Now and Then

*Howard Romero
Principal*

I would like to take this opportunity to thank everyone for making this year a very enjoyable and prosperous school term. Without the support of the teachers, students, and parents our road to success would have been much harder. I know that we have had some problems, but as a wise man once told me, "If you don't have any problems, then you are not doing anything." Problems have been very few, and enjoyable situations have been numerous. I believe we have a very fine school system built up around a very active student body which rates in my mind next to none. If this year is any indication, we will have many prosperous years if we can maintain the quality of teachers and education we have today. But we can only be as effective as the people (community) will help us be. We need your support in all school-related activities in order to maintain the system we presently enjoy. Last, I would like to thank the 1978 seniors and their sponsor for working so hard to put the **REBEL** together. I have enjoyed being your principal, and I wish you the best of luck in everything you do.
