## Principal's Message

### IS YOUR SCHOOL WORK A DRUDGERY, A DUTY, OR A DELIGHT?

If one takes the attitude that he comes to school only because he is forced to and studies only to keep out of trouble at home and at school, then his pursuit of an education is pure drudgery.

If he comes to school just because his parents want him to attend school and studies just to please his parents and teachers, then he is working only for duty's sake.

On the other hand, if he comes to school with the idea in his mind that it is fun to be associated with fellow students as he explores the realms of formal education, his school days can be a delight. His duties of scholarship will be much easier if he realizes that each day that he attends school and studies will get him a bigger pay check when he is employed. He will have a life, and a desire to read a better class of literature.

Happiness comes from within. It originates in the human mind.

Anyone who uses his schooling to further his Christian education will become a better and happier individual.

If the above reasoning is kept in mind, attending school ceases to be a drudgery, or a form of duty, and becomes a delight, a joy to which one may look forward.
