## A JOB IS WAITING...

**K**EEPING America strong and free is a big job. A job requiring constant progress and more electrical power. Most of this will come from investor-owned electric companies, like Gulf States.

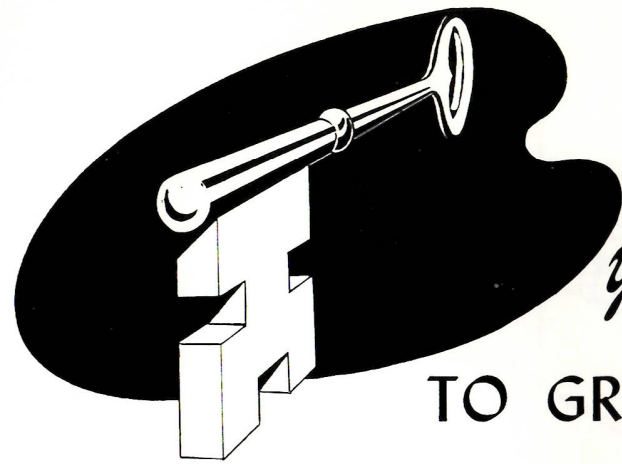

It's your job, too. Education holds the key to our success as individuals, as a nation. Learn all you can... our future is at stake.

**G S U**

Brutus!?!?

That's the 3rd time today,  
Boys

Lucy, you've changed

You're asking for it, Chester!

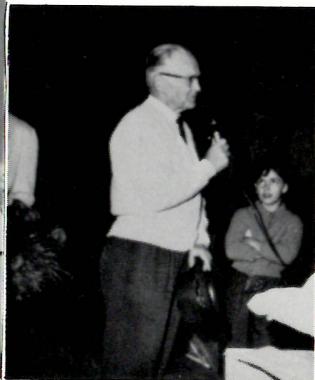

Ain't I  
good-looking

Me too?!

Tain't I tute

Please don't cry

Where's my  
Robert L.?

## Principal's 1965 Message

This book sheds light on school life at Hackberry High School and will be treasured by all.

I am proud and appreciative of the talent and hard work of those who have made this year's annual a reality.

It is my hope and prayer that everyone at Hackberry High School will do his very best to develop himself to the fullest--physically, mentally, socially, and spiritually and to develop as a motto for life--my own self, at my very best, all of the time.

It is a pleasure to be associated with everyone at Hackberry High School this year and I look forward to the school year of 1965-66.

I leave with you a prayer for youth.

Teach me, my God, to live with pain, to see the sun beyond the rain, to bear the toil with iron will, to face the world with courage still. Not that I ask for special care. Send me the trials that I should bear. I only ask lest others fall, that they see how to stand up tall.

# ADMINISTRATION

## Foreword

We the Annual Staff of Hackberry High School proudly announce our 1965 Round-Up.

We hope to bring a little light into your home, and a few moments of joy will make all of the work worth while.

As you look through our book, we hope, that each page will light up a portion of the feeling within you, until your heart is completely aglow - with the memories of H.H.S.

Wanda and Kenny  
Co-editors

## Dedication

Mr. Daniel Weekley has an infinite belief in the youth of Hackberry High School. This belief is perpetuated through his math, science classes and his student guidance program.

In his math, science classes he does not try to impart his own opinion to the students, he kindles in the minds of his students an eager desire to rediscover the past and conquer the future. The satisfaction that he finds in his profession, his sincere interest in his chosen field, and his broad knowledge of that field further adds to his value as a molder of young minds.

As counselor he teaches his students sportsmanship and the importance of knowledge by living it. The values he teaches are as useful now as they will be in later life. The true worth of knowledge lies in the principles of learning which may become guidelines for living.

William James said . . . "Believe that life is worth living, and your belief will help create the fact."

Mr. Weekley lives his belief.
