or Stacy Miller at Cameron Elementary School, 775,5518, prior to Sept. 14, to schedule testing for eligible children.

(EDITOR'S NOTE--This article was submitted to the Pilot for publication in last week's issue but was omitted through an oversight.)

HOW MANY OF these South Cameron high school pep squad members can you identify in this photo which was taken 10 to 15 years ago at a Tarpon game? The picture was taken by the late Dr. Cecil Clark who furnished the Pilot with Tarpon game photos for several years.

Girl killed in mishap at Rutherford Beach

A 17-year-old Lake Charles girl was killed on Sunday afternoon at Rutherford Beach near Creole when the raft on which she was floating was accidentally hit by a jet ski boat.

The victim was identified as Chantel Lynn Manuel, according to Theo Duhon of the Calcasieu Sheriff's Dept. who identified the operator of the jet ski as Brady Joseph Duhon of Creole.

According to the sheriff's spokeman, there was a family party at the beach and several persons were floating on rafts out in the surf. Brady Duhon had gone to tow the rafts to shore. The sun got in his eyes and the jet hit the raft on which the Manuel girl was riding.

The victim was given artificial respiration and then was taken to South Cameron Memorial Hospital where she was pronounced dead.

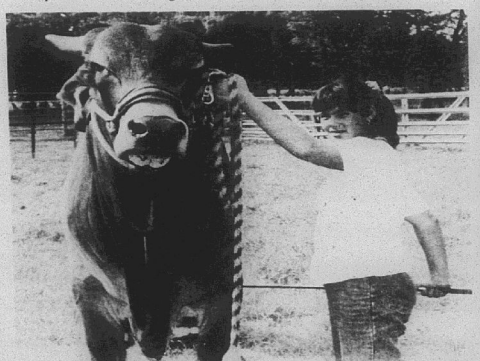
Miss Manuel was the daughter of Raymond Manuel and Brenda Cady of Lake Charles.

CITGO loans ambulance to Grand Lake area

Responding to a request from Rep. Randy Roach, Cameron Parish Police Juror Brent Nunez and cameronParish Sheriff Sono Savoie, CITGO Petroleum has loaned an ambulance to the Grand Lake Community while the Grand Lake pontoon bridge undergoes repairs.

In early July when the citizens of Grand Lake were told that the bridge would be closed for up to six weeks for repairs, they expressed concern over the availability of emergency medical services to the area.

Rep. Roach, Juror Nunez and Sheriff Savoie, aware that COTGO was preparing to take an older ambulance out of service, asked the company if they would consider loaning the ambulance to the community while the bridge was undergoing repairs. CITGO agreed, and the ambulance was soon in service in Grand Lake. In fact, the CITGO Emergency Communications Trailer, a state-of-the-art emergency communications vehicle owned and equipped by CITGO and opearted under the guidance of the Calcasieu Parish Police Jury's Office of Emergency Preparedness, was also dispatched to the community to aid in emergencies during this time. It is being manned by the Cameron Parish Sheriff's Department.



When the bridge was inspected after it was removed, the damage was found to be much worse than was orginally thought. Therefore, it appears that the ambulance will be in service for approximately another two weeks.

Jobless rate

The unemployment rate in Cameron parish for July was 4.9 percent, a big drop from the 6.8 rate for June and slightly under the 5.1 rate for July 1994.

The La. Dept. of Labor reported there were 3450 persons employed in the parish during July, a reduction from the 3470 in June and the 3525 in July a year ago. Persons unemployed in July was 180 as compared to 260 in June.

The state unemployment rate for July was 7.1 percent.

Beach clean-up is set

The 1995 Beach Sweep and Inland Waterway Cleanup will be held Sat., Sept. 16.

BeachSweep is part of the International Coastal Cleanup, the mission of which is to remove debris from the shorelines and waters of the world's lakes, rivers and oceans.

In Louisiana some sections of shoreline were inaccessible during the 1994 cleanup due to storm tides, but 5,153 volunteers still managed to clean 217 miles of shoreline, collecting 139,320 pounds of trash. To volunteer for this year's effort contact the zone coordinator in the area you would like to help clean up. The coordinators and their phone numbers are:

Cameron Zone -- Ed Kelly, 318-775-5493.

Lake Charles -- Gerald Broussard, 318-491-1481.

Rockefeller Refuge -- John John (318) 783-3394.

Each Cleanup volunteer is required to fill out data cards with information about the debris they collect. The information is compiled by the Center for Marine Conservation and is used to help educate the public about the marine debris problem and to help effect policy changes and other measures needed to reduce marine debris.

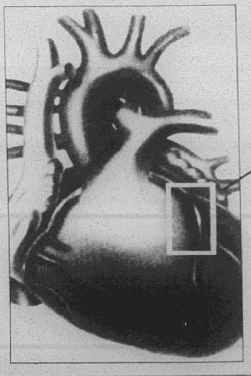
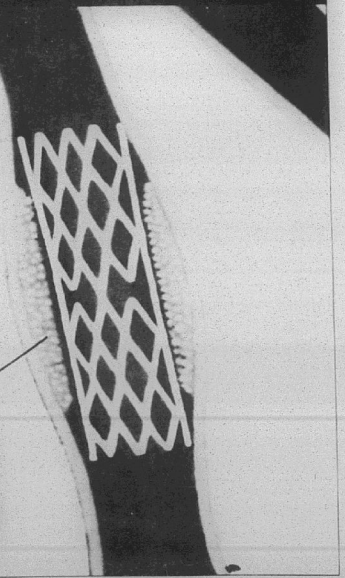
The Heart Doctors
Craig M. Walker, M.D., Clinical Research





When he founded Cardiovascular Institute of the South in 1983, Dr. Walker had a vision of a medical institution which would provide the highest quality treatment for heart and circulatory system disease, and contribute to the future of cardiovascular diagnosis and therapy through clinical research.

Today, that vision has been realized. CIS has become a treatment and clinical research center of international renown. It has participated in the development of virtually every major new method of non-surgical heart treatment developed over the past decade, including a number of firsts in stenting -- the highly promising technique of placing permanent implants to hold open previously blocked arteries.

"Clinical research is so demanding and time consuming that it's rarely pursued outside big academic medical centers," Dr. Walker concedes. "But it's the only way you can be sure you're really at the leading edge of your specialty. By the time most cardiologists are performing their first case using a new procedure, we will have performed hundreds."

Tarpons to play at Vinton this week

By JOE MUELLER

The South Cameron Tarpons take to the road this week as they travel to Vinton to take on the Vinton Lions.

The Lions, who are ranked No. 7 in the state by the Sportawriters, won their opening game over District 6AA pre-season pick Lake Arthur by a score of 39-14.

The big player for the Lions last week was Jaworski Gauthier. He had two fumble recoveries, a bloked punt and caught a touchdown pass to earn player of the week honors for the Lake Charles area.

The Lions also had good running from Alan Janice.

The Tarpons, who lost to DeQuincy 20-3, had two fumble recoveries and one pass interception but just couldn't seem to get untracked offensively to take advantage of the turnovers.

Defensively they limited the Tigers to about 150 yards. So, if they can get going offensively they should do alright.

Jared Savoie rushed for over 50 yards and Ben Conner and Vito Martarona showed some promise running the ball.

The match-up will be District 5AA against 6AA. Both of the districts are among the best Double A districts in the state.

The two teams did not face each other last year. Both teams have qualified for the state playoffs in recent years.

South Cameron definitely will give a good effort and if their offense improves, it will be a tough game for the favored Lions.

The Lions have a top field goal kicker in Brad Vice, but they didn't need him last week. On two occasions the Tarpons forced DeQuincy to settle for a field goal.

The Tarpons didn't have many penalties last week, so they didn't hurt themselves mentally.

The Tarpon kicking game needs improvement as they had two punts which gave the Tigers excellent field position.

Game time is 7 p.m. so let's get an early start and go up to Vinton to support the Tarpons.

Tarpons lose to DeQ. in opener last week

By JOE MUELLER

The South Cameron Tarpons collected three turnovers but could only convert one as they lost 20-3 to the DeQuincy Tigers in their opening game.

The Tigers fumbled on their first play from scrimmage and the Tarpons Lannie Guilbeaux recovered.

The Tarpons drove down to the Tiger 17 yard line but couldn't get any closer and they missed a field goal try from the 25.

The Tigers next possession saw the Tarpons force them to punt. South Cameron then was held and had to punt with the Tigers taking over on their own 32. They moved down to the Tarpon 16 yard line where the Tarpons held and forced the Tigers to kick a 38 yard field goal.

The Tarpons intercepted a Tiger pass with about 5 minutes before half-time. Chad Portie's interception gave the Tarpons possession on their own 24. They punted four plays later and the Tiger punt receiver fumbled and Vito Martarona recovered. Eight plays later, with only 4 seconds before half-time, the Tarpons Shawn Duffey hit a 27 yard field goal to tie the score at 3 at half-time.

The Tarpons took the second half kickoff and reeled off three first downs before giving the ball up on downs at the Tiger 31.

It took DeQuincy eight plays to move 69 yards and they scored on a 9 yard run by Roosevelt McCoy. DeQuincy converted a pass for the extra point and were up 11-3 with 3 minutes left in the third quarter.

The fourth quarter saw DeQuincy score on another Guy Robertson field goal and on a 26-yard run by McCoy.

Jared Savoie led the Tarpon rushers with 56 yards and Cory Broussard rushed for 26 yards and Vito Martarona had 22 yards.

The Tarpons freshman quarterback hit two of four passes, both to Shawn Duffey.

South Cameron will be on the road Friday at Vinton.

AMENDED NOTICE OF APPLICATION FOR RENEWAL OF NON-COMMERCIAL, NON-HAZARDOUS INDUSTRIAL SOLID WASTE STORAGE AND TRANSFER FACILITY PERMIT

GULF STATES UTILITIES COMPANY, Beaumont Salvage Center, P.O. Box 2951, Beaumont, Texas 77704, has submitted to the Texas Natural Resource Conservation Commission (TNRCC) an application for renewal of Permit No. SWI300, which authorizes operation of a non-commercial container storage facility for receipt, storage and transfer of non-hazardous industrial solid waste. The renewed permit would authorize continued operation of the facility, which includes one existing container storage area (maximum capacity 1 gallon) for the storage of Class 1 non-hazardous waste. Wastes authorized by the permit are materials and equipment contaminated with PCBs. Wastes are received from off-site sources and are limited to that generated by permittee-owned facilities.

The facility is located on approximately 4.8 acres at 3105 Laurel Street, approximately two miles west of downtown Beaumont, Jefferson County, Texas. The site is in the drainage area of Hillebrandt Bayou, Taylors Bayou Segment 701 of the Neches-Trinity Coastal Basin. (30°04'54" north latitude 94°08'04" west longitude).

Legal Authority: Chapter 361 of the Texas Water Code (as amended); Chapter 361 of the Texas Health and Safety Code (as amended); 30 Texas Administrative Code Chapters 305 and 335; and the Rules of the Texas Natural Resource Conservation Commission.

This application is subject to a Commission resolution adopted August 18, 1993, which directs the Commission staff to process applications for the Commission and issue final approval of certain permitting matters. The Executive Director will issue this permit unless one or more persons file written protest(s) or a request(s) for a hearing within 30 days after publication of this notice.

If you wish to request a hearing or comment, you must submit your request in writing. You must state (1) your name, mailing address and daytime phone number; (2) the permit number of the permit you are filing a request to this application; (3) the statement "I/we request a public hearing"; (4) a brief description of how you, or the person you represent, would be adversely affected by the granting of the application, such as the proximity of the location of your property relative to the applicant's operations; and (5) your proposed adjustment to the application or permit which would satisfy your concerns and cause you to withdraw your request for hearing. If one or more protests and/or requests for hearing are filed, the Executive Director will consider the issuance of the permit. The Commission will review the adequacy of the hearing requests, and may forward the application to an Administrative Law Judge of the State Office of Administrative Hearings where a hearing may be held. Commission public hearings are evidentiary legal proceedings, similar to civil court hearings. Although comments from the public may be submitted either in writing prior to the hearing, or orally at the start of the hearing, the law requires that the Commission's decision about whether to approve or deny the application be based on evidence and testimony submitted during the public hearing, presented under oath and subject to cross-examination by the other parties. Public comments are not evidence and cannot be relied on as the basis for the Commission's ultimate decision. In the event a hearing is held, the Administrative Law Judge of the State Office of Administrative Hearings will submit a recommendation to the Commission for final decision.

Any person will be allowed to make oral or written statements at the public hearing. In addition, a time may be set aside at the public hearing for pertinent public comment session and negotiation regarding issues of concern. The Executive Director of the TNRCC will consider all information submitted in making a final recommendation to the Commission and will respond in writing to any significant comments made at or in connection with the public hearing at the time the final decision is made. Only significant comments made at or in connection with the public hearing will be considered. The hearing may be continued from time to time and place to place, if necessary, to develop all relevant evidence bearing on the subject of the hearing.

If no protests or requests for hearing are filed, the Executive Director will sign the permit 30 days after publication of this notice or thereafter. If you wish to appeal a permit issued by the Executive Director, you may do so by filing a written Motion for Reconsideration with the Chief Clerk of the Commission no later than 20 days after the date the Executive Director signs the permit.

Requests for a public hearing on this application should be submitted in writing to the Chief Clerk's Office, Mail Code 105-TNRCC, P.O. Box 13087, Austin, Texas 78711-3087, telephone 512/239-3300. Written comments on the application should be submitted to the same address within 30 days of the date of publication of this notice of application. Information concerning hearing procedures and public participation in hearings may be obtained by contacting Mark Alvarado, Public Interest Counsel, at Mail Code 103, the same address or by telephone at 512/239-6363. Information concerning any technical aspect of this application can be obtained by writing Robert Sinclair at Mail Code 130, the same address or by telephone at 512/239-6629.

Issued this 25th day of August, 1995.

Gloria A. Vasquez, Chief Clerk
Texas Natural Resource Conservation Commission

POLICE JURY Cont. from Pg. 1

the state Wildlife and Fisheries assuring them that the fishing industry is healthy and that there was no need for the ban.

He said there is a lawsuit against the ban and the gill net fishermen can keep on using them until it is settled.

The shrimping industry is also facing many problems. More TED regulations and the imposing of a 1½ inch mesh size have driven the small shrimpers out of business.

The majority of the shrimp sold in the United States are from Asia; however, their supplies are down from the harvests in our area are in unheard of amounts - 16# per trap.

SUBDIVISION

Joe Devall of Hackberry told the Jury that he is planning a subdivision in Hackberry and is being hampered in his project by the regulations of the State Health Department not being the same in Cameron Parish concerning the sewerage disposal systems.

Glenn Alexander, Cameron Parish District Attorney, said the parish can establish a planning board to review permits, subject to the State Health Department. The Jury agreed to write the State Health Department requesting that they change the regulations.

PARK TRANSFER

The Police Jury gave authority to the president, Russell Badon, to sign the Coastal Zone Management contract and transfer of the Grand Chenier State Park from the state to the Cameron Parish Police Jury.

Douaine Conner reported that the Cable TV Weather Channel will be installed by December.

George LeBouef reported that Cameron has been having Cable TV problems when customers call with problems on the weekends, they get an answering service. They are to be contacted by the Jury.

George LeBoeuf reported that Broussard Beach and the beach road have become an eyesore with littering of everything including old appliances, furniture, etc.

The Sheriff will be contacted and asked to have his deputies patrol the area and issue littering tickets when they find anyone littering.

OYSTER SEASON

LeBoeuf asked the Jury to send a letter to the state Wildlife and Fisheries asking them to start the opening of the oyster season on Oct. 20, instead of Nov. 1, if the oysters are of a good quality.

Dale Sittig, candidate for Public Service Commissioner, introduced himself to the Jury.

DISTRICT BROKE

Rickey Miller, representing Cameron Recreation District 7 in Creole, told the Jury the district was out of money and that it was impossible to run it on the $17,000 they receive annually.

He asked the Jury to call a 3 mill tax to run the district on, instead of the 1.48 mills that is now in effect.

Ray Conner said that the board should try to work out their problems before they go to the taxpayers for additional taxes.

Brent Nunez said that the recreation district in his area had similar problems several years ago and solved them by holding a barbecue which raised over $5,000.

A motion was made to have the recreation board meet with the Jury to discuss creating revenues for the district.

EVACUATION MONEY

LeBoeuf asked the Jury to look into the fact that there is still $8 million left in a Cameron Parish evacuation fund that was set aside by the legislature when Rep. Conway LeBleu was state representative. The Jury agreed to ask the state what was done with the rest of the money and if it is still available for Cameron to use for an evacuation route.

A discussion was held on the four laning of Highway 27 from Creole to Hackett's Corner as part of an evacuation route and also a road from Cameron to Big Lake, through the marsh, a distance of 14 miles.

A vote was taken to take a resolution to the Region 7 Police Jury meeting in Eunice on Oct. 17, asking them to support Cameron Parish efforts to create the Hurricane Evacuation Route.

LeBoeuf called for a 3 measure resolution the four laning of Highway 14 from Creole to Hackett's Corner; the building of a road from north of Cameron to Big Lake; and a high level bridge to replace the pontoon bridge at Big Lake.

Voting for it was George LeBoeuf, Brent Nunez, and George Hicks. Ray Conner voted against it, and Russell Badon and Douaine Conner abstained. Motion carried.

Conner offered a motion of his own calling only for the four laning of the highway from Creole to Hackett's corner, and it was carried.

Both resolutions will be carried to the District meeting.

TURTLE COOKIE BARS

1 1/2 cups quick-cooking oats
1/2 cup light brown sugar, packed
1/2 cup flour
1/2 cup butter
20 caramels
1 tablespoon milk
1/4 teaspoon vanilla
2/3 cup milk chocolate chips
1/2 cup chopped pecans or walnuts

Lightly grease an 8 inch square glass dish and set aside.

Place oats, brown sugar, flour and butter into a glass bowl and microwave on High power 2 minutes, stir and microwave 1 to 2 minutes more until butter is melted. Mix well. Press into prepared dish. Microwave, elevated, on High power 1 minute. Set directly on countertop to cool.

Place unwrapped caramels, milk and vanilla in 4 cup measure and microwave on High power 2 to 3 minutes or until caramels are melted, stirring once. Mix until smooth and pour over baked crust. Sprinkle chocolate chips over caramel and let stand 1 to 2 minutes to melt. Spread softened chocolate over caramel. Sprinkle nuts over chocolate. Cool and cut into bars.

REMEMBER?

The 1962 tornado

By Keith Hambrick

(Abbeville Meridional, August 27, 1910)
LAKESIDE LACONICS

Mr. Henry and Mr. Albert Miller are on the sick list. The very hot weather and so much rain is the probable cause of considerable sickness as there are such an unusual number of heat prostrations all around this section. The thermometer has been ranging from 90 to 96.

Charbon has about quit this section but blind staggers are reported to have killed several animals on the Illinois plant. Fifty-eight mules died from charbon at that plant, but that seems to have run its course and is being followed by blind staggers.

The camp meeting keeps growing more interesting all the time, under the management of R.P. Howell and with Mrs. Morris as evangelist. The crowds are larger every day.

Marsh and unreclaimed lands situated along the lakes and gulf coast of Calcasieu, Vermilion and Cameron parishes to the extent of 118,000 acres, have recently been purchased by a company of Northern and Eastern capitalists and will be reclaimed and developed for rice farming, corn raising and truck farming and for other purposes as may be decided upon later.

The land, properly drained, will unquestionably prove a veritable paradise upon which to live and one of the richest imaginable for agricultural purposes, and will afford room for the settlement of hundreds of thrifty tillers of the soil thus bringing about a greater development of this section of the gulf coast country than anything which has been undertaken within a great many years.

Rice month is observed

By HEATHER TAYLOR

National Rice Month is being observed in September to stress the importance of the rice industry on the U.S. and local economies.

Since National Rice Month's beginning, per capita rice consumption in the U.S. has risen three pounds and it is projected by the U.S. Rice Council's goal of "25 by '95" - 25 pounds per capita by 1995, will be reached by the year's end.

Rice is important to the United States and Louisiana for many reasons:

*U.S. rice farmers are expected to harvest 17.7 billion pounds of rice on 3.1 million acres in 1995 (USDA).

*Over 90 percent of the rice consumed in the United States is grown domestically.

*Rice is the fifth most vlauable food crop in the United States.

*U.S. rice producers are expected to export 8.3 billion pounds of rough rice to more than 100 countries in 1995.

*As the second largest rice producing state in the U.S., Louisiana farmers are expected to harvest on 590,000 acres of land in 1995.

*Rice is full of complex carbohydrates and is fat, sodium, and cholesterol free.

As a staple to 2/3 of the world's population, rice is the most important food. It helps the U.S. and local economies and it is healthy as well. Since rice is so versatile, it can be served at any meal.

TORNADO STORMS THROUGH CAMERON

Two persons were killed and about thirty injured in a freak tornado-like storm which was spawned by an easterly wave in the Gulf and slashed through the town of Cameron at about 10:50 p.m. Tuesday.

Dead are Delores Listack, 25, who died in the wreckage of her trailer, and Harold Stewart, about 50, who died of a heart attack at the Cameron Courthouse.

The storm ripped through the Murphy and Deville trailer park, the Kelley and Kornegay subdivisions and left a trail of destruction more than a mile long running east from the Cameron elementary school along the highway.

An estimated 28 trailers were destroyed and some 50 homes were damaged. Many of the trailers were smashed flat and one was flung into the Charles Murphy home so hard that it hung suspended off the ground, caught in the end of the house. (A photo shows this).

At least one business place was completely destroyed - the Cameron Service Garage was leveled to the ground. Owner Ray Champagne said that he would be able to salvage much of his equipment though.

Some 17 persons were taken to Lake Charles and Sulphur hospitals for treatment of injuries. Numerous ambulances, Red Cross, Civil Defense and police personnel poured into the area from Calcasieu Parish to aid with the rescue work.

— NURSING ASSISTANT NEEDED —

Position will perform routine paraprofessional nursing work in the care of patients/clients in clinic setting.

FISHING REPORT

The last day of the Big Burns and Old Amoco Field on Miami Corporatin ws a hard day, hot, low water and plenty of water lilies, however, a hard rain about 4 p.m. sure made a turn around.

There were a few bass that hit early that morning, but by 8 a.m. the sun ws in full force and the bass shut off. The Lemesche Bass Club held their final tournament that day, and stringers were skimpy. It was a family tournament and weigh-in and a fish fry were held at the Grand Chenier Park.

After the rain, some of the anglers took to the Big Burn and by sundown, most had their limits of nice bass. Weather can surely make a change.

LEMESCHE BASS CLUB RESULTS

Largest Bass: 1. Ricky Canik; 2. Scottie Trosclair; 3. Earl Booth Jr.; 4. tie - Amanda Bertrand, Todd Conner; 5. Loston McEvers; 6. Tom Hess; 7. Jerry Canik; 8. Cody Little; 9. tie - Rica Canik, Scott Canik, Michelle Trosclair.

Largest Stringer: 1. Ricky Canik; 2. Todd Conner, 3 Earl Booth, Jr.; 4. Scootie Trosclair; 5. Tom Hess; 6. Amanda Bertrand; 7. Jerry Canik; 8. Loston McEvers; 9. Scott Canik; 10. Michelle Trosclair; 11. Rica Canik; 12. Cody Little.

Largest Team Stringer: 1. Ricky and Rica Canik, 2. Tom Hess and Earl Booth Jr.; 3. Scootie Trosclair and Amanda Bertrand; 4. Jerry and Scott Canik; 5. Todd Conner and Michelle Trosclair; 6. Loston McEvers and Cody Little.

CHICOT LAKE

It seems the water level on Chicot Lake has taken care of itself and will not be drawn down any further and will not close for fishing in September.

About 30 to 35 anglers and family members from Creole made a trip last week to Chicot Lake and did rather well.

Kirk, Chris, Poo Landry and their families, Frederick, Randy Boudoin and their families and the Rusty Benson family caught 16 bass they could keep. There is a slot limit of 14 to 17 inches which has to be released. Kirk Landry had one bass 6 lbs. and they had 4 bass over 20 inches long.

HUNTING SEASONS

It seems like we have 5 ducks and 50 days for our duck hunting season. Nov. 11-Dec. 3 and Dec. 16-Jan. 11.

Teal season will be Sept. 16-24, 4 teals daily.

Deer season in our area will be Oct. 21-Dec. 1, still hunt only. Dec. 2-8, still hunt, muzzleloader only. Dec. 16-Jan. 4, still hunt only.

The booklet should be coming in soon for state hunting regulations.

ALLIGATOR HUNT

The hunters are in the marsh and most are not skinning this year. They're selling the gators whole. Some already have promised prices up to $48 per foot.

Some of the local buyers are B. B. Doxey and Benny Welch. Prairie Cajun Wholesale Distributors of Eunice, will alsohave a truck at Larry's Seafood in Grand Chenier buying gators.

I'll have some on dove hunting next week. I know it'll sure be hot and really we don't see many doves down here.

Remember to get your hunting licenses and duck stamps if you're going to hunt dove and teal.

Area people to be on TV show

By GENEVA GRIFFITH

Four people from Hackberry are flying out of Lake Charles Friday to be guests of ABC Television in Los Angeles.

Kaye Desermeaux and her children, Christi Wolfe, Rickey Wolfe and Jared Desermeaux, will participate in the taping of "America's Funniest Home Videos" to air on ABC Sept. 24, at 6:30 p.m.

Mrs. Desermeaux sent in a tape several months ago and was notified this week that her tape will be featured on that date. The tape was about an accident she had while filming her boys playing football. The football accidentally hit her and her camera, knocking her down while it was still rolling.

Library tells memorial books

New memorial books in the Cameron Parish Library are listed as follows, with names of the ones in memory and donors, respectively:

Harlem Renaissance: Art of Black America, Carroll Cockrell by Lee and Wanita Harrison.

Funds for arts sent to parish

In its second year, the Louisiana Decentralized Arts Funding Program enables each parish to receive 50 cents per capita to develop arts programs to meet local needs. The Arts & Humanities Council of Southwest Louisiana is responsible for coordinating the distribution of these funds in Cameron, Allen, Jeff Davis, Beauregard, and Calcasieu parishes. Applicants will only compete against other organizations and individuals within their parish.

In Cameron Parish, $4,170 will be distributed for projects. Last year, the following awards were granted:

South Cameron High School "Shakespeare Alive".

Cameron Community Action "Head Start".

Cameron Parish Library & Hackberry Ramblers "Hackberry Ramblers Recording Project".

Cameron Parish Library "Summer Reading Program Performers".

Grant applications are available for this year's program and all completed applications are due Sept. 15. The Louisiana Decentralized Funding Program is supported by a grant from the Louisiana Division of the Arts and the Louisiana State Arts Council. To receive an application or set up an appointment to discuss a project, call Ashley Scott at 318-433-ARTS.

★★★ ELECT ★★★
CYNTHIA "C. ANNE" PRIMEAUX KING
CLERK OF COURT
I am very proud of my Cameron Parish Cajun Heritage. I was born and raised in Creole where I have lived all of my life. I am the daughter of Roland and Lydia Primeaux. Growing up and being raised in this parish has made me aware that the oilfield industry, sport fishing, hunting, beautiful marshes, waterways and beaches attract business and tourists to our parish. But most important, these industries and attractions affect the livelihood of each of us. Working as your Clerk of Court to restore and update vital records is a priority that is done daily in the Clerk's Office. The Clerk of Court's Office is a source of information for landmen, new residents, businesses, tourists, sports interests and the general public.
PLEASE VOTE FOR ME, I AM WORKING FOR YOU. May God Bless each of you.
Sincerely,
C'Anne

TAI[illegible] FUND

S[illegible]ol board's b[illegible]et is short

By GENEVA GRIFFITH

The Cameron Parish School Board last week approved a $13,780,000 budget for the 1995-96 fiscal year, and the transfer of $500,000 from the 16th section trust money ot the general fund which is needed to pay the bills for the rest of this year.

Supt. Thomas McCall said, "This is how much we will need until the tax money starts coming in."

Due to declining revenues, the board was forced to borrow $750,000 from the fund, as well as making up shortfalls in the three previous years from the general fund.

Tony Johnson, who served as chairman of the finance committee resigned from the committee at last month's meeting when his proposed budget reduction plan failed.

Board members Glenda Abshire, Karen Nunez and Daniel Billiot voted against the cuts, contending that a tax should be voted on before the cuts are made.

Nunez's motion to propose a property tax failed at that meeting and wasn't brought up at this month's meeting.

Board President Bill Morris, Clifton Hebert and Tony Johnson, board members, contend that significant cuts should be made before taxes are called for.

Johnson read a letter to the board stating that the only cuts that have been made in the last four years have only hurt the students of the parish, and the only thought has been on preserving jobs.

He said that $480,851 has been cut from the budget since 1991 including: reduced funds for text books, teacher and student supplies, elimination of the South Cameron High Band, elimination of two elementary positions, rescinding approval to pay the students $50 fee for driver education, elimination of first and second grade test programs, reduced media center hours, elimination of summer school, stopping summer construction, and teacher attrition.

Johnson said, "I'm not going to vote for any more cuts that hurt our children". (There are at present 2,075 student enrolled in Cameron Parish schools).

He and Morris advocate reorganizing and trimming the central office staff as part of the reduction.

SUPERINTENDENT APPLICATIONS

The board received applications for Superintendent and set the date of Sept. 20; as the date of the interviews.

There are three applicants for the job - Judith Jones, Grand Chenier, Curriculum Supervisor; and Roger Richard, Hackberry, Assistant Superintendent, both for the Cameron School System, and Glenn D. Duhon, head basketball coach at Georgia Southern College and a former McNeese State University coach.

McCall said that a Louisiana teaching certificate was not included with Duhon's resume and that he would check to see if he has one before he is called for an interview.

BIDS APPROVED

A 16th section bid was approved for $725 from Jerome and Tracy Carter on 16-15-07 (Rutherford-Hackberry Beach area).

A protest was lodged with the board over the awarding of a bid at last month's meeting on surface rights on Section 6-12-12.

Mitch Redd, attorney representing Gama and Chico companies who lost out to Alfred Palmer, Inc., in the bidding, contended that the winners should pay his clients the value of the improvements they have put on the land for the past few years they have been the successful bidders. Redd said he had two appraisals on the improvements which were between $40,000-$50,000.

Bill Morris held up a copy of the lease agreement and told the attorney that there was no where in the lease that said improvements could be put on the land without the approval of the School Board, and that, in fact, the Board could sue them for doing it without the knowledge or approval of the board.

Attorney Carl Hanchey representing Alfred Palmer Inc., the winner of the lease, stated that they were not interested at all in the improvements and that Redd's clients could remove them.

(At a special meeting Monday, the Board followed District Attorney Glenn Alexander's advice to let Palma retain the bid. The board also voted to give Chicot Corp. 30 days to remove the improvements from the property.)

BUS BID

The board approved a bid of $45,912 on a special education bus by Attebury International, presented by Ron Vining, and also approved the increase in mileage charge for activity buses to 45 cents per mile. There was one no vote by Tony Johnson.

The board offered a resolution congratulating Delaine Theriot for her selection to the All American Cheering Team. She is a cheer leader at South Cameron High School.

The board received a resignation from Kevin Driscoll, a teacher at South Cameron High School; granted a sabbatical leave for medical reasons for the fall semester to Betty Hicks, teacher at Johnson Bayou High Scool, and approved the employment of the following teachers: Tina Savoie and Kathy Rowland, Johnson Bayou High School; and Tara Demarie at Hackberry High School.

They appointed Jackie Holmes as assistant principal at Grand Lake High School, and Sheila Abbott, lunchroom worker at Cameron Elementary and Mary Monceaux, at Grand Lake High School.

Candidates file for Oct. 21st election

Cameron Parish Coronor Dr. Richard Sanders, Tax Assessor R. E. Bobby Conner and two police jurors were re-elected without opposition when qualifying for the Oct. 21, primary election closed at 5 p.m. last Thursday.

Police jurors re-elected were George Hicks in District 2 and Allen Brent Nunez in District 3.

Also elected without opposition was Catherine L. Miller as Ward 2 Justice of the Peace. This special election was to replace Clyde Theriot who resigned because of illness.

Here is a complete list of the local offices and candidates on the Oct. 21 ballot:

•Sheriff — Jerry W. Nunez and incumbent James "Sono" Savoie.

•Clerk of Court — Cynthia "C. Anne" Primeaux King, Carl Broussard and Greg Wicke.

•Police Jury District 1 — incumbent Russell Badon and Charles A. "Dusty" Sandifer.

•Police Jury District 4 — incumbent Douaine Conner, Dennis Mhire and Martin "Martini" Trahan.

•Police Jury District 5 — incumbent Ray Conner, Richard "Rickey" Miller Sr., Malcolm Savoie and Suzanne Sturlese.

•Police Jury District 6 - John LeBlanc, incumbent George LeBouef, Arceneaux "Bubba" January Jr. and Donald "Big Newt" January Sr.

Democratic Parish Executive Committee--Garner Nunez, Lee J. Harrison, Roland U. Primeaux, all at large; E. J. Dronet, District 6. No candidates qualified for the Democratic State Central Committee. (These elections will be at the statewide general election on Nov. 18.)

Beach cleanup Sat.

Cameron Parish will hold its ninth annual beach cleanup this Saturday, Sept. 16 in conjunction with BeachSweep 1995 being observed throughout the state, according to Ed Kelly, local coordinator.

Cameron's beach cleanup is the largest in the state since the parish has longest stretches of accessible beaches--36 miles--in the state. Eight separate parish beaches will be cleaned between 10 a.m. and 2 p.m.

All parish citizens and organizations are invited to join in the beach cleanup at any of the beaches. All they need to do is show up. Trash bags, provided by Mobil Oil Co., will be provided.

Hotdogs and cold drinks will be served volunteers at Rutherford Beach, the Holly Beach fire station and the Johnson Bayou multi-purpose building.

Beach captains are as follows:

Martin Beach--a Mobil Oil representative.

Longview-Dunn Beach--unassigned.

Little Florida-Ocean View--Paul Hannen.

Gulf Breeze--Thomas Cormier.

Constance Beach--Rodney Guilbeaux.

Peveto Beach--Mineral Mining representative.

Holly Beach--Gerald Touchet and Cliff Cabell.

Rutherford Beach--Dean Roome.

Kelley stressed the importance of data sheets being filled out for each beach showing the amount and variety of debris collected.

Waste Management is providing dumpsters for the cleanup and the Cameron Parish police jury crews will be hauling off debris.

An inland waterway cleanup also will be conducted Saturday and John John is the coordinator for the Rockefeller Refuge in Cameron Parish. He can be contacted at 783-3394.

Man nearly drowns Fri.

A Lake Charles man nearly drowned Friday afternoon while apparently out crabbing along Rutherford Beach in Cameron Parish.

A Lafayette couple walking on the beach found Bob Bailey, 72, floating in the water and pulled him out.

The couple called an ambulance and the Cameron Parish Sheriff's Office.

Cardiopulmonary resuscitation (CPR) was performed on Bailey at the beach.

He was taken to South Cameron Memorial Hospital and later transfered to a Lake Charles hospital.

Port board to help dredging project

The Lake Charles Harbor and Terminal District has agreed to provide up to $50,000 for maintenance dredging in the Dugas Landing area. The Port took this action in response to requests from Rep. Randy Roach.

This dredging will be done in conjunction with the construction of the rock levee by the U. S. Army Corps of Engineers. The Corps will be doing some dredge work on the bay side of the containment levee and this money will be used to dredge existing channels to improve navigation in the Dugas Landing area.

The Cameron Parish Police Jury and the Port of Lake Charles will determine the exact nature of the dredge work to be done and will be contacting the contractor in the next few days to finalize plans for this dredge work.

Rep. Roach stated: "I want to express my appreciation to the Port of Lake Charles for providing the money to do this dredging. Siltation in the Dugas Landing area has caused problems for area residents for several years. These navigational problems are always worse in the winter when the cold fronts begin to move through our area. Hopefully, this dredge work will be completed in time to allow boats to move in and out of the area this winter."

Firm donates funds for scholarships

By GENEVA GRIFFITH

The Cameron Parish School Board accepted a $25,000 gift from Vastar Resources, Inc. at their monthly meeting last week to be used for $1,000 scholarships for qualified seniors of Cameron Parish high schools.

These include Grand Lake, Hackberry, Johnson Bayou and South Cameron High Schools, and will be awarded to students in the science related fields.

A Cameron Parish scholarship committee will award the scholarships and winners will be judged on scholastic ability, financial need and leadership throughout their high school careers, and the students' plans to major in a science-related field.

The fund was made possible when Vastar Resources employees received the ARCO Environmental Achievement Award on their Black Bayou Project.

Senior Drilling Supervisor George LeJeune, Drilling Supervisor Bruce McDole and Drilling Engineer Chip Rimer, Landman Dora Soria, and Senior Production Engineer Jeff Vass used the award money to establish the scholarships.

The Black Bayou proejct has also been nominated by the U.S. Fish and Wildlife Service for the Minerals Management Service CARE (Conservation Award for Respecting the Environment) award.

In early 1993, Vastar made a decision to pursue an exploration project located in the heart of Sabine National Refuge - Black Bayou. The refuge is the largest fresh water coastal refuge in the country and is a major wintering area for migratory waterfowl, as well as a permanent home for up to 250 different species of birds, alligators, marsh animals andestuarine-dependent marine species. Covering 125,000 acres, the area was initially established in 1937.

Over the years hurricanes, extended periods of drought and tidal exchange eroded the refuge.

DU banquet is Saturday

The annual Cameron Parish Ducks Unlimited banquet has been set for Sept. 16, at the Creole Fire Station, according to Chris Simon, local chairman.

The social hour begins at 6:30 followed by the ribeye steak dinner and the auction.

Simon said there will be two door prizes - a shotgun for an adult and a rifle for a Greenwing member.

There will be many auction items.

THIS CITGO emergency communication trailer was placed on loan to the Grand Lake community while the Grand Lake pontoon bridge was out of service for repairs. The trailer was located on the west side of the Intracoastal Canal and was manned by deputies of the Cameron Parish sheriff's department. The sheriff also had a boat at the site to be used in case of an emergency.

THE CAMERON PARISH School Board was presented a $25,000 check last week from Vastar Resources, Inc. with which to award scholarships at all four parish high schools. Shown above presenting the check to Board President Bill Morris (second from left) are Dora Sorio, Bruce McDole and Chip Rimer of Vastar. The scholarships will go to students majoring in the science fields. (Photo by Geneve Griffith)

Tarpons to host Pickering Fri.

By JOE MUELLER

The South Cameron Tarpons will be at home this week as they play their third straight opponent from District 5AA.

The Lions have already played DeQuincy and Vinton from 5AA and this week it is the Pickering Red Devils who will trek to Tarpon Stadium for the 7 p.m. kickoff this Friday.

The Red Devils bring a 2-0 record into the contest having scored a 25-18 win over Welsh in their opening game and last week they beat Many 42-6.

The Pickering team features a strong running attack and have one of the area's top running backs in senior Robert Williams. Williams collected 95 yards in the opening game and he rushed for 113 yards last week.

You can't just concentrate on Williams as the Red Devils Sam Blocker has also over 200 rushing yards in the young 1995 season.

The Red Devils have shown some defensive performances also as they have given up less than 250 yards in both their games.

The Tarpons have shown steady improvement and looked better last week than they did in their opening loss to DeQuincy.

The Tarpons were victimized by three touchdown passes last week and this doesn't seem to be the Red Devils long suit.

On offense the Tarpons had a pair of rushers. Quarterback John Pardia and Brandon Conner both rushed for over 50 yards.

The Tarpons also have a good lace kicker in Shawn Duffey as he has hit a field goal in each of the Tarpons first two games.

The Red Devils and Tarpons have had a very competitive series since Pickering started playing footbal in the 80's.

Last year's game saw the Red Devils win 24-9. They scored on three runs, two of the touchdowns were scored by Robert Williams.

The two teams are 3-3 in their series going into the Friday night game.

The game should be hard fought and the Tarpons can let it all hang out as they have an open date on the next Friday night.

Tarpons lose 2nd game of season

By JOE MUELLER

The South Cameron Tarpons were no more successful on the road than they had been at home as they lost their second game of the 1995 season 27-9 to the fifth ranked Vinton Lions.

The Lions scored three times through the air and also got a touchdown on a run from Anthony Janice.

The teams played a scoreless first quarter but the Lions first touchdown came early in the second quarter on a 34-yard pass from quaterback Joey Baus to Brad Vice.

The Tarpons scored 3 points in the second quarter on a 20 yard field goal by Shawn Duffey.

With the score 7-3 Vinton's way at half time, the Lions put the game out of reach with 13 points in the third quarter, one of the touchdowns was Janice's 14 yard run and the other was a 56 yard pass lay from Baus to Jaworski Gauthier.

The Lions raised the lead to 27-3 in the final quarter as Baus hit Todd McCardle on a 23 yard pass play.

The Tarpons final score of the night came on a 1-yard run by Brandon Conner.

The Tarpons had 194 yards of offense this week, 142 on the ground and 52 in the air. Freshman quarterback John Pradia was the top rusher with 57 yards and Brandon Conner had 56 yards.

Pradia hit three passes, one to Broussard and two to Shawn Duffey.

The Tarpon defense had three fumble recoveries on the night.

South Cameron will be at home this Friday entertaining Pickering.

Golf tourney results

Results of the fifth annual Cameron Parish Golf Tournament held at Pine Shadows on Aug. 26, sponsored by the Grand Lake Scholarship Committee, were as follows:

Low gross score individual - Mike Colosky 77.

Low gross Cameron Parish resident - Mark Venable 78.

First flight team scored: Low gross - Mark Venable and Todd Montie 75/60; second gross - Mike Colosky and Mike Savoie 76/67; low net - Kenneth Duhon and Alfred Duhon 77/63; second net - Theos Duhon and Sally Duhon.

Second flight team scores: low gross - H. Ward Fontenot and Mathiew Fontenot 81/51; second gross - John Stewart and Willie Goldman 82/65; low net - Jordell and G. Gremilion 82/61; second net - Dirk Desonier and Dwayne Williams 93/61.

Scholarships

Cont. from Pg. 1

Left unchecked, the enviornment eventually would have declined to the point where it no logner supported the varied wildlife critical to the Refuge ecosystem.

Working together, Vastar and the U.S. Fish and Wildlife Service (U*SFWS) were able to develop a plan that allowed for the drilling while minimizing environmental impacts.

In fact, the plan went one step further and as compensatory mitigation for unavoidable wetlands impact, critical marsh habitat was restored.

The Houston, Texas company finds, develops and markets natural gas and liquid hydrocarbons.

By the fall of 1994, over 22 miles of canals were dredged on the refuge, increasing the circulation and allowing better management of the water levels in the Refuge. The spoil material removed from the channels was used to construct nesting and resting islands for refuge wildlife.

The Vastar Resources team working on the project decided that since the Refuge is located in Cameron Parish they would like to donate their entire $25,000 award to help high school seniors in their higher education, according to Mrs. Rosalie Perry, one of the local coordinators at South Cameron High School.

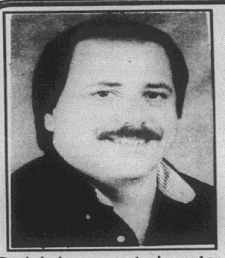
Mustang group plans 8th annual reunion

By GENEVA GRIFFITH

Hackberry High School's Mustangs of the 40's and 50's are holding their eighth annual reunion Sat., Oct. 21, at the Hackberry Community Center.

The World War II Veterans, and also the 1945 seniors on their 40th anniversary.

Registration and socializing will start at 3 p.m; picture taking, 4 p.m; the meal, 6:30 p.m. and dance at 9 p.m. The cost per person is $16.



This includes students of the 1930's, 1940's, 1950's and 1960's. They do not have to be a graduate of Hackberry High School, just attended.

WW II veterans are asked to bring keepsake items from the war to display during the afternoon (labeling them so they can be returned).

Speaker for the banquet will be former Senator and Prisoner of War Jessie Knowles of Lake Charles.

W. L. Tidwell of Houston, Tex., will recognize the veterans.

For more information contact Jack Moore, 762-4656; Lee Vincent, 625-8433; or Burnell Vincent, 762-4748; or write to Mustangs 40's and 50's, P.O. Box 441, Hackberry, La. 70645 in care of the World War II committee.

THANK YOU. . .

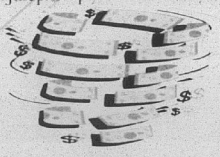
Thanks to the people of Cameron for their tremendous show of support at our rally Saturday night in Cameron. I welcome your questions and comments, and I can promise you that they will not be forgotten.

These rallies are primarily to let you know me better and for you to let me know your concerns about your sheriff's office and your parish.

The growth of our parish depends on your sheriff working with all the public bodies and all the organizations of the parish. This is the only way to bring new industry to Cameron Parish and to keep the industry we now have. Cameron Parish is a great place to visit. It could very well be the number one tourist attraction in our state. Your sheriff's office, with all the manpower available could be a big asset in promoting tourism. I will strive to accomplish this.

I will have a 24 hour drug task force, with our main concern on the people who bring drugs into this parish and those who push these drugs to our young people. There is no room for these people in Cameron Parish. I will also crack down on all the other crimes in this parish. I will do all in my power to make Cameron Parish a safer place to live.

Jerry Nunez



OUR NEXT RALLY WILL BE IN GRAND CHENIER AT THE AMERICAN LEGION HALL ON SAT., SEPT. 30 - 7:00 P.M.

91ST BIRTHDAY

Mrs. Rosa Mhire celebrated her 91st birthday Monday, Sept. 11.

Mrs. Norma Jo Pinch, who underwent surgery in a Houston hospital recently, came home last week and is doing well.

VISITORS

Mr. and Mrs. Pierre Granger of Sweet Lake visited Mrs. Earl and family.

Spending the weekend with the Booth family were Mr. and Mrs. L. J. Adams and Hannah and the Gilbert Nicklson family of New Orleans.

Visiting Mrs. Earl Booth during the weekend were Corrine Granger of Lake Charles, Gay Gornez of New Orleans and Mr. and Mrs. Elton Bonsall of Creole.

Mr. and Mrs. Earl Booth Jr. attended a craft show in Canton, Tex., this weekend and also attended the wedding of Mrs. Booth's niece in Shreveport.

Shirley Bonsall visited her daughter, Xann LaBove during the weekend.

Harold Domingue was taken to St. Patrick's hospital Sunday night.

OPEN HOUSE

Grand Chenier Elementary School held open house Tuesday evening, Sept. 5. Parents met with individual teachers in their classrooms. 4-H club members furnished refreshments.

Youth will pick up trash

The Youth Department of First Baptist Church, Cameron, will pick up trash at Broussard Beach in Cameron Sat., Sept. 16, for the annual Beach Sweep.

Broussard Beach is not a part of the advertised clean-up, but has a lot of trash, due in part to illegal dumping. Anyone who is not already committed to another beach is invited to assist. Trash bags and trucks will be needed. Volunteers should meet at Broussard Beach at 9 a.m.

An elephant needs water and mud for cooling because its skin has no sweat glands.

SHERRY CARPENTER and Richard Bertrand will be married Sept. 16, at 2 p.m. in the VFW Hall Post #10019 in Cameron. Parents of the couple are Mr. and Mrs. Doug Freeze of Cameron and Mr. and Mrs. Charles W. Bertrand of Creole. A reception will follow the ceremony in the Post Home. Through this means, friends and relatives are invited to attend.

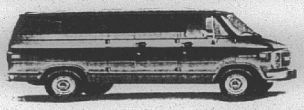
Deadline set on grants

The deadline for grant applications for the Louisiana Decentralized Arts Funding Program is Fri., Sept. 15. In its second year, the program offers non-profit organizations an opportunity to develop arts activities to meet their local needs. Approximately $1.9 million in funding is available across the state to support arts projects and arts organizations.

In the Imperial Calcasieu Region, the Arts & Humanities Council of Southwest Louisiana is responsible for coordinating the distribution of $116,760 in Calcasieu, Cameron, Allen, Jeff Davis, and Beauregard parishes. The funds are distributed to every parish in the state on a per capita basis -- roughly 50 cents per person. Grant applicants will compete only against other applicants from their parish.



The Louisiana Decentralized Arts Funding Program is supported by a grant from the Louisiana Division of the Arts and the Louisiana State Arts Council. For more information, call Ashley Scott at the Arts & Humanities Council of Southwest Louisiana at 318-439-2787.

Gator hunt in progress

AN ALLIGATOR is shown being loaded into a boat during a hunt held in a previous year. The 30 day 1995 hunt will run through Oct. 1.

ALLIGATOR HUNT

There's lots of activity going on in our parish this past two weeks. Alligator hunters are busy trying to tag out their quota and some are through, while others are having a rather hard time.

Sabine Refuge hunters are doing well and the Lacassine Refuge hunters, hunting in the marsh area of the impoundment, did real good, while the areas outside of the impoundment had less luck. Cameron Meadows is fair as well as Miami hunters.

Many of the large canals of Miami Corporation didn't do as well as expected this year.

Local property owners, with not many tags, have done well. I've had reports of 11 plus footers caught. I do think the north, northeast winds, with cooler mornings, have slowed the biting of the gators.

There's not many hunters who are skinning. They're selling whole gators and the buyers are selling the meat as well as the skins.

There will be millions of dollars generated throughout the state by thinning out the alligator and will also keep the population of the gator down.

We hope this year's season is as good as lst year's, which was the best in our Louisiana history with a little under 27,000 gators killed.

AREA FISHING

There are still a few anglers bass fishing, mostly on the four refuges - Lacasine, Sabine, Cameron Meadows and Rockefeller, and of course private ponds and marshes. It is slow, but if it cools off, bass fishing will pick up. Remember, Miami Corporation lands are closed.

Saltwater fishing has really been good throughout the inland channels, marshes and Calcasieu Lake as well as the Gulf of Mexico.

Good catches of redfish are reported as well as speckle trout. Surf fishing is still good along the Gulf Coast waters from Rutherford Beach to Constance Beach.

Many are doing well off shore, with nice catches of red snapper reported.

Fred Conner and Arnold Jones Jr. had a good Labor Day Weekend, catching red snappers, lange, Spanish mackeral and trigger fish.

GILL NET NEWS

It seems out commercial fishermen may have their day after all. It seems no scientific evidence was used in writing the gill net ban in our Louisiana waters.

The hearings in Baton Rouge are bringing everything out in the open, as should have been done in the first place.

As you read this the ban has not been enforced and the hearings could be complete.

A state biolgist stated that a gill net of legal mesh size, will not threaten our fisheries. He also stated there was no biological need for a gill net ban and that the fisheries were healthy.

I'm sure our commercial fishermen would abide by stricter rules if they had to. They only need to know what to do and continue making their living.

It is claimed that our state has 600,000 coastal recreational anglers, but fewer than 1000 netters, so I fugure it this way.

One thousand netters have a quota of 2 million pounds of speckle trout and no quota on redfish. Each netter divided equally has 2,000 pounds. If 600,000 recreational anglers only fish one day and get a 25 speckle trout limit, that's 15,000,000 pounds or better, because I know each fish will average one pound each. Now, take five redfish averaging 3 pounds each for one day times 600,000 and that equals 90,000,000 of redfish to none for the netter. Then there's drum, flounder and sheephead.

I think we need to look at this real hard and try to get together here everyone gives a little and be happy.

Again the latest - Louisiana's new law banning the use of gill nets is constitutional, a state district judge ruled. Now, whether this law can be enforced or not is still not clear.

There will be an appeal by the commercial fishermen's lawyers and the judge asked to break the ruling until the appeal is heard and it was granted. Whether or not the law will be enforced now or after the appeal is still in question.

OUT OF PARISH

Quite a number of anglers fished toledo Bend Labor Day weekend and did very well. Bass wer schooling and white perch were biting.

Terry, Debbie and Kayla Rutherford along with Rudy, Becky and Little Rudy, had a great three day trip and did very well fishing.

They had lots of 12 to 13 inch bass (14 length limit) and fish up to 18 inches long.

HUNTING

There are a few doves being taken, mostly around shell roads, but nothing to brag about. It's just to hot. The second season in October (Oct. 21-Nov. 20) is always a better season.

Hunting for teal is a big question. There's lots of water lillies, which hunters are poisoning, stopped up trails and waiting for teals to come down. I got reports from our alligator hunters that they're seeing a few flocks of teal, even a couple of large flocks of pintail in the Willow Lake area.

Spaghetti dinner

Cameron Lions Club is sponsoring a spaghetti dinner Wed., Sept. 20,11 a.m.-1 p.m. at the Methodist Church. Cost is $4 per plate. Deliveries will be made for large orders. You may contact Lions Club members to place orders.

Trapping dates set

Louisiana's trappers will have from Nov. 20, 1995 to March 20, 1996, to harvest furbearers statewide. The dates were set by the Wildlife and Fisheries Commission at its Sept. 7, meeting.

The dates represent an extension over last year's trapping season which ran Dec. 1 through March 15. At a meeting of the Fur and Alligator Advisory Council, which represents industry dealers, buyers, and trappers, no objection was made to extending the 1995-96 season.

Johnnie Tarver, Administrator of the Department of Wildlife and Fisheries Fur and Refuge Division, stated that the trapping season traditionally was divided into two separate zones with a Nov. 20, opening in the northern part of the state and a Dec. 1, opening in the southern part of the state. Season dates were made uniform last year. "In the past, we've had requests for extensions of the season," he said. "We will not be considering an extension this year. The trapping industry has declared itself satisfied with the established dates."

The season refers to all Louisiana furbearing species: nutria, muskrat, raccoon, mink, opossum, otter, skunk, red fox, gray fox, bobcat, beaver, and coyote.

Trappers should note that federal restrictions require placement of export tags on bobcat and otter prior to out-of-state shipment.

Oyster season reset

The 1995-96 oyster season for the Calcasieu Lake and Sabine Lake tonging areas has been reset to run Oct. 16, 1995, to March 1, 1996. The Wildlife and Fisheries commission changed the opening date from Nov. 1 to Oct. 16, after hearing evidence from Wildlife and Fisheries biologists. They stated that surveys in the region show a healthy resource able to support the extra days of harvest.

The season will run one-half hour before sunrise onOct. 16, 1995, to one-half hour after sunset on March 1, 1996.

The secretary of LDWF was granted the authority to close areas if oyster mortalities are occurring, or to delay the season or close areas where significant spat catch has occurred with good probability of survival.

Clinic sets open house

An open house will be held at the South Cameron Rural Health Clinic in Cameron on Thursday, Dept. 21 from noon to 4 p.m. The clinic is located in Dr. Clark's former clinic.

Free screening for anemia and blood pressure will be offered as well as health care information.

The Louisiana Blood Center will conduct a blood drive at the same time for persons who wish to donate.

Refreshments will be served.

Fishing act is in effect

The Marine Resources Conservation Act (Act 1316 of the 1995 legislative session) is in effect and will be implemented immediately. Department of Wildlife and Fisheries personnel announced that all injunctions have been lifted and no further impediments exist to the bill's implementation.

All commercial licenses created by the act are now available at the Department's headquarters building at 2000 Quail Drive in Baton Rouge.

Regulations passed by the Wildlife and Fisheries Commission at its August 1995 meeting regarding licensing, seasons, and harvest rules for certain finfish species are now in effect.

Nineteenth Judicial District Court Judge Janice Clark refued on Sept. 6, 1995, to issue a preliminary injunction to further enjoin implementation.

Shell Western E & P Sec 5, T12S, R12W reconstruction and stabilization of 2427' of bankline.

Neuvo Energy Co. Sabine Wildlife Refuge Marsh restoration and preservation project and vegetative replacement project (Unit 3 and Unit 1A).

Rules and regulations on mitigation from DNR were reviewed and discussed.

The Board reviewed a marine accident involving Wm. Lloyd Badon where he cut the back of his right hand requiring stitches. Workman's compensation will cover charges.

Lloyd Badon reported that the Inter-Agency Agreement between GDD #7 and GDD #3 and GDD #4 is complete. The Marsh Machine is back in Johnson Bayou and will have repairs (center bearing and hydraulic hoses).

Lloyd Badon gave time sheets and charges for billing purposes to GDD #3 and GDD #4 to Executive Secretary Guilbeaux. Billing will go out this week.

President McGee reported that he attended the Sabine Wildlife Refuge public meeting concerning Revised Structures in Hackberry on August 23rd, along with Carroll Trahan, Lloyd Badon and Rodney Guilbeaux. Board Engineer George Bailey also attended. State, Federal and Parish agencies spoke and answered questions relating to the proposed structures and other operations.

Will Nidecker of SWLF spoke on the above mentioned structures, saying that CWPPRA projects were to be reviewed this Wednesday in Baton Rouge, and hopefully the revised structures at the SWLF would be included in the funding process. If not, other sources would have to be approached or the project would have to be cancelled.

Scott Theriot of FINA commented on FINA's East Mud Lake Project CS 20. Structures are being fabricated and construction will begin in Oct. or Nov. He and Lloyd Badon are to repair the missing boards at the flumes at Mud Bayou Structures.

Lloyd Badon and Rodney Guilbeaux reported on the Constance Beach ditch cleanout by the Parish Crew. The Grade all cleaned out ditches alongside Roads 516, 517, 519, 520 and 521.

Lloyd Badon reported that the Utley Trahan and Allen Trahan drainage requests have been completed.

Executive Secretary Rodney Guilbeaux passed out the financial statement for August, 1995. It was reviewed and accepted by the Board. The 1995 budget was reviewed and discussed.

Kenneth Trahan and George Bailey reported on the office and maintenance buildings. The state fire marshall will inspect both buildings next week. Only one or two items are needed to be in compliance.

Leroy Trahan, George Bailey and Rodney Guilbeaux reported on the Shallow Prong Project and the needed right of way grants. Progress is slow and steady.

A request for drainage assistance in Holly Beach was discussed. A motion by Rogerest Romero, 2nd by Leroy Trahan, passed, that the Board purchase and install 150' of aluminum culvert starting on the south side of Road 509, proceeding south across Road 510 to a point between Road 510 and Road 511 (east of Road 506). The Executive Secretary was instructed to write the Cameron Parish Police Jury and request assistance by using Parish equipment for this project.

Rodney Guilbeaux reported on the Trans Texas Water Program meeting in Baton Rouge August 30, 1995. Lynn Barr of the Governor's Office for Coastal Restoration was the moderator. In attendance were representatives from the State Attorney General's Office, La. DOTD, Sabine River Authority of La. La Senate, DNR, the Coalition to Restore Coastal La., and Rodney Guilbeaux, GDD #7, Executive Secretary. This was a strategy planning session preparing for a larger meeting on Thurs., Sept. 14, at the DNR Building in Baton Rouge at 1 p.m. All State and Federal Agencies will be briefed on the TTWP at that time. It was agreed that a follow up meeting at which time all interested agencies and land owners will be encouraged to attend and voice opinions, ask questions, present petitions and make statements regarding the Plan.

Next regular meeting will be Fri. Oct 27, at 7 p.m. at 205 Middle Ridge Road, GDD #7 Board Office in Johnson Bayou, La.

There being no further business, motion to adjourn by Rogerest Romero, 2nd by Carroll Trahan, passed.

Nets have to be tagged

Commercial freshwater fishermen will need to tag gill nets and trammel nets for use in Louisiana. The ruling, which goes into effect immediately, was promulgated by the Louisiana Wildlife and Fisheries Commission in order to comply with Act 1316 (the Louisiana Marine Resources Conservation Act) of the 1995 Legislature.

The Commission's declaration requires each gill net or trammel net used to take freshwater commercial fish to be marked with waterproof tags attached to the corkline at each end of the net no more than three feet from the edge of the webbing.

Tags are to be supplied by the commercial fishermen and be completely waterproof. Each tag must have the fisherman's full and complete name (without initials) and commercial fisherman's license number (not the net license number) printed legibly in English.

The public may comment on the rule by writing Bennie J. Fontenot Jr., Administrator, Inland Fisheries Division, Department of Wildlife and Fisheries, P.O. box 98000, Baton Rouge, La. 70898-9000. Comments will be accepted until Nov. 10, 1995.

DENNIS MHIRE
Dist. 4 Police Jury Candidate
To the People of District 4, Cameron Parish,

I may not be a door to door politician, but if elected as your Police Juror I will perform my duties to the best of my God given ability. I believe if elected, my job starts then for everyone including Klondike and Lowery.

Grand Chenier has been the home of my family for many generations. Born son of Mr. and Mrs. Evans (T.T.) Mhire and grandson of Mr. and Mrs. Horace P Mhire. Horace having served as District 4 Police Juror for 32 consecutive years.

I strongly believe all men are created equal regardless of religion, race or wealth and if we all work together we can make this a better place to live for everyone. Please feel free to call me if you have any questions or suggestions, 318-538-2188. Sincerely,

Dennis Mhire

ATTENTION FISHERMEN, SHRIMPERS, DREDGE OPERATORS AND OTHER MARINE OPERATORS

As pipeline and marine vessel operators, we need to look out for each other to prevent mishaps. Mobil Oil Company would like to point out some common sense things that we both can do to operate safely in the Gulf of Mexico.

What Mobil Oil Company is doing:
- We are periodically checking the condition of our offshore pipelines to ensure burial and structural integrity.
- We report the location of our offshore pipelines to the Corp of Engineers and Mineral Management Service for accurate recording on marine charts.
- We work with the U.S. Coast Guard to ensure that our pipelines are shown on the National Oceanic and Atmospheric Administration's (NOAA) nautical charts.

What Marine Vessel Operators can do:
- Be aware that striking or snagging a pipeline can rupture the pipeline and endanger your vessel and crew.
- Avoid running aground - all pipelines may not be buried. Surf and Storms, among other things, can unearth pipelines.
- Check you charts for pipelines in your area of operation, especially before weighing anchor, lowering equipment, trawling, dredging, etc.

Open letter to citizens:

An open letter to the citizens of Cameron Parish:

We have not only reached a milestone along our road of education in this great community, we have reached a crossroad in Cameron education history.

Never before have we had an opportunity to seek and choose an educator as we now have. For the most part our six school board members are relatively new, all six have open minds and are little influenced by old political ties and "politics as usual", all six seem to have the benefit of the child in mind and not bound by nepotism and favoritism. All six seem to be oriented toward economy in the operation, without cuts in the wrong places, or taxes that offer the same benefit as welfare.

We, as a community, must join together to help our elected representatives in their duty of guiding this great ship of the future, this resource of minds, into the twenty-first century.

Our children must be prepared to function in the environment that faces them in the next millennium. They must be prepared with more than an introductory experience with that electronic marvel, the computer. They must be proficient in the use of those tools that will make their living in the time ahead. No longer can the welfare sysem absorb the derelicts that are oozing out of most of the institutions of learning. No longer can a young person rely upon mineral leases for his sustenance. No longer is farming an option for eking out a living, as it once was. No longer is trapping a viable trade.

The twenty-first century will require one to live by his mentality, by his intelligence, by his education and by his experience. Since mentality is a gift that one is born with, the development of the remaining three falls on the education system. Here is where one must choose a director wisely. A person with education, a person with ability, a person with drive, a person with dedication, a person with determination and a person with purpose. All of these attributes must be aimed at the advancement and development of the child.

Urge your elected official to set aside any prejudice he may have, urge him to investigate the applicants thoroughly, urge him to choose the person with the highest qualifications that will be the best suited for the child's mind and the person who is most capable to direct the preparation of that young student for a time when he will be in position to make his own way.

Beach Sweep successful

By GENEVA GRIFFITH

Ed Kelley, Cameron Parish Beach Sweep Chairman, reported that 1,425 people showed up Saturday to help clean up 22 miles of beaches in the parish.

Over 17 tons of trash was picked up along the eight beaches cleaned this year.

Participating in the event were Boy Scouts, 4-H clubs from all the local schools, Cub Scouts, as well as students from S. J. Welch of Lake Charles, DJHS Science School, Sulphur High School, DeRidder High School, and St. Aloysius Catholic School of Baton Rouge.

Companies taking part were: Mobil Oil Co., 320 people; Forrest Oil, 97; Conoco, 75; Mineral Mining Service of Baton Rouge, 12; Phillips Petroleum, 100.

Kelley said that the 1,858 bags of trash were picked up during the four hour period and the beaches were left clean of all debris.

One unusual thing found this year on West Rutherford Beach was a dead cow in the surf that the Grand Chenier 4-H Club was trying to figure out how to move so they could get credit for it on their account list.

Black Bayou Bridge to close Oct. 2

The Louisiana Department of Transportation and Development has contracted drydocking and repairs of the Black Bayou Pontoon Bridge in Calcasieu Parish with Fredeman Shipyard, Inc. This bridge islocated on Rte. La. 384 on the Intracoastal Canal.

La. DOTD will remove the Black Bayou Bridge from service at 4 a.m. Mon., Oct. 2. All traffic will be required to detour via the Grand Lake Bridge. Detour signing will be provided. These repairs are necessary due to poor structural condition of the Pontoon Bridge.

"Glo-Jellies" explained

By GENEVA GRIFFITH

Kevin Savoie, Cameron-Calcasieu Wildlife and Fisheries Agent, announced that the unusual phorphorous formations which are now in evidence on the Cameron beaches are a usual event for this time of year.

They are seen late at night in the form of blue lights on the surface of the water and in the waves crashing into the Cameron beaches, on top of the waves in the surf.

Savoie said the "Glo-Jellies", as it is commonly referred to, is living organisms and not a gas in the Gulf that always comes in the fall of the year.

The shrimpers say that the phenomena is cutting down on their night catches because the shrimp can see the lights and will not come to the nets.

The locals and those coming to the beach to witness the unusual sight are intrigued with the awesome display, like dancing lights on the waves as they crash into the beach.

Guidelines given on gill net purchases

Fishermen whose commercial fishing nets have been rendered illegal or useless due to the enactment of the Louisiana Marine Resources Conservation Act (Act 1316 of the Louisiana Legislature) may be eligible for the net buy-back program instituted under the act. The Secretary of the Deprtment of Wildlife and Fisheries determined criteria for applicants to be eligible for the buy-back.

Act 1316 states that until Jan. 1, 1996, the Department will purchase from qualified persons commercial fishing nets that have been rendered illegal or useless due to the implementation of Act 1316. The funding source provided by the act for the buy-back program is from the sale of a $3 stamp also created by Act 1316. The $3 stamp is required for all recreational saltwater fishermen. Since implementations of the stamp will be delayed due to circumstances beyond LDWF's control, the deadline for purchase of the nets was extended until June 30, 1996 in order to have funds available.

Eligibility requirements are as follows:

1. Applications must be submitted on or before Oct. 1, 1995. Applications are available from LDWF's Commercial License Section, 2000 Quail Dr., Baton Rouge, and 1600 Canal St., New Orleans.

2. Applicants must have purchased a saltwater gill net license in at least two of the three years 1995, 1994, or 1993. In addition, applicants must have a gear license issued in their name for at least one of the three years 1995, 1994, or 1993, for the specific type of net(s) being presented for purchase.

3. Applicants must have derived more than 50 percent of their earned income from the legal capture and sale of seafood species in at least two of the years 1995, 1994, or 1993. Proof of income must be provided through copies of federal income tax returns which have been certified by the Internal Revenue Service, including Schedule C of federal form 1040. If the IRS certified return does not verify 50 percent of earned income from legal capture and sale of seafood species, the Department will accept a certified, audited return prepared and signed by a certified public accountant verifying the source of income as required by Act 1316.

4. Applicants cannot have been convicted of any fishery-related Class 3 or higher violation.

5. Applicants must have been a boni fide Louisiana resident on June 30, 1995.

The application process will include a form verifying the above as well as providing information of size, type and number of nets. Only those nets that were legal for use in the saltwater areas of Louisiana on June 1, 1995, are eligible. Nets must be in usable condition.

Monetary reimbursement will be determined based on availability of funds derived from the issuance of the $3 stamp. A schedule of the maximum amount to be paid is liated below. The prices were determined by LDWF economists and based on 50 percent of the average standard 1995 catalog prices, not including sales tax, shipping, or options.

Gill net payment schedule

mesh depth	gill nets price per foot	seines price per foot	trammel nets price per foot
4-6 feet	$.25	$.76	$.38
6-8 feet	$.30	$.80	$.40

Tarpons lose third football game of year

By JOE MUELLER

The South Cameron Tarpons suffered their third straight setback last Friday as they lost 29-20 to the seventh ranked Pickering Red Devils at Tarpon Stadium.

The Tarpons have showed improvement each week. They have an open date this week as they wait to open district play on Oct. 5, against Welsh. The Tarpons will play St. Louis, a district foe in 1994 on the road Sept. 29.

The Tarpons and Red Devils played to a first quarter tie at 7, as the Red Devils scored first on a 12 yard run by Robert Williams. South Cameron tied the score on a 12 yard run by Gerald Savoie.

Pickering scored two second quarter touchdowns to lead 21-7 at halftime.

The second half saw the Tarpons outscore the Red Devils 13-7 to make the game interesting.

The Tarpons passing attack was effective as John Pradia hit on a 9 of 20 passes for 149 yards. The Tarpons picked up 92 yards rushing with Gerald Savoie, John Pradia, and Brandon Conner all doing a good job of toting the football.

The Tarpons had two fumbles which were both costly as they led to Pickering touchdowns.

Scotty Brown was the top receiver for the Tarpons with four catches for 77 yards. Jerome Jones captured two passes for 29 yards.

The Tarpons collected 12 first downs to the Red Devils 13.

Contestants

Queen contestants were recently elected at Hackberry High School for the Cal-Cam Fair. Cheri Gray and Summer Hicks were elected in the senior division and Mary Devall in the junior division.

The word "amnesty" comes from the Greek word *amnestia*, meaning "a forgetting."

G. L. Sr. 4-H Club introduces officers

By HEATHER TAYLOR, Reporter

The meeting of the Grand Lake Sr. 4-H Club was called to order by President Ginger Broussard on Sept. 14.

Laura Cox led the Pledge of Allegiance and Dolores Arceneaux led the 4-H Pledge.

Officers were introduced for the new year. They are: Ginger Broussard, president; Jessica LeBouef, Brooke Jouett, secretary; Jennifer Boudreaux, treasurer; Heather Taylor, reporter; and Mandy Broussard, CRD chairman.

Heather gave a reporter's report and Mandy gave a CRD report. She reported that Mary Beth Crochet, Heather Taylor and Mandy Broussard read at the Bookmobile for the summer reading program.

Club members participating in Short Course were recognized. They were: Jessica LeBouef, Christi Duhon, and Jennifer Duhon in Dairy Judging; Todd Thomas, Compact Tractor; Mandy Broussard, Clothing; and Heather Taylor, Rice Cookery Demonstration. Placing in the blue ribbon group were Mandy Broussard and Heather Taylor.

Heather Taylor was presented a medal and certificate for placing third in the State Crawfish Farming records.

Miss Sh ry gave a report on the flower bed project. She also discussed the Beach Sweep and Officers Training.

Mr. Mike played Ag In The Bag. Heather Taylor correctly guessed sugar as the La. Agriculture product.

Mr. Mike discussed the Clover newsletter and the calendar of events.

3 opponents are ranked

The South Cameron Tarpons have all three of their 1995 opponents ranked in the Top Ten in Class AA relesed by the Louisiana Sportswriters. The Trapons District 6AA opponent is Notre Dame, ranked second.

The Vinton Lions are fourth; the Pickering Red Devils are sixth and the DeQuincy Tigers are tenth in the latest poll.

1. Haynesville, 120; 2. Notre Dame, 107; 3. Riverside, 96; 4. Vinton, 85; 6. Pickering, 64; 7. Oak Grove, 58; 8. Christian Life, 57; 9. Grambling, 49; 10. DeQuincy.

4th Degree KC's to meet Thurs., Sept. 28

Msgr. Cramers Asembly, Fourth Degree Knights of Columbus, will dedicate its September meeting to Past Faithful Navigator Robert W. Kline.

The meeting will take place in the hall of St. Theodore Council 3622 in Moss Bluff Thurs., Sept. 28, 7:30 p.m., with Faithful Navigator Wylace Vincent of Kinder presiding.

For the past year, the assembly has dedicated each of its monthly meetings to a living Past Faithful Navigator as a method of showing appreciation for the former leader's services to the assembly.

Kline was the assembly's chief executive officer for the 1980-81 Columbian Year, and the assembly won the Master's Award under his leadership as the outstanding Fourth Degree assembly in the district.

Reports will also be received from the assembly's operating committees, and plans will be drafted for the assembly's observance of Columbus Day and Veterans Day during the fall.

Liaison officer Gerald Duhon and his committeemen will be in charge of local arrangements for the meeting.

Dear Local Merchant,
Number 2 Reason why you should increase your advertising. . .

2. Maybe you figure other retailers in your line are going to cut back their advertising, so it's safe for you, too. Right? Wrong! You're in competition for the consumer's dollar with every other retailer in town, no matter what he sells. People have only so many dollars to spend and if they don't spend them for what you sell, they'll spend them for something else.

Letter to the Editor

Dear Editor:

Children are gifts for God. He has sent them to us to teach them how to serve Him, above all things. My understanding is that we are to nurture children, teach them self-respect, respect for the family, as well as respect for all of the creations God has allowed this Earth to have.

All young people are filled with a certain spirit that is about to burst open at any time. I feel that the way it develops depends greatly on how they perceive others to view them. I have found that my respect for a young person usually merits returned respect.

It is so important that we, as adults, look hard for that special quality in a person that makes him or her unique, that quality that gives them confidence about himself or herself, and if and when the opportunity arises to compliment one of these young people in public, that we choose our words very carefully to compliment that goodness in them rather than elaborate on a misbehavior or negative attitude.

I feel that we just don't realize sometimes how much of what we say as an adult can make or break a teenager's spirit, especially if the adult is one the young person has seen as a role model or an adult they have admired or respected.

I try to look at each young person and see Jesus in each. Every one of them has good in them. Sure, they try to hide that good sometimes to shadow the insecurities that have formed, but that is where you and I, as adults, must use our wisdom and our personal experiences to teach and guide them to restore that security and confidence.

I love young people and I feel that they can sense that. I have learned with my own children, as well as with others, to take them where they are, let them know what the boundaries are, and also let them know that I love them unconditionally.

These young people want to make good choices and want to do the right thing, so it is our utmost responsibility to help them do that. Not because there is a law that says so, (however, many laws are here to protect us from ourselves), but because God has empowered us, as parents, teachers, relatives, and older children of His to do so.

Next time you come in contact with any young person, whether in a structured setting or a recreational activity, please remember there is good inside each and every young person, only to be covered with the attitudes and insecurities that they have learned from us and others, and ask God to show you how to find that goodness and how to bring that goodness out of him and her and leave that young person with a better sense of self.

/c/ Cele Devall,
Hackberry

Funds approved for review of programs

Senator Bennett Johnston announced Senate Appropriations Committee approval of the Fiscal Year 1996 Commerce, Justice, State and the Judiciary Appropriations Bill, which includes $1.65 million for programs that call for the review of controversial endangered species regulations which have severely affected the economic livelihood of Gulf Coast shrimpers and fishermen.

The Committee directed the National Marine Fisheries Service (NMFS) to imediately re-examine its conservation restrictions which require shrimpers to use turtle excluder devices (TEDs). A team of experts from both the shrimping industry and the conservation community would scientifically peer-review all of the information used for the sea turtle shrimp fishery emergency response plan (ERP) issued on March 14, 1995, to determine if the mandate issued on May 3, requiring shrimpers to use TEDs, ws justified.

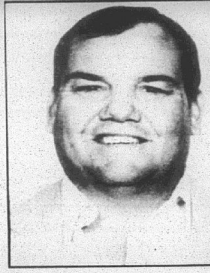
"In its efforts to protect the sea turtle, the NMFS has crippled the domestic shrimping industry with no real benefit to the endangered species," Johnston said. "This measure requires the NMFS to consult with experts from the shrimping industry before imposing unreasonable restrictions which have a devastating economic impact on local shrimpers."

Once recommendations have been made by the scientific experts, the NMFS is directed to work with the shrimp fishing industryto revise the emergency response plan and the trawling restrictions. The NMFS would also work with industry experts to find conservation alternatives to lessen the economic impact on the shrimp fishing industry.

The Committee also approved several Johnston measures for programs designed to benefit Gulf coast shrimpers and fishermen, includign $750,000 for the TEDs. The National Oceanic and Atmospheric Administration's (NOAA) Office of Protected Resources would fund the independent research and develoment by academic institutions and the shrimping industry to find other ways to reduce the incidental capture of sea turtles in shrimp trawls.

The Committee also approved $500,000 for the Office of Protected Resources to develop a systematic stranding monitoring program, developed with the cooperation of the shrimp fishing industry, to scientifically monitor the sea turtle population.

"Last year, the NMFS decided, with no conclusive evidence, that high numbers of sea turtle deaths on the eastern Texas and western Louisiana shores were caused by the shrimping industry," Johnston said. "This decision threatens the very existence of our Lousiana shrimping industry and highlights the need for a systematic monitoring program."



Sonnier on 6 mo. deployment with Navy

Navy Airman Carey D. Sonnier, son of Kenneth A. and Angela M. Theriot of Grand Chenier, recently departed for a six-month overseas deployment aboard the aircraft carrier USS America as the lead ship of the USs America Battle Group.

Either sex archery deer hunt opens Oct. 1

The Lacassine National Wildlife Refuge has scheduled an either sex archery deer hunting season on the refuge in Cameron Parish west of Lake Arthur. The refuge, except for the headquarters area, will open Oct. 1. The hunt will run until Oct. 31.

Hunters should note that boats are prohibited in Lacassine Pool after Oct. 15, to minimize disturbance to wintering waterfowl. State regulations will apply for archery hunting on the refuge except that baiting, firearms and crossbows, and hunting from a tree in which a metal object has been driven to support a hunter are not allowed on the refuge.

A hunter check station will be set up at Gary's Landing adjacent to the refuge headquarters. Refuge hunters are requested to weigh their deer and provide the information requested at the station.

All hunters on Lacassine Refuge are required to possess a refuge hunting permit. The 1995-96 refuge hunting brochure serves as the required permit when signed and dated. The permit must be in the hunter's possession while hunting deer on the refuge.

The brochure details the specific hunting regulations for the refuge. The permit and brochure are free and can be obtained through the mail by writing to: Refuge Manager, Lacassine National Wildlife Refuge, HCR 63, Box 186, Lake Arthur, La. 70549, or telephone 318/774-5923.

Workshop set on mussels

The Florida Sea Grant College Program is producing a day-long workshop on zebra mussels in the Southern U.S. on Sept. 27, from 8 a.m. to 3 p.m. The workshop will be available by television downlink throughout the region. Here in Louisiana, it can be viewed at no charge at the Calcasieu Parish School Board C & I Building in Lake Charles, at Knapp Hall on the LSU Campus in Baton Rouge, and at the Louisiana Association of Business and Industry in Baton Rouge. The program agenda includes: An Introduction to Zebra Mussels, Risk Assessment, Impacts and Controls, and Regional Analysis.

Zebra mussels (Dreissena polymorpha) were first discovered in Lake St. Clair in 1988. As of December 1993, zebra mussels have been found in all of the Great Lakes and in waterways in 18 states and two provinces.

It was predicted in the early 90's that the southward spread would be limited because of warm summer temperatures and salinity levels along the coast. The zebra mussels have been able to adapt to both of these barriers and now may pose many problems for Louisiana.

The barnacle like zebra mussel poses a multi million dollar threat to industrial and public drinking water supplies and may become a costly nuisance to shippers, boaters, commercial fishermen, anglers, farmers, drainage managers, and anyone associated with surface water use.

For additional information on this workshop or zebra mussels contact Kevin A Savoie, Associate Area Agent (Fisheries) with the LSU Agricultural Center, Louisiana Cooperative Extension Service at 318-775-5516.

SURPRISED PRISONERS

(By Jerry Wise)

Two of the most surprised persons in the last week's tornado were two Orangeville, Tex., men who are serving sentences in the Cameron jail for hunting alligators out of season on the Sabine Refuge.

They were working around the courthouse as trustees assisting the janitor Tuesday afternoon, when they "took off". The following day they turned up at the ferry coming back to the jail after spending a most miserable and frightening night in the marsh during the storm.

RICE CROP LOSS

County Agent Hadley Fontenot says there may be a serious loss in the rice crop at Sweet Lake due to the heavy flooding of fields during the bad weather last week. He estimated 400 to 500 acres badly damaged by the water and another 1,000-2,000 suffering some damage. There was very little damage in the Klondike area.

STORM PROBLEMS TACKLED BY JURY

A series of problems brought on or intensified by the Cameron tornado last week was tackled by the police jury Tuesday.

The jury agreed to write the state department of highways asking that a 1,000-foot section of the state highway running through Cameron be raised at least two feet because of the flooding problem caused by storms and high tides.

This section, between the Methodist Church and the library, was under several feet of water last week following the tornado, as it was also a year ago during Hurricane Carla.

Ward 3 Juror Bolo Trosclair said that the heavy rains which accompanied the tornado, caused at least $30,000 damage to parish roads in his ward, particularly to the new jetties road which had just been completed and shelled.

Eraste Hebert got permission from the jury to replace three bridges in his ward which had "just about washed away" and to have the engineering done on a one-mile blacktopping project.

The jury's legal advisor, J. B. Jones, noted that the town of Cameron had been declared a disaster area because of the tornado, and was instructed by the jury to see if any federal aid could be secured in repairing damaged roads.

Juror Trosclair also leveled criticism at the architect and contractor on the recent courthouse rewiring project and at Civil Defense because the emergency generator in the courthouse was not in operating condition on the night of the storm.

ROUNDABOUT THE PARISH

Holly Beach -- The Labor Day crowd on the beach was below expectation. Many visitors say they were hesitant about coming due to circulation reports of destruction and mosquito infestation. There were severalg distance phone calls over the weekend inquiring about this and local people were only too happy to dispel such rumors as false. One of the heaviest rains ever seen here fell during the bad weather last week. Winds were gauged up to 60 miles per hour and about 13 inches of rain fell in less than 24 hours.

Creole -- "Sprucing up" operations are currently going on at Fawvor Chevrolet Company here as the main building is being readied inside and out for a new coat of paint in preparation for the "63 Chevrolet" new car showing which is scheduled to take place there the latter part of this month.

Hackberry -- Three young men from Hackberry are entering the Air Force on Sept. 4, to train at Lackland Air Foce Base, San Antonio. They are James Toups, son of Mr. and Mrs. L. J. Toups; Roger Guidry, son of Mr. and Mrs. P. W. Guidry, and Garry Sellers, son of Mr. and Mrs. J. S. Gueko. All are Hackberry High graduates.

Cameron -- Mr. and Mrs. Ward Fontenot and son Matthew, were weekend visitors of the Hadley Fontenots. Ward and his wife enjoyed fishing and other outdoor sports while the grandparents enjoyed their grandson.

Much rain was received in Grand Chenier during the storm last Tueday.

Classes to hold reunion Sept. 23

Creole graduates of 1946 through 1949 will hold a reunion at Pat's Restaurant in Cameron Sat., Sept. 23. Registration and social hour are to begin at 6:30 and dinner at 7:30. Dinner will be ala carte.

Anyone with pictures of that era are asked to bring them to share with their classmates.

Teachers who taught during these years are invited to attend.

If you would like more information or to place reservations, call Betty Savoy at 318-775-5645.

Highway crew cutting tree

Letter to the Editor

Dear Editor:

To those of you who have passed along the Oak Grove Highway and noticed our wildflower area and the pampas grass and trees we have planted adjacent to the highway and commented on its beauty, they seem to be in danger.

I looked out my front door Tuesday morning and there were six La. Dept. of Highway trucks and nine employees parked out in front.

My son and I went out to investigate and saw one man in a forklift cutting off limbs on one of our willow trees.

Since they completely cut one down several years ago and mutilated the others, I was very upset and called the head of the department in Lake Charles and reported to him that I was designating the area in front as a wildflower area, as I had been informed by the State Garden Club that this designation would save the area.

I also informed the highway department head that we have always mowed the rights-of-way on both sides of the road and did not want them to spray that poison which results in that awful looking brown, dead grass.

He said that they were thankful that homeowners like myself did that because the poison they used was very expensive.

My son asked the Lake Charles supervisor who was heading the road crew if we were singled out, or had a vendetta against us, and he said, "No, we are cutting back all of the trees from Oak Grove to the end of the road east."

He said they were measuring with long poles and cutting back limbs that might hang over the road because they had received complaints from 18-wheelers that were hauling oilfield equipment that they were getting their side mirrors knocked off from overhanging limbs.

I am not convinced. I really think the department has an aversion to green grass, their favorite color is brown.

I often wonder what visitors from other states that have such beautifully manicured roadside cut green grass think when they come into Cameron Parish and see all the ugly brown weeds and grass on both sides of the road greeting them.

Lt. Gubernatorial forum set in L. C.

A lieutenant gubernatorial forum will be held at 6:30 p.m. Tues., Sept. 19, at the McNeese Stream Alumni Center. The forum is sponsored by the Calcasieu Preservation Society and the League of Women Voters.

Ten of the 11 announced candidates for office will attend the forum which will be moderated by KPLC's James Smith, according to Joe Cash, CPS vice president.

The participants are: Kathleen Blanco of Lafayette; Charles Baylock of Oil City; Jay Chevalier of Kenner; Skip Galan of Kenner; E. Eric Guffard of Baton Rouge; Chris John of Crowley; Chip Leahman of New Orleans; Greg Marcantel of Jennings; Robert Patrick of Ragley; and Antoine Saacks of New Orleans.

"This is the first such lieutenant gubernatorial forum ever held in Southwest Louisiana," said Cash. "We believe that all of the duties and responsibilities of the Office of Lieutenant Governor are extremely important at this particular time to the economic and cultural development of Southwest Louisiana."

The job oversees the offices of tourism, state parks, the state library, the state museum, film and video, and cultural development, which includes the divisions of the arts, archeology and historic preservation.

Refreshments will be served prior to and after the forum.

AN OPEN LETTER TO THE VOTERS OF DISTRICT 36 FROM

DARRELL DEROUEN

Dear Friends:

Thank you for taking the time to read this letter.

My campaign doesn't include the kind of money it would take to pay for television advertisements that would bring me into your living room every night. Nor do the standards I've set for acceptance of contributions allow me to afford that kind of campaign.

The only way I can express to the voters of District 36 my sincere commitment to work on their behalf is to do it *the old-fashioned way* – by walking the district, knocking on doors, and meeting as many voters face-to-face as I possibly can.

My main asset to offer you is ***PROVEN ABILITY***. While I may not be able to promote myself through television commercials and billboards, I am proud to stand on my record of 12 years as a member of the Calcasieu Parish Police Jury.

I appreciate your time in reading this letter. I believe above all else that this system of democracy does work, and your vote – *whether for or against me* – is important.

I respectfully ask for your support on October 21st.

DO YOU REMEMBER? This photo of menhaden (pogy) fishermen hauling in their catch off the coast of Cameron was taken about 35 years ago. These fishermen were fishing for the Louisiana Menhaden Company which had a processing plant in Cameron at the time. For a number of years Cameron was the number one fishing port in the nation due to the large menhaden catch here.

Financing to become available for mortgages

The Louisiana Housing Finance Agency (LHFA) reported today that approximately $26 million in financing will become available on Sept. 18, to qualified moderate and low income first-time home buyers.

"The Louisiana Housing Finance Agency, through this initiative, is enabling home ownership for many low to moderate income families who cannot be served by other sources," said V. Jean Butler, president of the LHFA.

The single family financing programs include the Home Assistance Program which will offer approximately $4.5 million in low interest loans available to families whose incomes do not exceed 80 percent of the area median income. Families who qualify for this program are required to invest $1500 or three percent of the home purchase price, whichever is greater, and pay only a portion of the closing costs. The interest rates and terms range from 7.25 percent for 19 year loans to 7.75 percent for 29 year loans.

The Home program provides a non-interest bearing second mortgage for 22 percent of the home's cost, plus up to six percent of the sales price to assist with closing costs.

A second single family reduced-interest financing program called the Mortgage Revenue Bond (MRB) Program will make $11 million available to families whose incomes are no more than 115 percent of the median income. The program has maximum purchase prices, and is available to owner occupied properties only. The interest rate for these 30-year loans is 7.20 percent.

The MRP Assisted Program will make $10 million available at an 8.15 percent interest rate on 30 year conventional, FHA insured or VA guaranteed mortgages, plus will provide an amount equal to no more than four percent of the mortgage amount to the borrower to assist with down payment and closing costs.

More information about the program can be obtained from any of the 100 lenders throughout Louisiana or by calling LHFA at 504-342-1320. Brochures may be obtained by writing 200 Lafayette St., Suite 300, Baton Rouge, La. 70802.

Area shrimpers are catching shrimp, lots of small shrimp, but culling you do get some 31-35 count shrimp.

The water in the Mermentau River in Grand Chenier is beautiful, clear and salty all the way to Catfish Locks. There's plenty of trout, specks and even small Spanish mackeral in the river. Flounders are running small, but redfish are still running big.

Speckle trout are still along the beaches, some running up to 4 pounds.

Bass fishing is slow and running small in size. It's not quite as hot as it was, but fishing the trails is the best, as vegetation is heavy in the ponds.

Most all our alligator hunters have tagged out and averages seem to be good this year.

Her's some stringers on some of the last dog fights of the bass season:

Sabine River's top stringer was 6.85; Lacassine Refuge, 10.35 lbs.; Calcasieu River, 7.22 lbs., and the Mermentau River, north of Lake Arthur had a team first place of 4.95 lbs. These are small stringers (3 bass) due to the hot weather.

HUNTING

According to the La. Wildlife and Fisheries Commission, Louisiana has 60,000 dove hunters who harvest 1-2 million doves a year. I'll say this, the first season down here was next to nothing. Not many birds and hunters were few and far between.

The next season, which is usually the best, will run Oct. 21-Nov. 20.

Larry Boudreaux, Louis and Orrie Canik made a dove hunt in Mississippi and killed their limits.

Teal hunting is open and will close Sunday for the 9 day season.

There are a few teals, but not in all marshes. Some marshes have lots of growth and ponds are weeded up and water is low, making it tough going.

Saturday, Sept. 23, ws officially made as the 11th La. National Hunting and Fishing Day.

In 1994, Louisiana's 267,324 hunters paid hunting license fees of $5,995,223, which helps fund wildlife conservation, education and safety programs. Also the state's 613,976 fishermen contributed $6,446,525. The state also receives proceeds from excise taxes paid by La. hunters and fishermen and boaters. This year some $7 million. This is used for recreation programs plus whitetail deer, turkey and wood duck programs.

ANTI-HUNTERS

Thirteen years and recorded dozens of harassment incidents by anti-hunters, plus legislation attempts and all 50 states have a law of the law nationwide. Hawaii was the last state to join.

This all started in 1981 when Arizona and Vermont passed an anti-hunter harassment law. Louisiana followed in 1982, and then each year since states have joined in. Our neighboring states joined; Texas in 1985, Arkansas and Mississippi in 1991.

SEASON OPENING

Oyster season on Calcasieu and Sabine lakes will be Oct. 16 to Mar. 1, 1996. One half-hour before sunrise on Oct. 16, to sunset Mar. 1.

La. trappers will see their trapping season Nov. 20 to Mar. 20. This is statewide and an extension from the Dec. 1, opening of past years.

FISHING STORY

A friend of mine, working for a tool company, and lives in Texas, is a bass fisherman and lover of the outdoors. He fishes the big trophy lakes of Texas like Lake Fork, Toledo Bend, Sam Rayburn and man others.

Two weeks ago he fished Lake Conroe and he had one of the best fishing days ever.

He and his partner hit the lake at 1:30 a.m. and his second cast he caught a big bass, thinking it was 10 lbs., went in and weighed it - 9.80 lbs., returned ot the lake released it and made sure it survived. By that time it was 4:30 a.m. They fished until 11:30 a.m. and besides the 9.80 bass they caught 2 bass over 7 lbs., 1 bass over 6 lbs. and 5 over 5 lbs., plus smaller bass. They released all their bass alive.

Well, this is the time of the year that Lousiana outdoors here in Cameron Parish comes alive. There's still bass fishing, plenty of saltwater fishing, shrimping is open, dove just closed and teal season is open. Alligator is still on and we're looking at deer, rabbit, squirrel and regular duck season yet to come and yes, the redfish will be here all winter in our marshes.

Have a 'good one!

Advisory comm. to meet Oct. 2

The United Way Advisory Committee will meet at the Cameron Senior Center Oct. 2, at noon. The purpose of the Advisory Council is to provide education to the United Way activities, identify ways that United Way can assist in Cameron Parish and assist with the United Way campaign.

The first meeting was held Sept. 18. A group of 12 persons discussed planning the Advisory Committee and set the meeting date.

Genuine nutria fur coats now available

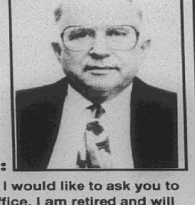
Genuine Louisiana bayou nutria fur coats are available for the first time in Louisiana. Four south Louisiana department stores are showcasing nutria furs with informal modeling and displays designed to educate the public on nutria and related issues and products. The events spearhead a Louisiana Fur and Alligator Council campaign to champion the sale of this beautiful fur and sensational new styles available in the Bayou State.

The coats are being shown at stores in Baton Rouge, Lafayette and Metairie.

According to Greg Linscombe of the Fur and Alligator Council, Musi Fur's nutria coats were the hit of the Montreal Fur Festival. Furs are dyed and designed in a number of exciting and contemporary styles. Until this year, there had never been a retailer inLouisiana to handle genuine bayou nutria.

Department of Wildlife and Fisheries biologists and Fur and Alligator Council members will staff displays to demonstrate marsh damage that has been done by overcrowding of these marshland rodents. In many marshlands, soil is held together mainly by grass roots. Nutria chop the marsh grasses down to and including the roots, leaving nothing but exposed highly organic soil. Loss of plant life in tidal areas allows water to undercut soil, speeding erosion. The ultimate result is loss of habitt for all marsh species, including marine organisms. Every acre of marshland loss reduces the ecosystem's overall productivity.

King mackerel fishery closed early in Gulf



An early closure of the commercial king mackerel fishery in the western Gulf of Mexico has prompted commecial fishermen in that area to request a supplement to the commercial quota. After opening July 1, an estimated 834,000 pounds of the 770,000 pound quota was landed when the season closed Sept. 5, in the western Gulf fishery in the States of Alabama through Texas. This was 20 days earlier than the closure of last year's season.

The fishery of Gulf king mackerel is allocated among commercial and recreational users. The commercial fishery allocation is further divided into eastern and western zones; the western zone being the closed fishery. Recreational fishermen are restricted by a daily bag limit which remains open throughout the year.

Even young children can put away their toys and clothes. It's one step in the disciplining process.

Ducks Unlimited Chapter holds banquet at Creole

By GENEVA GRIFFITH

The Cameron Parish Ducks Unlimited chapter celebrated the opening of the teal season by holding their annual DU banquet Saturday night at the Creole Recreation Center.

Over $14,000 wa raised in the auction for the benefit of Ducks Unlimited and the work it is doing to preserve the habitat of ducks and other wildlife.

North America is running out of wetlands at the rate of about 250,000 acres per year.

Ducks and geese are running out of places to live, not to mention the bald eagle, the whooping crane and over 600 other wildlife species, many endangered.

People are running out of places that naturally purify their water and control flooding - places to go boating, hunting, fishing, swimming, and exploring nature with their families.

Ducks Unlimited members use these yearly banquets to raise the money to help conserve the North American wetlands habitat for all of the tomorrows to come.

Chris Simon, Cameron Parish DU Chairman, introduced two special guests at this year's banquet: Mickey McMillin, Moss Bluff, National DU Trustee and State Membership Chairman of DU, and George Horton, Regional Director of DU from Lafayette.

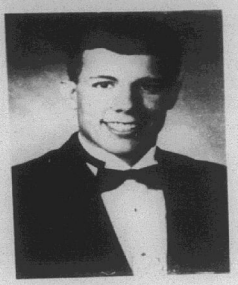
They had with them an original painting by Lake Charles wildlife artist Elton Louviere, "Home for Winter Mallards", which is valued at $4,500 and is traveling around the zone in a zone pull.

Raffle tickets are being sold for $5 at area events and the money collected on it in each parish will stay in that chapter.

The winner's name will be pulled in a drawing in late January.

Gear license proof asked

Applicants for the new saltwater commercial rod and reel gear license will have to show that they held a valid commercial gear license for gill nets (either saltwater or freshwater) in any two of the three years, 1995, 1994, or 1993. This is one of the requirements of Act 1316 of the 1995 Louisiana Legislture. The act, which goes into effect immediately, created the new license.



In addition to the gill net gear license requirement, applicants must show that more than 50 percent of their earned income derived from capture and sale of seafood species. Proof of such income must be shown through copies of federal income tax returns which have been certified by the Internal Revenue Service, including Schedule C of federal form 1040. If the IRS certified return does not verify 50 percent income derived from capture and sale of seafood species, the Department will accept a certified, audited return prepared and signed by a certified public accountant verifying the source of income as required by Act 1316.

Applicants also cannot have been convicted of any fisheries-related violation of Class 3 or higher.

Commenta on the license requirements will be accepted until Oct. 2, 1995. Write Wynnette Kees, Fiscal Officer, Louisiana Department of Wildlife and Fisheries, P.O. Box 98000, Baton Rouge, La. 70898-9000.

Leaders are told in National Barrel Assoc.

After four shows sanctioned by the National Barrel Horse Association in Louisiana District 3, southwest Louisiana contestants have moved into leading positions in several divisions. Laurie Hollar of DeRidder leads the Youth Second Division with Leah Worm, also of DeRidder in a tie for fourth place with Lindsey Laviolette of DeQuincy.

Black Annie has taken Codi Cooper of DeQuincy to first place in the Youth Third Division. Laviolette aboard Skip Leo Traveler is in third place tie with Leah Worm riding April Rotation.

In the Open Third Division, DeRidder's Charlotte Darbonne and Bell City's Mindy Cox are in fifth position.

Leading the Senior Division is Beverly Matheson of Bell City who is also in second position in the Open Second Division followed by Evelyn Hungerford, Lake Charles who now has points to put her in a three-way tie for fourth, fifth and sixth. Nancy Cooper of DeQuincy and Samantha Shepherd of DeRidder have also moved into the standings.

He who has no faith in others shall find no faith in them.

Grand Chenier cheerleaders to cheer at Tarpon football game

South Cameron High School News

FUNDRAISER SUCCESSFUL

Principal Jimmy Marcantel and the South Cameron High Athletic Department are pleased with the success of the barbecue fundraiser Sept. 16. Bobby and Barbara Portie won the $1000 grand prize.

HALF AND HALF WINNER

Sethie Trosclair of Cameron won $189 during the halftime drawing at the Pickering game. The remaining proceeds were equally divided among the Pep Squad, Sidekicks, and Cheerleaders.

SIX WEEKS TESTS

Six weeks tests begin next Wed., Sept. 27, with third and sixth periods. Second and fifth periods will be tested Thurs., Sept. 28, and first and fourth periods Fri., Sept. 29.

BEACH SWEEP '95

Fifteen FFA and 4-H members cleaned Price Lake Road, Penzoil and Superior landings and picnic areas as part of Beach Sweet '95 on Sat., Sept. 16. 32 bags of garbage were collected and approximately 40 bags were distributed to fishermen and crabbers who were in those areas on Saturday morning. Adults accompanying the group included Janna Kay Baccigalopi, Mary Louise Hebert, Vernon McCain and Nicky and Stephanie Rodrigue. Other high school 4-Hers joined the Rutherford Beach crew which also cleaned up Saturday morning.

JUNIOR 4-H OFFICERS

The following South Cameron High Jr. 4-H Club officers were elected at the Wed., Sept. 13, meeting:

Kassie Guthrie, president; Brittany McDaniel, first vice-president; Shauna Billings, second vice-president; Lisa LeCompte, secretary; Terri Lynn Conner, treasurer; Robert Nunez, reporter; Franklin Olivier, CRD chairman; Lauren Sanders and Brandi Hebert, parliamentarians.

Junior 4-Hers must be 13 years of age or younger as of Dec. 31, 1995.

FOOTBALL

The Tarpon junior varsity team plays in Iowa Thursday, beginning at 5 p.m. The varsity team does not have a game scheduled for this week.

Who is a wise man? He that learns from all men.

LIBRARY RAFFLE

The South Cameron High Library is raffling a handcrafted Mexican blanket. Donations are 50 cents or 3 for $1 and can be purchased from any student library aide. Proceeds will be used to purchase software. The library thanks Diane Oliver for donating the blanket.

HOMECOMING

The 1995 homecoming game is scheduled for Fri., Oct. 13, against the Notre Dame Pioneers.

HOMECOMING CHEERLEADERS

The cheerleading squads from Cameron, South Cameron and Grand Chenier Elementary Schools are invited to cheer at the homecoming game. The individuals who attended Tarpon Spirit and Cheer Camp '95 will be invited to join the Pep Squad that evening and will be asked to wear their official camp shirts. Practice for both groups is tentatively scheduled for Sun., Oct. 8, with the elementary squads meeting from 4:30 until 7 p.m. and individuals practicing from 5:30-7 p.m. The entire group will perform the camp dance at halftime.

4-H Jr. Leaders Club elects new officers

By TRISHA SILVER, Reporter

The Cameron Parish 4-H Jr. Leaders Club elected new officers for the 1995-96 school year at their first meeting Sept. 13, at the Police Jury Annex Building in Cameron.

Officers elected are: Kristy Jo Dupuie, president; Cody Fenetz and Cheri Gray, vice-presidents; Cassy Broussard, treasurer; Trisha Silver, reporter; and T-Claude Devall and Ryan King, parliamentarians.

Mrs. Ruby Dupuie, club leader, told of plans for a Parish 4-H Record Book Workshop to be held Sept. 23, at South Cameron High School beginning at 9 a.m. Some Jr. Leaders members were assigned different projects and they are to give presentations at the workshop.

Door prizes were won by Toni Kay Nunez, Misty Delome and Heather Taylor.

CAMERON BOYS MAKING GOOD

The Department of Agriculture at SLI(USL) announces that two Cameron Parish boys, Valsin J. Montie and Carrol McCall of Grand Chenier, former students, are making good in their chosen work, for which their agricultural training prepared them.

Mr. McCall was for one year supervisor of the North Louisiana Dairy Improvement Association with headquarters at Ruston. Since then he has been employed by a well-known implement company, representing the concern in Texas, with headquarters at Houston.

Mr. Montie was employed by another implement company as soon as he finished college. He now represents his company in the southern territory and during the last year has traveled over most of the southern states.

WARY OF BAD WEATHER
(By Jerry Wise)

Cameron folks, who have gone through two hurricanes and one tornado in the space of five years, are getting wary of bad weather. Wednesday of last week, after a dark blue cloud came out of the north, more than a hundred persons came to the courthouse -- just in case it turned out to be another tornado. It didn't and they went home about 3 o'clock.

A water spout was witnessed in the Mermentau River at Grand Chenier Friday, according to Elora Montie, our Grand Chenier reporter.

One disaster worker told us that after three storms, Cameron "probably would never have any more for 100 years", his theory being that statistically Cameron has had its share of storms.

DISASTER AGENCIES CLOSE

The American Red Cross and the Small Business Administration closed up their disaster offices in Cameron this week after completing most of their work in assisting families who suffered losses in the Cameron tornado two weeks ago.

The Red Cross office in the courthouse was closed Monday after 52 applications for assistance had been received and $11,018.89 in assistance had been given to families.

George Peterson, Red Cross representative, said 37 families received assistance in food and clothing, 12 were aided in home repair, 22 got household furniture, 10 were given medical and nursing assistance, and 6 received occupational supplies and equipment.

The Small Business Administration closed its office at the Calcasieu Marine Bank later in the week.

Since most of the losses in the Aug. 28 storm were covered by insurance, the representative said that only five or six disaster loans had been requested and these had been small.

PROGRESSIVE FARMER EDITOR VISITS

Ed Wilborn, editor of the Southern Edition of the Progressive Farmer, Memphis, Tenn., was in Cameron Monday and Tuesday to see and discuss the conservation work being carried out by landowners cooperating with Soil Conservation Districts.

Wilborn, accompanied by H. B. Martin, state conservationist, was a guest of Eloi Primeaux, soil conservationist here Monday.

They visited Liberty Conner, caretaker of the Coastal Club at Sweet Lake to see the water control system being used there to improve waterfowl habitat.

From there they visited the J. B. Meaux range unit at Oak Grove to observe a cattle walkway system used in marshes to distribute cattle grazing for plant conservation.

Wilborn also visited with D. Y. Doland and Severin Miller on Grand Chenier to discuss water control systems being used to permit permanent development.

ROUNDABOUT THE PARISH

Grand Lake-Sweet Lake -- Buck Taylor has finished saving his crop. The last was a field of Bluebonnet. Mervyn and Buck Taylor have now moved into Carradine Cox's field to help with combining. This is a very pretty field of rice. It is across the road from the Donald Hebert place. Lyons Breaux has finished harvedsting his crop and is now helping his brother Dulva Breaux and so is the Sweet Lake Land and Oil Co. crew. Donald Todd's two combines are in Tumpy Hebert's field. Bully Helms is helping Claude Eagleson with his combining. The Heberts and Prechts too are very busy at the job of saving their crops.

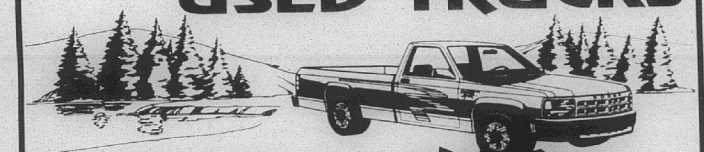
Grand Chenier -- The main topic of talk on the Chenier this week was of the great quanitites of mosquitoes. Most folks claim they are worse than they were before. Cattlemen are very busy again having to make smoke and closely tend to their stock. Mosquitoes are so plentiful on the playground at Grand Chenier Elementary School, the children had to bekep indoors at recess.

Black News -- Miss Carol Mae LeBlanc left Monday for Southern University. She is a 1962 graduate of the Audrey Memorial School.

Hackberry -- Coach Bennie Sanders' Mustangs have the following starters: Cecil Sanner, David Andrews, Buster Reeves, Jimmy Simon, Mike Devall, Dewey Portie, Thomas Johnson, Gerald Landry, Michael Kile or Mitchell Kile, Bobby Billeaud and ernie Parker. Another starter from last year is Larry Simon. Returning squadmen are Clarence Silver and Raymond Toups.

How to take care of the hummingbirds

According to a report in the September/October 1995 Bird Watcher's digest, research done at the San Diego Zoo showed that hummingbirds feeding on nectar with red dye produced deformed young or laid eggs that did not hatch. There is some speculation that the decline in the population of Ruby-throated Hummingbirds may be related to the red coloring in nectar. The sad thing is that this is totally unnecessary. Hummingbirds are attracted to red, it is true, but almost all feeders have bright red parts on the outside which is sufficient color to bring in the hummers. So do your tiny visitors a favor and throw out that red coloring.



There are several other things to avoid if you want to take good care of your hummingbird guests. First, do not use honey, fructose sugar or corn syrup when making nectar. This is because the nectar that hummingbirds normally consume is sucrose, the kind in cane sugar, and all other kinds are unsatisfactory. A cup of cane sugar to four cups of boiling water is the standard formula, but be sure to let the syrup cool before adding it to your feeder.

Leaving your feeder hang too long before changing the nectar is another potential dnger. Sugar solutions spoil quickly, especially in our hot, humid weather, and you can sometimes actually see the mold floating in the syrup after three or four days. When you change the solution, be sure to clean the feeder thoroughly. Louisiana hummingbird expert, Nancy L. Newfield, suggests dissembling and soaking the entire feeder in one gallon hot water and one cup chlorine bleach for about an hour, risning well and allowing it to dry completely to get rid of harmful bacteria and molds.

The world's fastest insect is the common cockroach.

Others Attending: Clay Midkiff, Ron Marcantel, Tina Horn, Lonnie Harper, J. Berton Daigle, Steve Klett, James LeBoeuf, Billy Delany, George LeBoeuf.

A motion was made by George Kelley, seconded by Scott Henry, and unanimously carried that the minutes of the June 20, 1995, regular meeting be approved as corrected.

A motion was made by George Kelley, seconded by Scott Henry, and unanimously carried to approve the Financial Report for the month of June, 1995.

A motion was made by Scott Henry, seconded by George Kelley, and unanimously carried to approve the following bills for payment:

1. J. Berton Daigle	$300.00
2. Cameron Parish Pilot	86.00
3. Vernon R. Coon, CPA	1,300.00

A motion was made by Scott Henry, seconded by George Kelley, and unanimously carried to authorize President Ed Quinn to sign a letter of commitment to Vernon R. Coon, Certified Public Accountant, for conducting an audit as a year-end 1995.

Lonnie Harper reported that the permit has been received for the Primeaux Lateral clean-out.

There will be a possibility of a hearing meeting on suggested increase in height of plugs in the borrow canal along the lake bank at locations South of Grand and Mangrove Bayous, as reported by Steve Klett. In addition, Miami Corporation will plug up another outlet on their property. 1 to 1 1/2 feet above marsh level is suggested to isolate three different areas of drainage. If necessary, a hearing will be held, and Board members were encouraged to give their names to Steve Klett to be contacted if interested in attending.

It was reported that tax money is being held in escrow pending appeal hearing for two pipeline companies who paid taxes under protest ($1100.75 for Gravity Drainage District No. 3).

It was reported in a letter from the District Attorney that there is a new law which prohibits rejection of any and all bids on a project without good cause.

Steve Klett gave the monthly Water Management Report.

It was noted that the Interagency Agreement Between Gravity Drainage District No. 7 and Gravity Drainage District No. 3 has been signed by both parties and recorded at the courthouse, providing for Gravity Drainage District No. 3 to utilize Gravity Drainage District No. 7 equipment for a rental fee of $296.63/day, including operator.

A motion was made by E. J. Dronet, seconded by George Kelley, and unanimously carried to write a letter to the Department of Natural Resources requesting them to approve use of Trust funds for repair of cracks in the Grand Bayou water control structure, placement of riprap on the lake bank where erosion is occurring, and for bolt replacement on the structures.

A motion was made by E. J. Dronet, seconded by Scott Henry, and unanimously carried to approve purchase of up to $500 worth of stainless steel bolts to replace the necessary bolts on Water Control Structures in the Cameron-Creole Watershed.

J. Berton Daigle spoke regarding the fact that he has 3-4,000 acres of flooded marshland that cannot drain. It was agreed that when Gravity Drainage District No. 7 equipment is available, this board will approve cleaning of staff gauge #3 drainage lateral. Each mobilization will cost about $300-400, so it would be advisable to have him do the staff gauge #3 clean-out immediately following the School Board lateral clean-out.

Lonnie Harper reported that his estimate of 900 plants at $5,000 for mitigation for several projects must be broken out between the Primeaux Lateral (north half) and the Sells Lateral. It was reported that the Attorney General ruling is that drainage board funds can be spent for mitigation, but not outside our own district.

A motion was made by E. J. Dronet, seconded by George Kelley, and unanimously carried to authorize the Gravity Drainage District No. 7 operator to clean the Staff Gauge #3 lateral, Primeaux Lateral, Sells Lateral, and topping 3 flapgated culverts on the Henry levee as time permits following the completion of the School Board lateral currently being cleaned out. If all goes well, it was noted that we should be finished with Gravity Drainage District No. 7 equipment by the end of August.

There being no further business, the meeting was adjourned.

NOTICE

Minutes of the Special Meeting of the Cameron parish Gravity Drainage District No. 3 held on Thursday, July 27, 1995, at 1:30 p.m. at the Cameron Parish Police Jury Annex.

Members Present: Edwin Quinn, E. J. Dronet, Scott Henry, George Kelley.

Members Absent: Earl Guthrie.

Others Attending: Lonnie Harper, Tina Horn.

A motion was made by Scott Henry, seconded by E. J. Dronet, and unanimously carried to request authorization under a Nationwide permit to recap three flapgated culverts on Henry levee and to clean staff gauge $3 ditch of vegetation. It was noted that if it requires moving 25 cubic yards or less of earth, it is already approved. Mobilization of equipment to and from the sites will be on an existing levee and will not impact any wetlands.

By concensus of the Board, Lonnie Harper was authorized to go to the School Board lateral site and check everything that has been done according to permit specifications and report back to this Board at its next meeting.

That Sells lateral permit has not been received as yet, as reported by Mr. Harper. It was also reported that Paul LaBove has stated with regard to the Primeaux lateral clean-out, that he doesn't wish that ditch to be cleaned. By concensus, George Kelley was authorized to go talk to Paul LaBove and Brenda Clement, heirs of the landowner, regarding the Primeaux lateral clean out. If they approve, he will notify Engineer Harper to contact the Gravity Drainage No. 7 machine operator to proceed with cleaning the Primeaux lateral as permitted. It was agreed that no work will be done without our appointed engineer being present with the operator to be certain that permit specifications are followed.

There was some discussion relative to getting quotes on retainer tanks to be built under all diesel tanks on Gravity Drainage District No. 3 pumps.

There being no further business, the meeting was adjourned.

NOTICE
TO THE CUSTOMERS OF WATERWORKS DISTRICT NO. 1

THE CAMERON PARISH WATERWORKS DISTRICT NO. 1 OF CAMERON WAS OUT OF COMPLIANCE WITH THE SAFE DRINKING WATER ACT (P.L. 93-523) FROM AUGUST 15 TO SEPTEMBER 14, 1995-THE FOLLOWING IS A REQUIRED NOTIFICATION TO OUR CUSTOMERS.

During the reporting period of August 15, 1995 to September 14, 1995 the Cameron Water Works Dist. #1 Water Supply violated the maximum contaminant level of coliform bacteria as set forth in the State and Federal Primary Drinking Water Regulations. Action was taken to eliminate the contamination.

The United States Environmental Protection Agency (EPA) sets drinking water standards and has determined that the presence of total coliforms is a possible health concern. Total coliforms are common in the enviornment and are generally not harmful themselves. The presence of these bacteria in drinking water, however, generally is a result of a problem with water treatment or the pipes which distribute the water, and indicates that the water may be contaminated with organisms that can cause disease. Disease symptoms may include diarrhea, cramps, nausea, possibly jaundice, and any associated headaches and fatigue. These symptoms, however, are not just associated with disease-causing organisms in drinking water, but also may be caused by a number of factors other than your drinking water. EPA has set an enforceable drinking water standard for total coliforms to reduce the risk of these adverse health effects. Drinking water which meets this standard is usually not associated with a health risk from disease-causing bacteria and should be considered safe.

Closure of bridges is told here

Two bridges across the Intracoastal Canal providing access to the outside for Cameron Parish residents will be closed next week, according to the La. Dept. of Transportation.

The Ellender lift bridge located about five miles north of Hackberry on Hwy. 27 just inside Calcasieu parish will be closed to vehicular traffic on Wednesday and Thursday, Oct. 4 and 5 from 8 a.m. to 2 p.m. each day while repairs are made to the base of the bridge.

A highway department spokesman said that arrangements have been made to have ambulances stationed at both sides of the bridge during that time for use in an emergency. Also sheriff units will be stationed at the bridge.

Traffic can also detour down through Cameron and back up Hwy. 27 on the east side of the channel.

The highway department spokesman also stated that in the case of a major emergency such as an evacuation for a hurricane the the bridge could be put back into operation within a short time.

The other Intracostal bridge that will be out is the Black Bayou pontoon bridge located on Hwy. 384 just inside the Calcasieu line north of Big Lake. This bridge will be removed from service at 4 a.m., Monday, Oct. 2 and put into drydock for repairs for several weeks.

Traffic will be able to detour via the Grand Lake bridge, which itself was recently out for several weeks while undergoing repairs.

1,425 take part in '95 Beachsweep

Ed Kelley, Chairman of the Cameron Parish Beach Sweep reported that 1,425 people showed up recently to help clean 22 miles of beaches in the parish.

Over 17 tons of trash was picked up along the eight beaches cleaned this year.

Participating in the event were Boy Scout troops, 4-H clubs from all local schools, Cub Scouts, S. J. Welsh of Lake Charles, DeRidder Junior High School Science club, Sulphur High School students, DeRidder High School and St. Aloysius Catholic School of Baton Rouge.

Companies and the number of people taking part were: Mobil Oil, 320; Forrest Oil, 97; Conoco, 75; Mineral Mining Service of Baton Rouge, 12, and Phillips Petroleum, 100.

Kelley said that 1,858 bags of trash were picked up during the four hour period and the beaches were left clean of all debris during this time.

One unusual thing found this year on West Rutherford Beach was a dead cow in the surf that the Grand Chenier 4-H Club was trying to figure out how to move so they could get credit for it on their account list.

LOUISIANA WILD Irises are featured on the 1995 Wild Louisiana Stamp and Cameron Parish has the only remaining wild fields of the plants in the state. A portion of the stamp is reproduced above.

Cameron irises featured in article

The wild irises of Cameron Parish are featured in an article, "The Louisiana Irises," in the current issue of the Louisiana Conservationist magazine. It was written Dr. Gary N. Ross of Baton Rouge who has had several articles on Cameron Parish nature themes published in national magazines recently.

"At the turn of the last century Louisiana boasted one of the grandest displays of native wildflowers to be found anywhere on the continent," the article opens. "Early botanical chronicles describe the lower Mississippi delta as a kaleidoscope of color due to extensive fields of irises."

"All of that has changed," Dr. Ross writes. "Experts estimate that only 10 percent of the iris fields described during the discovery years of the 1930s remain."

"Today," he continues, "the only remaining wild fields of irises of any extent are found in Cameron Parish in the southwest corner of Louisiana."

(These fields are mostly along the roads and chenier ridges from Cameron to Grand Chenier and along Hwy. 27 north from Creole to just north of the Intracoastal Canal.)

The article is illustrated with several photos of blue irises, probably taken in Cameron parish and a reproduction of the 1995 Wild Louisiana Stamp which shows the iris growning in a marshy area.

Black Bayou assistance

Rep. Randy Roach has announced that arrangements have been made with the Calcasieu and Cameron Parish Sheriff's Departments for assistance in coordinating the removal of the Black Bayou Pontoon Bridge. Each department has met with the La. Dept. of Transportation and has held discussions with fire departments, ambulance services, education needs and other related services during this period.

La. DOTD will remove the bridge from service at 4 a.m. Mon., Oct. 2. All traffic will be required to detour via the Grand Lake bridge. Detour signing will be provided. These repairs are necessary due to poor structural condition of the pontoon bridge.

If additional assistance is needed, call 542-4443, 478-8551 or 1-800-259-4443.

Lions speakers

McNeese Head Coach Bobby Keasler and Athletic Director Bob Hayes will be the speakers at the Cameron Lions Club luncheon on Wednesday, Oct. 4 at the Cameron Fire Station, according to Bill Turnbull, program chairman.

The public is invited to attend the program. There will be a $5 charge for the meal and persons wishing to attend should call 775-5503 to make a reservation.

Show is set

The annual Horse and Mule Show will be held at Burton Coliseum in Lake Charles Saturday, Sept. 30 beginning at 9 a.m. Admission will be $5.

There will be halter classes, farm classes, six horse hitches, pulling contests, etc.

New Rural Health staff introduced

By GENEVA GRIFFITH

An open house at the South Cameron Rural Health Clinic in Cameron was held last Thursday afternoon. The newly opened clinic is located in the former clinic of the late Dr. Cecil Clark.

In addition to a tour of the facilities, free screening for anemia and blood pressure was offered and health care information was distributed.

A blood drive was also held by the Louisiana Blood Center, who gave free T-shirts to doners.

Mrs. Alice LaBove, head dietician at South Cameron Memorial Hospital, presided at the tea table which featured heart-healthy foods.

She and Carmen Dimas, co-author with her on a recipe book, "Making Healthy Choices", passed out the free books.

Dr. Carlos Choucino, who heads the clinic, is a graduate of Vanderbilt University and is from Peru. He served his residency in Springfield, Ill. He holds dual specialities in internal medicine and infectious diseases.

Linda Chevallier, nurse practitioner, specializes in women's needs and does the pap smears, in addition to other duties at the clinic.

Cuts opposed

As Congress considers proposed cuts to Medicare and Medicaid programs in an effort to balance the Federal budget, the Louisiana Rural Hospital Coalition is urging lawmakers to think twice before reducing healthcare benefits in rural communities.

Joe Soileau, South Cameron Memorial Hospital administrator, serves as chairman of the Coalition, which consists of 23 rural hospitals across the state. He states:

"The GOP's proposed cuts of $270 million in Medicare and $182 billion in Medicaid over seven years will have devastating effects on rural communities."

The hospitals which have fewer than 60 beds provide the majority of general acute care services to the families in their service areas. Most of these families, according to Soileau, are recipients of Medicare and Medicaid. In fact, as much as 80 or 90 percent of the hospitals' revenues come from these two sources.

Blood drive

A blood drive will be held at South Cameron Memorial Hospital, hosted by Louisiana Blood Center, Mon., Oct. 2 from 1-5 p.m.

Every donor will receive a free T-shirt.

For more information call the hospital, 542-4111.

Parish has 3rd lowest jobless rate

Cameron Parish had the third lowest unemployment rate in Louisiana for August, according to the La. Dept. of Labor. Cameron's 5.4 percent rate was only bettered by Lincoln's 3.7 percent and Union's 5.3 percent.

Cameron's rate was an increase from the 4.9 percent in July and from the 5 percent in August a year ago.

According to the report there were 190 persons unemployed in the parish in August as compared to 180 in July and 175 a year ago.

Persons employed numbered 3400 in August as compared to 3450 in July and 3475 a year ago.

The state's jobless rate for August was 6.5 percent and the national rate was 5.6 percent, almost the same as Cameron's.

FOR SCHOOL SUPERINTENDENT

Board interviews applicants

Two of the applicants for the position of Cameron Parish School Superintendent were interviewed last week by the Cameron Parish School Board.

They were Assistant Superintendent Roger Richard and Curriculum Supervisor Judith Jones, both of whom have been employed in the parish school system for years.

Thomas "Sonny" McCall, superintent for the past 18 years, is retiring effective Jan. 3, 1996.

A third applicant, Glenn Duhon, former McNeese basketball coach, was not interviewed as his credentials did not meet the state's requirements for a superintendent.

The school board plans to vote on the applicants at their next meeting scheduled for 2 p.m., Wed., Oct. 4.

Following is a summary of the education and experience of the two applicants:

JUDITH JONES

EDUCATION: B.A., University of Southwestern Louisiana, 1970; masters in education, Louisiana State University, 1973, master's plus 30, McNeese State University, 1978; 30 additional graduate hours from Loyola University and LSU.

She holds a masster's in supervision and administration, is a certified STAR assessor, and has completed courses in computer technology.

She has updated her skills through numerous workshops and college classes. These include proces writing, school law, whole language, national math and science standards, increasing human effectiveness, grant writing, classroom strategies for dyslexia and related disorders, positive self-concept programs, at-risk students and effective leadership.

EXPERIENCE: Eight years as classroom teacher, 18 years as a supervisor of curriculum and instruction, member of seven professional organizations. Jones, 47, lives in Grand Chenier.

ROGER RICHARD

EDUCATION: B.S., McNeese State University, 1965; master's in education, MSU, 1969.

EXPERIENCE: 17 years as teacher and coach at Grand Lake High School, 12 years as supervisor of transportation and maintenance, one year as assistant superintendent, member of four professional associations.

Richard developed and maintained a preventative maintenance program for School Board vehicles and property. Other experience on his resume includes personnel supervision and budgeting, developing plans for building construction and improvements, developing an automated property accounting system for inventory control, and organizing a warehouse and delivery system. Richard , 53, lives in Hackberry.

New council formed

A new Knights of Columbus Council, No. 11576, was formed in June in Hackberry. The Council has been named in honor of Father John McNamara, M.S., pastor at St. Peter The Apostle Church in the early 1960's and a zealous promoter of the Knights of Columbus.

The officers installed were: Grand Knight, Gene Little; Chaplain, Father Eugene McKenna, M.S.; Deputy Grand Knight, Ludwig Leonard; Financial Secretary, James (Doug) Welch; Chancellor, Jerry Mitchell; Recorder, George Hicks; Treasurer, George LaBove; Advocate, Mike Welch; Lector, Steve Trahan; Warden, Robert Silver; Inside Guard, Jeffery Sanders; Outside Guard, Curtiss Fountain.

The installation was held following 9 a.m. Mass by District Deputy Stanley E. Vaughn. Special guests were Adolph Lachman, Gretna, New Council Develoment Chairman; Harry Jones, Sulphur, NCD Co-Chairman; Kevin Boullion, Sulphur; Fred Fluitt, DeQuincy, Faithful Navigator of the 4th Degree Knights of Columbus.

The Council meets at 7 p.m. on the third Wednesday of each month.

HUNTING NEWS

Teal season, as well as gallinules and rails, is over until the regular hunting season in November. Overall I'd say teal season wasn't anything compared to last year. I think it was fair, but surely not good. There were many factors that hurt the season. First of all, low water to no water in places, heavy growth in ponds and ditches and water lillys clogging trails and covering ponds. Too hot with temperatures running in the middle 90's. The weather change came a little too late.

The hunts I made were good to fair, but the dogs as well as the hunters had to work hard.

Some areas of our marshes had flocks of teal while others had none. One hunting club in Pecan Island with 8 hunters had the first four days like 22, 23, 1 then down to 0. Let's hope we get some cold weather and plenty of rain to put water in the marshes for our regular season.

OCTOBER SEASONS

Rabbit and squirrel open Oct. 7. Archery season for deer opens Oct. 1. Remember, if you're going to hunt on a federal refuge, you have to take hunter safety course, no matter what age you are.

I notice when the regular deer season opens here in Cameron Parish, we'll have six either sex days (Oct. 21, 22, 28 and 29, and Nov. 24-26.)

Dove season will open again for the second split on Oct. 21 through Nov. 20.

FISHING NEWS

The gill net ban is in effect for saltwater, however, remember no gill nets south of Highway 82 and that includes seines along the beach.

Commercial fishermen authorized to possess gill nets, stake nets, seines and trammel nets for use in federal water (EE2) are required to have a permit to travel across state waters. Permits cost $250 for one year.

There will be a buy back by the state to help the commercial fishermen get rid of their nets. A $3 stamp will be charged all recreational saltwater anglers to help pay for these nets. It could take up to a year to get these nets paid for.

Applicants for the new saltwater commecial rod and reel gear license will have to show that they had a valid commercial gear license for gill nets (either saltwater or freshwater) in any two of these years: 1993, 1994, or 1995. They must also show that more than 50 percent of their earned income came from capture and sale of seafood species. Certified federal income tax return is a must. There must be no convictions of a fisheries violation of Class 3 or higher.

Early closure of commercial King Mackeral fishing in the western Gulf of Mexico is closed. An estimated 834,000 pounds were caught out of a 770,000 quota. This ws 20 days earlier than last year.

REGULATIONS EXTENDED

The current 14 inch size restriction on black bass in the Atchafalaya Basin will remain in effect until 1997. This will enable larger fish to be caught later on.

ANGLERS BEWARE

Recreational anglers have better take warning, do not sell your catch. A new law under Act 1316 is a tough one.

A Chalemtte angler has learned the hard way. Wildlife enforcement offices have issued what may be the just citation, punishable under this new law. Caught selling recreational sport fish (redfish) to undercover agents resulted in this angler having to forfeit his recreational fishing license and now he is forever barred from purchasing another one. That's tough.

Well, we have time to do a little saltwater fishing before we hunt again, so good luck.

I talked to a hunter from Baton Rouge, and he told me that one of the Baton Rouge newspapers reported that there was talk about shortage of steel shot, shotgun shells perhaps.

It seems with the limit going from 3 to 5 ducks, and the geese going from 7 to 10 geese, along with 40 to 50 days, caught the shell manufacturer off guard, and there might not be enough shells to last the season. I'm sure if this should happen the not so well name brand shells will be bought and shot, and this could even change the way hunters buy their shotgun shells. Let's hope this is not the case either way.

Tarpons to play at St. Louis Friday

By JOE MUELLER

The South Cameron Tarpons return to the gridiron this Friday as they travel to Lake Charles to face the St. Louis Saints at Cougar Stadium in a game scheduled to kick off at 7 p.m.

The Saints, who this year are moving to District 5AA, will bring a 1-3 record into the game. In 1993 and 1994 the Saints were members of District 6AA along with the Tarpons. They have a new coach this year in Charles Vicknair.

The Tarpons take a 0-3 record into the contest which is their final non-district game. They open District 6AA play Oct. 5, when they travel to North Vermilion.

The Saints lone win of the year came in the second game of the year as they beat Iota 21-0. Their losses were to Iowa, Lake Arthur and last week they opened play with a loss to Kinder, 20-14.

The Saints throw the ball well and their quarterback, David Ardoin, threw for 211 yards at Kinder on 12 of 24 passes.

The Saints Doug Boudreaux caught ten passes last week for 83 yards.

The Tarpons had an off week last week and they moved hard on fundamentals as they are preparing for the district section of their schedule.

Statistically the Tarpons have given up 75 points in 3 games and the Saints have allowed 81 in 4 games.

The Saints have put 76 points on the board to the Tarpons 37.

Last year, in a district game, the Tarpons beat the Saints 38-7.

It has been a long time since the Tarpons started out 0-4, so let's get a good crowd up to Lake Charles to cheer the Tarpons on to a victory.

Reward told for info on burglaries

This month Cameron Crime Stoppers is offering up to $1,000 reward for information leading to the arrest of the person or persons responsible for the theft and burglary at the Kajun Store in Oak Grove and also the theft and burglary at the Suth Cameron Memorial Hospital Physical Therapy Complex.

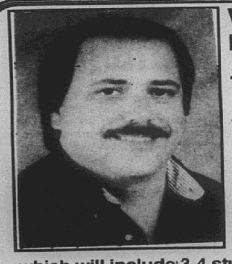
Volleyball tournament

A volleyball tournament will be held in conjunction with the 10th Annual Alligator Harvest Festival this Sunday, Oct. 1, at the Grand Chenier Park. Teams may enter by contacting Stephanie Rodrigue at 542-4615 or by registering at the park at 11 a.m. The entry fee is $20 per team. The six member team may have no more than four men. Cash prizes and T-shirts will be awarded to the first and second place teams. Team captains are to meet at 11 a.m. at the park on Sunday. The first game will begin at noon. The festival is sponsored by St. Eugene Catholic Church in Grand Chenier.

Oyster funds information

According to Rep. Randy Roach, the La. Dept. of Wildlife and Fisheries issued the following information concerning the 1995 Legislative Act 849, which was set up to help compensate oyster fishermen for damages incurred prior to last year's oyster season.



Only residents of Calcasieu or Cameron parishes are eligible to apply. In order to be eligible for payment under this program you must complete the application form that will be mailed directly to each fisherman who had a harvestors license for 1994. Letters are to be mailed out this week. Fishermen are requested to follow Wildlife and Fisheries directions and forward completed forms with information no later than Oct. 30 to La. Dept. of Wildlife and Fisheries, at the address given on the application forms.

For assistance in completing the forms, please contact Kevin Savoie, La. Cooprative Extension Service, Cameron.

Hospital employees compiling cookbook

By GENEVA GRIFFITH

A unique recipe books has been put together by two South Cameron Memorial Hospital employees featuring tasty recipes with health in mind.

Alice LaBove, head dietician, and Carmen Dimas have made substitution to make the recipes to take out the fat to save on calories and to make the eating healthier.

The book also contains guides to daily food choices that lets you choose a healthful diet that is right for you.

It points out that fat in food gives one a lot of calroies and very few nutrients, and that many foods have more fat than you think.

There are some easy ways to lower the fat in your meals, such as using less butter and margarine; use skim or lowfat milk; bake foods instead of fryingthem and triming the fat off of meats before cooking.

Some good hints about vegetables are also included, such as knowing the kinds of vegetables that have different amounts of vitamins and minerals.

Dark green vegetables like broccoli, collrds, spinach, and others have vitamins A and C, B vitamins, iron, calcium and more. Deep yellow vegetables like carrots, yams have vitamin A. Stachy vegetables like potatoes, corn, lima beans have B vitamins.

Other vegetables like green beans, beets, cabbage, green peppers, tomatoes have vitamins A and C and more.

Some flavor additions to vegetables are: sprinkle ground cloves over baked sweet poatoes and acorn squash; mix a little oregano with cooked cabbage; add cooked chopped onion to cooked peas; cook carrots with crushed pinapple or pineapple juice.

There are also tips on feeding young children, facts on eating less salt and sodium, sugar and how to be a smart shopper.

Copies of the book may be obtained from the hospital.

Recipies asked for cookbook

Norma Jo Pinch, editor of the annual Louisiana Fur and Wildlife Cookbook, again asks area cooks to submit recipes for the 1996 book.

They should be mailed to her as soon as possible to P.O. Box 123, Grand Chenier, La. 70643.

THE CHILDREN OF LOUISIANA
Our Greatest Natural Resource

As the parents of six children, my wife Lisa and I care about the educational system here in Louisiana. I'll work to spend more money in the classroom where it belongs and less money on the state level. I want to support the vocational technical system as an alternative to college and work with surrounding industry to hire these individuals. I'll continue my work with McNeese State University to assure their continued growth and utilize their infrastructure relative to economic development and continuing education.

I want our environment to remain clean for my children and yours, and I want criminals kept behind bars where they belong, not walking the street with my children and yours. the children of Louisiana are our greatest natural resource...I'll work hard to protect them...and our state.

All bids are to offer a CASH PAYMENT, one-half (½) of which is to be bonus as full and adequate consideration for every right granted by the lease and one-half (½) of which is to be rental for the first year of the lease, for a lease having a primary term which shall not exceed **five years**, and if the bid offers a delay rental the ANNUAL DELAY RENTAL shall not be less than one-half (½) of the aforesaid cash payment, which lease is to be granted without any warranty or recourse against lessor whatsoever, either expressed or implied, not even for return by lessor of any payments received under the lease or being otherwise responsible to lessee. The MINIMUM ROYALTIES required by R.S. 30:127, as amended, are one-eighth (⅛th) of all oil produced and saved or utilized, one-eighth (⅛th) of all gas produced and saved or utilized and one-eighth (⅛th) of all other minerals produced in solution and produced with oil or gas and saved or utilized, which are not specifically mentioned herein. **Rights to geothermal resources, free sulphur, potash, lignite, salt and other solid minerals are to be excluded and any bid thereon will be disregarded to such extent.** A bid of a royalty less than the aforesaid statutory minimums will be increased to said statutory minimums by the board. All bid alters are notified that the Board does not specifically accept a bid which offers the aforesaid statutory minimums, and reserves the right to accept a bid which offers in excess of the statutory minimums and is considered most advantageous to the State of Louisiana.

The provisions of this notice, or advertisement and the relevant statutes establish the material considerations necessary for the formulation of proposals. Any bid or advertisement shall not be deemed to modify, change, alter or be furnished by resolutions or policy, expressions of the Board not expressly set forth in the notice or by reference.

Notice is given that the State Mineral Board will include in the lease provisions to insure applicable payments attributable to the leased property without regard to adverse title claims, disputes, litigation or claims by the lessee hereunder contained is available to any interested bidders at the Office of the Secretary, Department of Natural Resources or the Office of Mineral Resources prior to the opening of bids on the tract, and prospective bidders should carefully examine the same prior to submitting any bid therefor.

Some tracts available for leasing may be situated in the Louisiana Coastal Zone as defined in Act 361 of 1978 (LSA-R.S. 49:213). Such tracts may be subject to the guidelines and regulations promulgated by the Coastal Management Section of the Department of Natural Resources.

All leases awarded shall be executed upon forms and conditions provided by the current State lease form with all applicable riders appended thereto including but not limited to provisions as follows: Should lessee fail to begin the actual drilling (spudding in) of a well on the lease property within one year from the date of the lease, the lease shall terminate as to both parties to the lease, unless on or before such anniversary date lessee shall pay a delay rental in the amount of not less than one-half of the aforesaid cash payment offered by the successful bidder which shall cover the privilege of deferring the drilling operations for a period of one year. Upon like payments and in like manner, lessee may be given the right to defer the drilling operations for successive periods of one year each during the primary term of the lease. The lease shall provide for the drilling of offset wells and the production of royalties to the State of Louisiana and shall contain the usual pooling provisions and such other provisions as may be required by the State of Louisiana and/or the Commissioner of Conservation. The lease shall provide that all express or implied warranties or representations are disclaimed. The lease shall have the right to enter into pooling or unitization agreements with respect to development of the leased premises subject to the approval of the State Mineral Board. The lease shall have the right to enter into pooling or unitization agreements with respect to development of the leased premises subject to the approval of the State Mineral Board. The lease shall have the right to enter into pooling or unitization agreements with respect to development of the leased premises subject to the approval of the State Mineral Board.

SPECIAL NOTE

By Virtue of promulgated by the Department of Natural Resources under authority of Act 113 of the 1968 first Extraordinary Legislative Session, a royalty less than the full amount of the aforesaid statutory minimums as is required to be submitted by the successful bidder for all leases awarded on or after the September 14, 1968 Lease Sale. **The successful bidder on each new lease is required to submit a separate check equal to 10% of the cash payment.** Such fee may be paid by personal check. **The fee may be submitted either with the bid (inside the sealed bid envelope) or within ten (10) days after the lease is awarded.** In the event that the check is subsequently dishonored by the bank upon which it is drawn, or in the event the successful bidder shall fail to submit the fee within the time specified, the lease shall return the written lease duly executed within **TWENTY (20) DAYS** after bidder's receipt of same under penalty of forfeiture of the lease and the aforesaid cash payment previously tendered and negotiated in the event of failure to do so.

NOTE: In the case of all State Agency Lands hereinafter offered, certified cashier's checks or bank money orders for the cash payment shall be made payable to each respective State Agency, provided that if a sixteenth section, or part thereof, located on a township which is situated in more than one parish, is offered, the certified cashier's check or bank money order for the cash payment shall be made payable to STATE TREASURER. Any Amendment, Supplement or Agreement entered into after the State Mineral Board has awarded such lease must be approved by the Governing Agency or Agencies.

Bids may be for the whole or any particularly described portion of the land advertised, but consistently with the policy of the Board as expressed in a resolution dated August 7, 1968, all bidders are hereby notified that bids on portions of tracts should be described by metes and bounds and be accompanied by a transparent plat outlining thereon the portion bid upon. The plat shall be 1 inch = 2,000 feet in scale and should identify the Point of Beginning, the Section, Township and Range, the Parish, the X and Y Lambert Plane Coordinates, any adjacent existing State Mineral Leases, and should clearly show the entire tract boundaries in relationship to the portion bid upon. It shall also show the topographic features (land and waters) of the area in detail similar to the most recent edition of the U.S.G.S. Quadrangle Maps.

The State Mineral Board reserves the right to reject any and all bids or to grant a lease on any portion(s) of the land advertised and to withdraw the remainder of the tract.

NOTE: The State of Louisiana does hereby reserve, and this lease shall be subject to, the imperscriptible right of surface use in the nature of a servitude in favor of the Department of Natural Resources, including its Offices and Commissions, for the sole purpose of implementing, constructing, servicing and maintaining approved coastal zone management and/or restoration projects. Utilization of any and all rights derived under this lease by the mineral lessee, its agents, successors or assigns, shall not interfere with nor hinder the reasonable surface use by the Department of Natural Resources, its Offices or Commissions, as hereinabove reserved.

TRACT 28485 - Cameron Parish, Louisiana – All of the lands now or formerly constituting the beds and bottoms of all water bodies of every nature and description and all islands and other lands formed by accretion or reliction, except tax lands, owned by and not under mineral lease from the State of Louisiana on October 11, 1995, situated in Cameron Parish, Louisiana, within the following described boundaries: Beginning at a point having Coordinates of X = 1,445,070.00 and Y = 402,450.00; thence South 4,250.00 feet to a point having Coordinates of X = 1,445,070.00 and Y = 398,200.00; thence West 2,244.43 feet to a point on the Northeasterly boundary of State Lease No. 12848, as amended, also on the boundary of said State Lease No. 12848, and State Lease No. 13465, as amended, as follows: Northwesterly, Westerly and Southwesterly to the Westernmost point of said State Lease No. 12848 having Coordinates of X = 1,437,790.11 and 399,495.50; thence Northwesterly on a straight line to a point having Coordinates of X = 1,436,899.00 and Y = 399,800.00; thence West on a straight line to a point having Coordinates of X = 1,434,400.00 and Y = 400,248.83; thence North 2,251.17 feet to a point having Coordinates of X = 1,434,400.00 and Y = 402,500.00; thence East 6,670.00 feet to the point of beginning, containing approximately 344.00 acres, as outlined in red on a plat on file in the State Land Office, Division of Administration. All bearings, distances and coordinates are based on Louisiana Coordinate System of 1927 (South Zone).

NOTE: The State of Louisiana does hereby reserve, and this lease shall be subject to, the imperscriptible right of surface use in the nature of a servitude in favor of the Department of Natural Resources, including its Offices and Commissions, for the sole purpose of implementing, constructing, servicing and maintaining approved coastal zone management and/or restoration projects. Utilization of any and all rights derived under this lease by the mineral lessee, its agents, successors or assigns, shall not interfere with nor hinder the reasonable surface use by the Department of Natural Resources, its Offices or Commissions, as hereinabove reserved.

All bids are to offer a CASH PAYMENT, one-half (½) of which is to be bonus as full and adequate consideration for every right granted by the lease and one-half (½) of which is to be rental for the first year of the lease, for a lease having a primary term which shall not exceed **five years**, and if the bid offers a delay rental the ANNUAL DELAY RENTAL shall not be less than one-half (½) of the aforesaid cash payment, which lease is to be granted without any warranty or recourse against lessor whatsoever, either expressed or implied, not even for return by lessor of any payments received under the lease or being otherwise responsible to lessee. The **MINIMUM ROYALTIES** required by R.S. 30:127, as amended, are one-eighth (⅛th) of all oil produced and saved or utilized, one-eighth (⅛th) of all gas produced and saved or utilized and one-eighth (⅛th) of all other minerals produced in solution and produced with oil or gas and saved or utilized, which are not specifically mentioned herein. **Rights to geothermal resources, free sulphur, potash, lignite, salt and other solid minerals are to be excluded and any bid thereon will be disregarded to such extent.** A bid of a royalty less than the aforesaid statutory minimums will be increased to said statutory minimums by the board. All bid alters are notified that the Board does not specifically accept a bid which offers the aforesaid statutory minimums, and reserves the right to accept a bid which offers in excess of the statutory minimums and is considered most advantageous to the State of Louisiana.

The provisions of this notice, or advertisement and the relevant statutes establish the material considerations necessary for the formulation of proper bids and this notice or advertisement shall not be considered to be modified, enlarged or diminished by resolutions or policy expressed by the Board not expressly or by reference.

Particular attention is directed to the fact that, in addition to the aforesaid stipulation against warranty, the State Mineral Board also includes a special provision in the lease permitting lessee to waive any rights provided in the lease to lessor on production of oil and gas (⅛ or one-half (½)), but not below the statutory minimum of one-eighth (⅛th), in the event of and pending final and definitive adjudication by a court of competent of a bona fide dispute or litigation involving lessor's ownership or title, all upon the terms and conditions therein stated. A full copy of Paragraph 18 of the aforesaid stipulation is on file in the office of the State Mineral Board, Fourth Floor, at the above address, and is readily available for inspection by anyone desiring to examine same.

Some tracts available for leasing may be situated in the Louisiana Coastal Zone as defined in Act 361 of 1978 (LSA-R.S. 49:213). Such tracts may be subject to the guidelines and regulations promulgated by the Coastal Management Section of the Department of Natural Resources.

All leases awarded shall be executed upon forms and conditions provided in the current State lease form with all applicable riders appended thereto including but not limited to provisions as follows: Should lessee fail to begin the actual drilling (spudding in) of a well on the lease property within one year from the date of the lease, the lease shall terminate as to both parties to the lease, unless on or before such anniversary date lessee shall pay a delay rental in the amount of not less than one-half of the aforesaid cash payment offered by the successful bidder which shall cover the privilege of deferring the drilling operations for a period of one year. Upon like payments and in like manner, lessee may be given the right to defer the drilling operations for successive periods of one year each during the primary term of the lease. The lease shall provide for the drilling of offset wells and the production of royalties to the State of Louisiana and shall contain the usual pooling provisions and such other provisions as may be required by the State of Louisiana and/or the Commissioner of Conservation. The lease shall provide that all express or implied warranties or representations are disclaimed. The lease shall have the right to enter into pooling or unitization agreements with respect to development of the leased premises subject to the approval of the State Mineral Board. The lease shall have the right to enter into pooling or unitization agreements with respect to development of the leased premises subject to the approval of the State Mineral Board.

SPECIAL NOTE

By Virtue of promulgated by the Department of Natural Resources under authority of Act 113 of the 1968 first Extraordinary Legislative Session, a royalty less than the full amount of the aforesaid statutory minimums as is required to be submitted by the successful bidder for all leases awarded on or after the September 14, 1968 Lease Sale. **The successful bidder on each new lease is required to submit a separate check equal to 10% of the cash payment.** Such fee may be paid by personal check. **The fee may be submitted either with the bid (inside the sealed bid envelope) or within ten (10) days after the lease is awarded.** In the event that the check is subsequently dishonored by the bank upon which it is drawn, or in the event the successful bidder shall fail to submit the fee within the time specified, the lease shall return the written lease duly executed within **TWENTY (20) DAYS** after bidder's receipt of same under penalty of forfeiture of the lease and the aforesaid cash payment previously tendered and negotiated in the event of failure to do so.

NOTE: In the case of all State Agency Lands hereinafter offered, certified cashier's checks or bank money orders for the cash payment shall be made payable to each respective State Agency, provided that if a sixteenth section, or part thereof, located on a township which is situated in more than one parish, is offered, the certified cashier's check or bank money order for the cash payment shall be made payable to STATE TREASURER. Any Amendment, Supplement or Agreement entered into after the State Mineral Board has awarded such lease must be approved by the Governing Agency or Agencies.

Bids may be for the whole or any particularly described portion of the land advertised, but consistently with the policy of the Board as expressed in a resolution dated August 7, 1968, all bidders are hereby notified that bids on portions of tracts should be described by metes and bounds and be accompanied by a transparent plat outlining thereon the portion bid upon. The plat shall be 1 inch = 2,000 feet in scale and should identify the Point of Beginning, the Section, Township and Range, the Parish, the X and Y Lambert Plane Coordinates, any adjacent existing State Mineral Leases and should clearly show the entire tract boundaries in relationship to the portion bid upon. It shall also show the topographic features (land and waters) of the area in detail similar to the most recent edition of the U.S.G.S. Quadrangle Maps.

The State Mineral Board reserves the right to reject any and all bids or to grant a lease on any portion(s) of the land advertised and to withdraw the remainder of the tract.

Aid offered in meeting act provisions

The Department of Wildlife and Fisheries is accommodating fishermen attempting to qualify for licenses and other aspects of the Marine Resources Conservation Act (Act 1316). LDWF will accept computer print-out transcripts from the Internal Revenue Service to verify the provision that applicants have derived more than 50 percent of their earned income from the legal capture and sale of seafood species in at least two of the years 1995, 1994, and 1993.

Act 1316 and Wildlife and Fisheries Commission regulations require that proof of such income must be provided through certified copies of federal income tax returns, including Schedule C of federal form 1040. "Obtaining a certified federal return takes 6-8 weeks," said LDWF Fiscal Officer Wynnette Kees. Computer print-out transcripts take less time to acquire and will be acceptable pending receipt of the certified federal return. Transcripts must include all schedules.

"A letter from an IRS representative to the effect that the transcript represents a true and correct copy of IRS files must accompany the transcript," said LDWF Legal Counsel Don Puckett.

The proof of income provision is one of the qualifying criteria for fishermen to purchase a saltwater commercial rod and reel gear license or to apply for a commercial permit to harvest spotted seatrout, mullet, and other saltwater finfish species. It is also necessary for eligibility for economic assistance of various types including the gill net buy-back program instituted under the Marine Resources Conservation Act.

Airman Sonnier in the Adriatic on carrier

Navy Airman Carey D. Sonnier, son of Kenneth A. and Angela M. Theriot of Grand Chenier, is serving in the Adriatic Sea near Bosnia aboard the aircraft carrier USS America, which is conducting NATO air strikes in support of efforts to compel Bosnian Serb compliance with United Nations resolutions.

Sonnier is one of 5,000 Sailors and Marines aboard the ship who have been working in support of "Operation Deliberate Force," the NATO operation in support of UN forces in Bosnia. Sonnier's ship is stationed in the Adriatic Sea near the former Yugoslavian republic along with other units in its battle group, including the guided missile cruiser USS Normandy, which recently launched 13 Tomahawk cruise missiles against Bosnian Serb military targets.

Sonnier is currently on a six-month overseas deployment with USS America, which began in late August after leaving from Norfolk, Va.

The 1992 graduate of South Cameron High School joined the Navy in September, 1992.

On choosing superintendent

Open letter on choosing a new school superintendent:

Because I am a retired educator who taught the youth of Cameron parish for more than thirty years, I am very interested in the school system of Cameron Parish and especially in the naming of a new School Superintendent.

I taught during the tenures of four Superintendents: Mr. T. A. McCall, Mr. U. E. Hackett, Mr. W. R. Smith, and Mr. U. W. Dickerson. In addition, I taught the present Superintendent, Mr. Sonny McCall, and later taught with him at South Cameron High School.

All these educators were very capable administrators, who were dedicated to providing a quality education for the students of Cameron Parish. Graduates from parish high schools went on to become as skilled and proficient in their chosen fields of endeavor as those students graduating from much larger and better known schools. It is vitally important that this tradition continue.

The new superintendent will lead the school system into the 21st century. We are witnessing many changes in this country, and if our democratic way of life is to continue, our schools must also change and adapt to a new order. Schools must provide students with the know-how to make a living, the competence to obtain information wisely, the wisdom to make correct decisions, the skill to get along with other people, and the ability to understand and respect diverse opinions.

Several criteria should be considered when choosing a superintendent:

1. Education. Not only the number of degrees but also the areas of specialization should be considered. In addition, special workshop, short courses, seminars, and professional journals are important so that the school system can remain up-to-date on new textbooks, methods, of instruction, and technologies.

2. Experience. Classroom experience, both as teacher and as supervisor, is necessary. Otherwise, the superintendent will not be cognizant of the day-to-day operation of the classroom and to the special needs of both teachers and students. Athletics and extracurricular activities have a place in the overall school program, but the primary purpose of all schools is to teach the academic courses which will equip students with the skills needed to live successfully in our changing society.

3. Leadership. The superintendent must be able to make decisions, mediate differences, delegate authority, manage educational funds, be concerned with the well-being of central office staff, principals, teachers, and support personnel, and maintain good relations with other governmental bodies and with the general public.

4. Character. Educators, second only to parents, should be positive role models for boys and girls and for young adults. The superintendent establishes the moral atmosphere for the whole school system. This individual must have high ideals and should behave with honesty, integrity, and dignity. More over, this person must insist that all subordinates maintain the same standards of behavior.

May God give the School Board of Cameron Parish the wisdom and the courage to make the right choice.

Sincerely,

/s/ Mrs. Ada Ricks Broussard

Closing of two bridges rescheduled

The closing of two bridges serving Cameron parish, which had been scheduled this week, were postponed due to the threat of Hurricane Opal.

The Black Bayou bridge north of Big Lake in Calcasieu parish had been set to close Monday, Oct. 2. The closure now has been reset to 4 a.m., Wednesday, Oct. 11. Traffic will be required to detour via the Grand Lake bridge.

The highway department awarded a contract to Fredeman Shipyard for the bridge repairs.

The other bridge repair delay was that of the Ellender lift bridge north of Hackberry on Hwy. 27. This bridge was to have been out on Wednesday and Thursday, Oct. 4 and 5 while repairs to the base of the bridge was made.

These repairs have not been reset for Oct. 11 and 12 from 8 a.m. to 2 p.m. Detour can be made around through the town of Cameron and north of Hwy. 27.

Menhaden to be saluted

The Louisiana Fur and Wildlife board of directors met last week to elect officers and superintendents to serve for the 1996 festival to be held in Cameron Jan. 10-13.

The festival will salute the menhaden industry and 1996 Festival King will come from that industry. He will be crowned by last year's king, Billy Doxey of Cameron.

The Louisiana Fur Queen will be chosen from the contestants representing the fur bearing parishes of Louisiana and will be crowned by the reigning queen, Adrienne Picou of Grand Chenier.

Absentee voting set

Ruby Kelley, Cameron Parish Registrar of Voters, announced that absentee voting for the Oct. 21, election will be held Monday through Saturday, Oct. 9-14.

It will be held during regular office hours in the Registrar's office on the lower floor of the Cameron Parish Courthouse from 8:15 a.m. to 4:15 p.m. weekdays and on Saturday, Oct. 14, from 8:15 am. to noon.

Courtney is Fair Queen

Courtney Nicole Conner, 14, was declared the winner of Wednesday's Junior Queen Pageant at the Calcasieu Cameron Fair.

She is the daughter of Eddie Joe and Tammy Conner of Creole and is a student at South Cameron High School.

AT ALLIGATOR HARVEST FESTIVAL

Queen is crowned

Macilda Theriot was crowned Senior Queen of the 10th annual Alligator Festival, held Sunday at Grand Chenier Park. Last year's queen, Elora Montie crowned the winner.

Other members of the court were Kressie LeBlanc, Ella Hebert, Mae Miller and Rose Carter. Mrs. LeBlanc also was named Miss Personality.

The contest was sponsored by the Cameron Council on Aging.

State Sen. Cecil Picard served as master of ceremonies.

50th anniversary planned at H'berry

By GENEVA GRIFFITH

The planning committee of the Hackberry 1945 class reunion, which will honor the veterans of World War II, is making plans for their 50 year celebration, which will be held Saturday, Oct. 21, at the Hackberry Community Center.

The class members will receive a memory book containing the names and pictures of the graduates, as follows:

Belva Abbot, Ruby Lee Ellender Gauley, Clayton James Gray, Stella Joyce LeBouef Green, Clarence Lanford, Ira Lea Meyers, Bert D. Moore, Beatrice Vincent Poole, Margaret Emily Nobles Pitts, W. C. Powell, Joseph A. Racca, Jr., Guy Shaffer, R. J. Stoddard, Allen Vaughan, and Helen Jane Vincent.

The Hackberry veterans who will be honored and remembered (including the seven who were killed in the war), are:

Lawrence Arceneaux, Leroy Barbier, Sidney Barras, J. D. Benoit, Wallace Berwick, Walter Lloyd Bonsall, Belwiare Roy Broussard, Emile Nolan Broussard, Eugene Broussard, Leonard Broussard, John Bruno, Charles W. Buford, Charles Burch, Delious Burch.

E. J. Constance, Percy Courmier, William Courmier, Clyde Crooker, Curtis Courvillier, J. E. Davis, Wilbert Dean, Alvin J. Desormeaux, Duffy Desormeaux, Dewey Desormeaux, Dudley Desormeaux, Alfred Devall, Anthony D. D. Bartle, Willis Gray.

Mrs. Sellers, who heads the Battered Women's Task Force for Cameron Parish, led the dedication and noted that the victims were to be honored as heroes, just as the heroes of wars who are honored on the courthouse square.

A prayer was led by Betty Gray.

Earlier in the day the Cameron Parish Police Jury had adopted a resolution on "Domestic Violence Awareness Month" calling to the attention of the public the women's lives that are being devastated and their children's physical and emotional health endangered by the effects of domestic violence.

Violence victims are remembered

By GENEVA GRIFFITH

Cameron Parish victims of domestic violence were remembered Tuesday at noon when a wreath was placed in front of the Cameron Parish Courthouse by the Battered Women's Task Force and member of the family of victims.

Victims remembered were Julia Doxey of Cameron and Lou Ann Gray and Tonia Banks of Lake Charles.

Placing the wreath in front of the World War Veterans Memorial were Cyndi Sellers, Betty Gray, Beulah Wadkins, and Shirley

Projec cut in

By GENE'

All of the C ro- jects that ha led under the Coastal Wetland Planning, Protection and Restoration Act have been turned down by the state, Juror Ray Conner told the Cameron Parish Police Jury Tuesday.

Conner and Parish Administrator Tina Horn attended a meeting in Baton Rouge recently at which the deauthorization of the local projects was announced.

"We have been working on these projects for the past seven years for Southwest Louisiana, and it was all wiped out by the La. Dept. of Natural Resources," Conner stated. "They stated that the projects on the list are not priorities for current state funding. The state is committeed to large-scale projects, and the State Wetlands Trust Fund will be used for that purpose."

Festival is set at Grand Lake

Grand Lake High School will hold its annual Fall Festival Sat., Oct. 7, from 10 a.m. to 4 p.m.

Various clubs, organizations and classes will sponsor games and many other events. There will be kiddie games, the sweet shop, pony rides and concessions.

Also, crafts, a gift shop, bingo, raffles, and sporting events for the adults. Food booths include tacos, boudoin, cake-walk, homemade baked goods, and a well stocked concession.

All events will be held on the school grounds with most of them in the gym.

Homecoming dance, gumbo set Oct. 13

A Homecoming dance and gumbo supper will be held after the South Cameron Homecoming Football Game as a benefit for Cameron Parish Special Olympics Fri., Oct. 13, at the Creole Fire Station.

The gumbo supper will begin at 5 p.m. and the dance at 9 p.m.

There is a $3 per person cover charge for the dance which will feature the band, Barry Badon and the Bayou Boys.

In addition there will also be an auction and raffle held in conjunction with the annual event that helps support special children in the parish.

For table reservations for six or more people, contact Donna LaBove, 775-7211.

911 system ready to go in parish

By GENEVA GRIFFITH

Cameron Parish's Emergency 911 system is ready to go on line and the Parish 911 board will meet this week to decide when to begin the service, Tina Horne, parish administrator, told the Cameron Parish Police Jury Tuesday.

Police Juror Brent Nunez stated, "I am so proud that Cameron has finally caught up with the world. The Police Jury has been working on this project for four years and we have finally come to the reality of it."

The data base is in Cameron and will be handled locally with the cooperation of the Sheriff's Department, South Cameron hospital and Police Jury personnel.

DeLayne Theriot, who has been chosen as an All American Cheerleader, was presented with a citation by Douaine Conner, juror from Grand Chenier. She is the daughter of Kenneth and Angie Theriot of Grand Chenier.

Three proclamations were adopted by the Police Jury, one for "Domestic Violence Month", which was accepted by Cyndi Sellers.

"National Wildlife Refuge Week", was accepted by Herb Bell, from Sabine Wildlife Refuge, who pointed out that there are three National Refuges in Cameron Parish - Sabine, Lacassine and Cameron Parish.

The "Adopt the Eldery" week encourages the citizens of the parish to back the program, which is overseen by the Council on Aging.

Omar Neal Smith, Supt. of Amerada-Hess Co., addressed the Police Jury about high tides going over Wakefield Road, not far from the Cameron ferry, for a distance of 700-800 feet. He said the condition was very bad this past week. The Calcasieu River was several inches high over the road.

The Police Jury said they would seek the necessary permits to raise the road bed.

SHRIMPING PROBLEM

Juror George LeBoeuf requested that the Jury address a problem the local shrimpers are having with small catches.

The Louisiana Wildlife and Fisheries is now requiring larger holes in their shrimp nets, from 1¼ inch to 1½ inch and it is causing an extra burden on the shrimpers to buy new nets.

The Police Jury agreed to write the WLF to clarify the reason they are requiring larger hold nets.

Douaine Conner asked the Jury to contact the state highway department asking that they build a boat launch on State Highway 717.

He also requested that a sign be posted n Highway 717 reading, "Slow, Children at Play".

He also requested that road reflectors be installed on the parish roads to help prevent accidents in Little Chenier, Muria, Grand Chenier, at the Mermentau River. Ray Conner also requested the same for Trosclair Road (Front Ridge).

Brent Nunez requested that the speed limit be amended on Parish Road 446 (Barn Lane Road) to 25 miles per hour.

The Police Jury agreed to stop the payment on roadwork to J. W. McDonald, Co., who has been doing work on roads in the Grand Lake area.

Brent Nunez reported that huge cracks have appeared in the road which will have to be repaired before the parish will accept it.

LIBRARY BID

The Jury accepted a bid from Poole Roofing Co. of Grand Lake to reroof the Cameron Parish Library for $13,185. The only other bid was from Daughdrill General Contractor and Roofing Co., of Westlake for $29,000.

Dan Flavin, candidate for Representative for District 36, spoke to the Jury.

Information is needed

Tina Horn, Cameron Parish Administrator, announced that the parish 911 system will go on line in the near future and needs information from anyone with an unlisted telephone number or a special medical condition.

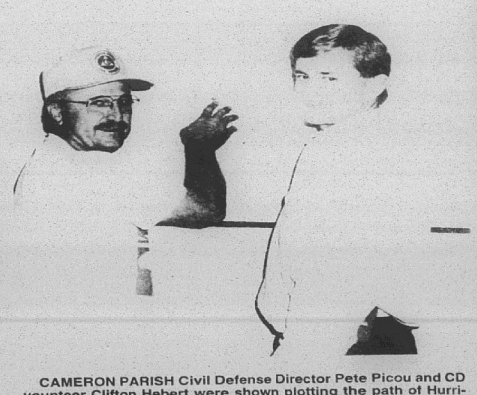
All information will be held in the strictest confidence.

The information needed should be the person's name, physical address, town, phone number and special conditions.

This information should be sent to her at P.O. Box 366, Cameron, La.70631.

Adopt elderly urged here

Cameron Parish Police Jury President Russell Badon signed a proclamation adopted by the police jury at Tuesday's meeting proclaiming that the "Adopt An Elderly" program be initiated throughout Cameron Parish, and that anyone wanting to assist a person of age 60 plus should contact the Police Jury.



Also, anyone needing special assistance should contact the Police Jury informing of their needs.

SHOWN PLACING a wreath in front of the Cameron courthouse in memory of victims of domestic violence were Betty Gray, Cyndi Sellers, Beulah Wadkins and Shirley Gray. Sellers is a member of the Battered Women's Task Force for Cameron Parish. The other three are family members of the late Lou Ann Gray. (Photo by Geneva Griffith.)

PLANNING COMMITTEE members working on the Hackberry homecoming celebration set for Oct. 21 are, from left: Adam Duhon, Burnell Vincent and Jack Moore, holding a commemorative flag, and Elma Marie Moore, holding a World War II Navy uniform. (Photo by Geneva Griffith.)

CAMERON PARISH Civil Defense Director Pete Picou and CD vounteer Clifton Hebert were shown plotting the path of Hurricane Opal in the Gulf of Mexico. The local CD agency was on alert in case the storm came into Cameron. However, it changed its course toward Florida. (Photo by Geneva Griffith.

Coastal map published for S. W. Louisiana

A new eidition in the highly popular series of coastal and offshore fishing mpas published by the Department of Wildlife and Fisheries is now available to anglers interested in the coastal waters of southwestern Louisiana. This full color map covers the Louisiana coast from Sabine Pass at the Texas state line eastward to White Lake in Vermilion Parish. It is the fourth in a series of six maps completed by the Louisiana Artificial Reef Program designed to span the entire state coastline and provide regional information for recreational fishermen.

"These coastal maps are extremely popular," said Rick Kasprzak, Department of Wildlife and Fisheries Artificial Reef program coordinator. "Fishermen find them a valuable navigation tool as well as a fishing tool and a handy reference."

All four of the two-sided full-color maps provide information on locations of oil and gas platforms and artificial reefs, fish identification guides, angling tips, and boating safety rules.

Map #1 highlights the Louisiana coast around Venice and extends west to Fourchon. Map #2 extends from Fourchon west to Point au Fer. Map #3 details the coast from the western portion of Lake Pontchartrain eastward and southward to Chandeleur Sound. Two additional coastal maps are planned.

Each map is available for $11, plus $3 for handling. Each measures 25 inches by 35 inches, and is available either rolled or folded.

Anyone interested in purchasing any or all of the four available maps may write Rigs to Reefs Maps, Louisiana Department of Wildlife and Fisheries, P.O. Box 98000, Baton Rouge, La. 70898-9000; or call 504/765-2934.

4-H workshop conducted by Jr. Leaders

A parish project workshop was held Sept. 23, at South Cameron High School. Members of the Jr. Leader Club conducted workshops on various projects with Kristi Jo Dupuie starting with "Getting Organized For The 4-H Year."

Heather Taylor, a member of the Grand Lake Sr. Club and the Jr. Leader Club, presented a workshop on Illustrated Talks and the Rice Cookery Project.

Other Grand Lake club members attending the workshops in Child Development, Livestock, Rice Cookery and Illustrated Talks, Insects, Demonstrations, and Foods and Nutrition and Contest Day Rules were: Sr. members, Chad Sullivan and Mandy Broussard and Jr. members: Ashley Picou and Scott Myers.

Permits are approved

The Cameron Parish Police Jury approved permits for various projects at the jury meeting Tuesday.

Nine new bridges to be constructed by the state highway department on Hwy. 27 between Hackberry and Holly Beach and Creole and Gibbstown were approved.

Other permits OKed were: William Flores, Jr., trenasse maintenance in Hog Bayou area; Jerry Jones, Jr., maintenance of existing cattle walkway at Grand Lake; Charles W. Bertrand, maintenance of existing cattle walkway at Creole; and Hubert Babineaux, escavate fill material for homestead and fish pond at Big Lake.

Liquor permits also were approved for Thereas Authement, Cameron Discount, Cameron; and Dale Landry, Klondike Country Mart, Klondike.

Immunizations set at J. B.

Free immunizations for children will be held from 10 to 11:30 a.m., Wednesday, Oct. 11 at the Johnson Bayou recreation center by the Cameron Parish Health Unit. Parents are asked to bring shot records.

Funds OKed to aid shrimpers

Senator Bennett Johnston announced Senate passage late Friday night, by a voice vote, of the Fiscal Year 1996 Commerce, Justice, State and the Judiciary Appropriations Bill, which includes $1.65 million for programs designed to find alternate ways to protect endangered species in the Gulf of Mexico without further debilitating the economic livelihood of Gulf Coast shrimpers and fishermen.

The Senate approved a measure which directs the National Marine Fisheries Service (NMFS) to immediately re-examine its conservation restrictions which require shrimpers to use turtle excluder devices (TEDs). A team of experts from both the shrimping industry and the conservation community would scientifically peer-review all of the information used for the sea turtle shrimp fishery emergency response plan (ERP) issued on March 14, 1995, to determine if the mandate issued on May 3, 1995, which requires shrimpers to use TEDs, was justified.

Once recommendations have been made by the scientific experts, the NMFS is directed to work with the shrimp fishing industry to revise the emergency response plan and the trawling restrictions. The NMFS would also work with industry experts to find conservation alternatives to lessen the economic impact on the shrimp fishing industry.

Tarpons to play at N. Vermilion Friday

By JOE MUELLER

The South Cameron Tarpons hit the road again this week as they open District 6AA play at North Vermilion.

Both of the teams are winless in pre-district games as the North Vermilion team brings an 0-5 record into the game while the Tarpons are winless in four games.

The Tarpons statistically should win as they have given up 89 points in four games and North Vermilion has given up 158 points in five contests.

On offense the Tarpons have scored 45 points to only 28 by North Vermilion.

Last year the two teams faced each other in the opening round of the state playoffs and North Vermilion scored a 17-4 win.

North Vermilion scored both touchdowns in the win on runs over 80 yards by Donovan Allen. Allen is not back this year.

The North Vermilion team has averaged less than 70 yards of offense so far this year while they have given up over 250 yards per game.

South Cameron has been searching all year for some offensive and defensive consistency and now with district starting it is time to find it.

The Tarpons should win their opening district game but it will be a tough district and if they are going to play in the playoffs, now is the time to start getting some wins.

District 6AA is composed of South Cameron, Iota, Notre Dame, Lake Arthur and North Vermilion.

The prediction of finish in the Lake Charles American Press football edition was Notre Dame, Welsh, Lake Arthur, South Cameron, Iota and North Vermilion.

In other District 6AA games this week, Iota is at Welsh, Lake Arthur at Notre Dame.

We will not know the results of the predictions for a month, so let the district games begin.

CAMERON OUTDOORS

By Loston McEvers

Redfishing good

SEASON'S BREAK

The break from teal season to dove season has surely let many of us in on some pretty fair redfish catching. There's quite a few large redfish in the marshes along Hog Bayou, running as high as 32 inches long.

Then we had the celebration of the Alligator Festival in Grand Chenier at the park, where everyone had a nice time. Many activities for the kids as well as a great family outing.

Our bow hunters are out trying to bag an early deer of the season for bow hunting only. It opened Oct. 1.

The oyster fisherman are preparing for oyster season which opens this month. We wish them well.

DOG FIGHT RESULTS

Many of the bass anglers of the area qualified in the Big Afternoon Dog Fight, Sept. 17, or Toledo Bend. There were 121 teams fishing and a 3 bass stringer was all it took for a limit.

Teams came from dog fights held on the Sabine, Calcasieu and Mermentau rivers, Sabine, and Lacassine refuges and other places across Louisiana.

Taking first place was Dwight D. Duke and Gary Romero, 14.32 pounds. The 25th place was 8.35.

Out of the 121 teams, 72 teams weighed in fish. There were 19 teams that averaged 3 pounds or more per fish.

DUCK TALK

The reason they claim we'll have more ducks down this year is they had a goal set back in 1990 on the breeding populations. As you can see, I guess the pintail is the worst off and most goals were reached.

Below is the species, goal, and 1995 number:

Northern Pintail, 5,597,000; 2,758,000, down.

Redhead, 640,000, 888,000, up.

Canvasback, 538,000, 771,000, up.

American Wigeon, 2,953,000, 2,614,000, down.

Green Winged Teal, 1,843,000, 2,301,000, up.

Blue Winged Teal, 4,653,000, 5,140,000, up.

Northern Shoveler, 1,985,000, 2,855,000, up.

Gadwall, 1,518,000, 2,836,000, up.

Mallard, 8,122,000, 8,269,000, up.

This is the reason we're going to have more ducks and from a 3 to 5 limit and 30 to 50 days to hunt.

I had a couple of calls on the limits and ducks we can kill, and I'll try to explain it to you as a wildlife agent explained it to me.

The daily bag limit on ducks is 5 and you may not have more than 4 mallards, only 1 which may be a female. Folks, this is the greenhead and French female mallard they are talking about. 1 black duck which is still in the mallard limit. We normally don't see them down here in southwest Louisiana. Two wood ducks, 3 mottled ducks - that's our summer mallard raised down here. These don't count in the 4 mallard limit. Example: you can have 3 greenheads, 1 female mallard plus one other duck, and it can be a mottled duck or you can have a greenhead, a female mallard and 3 mottled ducks, one pintail, 1 redhead or 1 canvasback.

Coots limit is 15 daily.

Now, in addition you may have 5 mergansers daily, but only one can be a hooded merganser.

Canada Geese (ring necks) - the regulation pamphlet is sort of tricky. For us south of Highway 82, from the Texas line to the Cameron ship channel up to the Intracoastal Canal to the north and east on the coast to Vermilion Parish, you cannot hunt south of Intracoastal Canal. Highway 82 from Cameron is not the boundary, it's the Intracoastal Canal going east. You can hunt them in the Hackberry area, Holly Beach, etc. A special permit is required. Limit is 2.

Regular geese is 10, only 2 can be speckle belly.

Mary Devall named All Around Cowgirl

Mary Devall of Hackberry earned all-around cowgirl, with 2174.5 points, in the junior division when the Region 4 standings were announced for the 1995 Little Britches rodeo season. Keisha Addison of Hackberry, with 2091 points, was runner-up.

Final winners are those who have accumulated the most points during the season. They are:

Senior boys, first, calf roping, David Devall, Hackberry, 431.

Senior girls, fifth, breakaway calf roping, Daniele Delcambre, Hackberry, 305.

Barrel race, third, Carissa Devall, Hackberry, 451.5.

Junior girls, first, breakaway calf roping, third, Keisha Addison, Hackberry, 375.

Barrel race, first, Keisha Addison, 481; fourth, Toby Devall, Hackberry; fifth, Mary Devall, 370.

Goat tying, first, Mary Devall, 479; second, Keisha Addison, 444.5.

Trail course, third, Mary Devall, 438.

Pole bending, fourth, Mary Devall, 355; fifth, Toby Devall, Hackberry, 275.

Dally ribbon roping, second, Toby Devall, Hackberry, 410; fifth, Mary Devall, Hackberry, 350.

Danielle Delcambre of Hackberry scored 20.925 in pole bending at the Colfax FFA High School Rodeo recently.

Tarpons lose to St. Louis 14-8

By JOE MUELLER

The South Cameron Tarpons traveled to St. Louis last Friday to face the Saints in their final pre-district tune-up.

The Saints put 11 points on the board in the first half and held on to defeat the Tarpons 14-8.

The Saints scored first in the game on a 3-yard run by Carl Ross. David Ardoin hit Scott Stewrt for the extra points and early in the second quarter the Saints were up 8-0.

The next touchdown came from South Cameron as John Pradia hit Derrick Blackwell with a pass that covered 67 yards; Jared Savoie ran in the extra points and the score was tied at 8.

Just before halftime the Tarpon defense held and forced the Saints to try a 27-yard field goal which Ty Monet nailed for an 11-8 halftime lead for the Saints.

The only scoring in the second half came on a 25-yard field goal in the third quarter by the Saints Monet.

The game was a primary defensive battle as the two teams combined for only 22 points.

The Tarpons were held to a total of 100 yards in the game. They were forced to punt 7 times. They could only gain 8 yards of total offense in the second half.

The Saints could only cross the goal line once as they were stopped twice deep in Tarpon territory and forced to kick field goals.

The Saints passing attack was good for 186 yards as Saints quarterback David Ardoin was named player of the week by the Lake Charles American Press for his 18 of 27 passes.

The Tarpons open district play this week on the road at North Vermilion.

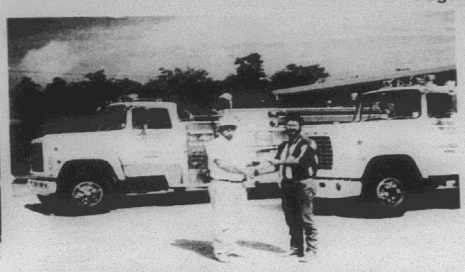
ELECT CARL #90 BROUSSARD
CLERK OF COURT

TO ALL THE RESIDENTS OF CAMERON PARISH:
As I have stated all during this campaign, from my work as an Abstractor, working in the Cameron Parish Clerk of Courts' Office and many other Clerk of Courts' Offices, statewide, I have learned and been involved with the day-to-day workings of these offices.
I feel that the Knowledge and Experience I have gained along with my strong work ethic will help me run your Clerk of Courts' Office in a PROFESSIONAL, EFFICIENT, COURTEOUS and COST EFFICIENT manner to the best of my ability.
When elected, I will no longer be an Abstractor. I will be your Clerk of Court, there for you, to serve as a Public Servant for all Cameron Parish Residents and pledge to work with all Public Agencies and Bodies to help bring Cameron Parish into the 21st Century.
In the future, I am anxious to serve each and every one of you as your next Clerk of Court.
In closing, on October 21st, I am asking each of you to ELECT ME. . .
CARL BROUSSARD - #90
AS YOUR NEXT CLERK OF COURT
Carl
(Paid for by Carl Broussard)



The candidate you know ...and trust!

A proven record of public service... a valued friend to the people of Cameron Parish!
Gertrude Broussard Derouen, born and reared in Grand Chenier, attended school in Sweetlake, and shown with her son, Darrell Derouen
Isn't it nice to know that there are people in public service who really do serve the people who elected them?
Darrell Derouen, whose roots are in Cameron Parish, has served us well on the Calcasieu Parish Police Jury for the past 12 years. His skills and training make him the most experienced candidate in this race.

500 enrolled in parish 4-H program

By MIKE LaVERGNE
Associate County Agent

The United States has approximately 5 million youth 9-19 years old enrolled in the 4-H program nationwide. Louisiana has a State 4-H enrollment of 78,000 4-Hers with Cameron Parish having an annual enrollment of approximately 500 youth.

Youth who enroll in the 4-H program have a choice of 48 different projects of interest that they may enroll in. 4-H projects are designed to encourage youth to pursue answers on their own and to "Learn by Doing" which is the 4-H motto.

Locally, youth have Contest Day, Demonstration Day, Achievement Day, Workshops, Record Competition, Community Service Activities and Livestock Shows.

Statewide 4-Hers can attend conferences, 4-H camp, Challenge Camp, Short Course, juding contests and livestock shows. Nationally, youth can win trips to Washington, D. C., Chicago, Ill., Memphis, Tenn., Florida and various others. Youth can also win certificates, plaques, scholarships and trips for their 4-H work, but the feel of self-confidence, accomplishments and higher self esteem can be realized by all 4-H youth.

Fair winners told

Cameron Parish 4-H and FFA members earned honors in the swine and lamb shows at the 1995 Cal-Cam Livestock Show held in Sulphur on Sat., Sept. 30. Tiffany Boudreaux won a $400 scholarship as the Grand Champion Sheep Showman and her lambs placed first and second in their respective classes. Cameron Parish dominated the hog show with Brett Baccigalopi's hogs placing first and second in the third class and he was the Champion 9-10 year old showman.

Dusty Savoie's pig placed first in its class and Dusty was the 11-12 year old Champion showman. Ryan Bourriaque placed second in the 13-14 year old showmanship and his hog placed fourth.

Danielle Shay's hogs each placed third in their classes and she placed second in the 17 and over showmanship. Other exhibitors included Courtney Sturlese whose hog placed second, Scott Myers hogs placed second and fourth and Holly Manuel's hog placed second.

Constitutional amendments explained

Representative Randy Roach explains Constitutional Amendments on October 21 ballot:

There are 15 Constitutional Amendments which you will have to vote on on the October 21, ballot. There are more amendments than usual because we could not consider non-fiscal amendments during the 1994 legislative sessions. However, several of these amendments involve issues which we, as tax payers and voters, have wanted the legislature to address for several years.

Rep. Roach stated: "I would encourage you to consider voting in favor of the following amendments":

No. 1 - Forced Heirship - a vote for this amendment would abolish forced heirship in Louisiana except when a child is younger than 24 years of age or is mentally or physically disabled and unable to care for himself. If parents have children 24 years of age or older they will be free to make a will and leave their property to whomever they want.

No. 2 - Term Limits for Legislators - the Louisiana legislature is the only legislature in the country to pass a term limit proposition. Several other states have adopted term limits, but they were placed on the ballot by voter initiative. A vote in favor of this amendment would limit legislators to three consecutive terms in office. I would have preferred to see the limit at two terms, but I think that this is a step in the right direction.

No. 3 - Cap on Liability of State and Local Government - each year the legislature appropriates millions of dollars to pay off judgments rendered in suits against the state. Presently, there is no limit on the amount of money which the state or local government can be forced to pay. A vote for this amendment would limit awards for general damages against state and local governments to $750,000. This limitation would not affect an injured party's right to recover out of pocket expenses or medical expenses. The $750,000 limitation would be adjusted annually to reflect the change in the consumer price index. Louisiana is currently one of only 11 states that do not have a limitation on liability.

No. 6 - Two-thirds Vote for Fees - a vote for this amendment would require two-thirds approval by the legislature to enact or increase a state fee or civil fine. This is the same rule which currently applies to taxes. It is often difficult to determine the difference between a fee or a tax. Louisiana is tenth in the country in its reliance on fees to help finance state government. A fee can pass by a majority vote. This amendment will change that and require a two-thirds vote regardless of whether a revenue measure is considered a tax or a fee.

No. 7 - Limit Local Tax Votes - currently local governments can place a tax proposition on the ballot as often as they want. A vote for this amendment would prohibit local governments from submitting to the voters the same tax proposition more than once in a six month period, except in an emergency situation.

No. 8 - Local Hunting or Fishing Laws - there is serious question as to whether or not the legislature can enact laws that restrict hunting and fishing activities in a particular area of the state. The legislature has been routinely adopting such legislation for the past several years. For example, we routinely enact special regulations affecting the oyster season in Calcasieu Lake. A vote for this amendment will make it clear that the legislature has the authority to pass such local laws.

No. 9 - Mineral Rights of Restored Coastal Lands - there is a serious dispute between the state and coastal land owners over mineral rights beneath land restored through coastal erosion projects. A vote for this amendment would allow the state to transfer mineral rights in land it restores through coastal erosion projects to the former land owner.

No. 10 - Use of Mineral Revenue Fund - the Mineral Revenue Fund was created to force the state to use one time mineral revenue to pay off state debt. A vote for this amendment would make it clear that this money can only be used to pay off state debt or to reduce the debt of the public retirement systems. The money could not be used directly or indirectly to fund cost of living increases for retirees.

No. 11 - Oilfield Site Restoration Fund - there are approximately 2500 abandoned oilfield well sites in Louisiana that need to be cleaned up. A vote for this amendment would protect the money in the fund from being used for other state purposes. The fund was originally created in 1993 and this amendment will give the fund protection under the state Constitution.

No. 12 - Oil Spill Contingency Fund - a vote for this amendment would give constitutional protection to the Oil Spill Contingency Fund and dedicate existing fees to that fund. This will protect money in the fund from being used for other state purposes. As of 1995 the fund balance was $17 million.

No. 13 - Veterans' Civil Service Preference Points - the constitution currently requires state and local civil service departments to grant veterans a five-point preference on a civil service examination. A vote for this amendment will allow the legislature to designate by two-thirds vote those wars or conflicts for which preference points can be awarded.

Next week we will discuss the remaining amendments. I wanted to briefly summarize the amendments which I felt were important and which I thought you should give serious consideration. To summarize, I would encourage you to consider voting for the following amendments: No. 1 (Forced Heirship), No. 2 (Term Limits), No. 3 (State and Local Liability Limit), No. 6 (Two-thirds Vote for Fees), No. 7 (Limit Local Tax Votes), No. 8 (Local Hunting or Fishing Laws), No. 9 (Mineral Rights of Restored Coastal Land), No. 10 (Mineral Fund Use), No. 11 (Oilfield Site Restoration Fund), No. 12 (Oilfield Contingency Fund, and No. 13 (Veterans Civil Service Preference Points).

Many Americans feel that any veteran who has established eligibility to his/her access to health care is entitled to a full continuation of that care.

Grand Lake KC Council plans dance

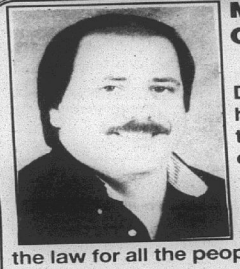
CYNTHIA "C'ANNE" PRIMEAUX KING
CLERK OF COURT

ELECT #91

My Dear Friends of Cameron Parish,

I am the only candidate who has worked extensively in all departments and areas within the Clerk's office as a Deputy Clerk of Court for 18 years. I have been the Chief Deputy Clerk since 1988 and in the Clerk's absence have performed all the clerk's duties.



I know what Cameron Parish citizens demand of their Clerk of Court - Experience, quality of service and dedication to the needs of Cameron Parish. I know that as your Clerk of Court I will be able to effectively serve all the people all the time with honesty and dependability.

I am very proud of my Cameron Parish Cajun Heritage. I was born and raised in the Creole community all of my life. I am the daughter of Roland and Lydia Primeaux. I am married to Michael King and we have three children, Ryan, Krystal and Chelsi. I am an active member of Sacred Heart Catholic Church and numerous civic organizations including the Council on Aging, Cameron Parish 4-H, Girl Scout Troop 808 and summer youth softball.

Your vote and support is greatly appreciated. May God Bless you.

Sincerely,
C'Anne

(Paid for by Cynthia P. King)

MY DEAR PEOPLE OF CAMERON PARISH:

I have served my Parish as a street Deputy for 11 1/2 years. Not once have I had any kind of negative criticism about the way I did my job. I tried to treat every one fair and with respect.

When you elect me your Sheriff, I will continue to be fair and honest with all of you. I will have equal protection under the law for all the people of Cameron Parish.

Together, Let's bring back Leadership, Pride and Integrity to your Sheriff's Office.

Thank you Creole and Grand Chenier for your generous support at our rallies.

Jerry Nunez

OUR NEXT RALLY WILL BE AT KLONDIKE:
OCTOBER 8 -- 1:00 P.M. - 3:00 P.M.

PLEASE VOTE FOR ME - GOD BLESS ALL OF YOU
★ ELECT JERRY NUNEZ ★

Fishery, wildlife bills explained

By REP. RANDY ROACH

Amendment No. 8 authorizes the Legislature to enact local laws regulating hunting and fishing. Each year the Legislature adopts local laws which regulate either the time, quantity or method of taking of wildlife or fish in some particular area of the state.

This legislation was prompted over renewed concern over a 1978 decision of the Louisiana Supreme Court which declared that a statute prohibiting the use of gill nets in certain portions of Terrebonne and Lafourche Parishes to be unconstitutional. The court concluded that even though the law regulated the use of gill nets, it violated a general principle of the Constitution that the Legislature cannot enact a local law which defines a local crime.

Whenever the Legislature enacts a law regulating hunting and fishing, it defines a particular act to be a crime. It is punishable as a class 1, 2, 3 or 4 violation.

In recent years the Legislature has attempted to deal with wildlife and fishery issues on a local basis. Many of the problems in these areas are "local" in nature and are best addressed by adopting a "local" law. The following is a list of "local laws which the Legislature passed during the 1995 regular session regulating wildlife and fishery matters:

1. Act 550 (HB No. 42 by Rep. Long) - provides relative to the tagging of nets used in Black Lake, Clear Lake and Prairie Lake and with respect to the powers of the Northwest Louisiana Fish and Game Preserve Commission.

2. Act 118 (HB No. 256 by Rep. Hopkins) - provides relative to fishing devices on Caddo Lake - increases the maximum number of yoyo's and other trigger devices that can be used by a person and provides for related matters.

3. Act 200 (HB No. 277 By Rep. Riddle) - allows the taking of both fin in Avoyelles, Terrebonne and Tangipahoa Parishes during the months of December, January and February.

4. Act 583 (HB No. 829 by Rep. Roach) - prohibits the use of gill nets in that portion of Calcasieu Lake situated in Calcasieu Parish.

5. Act 1140 (HB No. 1452 by Rep. Ackal and others) - provides relatives to trawling vessels and size of nets in the Breton and Chandeleur Sounds.

The Wildlife and Fisheries Commission, also, routinely adopts regulations which affect hunting and fishing in particular areas of the state. For example, the Commission has set up shrimp sanctuaries in certain areas of the state and designated certain lakes as "trophy lakes" in the black bass management plan.

CAMERON FARM INCOME

(By Hadley Fontenot)

A gross income of over 2¼ million dollars was realized by Cameron Parish farmers in 1961. This was in spite of Hurricane Carla which threatened to devastate Cameron and caused some damage to the farming industry.

Gross receipts from rice on 12,300 acres is expected bring in 1-1/3 million dollars and the sale of cattle from the production of 55,000 head is expected to gros 1¼ million dollars.

Another $150,000 ws realized from the sale of eggs from 22,000 hens, hay, sheep, hogs and fruit.

Several factors helped to overcome the damage caused by high winds to the rice crop and salt water damage to the cattle ranges. Good rice stands and weed control plus a good fertliziation program by the majority of rice farmers were resonsible for the good harvest yield in spite of losses caused by shattering and blossom damages.

On one large farm, Lacassine Company, where 1830 acres were planted by tenants, an average yield of 22.29 barrels were harvested.

Lost grazing from the damaged marsh ranges were substantially offset by the distributionof 3½ million pounds of free grain. This grain was made available from the C.C.C. stock of surplus grain.

4-H CLUB WORK

There are 12 4-H clubs organized in Cameron Parish, 10 white and 2 black. The enrollment consists of 259 boys and 265 girls, a total of 524 or about 59% of the eligibles.

Each club has a regular monthly meeting at which time the 4-H agent and Home Demonstration agent present various demonstrations. The 4-H executive committee meets once each year to formulate plans for parish activities.

(4-H Club members pictured with their various projects in this issue include Cherie Kay Griffith, Leslie Griffith, Michael Duhon, Clyde conner, J. M. Crador, Charles Greathouse, Kenneth and John Duhon, Johnny Constance, Michael Young, Beulah Pitts, Carol Johnson, Alma Johnson, Judy Granger, Darlen McCain, Ida Young, Darlene Guidry, Marlene LeBleu.)

FUR FESTIVAL SUPPORT

Cooperation has been pledged by sixteen local civic and fraternal organizations in staging the Seventh Annual Louisiana Fur and Wildlife Festival which will be held Jan. 11 and 12.

The organizations are: Cameron Lions Club, Doxey-Vincent Post, VFW, Grand Chenier American Legion, Knights of Columbus, Cameron Boat Club, South Cameron Athletic Association, Crele Home Demonstration Club, Cameron HD Club, Grand Chenier HD Club, Cameron Garden Club, VFW Auxiliary, Catholic Daughters of America, Cameron Optimist Club and Richard Brothers Post, American Legion.

CATTLE WALKWAYS

(By Thomas N. Shiflet)

Cattle walkways remain the most popular structural practice on marsh rangelands in the Gulf Coast Soil Conservation District. This practice originated in Cameron Parish in 1950. To date over 90 miles have been constructed in the parish.

Construction has been particularly active this year with new walkways, extension of existing ones, and reconstruction of those damaged by Hurricane Carla in September, 1961. Approximately four miles of new walkways and extensions have been installed to date this year by district cooperators. These include Isaac White, Laudice Richard, Ojust Richard, J. B. Meaux, Dallas Domingue, Guy Murphy, Joe G. Boudoin, Wakefield Erbelding, Mayo Boudreaux, and Fred Erbelding.

Refuge to close

The Lacassine National Wildlife Refuge will close all its waters to fishing and other general use after Oct. 15. Archery deer hunters are reminded that they are allowed to hunt Lacassine Pool through Oct. 31, but boats are prohibited in the Pool after Oct. 15.

Hunters may use boats on refuge waters outside Lacassine Pool through Oct. 31. The road leading to the Pool will remain open for the general public to visit the area all year.

The purpose of the refuge is to serve as a winter haven for migratory waterfowl. To avoid disturbing the hundreds of thousands of geese and ducks that use the refuge, public use of its waters has to be restricted during this period.

The refuge will open again to fishing and boating on March 15.

PROCEEDINGS

Minutes of the regular meeting of the Cameron Parish Gravity Drainage District No. 3 held on Tuesday, Aug. 15, 1995, at 2:30 p.m. at the Cameron Parish Police Jury Annex.

Members Present: Edwin W. Quinn, Scott Henry, E. J. Dronet, George Kelley, and Earl Guthrie.

Members Absent: None.

Others Present: James LeBoeuf, Billy Delany, Paul Yakupzack, Ray Conner, J. Berton Daigle, George LeBoeuf, Lonnie Harper, Steve Klett, and Amos Vincent.

A motion was made by George Kelley, seconded by Scott Henry, and unanimously carried that the minutes of the July 18, 1995, regular meeting and the July 27, 1995, special meeting be approved as written.

A motion was made by George Kelley, seconded by Scott Henry, and unanimously carried that the Financial Report for the month of July, 1995, be approved.

A motion was made by Earl Guthrie, seconded by Scott Henry, and unanimously carried to approve the following bills for payment:

1. Campbell Gas & Oil Company, Inc., $171.00.

2. Cameron Cable and Cordage, $31.50.

3. Cameron Parish Pilot, $8.00.

A motion was made by E. J. Dronet, seconded by George Kelley, and unanimously carried to authorize Ed Quinn to sign the permit recently received to perform clean-out of the Sells Lateral.

President Quinn reported that a reply has been received from the Department of the Interior, stating that the U. S. Fish & Wildlife Service remains committed to renewal of the Memorandum of Understanding regarding future resonsibilities to the Cameron Creole Automation Project with all provisions intact.

Steve Klett presented the Water Management Report for the month. He stated that tropical storms recently have made the water levels and salinities high, with no relief in sight. In trying to keep water levels down, Mr. Klett stated that they are open to suggestions because all predictions have gone awry this month. He said he felt it would be better to close the gates with such high salinities in the watershed, leaving flapgates open. This was agreed to as the best option. Scott Henry recommended a contingency plan to be established in the case of hurricane evacuation which would make communications difficult. It was agreed that the Drainage Board will continue management of the Cameron-Creole Watershed as usual unless there is the threat of an impending direct strike of a hurricane, then the gates to the Water Control Structures will be left open at least 24-48 hours prior to the predicted hit.

A motion was made by E. J. Dronet, seconded by Scott Henry, and unanimously carried to approve a letter being sent to the Police Jury and to the Governor with copies to the Congressional Delegation urging the Police Jury to help us in an effort to save the $3.8 million Breaux Bill Trust Fund for Maintenance of the Cameron-Creole Watershed.

Steve Klett stated to the Board that he has accepted a position in the Florida Keys to work with endangered species. He said that he has enjoyed his work here with the U. S. Fish and Wildlife Service, but this new job allows him to advance with the Service. He did say that the Cameron-Creole Watershed Project has been a good schooling for him. He thanked Board members for their support over the five years he's been here, and wished them the best of luck with the Cameron-Creole Watershed.

On behalf of the Board, President Quinn wished Steve the best of success in his new endeavors.

Paul Yakupzack, also with the U. S. Fish and Wildlife Service, stated that they try to get Glenn Harris to take Steve's job temporarily, and Jim Ashfield will take up a lot of the slack in the meantime. He stated that the U. S. Fish and Wildlife Service is going through a reorganization, and they will try to get someone to fill the job as soon as possible.

Engineer Lonnie Harper stated that the permit for clean-out of Lateral 25 (Sweet Lake Land and Oil ditch) is coming off public notice. With regard to the School Board Lateral, he stated that he issued a letter to the Corps of Engineers that we have begun dredging on the School Board and Creole laterals. He also stated that he has checked to see if we need a permit to restore cap on top of culverts on Henry levee, and he found that this will be covered under the Nationwide permit if dredging is from an open waterway and if no more than 30-50 cubic yards is moved. Mr. Harper stated that we are now faced with inspection where we do cleaning and where we put the spoil. If in cleaning vegetation from staff gauge #3 lateral, no dredging of soil mass is done, then no permit will be required.

Mr. Ray Conner stated that the Board has been doing a good job. He then reported that at the "Y" there is a problem in that all the water from the Recreation Center has been pumped out. East of the road going to the Recreation Center, the residents' water is much higher than it used to be. He said that he's certain that 9-1/2 inches of rain has something to do with it, but he asked that the Board look into this and see what can be done. This was agreed.

Mr. Conner also asked about clean-out of the Primeaux lateral, and it was stated that one property-owner has signed a statement that he does not want that work to be done.

George LeBoeuf thanked the Board for clean-out of the School Board lateral. He then inquired about a continued problem of drainage in the area due to high water levels in the river. He inquired whether the School Board lateral could be tied in with the Jetty Road pump, and it was agreed that the Board will look into it.

Scott Henry asked for permission to get a price on retainer boxes to be constructed under all diesel tanks on Gravity Drainage District No. 3 pumps. George LeBoeuf agreed that the Police Jury will assist with installation of these boxes after they are built. Mr. Henry will get quotes from Oil Patch Welders and Carl Styron.

Lonnie Harper reported that Larfay Ancelet is supposed to come back and do some cleanup and repair work on W-1 East clean out. Apparently some culverts have stopped up as the project has settled, and this work will be done before the project is accepted.

Scott Henry reported that Mike Henry has asked him about a flagpated culvert North of the Amoco field in the levee against the Reserve in order to relieve water in the area. Mr. Henry asked them to put the request in writing. He stated that this is Gravity Drainage District No. 3's protection levee, and with our permission they are willing to do the work themselves. Lonnie Harper agreed that he will check to see if a permit would be required, and it was suggested that this Board furnish a culvert and allow them to install it.

There being no further business, the meeting was adjourned.

MUSTANG REUNION

Mustangs of the 40's and 50's annual reunion will be held Sat., Oct. 21, at the Hackberry Community Center. World War II veterans will be honored at the 50th annivesary.

The class of 1945 will be honored as this is their 50th reunion year.

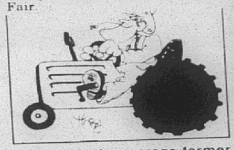
The alumni include classes of the 1930's, 40's, 50's and 60's. If you attended Hackberry High School from 8through 12th grades, and are not a graduate, you are still invited to attend.

Contact committee members by phone, 762-4656 or 762-3570 or write, P.O. Box 441, Hackberry, La. 70645 for information or to make reservations.

Speakers for the banquet will be U. L. Tidwell, recognizing the veterans, and former Senator Jessie Knowles.

If you are a World War II veteran and interested in attending, contact one of the numbers listed above.

TRIP



Jack and Elma Marie Moore attended a Navy reunion in Denver, Colo., Sept. 12-17.

VISITORS

Joshua Moore and Justin Reppel of New Orleans, grandsons of Jack and Elma Marie Moore, spent several weeks in Hackberry during the summer.

WINNER

Margaret Pitts won 35 blue ribbons, 13 red, and the Best Oldest Antique Bowl at the Cal-Cam Fair.

In 1850, the average farmer could supply four people with food, by 1910, it was seven and by 1980, with advances in agricultural technology, a farmer could feed 78 people.

Derouen guest speaker at Lions Club

Darrell Derouen, candidate for the State Representative of District No. 36, was the guest speaker at last week's meeting of the Cameron Lions Club. He was introduced by David Eiken, acting Lions president.

Derouen outlined his platform and said he had served on various boards and for 12 years as a Calcasieu Parish Police Juror.

Ed Kelley reported the club had made a profit of $734.50 on their spaghetti sale last week. The money is to be used for club projects.

The club will hold a bingo Sat., Oct. 14, at the Cameron Multi-Purpose Building. The meal will start at 6 p.m. Early bird games are at 7 p.m., and the Bingo is at 7 p.m.

Following the game, a Homecoming dance will be held for students in grades 7-12. Students must register dates who do not attend South Cameron High School in the office by 3:15 p.m. Admission is $4.

The Homecoming queen and her court will be presented at 10 p.m. and the dance will end at midnight.

911 service begins Sun.

CAMERON PARISH's Enhanced 911 Service will go on line Sunday, Oct. 15. The Cameron Parish Sheriff's Dept. will be in charge of answering the calls and dispatching assistance to callers. Residents are reminded to use the 911 service only in case of an emergency. Sheriff James Savoie is shown above with Bessie Fountain, communication supervisor, with the 911 monitor.

Meeting set 18th to choose Super.

By GENEVA GRIFFITH

Cameron Parish still does not have a new Superintendent of Schools to succeed Thomas "Sonny" McCall who is retiring Jan. 3, 1996, after taking some of his accumulated leave after Nov. 1.

The school board was to have chosen his replacement at the October meeting last week, but the board was deadlocked with Bill Morris, Clifton Hebert and Tony Johnson voting for Judy Jones and Karen Nunez, Glenda Abshire and Daniel Billiot voting for Roger Richard.

The 3-to-3 vote was the same as on the budget cutting measure, with Morris, Hebert and Johnson supporting it, and Nunez, Abshire and Billiot opposing it.

Before the vote on the superintendent was taken, the board went into an executive session to discuss the qualifications of the two applicants. They then came back into an open meeting for the vote. Two women from Grand Chenier addressed the board before the vote was taken.

Ada Lee "Miss Ricks" Broussard, a retired teacher and Cameron Parish librarian urged the members to put aside their personal feelings and gender-based prejudices and vote for the good of the children in the parish. She recalled when she was in the school system that on three different occasions she had asked to be put in a supervisory position and had been turned down with a man getting the job.

Dora Mae Pinch asked the board members to let their votes reflect what is best for the children. She has grandchildren in the local schools.

Angry spectators expressed disgust with the board for their inability to come to a decision after the meeting, and there was talk expanding the board to have an uneven number of board members to eliminate ties.

Johnson made a motion for the board to reconsider the problem at its November meeting, which was deadlocked 3-3, as was the motion by Nunez to readvertise the position and another motion to call a special meeting on Oct. 18, at 2 p.m.

After some requests by the spectators to hold the meeting at night so more people could attend, a motion by Hebert passed to meet at 6 p.m. on Wed., Oct. 18, to readdress the superintendent's selection.

CONTRACTS QUESTIONED

Morris then questioned three contracts with central office employees which were signed July 1, without the board's knowledge.

McCall said the Lousiana Legislature passed a law in 1985 that all central office administrators must sign contracts, and anyone coming in after that date should negotiate them, which did not affect those employees hired prior to that date.

Morris alleged that the newly signed contracts were used to pro-

Special month is observed

Substance Abuse Awareness Month will be observed in Cameron parish during October, and the Cameron Parish School Board, district attorney and sheriff are urging parish citizens to participate.

Oct. 22-29 will be observed as National Red Ribbon Week and citizens are asked to join in the celebration by wearing red ribbons, decorating business places, churches, etc. with red ribbons and displaing anti-drug messages.

For more information and to secure red ribbons call 775-5111, 598-4222, 762-4701 or 775-7393.

A letter to parish leaders on the observance may be found elsewhere in this issue of the Pilot.

Meeting set on gill nets

The Louisiana Department of Wildlife and Fisheries will conduct a meeting to answer questions concerning the new gill net laws. The meeting will be held at the Cameron Parish Police Jury Annex Tuesday, Oct. 17, at 7 p.m. The new regulations, permit requirements and seasons will be covered. All fishermen are urged to attend.

Bridge work is delayed

For the second time within two weeks the closing of the Black Bayou pontoon bridge for repairs has been postponed due to a hurricane threat.

Originally set to close Oct. 2, the closing was reset to Oct. 11 due to the threat of Opal. This week the closing was postponed again due to the threat of Roxanne.

The repairs will be scheduled at a later date. The bridge is located on La. 384 and serves the Big Lake area. When the bridge is closed, residents will have to detour via the Grand Lake bridge.

Info needed

Tina Horn, Cameron Parish Administrator, announced that the parish 911 system will go on line in the near future and needs information from anyone with an unlisted telephone number or a special medical condition.

All information will be held in the strictest confidence.

The information needed should be the person's name, physical address, town, phone number and special conditions.

This information should be sent to her at P.O. Box 366, Cameron, La.70631.

Red Cross seeks funds to assist hurricane victims

Hurricane Marilyn and Opal have caused wide spread damage in the Virgin Islands, Florida, Alabama, Georgia, Mississippi and Louisiana. Winds, heavy rains and storm swells have flooded roads and swollen rivers, which will cause extensive damage for many days, and will prohibit residents from immediately returning to their homes. The damage is centered along the Gulf Coast and is especially severe from Pensacola to Panama City.

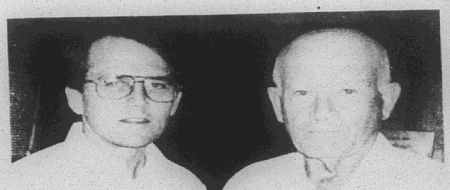
The Calcasieu Cameron Chapter of the American Red Cross has sent disaster relief volunteers to the disaster stricken areas in order to work alongside local volunteers serving victims in emergency shelters.

To date the Red Cross has:

Opened 303 shelters with 41,105 residents; served 303,221 meals; dispatched 103 emergency response vehicles.

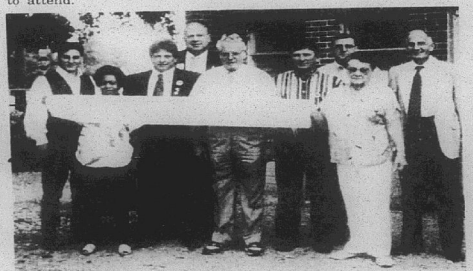
In addition, the American Red Cross is supporting five Southern Baptist mobile kitchens in Florida and Alabama.

American Red Cross officials are worried that the cost of the two hurricanes could critically drain the organization's Disaster Relief Fund. Costs for the Red Cross for the Caribbean relief activities alone are projected at $20 million.



All Red Cross disaster assistance is free, made possible by voluntar donations of time and money from the American people. Those wishing to help victims of these and other disasters may do so by sending a check to:

American Red Cross, P.O. Box 4906, Lake Charles, La. 70606-4906.



Credit card donations may be made by calling 1-800-HELP-NOW.

Reception set

A reception honoring the classes of 1946, 1971, and 1986 will be held at Fri., Oct. 13, 5:30 in Tarpon Hall. The classes will be presented on the field before the football game that night.

Officials at kickoff

United Way drive is underway now

The United Way campaign for Cameron Parish is now underway. A kickoff breakfast was held at the Cameron Senior Center. Tom Morris, United Way director and Patrick Broussard, United Way representative for Cameron Parish, were present along with Police Jurors Brent Nunez, George LeBoeuf, Douaine Conner, Ray Conner and Russell Badon. Many senior citizens and concerned friends attended.

Shown here are Suzanne Buras and Rosie Bargeman along with the jurors and United Way representatives displaying the theme for this year's campaign "Love Makes a Difference."

The United Way provides funds for the local tansportation program operated by the Cameron Council on Aging.

SCHOOL BOARD Cont. from Pg. 1

tect the salaries of employees whose jobs must be eliminiated in possible budget cuts.

He further stated that the school board finance committee met June 28, and discussed the possible abolishment of the positions of assistant superintendent and supervisor of maintenance and fixed assets.

These positions were held by Roger Richard and Ron Vining.

The new two-year contracts, which Morris said no one on the school board knew about, were signed by Richard, Vining, and Wayne Batts, with Batts position not discussed at the finance meeting.

The contracts state that if the employee is moved to a lower position due to a reduction in force, he or she will retain his or her original salary for that two-year period.

"I am appalled that this board was not notified. I do not know where this contract came from, who wrote it, or who put the provisions in it, but it's mighty suspect," Morris said.

McCall replied, "I should have come to the board with the revised contracts, but I didn't, it was truly an oversight."

McCall also stated that since there were no set contracts to go by he modeled it after those used for school superintendent.

NEW POLICY

The board adopted a change in the School Board's medication policy that medication can only be given by prescription by physicians in Louisiana and adjacent states.

Uland Guidry gave a status report on a mineral lease award on Section 16-15-6 (Hog Bayou Section) on which he and Glenn Alexander, Cameron District Attorney, have been negotiating with the State Land Office concerning a Shell Oil Co. lease.

The board heard a report from Pam Hennigan, auditor for the individual schools in the parish, that most were keeping good records, with the exception of a few minor details which have been discussed with each administrator.

The board voted to hire Duplechin's of Kinder, a pest control service, to service each school's concession stand and kitchen monthly for $60 each.

It proclaimed Oct. 15-21, as "National School Bus Safety Week".

It denied a request from Greg Saulnier to locate a camp on Section 16-14-5 (Little Chenier), commenting, "We don't want to get into the landlord business."

It approved the request from United Way for brief programs in the schools.

The board approved the hiring of Susan Lundy as science teacher at Grand Lake High School, and Angela LaVergne, as 1/2 year teacher at Johnson Bayou High School, filling in for sabbatical leave.

The board accepted the resignation of Julie Arrant Racca, 5 hour lunchroom worker at Cameron Elementary School.

Eating Together In The Hectic 90s

When making the commitment to eat together the first thing to do is look at everyone's schedule. Create a monthly meal calendar making at least one meal a week a "must."

Make special occasions, such as birthdays, anniversaries and holidays synonymous with eating together and calendar those in, too.

Here's an easy-to-make and delicious "comfort" food to share with family or friends.

Classic Macaroni & Cheese

1 1/2cups elbow macaroni
3 tablespoons butter
2 tablespoons flour
1/2 teaspoon salt
Dash pepper
2 cups milk
8 ounces sharp cheddar cheese cut into 1-inch cubes

Heat oven to 350 degrees. Cook macaroni in boiling water until tender, drain and reserve. In 1-quart heavy saucepan, melt butter over low heat. Stir in flour, salt and pepper, whisk until smooth. add milk, cook, stirring constantly. Let boil 1 minute, stir in cheese. Cook, stirring constantly until cheese is melted. Stir cheese sauce into macaroni. Place in 1 1/2 quart casserole dish. Bake 35 to 40 minutes or until heated through. Serves 6

MSU coaches are guests of Lions Club

By GENEVA GRIFFITH

The entire coaching staff of the McNeese Cowboy football team were guests at the noon meeting of the Cameron Lions Club last week.

Head Coach Bobby Keesler said he is really proud of his team that is rated Number One in the nation, but he has another goal: to win the Southland Conference.

"This is my sixth season with the team and we are having some great crowds and appreciate your support from Cameron," he said.

Bob Hayes, McNeese Athletic Director, who has been at McNeese 29 years, reported that tickets to away games will be for sale next week, and also said there are no plans at this time for a charter bus.

Rep. Randy Roach presented a proclamation from the Louisiana Legislature to the local Lions Club for their 50th year as a club, and also recognized Charles F. Hebert, a charter member.

Dr. John Bertrand, Baton Rouge, who is running for re-election for member of the BESE Board, and Dan Flavin, Lake Charles, candidate for District No. 36 state representative, each gave short talks to the club.

Only about 25 percent of the world's people live in countries that have a free press.

Cameron Outdoors

By Loston McEvers

HIGH TIDES

We were very lucky last week and missed the hurricane Opal. We did get some much needed rain, but really, we need more rain for our marshes. There were very high tides, which came up to the Highway 82 marshes from Grand Chenier to Cameron and of course, there were rougher waters along the Holly Beach, Constance Beach and Johnson Bayou areas.

Redfish has taken into our inland marsh ponds and bayous and really some good fishing as a result of this rough water. Reds running up to 30 inches were caught.

Many bass anglers set out to Lacassine and Sabine Refuges to get the last of the season's bass fishing for these refuges.

REFUGES CLOSE

The Lacassine National Wildlife Refuge will close all its waters to fishing and other general use after Oct. 15. Archery deer hunters are reminded that they are allowed to hunt Lacassine pool through Oct. 31, but boats are prohibited in the pool after Oct. 15. Hunters may use boats on refuge waters outside the pool through Oct. 31. The road leading to the pool will remain open for the general public to visit the area all year.

Sabine National Wildlife Refuge as well as Cameron Prairie National Refuge will also close after Oct. 15.

These refuges have a purpose in closing until March 15, 1996. The refuges serve as a winter haven for migratory waterfowl. To avoid disturbing the hundreds of thousands ducks and geese that use the refuges, public use of its waters has to be restricted during this closed period.

Rockefeller Refuge in Grand Chenier, a state refuge, will not close until Dec. 1. There's still some good bass and redfish fishing as well as crabbing and cast netting of shrimp on Rockefeller. Remember, follow the refuge rules, example: 25 pound limit on shrimp.

HUNTING

Bow hunting seems to be a little slow, as dry as it was, the deer are still far in the marshes. I did have reports of 7 deer taken so far, two were large bucks, with the season open Oct. 1, archery season will remain open until Jan. 21, in our area. The archery hunters should remember that they are restricted to bucks only when bucks only rifle season is in progress.

Rifle or gun hunting for deer requires a big game license and archery hunters need the same, plus a bow hunting license.

Last year, approximately 24,700 deer were harvested and that is up from 1993-94 when 20,100 were taken. There are about 49,000 deer hunters using bows and arrows according to the 1994-95 survey.

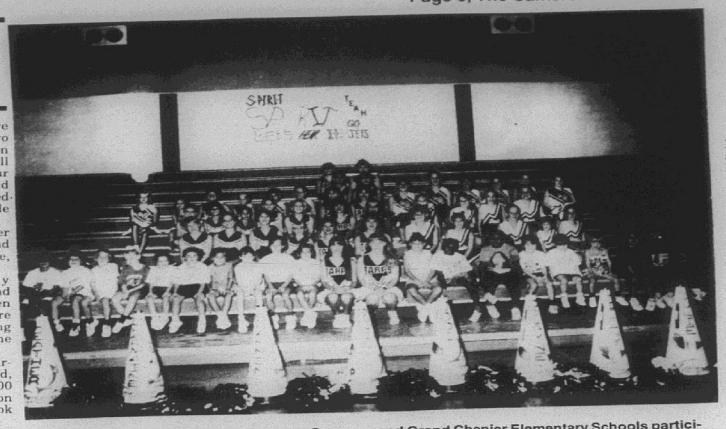
Our Louisiana rabbit and squirrel season opened last weekend, Oct. 7. Last year about 132,200 hunters took more than 2.1 million squirrels and 78,600 hunters took more than 980,000 rabbits.

Squirrel season will be open until Jan. 28, and rabbit runs until Feb. 29. The daily bag limit for both species is 8 daily, possession 16.

EXTRA DAY

Maybe you realized something was wrong when I wrote rabbit season to run until Feb. 29, but yes, it's "leap year" and another day is added every four years to February.

We do have quite a few more rabbits in our parish, however, I only had one report of two hunters getting 7 rabbits together. We do have a few squirrels in our parish, especially in the Grand Chenier area, but no reports of any taken.



It is said that landowners should not hesitate to harvest rabbits during the legal season within the bag limits. The annual natural mortality of the rabbit population is about 80%, whether they are hunted or not, so it's not likely rabbits will be exterminated by heavy hunting. Rabbits reproduce fast. I do know in our parish, the fire ants kill many of the newborn rabbits and of course coyotes and wolves kill quite a few also and don't forget the sickness that takes its toll.

DOVE SEASON

Next weekend, Oct. 21, many hunters will hit the fields for the first day of the second split of dove season. This is really the best season for us down here. The second split runs through Nov. 20.

Regular duck season opens Nov. 11, so we'll have a few days where we can shoot doves out of the duck blind. I know for teal season, we could have limited out on dove, however, it was closed.

In closing, we should remember to say an extra prayer in thanks for us being spared by Opal.

STUDENTS FROM South Cameron, Cameron and Grand Chenier Elementary Schools participated in Tarpon Spirit and Cheer Camp '95 from Aug. 8-10, and are invited to cheer for the South Cameron Homecoming game Oct. 13.

Reward told for info on sign damages

A 4 by 6 foot sign in front of the Holly Beach Resort Ministry camp at Holly Beach was deliberately knocked down by a vehicle over the weekend.

Ron Robicheaux, who with his wife, Chris, operate the Christian outreach program on the beach, said they found the $250 sign knocked down when they returned from leading a meeting at a church in DeRidder.

Robicheaux said the sign apparently was deliberately destroyed since the truck that did it backed up several times to hit it again.

The Robicheauxs are offering a $100 reward for the arrest and conviction of the person or persons responsible for destroying the sign. They may be reached by calling 569-2589.

DISTRICT 36
DAN FLAVIN
REPRESENTATIVE

Campaign Office:
4200 Ryan Street
Lake Charles, LA 70605
318/478-2540

To the Voters of District 36,

My name is Dan Flavin and I'm running for State Representative of District 36. I am 38 years old and married to the former Lisa Jones. We are the proud parents of six children and attend Our Lady Queen of Heaven Catholic Church in Lake Charles where I serve on the Parish Council.

For the last 19 years I have worked in various aspects of the real estate industry in Calcasieu and Cameron Parishes with the last 5 years as owner of Century 21 Flavin Realty, Inc. Our office is one of Southwest Louisiana's premier real estate agencies, selling more real estate than any other company the past two years. This has been achieved by being dedicated to honesty, integrity, and responsiveness to the needs of our customers. When you vote for me, you are sending a message to Baton Rouge that these are the same principals which you hold most important as we approach the next four years of state government.

Currently, I am serving as Chairman of the Louisiana Real Estate Commission and have interacted with various governmental agencies over the past seven years as a member of the Commission. I was appointed by Governor Roemer to the Commission in 1988 and reappointed by Governor Edwards in 1992. As your Representative, I will work with Cameron Parish officials and civic leaders to bring jobs to our parish. I will use my governmental experience and dedicate all of the resources available to me as your State Representative to assist in this effort.

Our district is one of the largest districts in the state. It includes South Lake Charles and all of Cameron Parish. For the past several months, I have been touring the district and attending various functions in hopes of meeting many of you. I pledge to be accessible to you and to be aware of your concerns. I will always conduct myself in a manner that will merit your trust and confidence.

Please vote for me on October 21st.

Sincerely,

Dan Flavin

More explanations of the amendments

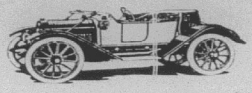
By REP. RANDY ROACH

Last week we discussed eleven of the fifteen Constitutional Amendments which you will have to vote on the Oct. 21, ballot. The remaining four amendments are as follows:

Amendment No. 4 - Mandatory Retirement For Judges - A vote for this amendment would raise the mandatory retirement age for judges from 70 to 75. A vote against this amendment would continue to require judges to retire at age 70.

In 1921 the mandatory retirement age for judges was set at 80. In 1960 it was lowered to age 75. In 1974 it was again lowered to age 70.

Amendment No. 5 - Baker and Rapides Parish School Districts - This amendment would allow the City of Baker and a portion of Rapides Parish to form their own school districts separate from the existing parishwide school districts. The new districts would hve the same authority as parish school districts, including the ability to raise taxes.



The Constitution only allows two municipalities, Bogalusa and Monroe, to operate separate local school districts. A vote for this amendment would allow the City of Baker and a portion of Rapides Parish to form their own school districts. A vote against would require them to remain in the parishwide school districts in East Baton Rouge and Rapides Parishes.

Amendment No. 14 - Redeeming New Orleans Property - This amendment would affect Orleans Parish only. It would reduce from three years to eighteen months the period during which abandoned residential or commercial property, seized by the City of New Orleans and sold for non-payment of taxes, could be bought back by the original property owner. A vote against this amendment would continue the present rule allowing the original owner of the property three years to buy the property back.

Amendment No. 15 - Donating Abandoned Homes - This amendment would apply only in Orleans Parish. Some of the property which is sold for taxes in New Orleans is abandoned and run-down. If no one bids on the property it is tranferred to the city. A vote for this amendment would allow the City of New Orleans to donate these properties to non-profit groups for renovation and use. A vote against the amendment would continue the general ban on the donation of publicly-owned property.

A BUMPY ROAD

Ordinarily the Pilot doesn't publish unsigned letters, but the following one commenting on the condition of the Front Ridge road is so interesting that we are breaking our policy.

Dear Mr. Wise: A driver recently drove over that terrible front ridge road with a truck and trailer of caustic soda. I talked with him at the Louisiana Menhaden Co. and he remarked how rough the road was. I told him he was living in "hog heaven" because most of the time he drove on blacktop.

I have to drive on that road everyday and it was so rough one day the bumpiness from the car cracked my false teeth.

A lady was driving about 30 or 35 miles per hour on that same road and her car went crosswise from bumpiness. It frightened her so bad that when she did straighten up she just sat there a while. She asked me could she get a drink of water to cool off. "I've never felt this way before," she said, and tears were in her eyes.

It's a shame for a road as rough as that front ridge road to exist, as old as it is.

SWEETLAKE HOUSE BREAK-IN SOLVED

The burglarizing of a Sweetlake home on Sept. 28, was solved last week with the arrest of a Colorado man by Calcasieu Sheriff deputies in Ragley.

The man, who was posing as a water softener salesman, admitted breaking into one home and stealing an electric mixer and two domestic ducks from the deep freeze.

This criminal reportedly burglarized several homes in the Sweetlake area.

HACKETT NEW ASC MANAGER

Charles C. Hackett, son of Mr. and Mrs. Robert O. Hackett of Sweetlake, assumed his duties as the new manager of the Cameron Parish ASC office last week. He succeeds Ednus Perron who recently resigned.

A native of Sweetlake, Mr. Hackett graduated from Grand Lake High School and received a B.S. degree in horticulture from McNeese.

He will make his home in Sweetlake.

Mrs. Geneva Griffith will continue as chief clerk at the ASC office, a position she has held for eight years.

CHAMPION BOAR

Louise Guillory, South Cameron 4-H Club member from Creole, is getting into the pig raising business with some top quality animals.

This past week, her father, Mathew Guillory, and Associate County Agent Clifford Myers, made a trip to Natchitoches Parish to purchase a two-year-old Poland China boar, that is rated as one of the five superior meat sires in the state.

ROUNDABOUT THE PARISH

Grand Lake - Sweet Lake -- Rice harvesting in this area is nearing completion. Among the few farmers left for the wind up are Hebert and Precht, Ray Gragg and Curtis McCain. The Heberts and Prechts expect to be through in two or three days. Mr. Gragg has 21 acres to combine. This is a field which had to be replanted. Mr. McCain will finish in a couple of days with rice which is ripe but he has some very late rice on which water is being cut off this week.

Cameron -- Debra Marlatt was elected president of the Melody Blue Birds Thursday at the home of Mrs. McJohnson, leader. Other officers are Peggy Kelly, vice president; Candace Henry, secretary; Margaret Jones, treasurer; and Valarie Jenkins, reporter. The second group of Blue Birds is under the leadership of June Authement.

Up and Down the Creole Ridges -- After a between-season lull as summer came to an end and fall got underway, Creole came alive again during the past two weeks with a terrific upsurge of good shrimp catches by the smaller boats in the Mermentau River and in the Gulf waters and with the daily movement of large herds of cattle along the local highways as Creole area cattlemen drive their stock from summer range to winter range. It's a safe bet these days that if an area man isn't on horseback driving cattle, he's bound to be in the Mermentau or Gulf trawling for shrimp.

Johnson Bayou -- Walter Stanley, Roland Jinks and Eddie Jinks have moved their cattle back to the Bayou from just west of Iowa.

GREG WICKE

CLERK OF COURT

(Paid for by Greg Wicke)

TO THE CITIZENS OF CAMERON PARISH:

I would like to share something with all of Cameron Parish that has surfaced in the last few weeks. As most of you know, Mrs. Debbie Theriot and Mr. Jerry Theriot have been helping Jerry Nunez with his campaign for Sheriff of Cameron Parish. By doing this Mr. and Mrs. Theriot have been very wrongfully slandered and discriminated against. They have taken a lot of abuse and harrassment because of their political views.

The reason I can say this is because I have been living with them in their home for over a year now. I was down on my luck, and out of a home, September a year ago. Mr. Theriot came to me and asked that I consider staying with him and Mrs. Theriot until I could get back on my feet. I will not bore you with all of my personal problems but there was plenty of times I felt like I could not go on with my life.

They were always there for me and my child. They opened their home and their most generous hearts to us. On the days I was to have my little girl, but had to work, she still insisted on being there with them. They made time for me. They gave me the things money could never buy, friendship, compassion and they made me feel my life was worth living to the fullest. When my days were filled with darkness, they always made time for me and no matter what, they always seemed to lighten the load I was under. They are both giving, not taking people. They have done so much for me and my child, and not once have they asked for anything in return.

They would never have permitted me to write this letter and have it printed, because they know that I'm exposing my personal life to all. I took it upon myself to do so because I owe my life to the two of them. If they had not been there for me, I can really tell you that I would never have made my last birthday, and would have left a beautiful little girl fatherless. If their kind of Christianity and kindness was shared more often by all of us, wouldn't this be a great place to live.

I hope, Mr. Jerry and Mrs. Debbie, that you understand why I had to write and print this letter. I love and respect both of you.

Sincerely,

/s/ Tony Hay

HOMECOMING '95

To: Business and Industry, Clergy and Other Community Leaders

For the past several years Cameron Parish Schools have sponsored various activities in observance of Substance Abuse Awareness Month (SAAM). This year SAAM will be observed during the month of October. The theme for this year's observance is "CELEBRATE '95: Building Bridges for Drug Free Lifestyles".

Additionally, the week of October 22-29 will be observed as National Red Ribbon Week. The Red Ribbon Campaign acts as a catalyst to mobilize communities into action to create a Drug Free America. All segments of the community must be involved in prevention programs and activities to develop an attitude of intolerance to the use of drugs and to eliminate the demand for drugs in our neighborhoods.

THE PURPOSE OF THE RED RIBBON CAMPAIGN:

- Create awareness concerning alcohol and other drug problems facing every community.
- Build community coalitions to implement alcohol and other drug prevention strategies.
- Support healthy, drug free lifestyles.
- Encourage neighborhood prevention planning and activities.

THE GOALS OF THE 1995 NATIONAL RED RIBBON CAMPAIGN:

- To encourage participation by every neighborhood, urban or rural, in the national Red Ribbon Campaign.
- To encourage individuals to take action in their communities to create drug free neighborhoods.

As part of our efforts to promote the SAAM theme, we are asking you and all other citizens of Cameron Parish to join us in this celebration by wearing red ribbons, decorating your business place, church, etc. with red ribbons, and/or display an anti drug message.

If you need more information, red ribbons (limited amount), etc., please call either 775-5111, 598-4222, or 762-4701, or the school board office at 775-7393 and leave a message.

We thank you for your interest and cooperation and hope you will join us in supporting these efforts.

Sincerely,

PUBLIC NOTICE
CAMERON PARISH COASTAL
USE PERMIT APPLICATION

Interested parties are hereby notified that the Coastal Management Section of the Cameron Parish Police Jury has received the following apparently complete application for a Coastal Use Permit in accordance with the rules and regulations of the Louisiana Coastal Resources Program and the State and Local Coastal Resources Management Act of 1978, as amended.

L.C.U.P. Application #950903

Name of Applicant: Jimmy A. Burnett, 409 Stiffel Street, Westlake, La. 70669.

Location of Work: Pelican Point, Section 21, Township 12 South, Range 9 West.

Character of Work: Construct a concrete bulkhead inside an existing boatslip. To repair an existing boatslip and prevent erosion of property. The bulkhead will be approximately 50' in length. Excavation of 1300 cubic feet of dirt, sand, clay will be removed and placed on the remainder of the lot for use as fill dirt.

The decision on whether to issue a permit will be based on an evaluation of the probable impacts of the proposed activity in accordance with the state policies outlined in R.S. 49:213.2. The decision will reflect in the national concern for both protection and utilization of important resources. The decision must be consistent with the state program and approved local programs for affected parishes and must represent an appropriate balancing of social, environmental and economic factors. All factors which may be relevant to the proposal will be considered; among these are flood and storm hazards, water quality, water supply, feasible alternative sites, drainage patterns, historical sites, economics, public and private benefits, coastal water dependency, impacts on natural features, compatibility with the natural and cultural setting and the extent of long term benefits or adverse impacts.

Certification that the proposed activity will not violate applicable water and air quality laws, standards and regulations will be required before a permit is issued.

Any person may request, in writing, within the comment period specified in this notice, that a public hearing be held to consider this application. Request for public hearings shall state, with particularity, the reasons for holding a public hearing.

Plans for the proposed work may be inspected at the Cameron Parish Police Jury Annex Building, Coastal Management Division, Courthouse Square, P.O. Box 366, Cameron, Louisiana, (318) 775-5718. Written comments should be mailed within 25 days from the date of this public notice to Cameron Parish Police Jury, Coastal Management Division, Post Office Box 366, Cameron, Louisiana 70631.

CAMERON PARISH COASTAL
USE PERMIT APPLICATION

Interested parties are hereby notified that the Coastal Management Section of the Cameron Parish Police Jury has received the following apparently complete application for a Coastal Use Permit in accordance with the rules and regulations of the Louisiana Coastal Resources Progam and R.S. 49, 213.1, the State and Local Coastal Resources Management Act of 1976, as amended.

L.C.U.P. Application #951011

Name of Applicant: Hubert Babineaux, 881 Big Pasture Rd., Lake Charles, La. 70605.

Location of Work: Big Lake, Section 30, T12S, R8W, Cameron Parish, Louisiana.

Character of Work: Excavate for a pond measuring 250'x 268' approximately 6' deep. To provide for fill material on homestead and for ring levee. Approximately 14,000 cubic yards will be excavated by dragline and used on homestead to build up the property.

The decision on whether to issue a permit will be based on an evaluation of the probable impacts of the proposed activity in accordance with the state policies outlined in R.S. 49:213.2. The decision will reflect in the national concern for both protection and utilization of important resources. The decision must be consistent with the state program and approved local programs for affected parishes and must represent an appropriate balancing of social, environmental and economic factors. All factors which may be relevant to the proposal will be considered; among these are flood and storm hazards, water quality, water supply, feasible alternative sites, drainage patterns, historical sites, economics, public and private benefits, coastal water dependency, impacts on natural features, compatibility with the natural and cultural setting and the extent of long term benefits or adverse impacts.

Certification that the proposed activity will not violate applicable water and air quality laws, standards and regulations will be required before a permit is issued.

Any person may request, in writing, within the comment period specified in this notice, that a public hearing be held to consider this application. Request for public hearings shall state, with particularity, the reasons for holding a public hearing.

Plans for the proposed work may be inspected at the Cameron Parish Police Jury Annex Building, Coastal Management Division, Courthouse Square, P.O. Box 366, Cameron, Louisiana, (318) 775-5718. Written comments should be mailed within 25 days from the date of this public notice to Cameron Parish Police Jury, Coastal Management Division, Post Office Box 366, Cameron, Louisiana 70631.

LEGAL NOTICE
STATE OF LOUISIANA, OFFICE OF CONSERVATION, BATON ROUGE, LOUISIANA

In accordance with the laws of the State of Louisiana, and with particular reference to the provisions of Title 30 of Louisiana Revised Statutes of 1950, a public hearing will be held in the Conservation Auditorium, 1st Floor, State Land & Natural Resources Building, 625 North 4th Street, Baton Rouge, Louisiana, at 9:00 a.m. on TUESDAY, NOVEMBER 14, 1995, upon the application of TORCH OPERATING COMPANY.

At such hearing the Commissioner of Conservation will consider evidence relative to the issuance of an Order pertaining to the following matters relating to the 13,800' Zone, Reservoir A, East Cameron Block 17 Field, Cameron Parish, Louisiana:

1. To redefine the 13,800' Sand, Reservoir A, East Cameron Block 17 Field, Cameron Parish, Louisiana, as being that gas and condensate bearing sand encountered between the depths of 13,575' and 15,734' (ELM) in Torch Operating Company - SL 11508 No. 3 Well.

2. Simultaneously with the redefinition hereof, to redesignate the 13,800' Sand, Reservoir A, East Cameron Block 17 Field, Cameron Parish, Louisiana, as the 13,800' Zone, Reservoir A, East Cameron Block 17 Field, Cameron Parish, Louisiana.

3. To dissolve the four (4) drilling and production units created by Order No. 880-A-1, effective August 29, 1989, simultaneously therewith, to create four (4) drilling and production units (13800 RA SUA - 13800 RA SUD) and to force pool and integrate all separately owned tracts, mineral leases and other property interests within the units with each tract sharing in the unit production on a surface acre basis of participation.

4. To designate Torch Operating Company as unit operator for 13800 RA SUA and SUB, Reservoir SL 11508 No 3 Well as unit well for 13800 RA SUB and their SL 11508 No. 2 Well as an alternate unit well for 13800 RA SUB.

5. To make the proposed 13800 RA SUA & SUB all pertinent provisions of 880 Series of Orders and applicable Statewide Orders.

6. To consider such other matters as may be pertinent.

The 13,800' Sand, Reservoir A, East Cameron Block 17 Field, Cameron Parish, Louisiana, was previously defined in Office of Conservation Order No. 880-A-1, effective August 29, 1989.

A plat is available for inspection in the Office of Conservation in Baton Rouge and Lafayette, Louisiana. All parties having interest therein shall take notice thereof.

IMPORTANT NOTICE OF COURT APPROVED CLASS-ACTION SETTLEMENT

19TH JUDICIAL DISTRICT COURT
PARISH OF EAST BATON ROUGE STATE OF LOUISIANA
MILDRED SUTHERLAND, FRED SUTHERLAND AND ROBERT A. BOURGEOIS
VERSUS
LOUISIANA HEALTH SERVICE AND INDEMNITY COMPANY D/B/A BLUE CROSS AND BLUE SHIELD OF LOUISIANA, INC.

NUMBER 416,428 DIVISION "M"

NOTICE OF CLASS-ACTION SETTLEMENT

TO: CERTAIN PERSONS, AND/OR OTHER ENTITIES RESIDING IN AND OUTSIDE THE STATE OF LOUISIANA AND BEING PRESENT OR FORMER POLICYHOLDERS AND/OR GROUP MEMBERS OF A MASTER GROUP HEALTH INSURANCE POLICY ISSUED BY BLUE CROSS AND BLUE SHIELD OF LOUISIANA (BCBSLA).

The Nineteenth Judicial District Court for the Parish of East Baton Rouge has approved this Settlement in this legal action ("Settlement") at a hearing on September 6,1995. This Notice describes your legal rights in connection with the Settlement of the lawsuit. Unless you excluded yourself from the Settlement class, all Settlement class members are bound by the Settlement.

PLEASE READ THIS NOTICE CAREFULLY - IT MAY AFFECT YOUR LEGAL RIGHTS

This Notice is sent to you by order of the 19th Judicial District Court for the Parish of East Baton Rouge, State of Louisiana, to advise you that a class action has been certified and a Settlement of the class action has been approved by the Court on behalf of all present and former policy holders of Blue Cross and Blue Shield of Louisiana (BCBSLA) affected by the claims practices described below.

I. DEFINITION OF THE CLASS

Pursuant to this Court's Settlement order of September 6, 1995, the Settlement class is generally defined as: Certain persons and/or entities residing in or outside the State of Louisiana and being present or former policyholders and/or group members of a master group health insurance policy issued by Blue Cross and Blue Shield of Louisiana (BCBSLA) who are determined to be affected by the claims practices described below. A more detailed definition of the class is contained in the Stipulation of Settlement.

II. BRIEF SUMMARY OF THE LITIGATION

The class action settlement includes claims for damages resulting from certain BCBSLA practices relative to payment of insurance claims, including: (1) BCBSLA's alleged practice of erroneously calculating subscriber coinsurance payments (sometimes "Co-Insurance" herein) to institutional providers and claimed non-disclosure of its Co-Insurance practices between the dates of January 1, 1988 and December 31, 1994; (2) BCBSLA's alleged practice of calculating limits (sometimes "Limits" herein) applicable to various insurance policies issued by BCBSLA between the dates of January 1, 1988 and December 31, 1994; (3) BCBSLA's alleged practice of calculating Medicare adjustments (sometimes "Carveout Practices" herein) under certain policies issued to subscribers, among other claims between the dates of September 10, 1982 and February 28, 1995.

BCBSLA has denied and continues to deny, the allegations of the petition and has asserted, and continues to assert that the plaintiff's claims are without merit.

The Settlement, in summary, provides for the payment of approximately $20,149,034.00 (this amount to be adjusted by actual participation in the Settlement), a voluntary change in claims administration with respect to disputed issues, payment of $3,000,000.00 to class counsel for attorney's fees and reimbursement of costs and expenses. In exchange for these benefits, all Settlement class members have released all claims against BCBSLA for adjusting of prior medical claims on behalf of the class member with respect to the disputed issues.

All class members are bound by this settlement with respect to the class claims unless they timely opted out as set forth in a previous Notice, in which case he or she is not bound by the outcome of this action.

III. RIGHTS AND OPTIONS OF SETTLEMENT CLASS MEMBERS

If you are a Settlement class member or believe that you are a Settlement class member, you should immediately complete a proof of claim and release form in order to make a claim. Please mail the form to the address listed on the form. You will only have until December 6,1995 in which to mail this form. If you fail to timely file a properly addressed and fully completed Proof of Claim and Release, your claim will be rejected and you will be precluded from participating in the settlement.

IF YOU NEED HELP COMPLETING THE CLAIM AND RELEASE FORM OR HAVE OTHER QUESTIONS CONCERNING THE SETTLEMENT, CALL 1-800-949-4947.

Baton Rouge, Louisiana, September 6, 1995.
By order of the Court.

MY DEAR FRIENDS OF CAMERON PARISH:

HERE ARE JUST A FEW REASONS WHY YOU SHOULD ELECT ME YOUR SHERIFF:

1. TRAINING: Calcasieu Regional Police Academy, LSU Institute, LSU Traffic Investigation School, LSU Division 1 School, Drug Commander School, Photography School and Highway Interdiction School, for highway drug investigation, plus many more I have served in many emergencies through-out the state.
2. EXPERIENCE: 11 1/2 years as a street deputy, with a clean record. Elect someone who has started at the bottom. I've been there and I've seen what our problems are, and what to do to help correct these problems.
3. DEPENDABLE: Was always prompt at my job. Always helped my fellow deputies when needed. I will be available to the public 24 hours a day. I will be at all the functions in the parish. I will listen to all of your problems with an open mind.
4. CARING: One of the main reasons I want to be your Sheriff is because I care about what I see happening to your parish. I care about all of the people of the parish, especially the youth, the elderly and the under privileged. Your Sheriff's office will work harder to assist all of them. People who deal in drugs along with all the other hardened criminals will be behind bars.
5. COOPERATIVE: I will work with the Police Jury, School Board, Council on Aging, Chamber of Commerce, Tourist Bureau and all of the other public bodies of the Parish. Also work with the industry to help keep all the businesses that are here now and to solicit new business. I will do all in my power to help get jobs for the people of this parish.
6. FAIR: I will have the same laws for all the people. Everyone will be treated fairly no matter who you are.Your Sheriff's Office will be open to all of the people, not just a select few.
7. FAMILY ORIENTED: I have a great family. Myself, my wife Arleen LaBove Nunez and my two daughters, Jerrica and Cassi, regularly attend Sacred Heart Church together. We take an active part in our children's school activities and their extra curricular activities. We help coach softball and help with scouting. My family has been a great inspiration and a great help during this campaign.

Please give me the chance to lead Cameron Parish into the 21st century. I promise I will work hard and will always be honest with you. Cameron Parish needs a change to continue growing and prospering for the next 4 years.

ABSENTEE VOTING IS OPEN ALL THIS WEEK UNTIL SATURDAY AT 12:00 NOON. Please don't forget to go vote if you will be out of the parish on election day.

Jerry Nunez

OUR LAST RALLY WILL BE IN THE GRAND LAKE- SWEET LAKE AREA AT THE MULTI-PURPOSE BUILDING, SATURDAY, OCT. 14 - 7 P.M.

PLEASE VOTE FOR ME - GOD BLESS ALL OF YOU

Tarpons, Notre Dame to play Friday nite

By JOE MUELLER

The South Cameron Tarpons sitting in first place in District 6AA along with Notre Dame and Welsh will be at home this week as the Pioneers of Notre Dame come to town for a district game Fri., Oct. 13, at 7 p.m.

The two teams have opposite records. Notre Dame brings a 5-1 record into the contest while the Tarpons are 1-4 in the games played so far.

In district play both teams are 1-0. Notre Dame beat Lake Arthur 21-14 last week and the Tarpons handed North Vermilion a 34-6 defeat.

The teams have one common opponent in 1995, that being the DeQuincy Tigers.

The Pioneers defeated DeQuincy while DeQuincy beat the Tarpons 20-3 in the opening game of the season.

The Tarpons have scored 79 points in five games while the Pioneers have put 133 points on the board in six games. Defensively the South Cameron team has given up 95 points while the Pioneers have only allowed 54.

The Pioneers have three backs with more than 65 yards per game, so they have a very balanced running attack.

They throw the ball very seldom. South Cameron has the second best passer in District 6AA in John Pradia, who has thrown for nearly 400 yards.

The Tarpons have shown improvement and with their win last week they may be ready for district play.

The two teams haven't met in recent years but one time before I think they were in the same district as they are now.

The game should be hard fought as both teams really believe in playing hard-nosed football.

The Pioneers are ranked No. 6 in the latest poll by the Louisiana sportswriters.

Tarpons over Vermilion 34-6

By JOE MUELLER

The South Cameron Tarpons opened district play with a thorough whipping of North Vermilion 34-6.

The Tarpons scored in every quarter while holding North Vermilion to one score.

The Tarpons seem to start play when district opens and this year was no exception as they raised their record to 1-4.

The Tarpons scored first on a 1-yard run by Joe Savoie in the opening quarter.

South Cameron freshman quarterback John Pradia teamed with Brady Duhon on a 17-yard pass for the second touchdown; Duffy kicked the extra point and the Tarps were up 14-0.

North Vermilion cut the margin to 14-6 when they scored on a 3-yard pass from Darrel Mayard to Jared Prejean.

The next touchdown came in a Pradia pass to Phil Coleman which covered 34 yards. Duffy converted the extra point kick and the Tarps were up 21-6.

The final two touchdowns of the night came on short runs by Tarpon backs. The final touchdown was scored on a 3-yard run by Brandon Conner.

The Tarpon defense limited the North Vermilion team to only 10 yards and 27 rushing yards. They forced the home team to punt 8 times. The Tarpons defense also collected 8 turnovers, 4 fumble recoveries and 4 pass interceptions.

On offense Joe Savoie was the leading Tarpon rusher with 47 yards, John Pradia hit 7 passes for the Tarpons for 2 touchdowns and 108 yards.

The Tarpons will be at home this Friday for a district game with Notre Dame, the pre-district favorite, at 7 p.m.

Halftime ceremonies are set

At halftime Fri., Oct. 13, of the South Cameron High School Homecoming football game with Notre Dame, the Homecoming Court will be presented on the football field for the crowning of the queen. Parents are asked to stay off the field until the ceremony has ended. The ceremony does not end until the presentation of roses and the game ball which will be after the crowning. The court will then leave the field. Only then will parents and spectators be allowed on the sidelines for pictures.

The Homecoming Court is as follows:

Tiffany Ann Acosta, senior maid, daughter of Sidney and Kathy Navarre and Wilson Acosta.

Amanda Cristelle Johnson, senior maid, daughter of Ron and Mary Johnson.

Danielle Tiffany Shay, senior maid, daughter of Daniel and Gail Shay.

Shannon Suratt, senior maid, daughter of Rick and Leslie Suratt.

Leslie Jones, junior maid, daughter of Mitzie Savoie and Roy Jones.

Jodi McCall, junior maid, daughter of Bird McCall and the late Jody McCall.

Sarah Ann Vaughan, sophomore maid, daughter of Sterline and Della Vaughan.

Nicki Willis, sophomore maid, daughter of Butch and Mary Willis.

Casi Cherami Pinch, freshman maid, daughter of Bobby and Norma Pinch.

Julie Thomas, freshman maid, daughter of Baron and Beverly Thomas.

Kassie Guthrie, eighth grade maid, daughter of Earl and Kathy Guthrie.

Brittany McDaniel, eighth grade maid, daughter of Thomas and Debra McDaniel.

Joe's Picks

By JOE MUELLER

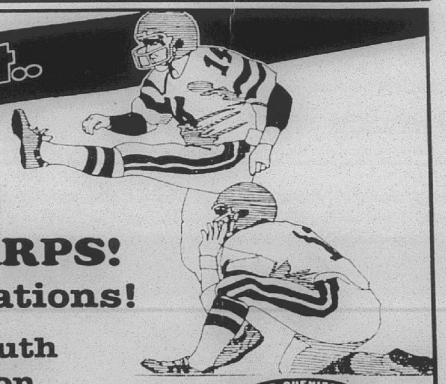
Congratulations To The South Cameron Homecoming Royalty!!

A Salute To South Cameron High School

I wish to extend my best wishes to the students, faculty and graduates of South Cameron High School on the occasion of the annual Homecoming Friday.

South Cameron High School is truly a credit to Cameron Parish. The School is truly a credit to Cameron Parish. The school has one of the finest school plants to be found anywhere. It also has a fine faculty and outstanding programs.



All of the returning alumni of South Cameron as well as graduates of the school's predecessors, Creole and Grand Chenier High Schools, remind us of the fine citizens who have graduated at South Cameron over the years. We know that they continue to be proud of their old Alma Mater.

On one last note, I hope that all of the students and graduates enjoy the homecoming festivities and the ballgame. I sincerely urge all of you to be careful when driving home to enable the parish to continue its safety record and make the Homecoming have a happy ending. Your Friend,

James R. Savoie

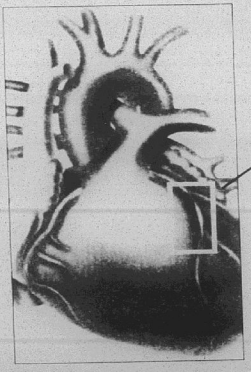
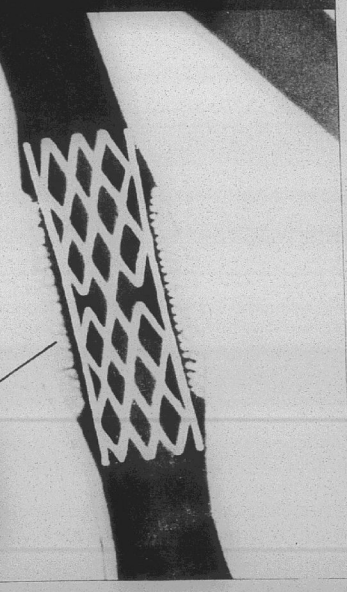
The Heart Doctors



Craig M. Walker, M.D., Clinical Research



When he founded Cardiovascular Institute of the South in 1983, Dr. Walker had a vision of a medical institution which would provide the highest quality treatment for heart and circulatory system disease, and contribute to the future of cardiovascular diagnosis and therapy through clinical research.

Today, that vision has been realized. CIS has become a treatment and clinical research center of international renown. It has participated in the development of virtually every major new method of non-surgical heart treatment developed over the past decade, including a number of firsts in stenting—the highly promising technique of placing permanent implants to hold open previously blocked arteries.

Clinical research is so demanding and time consuming that it's rarely pursued outside big academic medical centers. Dr. Walker concedes. But it's the only way you can be sure you're really at the leading edge of your specialty. By the time most cardiologists are performing their first case using a new procedure, we will have performed hundreds.

Support asked for Amed. 9

Dear Editor:
On Sat., Oct. 21, Louisiana voters will have the opportunity to boost our state's chances for restoring our priceless but endangered coast.
Amendment 9 would give the state the authority to separate mineral rights from surface land rights to facilitate construction of coastal restoration projects.
Why is this important? Under existing law, mineral rights to eroded and submerged coastal land could be lost by landowners if the land is restored. Thus, some landowners have resisted state restoration projects.
Landowners like myself, and others on Cameron's Gulf Coast, have lots in the Gulf of Mexico that we are still paying taxes on. The State of Louisiana collects the mineral rights at present, but if this property rebuilds, the ownership would revert back to the original property owners, and the mineral rights would revert back also.
Amendment 9 is not a giveaway of state oil and gas rights - it does not give any agency unlimited discretion to compromise state mineral rights. Amendment 9 only applies to coastal lands and waterbottoms - where much more is at stake than mineral rights alone: our fisheries, communities, and a way of life hang in the balance.
Amendment 9 is a much needed step in the effort to save our coast. On Oct. 21, do yourself and your coast a favor; vote yes on Amendment 9.

Constance Beach

Explanation given of 16 amendments

Voters will vote on 15 proposed constitutional amendments during the primary election on Oct. 21, and one proposed amendment during the general election on Nov. 18.

Following is a summary of each of the 16 amendments are prepared by the Public Affairs Research Council:

OCTOBER 21 ELECTION

No. 1 - Abolish Forced Heirship - A vote for would abolish forced heirship in Louisiana, except when a child is younger than 24 or is mentally or physically disabled and unable to care for himself. A vote against would retain the requirement that a portion of a parent's estate be reserved for the children.

No. 2 - Term Limits for Legislators - A vote for would limit legislators to three consecutive terms in the house in which they serve. A vote against would continue unlimited terms for legislators.

No. 3 - State and Local Liability Limit - A vote for would allow the Legislature to limit the awards in lawsuits against the state or local governments. A vote against would continue to allow the courts alone to determine the amount of such damages.

No. 4 - Mandatory Retirement for Judges - A vote for would raise the mandatory retirement age for judges from 70 to 75. A vote against would continue to require judges to retire at age 70.

No. 5 - Baker and Rapides Parish School Districts - A vote for would allow the City of Baker and Wards 9, 10, and 11 in Rapides Parish to form their own school districts. A vote against would retain parish-wide school districts in East Baton Rouge and Rapides parishes.

No. 6 - Two-thirds Vote for Fees - A vote for would require two-thirds approval by each house of the Legislature to enact or increase a state fee or civil fine. A vote against would continue to allow the Legislature, by majority vote, to enact or raise fees and fines or authorize state agencies to do so.

No. 7 - Limit Local Tax Votes - A vote for would limit a local tax proposition to one election in a six month period, unless the taxing body declares an emergency. A vote against would continue to allow a tax proposal to be resubmitted within six months.

No. 8 - Limit Local Tax Votes - A vote for would allow the Legislature to enace local hunting and fishing laws that apply to only prts of the state. A vote against would continue to prohibit such laws.

No. 9 - Mineral Rights of Restored Coastal Lands - A vote for would allow the state to relinquish to previous owners mineral rights of coastal land it restores. A vote against would continue to require the state to retain such mineral rights.

No. 10 - Mineral Revenue Fund Use - A vote for would limit the use of monies in the Mineral Revenue Audit and Settlement Fund to early repayment of state debt. A vote against would continue to allow some uses that may not result in early debt reduction.

No. 11 - Oilfield Site Restoration Fund - A vote for would constitutionally protect the existing Oilfield Site Restoration Fund. A vote against would retain the Fund stautorily, subject to legislative change.

No. 12 - Oil Spill Contingency Fund - A vote for would constitutionally protect the existing Oil Spill Contingency Fund. A vote against would retain the Fund in the statutes, subject to legislative change.

No. 13 - Veterans' Civil Service Preferance Points - A vote for would allow the Legislature to determine which military conflicts qualify veterans for civil service preference points. A vote against would retain the need for a constitutional amendment to add a conflict.

No. 14 - Redeeming New Orleans Property - A vote for would reduce from three years to 18 months the time allowed an original owner to redeem abandoned or blighted property sold at tax sales by the City of New Orleans. A vote against would continue to allow the original owners three years to reclaim such property.

No. 15 - Donating Abandoned Homes - A vote for would allow the City of New Orleans to donate abandoned and blighted housing to nonprofit groups for renovation. A vote against would continue the general ban on donations of publicly-owned property.

NOV. 18 ELECTION

No. 1 - Jury Instruction - Voter Decision: A vote for would allow the Legislature to require the court to instruct a criminal jury that the governor is authorized to reduce sentences and grant pardons. A vote against would continue to prevent judges from advising jurors of the governor's power to alter sentences.

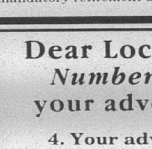
All screenings are free.

Term limits discussion

On Tuesday, Oct. 17, at 9:30 a.m., a press conference will be held to discuss the Term Limit Amendment appearing on the ballot of the Oct. 21st election. Rep. David Vitter of New Orleans, Rep. Randy Roach and Sen. Jay Dardenne of Baton Rouge and other invited legislators will be on hand to discuss this amendment. The location of the press conference will be the Conference Room of the Burton Business Center on the campus of McNeese State University and is open to the public.



Term Limits for Legislators is one of the key Constitutional Amendments featured on the ballot of the Oct. 21st election. Louisiana is the only legislature in the country to pass a term limit proposition.

Several other states have adopted term limits, but they were placed on the ballot by voter initiative. A vote in favor of this amendment would limit legislators to three consecutive terms in office. This amendment will appear on the ballot as Constitutional Amendment No. 2.

★★★★★★★★

To The Youth And Future Leaders Of Our Parish & State

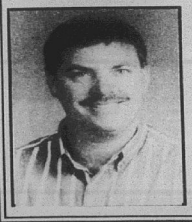
One of my main goals when I first ran for Sheriff was to prove to you that I would lead and guide you in a positive direction; to alert you that positive law enforcement would bring a brighter future. So many young people get killed at an early age in automobile accidents by not realizing the danger of a car. When we are young we never realize that it can happen to us. As we grow older and have children, then we realize how dangerous life is. We enforce the laws on the highways because it saves lives - your life and others. I have learned over the years that insurance companies capitalize on the mistakes of young drivers. You know that you can come in and if it's possible, I will help you.

I am your friend and your protector, any problem you have that you cannot solve, always feel free to come to me and I will try my best to help you.

So I ask the young people who are voting for the first time, if you think I've lived up to your expectations and will continue living up to them, to consider voting for me on October 21st so we can continue to have a safe and healthy future.

May God bless each and every one of you. I appreciate your vote.

Your Sheriff,



Sono

CLERK OF COURT

TO ALL CAMERON PARISH RESIDENTS:

As I have stated all during this campaign, from my work as an Abstractor, working in the Cameron Parish Clerk of Courts' Office and many other Clerk of Courts' Offices, statewide, I have learned and been involved with the day-to-day workings of these offices.

I feel that the Knowledge and Experience I have gained along with my strong work ethic will help me run your Clerk of Courts' Office in a PROFESSIONAL, EFFICIENT, COURTEOUS and COST EFFICIENT manner to the best of my ability.

When elected, I will no longer be an Abstractor. I will be your Clerk of Court, there for you, to serve as a Public Servant for all Cameron Parish Residents and pledge to work with all Public Agencies and Bodies to help bring Cameron Parish into the 21st Century.

In the future, I am anxious to serve each and every one of you as your next Clerk of Court.

In closing, on October 21st, I am asking each of you to ELECT ME. . .

Repair of bridge is scheduled

The Louisiana Department of Transportation and Develoment has contracted drydocking and repairs of the Black Bayou Pontoon Bridge in Calcasieu Parish with Fredeman Shipyard, Inc. This bridge is located on Route La. 384 on the Intracoastal Canal.

La. DOTD will be removing the Black Bayou Bridge from service at 4 a.m., Tues., Oct. 31. All traffic will be required to detour via the Grand Lake Bridge. These repairs are necessary due to poor structural condition of the Pontoon Bridge.

Fire station opening set

The Cameron Parish Fire Protection District #14 of Grand Lake - Sweet Lake will have a grand opening of its newest fire station, the newly completed Granger Cove Area Fire Station, Sat., Oct. 21, from 4-5:30 p.m.

Barbecue plates will be served. The station is located at 160 Granger Lane.

Flu shots to be given here

The Cameron Parish Health Unit will give flu shots at the following locations:

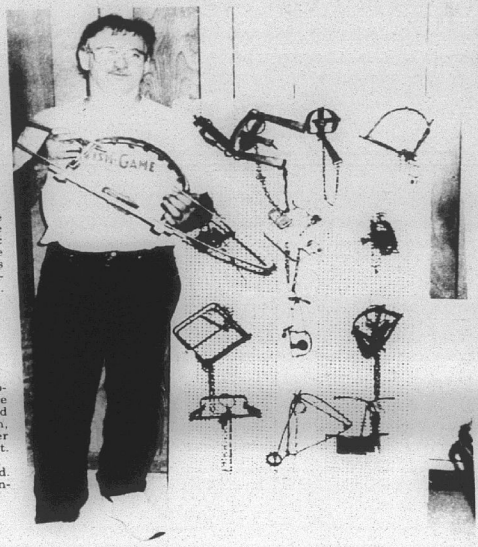
Cameron Parish Health Unit - Oct. 26, 9 a.m.-2 p.m., and every Thrusday between 9 a.m. and 2 p.m. until vaccine runs out.

Johnson Bayou Recreation Center - Oct. 17, 8-10 a.m.

Hackberry Rural Health Center - Oct. 27, 11 a.m.- 1 p.m.

Grand Lake Recreation Center - Oct. 31, 9-11 a.m.

A $5 administration fee is charged for people over federal poverty income guidelines. No one below the federal poverty guidelines will be charged.



Registration for Nov. 18

Although registration has ended for the Oct. 21, primary election, Cameron parish citizens may still register to vote in Nov 18, general election, according to Registrar of Voters Ruby Kelley.

Registration for the Nov. 18, election may be done in the registrar's office in the courthouse until 4 p.m. Tues., Nov. 24.

$2500 winner

Veronica S. Conner of Cameron recently won $2500 playing Cat Scratch Fever, according to the Louisiana Lottery. The winning ticket was purchased at the Bayou Convenience Store.

Amend. 8 is explained

By REP. RANDY ROACH

Last week after the news article ran on Constitutional Amendment No. 8, I received several telephone calls from area fishermen. They were being told the purpose of this amendment was to allow the Legislature to restrict commercial fishing in Cameron Parish. I am not sure who started that rumor, but I want to set the record straight. It is not true.

The Legislature routinely considers local laws regulating hunting and fishing. There is a serious legal question as to whether the Legislature can pass such laws. Amendment No. 8 makes it clear that the Legislature does have the authority to pass those laws.

It does not give the recreational fishermen or the commercial fishermen any advantage over each other. If the amendment passes, the Legislature will be able to continue to address the local hunting and fishing problems without having to pass a statewide law.

The Legislature would never pass a local law not supported by your local Senator and Representative. Any local bill must be advertised twice in the Cameron Pilot at least 30 days before it is filed. I do not know of any situation in which a legislator has passed a local law affecting a parish he or she did not represent. This kind of thing simply does not happen. The last time it was tried, the bill failed in committee because it was not supported by the local legislators.

The Louisiana Wildlife Federation, which represents the majority of recreational fishing groups around the state, is publicly opposed to this amendment. The Federation admits there is a legal queston regarding the authority of the Legislature to pass local hunting and fishing laws. They believe the Wildlife and Fisheries Commission should be the only one authorized to pass such local laws.

The GCCA is also publicly opposing the amendment. They believe that it will open the door for local bills to allow gill netting and the commercial taking of redfish in certain areas of the state. Any legislation dealing with those kinds of bills would be just as controversial as a statewide bill to do the same thing. It would not be treated like an ordinary local bill.

Since before I was elected, the Legislature has been passing local laws regulating fishing in Cameron Parish - both comemrcial and recreational. Over the years we have succeeded in convincing the Legislature and the Wildlife and Fisheries Commission that the fishing industry in Cameron Parish is unique and requires special attention.

For example, we have enacted special rules for oyster fishing, crabbing in Sabine Lake and other special in-land shrimp laws and seasons. If the amendment does not pass we will not be able to continue to do this.

The next battle to be fought in the Legislature will probably be between the small commercial fishermen and the big commercial interests. So far we have been able to avoid this by passing local fishing laws.

This year oyster processors from New Orleans tried to change the law regarding the size of a sack of oysters. I amended the bill to make sure it would not affect our ten-sack limit for Calcasieu Lake. If the amendment fails we will no longer be able to protect our local fishery this way.

This year the Legislature prohibited night shrimping in Vermilon

Legislators back term limits amend.

Rep. Randy Roach, Rep. David Vitter and Sen. Jay Dardenne announced that together with other term limit advocates and citizen activists they will make a swing through Louisiana prior to the Oct. 21st primary to focus voter attention on Constitutional Amendment No. 2, term limits for the Louisiana Legislature.

The stop in Lake Charles was Tuesday, Oct. 17, and was held in the Conference Room in the Burton Business Center on the campus of McNeese State University.

This amendment limits to three the number of consecutive terms any member of the Louisiana legislature may serve in his or her office. After much debate in both the House of Representatives and the Senate, this legislation was passed in the past legislative session clearing the way for it to appear on the primary ballot.

In explaining the motive for the caravan, Rep. Vitter said "The problem we are addressing is that many voters believe that the vote for term limits in the legislature in May had the weight of law, and that Louisiana now has term limits. We want to point out that the most important step has yet to be taken - the approval of the Louisiana electorate."

Should Constitutional #2 pass, it would represent a landmark in term limit legislation, according to Paul Jacobs, Executive Director of U.S. Term Limits in Washington, D.C. "While there are presently 23 states which have enacted one form of term limits or another, up until now this has all been accomplished by public initiative and referendum. Never before has a state's own legislature placed the issue on a ballot. Louisiana is the first, and a victory on Oct. 21, will open the doors for others to follow suit."

Johnson Bayou High School News

VISITS TV STUDIO

Mrs. Cindy Cormier's gifted students from Johnson Bayou and Hackberry High School went on a field trip to KPLC TV studio Mon., Oct. 16. The trip was in conjunction with the completion of the groups' own news videos. The students were required to write, produce and film news broadcasts including commercials for original product.

On the tour the group saw the newsroom, the production box, the studio where the news and weather are filmed and the weather center. They met Rob Marciano and James Smith. A reporter also explained how she completes news assignments. The students learned of the many jobs available in a TV station and the education and training required to obtain such a position.

Students attending from Johnson Bayou High School were: Andrew LaFleur, Ashley Price, Amanda Strong, Lauren Storm, Jill Simon and Christy Billiot.

Attending from Hackberry High School were Mandy Michalko, Ashley Austin, Eric Guidry, Bryon Reed, Alonna LeBlanc, Mandy Gremillion, Dusty Hebert, Cayde Ellender, Brittany Landry, Marcus Buford, Haley LaBove, Lindsay LaBove, Chelsie LaBove, Meagan Brosusard, Leah Billedeaux, Bethany Richard, and Paige Sanders.

Belinda Simon was a parent chaperone and Penny Trahan drove the bus.

Members who attended will give an oral report on the procedures and the conclusion of the experiment.

Students attending from Johnson Bayou were: Kenny Kellum, Regina McGee, Amy Nicar, Jody Trahan, Theresa Key, Melissa Trahan, Andy Tingler, Melanie Duhon, and James Welch.

4th Degree to meet in Creole

Msgr. Cramers Assembly, Fourth Degree Knights of Columbus, will hold its annual meeting in Creole, Thurs., Oct. 26. Faithful Navigator Wylace Vincent of Kinder will call the meeting to order in the hall of J. P. Boudoin Council 3014 at 7:30 p.m.

During the meeting plans will be completed for the assembly's annual Memorial Mass for deceased members to be held next month, as well as the assembly's participation in Veterans Day activities Nov. 11.

Prior to the business session the chefs of Council 3014 will prepare and serve their famous "seafoodfest".

Report given on meeting

The Department of Natural Resources has announced the release of a special report summarizing the outcome of ten public meetings held by the agency, Dept. of Wildlife and Fisheries, Cooperative Extension Service and the Sea Grant College. One of these meetings was held in Cameron.

The public meetings were conducted in a way that citizens questions regarding coastal restoration and conservation issues in Louisiana could be directly addressed and answered by state officials from the participating agencies.

Included in the report are all public comments and questions posed at the meetings, with the responses of agency officials. Items specifically addressed included freshwater diversion, marsh management, barrier island restoration, "dead zones", the role of wetlands in providing essential habitat for fisheries, and the current status of wetland loss as it relates to fisheries harvests.

DNR Coastal Restoration Administrator Bill Good, LCES Area Agent Paul Coreil, and DWF Marine Fisheries Program Manager Phil Bowman represented their respective agencies and gave detailed presentations at each meeting site.

For copies of the report entitled, "Coastal Conservation and Fisheries -- Challenges and Opportunities: A Summary of 10 Meetings", contact DNR's Public Information office at (504) 342-8955.

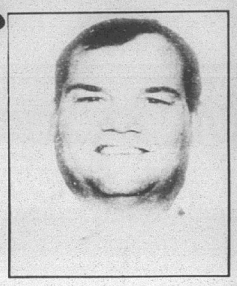
Amendment 14 Cont. from Pg. 1

Bay, Atachafalaya Bay and other areas. If Amendment No. 8 does not pass that law might be declared invalid. If so, some commercial interests will probably file a bill to prohibit night shrimping statewide.

If they get enough votes to pass it, your Senator and Representative might not be able to do anything to keep night shrimping in Cameron Parish. Why? Because they would have to pass a local law to do it.

The next thing you know some commercial interest may try to ban pontoon barges. Butterfly nets could be next. If Amendment No. 8 does not pass, there could never be a special exception for Cameron Parish. And many of those special fishing laws which now apply only to Cameron Parish will be on shaky legal ground.

I do not take offense to anyone disagreeing with me over any issue. After eight years in the Legislature I am used to disagreement. That is what the democratic process is all about. However, I do not appreciate it when a small group of local fishermen suggest that I supported this amendment for any reason other than to make it clear that the Legislature does have the right to pass the same kinds of local laws regulating hunting and fishing that it has been passing for the past several years.



Revival set at Center

A revival will be held Oct. 27-29, at the Recreation Center behind the Cameron Courthouse.

Guest speaker will be Betty Chambers.

ON YOUR BALLOT

Dear Mr. Nunez,

I am a 16 year old girl, and I went to your Grand Lake rally on October 14, 1995. I just thought you might like to know what I thought of it. I felt you had a lot of good ideas. They were very realistic

Some people promise things that are impossible, but your ideas were things that could be done. I thought the D.A.R.E. program stood out above all of the other ideas. It is true that education about drugs should be from kindergarten through twelfth grade instead of just fifth grade.

Thanks, Anne Trahan

DARE is explained by Sheriff

Sheriff James Savoie has provided the following information on the D.A.R.E. program that is in operation in Cameron Parish:

D.A.R.E. started with one trained officer in 1988 in Tangipahoa Parish under the direction of the Tangipahoa Sheriff's Department. Sheriff Ed Layisson sent a deputy to Virginia to be trained and he was the first officer to teach D.A.R.E. in Louisiana.

The Louisiana Sheriff's Association adopted the D.A.R.E. program in 1990 as its drug prevention program of choice and together with the Louisiana Department of Education have been very instrumental in the growth and success of the D.A.R.E. progam in Louisiana.

D.A.R.E. is being taught in 62 school systems in Lousiana. A total of 60 parishes have D.A.R.E. in the 5th and 6th grade classrooms and Louisiana has trained 285 officers to teach the D.A.R.E. curriculum. These officers reach an estimated 600,000 students in kindergarten through 6th grade.

In March 1993 Governor Edwin Edwards signed an executive order creating the Louisiana D.A.R.E. Advisory Board under the structure of the Louisiana Commission on Law Enforcement for the purpose of developing, promoting, monitoring and evaluating the D.A.R.E. Program throughout the State.

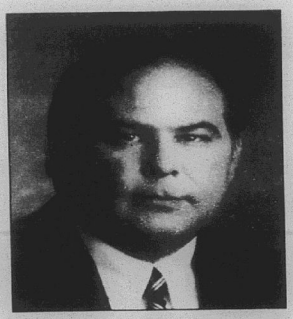
WE MUST PROTECT EXISTING BUSINESS
As Well As Bring Others In!



As a small businessman as well as a candidate for State Representative I certainly recognize the need to protect existing businesses in this area. I intend to do whatever I can to minimize the impact of governmental regulations on small business. I will work to encourage the growth of the aviation industry here in Southwest Louisiana on a state level.

If we expect to fix anything that's wrong with Louisiana we must begin by paying off state debt. I believe in a conservative approach to spending existing tax dollars.

I believe in providing adequate funds for education and law enforcement, and most importantly, I believe in supporting sound fiscal policies to match revenues to expenditures. With accurate forecasting of revenues we CAN balance the budget. Let's use existing tax revenues on a priority basis to fund long time services, like education, law enforcement and aid to the needy. I want to develop our own economy...I want to represent everyone fairly and honestly...and I want to serve you in Baton Rouge.

VOTE #101
SUZANNE STURLESE

Thanks to you, the people of Creole for giving me a few minutes of you time during my campaign. Now I would like to give you 4 years of my time!

VOTE #101 FOR POLICE JUROR DIST. 5
"SUZANNE STURLESE"
SATURDAY, OCTOBER 21
(Paid for by Suzanne Sturlese)

How In The World Can You Vote In 3 Minutes?*
Easily.

VOTING TIPS

- Study the Ballot – Check your newspaper for a copy of the ballot. Cut it out and study it. If you don't subscribe to a paper, call your local election officials.
- Decide Outside the Booth – You're not an impulse voter, so make up your mind outside the curtains. Use your booth time for voting, not deciding.
- Go By the Numbers – Some people find it easier to vote by candidate numbers rather than names. Voting by the numbers can be quicker, too.
- Take a Ballot to the Booth – It's OK to mark your ballot at home and bring it with you in the booth. This will save you lots of time!

October 21 is Election Day. Change the World – Vote.

Paid for by the Louisiana Department of Elections & Registration

The upcoming ballot will be one of the longest in history.

And a high voter turnout is expected.

Follow these tips for smooth voting and you'll see that three minutes is all the time in the

*State Law limits voting time in the booth to three minutes.

Heart problems don't keep office hours.

Even the very best medical care is of no value unless you have access to it. So here is our pledge to you:

If you have chest pain or other heart-related symptoms, you will be seen immediately-- 24 hours a day, 365 days a year.

If you don't have symptoms, but you or your doctor have concerns about your heart, you will be seen within 48 hours, even if we must extend office hours to accommodate you.

And if you simply want a heart checkup, it will normally be scheduled within one week.

Elora Montie was surprised with a birthday dinner Sun., Oct. 15, in a Lake Charles restaurant by Mrs. Dora Dyson and granddaughter, Mrs. Beverly Dyson and Lesia Dyson.

VISITORS

Mr. and Mrs. Hi Pocket spent the weekend with Mr. and Mrs. A. D. Trahan.

Clyde and Ramona Miller spent the weekend in Las Vegas.

Mr. and Mrs. Lynn Vincent spent the weekend with Mrs. Vincent's father and family, the Hank Taylors in Shreveport.

Mrs. Liz Ball and family of West Monroe spent the weekend with her mother, Mrs. Mamie Richard.

Clark Hoffpauir, who has been working in Alaska, spent the weekend here.

Mr. and Mrs. Scott Trahan and family spent the weekend with his parents, the A. D. Trahans.

L. J., Donna and Hannah Adams of New Orleans spent the weekend with Mrs. Ella Mae Booth and family.

Taylor David, Kent Himel spent the weekend at the home of Mr. and Mrs. Earl Booth Jr.

Lola Quinn and family spent the weekend with Mrs. Quinn's parents, Mr. and Mrs. Arnold Jones and family.

HUNT COURSE

A hunter safety course will be offered Oct. 24, 25 and 26, from 6:30-9:30 p.m. at the Grand Chenier Elementary School. for more information contact Remy Brousard at Rockefeller Refuge or Zeke Wainwright at the school.

AWARENESS MONTH

October is being observed as Substance Awareness Month. Red Ribbon Week will be observed at the school from Oct. 23-27, by wearing red ribbon pins. Community leaders and parish officials were sent letters and red ribbon pins.

MEMBERS OF the Grand Lake Jr. and Sr. 4-H Clubs who participated in the project workshop were Heather Taylor, Scott Myers, Chad Sullivan and Ashley Picou. Mandy Broussard also participated. Heather presented a clinic on Illustrated Talks and the Rice Cookery project.

Grant to help Head Start program here

The Louisiana Children's Trust Fund's Board of Directors recently announced the awarding of a $5,000 grant to the Cameron Community Action Agency for "A Head Start on Prevention". This program will service Head Start children ranging from 3 to 5 years old. Head Start children have been nationally recognized as those most likely to be abused or have already been abused. Many times these children come from broken homes or homes where there is an absent parent.

The Louisiana Children's Trust Fund helps support public and private non-profit organizations in their efforts to prevent child abuse and neglect.

Black News

By WANITA HARRISON

Rev. I. Terry celebrated his fourth pastor's anniversary Sun., Oct. 15, at Saints Memorial Church of God in Christ in Lake Charles.

Mrs. Lillie Harrison, Mrs. Rosa LeBlanc, Mrs. Latrelle January, and Vickie attended the celebration.

Raymond LeBlanc is recuperating at Memorial hospital in Lake Charles.

Scurlock Permian Corporation (SPC) owns and operates pipelines for the gathering and transportation of crude oil in the area of Johnson Bayou in Cameron Parish, Louisiana. One of these pipelines may be located on your property or in the vicinity of where you live.

SPC has placed pipeline marker signs at road crossings and various fence lines along its pipeline right-of-ways. SPC pipeline marker signs can be identified showing the information as follows: Warning Petroleum Pipeline; Before excavating or in emergency call collect Scurlock Permian Corporation 713/646-4100, Houston, Texas.

It is unlawful to remove or vandalize pipeline marker signs.

Although pipelines are the safest method of transporting crude oil and petroleum products so vital to our way of life, they can be damaged from excavation, drilling, blasting, land movement, vandalism, etc. Pipelines operate under pressure and damage to them can be hazardous to property and individuals.

The management of Scurlock Permian Corporation asks that you call and report any emergency relating to our pipelines. Call us if you or anyone you know is planning or doing excavation work on or near the pipeline right-of-way. A representative of SPC can provide assistance for a safer project.

RESOLUTION
STATE OF LOUISIANA
PARISH OF CAMERON

WHEREAS, Cameron Parish is a coastal parish and has been and will continue to be faced with the threat of hurricanes; and

WHEREAS, in times of hurricane evacuation Cameron Parish citizens must use State Highway No. 27 to move to higher ground; and

WHEREAS, State Highway No. 27 is only a two lane highway, is subject to heavy congestion, and offers the possibility that an accident could totally block traffic at these crucial times;

NOW, THEREFORE, BE IT RESOLVED that the Cameron Parish Police Jury does hereby solicit the support of the Region Seven of the Police Jury Association of Louisiana to request that the State designate and construct a hurricane evacuation route running north from the town of Cameron toward the Community of Big Lake.

AND, FURTHERMORE, BE IT RESOLVED, that the State designate State Highway No. 27 as a hurricane route and four lane said highway from the Town of Cameron to Hackett's Corner.

AND, FURTHERMORE, BE IT RESOLVED, that the State replace the existing Grand Lake Pontoon Bridge at the Intracoastal Canal with a high rise bridge.

Proposed Constitutional Amendment to be voted on at the General Election November 18, 1995

Proposed Amendment No. 1
ACT No. 1322

HOUSE BILL NO. 78
BY REPRESENTATIVES WINDHORST, CLARKSON, THEUNISSEN, BRUNEAU, DEVILLE, AND JENKINS AND SENATOR HAINKEL

A JOINT RESOLUTION

Proposing to amend and reenact Section 16 of the Constitution of Louisiana, to provide that a court instruction to the jury of the governor's authority to grant a reprieve, pardon, or commutation of a sentence following conviction of a crime does not violate the constitutional right to a fair trial; to provide for submission of the proposed amendment to the electors; and to provide for related matters.

Section 1. Be it resolved by the Legislature of Louisiana, two-thirds of the members elected to each house concurring, that there shall be submitted to the electors of the state of Louisiana, for their approval or rejection in the manner provided by law, a proposal to amend Article I, Section 16 of the Constitution of Louisiana, to read as follows:

§16. Right to a Fair Trial

Section 16. Every person charged with a crime is presumed innocent until proven guilty and is entitled to a speedy, public, and impartial trial in the parish where the offense or an element of the offense occurred, unless venue is changed in accordance with law. No person shall be compelled to give evidence against himself. An accused is entitled to confront and cross-examine the witnesses against him, to compel the attendance of witnesses, to present a defense and to testify in his own behalf. However, nothing in this Section or any other section of this constitution shall prohibit the legislature from enacting a law to require a trial court to instruct a jury in a criminal trial that the governor is empowered to grant a reprieve, pardon, or commutation of sentence following conviction of a crime, that the governor in exercising such authority may commute or modify a sentence of life imprisonment without benefit of parole to a lesser sentence which includes the possibility of parole, may commute a sentence of death to a lesser sentence of life imprisonment without benefit of parole, or may allow the release of an offender on parole during a life imprisonment or death sentence to the time already served by the offender or by granting the offender a pardon.

Section 2. Be it further resolved that this proposed amendment shall be submitted to the electors of the state of Louisiana at the gubernatorial general election to be held in 1995.

Section 3. Be it further resolved that on the official ballot to be used at said election there shall be printed a proposition, upon which the electors of the state shall be permitted to vote FOR or AGAINST, to amend the Constitution of Louisiana, which proposition shall read as follows:

To allow for the enactment of a statute to require a trial court to instruct a criminal jury that the governor has the authority to grant a reprieve, pardon, or commutation of sentence following conviction of a crime or sentencing. (Amends Article I, Section 16)

Voters urged to have their minds made up

—CAPITAL NEWS—

The intensity of this fall's campaigning ensures that voters are aware of how many items they will face when they enter the polling booths on Oct. 21. But they may have forgotten that their time in the booths in not unlimited.

State Elections Commissioner Jerry Fowler, who is on the ballot, has been traveling the state cautioning voters that "the law allows the voter only three minutes in the booth." He has been asking civic groups to encourage voters to have their choices made before they close the curtain on the voting booths.

Daily newspapers print copies of the ballots before elections, and the local clerk of court's office also has copies available, Fowler said. He advises every voter to study a sample ballot and decide where his support lies before going to the polls. Otherwise, he may run out of time before he gets to the bottom of the ballot.

Besides the slate of 16 gubernatorial hopefuls and 11 candidates for lieutenant governor, voters must decide all the other state offices as well. The treasurer's race also is wide open, and incumbents face opposition for secretary of state and attorney general as well as commissioner's posts in the departments of agriculture, elections and insurance. The eight Board of Elementary and Secondary Education district races also will be on the ballot, and some districts will vote on judgeships and public service commission seats. Local races also are on tap.

The ballot also will be lengthened by 15 constitutional amendments. The most widely publicized would abolish the state's forced heirship law except for children younger than 24 or unable to care for themselves and would limit state lawmakers to three consecutive terms in one legislative chamber. Probably the least recognized are those which would allow part of Rapides Parish and the City of Baker to form their own school districts, allow the City of New Orleans to donate abandoned housing to non-profit groups for renovation and reduce from three years to 18 months the time allowed for an owner in New Orleans to redeem abandoned property sold at tax sales.

Voters also will decide on the Legislature's authority in several specific matters. Amendment 3 would allow lawmakers to limit awards in lawsuits against state or local governments. Amendment 6 would require a two-thirds vote by each house to institute or raise a state fee or civil fine. Amendment 8 would allow the Legislature to enact local hunting and fishing laws, and Amendment 13 would let it determine which military conflicts qualify veterans for civil service preference points.

Amendment 4 would raise the mandatory retirement age for judges from 70 to 75 if voters approve it. Amendment 7 would keep a local tax proposition from reappearing on the ballot within six months unless the taxing body declared an emergency. Amendment 9 would allow the state to return mineral rights to previous owners of coastal land it restores. Amendments 11 and 12 would constitutionally protect the Oilfield Site Restoration Fund and the Oil Spill Contingency Fund, respectively, and Amendment 10 would limit use of the Mineral Revenue Audit and Settlement Fund to early repayment of state debt.

Of course, voters also will be deciding who will represent them in the state House of Representatives and Senate for the next four years. The Public Affairs Research Council and the Bureau of Governmental Research of New Orleans last week announced that the seven major gubernatorial candidates and more than 215 of 325 legislative candidates have promised to support a revamping of the state's ethics laws if they are elected.

The two non-profit research groups recently completed an in-depth study of the state ethics code, campaign finance laws, lobbyist disclosure act and gambling laws. They recommended more than 50 changes and are encouraged by the widespread support received from candidates. However, PAR President Mark Drennen said he was disappointed that many incumbent lawmakers who were returned to office unopposed have not promised support of the ethics revision, and several incumbents who are facing opposition also have not signed pledges.

VOTE SATURDAY OCTOBER 21

RE-ELECT JERRY FOWLER

Jerry Fowler has served as Commissioner of Elections for four terms. During that time he has established his office as a model that is being followed by other states throughout the nation.

He has supported legislation eliminating physical and legal barriers, allowing handicapped citizens to participate in the election process.

Election returns are reported and disseminated accurately and speedily.

A new system of voter registration links all voting rolls statewide, virtually eliminating election fraud due to multiple registration.

Our voting rolls are the cleanest and most accurate in history.

Reward dedicated service! Vote for continued progress in Louisiana's election process.

Re-Elect #49

VOTE #98 • FOR CONTINUED PROGRESS

TO THE VOTERS OF CAMERON PARISH:

On Saturday, October 21, 1995, each and every one of us will have the opportunity to make a difference in our future as a parish and as a state. I would like to take this opportunity to let each of you know what makes me confident that I have what it takes to be your next CLERK OF COURT.

QUALIFICATIONS;

• WORKING WITH THE PUBLIC: For the past thirteen and a half years I have worked with the public daily through my jobs and through many civic organizations. I have always strived hard to treat people fairly and have done my best to meet the needs of the people.

•MANAGEMENT As an officer of Cameron State Bank, I have the education, training, and skills necessary to manage the Clerk's Office and its personnel. This training will make me very capable of operating an efficient Clerk's Office.

•BUDGETING As a loan officer for the past five years, I have dealt with both budgeting and financial matters. These experiences will be sound assets in the inner workings of the Clerk's office.

•WORK ETHIC I feel that I can work well with all public bodies. I have experience dealing with attorneys, abstractors, and various other business entities who work with this office. These experiences will make me an effective Clerk of Court.

I would like to take this opportunity to thank those of you who allowed me to visit with you in your homes. It has been a pleasure over the past eight weeks to visit with many of you from each of the communities about the election and the Clerk's office. It has shown me that the people of Cameron Parish are truly friendly, and it makes me proud to be a resident of this great parish. For those of you I was unable to visit personally, I hope you will consider my qualifications and vote for me, Greg Wicke, #92, on Saturday, October 21, 1995.

Sincerely,

Greg Wicke

Tarpons are 2-0 in Dist.

By JOE MUELLER

The South Cameron Tarpons raised their district worksheet to 2-0 as they defeated Notre Dame 14-0.

The Tarpons, who recovered three Pioneer fumbles, scored twice in the opening quarter and held off the Pioneers all night for the 14-0 shut out.

South Cameron, who didn't win a pre-district game, got their first win of the year in the opening district game against North Vermilion.

The Tarpons first score came when they recovered a Pioneer fumble on the Notre Dame 25 yard line. It took the South Cameron team 4 plays to score as Jared Savoie ran the ball into the end zone from 7 yards out.

The Tarpons next touchdown came with 3:06 left in the quarter. The Pioneers were forced to punt on a 4th and 16. The low snap from center forced the Pioneer punter to try and run with the ball and he was tackled on his own two yard line.

Two plays later Savoie scored from the one. The extra point was good and the Tarpons were up 14-0.

The rest of the game saw no scoring as the Pioneers fumbled four more times and the Tarpons recovered two of the four.

The Tarpons fumbled seven times and the Pioneers recovered four of them. None of the Tarpon fumbles were near their goal line.

The Tarpon defense did an excellent job as Notre Dame, the sixth ranked team in the state, could only net four rushing yards. They did get 89 yards through the air on a 9 for 21 passing performance by Dexter Guidry.

South Cameron collected only 66 yards rushing with Brandon Conner getting 46 yards and Jared Savoie had 25. Through the air Tarpon quarterback John Pradia hit on 4 of 8 passes for 20 yards. Jeremy Jones caught 3 passes for 21 yards and Derrick Blackwell, one for 5 yards.

The Tarpons have another big game this week as they travel to Lake Arthur for a district game. Lake Arthur, Welsh, Notre Dame and Iota are all tied for second in district at 1-1. The Tarpons are on top of the district at 2-0.

Tarpons to play at Lake Arthur Friday

By JOE MUELLER

DISTRICT 6AA FOOTBALL STANDINGS

	Dis.	Tot.
So. Cam.	2-0	2-4
Notre Dame	1-1	5-2
Lake Arthur	1-1	4-3
Iota	1-1	3-4
Welsh	1-1	2-4
No. Vermilion	0-2	0-7

The South Cameron Tarpons, who currently lead District 6AA with a perfect 2-0 worksheet, travel to Lake Arthur for a district encounter with kickoff scheduled for 7 p.m.

The Tarpons are coming off a big district win last week as they beat district favorite Notre Dame 14-0. Lake Arthur also had a big district win as they beat Welsh 49-16. This was the first win over Welsh for the Tigers in over a decade.

The two teams playing for the district is nothing new as last year and this year before they played for the district lead.

In last year's game Lake Arthur came out on top with a 26-21 victory. They scored 6 points in the final quarter for the win.

Last year they took a 7-0 record into the contest, this year they are 4-3.

The Tigers are 1-1 in district having lost their opening district game to Notre Dame by the score of 21-14.

The Tigers and Tarpons have another common opponent in Vinton. The Lions beat the Tigers 39-14 and they also handled the Tarpons 27-9. So, by the looks of the two common opponents, it should be an even game.

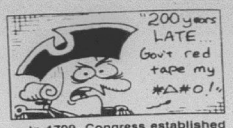
The big gun for the Tigers is Taurius Davis, a senior quarterback who can throw and run with the ball real well and also he plays good defense. In last year's game he returned two punts for a total of 119 yard and one was for a 67 yard touchdown, which was the only score of the second half.

The Tigers also have two strong runners in Deserick Washington, averaging nearly 75 yards per game and Bardale Jones, averaging nearly 80 yards per game.

The Tarpons quarterback freshman John Pradia has thrown for 420 yards while Davis has thrown for over 500 yards on the year.

The Tigers top running backs are Brandon Conner and Jared Savoie.

The game should be close and hard fought as both teams seem to be peaking at the right time.



With a win the Tarpons should be in the driver's seat for the district crown as they close out the season with games against Iota and Welsh.

Some armadillos spend up to 80 percent of their life sleeping or dozing.

In 1799, Congress established the nation's highest military title, General of the Armies of the United States to honor George Washington, first commander of the army, but he never received it. It was awarded posthumously by a special act of Congress in 1976.

Letter to Editor:

Dear Editor:

This October 21, Louisiana voters will have the opportunity to vote t boost our state's chances for restoring our priceless but endangered coast. Amendment #9 onthe ballot would authorize the state to enact laws, regulations and procedures for negotiating settlements dealing with the ownershi of mineral rights on coastal lands restored with public funds.

Presently, private landowners often have a right to reclaimpublic lands and minerals in areas that have eroded or subsided (ie areas that were once private land but ae now public waterways). Under existing law that right of reclamation could be lost if the state restores the land. When that occurs the private landowner loses his right to ever reclaim the minerals in the eroded area. For that reason, many landowners resist critically needed state funded restoration projects.

These fights over mineral rights come with a high price. Each year we lose another 35 square miles of our coast. There is so much more at stake in the fight for our coast than oil and gas rights, as important as they are. Our fisheries, communities, transportation infrastructure, and a way of life hang in the balance.

But as things stand now, the restoration and management of our coast for those broader, more enduring, values are the hostage of laws that value minerals management over everything else. Amendment #9 would change that by giving the state the authority to separate mineral rights from surface land rights in a manner prescribed by law in order to facilitate the implementation and construction of coastal restoration projects.

Just as important as what Amendment #9 would do is what it won't do. It will not by iself transfer ownership of any public lands or mineral rights into private hands. It does not apply to any lands other than coastal lands and waterbottoms that are already subject ot some private right of reclamation. And it does not give any state agency unfettered discretion in how and when it can compromise state mineral rights.

In short, it is not a giveaway of state oil and gas rights. It is just a much needed step in the right direction in the effort to save our coast. The next step would be to pass implementing legislation. That legislation will need to be carefully crafted to ensure that the public interest is put first, but with informed public involvement that can be done.

On Oct. 21, do yourself and your coast a favor, vote yes on Amendment #9.

/s/ Mark Davis,
Executive Director
Coalition to Restore
Coastal Louisiana

KING

CAMERON CLERK OF COURT

(Paid for by Cynthia P. King)

TO THE PEOPLE OF CAMERON PARISH:

I want to take this opportunity to thank each of you for allowing me to visit with you. I appreciate you for opening your homes, meetings, businesses and church groups to me and permitting me to meet and speak to you. I know that you gave time from your busy schedules and I treasure this. I do appreciate this.

I have diligently tried to visit everyone in this parish. Even after several attempts, I have still missed some of you and I apologize for not being able to meet and speak to you. If you feel you need to talk to me, please call me and let me know, 775-5296 or 542-4768. I do want to hear from you.

The Clerk of Court's office plays an indispensable role in the judicial system of our parish and parish government. I have worked alongside all parish officials during my 18 1/2 years in the clerk's office. During this time, I have had the opportunity to work in every department and aspect of the office.

I am a State Certified Deputy Clerk of Court and have attended numerous seminars and training sessions that have kept me informed of new legislation. I am also a notary public and I am on the Cameron Parish Notary Commission.

This office is presently under the supervision of the Clerk of Court, Debbie Theriot. I hope that you have enough confidence in me along with my experience, dedication, reliability and quality of service that you will give me your vote and a chance to be YOUR Clerk of Court.

If elected, I pledge to operate your office with an open door policy with quality service, reliability, efficiency and dependability, not only for the preservation of your records, but also to serve you, the hard working and deserving people of Cameron Parish. My communication lines will be open. I will be a working clerk and I know that with your vote of confidence you will give me on election day, I will accomplish this task.

PLEASE VOTE FOR ME. I AM WORKING FOR YOU

May God continue to bless each of you.

Sincerely,

C'Anne

Hackberry gushers recalled

(Lake Charles American Press, Oct. 21, 1927)

HACKBERRY OIL GUSHERS NEAR AT HAND

The Calcasieu Oil Company's No. 2 Doiron well at Hackberry was drilling at 3795 feet yesterday evening, and from the formation that the well was drilling in at the time, it is the opinion of some of the oil men that the drill might be expected to drop into the formation that resulted in the wreck of the No. 1 well by a gas blowout. The blowout of the No. 1 well occurred when the cement plug was drilled out at a depth of 3877 feet.

The drilling equipment now being used by the Calcasieu Oil Co. is of the heaviest make, and the mud is also of about as thick a mixture as will circulate. Every precaution is being taken with this well, and the big day of real oil gushers in the Hackberry field is believed to be near at hand.

Should the well of the Calcasieu Co. result in worthwhile oil production, the Hackberry field is expected to become the mecca of oil men overnight, and as a member of local people are interested in the royalty rights on portions of the lease block of the Calcasieu Oil Co., as well as other nearby leases, the field is looked upon in localoil circles as likely to result in as big, if not larger, royalty play than that which resulted in the Lake Charles field when the Vacuum Co. brought in its No. 1 Miller well in September, 1921.

(Cameron Pilot, Oct. 18, 1962)

CAMERON CATTLE DRIVE

The Welch-Meaux familiy moved their cattle back to Oak Grove from the summer pasture at Gillis last week. Around 500 head of cattle were in the herd. The 4-day trip was made without incident and the cattle fared very well.

Lead horses and much welcomed help was furnished by Creole cowboys. The cattle will winter on Oak Grove and will be moved back to Gillis next summer before storm season starts.

This is the second move of this herd in this manner fromthe Gillis range. The ancestors of the owners of this herd used to make the Chenier Teraque trip every year to move their cattle. This trip was discontinued in 1956, after 30 years.

J. B. Meaux was trail boss assisted by A. P. "Buster" Welch, D. W. Griffith, C. B. Welch, "Bootie" Meaux, Cleveland Rutherford and J. H. Meaux.

Riders and helpers during the trip were: Gilbert Landry, Jim Theriot, Man Theriot, Gayboy Stewart, Guy Jr. Murphy, James Burton, Howard Cox, Jack Primeaux, James Cox, Lynex Richard, G. H. LeBouef, "Bo Chop" Boudreaux, Whitney Miller, Elry Richard, Elie Conner, Arnold Rutherford, Benny Welch, Leslie Griffith, Jerome and Terry Rutherford, Joe Reina, Dan Nunez, "Bozo" and Terry Cox, Frances Welch, Lynda Pierce, Cherie Kay Griffith, "Bugger" Schlesinger, Phillip Andrews and Junior Bartie.

HOMECOMING MAIDS

Five of the maids who will participate in the South Cameron High School Homecoming Friday are pictured here. They are: Donna Miller, Jerrie Ann Champagne, Elaine Broussard, Susan Kornegay and Shirley Piner. Not pictured are Mary Lee Theriot, Beverly Rutherford and Gail Kovack. The queen, who will be selected from this group, will be crowned by last year's queen, Frances Welch.

NEW GAS STATION

Tommie Goodrich announced this week that his new American Service Station is now open for business in Hackberry. A grill, to be oprated in connection with the station, will be completed soon and at that time a grand opening is planned.

LION OF THE YEAR TO BE NAMED

The Cameron Lions Club will observe its 18th anniversary and name it "Lion of the Year" at a banquet at 7 p.m., Oct. 25, at Fred's Restaurant.

Last year's recipient of the award was E. W. Swindell. Others who have received the honor are Alvin Dyson, Ray Dimas, J. L. Derouen, E. J. Dronet and Hadley Fontenot.

Others on the program will be Lions President Clarence Guilbeau, Braxton Blake, Alvin Dyson, Hadley Fontenot, Rodney Guilbeaux, Ray Dimas, J. B. Daigle and Larry Dyson.

VOTE #89

To The People of Cameron Parish:

I would like to thank each and everyone of you for the courtesy you showed me as I visited your homes. I appreciated all the good comments you had to say about the Sheriff's Department. I promise you we will keep trying to upgrade our Department and continue giving you the best of service and protection. Many of you weren't home so I didn't get to talk to you and I probably won't be able to get around to every home before Saturday so I ask you to consider giving me your vote on October 21st. We had a shorter period to politic this year than before so that's why I won't be able to visit each home, but I will try my best.

On Saturday, you will be going to the polls to select a Sheriff of your choice for the next 4 years. Each of you know what kind of service and protectionthe Sheriff's department has providedand when you know the response you have received when you needed a deputy. Sixteen years ago I campaigned on giving you law and order; 24-hour patrolling in all our communities; 5 to 15 minute response time for all calls; I promised I would put a stop to the race tracks to save lives; and the bar owners would have to live up to the laws they have to abide by. I also told you I would give you Youth Programs to help and guide our children to a brighter future. On October 21st you will be the judge of whether I have delivered or not and whether you want to continue with my experience and service or whether you choose to change the system. From my opinion from talking to each of you, everyone was appreciative of their Sheriff's Department and its service and protection.

As I went around people were concerned about our drug problems. Yes, we do have some people on drugs and I think we know 90% of those who are using drugs, but under our system of justice you have to have proof beyond doubt before you can get a search warrant to go into those homes and without good informers it is impossible to get a good case. We have laws that allow us to test drivers for alcohol, the people of Louisiana can change the law so if we have reason to suspect drug use we can ask for a urine test to make a case. I can promise you we can clean Cameron Parish up in one week. I can assure you we know who the drug users are, but without proof or help, neither me or anybody else can do anything under the legal system. Change the law and I can prove to you what I can do.

Fifteen years ago, when I took over as Sheriff, I had heard years of talk about how a Sheriff's department should be run. I set out to be one of the best Sheriffs of Cameron Parish. I know the only way you could do that was to be strictly independent; owe no one a favor; accept no money to campaign on; have an open-door policy and with God's guidance treat everyone fairly and honestly. When you come into to talk to me you may not like the answer, but you get my true feelings. Yes, I've made mistakes and will probably make some more if you choose to elect me for the next 4 years, but I never did make a mistake on purpose, and I've always tried to correct them. They only had one person who didn't make a mistake, and that was Christ, and they crucified Him.

So I ask you on October 21st, to go to the polls and vote for your choice. Each and everyone of you know my record and what I stand for. I ask for your vote and support so I can continue serving you for the next four years.

GOD BLESS EACH AND EVERYONE OF YOU!

YOUR SHERIFF,

Re-Elect Sheriff

So. Cam. Elem. class to take 2 field trips

By GENEVA GRIFFITH

The self-contained class at South Cameron Elementary School is looking forward to two field trips they will take, due to the generosity of local people.

The Cameron Parish Special Olympics committee held their fund raiser dance Friday night and it was a success, according to Darryl East, chairman. East said that this is the only fund raiser the group has to fund the program for a year.

During the dance an auction was held and one item was a trip to Lake Charles for the South Cameron Elementary class to see "Peter Pan" at the Civic Center on Nov. 2, and lunch at a restaurant.

Jerry Nunez and Suzanne Sturlese bid $300 together to sponsor the trip.

The class will go on another trip at the end of the semester to Galveston, Tex., to visit museums and shops along The Strand, explained the class teacher, Annette McClendon.

Class members who will be on the trip are: Alice Lute, Joshua LeBouef, B. J. Primeaux, Victoria January, Shauntel Bartie, James Langley and Shawnta Bartie.

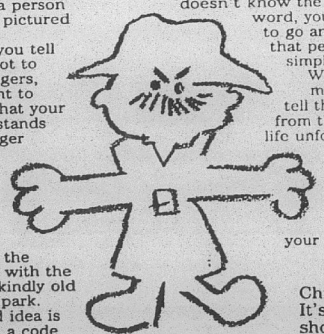
ASK YOUR CHILD WHAT A STRANGER LOOKS LIKE



Chances are good that if you ask your child what a stranger looks like, he or she is likely to describe a person like the one pictured here.

So when you tell your child not to talk to strangers, it's important to make sure that your child understands who a stranger really is.

Simply put, a stranger is anyone your child does not know, be it the "nice lady" with the dog or the kindly old man in the park.

One good idea is to establish a code word known only by yourself, your child and any adult authorized to escort or care for your child. If the stranger doesn't know the "magic" word, your child is not to go anyplace with that person. It's as simple as that.

While the movies make it easy to tell the good guys from the bad, real life unfortunately is not so simple. So take a moment to help safeguard your child today.

Child Safety. It's a matter of show and tell.

A LETTER TO THE CONCERNED PEOPLE IN CAMERON PARISH IN REFERENCE TO TONY HAY AND BEN WELCH...

As a concerned citizen of Cameron Parish, it is hard for me to realize and comprehend;

Are we under a dictatorship? When a man's job is threatened, are we living under Communism or are we living in a free country? I ask myself this question; am I dreaming or is this reality? I don't want to think its real, but wish it was only a dream, as it saddens me to hear this had to happen in our parish where a man's job is threatened for no other reason but he was seen talking to a certain person. Is this not prejudice? I came into the realization when I read the article of Tony Hay, whom I don't know, but I do know Debbie Theriot, and she's nothing but a loving and caring person. As Tony stated, if her kindness was shared more often by all of us, what a magnificent place this could and would be.

Let me tell you the generosity of this woman. Myself and another lady were selling bingo cards for $100 a piece for our church. She offered of her own free will and asked us to leave her a book of ten tickets,which she sold for us amounting to $1,000, never asking anything in return and she was not running for election. Few people know about her generosity for we didn't boast about it. I could go on and on about this lady for I have seen her grow up.

But to get on another subject; Ben Welch, I also don't know you, but saw your article and wanted to comment on it. I am saddened to hear this had to happen in our parish for a reason such as politics. I do\ know you are from a prominent and respectable family. One of the sweetest persons I've met is your grandmother, Dora Welch.

I didn't go into this without checking resources. Sometimes Ben, we are misunderstood and misused by what God has given us. We all want to "do it my way" instead of God's way. The Lord will be with you Ben and you will be able to find a better job. We are brothers and sisters and until we show and act on love, our lives will never be complete. Can love be shown by not threatening one's job? I hope and pray that this doesn't happen again during my short life span that I have left on this planet.

Sincerely

Lorena T. Hebert

S. Board is sued

By GENEVA GRIFFITH

A Lake Charles firm, Gamma Corporation, Inc., has filed a suit against the Cameron Parish School Board for an action taken at the Board's Aug. 9, meeting.

On that date the School Board received bids for the lease of surface rights on Section 16, Township 12 South, Range West, in Cameron Parish. The Board accepted the bid of Alfred Palma, Inc. in the sum of $5,210, which the suit claims was in violation of state law on procedures for the lease of 16th section land.

Gamma claims the School Board accepted the bid even though it did not meet the legal requirements of the statute citing "if improvements made by the immediately previous lessee have become component parts of the land to be leased and have a value greater than $10,000, and the prior lessee is bidding for continuance or renewal of his prior lease, then the award by the School Board shall be made to the highest bidder who stipulates in his bid he will pay to the prior lessee a sum equal to the appraised value of the improvements."

Chicot, Inc. has made improvements which had become a part of the land, which were valued at $10,000, the suit said.

It also stated that the Alfred Palma, Inc. bid did not contain the language required by the statute and should have been disregarded by the school board.

Also, the suite alleged that the statute requires that all bids be accompanied by a cash payment or certified cashier's check, but the Palma bid was accompanied by a personal check, rendering it defective.

The suit contends that since the Alfred Palma, Inc. bid is wrongful, and illegal, the School Board should rebid the lease.

Glenn W. Alexander, Cameron Parish District Attorney, answered on behalf of the Cameron Praish School Board and specifically denies that the board's acceptance of the Palma bid was wrongful and in violation of the state laws, and that the procedures and requirements of the statutes requires "substantial compliance."

Alexander also states the lease under which the previous lessee, Chicot, Inc., held on the School Board property specifically provided that "lessee shall make no improvements, excavatons, ditching or alterations to the premises in any manner without the prior written approval of the lessor", and the lessee has never requested, nor received written approval of the defendant, Cameron Parish School Board, for the making of any improvements on the property.

The answer also stated that none of the bids which were received on Aug. 9, 1995, were accompanied by cash payment or certified or cashier's check.

Judge H. Ward Fontenot has ordered a hearing on the matter in 38th Judicial District Court on Oct. 23.

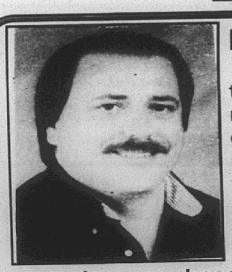
TO THE VOTERS OF DISTRICT 6:

I would like to thank each of you for your generous hospitality and friendly reception I received as I visited with each of you. It has been a great pleasure to meet with you and discuss the vital issues and important decisions that will affect all of us in the next four years.

During the past eight years I have worked actively with each of you as the many problems arose. We may not have been successful in all endeavors, but somehow working together, we always made a difference.

I ask that each of you consider the qualifications of each of the candidates ad then after careful consideration, make an important decision and vote for the one that you feel can best represent us during these crucial times.



I would like to continue to represent you and look forward to serving each of you, as I have in the past. I will continue to work hard for all the people in a fair and impartial manner. If we are to survive these crucial times, we must all work together for the betterment of our community and Cameron Parish.

For continued progress and representation, please vote GEORGE LEBOEUF, #105. I would appreciate your vote and support on Saturday, October 21st.

Thank You,

MY DEAR FRIENDS:

I want to take this last opportunity to thank all of you for the fine reception I have received throughout all the parish and also at all the rallies. I have been to every house in the parish, however I missed talking to some of you who were not at home. Time does not permit me to go back to those I missed and for this I am truly sorry, because I would have loved to discuss my views with you. I am sending a letter to each of you stating my platform and I sincerely hope that you will consider this as my personal plea to you for your support

I want you to know that I have not made any promises unless I feel I can keep them, and I have not made promises to any one individual.

I am a totally independent candidate and will not be controlled by any one person or organization.

I will always welcome your suggestions, and do everything in my power to do what is best for all Cameron Parish.

REDFISHING GOOD

This past week, since Hurricane Opal, the redfish have really turned on. Large reds in the Hog Bayou area, Rockefeller Refuge and the Old River on Grand Chenier have been taken. The Cameron area and Calcasieu Lake have also done their part in producing a number of good redfish. The Johnson Bayou - Holly Beach area is still producing reds and a few nice speckle trout reported taken.

This beautiful high pressure that was over us really got the boats offshore where red snappers were plentiful as well as grouper, Spanish and king mackeral. I talked to one group of anglers from Baton Rouge and the four caught over 100 red snappers, lots of small ones under the legal size, but came in with their limits running from 3 to 14 pounds.

Many bass anglers made their last trip to Lacassine and Sabine Refuges last week and weekend before the closure. Most did well, but a few said it was slow. Spoons with chunks and red shad worms were the best baits and some did well using the three inch pumpkin pepper frog, rigged Texas style.

GILL NET LAW STATUS

It seems that the higher court upheld the gill net ban law, declaring it was constitutional. This means all saltwater nets, such as seines, gill nets, trammel nets, hoop nets are banned and cannot be used.

This is really bad for our commercial fishermen, but also hurts many families who used to seine along the gulf, pulling by hand and catching a few fish to have a family fry at the beach. Other locals just use gill nets to catch a few garfish to eat, but this is all gone now. Some of these nets can still be used in freshwater, but there's boundaries, so be sure before you use them and have the proper license and gear license.

HUNTING NEWS

Our deer season (gun still hunting) for Cameron Parish opens Oct. 21, and runs through Dec. 1, on the first split. The second split will be Dec. 16-Jan. 4.

The opening of deer season will also be either sex day, in fact the first two days, Oct. 21-22. The other either sex days are Oct. 28 and 29, and Nov. 24 and 26.

Muzzleloader for our parish will not open until Dec. 2 and run thru Dec. 8. This is an either sex hunt. Cameron Parish has quite a large number of nice deer, and they are spreading throughout the parish. Remember your basic hunting license plus the big game license.

Dove season also opens this weekend, Oct. 21. We do have a few doves in the area, but unless colder weather up north sends more down toward Mexico, we really don't have the doves at this writing as we should have in the Creole-Grand Chenier area. Cameron hunters report a fair sitting of doves, but I understand the Johnson Bayou area has quite a few doves.

Remember, the first weekend (Oct. 21-22) hunting hours are noon to sunset, the rest of the second split is from one-half hour before sunrise to sunset. The daily bag limit is 12 per person and after the first day you may have 24 in possession, but not in the field. No baited fields are allowed.

NOTE

The limit on deer is one buck per day except either sex hunts then it's one antlered and one antlerless deer per day, except on wildlife management areas, national forests and federal refuges when it's only one deer per day. You may only take six deer per season by all segments which includes bow hunting, gun hunting and muzzleloader hunting.

Remember to wear hunter orange, 400 square inches. They make orange caps and vests, use them. On private property, an orange hunting cap is legal.

New limits are told for red snappers

A newly approved Wildlife and Fisheries Commission resolution raises recreational size limits for red snapper from 14 inches to 15 inches total length and reduces the bag limit from seven fish per person per day to five. The new limits only apply to recreational harvest, and go into effect immediately.

The change came at the request of the Gulf of Mexico Marine Fishery Management Council. "The Commission approved the request in order to make state reglations consistent with federal rules for this species," said Department of Wildlife and Fisheries marein fisheries biologist Harry Blanchet. "There should be less confusion regarding regulations in state and federal waters now that Louisiana's regulations are in place."

According to LDWF's Marine Fisheries Division, the majority of the recreational red snapper harvest in Louisiana takes place in federal waters.

The commercial minimum size limit of 14 inches remains in place.

The reason I am seeking this office is because I was born and raised in Cameron Parish. I love our parish because this is my home. We have a lot of good caring people in our parish.

I would like to spend the rest of my life in Cameron Parish.

A lot of families have left Cameron Parish to seek employment elsewhere. We have to work as a community to keep our people home where they belong.

We have to work as a community to create activities for our children, to keep them off the streets. We also have to take a stand and support a part of our heritage (our commercial fishermen). Furthermore, we have to support our local businesses.

I am asking you to let me give a helping hand, but to accomplish any of these goals is going to take a community effort.

I am not seeking this office for prestige or personal gain. I am seeking this office simply because I care.

An Open Letter to Cameron Parish:

Much has been said about what needs to be done for the young people of Cameron Parish.

Cameron Youth Sports Clinic would like to go on record in expressing our appreciation to Sheriff "Sono" Savoie for his volunteering to help in any way he was needed for the 1994 and 1995 clinic. He has donated the beef for our barbecue each year for the young people and the parents of those who participated.

Fine citizens such as Joe Soileau, the Cameron Recreation Board and the Cameron Parish School Board, and others who were interested in young people have also donated to make the clinic a success.

We would like to thank Cameron Parish again for your support.

My Dear Friends:

I have been helping, as much as possible, my good friend and neighbor, Jerry W. Nunez with his campaign for Sheriff.

I have known Jerry and his family all their lives, and I can personally tell you that I am doing this solely because I feel that it is in the best interest for Cameron Parish. Jerry is a hard working, compassionate young man with very high morals.

I do not want anything personally and I have nothing personal to gain when Jerry is elected, except what I feel is best for the future of our parish and our youth. This I can assure you is not a grudge against anyone, I just know that Jerry would be a great Sheriff and now is the time for change.

Contrary to what is being said, I cannot afford to, and I have not financed his campaign, except for a very small donation, and I will definitely not be involved in running the Sheriff's office, when he is elected. Jerry, with his training and his experience is very capable of doing this himself.

I have been in public office for over 20 years and I have loved every minute of it. The injuries I sustained in an automobile accident several years ago and the 3 surgeries I have had in the last 3 years have left me in constant pain. Some days I can work, others I cannot.

I would have loved to continue at my present job, as your Clerk of Court for as long as I felt I could do the job, or for as long as you would have me. I kept wishing every time I went in for surgery that my condition would improve enough for me to keep working, however the doctors tell this will not happen. I am not asking sympathy or for anyone to feel sorry for me. With pain management and the help of God, I have learned to deal with my problem.

What has hurt me more than anything are the false statements that have been started about me during this campaign, because of my political views. I had made it clear to Jerry Nunez that I would not get involved in a slanderous campaign, and I can promise you that to the best of my knowledge, this has not happened.

If any of you have heard something that concerns you, please call me at 543-4390 and I will be happy to discuss these matters with you.

It is with a heavy heart that I must retire as of June 30, 1996.

Thanks to all of you who have been so kind to me all of these years. Being a public official has touched my life in a very special way, and it will remain so for as long as I live.

All My Love,

Debbie

Theriot named All-American cheerleader

The South Cameron High Tarpon cheerleaders recently returned from a National Cheerleaders Association summer camp workshop where one of their team members, DeLayne Theriot, received top recognition as being selected for the NCA All-American Team. The workshop was held at Northwestern State University and attracted 300 cheerleaders from surrounding states.

The National Cheerleaders Association is sponsoring the All-American Team award at each of over 500 workshops held across the United States. The winners were selected for this award on the basis of their cheerleading technique, leadership, and all-around cheerleading ability.

The presentation of the award came at the completion of a full workshop of training on cheerleading technique, cheers, chants, jumps, partner stunts, and pyramids as well as a leadership program for sportsmanship, responsibilities, organization, and dedication.

As an All-American Cheerleader, DeLayne is eligible to travel nationally and internationally with NCA Special Events Performance Team. She was chosen to participate in the Adolphus/Children's Christmas Parade in Dallas, Tex. Nov. 29-Dec. 2.

Since she must raise about $1,000 for this trip, she is asking support from local businesses, organizations and individuals. Anyone wishing to help financially may contact her by writing 1665 Oak Grove Hwy., Grand Chenier, La. 70643 or calling 542-4236.

THE STAFF OF THE CAMERON PARISH SHERIFF'S DEPARTMENT WISHES TO EXPRESS OUR APPRECIATION TO "SHERIFF SONO" FOR 15 YEARS OF HONEST AND FAIR LEADERSHIP.

WE KNOW that our parish has 24 hour patrol and protection. All one has to do is read the headlines of surrounding communities to know that this is virtually a safe place to live.

WE KNOW: that with ad-valorem tax revenues down, you have managed to maintain the quality of service throughout the parish and stay within your financial means.

WE KNOW, as employees, that you have an open-door policy, are available to the public at all times and no matter what the legislature sets your salary at, you earn it.

WE KNOW that the youth of the parish are one of your main concerns. THANKS for providing them with the DARE program, summer sports and escorts for school activities.

THANK YOU SHERIFF, FOR PROVIDING THIS PARISH WITH EXCELLENT SERVICE, PROTECTION AND LEADERSHIP. WE LOOK FORWARD TO SERVING YOU DURING THE NEXT FOUR YEARS.

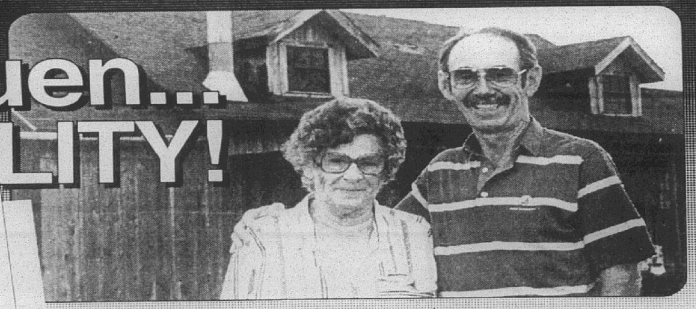
DENNIS MHIRE
Dist. 4 Police Jury Candidate
To the People of District 4, Cameron Parish,

I may not be a door to door politician, but if elected as your Police Juror I will perform my duties to the best of my God given ability. I believe if elected, my job starts then for everyone including Klondike and Lowery.

Grand Chenier has been the home of my family for many generations. Born son of Mr. and Mrs. Evans (T.T.) Mhire and grandson of Mr. and Mrs. Horace P. Mhire. Horace having served as District 4 Police Juror for 32 consecutive years.



I strongly believe all men are created equal regardless of religion, race or wealth and if we all work together we can make this a better place to live for everyone. Please feel free to call me if you have any questions or suggestions, 318-538-2188. Sincerely,

Dennis Mhire

Darrell Derouen... PROVEN ABILITY!

AN OPEN LETTER TO THE PEOPLE OF CAMERON PARISH...

Thank you for taking the time to read this letter.

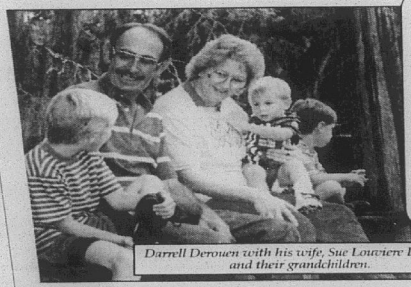
Of course, I intend to serve all the people of District 36...but I have a special understanding of the proud people of Cameron Parish, because of my own roots.

I'm especially concerned about serving and **helping the elderly** and less fortunate people of this area. I will give special attention to **rural health care.**

Education of our children must also be a top priority...and I will work hard toward improvements in that field.

Protection of the environment and it's natural resources is always my concern, along with a commitment to **protection of the shrimping and fishing industries.** I propose to ease the burden of applying for a shrimping license and other services. These can be handled locally by opening an office in the present Wildlife and Fisheries office in Lake Charles.

I will also work toward the improvement and **new construction of roads and bridges** to make Cameron Parish more accessible to tourism and business.



I will work directly with all local political entities and civic organizations.

Please consider that my campaign is **not financed by special interest groups** who would try to control me later in office, but by the common people...your friends and mine.

I promise to work hard and to be accessible to you...I'll be a friend you can count on! Thanks for your support on October 21st!

Darrell

Son of Gertrude Broussard Derouen, a Cameron Parish native, born and reared in Grand Chenier...and schooled in Sweetlake.

Savoie re-elected; three runoffs set

Cameron Parish Sheriff James R. "Sono" Savoie was re-elected in last Saturday's election beating challenger Jerry W. Nunez by a vote of 2,629 to 1,731. Savoie received 60 percent of the 4360 total vote.

In the only other parishwide race, Cynthia Primeaux King, with 1,766 votes or 41 percent, and Carl Broussard, with 1,333 votes or 31 percent, will meet in a runoff in November. Greg Wicke received 1,176 votes or 27 percent.

Debbie Theriot, the present clerk of court, did not seek re-election.

In the District 36 seat for the House of Representatives, Dan Flavin was the winner with 9978 votes or 63 percent, beating Darrell Derouen with 5829 or 36 percent of the vote.

The district includes all of Cameron parish and a portion of South Calcasieu and South Lake Charles. In Cameron parish, Derouen got 2234 votes or 55 percent, while Flavin got 1798 or 44 percent.

Randy Roach, the incumbent, did not seek re-election.

In the four police jury races on the ballot, one incumbent juror was re-elected; one was defeated and two others were forced into runoffs.

In District 4, Douaine Conner, the incumbent won with 513 votes to Martin Trahan's 226 and Dennis Mhire's 110.

Charles A. Sandifer defeated incumbent Juror Russell Badon 382-168 in the District 1 race.

In District 5, challenger Malcolm Savoie, 216 votes, and incumbent Ray Conner, 214, will be in the runoff. Richard Miller, Sr. got 187 votes and and Suzanne Sturlese got 45.

In District 6, incumbent George W. LeBouef, 311 votes, and challenger Donald January, Sr., 185 votes, will be in the runoff. John LeBlanc got 183 votes and Arceneaux January, Jr. got 50 votes.

A total of 4,373 of the 6,066 voters in Cameron Parish, or 72 percent, voted in the primary.

Re-elected without opposition when they qualified in September were District 25 Senator Cecil Picard, Tax Assessor Bobby Conner, Coroner Dr. Richard Sanders, District 2 Juror George Hicks and District 3 Juror Brent Nunez.

Also elected without oppositon was Catherine L. Miller as Ward 2 Justice of the Peace in a special election to replace Clyde Theriot, who resigned due to illness.

School board is still deadlocked

By GENEVA GRIFFITH

A large number of parish citizens gathered Wednesday of last week for the shortest meeting in memory to watch the Cameron Parish School Board deadlock again over the school superintendent selection.

The meeting lasted not quite five minutes, including the pledge and prayer. Board President Bill Morris polled the members, and the vote was the same as at the previous meeting.

Morris, Tony Johnson and Clifton Hebert voted for Judith Jones. Daniel Billiot, Karen Nunez and Glenda Abshire supported Roger Richard.

Nunez said she had been in touch with Bob Hammons, attorney for the Louisiana School Board Association. He advised her the board could ask for the readvertisement of the position at this meeting.

Bill Morris said no, because that was not on the agenda. His position was supported by Cameron Parish District Attorney Glenn Alexander who said they could put that item on the agenda for the next board meeting.

More than 100 spectators, some angered over the board's inability to reach a decision, stood around and talked after the meeting.

The board meets again at 2 p.m. Wed. Nov. 15, less than two months before Superintendent Thomas "Sonny" McCall takes retirement.

Crime Stoppers told

The Cameron Parish Crime Stoppers is active and has regular meetings. There are representatives from different areas of the parish who citizens meet to help assure the continuation of having a safe parish in which to live.

There will be articles in the paper about the Crime of the Month or Week.

A cash reward will be offered for information leading to the arrest or a conviction of the person or persons involved in the crime.

Please help on other crimes on which you also may have information.

Board members are: Mrs. Norma Blake, Cameron, president; Bill Turnbull, Cameron, vice-president; Mrs. Sherre Doland, Grand Lake, secretary; Gregg Wicke, Creole, treasurer; Mrs. Adenise Trosclair, Cameron; Linford Miller, Creole; Jimmy Brown, Hackberry; Alvin Guidry, Constance Beach; Bill Morris, board membes.

Coordinator is Stephen Cheramie of the Cameron Sheriff's Department. He is preparing Ron Johnson for the coordinator's position. These coordinators will take your calls.

CRIME OF THE WEEK

On Sept. 5-15, a 16 ft. galvanized boat trailer with slightly bent tongue and 2 x 4 runners was taken from the Grand Chenier Park. The trailer had a bent axle and was missing a tire and was left at the park for repairs. The trailer may have been hauled by another trailer out of the park. The value of the trailer was $2,000.

Crime #2 is in reference to criminal property damage. On the morning of Oct. 9, a sign was found damaged by Ron Robicheaux. The sign was for Holly Beach Resort Ministry and the wooden frame had been broken. The sign was also knocked off the frame. The value of the sign was about $500.

Anyone having information about these crimes should call Cameron Parish Crime Stoppers at 775-7867. You do not have to give your name, a code number will be assigned. A cash reward will be offered for information leding to the arrest of the person or persons responsible for these crimes.

Trappers hold state convention in Creole

By GENEVA GRIFFITH

Greg Linscomb, with the Louisiana Wildlife and Fisheries and a member of the Louisiana Fur and Alligator Council, was a speaker at the state conventon of the Louisiana Fur and Alligator Trappers Association held in Creole recently.

He had just returned from a meeting in Brussels, Belgium, with leaders in the fur trade, and brought some good news to hunters. Furs are popular in Europe and Russia and in the fashion centers of the world, and mainland China has one of the largest markets for fur garments in the world, he said.

He talked about the effects of the animal rights activists and Green Peace who have done much to hurt the market in the past, including spraying paint on fur coats people were wearing in the metropolitan areas.

They even succeeded for a while in banning the harvest of seals which almost devastated the economy of the northern seal bearing countries. So many seals, were born, and without a harvest they were eating the fish, which almost ruined the fishing industry.

He said the Maison-Blanche chain of stores has started selling furs and has a large advertisement in magazines.

He also reported that a corporation is to be formed soon, probably headquartered in Lafayette, to sell direct to European markets instead of selling through brokers. Their target is to buy 300,000 to 400,000 nutria annually.

Nutria is becoming very popular for coats since they are being designed in styles that are requested by younger people, and mixed with other materials, such as denim and used as linings in leather coats.

Darryl Dupont, chairman of the convention, said that Linscombe is recognized as one of the leading fur authorities in the world and has worked very hard to open markets for local fur around the world.

The organization was founded in Cameron Parish with eight members nine years ago. It now numbers over 500, Dupont said, and by sticking together have been able to save their trade, and to develop new markets and have better prices for their furs.

Various exhibits were displayed on furs, antique traps, etc.

Fifth Sunday

The Fifth Sunday singing will be held at the Oak Grove Baptist church beginning at 6 p.m., Sunday. Everyone is invited.

Minister meet

The Cameron Parish Ministerial Association will meet at the South Cameron Hospital at 10 a.m. on Thursday, Nov. 2 at 10 a.m.

Reception set

A reception honoring Dr. Richard Sanders is scheduled for Sun., Nov. 5, at 3 p.m. in the Life Center of Sacred Heart Catholic Church. It will be in celebration of Dr. Sander's 15th anniversary at South Cameron Memorial Hospital.

It is sponsored by the Parish Council of Sacred Heart Church and South Cameron Memorial Hospital.

Krewe meeting

The Mardi Gras Krewe De Deux Lac of Grand Lake and Sweet Lake, will have its annual fall meal on Oct. 27, at 6:30 p.m. at the Fireman Center.

All krewe members dues will be collected and anyone interested in joining the krewe may sign up at the meeting.

The Mardi Gras court will also be elected at the meeting.

We goofed!

In the rush and confusion to get an unusual number of political ads made up for last weeks Pilot, there were several errors made for which the publishers apologize.

The advertisement placed by the sheriff's department staff was placed and paid for by staff members. The small line at the bottom stating that the sheriff had paid for the ad was an error.

An ad signed by Lorena T. Hebert of Grand Lake was placed and paid for by Mrs. Hebert. The line stating that Jerry Nunez had paid for the ad was in error.

The ad for Donald "Big Newt" January, Sr. incorrectly listed his voting number as 13--the correct number was 103. His number was correctly listed in the sample ballot in that issue.

The publishers wish to apologize to the sheriff's department staff, Mrs. Hebert and Mr. January for these errors in their ads.

50th reunion held at Hackberry High School

By GENEVA GRIFFITH

Graduates and former students of Hackberry High School gathered Saturday afternoon in the community center to recall old times and experiences from 50 years ago.

Special honorees were the veterans of World War II and the class of 1945.:Belva Abbot, Joseph Gus Cormier, Ruby Lee Ellender Gauley, Stella Joyce LeBoeuf Green, Clarence Lanford, Sr., Ira Lee Meyers, Bert D. Moore, Beatrice Vincent Poole, Margaret Emily Nobles Pitts, W. C. Powell, Joseph A. Racca, Jr., Guy Shaffer, R. J. Stoddard, Allen Vaughan and Helen Jane Vincent.

After an afternoon of socializing and commenting on the many displays of World War II, a banquet was held.

Elma Marie served as master of ceremonies and memorialized those who lost their lives in World War II: Sidney Barras, Arson Duhon, Duplice East, J. C. Ellender, Marvin Landry, Bill Stoddard, and Julius Provost.

Lancey Silver and Darrell Duhon, members of Boy Scout Troop 76, were flag bearers for the opening of the program.

W. L. (Bill) Tidwell, a World War II vet from Houston, Tex., introduced former senator, Jessie Knowles, who was a prisoner of war on the Bataan Death March.

Knowles recited a poem he composed which contained his memories of the war and the experiences he endured during his long period of captivity.

Gordon Ghirardi, a former West Point Academy band member, presented a medley based on "America the Beautiful".

A dance followed the banquet and the date for the annual banquet was set for Nov. 2, 1996.

CAMERON PARISH 4-Hers who attended the 1995 La. Cattle Festival in Abbeville are as follows: left to right, front row: Wayne Nunez, Dusty Savoie, and Brandi Hebert. Top row: Nick Pinch, Brian Nunez, Toni Nunez and Casi Pinch. Also attending was Scott Myers.

Tarpons hoping for win Friday night at Iota

By JOE MUELLER

DISTRICT 6AA FOOTBALL STANDINGS

	W	L
So. Cameron (2-1)	2	5
Lake Arthur (2-1)	5	3
Notre Dame (2-1)	6	2
Welsh (2-1)	3	4
Iota (1-2)	3	5
No. Vermilion (0-3)	0	8

(Numbers in parentheses indicate district games).

Games this week: South Cameron at Iota; Welsh at Notre Dame; Lake Arthur at North Vermilion.

The South Cameron Tarpons continue their district play as they travel to Iota this Friday to face the Bulldogs.

The Tarpons must continue to win to stay in the top of the race in District 6AA.

South Cameron, Welsh, Notre Dame and Lake Arthur all have 2-1 district worksheets.

With a win, the Tarpons will remain in a first place tie at 3-1 as Welsh and Notre Dame play so one of those two will fall to 2-2 in district. The Lake Arthur Tigers face winless North Vermilion so they should also be 3-1 in district by the end of the weekend.

The Tarpons, who suffered a tough loss to Lake Arthur, 36-34, need to put the game behind them and concentrate on the Bulldogs. Iota brings a 1-2 district record into the game and a 3-5 overall record. The Bulldogs were thrashed by Notre Dame last week 42-0.

The Bulldogs have a much improved record this year over last year. In last year's game, which was won by the Tarpons 21-7, the Bulldogs were 0-7 at the time of last year's game versus 3-5 this year. The Tarpons were ranked 8th in the state last year at the time of the Iota game so that is different also.

Iota has given up 104 points in 8 games this year so their defense has definitely been better. The Tarpons have given up 131 points in 7 games.

On offense the Cameron Parish team has put 127 points on the board to 124 from the Bulldogs.

Last week the Tarps got some excellent running from Jared Savoie, who picked up 122 yards and scored two touchdowns against Lake Arthur. Brandon Conner has also come on in recent weeks toting the ball.

The Tarpons picked up 71 yards passing the ball so they have improved in balancing their offense.

The Tarpons kicking game is getting better as they averaged 44 yards on two punts last week. Shawn Duffey also hit 4 extra points and two field goals in the Lake Arthur game.

The Bulldogs have the top rusher in the district in Josh Ortego, who has averaged over 140

THE JOHNSON Bayou Volunteer Fire Department held a car wash during the Muscular Dystrophy Telethon held on Labor Day. Students from the school helped with the fundraiser. Nearly $500 was raised for the MD foundation.

Area basketball scores are told

By JOE MUELLER

Basketball season has gotten underway for the small schools in the stae. Cameron Parish schools opened play last week.

Hackberry 72,
Johnson Bayou 42

The Hackberry Mustangs opened their season as they defeated Johnson Bayou 72-42.

Justin Trahan scored 16 points and Trevor Trahan 10 for the Mustangs. Johnson Bayou got 10 points from Troy Fontaine, 13 from Nikki Schexnayder and 10 from Eric Welch.

Johnson Bayou 47,
Hackberry 40

The Lady Rebels of Johnson Bayou opened the season with a 47-40 victory over the Lady Mustangs.

Selina McGee scored 19 for Johnson Bayou and Hackberry's leading scorer was Shelly Fontenot with 17.

Bell City 52,
Grand Lake 42

The Grand Lake Hornets opened the year with a 52-42 loss to Bell City. Brandon Johnson scored 17 points to lead the Hornet scorers.

Grand Lake 53,
Bell City 31

The Lady Hornets opened their season with a 53-31 win over Bell City. Missy Cox scored 16 points and Jessi LeBouef and Keri Billedeaux, 10 points each for the Lady Hornets.

Grand Lake 53,
Hackberry 49

The Grand Lake Hornets evened their record at 1-1 as they edged Hackberry 53-49.

Neil Kiser scored 17 points and Josh Johnson 15 for the Hornets.

Troy Fountain scored 16 and Dennis Patrick 15 for the Mustangs.

Hackberry 47,
Grand Lake 29

Hackberry and Grand Lake girls teams each have 1-1 records following Hackberry's 47-29 win.

Shelly Fontenot paced Hackberry scorerswith 23 points and Missy Cox scored 8 points to lead the Grand Lake scorers.

Tarpons lose a close one last Friday at L.A.

By JOE MUELLER

The Lake Arthur Tigers scored 15 points to the South Cameron Tarpons 3 in the final quarter as they edged the Tarpons 36-34.

The South Cameron loss coupled with Welsh and Notre Dame victories put four teams at 2-1 in District 6AA.

The South Cameron team, despite a 2-5 overall record, will make the playoffs if they win their last two games.

The Tigers scored the first 14 points of the game. Taurius Davis scored on the third play from scrimmage on a 48 yard run. Then on the ensuing kickoff they recovered the ball on the Tarpon 35. It took the Tigers 4 plays to score on a 10 yard run after the extra point kick. The homestanding Tigers were up 14-0 with barely 3 minutes gone in the game.

South Cameron came back and scored the next 17 points to lead 17-14 at halftime.

The Tarpons first score came on a Jared Savoie run of 44 yards. The second Tarpon touchdown came on a 10 yard run by Brandon conner. The Tarpons final points of the half came on a 25 yard field goal by Shawn Duffey.

The Tarpons blocked a punt and had a pass interception by Derrick Blackwell in the opening half.

South Cameron outscored Lake Arthur 14-7 in the third quarter as they scored on an 11 yard run by Jared Savoie to raise the score to 24-14. Lake Arthur then came back to make the score 24-21 on a Bardale Jones 20 yard run. South Cameron put the score at 31-21 on a quarterback sneak from John Pradia from the one yard line.

In the final 12 minutes Lake Arthur scored first as they ran in from the one with Bardale Jones carrying the ball. This made the score 31-28.

The Tarpons Shawn Duffey raised the margin to 34-28 as he hit a 40 yard field goal.

The Tigers then scored on a 21 yard pass from Taurius Davis to Pat Fontenot with 3:10 left in the game. The touchdown tied the score at 34. Laek Arthur then ran the extra point in as quarterback Davis ran around end for the two extra points.

The Tarpons were able to move down to the Tiger 37 yard line, but were hurt by a penalty and a fumbled lateral and gave the ball up without scoring.

The Tarpons had three interceptions in the game and the blockedpunt.

The Tarpons rushed for 210 yards with Jared Savoie accounting for 122 and Derrick Blackwell 55.

The Tarpons are on the road this week at Iota, and Lake Arthur will be at North Vermilion.

Jr. Leader club holds meeting

By TRISHA SILVER

The Cameron Parish Jr. Leader Club discussed various methods the club could use to raise money at their Oct. 18, meeting. The group decided to sell calendars as their first activity. They will sponsor the Fur and Wildlife Festival teen dance again this year and plans are also being made to sell late lunches.

Club leader, Mrs. Ruby, recognized membes who presented mini workshops at the Parish Jr. Leader workshop.

Club members were asked to sign up on one of the following committees: CRD, fund raiser, education and workshops for young 4-H club members.

President Kristi Jo asked for suggestions as to what the club wanted to do for community service activities this year. The following were discussed: collecting food items and gifts for the needy children at Christmas and Easter, helping elderly persons to clean their houses and yards, physical therapy with animals, Christmas tree pickup and a coat drive.

The following committee reports were given: parish workshop by Amanda Conner, Contest Day by Heather Spicer and Parish Fashion Review by Amanda Broussard.

Club leader, Mrs. Ruby, presented a demonstration, Being A Good Leader.

MY DEAR FRIENDS OF CAMERON PARISH. . .

I would like to take this time to thank each and every one of you who helped me during my campaign. I will continue working with the youth and the elderly in every way to make Cameron Parish a better place for all.

I will also be seeing everyone in the Parish for the next four years, because I will be a candidate for Sheriff in 1999. I would also like to wish James R. Savoie the best in his next four years.

GOD BLESS,

Jerry Nunez

VOTE #100

MALCOLM SAVOIE

POLICE JURY DISTRICT 5

Thank You,

To the voters of District 5 for their support in Saturday's election and also to my opponents for a clean campaign.

The election is just 4 weeks away. In that short time, I will be trying to see each of you again. I would appreciate your vote in the upcomig election on November 18.

FOR THE BETTERMENT OF CAMERON PARISH.

May God Bless and protect each and every one of you.

Thank You Again,

Malcolm Savoie

To All of Those People Who Voted For and Supported Me in the First Primary:

MY FAMILY AND I SEND OUR HEARTFELT THANKS!

To all the people that supported other candidates in the primary I hope that you will consider me for your choice as CAMERON PARISH'S NEXT CLERK OF COURT.

As I have stated all during this campaign I am an INDEPENDENT CANDIDATE running on my own merits, knowledge, experience, and strong work ethic.

My 18 years experience working as an abstractor in the Clerk of Court's Office makes me qualified to operate your Clerk of Court's office in an efficient, professional, and courteous manner.

I would also like to thank Greg for running a clean campaign.

In closing, I am asking each of you for your VOTE on November 18th.

TO THE VOTERS OF CAMERON PARISH. . .

It is with heartfelt gratitude that my family and I extend our "Thank You" to our family, friends, and those voters who supported me throughout this election campaign. If I could thank each of you individually, I would. So I hope you can accept this public "Thank You" as a very personal one.

Now we, as voters, have an important duty to make a new choice on November 18. The two candidates left in the bid for Clerk of Court have individual qualities that make them suitable to be the next Clerk of Court. Please make your own personal choice wisely for that is what my wife and I will do.

Sincerely,

Greg Wicke

Cameron Outdoors

By Loston McEvers

DEER SEASON

There were quite a few anglers last weekend who hit the water for some fine saltwater fishing, but locally the fishermen turned to hunters.

Deer season opened, for either sex, and many hunters went early, got a deer and finished in plenty of time to make the noon opening of dove season, and make an afternoon hunt.

Reports of deer taken were a good number, many hunters hunted deeper into the marsh, as the water is low. During bow season, James Trahan of Cameron had a new bow and kept going, not shooting the doe, but waiting on a buck. Well, three days before gun season, he went back to his stand in Grand Chenier and sure enough three does went by and finally the fourth doe came and James decided if he was to try his new bow, it was time, and it was a perfect hit and a real nice doe.

The dove reports weren't really good, however, in some areas, limits were no problem. We do have quite a few doves down and some fields are plentiful but yet if you're in the wrong place, it's a hard hunt.

CAMERON PRAIRIE REPORT

There was a misunderstanding on the closure of the Cameron Prairie Refuge and I'll try to explain what Paul Yakupzack told me.

Fishing is closed in the refuge, however East Cove is open when the Grand Bayou boat bay is open. Now, when duck season opens, East Cove will close, reopen for split and close for second half of duck season. Remember, ducks only. Not goose season.

Now, all of this depends if the salinity is good and the water level is correct.

Bow season will close on the refuge Oct. 31, and there will be no more hunting until next year. As of this writing Paul said 12 deer had been killed on the refuge.

RED SNAPPER

A newly approved Wildlife and Fisheries Commission resolution raises recreational size limits for red snapper from 14 to 15 inches, total length, and the daily bag limit is down from 7 to 5 fish per person per day. This is recreational only and effective immediately.

This makes the state and federal regulations the same.

GILL NET

As I reported last week, the state supreme court refused to block enforcement of the new law restriction of gill nets in Louisiana waters.

There will be two more issues that have to be decided also. One is whether or not to buy back the gill nets from the commercial fishermen and second, whether or not gill netters can be charged for traversal permits, which allows them to travel through state waters to get to federal waters, where gill nets are allowed. These permits cost $250 a year.

DID YOU KNOW?

*Mature doe deer frequently have twin fawns and triplets, under very good range conditions.

*Woodpeckers have a hard barbed tongue with which they spear insects.

*Black bears weigh less than one pound when born.

*A turkey gizzard, very muscular and strong, is capable of cracking hickory nuts.

*Very young water moccasin snakes have a brightly colored tail, with which they lure their prey.

*Redfish are hitting baby bass and baby bass gold spinner baits, especially when schooling.

New gill net bill is planned for 1996

The chief sponsors of Louisiana's new gill net ban law announced Tuesday they will introduce legislation at the very earliest opportunity in 1996 to immediately ban all gill nets in marine waters.

The announcement was made by Sen. John Hainkel (R-New Orleans), Sen. Don Cravins (D-Lafayette) and Rep. Warren Triche (D-Chackbay) whose 1995 bill phased-in a ban on gill nets.

The lawmakers said they will take the action in response to moves by Edwards Administration, Sen. Sammy Nunez and others to weaken the present gill net ban law.

The most recent attack was an order by Edwards to the Department of Wildlife and Fisheries regarding the interpretatin of the law.

This new interpretation will allow hundreds of persons to obtain permits to take mullet with gill nets, contrary to the intent of the law.

The three lawmakers said they will request that a bill banning all gill nets in salt water — efective 6 nthe date the legislation is passed — be included as part of a call for a special session of the Legislature next year.

The lawmakers said it appears likely the new governor will call at least one special session in early 1996.

The present law phases out gill nets over a period of time and includes financial and educational incentives to qualified commercial fishermen who might be impacted by the staute.

5 charged

Five people, including a husband and wife, were arrested and accused of submitting false claims totaling $59,200 to defraud a state fund intended to help commercial fishermen whose equipment sustains damages on underwater obstructions, Attorney General Richard Ieyoub and Department of Natural Resources Secretary Jack McClanahan announced.

The five were booked into jails in Terrebonne, Lafourche and St. Bernard parishes on various charges of filing false public records, felony theft and attempted felony theft.

All are accused of submitting false claims to the Fishermen's Gear Compensation Fund. The fund was established in 1979 by the Legislature as a way to pay commercial fishermen up to $10,000 annually for damages their boats and fishing equipment sustain from underwater oil and gas pipelines and other structures located in coastal waters. DNR administers the progam which is funded by annual payments from theoil, gas and pipeline industries.

David J. Griffin, 43, Galliano, seven counts of filing false public records; Marty A. Melerine, Jr. 42, St. Bernard, one count of filing false public records; Sidney Luke, Jr., 27, and his wife, Shonna, 26, both of Houma, each booked with one count of filing false public records and Eric Walter Melerine, Sr., 41, St. Bernard, four counts of filing false public records, are the persons arrested.

PORT ARTHUR BRIDGE OPEN

Port Arthur's Pleasure Pier Bridge opened for vehicular traffic Sunday morning for the first time since July 30. Its closure had curtailed traffic on the Sabine Causeway between Jefferson County and Cameron Parish.

A new bridge was recently authorized to replace the old one, but it will be several years before it can be constructed.

STOLEN BOAT RECOVERED

A 32-foot cabin cruiser, stolen from Cameron dock a month ago, has been recovered in the Mississippi River near Arkansas City, Ark., Sheriff O.B. Carter reported this week.

The boat's owner, Leon Anderson of Westlake, recovered the boat Friday, the sheriff said. An El Paso, Texas man is being held by the FBI in the Pulaski Co., Ark., jail for the theft of the boat and also a truck at El Paso.

HEBERT PRESIDENT OF ATHLETIC GROUP

Charles F. Hebert was elected president of the South Cameron Athletic Association at a meeting Thursday night. He replaces Joe O'Donnell who had headed the organization since it was formed in 1958.

Garner Nunez was named vice president, replacing Rodney Guilbeaux. U.W. Dickerson and Donald Broussard were re-elected treasurer and secretary respectively.

Mr. Hebert is a former Lake Charles high and Northwestern football player. He is the owner and manager of the Hebert Abstract Co. of Cameron.

Head coach Robert Manuel, line coach Enos Darbonne, and assistant coach Kenneth Phillips, gave an optimistic review of the football squad.

ROUNDABOUT THE PARISH

Grand Lake - Sweetlake --The after effect of the summer drought is being felt keenly in this area. There is poor grazing and as a result, cattle are not doing well and will require feeding earlier than usual this winter. Three wells have had to be dug in this area,'one for Mrs. Bessie Goodman and two for the Sweetlake Land and Oil Co. One was dug on the Raymond Fuselier place and another at Holmwood.

Recent rains have been stopping the combining, however, Mr. Charles Hebert reports they were able to get a few loads out. He said it dried out quicker due to the extreme hot weather.

Black News - School reopened Monday at the Audrey Memorial School with a total enrollment of 109.

Oak Grove - The long drought has been broken at last. We have had several pretty good rains. Lawns and pastures are beginning to look green once more.

A total of 433 students were enrolled at South Cameron High this week, according to Principal U.W. Dickerson.

Grand Chenier - Enrollment at the Grand Chenier Elementary School is 77 with 19 first graders.

Teachers at the school are Principal Wilmer Smith, Gladys McCall, Robert Montie and Mrs. Leona Broussard, substituting for Miss Oma Miller, who recently underwent surgery. Miss Mil has been teaching 42 years and this is her first time to miss an opening day of school.

Sophomore class news

By TONI NUNEZ, Reporter

The South Cameron High School sophomore class will give away a Halloween basket full of goodies, candy, tapes, etc. Oct. 29, at the Halloween Festival. Sophomores are asked to bring bags of candy, tapes, etc., to fill the basket.

Each sophomore is asked to sell ten tickets so clear profit will be made. At this time donations of crab meat are needed to make pistolettes. Parents and students are asked to help at the festival.

The newly elected officers for 1995-96 are:

Irvin Yerby, president; Tara LaBove, vice-president; Cherie McDaniel, secretary; Sharika January, treasurer; Toni Nunez, reporter; Joni Reichard, John Montie, Derek Bertrand, and Brandon Conner, student council.

For information call Lou Richard, 538-2544 in the afternoon or 542-4866 in the morning.

Contest set

Grand Chenier 4-H members are reminded to bring a home-decorated pumpkin to school Monday, Oct. 30 for a Halloween contest.

Registration forms for Demonstration Day are also due on Oct. 30. These must be turned in by anyone planning to give a demonstration.

Applications are being taken for GED classes held at Cameron Elementary School in Cameron. All services are offered at no cost to eligible applicants ages 16 and up. For more information, call 775-5719 and ask for Carolyn.

TO THE VOTERS OF DISTRICT 6:

I want to express my appreciation for those of you who have supported me in my campaign and those who voted for me in the first primary. I recognize that our work is not done and I will reward your vote of confidence in me with a renewed effort in the second primary.

To my opponents, past and present, I congratulate you for a clean but hard-fought contest. To you and your supporters, I ask that you consider my credentials and give me your vote in the next round.

This campaign has given me the opportunity to meet with the voters and to learn which issues concern them most. I pledge to you that I will continue to represent all the voters of my district and will use this election to make me a better juror.

Again, I remind you that the race is not done. We go to the polls on November 18, 1995 for the second primary to pick the juror who will represent you for the next four years.

REMEMBER NOVEMBER 18TH IS DECISION DAY!

THANK YOU,

George LeBoeuf

Johnson Bayou

HISTORIC COMMUNITY

By NOLA MAE WITTLER ROSS
American Press Writer

Johnson Bayou was once a mecca of the Gulf Coast, with over 1,200 residents, two post offices, cotton gins, syrup mills, a boarding house, at least four stores — operated by Casell Pevoto, J.C. Griffith, Austin "Buster" Smith and Calvin Pevoto — plus a cotton brokerage house and a shingle mill.

It even had a 24-room hotel owned by Joseph Belone Peveto, son of Michel and Suzanne Hargrave Peveto. The hotel, named "The Belaire," catered to southern aristocrats as well as Europeans-in-exile, who basked in the refreshing gulf breeze and soaked up the curative powers of the salt water.

Johnson Bayou was a place where Europeans who had found it politically expedient to leave their country, came to live in exile. Their families would remit money to the people who took care of them, and the caretakers became known as "remittance men."

But this thriving community, which offered prosperity and a life of luxury for many, became the victim of a devastating hurricane in 1886 which almost wiped Johnson Bayou off the map. The community didn't completely recover for almost a century.

In an article, "The Night Johnson Bayou Died," historian W.T. Block of Nederland, Texas, gives a graphic description of the 1886 hurricane.

"When the night of horror ended there was hardly a bayou family left intact. Everyone had lost someone near and dear among the 110 drowning victims of the storm. Another 86 persons close by, at Sabine Pass, were also drowned. Seventeen children at Johnson Bayou were orphaned and twenty parents lost all of their children."

The Johnson Bayou settlement began in 1790 when Daniel Johnson discovered the oak-studded ridges along the bayous. He built a two-story home on the north ridge above Deep Bayou. His sons-in-law and other relatives, including Henry Griffith, Soloman and Reuban Barry, and Henry Orr soon joined him.

The Green family, for whom Green's Lake and Green's Bayou are named, and Junius Green, for whom Junius Ridge was named, arrived at about the same time.

Then, in 1825, Eli Berwick settled at Garrison Ridge on Johnson Bayou. Frederick Smith came to Smith Ridge in 1835. And Dr. Frederick Erbelding came from Germany to Johnson Bayou in about 1845. Other early settlers included families named Luke, Morris, Tanner, Roy, Cooper, Logan, Block and Raggio.

Although Eli Berwick had settled on Garrison Ridge in 1825, it wasn't until the Civil War that the area became a military territory.

"In 1862, the Union squadron encamped at Garrison Ridge," wrote W.T.Block, "and the Union officers attended dances given in their honor by the bayou planters.

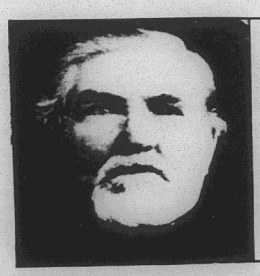
"Confederate cavalry, while hunting the Jayhawkers, patrolled the area, and in 1864 the entire Sabine Pass garrison of Confederate troops debarked at Johnson's Bayou, while enroute to the Battle of Calcasieu Pass. Two days later, 166 Union prisoners captured at that battle were marched back through Johnson's Bayou enroute to prison camps in Texas."

One well-known member of the Berwick family was Brother Joe Berwick, an early Methodist preacher who was married to Josephine Ashworth. Berwick rode horseback all over Cameron Parish, through floating turf marsh, around the cheniers and through dense undergrowth.

Lee Berwick, owner-operator of the Delta Downs racetrack and a grandson of Brother Joe Berwick, says, "Someone said my grandfather told them, 'The Bible says if someone hits you, turn the other cheek. But the Lord didn't tell you what to do after that.'"

Brother Joe's son, Samuel, was only nine years old when the 1886 hurricane came. "But he never forgot the terror of that night," says his son, Archie Berwick, who is the only Berwick still living in Johnson Bayou. "He also lived through another deadly hurriane that hit Johnson Bayou in 1915."

Samuel Berwick, who married Ada Marshall, was one of 17 children born to Brother Joe Berwick. There is one daughter remaining, Mattie Berwick, who lives in San Antonio.



The Smiths arrived at Johnson Bayou next — Duncan, Frederick, Austin, John, Phineas, Albert, Gus, Emory and Alonza Smith, along with at least six other families not kin to each other. Arriving after 1850 were James Bevan, Isaac and Jack Simmons, Zade and Celestine Gallier, Eliza and Michael Ponicheck, Michael Gillen, and families named Hackett, Miller, Stanley, Rutherford, Calhoun, Hamilton, Harvey and Sells.

George Plummer was the lighthouse keeper. L. Simmons, W. Griffith and Comstock were merchants, and Gillen and Hamilton were blacksmiths.

Right after the Civil War, Ferdinand Pavell was said to be the wealthiest citizen in the Johnson Bayou area. He owned a cotton plantation, sugar mill, gin house, store, cotton brokerage firm and a shingle mill.

August Pavell served as postmaster of Berry, a small settlement named for a family of Berrys. There was also a Berry school, church, store, cotton gin, post office and cemetery.

There were three Berry daughters — named Mississippi, Virginia and Missouri. Mrs. Berry and two of her daughters were said to have been victims of the 1886 storm.

Brother Joe Berwick was an early Methodist preacher who traveled throughout Cameron Parish on horseback

Dexter Watson Donahue, who married Elizabeth Griffith, came to Johnson Bayou when the Civil War ended, after being released from a Union prison in 1885.

He was instrumental in organizing the first Masonic Lodge in Cameron, the Blue Buck Lodge, chartered in 1879.

When he died in 1910 a Beaumont paper said, "Donahue was one of the wealthiest citizens of Johnson Bayou, who owned thousands of acres of land and was a prominent cattleman." Many stories were circulated about the fabulous parties the Donahues gave, with imported orchestras.

D.W. and Elizabeth Griffith Donahue had five children — Rachel (Mrs. R.W. Fisk), Naomi (Mrs. Will Petillo), Richard, who married Maggie Howard, Douglas, who died while young, and Elvin, who married Fannie Griffith.

One grandson, Elvin Donahue, lives in Johnson Bayou. Another, Elvin Bryant, lives in Carlyss. Six great-grandchildren live in the area — Rodney Donahue, Dolores Donahue (Mrs. Joseph E. Boudreaux) of Johnson Bayou, Bonnie (Mrs. Charles Glenn Theriot) of Oak Grove, and Ivan and William Fisk and Marge Fisk (Mrs. John Munro), all of Lake Charles.

Dr. Frederick Erbelding is remembered as a refined and gentle man who served as the third postmaster of Johnson Bayou. The post office was located in his home on Blue Buck Ridge at that time.

Mrs. Walter Stanley of Lake Charles, in her history of Johnson Bayou, wrote, "Dr. Erbedling often went hunting on a slide hitched to oxen. In order to maneuver his aim, he would lie flat on the slide. Once, he accidently shot the tail of an oxen, causing it to run away. **He fell off the** slide and was left in the marsh."

Teaching his son, Joseph Belone, all he could about medicine, the doctor pepared Joseph to help his fellow citizens with medical problems.

Joseph's daughter, Lydia (Mrs. Mudd), recalls, "He pulled teeth, assisted in delivering babies, set bones (using a shingle as a brace) and helped many to overcome pneumonia. He remembered and often talked about the terror of the 1886 hurricane, and when the 1915 storm came he built a wood frame in a large tree, where we rode out the storm. Water came into our house but it did not come up in the tree."

Joseph Erbelding, who was called "Mr. Joe," married Lydia Serepte Wakefield, daughter of George Wakefield of Cameron. She received her education in Ohio and was an early teacher in Cameron Parish. They had four sons, J.B. Jr., Fred, Harry and James Erbelding, all of whom are deceased, and three daughters, Alberta (Mrs. Broussard), who is deceased, Lydia (Mrs. Mudd) of Carlyss and Mae (Mrs. Brown Marshall) of Johnson Bayou.

Active in early Cameron politics, Joe Erbelding was a police juror in 1896 and was later president of the police jury. He also served as school board member and in 1916 was elected Louisiana state representative. J.B. Erbelding III still lives on Johnson Bayou, as does his brother, Francis, and many more Erbelding descendants.

Another son of "Mr. Joe" was Fred Erbelding, who is recalled by his son, George Erbelding of Lake Charles. "My father was a mail carrier for 18 years and rode horseback to the boat landing to pick up the mail and bring it back to the post office," George recalled.

The first French family to move into Johnson Bayou was probably Armo and Octavia Primeaux Trahan, who came from Vermilion and had a large family. Many of their descendants still live in Johnson Bayou and the surrounding areas. The Pevotos arrived in about the mid-1840s. Michel (Micheal) Peveto married Suzanne Hargrave, sister of John Jacob Ryan's wife, and lived in Texas before moving to Johnson Bayou.

Two of Michel's great-grandsons live in Carlyss — Cecil and O.E. Pevoto. "Michel fought in the Battle of New Orleans in 1815," says O.E. Pevoto. "His son, Michel III, joined the Texas Army the day the Alamo fell and was with the troops at the Battle of San Jacinto. He survived the battle, but was discharged due to ill health and died soon afterwards."

Cecil Pevoto adds, "We have a document written in 1860 by Dr. Fred Erbelding or my great grandfather, Michel II, in which he sells his property to his wife, Caroline.

"My father, Ray Pevoto, was on the school board and was a police jury member. He had a brother, Ira, who was a great boat builder, and another brother, D.R., who was a Baptist preacher in Houston and was instrumental in starting a church and the Baptist Memorial Hospital.

After Michel II's wife, Suzanne Hargrave Pevoto, died, he married Caroline Arthur and they had 13 children.

Joseph B. Pevoto was the first postmaster of Johnson Bayou. Fannie Pevoto, wife of Asa, served later as postmistress. She was an early school teacher and was said to be the first person on Johnson Bayou to own and play a piano.

In 1886, two steamboats, the *Emily P.* and the *Lark*, remained exclusively in the Orange-Johnson trade, hauling produce, cotton and even cattle to market. But all of this busy trade came to an abrupt halt on the night of Oct. 12, 1886, when the big hurricane struck.

The entire Owen Jones family of eight were drowned. Of the Joseph Paisley family, only a six-year-old son survived after floating 10 miles on a mattress. Jeremiah Quinn was the only one to survive in his household.

Many of the survivors returned to northern states or moved to Texas. And for years afterward, Johnson Bayou was called home only by those staunch and brave enough to return.

But, gradually, the settlers straggled back, aided by the discovery of oil and the improved pasture for cattle, and Johnson Bayou finally regained a population similar to what it had before the storm of 1886.

CARD OF THANKS

I wish to thank Mr. C. Marshall, Mr. Bob, Rene, Jennifer, and Lou for their past concern that has affected my life in the past several months. Because of these wonderful peoples ethics and standards, based on their fairness and importing judgment, I have an experience of seeing how valued another persons life is thru their eyes. May all of you reap the benefits of what you have sown.

MATCHING FUNDS SOUGHT

The federal government has been asked to put up half the cost of $942,000 worth of public improvement projects in Cameron Parish. The action was taken by the police jury in a special meeting Monday afternoon. A resolution requesting the funds was sent to the Federal Housing and Finance Agency, which is authorized to appropriate up to 50 percent of the cost of local public works in areas of consistent unemployment.

Whether the parish gets the funds will depend on whether it is classified as an area of "consistent unemployment". A survey to determine this is currently being conducted by the Louisiana Division of Employment Security.

Mr. Jones, Eraste Hebert, jury president; and George Bailey, engineer, went to Fort Worth, Tex., two weeks ago to get information on the program.

Projects on which the jury is seeking matching funds and their total estimated cost are: Cameron fire station, $64,000; Cameron Parish library addition, $40,000; Klondike road (2.3 miles), $96,000; Sweetlake road (1.8 miles) and bridge, $95,000; Johnson Bayou road (1.8 miles), $76,000; Front Ridge Road (7.5 miles), $550,000; Grand Chenier park improvements, $15,000; and Cameron drainage, $10,000.

The matching funds were made possible by Senate Bill 2965, signed by President Kennedy on Sept. 14. The bill provides assistance to areas which have failed to share fully in the economic gains of the recovery from the 1960-61 recession.

SABINE REFUGE MANAGER

John Walther has been named manager of the Sabine National Wildlife Refuge in Cameron Parish. He replaces Kent E. Myers who is being transferred to the Gulf Islands Refuge near Biloxi, Miss., where Mr. Walther had been manager.

Mr. Walther is no stranger to the parish, having served as acting manager of the Sabine Refuge in 1958 prior to Mr. Myers arrival. He is married to the former Rita Smith, who was science teacher at Hackberry High School for several years. They have two children.

Mr. and Mrs. Myers left Monday for the Gulf Islands Refuge, which encompasses several islands off the Gulf Coast. Mr. Myers became manager of the local reserve in October 1958.

Under his management, two large pools covering 7500 acres were build on the refuge, 11 miles of old levess were rebuilt and 64 miles of fence put up. Extensive damage done to levees and fences on the refuge by Hurricane Carla last year is still being repaired.

4-H EXECUTIVE GROUP MEETS

Letter to Editor

Dear Editor:

Congratulations go out to the American Cancer Society, Cameron Parish Unit Volunteers for the outstanding job they did this past 1994-95 fiscal year.

Their dedication and hard work paid off by putting them in the top 20 parishes out of 56 for fundraising per capita for the American Cancer Society in the State of Louisiana. Quite an accomplishment.

The residents of Cameron Parish need to be thanked and congratulated also, for without their generosity and support we could not have obtained this honored position.

Although fundraising was a very important aspect to us, we also gave back to Cameron Parish many hours of programing, services and education to our residents.

Reward told in burning of camp here

Calcasieu Parish Crime Stoppers is offering a $1,000 reward for information leading to the arrest and indictment of those responsible for an arson in Cameron Parish.

On Oct. 20, a fire burned down a camp on Miami Company property just south of Lake Misere in Cameron Parish. About 2,000 acres of marshland also burned in the fire.

The investigation showed the fire may have been started with gasoline.

This arson cost the land owners and hunting camp lessees thousands of dollars in losses and threatened wildlife in the area, police said.

Anyone with information on this crime is asked to call Crime Stoppers at 439-2222 or outside the Lake Charles area at 1-800-73-STOPS.

Callers do not have to give their names, code numbers are assigned.

Masons honor young people

By GENEVA GRIFFITH

Four young people, one from each of Cameron Parish's high schools, have been chosen to receive the annual "Honesty and Integrity" awards given by the Cameron Masonic Lodge.

The awards were presented last week at the local Masonic Temple after a dinner.

Recipients of the awards were Andrea Berry, daughter of Mr. and Mrs. Lynn Berry from Grand Lake high; Patrick Dennis, son of Mr. and Mrs. Kenny Dennis from Hackberry high; Melinda Harrington, daughter of Mr. and Mrs. Jimmie Harrington from Johnson Bayou high; and Amanda Johnson, daughter of Mr. and Mrs. Ron Johnson from South Cameron high school.

Lonnie Harper, Master of the Lodge, said, "This award speaks very well for the recipients who were chosen by their respective schools."

Scott Henry, Senior Deacon of the lodge, explained how the recipients were selected, pointing out that the Honesty and Integrity award is not a competitive award.

Richard Smith, from Lake Charles, representing the 10th Masonic District, presented the awards. He explained the purpose of Masonry and said the lodge has a long and illustrious history.

"Ours is a fraternity of men, not a religion, nor a political entity, which encourages our members to be active members of the community and their respective churches", he stated.

Unclaimed funds are told here

In the legal section of this week's Pilot is a notice from the La. Dept. of Revenue and Taxation listing the names of five Cameron residents who are eligible for unclaimed property held by the state.

These names include Dr. Cecil Clark, Ricky Conner, Willie Conner, Mamie Gray and S. C. VanNess.

The notice gives the procedure for these persons or their heirs to claim this property.

The unclaimed property may include payroll checks, checking and savings accounts, royalties, utility deposits, interest, dividends, stock certificates, and life insurance proceeds.

Dr. Sanders to be honored Sun.

A reception honoring Dr. Richard Sanders is scheduled for Sun., Nov. 5, at 3 p.m. in the Life Center of Sacred Heart Catholic Church. It will be in celebration of Dr. Sander's 15th anniversary at South Cameron Memorial Hospital.

It is sponsored by the Parish Council of Sacred Heart Church and South Cameron Memorial Hospital.

Food Fest to be held 12th at Big Lake

The St. Mary of the Lake annual fall food festival will be held Sun., Nov. 12, 9 a.m. until on the St. Mary of the Lake Catholic Church grounds at Big Lake.

It will include food, games, music, auction and a country store.

A tent and additional seating will be provided at this year's festival.

Minister meet

The Cameron Parish Ministerial Association will meet at the South Cameron Hospital at 10 a.m. on Thursday, Nov. 2 at 10 a.m.

Fasten up-- or fork over!

The time for introductions has passed: Louisiana's seatbelt law will have teeth in it as of Wednesday, Nov. 1.

Since it took effect Sept. 1, the new seatbelt law, which requires all front seat riders in automobiles and light trucks to be belted, has been enforced through warning citations only, to give drivers and passengers a chance to get used to the law. But beginning with the new month, tickets with cash penalties may be written.

A first offense will cost an offender $25, including court costs. A second ticket will cost $50, including court costs, while a third offense will set a person back $50 plus court costs. However, because the offense is not considered a moving violation, it will have no effect on a driver's insurance rating.

Info available

The Draft Programmatic Hydrologic Manipulation Environmental Impact Statement (PHMEIS) and Appendixes is available for review at the Cameron Parish Library.

A public meeting on the Draft PHMEIS has been scheduled for Wed., Nov. 29, at p.m. at the La. Dept. of Wildlife and Fisheries Building in Baton Rouge.

Geologists shown at Constance Beach

Geologists pay visit to Cameron's cheniers

A feature of the recent annual convention of the Gulf Coast Association of Geological Societies was a field trip to Cameron parish to view the Louisiana Chenier Plain.

The group visited Pecan Island and then spent the night at Rockefeller Refuge headquarters at Grand Chenier.

On Saturday, Oct. 28 they visited McCall's cemetery at Grand Chenier where they viewed a multiple ridge system; and stopped at the Little Chenier shell pit, the most landward chenier; Happy Ridge; Rutherford Beach, the sand pit on the front ridge, the Calcasieu Pass mudflats and rock jetties.

At Holly Beach and Constance Beach they viewed the segmented breakwater system and the beach erosion in the area.

The tour ended with a reception held at the home of Mickey and Rodney Guilbeaux at Constance Beach.

Gambling can be an addiction KCs told

Gambling can be as addictive as alcohol, and the addict exhibits many of the same symptoms, members of Msgr. Cramers Assembly, Fourth Degree Knights of Columbus, were told at their October meeting, held in the hall of J. P. Boudoin Council 3014 in Creole.

Msgr. A. J. Vincent, Vicar for Community Services for the Diocese of Lake Charles, described the effects that addictive gambling has on individuals, families and communities.

"Most people can gamble in moderation," Msgr. Vincent said, "but some people can't."

One of Msgr. Vincent's activities lies in counseling, and he has had ample opportunity to study individual cases.

"Even though we all know that in gambling the percentages are always on the side of the house, there are those who feel they can strike it rich. So they gamble, and lose, and gamble and lose until they are hopelessly mired."

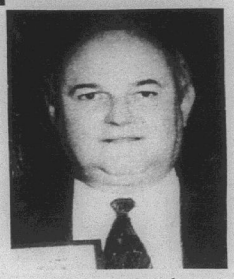
Addictive gambling seems much like alcoholism, and the same treatment has been effective in both cases. The '12 step program' used in Alcoholics Anonymous are also being used for addictive gamblers, Msgr. Vincent said.

Local arrangements were under the direction of Liaison Officer Adam Hebert and Grand Knight J. P. Boudoin Jr., of Council 3014.

CAMERON'S SENATOR

Picard seeks top Senate position

—CAPITAL NEWS—



The state Senate, which has received much attention as a "graveyard of reform" in recent years, will have a very different atmosphere after new senators take office in January, predicts Mark Drennen, president of the Public Affairs Research Council.

Drennen told the Rotary Club of Baton Rouge last week that a major upheaval has occurred in the 39-member chamber where 11 senators are not returning and five other incumbents face runoffs in November. Turnover will be between 35 percent and 40 percent, he said.

That creates the possibility that the Senate will have its highest turnover since 1972, the election following the Legislator's reapportionment into single-member districts. It also means eight of the 17 committee chairmen will not return to the Capitol in January. Three more are involved in runoff elections.

Drennen predicted that the senators who are in runoffs "are in big trouble." He pointed out that Senate President Sammy Nunez of Chalmette almost lost in the primary, and even if he is re-elected "by some miracle," he won't return to the presidency.

Based on the primary election results, Drennen calculated that the average tenure of 34 of the 39 senators will be 4.7 years. "What a change," he said. "So I think that is the top story . . . and it will be different at the Capitol in the future." The people who have been in the news for so many years are "not going to be in the Senate, and many of those in a runoff, I think, aren't going to be back either."

Senator Picard

The race to see who succeeds Nunez as Senate president already has heated up, with four senators seeking support for the elected position. The top two positions in each house will be elected by their peers after the new Legislature is sworn in.

Maurice Sen. Cecil Picard said last week he is "definitely a candidate", having spoken with every senator in the past several weeks. Other contenders are Sens. Randy Ewing of Quitman, John Hainkel of New Orleans and Foster Campbell of Elm Grove.

Hackberry anchorage area to be studied

Senator Bennett Johnston announced House-Senate Conference Committee approval of a study to look at ways to improve the Lake Charles ship channel in Calcasieu and Cameron Parishes.

The negotiators, who met to address differences between the House and Senate versions of the Fiscal Year 1996 Energy and Water Appropriations bill, approved $570,000 for the ship channel study, $500,000 more than the President's initial budget request.

The study will determine the feasibility of constructing a by-pass ship channel and general anchorage area for the Calcasieu channel at Hackberry, to provide improved navigation capacity.

Currently, one-way traffic conditions have resulted in significant delays for large ships. As a result of increased safety awareness, ships are no longer allowed to anchor in the channel's turning basins, causing a traffic jam.

"The narrow channel and lack of general anchorages have backed up traffic in the ship channel," Johnston said, "The Port of Lake Charles ranks as one of the top ports in the country, and improvements to the ship channel will keep it growing."

Absentee voting begins Monday

Absentee voting for the Nov. 18 runoff election will begin Monday, Nov. 6 and end Saturday, Nov. 11 in the Registrar of Voters office on the bottom floor of the Cameron Parish Courthouse.

Voting will be from 8:15 a.m. to 4:15 p.m., Monday-Friday and from 8 to 12 on Saturday.

MRS. LOIS HEBERT is shown working on shell wreaths using shells picked up on Rutherford Beach. (Photo by Geneva Griffith.)

Beach shells turned into art objects

By GENEVA GRIFFITH

Whether you take them with you or leave them lying on the sand, seashells are a fascinating part of the beach.

When Lois Hebert goes walking along the Cameron Parish beaches collecting shells she sees all kinds of things that can be turned into priceless treasures.

Her shell finds turn into beautiful flowers and leaves, tiny miniature animals, bases for candles and shell wreaths to grace the walls and door pieces.

Lois and her husband are retired and spend most of their time at their cabin on Rutherford Beach and a lot of it is spent combing the nearby beaches for material for her to use in creating objects of beauty.

The shellwork from the coasts of the United States is similar to that made in Europe many years earlier and commands a good price in antique shops.

Shell frame mirrors command a large price in specialty shops where they are created to go along with antique furniture.

For those wishing to save money and create their own shellcraft, the material can be found close by on the coastal beaches.

The only investment is in the wooden bases, mirrors, frames, plenty of glue and a lot of time.

Mrs. Hebert and her husband, Elton, are always looking for just the right shells, seabeans and tiny sea creatures to make their colorful shellcraft with, doing a lot of hunting to get just the right sizes, which wash up on the beach at different sesons of the year.

Make it a family affair - go to the beach for a weekend of beach combing, shell hunting, then create a masterpiece for your home and for posterity. It is also a restful hobby.

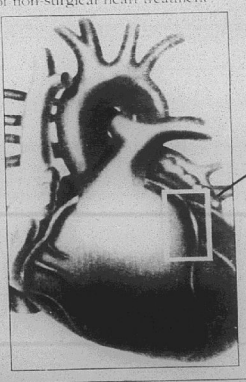
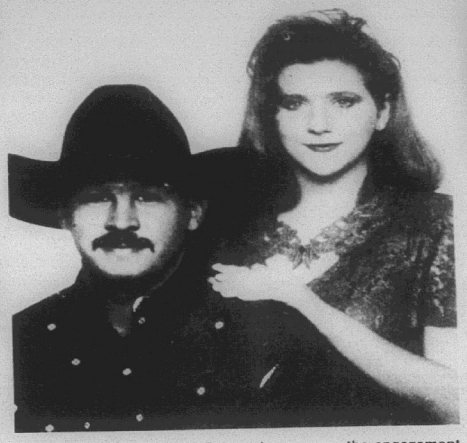
The Heart Doctors



Craig M. Walker, M.D., Clinical Research

When he founded Cardiovascular Institute of the South in 1985, Dr. Walker had a vision of a medical institution which would provide the highest quality treatment for heart and circulatory system disease, and contribute to the future of cardiovascular diagnosis and therapy through clinical research.

Today, that vision has been realized. CIS has become a treatment and clinical research center of international renown. It has participated in the development of virtually every major new method of non-surgical heart treatment developed over the past decade, including a number of firsts in stenting -- the highly promising technique of placing permanent implants to hold open previously blocked arteries.



"Clinical research is so demanding and time consuming that it's rarely pursued outside big academic medical centers," Dr. Walker concedes. "But it's the only way you can be sure you're really at the leading edge of your specialty. By the time most cardiologists are performing their first case using a new procedure, we will have performed hundreds."

HUNTING COURSE

There is going to be a hunter safety course Nov. 18 and 19, from 1 to 6 p.m. at the Grand Chenier Elementary School. All hunters who hunt out of state really need this course to be able to get a license in another state.

A person must be 10 years or older to take the free course.

HUNTING NEWS

Deer hunters are again urged by law to wear hunter orange when deer hunting. This is a safety that's worth any inconvenience as it could save your life.

This past week reports again good on deer harvest. Nice bucks are being taken.

I had one report of a bag limit of rabbits taken in the Grand Chenier - Chenier Perdue area.

We are seeing a few ducks in our area, lots of teals, and a few pintails, and most of these are around the West Creole marsh and Sabine Refuge. I know one thing, if we don't get rain, many will not be able to get to their duck ponds.

The Big Burn area has lots of floating turfs in the boat ditches, and not much water in lots of ponds.

A few doves are being killed, especially in fields where farmers and cattlemen are discing up the land to plant rye grass or winter wheat, or where it's already planted.

Duck season is right around the corner, with the first split starting Nov. 11, in our area. It's a touch and go situation trying to get decoys ready, along with the boats, blind and cutting cane.

FISHING REPORTS

There's not much local bass fishing news, except I had one report of a few small bass taken on Rockefeller Refuge in Grand Chenier. Talking about Rockefeller, some nice crabs and shrimps have and still are being caught. Remember on shrimp, cast nets only and 25 pound limit per day. Also, redfish in the larger sizes are hitting on Rockefeller.

Big Lake is beginning to turn on for speckle trout and also a few redfish. This cooler weather has turned on the specks, and of course, November is always a good month for great speckle trout fishing in Big Lake. Right now early morning and late evening seems to work best. There's plenty of bait shrimp and you need to watch the birds.

Those making trips to Toledo Bend so for this month, has seen some good bass action. With the lake level fairly low, bass are feeding regularly near grass beds.

LOCKED OUT CAMPERS

I don't know what to think of an outdoorsman and camper going to Kisatchie Forest, bringing his wife and getting shook-up and locking his keys in his 4-wheel drive vehicle. Oh, yes, her purse was inside and yes, the extra set of keys was in the purse. What can you do in the middle of the woods, a locked vehicle? Answer, have a spare key hidden and all problems solved, well almost, especially when a friend finds out.

COMMERCIAL NEWS

It is claimed that the passage of the gill net ban was only partial, but don't tell that to the commercial fishermen who are already out of business.

The new talk is a total ban on gill nets next year, in a special session of the legislature taking place.

FUNERALS

LOUIS JOSEPH HEBERT

Funeral services for Louis Joseph Hebert, 59, of Creole, were held Saturday, Oct. 28, from Our Lady Star of the Sea Catholic Church.

The Rev. Curtis Vidrine officiated; burial was in Our Lady Star of the Sea Cemetery.

Mr. Hebert died Thursday, Oct. 26, 1995, in his residence.

A native of Erath, he had lived in Cameron most of his life. He was employed with Phillips Petroleum for 20 years and was a volunteer for the fire and rescue unit in Cameron. He was a member of Our Lady Star of the Sea Catholic Church, and the Msgr. Cramers 161 and Cameron Knights of Columbus.

Survivors are his wife, Mrs. Hazel Hebert; two sons, Wayne Hebert of Lake Charles and Clifton Hebert of Cameron; two daughters, Mrs. Deborah Duhon of Creole and Lena Hebert of Cameron; four brothers, Virgie, Resley, and Alvin "Pookie" Hebert, all of Cameron, and Allen Hebert of Freeport, Tex.; eight stepsisters, Jean Erbelding, Jackie Jinks, Barbara Leger, Mary Lynn Constance and Georgia Constance, all of Johnson Bayou, Connie Hicks and Mary Louise Nunez, both of Mauriceville, Tex., and Wilma Sullivan of Lake Charles; his mother, Mrs. Lena Authement; eight grandchildren; and one great-grandchild.

RAYMOND LEBLANC SR.

Funeral services for Raymond LeBlanc Sr., 73, of Creole, were held Monday, Oct. 30, from Sacred Heart Catholic Church.

The Rev. M. J. Bernard officiated; burial was in LeBlanc cemetery.

Mr. LeBlanc died Thursday, October 26, 1995, in a Lake Charles hospital.

A native of Creole, he was an Army veteran of World War II. He owned LeBlanc Wrecker Service and had retired from Carter Chevrolet in Creole and as a school bus driver for Cameron Parish School Board. He had worked for Loston's Auto Service in Creole and for Cameron Parish Mosquito Control, and had been a member of the Creole Water Board.

He was a member of St. Rose Catholic Church in Creole, where he was an usher and had been a former member of the church council.

Survivors are his wife, Anna LeBlanc; one son, Raymond LeBlanc Jr.; two daughters, Eve Andrews and Lula Mae LeBlanc; one brother, Lezame LeBlanc; his stepmother, Mrs. Pearlie LeBlanc, all of Creole; and three grandchildren.

Johnson Bayou High School News

SCHOOL NOTICES

There will be no school Fri., Nov. 3. Teachers will be at an in-service.

Progress reports were distributed Tues., Oct. 31.

The monthly 4-H meeting will be held Tues., Nov. 7.

WALK-A-THON

Johnson Bayou High held a "J.B. Drug Free-A-Thon" Thurs., Oct. 19. Students walked a mile around the track to promote a drug-free lifestyle. Each class carried a banner designed by the class featuring a drug free logo. The banners were judged and winners came from the first, third, seventh and twelfth grades. Mrs. Jeanne LaFleur is sponsor of the SADD club.

EDUCATIONAL TRIP

The Speech, American History and Environmental Science classes, with their teacher, Hal Fontenot, will take a field trip Thurs., Nov. 2, to Ville Platt, to visit a dairy farm.

HOMECOMING ACTIVITIES

Johnson Bayou High held their Homecoming Friday, Oct. 27. It started with a pep rally Friday afternoon. Mothers, past cheerleaders, and past Lady Rebels provided entertainment, skits, and music focusing on Homecoming and Rebel pride.

During the week of Homecoming, students in grades K-12 participated in activities. Monday, the students had pajama day; Tuesday, they "Dressed for Success"; Wednesday, they wore hunting attire to "Hunt the Bulldogs"; Thursday, mourning day with a bon fire Thursday night; Friday, the students wore red and blue to show their Rebel pride.

Classes accumulated points during the week for different activities which included hall or door decorations, a banner contest, pumpkin carving or drawing contest, and a scavenger hunt. The divisions with the most points received recognition. The high school division consisted of grades 7-12.

The class winners were: 1st, sophomores; 2nd, seniors; 3rd, 7th grade. In the elementary division which consisted of K-6th grades, the class winners were 1st, 5th grade; 2nd, 6th grade; 3rd, 4th grade.

Classes honored for Homecoming were 1965, 1975, 1985, and 1991. Food was prepared by Connie Badon, Faye Billiot, and Francis Romero.

The Homecoming Court was presented at 5 p.m. and the 1995-96 Homecoming Queen is Jamie Trahan, junior, who is the daughter of Mr. and Mrs. Robert Trahan.

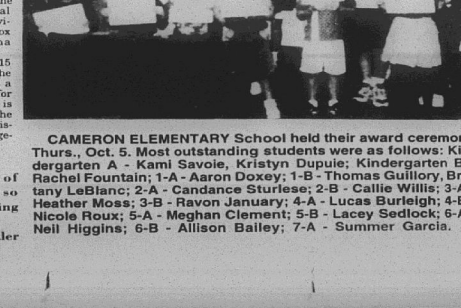
The Rebels hosted the Hyatt Bulldogs and the final scores were: girls - Lady Rebels 49 - Lady Bulldogs 45; boys: Rebels 43 — Bulldogs 59. Mrs. Brenda Rodrigue is the sponsor of the Student Council, who worked on Homecoming, along with Mrs. Juanita Sandifer.

SENIOR MEETINGS

A representative from DeVry Institute will meet with the seniors Nov. 6, and Don Elfert from McNeese State University will meet with them Nov. 9.

HALLOWEEN CONTESTS

The winner of the pumpkin contest sponsored by the senior class was Nicole Griffith.



The winners of the Halloween costume contest were: 1st runners-up, Tiffany Caudill; Leah LaFleur, Alex Bourgeois, Cody Meaux, Adam Trahan, Ashley Price, Lauren Griffith, Christy Billiot; 2nd runners-up, Kimberly Trahan, Lauren Conner, John Bourgeois, Jared Trahan, Juanita Cox, Natasha Trahan.

A reminder

A reminder for hunters younger than 16 years old: you must be certified or supervised. Recent legislation requires that young hunters either successfully complete a Hunter Education Course and carry a Hunter Certification Card or be under direct supervision of a person at least 18 years old.

Louisiana's mandatory hunter education law requires that all hunters born on or after Sept. 1, 1969, successfully complete a Hunter Educaton course before purchasing a license. The course is designed to teach the basics of hunter ethics, firearm safety, and wildlife management.

In the past, hunters under 16 were exempt from taking the course and carrying a license. Now hunters must be certified or accompanied by an adult 18 years old or older while hunting.

CAMERON ELEMENTARY School held their award ceremony Thurs., Oct. 5. Most outstanding students were as follows: Kindergarten A - Kami Savoie, Kristyn Dupuie; Kindergarten B - Rachel Fountain; 1-A - Aaron Doxey; 1-B - Thomas Guillory, Brittany LeBlanc; 2-A - Candance Sturlese; 2-B - Callie Willis; 3-A - Heather Moss; 3-B - Ravon January; 4-A - Lucas Burleigh; 4-B - Nicole Roux; 5-A - Meghan Clement; 5-B - Lacey Sedlock; 6-A - Neil Higgins; 6-B - Allison Bailey; 7-A - Summer Garcia.

Tarpons to close out season Fri.

By JOE MUELLER

The South Cameron Tarpons and the Welsh Greyhounds close out their 1995 football season this Friday, Nov. 3, at Tarpon Stadium.

This will be the first time in at least five years that the game will not influence the top finishers in district play.

It will also be the first time in this writer's memory that neither the Greyhounds nor Tarpons will be entering the state playoffs.

This is Coach LaLande's 14th season as head coach at the Cameron Parish school and his teams have been to the playoffs ten time.

Welsh' playoff percentage is probably just as high.

Last year the teams were playing for first place with Welsh entering the game at 4-0 in district and South Cameron at 3-1. The Tarpons won the game 27-21 to claim the top seed into the playoffs.

This year both teams are 2-2 in district, and tied for second in district with Iota. Notre Dame and Lake Arthur have 3-1 district records. The Tarpons are 2-6 overall while Welsh is 3-5.

The two teams have some common foes as both teams lost to DeQuincy and Vinton is predistrict play.

The Tarpons have district wins over Notre Dame and North Vermilion, while losing to Iota and Lake Arthur. Welsh has district wins over Iota and North Vermilion while losing district games to Notre Dame and Lake Arthur.

The game is an intense rivalry so it should be hard fought even though neither team can expect to play after Friday night.

The Tarpons threw the ball well last week as they scored three touchdowns on the John Pradia to Derrick Blackwell combination.

The Greyhounds were in the game at Notre Dame last week before giving up 3 second half touchdowns to lose 38-13.

The Tarpons have shown balanced running with Brandon Conner, Jared Savoie and John Pradia all running the ball well last week.

The Greyhounds have two strong runners in Jason Thorne and Nathaniel Celestine both averaging over 60 yards per game.

The two quarterbacks are 2-3 in passing in District 6AA as Welsh quarterback Eric Troutman had 480 yards in 7 games, while the Tarpons Pradia had 439 yards through 7 games.

Let's get a good crowd out to show the coaching staff and players that their efforts for the 1995 season are appreciated.

Tarpons lost to Iota 28-21 last Friday

By JOE MUELLER

The South Cameron Tarpons passed for three touchdowns but they couldn't score any on the ground as they saw their district record fall to 2-2 as they lost to Iota 28-21.

The Tarpons entered the game tied for first in district play with Welsh, Notre Dame and Lake Arthur.

After Friday night's games were completed the district had only two left with one loss, Notre Dame and Lake Arthur. The Welsh Greyhounds lost to Notre Dame and Lake Arthur handled the winless North Vermilion team.

The Tarpons scored first n the game as quarterback John Pradia hit Derrick Blackwell on a 25 yard pass with 8:46 left in the opening quarter.

Iota came back and scored with about a minute left in quarter number one on a 13 yard run by Josh Ortego. They missed the extra point so at the end of quarter one the Tarpons were up 7-6.

Iota went up 14-7 in the second quarter on a 16 yard touchdown pass from Brent Miller to Lionel Pellerin. Miller hit Kenny Winborg for the two point conversion.

South Cameron scored in the second quarter again on a pass combination of Pradia to Blackwell. The extra point failed so at halftime the Bulldogs were up 14-13.

The Bulldogs ran the lead to 21-13 on a 75 yard run by Ortegoin the third quarter.

The Tarpons came back to tie the score at 21 on another 10 yard pass from Pradia to Blackwell. They also connected for the extra point.

The only scoring in the final quarter was a one yard run by Ortego. He converted the extra point kick and the Bulldogs had the final score 28-21.

The Tarpons did get the ball with about 5 and a half minutes left in the game but couldn't score.

The Tarpons had 13 first downs to the Bulldogs 12 and had more total yardage, 342 yards to 302. The Tarpons had three passes picked off.

On defense, the Tarpons had one fumble recovery and forced the Bulldogs to punt three times.

The Tarpons couldn't stop Josh Ortego as he ran for 217 yards on 34 carries.

Top rushers for the Tarpons were John Pradia with 51 yards, Jared Savoie with 49 and Brandon Conner with 43.

The Tarpons Pradia hit 5 passes for 115 yards, 4 of the pass receptions were Derrick Blackwell and accounted for 84 total yards and 3 touchdowns. Jacob Porche had the other completion for the Tarpons.

18TH YEAR -- NO. 26 THURSDAY, APRIL 4, 1974 CAMERON, LA. 10¢ A COPY

Letters asked on road

Evacuation route being held up

Rep. Conway LeBleu of Cameron has asked citizens and organizations of Cameron Parish to aid in trying to get Cameron's hurricane evacuation highway expedited.

Rep. LeBleu said the Louisiana Department of Highways has had an application before the U. S. Coast Guard in New Orleans for almost a year now, requesting a permit to cross the southeast portion of Calcasieu Lake with a portion of the proposed evacuation highway from Cameron north.

The Coast Guard is still open for comments and Rep. LeBleu said it would help if every citizen and civic, religious and fraternal group in Cameron Parish would write a letter to the Coast Guard requesting that the agency give favorable consideration to the permit request.

Letters should be sent as soon as possible and within the next two weeks. They should be addressed to:

Commander, 8th Coast Guard District, U. S. Custom House, New Orleans, La. 70130.

A sample letter that could be used follows, but letters in the writer's own words would be more appropriate.

I respectfully request that you give favorable consideration to the La. Dept. of Highways application for a permit to cross the southeast corner of Calcasieu Lake with the proposed evacuation highway. If Hwy. 27 should be blocked or destroyed before or during a hurricane, the entire southern part of Cameron Parish would be isolated.

Yours truly,

/s/ _____

WILLIAM O. MORRIS here has Scouting's Wood Badge award pinned on him by his wife while Paul Taylor and Kelly Dean of Lake Charles look on.

Contracts awarded for recreation

Contracts totaling $142, 976 were awarded Tuesday by the Cameron Parish police jury for the construction of a recreation building, swimming pool and playing field at Grand Chenier, but one of the bidders filed a protest in the matter.

Charles Miller Construction Co. of Lake Charles was given a $132, 202 contract to construct the pool, recreation center and bath house.

Archie S. Hebert of Lake Charles was awarded a $8,379 contract for the play area. Hercules Fence Co. got a $2395 contract for tennis court fencing and Chesson Fence Co. got a $990 contract for pool fencing.

Larry Dyson of Dyson Lumber Co. of Cameron protested the awarding of the bids.

At the time the bids were open, Dyson had asked the jury to delay the opening an hour to give him time to get a price on the particular type of pool desired from a Beaumont pool company.

One of the other bidders objected to the delay and the jury was advised by its attorney that it would have to open the bids without a delay.

Dyson said he felt that the other companies had the advantage over him as they had all received quotations from the same pool company but that his had been delayed.

(Dyson, who withdrew his bid, said later that he would have been low bidder if it had not been withdrawn.)

Funds raised for child

Mr. and Mrs. Evans LaBove were presented with a check for $3, 402. 35 this week on behalf of their young son Lance, who is undergoing extensive medical treatments for a birth defect.

The money was the proceeds from a benefit dance and cake sale sponsored by the South Cameron Jaycees recently at the Cameron Recreation Center.

Kyle Howard was chairman of the event. He and Curtis Thibodeaux made the presentation to the LaBoves on behalf of the Jaycees.

Howard and Thibodeaux are shown with Lance and his mother.

Morris is honored

William O. Morris, assistant district commissioner of Scouting for Cameron Parish, became the first person in Cameron Parish, and one of only 12 in Southwest Louisiana to receive the Wood Badge Award of Scouting.

The award was presented to Morris last Wednesday at an Awards Night program of Pack 201 in the auditorium of South Cameron Elementary School.

Mrs. Morris pinned the award on her husband and the presentation was made by Kelly Dean and Paul Taylor of Lake Charles.

In presenting the award Mr. Taylor said that this is one of the highest awards in the adult scouting training program. It was created in 1919 by Baden Powell, the founder of the scouting program.

He said "One of the purposes of the Wood Badge training is to get the men to think about the practice of Scouting, to meet together, to exchange experiences, and to live together in the spirit of the scout oath."

The badge consists of two wooden beads worn on a leather thong around the neck, which are replicas of the beads captured from an African Chieftain (Dinizulu) by Baden Powell in 1888.

In looking for a suitable recognition for the men who completed the first course in 1919, Powell remembered the necklace and decided to give a bead to each of the participants.

Another highlight of the Awards night program was the awarding of badges to pack members Kenton Trahan, Cline Nunez, Ahanon Dupont, Gregory LeBoeuf, Mike Morris, Allen Duhon and David Conner. The awards were pinned on the boys by their parents.

Announcements were made concerning the Scoutorama to be held in the Lake Charles Civic Center on May 4, the Webelos weekend at Camp Edgewood April 20 and 21; and the Cub-Dad weekend at Camp Edgewood on June 8 and 9.

Special guests at the awards ceremony were O'Neal Roberts, Scoutmaster of Troo 210 of Cameron and Warner Daigle, Unit Commissioner

Recreation plans are altered for J. B.

Bids on the Johnson Bayou recreation facilities, received recently, were much higher than originally expected and some cuts in the plans will have to be made, the Cameron police jury was told Tuesday.

Howard Romero of the Johnson Bayou recreation commission, said that the low bid on a swimming pool, recreation center and ball field was $620, 000, but that the district had only voted $450, 000.

He said the commission had agreed to change to a less expensive pool and a small ball field to get the cost down to $500, 000. He said this would leave the district $50, 000 short of the funds that it needs to complete the project.

The jury agreed to put up the additional $50, 000 from federal revenue sharing funds.

The recreation project wasn't the only Johnson Bayou area project hurt by increases in construction costs. The state highway department recently rejected bids on repair of storm damages on Johnson Bayou-Holly Beach road because they were about $100, 00 over expected costs.

Jury actions

The Cameron police jury took action on a number of items at its Tuesday meeting.

Purchase of new drapes for the courtroom in the courthouse $1417 from Sears was approved.

It advertised for the sale of some buildings on the site where the Grand Chenier recreation facilities are to be built.

Permission was asked of the state bond and tax board for permission to call a $1, 150, 000 bond election in Fire Protection District 3, the Creole-Grand Chenier area, to provide water and fire protection for the area. The election will be held May 11.

The jury asked the state agriculture department to resume its semi-annual supplying of mirex fire ant bait for the parish.

The jury was advised that the South Central Construction Co. had not begun to get the firm declared in default so that the contract can be awarded to another concern. The bonding company will guarantee that the parish will not lose money on a new contract.

A petition from local fishermen asking for a beacon light on the Cameron jetties was received and the jury asked the Coast Guard for a light.

A $12, 000 federal grant for a parish airport study has been approved and the jury approved the firing of a firm to do this work.

Bids on resurfacing of 7.2 miles of the East Creole road will be open April 24. It was reported.

After the jury received a letter from the Oak Grove Baptist Church protesting the issuing of a beer permit to Big's Grocery, the jury delayed action on the permit for a month until legal opinion could be secured.

Meeting reset

The April meeting of the Cameron parish school board will be held at 10 a.m. Friday, April 5, in the school board office, according to U. W. Dickerson, superintendent.

Nature trail proposed to attract tourists

A proposal that a nature trail be set up in Cameron Parish to attract tourists to the area met with a favorable response at the Cameron Parish police jury meeting Tuesday.

The idea was advanced by a delegation representing the Lake Charles-West Calcasieu Tourist Commission.

Jim Lester, outdoors sports writer, outlined plans for erecting signs along Hwy. 27 as it loops through the parish calling attention to such attractions as alligators, egrets, fulbering animals, etc.

He suggested that the route be called Jean LaFitte Nature Trail or something similar and that billboard be erected on Interstate 10 telling tourists they were now "entering alligator country" and advertising the trail.

He also suggested that a "half way house" be put up along the route to display wildlife exhibits, Indian artifacts, etc. and to offer food and souvenir for sale to the tourists.

Lester said his group would like to have the trail completed by July, 1975 when the National Outdoors Writers Association hold their national convention in Lake Charles.

He said that these writers would help to publicize the trail all over the country.

The group said that about 50 signs would be needed for the trail and at the jury's suggestion said they would come up with a detailed plan of the project for the jury's action.

Juror Charles Riggs of Hackberry expressed great interest in the project and agreed to work with the group. Jury President Butch Crain also offered his aid.

Fishermen form organization

The commercial fishermen, crabbers, and shrimpers held an organizational meeting last Thursday night at the Hackberry Fire Station.

Officers elected were Robert Burlingham, president, Mr. Duplechain of Sulphur, vice president, and Jackie LaBauve, secretary-treasurer.

They discussed keeping the Lakes open to commercial fishing.

They will hold another meeting April 9 at 7:30 p.m. at the fire station in Hackberry. Invitations have been extended to Rep. Conway LeBleu and Senator Jesse Knowles to attend. All commercial fishermen, crabbers, and shrimpers are urged to attend.

Teacher dies in accident

A Creole school teacher, Mrs. Juanita Primeaux, 24, was killed in a car-school bus collision about 8:30 a.m. Thursday.

Mrs. Primeaux was pronounced dead on arrival at St. Patrick Hospital in Lake Charles about 9:30 a.m., according to hospital authorities.

She was driving alone in a sedan heading west on Louisiana 82 about four miles east of Creole in fog when she became involved in the collision with a Cameron Parish School bus, according to Trooper Terry Langley of Troop D, State Police.

The driver of the bus, John A. Roux, 49, of Cameron was unhurt. The State Police report listed three students as slightly injured. They were Brandon P. Hebert, 13, Angela Stephenson, 13, and Pauline Hebert, 15, all of Cameron.

Other school children were uninjured.

Funeral services for Mrs. Primeaux, were at 3 p.m. Friday from Sacred Heart Catholic Church.

Burial was in the church cemetery.

She was a teacher at Cameron Elementary School.

Survivors are her husband, Tetrus Primeaux, her parents, Mr. and Mrs. Melvin Trahan, four brothers, Timothy, Alfred, Joseph and Brandon Trahan; one sister, Mrs. Paul Shirley, all of Cameron; paternal grandmother, Mrs. Lucille Mougler of Ryne and maternal grandparents, Mr. and Mrs. Eugene Savoy of Cameron.

Trappers camp to be built

Jerry Jones, a member of the Louisiana Wild Life & Fisheries Commission, told the Cameron police jury Tuesday that the commission is planning to build a mid-time trappers camp at the Rockefeller refuge at Grand Chenier as a bicentennial project.

Jones said the cost of the project will be $10, 000. It will serve as an attraction for tourists and an educational exhibit for school children.

Correction

The advertisement for Big's Grocery of Oak Grove listed them as selling beer. This was in error as the store has not yet started selling beer.

Booster club

A meeting of the South Cameron Booster Club will be held Wednesday, April 10, at 7:30 p.m. in the cafeteria of South Cameron High School, according to Diel LaLande, president.

Purpose of the meeting will be to make plans for the annual spring all-sports banquet.

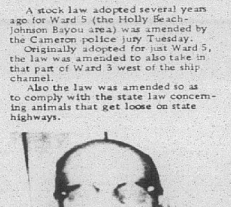
Man burned on boat

One man is hospitalized with second degree burns and another, believed to be a boat captain, is in custody of Cameron Parish deputies following an incident which reportedly occurred on a ship late Thursday night in which gasoline was allegedly tossed on the victim.

Hospitalized at South Cameron Memorial Hospital was

According to preliminary investigation, Williams had gasoline tossed on him, allegedly by the second man who is said to have also ignited it with a match.

Williams has burns about the head and chest and was listed in fair condition by hospital authorities.



The man being held was unidentified pending possible charges.

Stock law is amended here

A stock law adopted several years ago for Ward 5 (the Holly Beach-Johnson Bayou area) was amended by the Cameron police jury Tuesday.

Originally adopted for just Ward 5, the law was amended to also take in that part of Ward 3 west of the ship channel.

Also the law was amended so as to comply with the state law concerning animals that get loose on state highways.

Mayo Boudreaux

Mr. Boudreaux rites held

Funeral serveies for Mayo Boudreaux, 80, were held at 2 p.m. Saturday, March 30, from Sacred Heart Catholic Church in Creole.

Burial was in the church cemetery.

Mr. Boudreaux died at 10:30 a.m. Thursday at his home after a lengthy illness.

He was a retired farmer and cattleman and a member of the Farm Bureau.

Survivors are hiw wife; four daughters, Mrs. Dora LeBoeuf and Mrs. Tommy Savoie, both of Creole, Mrs. Ervin Richard of Grand Lake and Mrs. Vernon LeBleu of Lake Charles; and four sons, Clarence Dewey and Charlie Boudreaux all of Creole; and Dalton Boudreaux of Grand Chenier.

LONE STAR ROUTE HIGHWAY

The Lake Charles Rotary Club was addressed by Mr. Rudolph Krause at its regular weekly meeting Tuesday noon. His subject was the third annual convention of the Lone Star Route Highway Association, held in Paragould, Ark., Sept. 6, and attended by himself and Mayor J. A. Trotti as delegates from Lake Charles.

Mr. Krause said that the 1924 convention of the association had been secured for Lake Charles and that Lake Charles and the Gulf beaches in Cameron Parish have been made officially, the Southern terminal of the great North to South highway. He urged that work begin at once looking toward the opening of the highway into Cameron Parish.

DRILLING AT HACKBERRY

The Yount-Lee Oil Company, comprising Texas oil producers and Calcasieu people, has been shut down in its location on Hackberry Island for several days on account of the loss of mud from tidal waters. But it is said to have gotten in shape for drilling again and will not stop until a thorough test is made. It is said to be down about 2,000 feet with its test and hopeful of bringing in a well.

RELIGIOUS LANDMARK PLANNED

Plans for the erection of a religious monument to the Mother of God in Cameron Parish were announced this week by the Rev. Eugene Senneville, pastor of Our Lady Star of the Sea Parish, who said the idea for the memorial was originated by the Most Rev. maurice Schexnayder, Bishop of the Diocese of Lafayette.

Father Senneville said that Cameron Parish continues to make national headlines through the unwelcome visits of disastrous weather conditions.

Architect Perry Segura of New Iberia has drawn up the plans and specifications for the project. The words, "Do not harm my children," are to be engraved on the front panel of the base.

Bishop Schexnayder appointed Albert Colligan and Norman McCall of Cameron as chairmen of the project. They will be aided by the following Cameron Parish committee members: from Cameron, Eugene Senneville, Mark Richard, Wilman Saltzman, Hayes Picou, J. L. Derouen and E. J. Dronet; from Creole, Rev. Anthony Bruzas, Rev. Henry LaChapelle, Ray Dimas, Telesmar Bonsall, Berton Daigle, Dalton Richard, Johnny Boudoin.

From Grand Chenier and Cow Island, Rev. Joseph A. Decoteau, Lionel Theriot, James Fawvor, Moise Sturlese, Whitney Baggicalopi, Severin Miller and Curley Vincent; from Johnson Bayou - Holly Beach - Hackberry, Rev. Charles Donahue, J. B. Colligan, J. L. Colligan, Joe Sanner and Walter Stanley; from Sweet Lake and Big Lake area, Rev. Charles Levasseur, Claude Eagleson, Durell Gudry, Alverd Duhon and John Duhon.

Because of the size and of the lasting quality of the components, the total cost will exceed $6,000.

Formal dedication should take place next May, on Mothers day, Father Senneville said.

ROCKEFELLER MINERAL ROYALTIES

Cameron Parish will receive approximately $1,300,000 as its share of mineral royalties from the Rockefeller Wildlife Refuge, District Attorney Frank T. Salter, Jr. announced Wednesday.

Mr. Salter, representing Cameron Parish, contended that Cameron was entitled to 10% of all mineral royalties received by the State of Louisiana from the Rockefeller Refuge in Cameron Parish from the date of first oil and gas production which occurred in the latter part of 1953.

Mr. Salter said Article 4, Section 2 of the Louisiana Constitution allocated to Cameron Parish 10% of all royalties derived from state owned land to be used for the construction of hard surfaced roads, bridges, tunnels and automobile ferries.

This fund is commonly called the Royalty Road Fund. Money received from the Refuge mineral royalties in Cameron Parish had not been allocated in the past because of certain restriction in the Rockefeller donation to the State of Louisiana. But on Oct. 4, 1961, President Kennedy signed public law 361 of the 87th Congress, which waived the rights of the United States to claim a violation of the terms of the Rockefeller donations resulting from allocation of 10% of the mineral royalties from this refuge.

On Monday, Oct. 29, as a result of a request from Mrs. Ellen Moore, Registrar of State Lands, the Attorney General's Office, upheld Mr. Salter's contenton that as a result of public law 361, Cameron was entitled to 10% of the royalty from late 1953.

TANK FARM FIRE

Fire spread through an oil and distillate tank farm at Grand Chenier Monday night after lightning hit one of the tanks.

The fire was contained about 10:30 p.m., according to the Cameron Parish Sheriff's Department. No injuries were reported, but three families in the area were evacuated.

Seven tanks were involved, one a 10,000 barrel capacity tank, and the other 500 barrel tanks. The tanks were owned by Tremain Corp. and Sohio.

Fire trucks from Cameron and Lake Charles answered the alarm. The fire chief at Chennault AFB was at the scene, but the base did not send a truck because of an alert.

Three boats, docks and a few small buildings were destroyed. Foam was used on the fire, but most of the firemen's efforts were in cooling the fire down. The tank hit by lighting exploded, spreading distillate over a wide area.

CHURCH CONTRACT AWARDED

A $37,326.47 contract was recently awarded by St. Mary of the Lake Catholic Church at Grand Lake to D&M Constructon Co. for the construction of a new church, according to the pastor, the Rev. Charles LeVasseur.

The foundation for the new church has been laid. The old church, which was rebuilt following the 1918 hurricane, will be remodeled at a later date to provide additional facilities.

Father Kohler

Mission to be held at 3 churches

Fr. Lawrence Kohler, Missionary of LaSalette, will conduct a Parish Mission in three South Cameron Catholic churches, entitled "A Week With Christ".

A native of St. Louis, Mo., Father Kohler attended Holy Ghost School in that city and joined the LaSalette Fathers in whose seminaries he was educated. Before his ordination in 1961, he studied theology at the Gregorian University in Rome, Italy.

Since then he has taught at the Jefferson City Seminary, preached missions and retreats, served as secretary and treasurer of the LaSalette Province. He was in charge of the Madagasgar Foreign Missions, and is presently in residence at Our Lady of LaSalette Church in Sulphur.

Our Lady Star of the Sea in Cameron will host the first Mission Monday through Thursday, Nov. 13-16, beginning at 7 p.m. Confessions will take place before and after the services or any time by appointment. The Mission will conclude with the Pope's blessing.

The second Mission will be conducted at Sacred Heart Church in Creole Nov. 27-30.

Following this Father Kohler will conduct a Mission at St. Eugene Church in Grand Chenier Dec. 4-7.

Services begin at 7 p.m.

Insurance firm opens office here

New York Life Insurance Company has announced the opening of a Cameron office at 501 Marshall street, next door to Pat's Restaurant.

J. Steven Blount is agent for the Cameron and Lake Charles offices and Bruce Eisen is the account executive for the Cameron office. The Cameron office will be open Tuesday through Thursday from 8:30 to 4:30.

The Cameron office will offer a wide range of insurance and investment products to assist parish residents with their estate needs.

New York Life has been in business for more than 150 years and is one of the most sound financial institutions in the United States.

Blount and Eisen invite everyone to come by the office during the coming week to say hello and have coffee and refreshments.

Bingos set at J. Bayou

The Johnson Bayou Recreation Center will sponsor two upcoming bingos for residents of the Johnson Bayou-Holly Beach area.

On Tuesday, Nov. 14 from 9:30 to 11 a.m. there will be a bingo for senior citizens, 60 or more. KC Council 8323 will co-sponsor the event. Turkeys will be given as prizes.

A Thanksgiving bingo will be given at 6:45 p.m., Thursday, Nov. 16 for residents of the two communities. Free turkeys, hams and cakes will be the prizes. Refreshments will be served.

Meeting set on basins

A meeting to discuss the problems of the Mermentau and Calcasieu-Sabine Basins will be held at 7 p.m., Tuesday, May 28 at the Police Jury Annex in Cameron.

There will be presentations by the Corps of Engineers and proposed projects for the basins will be discussed. Comments will be received from the public.

15 YEARS OF SERVICE

Dr. Sanders honored

By GENEVA GRIFFITH

Friends, parish officials, patients and family gathered Sunday afternoon at the Sacred Heart Catholic Church Family Life Center to express their appreciation to Dr. Richard Sanders for 15 years of service to Cameron Parish.

The occasion was sponsored by the South Cameron hospital and the Sacred Heart Catholic Church Council. Robert Montie, representing the church council, served as master of ceremonies.

Testimonials of thanks were given by several persons. Parry LaLande, head coach at the South Cameron High School, said Dr. Sanders has donated the annual physicals required by the football players each year; Darrell East, director of the local Special Olympics program, presented Dr. Sanders with a plaque of appreciation and told of Dr. Sanders' help by providing, at no charge, required physicals for participants.

William O. Morris, Scoutmaster of Troop 202, thanked the doctor for his help to the local troop, which is sponsored by South Cameron hospital.

Mitzi Jones, associated with the Head Start program of Cameron, thanked Dr. Sanders for his help to the local program.

Linda Chevalier, on behalf of the Nurse Practioners program, told of Dr. Sanders help to the nurse practioners who interned in his clinic in Creole, and how much they learned from him in the care of family services in the rural area.

Douaine Conner, vice-president of the Cameron Parish Police Jury, presented Dr. Sanders with a proclamation honoring him. Mrs. Conner read a statement from herself and her husband, Douaine, about the special care given to their terminally ill child before his death.

Mary Francis Richard, Dr. Sanders' nurse, read letters from student doctors that interned with Dr. Sanders, Dr. Ruth Elsey, who is now a biologist at Rockefeller Refuge, and Dr. Wilson Wang, a native of Taiwan, who were unable to attend the festivities.

Dr. Chris Schumacher, a radiologist from Jennings who serves South Cameron hospital several days a week, gave a testimonial from the hospital medical staff.

Other testimonials were given by Rickey Miller and J. B. Jones, father of Dr. Sanders' wife.

Joe Soileau, administrator of South Cameron Memorial Hospital, presented Dr. Sanders with the Family Services Award from the community.

After the program a reception was held with refreshments served by the staff of South Cameron Memorial Hospital.

Permits made easier

The Wildlife and Fisheries Commission has made it easier for applicants to qualify for commercial fishing permits under the Marine Resources Conservation Act (Act 1316). The Department of Wildlife and Fisheries will accept certified proof verifying the provision that applicants derived more than 50 percent of their earned income from the legal capture and sale of seafood species for the first nine months of 1995.

Act 1316 states that in order for applicants to qualify to purchase a saltwater commercial rod and reel gear license or to apply for a commercial permit to harvest spotted seatrout, mullet, and other saltwater finfish species with nets, they must show that more than 50 percent of their earned income derived from the legal capture and sale of seafood species for two of the three years 1993, 1994, or 1995. Such proof must be shown on a federal income tax return including Schedule C of form 1040 certified by the Internal Revenue Service.

Anyone relying on 1995 information to qualify would have had to wait until 1996, after they had received a certified copy of 1995's return. The Commission's latest action means that commercial fishermen can qualify using information collected January through September 1995 and will not have to wait.

Amendment explained

The Nov. 18, ballot will include one proposed constitutional amendment which, if passed, could allow the Legislature to require courts to tell criminal juries the governor can reduce sentences and grant pardons.

The present constitution authorizes the governor to grant reprieves to persons convicted of offenses against the state and, on recommendation of the Board of Pardons, to commute sentences, pardon those convicted of offenses against the state and remit fines and forfeitures imposed for such offenses.

The proposed amendment retains provisions of present constitution and additionally authorizes the legislation to enact a law to require a trial court to instruct a jury in a criminal trial that the governor may grant a reprieve, a pardon or commutation of sentence following conviction of a crime and may commute or modify a sentence of life imprisonment without benefit of parole, or may allow the release of an offender either by reducing a life imprisonment or death sentence to the time already served by the offender or by granting the offender a pardon.

Heart Risk Study set

The National Heart Attack Risk Study screening will be held from 8 a.m. to 11:45 a.m., Thursday, Nov. 16 at the South Cameron Hospital's Fitness Center. New participants are welcome.

Screening for cholesterol, glucose, and blood pressure will be done compliments of St. Patrick's Hospital. To make an appointment for screening, call Lana or Dorenda at 542-4017.

Participants should not eat for at least four hours prior to the screening.

Appointments

Several appointments were made by the Cameron Parish Police Jury at the monthly meeting Tuesday.

Sidney Theriot was appointed to the Beachfront Development District #1 board.

Jewel Peavy was named to the board of Beachfront Development District 2 to replace Russell Badon, who resigned.

The resignation of Langford Peavy from the Cameron Parish Tourism Commission was accepted.

Steve Thomas was named to the board of Gravity Drainage District 8.

Roy Nash was appointed to the Cameron Parish Communication District board to replace Calise Romero, who resigned.

Screening set

The mobile screening unit of Lake Charles Memorial Hospital will be in Cameron at Pat's Restaurant Thurs., Nov. 16, 9:30 a.m.-2 p.m. all screenings are free.

Constitutional Amendment 1 - **Would allow the Legislature to require the courts to tell criminal juries the governor can reduce sentences and grant pardons.** For ☐ Against ☐

Runoff ballot to be much shorter

Cameron Parish voters will be faced with a much smaller ballot on Nov. 18 from that of the primary election on Oct. 21 with three runoff races remaining in the parish.

In the Clerk of Court race, Carl Broussard and Cynthia "C. Anne" Primeaux King are in the runoff.

For Police Juror, District 5, incumbent Ray Conner and Malcolm Savoie are in the runoff.

For Police Juror, District 6, incumbent George W. LeBouef and Donald "Big Newt" are on the runoff ballot.

On the statewise ballot there are four runoff races:

Governor--U. S. Rep. Cleo Fields of Baton Rouge and Sen. Mike Foster of Franklin.

Lieutenant Governor--Public Service Commissioner Kathleen Blanco of Lafayette and Rep. Suzanne Krieger of Slidell.

Treasurer--Ken Duncan, Baton Rouge attorney, and Rev. Steve Theriot of Marrero.

There is also one constitutional amendment on the ballaot which would allow the Legislature to require the courts to tell criminal juries the governor can reduce sentences and grant pardons.

Absentee voting for the election is now in progress in the Registrar of Voters office in the courthouse. Voting may be done from 8:30 to 4:30 this Thursday and Friday and from 8:30 to noon Saturday.

Persons voting absentee are reminded to bring identification.

Complaints heard by jurors on roads

By GENEVA GRIFFITH

The Cameron Parish Police Jury heard complaints on the condition of the roads in two sections of the parish at their Tuesday meeting.

Roger Williams, president of the Pelican Point Association in the Big Lake area, stated:

"Eight years is a long time to wait for a decent road". Brent Nunez, the Police Juror for that area, pledged his support for blacktopping the road in the area, which is approximately one mile.

Rena Trahan and Carla Marcantel, representing the Little Chenier area, pleaded with the Police Jury to do something about the Little Chenier road which they said was tearing up their cars.

"Traffic on the road is unbelievable with workers traveling to Catfish Locks, fishermen and shrimpers in the river, hunters, camp owners and homeowners using the road," Mrs. Trahan said.

The road was built in 1938. Prior to that time the children had to go by boat through the marsh to get to school.

Hurricane Audrey in 1957 washed out all of the culverts under the roads and they were never replaced, Mrs. Trahan said.

The problem seems to be drainage, because the marsh on the north side is higher than the road and it drains down across the road washing all the shell or topping into the ditch on the south side of the road.

Douaine Conner, Police Juror from that area, promised that the problem would be rectified.

Brent Nunez stated that the single most important issue for the Police Jury for next year will be the roads. "All the parish roads built inthe 60's are falling apart", he said.

Douaine Conner said maybe the parish can get some federal help for fixing the road since the government vehicles travel over it to man Catfish Locks.

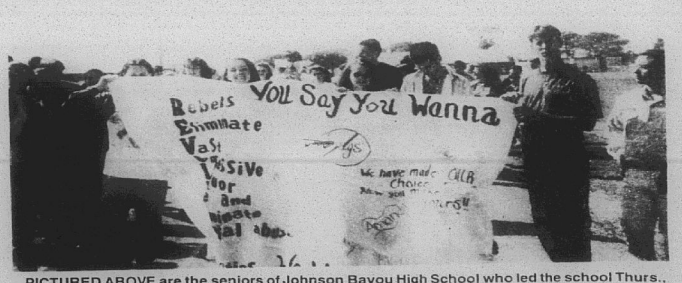
In the meantime the road will be graded weekly.

Parish bodies may get back taxes soon

By GENEVA GRIFFITH

Glenn W. Alexander, District Attorney, brought a ray of hope to the financially strapped Cameron Police Jury at their monthly meeting Tuesday.

He reported that various boat companies in 1986 started filing litigation suits on $1 million in taxes assessed to them.



They paid taxes under protest and filed suit against the Sheriff and Tax Assessor in District Court in Cameron.

Judge H. Ward Fontenot held, and the 3rd Circuit Court of Appeals in Lake Charles confirmed the ruling, that the suits were premature because the boat companies did not follow the correct procedure to protest taxes.

The $1 million has been held in escrow in an interest bearing account and is now worth $1,600,000.

The boat companies have 30 days in which to appeal to the Supreme Court, at which time the final decision will be made on the disbursement of the money.

Approximately 20 taxing districts in Cameron Parish will be involved in the final settlement of the case, Alexander said.

CARD OF THANKS

"WE THANK YOU"

Perhaps you sent a lovely card, or sat quietly in a chair; Perhaps you sent a floral piece, if so, we saw it there. Perhaps you spoke the kindest words, as any friend could say. Perhaps you were not there at all, just thought of us that day. Whatever you did to console our hearts, We THANK YOU so much, whatever the part.

We gratefully appreciate your acts of kindness during the illness and passing of our loved one, Raymond LeBlanc, Sr. Special thanks to South Cameron Hospital and Dr. Forrest, Lake Charles Memorial Hospital and Staff, Msgr. Bernard; Loston McEvers, and our many friends of the Cameron and Lake Charles area.

The LeBlanc Family,
Anna, Pearlie, Eve, Lula, Raymond, Jr., Latonya, Ashley, Ryan, and Lezame

May God forever bless you.

PRAYER TO THE BLESSED VIRGIN
(Never Known To Fail)

Oh, most beautiful flower of Mount Carmel, fruitful vine splendor of Heaven Blessed Mother of the Son of God Immaculate Virgin, assist me in my necessity, oh Star of the Sea, help me and show me herein you are my Mother, oh Holy Mary, Mother of God, Queen of Heaven and Earth, I humbly beseech you from the bottom of my heart to succor me in this necessity. There are none that can withstand your powers, oh, show me herein you are my Mother, oh, Mary conceived without sin, pray for us who have recourse to thee (three times). Holy Mother, I place this cause in your hands (three times). Holy Spirit you who solve all problems, light all roads so that I can attain my goal, you who give me the divine gift to forgive and forget all evil against me and that all instances in my life you are with me. I want in this short prayer to thank you for all things as you confirm once again that I never want to be separated from you in eternal glory. Thank you for your mercy toward me and mine. (The person says this prayer 3 consecutive days. After 3 days, the request will be granted! This prayer must be published after the favor is granted.)

Tarpons finish 3rd in district

By JOE MUELLER

The South Cameron Tarpons unleashed a strong running game as they closed out the 1995 football season with a 21-14 victory over the Welsh Greyhounds.

The Tarpons finished district play at 3-2 and they were 4-5 overall.

The fourth victory came from Pickering who were ordered to forfeit all their victories. It was discovered that the Red Devils top running back Robert Williams was too old and the Louisiana State High School Athletic Association leader Tommy Henry ordered the Pickering school to forfeit. They also were fined $200 and are on probation.

The Tarpons scored first as Jared Savoie scored on a 25-yard run in the opening quarter. Shawn Duffey hit the extra point and the Tarpons were up 7-0 after one quarter.

The South Cameron team increased the margin to 14-0 at halftime as Savoie scored on a 3-yard run. Duffey converted the extra point.

In the third quarter the Greyhounds cut the margin to 14-6 as the Welsh quarterback scored on a one-yard run. The extra point kick failed.

Later in the third quarter the Tarpons extended the lead to 21-6 as Brandon Conner scored from the 2. The run from Conner culminated a 68-yard drive.

Late in the third quarter Welsh cut the margin to 21-14 as Eric Troutman hit Nathaniel Celestine on a 44 yard touchdown pass. Troutman hit Jason Thorne with a pass for the extra points.

The Tarpon defense picked off three Welsh passes and limited the Greyhound ground game to only 67 rushing yards.

South Cameron's top rushers were Jared Savoie with 128 yards and Brandon Conner with 119 yards.

The representatives from District 6AA in the state playoffs are district champ Notre Dame, runner-up Lake Arthur, and Welsh, who gained a wild card entry.

The wild cards are selected strictly on power points, so even though the Tarpons finished third in district compared to the Greyhounds fourth place finish, the Welsh team had a higher power rating.

The fact that Pickering had to forfeit all its wins helped both South Cameron and Welsh in the power ratings.

Playoffs set

District 6AA will have three representatives in the state football playoffs.

District champ Notre Dame will open at home against wild card Vinton from District 5AA.

District runner-up Lake Arthur will host Northeast, the second place team from District 8.

Welsh was the only team from District 6AA to receive a wild card and they will travel to DeQuincy to face the tigers who are District 5AA champions.

Basketball

Area basketball scores are as follows:

Fairview 72,
Grand Lake 52

Fairview raised their season record to 7-2 as they handed Grand Lake a 72-52 loss.

Neil Kiser scored 16 and Jeff Drounett 13 for the Hornets.

Fairview 36,
Grand Lake 14

Laura Cox was the leading scorer with 6 points as the Lady Hornets lost 36-14 to Fairview.

Hathaway 41,
Grand Lake 23

The Grand Lake Lady Hornets saw their record fall to 2-6 as they lost 41-23 to Hathaway. Marilyn LeJune led the Hornet scorers with 8 points.

Food Fest to be held 12th at Big Lake

The St. Mary of the Lake annual fall food festival will be held Sun., Nov. 12, 9 a.m. until on the St. Mary of the Lake Catholic Church grounds at Big Lake.

It will include food, games, music, auction and a country store.

A tent and additional seating will be provided at this year's festival.

Jury approves permits

Several permits were approved by the Cameron Parish Police Jury at the monthly meeting Tuesday.

Drilling permits were approved for Texas Meridian in the Cameron area and Fina Oil in the Holly Beach area. Flowline permits were approved for Amoco at West Hackberry and MW Petroleum at Grand Chenier.

The La. Dept. of Transportation permit for nine new bridges was approved. The bridges will be on Hwy. 27 between Hackberry and Holly Beach and between Creole and Gibbstown.

A permit to close a pond was OKed for Trident NGL.

A liquor permit was approved for Dupont & Trahan Enterprises, Inc. for the establishment formerly known as Fredman's Package Liquor at Creole.

DUCK, GOOSE SEASON
Area hunters are putting the finishing touches on their duck blinds and putting out decoys for opening day this Saturday, Nov. 11, opening of the first split of the 1995-96 season for ducks, coots, geese, rails, gallinules. Snipe season opened on Nov. 4.
There are quite a few ducks in our area, and the reports I've received show they are more plentiful in the Johnson Bayou area and the western Creole marshes toward Sabine Refuge. The cold spell will surely help, but water is still a problem in some of our marshes.
The dove hunting has slowed down quite a bit, but still a few being killed in the area.

FISHING NEWS
Speckle trout fishing as well as redfish are still hitting and some nice reds are being taken up to 28 to 30 inches, not much to report on bass fishing.

COMMERCIAL FISHING NEWS
A Mississippi shrimp boat was boarded by the U.S. Coast Guard near Venice, La. The turtle excluder was sewn shut, which is a violation. Over 1300 pounds of shrimp were seized.
The gill net law is in its first few months and is really being challenged by our commercial fishermen across Louisiana.
A Chauvin fisherman was arrested the first week under the new law and is going to fight it in court. This could be a test to really see what penalties will be assessed.
In St. Bernard parish last week a protest of the new restrictions on the use of gill nets brought the

Great American Smokeout is set Thurs., Nov. 16

The American Cancer Society's Great American Smokeout is the day each year when smokers and non-smokers alike commit to keeping our society and our children smoke-free.

To that end, adults across the nation will be packing up their cigarettes and other tobacco products for the day on Thurs., Nov. 16. For "hooked" smokers, Smokeout is a day to prove to themselves that they can quit. For teenagers and children, Smokeout is a day to work toward a better, healthier, smoke-free environment.

In previous years, participation among smokers in the Great American Smokeout has been more than 20%. The American Cancer Society expects nearly 10 million to participate in the 1995 Great American Smokeout through community, business, and school Smokeout programs.

Nonsmokers can join in the fun by adopting family members, friends, or co-workers and helping them quit for the day. Students across the nation will join the Great American SmokeScream to help draw attention to the reasons youth shouldn't start smoking in the first place.

Account One

(we got it).

Yes. We really have it, and it's exclusively available to you at Calcasieu Marine: a single account replacing all others, paying great interest rates on your account balance, with **no fees or charges** when the account balance minimum of $7,500 is maintained.

No more checking account and savings account at a bank, money market account to earn deposit interest from some brokerage firm, and CDs somewhere else, to boot. A single account, with a consolidated monthly statement, that does it all.

Your account is accessible to the max: by check, ATM, account transfers, ACH deposits/debits, and through CMNB's current debit card program.

Charges?

Just maintain the $7,500.00 account balance minimum, and you **will be charged nothing**: no annual fee, no monthly service charge, no transaction fees, no per-check or check-printing charge (with our wallet-style corporate image checks), no fee for Travelers' Checks or Stop Payment service, and no overdrafts.

The end of complicated personal money management.

Account Balance	Annual Percentage Yield
$50,000.00 +	5.28%
$15,000.00 – $49,999.99	4.76%
$7,500.00 – $14,999.99	3.72%

Rates*may change after the account is opened, adjusted weekly to the 30-Day U.S. Treasury Bill asked rate, and rates shown are effective October 24, 1995. The account minimum is $7,500, and interest is not earned on lesser amounts. If the balance falls below $7,500, fees imposed could reduce earnings. Interest is earned on the entire account balance at the highest qualifying rate. The account is for individuals only.

Johnny Savoie

Run election to be held Sat.

Cameron Parish voters will find three parish races and three state races, plus a constitutional amendment, on the ballot when they go to the polls Saturday to vote in the runoff election.

One parishwide race remains on the ballot with Carl Broussard and Cynthia Primeaux King seeking the clerk of court's position which becomes open with the retirement of the present clerk, Debbie Theriot.

Two of the present police jurors are in runoffs with challengers--Ray Conner, incumbent, vs. Malcolm Savoie in District 6, and George LeBouef, incumbent, vs. Donald January, Jr. in District 5.

In the state races, Cleo Fields and Mike Foster are in the runoff for governor; Kathleen Blanco and Suzanne Krieger are seeking the lieutenant governor's post; and Ken Duncan and Steve Theriot are running for treasurer.

The single constitutional amendment on the ballot would permit the Legislature to require the courts to tell criminal juries the governor can reduce sentences and grant pardons.

Savoie will be ordained priest

By GENEVA GRIFFITH

The ordination of Johnny Shannon Savoie of Creole, into the Catholic priesthood will be held Saturday, Nov. 18, at 10 a.m. in the Cathedral of the Immaculate Conception in Mobile, Ala. The Most Rev. Oscar Lipscomb, Archbishop of Mobile will officiate.

Sun., Nov. 19, Father Savoie will offer a Mass of Thanksgiving in his home parish Church of the Sacred Heart in Creole at 10:30 a.m.

He will be assisted by the pastor, Msgr. M. J. Bernard; Fr. Stan Klores, theology professor at Notre Dame Seminary in New Orleans; and Fr. Pat Kujawa, a classmate, who will be the homilist. Serving as deacons will be Bro. Albert Terrillion and Bro. Greg Ross, O.C.D., also classmates.

Masters of ceremonies will be John Cayer and John Andries. Lectors will be Reina Trahan and Cathy Nunez. Mass servers are Chad Portie, Derek Bertrand and Joshua Dahlen.

The choir will include seminarians and members of the Sacred Heart choir, conducted by Keith Pellerin and Paul Lapalm, organist.

The gift bearers will be Hope and Chance Savoie.

A public reception in the Catholic Life Center will be hosted by the Parish Council, chaired by Nelvia Murphy.

Savoie is the son of James Jerry and Margaret (Rutherford) Savoie. He attended South Cameron High School, where he was class salutatorian; studied veterinarian medicine at McNeese State University; received his B.A. in philosophy at St. Joseph Seminary; studied theology at St. Charles Borromeo Seminary in Philadelphia and received his Masters in Divinity from Notre Dame Seminary.

He taught at McGill-Toolen Catholic High School in Mobile in 1991. He was a United States Air Force Reserve Chaplain from 1992 to the present, and was assigned to training at Maxwell AFB, Montgomery, Ala.; temporary duty at Eglin AFB, Florida; temporary duty at Peterson AFB, Colorado; and Clinical Pastorial Education at Walter Reed Army Medical Center, Washington, D. C.

Ambulance is located in Cameron

The Cameron Parish Police Jury has approved an agreement between the Cameron Fire District 1 and the Ambulance District 1 to allow an ambulance to be located at the Cameron fire station to serve the town of Cameron. The ambulance was expected to be in place this week.

In other business, the jury approved advertisement for bids on the Christmas Tree Project. The parish received a state grant of $18,000 to fund the project, up from $10,000 last year.

The project consists of collecting used Christmas trees in Cameron and Calcasieu parishes after the holidays and placing these in various places in the marsh to help prevent erosion.

At the request of Juror Douaine Conner, the jury approved writing a letter asking the highway department to cut rather than spray the grass along La. 82. Conner said the killing of the grass is causing erosion problems along the road.

The jury also approved a resolution honoring the late Raymond LeBlanc of Creole who had served as a commissioner for Waterworks District 7.

Jurors also agreed to ask the state to revise the saltwater line to include the Mermentau River north to the Catfish Locks. Under the new commercial mullet law, mullet fishermen can only use their nets in saltwater.

Hay bale is work of art

By GENEVA GRIFFITH

When the Creole cowboys see a bale of round hay they see a meal for their cattle, but when Madelyn Gaspar sees one she envisions a work of art.

Madelyn and her husband, Joe, retired educators, have chosen a camp in the Rutherford Beach community for their retirement home.

When the couple spied the local ranchers baling their round bales, Madelyn suddenly saw the body of a giant turkey in the making.

She designed a tail, head, and wings and her husband cut it out of 1/4 inch plywood. Madelyn painted it, and they erected it on a platform in their yard around a bale of hay a local cowboy delivered.

Budget impasse closes refuges

Due to the lapse of appropriations for government agencies, the U. S. Fish and Wildlife Ervice closed the three national wildlife refuges in Cameron Parish Wednesday morning. Sabine, Lacassine and Cameron Prairie refuges will be closed to the public until federal funding is made available.

This is a total shutdown of all facilities and progams, including waterfowl hunting, fishing, landings, visitor centers, nature trails, nature drives, etc. All three refuges will be totally closed to all public access.

People who use these refuges are advised to monitor their local media to find out when a continuing resolution is enacted and government business will be resumed.

Hunters planning on being in the marshes of Lacassine or Sabine National Wildlife Refuges should make other plans. Both refuge waterfowl hunts have been closed due to the lapse of appropriations for government agencies. Hunters should monitor their local media to find out when government activities will reaume.

Area funds approved

Congressman Jimmy Hayes announced the signing of a spending bill which contains funding for several projects important to southwestern Louisiana, including appropriations for the Lake Charles Ship Channel By-Pass and General Anchorage Area, the Army Corps of Engineers' studies to reduce flooding and improve navigation in Lafayette and Calcasieu Parishes, and possible oil spill research at McNeese State University. President Clinton signed the Fiscal Year 1996 Energy and Water Appropriations Conference Report on Nov. 13.

The House passed the Energy and Water Appropriations Conference Report by a margin of 402-24 on Oct. 31. Projects in the bill that will benefit southwestern Louisiana include:

$587,000 for a Lake Charles Ship Channel, By-Pass and General Anchorage Area study, of which $540,000 is to be used to investigate the feasibility of improving navigability through the development of a support service facility for the Calcasieu Ship Channel at Hackberry.

$4,095,000 for continued operations and maintenance of a project to prevent salt water intrusion and to improve navigation from the Gulf of Mexico to Lake Charles Harbor.

$1,659,000 for continuation of a navigation project at Freshwater Bayou.

$34,000 for a study investigating measures to prevent flooding of residential, commercial, and industrial properties in flood prone areas of Lafayette Parish in the Vermilion River Basin.

$850,000 for oil spill research, for which McNeese State is well positioned to compete because of its strong leadership in environmental research, remediation and restoration.

1995 fish license due

Qualified applicants wishing to buy 1995 commercial fishing licenses will have until Dec. 31, 1995. Previously, the sale of "present year" licenses ceased on Nov. 14, when "next year" renewals were mailed.

1996 commercial licenses cannot be issued over the counter prior to the close of the 1995 license year. Applications for 1996 licenses can be made at any time after Nov. 14, with licenses mailed to applicants prior to Jan. 1, 1996.

Licensees are reminded that the period Jan. 1 through Dec. 31, constitutes the commercial license year. 1996 licenses issued before the end of 1995 will not be valid until Jan. 1, 1996.

Anyone having information leading to the arrest or conviction of persons involved in this crime is asked to call Cameron Parish Crime Stoppers at 775-7867. A reward of up to $1,000 is offered for this information. You do not have to give your name, a code number will be assigned to you.

Hospital opens addition

By GENEVA GRIFFITH

Joe Soileau, administrator of the South Cameron Memorial Hospital, has announced the opening of the hospital's newest addition, Calcasieu Oaks, located at 2837 Ernest St., Lake Charles. The grand opening was held Wednesday of last week.

Calcasieu Oaks of South Cameron Hospital will shelter persons who are suffering from emotional and behavioral disorders.

As the first full geriatric psychiatric facility in the area, Calcasieu Oaks provides short term, acute care to residents of Calcasieu, Cameron, Jeff Davis, Allen, Beauregard, Vernon parishes and elsewhere.

Specifically designed and staffed for the special needs of the aging community, Calcasieu Oaks offers a full spectrum of treatment programs for inpatient to partial day service to referrals for home health psychiatric services for patients age 55 and older.

Those 55 and older who are experiencing severe anxiety, mood disturbances, and behavioral problems associated with early Alzheimer's and other dementias or who suffer from substance abuse, emotional disorders or long-term psychiatric illnesses are candidates for admission at Calcasieu Oaks.

Free assessments by mental health professionals of Calcasieu Oaks are provided and representatives available to conduct evaluations at other locations through a physican's order.

Patients receive a full medical work-up and physical, including blood work and x-rays as needed.

Blood work, x-rays, housekeeping, dietary and nutritional services are provided by Lake Charles Memorial Hospital.

IF YOU HAVE been wondering what are the tent-like structures in the south marsh on Troclair Road (Front Ridge), they are part of a federal project being carried out by the La. Dept. of Wildlife & Fisheries to capture insects on the deer nut plants for an experiment. (Photo by Geneva Griffith.)

VOTE FOR AND ELECT #91

Cynthia "C. Anne"

KING

CAMERON CLERK OF COURT

#91

TO THE PEOPLE OF CAMERON PARISH:

I am asking you once again for your vote this Saturday.

I have been told that I am not a good politician. I do not claim to be a "good" politician. What I am is a hard working, caring, experienced, dependable employee of the Clerk of Court's office. I feel that this is an asset to the people of Cameron Parish. I have devoted many years to the Clerk's office and to you the people of this parish.

During the past seven months I have made many attempts to see and talk to each of you. I have a full time job at the Clerk of Court's office. My duties now include the elections, juries, and accounts payable departments, to name a few.

I have used time after work, on weekends and my vacation to campaign. I have found most of you at home and was able to meet you and your families to discuss the Clerk's office and let you know exacly what I do in the office and my knowledge, merits and experience, as a Certified Deputy Clerk of Court, concerning the operation of the clerk's office. To the people that I have missed, I want to let you know some facts about the Clerk's office.

The Clerk's office is funded by monies generated by the office itself, and does not receive any monies from bond issues, trust funds, or ad valorem taxes. All salaries, office supplies and office expenses are paid for by the Clerk of Court from funds received from filing fees, copies, and all other operations of the office. There are no parish taxes that fund our office. This office receives only a small budget from the Police Jury to purchase books, maintain, and lease office equipment, which is necessary to maintain the public records, and is in accordance with Louisiana Revised Statutes.

All fees collected are listed in the Louisiana Revised Statutes and can be amended by the Legislature. All costs that are paid, including civil fees, are done so in accordance with and when a signed court order is received. Some funds that are disputed in court cases are held in registry accounts and are paid when we are ordered by the Judge and with a court order to do so.

Recently I have been questioned concerning office time. The Clerk of Court's office is the only office in the courthouse that has to use a time clock. All employees, including myself, are allocated vacation and sick leave based upon office policies and procedures; and when not in the office, are docked for time used. The Clerk's office hours are 8:30 a.m.-4:30 p.m., set by the Legislature in the Revised Statutes.

The salary of the Clerk, just as any elected official, is set by the La. State Legislature and is based upon population. The Clerk of Court of Cameron Parish is the lowest paid Clerk in the State of Louisiana.

The Clerk of Court is the chief election official for Cameron Parish. The office is responsible for each election in the parish. I hold classes of instruction for persons who wish to work as commissioners at polls for elections. The Clerk's office appoints deputy custodians of voting machines throughout the parish. I see to it that voting machines are delivered to voting precincts and returned to the warehouse during elections and that commissioners and deputy custodians are notified and paid timely. Problems or malfunctions with any voting machines are attended to by the La. Dept. of Elections in Baton Rouge. During elections, the Clerk's office has a direct line to the Secretary of State office via computer.

The Clerk of Court's office has minute clerks that record and maintain minutes of civil and criminal court sessions. We issue oaths and assist the judicial system in our parish. The Civil Department of the office files suits, answers, issues summons, and keeps accounts of all records and pleadings filed. We prepare cases for appeals and deliver cases to the 3rd Circuit Court of Appeals. This office also files personal small claims suits, processes and signs orders, and many other services which are too numerous to name. Civil Court is held on Mondays, Wednesdays and Thursdays. When funds are received and are available we issue payments to the Judge, Court Reporter, Sheriff, witnesses and Clerk as ordered by the Court, according to judgments and dismissals. This is done every two weeks by computer.

There are many civil fees that are not paid by individuals or their attorneys once a suit is completed. Our office has been recently litigated for fees that have not been paid by our office. Until our office receives payment in a civil suit, we are not able to pay anyone for their fees. This suit against the Clerk's office is one of a kind. There has never been a suit of this kind filed against this office until now. The outstanding debts in question have been known about since before I began working at the Clerk's office in 1978. In order to collect on these suits, the Clerk's office will have to file suit against each party which the court system has ordered to pay for the cost. There are hundreds of these suits. Our office cannot afford to file suit on every one. As a public office, we have been working with some of these people to pay on their debts monthly. Some people do pay timely, but just like any other business, there are some people that just do not pay their debts.

In the criminal department a minute clerk attends criminal court including arraignments, hearings, and trials to record the minutes. This department maintains minutes of court, files indictments, attends to Grand Jury sessions, issues criminal searches, issues summons to criminal court witnesses, and pays witnesses. Criminal court is held on Tuesdays and Thursdays.

Time is allocated each month for civil and criminal jury trials. Juries for these trials are selected each month by a board of jury commissioners from throughout the parish. The Grand Jury is selected annually and is summoned by the Clerk'soffice as needed or requested by the District Attorney. The juries are selected from pools which consist of driver's license lists, mailing lists from electric companies, and voter's registrations. We issue summons, manage the jury system, and pay jurors according to the law set out in the Revised Statutes. Records are maintained for all juries.

The Clerk's office also files and maintains adoptions, NPO orders, juvenile matters, and orders for judicial commitments. All of these matters are closed, confidential files and are not open for public review.

Because of the small size of our office, some reports and financial statements are prepared by outside contract. This manner of checks and balances was ordered by the Louisiana auditor in order to meet the requirements of the audit and generally accepted accounting practices.

Beginning in January 1994, the Clerk of Court's office began to convert each department to a network computer system. I know that we are one of the last offices in the state to do this. We are, at this time, still in the process of transferring records to the system and plan to continue to update our record maintenance system for the future.

The conveyance, mortgage, and filing department of the Clerk's office is the final department I will discuss. I have also been questioned about indexing and microfilming. I know that most of you know the saying about wearing others shoes and walking 5 miles in them. This department handles not only indexing and microfilming of each instrument that is filed in the entire office; but files, invoices, records, certifies, and makes copies of such types of work as deeds, oil, gas and mineral leases, land leases, rights-or-way, contracts, mortgages, lien affidavits, and many more types that are too numerous to mention. This department is also responsible for public aid, in the form of oaths, discharge records, vehicle transfers, record research, boat transfers, other notary acts, and any form of assistance that can be given to the people of Cameron Parish. We issue mortgage and cancellation certificates as required and requested. We are one of the few offices in the state that allows open accounts and invoicing.

We as employees are salaried, therefore, we do not get overtime pay; with the exception of minute clerks of court sessions. We punch a time clock, as a rule. When necessary, we work during our lunch break, come in early or stay late. Myself and the entire office devotes special attention to the handicapped, elderly, and citizens of our parish that have a need. The employees of the Clerk's office give assistance to YOU, the hard working people of Cameron Parish, because this is YOUR office.

I can actually say that I have worked and have many years experience in each and every one of these departments and areas within the operation of the Clerk's office. I have assisted many people with their family trees, land searches, mortgage certificate searches, mortgages, cancellations, marriage licenses, notary assistance, civil filings, summoning of witnesses, notices for eviction, and all questions throughout the elections and jury processes.

I have worked under two (previous) Clerk's of Court and with many elected officials over the years. I have seen Cameron Parish flourish in the 70's, dwindle in the 80's, and grow, change, and adapt in the 90's. I now hope that you the people of Cameron Parish will allow me the opportunity to serve you as your Clerk of Court. If you elect me, I can assure you that this office will continue to provide the many quality services that you are accustomed to with expertise and full knowledge and, at the same time grow, thrive, improve, and build for our future and coming generations. Give me the opportunity to prove myself to you as your Clerk of Court.

Thanking each of you for your vote. May God Bless Each Of You.

Sincerely,

C'Anne

Grand Lake High School News

MYSTERIOUS BENEFACTOR

PTA members received a pleasant surprise this week when a Cameron Parish resident anonymously donated $200 to the Grand Lake PTA. In a note which accompanied the money, the unknown donor wrote: "I am retired on a fixed income . . . I am not rich, but as the result of a good education my life has been interesting and rewarding. . . . Please accept this $200 for my appreciation for all your efforts for the betterment of education at this school."

HOLIDAY

There will be no school from Nov. 20-24 in observance of Thanksgiving.

PTA MEETING

The next PTA meeting is scheduled for Feb. 12, at 6:30 p.m. Child care will be provided.

HOMEWORK HOTLINE

The phone numbers to reach the Homework Hotline are as follows:Grades K-4, 598-2231; 5-8, 598-2056; and 9-12, 598-3473. Open line after 3:30 p.m., 598-2986.

KROGER RECEIPTS

PTA President Phyllis Poole reminds everyone to continue sending in their Kroger receipts. The school will continue to collect receipts for another contest to be held in January. Particiating classes are earning the school money from the Kroger Tapes for Tools program.

ELECT **CARL** #90 **BROUSSARD**

CLERK OF COURT

DEAR CAMERON PARISH RESIDENTS:

I have done my best during this campaign to meet and visit with each of you to discuss my qualifications for the office of Clerk of Court. If I have missed you, I apologize.

As I have stressed to each of you, my 18 years as an abstractor in the Cameron Parish Clark of Court's Office (and many other Clerk's Offices statewide) and my 8 years as a Cameron Parish Notary Public have given me the EXPERIENCE and KNOWLEDGE necessary to run your Clerk of Court's Office and be the caretaker of public records. When elected, I will no longer be an abstractor, I will be YOUR Clerk of Court serving your needs in the capacity to the best of my ability.

I am an INDEPENDENT CANDIDATE running on MY OWN MERITS, KNOWLEDGE, EXPERIENCE, and STRONG WORK ETHIC.

I pledge when elected to run YOUR Clerk of Court's Office in a FRIENDLY, COURTEOUS, PROFESSIONAL and EFFICIENT MANNER, in a way that all Cameron Parish residents will be proud of. I pledge to work with all public agencies and bodies to help bring Cameron Parish into the 21st Century.

I strongly urge each of you to exercise your right as an American to vote.

I would also like to thank each of you for giving me such a warm reception and for welcoming me into your homes to let me express my desire to serve as your next Clerk of Court.

In closing I am asking for your VOTE to help ELECT me as your new NEW CHOICE for Clerk of Court on this Saturday, November 18th, 1995.

THANK YOU FOR YOUR SUPPORT

CARL BROUSSARD - #90

AS YOUR NEXT CLERK OF COURT

STUDENT COUNCIL

Cameron Elementary Student Council held their second meeting Nov. 10. Mrs. Rutherford talked about things the group could do for Thanksgiving. It was decided to do the turkey shoot. In October, the group held a costume contest for Pre-K-3 and a pumpkin contest for grades 4-7.

Officers are: Louis Hebert, president; Lynn Nguyen, vice-president; Thomas Johnston, treasurer; Chelsie Clark, reporter.

UNITED PARTNERS TO MEET

Cameron Elementary's parent group, known as United Partners, will hold a meeting Thurs., Nov. 16, at 5 p.m. in the school library. The group meets every six weeks.

Some of the items discussed at the last meeting include Santa's Secret Shop, the homework hotline number, ice cream party for honor roll students, Kroger Tapes for Tools.

All parents, grandparents and interested community members are encouraged to attend.

SCHOOL DANCE

The 7th grade class is sponsoring a dance Fri., Nov. 17, from 7-11 p.m. at the school gym for grades K-12. Admission is $2. Music will be provided by Cory Kelley.

NAACP Pageant contestants

NAACP Pageant to be held here Saturday

The 17th annual Cameron NAACP Pageant will be held at 7 p.m., Saturday, Nov. 18 at the Front Ridge Community Center.

Pageant participants in addition to those previously named are Sarah Shenette Young, Ashlyn Benoit, Brittany Fountain, Karisha Patrice Ellison, Rachael Shantelle Ellison and Chloe Mims.

Cheryl LaSalle will be mistress of ceremonies; Charles Cole, narrator; and Mary Cockrell, judge.

Everyone is invited to attend. Admission will be $3 for adults and $1 for children. Evangelist Warren Reed will be speaker at a rally after the pageant.

For more information call Louise Cole at 775-5240 or Mary Cockrell at 775-8167.

Students are 'Good Citizens'

Lauren Broussard of Sulphur high school and Lori Bankens of Westlake high school were recently named the Calcasieu-Cameron bi-parish winners in the Good Citizen Contest sponsored by the Calcasieu Chapter of the Daughters of the American Revolution.

Cameron parish participants in the contest were:

Johnson Bayou high--Melinda Ann Harrington, daughter of Jimmie and Judy Harrington.

Grand Lake high--Alyson Briggs, daughter of Samuel and Pamela Briggs.

South Cameron high--Amanda Johnson, daughter of Mr. and Mrs. Ron Johnson.

Many children ride to school on the bus. Maintaining roads and bridges makes their travel safer and is an investment in America's future.

Hearing set here on treatment facility

A public hearing on a permit application by an oilfield waste treatment company will be held at 6:30 p.m. Thurs., Nov. 30, in the Cameron Parish Police Jury Annex.

Ambar Inc. of Lafayette has applied for a permanent permit to build and operate a facility to process and store non-hazardous oilfield waste.

Ambar has been operating at its Wakefield Road site under a temorary permit.

The application is available for inspection by contacting Pierre Catrou, Office of Conservation, Injection and Mining Division, 625 North Fourth Street, Baton Rouge, or by contacting the Police Jury office.

★ RE-ELECT #98 ★
RAY CONNER
POLICE JUROR - DISTRICT FIVE

TO THE VOTERS OF DISTRICT FIVE. . .

District Five is a very poor district. By that I mean that there is very little assessment to collect taxes from in this district. (example: 1 mill in the Creole district is valued at $4,300 and 1 mill in the Johnson Bayou District is valued at $24,630.) Even though there is a low assessment, the Creole District is not doing without a recreation facility, a water system, an ambulance service, a hospital facility, garbage pickup and collection site, mosquito control, drainage, fire protection, 911 services, passable roads, aging services, (elderly meals, legal services, IRS assistance) and Community Action Agency services, (Head Start, transportation service, and weatherization program). These services are provided at no cost to the many homestead exempt residents in district five.

I have fought to keep these services for you. I serve on the Community Action Agency Board and I have represented the elderly in Cameron Parish on the Council on Aging Board since its inception and have represented the elderly in Baton Rouge as their Silver Haired Legislator.

Cameron Parish has many tough issues facing them in the future. We have had to address wetland issues, mitigation issues, FEMA issues and elevation requirements, sewage requirements, environmental regulations concerning garbage, and permitting requirements. All of these issues are on the state and federal level of government. I have represented you at meetings held in Baton Rouge, Lafayette, and Washington, D.C. to make sure that our voice was heard.

I currently serve on: the State Police Jury Association Environmental Committee, the Treasurer of the Southwest Louisiana Integrated Solid Waste Management Authority, and the National Association of Counties Health and Human Resources Committee. I have served as president of the Cameron Parish Police Jury three times. My record on issues and experience working for the people has helped all the residents in this district. I have enjoyed working for you. Please allow me to continue to do my job for you. Thank you for welcoming me into your homes during this election and I want to thank my opponent for running a clean race.

Thank You,

Ray Conner

CAMERON OUTDOORS — By Loston McEvers

A plug for Joe!

NEW GOVERNOR

We will elect a new governor this weekend, and as new governors take over they usually appoint a new secretary for our state wildlife and fisheries. We've had some good secretaries in the past but we've also had some bad ones.

Today I'd like to talk a little about our present Secretary Joe L. Herring. Joe, as I'll call him because he's a friend, not only serves as secretary, but has worked for the Department of Wildlife and Fisheries for the past 30 years.

Joe has worked hard and with many heads of the wildlife department in the past years. He has worked hard for all of us including fishermen, hunters, bird watchers, nature photographers, alligator and fur trappers and campers. He kept up with the tradition of "Sportsman's Paradise", leaving our habitat in fairly good shap, plus wildlife management areas and even new lands acquired in good shape. Our fisheries management is in full swing and research still goes on.

Joe has made the general public aware of our environment and helped restore and make our land more valuable to wildlife. Always remember it is left up to us to hold on and let our wildlife department know we want to continue to protect and take care of our wild habitat of the state.

DUCK HUNTING OPENS

Our duck, coot, and goose season opened last weekend and most of our marshes were blessed with enough rain to help out but still some marshes are a little low.

A great number of combinations of birds are down and most birds did well and as always some better, some worse. I do know some marshes have more of a population of ducks as of this writing.

If any of you have passed on Highway 14 from Hacketts Corner going north, you can see the large flocks of snow and blue geese in the Sweet Lake area and the larger flocks towards Holmwood.

We also have way more coots down than we did last year and I think it can only get better.

FISHING

Saltwater fishing has slowed down a little, as the rains have taken effect. Rough seas have kept most of the offshore anglers to inland waters. Big Lake still doing good.

Shrimping was still good as of last week, and I'm sure they're heading out to the Gulf as freshwater comes down from north of us.

Remember, from now on, before you purchase a saltwater license, you will have to buy a $3 stamp-license, which is to help buy back the nets, ect. for commercial fishermen.

FISHERMEN PROTESTS

Commercial fishermen have again protested on the eastern part of the state, up to Venice. They are blocking boats from going to their favorite boat launches. I know how they feel, but I think the protest should be done in Baton Rouge and not hurt 90 percent of the recreatin fishermen that didn't hurt them, plus some of their own people who couldn't launch. There are many of us who don't belong to the GCCA and are on the commercial people's side.

This has also caused many boat launches to close, as they're not taking sides and don't want trouble. There were some arrests made because of drunkeness and refusing to clear roadways.

Some out of state bass clubs who had bought out-of-state licenses and had motel rooms had to cancel out. These folks spend lots of dollars in our state, but I'm sure they won't be back.

Now another protest is suppose to take place in St. Bernard Parish, along roads leading to boat launches. They will not try to stop recreational fishermen, but will give out bags of bait shrimp and literature to those who go to launch. This is done to smooth things out and ease tension for those who do not believe in the new gill net law. If this is done, in this way, hats off to our commercial fishermen, realizing not everyone is against them.

Mike Foster is the state's Governor

Mike Foster, the conservative Republican known by few voters, won the Louisiana governor's race Saturday as everyone but his opponent's diehard supporters had predicted.

Congressman Cleo Fields had hoped to become Louisiana's first elected black governor.

Fields served notice that at 32, he has time to eventually get to the governor's chair. "One day things will work out," he said.

With 99 percent of the vote reported, Foster had 972,882 votes or 64 percent to Fields' 554,993 — 36 percent.

"With this kind of mandate, I'm going to try to do it — a referendum on whether we will keep gambling, a constitutional amendment to give the voters the right to place issues on the ballot, do the budget better and dedicate funds to higher education," said Foster.

"This was about conservatism," he said of the campaign.

Political analysts said that even if Fields had been white, his liberal Democratic voting record would have been enough to put Foster in the governor's chair.

Two polls earlier this week showed Foster anywhere from 16 to 20 points in the lead with voters split along racial lines. Of the state's 4.3 million people, one third are black. Of the registered voters 26 percent are black.

Fields was unable to brush off his voting record of being for gun control, affirmative action, government set aside contracts for minorities, and being opposed to the death penalty.

Foster, tracking the views of the majority of whites, backs legislation to allow citizens to carry concealed weapons, wants to do away with affirmative action, set asides and defends the death penalty.

Both agreed that Louisiana needs to spend more on education and must take care of the health needs of the poor in the Medicaid program.

In the campaign, they were somber and without charisma in a state where governor's races have a history of fireworks, personalities and skeletons in the closets.

Foster, at 65, said Fields is too young and inexperienced to run a $12 billion state government.

Vice President Al Gore, who flew to New Orleans for a Thursday campaign stop for Fields, said 32 is the age at which Clinton became governor of Arkansas.

Blanco wins Lt. Gov. seat

Democrat Kathleen Blanco defeated Republican Suzanne Krieger in Saturday's runoff for lieutenant governor.

Blanco led all night. With 84 percent of the vote tallied, she had 66 percent to 34 percent for Krieger. Blanco, a Democratic member of the utility-regulating Public Service Commission from Lafayette, came close last month to winning without a runoff. she picked up 44 percent of the vote among 11 candidates.

Krieger, a one-term Republican state representative, edged into the runoff with about 14 percent of the vote.

Duncan is state treasurer

Attorney-businessman Ken Duncan beat State Rep. Steve Theriot in Saturday's runoff for state treasurer.

Duncan led all night. With 99 percent of the precincts reporting, he had 785,948 votes, or 57 percent of the total, to 602,192, or 43 percent, for Theriot.

"I don't need thi job but I do want it," Duncan said. He said his private business brings in substantially more than the treasurer's $85,000-a-year salary. "The only thing I want out of this job is for, four years from now, that my family and friends will be proud of what I've done."

The two Democrats staged a mudslinging runoff campaign for the jobs, which is responsible for receiving, investing and dispensing state funds.

Broussard, Savoie and LeBoeuf win local seats in election

Cameron Parish voters elected Carl Broussard their new clerk of court on Saturday and seated Malcolm Savoie and George LeBoeuf on the Police Jury.

In complete but unofficial returns from Cameron Parish Clerk of Court Debbie Theriot, about 3,781 of the parish's 6,459 registered voters, or 59 percent, went to the polls.

In the Clerk of Court's race, Broussard captured 1,991 votes while Cynthia "C-Ann& Primeaux King got 1,884 votes.

In the Police Jury District 5 race, challenger Savoie got 331 votes while incumbent Ray Conner got 309 votes.

In the Police Jury District 6 race, the vote was 394 for incumbent LeBouef and 319 for Donald "Big Newt" January Sr.

Here is how Cameron Parish voted in the statewide election:

Governor: Mike Foster, 2,905; Cleo Fields, 854.

Lt. Governor: Kathleen Babineaux Blanco, 2,921; Suzanne Krieger, 860.

Treasurer: Steve Theriot, 1,928; Ken Duncan, 1,811.

Cameron Parish voted 1,690-1,337 for Constitutional Amendment No. 1. It requires judges to instruct criminal juries, after conviction of a crime or sentencing, that the governor has the authority to grant reprieves, pardons or commutation of sentence.

Meeting set

One of three public meetings being held around the state to discuss coastal wetlands conservation will be held at 7 p.m., Tuesday, Nov. 28, in the Cameron Police Jury Annex building in Cameron. This meeting will emphasize projects in the Mermentau and Calcasieu-Sabine basins.

Sponsored by the Louisiana Coastal Wetlands Conservation and Restoration Authority, the meetings are being held to receive comments on the 1996-97 Louisiana Coastal Wetlands Conservation and Restortion Plan. All interested persons are invited to attend.

Refuges are open for hunting and fishing here

With the passing of a continuing resolution to reopen the federal government, the Lacassine National Wildlife Refuge has reopened for public use including the waterfowl hunt. Hunting is permitted in the part of the refuge south of the Intracoastal Waterway until noon each day, Wednesda through Sunday during the state duck season for the Western Zone. No hunting is allowed on the refuge on Mondays and Tuesdays.

Hunters and the public interested in visiting the refuge should continue to monitor the local news media because there is a possibility that the government will shut down again around Dec. 16, if another lapse of appropriations occurs after the continuing resolution expires.

Refuge hunters are reminded that they are required to possess a refuge hunting permit. The 1995-96 refuge hunting brochure serves as the required permit when it has been signed and dated. The permit must be in the hunter's possession while hunting on the refuge. The brochure details the hunting regulations for the refuge. The permit and brochudre are free and can be obtained at the refuge headquarters located off Highway 3056, 11 miles southwest of Lake Arthur. Individuals may also obtain copies through the mail by writing to Refuge Manager, Lacassine National Wildlife Refuge, 209 Nature Road, Lake Arthur, La. 70549 or telephone 318/774-5923.

PBS funds 'Fun to Learn' program here

By GENEVA GRIFFITH

Several Cameron Parish youngsters are participating in a new program sponsored by Louisiana Public Broadcasting out of Baton Rouge, and funded by a grant, "Ready to Learn" program from the Corporation for Public Broadcasting.

Brenda Lewis, Educational Services Administrative Specialist, and Frances Williams, LPB Outreach Program Director, were in Cameron this week to kickoff the statewide program in Southwest Louisiana.

"The purpose of the program is to foster a love for reading and to put books in the hands of children who might not have the means to own them.

Francis Williams explains that reading to a child can be a wonderful and fulfilling experience, but giving a book to a child who doesn't have one can be magical.

As part of the effort to provide learning opportunities for the people of Louisiana, LPB, the Corporation for Public Broadcasting, and the Association of Junior Leagues International have joined forces to bring the First Book Program to Louisiana. First Book provides free books to disadvantaged children.

"500 books a month are to be given out around the state, with 20 books a month going to Cameron youngsters for a one year period," Mrs. williams said.

"It is hoped that these books will be a start of each child's library, and that it will spark their interest in reading."

She also said that it is hoped at the end of the year some local group will continue the program as a project.

"In order to continue to reach children, we need funds to purchase and distribute books. You can bring the magic of a book to a child by making a tax deductable gift," she said.

"$25 can buy books for ten disadvantaged children, while $250 can buy 100 books, with a book plate in them with your name on it so the child receiving it will know who made the gift possible," Mrs. Williams said.

For more information call Frances Williams, LPB, at 1-800-272-8161.

Grand Chenier contest set

The Little Mr. and Miss Grand Chenier contest will be held Thurs., Nov. 30, at 6 p.m. at the Grand Chenier Elementary School.

All contestants are asked to arrive at school in time for the interview at 5 p.m. on Thursday prior to the contest.

Notary exam.

The notarial examination for Cameron Parish will be given Mon., Jan. 8, at 9 a.m. at the office of Jones Law Firm in Cameron. Applications may be picked up at Jones Law Firm during regular business hours and must be returned by Dec. 8.

School Board looks for Supt.

In an advertisement elsewhere in this issue of the Pilot, the Cameron Parish School Board is giving notice that it again is accepting applications for the position Cameron Parish School Superintendent.

The board had first advertised for applicants several months ago and received two applications. But after deadlocking 3 to 3 on these two, the board voted last week to reopen the applications with interviews to be conducted Wednesday, Dec. 13 at 4 p.m.

The notice gives the salary at $60,000 a year and the contract will be for a one year period.

Applicants must have a Master's degree, five years of professional school experience and have a valid Type A Louisiana teaching certificate with endorsement as a parish or city school superintendent.

Additional information on the applications can be found in the advertisement elsewhere in this issue.

Coastal Use Permit

J & J Devall Maritime has applied for a Coastl Use Permit to dredge a 60 foot wide, 1126 long boat slip in the Calcasieu Ship Channel at Hackberry.

The project will include two wooden bulkheads along the length of the slip. The project is proposed in order to develop the area into a subdivision.

Clinic closed

South Cameron Rural Health Clinic in Cameron will be closed Thursday and Friday, Nov. 23 and 24, for the Thanksgiving holidays.

Area principals are honored at meeting

By GENEVA GRIFFITH

Seven Cameron Parish School principals appeared before the Cameron Parish School Board this week at their monthly meeting to be presented with 1995 School Recognition Awards from the state Superintendent of Education.

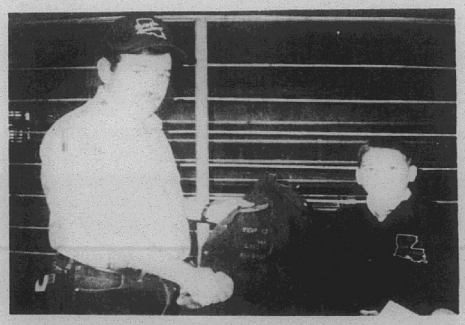
Raymond G. Arveson stated that the program recognizes schools that reach certain standards of student performance on the Louisiana Education Assessment Program (LEAP) criterion-referenced tests.

School Recognition Awards are divided into two categories: scholastic growth and scholastic achievement.

The scholastic achievement award is presented to schools demonstrating overall student attainment rates of 95% or higher over the past three year period, and a school may be recognized for all three awards.

Roger Richard, Assistant Superintendent, passed out the awards to the principal of each school who won: Cameron Elementary School, Schoolstic Award, accepted by Clarence Vidrine, principal; Grand Chenier Elementary, Carol (Zeke) Wainwright, Scholastic Award; Grand Lake High, David Duhon, Scholastic Award; Hackberry High School, Scholastic and 3 year growth award by Pam LaFleur, principal; South Cameron Elementary, Barry Wayne Richard, Scholastic, 3 year Growth Award, and 4 year Growth Award; and South Cameron High, Jimmy Marcantel, Scholastic Award.

Fur trapping season is open statewide



Louisiana's 1995-96 fur trapping season opened statewide Nov. 20, and will close March 20,1996. The season includes all Louisiana furbearing species: nutria, muskrat, raccoon, mink, opossum, otter, skunk, red fox, gray fox, bobcat, beaver, and coyote.

The season dates are an extension over last year's trapping season which ran Dec. 1 through March 15. The extension was made in response to comments from industry dealers, buyers and trappers.

Regulations governing buying, selling and shipment of fur animals and pelts are contained in LDWF's trapping regulations pamphlet, available at all parish sheriff'soffices and LDWF district offices.

Trappers should note that federal restrictions require placement of export tags on bobcat and otter prior to out-of-state shipment.

Happy Thanksgiving to All

BRETT BACCIGALOPI, right, of Creole was named top swine showman in Louisiana at the La. Junior Show Circuit presentation held Oct. 20, during the Louisiana State Fair in Shreveport. Do You Remember?

By KEITH HAMBRICK

(Lake Charles American Press, Nov. 14, 1924)
CAMERON-ORANGE LAND COMPANY

One of the biggest land deals involving acreage in Southwest Louisiana, is one consummated and the paper filed for record this week, in which the Cameron-Orange Land Company acquires 137,000 acres of marsh land lying between the Calcasieu and Sabine Lake, below Lake Charles, to the southwest about 25 miles.

The Texas company was the former owner of this property which added to the 33,000 acres already possessed by the Cameron-Orange Land Co. in Cameron Parish, gives the latter corporation a total of 170,000 of trapping, grazing and perhaps oil lands in the southwestern part of Louisiana.

In addition to trapping, hunting of wild fowl will be one of the benefits to be derived from ownership and it is understood that the company now holding it will cooperate with the state conservation department for the protection of both quadrupeds and wild birds.

Mineral Rights Retained

W. E. Lear, Chairman of the Texas Highway Commission, and former mayor of Orange, and who is understood to be a member of the Cameron-Orange Land Co., was in Lake Charles today, and stated concerning the recent purchase of 137,000 acres of lands in Cameron Parish by his company, that the selling corporation, the Texas Company, retained seven-eights of the mineral wealth under the lands, and that if any drilling is done, it will be by the Texas people or parties to whom they may lease or sell their mineral rights.

Relative to reclamation work, Mr. Lear said that the marshes of Cameron Parish have the finest lands in the world for agriculture, particularly for Sea Island cotton, but as yet no plans have been contemplated for doing any farming on them.

MEN GET PIG, SOW GETS MAN, LAW GETS ALL

A young pig picked up by two Calcasieu Parish men in Holly Beach last week, apparently as a lark, got the two in serious trouble with the old mother sow and with the sheriff.

The two men were charged with the theft of a pig by Cameron Parish deputies. The pig was owned by Alfred Trahan of New Orleans, who owns a camp at Holly Beach.

One of the men came out with the worst end of the whole matter -- while picking up the pig, the old sow attacked him taking out the seat of his pants.

BAILEY IS NEW PARISH ENGINEER

George V. Bailey of the firm, Hackett and Bailey of Lake Charles, architects and civil engineers, has been appointed Cameron Paish Engineer by the parish police jury.

Bailey is a 1953 graduate of LSU with a degree in civil engineering. He attended McNeese for two yers. He served two years in the Air Force, one year of which was as an electronics officer in Korea.

He was associated with local architectural and engineering firms for seven years until forming the present partnership with U. E. Hackett, Jr.

GOOD OMEN (Picture Cap)

Erected this past week just in time for the South Cameron - Oberlin game was this Tarpon statue in front of South Cameron High School. The statue was designed by Deil LaLande, built and erected by the Cameron Optimist Club.

GUIDANCE RESEARCH

South Cameron High School is one of the 40 schools in the state selected by the guidance section of the State Department of Education to participate in a guidance research study, it was announced this week.

The project includes a thorough testing program for high school seniors and the collection of information on the students' record while in high school.

A. B. Sibley, Counselor at South Cameron High, will administer the testing program and help in gathering the other data that are needed for this study.

FREE MOVIE

Cameron area youngsters have been invited to attend a free movie at the Grand Theater in Cameron at 3 p.m., Sat., Nov. 17, sponsored by the Cameron Optimist Club in observance of Youth Appreciation Week.

There will also be free popcorn and cold drinks for the children.

FALL EDUCATIONAL CONFERENCE

Cameron delegates to the Fall Educational Conference Friday and Saturday at McNeese were W. J. Montie, supervisor of instruction for Cameron schools and one of the committee members who planned the conference; Robert Montie, teacher at Grand Chenier school; Alvin Hoffpaur, principal at Grand Lake High School; Joseph Sonnier, principal at Johnson Bayou High School; Jerry W. McDonald, teacher at Johnson Bayou and Eugene J. Miers, teachers aid at Johnson Bayou. The theme of the conference was "Trends in Language Arts."

ROUNDABOUT THE PARISH

Grand Chenier -- Preparation for the duck season is beginning to get underway here at the Chenier. With duck season about three weeks off, some sportsmen are beginning to make duck blinds. Not much preparation is being made for the geese season due to the fact that geese have been very hard to get in the last few seasons.

Hackberry -- Imported fire ants have definitely been identified in the Hackberry community, according to Hadley Fontenot, Cameron County Agent. Mounds of the ants were found on the property of J. A. Lowery and Ernest Hamilton and reported by them. It was only recently that the first mounds were noted, but they have spread quite rapidly. It is hoped that a new chemical called Mirex can be obtained to treat this area. It has proven very effective elsewhere and is not poisonous to livestock.

Grand Lake -- The Grand Lake Future Homemakers of America chapter met Nov. 8, to elect parish officers for the club. They are Wanda Robideaux, treasurer; Alma Johnson, historian and Elaine Young, reporter.

PHOTO CAPS GETS AWARD--Mrs. McKinley Broussard, of Sweet Lake, received the "Outstanding Club Woman of the Year" award at the recent Home Demonstration Achivement Day. Miss Patsy Granger, HD agent, makes the presentation.

DUCK HUNTING

Our area duck hunters did well on opening weekend, but after that most of the eastern marshes are tough. It's sort of funny, the western part of the parish as well as the northern rice fields, are doing good even on speckle belly and geese, but most marshes in the Creole, Grand Chenier area are tough.

Whoever did the duck count surely didn't count right as we just don't have that many ducks. I would think there's enough cold weather above us to bring more birds down. It is said the fall flight is 15 percent above last year. I really believe that our winter is still too mild and until we get some real cold weather, we just won't have the ducks.

I know a few friends who hunt the rice field and they tell me they have plenty of ducks. Many of our marshes don't have enough feed. I do know we have enough water lilies that it's hard to set decoys.

THESE CAMERON Elementary 4-H offices held their first 4-H meeting on Sept. 12. Officers are: Kayla Kelley, president; Louis Hebert, vice-president; Kristin Sturlese, reporter; Chance Doxey, secretary; Tabatha Beard, treasurer; Jessica Murphy and Thomas Johnston, parliamentarians.

Area basketball scores are told

Area basketball scores as follows:

Grand Lake 84, Acadiana Prep 48

The Grand Lake Hornets boys basketball team raised their record to 8-1 with an 84-48 win over Acadiana Prep.

Josh Johnson scored two dozen points; Neal Kiser, 18, Jeff Drounette and Cody LeBleu, 11 each for the Hornets.

Acadiana Prep 42, Grand Lake 37

Acadiana Prep edged Grand Lake's Lady Hornets 42-37 in a game played at Grand Lake.

Laura Cox scored 13 points and Lindsey Smythe 12 for the Lady Hornets.

Hackberry 56, Hamilton Christian Academy 54

Hackberry raised their record to 9-4 ith a 56-54 win over Hamilton Christian Academy.

Patrick Dennis scored 22 and Troy Fountain 20 for the Mustangs.

Lacassine 107, Johnson Bayou 60

The Johnson Bayou Rebels saw their record fall to 0-10 as they lost 107-60 to the Lacassine team.

Justin Trahan scored 21 points and Daniel Blanchard 17 for the Rebels.

Lacassine 50, Johnson Bayou 44

Johnson Bayou Lady Rebels saw their record fall to 5-5 as they lost to Lacassine 50-44. Melissa Trahan hit 18 points to pace the Lady Rebel scorers.

Hackberry 37, Hamilton Christian 29

Hackberry Lady Mustangs raised their season record to 8-5 as they beat Hamilton Christian Academy 37-29.

Shelly Fontenot netted a dozen points to lead the Lady Mustang scorers.

Grand Lake 66, Johnson Bayou 37

Grand Lake handed Johnson Bayou their ninth straight loss 66-37.

Jeff Drounette scored 15 and Chris Granger 13 for the Hornets.

Daniel Blanchard hit 19 and Justin trahan 10 for Johnson Bayou.

Hackberry 56, Reeves 41

The Hackberry Mustangs raised their record to 10-4 with a 56-41 win over Reeves.

Johnson Bayou 54, Grand Lake 51

Selena McGee hit 17 points as Johnson Bayou edged Grand Lake 54-51 in double overtime.

Laura Cox and Lindsey Smuthe each scored 15 points for the Lady Hornets.

A report from La. Wildlife and Fisheries says that in the 1970's and 1980's, there were approximately 125,000 waterfowl hunters in Louisiana. In 1988 stamp sales were 65,000. From 1988 to 1993 restrictive hunting regulations, 30 days and 3 duck limits, put the number of hunters lower.

The expense of hunting, leases, boats, blinds, license, the price of steel shot shells wasn't really worth it to most hunters, but the die-hard hunters never quit and still enjoyed this great sport.

Last year's season days were jumped to 40 days and the number of hunters jumped to 70,000 and I'm sure with a 5 duck and 50 day season this year, we'll see a greater number of hunters again taking the rice fields and marshes.

FISHING NEWS

With the weather changes, fishing has slowed down some and with the opening of duck season, many anglers have set the rod and reel back and grabbed the shotgun so fishing reports are skimpy. Still, a few redfish reported around the Hog Bayou area in Grand Chenier and a few trout and reds in the Big Lake area.

COMMERCIAL FISHING

The Nov. 14 day for qualified applicants wishing to buy 1995 commercial fishing licenses, has been extended to Dec. 31, 1995.

The 1995 commercial license can be purchased at any time after Nov. 14, by application and will be mailed before Jan. 1, 1996.

Licenses over the counter will not be issued before the 1995 license year is over.

New license dates are Jan. 1-Dec. 31, 1996. If licenses are received through the mail before Jan. 1, 1996, they are not good until that date.

ACTIVISTS

The animal rights activists are still harassing fishermen like finding someone bank fishing and they throw rocks and scare off the fish. These people want to ban fishing and they have leaflets going around. They're not only after the commercial fishermen, but the sports fishermen also, even the cane-pole catfishermen fishing private ponds.

These people claim agonizing death for the fish, too much suffering and these fish feel pain like cats and humans. A fish flopping in the deck with a hook in its mouth gasping for air, they say.

I'm not saying they can't stop fishing, but with over 50 million people in the U. S. fishing, including Congressmen, they have their work cut out.

Thank You

The president and general membership of the Cameron Chapter of the NAACP wish to extend sincere thanks to the progressive minded people who ventured to run for office in order to render greater services to our community and our state. To those unfortunate ones who did not garner enough votes, we extend our regrets and pray that they will find another path of service. To the winners--Congratulations! May their official tenure prove to be both self gratifying and beneficial to the general public.

We wish to remind the winners that there is much to be done. Particularly are we concerned about the poor people around us. To begin with, there are people in dire need of decent living areas. We need to see to it that they be provided with a housing project. The need is so great that they need more than sincere promise. They need real shelter. It should be our top priority of concern and duty to come through for them.

Our past records show that the NAACP has always gotten fullest cooperation and support from our public officials. We believe that the in-coming officers will serve us well.

May God bless and direct us all as we move ahead hand in hand to serve and do all the good we can for all the people we can.

God Bless With Peace and Understanding.

Meal on Wheels 'Walk A Mile' set Monday

"Why Walk A Mile For A Meal?" Why, you ask? The answer is plain and simple. There are many senior citizens who are not as fortunate as we are. Many seniors are on a fixed income and special diets. The meals on wheels program as well as the congregate meal site is an ideal way to meet the needs of those persons. So, why you ask? Becaue your miles will enable a senior citizen to receive a free lunch for 21 days a month, 12 months of the year. At the present time the federal and state funds are not adquate to meet the growing needs of persons who need this program.

The Cameron Parish Police Jury assists in every way they possibly can and the senior citizens are very grateful and proud of the support received from our elected officials. Fund from the state and federal government arrives at the Council on Aging ear-marked for what the money must be used for. The only way we can make a difference in the amount of funds for the meal program is to help each other.

Won't you join us this Monday at the cameron rec-Plex and walk a mile or two for a good cause? You know someone who could benefit from your contribution. For moe information, and a pledge sheet, call 775-5668 and speak to Pat, Alice or Tutt. Walk begins at 10 a.m.

Staff awarded certificates

Misty Romero, Roxanna Domingue, and Katie Richard are members of Cameron Head Start's Staff who were recently awarded a Child Development Associate (CDA) Credential in recognition of their outstanding work with young children. The credential was awarded by the Council for Early Childhood Professional Recognition in Washington, D. C.

As part of the CDA assessment process, every candidate for the CDA credential is observed working with young children by an early childhood professional. In addition, the candidate must demonstrate the ability to work with families to develop childrens physical and intellectual capabilities in a safe and healthy learning environment.

School board to advertise for new superintendent

By GENEVA GRIFFITH

Cameron Parish still does not have a new school superintendent, as the School Board is still deadlocked 3 to 3 on the choice between Judith Jones and Roger Richard for the position.

Since Thomas "Sonny" McCall, the present superintendent's retirement is set for Jan. 3, the parish may be without a superintendent for a while.

Board member Karen Nunez made a motion to readvertise the superintendent's position, stating that the salary would be $60,000 for a one year contract. The ad would run in area newspapers.

Tony Johnson, board member, cast the dissenting vote on the motion.

A deadline has been set for noon Fri., Dec. 8, and the interviews will be at 4 p.m., Wed., Dec. 13, after the regular monthly board meeting.

The interviews will be open to the public, but spectators will not be permitted to ask any questions or participate.

The decision to set the $60,000 annual salary for the new superintendent, which is over $8,000 less than the present salary, came after board member Clifton Hebert read from a report on salaries for all Louisiana parishes. It stated that parishes in the 2,000 pupil range such as Cameron, the superintendent's salary range was from $51,000 to $60,000.

He recommended the $60,000 which is slightly higher than the $58,700 salary the present assistant superintendent makes.

He pointed out as attrition opens up other positions, the salaries could be adjusted based on that of the new superintendent.

Bill Morris, board president, stated that a meeting would not be held before McCall's retirement on Jan. 3 due to the holidays.

RICHARD'S STATEMENT

Assistant Superintendent Roger Richard read a lengthy statement in reference to Board President Morris' criticism of a new contract form drawn up by Richard.

At the October meeting Morris asked why the new contracts were drawn up and back-dated without the knowledge of the board.

The contracts affected three contracts with central office employees which were dated July 1.

Superintendent Sonny McCall said the Legislature had passed a law in 1985 that stated that all central office administrators must sign contacts, and anyone coming in after that date should negotiate them, which did not affect those employees hired prior to that date.

Morris alleged that the newly signed contracts were used to protect the salaries of employees whose jobs must be eliminated in possible budget cuts.

These new two-year contracts which Morris said no one on the board knew about, were signed by Roger Richard, Ron Vining, and Wayne Batts.

The contracts state that if the employee is moved to a lower position due to a reduction in force, the original salary would be retained for that two-year period.

At that time McCall said he should have come to the board with the revised contracts, but that it was truly an oversight.

McCall and Morris had a heated discussion on the issue at that October meeting.

Richard stated that he felt like McCall was put on the spot at the October meeting, which was his last official meeting and he did not get a chance to say anything about his leaving.

"I personally feel that the whole issue of performance contracts was directed toward me, and was an attempt to discredit me as an applicant for superintendent," Richard said.

He asked the board to come up with a list of forms that needed to be approved before they are changed.

He also explained that the three contracts were backdated to July 1, because that was the beginning of the fiscal year, when the actual signing took place the following week.

Morris answered that he had contacted Bob Hammond in Baton Rouge, the attorney for the state board of education, and had been informed that without a contract the jobs could be eliminated and employees moved to lower positions without retaining their present salaries.

SALARY QUESTIONS

In the discussion on the terms of employment of the new superintendent there were several questions from the audience about the big difference in the salaries of the supervisors and the teachers.

Morris said he agreed because the board is facing a $1½ million deficit and some cuts have to be made.

The school auditor gave the fiscal year 1994-95 report and said that everying was in order, but she pointed out that the board is facing this huge deficit, and that the future looked dismal because the oil and Loston McEvers.

West Cove boat ramp is open for access

West Cove Recreational Area's north boat ramp remains open to boaters needing access to Calcasieu Lake and Ship Channel, Refuge Manager Will Nidecker has announced. Through agreement between the Refuge Manager and the Cameron Parish Police Jury the boat ramp was installed by the Parish for boaters to have year around access to Calcasieu Lake. This access is open to boat passage only Oct. 15, 1995-Mar. 15, 1996. The other canals and bayous of Sabine National Wildlife Refuge are closed to boats until March 15, 1996. This closure provides for the unrestricted use of the refuge by wintering waterfowl.

The Sabine National Wildlife Refuge will open Sat., Nov. 11, to public waterfowl hunting. The designated hunt area contains 24,000 acres and is the same area that has been hunted in past years. Hunting is permitted three days each week - Wednesday, Saturday and Sunday. The western zone state season is applicable to the refuge and the dates for this year's season are Nov. 11-Dec. 3, and Dec. 16-Jan. 11.

Hunters may enter the West Cove parking area to line up their boats for launching three hours before legal shooting hours. All hunters will be permitted to enter the refuge two hours before legal shooting hours. Legal shooting time is one half hour before sunrise. Hunters must plan their hunt so they are out of the refuge by noon, Nidecker continued.

Waterfowl identification is especially important because of the restrictions on taking various species. Hunters are urged to positively identify each bird as it is killed in order to avoid over limit problems. The daily bag limits are the same as the Louisiana's daily bag limit.

Steel shot shells, steel shot reloads or bismuth-tin shells are required for hunting on the refuge.

There is no minimum age for youth hunters but they must have completed their hunter safety course and have proof with them in order to enter the refuge hunt area. Each hunter under the age of 16 must be under the close supervision of an adult. All persons 16 years of age or older entering the hunt area must be legally licensed to hunt waterfowl.

Nidecker noted this year trolling motors may be used in the marsh. The use of other boat motors to run in the marsh is prohibited. Motorized boats can be used only in the canals and bayous.

All hunters are required to check in at the check station before hunting and check out upon completion of their hunt.

The refuge hunting brochure, dated 1995-96, is a permit to enter the refuge. It must be in the hunter's possession and signed while hunting on the refuge. Other special regulations and boating regulations are contained in the brochure.

Thank You

I wish to express my sincere thanks to all who voted for me in the November 18 election. I am ever so grateful to you. I also want to send special thank you's to my family and close and dearest friends who stood beside me during my campaign. Words alone cannot express my thanks.

I would like to wish Carl and his family the best of luck.

Sincerely,
C. Anne

Area students named at MSU

Twenty-nine McNeese State University seniors have been named to the 1996 edition of "Who's Who Among Students in American Universities and Colleges," according to Ricky Mestayer, dean of student services at MSU.

The students were nominated by a campus committee composed of faculty, staff and students on the basis of academic achievement, leadership in extracurricular activities, service to the community and potential for continued success.

Students nominated for the publication are selected from more than 1,800 institutions of higher learning in all 50 states, the District of Columbia and several foreign countries. The annual directory was first published in 1934.

Area students on the list are: Sonya Renee Guidry, Creole; Hickman Smith Lake Charles; and Suzanne Gillard Trahan, Hackberry.

PROCEEDINGS

From Gravity Drainage District No. 7, Johnson Bayou, La.

Meeting was called to order at 6:30 p.m. on the 15th day of November, 1995, at Johnson Bayou office of Gravity Drainage District No. 7, by President Magnus McGee.

Roll as follows: Present - Magnus McGee, Carroll Trahan, Ivan Barentine, Leroy Trahan, Rogerest Romero.

Absent: None.

Guests: George Bailey, Scott Rosteet, David Richard, Wm. Lloyd Badon, and Rodney Guilbeaux.

Motion to accept minutes of Oct. 27, meeting by Leroy Trahan, second by Carroll Trahan, passed.

Motion to review and pay bills by Rogerest Romero, second by Ivan Barentine, passed.

An Interagency Agreement proposal between GDD #7 and GDD #3 was looked over by the Board. Changes were considered, and no action was reached. The GDD #3 board will be asked to attend a future meeting to discuss the proposal.

David Richard of the Gray Estate spoke on the Texas-Texas Water Plan, and Exec. Secty. Rod Guilbeaux passed out the latest mailout by the TTWP. The Board agreed to write the La. DNR requesting monitoring activities on Sabine Lake for salinities, water levels and qualities with copies to the Calcasieu Parish Police Jury, the Cameron Parish Police Jury and La. Sabine River Authority. This on a motion by Leroy Trahan, second by Carroll Trahan, passed.

David Richard spoke on the Black Bayou Water Shed projects that have been approved by congress and NRCS. He mentioned that a local sponsor was needed. Guilbeaux was instructed to contact NRCS and secure copies of notification of these projects.

Scott Rosteet stated that Crain Brothers has started work on Nov. 6th on the East Mud Lake CS 20 Project. Their first action was to grubb the levees and then repair and replant the levees on the Fina Project.

Wm. Lloyd Badon stated that he is still looking for treated tongue and groove boards for repairing the Mud Bayou Structures.

Scott Rosteet of Fina said he was working with DNR in monitoring salinities on the Fina CS 20 Project.

George Bailey, Rod Guilbeaux, Magnus McGee and other Board members will be attending the Calcasieu-Sabine Basin 5th Priority List Public Meeting at the Cameron Police Jury Annex at 7 p.m. Tues., Nov. 28. David Richard went over the different projects coming up for acceptance in the near future.

The CPPJ requested a list of officers and reminded the Board that a yearly audit was necessary. The Exec. Secty. mailed the officer list and has contacted the firm of Gus Schramm, CPA's to conduct the 1995 audit.

Wm. Lloyd Badon has ordered the center bearing for the Marsh Machine. It will have to be special ordered and made, with Aug., 1996 as an expected completion date.

Exec. Secty. Guilbeaux passed out copies of the financial statement for Oct. 31st. Revenues are above budget and expenditures are under budget. He will have an amended budget for 1995 for approval at the next meeting. A budget for 1996 will be presented at the last meeting in December.

L. C. Copy and Duplicating repaired the Sharp Copier installing a new fuser set, cleaner set and oil cartridge.

President McGee reported on the request for drainage assistance on Middle Ridge Road at Deep Bayou Road. Board Engineer George Bailey will prepare preliminary plans and report back to the Board.

President McGee reported that the three Bayou's Permit Riggings was completed on the weekend of Nov. 3, 4, 5. The CPPJ was requeste to assist in this work. The job has been completed.

President McGee reviewed the CPPJ new investment policy for component units. The CPPJ has adopted this policy for all units such as this Board. The Board is in compliance and will continue to invest in local banks with secured protection as per CPPJ policy.

Insurance for the two new buildings has been secured and additional premiums have been paid. The premiums for the next year have been paid for workman's compensation, liability, errors and omissions and property.

Mr. Guilbeaux reported on the field trip to the Breakwaters at Constance Beach by the Geological Societies after their annual meeting in Baton Rouge Oct. 28. He and his wife hosted a social after the group looked at the effects of erosin and the 85 breakwaters on the Cameron coast.

After a request for drainage assistance, the Board asked Lloyd Badon, Ivan Barentine and Donnell Trahan to check out the drainage at the prong of Smith Ridge Bayou south of Smith Ridge and report back to the Board with recommendations.

President McGee and George Bailey plan to attend a public meeting on Wed., Nov. 29, at 7 p.m. at the La. Dept. of Wildlife & Fisheries in Baton Rouge on marsh management and public - private balance of land issues.

A motion by Leroy Trahan, second by Carroll Trahan, passed, that the Board purchase and install 200' of 8" pvc culvert in Holly Beach. About cross Road 509 going south to north ditch of Road 510 (east of road 505 and west of road 504). The CPPJ will be asked for help with parish equipment in this project.

Due to a conflict with the Dec. 1st meeting, a new date and place is being considered.

There being no further business, motion to adjourn by Rogerest Romero, second by Ivan Barentine, passed.

Sheriff explains closing of Hackberry substation

By GENEVA GRIFFITH

"The Hackberry sheriff's substation has served its purpose and is no longer needed," Cameron Parish James R. "Sono" Savoie said Wednesday in explaining the reason for the closing of the station at the end of the month.

He said with the establishment of the 911 Emergency System in Cameron Parish calls to the sheriff's department and other emergency agencies are being routed through the Sheriff's main office in Cameron which is responsible for the operation of the new system.

He noted that all of the streets in the parish have been given names and all homes and businesses have been given street numbers. This permits the sheriff's department to dispatch deputies to any location in the parish, including Hackberry, very promptly and accurately.

Sheriff Savoie said the cost of running the substation, which has been in operation for some years, is $60,000 annually. He said he needed this saving to run the 911 system.

Savoie said no employee will lose their job in the closure and the Hackberry deputies will continue to be on patrol duty as usual.

The sheriff said that the service provided for Hackberry would be no different than that for the other communities in the parish, such as Grand Chenier, Oak Grove, Creole, Johnson Bayou, Grand Lake and Sweetlake.

Several Hackberry residents and business people expressed their concern over the closing of the substation on a KPLC news show Tuesday.

The Hackberry substation was built about about 20 years ago with the building also serving as the Hackberry fire station. The closing of the station will not affect the fire department since the reporting of fires and the calling out of the volunteer firemen will be handled through the new 911 system.

WHEN BISHOP JUDE SPEYRER recently paid a visit to Johnson Bayou, Father Roland Vaughn, local Catholic pastor, gave the Bishop a ride in his wagon pulled by his mule, Spark Plug. The Bishop, the mule and the pastor are pictured above.

Bishop pays visit to area

On Thurs., Nov. 9, Assumption and Holy Trinity Parish of Johnson Bayou and Holly Beach had a distinguished visitor. Bishop Jude Speyrer, bishop of the Lake Charles Diocese, visited the parish at the request of its pastor, Father Roland Vaughn. F. J. Pavell Knights of Columbus Council 8323 and Agnes Pavell Catholic Daughter Court 2265, along with the local CYO group, helped welcome the Bishop.

Bishop Speyrer was greeted by KC members on horseback to escort him on a short parade through the parish. He was seated in Father Vaughn's wagon drawn by one of his 3 mules. Seated with the Bishop were Father Vaughn, Parish President Gerald Touchet and Father's mule assistant, Kenny Trahan.

Following the mule ride, Bishop Speyrer celebrated a Mass with the community at Assumption Church. During the Mass, the Catholic Youth Organization of about 20 high school parishioners performed a drama to the song "Thank You", in thanksgiving to the Bishop for all he has done for the Church and the community. The group presented him and Father Vaughn each a Rosary which they made during October, with funds provided by KC Council 8323.

After the Mass the community feasted with the Bishop at the Renewal Center with chicken and shrimp gumbo. This ws a joint effort of the Catholic Daughters and Knights of Columbus. A large group from the community attended.

Fla. man charged in fishing matter

A Panacea, Fla., man identified as Hixon D. Thomas, 46, was arrested in Cameron Parish Nov. 17, and charged with 34 count of filing false public records and felony theft against the state of Louisiana by illegally obtaining resident commercial fishing licenses.

Thomas was arrested by Department of Wildlife and Fisheries enforcement agents and booked as a fugitive from East Baton Rouge Parish. At the time of his arrest, he was attempting to obtain a restricted species permit and a speckled trout permit. Both permits are issued only to Louisiana residents who qualify as commercial fishermen.

According to LDWF Enforcement Chief Col. Winton Vidrine, Thomas is suspected of filing false information and obtaining resident licenses from 1990 to 1995. "Our records show what is apparently false representatin of material fact concerning his legal residency in Louisiana," said Vidrine. "The theft which occurred a sa result of false identification amounts to $8,565 in lost non-resident fees."

In order to qualify as a "boni fide resident" under Louisiana law, a person must have lived in the state continuously during the 12 months immediately prior to the date on which he applies for any license. He must also manifest his intent to remain in this state by establishing Louisiana as his legal domicile by complying with the following as applicable.

If registered to vote, he must be registered to vote in Louisiana; he must be in possession of a Louisiana driver's license if licensed to drive; he must have Louisiana motor vehicle registration if he owns a vehicle located in Louisiana; and if earning income, he must have filed a Louisiana state income tax return and complied with state income tax laws and regulations.

Enforcement division seafood investigators working the case determined that Thomas was registered to vote in Wakulla County, Fla. Thomas possessed a valid Florida driver's license from 1989 to 1995 and obtained a Louisiana driver's license in 1992. He has never filed a Louisiana state income tax return, but filed federal tax documents showing his residency in Panacea, Fla. Thomas also possesses valid Florida resident commercial fishing licenses for 1995 and in past consecutive years.

The penalty for filing false public records is a fine of not more than $5,000 or imprisonment with or without hard labor for not more than five years, or both. The penalty for theft is a fine of nore more than $3,000 or imprisonment with or without hard labor for not more than 10 years, or both.

Agents participating in the cae were Sgt. Jeff Mayne, Sgt. Malcolm Hebert, and Senior Agent Darryl Moore.

Canik is in steer world championship

By GENEVA GRIFFITH

Stephen Canik, 29, of Grand Chenier, will be in Las Vegas, Nev., Dec. 1-10, participating in the world's finals in steer wrestling at the world finale.

Canik is the son of Mr. and Mrs. Orrie Canik and has been rodeoing all through high school and college. He is on the road constantly and has already won over $47,000 this year and a Dodge truck.

He is in the top 15 finalists who will participate in the world finals in the steer wrestling division and presently stands in 7th place. His parents will attend.

Over one million dollars in prize money will be awarded in his event.

Canik was on the South Cameron High School and the McNeese University Rodeo Teams, and is the only person from Louisiana participating in the finals.

Senator Picard accepts leadership position

District 25 State Senator Cecil Picard announced he has joined the newly formed leadership team in the Louisiana Senate. In a cooperative effort to move Louisiana forward, he renewed his pledge to do his best to implement much needed reforms in state government and vowed to work closely with Governor-elect Mike Foster and the next Senate President Randy Ewing.

As Senator Picard explained, "I talked with Governor-elect Mike Foster Friday and advised him that I am no longer a candidate for Senate President. I have also spoken with Senator Ewing and assured him that he has my full support."

Senator Picard announced his plans to seek the Senate Presidency several weeks ago. He had been considered a front runner for the leadership job, but says it is now time to move on to more important things.

"With a new Senate and a new Governor, there is a new beginning in Louisiana," Senator Picard said. "We have a tremendous opportunity to bring the citizens of our state a better Lousiana and I am proud to be part of the cooperative effort in the Louisiana Senate to do that. I support the platform of our Governor-elect and look forward to bringing real, positive change to our state and to concentrating on doing the best I can for the people of District 25."

Picard adds he has accepted an offer from Senator Ewing to chair the important Senate Committee on Revenue and Fiscal Affairs which oversees state spending on construction programs and monitors the state's debt limit. He says he will also serve on the Senate Finance Committee, the State Bond Commission, and the Senate Education Committee. As part of the leadership team, he will serve on a committee to oversee the operations of the Senate.

Several days ago, Senator Randy Ewing along with Senators Dennis Bagneris and John Hainkel announced, in a cooperative reform effort, that Senator Ewing had secured over 30 votes to lead the Senate as President when new officers are elected early next year.

Jobless rate low

Cameron parish had the second lowest unemployment of any parish in the state for October, according to the La. Dept. of Labor.

The Cameron rate was 4 percent for the month. Only Lincoln parish's 3.5 percent was lower.

According to the report, Cameron's jobless rate was down from 4.7 percent in September and from 6.2 percent last October.

The report lists 140 persons out of work in the parish during September as compared to 170 the previous month and 250 the previous October.

The total workforce for the parish in October was given at 3310, down from 3330 in September and 3600 a year ago. This suggests that Cameron's low jobless rate is due partly to a decreasing labor force.

Fur ban is postponed for a year

The European nations have agreed to continue importing fur products from Louisiana for the coming year. Sen. John Breaux (D-La.) led the effort to put pressure on the U.S., Canadian and European officials to resolve their long-standing trade differences.

"The good news for Louisiana fur traders is the European Commission has postponed a ban on the import of 13 types of furs from animals caught in leg-hold traps," Sen. Breaux said. "I hosted a meeting here in June with out U.S. Trade Ambassador Mickey Kantor, which led to the negotiations that put off this fur import ban for another year."

Louisiana is the leading state in the production of fur. It's coastal marshes contain more than 97 percent of the North American nutria population and large populations of muskrat, mink and river otter. Louisiana also depends on these traps and trapping to lessen animal damage to its coastal wetlands.

The total ban on leg-hold traps, scheduled to take effect on Jan. 1, has been postponed for a year, giving the United States, Canada and the European Union more time to come up with an international trapping standard, which is realistic and preserves the industry.

DO YOU REMEMBER?--This photo, taken nearly 40 years ago, concerned the presentation of a check to the Cameron Parish police jury in connection with the Sabine Causeway bridge. Seated, from left, were Percy Richard, Eraste Hebert, police jury president; Joe Doxey, police jury secretary. Standing--unidentified; Bernard Duhon, Hackberry juror; Horace Mhire, Grand Chenier juror; and J. B. Jones, Jr., assistant district attorney. With the exception of Mr. Jones all of the local persons in this photo are now deceased.

Cameron Parish FFA members and advisor

Parish FFA members go to national meet

Five Cameron parish Future Farmers of America members -- five from Grand Lake and two from Hackberry -- attended the National FFA convention held Nov. 8-11, in Kansas City. They were accompanied by Grand Lake FFA advisor Gary Pool.

Grand Lake FFA members attending were Mitch Vick, Nick Stickell, Ginger Broussard, Melonie Richard, and Seth Guidry.

Hackberry members were Shelly Fontenot and Lindy Hinton.

These members attended sessions on leadership and cooperation and met the 1994-95 National FFA President Cory Flornoy and the rest of the national officers.

Among the guest speakers were Miss America 1995, Shawntel Smith, and Gold Medal slalom skier in the Special Olympics, Diana Golden.

About 38,000 of the 444,000 FFA members were present to set a new record and make it the largest annual youth convention in the world. Members from every state in the union as well as Guam and Puerto Rico attended.

Mrs. L. Wayne Carter

Carter-Pool vows are said in Lake Charles

Paula T. Pool and L. Wayne Carter were married Sat., Nov. 25, at 2 p.m. at Glad Tidings Assembly of God Church in Lake Charles. Rev. Charles A. Istre of Wildwood, Fla., officiated at the double-ring ceremony. Sharon Corkran and Nathan Michael provided the music, and Allison Pool and Nathan Michael were the vocalists.

Given in marriage by her son, Aaron Wyatt Pool, the bride wore an ivory silk tea-length suit, studded at the bodice with pearls and sequins. Her veil was attached to an ivory satin pillbox and she carried a bouquet of bridal white roses and English ivy, centered with a white orchid, which also served as a corsage.

Amy Kathryn Pool served as maid of honor and bridesmaids included Allison Rebecca Pool and Mary Menard Barnes. The attendants wore hunter green watered silk victorian style dresses with a heart-shaped drop at the keyhole neckline, and carried nosegays of bridal white roses with English ivy and hunter green ribbons.

Best man was Waylon White and groomsman was Charles A. Barnes. Ushers were Allen Barnes and L. E. Cooke.

A reception followed in the church conference center. Servers included Dawnita Istre and Wanda Carnahan.

The bride is a graduate of Louisiana State University and is employed by Cameron State Bank in Cameron. The groom is a graduate of Louisiana Tech University and is employed by MG Industries, Westlake.

After a wedding trip touring the Hawaian Islands, the couple is making their home in Lake Charles.

Out of town guests attending were Charles, Dawnita, Israel and **Zachary Istre of Wildwood, Fla.**; Mr. and Mrs. William H. Tholborn of Little Rock, Ark., and Jan and Waylon White of Baton Rouge.

We're on the last of the first split of duck, coot and goose season, which closes this weekend, Dec. 3. Our deer season's last day of split is Dec. 1.

The second split opening for ducks, coots, and geese is Dec. 16, as well as deer opening. Ducks and coots will close Jan. 11, and goose Jan. 31. Snow and blue geese only will reopen Feb. 1 thru Feb. 25. Deer will close Jan. 4.

Our dove season is closed as of now but will reopen Dec. 16 and close Jan. 14.

Last weekend's either sex deer hunting was good for quite a few hunters with quite a few does bagged as well as a few bucks. This was the last of six days of either-sex hunting for the year; it's bucks only until it's over.

I know they keep saying there's more ducks than last year, but they're not in all our marshes. Our gang has been fairly lucky and killing our limits, but there are days that's slow. Many hunters are taking whatever comes and glad to have that. Don't get me wrong, some marshes are doing real good.

REFUGES OPEN

Our refuges are again open, but we could see another shutdown as I hear it. Let's hope not.

The Big Lake area is still the hottest for speckle trout and redfish, with fairly good catches being reported. There are also a number of boats going offshore and catches are fairly good. In between fronts the seas have been calm enough to go a few miles out.

FLORIDA MAN ARRESTED

The arrest of a Florida man who thought he was slick, but wasn't, shows where he illegally got a commercial fishing license from Louisiana. He was booked in the Cameron Parish jail for filing false public records and felony theft against the state. I'm sure we'll see more of this as Florida's commercial fishermen cannot use gill nets.

CHANGES MAYBE?

It seems we may see some changes from the Gulf and South Atlantic Fisheries Management Council, who will be holding public meetings or hearings. It will have an effect on king mackeral, commercial fishermen, dealers as well as sports fishermen, commercial vessels and charter boat permits. It could also have some effect on cobia and dolphin fish. Overfishing will surely be brought up.

TRAPPING SEASON

Our trapping season is open and there's plenty of nutria in our marshes. Also open is muskrat, raccoon, mink, otter, possum, skunk, red and gra fox, bobcat, beaver and coyote.

I understand there's not too many buyers and no word on prices yet.

I sure hope the prices are right because our marshes are being eaten out by nutria and muskrat more and more each year.

The following proclamation was offered by Mr. Nunez, seconded by Mr. Hicks and declared duly adopted:

PROCLAMATION

WHEREAS, National Wildlife Refuge Week is hereby pronounced in Louisiana from the eighth through the fourteenth of October. This week is a time for the citizens of Louisiana to join thousands of others across the country in learning about a celebrating the magnificent network of lands known as the National Wildlife Refuge System which we, as United States citizens, have set aside for wildlife and for this American spirit; and

WHEREAS, National Wildlife Refuge Week recognizes over 90 years of conservation in the United States. President Theodore Roosevelt established the first National Wildlife Refuge in 1903, Pelican Island in Florida, to protect herons, egrets, and other colonial waterbirds. During his presidency Roosevelt created 50 more refuges, nearly all to protect wildlife species threatened with extinction, and

WHEREAS, today, the National Wildlife Refuge System encompasses over 500 units across the United States including one or more refuges in every state, covering nearly 92 million acres, the National Wildlife Refuge System is the only public lands system in the world dedicated to wildlife and conserving wildlife habitat. National Wildlife refuges encompass every kind of ecosystem in the United States including temperate, tropical, and boreal forests, wetlands, deserts, grasslands, and remote islands and support hundreds of endangered and threatened wildlife species; and

WHEREAS, many National Wildlife Refuges are open to the Americna public so that all citizens can enjoy watching, photographing, hunting, and fishing while learning about our natural heritage.

NOW, THEREFORE, the Cameron Parish Police jury does hereby proclaim the week of October 8, 1995 as "NATIONAL WILDLIFE REFUGE WEEK"

in Cameron Parish, Louisiana.

4-H Junior Leaders meet

By TRISHA SILVER, Reporter

Committee chairmen were appointed at the monthly meeting of the Cameron Parish Junior Leaders Club, held Nov. 15, at Grand Lake High School. Parish Agent, Mr. Lavergne announced the new committee chairmen as follows: fund raiser, Joshua Dupuie, education, Chad Pitre and CRD, Mandy Broussard. The new chairmen were to meet after the regular meeting with the president, Kristi Dupuie to make plans for the upcoming year.

For the December CRD project, the club voted on collecting nonperishable food items and donating Christmas gifts for the children and women at the Lake Charles Women's Shelter. The club plans to take the items Dec. 20. Members will meet and eat at a Lake Charles restaurant.

The club voted to sponsor the teen dance for the Louisiana Fur and Wildlife Festival again this year for one of their fund raisers. For another, members discussed having a car wash. Members also made plans to sell spaghetti dinners April 2, during the Easter holidays.

Mr. Lavergne told the group of a 4-H exchange program between other club members from North Carolina and any parish club that would be interested in Louisiana. The club voted not to participate.

The club made plans to have a parish workshop Mar. 2, at Grand Lake School. This workshop will held the younger 4-H members to better prepare their own projects and record books.

Door prizes were won by Trisha Silver, Chad Pitre and Misty Delome.

Christmas Musings

By Bernice Denny

Christmas is almost here. To fully appreciate its true meaning we need to prepare ourselves for it.

Too often we lose sight of the significance of Christ's birth and of God's purpose in it by our own hectic rush to buy gifts, to attend parties, to cook all sorts of delicacies. There is nothing wrong with these activities within themselves if they are kept in proper focus.

What I am trying to say is: Make this a Christ-centered Christmas, a glorious climax to 1993, regardless of what the passing year has brought to you.

Re-acquaint yourself with the Bible story of Christ's birth. Ask Him to quicken your heart to the needs of others. Become aware of the many kind little gestures that you may bestow upon them that cost no money, only a little of yourself.

Communicate with an old friend, one half forgotten over the years. Eradicate bitterness from your heart. Forgive one you feel has wronged you. Apologize if you are wrong. Mend a quarrel. Export suspicion from your being and import trust and concern. Promise yourself – and keep that promise – that you will no longer re-hash old grievances against others with a friend or two in your closest circle.

Be happy. Be grateful. Be concerned about helping the less fortunate. Plan each day to find new joys within your own family. They await your search. Then expand your scrutiny and discover them in the world outside your home.

Let your gift-buying be commisserate with your purse. Too often the joyous giving of a beautiful item is lost in the agony of paying the bill later. Be moderate. Like the monetary price so is the expenditure of your energy. Use discretion.

Christmas commerates the birthday of the Christ-Child. It is a day for celebration, a day of love and joy and sharing, not a day for excesses.

With the poet may we say and truly mean it:

"Love shall be our token,
Love be yours and love be mine
Love to God and all men,
Love shall be our gift and sign."

***

How much time he gains who does not look to see what his neighbor says or does or thinks, but only at what he does himself, to make it just and holy.

Pain may be eliminated for millions

(SPECIAL) -- A new drug has been approved that is exciting researchers in the treatment of pain. This material has been formulated into a new product known as **"Arthur Itis™"** and is being called a *"Medical Miracle"* by some, in the treatment of debilitating conditions such as arthritis, bursitis, rheumatism, painful muscle aches, joint aches, simple backache, bruises, and more. Although the mechanism of action is unclear, experiments indicate that **Arthur Itis™** relieves pain by first selectively attracting, and then destroying the messenger chemical which carries pain sensations to the brain, thus eliminating pain in the affected area. **Arthur Itis™** is an odorless, greaseless, non-staining cream and is available immediately without a prescription and is guaranteed to work. Use only as directed.

LETTER TO THE EDITOR

Dear Editor:

As a concerned parent of three young children and education being one of my top priorities, I knew it would be in my best interest to attend the interviews of the two candidates applying for the Superintendent's job, Mr. Roger Richard and Miss Judy Jones.

Attending these interviews would enable me to hear each one's views on many item. The number one item is lowering the million dollar deficit of our present school system. In trying to resolve this issue and showing the people that the board is working very hard on this problem they asked each candidate this question: "Would you take a salary less than our present Superintendent is making and not have an assistant?"

Mr. Richard replied, "No, because the job would be the same and he would not have an assistant." Also, Mr. Richard asked if there would be a contract and if he could find out this information before the board voted.

When asked the same question, Miss Jones replied, "Yes, I would take this job for less than our present Assistant Superintendent, Mr. Richard, is making, because I am not here for the money but for the educational welfare of our young people."

Mr. Richard is presently working under a two year contract and Miss Jones has signed none. She believes that if you are doing your job why worry about a contract.

Everyone knowing each dandidate's qualifications is aware that Miss Jones has gone far beyond minimum qualifications to prepare herself for this type of position. This shows you that education, not a contract or pay scale is a top priority to Miss Jones. What more do our board members need to know to make a wise choice?

HONORED AT A dinner given by the Cameron Parish police jury Tuesday were Juror Russell Badon, Rep. Randy Roach and Juror Ray Conner. All three are leaving office at the end of December. (Photo by Geneva Griffith)

aber to be Thurs.

Funeral services for Ernest Taber, 81, of Cameron will be held at 2 p.m., Thursday, Dec. 7 at the First Baptist Church in Cameron.

The Revs. Tim Vanya and Jack Tanner will officiate and burial will be in the First Baptist Church cemetery under the direction of Hixon Funeral Home of Creole. The body will be in the church hall until the time of the funeral.

Mr. Taber died Tuesday, Dec. 5 in a Lake Charles care center.

A native of Jennings, he had lived in Cameron for 43 years and was retired after 35 years as a gauger from the Superior Oil Company. He had been a member of the Cameron Lions and Optimists Clubs; a member of the Cameron Masonic Lodge 439 and the Lake Charles Scottish Rite Body; a former Scout Master of Troop 102 of Cameron; and a deacon and Sunday School superintendent for the First Baptist Church.

Mr. Taber is survived by his wife, Loretta Taber of Cameron; two sons, Ernest Taber of Lake Arthur and Richard Taber of Gueydan; two step-daughters, Jerrie Wainwright of Cameron and Trudy Champagne of Moss Bluff; a brother, John Taber of Jennings; three sisters, Augusta Porter of Lake Arthur, Melba Vaughan of Houston, Texas, and Anna Nunez of Grand Chenier; one daughter-in-law; 10 grandchildren and 6 great-grandchildren.

MYRNA CONNER, chairman of the Blood Drive for the Sacred Heart Catholic Church, holds a T-shirt that will be given to donors at the drive to be held this Saturday and Sunday. (Photo by Geneva Griffith.)

Blood drive at Creole

A blood drive will be held at Sacred Heart Catholic Church Sat., Dec. 9, from 4:30-6 p.m. and Sun., Dec. 10, from 8-11 a.m. in the LIfe Center. Mrs. Myrna Conner is heading the program and can be reached at 542-4687.

Donors will each receive a Christmas T-shirt and become eligible for the Lousiana Blood Center Family Benefit Plan.

Sacred Heart Church is also hoping to gain this benefit program for members who cannot donate and their families. To do this the program must reach a goal of 30% of the church members per year.

Donors should be between the ages of 17 and 75 and weight at least 110 pounds. Donors should have eaten something before donating, and should not donate on an empty stomach. Also, bring a list of medications.

Center to have open house Sat.

The Therapeutic and Educational Animal Center of Southwest Louisiana will hold an open house and fun day Saturday, Dec. 16 from 12:30 to 4 p.m. at the McNeese Farm on Hwy. 14 south of Lake Charles, according to Cathy L. Denison-Wicke, executive director.

The center is a non-profit organization that offers therapy for the disabled, people with behavior disorders, the elderly and others involving horsemanship, animal-assisted therapy and horticulture therapy.

The fun day will include therapeutic horsemanship, petting zoo, hay rides, clowns, draft horse and animal exhibits, horseshoeing, and a variety of other activities and games.

Everyone is invited to come out for the day, according to Denison-Wicke. For more information call her at 542-5239.

Talent show entries asked

The Talent Contest for the 1996 Louisiana Fur and Wildlife Festival will be held Thurs., Jan. 11, in conjunction with the little Miss and Mr. Cameron Parish Contest. All youth in grades K-7 are eligible. There are three different divisions: solo, duet and group.

Entry forms have been distributed to the schools of the parish.

There is a $5 entry fee for each act. Forms are due by Fri., Dec. 15, as each child will receive a medal and these have to be ordered.

For more information, call Allyson Bourriaque at 542-4264 after 5 p.m.

H'berry pageant

Hackberry High School held its Little Mr. and Miss Hackberry Pageant Thurs., Nov. 9.

Little Miss Hackberry is Natasha Hicks, daughter of Mr. and Mrs. Terry Hicks. Little Mr. Hackberry is Nicholas Wolfe, son of Nichole Wolfe.

First runners-up were Annette Gunter and Kip Buford. Annette is the daughter of Roxane Byler and Kip is the son of Mr. and Mrs. Blane Buford.

FOUR PERSONS, with connections to Cameron Parish, have just returned from a winter trip to Hungary, Slovakia, and Austria. POLICE JURY MEETING

Jury cuts budget 22% for new year

By GENEVA GRIFFITH

Representative Randy Roach appeared before the Cameron Parish Police Jurorers at their monthly meeting Tuesday for the last time as he is retiring from the legislature. He said he has no plans at the present time for another political office.

He presented each jury member with the honorary state representative certificate.

He also announced that, after all of the years of requests, funding for the Monkey Island bridge is included in the Capital Outlay bill for 1996.

He said he plans to devote full time to his law practice and will establish a parttime office in Cameron.

The Council on Aging, Community Action Agency, and Head Start Program, under the direction of Dinah Landry, presented plaques to each Police Juror for their help with the programs, and Christmas gifts to Tina Horn, Parish Administrator, and Bonnie Conner, Secretary-Treasurer.

The police jury approved the 1996 general fund budget in the amount of $2,264,620, which is a reduction of 22 percent from the projected 1995 expenditures of $2,901,662, according to Bonnie Conner, parish treasurer.

A pauper's burial was approved at $400 by the jury. The last such burial was carried out 12 years ago at a cost of $320, according to Tina Horn.

The jury agreed to change the January meeting date to Jan. 8 to accommodate the swearing in of two new police jurors: Charles Sandifer of District 1 and Malcolm Savoie of District 5.

Outgoing Police Jury member Ray Conner urged the jury to keep working on the hurricane evacuation route project, and asked the jury to write letters on the congressional delegation and President opposing any Social Security cuts.

Douaine Conner asked that a letter be sent asking the state Insurance Commissioner to look into surcharges on insurance premiums for Cameron Parish people saying "Cameron Parish is being discriminated against". He said extra charges are being made to people and businesses with no explanation.

Bonnie Conner asked for the enactment of Act #964, which authorized the payment of compensation of a $200 allowable expense to officials for necessary parish business, which the jury concurred.

APPOINTMENTS

The following appointments were approved: J. C. Mur0phy on waterworks and Sewerage board upon the resignation of Jimmy Kelley; Mrs. Jerrie Hebert on Recreation District #6 board on resignation of Mike Johnson; Curtis Thibodeaux to the Lower Cameron Hospital and Ambulance Board to take the place of Jimmy Colligan who has resigned.

The jury approved Sunday liquor sales on Christmas Eve and New Year's Eve for all Class A establishments in the parish. They will be allowed to open from noon Sunday to 1 a.m. Monday.

The also approved a liquor permit for the Hackberry Booster Club for Dec. 31.

VARIANCES APPROVED

The develoement permit variances were approved for Lara LeJeune of Creole and Sharlene Doucet of East Creole for variances on the height of their residences.

The Christmas Tree Project, with only one bid of $12,400 from Thomas Mudd, Jr., was approved by the jury.

Three outgoing officials honored

BY GENEVA GRIFFITH

Three public officials who will go out of office at the end of December were honored by the Cameron Parish Police Jury Tuesday at a dinner following the monthly jury meeting.

Honored were Ray Conner, juror for the Creole area for the past 20 years, and Russell Badon, Johnson Bayou-Holly Beach juror for the past four years.

Also honored by the jurors was Representative Randy Roach of Lake Charles, who has been Cameron parish's state representative for the past eight years. Roach, who did not seek re-election, said he will devote his time to his law practice in Lake Charles and also will open an office in Cameron.

New jurors Charles Sandifer and Malcolm Savoie and new Representative Dan Flavin will assume their offices in January.

Tarpons place on All District team

By JOE MUELLER

The South Cameron Tarpons had seven first team players and four second team players named to the 1995 All District Team, selected by the coaches of District 6AA.

On the first team are offensive tackie Aaron Pinch, senior; running back Jared Savoie, senior.

On defense are Scottie Brown, livenman, sophomore; Willard Pruitt, linebacker, junior; Derrick Blackwell, defensive back, senior; and punter Shawn Duffey, junior.

Getting second team honors are lineman Chad Bridges, junior; Lannie Guilbeaux, senior; Jared Savoie, linebacker, senior; Brandon Conner, sophomore, defensive back.

The outstanding offensive player of District 6AA was Taurius Davis of Lake Arthur. The outstanding defensive player and coach of the year came from district champion Notre Dame, with Kerry Link named top defensive player and Donnie Gaspard, coach of the year.

Chenier pageant

The Grand Chenier Little Miss and Mr. Pageant was held Thurs., Nov. 30, in the school auditorium. Christian McCall, daughter of Mr. and Mrs. Thompson McCall won the Little Miss Grand Chenier and Ronald "Nick" Aplin, son of Kimberly Alpin, is Litle Mister Grand Chenier.

First runners-up were Chelsea Mhire and Andre Savoie.

Little Dribblers

A Little Dribblers basketball league will be formed at a meeting to be held at 1 p.m., Saturday, Dec. 9 at the Cameron Recreation Center on the Front Ridge road.

The league is open to boys and girls in grades 3 through 7 and all interested youngsters and parents are invited to attend.

Yule Bird Counts are slated this month

Holiday time heralds a special event for bird watchers -- Christmas Bird Counts.

Christmas Bird Counts are a national annual opportunity for birders to pursue their hobby and collect vlauable biological data at the same time. The purpose of the counts, sponsored by the Audubon Society since 1900, is to identify and count as many birds as possible. The information is collected and used to help determine national bird populations during the winter.

Long-time birders as well as first-timers and backyard birders can participate in this important national event.

Local compilers select and plot a 25-kilometer (approximately 15-mile) diameter circle in which to identify birds. A count is officially a 24-hour period, but most begin at sunrise and end at sunset. Individual counts are forwarded to a central repository and compared with data from previous years.

"All bird species are counted, game as well as non-game", said Bill Vermillion, Department of Wildlife and Fisheries biologist.

Surprisingly, Christmas Bird Counts can become very competitive. "Groups try to 'scoop' each other by finding the rarest bird or the most individuals of a particular species," said Vermillion.

Local counts include: Dec. 17, Johnson Bayou and Thibodaux counts; and Dec. 18, Creole count.

Decoration event

On Tuesday, Dec. 12, Boy Scout Troop 210 will hold their first annual Christmas decoration contest. Scouts will travel from Cameron to Jim Daigles corner, through every subdivision, neighborhood in search for the best decorated home.

Homes will be judged only by the scouts. Judging will take place between 6 and 8 p.m. Winners will be announced in next weeks Cameron Pilot.

Immunizations

Free immunizations for children will be given by the Cameron Parish Health Unit at the Johnson Bayou Recreation Center from 10 to 11:30 a.m., Thursday, Dec. 14. Parents should bring the shot records for their children.

Parish beaches all aglow these days

By GENEVA GRIFFITH

A spectacular sight can be seen at night along the Cameron parish beaches. Phosphorus formations light up the incoming waves as they come into shore and hit the shallow water.

The white lights dance across the top of the waves and give off sparks when they land in the seaweed that has been piling up along the shoreline since the weekend.

The phosphorus is formed from living organisms that float on top of the water and is probably associated with the seaweed that breaks loose from the ocean floor.

This seaweed decays and is covered by the sand and also washes in with the waves and creates a build-up on the beaches.

The phenomenon has been drawing people to the beaches to watch the display and reminds one of the "Fifolet" which can often be seen dancing over the marshes, caused by decaying matter.

Theriot is honored

By GENEVA GRIFFITH

Delayne Theriot, "All American Cheerleader", was presented a commendation from the Louisiana Legislature by Rep. Randy Roach at the monthly meeting of the Cameron Parish Police Jury Tuesday.

She won her title at the 1995 Louisiana National Cheerleader Association meeting earlier this year.

She recently returned from Dallas, Tex., where she performed at the Adolphus Children's Christmas Parade.

Delayne is the daughter of Mr. and Mrs. Kenneth Theriot of Oak Grove.

Mosquitoes to be plentiful

By Don Menard, Director
Cameron Parish Mosquito Abatement District

The warm, humid weather we have been having for the last couple of weeks has allowed mosquito populations to flourish. Most areas of the parish are experiencing high numbers of day-time and night-time species and mosquito control is having problems getting them sprayed.

Weather conditions play a big part in how effective the spray is and even if we can safely spray at all. We cannot spray in rain, winds over 10 mph, fog or temperatures below 60°F., and almost every evening one of these conditions is present.

We will continue to check the parish, keeping track of mosquito populations and spray as much as the weather allows until we get control of them again.

At present, every area of the parish is scheduled to be sprayed, but it'll take several days to catch up once the weather clears up. Hopefully we'll start getting some strong cold fronts down again and end the breeding season for the year.

Pure magnesium does not occur in nature.

DUCK HUNTING

With the duck hunting in a split until Dec. 16, anglers are doing a little fishing and then it's rebrush the old blinds and get ready for the last 27 days of the duck-coot season.

The last few days seem like there were more ducks and better ducks flying. I did get a chance to hunt with a couple of the hunting clubs and we did well on mallards and good ducks.

The last two days before the deer season split, some nice bucks were killed, and the last doe days two weeks ago, saw quite a few does taken.

I think we'll be in trouble for our last duck split, as trying to buy 12 gauge shotgun shells is getting pretty tough. 12 gauge 2-3/4 number 3 and 4 shots in both regular and magnum are a no-no as of now. It seems that Daisy, who makes the BB's, made a certain amount and with more duck limits per day and more days and more ducks to shoot this year, compared to last year, the manufacturer just didn't make enough shells or BB's for the shell casings. This could really hurt things for the last season. It's just not in southwedst Lousiana, steel shots are few all around the hunting states.

FISHING NEWS

Saltwater fishing is still doing good. I talked to a couple of anglers from Kaplan who fish out of Rollover Bayou out of Pecan Island and the closer platforms are producing some nice big red snappers. Speckle trout are also being taken out of Rockefeller's Joseph Harbor, but remember, Rockefeller Refuge is cloed in most areas, so be sure and check with headquarters before you enter the refuge.

It seems like the "dead zone" in the Gulf of Mexico is getting larger, in fact a record 7,000 square miles this summer. The "dead zone" is oxygen starved areas. This surely can't help our Gulf fisheries.

There is suppose to be a study this month in which they think pollution is some cause of this. Sewerage runoffs, agriculture runoffs make plant life grow and then when the plants die, it takes away the oxygen in the water and nothing can live in that area.

LOUISIANA DUCK COUNT

We have over 3 million ducks in Louisiana, however southeast Louisiana has way more than the southwest Louisiana area. Here's a break-down not including Catahoula Lake, which has around 425,000 ducks. Southwest Louisiana, 1,288,000 compared to 1,722,000 in southeast Louisiana.

Following is a breakdown of SW and SE Louisiana:

Mallard, 142,000, 118,000; Pintail, 122,000, 86,000; Mottled, 38,000, 50,000; Wigeon, 44,000, 219,000; Galinulle, 436,000, 891,000; GW Teal, 291,000, 191,000; BW Teal, 57,000, 89,000; Shoveler, 96,000; 41,000; Canvasback, no count, no count; Ringnecked, 62,000, 9,000; Scaup, no count, 28,000.

The no count ducks are less than 1,000. If you put these totals together plus Catahoula Lake, we have our 3,400,000 ducks in our state and most are in southeast Louisiana.

The Coot count is 120,000 in SW La. and 855,000 in SE La., and 28,000 on Catahoula Lake for 975,000 state total.

I just had a friend tell me he was going to use his duck split to buy family and friends their Christmas gifts, so he won't have to worry when the second split starts. Not a bad idea.

Many advertisers say newspapers may be considered especially valuable in reaching cable and VCR households with a wide variety of ad messages that they may be avoiding by zipping and zapping on-air or played-back commercials.

Youths win in swine, lamb shows

F. J. Pavell Knights of Columbus meet

The F. J. Pavell Knights of Columbus Council No. 8323 met recently.

Knight of the Month was Rodney Guilbeaux and Family of the Month was Barry and Tonya Badon and daughter, Bailey.

A letter of appreciation from Bishop Jude Speyrer was read regarding his visit to the parish. The Bishop enjoyed the buggy ride, pulled by the Rev. Roland Vaughn's mule. KC's on horseback escorted the Bishop as he and Rev. Vaughn rode through the community in the "Mule Mobile."

On Nov. 19, Memorial Masses at both churches at Holly Beach and Johnson Bayou were said for deceased members of Council 8323. Honored were Riley Richard, Ernest Trahan, Allen Hebert, P. D. Meaux nad Henry Tingler.

Gerald and Linda Touchet represented Council 8323 at the Blessing of St. Charles Retreat Center in Moss Bluff on Nov. 5.

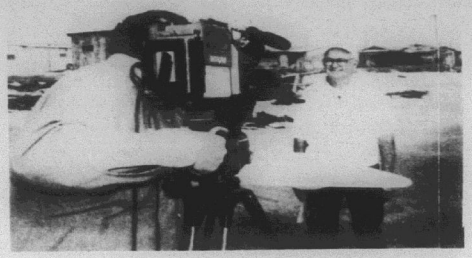
Council 8323 donated $100 toward the purchase of an organ at The Church of the Assumption in Johnson Bayou. This is to be used by the Youth Church Choir which is forming.

The council was represented by Gerald Touchet, Rev. Roland Vaughn, Edmond Trahan and Rodney Guilbeaux at the house blessing for the new home of Marguerite Domatti on Long Beach Nov. 17.

The senior citizen bingo, cosponsored by the KC's, was a success. The Johnson Bayou Fire Department donated 15 turkeys for this event. The December senior citizens bingo will be Tues., Dec. 12, at 9:30 a.m. at the Johnson Bayou Recreation Center. This free bingo is open to the community for all citizens over 60 years of age.

Council 8323 nominated Gerald Touchet for Cameron Parish Citizen of the Year for 1995 and Riley Richard for the Cameron Parish Memorial Award to be given at the Annual Cameron Parish Chamber of Commerce Banquet in Grand Lake on Jan. 15.

The annual Christmas basket drive for the needy is underway, again sponsored by the F. J. Pavell Council 8323 of the Knights of Columbus. Collection baskets have been placed in area businesses, and donations are being accepted at the churches as well. Baskets will be delivered to the aged and needy on the morning of Dec. 22.



The next KC Family Community will be on the fifth Sunday of the month, this time the date is Dec. 31. All members and their families will receive communion in a body at both masses that day.

The next KC bingo is Sun., Dec. 10, at the Renewal Center in Johnson Bayou, starting at 2 p.m.

The annual New Year's dance will be held Dec. 31, from 9 p.m. until 1 am. at the Community Center. The band will be Johnny Mouton and the Cajun Rhythm Band.

The meal for the November meeting was furnished by Gerald and Linda Touchet.

The December meeting is for Mon., Dec. 18, at 7 p.m. It will be preceded by a Rosary at 6:15 p.m. and the meal at 6:30 p.m.

RODNEY GUILBEAUX, Constance Beach resident, is shown making a public service announcement on coastal erosion to be broadcast statewide by the Coalition to Restore Coastal Louisiana. The spot was made by a crew from the Baton Rouge TV station. Guilbeaux is on the Coalition's executive board.

HACKBERRY OILFIELD FIRE

A grass fire, starting at the Intracoastal Canal in north Cameron Parish at about 4:30 p.m. Friday and burning southward towrd the Hackberry oil field, destroyed about $4,000 worth of property of the Calcasieu Oil Company at Kelso Bayou during the night.

The fire burned down through the marshes to the oil field and destroyed the derrick of No. 10 Watkins Well of the Calcasieu Oil Company before it was discovered and could be stopped.

(Cameron Pilot, Nov. 8, 1962)
GRAND CHENIER LEGION HOME

The new Adam Gooch Sturlese American Legion Home at Grand Chenier is virtually completed and the first legion meeting was held in it recently.

Located on property owned by Curley Vincent on Tiger Island, the building is 30 x 50 feet and was built by the members.

A dedication ceremony will be held at a later date. One of the persons who will participate in the ceremony will be Mrs. Doris Stulese, mother of the late Adam Sturlese, who was killed in service and for whom the post is named.

REFUGE FUNDS AVAILABLE

As far as Cameron Parish officials are concerned, there is no doubt that the $1,300,000 or so owed to the parish from the Rockefeller Wildlife Refuge oil royalties will be paid.

Following an announcement last week by District Attorney Frank Salter that he and Assistant J. B. Jones, Jr. had been successful in getting an opinion that the money was owed the parish, State Treasurer A. P. Tugwell was quoted that he didn't know where the money for Cameron was coming from.

But Mr. Salter told the police jury Monday that this had already been taken care of.

He said Ellen Bryan Moore, Registar of State Lands, told him the parish would receive all of the approximately $200,000 per month the state receives in royalties from the refuge until the full amount due is paid.

AIR FORCE CAPT. LEM JONES

Mr. and Mrs. Cecil Jones of Johnson Bayou recently received a clipping from their son, Capt. Lem C. Jones, that his crew had been selected "Crew of the Month" for September at Lockbourne Air Force Base in Columbus, Ohio.

Capt. Jones received his wings in 1955 and has a total of nine years service in the Air Force, the last seven serving in the Strategic Air Command. This is the vital and alert force of our national defense.

The captain's parents reside at Johnson Bayou where his father is employed by Mobil Oil Co.

BOARD APPOINTMENTS

Two persons were appointed to parish boards by the Cameron Police Jury Monday.

J. C. Reina, principal of the Cameron Elementary School, was named to the Parish Library Board, to succeed Donald Broussard, who resigned.

Mrs. Charles A. Rogers of Cameron was renamed to the Parish Welfare Board.

JURY TAKES OPTION ON PROPERTY

The Cameron Police Jury voted to pay $100 for an option to buy during the next ten yeas a right-of-way for a canal from Lower Mud Lake through property owned by the Rutherford heirs to the Gulf.

The right-of-way, if ever taken, would be used for a new channel for the Mermentau River to the Gulf. Sale price, if the jury buys, would be $16,000 for approximately 80 acres of land.

Jennings B. Jones, Assistant District Attorney, reported that the Rutherford heirs set two conditions -- that all spoils be deposited on Rutherford land, subject to the approval of the Corps of Engineers and the Department of Public Works; and the Government promise to construct a jetty to 12 feet of water before it is granted the right-of-way.

The canal would be 6,000 feet long. The servitude would be 20 feet wide about 200 feet from the Rutherford property line.

ROUNDABOUT THE PARISH

Holly Beach - Local Civil Defense people have been kept busy attending meetings since the Cuban Crisis to make preparation on possible evacuation. An ironic twist occurred here recently when the Ellender bridge was closed several hours for repairs and the Cameron ferry broke down that night. One C. D. director observed that it would be difficult to train people of this area to evacuate with access routes closed. The answer from a cynic was the only recourse -- Jacobs Ladder.

Creole Notes - Adding a very beautiful sight to the Creole Countryside is the new brick two-story home being built for the Charles Styrons on the north side of the highway, about two miles west of Creole. The home, which is fast nearing completion, is a lovely example of modern architecture.

Grand Lake-Sweet Lake - Trick or Treaters turned out enmasse in the Grand Lake and Sweet Lake area Halloween night. According to Mrs. Nolton Richard, a large number with their chaperones dropped in at their place. Chaperones were Mesdames Clyde Duhon, Curtis McCain, Kenny Faulk, Alfred Duhon and Morgan Faulk. Mrs. Richard, who expected their visit, had candy on hand and had donned a costume strikingly grotesque in appearance and was sitting in her favorite rocking chair with a broom stick in her right hand. The little ones were taken by surprise and became so frightened they wouldn't enter the room.

Johnson Bayou - The Don Billiots are moving to Managorda Bay. He is employed by Owens Drilling Co.

PHOTO CAPS

Paint Up Job - These Hackberry 4-H Club members recently repainted the 4-H sign welcoming visitors to the parish. Left to right are Ernest Hamilton, Frank Hughes and James Lowery.

Show Animal - Kenneth Duhon, Sweeney 4-H Club member, proudly exhibits the Hereford calf which he will show at livestock shows this year.

Do You Remember - This scene of rice threshing was taken on the F. H. Helms farm at Sweet Lake in about 1916.

(Lake Charles American Press, Dec. 7, 1923.)
LIEUT. GOVERNOR AT CAMERON

Lieutenant Governor Hewitt Bouanchaud, candidate for Governor, not-withstanding the inclement weather this week, is filling his speaking engagements in Southwest Louisiana.

Attorney A. M. Barbe, member of the Bouanchaud party in Cameron Monday, stated on returning to the city last night, that Lt. Gov. Bouanchaud addressed about 150 men in the parish courthouse in Cameron at 1 p.m., in English and French, and that his speech was well received.

Lt. Gov. Bouanchaud encouraged the people of Cameron in their efforts for a modern highway that would connect-up with the state systems of highways, but advised that the project is one for local consideration and initiative.

(Bouanchaud led in the first primary against Henry Fuqua and Huey Long. In the runoff between Bouanchard and Fuqua, Fuqua won.)

(Cameron Pilot, Dec. 6, 1962.)
CAMERON POLICE JURY BUDGET

A general fund budget of $200,000--a cut of $3,300 from the 1962 budget--was adopted Monday by the Cameron Parish Police Jury. The jury, apparently on an economy campaign, also cut out or reduced a number of previous expenditures.

The parish ad valorem tax of 4 mills is expected to bring in $77,571, a slight increase over last year's $74,850. Other expected income will remain the same, with the exception that the transfer of funds from surplus will be cut from $$77,450 last year to $71,428.13 for 1963.

FONTENOT IS CITIZEN OF THE YEAR

Hadley A. Fontenot, Cameron's County Agent for the past 14 years and a local civic leader, was named as the recipient of the third annual Doxey-Vincent VFW Citizenship Award at a banquet held Tuesday night at the VFW home in Cameron.

Previously honored by the post at the parish's "outstanding citizen" were Ray Champagne in 1960 and Joe W. Doxey in 1961.

In making the presentation, Commander Ray Dumas noted these contributions made by Mr. Fontenot to the betterment of the community and parish:

*He was the originator of the Fur & Wildlife Festival in 1956 and has been its president ever since.

*He is secretary of the Cameron Water Board, which is now in the midst of building a water system for the town.

*After Hurricane Audrey, he organized a cattle rescue program which saved the lives of hundreds of cattle. He also helped to get free grain for local cattlemen after Hurricane Audrey and Carla.

*He originated the rice and corn production awards, given each year by the Lions Club.

*He organized the Parish Development Association, which has already gotten a new beach for the parish opened.

*He has widely promoted the agriculture programs of the parish through news stories in area newspapers.

Other persons nominated for the award were John Paul Crain, J. Berton Daigle, Dr. Cecil Clark, Joe Sanner, Eraste Hebert, Charles W. Hebert, Dalton Richard, Mark Richard,f charles Riggs and Diel LaLande.

Certificates of appreciation for assistance given the post during the past year were presented to Monroe LeBouef, E. W. Swindell, William F. Henry anbd Harold Cooling.

ROUNDABOUT THE PARISH

Up & Down The Creole Ridges--To replace the excitement generated by the local football season which was a "humdinger" this year but which came to an abrupt end this past Friday night, comes the Christmas season with all of its colorfulness, gaiety and warmth. Sunday seemed to mark the "kickoff" for Christmas decorating and putting up the traditional Yuletide tree here in the Creole area where the ridges begin to light up with hundreds of colored Christmas lights, the windows sparkle with the glitter of gaily-decorated Yule trees, and the lawns display of the Nativity scene. The spirit of the season is rapidly taking over and leaving its magic touch on everything--people as well as homes and the outdoors.

Oak Grove--Mosquitoes in these parts are terrible. Work outside around dark is practically impossible. 1962 has been a great year for mosquitoes. We all wonder what 1963 will bring. Rain fell in torrents here last Tuesday and again on Sunday night. This is ideal for duck hunting.

Grand Chenier--Folks here want to welcome Mr. and Mrs. Edwin Byerly and family who moved into Henry Albert McCall's house north of the Immaculate Conception Catholic Church. He is employed by the Continental Oil Co. at the plant here.

Holly Beach--Those who saw the tide coming up last week say it was a fearful sight to see. At the peak of the storm, three waves could be seen rolling towards the beach with the last wave being several feet high. A few campers got in their cars and fled. Several motorist were caught on the low stretch of road and say logs were floating right against their cars.

Black News--A good representation of patrons and students witnessed the coronation ceremony in which Mary Ellen Godette was crowned "Miss Audrey" by the outgoing queen, Mary Ruth Andrews, last Friday night at the Audrey Memorial School.

COTY JOE Stephenson, son of Buck Stephenson and Delaine White of Grand Lake, placed 5th overall in the Peanut Division Competition in Kinder. The Allen Parish participants were honored at a banquet last month in Reeves. Coty received a belt buckle and a halter for his horse. Coty is the grandson of Dan and Mona Theriot of Grand Chenier and Buddy and Irene Stephenson of Big Lake.

European fur ban delayed for a year

Wildlife and Fisheries Secretary Joe L. Herring said that efforts of the Department and the Fur and Alligator Advisory council have resulted in a delay of the implementtion date of the European Union (E.U.) fur ban. This regulation was scheduled to take effect Jan. 1, 1996, and would have blocked fur from 13 species from being shipped into Europe.

Herring explained that the Fur Council worked closely with Louisiana's Congressional delegation, especially Sen. John Breaux, in forming a coalition within Congress to oppose the regulation.

Darrell Dupont, chairman of the Fur and Alligator Advisory Council, said, "I am convinced that if Louisiana had not become involved in the issue and obtained the support of the Congressional delegation, the regulation would likely have been implemented."

Although there are no written documents available, E.U. officials have indicated the regulation will not be implemented before the end of 1996. This allows U.S. and Canadian organizations time to work on agreements with Europeans that would be acceptable to all parties. E.U. officials have indicated they hope to successfully amend the regulation by multilateral agreement, international trap standards, or other amendment. In that way, the regulation could be made acceptable to other countries.

Sweetlake--Grand Lake--The Nov. 18 edition of the American Press carried a very interestring story and pictures on activities of our local people. Mr. and Mrs. Charles Hebert, who maintains 10 1/2 sections of hunting land with 27 blinds were pictured in a pirogue at their hunting site. Civic-minded Mrs. Hebert, we know, is as much at home in blind or pirogue as she is in her kitchen preparing a meal for their hunting guests. Others from this area pictured are Mrs. John B. Duhon, whose husband is a professional guide. With her is son Michael who is the State Junior Champion Duck caller; Mrs. Dudley Faulk, wife of the world champion Goose caller, "Dud" Faulk, a former resident of Grand Lake.

Cameron--Junior High Camp Fire Girls, led by Mrs. Willis, went to Port Arthur last Monday to visit Channel 4 TV. Chaperons were Mrs. Willis and Wade Dupont and David Willis.

Hackberry--Wayne O. Wood, a tenor, is in the Lake Charles Messiah Chorus along with Miss Jane Montie, soprano, from Creole.

Leadership decided

—CAPITAL NEWS—

It won't be official until inauguration day, but the competition for leadership of the Senate and House of Representatives appears to be over.

After they are sworn in on Jan. 8, state lawmakers will elect the Senate president and House speaker as well as a number two officer in each chamber. Senate President Sammy Nunez of Chalmette was defeated in his bid for re-election to the Senate, and conservative representatives give House Speaker Alario of Westwego little chance of retaining his position.

Quitman Sen. Randy Ewing's campaign for the presidency met success when other senators who had been rounding up votes withdrew from the race. Sens. Cecil Picard of Maurice, John Hainkel of New Orleans and Dennis Bagneris of New Orleans all threw their support begind Ewing, who also garnered the endorsement of Gov.-elect Mike Foster. Bagneris, who served as president pro-tem under Nunez, will retain that position in the new administration, according to a news release from the Senate office.

Ewing is planning to press forward to a news release from the Senate office.

Ewing is planning to press forward with a reform agenda, demonstrated by the tentative committee chairmanships he announced last week. Only three of the 17 committees will be chaired by the same men who led them under Nunez.

The outcome of the speaker's race is not a definite. Baton Rouge Rep. Chuck McMains appeared to lead the field shortly after the general election, but he conceded the impossibility of his attaining the post when Foster gave his support to Rep. Hunt Downer of Houma. Downer, a Democrat, was speaker pro-tem during the Roemer Admistration, and McMains is a Republican. The Baton Rouge lawmaker said his party affiliation was causing many representatives to shy away from supporting him.

But even with Foster backing Downer, Alario is not yet withdrawing from the competition. He said he is continuing to contact representatives and "count votes", believing that when the vote is taken Jan. 8, he will retain his leadership.

The three senators Ewing plans to leave in their current positions as chairmen are Dry Creek Sen. James David Cain, Agriculture; Sen. Greg Tarver of Shreveport, Insurance; and LaPlace Sen. Ron Landry, Transportation.

The other 14 Senate committees will have new chairmen. Hainkel will head the Finance Committee and Picard the Revenue and Fiscal Affairs Committee, two of the most powerful committee in the Senate. Other chairmen, as announced by Ewing, will be: Metairie Sen. Ken Hollis, Commerce; Maringoulin Sen. Tom Greene, Education; Prairieville Sen. Louis Lambert, Environment; Bunkie Sen. Don Hines, Health and Welfare; Marrero Sen. Chris Ullo, Judiciary A; Lafayette Sen. Don Cravins, Judiciary B; Lafayette Sen. Max Jordan, Judiciary C; Oak Ridge Sen. Robert Barham, Labor and Industrial Relations; New Iberia Sen. Craig Romero, Natural Resources; New Orleans Sen. Francis Heitmeier, Retirement; Baton Rouge Sen. Jay Dardenne, Senate and Governmental Affairs; and New Orleans Sen. Diana Bajoie, Local and Municipal Affairs.

MUSING . . . By Bernice Denny

The 'other wise man' legend is recalled

Among the beautiful legends that have developed around the Christmas theme are those of the wise men from the East who came to worship the newly born Christ-Child. Although Scripture does not tell us the number nor the names of the Magi who followed the star to the manger, the idea of three has come to be accepted generally. According to tradition they were called Melchior, Balthasar, and Gaspar (or Caspar).

In Henry Van Dyke's "The Other Wise Man," he tells the story of Artaban, a fourth, who had also seen the star in its rising and had started for Bethlehem with gifts of great gems: a sapphire as "blue as a fragment of the night sky," a ruby "redder than a ray of sunshine," and a pearl "pure as the peak of a snow mountain at twilight."

As Artaban rode his swift steed, Vada, to meet the other three Magi, he came upon a dying man lying across the road. Irked by the delay but filled with compassion for the suffering Jew, Artaban dismounted and applied his skill as an accomplished physician to cure the malady. In gratitude upon learning of his rescurer's quest, the patient directed him to Bethlehem and not Jerusalem.

Artaban arrived too late at the appointed place to meet his friends. It was inevitable that he sell his sapphire in order to finance a camel trip across the desert to Palestine.

He reached Bethlehem where a young mother with a baby boy told him that the other wise men had already been there and gone. She added that Joseph had suddenly departed with Mary and the young child for Egypt.

At that moment the soldiers of Herod came pounding at the cottage door of the young mother. They were bent upon killing all infant boys as King Herod had ordered. Artaban bargained with the captain of the band and handed over his ruby in exchange for the life of the child within the house.

From Bethlehem, Artaban went into Egypt in search of him born "King of the Jews," a search that was to carry him along a maze of highways and through a period of thirty-three years.

Finally, aged and weary but still looking for the King and still clinging to his pearl of great price Arbaban came again to Jerusalem for the last time. There he learned of the scheduled crucifixion of the one who called himself the Son of God. He hastened toward Golgotha, the place outside the city walls where the execution was to be held.

On the way he met soldiers carrying a terrified, sobbing girl away into slavery. Artaban faltered, his soul torn between the expectation of faith and the impulse of love. The latter prevailed, and he used the luminous, radiant pearl with which to purchase the maiden's freedom.

Suddenly the sky darkened and a great earthquake convulsed the ground. A falling tile struck him on the head, and he fell bleeding beside the girl he had rescued.

A soft voice like wordless music came to them. The girl did not understand them, but she saw Artaban's lips begin to move and heard him say:

"Not so, my Lord! For when saw I Thee hungered and fed Thee? Or thirsty and gave Thee drink? When saw I Thee a stranger and took Thee in? Or naked, and clothed Thee? Three and thirty years have I looked for Thee, but I have never seen Thy face, nor ministered unto Thee, my King."

Again the sweet voice came, and this time the maiden herself understood the words:

"Verily I say unto thee, inasmuch as thou hast done it unto one of the least of these, my brethren, thou hast done it unto me."

Artaban's eyes closed for the last time. An expression of serene happiness settled upon his countenance. The gifts of the fourth wise man had been received by his King.

Only your physician can decide which drug is right for you. But you can ask for lower cost alternatives.

Cleopatra was actually the seventh Egyptian queen of that name.

NOTICE

To The Customers of Waterworks District No. 1:

The Cameron Parish Waterworks District No. 1 of Cameron was out of Compliance with the Safe Drinking Water Act (P. L. 93-523) from October 15, 1995 to November 14, 1995. The following is a required notification to our customers.

The Act requires the notice to include the following statements:

During the reporting period of October 15, 1995 to November 14, 1995 the Cameron Water Works Dist. #1 Water Supply violated the maximum contaminant level of coliform bacteria as set forth in the State and Federal Primary Drinking Water Regulations. Action was taken to eliminate the contamination.

The United States Environmental Protection Agency (EPA) sets drinking water standards and has determined that the presence of total coliforms is a possible health concern. total coliforms are common in the environment and are generally not harmful themselves. The presence of these bacteria in drinking water, however, generally is a result of a problem with water treatment or the pipes which distribvute the water, and indicates that the water may be contaminated with organisms that can cause disease. Disease symptoms may include diarrhea, cramps, nausea, and possibly jaundice, and any associated headaches and fatigue. these symptoms, however, are not just associated with disease-causing organisms in drinking water, but also may be caused by a number of factors other than these. EPA has set an enforceable drinking water standard for total coliforms to reduce the risks of these adverse health effects. Drinking water which meets this standard is usually not associated with a health risk from disease-causing bacteria, and is considered safe.

NOTICE

During the reporting period of October 15, 1995 to November 14, 1995, the Cameron Parish Waterworks District No. 2 Water Supply violated the maximum contaminant level of chloroform bacteria as set forth in the State and Federal Primary Drinking Water Regulations. Action was taken to eliminate the contamination.

The United States Environmental Protection Agency (EPA) sets drinking water standards and has determined that the presence of total chloroforms is a possible health concern. Total chloroforms are common in the environment and are generally not harmful themselves. The presence of these bacteria in drinking water, however, generally is a result of a problem with water treatment or the pipes which distribute the water, and indicates that the water may be contaminated with organisms that can cause disease. Drinking water which meets this standard is usually not associated with a health risk from disease-causing bacteria, and should be considered safe.

The Cameron Parish Waterworks District No. 2 submits water samples, taken by the La. Dept. of Health and Hospitals. For the month of October 1995 water samples were not in compliance with Standards. The Cameron Parish Waterworks District No. 2 completely flushed out the distribution system, increased the level of chlorination and submitted new samples to the Louisiana Department of Health and Hospitals.

As of November, 1995, the Louisiana Department of Health and Hospitals has determined that the Cameron Parish Waterworks District No. 2 has corrected the problem and is now in compliance with Standards.

Mrs. Mamie Durapau

Mrs. Durapau is 99 yrs. old

Mrs. Mamie Durapau of Lake Arthur visited in the home of her daughter, Joy D. Tanner in Grand Chenier Friday, Dec. 1, to celebrate her 99th birthday.

Born on Chenier duFond, the daughter of Wesley and Mary G. Vaughan, she lived there until she married Louis Charles Durapau. They moved to Lake Arthur. They parented the late Robert Durapau and Joy Tanner.

Highlights of the day, Friday, were visits with Elora Montie and Cressie Dyson, cousins of Mamie. She, also visited Marie Swire and recalled Hurricane Audrey days.

A 100th-birthday celebration is already in the planning for 1996.

Cameron-Great Outdoor Parish!

CAMERON, LA. 70631

Dec. 14, 1995 39th Year--No. 44

THE 1996 Louisiana Fur and Wildlife Festival is only a month away. The above picture was taken of a float in the 1994 festival parade as it moved down Cameron's main street.

Four see.. ,ob as superintendent

ANGELA CONNER recently fulfilled the requirements of the State Board of Social Work Examiners and has been granted a license to practice in Louisiana. She is employed at Lake Charles Mental Health. She is the daughter of Bonnie Conner of Sweet Lake and Ronnie Conner of Grand Chenier.

The Cameron Parish School Board was scheduled to interview six candidates for parish school superintendent following the board's monthly meeting Wednesday afternoon, Dec. 13.

The board had previously deadlocked when Assistant Supt. Roger Richard and Curriculum Supt. Judith Jones each received three votes for the position. It was decided to advertise the position again with last Friday being the deadline for new applications.

Both Richard and Jones sent letters to the board indicating they were still interested in the position. In addition, four new applicants applied. These are:

■Ulland Guidry, supervisor of student services since 1983. He has worked for the School Board for 20 years, teaching at South Cameron High before moving to his present position.

■Ronald Johnson, who retired in 1994 as supervisor of vocational education for the Calcasieu Parish School Board. He previously served as assistant principal and principal at DeQuincy High School.

■Pam LaFleur, principal at Hackberry High School since 1974. She has been in the school system since 1969.

■Cliff Wishum, LaSalle Parish school superintendent since 1994. He was assistant superintendent there from 1986 to 1992, and served as superintendent in two Arkansas school districts before returning to LaSalle Parish in 1994.

All six applicants meet the state's requirements for a school superintendent and all were expected to be interviewed Wednesday.

Decoration winners told

Cameron Boy Scout Troop 210 held a Christmas yard decorating contest Tues., Dec. 12. The Scouts visited all neighborhoods in the Cameron area. Approximately 50 homes were judged on a combination of light display and yard decoration.

Scouts chose the home of Presley Hebert as the first place winner. Second place honors went to the home of Don Bailey. Third place winner was the home of Robert Doxey. Honorable mention went to the homes of James LeBoeuf and T-Bolo Trosclair.

The Scouts encourage everyone to visit all the neighborhoods in Cameron and view the Christmas decorations. The Scouts plan to make this an annual event.

Canik has bad luck at rodeo

Stephen Canik, 29, of Grand Chenier had some bad luck in the steer wrestling world's finals in Las Vegas, Nev. last week.

Canik, who was one of the 15 finalists in the event and was in 7th place, was injured on his first ride and was unable to compete after that.

Canik, who is now a professional rodeo rider, was on the South Cameron and McNeese rodeo teams.

Dronet named to scout board

E. J. Dronet of Cameron was elected to the board of directors of the Calcasieu Area Council, Boy Scouts of America at the council's recent annual meeting in Lake Charles.

Severance taxes down in parish

—CAPITAL NEWS—

September severance taxes continued the downward trend begun in June for Cameron Parish, resulting in third-quarter receipts which trail the levels recorded for the same period in 1994.

The September report from the state Department of Revenue and Taxation indicated that natural resource production in the parish yielded $1.2 million in severance taxes, down from $1.4 million the previous month but still the seventh highest figure in the state. Tax receipts have been dropping steadily since reaching $1.7 million in the parish during May. Third-quarter figures for this year totaled only $4.1 million, which is about $1.1 million less than was recorded for work in the parish a year ago.

The majority of the parish's total was received for natural gas production, which accounted for $685,216 of the month's collections and ranked the parish fourth in that category. Oil added the remaining $578,671 to the figure.

The parish collecting the tax on oil and natural gas receives one-fifth of the total up to $500,000. Seventy-five percent of all revenue collected on timber products goes back to the parish.

Plaquemines as usual exceeded all other parishes in production, reporting $5 million of the state's total for the month. Vermilion was its nearest competition with $2.9 million, and Terrebonne followed fairly close behind with $2.5 million for September. The $2.1 million recorded for production in Lafourche placed it fourth overall, and Iberia reported $1.5 million to come in just ahead of St. Mary with $1.4 million. The only other parish with more than $1 million in overall severance taxes was Cameron, which recorded $1.2 million in September receipts.

Second ferry not justified

The amount of traffic using the big ferry, Cameron II, on the ship channel at Cameron does not justify the addition of a second ferry, the Cameron Parish Police Jury was advised in a recent letter from Jude W. P. Patin, secretary of the La. Dept. of Transportation.

The jury had requested the second ferry to speed up the crossing of vehicles over the ship channel.

Patin said that the only locations where the highway department operates the double ferry service is on the Mississippi river at Plaquemine and Reserve and that the traffic there is much greater than at Cameron.

Applications due Friday

Applications for the 1996 Miss Cameron Parish Pageant are due Fri., Dec. 15. There will be no late applications accepted. Application forms are available at all parish high schools.

If you have any questions or need an application, call Angelia Conner, pageant director, 542-4014.

Meeting set

The Cameron NAACP Chapter will meet at 7 p.m., Friday, Dec. 15 at 183 Lillian street in Cameron, according to Louise Cole president.

Fur and Wildlife Festival is near

By GENEVA GRIFFITH

The 40th annual Louisiana Fur and Wildlife Festival, which this year will honor the menhaden industry, will be held in Cameron Jan. 10-13, 1996.

King Fur 28, who will rule over the festival, will come from the menhaden industry and will be crowned by King Fur 27 Billy Doxey at the Thursday night program.

His identity will remain a secret until that night. He will be chosen by the festival board of directors.

One of Louisiana's oldest festivals, the Fur and Wildlife Festival is always held during the winter when muskrats can be obtained for the fur skinning contests, according to Pete Picou, festival president.

All festival programs and pageants will be held at the Cameron Elementary School Auditorium with the admission $4 for adults and $2 for children. All outdoor events will be held on the festival grounds behind the Cameron Courthouse. The gate charge is $1.

A new contest has been added this year to the Wednesday night contest - Deb Queen. Also on that night the reigning Junior Fur Queen, Sarah Ann Vaughn will crown the 1996 Junior Fur Queen.

Thursday night the carnival rides will start on the festival grounds at 7 p.m. The Little Miss and Mr. Cameron Parish contest and talent show will be held at the Cameron Elementary School. The new Little Miss and Mr. will be crowned by last year's winners, Kaleb Trahan and Courtney Conner.

Friday is designated as Cameron Parish Day, and registration for competition in the contests will be held 30 minutes prior to the contests.

The fairgrounds open at 8 a.m. with carnival rides, booths, and the state trap shooting competition.

At 9 a.m. the parish junior archery contest will be held, followed by the carnival rides and the senior archery contest at 10 a.m.

The junior and senior retriever dog trials will be at 2 p.m. At 7 p.m. the Miss Cameron Parish contest and the crowning of King Fur 28 will be held.

Jennifer Broadus, 1995 Miss Cameron Parish, and Billy Doxey, King Fur 27, will crown the new royalty.

The fair grounds open at 8 a.m. Saturday and the first event will be the state trap shooting competition. The junior and senior state archery contest will be at 9:30 a.m. and displays can be viewed in the festival building.

A live band will start playing at 10:30 a.m. and continue throughout the day.

A parade down Cameron's Main Street (La. 27) will start at noon at Jones and Alexander Law Firm.

At 1:30 p.m. the ladies and mens oyster shucking contest will be held on the festival grounds. Also, at 2 p.m. the state and parish retriever dog trials, the skinning and trap setting contests will be held.

At 3 p.m. the junior and senior duck calling, junior and senior goose calling, and parish dog trials will be held.

At 7 p.m. at the Cameron Elementary School, the national men's muskrat skinning and men's trap setting contests will be held.

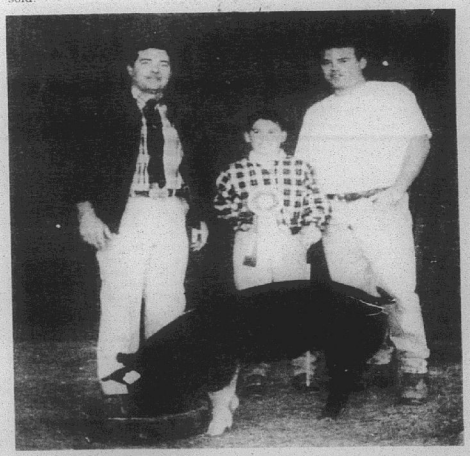
The winners will receive trips to the National Outdoor Show in Cambridge, Maryland.

The crowning of the new 1996 La. Fur Queen by the reigning Queen Adrienne Picou will conclude the program.

At 9:30 p.m. an adult dance will be held at the Cameron K.C. Hall with $6 admission. Gumbo will be sold.

Cameron is featured

"The Untamed Coast: Pictures and Words About Rare People and Rare Places Along the Edge of the America" was recently published and features some scenes from Cameron Parish. It features pictures taken by photographer/travel writer Peter Jenkins.



The book is a companion book to an earlier book written by Jenkins telling about his experiences on a trip along the Gulf coast in a small boat. He spent a week or so in Cameron parish and had a chapter devoted to the parish.

Lake Charles American Press writer Mike Jones had this to say about the book in a recent review:

"Of interest locally is the chapter devoted to Cameron Parish. Right in our own backyard is some of the most gorgeous scenery in the world and Jenkins does it full justice with his photographs.

"The incomparable beauty of Cameron Parish is shown in photographs of moss-draped oaks, beautiful birds in the marshes, Calcasieu Lake, Mud Lake, and the Gulf beaches.

"He also photographed a black-gray storm moving in off the Gulf of Mexico with its awesome power and pounding waves."

BRETT BACCIGALOPI, center, exhibited the Reserve Champion prospect hog at the Jennings FFA Christmas Classic held Sat., Dec. 2. He is shown with show of show judge, left, and Patrick Wertz, right of Wertz Hog Farm.

Just when you thought banks just don't get it,

Account One

(we got it).

Yes. We really have it, and it's exclusively available to you at Calcasieu Marine: a single account replacing all others, paying great interest rates on your account balance, with **no fees or charges** when the account balance minimum of $7,500 is maintained.

No more checking account and savings account at a bank, money market account to earn deposit interest from some brokerage firm, and CDs somewhere else, to boot. A single account, with a consolidated monthly statement, that does it all.

Your account is accessible to the max: by check, ATM, account transfers, ACH deposits/debits, and through CMNB's current debit card program.

Charges?

Just maintain the $7,500.00 account balance minimum, and you **will be charged nothing**: no annual fee, no monthly service charge, no transaction fees, no per-check or check-printing charge (with our wallet-style corporate image checks), no fee for Travelers' Checks or Stop Payment service, and no overdrafts.

The end of complicated personal money management.

Account Balance	Annual Percentage Yield
$50,000.00 +	5.54%
$15,000.00 – $49,999.99	5.01%
$7,500.00 – $14,999.99	3.97%

Rates may change after the account is opened, adjusted weekly to the 30-Day U.S. Treasury Bill asked rate, and rates shown are effective November 28, 1995. The account minimum is $7,500, and interest is not earned on lesser amounts. If the balance falls below $7,500, fees imposed could reduce earnings. Interest is earned on the entire account balance at the highest qualifying rate. The account is for individuals only.

Mrs. Dallas L. Brasseaux

Mrs. David Reeves

Brasseaux-Demary vows said Dec. 9

Aimee Claire Demary and Dallas Lionel Brasseaux were married Sat., Dec. 9, in Our Lady of Good Counsel Catholic Church. Officiant of the double ring ceremony was the Rev. Jace Eskind.

The bride is the daughter of Mr. and Mrs. Jerry (Carol) Demary of Grand Lake and the groom is the son of Mr. and Mrs. D. L. (Elizabeth) Brasseaux of Grand Chenier.

Matron of honor was Tammy Demary and bridesmaids were Angela Worley, Angela Whittington, Tara Andrepont and Michelle Trosclair.

Flower girls were Alaina Comeaux and Dainty Little and ring bearer was Cameron Comeaux.

Best man was Michael Brasseaux and groomsmen were Tommy Demary, Beau LeJeune, Jody Boudreaux and Philip "Scooter" Trosclair. Ushers were Randy Demary and Milton Collins.

The bride, a graduate of LaGrange High School, is an employee of Cecil Sanner Law Office, and the groom, a graduate of South Cameron High School, is an employee of Lake Charles Rubber and Gasket.

After honeymooning in Tennessee, the newlyweds will live in Grand Lake.

Reeves-Whitmore vows pledged in Lafayette

Tamara Cherie Whitmore and David Reeves were married Friday, Dec. 9, at 1:30 p.m. at the St. Genieve Catholic Church in Lafayette. Father Bill Melancon officiated at the ceremony. Patrick Melancon provided the music.

Parents of the couple are Cheryl Gaudin and Joseph Whitmore, Jr., and Alice L. Reeves and the late Elray Reeves.

Given in marriage by her brother, the bride wore a silver and white two piece ensemble. The jacket featured a Queen Anne neckline with re-embroidered alencon lace embellished with sequins, pearls and bugle beads. Completing the edge of the lace and the tuxedo hem of the jacket was fringe of irridescent bugle beads. A gored skirt was worn with western boots and she carried a red silk arrangement of antheriums with baby breath. The bride wore a western hat with tulle draped around to fingertip length.

Honor attendant was Cheryl Gaudin and Madeline "Puddy" Solina and Stphanie Foreman were bridesmaids.

Ring bearers were Ryan Richard and Travis Richard.

Best man was Leonard Ray "Pap" Reeves and groomsmen included E. Daniel "Danny" Richard, Brian "Bam-Bam" Bihm, and Rene Breaux. Ushers were Shawn Reeves and Jeremy Breaux.

A reception followed in the church hall.

The bride is a graduate of Carencro High School and is attending the University of Southwestern Louisiana.

The groom, a graduate of Hackberry High School, is self-employed.

After a wedding trip to Walt Disney World, the couple is making their home in Lafayette.

FOR THE RECORD

These Cameron Elementary honor roll student names were omitted in the recent news article.

Fourth grade: Tara LeBlanc, John Theriot, Cassandra Trahan and Frankie Williams.

Denim was first woven in Nimes, France, about A.D. 300 and was called serge de Nimes. In the late 1800s, the American clothing manufacturer Levi Strauss produced the first blue denim jeans.

PUBLIC NOTICE
CAMERON PARISH COASTAL
USE PERMIT APPLICATION

Interested parties are hereby notified that the Coastal Management Section of the Cameron Parish Police Jury has received the following apparently complete application for a Coastal Use Permit in accordance with the rules and regulations of the Louisiana Coastal Resources Program and R.S. 49, 213.1, the state and Local Coastal Resources Management Act of 1978, as amended.

L.C.U.P. Application #951207

Name of Applicant: Cameron Parish Waterworks District #11, P.O. Box 339, Grand Chenier, La. 70643.

Location of Work: Little Chenier Area, Section 12, T14S, R7W, Cameron Parish, Louisiana.

Character of Work: To provide a groundwater source for a municipal water system. Install and maintain fill water well, auxiliary power unit and fuel storage tank. Approximately 1100 cubic yards of sand and clay material will be transported to the project site by dump truck. To excavate site and provide proper surface drainage.

The decision on whether to issue a permit will be based on an evaluation of the probable impacts of the proposed activity in accordance with the state policies outlined in R.S. 49:213.2. The decision will reflect in the national concern for both protection and utilization of important resources. The decision must be consistent with the state program and approved local programs for affected parishes and must represent an appropriate balancing of social, environmental and economic factors. All factors which may be relevant to the proposal will be considered; among these are flood and storm hazards, water quality, water supply, feasible alternative sites, drainage patterns, historical sites, economics, public and private benefits, coastal water dependency, impacts on natural features, compatibility with the natural and cultural setting and the extent of long term benefits or adverse impacts.

Certification that the proposed activity will not violate applicable water and air quality laws, standards and regulations will be required before a permit is issued.

Any person may request, in writing, within the comment period specified in this notice, that a public hearing be held to consider this application. Request for public hearings shall state, with particularity, the reasons for holding a public hearing.

Plans for the proposed work may be inspected at the Cameron Parish Police Jury Annex Building, Coastal Management Division, Courthouse Square, P.O. Box 366, Cameron, Louisiana, (318) 775-5718. Written comments should be mailed within 25 days from the date of this public notice to Cameron Parish Police Jury, Coastal Management Division, Post Office Box 366, Cameron, Louisiana 70631.

LAKESIDE LACONICS

Cameron Parish has a new post office. The lower office has been moved from the Calcasieu district to its proper place in the Cameron territory. Mrs. John Rupert is Post Mistress and Miss Winfield is assistant Post Mistress.

Our school Supt., Mr. T. N. McCall, visited the schools of this section Tuesday.

SWEET LAKE BRIDGE PLANS

The pontoon highway bridge to replace the ferry on the Intracoastal Canal at Sweet Lake will be built sometime early next year, it was learned this week from the Louisiana Department of Highways.

The plans are for a steel pontoon bridge, similar to the ones in operation on the Intracoastal at Gibbstown and at Ellender's Ferry.

State Rep. Alvin Dyson said this week that the estimated cost of the bridge is around $350,000 and that a contract probably will be let in March.

He said that the plans for the new 50-car ferry at Cameron are almost complete and that a contract on the construction of the 50 by 200 foot vessel will be let shortly also. A new ferry landing will be constructed next to the present landings.

PARISH SCHOOLS
50 YEARS OLD
By Archie Hollister

Nearly half a century ago, Dr. John M. Foote of the state Department of Education, visited the schools of Cameron Parish and on his return to Baton Rouge, he submitted his report of the conditions as he found them. While here he mananged to visit all portions of the parish, except those communities west of the Calcasieu River.

He did attempt to go to Johnson Bayou, but as the only road available in those days was the beach, he had to turn back because, as he says, "A strong south wind and a rapid rise of the Gulf prevented the completion of this trip."

The report bears no date, but it must have been made sometime between 1913 and 1917. He speaks of a newly-built school at Sweet Lake which was erected in 1913, and recommends that the four schools on Grand Chenier be consolidated. This consolidation was accomplished in time for the opening of the fall session in 1917. Mr. Thos. W. McCall of Grand Chenier was superintendent of schools in Cameron at this time.

The following excerpt from the report referring to the schools of Grand Chenier is typical: (Only one school is described here).

GRAND CHENIER

This is a one-teacher school located on the western end of Grand Chenier ridge and on the Mermentau River. The house is 24 x 44 feet, has ten windows arranged at intervals on three sides; the exterior is badly in need of a new coat of paint; the interior is ceiled, painted and kept in good sanitary condition.

The windows and doors are screened as a protection against mosquitoes and other insects which at times make life almost unbearable in this section. The equipment consists of patent desks that are old and worn, a teacher's desk, a library of 130 volumes, a dictionary, forty feet of pulp blackboard, shades, a case of maps, eight pot plants and two framed pictures.

The teacher is competent, has had seven years experience, holds a first grade certificate, receives sixty dollars per month, and is serving the third session here. The enrollment is thirty-two in five grades, and the attendance is 27. Four pupils are in the eighth grade. The daily programs showed 21 recitations.

Some changes were made so as to make needed combinations and increase the amount of time for the lower grades. The literary society is reported to be doing good work in which the pupils take considerable interest.

The session is eight months. The two-acre site is well-drained, bare of ornamentation, fenced, and is privately owned. The cistern that supplies drinking water is without top or screen. The pupils go directly to the cistern with individual cups for water.

There are two toilets of the deep-pit type.

Cameron -- Mr. and Mrs. Buster Rogers accompanied by the Edward Saucedlis last week drove to St. Louis, Missouri.

PHOTOCAPS

Princess -- Patty Jo Hebert, daughter of Mr. and Mrs. Dewey Hebert, will be the sophomore princess at the Grand Lake High School Homecoming on Jan. 8.

Homemakers plan Yule activities

With the holidays close at hand, members of the Creole Homemakers Club devoted a large part of their November meeting to finalizing plans for upcoming Yule projects. The meeting was held in the home of Estelle Theriot who also served as hostess.

As the club's annual holiday community project members will give gifts to two needy children through the "Giving Tree" which will be set up in the lobby of Sacred Heart Church in Creole. This will be done by picking two stars off the tree with the gift listed thereon.

In planning the club's Christmas social, members voted to have a luncheon at the Cajun Restaurant in Creole on Tuesday, Dec. 12, at 11 a.m. Spouses and other guests are invited, and the club will furnish several door prizes. Following the luncheon, members will drive to the Iowa Mall for an afternoon of shopping.

President Earline Baccigalopi read letter from the Cameron Parish Chamber of Commerce asking for the club to submit a nominee for the 1995 Cameron Parish Citizen of the Year, and a nominee for the Memorial Award. Accordingly, members discussed several nominees, and then voted their two selections.

Cameron Parish Outdoors

By Loston McEvers

SECOND HALF BEGINS

This weekend our duck hunters will take to the marsh for the last of the duck-coot split (Dec. 14-Jan. 11). I'm hoping at this writing that the shotgun shell situation is better, as 12 gauge, 2-3/4 number 3 and 4 are almost a no-no.

Here's a breakdown on other hunting in our parish: Goose season also opens Dec. 16, as well as gallinules, doves and deer. Still open is king and clapper rails, sora and Virginia rails, snipes and woodcock, quail, rabbit and squirrel. Cameron Parish has no more either-sex deer days, strictly bucks only.

TRAPPING STARTED

Although trapping season opened Nov. 20, most trappers here only started since the first of December as they really didn't know if they could sell because of leg hold traps, whether there were buyers or even if the price was good enough to go through the expense of trapping.

It seems that the nutria could be more in demand if what's fixing to happen takes place. With all the health conscious folks, nutria will be offered for its nutrition and tasty meat, yet low in fat and cholesterol. They claim the nutria meat is healthier than chicken, turkey and ground beef, as well as game meats like deer, rabbit and squirrel.

It would surely help if the meat could bring a higher demand for nutria, as they are eating marsh grasses and doing damage to our coastal marshland that will probably never be repaired. The campaign to promote nutria has already begun.

DOVE HUNTING UNDER FIRE

The Fund for Animals has challenged the U.S. Fish and Wildlife Service in the way it is setting dove hunting regulations. Animals rights activists are whining about hunting and trapping which is nothing new, but now the upland game hunters are the target. It seems all forms of hunting are at risk today. It seems the activists staging a media event appear serious and a lawsuit is possible.

They are challenging the FWS plan which they claim allows individual states in the southeastern United States to determine dove baiting regulations. (Louisiana is in the Southeast Region.) The Fund for Animals group is convinced that letting states determine what constitutes normal agricultural planting and harvest practices are harmless to doves. The activists call dove hunting a blood bath and that the Bird of Peace will be slaughtered to extinction.

NEWS TALK

When migration starts the state of Louisiana hosts some of the most interesting birds in the world. Probably the most uncommon to this area is the black belly tree duck. It has long feet, legs and neck and looks more like a goose than a duck. It's color is grayish-brown above and black below with a red bill and pinkish legs and feet. The under wing is black and upper wing is white.

We down here in the south call them whistling ducks or Mexican Squeelers. They breed along the Gulf Coast, especially where they have rice fields. It is said they're not suppose to be here, but they are. There is a good population on Lacassine Refuge and we see them in our marshes and have bagged 7 or 8 the first split and they do light in the willow trees along our lease levee.

FISHERMAN'S QUOTE

Most anglers spend their lives in making rules for bass, and it seems bass spend their lives breaking the anglers' rule.

You know you've heard the saying, "You should have been here yesterday," well, the last fishing trip I went on, the fishing was so good I though I was there yesterday!

39th Year--No. 45

KRISTI JO DUPUIE, daughter of Mr. and Mrs. D. A. Dupuie of Grand Chenier, has been named the Cameron Parish Cattlemen Queen and will represent the parish in the state Cattlemen Queen contest in New Orleans tghe weekend of Jan. 13.

Santa to be here Sat.

Charles Hebert, chairman of the annual Santa Claus visit to Cameron for the Cameron Lions Club, announces that the event will be held Sat., Dec. 23, at 2 p.m.

Santa will arrive on the courthouse square aboard the Cameron volunteer department fire truck.

He will pass out candy on the courthouse steps and will interview each child attending and hear their Christmas wishes.

SANTA CLAUS will be at the Cameron courthouse this Saturday at 2 p.m. to greet area children. This photo was taken during his visit last year. (Photo by Geneva Griffith.)

THE 1995 Louisiana Fur and Wildlife Festival queen Adrienne Picou, center, is shown with Cameron Telephone Co. General Manager Raymond Henagan and Festival Vice-President Rosalie Perry unveiling the 40th anniversary commemorative poster for the 1996 Festival. The poster will be on sale at various locations.

Condensate spills off Cameron Sat.

Louisiana and Texas authorities responded to a natural gas condensate spill about 35 miles south of Cameron Saturday.

Up to 740 barrels of the gas condensate, a by-product of natural gas recovery, spilled from a Chevron offshore platform Friday.

The cause of the spill is still under investigation, but Chevron officials think it was a valve malfunction.

Saturday morning a U.S. Coast Guard Falcon airplane, out of Corpus Christi, found at least 4,200 gallons of condensate in a sheen two miles across and five miles long.

By mid-morning, Chevron was recovering the condensate with an oil skimmer. By noon, Chevron and the Coast Guard decided to employ dispersants to speed the cleaning and minimize the environmental impact.

Dispersants speed the degradation of oil so it can be more easily consumed by microorganisms. This is the first time aerial dispersants have been used since federal and state officials created a dispersant policy in January.

Sales OKed for eves

As the result of action taken by the Cameron Parish Police Jury, all parish businesses holding Class A or Class B liquor permits will be permitted to sell liquor on Christmas eve and New Year's eve from noon until 1 a.m., Monday.

Bank may be for sale

Calcasieu Marine National Bank and its holding company, CM Bank Holding Company, announced today that they were reviewing options for the future of the institutions, including a possible sale.

In connection with their actions, the institutions have retained an investment banking firm to contact other institutions concerning the terms that could be obtained in a sale. That process is expected to take several weeks.

William B. Lawton, Chairman of the Board of the bank and the holding company, as well as a principal shareholder, stated:

"In these times of rapid change and consolidation in the banking industry, it seemed prudent to consider whether affiliation of the Bank with a larger institution was appropriate. We are going through this process carefully and deliberately, keeping in mind shareholder value and the interests of our community, customers and employees."

Calcasieu Marine National Bank is headquartered in Lake Charles, Cameron, Jeff Davis and Allen Parishes. At September 30, 1995, it had assets of approximately $753,000,000 and deposits of $588,000,000 making it the largest bank in Louisiana not currently affiliated with another organization.

J.B. school given award

Johnson Bayou high school recently received the Scholastic Achievement award from the State Board of Elementary and Secondary Education and the Louisiana Dept. of Education.

The award was given in recognition of the school having an overall attainment rate of 95 percent or greater on the Criterion-Referenced Tests from 1993 to 1995.

Doug Welch, Johnson Bayou principal, was presented with the award at the recent school board meeting. The news report on the meeting incorrectly listed South Cameron high as receiving the award instead of Johnson Bayou.

Garbage schedule

All of Cameron Parish's garbage collections will be changed for the weeks of Christmas and New Year's. All collections will run one day later than normal during those two weeks.

Office closed

The Cameron Parish Cooperative Extension Service, LSU Agricultural Center, will be closed from Mon., Dec. 25, through Tues., Jan. 2.

Lil Mr.-Miss

Christian McCall was crowned Little Miss Grand Chenier and Ronald "Nick" Aplin Little Mr. Grand Chenier at the contest Nov. 30. Christian is the daughter of Thomp and Karen McCall and Nick is the son of Kim Aplin, all of Grand Chenier.

First runner-up for Little Miss was Chelsea Mhire and Little Mr., Andre Savoie.

Christian and Nick will compete in the 1996 Fur and Wildlife Constest in January.

REPRESENTING Grand Chenier in the Little Mr. and Miss Cameron Parish Contest will be Nick Aplin and Christian McCall who were chosen in a local contest recently.

BOARD TO VOTE THURSDAY

Three more candidates interviewed for Super.

By GENEVA GRIFFITH

Three additional candidates for Cameron Parish school superintendent were interviewed after the monthly meeting last Wednesday of the Cameron Parish School Board.

The six-member board has been deadlocked for the past three months on naming a new superintendent. Assistant Superintendent Roger Richard and Curriculum Superintendent Judith Jones each received three votes in several rounds of voting.

When it was decided to readvertise the position four new people sent in applications and Richard and Jones sent letters to the board indicating they were still interested in the position.

Richard and Jones had previously been interviewed by the board at a meeting which was at first closed, but later opened to the public, thus was not covered by the media.

Prior to the interviews the board announced they had received a letter from Cliff Wishum asking to withdraw his name because he was not interested in only a one year contract.

RONALD JOHNSON

Ronald Johnson was the first to be interviewed. He retired in 1994 as supervisor of vocational education for the Calcasieu Parish School Board. He previously served as assistant principal and principal at DeQuincy High School. He told the board that he would be willing to move to the parish if he was given the job.

He also said that he felt like he could bring the board together through fairness, "Everyone will have to work together", he said, "however, it can be accomplished through fairness and compromise and if everyone is treated fairly, it can be done, but may be tough".

When asked about his feelings on the 504 program (Attention Deficit Disorder), he said "Children who have to have special conditions need teachers who have more training in this area."

He also said he would have to look at the responsibilities of the staffing to see where the money could best be used and that the education of the students should be the first priority.

"I am very frugal with money I am responsible for," he said.

When asked about discipline he said there are ways and means to handle it and that students must learn responsibilities and consequences. He also said he could live without tenure for support personnel.

PAM LAFLEUR

Pam LaFleur, Hackberry high school principal since 1974 and a member of the school system since 1969, was next interviewed.

She stated, "We need unity, not this division and hard feelings. I feel that I have the leadership ability to pull this parish together by treating everyone fairly and address the issues, the problems should be solved here."

When asked how she would address the board's financial difficulties she said there needs to be a reduction in force without affecting the quality of education, and this should start in the central office. Some of it could be taken care of through attrition.

"Transportation can also be reduced and if you can show people of the parish that you are addressing this issue the people will support a tax," she said.

On the subject of discipline, she said the parents should be contacted and be given the opportunity to help work out the problems.

She said in answer to her feelings on technology that there are a lot of resources available and for the system's small size we seem to be on target.

In answer to how she felt about the involvement of parents, she said she thought communication with parents is vital, and that the PTA is a wonderful way to involve parents. Parents in Hackberry have served as volunteers and a parental committee in each school would be a great beginning, she said.

She said she has no problem with tenure. "If a person doesn't do what they are supposed to do, they can be dismissed."

She believes in involving business and industry in Partners In Education, and in fact, there are at least two involved with the Hackberry school.

Her solution for bringing the board together would be fairness. "Everyone will have to work together through fairness and compromise, some things may be tough, but if everyone is treated fairly, it should work."

She felt that teachers need more training in the area of the 504 program with children with ADD.

ULAND GUIDRY

Uland Guidry was the last to be interviewed. He has been in Cameron Paris for 28 years, serving eight years in the LSU Extension Service as a 4-H Agent and the rest in the school system and has been supervisor of student services since 1983.

He stated that applying for this position was a last minute decision and not without a lot of "soul searching".

"We have many problems, an image problem, in-fighting and not being able to trust one another, and we have finance problems and no hopes of getting any more money," he said.

"We should have quality and excellence in our education programs and we should be open for new ideas."

His idea for solving the budget problem would be to develop a plan to reduce employees through attrition, salary schedules, setting up a salary schedule for new employees, consolidate bus routes.

"My track record speaks for itself, and I will work hard to get unity back in the system by being a good listener, being fair, and receptive to ideas. I would expect the board to work with me in achieving this", he said.

When asked if he would be willing to work without an assistant, he said this would be up to the board but he would need all the support he could get, especially in the first few months. He also said he planned to stay in the system for three more years.

He felt that the discipline in the schools is good and that the supervisors should demand respect to maintain it.

40th anniversary poster printed

In a joint effort to commemorate the 40th anniversary of the Louisiana Fur and Wildlife Festival, Cameron Telephone Company and the board of directors of the Festival commissioned artist Frank Brown to create a special edition poster for this anniversary year.

This brightly colored poster depicts Cameron Parish, the festival and nine Cameron Parish industries, one of which is saluted each year during this four-day event. One thousand prints of this limited edition poster will be on sale during this year's festival; the first 100 will be signed and numbered by the artist; the remainder will be numbered only.

The original artwork will be displayed at the Police Jury Building in Cameron; in addition, framed prints of the poster can be viewed in the lobbies of both Cameron State and Calcasieu Marine banks.

Roach will close office

Rep. Randy Roach, state representative for Cameron Parish for the parish eight years, will leave office on Jan. 8 when the new representative, Dan Flavin, is sworn in.

Myrna Conner, Rep. Roach's legislative assistant for Cameron parish, announced that his Cameron office will be closed on Dec. 21. However, his Lake Charles legislative office will be open until Jan. 8 and can be reached by calling 478-8551.

Mrs. Conner has served as Rep. Roach's assistant for eight years and prior to that held with a similar position with Senator Cliff Newman for eight years.

She states that she plans to enter the insurance field.

Jr. Livestock show is set

The Cameron Parish Junior Livestock Show will be in January with the sale of animals set for 12:30 p.m. at the Mosquito Control barn near Cameron.

The Junior Livestock Sales Committee is seeking buyers for the 4-H and FFA animals and interested businesses and individuals may contact Ricky Poole, show president, or Bill Delcambre, vice-president, for information.

Holiday closings

Cameron Parish Government offices will be closed Monday and Tuesday, Dec. 25 and 26, and Monday, Jan. 1; the 38th Judicial District Court will be closed Monday and Tuesday, Dec. 25 and 26, and Jan. 1 and 2.

Cameron Parish School board offices will be closed Dec. 22-26, 29, Jan. 1-2.

FLETCHER MILLER, who has been associated with the Louisiana Fur and Wildlife Festival since its inception 40 years ago, is shown holding a muskrat at last year's festival. Muskrat and nutria skinning contests are features of the festival which will be held the second weekend of January. (Photo by Geneva Griffith.)

Cameron kindergarten writes to Santa Claus

The following are letters to Santa Claus from Miss Shari's kindergarten class at Cameron Elementary School. They are written in the students' own words.

Dear Santa: Please bring me a Power Ranger toy, a Teddy bear, a stocking, a play candle light. I live in Cameron in a brick house. Plesae get something for my sisters and some new clothes for my Mom.

Rachel Fountain

Dear Santa: I want a remote control boat, a toy bazooka, remote control truck, a remote control battleship, toy tractor, dump truck and for my Mama a ring, for my daddy a bunch of tools, and my brother a golden eagle necklace. I will leave you some chicken legs by the tree and Coke like I always leave you. For PaPa a gun.

/s/ Kenneth Authement

Dear Santa: I want My Size Barbie. Please can you give me some skates, makeup to put on my face, and a toy nurse.

I love You,
Ashley Soileau

Dear Santa: I want a karate suit, a computer, a camera, and that's all. I will leave you milk and cookies on the table. I've been good.

Daniel Kelley

Dear Santa: Santa, have I been good or bad? I took Spike home so I was a little bit good. I love you. I like school a lot. Next time I won't be bad. Will you please bring me a computer, a boy Barbie, his name is Ken and he shaves over and over again, a pencil, and a Spike like we have at school. I have a bag for Spike.

David Vincent

Dear Santa: I want a puppy, a My Size Barbie, a Barbie house and a car and ball for my brother. Please bring my Mamma a ring and a flashlight for my Daddy. That's it.

Michaela Gray

Dear Santa: I would like you to bring me a Barbie jeep, a My Size Barbie, a jewelry box, a new mirror so I can see how pretty I am, a bracelet with gold on it, new earrings and that's all I want. Thank you. My MawMaw wants a cat. I would like to give Mamma a new necklace, earrings and rings for her fingers so she can wear it at her work and Dad wants a new chain saw so he can cut trees and plants can grow, and Johnith a new tractor.

Gatelyn Kiffe

Dear Santa: I want a new bike, a race car track, a computer, a karate suit, a karate man, and boxing gloves, a swimming pool, and a new basketball and goal. I want a ring for my brother, and for my sister a Christmas tree and new bows and decorations. My cousins want a colorbook. I've been good and I want a whole lot of presents.

Lance Braxton

Dear Santa: Thank you for my presents last year. My brothers would like trucks for Christmas, my Mamma would like a ring, Daddy would like a coat. I want The Splash Game, a pinball machine, a baby doll that cuts flips, and Daddy said Hi. My brothers have been nice and I've been nice too.

Danielle Gaspard

Dear Santa: Please will you bring me a BB gun, a skateboard, a hot truck and a Power Ranger suit. Bobby, Devon, Ellen want skateboards and Power Ranger suits. Bring Mamma a ring, and Daddy needs screw drivers and a new car and I need a tire swing for me. I will leave cookies by my tree Santa.

Grand Lake Knights tell New Year's dance

St. Mary of the Lake Knights of Columbus Council #11407 held its monthly meeting Nov. 29. The main item discussed was the New Year's Eve dance at the church hall. Gumbo will be served at 6 p.m. and the dance will start at 8 p.m. Jimmy Saltzman informed the council that Jerry Furs and the Teardrops will be the live band. The admission will be $5 per person.

The council now has embroidered golf caps for sale to members with the council name and emblem of the order. Financial secretary Ernest Vincent informed the council that all members are now eligible for the fourth degree exemplification. There will be one in Shreveport in January for those interested.

The council recognized Jimmy Saltzman and John Faulk for winning the district level gumbo cookoff and representing the council at the area cookoff. Also recognized at the meeting was the Family of the Month, the Joey Overmyer Family and Knight was Terry Cox.

The future project discussed is the decorating of the church hall. The KC council will work with the parish council and other organizations to have each church organization represented in certain sections of the hall.

—NOTICE—

The Cameron Parish School Board will meet in special session on Thursday, December 21, 1995, at 10:30 a.m. in the School Board Office, Cameron, Louisiana, to consider the appointment of a Superintendent.

HUNTING NEWS

The duck, coot, goose hunting opening last weekend and we have more ducks down than the first season and it seems more than last year. The cold, cold spells up north opened a door and week before last we saw two days of freezing weather that did leave ice in the shallow ditches and marshes.

The opening weekend saw lots of ducks and many hunters limited out early. It seems we have more mallards and pintails down as well as more teal ducks.

I really think the second split will be good, especially if we get some cold weather. We do have some areas of the state with more ducks that others as well as certain areas of our own marshes. I really didn't think our ducks would ever come back like they are, but I was wrong.

Now, on deer hunting, it was good for the ones who hunted. It seems with the quietness of no guns going off for a few days, the deer were sort of in herds, coming up to the back pasture and even barns with the cattle, eating side by side. One night we counted 15 deer and some real nice bucks among them.

FISHING NEWS

For those of us who tried fishing between the splits, we did have some good days, with the exception of two cold days and yes, the fish were turned on, especially bass and saltwater fishing wasn't so bad either.

State fish and wildlife agencies will be sharing $268 million in excise taxes paid by America's anglers, boaters, hunters and target shooters.

The agencies will use the money for wildlife conservation through land acquisition, habitat improvement, research, education and other programs. The funds also will help pay for hunting education programs and willdife related recreation proejcts.

Hunters, anglers and other sports enthusiasts have done more to support America's conservation programs than any other group.

Federal aid funds pay up to 75 percent of the cost of each project and the state pays 25 percent of the cost.

This money comes from 11 percent excise tax on sporting arms, ammunition, 10 percent on pistols and revolvers, and 11 percent on certain archery equipment.

The sport fish funding comes from a 10 percent excise tax on fishing equipment and a 3 percent tax on electric trolling motors and fish finders. Our state of Louisiana's funds for 1996 will be $2,015,343. We're 24th in the money, meaning 23 states get more than us, some up to $6 million.

TALK AROUND

Trapping is open, trappers are trapping and catching nutria, but the only word I got on price was probably $5 for top nutria.

A permanent ban on possession of six animal species and hybrids of two species are now in place in Louisiana, because of danger to humans, if they should come in contact with each other.

The animals are cougars or mountain lions, black bears, polar bears, grizzly bears, red wolves, and gray wolves. Wolf-dog hybrids are also banned.

When Christmas is over and you want to get rid of your live Christmas tree, contact the Cameron Parish Police Jury as these trees are used to stop soil erosion. You can help.

Fish die belly up and rise to the surface. It's their way of falling.

SUNRISE-SUNSET

Tues., Dec. 26 - 7:07 a.m. and 5:19 p.m.

Wed., Dec. 27 - 7:07 a.m. and 5:20 p.m.

Thurs., Dec. 28 - 7:08 a.m. and 5:21 p.m.

Wishing you a Merry Christmas.

SEASONS GREETING TO THE PEOPLE OF CAMERON PARISH:

This Christmas, let us all be thankful for the many blessings that we have in America and in Cameron Parish. Our parish may not be prospering as much as it has done in the past, but the opportunities and freedoms that we have here are the envy of many people elsewhere in the world.

I hope you all will have a wonderful Christmas with your families. If you go to holiday parties, please be careful afterwards while driving home.

I and my deputies are dedicated to serving you the people of Cameron Parish and feel free to call on us if we can be of help to you in any way.

As I was going over some of my papers I found a Prayer for the Day.

This is the beginning of a new day and soon will be the beginning of a New Year. God has given me this day as I will. I can waste it or use it for my good. What I do today is important because I'm exchanging a day of my life for it.

When tomorrow comes this day is gone forever, leaving in its place something that I have traded for it.

I want it to be gain, and not loss; good and not evil; Success and not a failure; in order that I shall not regret the price that I have paid for it.

So I wish each and every one of you a very Merry Merry Christmas, and a Happy and Healthy New Year and a brighter tomorrow and future!

Wishing you Happy Holidays,
James R. "Sono" Savoie

TRAVEL TALES. . . By Geneva G

A new fad discovered on overseas flight

By GENEVA GRIFFITH

If I were a superstitious person I would have had second thoughts about my recent winter trip to Hungary, Slovakia and Austria. For as I was going through security with my 40 tour members in the airport at Monroe, La., I was pulled off to the side to have my carry-on bag examined. I had meant to put my travel clock in my coat pocket because the same thing had happened to me before. However, I was glad that the security was tight.

After we had settled into our seat assignments we looked up to see a late arrival coming down the aisle and everyone on the plane was looking at him and whispering. We had just left John F. Kennedy airport for our overseas flight. He had a very weird ornament dangling down from his forehead that appeared to be either woven into his hair or possibly anchored to his scalp.

After we had gotten underway I saw that he was sitting in the very back of the plane so I finally got up enough nerve to go ask him the question that was on everyone's mind, "Are you a king, a prince, a gypsy or a hippy?" He laughed heartedly and said, "None of the above", and got up from his seat and joined me in the aisle when I asked him if I could take his picture. We walked to the very back where we were joined by Sammie Burnett, a member of our tour, and several stewardesses, who were all as curious as I.

SAMMIE BURNETT, one of the tour members from Monroe, La., adjusts the headpiece of Gabor Norman of Budapest, Hungary, a fashion coordinator and choreographer for fashion shows for movies in Hollywood, with one of his fad fashions he is trying to get started.

He explained that he was on his way home to Budapest from a stint in Hollywood and Las Vegas where he had been coordinating fashions for a movie.

He said his name was Gabor Norman and he was a former model, but for over three years had been working as a choreographer of fashions for movies and runways all over the world.

He had recently worked on a TV series, Chance of Place, starring Mickey Roark, which had won first place in Best Comedy Series at the Cannes Film Festival.

He seemed pleased that we had noticed his hairpiece and said he was trying to start a new fad, and if it took off he could be famous. He said he had purchased the beads in a flea market and had designed the headpiece himself, weaving the top into his hair, and possibly into his scalp (he didn't elaborate on that). He is getting married in June and his bride's headpiece will match his. She is also a fashion coordinator.

As we were coming in for our landing the pilot came on the loudspeaker and we were informed that two officers from the German police force would be checking us at the exit door.

I never did find out what they were checking for. We had landed way out on the tarmac and had to walk down the steps to a waiting bus to take us to the airport, and when I got to the door of the plane with my heavy carry-on the senior officer instructed a younger policeman to carry my bag down the steps and assist me off the plane.

I was grateful for the help for it was very cold and snowing and the steps were slippery, but couldn't help wonder if maybe someone had reported a strange looking character on the plane.

We arrived on a Sunday morning, and thus began our adventure back into time with our first destination to Budapest, Hungary "The Pearl of the Danube."

King Cakes

The Epiphany or Little Christmas is observed on January 6 in many Christian churches. This day has come to be known as "King's Day."

Since the 300's, the day has honored the meeting of the Three Wise Men with the infant Jesus. King Cakes became part of the celebration to symbolize the "finding of baby Jesus."

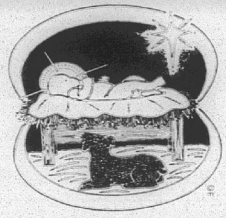
Traditionally King Cakes are oval-shaped to show unity of all Christians. The Mardi Gras season which begins on this "Twelfth Night", (Jan. 6) is expressed on King Cakes by using the carnival colors of green, yellow, and purple. Some bakers also decorate the cakes in red to symbolize the life of Jesus.

As a King Cake is cut, each person awaits for his piece to locate the small baby. The person who finds the "baby" is obliged to bring a King Cake to the next seasonal celebration.

King Cake season ends on Fat Tuesday, the day before Lent begins.

Amendment to be big boost to restoration

(From Coastal Currents)



Defying the experts who said it couldn't be done, voters gave the coastal restoration effort a big boost by approving Amendment 9 to the Louisiana Constitution to give the state the authority to negotiate mineral rights claims in order to facilitate the construction of restoration projects on public lands that are subject to a private right of reclamation. The move to amend the constitution wa spearheaded by the Coalition to Restore Coastal Louisiana and was supported by 61% of the voters.

Prior to the change, it was generally not possible to permanently sever mineral rights from surface land rights. As a result, conflicts were developing between those whose primary interest was in managing the coast for its mineral wealth and those interested in managing it for broader purposes such as storm protection and fish and wildlife habitat. The amendment offers a way of resolving those conflicts, at least where restoration projects are involved.

In passing the amendment, voters not only had to suspend their native skepticism about giving the legislature any broader authority to deal with minerals but had to figure out just what the amendment would do.

Teenager has some thoughts on life

Dear Editor:

Recently while on a short trip to the "Hill Country" in central Texas, I read this 'Guest Column' in one of the local newspapers. I was impressed by the thoughts expressed in the piece, particularly when I discovered that it was written by a high school senior. I would appreciate it if you could reproduce the piece in the Cameron Pilot.

Even though all of the ideas expressed may not be of interest or concern to the parents in our communities, I do feel that there are some thoughts expressed by this young man that would, and should, concern all of us as parents and role models for our children.

/s/ Bill Morris

By E. J. JONES

Let me start out by stating that I am neither perfect nor am I a fit poster boy for flawless teens all over the world.

I am a senior in high school trying the best I can to save the world, to comprehend the various political garbage being dished out and to graduate.

As a "senior citizen" in the public school system I can, however, say that my eyes have not been shut throughout my 12 years. I have seen changes take place in and out of school that directly impact my generation. I have seen AIDS become the impetus behind sex education. I have seen drug-free programs implemented in school to curb illegal drug use.

And maybe the scariest thing I have witnesses is the word "gang" becoming a term that includes a major part of juvenile delinquency.

Five years ago it was a word that referred to problems in big cities. Today it is a word that elicits fear, hate and sighs of "What is this world coming to?" in even the smaller communities.

That's right, San Angelo, we have a gang problem.

Fourteen drive-by shootings occurred in October alone in San Angelo.

Graffiti covers wall after wall of the city's businesses and homes.

And on Nov. 12, Lake View Baptist Church was vandalized by four boys, two of whom were 12-years-old.

Twelve? Six years ago, when I was 12, the idea of gangs never even entered my mind. Drive-by shootings were something the filmmakers brought us, not the children. Spray-painted bridges were a rarity. And the vandalizing of a church was unheard of.

But today, it's obvious that nothing is an exceptin in the world of crime.

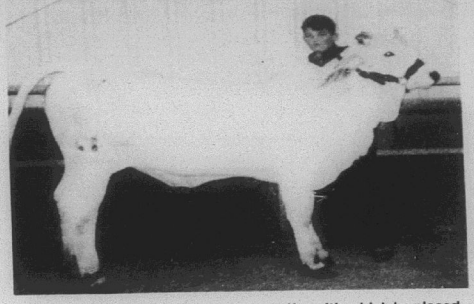
Statistics upon statistics fill newspapers almost daily about the increased criminal activities among the youth in the nationa. I believe that children are born innocent and learn how not to be through the environment they're thrown into.

No child is a natural-born criminal. No child is born evil. They learn this. Children learn how to carry guns.

With this, I say it's not the criminal activities of the youth that are destroying the nation, but the criminal activities of the parents. Where are the parents of these children? Are these parents really unaware that their sons and daughters are on the streets playing with not toy guns, but real guns, guns that are loaded with bullets and not water?

The only people able to halt juvenile crime are the parents. The mothers and fathers have to care when their kids get straight A's on a report card. They have to care what time their kids are coming home at night.

But they also have to care when they find a sawed-off shotgun in little Tommy's closet.



Parents have to realize that my generation is the future. If that future looks grim, do something. Give your child two arms to cling to, two shoulders to cry on and, most important, a positive self-image.

Because as a teen I am tired of reading about kids getting caught in the crossfire and dying. I am tired of knowing teens who feel they have to join a gang for protection. And I am sick of adults who complain about the problems of "our youth in America" and do absolutely nothing to help solve these problems.

To those parents in denial: Take action. You rare our role models. We learn from you. Teach us how to love, not how to kill.

Kids have enough to worry about without the added responsibliity of raising ourselves.

Hackberry club meets

By TRISHA SILVER

The Hackberry Sr. 4-H Club met Dec. 15.

Committee reports were presented by Shannon LaBove, Demonstraton Day; Trisha Silver, State Fair winners; and Heather Spicer, upcoming livestock event dates.

Maranda Daigle was recognized for having won first place in the Child Care Contest at LSU 4-H Short Course last June. In November she attended the National 4-H Club Congress in Tennessee.

Trisha Silver presented a project talk on Food and Nutrition.

President Heather Spicer announced the Parish Jr. Leaders have plans to hold a clothes drive in December and January for the needy.

Mr. Mike presented Demonstration Day Awards to club members. He played Ag in the Bag with Shannon LaBove guessing the correct answer. He then gave a presentation on Money Management.

Hackberry Jr. 4-H

By MICAH SILVER

A meeting of the Hackberry Jr. 4-H Club was called to order on Dec. 15.

Bethany Richard told members about the community service activities for the month of December. The club held a food drive for the needy and is to distribute Christmas ornaments to the senior citizens Council on Aging.

Committee reports were given by: Lindy Delome - Demonstration Day; Jason Bellard - Food Baksets; Lauren Gray - Christmas Ornament Contest; Jamie Sanner - Contest Day and Malorie Shoves - Livestock Clinic.

Project talks were given by Micah Silver, Recycling; Bethany Richard, Safety; and Lori Spicer about her swine project.

A special guest at the meeting was Senior 4-H Club member Heather Spicer who gave a swine project talk.

A contest was held in conjunction with the food drive for the needy. For every food item a member donated, their name was put in a drawing for $10. Micah Silver was the winner.

President Pitre presented 4-H T-shirts from the club to leaders, Mrs. Roxanne and Mr. Mike, in appreciation for all the hard work and dedication they have put into the program.

Mr. Mike went over imoprtant dates for the upcoming month and presented Demonstraton Day awards to members. He played Ag in the Bag, with Maranda Hicks the winner. Mr. Mike then gave a Money Management talk.

DO YOU REMEMBER?

By Keith Hambrick

(Cameron Pilot, Dec. 20, 1962)

CAMERON TWO-ROOM SCHOOL

(By Archie Hollister from Foote Report published in about 1913).

Cameron is the county seat of the parish, located a mile from the Gulf, on the Calcasieu River. The house is 24 x 54 feet with a partition so as to form two rooms. It is painted and ceiled on the interior, is old and in need of repair, and is of very ordinary construction. It is a very inferior building for the county seat to have for school purposes.

The equipment consists of desks for teachers and pupils, a library of eighty-four volumes, a dictionary, twenty-four feet of pulp blackboard per room, a case of maps, shades, a globe, and a number of pot plants. The principal is a competent first grade teacher of eleven years experience, and is serving here the fifth session. The assistant is a third grade teacher of two years experience. The salaries are sixty and forty dollars, respectively.

Sixty pupils are enrolled in seven grades, and the attendance is forty-two. Programs are kept posted. There is a literary society. The session is eight months. The small site is of one-third of an acre, is located just to the rear of the court house and adjacent to the parish jail; the site and location are very unsatisfactory, and we are glad to report that steps have been taken to secure a new site of two acres in a more favorable part of the community.

Drinking water is gotten from an artesian well at the court house. There are two toilets of the deep-pit type. The present plant is very inferior and we urgently recommend that better facilities be provided. The people of the district and the entire parish should take sufficient pride in the county seat to see to it that a better and larger school plant is provided at an early date.

A modern two-room house, the best in the parish, was recently constructed following the consolidation of two small schools at Oak Grove.

A one-room school having a box house and other conditions which vary but little from those of other one-room schools is at Creole.

Another one-room school having house and physical conditions that vary little from those of schools just above mentioned is at Savoie.

The church school at Cameron is similar to the others in conditions.

A one-room box house that is old and should be relegated to the past is at Howard. A similar one-room box house is at Boudreaux. A small, one-room box house is located at Premo on the Little Chenier Ridge. It is in a remote and primitive section of the parish. The wonder is that a teacher can be secured who is willing to live here under the existing conditions.

WATER RATES SET

A schedule of water rates for the new water system of the town of Cameron was adopted by the Cameron Waterworks Commission last Friday.

The proposed monthly rates are as follows: residences, $3; filling stations, $10; grocery and dry goods stores and bars, $5; cafes and restaurants, $10; washateria, $1.50 per machine; motels, $7.56 per unit; single apartments, $1.50.

LIVESTOCK SHOW

A new feature of the Louisiana Fur and Wildlife Festival, scheduled to be held in Cameron Friday and Saturday, Jan. 11 and 12, will be the second annual Cameron Parish Junior Livestock Show, according to County Agent Clifford Myers.

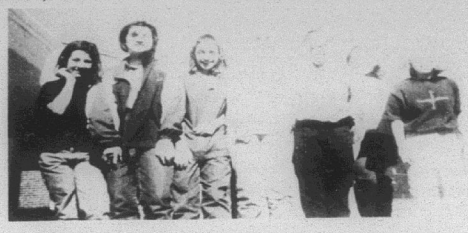
The livestock show, opened to all 4-H members in the parish, will be held Saturday morning at the Cameron recreation center, with judging to start at 9:30 a.m.

ROUNDABOUT THE PARISH

Grand Chenier - The freeze on Dec. 11 and 12 was really felt in the Grand Chenier area. Residents kept the service stations busy preparing cars with anti-freeze. Many persons had broken water pipes. Fall garden vegetables, flowers and shrubs froze. Much of the fall hay crops were used for cattle feed during the cold snap.

Holly Beach - The result of the cold wave last week is still being felt here as home owners complete the task of repairing broken pipes. Despite some precautions by many, the cold was severe enough to do damage in unexpected places. Many camp owners drove to the beach over the weekend to find leaking pipes and wet floors.

Oak Grove - Students home from college for the holidays are Frances and Benny Welch, Elmer Rutherford, Jr. and Frances Carol Miller.



Black News - Principal R. S. Guice has announced the following honor roll students ranging from grades 3 to 12: Jocelyn Williams, Sheila Purnell, Carleton Bishop, Rudolph Barre, Dianne Bishop, Edgar Fullwood, Gilda M. Bargeman, Chester Senegal, James Lue, Cheryl Eugena LaSalle, Mary R. Andrews, Eve Marie LeBlanc, Allie Lee Jones, Carolyn Ann Gauthier, Mary Ellen Godette and James Bargeman.

Grand Lake-Sweet Lake - Our Deputy Sheriff's wife, Mrs. Dewey Hebert, is a very happy mother this Christmas season. Her son, PFC Charles L. Barbe, who has been stationed in Ulm, Germany for the past year, arrived home last Friday unexpectedly to spend the holidays with her and family.

Hackberry - Officers installed by the Hackberry Home Demonstration Club recently are Mrs. Nata Hebert, president; Mrs. Jack Moore, vice-president; Ms. Leroy Barbier, secretary, and Mrs. Floyd Little, treasurer. They were installed at the club's annual Christmas party.

Creole - In true Yuletide tradition and spirit, members of the Creole Home Demonstration Club staged their annual Christmas party at the home of Mrs. Enos Sturlese this past Saturday night. Those attending were Mesdames Telesmer Bonsall, E. Nunez, Wilson Montie, Gordon Nunez, Dallas Mouton, George LeBoeuf, Anna Paris, Romie Broussard, John Conner, Horace Montie, John M. Theriot, Harold Carter, Hun Montie, Clarence Boudreaux, and Misses Mary Louise Miller and Elaine Miller. All these ladies were photographed by club member Mrs. Robert Wicke.

Santa Letter - Dear Santa Claus, I know how Christmas goes. Christmas is little Jesus' birthday and he gets lots of toys and presents so He sends them to Santa claus to give to the good little children on His Birthday. Because you help Jesus, I love you. Merry Christmas, Cynthia Ann Primeaux, Creole.

MEMBERS OF the Cameron Elementary Jr. 4-H Club participated in Demonstration Day held at Hackberry High School. They were Tess Dimas, Brandi Arrant, Kristen Sturlese, Kayla Kelley, Nicole Higgins, Tabatha Beard and Samantha Trahan.

Judging the show was Kenneth Parker, a vocational agriculture instructor at Lee High School in Houston, Tex. Show secretary was Allyson Bourriaque. Bobbie Montie served as ring man and show superintendent was Nicky Rodrigue.

One hundered seventy-two hogs were entered. The show was sponsored by South Cameron FFA.

Foster continues to make appointments

—CAPITAL NEWS—

Gov.-elect Mike Foster is aware of the deadline he faces if his cabinet appointments are to be complete when he takes office, but he believes naming the right people is more important than having all positions filled by Jan. 8.

Foster has tapped long-time reform advocate Mark Drennen as commissioner of administration and veteran state trooper William "Rut" Whittington as head of the state police. His other early appointments have been positions in his inner circle, such as Steve Perry for chief of staff and Marsanne Golsby as press secretary.

He still needs heads for most of the state departments -- Corrections, Economic Development, Environment Quality, Health and Hospitals, Labor, Natural Resources, Revenue and Taxation, Social Services, Transportation and Development, Wildlife and Fisheries. Transition teams are working to develop lists for Foster's consideration as possible appointees, but some of the teams are just beginning their work.

Foster concedes that it would be "to all our advantage" to have all the department heads in place when he is inaugurated Jan. 8. However, he isn't willing to rush the appointment process to accomplish that end.

"If I don't have the people I want, I'm either going to put interims in place or not rush it... The time line is not as important to me as getting the right people," the governor-elect explained.

He did not rule out the possibility that some of the current department heads could remain in place temporarily, but he said it is more likely that someone he selected would fill in. The seemingly slow pace does not worry him since he says he doesn't know "how they can do any more."

Much of Foster's attention also goes toward resolving the problems caused by Harrah's decision to close the temporary land casino, halt construction on the permanent facility and file for bankruptcy reorganization. Foster has said he wants a concrete proposal from Harrah's by Jan. 1, if it is to hold onto its state license.

Chenier Christmas memories long ago

By Bernice Denny

I walked down Memory Road today straight into a Christmas season of my childhood. I felt a sympathetic warmth for the little girl that I used to be and for her brother as I watched them string scarlet haw berries and snow white kernels of popped corn into garlands to loop around their Christmas tree and to drape across the starched white lace curtains that hung at the living and dining room windows.

I felt almost guilty of eavesdropping - even if it were in memory - as I listened to them voice their hopes and expectations of what good old Santa would bring.

The little girl wanted a doll, a very special one to receive the beloved name of Dorothy. To be worthy of that name the doll must possess real hair, eyes that opened and shut, and a voice that cried "Mama."

For Dorothy to ride in, she longed for a woven wire carriage the color of the purple grapes that grew in her grandfather's woods. Santa made such buggies, she knew, in his North Pole workshop.

Day after day she had gazed at the picture of one that he must have placed on a colored page of a Sears, Roebuck catalog.

She would like a tinkly piano pictured on the same page. A teenaged cousin had promised to teach her to play "Home, Sweet Home" on it. The child knew with certainty that she would get another Elsie Dinsmore book to add to her collection.

The small brother wanted a wind-up train that would circle around on its very own track, a new red wagon, and a little wheelbarrow that he could fill and push and dump to his heart's content. He wanted books - lots of them - and a ball and a bugle and a shiny bridle for Pony.

The youngsters would hang up their long black ribbed stocking on Christmas Eve for Santa to fill. Only the gifts exchanged by family members would be placed under the tree. They would be opened on Christmas Eve so as to be out of the way before St. Nicholas arrived.

"Why can't we hang up Mama's big stockings instead of our own?, the little boy asked. "They'd hold a lot more."

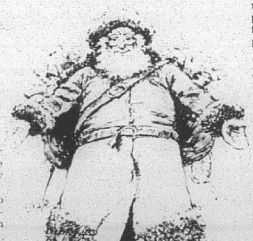
Before his sister could replay, their grandmother entered the room. "Because Christmas is for giving and sharing and not for grabbing, Son," she told him kindly but positively.

"I know that it makes people feel good to give, Grandma," the child answered, his eyes twinkling, "I was trying to see how much happier I could make Santa Claus by fixing things so he could give me more."

They were interrupted by the grandfather and "hired man" coming in from the woods, their arms loaded with holly and mistletoe, greenery, and red berried gray haw branches.

Their mother came forward to receive the decorations. She promised the children that they might help her for every room in the house must have its share of holiday ornamentation.

A week earlier Mother and Grandmother had scoured and mopped, waxed and polished the house from first floor to the attic. This week they had baked from dawn till long after dark.



In memory I tiptoed around and admired the tall round cakes of five or six layers, iced to perfect smoothness; the big square devil's food, lush with its rich caramel frosting; the pecan cake, Grandfather's favorite, standing like a proud patriarch on its crystal stand; the white coconut made especially for the little girl that I used to be since her birthday came right after Christmas. I knew that pounds and pounds of rich, dark fruitcake had been baked and packed away weeks earlier.

I knew, too, that on Christmas Eve day the raisin and mincemeat, the lemon and coconut and butter pies would be made. And a two-year-old gobbler would be dressed and drawn in the last afternoon. It would be in the oven long before daylight on Christmas morning to bake slowly with frequent bastings in its own juice.

A few days earlier a pig had been butchered to insure a tender juicy roast that would send out tantalizing odors whenever Grandmotehr opened the door of the big wood-burning range to check on it and the turkey.

Oysters direct from the reefs in the gulf would be shucked in advance for readiness on the day itself.

Santa Claus Is Coming To Town!!

Gill net license rules are relaxed a little

Requirements for "parnership members" to acquire commercial gill net licenses have been relaxed by the Department of Wildlife and Fisheries.

If a person was a licensed commercial fisherman in one of the years 1993 or 1994 and fished on someone's gill net license, that person can by affidavit claim that he was in partnership and each person in the partnership can qualify to obtain permits.

"Historically, more than one person has fished off one gill net license because the gear license is tranferable," Janis Landry, LDWF License Section Supervisor said. "In order to compensate those affected it is necessary to establish they were partners." Act 1316 (the Louisiana Marine Resources Conservation Act) had no provisions for partnerships.

A notarized affidavit signed by all parties involved in the partnership must be presented by the partner that did not have a gill net license for either of the required years 1993 or 1994.

In addition to this refinement of Act 1316 regarding partnerships, LDWF officials decided that a 1995 mullet or pompano strike net license will count as a gill net license for the license requirement under 1316. That means if an applicant had a gill net license in 1993 or 1994 and buys a 1995 mullet or pompano strike net license, the applicant will qualify for that portion of the law.

2 parish schools receive grants

Two Cameron parish high schools have been approved grant awards for 1995-96 through the Louisiana Decentralized Arts Funding Program which will be administered through the Arts & Humanities Council of Southwest Louisiana.

South Cameron high school received a $1,184.40 grant for a program "Musical Slice of Apple Pie."

Grand Lake high school received a $2,985.60 grant for the Grand Lake Arts Camp '95: Explore Your World.

Pain may be eliminated for millions

(SPECIAL)— A new drug has been approved that is exciting researchers in the treatment of pain. This material has been formulated into a new product known as "**Arthur Itis...**" and is being called a "*Medical Miracle*" by some, in the treatment of debilitating conditions such as arthritis, bursitis, rheumatism, painful muscle aches, joint aches, simple backache, bruises, and more. Although the mechanism of action is unclear, experiments indicate that **Arthur Itis...** relieves pain by first selectively attracting, and then destroying the messenger chemical which carries pain sensations to the brain, thus eliminating pain in the affected area. **Arthur Itis...** is an odorless, greaseless, non-staining cream and is available immediately without a prescription and is guaranteed to work. Use only as directed

SCHOOL BOARD
Cont. from Pg. 1

they had no problem with school prayer and that students should have an opportunity for prayer, if only done silently.

All three had reservations on Outcome Based Education, and felt that there were both good and bad issues involved.

The school board will hold a special open meeting Thurs., Dec. 21, at 10:30 a.m. to vote on the new superintendent.

The exact time may vary since Daniel Billiot, board member, will be coming in from offshore that morning by air and it is according to which flight he catches.

Board President Bill Morris said that the board would call a recess if Billiot does not get here on time.

The law says the School Board must elect the new superintendent by Jan. 3, when the present superintendent, Thomas "Sonny" McCall retires.

NEW MEETING TIME

In other business the board at the request of Tony Johnson, agreed to set its monthly meetings at 4 p.m. so more teachers and parents could, and it would be easier on him and Daniel Biliot, who both work offshore, to attend.

The committee of the whole will meet at 3 p.m on the 1995 meeting dates which were set at Jan. 10, Feb. 7, March 6, April 17, May 15, June 12, July 10, Aug. 7, Sept. 4, Oct. 2, Nov. 13 and Dec. 11.

Wayne Batts and Judith Jones gave a preliminary report on the grading scale which was requested by board member Karen Nunez at last month's meeting, saying Cameron's method of grading is basically the same as that of neighboring parishes.

Batts said he will receive information in March from McNeese State University comparing percentages of Cameron graduates receiving scholarships to other parishes.

Juanita Trahan was appointed as a sweeper at Johnson Bayou High School, the board agreed to advertise to fill her position as a cook at the school.

A sabbatical leave was granted to Wayne Kershaw, assistant principal at Cameron Elementary School, for rest and recuperation from Jan. 1996 to Jan. 1997.

Baoters liked hospitality

Dear Editor:

My husband and I want to give the City of Cameron and its folks a big Hip Hip Hooray!

We are traveling by sailboat and had transmission problems at Grand Lake. Friends of ours, Pauline Willis and Faye Watkins, were the only people we knew who could assist us to get parts for the boat.

After being anchored just west of the Grand Lake pontoon bridge, between the bridge and Black Bayou lock, for five days, we were given a tow by the shrimp boat "Miss Rita" to the Calcasieu intersection. I can't thank the captain and crew of "Miss Rita" enough, who took their time to assist us.

Mrs. Faye Watkins of Johnson Bayou and her daughter, Pauline Willis of Cameron, arranged dockage for us at Trosclair Cannery's pier and Mr. T. Bolo and his son, Joey, let us tie up for over six weeks and extended some great Louisiana hospitality while we were there.

Both Miss Faye and Pauline opened their homes for us, supplied us with vehicles to get parts and treated us like part of the family over the Thanksgiving holidays. Enough cannot be said about these two generous ladies and the valuable help they gave us, as well as their friendship.

We'd like to thank all the concerned people who knew of our plight but never got their names. As well, a big thank you to the folks at Cam Tool who helped us out with machine work (and gave us a jar of great jelly!).

The folks of Cameron deserve to be proud of their community and the wonderful hospitality that was given to us during our visit - we greatly appreciated all the help, concern and caring from everyone we met and hope to return someday.

Thank you, Cameron, Louisiana, for being there for us when we needed you.

DEFENSIVE LINEMAN

Scotty Brown
South Cameron / Soph.

Brown named All S-West

The Lake Charles American Press released an All Southwest Football Team for the first time.

The Press had two teams, one composed of Class A and AA players which they call small schools and one of Class AAA, AAAA, AAAAA, which they call big schools.

The small school team had one South Cameron player selected. The player is Scotty Brown, a 230 pound defensive lineman. Brown is only a sophomore.

Other District 6AA players selected were Taurius Davis of Lake Arthur. Davis was also named best player among all the small schools. Seth Dyke of Lake Arthur, an offensive lineman, and Bardell Jones, a running back, also were on the first offensive team.

Joining Brown on the defensive team were Chris Mallett at linebacker and Davis at defensive back.

McCall retires

Cameron Parish Superintendent of Schools Thomas W. "Sonny" McCall is retiring after an 18½ year tenure in office. His emphasis on the teaching and learning process continually placed Cameron students near the top in achievement scores in the state assessment and nationally normed tests.

Teacher salaries have doubled during McCall's administration. "I always felt that we needed competitive pay in order to recruit quality teachers. Over the years, we have maintained our salaries at or near the top of the state scale," he said.

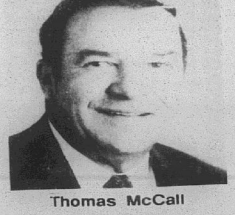
Bond issues totaling over $9 million were passed during the time McCall served as Superintendent. An additional $3½ million was spent on building improvements from monies raised by the Special Building Tax.

Computer labs were installed in Cameron schools 15 years ago, a time when most systems were only contemplating such action.

Under McCall's leadership the Cameron School Board established the 16th Section Designation of Fund Balance Account in December of 1983. $4 million of royalty payments produced by the 16th Sections were withdrawn from the General Fund and invested separately. These monies plus the interest earned were to be reserved as a "rainy day fund."

The amount reached a high of over $7.7 million in 1994. A portion was appropriated at that time in order to continue operations due to the drastic decline of oil and gas royalties. The current balance is over $6.5 million.

McCall and former State Representatives Conway LeBleu and Randy Roach successfully defeated repeated legislative efforts to pull Cameron Parish's 16th Section revenues into the State's Minimum Foundation Formula.



McCall served as a Chairman of the State Department of Education and Board of Secondary and Elementary Education Task Force on School Finance under three different State Superintendents.

He currently serves as Chairman of the Board of Directors of the Teacher Retirement System of Louisiana. He has been a member of the Louisiana Association of School Superintendents since 1977 and has chaired that organization's legislative committee for 17 years.

McCall was a charter member of the Louisiana Association of School Executives and served on its Executive Committee for 8 years. He is a past president of the Southwest Louisiana Superintendent's Association.

He served as Cameron Parish's Defense Director for 10 years. He is a past Grand Knight of Knights of Columbus Council 3014 in Creole and has held membership in the Lions Club and South

DEADLOCK FINALLY BROKEN

LaFleur named as parish's new school superintendent

Mrs. Pamela Ann (Pam) LaFleur, Hackberry high school principal for the past 21 year, was named the new superintendent of Cameron Parish schools at a special meeting of the school board last Thursday.

Her selection ended a deadlock among the six school board members who had voted 3 to 3 in several previous votes on two other candidates for the position.

The vote Thursday was as follows:

For Mrs. LaFleur: Bill Morris, Clifton Hebert, Daniel Billiot and Karen Nunez. For Judith Jones: Tony Johnson. For Rodger Richard: Glenda Abshire.

There were five applicants for the position and it was decided Thursday by a 4-2 vote to elect the new superintendent by a plurality vote rather than a majority vote in order to end the previous deadlock.

This meant that the winner would not have to earn more than half the vote, but would just have more votes than any other candidate. Mrs. LaFleur, as it turned out, did receive a majority of votes.

The naming of Mrs. LaFleur as superintendent will create a vacancy in the principalship at Hackberry high school. The school board probably will advertise for applications for the position at at its January meeting. In the meantime, assistant principal Austin LaBove is expected to fill in.

PAM LAFLEUR

Miss McCall was 1st lady superintendent

(EDITOR'S NOTE--Mrs. Pam LaFleur, who was named as the Cameron Parish school superintendent last week, is not the first woman to hold this position here. Almost forgotten now is the fact that Elizabeth Frances McCall was the Cameron parish superintendent from 1909 to 1912 and was probably the first woman to hold that position in any parish in the state. However, she was forced to resign in 1912 due to an article in the state constitution that no one could hold a public office in Louisiana who was not a qualified voter. Since she was a woman and since the 19th Amendment would not be passed until 1920, the courts ruled her ineligible for the position. The following article reprinted from the Pilot several years ago tells the story of Miss McCall's plight.)

By KEITH HAMBRICK

In late October, 1909, Cameron Parish selected Elizabeth Frances "Lizzie" McCall as the first ever woman parish superintendent of education in Louisiana. This act created a constitutional problem for the state of Louisiana and its ultimate solution caused an uproar among women's groups all across the southern United States.

At this time, the Cameron Parish school system was relatively small. There were 864 students enrolled in 22 white schools and two black schools, and there were 22 white teachers and two black teachers. The superintendent's salary was $500 a year.

A. G. Murray, the Cameron superintendent since 1898, decided to retire in 1909. J. W. Clark was appointed as his successor but was soon forced to resign because of ill health. The school board then chose Lizzie McCall for the position.

Lizzie McCall was born on October 6, 1872, the daughter of Jessee and Mary Jane McCall of Grand Chenier. She received teacher training at the Louisiana State Normal at Natchitoches (present-day Northwestern State University), and entered the teaching profession. By 1909, she was recognized as an educator "of great ability" throughout south Louisiana. At the time of her appointment, she was teaching at Lake Arthur.

ELIZABETH MCCALL

Because of Miss McCall's excellent educational qualifications, several Louisiana newspapers gave their approval. The Gueydan News wrote: "Perhaps if we had more lady superintendents and even ladies on the school board, we would have less politics in schools."

The Abbeville Meridonal believed Cameron Parish was "certainly coming to the front" and that "a wise choice was made." The Cameron school board members were congratulated for "their progressive ideas."

Not everyone, however, agreed with the school board's decision. T. H. Harris, the Louisiana State Superintendent of Education held that under the provisions of the Louisiana Constitution of 1898, a woman could not hold the office of parish superintendent of education. He sent word of his decision to Miss McCall but tempered it slightly by saying that he would ask Louisiana Attorney General Walter Guion for an official opinion.

The particular article in the state constitution which Harris based his opinion on was Article 210 which read in part: "No person shall be eligible to any office, state, judicial, parochial, municipal or ward, who is not a citizen of the state and a duly qualified elector of the state, judicial district, parish, municipality or ward wherein the functions of the office are to be performed."

The word "elector" was taken by Harris to mean that only citizens who could vote could hold public office. Since women could not vote at this time, they could not hold public office.

There was a precedent for this decision. In 1904, Miss Jean Gordon was to be appointed to the position of factory inspector. Article 210 was found to prevent her appointment so the legislature proposed an amendment to the article to allow the "appointment or election to office of factory inspectors of either male or female persons...."

It was adopted and Miss Gordon was appointed. She was still serving in 1909 and was the only woman in Louisiana holding a state public office.

Several days after T. H. Harris asked Guion for an official opinion, the attorney general wrote a letter to Harris confirming the decision that Miss McCall was ineligible to serve because of Article 210.

"Cameron is a small parish," said the attorney general, "with a limited

LaFleur has 26 years of experience

Pamela Ann Riggs LaFleur, newly appointed superintendent of Cameron Schools, has had 26 years of experience as a teacher and principal in the Cameron Parish school system.

A native of Hackberry, she graduated from Hackberry high school in 1965 and received a B. S. degree in 1969, a Masters of Education degree in 1974, plus additional graduate hours, all from McNeese.

She taught at South Cameron high school from 1969 to 1974 and was named as principal at Hackberry in 1974, a position she has held until this time.

She is certified in business education subjects, English, supervisor of student teaching, parish or city school supervisor and school superintendent.

Mrs. LaFleur is married to Michael LaFleur and they have three children, Tressa Lynn LaFleur, 25; John Michael LaFleur, 23; and Jeri Ann LaFleur, 20.

She is the daughter of the late Charles Riggs and Johnnie Mae Riggs of Hackberry. Her father was a former Cameron parish police juror and her mother was a former Cameron parish school board member.

Parish was isolated in 1885 . . .

THE ISOLATION of Cameron Parish in the earlier days is well illustrated by this map that was published in 1885--110 years ago. There were no roads into the parish from the outside and no railroad. The parish was connected to the outside world by boat. Note that the only communities shown on the map at the time was Johnson's Bayou, Cameron and Grand Chenier.

Teals were everywhere and when shooting hours became legal, it took me exactly 11 minutes to bag 4 teals and 1 wigeon. I was glad as the weather was heavy.

I'll tell you what a change it was Sunday evening to Monday morning. Most of our marshes had 4 to 9 inches of heavy rains, and yes, too much water. The ducks have scattered and with all the water, they can land anywhere, but they're still in the marsh.

Some of the hunters are hunting in the grass along the ridges and killing their limit of mallards and speckle-belly geese. I'm sure it'll be a while before our water goes down, as there's more to drain up above us.

While many of us had great hunting the first week, the hunters who hunt the national refuges had another heartbreak. Yes, our federal folks shut everything down again, and as I'm writing this, it's still a no go.

Game agents for the state of Louisiana have been busy making cases. One agent told me the first season he thought hunters had reformed as not many cases were made, however, the opening of the second split proved him wrong. With all the cold weather pushing more ducks down to southwest Lousiana, more cases were made.

HUNTING SUPPORT

A survey reveals that 80 percent of Americans approve of hunting. Great news! Only 16 percent would like to have hunting banned. The majority of the people don't hunt, but they recognize hunting as an acceptable pastime and a wildlife management practice and that hunting is a tool to maintain wildlife population.

FISHING NEWS

Really not much to report on fishing, as all the heavy rains have the water muddy and the cold weather isn't any help either.

Do You Remember?

By Keith Hambrick

(Abbeville Meridional, Oct. 19, 1918)
THE FLU

The present epidemic of Spanish Influenza is about as dire and diabolical as could be imagined. Reports show that it is widespread and even more fatal than here. New Orleans has suffered the death of quite a number of prominent citizens including physicians who were probably overworked while fighting the disease. Bunkie has a virulent form of the malady and the three doctors practicing there have died. Here in Abbeville, only two doctors out of six were able to be on duty; the district judge and attorney, clerk of court, all but two lawyers, and nearly all of the sheriff's force were taken down with the influenza, and all at the same time.

Nearly all the groceries and smaller establishments including bakeries and butcher shops were compelled to suspend deliveries this week on account of their help being sick.

(Cameron Pilot, Nov. 29, 1962)
TARPONS BEAT VIDALIA

It was one down and three to go this week for the South Cameron Tarpons as they began their march toward the Class B football championship.

The Tarpons tooks a 14-13 win over Vidalia here last Friday night to advance the local team into the quarter-finals. South Cameron will meet St. Edmund's of Eunice here this Friday night at 8 p.m.

South Cameron, which has played four tough opponents in the last four weeks -- Lake Arthur, Sam Houston, Oberlin and Vidalia -- will get no rest in its match with St. Edmund's, winners of District 4-B.

Coach Robert Manuel said St. Edmund's is "equal to the best teams we have played this year. They play a razzle-dazzle, run & pass type of game."

There was a big turnout of fans for the Vidalia game and the crowd should be even larger for the St. Ed's game. The Eunice school is sending over five chartered buses carrying its band, girls drill team and fans.

South Cameron will have some temporary bleachers borrowed from the Cameron Optimists to augment the seating of the present stands, but even these will not be enough for the large crowd expected.

The starting lineup for the Tarpons will be Sturlese, Boudreaux, Conner, Wainwright, Dyson, Hebert, Richard, LaLande, Albarado and Trosclair.

The left halfback for St. Ed's is named Manuel and is the nephew of Tarpns coach Robert Manuel.

OYSTER SEASON OPENS SATURDAY

The oyster season in Calcasieu lake, the third one since the oystering wes resumed in 1960, will open this Saturday, Dec. 1 with prospects for a good season.

Some five or six oyster businesses will be in operation this year as compared to four last year and there are expected to be more local oyster fishermen this year.

Rep. Alvin Dyson said that 85,500 sacks of oysters were taken from the lake last year by commercial fishermen in addition to the many sacks taken for home consumption. This represented a value of some $300,000 on the wholesale market, with about $200,000 going to local fishermen.

Fishermen should get as good a price for oysters as they did last year as the market is good. Prices paid to fishermen last season ranged from $2 to $2.50 per sack on the average and as high as $3.

The oyster season will open a month later this year than in 1961 due to the unusually warm weather which kept the pollution at a high level until now. Prior to 1960, the lake was closed to oyster fishing for a number of years because of the pollution.

TWO PARISH PROJECTS ASSURED

Although Cameron Parish had been pretty sure of getting two bridge and ferry projects before, the recent passage of the big state highway bond issue assures the construction of these now, State Rep. Alvin Dyson said this week.

The projects are the big ferry for the ship channel at Cameron and the pontoon bridge over the intracoastal canal at Sweet Lake. Bids on the construction of the ferry will be received soon, and the bridge will be a month or two behind.

Mr. Dyson noted that Cameron Parish was one of the parishes in the state that helped to put the bond issue over.

THIS WEEK
(By Jerry Wise)

Chalk up another win for the ladies at the courthouse. For the second week in a row, Mrs. Pearl Deville, the extension office secretary, has beat out all of the so-called male sports experts around the courthouse in guessing the outcome of the South Cameron football games. Last week she hit the nail (score) on the head -- this week she was closer than anyone to the correct score.

You may have wondered how the Tarpons came out financially on the Vidalia game in view of the large crowd. According to Principal U. W. Dickerson, here is how the proceeds are split up on a state playoff game:

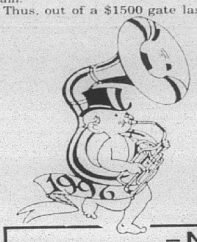
Ten percent of the gross goes to the Louisiana High School Athletic Association. Next the officials expenses are paid. The visiting team get $2 per mile one-way traveling expenses, with the remainder of the gate split evenly between the home and visiting team.

Thus, out of a $1500 gate last week, South Cameron ended up with only $460.

ROUNDABOUT THE PARISH

Grand Chenier -- Trappers are again taking off for the marshes as trapping begins. They have been busy since last week taking traps and canoes out to the trapping grounds. Eulice Kershaw, well-known trapper here, states that the nutria are not as plentiful as last winter, but that the fur is ver good this season.

Creole -- Officers elected by the South Cameron Senior 4-H Club are: Lydia Faye Theriot, president; Judy Hebert, vice-president; Virginia Harper, secretary; Wayne Kershaw, treasurer; and Charles Bonsall, reporter.



Sweet Lake -- Thanksgiving, the oldest native celebration, is now behind us, but the happy memories of the day will live on and on -- of family get-togethers for the traditional turkey dinner, or as in some instances, a get-together of close friends such as Mrs. Bessie Goodman, her granddaughter Carolyn and I (Mrs. Tom Taylor) enjoyed.

Crawfish producers meeting set Jan. 5

A crawfish producer's meeting will be held Fri., Jan. 5, beginning at 1 p.m., at the new Calcasieu Parish Extension Office, just south of the Burton Coliseum.

Dr. Robert Romaine, with the LSU School of Forestry Wildlife and Fisheries, Dr. Ray McClain, Project Leader at the Rice Research Station in Crowley, and Jimmy Avery, Aquaculture Specialist with the Louisiana Cooperative Extension Service will be present for the program. The trio will inform producers of the latest research, marketing and recommendations for the maximizing crawfish production.

Immediately following the program, the Calcasieu/Cameron Crawfish Advisory Committee will meet.

(Abbeville Meridional, Oct. 19, 1918)
THE FLU

The present epidemic of Spanish Influenza is about as dire and diabolical as could be imagined. Reports show that it is widespread and even more fatal than here. New Orleans has suffered the death of quite a number of prominent citizens including physicians who were probably overworked while fighting the disease. Bunkie has a virulent form of the malady and the three doctors practicing there have died. Here in Abbeville, only two doctors out of six were able to be on duty, the district judge and attorney, clerk of court, all but two lawyers, and nearly all of the sheriff's force were taken down with the influenza, and all at the same time.

Nearly all the groceries and smaller establishments including bakeries and butcher shops were compelled to suspend deliveries this week on account of their help being sick.

(Cameron Pilot, Nov. 29, 1962)
TARPONS BEAT VIDALIA

It was one down and three to go this week for the South Cameron Tarpons as they began their march toward the Class B football championship.

The Tarpons tooks a 14-13 win over Vidalia here last Friday night to advance the local team into the quarter-finals. South Cameron will meet St. Edmund's of Eunice here this Friday night at 8 p.m.

South Cameron, which has played four tough opponents in the last four weeks -- Lake Arthur, Sam Houston, Oberlin and Vidalia -- will get no rest in its match with St. Edmund's, winners of District 4-B.

Coach Robert Manuel said St. Edmund's is "equal to the best teams we have played this year. They play a razzle-dazzle, run & pass type of game."

There was a big turnout of fans for the Vidalia game and the crowd should be even larger for the St. Ed's game. The Eunice school is sending over five chartered buses carrying its band, girls drill team and fans.

South Cameron will have some temporary bleachers borrowed from the Cameron Optimists to augment the seating of the present stands, but even these will not be enough for the large crowd expected.

The starting lineup for the Tarpons will be Sturlese, Boudreaux, Conner, Wainwright, Dyson, Hebert, Richard, LaLande, Albarado and Trosclair.

The left halfback for St. Ed's is named Manuel and is the nephew of Tarpns coach Robert Manuel.

OYSTER SEASON OPENS SATURDAY

The oyster season in Calcasieu lake, the third one since the oystering ws resumed in 1960, will open this Saturday, Dec. 1 with prospects for a good season.

Some five or six oyster businesses will be in operation this year as compared to four last year and there are expected to be more local oyster fishermen this year.

Rep. Alvin Dyson said that 85,500 sacks of oysters were taken from the lake last year by commercial fishermen in addition to the many sacks taken for home consumption. This represented a value of some $300,000 on the wholesale market, with about $200,000 going to local fishermen.

Fishermen should get as good a price for oysters as they did last year as the market is good. Prices paid to fishermen last season ranged from $2 to $2.50 per sack on the average and as high as $3.

The oyster season will open a month later this year than in 1961 due to the unusually warm weather which kept the pollution at a high level until now. Prior to 1960, the lake was closed to oyster fishing for a number of years because of the pollution.

TWO PARISH PROJECTS ASSURED

Although Cameron Parish had been pretty sure of getting two bridge and ferry projects before, the recent passage of the big state highway bond issue assures the construction of these now, State Rep. Alvin Dyson said this week.

The projects are the big ferry for the ship channel at Cameron and the pontoon bridge over the intracoastal canal at Sweet Lake. Bids on the construction of the ferry will be received soon, and the bridge will be a month or two behind.

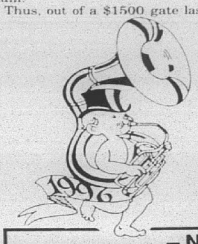
Mr. Dyson noted that Cameron Parish was one of the parishes in the state that helped to put the bond issue over.

THIS WEEK
(By Jerry Wise)

Chalk up another win for the ladies at the courthouse. For the second week in a row, Mrs. Pearl Deville, the extension office secretary, has beat out all of the so-called male sports experts around the courthouse in guessing the outcome of the South Cameron football games. Last week she hit the nail (score) on the head -- this week she was closer than anyone to the correct score.

You may have wondered how the Tarpons came out financially on the Vidalia game in view of the large crowd. According to Principal U. W. Dickerson, here is how the proceeds are split up on a state playoff game:

Ten percent of the gross goes to the Louisiana High School Athletic Association. Next the officials expenses are paid. The visiting team get $2 per mile one-way traveling expenses, with the remainder of the gate split evenly between the home and visiting team.



Thus, out of a $1500 gate last week, South Cameron ended up with only $400.

ROUNDABOUT THE PARISH

Grand Chenier -- Trappers are again taking off for the marshes as trapping begins. They have been busy since last week taking traps and canoes out to the trapping grounds. Eulice Kershaw, well-known trapper here, states that the nutria are not as plentiful as last winter, but that the fur is ver good this season.

Creole -- Officers elected by the South Cameron Senior 4-H Club are: Lydia Faye Theriot, president; Judy Hebert, vice-president; Virginia Harper, secretary; Wayne Kershaw, treasurer; and Charles Bonsall, reporter.

Sweet Lake -- Thanksgiving, the oldest native celebration, is now behind us, but the happy memories of the day will live on and on -- of family get-togethers for the traditional turkey dinner, or as in some instances, a get-together of close friends such as Mrs. Bessie Goodman, her granddaughter Carolyn and I (Mrs. Tom Taylor) enjoyed.

MISS MCCALL
Cont. from Pg. 1

number of school children and I have no doubt that Miss McCall could fill the office to the entire satisfaction of its people. I should be very glad if I could remove the obstacle to her appointment, but the law is very clear. Women can vote in certain elections, without ever being required to register, but they do not enjoy the right of participating in any other elections and they are clearly not electors."

He went on to say that the office of parish superintendent of education was definitely considered a state office because the Louisiana Supreme Court had previously ruled in the Wimberly Case that a parish superintendent was a state officer.

This decision forced Lizzie McCall to vacate her office and "excited comment throughout the South," especially among women's rights groups--thereby intensifying the women's suffrage movement.

The Era Club of New Orleans, a women's organization, adopted a resolution of sympathy with Miss McCall and invited her to become affiliated with the club and to champion women's rights.

Numerous newspaper editorials were written about the case. A Baton Rouge newsman wrote: "Cameron is an unusual parish. It is the only parish without a railroad, and as for waterways, it is the Venice of Louisiana, and now it has increased its fame by being the first parish to elect a woman as parish superintendent of education."

One of the staunchest supporters of Miss McCall was the Lake Charles Daily American: "The attorney general says that the constitution of the state forbids Miss Lizzie McCall or any other woman, however qualified and capable, from holding the office of parish school superintendent. This is a good sign that the constitution of the state needs another amendment. Women are the bulwark of our public school system. They furnish nine-tenths of the teaching force and ninety-nine per cent of the good teachers; for, while men take up teaching as a rule, as a makeshift until something better offers, young women go into the profession as a life work and it is a monstrous injustice to debar them from its highest rewards."

Several well-known educators admitted, off the record, that women would be just as effective as men in the office of parish superintendent.

One unidentified educator stated, "Personally, I don't object to women as parish superintendents, and just as soon as the women unite and demand it, they will get the right to hold office."

But in a new constitution adopted in 1913, the same Article 210 was kept intact. It was not until the 19th Amendment to the U. S. Constitution was adopted in 1920 that women were allowed access to public office.

After Lizzie McCall resigned, former superintendent A. G. Murray was reappointed and served to 1912.

Lizzie McCall continued on in the teaching profession and was later a supervisor in Jeff Davis Parish for a number of years. She died Dec. 10, 1939, at her home near Lake Charles.

Do You Remember?

By Keith Hambrick

(New Orleans Times-Picayune, May 25, 1915)
ONE YEAR ON A LOUISIANA FARM

There is a little Colorado doctor opposite the town of Lake Arthur, who is going to be one of the best object lessons in Louisiana before he is a year older. He is no longer practicing medicine but is taking the Louisiana farm and is going to make good.

Dr. W. C. Heinen had built up a remunerative practice in the West, but the climate was not congenial to his family. He had had a natural love for agriculture, but the Iowa winters were no more balmy than those of Colorado. He has a brother who is a lawyer in Jennings and the lawyer prescribed for the doctor. The latter came to Louisiana and had the opportunity to purchase part of the Laurent plantation on the border of the lake leading to the Gulf, and it was such a beauty spot, with its clean, cool groves, that he closed the deal and sent for his wife and children.

Some of his land was already in cultivation, but he rested it all and started all over again with virtually virgin soil prepared in a scientific way. He has planted corn and rice this year, laid out permanent pastures, and sown Lespedza and oats. He has started in his animal husbandry with sheep, hogs and poultry.

Dr. Heinen early concluded that citrus fruit was specially adaptable to his soil, but he also made up his mind that the section set out its trees too soon. He did not plant his trees until the middle of April, and confined himself to the Louisiana sweets, Satsuma and grapefruit. He prepared twenty acres for his orchard, laced his trees 25 feet apart, with a pecan tree every 75 feet. He used only budded stock, and spring has already proven to his satisfaction that his course was wise.

Next year he will have 15 acres additional, all in grapefruit. In his tour around the section he discovered a grove which a French gentleman had planted 14 years before. The fruit had an acid and unfamiliar taste, so the horticulturist fed it to the hogs. Dr. Heinen's expert taste analyzed it as a variety which would make the reputation of the district among discriminating consumers, so he bought the buds of the supposed lemons, and will make the crop one of his main bids for fortune.

There are mulberry, dewberry, and other wild fruits on his farm which already fill his pantry with preserves for the year, and he may develo them commercially as he proceeds in due time. There is also truck enough for his own uses, and demonstration will guide him in selecting his crops that will pay him best to cultivate upon a larger scale.

So in a year's time he has established his home, installed many conveniences, with a motor boat as facility. He has produced more than he requires for his household, built up his equipment, started stock and crops, and is content to wait and work a while longer for the success that is sure with Louisiana soil and climate.

The Great Smoky Mountains are so named because they are usually covered by a smoky mist or haze. The 250 species of trees which cover it create a dense humid atmosphere that looks like a smoky mist on the mountaintop.

Mardi Gras event set

Mardi Gras of Imperial Calcasieu will present the "Twelfth Night Revelry and 21 Prize Giveaway" at 7 p.m. Sat., Jan. 6, at the Lake Charles Civic Center Coliseum.

Tickets are $3 in advance until noon of event and $5 at the door. Chidren 6 and under are free. Doors open at 6 p.m. with the pre-entertainment by the "Bayou Dixie Kings."

Presentation begins at 7 p.m. with the 20 area krewes presenting their 1996 royalty parading in costume. Prizes will be given away to 21 persons who find the hidden capsules in the pieces of King Cake given away.

One person will be elected King or Queen of Twelfth Night and will reign over the 1996 Mardi Gras events.

Tickets are on sale at the Civic Center Box Office.

The Challenge of Genealogy

by MARIE WISE

The THEVENETS of St. Martin Parish descend from Etienne Thevenet and his wife, Marie Rose Lambert, who were residents of France. Two sons, a son-in-law and 4 grandchildren immigrated to Louisiana, beginning in 1849.

The first to come was Philippe Thevenet who in 1861 at Breaux Bridge married Marie Rosalie Govit from Belgium, daughter of Georges Govit and Anne Marie Rosemond. Their 9 children included Mathilde who married Hypolite Tribe and had 12 ch.; Etienne who mar. Emitille Breaux, had 10 ch.; Victoria Antonia who mar. Adam Dugas, had 12 ch.; Andre Thevenet who mar. Sidonia Angelle had 11 ch.

Dr. Andre Radlinski, widower of Claudine Thevenet, came from France to Louisiana with 2 children in 1861; no further descendants.

Pierre-Marie Thevenet, Jr. came in 1867 at age 18, lived with his Uncle Philippe, in 1874 at Breaux Bridge married Dometilde Thibodeaux, dau. of Alexandre Thibodeaux and Cidalise Castille, had 5 children.

His father, Pierre-Marie Thevenet, Sr.; had 3 children born in France; arrived Louisiana 1869; in 1878 at St. Martinville married Marie Elise Sonnier, have many descendants by their 1st dau., Marie Rose who in 1896 mar. James Castille.

THEVENET FAMILY

Thevenets of St. Martin Parish, Louisiana by Frank M. O'Quinn and Jacqueline Guidry O'Quinn is a fine family genealogy and history, filled with photos, stories and memoirs for its large number of members.

Hardcover, 6 x 9 in., 240 pages, an index of some 5,000 names, a section of quoted newspaper clippings from St. Martinville, 1886-1906, others on connections to France, documents and letters, stories and biographies; and genealogy into the present; this interesting, well written and presented book is available at $30.00 plus $4.50 for mailing from Frank M. O'Quinn, 130 Albert Hart Dr., Baton Rouge, LA 70808.

IRISH FAMILIES

The Book of Irish Families Great & Small is a large, handsome book that earns its reputation as the "new Hallmark in Irish Family History (which) now includes Scots, English, Welsh & European families that settled in Ireland. There are absolutely more documented family histories and illustrated coats-of-arms found here than in any other work"

Included are 2,000 families with special entries for family history as researched by the Irish Genealogical Foundation and OLochlainns Irish Family Journal; plus more than 600 coats-of-arms, Adair through Yeats, all illustrated and with documented sources.

Also: a location and source index with 16,000 additional surnames; and a special Irish family research section authored by Michael C. O'Laughlin, leading authority on Irish heritage and surnames who has authored a number of Irish genealogy publications.

Hardcover with bookjacket in color, 8 1/2 x 11 in., 320 pages, maps and illustrations, etc., total of some 20,000 Irish family names, available at $28.00 from: Irish Genealogical Foundation, Box 7575, Kansas City, MO 64116.

Publications reviewed in this column are given to the Erbon and Marie Wise Genealogical Library, Louisiana State Archives, Baton Rouge.

Legislators sign statement

Nearly every new member of the Louisiana House of Representatives has signed a "mission statement" aimed at regaining the confidence of Louisiana voters. The Mission Statement reads:

"The people of Louisiana have spoken; they want change, real change. And they want it now. The Freshman Legislative class of 1996 is committed to giving them that change. We are committed to restoring trust in Louisiana government. We will put the interests of the citizens above our own. We will help make honesty and integrity common place in Louisiana government."

During the recently held freshman legislative orientation in Baton Rouge, 29 of the 31 new members of the House signed the statement that commits them to changing the way Louisiana does business. The freshmen began building upon the mission statement by crafting specific recommendations for reform that the constituents would like to see implemented.

The four areas of reform include: ethics reform, gambling reford, educational reform, and fiscal reform. The group is continuing to work on the specifics of its recommendations and plans to invite reform minded veterans to join with them in releasing a reform agenda in January.

Members signing the mission statement included Dan Flavin, District 36, which includes Cameron Parish.

PRAYER TO the Blessed Virgin (Never known to fail): Oh, most beautiful flower of Mount Carmel, fruitful vine splendor of Heaven, Blessed Mother of the Son of God, Immaculate Virgin, assist me in my necessity. Oh Star of the Sea, help me and show me herein you are my Mother, oh Holy Mary, Mother of God, Queen of Heaven and Earth, I humbly beseech you from the bottom of my heart to succor me in this necessity. There are none that can withstand your powers, oh, show me herein you are my Mother, oh, Mary, conceived without sin, pray for us who have recourse to thee (three times). Holy Mother, I place this cause in your hands (three times). Holy Spirit, you who solve all problems, light all roads so that I can attain my goal, you who gave me the divine gift to forgive and forget all evil against me and that all instance in my life you are with me. I want in this short prayer to thank you for all things as you confirm once again that I never want to be separated from you in enternal glory. Thank you for your mercy toward me and mine. (The person says this prayer 3 consecutive days. After 3 days, the request will be granted. This prayer must be published after the favor is granted).

NOTICE

Minutes of the Regular Meeting of the Cameron Parish Gravity Drainage District No. 3 held on Tuesday, October 17, 1995 at 2:30 p.m. at the Cameron Parish Police Jury Annex.

Members Present: Edwin W. Quinn, Scott Henry, E. J. Dronet, George Kelley and Earl Guthrie.

Members Absent: None.

Others Present: Lonnie Harper, Toby Bourgeois, George "Le-Boeuf" James LeBoeuf, J. Berton Daigle, Kirk Burleigh, Billy Delany, Amos Vincent, Glenn Harris, Ray Conner, and Tina Horn.

A motion was made by George Kelley, seconded by Scott Henry, and unanimously carried that the minutes of the September 19, 1995, regular meeting be approved as written.

A motion was made by Earl Guthrie, seconded by George Kelley, and unanimously carried to approve the following bills for payment:

1. Cameron Parish Pilot, $71.
2. Lake Charles Diesel, $62.94
3. Cameron Parish Gravity Drainage District No. 7, $2,373.12
4. Crain Brothers, Inc., $673.75

A motion was made by Scott Henry, seconded by George Kelley, and unanimously carried to approve the Financial Report for the month of September, 1995.

Lonnie Harper reported that the Corps of Engineers is in the process of drafting a permit for the 3 mile area in this district which will be cleaned out as part of the drainage lateral on N. American Land & Oil project. They are telling us that we need to submit to the Corps a mitigation site and type of vetegation to be planted. Lonnie Harper made two suggestions for 12 acres of mitigation for the entire impact, and of the two, the Board members chose planting smooth cordgrass on the Lake bank site. It was agreed that Mr. Harper will give the feedback to the Corps of Engineers so this information can be included in the permit.

Mr. Harper also reported that the permit to clean out the Sells Lateral has been received. It was stated that at a cost of $.896/day, the Gravity Drainage District #7 equipment is now available for use under the Interagency Contract, amended to charge us an additional $100/day to cover their expenses (the old rate was $296/day).

A motion was made by E. J. Dronet, seconded by Earl Guthrie, and unanimously carried to authorize Scott Henry to attend the upcoming Cameron Parish Gravity Drainage District No. 7 meeting and secure their machine to clean the Sells Lateral, Staff Gauge #3 Lateral and to do the Henry culvert repair project.

A motion was made by E. J. Dronet, seconded by George Kelley, and unanimously carried to request Lonnie Harper to monitor the above-described work to be done utilizing Gravity Drainage District No. 7 equipment.

Mr. Ray Conner spoke and reported that he had been requested to seek drainage of the area near Cam-Tool. It was agreed that this matter will be looked into.

Glenn Harris presented the Water Management Report for the Cameron Creole Watershed Project for the previous month.

There being no further business, a motion was made by Scott Henry, seconded by George Kelley, and unanimously carried that the meeting be adjourned. Edwin W. Quinn

TRACT 28759 PORTION OF BLOCK 2, WEST CAMERON AREA, REVISED, Cameron Parish, Louisiana – That portion of Block 2, West Cameron Area, Revised, Cameron Parish, Louisiana, belonging to the State of Louisiana and not under mineral lease on January 10, 1996, described as follows: Beginning at a point within Block 2, West Cameron Area, Revised, being the Easternmost Southeast corner of State Lease No. 1176, said point having Coordinates of X = 1,412,000.00 and Y = 404,226.44 thence the following courses: South 43 degrees 56 minutes 17 seconds East 1,008.82 feet; South 5,000.00 feet and West 6,893.80 feet to a point on the Westerly line of said Block 2 having Coordinates of X = 405,806.20 and Y = 398,500.05; thence North 3,339.11 feet on the Westerly line of said Block 2 to the Westernmost Southwest corner of said State Lease No. 14688; thence East 6967.80 feet to the Southernmost South line of said State Lease No. 14688; thence Westerly, Northeasterly, Northerly and Northwesterly on the said irregular boundary of said State Lease No. 14688 to the Northernmost South line of said State Lease No. 2760; thence East to the point of beginning containing approximately 301.06 acres, as shown outlined in red on a plat on file in the State Land Office, Division of Administration, and bearings, distances and coordinates are based on Louisiana Coordinate System of 1927, (South Zone).

NOTE: The State of Louisiana does hereby reserve, and this lease shall be subject to the imprescriptible right of surface use in the nature of a servitude in favor of the Department of Natural Resources including its Offices and Commissions, for the sole purpose of: implementing, constructing, servicing and maintaining approved coastal zone management and coastal restoration projects, utilization of any and all rights derived under this lease by the mineral lessee, its agents, successors or assigns, shall not interfere with, nor hinder the reasonable surface use by the Department of Natural Resources, its Offices or Commissions as hereinabove reserved.

All bids are to offer a CASH PAYMENT in the form of which is to be bonus as full and adequate consideration for every right granted by the lease and one-half (½) of which is to be rental for the first year of the lease, for a primary term, which shall not exceed **five years**, and if the bid offers to pay rental the ANNUAL DELAY RENTAL shall not be less than the amount of the aforesaid cash payment which lease is to be granted without any warranty or recourse against lessor whatsoever, either expressed or implied, and shall reserve unto lessor the following: **Rights to geothermal resources, fee sulphur, potash, lignite, salt and other solid minerals are to be excluded from the lease and will be thereon will be disregarded to such extent.** A royalty of less than the aforesaid statutory minimums will be rejected. Said statutory minimums by the Board. All bidders are noted that the Board does not obligate itself to accept a bid which offers the aforesaid statutory minimums, but reserves the right to accept a bid which offers in excess of the statutory minimums and is considered most advantageous to the State of Louisiana.

The provisions of this notice or advertisement and the reservations and rights established thereunder, and the terms and conditions of the lease to be granted pursuant hereto, including but not limited to provisions as follows, should lessee fail to begin the actual drilling (spudding in) of a well on the leased premises within one year from the date of the lease, the lease shall terminate as to both parties to the lease unless on or before such anniversary date, lessee shall pay a delay rental (which shall in no event be less than one-half (½) of the aforesaid cash payment offered for the lease) which shall cover the privilege of deferring drilling operations for a period of one year. Upon like payments annually, drilling operations may be further deferred for successive periods of one year during the primary term of **five years**. The lease shall provide for the giving of offset wells that are necessary to protect the State's interest and shall contain the covenant against the assignment or sublease of the lease unless approved by the State Mineral Board. The lessee shall have the right to enter into pooling or unitization agreements with respect to development of the leased premises upon the approval of the State Mineral Board.

Certified check, cashier's check or bank money order payable to the OFFICE OF MINERAL RESOURCES in the full amount of the aforesaid cash payment, shall accompany and be submitted with each bid, and no bid thus submitted will be entertained or considered unless such bid be thereupon tendered. The certified check, cashier's check or bank money order advertising the bid of the successful bidder shall be immediately negotiated by the Office of Mineral Resources, and the proceeds thereof deposited in the manner required by law.

SPECIAL NOTE

By rules promulgated by the Department of Natural Resources under authority of Act 13 of the 1988 first extraordinary session, lessee will be required to pay 100% of the cash payment, bonus, and rental, and royalty on all gas produced and saved or utilized, one-eighth (⅛th) of all gas produced and saved or utilized, one-eighth (⅛th) of all other liquid or gaseous minerals in solution and produced with oil or gas and bonuses on all minerals which are not specifically mentioned herein.

LAKESIDE LACONICS

Our first arrival for the coming year reached Lakeside today. Mr. Guidry from near Jennings. He will put in about 150 acres of rice and will occupy the Hall house. Mr. Barbee moves to the one lately occupied by Cleomare Benoit.

Amous Broussard has moved to Daspit on the Alcee Broussard place located in that neighborhood.

Ducks are quite plentiful at some places in the marshes.

Our school teacher is sure busy these days with Christmas troubles, but the children are sure interested in that coming Christmas tree.
